CALL 1 OF 611

## Inbound call from GUSTIN KELVIN

May 07, 2026 | 09:29 PM | Duration: 0m 56s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Negative

### AI SUMMARY

Gustin Kelvin raised a concern about a missing work order for the ECHO for the SEALS, which Derrick Dea (Parts) addressed by suggesting they have John reopen it with the confirmed order number 803-526, leading to a brief but frustrated exchange before concluding the call.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:02]

Parts, Derrick.

**Derrick Dea** [00:05]

Yeah.

**GUSTIN KELVIN** [00:07]

What happened to the work order for the ECHO for the SEALS? It's gone again.

**Derrick Dea** [00:11]

Well, I don't know.

**GUSTIN KELVIN** [00:13]

What the \*\*\*\*?

**Derrick Dea** [00:17]

Guess you can have John reopen it.

**GUSTIN KELVIN** [00:21]

Do you remember what the work order was?

**Derrick Dea** [00:23]

Yeah.

**Derrick Dea** [00:26]

I'll have him reopen it.

**Derrick Dea** [00:29]

803-526. I'll have him reopen it.

**Derrick Dea** [00:33]

Yep, 803. Yep, 803-526.

**GUSTIN KELVIN** [00:35]  
803-526. I'll call him right now.

**GUSTIN KELVIN** [00:44]  
Thank you, sir. Bye. Have a good evening.

**Derrick Dea** [00:44]  
Yep, bye.

CALL 2 OF 611

**Inbound call from GUSTIN KELVIN**

May 07, 2026 | 09:12 PM | Duration: 1m 53s | From: GUSTIN KELVIN | To: +14025942051

**Inbound**      **Neutral**

**AI SUMMARY**

The conversation involved Derrick Dea discussing the shipping of a brake kit with Gustin Kelvin, who expressed concerns about the timing of the delivery, especially since he would not be available on Monday.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]  
This call is being recorded for quality assurance.

**Derrick Dea** [00:02]  
I sent you a picture off dealing with what it looks like.

**GUSTIN KELVIN** [00:07]  
Hang on, I'm driving down the road. Let me look.

**Derrick Dea** [00:08]  
It's a brake kit. Goes on the shaft of the drive motor.

**Derrick Dea** [00:19]  
I emailed it to you.

**GUSTIN KELVIN** [00:19]  
You sent it on Outlook? Is that what you sent it in?

**GUSTIN KELVIN** [00:26]  
Well, let's see what we got here, Derrick.

**GUSTIN KELVIN** [00:32]  
I don't know. I can't even open the \*\*\*\* thing. Why would it open?

**GUSTIN KELVIN** [00:42]  
You know, that's something from Jody.

**Derrick Dea** [00:42]  
Yep. Mm-hmm.

**GUSTIN KELVIN** [00:45]  
Dealer net. Suppose that's it?

**GUSTIN KELVIN** [00:54]

That looks like the brake assembly,

**GUSTIN KELVIN** [00:59]

buddy. That looks like it. It sure does.

**Derrick Dea** [01:01]

Yep. Alrighty, it's got to come from California or Dallas, so I don't know, we'll see. Yeah.

**GUSTIN KELVIN** [01:07]

Oh, you mean they have it in stock but you don't know if it will get here tomorrow?

**GUSTIN KELVIN** [01:13]

Well,

**GUSTIN KELVIN** [01:15]

if it does, it does. Ain't much I can do, right? We can have it for Monday if not, right?

**Derrick Dea** [01:17]

Alright, alrighty. Yep. Yep. Alrighty. Bye.

**GUSTIN KELVIN** [01:23]

Well, there's always Monday. Oh, you know what? I won't be here Monday.

**GUSTIN KELVIN** [01:29]

Dang it. I forgot about that.

**GUSTIN KELVIN** [01:33]

Oh, well, I guess we'll do it Tuesday.

**GUSTIN KELVIN** [01:38]

Okay, thank you, sir. Bye.

---

CALL 3 OF 611

## Inbound call from GUSTIN KELVIN

May 07, 2026 | 09:02 PM | Duration: 1m 34s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Neutral

### AI SUMMARY

In the conversation, Gustin Kelvin inquired about work order 805-659, specifically needing a brake coil for a joystick system, while Derrick Dea confirmed the details and noted a discrepancy in the work order segments.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:02]

All right.

**GUSTIN KELVIN** [00:05]

Derrick, how's it going?

**GUSTIN KELVIN** [00:09]

I'm being recorded for quality assurance.

**Derrick Dea** [00:09]

Yep.

**GUSTIN KELVIN** [00:14]

I've got this Ramone.

**GUSTIN KELVIN** [00:17]

Let me get my work order here for you.

**GUSTIN KELVIN** [00:21]

Looks like it's 805-659.

**Derrick Dea** [00:31]

Okay.

**GUSTIN KELVIN** [00:33]

So that Raymond with the joystick, remember we put the joystick in it? What's there?

**Derrick Dea** [00:37]

Mm-hmm.

**GUSTIN KELVIN** [00:39]

I need that drive motor brake coil

**GUSTIN KELVIN** [00:46]

ordered for it if I could.

**GUSTIN KELVIN** [00:51]

I'd like to get it as soon as I can, they said, but kind of late in the day. I don't know if you can get it yet today or not.

**Derrick Dea** [00:53]

Okay. Okay.

**Derrick Dea** [00:59]

Yep. Yep. Yeah. Yeah. Okay.

**GUSTIN KELVIN** [00:59]

Okay? That is the right steel kit, man.

**GUSTIN KELVIN** [01:03]

And I know why it was closed because there should have been a segment too for the lift cylinder and it's not. There's just one segment for the valve and not for the cylinder and the valve's been done. Sorry, I'll work on that. See if I can't keep my work order straight.

**Derrick Dea** [01:21]

All right. Yep. Bye.

---

CALL 4 OF 611

## Inbound call from WIRELESS CALLER

May 07, 2026 | 08:43 PM | Duration: 10m 50s | From: WIRELESS CALLER | To: +13088337146

Inbound

Neutral

### AI SUMMARY

Jake (Customer, Caller) reached out regarding an ECM issue affecting a piece of machinery that had been operational for years.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for Quality Assurance.

**Todd Babka** [00:04]

Or it's just odd. You working on this piece of \*\*\*\*?

**WIRELESS CALLER** [00:05]

Hey, it's Jake.

**WIRELESS CALLER** [00:09]

Yeah.

**Todd Babka** [00:10]

Well, guess what? That's not the right one and you're probably going to lose your core.

**WIRELESS CALLER** [00:14]

That's fun. So how this thing's been running for years. I mean, from what they told me, I kind of got thrown into it because, you know, hey, you worked on Kitts.

**Todd Babka** [00:18]

So...

**Todd Babka** [00:20]

Well...

**Todd Babka** [00:27]

I can get you what's in it, but that's not what's for it. So...

**WIRELESS CALLER** [00:32]

That just doesn't make sense why that thing would be running for as long as it did, which I don't know.

**Todd Babka** [00:36]

That is...

**WIRELESS CALLER** [00:38]

P5000, what is that, early 2000s?

**Todd Babka** [00:42]

That says an 07.

**Todd Babka** [00:45]

Well, because that is actually for a...

**Todd Babka** [00:53]

The best I can tell.

**Todd Babka** [00:55]

I can tell you it's for a C3000 to C4000. I can tell you that much.

**WIRELESS CALLER** [01:03]

What the \*\*\*\*?

**Todd Babka** [01:04]

Yeah.

**WIRELESS CALLER** [01:06]

Did you guys ever work on it?

**Todd Babka** [01:06]

I have no clue. Didn't look at

**WIRELESS CALLER** [01:10]

I mean, you guys wouldn't put the wrong ECM in it.

**Todd Babka** [01:13]

that. Well...

**Todd Babka** [01:50]

I gotta finish up a...

**Todd Babka** [01:52]

Email and get it the \*\*\*\* out of the way before I...

**Todd Babka** [01:59]

Oh,

**Todd Babka** [02:07]

Jesus.

**Todd Babka** [02:13]

Okay.

**Todd Babka** [02:19]

Okay.

**Todd Babka** [02:31]

Okay, because a 2NCNN, which is what's on that ECM, is for a C-3000, 3500, and 4000. C-C 4000 is a compact.

**Todd Babka** [02:48]

With a K-21 engine in it.

**WIRELESS CALLER** [02:53]

SO IT'S NOT EVEN THE SAME FREAKING ENGINE.

**Todd Babka** [02:57]

So, no, it's a smaller engine. Somewhere in its life, because that thing was originally sold in Florida.

**WIRELESS CALLER** [03:00]

RIGHT, BECAUSE AREN'T THE

**WIRELESS CALLER** [03:04]

-- OH.

**Todd Babka** [03:05]

So, let me go find the serial number here. Well, I'm

**WIRELESS CALLER** [03:11]

MAYBE IT'S SOMEONE OVER THERE JUST FREAKING -- HEY, WE NEED AN ECM.

**Todd Babka** [03:15]

guessing that

**Todd Babka** [03:19]

somebody down the line

**Todd Babka** [03:24]

threw one in it.

**Todd Babka** [03:28]

Because I'm sure this came through.

**Todd Babka** [03:33]

Looks like we've worked on it once.

**WIRELESS CALLER** [03:41]

WHAT WOULD YOU GUYS DO TO IT? JUST PM OR

**Todd Babka** [03:45]

Says repair throttle body but there's no parts.

**WIRELESS CALLER** [03:49]

-- OH, SOMEONE JUST CLEANED IT OUT.

**WIRELESS CALLER** [03:56]

Yeah, someone probably down the line freaking just needed ECM freaking got one somewhere and well, \*\*\*\* it runs.

**Todd Babka** [04:03]

Throttle body is not fine. Checked all the wiring and all the connections.

**Todd Babka** [04:09]

Not finding a bad connection to the throttle body but there are several repairs in the wire loom and the ECM plug is damaged.

**WIRELESS CALLER** [04:18]

Yeah, it is.

**Todd Babka** [04:19]

After checking the connections I pulled the air horn off the throttle body and found that the throttle plate was not moving. I cycled the key while lightly touching the plate and it grabbed and started working. I put the machine back together and cleared the code. Operating machine is working okay. We left it

**Todd Babka** [04:44]

At that the throttle body may be going out and the wire loom has some problems.

**Todd Babka** [04:50]

Who worked on this?

**Todd Babka** [05:01]

I'm guessing Randy.

**Todd Babka** [05:03]

Oh, Scott McCann.

**Todd Babka** [05:06]

That was way before you.

**WIRELESS CALLER** [05:09]

Oh, yeah.

**Todd Babka** [05:10]

So,

**WIRELESS CALLER** [05:14]

Well,

**Todd Babka** [05:18]

I mean, it's not that big of a deal. I can just tell you what's in it. It's not correct, but it's running.

**WIRELESS CALLER** [05:23]

right.

**WIRELESS CALLER** [05:26]

Right. I think that's strange, you know, you know that little short harness that goes down to the cam and crank sensor?

The, you know, I was checking that because it doesn't have any spark and just left it unplugged. Well, let me see if it freaking throws a code with them unplugged. Freaking try cranking it, turning it on. Obviously, it's not a start, but \*\*\*\*\* no code shows up, nothing.

**WIRELESS CALLER** [05:47]

So it's like, okay, well, ECM's probably \*\*\*\*\*, but that would make sense. I mean, maybe if it's the wrong ECM, it just wouldn't throw \*\*\*\*. I don't know. I mean, they had a code on it before. I just freaking cleared it.

**Todd Babka** [06:01]

So, I don't know, but...

**WIRELESS CALLER** [06:02]

I don't know. Let me talk to Dave and see what he wants to do. But

**Todd Babka** [06:07]

Alright, because I'm sure this probably came through at one time, wherever, because I don't even know if we sold, well, we must not have sold it to them.

**Todd Babka** [06:18]

Because there's only, you know...

**Todd Babka** [06:22]

I guess I can't say that because we might have worked on it and sold it before 2014.

**Todd Babka** [06:30]

So, but we've only worked on it once since 2014.

**WIRELESS CALLER** [06:34]

I gotcha. Okay. Well, all right. Yeah.

**Todd Babka** [06:37]

So we haven't been doing \*\*\*\* to it. But coming from down there, it probably came through a wholesaler and who knows, a wholesaler could have freaking scabbed it, just get rid of it.

**WIRELESS CALLER** [06:40]

Yeah, I don't even know how much.

**WIRELESS CALLER** [06:49]

Yeah, probably.

**Todd Babka** [06:50]

So...

**WIRELESS CALLER** [06:51]

Oh, \*\*\*\*, this looks the same.

**Todd Babka** [06:53]

Yeah, and it works. Evidently, it's worked for a long time. So, that... I mean, I don't know. I guess I could call somebody and ask them if this is going to be...

**WIRELESS CALLER** [06:56]

Apparently.

**WIRELESS CALLER** [07:02]

Those things come...

**Todd Babka** [07:07]

Right, because you can't buy a new one anymore. You've got to buy a Rhe-Man. Rhe-Man

**WIRELESS CALLER** [07:11]

Right. How much of those go for?

**Todd Babka** [07:12]

control mod.

**Todd Babka** [07:14]

Let's see here, because I think...

**Todd Babka** [07:23]

So I think I put on the quote here that I

**Todd Babka** [07:34]

started. That's not the one I've got

**WIRELESS CALLER** [07:35]

Thank you.

**Todd Babka** [07:53]

going. I think I went off of what it should have

**Todd Babka** [07:57]

instead of...

**Todd Babka** [08:04]

Oh wait, maybe I went off what you

**Todd Babka** [08:07]

have. No.

**WIRELESS CALLER** [08:20]

Of course.

**Todd Babka** [08:34]

Oh great. I suppose dealer net's down now.

**WIRELESS CALLER** [08:40]

Right when you need it.

**WIRELESS CALLER** [08:49]

Okay.

**Todd Babka** [09:03]

Uh, let's see. Are we both the same?

**Todd Babka** [09:16]

This one's actually a little bit cheaper than what's supposed to be in it.

**Todd Babka** [09:22]

\$822.59 exchanged.

**WIRELESS CALLER** [09:23]

That ain't

**WIRELESS CALLER** [09:27]

that bad?

**Todd Babka** [09:29]

So, and that is for the \$21.00.

**WIRELESS CALLER** [09:30]

Oh,

**WIRELESS CALLER** [09:35]

that's for the one that's in it. Okay.

**Todd Babka** [09:36]

So, yep.

**Todd Babka** [09:40]

So, but let me call

**Todd Babka** [09:44]

Michael and see if he knows if it matters.

**Todd Babka** [09:51]

So, because I mean, the \*\*\*\*\* thing's been running, so I don't know why it would matter. But why the \*\*\*\* is there different ones then?

**WIRELESS CALLER** [09:57]

I don't know why either. I mean,

**WIRELESS CALLER** [10:04]

more money.

**Todd Babka** [10:06]

Yeah, probably. More than likely so. But let me call and see and see if anything, it'll probably be tomorrow, so I'm going to go home.

**WIRELESS CALLER** [10:09]

More than likely.

**WIRELESS CALLER** [10:17]

That's fine. I'll be in class tomorrow, so just send a, be on an email or something or Dave, whoever.

**Todd Babka** [10:25]

Alright. We'll...

**WIRELESS CALLER** [10:26]

I'll fill out one of what she told me. Alrighty,

**Todd Babka** [10:28]

Okay. We'll do.

**WIRELESS CALLER** [10:31]

thanks man.

**Todd Babka** [10:32]

Alright. Yep. Have a good evening. Alright. Thanks, Jake. Bye-bye.

**WIRELESS CALLER** [10:34]

Yep, you too. Bye.

---

CALL 5 OF 611

## Inbound call from WIRELESS CALLER

### AI SUMMARY

Miguel reached out to Forrest seeking assistance with a pricing request from Rikers for a camshaft sensor, which Forrest was already addressing.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**WIRELESS CALLER** [00:07]

Hey, bossman.

**Forrest Hudspeth** [00:10]

Hello? Give me just a second. I got something going on with my phone here. Can you hear me?

**WIRELESS CALLER** [00:14]

Yes, sir.

**Forrest Hudspeth** [00:15]

Oh, I don't know what the deal was. It says pause over the front of my screen. I've never had that happen before.

**WIRELESS CALLER** [00:21]

It's all good. It's all good. I need a favor from you. I have someone from Rikers that wants some price and availability on an item. I've got the unit information, everything, or the part information.

**Forrest Hudspeth** [00:22]

I don't know what that means.

**Forrest Hudspeth** [00:28]

All right. What do you got?

**Forrest Hudspeth** [00:38]

Is it

**Forrest Hudspeth** [00:41]

a camshaft sensor?

**WIRELESS CALLER** [00:43]

It is yes.

**Forrest Hudspeth** [00:46]

A Joyce Maldondo? Is that her name?

**WIRELESS CALLER** [00:49]

Yep, yes sir.

**Forrest Hudspeth** [00:50]

Okay, yep, I am actually working on that right now.

**WIRELESS CALLER** [00:54]

Man, you're the man. Did Nick send it to you? Okay.

**Forrest Hudspeth** [00:56]

Yep, she just emailed me too.

**Forrest Hudspeth** [01:02]

Yeah, no, I'm just about to get back with her. I just punched it in and I'll give her a holler and let her know.

**WIRELESS CALLER** [01:09]

Thank you. I appreciate it, bossman.

**Forrest Hudspeth** [01:12]

All right, no problem. Thanks, Miguel.

**WIRELESS CALLER** [01:13]

Thank you, sir. Yes, sir. Okay. Okay, bye.

**Forrest Hudspeth** [01:15]

Yep, yep, we'll see you. Bye.

## Inbound call from JERRETT KYLE

### AI SUMMARY

Cindy Cooper from Ryan Equipment reached out to Jerrett Kyle regarding a delivery issue, confirming a new shipment while Jerrett noted he would verify the installation details and check for missing items.

### FULL TRANSCRIPT

**JERRETT KYLE** [00:00]

This call is being recorded for quality assurance.

**Cindy Cooper** [00:03]

Ryan Equipment, this is Cindy.

**JERRETT KYLE** [00:05]

Hey, Cindy, I see you called. Sorry I missed you.

**Cindy Cooper** [00:07]

Yeah, no, that's okay. I looked on the system here and they're still showing that they did not deliver the other one. So check to make sure you did get the other set.

**JERRETT KYLE** [00:18]

Okay. I'll,

**Cindy Cooper** [00:19]

The one that you got today was the new one that I next day aired to you.

**JERRETT KYLE** [00:24]

uh, okay, yeah, we installed the seatbelt, I think it was on Monday or Tuesday.

**Cindy Cooper** [00:29]

Yeah, okay.

**JERRETT KYLE** [00:30]

And, uh, the seal kept sitting on my table, but I'll look through a few things in the morning just to confirm everything. So I don't know what the, why they're giving you the runaround like that,

**Cindy Cooper** [00:37]

Okay.

**Cindy Cooper** [00:40]

Well, yeah, yeah, because it says, which is fine. I mean, if they want to give us a new credit, that's fine with us. But, yeah, they're saying that it's been delayed.

**JERRETT KYLE** [00:48]

but, yep. Okay.

**JERRETT KYLE** [00:52]

That's crazy. I'll do some chucking around just to be sure because I was just going by what my warehouse guy was telling me.

**Cindy Cooper** [00:55]

So, yeah.

**Cindy Cooper** [01:01]

Okay, yeah. But I'll be gone tomorrow, so you can just send me a text or a message on email or something if you want.

**JERRETT KYLE** [01:08]

Okay. Sounds good.

**Cindy Cooper** [01:09]

OK? OK, Kyle. You too. Bye-bye.

**JERRETT KYLE** [01:11]

Have a good weekend.

### AI SUMMARY

Phil from Borleys reached out to Todd Babka to request an engine oil cap for their V150 equipment after noticing it was missing.

### FULL TRANSCRIPT

**HASTINGS NE** [00:00]

This call is being recorded for quality assurance.

**Todd Babka** [00:03]

Parts is tied.

**HASTINGS NE** [00:06]

Todd, Phil with Borleys here. It's a wonderful day. It's a wonderful day, ain't it?

**Todd Babka** [00:08]

What's up, Phil?

**Todd Babka** [00:12]

Yeah.

**HASTINGS NE** [00:13]

Actually, this is our Friday, so we don't have to work tomorrow if we don't want to. So, we get three-day weekends. They went to 10-hour days, you know, but I'm trying to sneak out early.

**Todd Babka** [00:19]

Awesome. Well, good for you.

**Todd Babka** [00:27]

Nice.

**HASTINGS NE** [00:29]

Yeah, I walked up to that big yellow cat of ours today, that V, what is it, a V150, that great big one, that 1500. Yeah, Randy says it's a Perkins engine in

**Todd Babka** [00:29]

Sweet.

**Todd Babka** [00:38]

I believe so.

**Todd Babka** [00:45]

Uh-huh. Okay.

**HASTINGS NE** [00:45]

it. When I walked up to it, I noticed oil up by the front side of the hood.

**HASTINGS NE** [00:51]

And when I opened up the hood, I noticed the oil cap is gone off the engine.

**Todd Babka** [00:55]

Oh, well that's no good.

**HASTINGS NE** [00:57]

Can you order me one of them?

**Todd Babka** [00:59]

Sure, no problem. Engine oil cap. Okay. I can get her coming. I'll give you a call when it comes in.

**HASTINGS NE** [01:02]

Okay.

**HASTINGS NE** [01:12]

Okay, I appreciate her. You have a good week. Take care. Yep, thank you.

**Todd Babka** [01:13]

Not a problem. You too. Have a good weekend. We'll see you, Phil. Thank you. Bye-bye.

**HASTINGS NE** [01:20]

Bye. Yep, thanks. Bye.

CALL 9 OF 611

## Inbound call from GUSTIN KELVIN

May 07, 2026 | 07:49 PM | Duration: 0m 48s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Neutral

### AI SUMMARY

Gustin and Derrick discussed a cylinder with a number on it, but Derrick could not read the number. Derrick mentioned he would look at the cylinder in the shop.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:02]

All right, it's Derrick.

**GUSTIN KELVIN** [00:04]

Derrick, how's it going? Hey, you got a minute. I got this Princeton cylinder out here that you got the three seal kits for. I got a number here on the cylinder. I don't know which one you want. One of them I can't read.

**Derrick Dea** [00:06]

All right.

**Derrick Dea** [00:13]

Mm-hmm.

**Derrick Dea** [00:17]

Okay. 75P something.

**GUSTIN KELVIN** [00:24]

I don't see that. I see a B3 Whiskey 3314.

**Derrick Dea** [00:29]

Okay.

**Derrick Dea** [00:34]

All right. Bye.

**GUSTIN KELVIN** [00:35]

Come on out here and look at it. We're out here in the shop. Bye.

CALL 10 OF 611

## Inbound call from B SIX RACING

May 07, 2026 | 07:43 PM | Duration: 1m 0s | From: B SIX RACING | To: +15152995626

Inbound

Positive

### AI SUMMARY

Jason Moon from Lumber Specialties called Shelby Lathrum at Rion Equipment to confirm the approval of a quote for injectors and arrange for scheduling the work after receiving instructions to send a confirmation email.

### FULL TRANSCRIPT

**B SIX RACING** [00:00]

This call is being recorded for quality assurance.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**B SIX RACING** [00:05]

Hey, is this Shelby? Okay, this is Jason Moon from Lumber Specialties. I've given you a call this morning that quote you sent me for the injectors and everything. That got approved, so whenever you guys want to schedule it out to have done.

**Shelby Lathrum** [00:08]

This is she.

**Shelby Lathrum** [00:21]

Yes,

**Shelby Lathrum** [00:25]

sir. Okay.

**Shelby Lathrum** [00:28]

Okay. Due to the monetary amount, can you reply back to that email and just say approved, good to go, something like that? Okay. Perfect. And we'll get some parts coming. All right. Thank you, sir.

**B SIX RACING** [00:36]

Yes, I can. Let's see.

**B SIX RACING** [00:41]

All right, sounds good. Thank you. Bye.

**Shelby Lathrum** [00:45]

Yip.

## Inbound call from INGERSOLL

May 07, 2026 | 07:39 PM | Duration: 1m 20s | From: INGERSOLL | To: +13088337146

Inbound

Positive

### AI SUMMARY

The conversation involved INGERSOLL requesting filters and oil for the GP30 and GP25 models, with Todd Babka confirming the details and agreeing to send a quote.

### FULL TRANSCRIPT

**INGERSOLL** [00:00]

This call is being recorded for quality assurance.

**INGERSOLL** [00:02]

Hello, sir. How are you doing today? I'm doing all right. Hey, I need GP30 in. I need two air filters and two oil filters. And what oil do they take?

**Todd Babka** [00:04]

Parts, Todd.

**Todd Babka** [00:07]

Hello. Fine, and you?

**Todd Babka** [00:11]

Well, good.

**Todd Babka** [00:17]

Okay.

**Todd Babka** [00:29]

Okay. Just 10W30? Yep. Four? Yep.

**INGERSOLL** [00:31]

10W30, how many quarts?

**INGERSOLL** [00:35]

Four, okay. Would that be the same for the GP25s? Okay. I need everything? Okay, so then I need five of everything. Five oil filters, five air filters.

**Todd Babka** [00:40]

Correct. Everything would be?

**Todd Babka** [00:46]

Yep.

**Todd Babka** [00:51]

Okay. Five will, five air. Okay. You just want me to send you a quote?

**INGERSOLL** [00:56]

And then...

**INGERSOLL** [01:00]

Yep, and then I'll get you a PO. Okay, thank you. Yep, bye.

**Todd Babka** [01:01]

Okay. I will send her over here to Shorelike.

**Todd Babka** [01:05]  
All right. Thanks, Zach. Bye-bye.

CALL 12 OF 611

**Inbound call from WIRELESS CALLER**

May 07, 2026 | 07:03 PM | Duration: 4m 0s | From: WIRELESS CALLER | To: +15152995626

**Inbound**      **Neutral**

**AI SUMMARY**

Mike called Adam Henderson (Support Staff, Ryan Equipment) to discuss issues with his truck's new tires, which he described as unstable.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded for quality assurance.

**Adam Henderson** [00:04]  
Ryan Equipment, this is Adam. How can I help you?

**WIRELESS CALLER** [00:08]  
So I call you and she answers. I call her and you answer. A

**WIRELESS CALLER** [00:18]  
couple of things. Got my truck picked up. I'm out down here at Eddieville. This thing is like squirrely. Squirrely, squirrely.

**Adam Henderson** [00:29]  
What is it?

**WIRELESS CALLER** [00:31]  
My truck.

**Adam Henderson** [00:32]  
Really?

**WIRELESS CALLER** [00:33]  
Yeah. So I checked all tire pressures. There's one that's at 110. I'll air it up to 120, but man, I've never had new tires be this squirrely before.

**Adam Henderson** [00:47]  
What's the weight rating on them?

**WIRELESS CALLER** [00:54]  
Low range G,

**WIRELESS CALLER** [00:59]  
max load,

**WIRELESS CALLER** [01:03]  
dual, 3750 pounds.

**Adam Henderson** [01:07]  
Yeah, it should have like a 128 or...

**Adam Henderson** [01:17]

Yeah, so they're weight rated correctly.

**WIRELESS CALLER** [01:24]

128-126N, 14 plies. Yeah. And then, these tires were made the 48th week of 25.

**Adam Henderson** [01:24]

Huh. Well, let them break in a little bit.

**WIRELESS CALLER** [01:37]

So, yeah.

**Adam Henderson** [01:39]

So they're almost a year old.

**Adam Henderson** [01:43]

How many weeks?

**WIRELESS CALLER** [01:44]

Now, 48th, that'd be like October.

**Adam Henderson** [01:46]

Oh.

**Adam Henderson** [01:48]

Six months old, man.

**WIRELESS CALLER** [01:50]

It was only 52 weeks in a year. It'd be like November.

**WIRELESS CALLER** [02:01]

The reason I called, did I send all of the BSM warranty pictures over?

**Adam Henderson** [02:08]

Pretty sure.

**WIRELESS CALLER** [02:09]

Did I send six or is there more that I need to send? Or did I send six or how many did I send?

**Adam Henderson** [02:17]

Let me pull my email up here. I'm in a meeting.

**WIRELESS CALLER** [02:21]

Oh, sorry.

**Adam Henderson** [02:22]

You're good. I just gotta find it.

**WIRELESS CALLER** [02:30]

I just seen that master cylinder in there and I'm like, I wonder if I forgot to send pictures.

**Adam Henderson** [02:36]

One, two, three, four, five, six.

**WIRELESS CALLER** [02:39]

All right, I got to send more. So I'll do that.

**Adam Henderson** [02:43]

Okay, sounds good.

**WIRELESS CALLER** [02:43]

All right. Yeah, I've got this done. Is there anything else down here that needs done that's quick?

**Adam Henderson** [02:50]

You can just go around all the shuttle wagon guys and see if there's anything they need.

**WIRELESS CALLER** [02:57]

Okay.

**Adam Henderson** [02:58]

I can't think of anything that needs looked at anyway. Let me... Cargill.

**WIRELESS CALLER** [03:01]

Yeah, I know Kyle's got that.

**WIRELESS CALLER** [03:06]

Accumulator he was talking about maybe coming down tomorrow and doing, I don't know.

**Adam Henderson** [03:10]

Yeah, Logan's got some like forklift stuff but it's

**Adam Henderson** [03:15]

parts he has here.

**WIRELESS CALLER** [03:19]

Okay. Stopped by Pellicorp and picked up the mirrors on my way back to Oski.

**WIRELESS CALLER** [03:26]

So, we've got them, we'll return them.

**Adam Henderson** [03:31]

Okay. Yep. Sounds good.

**WIRELESS CALLER** [03:33]

Alright, I'll do some driving around down here and we'll go from there.

**Adam Henderson** [03:33]

Okay.

**Adam Henderson** [03:38]

Sounds good. Thanks, Mike.

**WIRELESS CALLER** [03:40]

Alright, bye.

---

CALL 13 OF 611

## Inbound call from OMAHA NE

May 07, 2026 | 07:02 PM | Duration: 24m 8s | From: OMAHA NE | To: +14026440781

Inbound

Positive

### AI SUMMARY

The conversation began with Rodney Meier (Sales rep) and the customer discussing the operational status of the customer's plant, which had recently shut down, leading to a backlog.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded for Quality Assurance.

**Rodney Meier** [00:02]

Hey, Dan.

**OMAHA NE** [00:04]

Hi, Rod. How's it going?

**Rodney Meier** [00:06]

Oh, it's going great. How about you?

**OMAHA NE** [00:08]

Yeah. Well, good thing is the plant's half shut down, so nobody's jumping at my bit. So apparently loadout is behind or something, and they sent everybody home, or a lot of people home at 1030 this morning.

**Rodney Meier** [00:13]

Oh,

**Rodney Meier** [00:22]

sure, sure. Well, they probably aren't going to work tomorrow then, will they?

**OMAHA NE** [00:26]

So I have no idea. Who knows? They \*\*\*\*\* worked last Saturday.

**Rodney Meier** [00:29]

Yeah.

**Rodney Meier** [00:32]

Yep. Yeah, whatever the demand is. Yep. Friday afternoon at 3 o'clock. Be here tomorrow.

**OMAHA NE** [00:33]

Yeah, and didn't tell anybody until... Yep, yep. So...

**Rodney Meier** [00:40]

That's kind of the way they work. Yep, kind of the way they work. What can we do for you?

**OMAHA NE** [00:40]

Yeah, yeah, exactly, exactly.

**OMAHA NE** [00:45]

OK, a couple questions. On this forklift I'm on, which is that two ET4000 that I ordered a seat belt for, or we got a seat belt for, the seat belt that come in, the 51108905, doesn't have an electric connection on it.

**Rodney Meier** [00:57]

Okay.

**Rodney Meier** [01:06]

Hmm. That's the one it calls for too.

**OMAHA NE** [01:07]

It doesn't have the switch.

**OMAHA NE** [01:12]

Now this one has a switch on it. And I had another box that Dustin had here that had a new one. So I used it. And then even the bad thing on that one is that one had a short little wire where I needed one that was probably 20 inches long. So I just spliced it.

**Rodney Meier** [01:28]

Yeah. Yeah, I think the one that you probably found ended in 7100 if I remember right because you used to order a lot of those.

**Rodney Meier** [01:42]

Okay. Let me get to the service call here.

**OMAHA NE** [01:47]

76-63. And I'm sorry, I don't have that one for you either. I mean, okay.

**Rodney Meier** [01:49]

Sorry. Nope. I got them all right here. Not a problem.

**OMAHA NE** [01:53]

Yeah, because he's got like two of them or three of them that he used the buckle out of but not the roller out of. And they're all the 76-63s. And that's the one. I had one here that had that little...

**Rodney Meier** [01:58]

Right. Right. Yep. Yep.

**OMAHA NE** [02:06]

It had a little probably three inch long, four inch long pigtail on it that plugged in. Same plug and everything. It's just it was too short. So I used that one and it spliced the wires on. But I'm going to have to order another at least one or two of those.

**Rodney Meier** [02:22]

Sure.

**OMAHA NE** [02:24]

But that \$8905 that I got, it was open anyway. I mean, the bag was torn open.

**OMAHA NE** [02:31]

Whatever else, but like I said, it does not have a switch on it.

**Rodney Meier** [02:35]

Yeah, I see that. I'm just looking at the picture on MLA.

**Rodney Meier** [02:43]

I'll say, I think I, yeah, I think I looked that one up.

**OMAHA NE** [02:46]

Yeah, I couldn't find it or didn't.

**Rodney Meier** [02:48]

- Nope, no, I think you just had seatbelt and I was ahead of you, I think, I just went ahead and looked. I believe that's what I did.

**OMAHA NE** [02:53]

Oh, okay, okay.

**Rodney Meier** [03:02]

Give me a second here.

**OMAHA NE** [03:11]

And then you saw that one on that backrest. I think I got the right backrest,

**Rodney Meier** [03:16]

Yes, yes, I was surprised they didn't have one in Omaha. Des Moines had it and he just sent me, let me see here,

**Rodney Meier** [03:27]

Yep, it's going out on XPO, so you probably won't see it till maybe Monday. The bolts are coming from Omaha.

**OMAHA NE** [03:33]

which is fine.

**OMAHA NE** [03:37]

Okay, okay. And like I said, I only need two of those, but they lose a lot of them back there, so I needed a couple extras to have.

**Rodney Meier** [03:45]

Yep, nope, that's fine. Not a problem.

**OMAHA NE** [03:46]

And he had a backrest laying in the back here, so I used it, but he said whenever I take one, order one.

**Rodney Meier** [03:53]

Yep, yeah, because what happened before, we used to use them and not charge them for them, and then when they...

**Rodney Meier** [04:00]

When they got their new fleet in, he had to have backrest to put on the ones coming out, and he'd used them all. He went, shit! Yep.

**OMAHA NE** [04:05]

Yep, yep.

**OMAHA NE** [04:09]

And he even said we don't have enough for if they do that again, we do not have enough now. So...

**Rodney Meier** [04:13]

Nope. Nope. I know. I know.

**OMAHA NE** [04:16]

But he said at least replace what you use. And that's, like I said, the first one I used. Luckily, it was kind of a number on it that I could barely see. And then, of course, I went into the wherever to look up the parts, and I found it, and it was the same number.

**OMAHA NE** [04:36]

Actually, he's got two different. He's got a wider one, and then he's got this with a narrower one.

**Rodney Meier** [04:42]

Oh.

**OMAHA NE** [04:45]

I'm getting a little better. Just like that horn button, I actually went home last night after I punched out and did some stuff. I was like, \*\*\*\* it, I'm going to look for that horn tonight. So I actually, you know what I mean? It feels, I don't feel pressured, but it feels like I'm pressured. I'm wasting time when I'm looking for \*\*\*\* down here. And I should be doing something else. And then I get frustrated when I can't see it. I just, I got to.

**Rodney Meier** [04:48]

He'll get there. He'll get there.

**Rodney Meier** [04:55]

Sure.

**Rodney Meier** [05:04]

Right.

**OMAHA NE** [05:09]

I got to realize that I don't have to have this \*\*\*\* done in 10 minutes each.

**Rodney Meier** [05:13]

No, no.

**Rodney Meier** [05:15]

No, you do what you can and that's the way it works.

**OMAHA NE** [05:30]

And then I've seen the bolts and the washers were even superseded. So hopefully I gave you the right numbers on those.

**Rodney Meier** [05:35]

No, you gave me the right ones. He used to give me the old number actually and then it would convert over to the new number automatically. So no, you did fine on that. You did fine on that.

**OMAHA NE** [05:40]

OK, OK.

**Rodney Meier** [05:48]

I punched in seat, and it's all it's giving me is the \*\*\*\*\* seat rails here. I'm trying to think of where I even went.

**OMAHA NE** [06:04]

Yeah, and actually, I think I brought it out here yesterday to do it. Yeah, yesterday morning after our meeting. And Luke was here. We were trying to adjust on that one that we were going to put in there, which now we're not.

**OMAHA NE** [06:17]

They're taking it back and bringing another one on Friday, or a different one on Friday. But I went in and grabbed the box, went and started putting it in. I even looked at the one on the other one sitting here. And the other one that I'm waiting for a battery on actually has that little short little pigtail. So that one would fit on the one sitting there. Well, this one here doesn't have, you know, after I pulled the cover off, it wasn't the same. The latch and everything was the same, but it just, the pigtail was different, so.

**Rodney Meier** [06:17]

Sure.

**Rodney Meier** [06:32]

Oh, sure.

**Rodney Meier** [06:44]

Well, there's the cover.

**OMAHA NE** [06:45]

So then I put, I just, I half-assed put it back together so they could use it. And then I, that's why I figured then I'd have you, you know, put in the deal to order it.

**Rodney Meier** [06:52]

Yep, yep.

**Rodney Meier** [06:57]

Well, what the \*\*\*\*? Oh, here we go. Okay, I got two different seats here, so I wonder.

**Rodney Meier** [07:17]

Okay. This one takes the 8905.

**Rodney Meier** [07:37]

8905.

**Rodney Meier** [07:59]

And they're all giving me the same one.

**Rodney Meier** [08:10]

And they're not showing a pigtail on it.

**OMAHA NE** [08:18]

Now it's got the harness and it's got the, to where you've got to hook it up to drive it. So yeah.

**Rodney Meier** [08:21]

Oh, wait a minute.

**Rodney Meier** [08:26]

I think I might have found it here. Give me a second.

**OMAHA NE** [08:28]

Okay. Nope.

**Rodney Meier** [08:31]

Let's see what this one looks like.

**Rodney Meier** [08:36]

Oh, no, that's just the whole thing.

**Rodney Meier** [08:48]

This one ends in 3602.

**OMAHA NE** [08:57]

Okay.

**Rodney Meier** [09:20]

That's weird. Part number 39.

**Rodney Meier** [09:24]

And let me see if we sold any of these other ones.

**Rodney Meier** [09:36]

I have 138-3602.

**Rodney Meier** [09:47]

Never sold one. That's probably not that one.

**Rodney Meier** [09:54]

In fact, nobody's sold one since 2025.

**Rodney Meier** [10:19]

Boy, everything they're showing us for that 8905 that we sent you.

**Rodney Meier** [10:25]

For that serial number.

**Rodney Meier** [10:33]

Well, \*\*\*\*.

**Rodney Meier** [10:39]

That's not good.

**Rodney Meier** [10:48]

A different option for a different seat maybe. I don't think there is.

**Rodney Meier** [11:01]

No. No options for a different seat.

**Rodney Meier** [11:13]

I don't know what to tell you, Dan. I'm at a loss here.

**OMAHA NE** [11:16]

Well, like I said, I made it work with,

**Rodney Meier** [11:17]

It shows that it looks like a grammar seat, an MSG65.

**Rodney Meier** [11:27]

Let me try something here once.

**OMAHA NE** [11:40]

Yeah, I'm even trying to follow around here looking on Logis Nest next. And I can see the seat, but I don't see

**Rodney Meier** [11:51]

All right, seat belt with switch open circuit.

**Rodney Meier** [11:59]

It's got a black one,

**OMAHA NE** [12:02]

black seatbelt

**Rodney Meier** [12:04]

right? Yes.

**OMAHA NE** [12:05]

or what? The one that come was black. The one I took off was orange.

**Rodney Meier** [12:06]

Or orange.

**Rodney Meier** [12:11]

Okay.

**OMAHA NE** [12:16]

And the one I put on, which is that 7663, is orange.

**Rodney Meier** [12:22]

Sure. Okay. Well, I think they prefer to have orange anyway.

**Rodney Meier** [12:29]

Well, I'm looking at an aftermarket for a Grammar seat, which should be the same one, and this one has a pigtail on it.

**OMAHA NE** [12:39]

A long one or a short pigtail?

**Rodney Meier** [12:40]

Well, that I can't tell by the picture. Looks like it might be fairly long, but I can't tell for sure.

**OMAHA NE** [12:43]

Oh, okay.

**Rodney Meier** [12:48]

Let me see if anybody even has it. It's got an A4046324. It's not the OEM,

**OMAHA NE** [12:49]

What's the number? I guess, yeah,

**OMAHA NE** [12:57]

yeah. Okay, yeah, see, I've got

**OMAHA NE** [13:00]

a, yeah, I've got an OEM one sitting here that I used, and I suppose that, I mean, we just get that one if that's anything.

**Rodney Meier** [13:07]

so, well, that's what I'm thinking as nothing else, we'll order it in.

**OMAHA NE** [13:13]

I mean, he's, like I said, he had three of them over here, one new one, and then two that were used with the latch ready, or the,

**OMAHA NE** [13:21]

The lock part of it already taken out of them, so I need at least two of that

**Rodney Meier** [13:25]

Right.

**OMAHA NE** [13:29]

7663.

**Rodney Meier** [13:32]

All right.

**OMAHA NE** [13:32]

5182 7663.

**Rodney Meier** [13:41]

Oh, yep, I remember that number. Now that you say that, I remember that number. I don't know that it would make any difference if it's black or orange.

**OMAHA NE** [13:53]

And this 63 is orange,

**Rodney Meier** [14:06]

By long and short, how long and how short is that pigtail? Are we talking six inches, 12 inches?

**OMAHA NE** [14:12]

SO.

**OMAHA NE** [14:15]

The pigtail that was on this 7663 was probably...

**OMAHA NE** [14:20]

Four inches, three to four inches.

**OMAHA NE** [14:25]

As in the coupler, okay, you know, on the part where it bolts down to the frame, where it comes out of the buckle, it didn't really go past where you bolted down to the frame. So it was like three inches long, maybe.

**OMAHA NE** [14:41]

Is the one that is 7663. The one I have on this forklift was at least 20 inches long.

**Rodney Meier** [14:50]

Oh boy, well neither one of these would be 20, but I bet there would be at least 14 maybe.

**OMAHA NE** [14:58]

Well, that one's even-- 14 is even short.

**Rodney Meier** [15:02]

Well, and I can't, it's not giving me a measurement, I'm just looking at the picture here.

**OMAHA NE** [15:04]

Yep, yep, exactly, exactly.

**OMAHA NE** [15:09]

I would think the one that was on this truck was at least 18.

**OMAHA NE** [15:15]

I already got the seat back together, so I'm just trying to go off memory here.

**Rodney Meier** [15:20]

Yep, yep, well I'll tell you what, I've got,

**OMAHA NE** [15:21]

18 or 20.

**Rodney Meier** [15:26]

let's see, is this a seatbelt?

**Rodney Meier** [15:32]

I can probably go ahead and put this other seatbelt on here. Let me just do a transfer. I'll send it to you, because Omaha has one.

**OMAHA NE** [15:45]

Of which one? That long one or

**Rodney Meier** [15:45]

Of the orange one, it looks like it's got a longer pigtail.

**OMAHA NE** [15:50]

the... Okay. And then can I get a 76.63 for something? I just need to have at least two of them for stock here, being that now I'm completely out.

**Rodney Meier** [15:56]

Yeah, probably.

**Rodney Meier** [16:02]

Sure.

**Rodney Meier** [16:13]

All right, I'm going to send this transfer to Richard right away so this one for sure gets out today. TRA 686-888-2CARGIL.

**Rodney Meier** [16:26]

That's how I send him an email. I just tell him the transfer and where it goes. He takes care of it.

**Rodney Meier** [16:36]

All right, so I got that seatbelt ordered.

**Rodney Meier** [16:41]

And let's look at that other one and see who's got any of them. 5187663, is that right?

**OMAHA NE** [16:55]

8277. 8-2.

**Rodney Meier** [16:57]

Second here, let me get it back here again.

**Rodney Meier** [17:01]

So it's, give me the number again.

**Rodney Meier** [17:13]

Okay. Omaha only has one. You wanted a couple of them?

**OMAHA NE** [17:19]

51827663. I'd like at least two, yeah. One to replace the one I just used and then have a spare. Because I, like I said, I'm out of buckles right now.

**Rodney Meier** [17:22]

All

**Rodney Meier** [17:28]

right. So you need two? For sure.

**OMAHA NE** [17:30]

Yeah. Yep.

**Rodney Meier** [17:33]

Or do you need three so you have an extra one?

**OMAHA NE** [17:35]

Well, three would be nice.

**OMAHA NE** [17:38]

I won't turn them down that way. I got them and I could just keep the stock rotating that way.

**Rodney Meier** [17:42]

Yep. Yep. Nope. That's fine. What I'm going to do is I'm going to bill them to our monthly service call

**Rodney Meier** [17:49]

and then...

**Rodney Meier** [17:51]

Then they'll be in a private inventory that nobody knows about. So then when you use one, we'll just replace it. So you'll always have extra that way.

**OMAHA NE** [18:04]

And I just put them on the part number on like I normally do.

**Rodney Meier** [18:08]

Yep, just like you would normally order them.

**OMAHA NE** [18:15]

Sounds like a plan. And then I got one other question for you

**Rodney Meier** [18:19]

Sure.

**OMAHA NE** [18:20]

when you're done.

**OMAHA NE** [18:43]

Yeah, I've got this forklift sitting out here. Well, of course, on the east side of the shop, it's sunny there. And wherever the sun hits the seat, it's just got grease. It's just got grease running or just oozing out of the seat.

**Rodney Meier** [18:52]

Sure. Oh boy.

**Rodney Meier** [18:56]

I can imagine.

**OMAHA NE** [18:58]

I've wiped it off like three times and it's just freaking just keeps, it keeps like you,

**Rodney Meier** [19:00]

It just comes seeping out of there.

**OMAHA NE** [19:04]

it keeps seeping out,

**Rodney Meier** [19:09]

All right, give me just a second here. Just punched in before I forget. All right, 114-3505-PO. And we're gonna go to, whoop.

**OMAHA NE** [19:14]

yeah. Okay,

**Rodney Meier** [19:33]

Waiting for it to load here.

**Rodney Meier** [19:46]

What you got for the other question?

**OMAHA NE** [19:49]

the other question is, who do I order parts or how do I get parts for my truck body?

**OMAHA NE** [19:57]

I had to break a latch to get into it this morning on the side of the truck, and I need to get a latch to replace so I can lock the box.

**Rodney Meier** [20:07]

Oh, on Earbox?

**OMAHA NE** [20:09]

Yeah.

**Rodney Meier** [20:11]

I

**Rodney Meier** [20:14]

want to say, is it a badger body?

**OMAHA NE** [20:16]

That's what I'm trying to look right now.

**OMAHA NE** [20:20]

Well, the tailgate says Palofinger.

**Rodney Meier** [20:26]

Okay. That might be a question for Jake. I don't remember. Okay.

**OMAHA NE** [20:32]

Yeah, it's a Palofinger body because I found a label up in the front corner.

**OMAHA NE** [20:39]

Okay, I wasn't sure our head Jake up because in the one side compartment some boxes slid over inside of it down on the latch and there's no way \*\*\*\* I could get it to move. I couldn't get the latch open. I even tried reverse brake checking and trying to slide \*\*\*\* over by, you know, because that's how it moved. And I needed to get in there to work on it.

**Rodney Meier** [20:52]

Sure. Right, right.

**OMAHA NE** [21:04]

That backrest, that forklift, because my taps and wrenches and \*\*\*\* were in that one. And I ended up having to break, and the bolts to actually attach it, so I had to break the latch off to get into it.

**Rodney Meier** [21:09]

Oh, \*\*\*\*.

**Rodney Meier** [21:16]

Sure.

**Rodney Meier** [21:20]

Okay, yeah, no, I'd get a hold of Jake because Nick Wozniak ordered all those and I think they were all ordered out of Omaha. And I was thinking they got them from Badger Body, but I don't honestly remember.

**OMAHA NE** [21:32]

And it could be from Badger Body, but like I said, the body itself is paddle finger, but that's the same thing as the crane, so.

**Rodney Meier** [21:38]

Yeah. Yeah.

**Rodney Meier** [21:40]

- Yeah, but yeah, I'd ask Jake that question. I'm not sure I know the answer to that one.

**OMAHA NE** [21:43]

OK. I just-- yeah. Nope, that's fine. Not a problem. I'll hit him up. I just wanted to check with you first. Because if that was something you've done already, no sense including him to have to come back to it.

**Rodney Meier** [21:52]

Sure, nope.

**Rodney Meier** [21:55]

Yeah, I may have, but I honestly don't remember. I honestly don't remember. 'Cause a lot of times he just took care of a lot of that stuff himself 'cause he had a company credit card.

**OMAHA NE** [22:01]

Which is fine. Nope, not a problem.

**Rodney Meier** [22:12]

And he knew what he wanted. He usually just did it sometimes. But yeah, I don't have anything for badger body at all.

**OMAHA NE** [22:12]

Oh, Dustin, yeah.

**OMAHA NE** [22:16]

Yeah. And see, I'm still trying to learn that if I'm supposed to be doing that or going through anybody.

**Rodney Meier** [22:23]

But to be honest, I don't remember what exactly it was.

**OMAHA NE** [22:28]

Well, I'll hit Jake up. If anything, then otherwise I'll call the Palafinger number or whatever and try to order one.

**Rodney Meier** [22:35]

So yeah. Okay. And I will see if I got my...

**Rodney Meier** [22:41]

Wheel is spinning on ordering those seatbelts, but I'll order them next day or so you hopefully have them tomorrow then.

**OMAHA NE** [22:46]

Okay, that's fine. Like I said, I got this one going. The other ones are just going to be for throwing back in there in case I need one right now.

**Rodney Meier** [22:53]

Right, right. Okay.

**OMAHA NE** [22:55]

And what do we want to do with that black one, that one that come in, that 8905? Just throw it on the deal.

**Rodney Meier** [23:01]

Hang on to it for now and maybe bring it with you next week when you come up. Throw it in your truck, bring it along with you next week, and then we'll figure out what we're going to do with it.

**OMAHA NE** [23:07]

Okay, I can do it.

**OMAHA NE** [23:11]

Okay, I can do that.

**OMAHA NE** [23:13]

Cool. Thanks, Rod.

**Rodney Meier** [23:14]

All right. You bet. Thank you, Dan. Bye.

**OMAHA NE** [23:17]

Yep, bye.

### AI SUMMARY

The conversation began with a request from Omaha NE for a rental quote on an 8 or 10K unit for Bell Chem, specifically for John Singleton.

FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded for quality assurance.

**Chad Metzger** [00:03]

Hey,

**OMAHA NE** [00:04]

Hey, John Singleton from Bell Chem called me on my personal cell phone. Can you send him a quote for a one-day rental on an 8 or 10K whatever we have in Lincoln?

**Chad Metzger** [00:12]

Brett.

**Chad Metzger** [00:22]

8 or 10K?

**OMAHA NE** [00:25]

Yeah, whatever we have big enough, it's got a bigger than a 6.

**OMAHA NE** [00:29]

And

**Chad Metzger** [00:29]

And who is it?

**OMAHA NE** [00:31]

we can use a quote just so we can get a quote.

**OMAHA NE** [00:37]

And then he can get approved, all that fun stuff.

**Chad Metzger** [00:37]

Yeah. Who is it for?

**OMAHA NE** [00:42]

Rick, or Rick, John Singleton at BellCam in Lincoln.

**OMAHA NE** [00:50]

Is this Danny?

**Chad Metzger** [00:51]

What? Yeah, it's me.

**OMAHA NE** [00:54]

Well, why didn't you say that? I thought I was talking to Chad the whole time.

**Chad Metzger** [00:56]

Well, because Chad's out. Oh, yeah. I'm covering rental for the next, like, seven days.

**OMAHA NE** [01:04]

Well, you wouldn't know John Singleton at BellCam then, like Chad would.

**Chad Metzger** [01:09]

I do not. That's why I was like, who the \*\*\*\* are you talking about?

**OMAHA NE** [01:15]

Daryl Lincoln customer.

**OMAHA NE** [01:17]

John's in the system.

**Chad Metzger** [01:18]

Bell, Kim, C-H-E-N.

**OMAHA NE** [01:23]

Yeah, B-E-L-C-H-E-M.

**Chad Metzger** [01:34]

Why

**OMAHA NE** [01:35]

Take your phone call. John was like, hey, your guy's been trying to reach out to me, so this is just me hitting the easy button.

**OMAHA NE** [01:48]

I should have been trying to

**Chad Metzger** [01:50]

am I not finding them?

**OMAHA NE** [01:54]

reach out to me.

**Chad Metzger** [01:54]

I'm not finding the company.

**OMAHA NE** [01:57]

Let me look. Is it in there under a serial company, Wade? Sensory FX. Sensory FX is what it's under. It's Sensory FX slash ABA BellCam or something like that.

**Chad Metzger** [02:15]

Sensory effects serial system?

**OMAHA NE** [02:19]

Yep, in Lincoln.

**Chad Metzger** [02:21]

Yeah, 39th Street.

**OMAHA NE** [02:23]

Yep, that's

**Chad Metzger** [02:27]

Okay. You want me to send a doc? DocuSign or email them?

**OMAHA NE** [02:30]

it. John Singleton. Yeah, if you'd send him a quote.

**OMAHA NE** [02:36]

Quote it to him. Email him. Because he'll need to get a PO wreck in for it.

**Chad Metzger** [02:41]

Okay. I will do that.

**OMAHA NE** [02:43]

And he needs six foot forks. So the bigger the truck, he'd do the longer the forks. But you know how that

**Chad Metzger** [02:49]

Yeah, I'll see what we got available.

**OMAHA NE** [02:52]

goes. All right. Thanks, Danny.

**Chad Metzger** [02:53]

All right. Yep, thank you. Bye.

### AI SUMMARY

The conversation involved Steve Woods from Mid-Country Machinery asking Kent Stewart from Rion Equipment about an operator's manual for the C5000 model.

### FULL TRANSCRIPT

**FORT DODGE IA** [00:00]

This call is being recorded for quality assurance.

**Kent Stewart** [00:02]

Thanks for choosing Rion Equipment. This is Kenton Parts. Let me help you.

**FORT DODGE IA** [00:07]

Hey Kent, Steve Woods, Mid-Country Machinery.

**Kent Stewart** [00:10]

Yes, sir.

**FORT DODGE IA** [00:11]

Got a question. Is there a place that I can go, a website, and print off an operator's manual for one of these?

**Kent Stewart** [00:12]

Okay.

**Kent Stewart** [00:21]

No.

**FORT DODGE IA** [00:23]

No.

**Kent Stewart** [00:23]

Nope, they still sell them. Let's see. Steve, Steve, Steve, Steve. No, I'm just going back to...

**FORT DODGE IA** [00:30]

It's the C5000.

**Kent Stewart** [00:35]

Yep. All right. Let me find out.

**FORT DODGE IA** [00:47]

Do you need the serial number,

**Kent Stewart** [00:50]

Nope. I got it here. Alpha Tango 14 Echo 01165.

**Kent Stewart** [01:03]

All righty. Lovely. All right.

**Kent Stewart** [01:13]

I can reach you at 515-681-4331, correct?

**FORT DODGE IA** [01:23]

boss? No.

**Kent Stewart** [01:24]

This

**FORT DODGE IA** [01:26]

No, this number is 515-570-6369.

**Kent Stewart** [01:27]

is

**Kent Stewart** [01:32]

Steve.

**Kent Stewart** [01:38]

I think I'm looking at the wrong book.

**Kent Stewart** [01:44]

Yep, no, you're what? No, no, no. I was looking through the notes here and I think I stopped at the first 6,000 that I found.

**FORT DODGE IA** [01:45]

I'll give you the serial.

**FORT DODGE IA** [01:56]

It's a C5000.

**Kent Stewart** [01:56]

Is that the?

**Kent Stewart** [01:59]

Yep, and I was like, wait a second, you said a P5000. That's not going to work here. All right, there's Ben, Scott.

**FORT DODGE IA** [02:04]

It's

**FORT DODGE IA** [02:06]

serial number AT-Alpha-Tango-900-2312.

**Kent Stewart** [02:15]

Okay, let's try that one. That might be much more better.

**Kent Stewart** [02:22]

Can you... Alpha, Tango, 900, 2312. Not enough zeros. Alrighty. Still doesn't list an operator's manual. Okay. I'll have to find the...

**Kent Stewart** [02:48]

Helpful product knowledge is whatever it takes so I can figure out which manual, operator's manual comes with this and they hide it pretty good. So, 515-570-6369,

**FORT DODGE IA** [03:01]

I've got the AEM manual.

**FORT DODGE IA** [03:05]

Yeah, and that's the serial number tag. We had to buy a new serial number tag for this a year ago, and so that is the serial number, Alpha Tango 92312.

**Kent Stewart** [03:10]

right? Oh, okay. Alrighty.

**Kent Stewart** [03:16]

All righty. All right. I will see if I can find where they've got the literature books at now. And I haven't found it yet, but that way you don't have to listen to me grunt on the phone while I try to figure this out for you. All right. Thanks. All right. Thanks,

**FORT DODGE IA** [03:27]

All right. Give me a call back, brother.

**FORT DODGE IA** [03:33]

Bye.

**Kent Stewart** [03:34]

Steve. Bye.

### AI SUMMARY

In the conversation, Miguel Rivera Padilla from Rion Equipment discussed the inspection of a Toyota with Cragg Gregory, confirming the need for a pin and washer while clarifying assembly details.

### FULL TRANSCRIPT

**CRAGG GREGORY** [00:00]

This call is being recorded for quality assurance.

**Miguel Rivera Padilla** [00:02]

Rion Equipment, this is Miguel. Can I help you?

**CRAGG GREGORY** [00:06]

Hey, Miguel Forrest. Hey, it looked like Avery had went out and looked at that Toyota that's in.

**Miguel Rivera Padilla** [00:07]

Yes, sir.

**CRAGG GREGORY** [00:14]

Can you verify with him so I can send you a picture of what there's a lot of parts that go around that, like bushings and things. And he said it looked like everything was good, minus the pin and the nut.

**CRAGG GREGORY** [00:31]

Do you want to verify with him or you want me just to get the pen and the bottom

**Miguel Rivera Padilla** [00:37]

Yeah, I will get the pin in the washer as well.

**CRAGG GREGORY** [00:41]

washer? Okay, well, I'll get the bottom washer. The other ones may still, they should still be there. They're sandwiched in between, but I will get that bottom washer. And you can just let him know the one washer goes on top of the nut before he screws it onto the pen.

**Miguel Rivera Padilla** [00:56]

Okay, sounds good. I sure will. I appreciate it. All right. Thank you, sir. Bye.

**CRAGG GREGORY** [00:58]

All right. I appreciate it. Yep, no problem. Thank you. Yep, bye.

#### AI SUMMARY

Dale (Sales Representative, MRO Crane) reached out to Rodney Meier (Purchaser, Ryan Equipment) to confirm the availability of a needed part, which led to discussing pricing and shipping options.

#### FULL TRANSCRIPT

**MRL CRANE SVC** [00:00]

This call is being recorded for quality assurance.

**MRL CRANE SVC** [00:02]

Hey, Rod, this is Dale at MRO Crane again. Hey, yep, they are different, but he needs the left one, so that's good news. Yep, and the list is 483-91, and it is available.

**Rodney Meier** [00:03]

Ryan, equipment to Srod.

**Rodney Meier** [00:08]

Yeah, Dale.

**Rodney Meier** [00:14]

Correct, yes.

**Rodney Meier** [00:23]

Okay. Do you by chance have a part number? I can create a purchase order for you.

**MRL CRANE SVC** [00:24]

Yep, I do. It's L500541. Actually, they superseded the number. I don't know if that matters for your side. It's 960582.

**Rodney Meier** [00:38]

Okay.

**Rodney Meier** [00:40]

Whatever you use now.

**MRL CRANE SVC** [00:47]

That list is \$483.91. Yep. Yep.

**Rodney Meier** [00:50]

And you said my cost is \$439.92

**Rodney Meier** [00:55]

or \$43. Okay. Nope, that's fine.

**Rodney Meier** [01:06]

I will need one of those.

**MRL CRANE SVC** [01:08]

Okay, is this getting drop shipped or is it shipped to you? Okay, okay. Right, okay. Do you have a preference on time, like a stock order, which is probably three to four days probably or so, or do you need it quicker?

**Rodney Meier** [01:13]

I'm gonna ship it to me and then I'll get it down there. That might be easier than we get a chance to look at it.

**Rodney Meier** [01:29]

Let's do it a little quicker. I've been messing with this for a couple weeks. I put it on the back burner and kind of forgot about it. So I probably better get my

**MRL CRANE SVC** [01:38]

Okay. Gotcha. Right, right. Right.

**Rodney Meier** [01:42]

I better make my customer happy here, I'll be in trouble. Yeah, purchase order number will be PU, Paul Umbrella, 114-34-435.

**MRL CRANE SVC** [01:50]

Okay.

**MRL CRANE SVC** [02:00]

And this, can you, what's your address where this is getting shipped to? Okay. Okay.

**Rodney Meier** [02:03]

All right, it'll go to Ryan, R-I-O-N, Equipment.com.

**Rodney Meier** [02:13]

2409, North 13th Street

**MRL CRANE SVC** [02:21]

Okay. Okay.

**Rodney Meier** [02:24]

in Norfolk, N-O-R-F-O-L-K,

**Rodney Meier** [02:30]

Nebraska NE,

**MRL CRANE SVC** [02:32]

Right. Okay. 66701. Okay.

**Rodney Meier** [02:33]

68701.

**Rodney Meier** [02:38]

And I gave you too many digits on the POs. Let me give you that PO again. Should be 1100.

**MRL CRANE SVC** [02:43]

Alright. Yep, okay. 114-345-55, or 35. Okay, okay, I got it. We'll get this ordered and we'll get to you.

**Rodney Meier** [02:46]

4-3-4-3-5. I think I gave you one too many fours.

**Rodney Meier** [03:00]

3-5.

**Rodney Meier** [03:07]

That'll be great. I do appreciate it, Dale. Thank you very much. Alrighty. Bye.

**MRL CRANE SVC** [03:08]

Okay. Yep. Not a problem. All right. You're very welcome. Thank you. Bye-bye.

CALL 22 OF 611

## Inbound call from MRL CRANE SVC

May 07, 2026 | 05:13 PM | Duration: 4m 3s | From: MRL CRANE SVC | To: +14026440781

Inbound

Positive

### AI SUMMARY

During the conversation, Dale (Representative, MRL Crane Service) reached out to Rodney Meier (Representative, Brian Equipment) to discuss a cylinder's condition, particularly focusing on the shaft and tie rod end.

### FULL TRANSCRIPT

**MRL CRANE SVC** [00:00]

This call is being recorded for quality assurance.

**Rodney Meier** [00:05]

Brian Equipment, this is Rod.

**MRL CRANE SVC** [00:07]

Hey Rod, this is Dale at MRL Crane Service. Hey, not too bad. Hey, on this cylinder, you do need the cylinder, correct? It looks like the threads were gone from the shaft in. Right.

**Rodney Meier** [00:10]

Hey Dale, how we doing?

**Rodney Meier** [00:17]

Well,

**Rodney Meier** [00:20]

it's, well that's what I thought too, but he was telling me he wanted the shaft originally. Let me get back to it here, I'm just looking at the pictures here now. I assume you finally got all the pictures?

**MRL CRANE SVC** [00:27]

Right, because I took a picture of it. Yeah. And I took a picture of it with my phone to blow it up, and it doesn't look like many... It doesn't look like threads are in that rod, the cylinder end, but...

**Rodney Meier** [00:43]

Yeah, let me read the text message he sent me here. Says, "As you're sitting at the left front, the part in point two has threads on both sides."

**MRL CRANE SVC** [00:57]

Right, yep.

**Rodney Meier** [00:59]

But that's all it says.

**Rodney Meier** [01:13]

I'm just trying to look at all the pictures here too and see which one he actually pointed to here.

**Rodney Meier** [01:23]

But yeah, it almost looks like it's, I thought so too, the cylinder, because the shaft looks like it still has threads on it yet.

**MRL CRANE SVC** [01:26]

Right. It sure looks like the threads are pulled to me. Yeah, the tie rod end has threads. Right. Okay. Because, um...

**Rodney Meier** [01:32]

You see?

**Rodney Meier** [01:35]

Yeah, but see, that's what he's pointing to.

**Rodney Meier** [01:40]

Maybe I need to call him and find out for sure. Because yeah, he's pointing to that shaft.

**MRL CRANE SVC** [01:49]

Right. Yeah, my computer's rolling slower now.

**Rodney Meier** [01:50]

But then that one picture where that shaft goes into, yeah, it looks like the threads are gone.

**MRL CRANE SVC** [01:56]

Yeah, yeah. You know, because if they're even partially there, it's not going to hold that tie rod end if you, you know, when there's the force on that wheel. You know, because I've been counting, yeah. Yeah.

**Rodney Meier** [02:04]

Right,

**Rodney Meier** [02:06]

right. Yeah, and maybe is there like a knuckle inside that, where that, in the middle there?

**MRL CRANE SVC** [02:12]

No. Nope. It just threads right into that cylinder.

**Rodney Meier** [02:17]

Right, but I mean, the shaft itself, between the two threaded parts, is there like a U-joint in there?

**MRL CRANE SVC** [02:22]

Nope.

**MRL CRANE SVC** [02:24]

There is, but it's not serviceable. That's a tie rod end, you know. Alright. So...

**Rodney Meier** [02:27]

Right. Well, I'm wondering if that's what went out. That's why he wants the shaft.

**MRL CRANE SVC** [02:37]

Yeah, I mean, because it's still threaded in the cylinder, it looks like, on that pitcher now that I go back to that. So, yeah, if he just needs the tie rod end... Right, okay, right, okay.

**Rodney Meier** [02:43]

Right.

**Rodney Meier** [02:45]

Yeah.

**Rodney Meier** [02:49]

I think he just needs that tie rod that he's pointing to in that picture.

**MRL CRANE SVC** [02:58]

Most of these are universal, like left to right. Some of the older, like genies, were specific. Let me double check to make sure that they're the same on both sides. But as of right now, the tie rod end is listed at \$439.92. And then, like I said, let me double check to make sure

**Rodney Meier** [03:02]

Sure.

**Rodney Meier** [03:05]

Right. For the way they were threaded. Sure. Sure.

**MRL CRANE SVC** [03:23]

Sure they're both the same and I'll give you a call back here shortly. Okay. Okay. Yep. Right. Yep. They are. I know it was available, but let me just double check left to right. So, and then, okay. Okay. Okay. Okay. Sounds good. Thank you. Bye-bye.

**Rodney Meier** [03:25]

Okay. Nope, that'll be fine. Yeah, and availability too. I'll probably just get it from you so I know I can get it correctly.

**Rodney Meier** [03:36]

Yep, nope, that'll be great. No problem at all. All right. Thanks, Dale. You bet. Bye.

CALL 23 OF 611

## Inbound call from LIFT SOLUTIONS

May 07, 2026 | 05:06 PM | Duration: 2m 15s | From: LIFT SOLUTIONS | To: +14025942051

Inbound

Positive

### AI SUMMARY

During the call, Derrick Dea (Sales rep) quoted LIFT SOLUTIONS for four OEM parts priced at \$68.33 each, and they discussed the need for approval before proceeding with the order.

### FULL TRANSCRIPT

**LIFT SOLUTIONS** [00:00]

This call is being recorded for quality assurance.

**LIFT SOLUTIONS** [00:02]

Derrick, this is Derrick again. He wants to go through, he wants to go OEM, so, and he wants, yeah, he wants the nominal ones.

**Derrick Dea** [00:03]

Parts, Derrick.

**Derrick Dea** [00:06]

Yeah. You want a price? Okay, let me get this going for you.

**LIFT SOLUTIONS** [00:15]

So, if you could shoot me, give me a price on that,

**LIFT SOLUTIONS** [00:24]

and we'll do four of them.

**Derrick Dea** [00:27]

Yeah, because you can go like one over, two over,

**Derrick Dea** [00:33]

Nominal and two under, depending on the where.

**LIFT SOLUTIONS** [00:36]

Yeah, I told him that, and he said, he said it's got 1,400 hours on it, so.

**Derrick Dea** [00:40]

Okay.

**LIFT SOLUTIONS** [00:43]

He said, but he's like, I think we should still go with the nominal. I said, okay. That sounds good. And then he's like, I said, do you want to go aftermarket or do you want OEM? He said, OEM.

**Derrick Dea** [01:01]

Thank you.

**LIFT SOLUTIONS** [01:23]

So it'll probably be MCF.

**Derrick Dea** [01:25]

Yeah, and then the part number.

**LIFT SOLUTIONS** [01:29]

Yep, okay.

**Derrick Dea** [01:37]

\$68.33 a piece.

**Derrick Dea** [01:45]

I have

**LIFT SOLUTIONS** [01:45]

68.33.

**Derrick Dea** [01:47]

four in stock. Yep, \$68.33.

**LIFT SOLUTIONS** [01:51]

Perfect. All right. I will.

**Derrick Dea** [01:53]

I have four in stock.

**LIFT SOLUTIONS** [01:59]

Well, they have to approve the quote. So hopefully you'll still have them here.

**Derrick Dea** [02:01]

Alright, I got a quote going here,

**Derrick Dea** [02:06]

so let me know. Yep, bye.

**LIFT SOLUTIONS** [02:07]

All right. Thanks, Derrick. Bye.

## Inbound call from LIFT SOLUTIONS

May 07, 2026 | 04:56 PM | Duration: 5m 11s | From: LIFT SOLUTIONS | To: +14025942051

Inbound

Positive

### AI SUMMARY

In a productive conversation, Derrick Dea (Representative, Rion Equipment) addressed Erick from Lift Solutions' request for rollers for a Mitsubishi mast.

### FULL TRANSCRIPT

**LIFT SOLUTIONS** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:02]

Rion Equipment, Omaha. This is Derrick.

**LIFT SOLUTIONS** [00:06]

Hey, Derrick, this is Erick over at Lift Solutions.

**Derrick Dea** [00:09]

Yeah.

**LIFT SOLUTIONS** [00:10]

Hey, I sent you an email on 429 for some rollers for the mast. It's on a Mishibishi.

**Derrick Dea** [00:19]

You did. Let me look. Let me see here.

**LIFT SOLUTIONS** [00:24]

Well, I can just give you the information now if you want.

**Derrick Dea** [00:27]

That's all right. Today, did I not do it? I don't even remember.

**LIFT SOLUTIONS** [00:36]

Yeah, I don't think you got it or maybe you were just too busy and missed it. I don't know for sure, but I sent it over to you on Wednesday the 29th at,

**LIFT SOLUTIONS** [00:52]

I guess it doesn't give me a time on here,

**LIFT SOLUTIONS** [00:55]

but the subject was looking for rollers for the mast.

**Derrick Dea** [00:59]

Okay. Okay.

**LIFT SOLUTIONS** [01:03]

I got a serial number if you want it. It's just two top rollers and two bottom rollers. AF,

**LIFT SOLUTIONS** [01:13]

like Apple, Frank, 82F as in Frank, 45733.

**LIFT SOLUTIONS** [01:22]

It's a Mitsubishi. Model number is FGC25N

**Derrick Dea** [01:23]

Okay. These are mass rollers on the mass rails or carried rollers.

**LIFT SOLUTIONS** [01:29]

as in Nancy.

**LIFT SOLUTIONS** [01:34]

And I'm just on

**LIFT SOLUTIONS** [01:39]

the mast. There should be two top rollers and two bottom rollers. I tried looking it up on TVH, but it's not liking the serial number or something.

**Derrick Dea** [01:51]

Okay.

**LIFT SOLUTIONS** [01:53]

So I was just wondering if you'd be able to help me with part numbers on those. And if you have them, do you have them in stock?

**Derrick Dea** [02:01]

Yep. Yep. We'll do. Let me see here. Hold on a second.

**Derrick Dea** [02:31]

Thank

**Derrick Dea** [02:55]

you.

**Derrick Dea** [03:03]

MASK number 5A25C20. Sound right?

**LIFT SOLUTIONS** [03:18]

Yes, I believe so.

**LIFT SOLUTIONS** [03:25]

Might have to call and double check that.

**Derrick Dea** [03:28]

That's what the build sheet says anyway. Let's see here.

**LIFT SOLUTIONS** [03:32]

Yeah, okay, if that's what the build sheet says, we'll go with that.

**Derrick Dea** [03:44]

942. Let's see.

**Derrick Dea** [03:48]

Part number, the nominal ones are 942-1111-800.

**Derrick Dea** [03:57]

Copy that.

**LIFT SOLUTIONS** [03:59]

942-1111-800.

**Derrick Dea** [04:02]

800, yup.

**LIFT SOLUTIONS** [04:04]

Okay, and that was the top ones?

**Derrick Dea** [04:07]

Yeah, there's actually three different part numbers. One is

**Derrick Dea** [04:15]

A millimeter over, one's two millimeters under, and one is nominal, and that's the nominal one, 115 millimeters diameter. Otherwise, with mass where you can go up to 116 millimeters, a little bigger, or if it's too tight, you go a little smaller to 113.8 millimeters. So I just did the nominal one. That's a case of mass as worn.

**Derrick Dea** [04:38]

Well, this truck, I don't think it'd be worn that much. It's an 18, so I would use the nominal ones.

**LIFT SOLUTIONS** [04:39]

Right.

**LIFT SOLUTIONS** [04:47]

Okay.

**Derrick Dea** [04:48]

It should be the same.

**LIFT SOLUTIONS** [04:51]

The top and bottom are the same? Okay. Okay. Thanks, Derrick.

**Derrick Dea** [04:53]

Yep, should be.

**Derrick Dea** [04:56]

Yep.

**Derrick Dea** [04:59]

Bye. Bye.

**LIFT SOLUTIONS** [04:59]

You have a good day. Bye.

### AI SUMMARY

Danny (Employee, St. Louis location) reached out to Todd Babka to confirm the address for a transfer of filters.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**Todd Babka** [00:03]

Bart, it's just odd.

**WIRELESS CALLER** [00:05]

Hey, Todd. This is Danny over at the St. Louis location. I have a quick question. You guys put in a transfer that I'm just seeing, I'm so sorry, for a couple of filters. And I also noticed, though, that whenever I printed out the paper, it didn't give me an address. So are you guys, can you tell me what your address is there so I can get it saved?

**Todd Babka** [00:08]

Yeah.

**Todd Babka** [00:13]

Oh, that's fine.

**Todd Babka** [00:15]

Uh-huh.

**Todd Babka** [00:23]

Sure, it's 10501 South Highway 281. And it's Donovan 68832.

**Todd Babka** [00:40]

There might be two transfers.

**WIRELESS CALLER** [00:40]

Okay.

**WIRELESS CALLER** [00:42]

I'm only seeing one right now, but if you have another one, go ahead and send it over because I'm boxing a bunch of \*\*\*\* up, so it's the perfect time. Do you guys have a UPS account you'd like for me to use?

**Todd Babka** [00:49]

I was just going to see.

**WIRELESS CALLER** [00:59]

<REDACTED\_ENTITY>, okay. All right, awesome. And I'll throw your phone number and email on here just because I don't know who put this through, but...

**Todd Babka** [01:01]

FA1569. Frank Apple.

**Todd Babka** [01:08]

Oh, that was me.

**WIRELESS CALLER** [01:10]

All right, let me get that taken care of.

**WIRELESS CALLER** [01:15]

And then is ground okay?

**Todd Babka** [01:17]

Yeah. Yep, that's fine.

**WIRELESS CALLER** [01:18]

Okay. All right, perfect.

**Todd Babka** [01:22]

Are you just S, are you SL?

**WIRELESS CALLER** [01:25]

We're STMH.

**Todd Babka** [01:26]

ST.

**WIRELESS CALLER** [01:27]

Yeah. Yeah, we're a little tricky over here with our initials, I'm telling you.

**Todd Babka** [01:33]

No kidding. I mean, well, our company does some weirdo \*\*\*\*, so that's for sure. Nope, that was the only one. It must have been Quad City I was getting a couple orders from.

**WIRELESS CALLER** [01:38]

That's very true.

**WIRELESS CALLER** [01:46]

That could, oh crud, can you give me your, I'm sorry, your account number again?

**Todd Babka** [01:50]

Frank Apple, <REDACTED\_ENTITY>.

**WIRELESS CALLER** [01:55]

The company does weird things and also so do I because apparently I'm just over here typing in whatever I want in the wrong spot.

**Todd Babka** [02:00]

Well, you just get used to that because it's going to happen more and more the older you get.

**WIRELESS CALLER** [02:03]

Oh fantastic, I love that.

**Todd Babka** [02:04]

Believe me. You bet. I'm

**WIRELESS CALLER** [02:08]

All right, well thank you. I'll get this shipped out to you today and do you want tracking sent over or are you good without?

**Todd Babka** [02:15]

good. So, you bet. Thank you. You have a good day. Will do. Bye-bye.

**WIRELESS CALLER** [02:15]

Okay. All right. Awesome. Thank you.

**WIRELESS CALLER** [02:19]

You too. Bye.

CALL 26 OF 611

## Inbound call from COOPER PATRICK

May 07, 2026 | 04:00 PM | Duration: 0m 58s | From: COOPER PATRICK | To: +15152995626

Inbound

Positive

### AI SUMMARY

Cooper Patrick (Customer) called to discuss the necessity of sending a quote to Darren for a major issue while confirming minor issues like batteries can be approved directly; Shelby Lathrum (Representative, Ryan Equipment) agreed to get an estimate and they wrapped up the conversation positively.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded for quality assurance.

**Shelby Lathrum** [00:03]

Thank you for choosing Ryan Equipment. How may I help you?

**COOPER PATRICK** [00:06]

Yeah, he said he'd have to send it to Darren, send him a quote. That's what I see. Because he said, but something's minor, like not start stuff like a battery or whatever. Yeah, I can okay stuff like that.

**Shelby Lathrum** [00:09]

Oh, man.

**Shelby Lathrum** [00:17]

Yeah. All beans.

**COOPER PATRICK** [00:18]

But something a little major like that, he said, yeah, you have to send that to Darren. So probably have to open up a different work order.

**Shelby Lathrum** [00:22]

Okay.

**Shelby Lathrum** [00:26]

Probably. He never responded back to me about,

**COOPER PATRICK** [00:28]

Probably.

**COOPER PATRICK** [00:30]

The other one, the battery. Yeah.

**Shelby Lathrum** [00:31]

yeah, yeah.

**Shelby Lathrum** [00:34]

So, okay. We will get this estimated then.

**COOPER PATRICK** [00:42]

That'll work. Thank you. Yep. All right. Bye.

**Shelby Lathrum** [00:42]

Okie dokie. Alrighty, thanks for trying. Yep. Alright, bye.

CALL 27 OF 611

## Inbound call from LABLANCE GEORGE

May 07, 2026 | 03:41 PM | Duration: 7m 3s | From: LABLANCE GEORGE | To: +13203427815

Inbound

Positive

### AI SUMMARY

George (Customer, Rail Transfer) called to place an order for parts and sought Miranda Wright's (Sales rep) assistance.

### FULL TRANSCRIPT

**LABLANCE GEORGE** [00:00]

This call is being recorded for Quality Assurance.

**LABLANCE GEORGE** [00:04]

Hey, Miranda. This is George at Rail Transfer Calling.

**LABLANCE GEORGE** [00:09]

Hey, I got your email. I just went through it with Paul and got our shopping list ready to go.

**Miranda Wright** [00:15]

Okay, give me one second. Let me get out another piece of paper. And then...

**Miranda Wright** [00:25]

Okay. I am ready.

**LABLANCE GEORGE** [00:29]

All right. So this is my first time ordering parts like this. So let me know, I guess, what are you-- are you looking for the part number then?

**Miranda Wright** [00:36]

Yes. Yep.

**LABLANCE GEORGE** [00:38]

All right. So it looks like I'm going to need 2i--

**LABLANCE GEORGE** [00:46]

D990040, LOCK PINS,

**Miranda Wright** [00:53]

Yep. What number is that? Give me one second.

**LABLANCE GEORGE** [00:57]

19 on that diagram.

**Miranda Wright** [01:01]

Okay. I... Okay. I099...

**LABLANCE GEORGE** [01:08]

Oh, is that a zero? Okay, sorry about that.

**Miranda Wright** [01:09]

Yeah, no, you're okay. I-099-0040. 0040. Okay, now you want two of those.

**LABLANCE GEORGE** [01:19]

Yes, please.

**Miranda Wright** [01:20]

Okay, two of those, okay.

**LABLANCE GEORGE** [01:22]

All right, so that takes care of that one. Next one is...

**Miranda Wright** [01:36]

So, 3260-012.

**LABLANCE GEORGE** [01:41]

3260-012. We need two of those.

**Miranda Wright** [01:41]

Okay, two of those also, okay.

**LABLANCE GEORGE** [01:47]

Next is part six.

**LABLANCE GEORGE** [01:52]

I0263876,

**LABLANCE GEORGE** [02:02]

the plate steer link.

**Miranda Wright** [02:05]

Oh, yep, for number six, yep, 3876. Yep, three...

**LABLANCE GEORGE** [02:08]

Oh, would you rather the item number? I can give you the item number if you're looking at the same thing. Yeah, that's easier. Yeah. Number six,

**Miranda Wright** [02:13]

And then how many of those ones?

**LABLANCE GEORGE** [02:16]

I need four of those.

**Miranda Wright** [02:17]

Okay, four of number sixes, okay.

**LABLANCE GEORGE** [02:20]

All right. Then 37.

**Miranda Wright** [02:25]

Okay, so we got 37. Okay,

**LABLANCE GEORGE** [02:28]

And let's see. I need one, two, three, four,

**LABLANCE GEORGE** [02:35]

eight. I need eight of those.

**Miranda Wright** [02:38]

and that was eight of 37.

**LABLANCE GEORGE** [02:44]

And then...

**Miranda Wright** [02:46]

Eight of those. So we got eight.

**LABLANCE GEORGE** [02:52]

Then 34.

**Miranda Wright** [02:56]

Okay, 34, 27.

**Miranda Wright** [03:04]

Okay, how many of those?

**LABLANCE GEORGE** [03:07]

I need four of those.

**Miranda Wright** [03:09]

Four of those, okay.

**LABLANCE GEORGE** [03:12]

Then 35.

**Miranda Wright** [03:16]

Okay,

**Miranda Wright** [03:25]

and how many of those?

**Miranda Wright** [03:28]

Two of those, okay.

**LABLANCE GEORGE** [03:31]

And then number nine.

**Miranda Wright** [03:44]

Okay,

**Miranda Wright** [03:46]

and how many of those?

**LABLANCE GEORGE** [03:49]

Two of those.

**Miranda Wright** [03:51]

Two of those, okay.

**LABLANCE GEORGE** [03:53]

And then the last one is number 30.

**Miranda Wright** [03:56]

Number, just 30, so we got 1686.

**LABLANCE GEORGE** [04:04]

And two of those.

**Miranda Wright** [04:05]

And how many, and two of those, okay, gotcha. All right. And then let me just see while I have it on the phone, just make sure, I don't know if you're in our system or not.

**Miranda Wright** [04:19]

And the company's rail transfer.

**Miranda Wright** [04:22]

Okay.

**Miranda Wright** [04:32]

Okay, so I got real transfer. The address 800 Grotto Street North, St. Paul, Minnesota,

**LABLANCE GEORGE** [04:41]

You got it. Yep, that's us.

**Miranda Wright** [04:43]

55104.

**Miranda Wright** [04:46]

Okay, let me see if you're in here as a contact. No, I just have Paul. Okay, I'll put it under as Paul, but then you're... And then do you have a PO that you want to use or...

**Miranda Wright** [04:56]

Just get ordered. Okay. And then you want that next day to that location?

**LABLANCE GEORGE** [04:56]

No. That's the order.

**LABLANCE GEORGE** [05:01]

No, we can do regular shipping.

**Miranda Wright** [05:04]

Okay. You want to do standard shipping?

**Miranda Wright** [05:06]

Okay. So standard shipping.

**Miranda Wright** [05:14]

And then do you want me to send you a quote or just get them ordered?

**LABLANCE GEORGE** [05:19]

Just get them ordered.

**Miranda Wright** [05:21]

Okay. Sounds good. If there's any lead times or anything like that, I will give you a call back just to let you know.

**LABLANCE GEORGE** [05:26]

All right. While I got you on the phone, let's just run through that list again to make sure I got them all.

**Miranda Wright** [05:30]

OK. OK. So I'll go with the part numbers if that's OK.

**LABLANCE GEORGE** [05:35]

Part numbers, got it.

**Miranda Wright** [05:36]

OK. So I have I091-5196,

**Miranda Wright** [05:43]

quantity 2.

**Miranda Wright** [05:50]

OK. Then I have I-0-99-0040 of quantity 2.

**Miranda Wright** [06:00]

And then I have 3260-012 of quantity 2.

**Miranda Wright** [06:07]

I-0-26-3876 of quantity 4.

**Miranda Wright** [06:17]

1749-376, quantity 8.

**Miranda Wright** [06:24]

1927-531, quantity 4.

**Miranda Wright** [06:31]

1980-060, QUANTITY 2.

**Miranda Wright** [06:37]

And then 1686, QUANTITY 2.

**LABLANCE GEORGE** [06:40]

Perfect.

**Miranda Wright** [06:42]

All right. I'll get those ordered here shortly. And then, again, I'll give you a call if I see any lead times or anything.

**LABLANCE GEORGE** [06:48]

Awesome. Thanks, Miranda. I appreciate it.

**Miranda Wright** [06:49]

Yes, of course. You have a great day.

**LABLANCE GEORGE** [06:51]

You too. Bye-bye.

**Miranda Wright** [06:52]

All right. Bye-bye.

## Inbound call from WIRELESS CALLER

### AI SUMMARY

The conversation between Forrest Hudspeth (Company Representative) and Miguel focused on the status of an engine that was incorrectly delivered and the need for parts from TBH.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**WIRELESS CALLER** [00:04]

How you doing,

**Forrest Hudspeth** [00:07]

Hello. Oh, not too bad. How about yourself?

**WIRELESS CALLER** [00:09]

sir? Man, not bad, not bad. Just trying to get things done over here.

**Forrest Hudspeth** [00:15]

I got you.

**WIRELESS CALLER** [00:17]

Yes, sir. Question for you,

**WIRELESS CALLER** [00:20]

sir. Did you receive that engine yet or are you still waiting on

**Forrest Hudspeth** [00:26]

We've got the engine. So they ordered the engine themselves when it showed up. It's the wrong engine. So I've got to call into Cummins to see if we can use the intake and exhaust off of one on the other one, if that would mess the warranty up or anything. And I haven't heard back. We just got it yesterday, and I was...

**Forrest Hudspeth** [00:45]

I called Cummins last night and he said, give me until tomorrow to figure out what we need to do.

**Forrest Hudspeth** [00:51]

So I'm just waiting on them to get back with me. And I'm going to go over and meet with the customer. I'm on one of their locations now. And I'm going to go over to the other one here once I get down here and talk to Mark and see what he wants to do.

**WIRELESS CALLER** [00:52]

it? Gotcha.

**WIRELESS CALLER** [01:07]

Gotcha. Gotcha, gotcha. Okay.

**Forrest Hudspeth** [01:11]

Yep.

**WIRELESS CALLER** [01:11]

Sounds good, sounds good. Yeah, I was just wondering because what's his name? Gary, he was out the other day and he came back, he got busy and then he was wondering when he was going to go down there to help you out.

**Forrest Hudspeth** [01:19]

Yeah.

**Forrest Hudspeth** [01:28]

Yeah, I should know something I'm hoping this morning, but it should be today for sure.

**WIRELESS CALLER** [01:34]

Okay, okay, sounds good.

**Forrest Hudspeth** [01:35]

And then I'll just, I'll relay that to you and then you guys can let me know what works for you.

**WIRELESS CALLER** [01:40]

Yes, sir. Not a problem. Not a problem. Then I have another question. I got Phil. Phil's out. He is going to be out today, tomorrow. He left early yesterday. Can your parts

**Forrest Hudspeth** [01:42]

All right.

**Forrest Hudspeth** [01:49]

Okay.

**Forrest Hudspeth** [01:56]

Okay.

**WIRELESS CALLER** [02:01]

person order me a part that I'm needing from TBH?

**Forrest Hudspeth** [02:06]

Yes, absolutely.

**WIRELESS CALLER** [02:09]

Okay, if I give her the, if I send you the info through an email.

**Forrest Hudspeth** [02:15]

Yeah, that's fine.

**WIRELESS CALLER** [02:17]

Okay, I appreciate it.

**Forrest Hudspeth** [02:18]

Yeah, if you want to send it to me and then copy her in on it or send it to her, copy me in on it, it's Danny, D-A-N-N-I-E, Litzinger.

**WIRELESS CALLER** [02:31]

Got it. Okay, sounds good.

**Forrest Hudspeth** [02:32]

And it should pop up with the first couple letters. But yeah, we'll make sure. Just let her know how quick you need it and give her the address over there and we should be good.

**WIRELESS CALLER** [02:41]

Oh man, thank you. I appreciate it,

**Forrest Hudspeth** [02:43]

No problem, Miguel. We'll help however we can. You just let us know.

**WIRELESS CALLER** [02:44]

sir. Thank you.

**WIRELESS CALLER** [02:46]

Thank you. Appreciate it, sir. Okay, bye.

**Forrest Hudspeth** [02:47]

You bet. Yep. Thank you. Bye.

Randy at GOQ Countertop contacted Jodi Nickell (Equipment representative, OMAHA) regarding an oil issue with their machine, and Jodi promised to follow up after checking on it.

FULL TRANSCRIPT

OMAHA NE [00:00]

This call is being recorded for quality assurance.

Jodi Nickell [00:02]

Rion, Equipment, OMAHA, this is Jodi, how may I help you?

OMAHA NE [00:06]

Hey Jodi, this is Randy at GOQ Countertop. Hi. So, you know, it seems that the machine that we have, it doesn't seem to have oil in it because it's not moving easily.

Jodi Nickell [00:10]

Oh, hey.

Jodi Nickell [00:21]

Okay.

OMAHA NE [00:28]

Yeah, I don't know if they refilled it or not because that was one of the things that was leaking, you know, oil. Now it's not leaking, but it doesn't seem to have anything in it.

Jodi Nickell [00:39]

What's a good phone number for you, Randy?

OMAHA NE [00:40]

Yeah.

OMAHA NE [00:46]

402-960-0432.

Jodi Nickell [00:52]

Okay, give me just a few minutes, I'll call you back.

OMAHA NE [00:54]

Great. Thank you. Bye-bye.

Jodi Nickell [00:55]

Bye.

AI SUMMARY

Alec (Lift Pro Equipment) reached out to Lisa Kleeman (Rion Equipment) for help regarding the Caterpillar PD8000 solenoid.

FULL TRANSCRIPT

WIRELESS CALLER [00:00]

This call is being recorded for quality assurance.

Lisa Kleeman [00:03]

Good morning, Rion Equipment. This is Lisa. How can I help you?

WIRELESS CALLER [00:07]

Hi, Lisa. This is Alec with Lift Pro Equipment. How are you?

Lisa Kleeman [00:10]

Hey, I'm good. How are you? Well, you know, it's closer to Friday.

WIRELESS CALLER [00:13]

Oh, not terrible, I suppose.

WIRELESS CALLER [00:19]

It's close. Yeah. Yeah. I was just about to say it's almost Friday. So I had a couple quick questions on the Caterpillar PD8000. Let's see if you can help me out.

Lisa Kleeman [00:23]

Yeah, yeah.

Lisa Kleeman [00:31]

P-T-8000?

WIRELESS CALLER [00:34]

Yep. Yeah. Paul David 8000.

Lisa Kleeman [00:37]

What do you got for serial number?

**WIRELESS CALLER** [00:39]

It is Adam Tom 12, B as in boy 00206.

**Lisa Kleeman** [00:50]

Okay, what are we looking for?

**WIRELESS CALLER** [00:53]

I was going to see what this solenoid does on the injection pump. It's a single wire. It's a black with a yellow tracer.

**Lisa Kleeman** [01:00]

Schematic

**WIRELESS CALLER** [01:04]

Let's see if there's any tests I can do to make sure this injection pump is working the way it should be.

**Lisa Kleeman** [01:09]

stuff, I get that.

**WIRELESS CALLER** [01:13]

Yeah.

**Lisa Kleeman** [01:29]

Schematics.

**WIRELESS CALLER** [01:33]

Probably

**Lisa Kleeman** [01:35]

Well, I have some electrical schematics. You might have to, there's, I don't,

**WIRELESS CALLER** [01:43]

a bunch of stuff,

**Lisa Kleeman** [01:44]

well, you know, when they're two inches tall.

**WIRELESS CALLER** [01:49]

huh?

**Lisa Kleeman** [01:50]

Yeah, let me go through.

**Lisa Kleeman** [02:09]

I wonder if I can forward these.

**Lisa Kleeman** [02:16]

Maybe make it. Okay, I'll make it that big. No, it won't let me save them, but it'll let me,

**Lisa Kleeman** [02:24]

it'll let me print them. So I'm going to print them and then scan them in

**Lisa Kleeman** [02:33]

to give to you.

**WIRELESS CALLER** [02:35]

Wow. Perfect. Anything would help at this point.

**Lisa Kleeman** [02:36]

Then, I know, right? And then you can figure them out.

**WIRELESS CALLER** [02:43]

Yeah, no, that's... I mean, I'm definitely all for any information I can get.

**WIRELESS CALLER** [02:50]

I don't know why Forkhoof companies have to be so \*\*\*\*\* secret if it's \*\*\*\*\*,

**Lisa Kleeman** [02:52]

Oh, yeah. No, I get it. I do.

**Lisa Kleeman** [03:02]

And, of course, yeah, it's one of those things. It's like, oh, no, you can use this, but you can't save anything.

**WIRELESS CALLER** [03:10]

but... Yeah.

**Lisa Kleeman** [03:13]

From here, you strictly have to, you know, figure it out. And when you see these, yeah, I'm gonna...

**WIRELESS CALLER** [03:14]

Uh-huh.

**WIRELESS CALLER** [03:22]

I'm sure they're super primitive, just like they always are.

**Lisa Kleeman** [03:25]

Oh, yeah, no, they're... You can read them completely. You know, you'll know right where everything is, let me tell you. Oh.

**WIRELESS CALLER** [03:31]

Oh yeah, I'm sure. Oh,

**Lisa Kleeman** [03:33]

Yeah. Hey, this one's a little better. This last one. I actually can see a seat on there, you know, so yeah. Yeah, let's go here. I know. Oh, wait, this one opened up differently. This is eight pages. That's okay. We're going to go here. We're going to go there.

**WIRELESS CALLER** [03:42]

good.

**WIRELESS CALLER** [03:44]

We're making progress anyway.

**Lisa Kleeman** [04:04]

I like what's your email?

**WIRELESS CALLER** [04:06]

It is akruse at liftproequipment.com.

**Lisa Kleeman** [04:09]

K,

**Lisa Kleeman** [04:11]

oh, hold on. A,

**WIRELESS CALLER** [04:14]

R-U-S-E.

**Lisa Kleeman** [04:16]

K, S, E. Okay, I have you. I just like it.

**Lisa Kleeman** [04:26]

Okay, and I'll give you this one, but then I'll scan the other ones in and you can see the struggles that I have for that. And I'll send that over to you as well.

**WIRELESS CALLER** [04:37]

I'm sure it ain't no different than Toyota. Some of them Toyota managers are like, what in the \*\*\*\* were you guys thinking here?

**Lisa Kleeman** [04:42]

Hey, yeah, yeah, no, I understand completely. And of course they expect you to, you know, I don't know, God, I don't even think infants have that good enough eyesight type deal.

**WIRELESS CALLER** [04:57]

Yeah. Yeah, you need a magnifying glass for your magnifying glass?

**Lisa Kleeman** [05:01]

Yeah, exactly, exactly. So I sent that one over. I'll scan these ones in, send them

**WIRELESS CALLER** [05:03]

Yeah.

**Lisa Kleeman** [05:08]

Then you'll have everything. These ones that I scan to send over to you, though, you will have to put them in Word to be able to blow them up or do whatever you need to do because you're not going to be able to see them. So I will get them sent over to you.

**WIRELESS CALLER** [05:17]

Yeah. Yep.

**WIRELESS CALLER** [05:20]

No, that's fine.

**WIRELESS CALLER** [05:24]

Awesome. Thank you so much. I appreciate it.

**Lisa Kleeman** [05:26]

All right, no problem. Thanks. Bye.

**WIRELESS CALLER** [05:28]

Awesome. Good bye.

### AI SUMMARY

The conversation centered around ANDERSON SHEREE's inquiry about the availability of a backrest for the young Heinrich EFG 220 model.

### FULL TRANSCRIPT

**ANDERSON SHEREE** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:04]

Yes. Mm-hmm.

**ANDERSON SHEREE** [00:09]

Question. Do we still have that backrest in stock for one of the young Heinrich EFG 220s?

**Derrick Dea** [00:15]

Maybe. Must have used it. Got a call for one? Got one need ordered?

**ANDERSON SHEREE** [00:19]

I got a serial.

**ANDERSON SHEREE** [00:24]

Yeah, I had Richard return it but told him to keep it.

**Derrick Dea** [00:29]

Mm-hmm. Okay.

**ANDERSON SHEREE** [00:35]

Do you know we have it in stock or not?

**Derrick Dea** [00:36]

No. I'll let go. What's the call number?

**ANDERSON SHEREE** [00:41]

I don't have a call. I was going to see if I could grab it and take it because there's a lift down out there, but they don't...

**ANDERSON SHEREE** [00:48]

They have a serial number, so I'll get a call open. We can get a bill to it later.

**Derrick Dea** [00:51]

Let me ask Richard.

**Derrick Dea** [00:57]

If he said keep it, he probably would have put it somewhere.

**Derrick Dea** [01:03]

Hey, do you still have that load backrest Anthony told you to keep

**Derrick Dea** [01:09]

for young Heinrich?

**Derrick Dea** [01:11]

I don't know, I gotta look it up.

**Derrick Dea** [01:15]

Yeah, we got a backrest that we ordered and didn't use. Yeah, I got like three of them. One, two, got one down there. Yeah, I got three, so it's probably one of those.

**Derrick Dea** [01:29]

Okay. I think the one he, is this the one we got from Des Moines or something? Yeah, and didn't use. Yeah, that's one of these up here. He says he has it.

**ANDERSON SHEREE** [01:38]

Okay, I'll be there to grab it.

**Derrick Dea** [01:39]

He's coming to grab it. I'll build it. I'll find the part number. I'll

**Derrick Dea** [01:45]

build it to shop supplies. Yep. All right.

**ANDERSON SHEREE** [01:53]

All right, thanks.

**Derrick Dea** [01:55]

Bye.

### AI SUMMARY

Gustin Kelvin initiated the call to check on the delivery status of beadlock tires and other parts, while Derrick Dea provided updates indicating potential delays.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:03]

Parts, Derrick. All right. All

**GUSTIN KELVIN** [00:05]

Good morning, Derrick. How are you doing today?

**GUSTIN KELVIN** [00:09]

Good. Hey, I was just curious.

**GUSTIN KELVIN** [00:15]

The tires for PBS, did we figure out if there were bead rims or split rims? I thought there were, it looked like bead rim lock rims,

**Derrick Dea** [00:23]

right.

**Derrick Dea** [00:25]

I ordered beadlock tires, so... Doubt it. I'll check, I doubt it. Probably next week.

**GUSTIN KELVIN** [00:29]

but okay. You're supposed to be here today maybe or it's going to be a couple weeks

**GUSTIN KELVIN** [00:35]

next week?

**GUSTIN KELVIN** [00:39]

Okay. Any idea on

**GUSTIN KELVIN** [00:43]

the hoses for that

**GUSTIN KELVIN** [00:45]

side shift for that air light truck?

**Derrick Dea** [00:47]

I think they're still on back order too. Yep.

**GUSTIN KELVIN** [00:50]

You said the air light

**GUSTIN KELVIN** [00:53]

truck. Okay. Same with the horn. We're still waiting for the horn back.

**GUSTIN KELVIN** [00:59]

All right. Who means... All right. I'm just curious about the tires because they're going to be without a truck here pretty soon.

**Derrick Dea** [01:08]

Yeah, I ordered them a couple days ago, so I might, what day is it, Thursday? I doubt it'll be here this week, probably next week. We'll see. Alright. Yep. Bye.

**GUSTIN KELVIN** [01:12]

Okay, cool.

**GUSTIN KELVIN** [01:16]

Yeah, alright. Cool beans. Thank you, sir. Appreciate it. Have a good one, bud. Alright.

### AI SUMMARY

Danny from St. Louis reached out to Derrick Dea (Equipment role, Omaha) for assistance with a steering motor encoder for a Raymond machine.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:02]

Brian, Equipment, Omaha. This is Derrick.

**WIRELESS CALLER** [00:05]

Hey, Derrick. This is Danny from St. Louis. Forrest wanted me to give you a call. We've got kind of an interesting one here. I was wondering if you had a moment to help me out.

**Derrick Dea** [00:12]

Okay.

**Derrick Dea** [00:14]

Yep.

**WIRELESS CALLER** [00:15]

All right. So it is, it's a Raymond machine. And the serial number on that is 74008AB10785.

**Derrick Dea** [00:31]

Okay.

**WIRELESS CALLER** [00:34]

And so basically what we're looking for is a steering motor encoder. There's only one in the machine for us says. And was wondering if I could get help identifying it and finding out if anybody's got it for overnight shipment.

**Derrick Dea** [00:45]

Steering motor encoder.

**WIRELESS CALLER** [00:51]

Yes.

**Derrick Dea** [00:53]

Alright, what's the model number? Okay, 740R45TT.

**WIRELESS CALLER** [00:57]

Model on this one is 740R45TT.

**Derrick Dea** [01:11]

Zero number 74008, APPLE, BAKER 10785.

**WIRELESS CALLER** [01:18]

Correct. Yes.

**Derrick Dea** [01:20]

Alright, you got a service call?

**WIRELESS CALLER** [01:22]

Yes, I do. It's SC804283. And then I would be shipping that out to my resident tech. Should I go ahead and put that on there?

**Derrick Dea** [01:34]

Let me find your part number first and we'll go from there.

**WIRELESS CALLER** [01:38]

Awesome. Thank you so much. All right. Bye.

**Derrick Dea** [01:39]

Yep.

**Derrick Dea** [01:41]

Bye.

## Inbound call from DRAKE SCOTT

May 07, 2026 | 01:56 PM | Duration: 6m 4s | From: DRAKE SCOTT | To: +14025942060

Inbound

Positive

### AI SUMMARY

Drake Scott (Customer) called John Howard (Representative, Rion Equipment) seeking guidance on the correct engine oil weight for his Caterpillar 50 forklift.

### FULL TRANSCRIPT

**DRAKE SCOTT** [00:00]

This call is being recorded for quality assurance.

**John Howard** [00:03]

Rion Equipment, Omaha. This is John.

**DRAKE SCOTT** [00:04]

Yeah, John, my name's Scott Drake. I got a Caterpillar 50 forklift, and I can't find nowhere that tells me what weight of engine oil to use in it. Would you happen to know?

**John Howard** [00:18]

Probably pull it up for you here. What's, uh,

**DRAKE SCOTT** [00:23]

I'm not sure what year it is. It's 20 years old at least.

**John Howard** [00:30]

you happen to have the serial number available for it?

**DRAKE SCOTT** [00:33]

Oh, where would that be at? Let's see, there was a...

**John Howard** [00:36]

It should be on the data tag.

**DRAKE SCOTT** [00:38]

Okay, here you go. Serial number 5AM91914.

**John Howard** [01:02]

Right. Let's see.

**John Howard** [01:17]

5AM91914.

**DRAKE SCOTT** [01:22]

Let me double check here for you. 5 Andy Martin 91914.

**John Howard** [01:30]

Okay. And you said what model was that?

**DRAKE SCOTT** [01:32]

50?

**DRAKE SCOTT** [01:35]

Caterpillar 50. On the tag it says model GP25.

**John Howard** [01:42]

Okay.

**John Howard** [01:46]

Is it

**John Howard** [01:51]

a gas engine LP?

**DRAKE SCOTT** [01:53]

It does both, but we run it off of LP.

**John Howard** [02:22]

Manual pulled for it. Just double check.

**John Howard** [03:07]

Of course, these old manuals don't just

**John Howard** [03:10]

call it all out for you.

**DRAKE SCOTT** [03:12]

I suppose.

**DRAKE SCOTT** [03:18]

I was kind of assuming 10:30, but like I said, I just wanted to make sure.

**John Howard** [03:21]

It's

**John Howard** [03:23]

pretty standard for what we put in them.

**John Howard** [03:29]

But it never helps or hurts to look, just in case.

**DRAKE SCOTT** [03:39]

Exactly. I found a decal that tells you how many hours to change stuff at, but it don't tell you what the fluid is.

**John Howard** [03:50]

There we go. This probably gives me it.

**John Howard** [04:06]

Oh, come on.

**John Howard** [04:24]

Service specs. Here we

**John Howard** [04:42]

go. Well,

**John Howard** [04:58]

that's not reading it out to me just plain as day. So I'm going to, I would just say you're probably saved with a 1030. That's pretty standard for all of our LP trucks.

**John Howard** [05:08]

Nowadays, I think the only time we really get into like a 1540 is when we get into diesels. But yeah, that 1030 is, we only carry two different kinds of oil pretty much for our fleets. And that's the 1030 for LP and 1540 for diesel.

**DRAKE SCOTT** [05:14]

Yeah. Pretty common.

**DRAKE SCOTT** [05:21]

Okay.

**DRAKE SCOTT** [05:25]

Okay. That sounds good. That's what I kind of figured. But like I said, we checked and we did what we said. So...

**DRAKE SCOTT** [05:31]

Some oil is better than no oil, so we'll just go that route. How's that? So, okay, Andy, I appreciate your time and effort,

**John Howard** [05:33]

That's right.

**John Howard** [05:38]

Yeah, not a problem.

**DRAKE SCOTT** [05:39]

man. You have a great day.

**John Howard** [05:41]

You too. Bye.

**DRAKE SCOTT** [05:42]

Okay, bye-bye.

### AI SUMMARY

Aaron (RealModal) called Jodi Nickell (Customer Service Representative, Ryan Equipment) to schedule a technician for a malfunctioning forklift, which is sputtering despite prior repairs.

### FULL TRANSCRIPT

**WAHRMAN AARON** [00:00]

This call is being recorded for quality assurance.

**Jodi Nickell** [00:02]

Ryan Equipment, Omaha. This is Jodi. How may I help you?

**WAHRMAN AARON** [00:06]

Hi, Jodi. This is Aaron with RealModal. I was wondering if we could schedule a tech to look at our forklift.

**Jodi Nickell** [00:14]

Yeah, what's going on with it?

**WAHRMAN AARON** [00:17]

So I think it's the injectors, but we're not sure. It's spitting and sputtering and cutting out. They replaced the

**WAHRMAN AARON** [00:26]

spark plugs and the coil packs, and it's still having issues.

**Jodi Nickell** [00:31]

Okay, so it's just running really rough. Do you by chance have the serial number to that forklift?

**WAHRMAN AARON** [00:37]

Yeah, so it's a CAT. It's a GP25N. And then I'll get the serial number real quick.

**WAHRMAN AARON** [00:50]

Can you tilt this forward?

**WAHRMAN AARON** [01:03]

Okay. Whenever you're ready for the serial.

**Jodi Nickell** [01:06]

I'm ready.

**WAHRMAN AARON** [01:07]

It is A as in Apple, T as in Tom, 35 Apple,

**WAHRMAN AARON** [01:15]

07250.

**Jodi Nickell** [01:19]

Okay, and then, Erin, would you be the point of contact?

**Jodi Nickell** [01:24]

Okay, what's the phone number for you?

**WAHRMAN AARON** [01:27]

My cell is 402-380-2219.

**Jodi Nickell** [01:33]

Okay. And then in case I have to send you a quote or anything, can I get an email address?

**WAHRMAN AARON** [01:38]

Yeah, so it's lowercase a, W-A-H-R-M-A-N at railmodal.com.

**Jodi Nickell** [01:46]

Perfect. I should be able to get a technician out to you this morning sometime.

**Jodi Nickell** [01:55]

And we'll see what's going on with it. All right. Thank you. Bye.

**WAHRMAN AARON** [01:56]

All right, sounds good.

**WAHRMAN AARON** [01:59]

Thank you.

**Inbound**

**Neutral**

### AI SUMMARY

In the conversation, Rodney Meier (Company Representative) addressed a parts mix-up regarding an injection pump while coordinating with HAMPTON DENNIS (Company Representative) about the return of several components.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded for quality assurance.

**Rodney Meier** [00:02]

Good morning.

**HAMPTON DENNIS** [00:05]

Good morning, Rod. How are you?

**Rodney Meier** [00:06]

I'm good.

**HAMPTON DENNIS** [00:08]

Hey, quick question for you. I picked up parts from the other store, and there is an injection pump. What? Seems like it was supposed to be for dual lift.

**Rodney Meier** [00:15]

Yes.

**Rodney Meier** [00:19]

I got sent to dual lift and it was wrong. I have to send it back to TVH. They sent it back to Richard and Richard told me it was there and I said, we'll send it up here. And he just kept it there thinking I was just going to do the paperwork and send it down to him to send back to TVH.

**HAMPTON DENNIS** [00:24]

Oh, okay.

**HAMPTON DENNIS** [00:28]

Okay. Okay.

**Rodney Meier** [00:38]

It's like, no, send it up here. I want to see it and get all the right paperwork. So yeah, I'm planning on coming out there in a little bit. I got to bring my egg cartons and stuff out. So I'll be coming out momentarily. And then I wanted to look at that compressor and kind of figure out what we need to do to get that sent back. I got the RA is there on the printer. I might've put it on your desk.

**Rodney Meier** [01:03]

I got the return authorization for that core, but I'll need to get a wait because I got to go through EcoTrack to get the shipping lined up. So I was planning on coming out this morning.

**Rodney Meier** [01:18]

That's my plan so far.

**HAMPTON DENNIS** [01:21]

Yeah, I'm going to finish up these.

**HAMPTON DENNIS** [01:25]

These here transfers, there's a whole pile of them. A couple engines showed up yesterday.

**Rodney Meier** [01:32]

Oh, well.

**HAMPTON DENNIS** [01:33]

We got tons of parts and pieces.

**Rodney Meier** [01:36]

Good deal. Also, both engines made it,

**HAMPTON DENNIS** [01:39]

Yeah, the CAT engine made it yesterday, and I think that Helmar made it the day before.

**Rodney Meier** [01:46]

huh? Oh, sure. Sure.

**Rodney Meier** [01:49]

And I guess I was out there, but I never really paid attention to what was there.

**HAMPTON DENNIS** [01:57]

I'm going to keep plugging away at this. I'll set this return pump over on the parts table, and life will be good.

**Rodney Meier** [01:58]

So,

**Rodney Meier** [02:04]

yeah, 'cause I think there's something else in there too, but I was thinking that,

**HAMPTON DENNIS** [02:08]

Yeah, some rubber rings.

**Rodney Meier** [02:12]

yes, they were for the injectors.

**Rodney Meier** [02:16]

So apparently they weren't right either. He didn't even try, I don't think. So hopefully I can

**HAMPTON DENNIS** [02:20]

Yeah, I'm not sure.

**Rodney Meier** [02:23]

get them all returned.

**Rodney Meier** [02:25]

So, all right. Yeah, I'm planning on being out there. I'm just getting caught up on my emails this morning and then I will probably be out there.

**HAMPTON DENNIS** [02:35]

Deal. We will see you then.

**Rodney Meier** [02:37]

All right. Sounds good. See ya. Bye.

### AI SUMMARY

The discussion between Adam Henderson (Representative) and the other participant focused on locating General tires at Discount Tire, followed by a note on an employee survey to be reviewed the next morning.

### FULL TRANSCRIPT

**PERSONAL** [00:00]

This call is being recorded for quality assurance.

**PERSONAL** [00:04]

Yeah,

**Adam Henderson** [00:04]

YELLO! What's going on?

**PERSONAL** [00:06]

hello. Hey, took a couple questions. Where did you find those generals

**PERSONAL** [00:13]

for

**PERSONAL** [00:15]

213?

**Adam Henderson** [00:17]

Discount Tire.

**PERSONAL** [00:19]

I was just on their website and they don't have any generals.

**Adam Henderson** [00:23]

What? I just went by size, but yeah, they had generals listed. Let's see, shop by size.

**PERSONAL** [00:35]

Let me go back.

**Adam Henderson** [00:36]

275, 55, 20.

**Adam Henderson** [00:42]

And then on the left I usually just sort my brand. And they have nine general tires in that size.

**PERSONAL** [00:47]

Oh, there they are.

**PERSONAL** [00:50]

That's where my issue was, is I had it by vehicle.

**PERSONAL** [01:00]

I don't get that. I got two general grabber HTs.

**Adam Henderson** [01:04]

Yeah. Yeah, the one, if you look at them, they'll be the same thing. It's like a white wall or something like that's the difference.

**PERSONAL** [01:13]

Oh.

**PERSONAL** [01:16]

And did you talk to Nick?

**Adam Henderson** [01:21]

No, I got bombarded as soon as you left. So I'll send them a message and talk to them tomorrow. So we'll have to have everybody here tomorrow morning anyway.

**PERSONAL** [01:25]

Okay.

**PERSONAL** [01:37]

What happened tomorrow morning?

**Adam Henderson** [01:39]

I sent an email out.

**Adam Henderson** [01:43]

No, it's

**PERSONAL** [01:43]

Evidently did not look at it.

**Adam Henderson** [01:45]

a... Yeah, it's an employee opinion survey. We have to go over all that \*\*\*\* and...

**Adam Henderson** [01:50]

Come up with two things we want to work on as a store.

**PERSONAL** [01:56]

Okie dokie.

**Adam Henderson** [01:57]

So, we'll see you in the morning. Alright, have a good night.

**PERSONAL** [01:59]

Well, I'll see you in the morning.

**PERSONAL** [02:02]

Yeah, you too. Thank you.

**Adam Henderson** [02:03]

Yep. Bye.

## Inbound call from WIRELESS CALLER

May 06, 2026 | 08:57 PM | Duration: 5m 6s | From: WIRELESS CALLER | To: +14025942060

**Inbound**

**Neutral**

### AI SUMMARY

In a conversation between Rachel (Recruiter, Ryan Equipment) and John (Employee, Ryan Equipment), they evaluated a candidate named Joe following his interview.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**John Howard** [00:03]

Ryan Equipment, Omaha. This is

**WIRELESS CALLER** [00:05]

Hey, John, it's Rachel over in Recruiting. How are you?

**John Howard** [00:09]

John. Good. How are you?

**WIRELESS CALLER** [00:11]

Good, good. Hey, I was checking to see how everything went yesterday with your interview with Joe.

**John Howard** [00:18]

It went good. I think

**John Howard** [00:21]

he's a good candidate. I was actually just talking to,

**John Howard** [00:27]

what's his name, Jake over in Norfolk about him, just kind of comparing notes.

**John Howard** [00:34]

And I'd say my only...

**John Howard** [00:38]

The only thing I worry about is his ask. I mean, if he is everything he says, his ask is probably within the range of what

**John Howard** [00:50]

he would be making here, but

**John Howard** [00:55]

not, you know, there's always that uncertainty when you hire a new guy that they've

**John Howard** [01:02]

They're upselling themselves, obviously, during an interview. If he's not quite at that level or takes some extra training or some getting used to the role, then he's going to be kind of over that

**John Howard** [01:18]

range.

**WIRELESS CALLER** [01:20]

Gotcha, okay.

**John Howard** [01:22]

So I don't know...

**John Howard** [01:27]

If it makes sense to offer him what he's asking or

**John Howard** [01:33]

offer him lower than that and see if he's willing to, you know, we can always adjust as needed later on down the road.

**John Howard** [01:43]

But I don't want to make it

**John Howard** [01:45]

offer so much lower than what he's asking that it makes it insulting or that he

**WIRELESS CALLER** [01:46]

What did he tell you?

**John Howard** [01:52]

bows out completely. You know what I mean?

**WIRELESS CALLER** [01:55]

Yeah, what did he tell you that he was looking for then?

**John Howard** [02:00]

He said he was looking for 45,

**WIRELESS CALLER** [02:06]

What level technician are you looking at him being?

**John Howard** [02:06]

which,

**John Howard** [02:11]

so again, if he can handle the workload and work on everything he says, then he would be

**John Howard** [02:19]

a tech level three.

**WIRELESS CALLER** [02:22]

Okay, that's slightly below the midpoint for tech level three. This tech level three to midpoint is 4560 an hour, so just slightly less. So, he'd align with a midpoint there. It goes up to 5472 for tech level three.

**John Howard** [02:47]

So you're thinking if he

**John Howard** [02:49]

is that,

**WIRELESS CALLER** [02:56]

Then he would align with that midpoint, which is typically where

**WIRELESS CALLER** [03:01]

Where, you know, somebody that has the skills would come in at unless they were like exceed that,

**WIRELESS CALLER** [03:11]

then you'd look higher.

**John Howard** [03:13]

then, okay.

**WIRELESS CALLER** [03:17]

So it sounds like based on what you're saying that he would align with the midpoint with 45 an hour.

**John Howard** [03:28]

So, okay.

**John Howard** [03:30]

I guess,

**John Howard** [03:35]

let me put it past Nick, because to me, he's a good candidate. I like the guy. He seemed personable. I think he's got the right experience. He understands the business needs, the customer needs,

**WIRELESS CALLER** [03:37]

Okay. Uh-huh.

**John Howard** [03:50]

all that stuff. It's just he's kind of at the

**John Howard** [03:55]

top end of what I would feel confident offering to

**John Howard** [04:00]

And then if he has kind of oversold himself, then it may be a longer period than he expects to get like consistent pay

**John Howard** [04:13]

increases, if that makes sense. I don't want to have him feel like he stalled out because we brought him in,

**John Howard** [04:20]

popped out for his experience level or what his skill set is.

**WIRELESS CALLER** [04:26]

Yeah, chat with Nick and then let me know what you're thinking.

**John Howard** [04:29]

Okay. Yeah, I will talk to Nick and I owe you some notes on my interview. So I'll get all that stuff shot over to

**WIRELESS CALLER** [04:39]

Cool. Sounds good. Thank you.

**John Howard** [04:40]

you. All right. Yep. Thanks for the call.

**WIRELESS CALLER** [04:42]

Yep. Bye.

**John Howard** [04:43]

Bye.

CALL 41 OF 611

## Inbound call from WIRELESS CALLER

### AI SUMMARY

The conversation focused on the customer's search for mirrors and issues with their order, with Shelby (Representative) confirming the mirrors were wrong and agreeing to facilitate further communication with Adam.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion equipment. How may I help you?

**WIRELESS CALLER** [00:07]

I got to thinking,

**WIRELESS CALLER** [00:09]

and that's scary, I know, but this whole... Rude. Pelicorp,

**Shelby Lathrum** [00:12]

I refrain from my comment.

**WIRELESS CALLER** [00:22]

that whole mirror deal, did I set those mirrors on that desk beside your desk?

**Shelby Lathrum** [00:30]

No.

**WIRELESS CALLER** [00:31]

Like, there's not a box of two mirrors there?

**Shelby Lathrum** [00:34]

No.

**WIRELESS CALLER** [00:37]

I cannot find them mirrors.

**Shelby Lathrum** [00:41]

Did you ask George?

**WIRELESS CALLER** [00:43]

I did. He said that he doesn't have

**Shelby Lathrum** [00:46]

No.

**WIRELESS CALLER** [00:51]

them. I'll call him and ask him again and see.

**WIRELESS CALLER** [00:57]

I don't know. I don't want to order mirrors, another set of mirrors, because if the brackets are wrong again, we're going to just cancel that work order. He said he doesn't need them now that they got that camera installed.

**Shelby Lathrum** [01:11]

Oh, well, they came in and they're wrong.

**WIRELESS CALLER** [01:14]

Oh, they are?

**WIRELESS CALLER** [01:16]

All right. I'll call him and let him know that they're wrong and just double check that if he wants to cancel them or not.

**Shelby Lathrum** [01:27]

Okay, sounds good.

**WIRELESS CALLER** [01:29]

So, all right. I will let you know.

**Shelby Lathrum** [01:31]

Alright.

**Shelby Lathrum** [01:35]

Okay.

**WIRELESS CALLER** [01:37]

Well, it's Adam right there.

**WIRELESS CALLER** [01:40]

Can you either put me through to him or ask him if it's possible to cancel that because it was part of the deal?

**Shelby Lathrum** [01:48]

Yes? Um, I'll transfer you over to

**Shelby Lathrum** [01:52]

him. Yeah, this is okay.

CALL 42 OF 611

## Inbound call from JASON HICKS

May 06, 2026 | 08:29 PM | Duration: 5m 11s | From: JASON HICKS | To: +15152995624

Inbound

Positive

### AI SUMMARY

The conversation involved JASON HICKS updating Adam Henderson (Company Rep) on a battery situation and discussing coolant circulation issues with an air compressor.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded for quality assurance.

**JASON HICKS** [00:04]

Hey, I spoke with Isaac

**Adam Henderson** [00:07]

Ease. Okay.

**JASON HICKS** [00:08]

about that battery,

**JASON HICKS** [00:11]

and I've called Ben and let him know, but he wants a new battery quoted,

**JASON HICKS** [00:18]

and he wants that one back until we can get the new one put in.

**Adam Henderson** [00:21]

Okay.

**JASON HICKS** [00:24]

So I think next week I'm going to try and go down to Mount Air. I'll throw it in my truck and

**JASON HICKS** [00:30]

BRING IT DOWN FIRST THING IN THE MORNING LIKE I DID WHEN I PICKED IT UP.

**Adam Henderson** [00:36]

Yeah, sounds good.

**JASON HICKS** [00:38]

SO AND THEN

**Adam Henderson** [00:39]

You're breaking up.

**JASON HICKS** [00:41]

ON THAT COMPRESSOR, I'M TRYING TO GET TO THE TOP OF A HILL.

**JASON HICKS** [00:47]

ON THAT AIR COMPRESSOR,

**Adam Henderson** [00:49]

Mm-hmm.

**JASON HICKS** [00:53]

It's not circulating coolant very well. At the top and at the bottom of the radiator, I mean, it was only

**JASON HICKS** [01:03]

a couple degrees different.

**JASON HICKS** [01:07]

I could not get that thing to overheat.

**JASON HICKS** [01:12]

So the highest I got it was 190 degrees.

**Adam Henderson** [01:16]

Yeah. Sure, it's not like a compressor head overheat?

**JASON HICKS** [01:18]

So they

**JASON HICKS** [01:21]

told me the engine...

**JASON HICKS** [01:24]

And even then, I mean, I didn't get it to overheat on the compressor side.

**Adam Henderson** [01:30]

Okay. I mean, it is kind of cool out today, so maybe they were running it on a warmer day.

**JASON HICKS** [01:37]

So, yeah. Oh, I need to slow the \*\*\*\* down.

**JASON HICKS** [01:46]

But the radiator was packed full of \*\*\*\*. So I blew it out and hosed it out and blew it out some more. And it's still got a lot of \*\*\*\* in it. But I could not get that thing to overheat.

**JASON HICKS** [01:59]

So I told Isaac,

**JASON HICKS** [02:01]

water pump's probably pretty expensive for that engine. It looks pretty expensive.

**Adam Henderson** [02:03]

What engine is it?

**JASON HICKS** [02:10]

Just a minute, I got a picture of the engine

**JASON HICKS** [02:16]

tag number.

**Adam Henderson** [02:16]

I think the option was like John Deere, Kubota, and Cat.

**JASON HICKS** [02:21]

What? I don't remember, just a second.

**Adam Henderson** [02:25]

Okay. Yep.

**JASON HICKS** [02:38]

- Oh, \*\*\*\* back up here.

**JASON HICKS** [02:41]

Engine model

**JASON HICKS** [02:44]

is S4S-DTDPB.

**Adam Henderson** [02:52]

DTDPB?

**JASON HICKS** [02:55]

D, T, V,

**JASON HICKS** [03:01]

P as in Paul, V as in boy.

**Adam Henderson** [03:05]

So, boy, Tom, David.

**JASON HICKS** [03:06]

3.3 liter.

**Adam Henderson** [03:10]

Huh. What color was it?

**JASON HICKS** [03:12]

Yellow.

**JASON HICKS** [03:14]

Like it was a cat.

**Adam Henderson** [03:15]

Yeah, it's probably a cat. C3.3.

**JASON HICKS** [03:18]

Mitsubishi Heavy Duty Industry, Heavy Industries.

**Adam Henderson** [03:22]

Yeah, but I think they classify that as a cat.

**JASON HICKS** [03:25]

Yeah, I mean, it could be

**JASON HICKS** [03:29]

Tier 4,

**JASON HICKS** [03:32]

Interim Tier 4.

**Adam Henderson** [03:34]

Yeah. Uh,

**JASON HICKS** [03:37]

Do you need the family?

**Adam Henderson** [03:40]

yeah, if there's a serial number on there too. Are you driving?

**JASON HICKS** [03:50]

There's no serial number.

**JASON HICKS** [03:55]

I just texted you the picture.

**Adam Henderson** [03:58]

Okay, sounds good. I'll look at that and see what I can find.

**Adam Henderson** [04:03]

Probably need to, well, they want to do a PM on it, so I was just going to get like a PM kit for it.

**JASON HICKS** [04:09]

Oh, okay. And that's funny that you say that because I just told Ben, I'm like, it wouldn't be that hard to add that to the PM agreement.

**Adam Henderson** [04:17]

Yeah.

**JASON HICKS** [04:19]

But so

**JASON HICKS** [04:24]

I told him, I'm like, it's not flowing coolant very well. So I want to replace the thermostat and get the radiator blown out a lot better than what it is.

**JASON HICKS** [04:35]

And then see if it starts circulating coolant better.

**JASON HICKS** [04:40]

And if it doesn't, it's going to have to have a water pump.

**Adam Henderson** [04:43]

Yeah.

**JASON HICKS** [04:47]

But all right, I think that's all I needed. I got some parts I need to order for the scissor lifts at BSM, but I'll send you an email for those.

**Adam Henderson** [04:57]

Okay, that sounds good. Alright, see ya.

**JASON HICKS** [04:59]

All right, bye.

---

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded for quality assurance.

**Kristi Johnson** [00:02]

Hey, Dan.

**OMAHA NE** [00:03]

Never mind. I've seen the one I was looking for too. The meeting, it's all the way down at the bottom. I didn't scroll far enough.

**Kristi Johnson** [00:06]

Okay.

**Kristi Johnson** [00:10]

So you did find it and we opened one already for

**OMAHA NE** [00:11]

No, I found the one for the meeting this morning. I'm trying to do my time and I couldn't find the meeting one and I didn't scroll down far enough.

**Kristi Johnson** [00:14]

it? Oh, for the meeting.

**Kristi Johnson** [00:16]

Oh, I gotcha. Okay. I have a question for you anyway. On my list, on my list, number 30 is FN651033.

**OMAHA NE** [00:22]

Yes.

**OMAHA NE** [00:30]

Sorry, yeah, I gave you 20. No, not 20.

**Kristi Johnson** [00:33]

Okay. Okay.

**Kristi Johnson** [00:35]

You gave me FN 456900, which, um,

**OMAHA NE** [00:40]

Okay, that is the rental one. That's the model of the rental forklift. We don't, go ahead.

**Kristi Johnson** [00:46]

okay, it did

**Kristi Johnson** [00:49]

come up rental, but the equipment number is something weird, so it's not on my list.

**OMAHA NE** [00:54]

Yeah, that's like a, that number, like I said, I'm just going by what Dustin always said when it was a rental. Give you the serial number of this machine and then what department it's out of. So that's why I gave you that 30.

**Kristi Johnson** [01:07]

Okay.

**Kristi Johnson** [01:09]

Okay, okay.

**OMAHA NE** [01:10]

So you knew where to bill it to.

**Kristi Johnson** [01:12]

Well, and it should be, I think those get billed to rental. I think those get billed to rental. Yeah, yeah. So I should be able to just open it up under rental and that'll be fine.

**OMAHA NE** [01:15]

Or does that bill, okay, then don't worry about it.

**OMAHA NE** [01:22]

And this machine number is LN130613.

**Kristi Johnson** [01:26]

Yep, that's what it came up as, as equipment number. So, okay, that's the right one then. All right. Yep, bye.

**OMAHA NE** [01:32]

Okay, that'll work, thank you.

**OMAHA NE** [01:35]

And I promise I won't bug you anymore.

**Kristi Johnson** [01:37]

Oh, you're fine. That's what my job is. So you can bug me all you want.

**OMAHA NE** [01:41]

Okay.

**Kristi Johnson** [01:42]

It does not bother me. So you're good. All right. Yep. Bye.

**OMAHA NE** [01:44]

Okay, yep, thank you.

### AI SUMMARY

During the call, the customer from OMAHA NE sought clarification on a service call for a malfunctioning horn on their rental equipment.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded for quality assurance.

**Kristi Johnson** [00:02]

Hey,

**OMAHA NE** [00:03]

Hello, question for you. I've sent in so many emails I can't remember. Did I open a call for our rental for a horn not working?

**Kristi Johnson** [00:12]

Dan. Like yesterday?

**OMAHA NE** [00:14]

Could have been yesterday or today.

**Kristi Johnson** [00:17]

Let me look. Let's see.

**OMAHA NE** [00:22]

I don't have a number. I've got a serial number.

**Kristi Johnson** [00:26]

Equipment rental.

**Kristi Johnson** [00:30]

Nope, that wasn't you, I don't think.

**Kristi Johnson** [00:35]

Nope, that was fault code. Well, what do you got?

**OMAHA NE** [00:41]

Okay, I've got FN 456900 and

**OMAHA NE** [00:49]

it goes, it's replacing number 30.

**OMAHA NE** [00:55]

Which is FN651033.

**OMAHA NE** [01:01]

And it's got the horn, the horn doesn't work.

**Kristi Johnson** [01:07]

Okay, I thought we did one yesterday and you had a second segment for a horn, but I don't know if that was for a rental one or not.

**OMAHA NE** [01:13]

I don't think it was on this one. I don't think it was on this one.

**Kristi Johnson** [01:16]

Okay, okay, well, I will, I'm going to look through my tickets real quick and if not, I'll make you one. You need me to send you the service call number?

**OMAHA NE** [01:25]

Yeah,

**OMAHA NE** [01:27]

you can if you

**Kristi Johnson** [01:29]

Okay, okay, I'll look and then I'll make you one if I don't see one.

**OMAHA NE** [01:33]

want. Yeah, like I said, I'm looking through what I got here and I don't have anything with a horn.

**Kristi Johnson** [01:39]

Yeah, it doesn't always show on that first page though if it's a second segment, but...

**OMAHA NE** [01:44]

Yeah, the second one I'm looking, I got lights, battery, cab door, speed sensor, repair, diagnose repair machine, seat belt,

**OMAHA NE** [01:55]

drive wheel, monthly battery maintenance, PM. No, I don't see one.

**Kristi Johnson** [01:59]

Oh.

**Kristi Johnson** [02:02]

The one I have the horn for was Monday and it was repair lights and then horn, but it was for the

**Kristi Johnson** [02:10]

FN 1060, so it's not that one.

**OMAHA NE** [02:16]

Yeah, that would have been 21.

**Kristi Johnson** [02:18]

Okay. Yep. Yep. Okay. Okay.

**OMAHA NE** [02:19]

FN 651060. Yeah, that was 21. I can't, excuse me, I can't remember what I'm doing now.

**Kristi Johnson** [02:24]

- Yeah.

**Kristi Johnson** [02:28]

Okay, so I will make you then one for number 30 here.

**OMAHA NE** [02:32]

Yep, and I texted Rod some pictures for the part I need. I don't have the number, I just gave him pictures so he could try to find it for tomorrow. So copy Rod in on that one, please.

**Kristi Johnson** [02:42]

Okay, then I will, yeah, I'll put a rod in there. Yep, yep, I can do that. Yep, and it was just the horn, that's it, right?

**OMAHA NE** [02:47]

Okay. If you would, please. Thank you. I'm sorry.

**OMAHA NE** [02:52]

Yep, just a horn on that.

**Kristi Johnson** [02:54]

Okay, I can do that, no problem.

**OMAHA NE** [02:56]

Okay. Thank you.

**Kristi Johnson** [02:57]

Yep, yep, bye.

### AI SUMMARY

Jacob Agrappel contacted Jodi Nickell regarding an issue with service tags on forklifts, which had not been updated despite the issuance of POs.

### FULL TRANSCRIPT

**COLUMBUS NE** [00:00]

This call is being recorded for quality assurance.

**Jodi Nickell** [00:02]

Rion Equipment, Omaha. This is Jodi. How may I help you? Hey.

**COLUMBUS NE** [00:05]

Hi, Jodi, this is Jacob Agrappel.

**COLUMBUS NE** [00:08]

Hey, we were going through all of the PM proposals and stuff like that. I know I already issued the POs and stuff. It was just an internal thing. But I went ahead and had my little apprentice kid run around and verify that all the forklifts were

**COLUMBUS NE** [00:30]

UPDATED ON THE TAGS WITH NEW DATES TO SHOW THAT THEY WERE ACTUAL SERVICE AND STUFF LIKE THAT. BUT NONE OF THE TAGS WERE UPDATED. ARE YOU GUYS POSSIBLY USING SYSTEM THAT'S NOT HAND WRITTEN?

**Jodi Nickell** [00:38]

I mean, we of course have them on file here, but they should be filling out the tags.

**COLUMBUS NE** [00:54]

YEAH, NONE OF THEM GOT DONE.

**Jodi Nickell** [00:56]

Okay. And Dave was out there, I believe, doing those.

**COLUMBUS NE** [01:03]

YEAH.

**Jodi Nickell** [01:04]

Let me let John know too.

**COLUMBUS NE** [01:12]

I mean, if John just wants to bring me a bunch of tags, I'll take off the old tags, or I'll put the tag below the other one, and then I can just write it on there. Or if John wants to do it too, whatever. I like John. Go ahead and just send John.

**Jodi Nickell** [01:27]

But none...

**COLUMBUS NE** [01:28]

Because then I can talk to him about seatbelts and stuff too, even though we've already been talking about it.

**Jodi Nickell** [01:32]

None of the PM tags on the machine were filled out.

**Jodi Nickell** [01:39]

He would like to get that done. And I'll say he's requesting you. He would like to get that done.

**COLUMBUS NE** [01:53]

And then Calvin will get all jealous and stuff and then he'll call me. It's all coming together.

**Jodi Nickell** [01:59]

He also said... Okay.

**Jodi Nickell** [02:06]

John's going to be like, no he didn't. I'll be like, yeah, he did. Yeah,

**COLUMBUS NE** [02:08]

Yeah, it did. I like you guys. Thank you much.

**Jodi Nickell** [02:18]

you're welcome. Bye.

**COLUMBUS NE** [02:20]

Alright, bye.

## Inbound call from IRVINE CA

### AI SUMMARY

The conversation involved a request for a propane forklift for delivery in Albion, Nebraska, but Chad Metzger (Equipment Supplier) indicated that only a diesel option was available.

### FULL TRANSCRIPT

**IRVINE CA** [00:00]

This call is being recorded for quality assurance.

**Chad Metzger** [00:03]

Brian, Equipment is Chad.

**IRVINE CA** [00:06]

Hey, Chad. This is Justin at Big Friends at our recorded line. How are you doing today?

**Chad Metzger** [00:12]

Good, how are you?

**IRVINE CA** [00:14]

Hi, I'm doing just fine. Thanks for asking. I just wanted to ask if you guys can help me. Do you guys carry a-- or first of all, do you guys deliver to Albion, Nebraska, 68620?

**IRVINE CA** [00:31]

I'm not sure if I pronounced correctly, so forgive me if I didn't.

**Chad Metzger** [00:35]

Yeah.

**IRVINE CA** [00:38]

I'm looking for a 10K warehouse forklift and pneumatic tire that has an 8-foot fork going to that area on 11th of May. 6 to 8 a.m. delivery or

**IRVINE CA** [00:50]

pre-delivery is fine too.

**Chad Metzger** [00:52]

Let's look, see, I got that market.

**Chad Metzger** [01:02]

Could it be a diesel or does it need to be LP?

**IRVINE CA** [01:06]

It needs to run on propane.

**Chad Metzger** [01:08]

Propane. Okay, yeah, I'm not going to have anything with that capacity and propane available.

**IRVINE CA** [01:14]

Do you have anything that runs on diesel? I can try to offer it.

**Chad Metzger** [01:19]

Yeah, I do have an 11,000 pound diesel.

**IRVINE CA** [01:23]

11K forklift. Does it have a pneumatic tire?

**Chad Metzger** [01:28]

Yes.

**IRVINE CA** [01:31]

And how much is the rates for this daily, weekly and monthly?

**Chad Metzger** [01:35]

Daily is \$4.55, weekly is \$12.84, and monthly is \$37.60.

**IRVINE CA** [01:44]

And will it have an eight foot fork because our customer needs one?

**Chad Metzger** [01:49]

Oh, eight foot forks. I got six foot forks on that.

**IRVINE CA** [01:56]

With six foot fork?

**Chad Metzger** [01:57]

I do

**IRVINE CA** [01:59]

Do we have any fork extension or eight foot forks extension that we can attach?

**Chad Metzger** [02:04]

not know. I just have six foot forks for that. That's all I'm going to have.

**IRVINE CA** [02:09]

Understood. Let me

**IRVINE CA** [02:15]

check it real quick. I'm sorry.

**IRVINE CA** [02:18]

How much is the hauling?

**Chad Metzger** [02:22]

Let's look at the dispatch portal here. Something's going to Albion.

**IRVINE CA** [02:28]

Yes.

**Chad Metzger** [02:42]

It's going to be 7:15 each way.

**IRVINE CA** [02:47]

\$715 each way.

**IRVINE CA** [02:51]

Josh, let me just go ahead and ask my customer real quick for an approval in terms of the diesel unit. Once I have an answer, I will get back to you, okay?

**Chad Metzger** [03:00]

OK, sounds great.

**IRVINE CA** [03:02]

Thank you so much. I appreciate it.

**Chad Metzger** [03:04]

Thank you. You bet. Talk to you soon, Mike.

**IRVINE CA** [03:06]  
Bye-bye.

May 06, 2026 | 07:33 PM | Duration: 1m 27s | From: WIRELESS CALLER | To: +14025942051

**Inbound** **Negative**

**AI SUMMARY**

During the conversation, Derrick Dea (Company Representative) addressed a customer's concerns about damaged hoses and discussed alternative part numbers to resolve the issue.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:02]

Yeah. The one we just did earlier. Yeah.

**WIRELESS CALLER** [00:07]

And you know, on that one that I had you order the two long hoses?

**WIRELESS CALLER** [00:16]

Because, yeah, the one we did earlier. I just found an HPK

**WIRELESS CALLER** [00:24]

on the other one, and it said if they're getting chewed up the way mine are, go to a different hose number

**Derrick Dea** [00:28]

Yeah, 516-87427.

**WIRELESS CALLER** [00:35]

It's going from 3/8 to 1/4 inch. So the part number is

**WIRELESS CALLER** [00:41]

516-78472. Is that the one I gave you?

**WIRELESS CALLER** [00:53]

427.

**Derrick Dea** [00:54]

Okay. Yeah.

**WIRELESS CALLER** [00:58]

Yeah. Yeah. 516-87472. Never mind. We're just--

**WIRELESS CALLER** [01:09]

They're still getting chewed up.

**Derrick Dea** [01:12]

All right. Bye.

**WIRELESS CALLER** [01:12]

Okay. Thank you, sir. Bye.

AI SUMMARY

During the conversation, Jodi Nickell (Ryan Equipment, Omaha) coordinated with Bonnie regarding an urgent parts order, emphasizing the need for timely delivery to avoid operational delays with the trains.

FULL TRANSCRIPT

FORNEY BONNIE [00:00]

This call is being recorded for quality assurance.

Jodi Nickell [00:02]

Ryan Equipment, Omaha. This is Jodi. How may I help you? Hey. Okay. Okay. Okay. I...

FORNEY BONNIE [00:06]

Go ahead and order

FORNEY BONNIE [00:11]

it. They're making you a PO now, so Don will send it to you as soon as she gets it back.

FORNEY BONNIE [00:18]

And then when you find out we're going to be done with this train tomorrow,

Jodi Nickell [00:24]

Mm-hmm.

FORNEY BONNIE [00:25]

so I'm really hoping you can have the parts by Monday, Tuesday, next week so we can get in between trains.

Jodi Nickell [00:26]

Okay.

Jodi Nickell [00:29]

Okay. All right. I will, if it has to be overnighted, do you want me to overnight it?

FORNEY BONNIE [00:32]

Excuse me.

FORNEY BONNIE [00:39]

If

FORNEY BONNIE [00:42]

it's not overnight, we're looking at three or four days or a week.

Jodi Nickell [00:45]

Yeah. Usually it's three or four days.

FORNEY BONNIE [00:50]

Three or four days, I'm good. If we can get it done before the end of next week, I'll be in good shape.

Jodi Nickell [00:55]

Okay, we'll see what we can do. Yep. Alrighty. Bye.

**FORNEY BONNIE** [00:58]

Can you give me a heads up when you get it figured out?

**FORNEY BONNIE** [01:01]

Thank you, ma'am.

### AI SUMMARY

Earl Miller from GRAIN PROCESSIN contacted Jesse Downey (Parts representative, Ryan Equipment) to request an estimate for rotary valves needed for their shuttle wagon.

### FULL TRANSCRIPT

**GRAIN PROCESSIN** [00:00]

This call is being recorded for quality assurance.

**Jesse Downey** [00:03]

Ryan Equipment, Jesse and Parts.

**GRAIN PROCESSIN** [00:05]

Jesse, it's Earl Miller, GPC.

**Jesse Downey** [00:08]

I thought it was your own long time ago talk. That's

**GRAIN PROCESSIN** [00:10]

Yeah, I guess for me that's a good thing. You may be a bad thing.

**Jesse Downey** [00:15]

right, I got other stuff to do, but I'm more than happy to order some parts.

**GRAIN PROCESSIN** [00:20]

Well, I...

**GRAIN PROCESSIN** [00:23]

Excuse me just a second.

**GRAIN PROCESSIN** [00:30]

We used a valve, a little two-way rotary valve that I had stashed, so I need an estimate for two more of them.

**GRAIN PROCESSIN** [00:39]

It's an 844.

**GRAIN PROCESSIN** [00:42]

Dash 038713.

**Jesse Downey** [00:48]

The same

**GRAIN PROCESSIN** [00:49]

It's for

**GRAIN PROCESSIN** [00:51]

our 1999 shuttle wagon.

**Jesse Downey** [00:54]

one they go through the fan blowers motors or the fans on, I think.

**GRAIN PROCESSIN** [00:59]

Yes.

**Jesse Downey** [01:01]

Okay. You still got one of those stashed?

**GRAIN PROCESSIN** [01:03]

Yes.

**GRAIN PROCESSIN** [01:06]

Don't talk about it. They'll ruin the one we got.

**GRAIN PROCESSIN** [01:11]

I still got two old ones laying back here. Just to remind me.

**Jesse Downey** [01:18]

Probably. Gotcha. All right. I will have to reach out to Shuttle Wagon and get an updated ETA on this. And I'll send you an email with the pricing availability on this URL.

**GRAIN PROCESSIN** [01:30]

Sounds good,

**Jesse Downey** [01:31]

All right. Is there anything else they can help you with?

**GRAIN PROCESSIN** [01:33]

Jesse. Not today, maybe tomorrow.

**Jesse Downey** [01:36]

I don't know if you... You haven't ordered track sand for your machines in a while, so I don't know if you use someone else or you just don't use it very much.

**GRAIN PROCESSIN** [01:44]

Everything's been going really well with

**Jesse Downey** [01:48]

Well, that's great.

**GRAIN PROCESSIN** [01:50]

them. Yeah, like I say, I don't want to talk about it because we'll jinx it. For me, good for you, but bad for me.

**Jesse Downey** [01:57]

So... All right. We'll hang up.

**GRAIN PROCESSIN** [01:58]

But no, this just came up the other day, and luckily I had one in the cabinet.

**GRAIN PROCESSIN** [02:06]

I got a stash of stuff from all these rebuilds for everything else, and luckily everything has been going really well.

**Jesse Downey** [02:19]

That's good. Well, it helps that you have extra parts. Extra parts on hand, so you want to keep your machines up.

**GRAIN PROCESSIN** [02:19]

So that's why you ain't heard nothing from me.

**GRAIN PROCESSIN** [02:23]

Well, that's why I'm doing this.

**Jesse Downey** [02:27]

All righty.

**GRAIN PROCESSIN** [02:28]

Okay. Yep, thanks, Jesse.

**Jesse Downey** [02:29]

All right, thanks, Earl.

**Jesse Downey** [02:32]

No problem, bye-bye.

**GRAIN PROCESSIN** [02:33]

Yep, bye.

CALL 51 OF 611

# Inbound call from CARLSON RODNEY

May 06, 2026 | 07:27 PM | Duration: 2m 19s | From: CARLSON RODNEY | To: +14025942051

Inbound

Positive

## AI SUMMARY

The conversation involved Derrick Dea (Company Representative) seeking precise fork sizes from Carlson Rodney (Customer) for equipment data tagging.

## FULL TRANSCRIPT

**CARLSON RODNEY** [00:00]

This call is being recorded for quality assurance.

**Derrick Dea** [00:03]

Yes. Yeah. Fork size, that's what I need. No, it's a fork. Two by...

**CARLSON RODNEY** [00:04]

Hey, Derrick.

**CARLSON RODNEY** [00:06]

Hey, it's got the Cascade 50 series on it.

**CARLSON RODNEY** [00:13]

Oh, goddammit. They're moving some bales around. I thought you needed one of that. Okay. All right. I'll rewrite that.

**Derrick Dea** [00:22]

There's the other ones you didn't put fork links on the last three.

**CARLSON RODNEY** [00:27]

I think...

**CARLSON RODNEY** [00:31]

I'm not good at this, Derrick. I appreciate your patience on

**Derrick Dea** [00:32]

Anyway I'm working on three now, I just need the size forks around there.

**CARLSON RODNEY** [00:37]

it. Let me go again.

**CARLSON RODNEY** [00:40]

Okay, I got one sitting right here with the same attachment.

**CARLSON RODNEY** [00:44]

Hold on just one second. They are

**Derrick Dea** [00:46]

Yeah, but it's the forks, not the attachment. Because it shipped with five inch forks on there, had to have. You gotta... So...

**CARLSON RODNEY** [00:49]

2 by 6 by 48.

**CARLSON RODNEY** [00:58]

Well, it might have shifted, but we got the cascade squeezed rotator on it, attachment.

**CARLSON RODNEY** [01:06]

I mean, we might have bought it with a regular force on it, but we put different attachments on it. That's why it's kind of like...

**Derrick Dea** [01:10]

That's, I'm not worried about that. I'm just getting you data tags for the machine. I just need to know what forks are on there. Two by six by 48. Okay. Yeah.

**CARLSON RODNEY** [01:15]

Right.

**CARLSON RODNEY** [01:20]

Yeah.

**CARLSON RODNEY** [01:22]

Yeah. That's kind of why originally I was going to make them all, because I started going through all that, like, well, I'm thinking to build to what we bought it with, because I'm sure we've been buying us Cascades.

**CARLSON RODNEY** [01:33]

I don't think we did. The last few, we just got regular forks on them. We put Cascades on after we got it. So I figured it'd be the same,

**Derrick Dea** [01:34]

So number 10, I need to know 10 you put 2 by 6 by 46 and number 9 is

**CARLSON RODNEY** [01:41]

you

**CARLSON RODNEY** [01:48]

know. Yeah.

**Derrick Dea** [01:50]

2 by 6 by 48 as well. Is that what you're telling me? Okay.

**Derrick Dea** [01:55]

Alright, that's what I'll do. Bye.

**CARLSON RODNEY** [01:56]

Yep. Okay. Thank you,

**CARLSON RODNEY** [01:59]

sir. All right. Bye-bye.

### AI SUMMARY

In the call, Jodi Nickell (Representative, Equipment Omaha) responded to Forney Bonnie's (Customer, Equipment Omaha) inquiries about diagnostic time and troubleshooting costs, explaining the separate billing process.

### FULL TRANSCRIPT

**FORNEY BONNIE** [00:00]

This call is being recorded for quality assurance.

**Jodi Nickell** [00:02]

Hi, in Equipment Omaha, this is Jodi. How may I help you? Hey. On which one? Oh, you mean for how much time we have into the machine? Oh, let me see here. Let me look here.

**FORNEY BONNIE** [00:05]

Jodi, Ryan again.

**FORNEY BONNIE** [00:08]

Hey, do you know where we're at with the diagnostic time yet?

**FORNEY BONNIE** [00:18]

Yeah, because I'll need a quote with everything all in.

**Jodi Nickell** [00:28]

So it will actually be billed on a separate invoice, but it will be...

**Jodi Nickell** [00:49]

Come on, computer. So it looks like they have -- let me approve these hours real quick and it will give me a more accurate total. Yeah,

**FORNEY BONNIE** [01:09]

You said you're going to bill that separately?

**Jodi Nickell** [01:11]

the troubleshoot -- because otherwise if we try to do it all on the same ticket,

**Jodi Nickell** [01:16]

And we send a quote out and the quote, we never hear back, it holds up the whole ticket for 30 days.

**Jodi Nickell** [01:23]

So it

**Jodi Nickell** [01:28]

looks like you're at \$1,068 in troubleshooting.

**FORNEY BONNIE** [01:36]

Okay. Okay. Let's find out a thing I'm warranted.

**Jodi Nickell** [01:40]

I did not, but I'm checking with my warranty department has it, so they're checking.

**FORNEY BONNIE** [01:46]

Okay. I don't know if this is the old one or the new one. I'm not for my computer. Yes, he did.

**Jodi Nickell** [01:51]

Did Anthony call you?

**Jodi Nickell** [01:53]

Okay, because I thought maybe he would know that, but okay.

**FORNEY BONNIE** [01:56]

Honestly, I don't know if I asked him that. I was more concerned on what he did and checked.

**Jodi Nickell** [02:01]

Yeah, for sure. So, okay. As soon as I hear back, I'll...

**FORNEY BONNIE** [02:06]

All right. We get

**FORNEY BONNIE** [02:08]

five-year warranty to you guys,

**Jodi Nickell** [02:11]

I honestly can't see any of that information, so I don't know. But...

**FORNEY BONNIE** [02:14]

right? Okay. All right. We'll see what they say.

**Jodi Nickell** [02:17]

As soon as I know something, I'll let you know. Okay. Bye. Yeah.

**FORNEY BONNIE** [02:20]

All right.

**FORNEY BONNIE** [02:23]

Thanks. Hey, one other question.

**FORNEY BONNIE** [02:26]

How far out are the parts?

**Jodi Nickell** [02:26]

I won't know until I can order them.

**FORNEY BONNIE** [02:31]

All right. I'll call you back. Thanks.

**Jodi Nickell** [02:32]

Okay. All right. Bye.

### AI SUMMARY

During the call, Jason (Customer, Caller) reached out regarding an air compressor at Creston, White River, which wasn't overheating as expected.

FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded for quality assurance.

**Shelby Lathrum** [00:03]

Thank you for choosing your own equipment. How may I help you?

**JASON HICKS** [00:08]

Is he not there?

**Shelby Lathrum** [00:09]

He has not.

**JASON HICKS** [00:11]

Rude.

**Shelby Lathrum** [00:12]

I know. He specifically left because he knew you were going to call.

**JASON HICKS** [00:16]

Oh, sad day.

**Shelby Lathrum** [00:18]

I'm kidding.

**JASON HICKS** [00:20]

So

**JASON HICKS** [00:22]

I'm here at Creston, White River, looking at this air compressor.

**JASON HICKS** [00:27]

I cannot get it to overheat.

**JASON HICKS** [00:31]

Like, I've been running it full bore for probably an

**JASON HICKS** [00:37]

hour.

**Shelby Lathrum** [00:39]

Seriously?

**JASON HICKS** [00:41]

Yeah, the temp gauge does not work.

**Shelby Lathrum** [00:41]

Um...

**Shelby Lathrum** [00:46]

Okay. So how do they know it's overheating if that doesn't work?

**JASON HICKS** [00:49]

It's got a light on it and it'll shut down.

**Shelby Lathrum** [00:53]

Okay, and it hasn't done that?

**Shelby Lathrum** [00:57]

Uh, did they say who told them that it was shutting down? Like, was it, like, just a regular employee, or...

**JASON HICKS** [01:05]

Yeah, I don't know. I'm gonna go try and find Isaac here. I'm gonna shut this thing off. This thing is fricking loud.

**Shelby Lathrum** [01:07]

Okay.

**Shelby Lathrum** [01:13]

I can imagine.

**JASON HICKS** [01:14]

You have to run the valve open otherwise for the, to release air pressure.

**Shelby Lathrum** [01:22]

Yeah.

**JASON HICKS** [01:24]

Otherwise, it'll idle down and it won't get up to temp.

**Shelby Lathrum** [01:28]

It...

**JASON HICKS** [01:30]

So, yeah.

**Shelby Lathrum** [01:33]

That's funksies. Yeah.

**JASON HICKS** [01:34]

Jason's earplugs are getting a workout today.

**JASON HICKS** [01:39]

So, but, all right. Well, I will go try and find Isaac.

**JASON HICKS** [01:47]

I need to talk to him about the battery anyway.

**Shelby Lathrum** [01:50]

Okay. Okay. I don't think, uh...

**Shelby Lathrum** [01:54]

I'm not seeing a service call open. I don't know if he has the serial or not. Do you see a data tag to get a picture of

**JASON HICKS** [02:02]

Yeah. Yeah, I've got a picture of it.

**Shelby Lathrum** [02:04]

that? Okay.

**Shelby Lathrum** [02:06]

Okay. Oh, no. I think he does have it open. No, he does not. Okay. Yeah, just shoot me that when you get a chance.

**JASON HICKS** [02:14]

All right. Did Adam tell you about what happened today at BSM?

**Shelby Lathrum** [02:20]

Okay. No.

**JASON HICKS** [02:22]

So I put that master cylinder on

**JASON HICKS** [02:25]

and then bled the brakes and then was out testing it.

**JASON HICKS** [02:29]

Ouch.

**JASON HICKS** [02:31]

Well, we're getting something. There's water coming out of it now.

**Shelby Lathrum** [02:36]  
See? Patient.

**JASON HICKS** [02:39]  
Uh...

**JASON HICKS** [02:42]  
But the, anyway, there's been a kid there that's been like really hard on forklifts. They're saying,

**JASON HICKS** [02:50]  
so, uh,

**JASON HICKS** [02:55]  
well, when I went out and tested the brakes, I skid the brakes away, like three foot, did it twice. They locked both tires locked up both times. Cody seen that and he come into the shop fricking hot, hot, hot, hot.

**Shelby Lathrum** [03:08]  
Oh.

**JASON HICKS** [03:09]  
And he's like, well, anyway, it came across the, they have radios down there where they can talk to each other. And it came across the radio that whoever

**Shelby Lathrum** [03:10]  
Yeah.

**JASON HICKS** [03:25]  
finds out who did the burnout on the blacktop gets a free lunch.

**Shelby Lathrum** [03:31]  
Did you report yourself?

**JASON HICKS** [03:33]  
Yeah, I did. So, but, all right, well, I'm going to figure out what this thing's doing now and then go find Isaac.

**Shelby Lathrum** [03:37]  
Oh, gosh.

**Shelby Lathrum** [03:42]  
Okay, sounds good. All right, beep.

**JASON HICKS** [03:45]  
All right, bye.

CALL 54 OF 611

**Inbound call from WIRELESS CALLER**

May 06, 2026 | 06:55 PM | Duration: 1m 8s | From: WIRELESS CALLER | To: +14026440781

**Inbound**      **Neutral**

**AI SUMMARY**

In the conversation, Sean inquired about a part for a gale, prompting Rodney to commit to contacting Luke for updates.

## FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded for quality assurance.

**Rodney Meier** [00:04]

- Ryan Equipment, this is Rod.

**WIRELESS CALLER** [00:05]

Yeah, Rod, Sean down at Valmont.

**Rodney Meier** [00:07]

Hi, Sean.

**WIRELESS CALLER** [00:08]

I was talking to Luke. Have you found anything on that part for our gale?

**Rodney Meier** [00:15]

No, let me call him. I've sent him like three emails. He's not getting back to me. Let me give him a call, see what the \*\*\*\* is going on, why he's not getting back to me. I will call him right now. I kind of put it on the back burner. I kind of forgot about it.

**WIRELESS CALLER** [00:25]

Okay.

**Rodney Meier** [00:31]

I'm glad you reminded me. All right, let me see what I can find out, all

**WIRELESS CALLER** [00:31]

No problem. Understandable. Understandable.

**WIRELESS CALLER** [00:37]

No problem. Do you have any, heard anything on the seat for that one forklift yet or no?

**Rodney Meier** [00:41]

right? I think we have one ordered. I talked to Jake about it because I had to go up above me, but I think we got one coming.

**WIRELESS CALLER** [00:48]

Okay. Nope. No problem. So, nope. Just curious. Yep. Yep. Thank you. Yep.

**Rodney Meier** [00:51]

All right, you bet, no problem. Thanks, Sean. Bye.

CALL 55 OF 611

## Inbound call from MIKE SMITH

May 06, 2026 | 06:52 PM | Duration: 5m 9s | From: MIKE SMITH | To: +15152995624

Inbound

Positive

### AI SUMMARY

In the call, Mike Smith (Customer, Caller) inquired about warranty issues related to a truck showing signs of a test port leak with 2,778 hours.

## FULL TRANSCRIPT

**MIKE SMITH** [00:00]

This call is being recorded for quality assurance.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan equipment. How may I help you?

**MIKE SMITH** [00:06]

Oh, I was hoping I had a little answer.

**Shelby Lathrum** [00:10]

Nope, I don't know when he's going to be back.

**MIKE SMITH** [00:13]

Oh, OK. He's out.

**MIKE SMITH** [00:15]

OK. All right. No problem.

**MIKE SMITH** [00:21]

This one at Murphy is going to be a warranty.

**Shelby Lathrum** [00:25]

Oh. Okay.

**MIKE SMITH** [00:27]

I'm pretty sure it's a new truck yet because it's only got 277 hours on it.

**Shelby Lathrum** [00:33]

Okay.

**MIKE SMITH** [00:34]

Oh, 2,778.

**MIKE SMITH** [00:40]

Wow. I didn't realize they had that many hours on. Is that right?

**MIKE SMITH** [00:45]

Oh, yeah, I guess it is.

**MIKE SMITH** [00:49]

I believe it's due for PM anyway. But anyway, it's got a test port leaking on it. I'm pretty sure that's going to be warranted yet. Maybe I'll wait and run it by him, I guess.

**Shelby Lathrum** [00:58]

Yeah. How many hours?

**MIKE SMITH** [01:02]

2,778.

**Shelby Lathrum** [01:06]

Yeah, it went from new at 200 hours to the next call, adjust programmable control to 1200 hours.

**MIKE SMITH** [01:21]

Okay, yep. And then the last PM was 1,628.

**Shelby Lathrum** [01:26]

Yes. So if it has that many, yeah.

**MIKE SMITH** [01:29]

Yeah, they definitely

**MIKE SMITH** [01:34]

use it.

**Shelby Lathrum** [01:36]

Yeah. I'm not sure how the warranties work on the Unhine-Ri-R, are on the, on those.

**MIKE SMITH** [01:41]

I'm pretty sure they got extendeds on these. That's the only reason why I say that, but I want to confirm that with him. And I also sent him a video via text that I wanted to talk to him about of the leak.

**Shelby Lathrum** [01:54]

Oh, okay.

**MIKE SMITH** [01:54]

So I know the test port's leaking, but it also looks like the pump is really flexing.

**Shelby Lathrum** [02:00]

Oh, no.

**MIKE SMITH** [02:02]

So, yeah. So I just don't want to put a new test port in there and still have a pump leak. Because if it's the pump, then the whole unit's got to get replaced.

**Shelby Lathrum** [02:11]

Yeah, we don't want all that.

**MIKE SMITH** [02:15]

Yeah, I don't really want to do that. But, okay. Well, I guess I'll just wait if he comes in, have him give me a call.

**Shelby Lathrum** [02:25]

Okay. I can do

**MIKE SMITH** [02:26]

And then I got, I think I got the truck straightened out at Worth.

**Shelby Lathrum** [02:33]

that. Oh, perfect.

**MIKE SMITH** [02:34]

So I was basically on it all day until I came up here just now. But it was definitely going off wire.

**MIKE SMITH** [02:43]

I got on the phone with Craig Irish. We went through everything, recalibrated everything, reset everything, actually brought the sensors down a little bit, and it's staying on wire. Everything's operating as it should. I told him we'd have him run it for a day or two, make sure everything's good.

**MIKE SMITH** [03:03]

And then I'll give them the paperwork and everything when I go back there to put the telematics on. Because now we got the approval to do that.

**Shelby Lathrum** [03:09]

Oh, perfect.

**Shelby Lathrum** [03:12]

Good deal.

**MIKE SMITH** [03:13]

So we got the approval to do it. We're just on our own. That's what the factor says. Yeah, you can do it, but you're on your own. Yeah. Yeah, you got to figure it out. Yeah. But they didn't say we couldn't do it. So I think we'll be okay with it. So, yeah.

**Shelby Lathrum** [03:17]

Yeah. Yeah, but you got figured out. Yeah.

**Shelby Lathrum** [03:24]

Well, that's good. Good.

**MIKE SMITH** [03:29]

So anyway, that's kind of where my day went. Oh, there's a scrubber, and I don't know if you have them set up for... Do

**MIKE SMITH** [03:44]

you have them set up by location because they have two scrubbers?

**Shelby Lathrum** [03:46]

Uh, Murphy?

**MIKE SMITH** [03:49]

Yes.

**Shelby Lathrum** [03:50]

I don't know if they are set up by location. Let me see what's in the computer.

**MIKE SMITH** [03:55]

It was the one that I put the valve on last...

**MIKE SMITH** [04:02]

It has a leak again and wants me to stop over and check it. And I'm pretty sure it's going to be another hose.

**MIKE SMITH** [04:10]

So I'm going to need a work order to get it ordered and check it and all that \*\*\*\* anyway.

**Shelby Lathrum** [04:14]

Well, okay, what location is it at?

**Shelby Lathrum** [04:18]

Well, okay, I'll see what I can find.

**MIKE SMITH** [04:22]

Yeah, it was the one that I just put a valve on here recently.

**Shelby Lathrum** [04:27]

Inspect leak, one second.

**Shelby Lathrum** [04:32]

Um, replace hoses and lines and replace water tank nozzle, whatever. Okay. Um, do you want to go build off of this work order or create a new one?

**MIKE SMITH** [04:38]

That's it.

**MIKE SMITH** [04:45]

Yep. Let's go ahead and create a new one.

**Shelby Lathrum** [04:47]

Okay. I can do

**MIKE SMITH** [04:48]

That's fine. All right. Perfect. Thank you. All right. Bye.

**Shelby Lathrum** [04:50]

that. Alright. No problem. Bye.

## Inbound call from NMC Doniphan Parts - PAULSEN INC

### AI SUMMARY

Todd Babka (Company Representative) provided support to PAULSEN INC regarding a parts breakdown for a JLG E300A model, addressing a wheel seal problem and confirming the details needed for the request.

### FULL TRANSCRIPT

**PAULSEN INC** [00:00]

This call is being recorded for quality assurance.

**Todd Babka** [00:02]

Parts is tied.

**PAULSEN INC** [00:05]

Dodge, Shana, PAULSEN. Hey, buddy. I got a JLG man left. Model E300AAlphaJJohnPPaul.

**Todd Babka** [00:07]

What's going on, Shane?

**Todd Babka** [00:12]

Uh-huh.

**Todd Babka** [00:21]

Okay.

**PAULSEN INC** [00:25]

Serial number 300255487.

**Todd Babka** [00:27]

Serial number.

**Todd Babka** [00:34]

Okay. What you looking for?

**PAULSEN INC** [00:37]

Well, I'm needing a parts breakdown. We got a wheel seal out of it. So we're wanting to see what it entails to do it. I'm not sure. I'm just told wheel seal out. So we will go with one steer, pitcher, and one...

**Todd Babka** [00:42]

Okay.

**Todd Babka** [00:47]

Okay. Which end...

**Todd Babka** [00:52]

Is this a steer or...

**Todd Babka** [00:59]

Well, maybe it's not even a four-wheel drive.

**PAULSEN INC** [01:02]

Right. I don't know.

**Todd Babka** [01:05]

So, but, okay. Alrighty. What email do you want me to send it to?

**Todd Babka** [01:23]

...com.

**Todd Babka** [01:25]

Okay. Let me get in here and print some stuff off and I'll send it over to you.

**PAULSEN INC** [01:29]

Okay, thank you. Yep, goodbye.

**Todd Babka** [01:32]

Alright, you betcha. Thanks, Gene.

### AI SUMMARY

During the call, Derrick Dea (Parts) assisted a customer looking for specific hydraulic hoses and other related parts.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Yeah. All right. All

**WIRELESS CALLER** [00:05]

Derrick Day,

**WIRELESS CALLER** [00:08]

where the heck are you?

**WIRELESS CALLER** [00:12]

So on

**WIRELESS CALLER** [00:14]

service

**WIRELESS CALLER** [00:16]

call 508-271-711,

**Derrick Dea** [00:26]

right.

**WIRELESS CALLER** [00:27]

I need two

**WIRELESS CALLER** [00:31]

of a 516-87-472.

**WIRELESS CALLER** [00:39]

Those are hydraulic hoses.

**WIRELESS CALLER** [00:44]

And then I am trying to find...

**Derrick Dea** [00:48]

Okay.

**WIRELESS CALLER** [00:49]

There are two hoses in the reach

**WIRELESS CALLER** [00:54]

mast

**WIRELESS CALLER** [00:59]

that go from one manifold to the other,

**WIRELESS CALLER** [01:04]

but they're a smaller diameter,

**WIRELESS CALLER** [01:08]

and the number that was on the hose

**WIRELESS CALLER** [01:17]

I believe we've replaced them before on this one.

**WIRELESS CALLER** [01:28]

Can you help me find them?

**Derrick Dea** [01:40]

Alright, so the first one.

**WIRELESS CALLER** [01:45]

I was going through Navigator and it just stalled out on me,

**WIRELESS CALLER** [01:51]

unfortunately.

**WIRELESS CALLER** [01:57]

Let's see if I can get this pulled up.

**Derrick Dea** [01:59]

516-87427?

**WIRELESS CALLER** [02:04]

What's that?

**Derrick Dea** [02:05]

516-87427?

**WIRELESS CALLER** [02:07]

Yeah,

**Derrick Dea** [02:10]

That was the first number you gave me.

**WIRELESS CALLER** [02:12]

I need two of those. 516-87472.

**Derrick Dea** [02:19]

472.

**Derrick Dea** [02:23]

Okay. I'm going to transpose the numbers.

**WIRELESS CALLER** [02:25]

I do that frequently.

**WIRELESS CALLER** [02:32]

That one I can tell for sure because the

**WIRELESS CALLER** [02:36]

number on the tags are still there, but the other one was worn off.

**Derrick Dea** [03:18]

Thank you.

**WIRELESS CALLER** [03:51]

Are

**Derrick Dea** [03:51]

Thank you.

**Derrick Dea** [04:22]

Thank

**Derrick Dea** [04:41]

you.

**WIRELESS CALLER** [04:44]

you

**Derrick Dea** [04:45]

Yeah, I'm looking.

**WIRELESS CALLER** [04:49]

still with me?

**WIRELESS CALLER** [04:54]

I just turned my truck on. I wanted to make sure that...

**WIRELESS CALLER** [04:59]

It didn't cancel the call. I got to restart my computer to get back into parts navigator.

**Derrick Dea** [05:09]

Just one or two of that second one?

**WIRELESS CALLER** [05:26]

I need two of them.

**WIRELESS CALLER** [05:30]

And then I also need, there's

**WIRELESS CALLER** [05:34]

two plastic brackets

**WIRELESS CALLER** [05:39]

that hold those hoses in place. Those are both broken, so I need those as well. I need two of them.

**WIRELESS CALLER** [05:51]

There's like an upper, a lower, and then a metal piece that goes over the shield of it.

**Derrick Dea** [05:51]

Thank

**Derrick Dea** [05:56]

you.

**Derrick Dea** [06:37]

I'm sure a lot of made hoses. You sure you didn't have Kriha make it?

**WIRELESS CALLER** [06:43]

Not those,

**WIRELESS CALLER** [06:51]

because it's got a smaller

**WIRELESS CALLER** [06:55]

A smaller fitting that Creeha doesn't have. Or they can make it, but it's

**WIRELESS CALLER** [07:06]

a bigger fitting, and they don't work in the area that

**WIRELESS CALLER** [07:14]

they're supposed to go into.

**Derrick Dea** [07:14]

You're down.

**Derrick Dea** [07:55]

Let's see.

**Derrick Dea** [08:34]

This is on scissor

**Derrick Dea** [08:37]

carriage or where?

**WIRELESS CALLER** [08:39]

Yes, this is your carriage.

**Derrick Dea** [08:42]

Let's see here.

**Derrick Dea** [09:52]

Where are these brackets at?

**WIRELESS CALLER** [09:55]

They're in the panogram assembly,

**Derrick Dea** [09:58]

Panagraph. So go to attachment.

**Derrick Dea** [10:06]

Oh, you probably don't have yours up yet. Oh, let's see here.

**WIRELESS CALLER** [10:06]

yeah. Okay, hold

**WIRELESS CALLER** [10:09]

on a second here.

**WIRELESS CALLER** [10:12]

I am...

**Derrick Dea** [10:26]

Yeah, when there's an arrow that goes to the right, click on it, on the top part number. I think you just keep scrolling over.

**WIRELESS CALLER** [10:27]

Attachment, okay,

**WIRELESS CALLER** [10:31]

Panagram.

**WIRELESS CALLER** [10:48]

So I'm showing

**WIRELESS CALLER** [10:50]

four out of four.

**Derrick Dea** [10:53]

So where it says item 20, 40, 50, I think there's more pages.

**Derrick Dea** [11:03]

A little arrow.

**WIRELESS CALLER** [11:08]

Yeah, it's only showing four out of four for Panagram.

**Derrick Dea** [11:14]

So we need to find a different one.

**WIRELESS CALLER** [11:18]

Are you

**Derrick Dea** [11:21]

I just kicked myself out. \*\*\*\*. All right.

**Derrick Dea** [11:27]

I'm on the new one, attachments,

**Derrick Dea** [11:32]

pantograph, and there's 10 and 20. What's 20?

**WIRELESS CALLER** [11:45]

in, uh, Attachments,

**Derrick Dea** [12:05]

Attachments. Then item 10, there should be an arrow. Build the materials, build the materials. And there should be more pictures somewhere. Then you just arrow through them.

**WIRELESS CALLER** [12:06]

Panagram.

**WIRELESS CALLER** [12:22]

So when I click on Panagram, I got,

**WIRELESS CALLER** [12:27]

it says roller supporting and Panagram.

**Derrick Dea** [12:30]

Yeah, that's where I'm at too.

**Derrick Dea** [12:34]

I've got to figure out how to

**WIRELESS CALLER** [12:34]

I click on that,

**WIRELESS CALLER** [12:36]

and then it just takes me over to four of four,

**Derrick Dea** [12:41]

navigate.

**WIRELESS CALLER** [12:42]

which doesn't have any of the hoses.

**WIRELESS CALLER** [12:47]

It's just all the, oh wow.

**WIRELESS CALLER** [13:11]

And now it's locked up on me again.

**Derrick Dea** [13:14]

Well, I'm clicking through all of them.

**Derrick Dea** [13:21]

I think it's going to stop at 74 though.

**WIRELESS CALLER** [13:33]

Let's see, now I will have to go completely out

**WIRELESS CALLER** [13:44]

to get back into that.

**WIRELESS CALLER** [13:50]

Yep.

**Derrick Dea** [13:54]

Oh.

**Derrick Dea** [14:20]

I've

**Derrick Dea** [14:24]

got to get the paragraph and click page by page and it stopped at 74. So that tells me I've got to go somewhere else on here.

**WIRELESS CALLER** [14:38]

I'm going in through

**WIRELESS CALLER** [14:42]

MCFA

**WIRELESS CALLER** [14:45]

because I can at least

**WIRELESS CALLER** [14:49]

Maneuver through there without it stalling out on me.

**WIRELESS CALLER** [14:57]

Attachments.

**Derrick Dea** [15:24]

Thank you.

**WIRELESS CALLER** [15:41]

I

**Derrick Dea** [16:11]

Roller supporting pantograph. \*\*\*\*\* let me go through it.

**Derrick Dea** [17:07]

Thank you.

**WIRELESS CALLER** [17:17]

feel

**Derrick Dea** [17:23]

There's the backside of it.

**Derrick Dea** [17:52]

That goes back a little.

**WIRELESS CALLER** [18:03]

your pain, man.

**Derrick Dea** [18:09]

Where

**Derrick Dea** [18:12]

the

**WIRELESS CALLER** [18:22]

It should not be this difficult.

**Derrick Dea** [18:40]

\*\*\*\* is the rest of my pictures?

**Derrick Dea** [19:08]

220, 230, that's 220.

**Derrick Dea** [19:35]

220.

**Derrick Dea** [20:57]

All right, 8282, 630,

**WIRELESS CALLER** [21:29]

I wonder if...

**Derrick Dea** [21:34]

82. Hold on. All right, go to... I'm

**WIRELESS CALLER** [21:41]

Are you in

**Derrick Dea** [21:43]

in the cat stuff.

**WIRELESS CALLER** [21:49]

the dealer

**WIRELESS CALLER** [21:51]

net?

**WIRELESS CALLER** [21:54]

Okay.

**WIRELESS CALLER** [21:56]

Are you in by serial number?

**Derrick Dea** [22:00]

Yeah. Go to pantograph. Yep, ETR 230. OK, I'll take you back all the way home. Go into the

**WIRELESS CALLER** [22:00]

Okay. ETR 230.

**WIRELESS CALLER** [22:07]

Okay.

**Derrick Dea** [22:11]

beginning, then go down to where it says load guard pantograph.

**WIRELESS CALLER** [22:19]

Is that

**WIRELESS CALLER** [22:27]

under attachments?

**Derrick Dea** [22:29]

SD825SH50/N0T64. Yep.

**WIRELESS CALLER** [22:31]

Attachment. Okay, then G1.

**Derrick Dea** [22:32]

G1 attachment. I got forks, load guard, pantograph, and then go pantographs SD825SH50-N0T64.

**WIRELESS CALLER** [22:45]

Okay, got it.

**Derrick Dea** [22:45]

Then we'll click one, two, three, four, five, thirty-four, six.

**Derrick Dea** [22:54]

Number eight, I think is

**Derrick Dea** [22:59]

it. Plate, plate. Mount, arch. I think it's page eight.

**Derrick Dea** [23:10]

10, what's 10? Valve block assembly. What's 20? Mounting parts.

**WIRELESS CALLER** [23:21]

Pentagram assembly.

**Derrick Dea** [23:25]

Trying to find the hoses.

**WIRELESS CALLER** [23:30]

Cylinder reach.

**Derrick Dea** [23:31]

Might be 13, maybe. Maybe it's 13, number 20. Mounting parts, bumpers. What's 10? Valve block assembly.

**Derrick Dea** [23:54]

Trying to find your hoses.

**WIRELESS CALLER** [24:12]

So that's not it. I'm getting close.

**Derrick Dea** [24:22]

28?

**WIRELESS CALLER** [24:36]

515-41598

**Derrick Dea** [24:44]

How many?

**WIRELESS CALLER** [24:47]

for two. I think that's it.

**Derrick Dea** [24:50]

What page is that on?

**WIRELESS CALLER** [24:55]

I am

**WIRELESS CALLER** [25:00]

in... What page is it? It's part number 90.

**Derrick Dea** [25:07]

Page at the bottom, 27 and 34?

**WIRELESS CALLER** [25:16]

It's by the reach cylinders.

**WIRELESS CALLER** [25:23]

I'm not seeing a page number.

**Derrick Dea** [25:25]

At the bottom where it says 11 of 34, 12 of 34.

**WIRELESS CALLER** [25:31]

It says

**WIRELESS CALLER** [25:34]

one of two, two of two.

**WIRELESS CALLER** [25:38]

Let's

**WIRELESS CALLER** [25:59]

see. Gosh.

**Derrick Dea** [26:14]

Are you on the other one? SCSD825.

**Derrick Dea** [26:20]

There's Panagraph. And there's a couple others below that.

**Derrick Dea** [26:30]

I was under the one that was running our load guard.

**Derrick Dea** [26:35]

He probably went down farther.

**WIRELESS CALLER** [26:39]

Oh, \*\*\*\*. Now it just took me all the way back out.

**Derrick Dea** [26:43]

51541598.

**WIRELESS CALLER** [26:44]

Let's see.

**Derrick Dea** [27:15]

I found it. It's on a...

**Derrick Dea** [27:20]

Those pantograph cylinders.

**WIRELESS CALLER** [27:26]

So

**WIRELESS CALLER** [27:28]

they actually come from the manifold, not the cylinders.

**WIRELESS CALLER** [27:42]

Oh, wait a minute.

**Derrick Dea** [27:54]

That's

**Derrick Dea** [27:59]

a 3/16 hose.

**WIRELESS CALLER** [28:01]

Yeah, they're a little thing.

**WIRELESS CALLER** [28:14]

So

**WIRELESS CALLER** [28:18]

I'm seeing one here that's a, they call it a valve block assembly.

**Derrick Dea** [28:27]

I got to get to your page. I'm not even on your page.

**WIRELESS CALLER** [28:31]

Yeah.

**Derrick Dea** [28:33]

So

**Derrick Dea** [28:41]

I was under attachment. G1 attachment. Pantograph.

**WIRELESS CALLER** [28:45]

Oh, that's not it.

**Derrick Dea** [28:59]

There are several pantographs and valve blocks under there.

**WIRELESS CALLER** [29:19]

See, they've got,

**Derrick Dea** [29:34]

Nowhere it says attachment, G1 attachment.

**Derrick Dea** [29:38]

You got forks, load guard, pantograph, pantograph,

**WIRELESS CALLER** [29:39]

yeah.

**Derrick Dea** [29:44]

pantograph.

**Derrick Dea** [29:46]

In like three different pictures.

**WIRELESS CALLER** [29:55]

Well, the one that I got, it's weird because

**WIRELESS CALLER** [30:03]

there's

**WIRELESS CALLER** [30:06]

34.

**Derrick Dea** [30:11]

Thank

**Derrick Dea** [31:04]

you.

**WIRELESS CALLER** [31:08]

So let's see here.

**Derrick Dea** [31:09]

I've got to find the brackets, too. I've got to get on the right page.

**WIRELESS CALLER** [31:20]

Yeah.

**WIRELESS CALLER** [32:31]

This is weird. It shows what I am assuming to be the hoses that I need.

**WIRELESS CALLER** [32:38]

But when I click on the number,

**Derrick Dea** [32:41]

Why? Why?

**WIRELESS CALLER** [32:44]

it says

**WIRELESS CALLER** [32:46]

mounting parts bumper or

**WIRELESS CALLER** [32:52]

valve block assembly.

**WIRELESS CALLER** [32:56]

So

**Derrick Dea** [32:59]

Why?

**WIRELESS CALLER** [33:02]

they ain't

**Derrick Dea** [33:03]

Why?

**WIRELESS CALLER** [33:05]

right. They ain't right.

**WIRELESS CALLER** [33:17]

COI's main.

**WIRELESS CALLER** [33:31]

No, that's not it.

**WIRELESS CALLER** [33:49]

No,

**WIRELESS CALLER** [33:56]

there's

**Derrick Dea** [34:06]

So it doesn't go to these cylinders.

**WIRELESS CALLER** [34:09]

a manifold that sits in the middle of the mainframe.

**Derrick Dea** [34:09]

Down

**Derrick Dea** [34:17]

at the bottom, right?

**WIRELESS CALLER** [34:21]

Yeah, well, it's actually on the top of the

**WIRELESS CALLER** [34:36]

frame.

**Derrick Dea** [34:44]

Thank you.

**WIRELESS CALLER** [35:04]

Hold on just a second, Derrick.

**Derrick Dea** [35:26]

Yeah, it just says mounting parts is pointing right to a \*\*\*\* hose.

**Derrick Dea** [35:44]

Thank you, everyone.

**Derrick Dea** [36:22]

Where the heck are they? Why does it do that? I'm going to try something else here. I'm going to go back here.

**WIRELESS CALLER** [36:32]

All right,

**WIRELESS CALLER** [36:39]

I'm back.

**Derrick Dea** [36:41]

I'm taking the serial number out.

**Derrick Dea** [36:56]

See if I can figure it out that way.

**Derrick Dea** [37:02]

Pantograph. Pantograph assembly.

**Derrick Dea** [37:16]

Mounting parts.

**Derrick Dea** [37:22]

Hose, 20.

**Derrick Dea** [37:29]

Is that 20? Yeah, look at this picture. I'm going to email this to you. I don't know how I figured that out, but if this is it.

**WIRELESS CALLER** [37:29]

Yeah,

**Derrick Dea** [38:19]

They're different. Huh. Quarter inch.

**Derrick Dea** [38:36]

I sent

**Derrick Dea** [38:46]

it to you.

**Derrick Dea** [38:54]

Well, those are the ones you're looking for, I don't know, but what it sounds like, top center block, two hoses.

**Derrick Dea** [39:03]

Number 10 on the right and 20 on the left. I kind of go down and loop around and up and down again.

**WIRELESS CALLER** [39:03]

because there's...

**WIRELESS CALLER** [39:13]

Jack, D. Yeah, see, that's the ones that

**Derrick Dea** [39:16]

Yep.

**WIRELESS CALLER** [39:21]

I had found, but when I clicked on those,

**WIRELESS CALLER** [39:26]

they didn't come up to those numbers. They came up the block and something else.

**Derrick Dea** [39:33]

Yep, I found that too. So I went back and took the serial number out.

**Derrick Dea** [39:39]

I went down to Panagraph and picked one and started clicking through it and found that one. I think it was the first one.

**WIRELESS CALLER** [39:49]

So you're in attachments, G1.

**Derrick Dea** [39:55]

Panagraph assembly, mounting parts, hydraulic hoses, main run. I don't know how I found it, but...

**Derrick Dea** [40:04]

I was like, what?

**WIRELESS CALLER** [40:06]

I think those...

**WIRELESS CALLER** [40:09]

What are the part numbers on it?

**Derrick Dea** [40:11]

10 is 515-73471, and

**Derrick Dea** [40:20]

20 is 515-41574. Now

**WIRELESS CALLER** [40:26]

I believe that is the two that we need,

**Derrick Dea** [40:29]

I've got to find the brackets that hold it. That'll be fun.

**WIRELESS CALLER** [40:29]

one of each.

**WIRELESS CALLER** [40:35]

Yeah, because I need two of those.

**Derrick Dea** [40:38]

Or one of each, right?

**WIRELESS CALLER** [40:41]

Yeah, well, there's...

**WIRELESS CALLER** [40:47]

Oh, wait a minute, what's this?

**WIRELESS CALLER** [40:53]

Ha! I just found the bracket.

**Derrick Dea** [40:56]

Where'd you find that at?

**WIRELESS CALLER** [40:58]

Hold on. You're asking way too much, man. I just clicked on it and I thought, oh, look at that. So it is,

**WIRELESS CALLER** [41:17]

so it's, I got three part numbers here for you.

**WIRELESS CALLER** [41:23]

So the bracket is 516-038-17.

**WIRELESS CALLER** [41:32]

The cover is 51934669

**Derrick Dea** [41:39]

Okay. Mm-hmm.

**WIRELESS CALLER** [41:41]

and the screws are 12676.

**Derrick Dea** [41:47]

How many of each?

**WIRELESS CALLER** [41:49]

I need two of the brackets, two of the covers,

**WIRELESS CALLER** [41:56]

and two

**WIRELESS CALLER** [41:59]

of the screws.

**Derrick Dea** [42:00]

And two hoses, one 10 and one 20, right? Wasn't that fun? Don't you feel like you accomplished something?

**WIRELESS CALLER** [42:05]

Correct. God.

**WIRELESS CALLER** [42:10]

That was just,

**WIRELESS CALLER** [42:13]

you know, I do feel accomplished,

**Derrick Dea** [42:16]

Me too, my brain hurts.

**WIRELESS CALLER** [42:18]

but I feel exhausted at the same time. And it,

**WIRELESS CALLER** [42:23]

you know, and it's,

**WIRELESS CALLER** [42:25]

wow. Wow. Yeah, for tomorrow. Hopefully they're the right ones.

**Derrick Dea** [42:26]

All right. We'll find out tomorrow.

**WIRELESS CALLER** [42:36]

Yeah.

**Derrick Dea** [42:37]

All right. We'll do. Yep.

**WIRELESS CALLER** [42:38]

Thank you, sir.

**Derrick Dea** [42:41]

Bye.

---

CALL 58 OF 611

## Inbound call from JASON HICKS

May 06, 2026 | 05:18 PM | Duration: 5m 15s | From: JASON HICKS | To: +15152995624

Inbound

Positive

### AI SUMMARY

During the call, Jason Hicks (Employee) mentioned his tire service appointment and discussed using Teams to handle a survey.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Yep. \*\*\*\*.

**JASON HICKS** [00:05]

Hey, a couple of things

**JASON HICKS** [00:08]

that

**JASON HICKS** [00:11]

you just sent that email out about the employee opinion survey.

**JASON HICKS** [00:17]

I have that appointment to do my tires first thing in the morning.

**Adam Henderson** [00:21]

Maybe I can just share it to you on Teams.

**JASON HICKS** [00:26]

Yeah, I mean, I can hotspot in or

**JASON HICKS** [00:32]

And do it on, or just, you know, connect via Teams. Or I can see if I can move it back to late morning.

**Adam Henderson** [00:40]

Nah, I'll just figure it out on Teams.

**JASON HICKS** [00:45]

And then

**JASON HICKS** [00:48]

the scissor lifts down here at BSM.

**JASON HICKS** [00:56]

Do they both show in PRO as SkyTracks?

**Adam Henderson** [01:03]

Both Skyjacks,

**JASON HICKS** [01:11]

One of them's a JLG.

**Adam Henderson** [01:14]

yeah. Okay.

**JASON HICKS** [01:16]

So, yeah.

**Adam Henderson** [01:16]

How did we get now? Because we got Skyjack. Is it the one that ends in,

**Adam Henderson** [01:24]

or the serial starts in 2001?

**JASON HICKS** [01:29]

Just a second.

**JASON HICKS** [01:32]

I'm driving the papers on my clipboard on the floor on the other side.

**Adam Henderson** [01:35]

Eh, don't worry about it. We can straighten it out later.

**JASON HICKS** [01:38]

Yeah, I mean, I did the right form for the unit, so it's just a matter of changing it in the system.

**Adam Henderson** [01:45]

Yeah, I can't remember if we can change the model number or if we can change the serial number. But we'll figure it out.

**JASON HICKS** [01:55]

Yeah, so, and then now I'm headed to Creston.

**Adam Henderson** [01:59]

Okay. Sounds good.

**JASON HICKS** [02:03]

So, all right, so I got Cody's blood pressure up today.

**Adam Henderson** [02:08]

How's that?

**JASON HICKS** [02:10]

So I did that master cylinder and then I went out onto their blacktop and just locked the brakes up.

**JASON HICKS** [02:19]

Well, apparently, just a

**JASON HICKS** [02:24]

minute. I thought that was a state trooper. Apparently

**JASON HICKS** [02:30]

they've been having problems with people tearing the \*\*\*\* out of the forklifts and \*\*\*\* down there.

**JASON HICKS** [02:37]

So he's seen this. Well, I went out on the blacktop and I locked the brakes up twice. It skid for like three feet and stopped like.

**Adam Henderson** [02:44]

Oh,

**JASON HICKS** [02:46]

So he came by and seen those black marks and he went into the warehouse or into the shop and he was \*\*\*\*\* off, like \*\*\*\*\* off.

**JASON HICKS** [02:58]

They came out over the radio and they're like, I am giving a free lunch.

**JASON HICKS** [03:03]

To anyone who finds who did the burnout on a forklift out in the street. And I'm like, I'm like, am I in trouble? And the guys that load trucks and whatnot, they come over and talk to me and they're like, did you see who did that? And I'm like,

**Adam Henderson** [03:09]

that's funny.

**Adam Henderson** [03:13]

Can I have a free lunch now?

**JASON HICKS** [03:24]

I didn't see who did it, but I know who did it. They're like, who did it? And I'm like, it was me. And they're like,

**JASON HICKS** [03:32]

you're \*\*\*\*\* me. And I'm like, no, I was testing the brakes.

**Adam Henderson** [03:36]

Yeah.

**JASON HICKS** [03:37]

So I went in and talked to Jack. I'm like,

**JASON HICKS** [03:42]

I heard Cody was a little \*\*\*\*\* off. And he goes, yeah, so am I. And I'm like, about what? And he goes, the burnout under the street. And I'm like, that's not a burnout.

**JASON HICKS** [03:52]

That's a skid. He goes, how do you know? I'm like, because I did it. He goes, oh, Jesus Christ, Jason.

**Adam Henderson** [03:59]

Yeah, that's how you test it.

**JASON HICKS** [04:01]

I'm like, I did the master cylinder and then locked the brakes up after I got done. And it locked up as soon as I pressed the pedal and it stopped.

**JASON HICKS** [04:12]

And I said, and if you're doing, leaving marks like that with a pallet on, you shouldn't be.

**JASON HICKS** [04:20]

So, but yeah, Cody was a little \*\*\*\*\* off about that until he realized who it was and why.

**Adam Henderson** [04:27]

Yeah. Yeah. That's funny.

**JASON HICKS** [04:28]

So, but this air compressor at White River, is it, uh,

**JASON HICKS** [04:39]

is just, they're complaining of it overheating?

**Adam Henderson** [04:41]

Yeah, I don't know if it's engine overheat or compressor overheat, but my guess is like thermostat.

**JASON HICKS** [04:52]

Something.

**JASON HICKS** [04:54]

All right. Well, I'm going to stop here and then I'm going to head over there.

**Adam Henderson** [05:01]

Okay, sounds good.

**JASON HICKS** [05:02]

All right. Goodbye.

---

CALL 59 OF 611

## Inbound call from HAMPTON DENNIS

May 06, 2026 | 04:50 PM | Duration: 4m 2s | From: HAMPTON DENNIS | To: +14026440781

Inbound

Positive

### AI SUMMARY

During the call, Rodney Meier (Company Representative) updated HAMPTON DENNIS (Customer) about the arrival of bearing kits and discussed their distribution.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Yes,

**HAMPTON DENNIS** [00:06]

Hey, just an FYI that that transfer from Gary Peterson showed up and then the bearing kits that you ordered from Logisnext showed up.

**HAMPTON DENNIS** [00:21]

I don't have the POs or transfer numbers in front of me.

**Rodney Meier** [00:23]

sir. Okay, the bearing kits are for Volcraft. The one from Sioux Falls goes to Smeal, but there's another part coming from North Platte. I think you got a spherical bearing from Sioux Falls?

**HAMPTON DENNIS** [00:40]

No, it was the retainer. The spherical bearing must be coming.

**Rodney Meier** [00:42]

Okay, it's the retainer. Okay, the spherical bearing is coming from North Platte.

**Rodney Meier** [00:47]

Those were the only two pieces Omaha didn't have for the whole steering section. And rather than trying to tell them to ship those direct, I just thought I'd bring them in here and then I'll send them out when I get them together. He ordered enough for two axles, so he's got plenty. He just needs these when we get them complete. That's why I didn't

**HAMPTON DENNIS** [00:52]

Sure.

**HAMPTON DENNIS** [01:06]

Oh, \*\*\*\*. No.

**Rodney Meier** [01:11]

Didn't send them direct. So probably be one from North Platte tomorrow. It'll be a spherical bearing for a stair cylinder. So yeah, those two, but the other bearings for the side shift bearings are for Volcraft. Troy ordered those.

**HAMPTON DENNIS** [01:29]

Okay. And then I had a gentleman call me from, what the \*\*\*\* is that? Truck shop on the east side of town. Cornhusker in Nashville, that's what I'm trying to say.

**Rodney Meier** [01:42]

Oh, okay.

**HAMPTON DENNIS** [01:43]

I've got a serial number here. He needs the micro switch for the park brake lever. Do you want to get one of them coming?

**Rodney Meier** [01:56]

Sure.

**HAMPTON DENNIS** [01:56]

I've got the serial number in front of me. It is AT3480212.

**Rodney Meier** [02:08]

Okay, that's for Cornhusker.

**HAMPTON DENNIS** [02:11]

Yep, Coronet's Grand International.

**Rodney Meier** [02:16]

Okay. That cable I ordered for Mahaska was the wrong one. It was the one for the machine and not the battery. Omaha had the correct one, so it'll be up here on the shuttle tomorrow, and we'll swap them out. I did a return ticket on the other cable already. It's on the printer, so you'll have it ready when we swap them out tomorrow.

**Rodney Meier** [02:39]

And I will, I'll receive those cables or those wear pads and I'll give Troy a call and let him know that I have them.

**HAMPTON DENNIS** [02:50]

Yeah, they're sitting on the parts table on the north end of the office there.

**Rodney Meier** [02:55]

Okay, nope, that'll be fine. I will let him know.

**HAMPTON DENNIS** [02:58]

I am jetting for Cargill quick. It's

**HAMPTON DENNIS** [03:02]

Dan's having a \*\*\*\* of a time with the battery and Luke's tied up, so I'm jetting down

**Rodney Meier** [03:08]

Okay, okay, well then you can take that shipping label along and just get rid of it.

**HAMPTON DENNIS** [03:14]

there. Yep, it's sitting right beside me.

**Rodney Meier** [03:19]

Nope, that'll be fine. I will receive those. I'll get a \*\*\* to Troy. And like I say, just that retainer, just set it off to the side. When we get the spherical bearing, we'll send them both out.

**HAMPTON DENNIS** [03:30]

Yep, it's sitting on the table with the bearings,

**Rodney Meier** [03:37]  
Okay.

**HAMPTON DENNIS** [03:39]  
but awesome. I appreciate it. Well, let's get back to it. Yep. Thanks, Rod. Bye.

**Rodney Meier** [03:39]  
All right. Sounds good. You bet. All right. Talk to you later. You bet. Bye.

CALL 60 OF 611

**Inbound call from RICE MN**

May 06, 2026 | 04:34 PM | Duration: 0m 34s | From: RICE MN | To: +13203427817

**Inbound**      **Neutral**

**AI SUMMARY**

Rice called Amber to clarify a parts invoice issue, mentioning that the invoice was printed on both sides, which caused confusion. Amber assured Rice that the issue was resolved and they ended the call.

**FULL TRANSCRIPT**

**RICE MN** [00:00]  
This call is being recorded.

**Amber Barth** [00:04]  
Rion equipment, just with Amber.

**RICE MN** [00:05]  
Hey, one more thing though. I didn't get on the parts invoice copy.

**RICE MN** [00:13]  
It says page two of two. Oh, forget it once again. I'm in a hurry and I'm an idiot. It's printed on both sides. Okay, thank you.

**Amber Barth** [00:21]  
You're good.

**Amber Barth** [00:25]  
All right, talk to you later. Bye.

### AI SUMMARY

Amber Barth (Company Representative) and RICE MN discussed the verification of lift components, confirming their correctness and setting the stage for further steps in the project.

### FULL TRANSCRIPT

**RICE MN** [00:00]

This call is being recorded.

**Amber Barth** [00:05]

It is.

**RICE MN** [00:06]

Hey Amber, Jason. I stand corrected. It looks like that stuff is the right stuff for that lift. Ear pins look right. All that hardware, we didn't take it apart, but you hold them up to each other and they look right. And then the slide pads look like they're right. I can't tell on the top bearings, but the bottom ones are definitely right, so I would assume we should be okay.

**Amber Barth** [00:15]

Okay, perfect. I

**Amber Barth** [00:32]

was going to start digging after this estimate, so... No, no, no. You let me know, though, and I'll probably still just poke and dig and see just to be safe, too, but I want to make sure,

**RICE MN** [00:32]

Sorry to scare you. I think we're okay, Andrew. Okay. Sounds good.

**RICE MN** [00:50]

Yep. Thank you so much. Have a good one. Bye.

**Amber Barth** [00:51]

too. Yes, you too. Talk soon.

CALL 62 OF 611

### AI SUMMARY

The conversation involved Kristi Johnson (Representative) assisting the caller with scheduling a mandatory meeting and addressing equipment issues, including a damaged door and slow travel speed concerns.

FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Kristi Johnson** [00:03]

Hey, Dan.

**OMAHA NE** [00:04]

Hello. Could you put on the mandatory meeting or the job meeting thing so I put the time from this morning on?

**Kristi Johnson** [00:05]

What's up?

**Kristi Johnson** [00:12]

Yep, I can do that. Yep, I will do that.

**OMAHA NE** [00:15]

And then I just sent you another email on 32, which I had one for a drive wheel, but as I got it out here, the door's damaged. And then there was a slow speed deal. I'm not sure. I don't think it's damage on that one, but...

**OMAHA NE** [00:30]

I don't know what's exactly wrong with it yet. I haven't got that far.

**Kristi Johnson** [00:34]

Okay, well, I'll probably just put them on the same one. Well,

**OMAHA NE** [00:42]

Yeah, I just said second segment for the slow travel speed.

**Kristi Johnson** [00:42]

yeah, I'll

**Kristi Johnson** [00:44]

just, yeah, I'll just, yeah, I'll just put a second segment on there. We'll just keep it on the same one. That's fine. Yeah.

**OMAHA NE** [00:51]

Okay, that'll work.

**Kristi Johnson** [00:51]

Okay. All right. That'll work. All right. Thanks.

**OMAHA NE** [00:55]

Yep, and like I said, I didn't have anything to put a meeting on this morning, so while I'm thinking about it, I'm going to call you.

**Kristi Johnson** [01:00]

Yep. I'll put

**Kristi Johnson** [01:02]

you on that.

**OMAHA NE** [01:04]

Cool, thank you.

**Kristi Johnson** [01:06]

Yep. Bye.

**OMAHA NE** [01:07]

Yeah, bye.

## Inbound call from RICE MN

### AI SUMMARY

During the call, Jason (RICE MN) sought clarification regarding the compatibility of parts for a GT60 truck based on a drawing for a GT50 model.

### FULL TRANSCRIPT

**RICE MN** [00:00]

This call is being recorded.

**RICE MN** [00:03]

Okay, I'll get somebody over there.

**Amber Barth** [00:05]

Right, equipment says Amber.

**RICE MN** [00:06]

Hey, Amber, Jason with Furchie.

**RICE MN** [00:11]

Hey, just a quick question here. I got the steer pin stuff that Mallory picked up, and I don't have the truck in front of me, but boy, that stuff looks big. I could be wrong. The drawing that we went off that says model or series GT50,

**RICE MN** [00:30]

The truck is a GT60. Are they the same steer axle, the 50s and 60s, or is the 50 going to be, it wouldn't be bigger, it'd be smaller, right, because it goes 50, 60, 80, right?

**Amber Barth** [00:41]

Right, yep.

**RICE MN** [00:44]

Okay, like I said, I'll have to verify that, because I went off that drawing that we ordered it off of, which you sent me that attachment, right, the PDFs, and the part numbers jive, like, for instance, the pin, you know, is a,

**Amber Barth** [00:51]

Yep,

**RICE MN** [00:57]

The parts, the number on the bag jives, right? But they look awfully big. I guess I can verify against the truck here first, but I just want to let you know. I'll check it and I'll get back to you. I just wanted to make sure that that drawing is the one you actually ordered it off of.

**Amber Barth** [01:05]

yep. Sure, sure, yep.

**RICE MN** [01:16]

And that that drawing, does that drawing cover the 60 then as well? Because if you look at the drawing, it says GT-50.

**Amber Barth** [01:17]

Sure, sure, yes.

**Amber Barth** [01:26]

Yes, I don't have it pulled up, but no, that's okay. No, that's fine. I'll look, but if you want to just verify and then

**RICE MN** [01:27]

Sorry, I can resend.

**RICE MN** [01:39]

Okay, I'll take a look.

**Amber Barth** [01:39]

double check and then...

**Amber Barth** [01:42]

Perfect. And then let me know. And then either way, we'll get it corrected if we need to.

**RICE MN** [01:45]

Sounds

**RICE MN** [01:49]

good, thanks.

**Amber Barth** [01:51]

Thank you. Bye-bye.

**RICE MN** [01:52]

Bye.

**Inbound**

**Neutral**

### AI SUMMARY

Mark (Customer) reached out to discuss the shipment of a drain plug, expressing frustration over not receiving a response to his previous email.

### FULL TRANSCRIPT

**COLUMBUS NE** [00:00]

This call is being recorded.

**COLUMBUS NE** [00:07]

ROD, MARK, WITH CENTRAL STANDING GRAVEL. CAN YOU TELL ME IF THAT DRAIN PLUG WAS

**COLUMBUS NE** [00:14]

COMING TO YOU OR COMING HERE OR --

**Rodney Meier** [00:18]

I can ship it direct to you. I haven't done anything with it yet. I didn't see an authorization to order it, but I can sure get it coming.

**COLUMBUS NE** [00:26]

WELL, BY GOD, THAT'S -- YOU TOLD ME TO STAY OUT. I GUESS I SENT AN E-MAIL BACK, BUT I GOT NO REPLY.

**Rodney Meier** [00:34]

Oh, I guess I don't remember seeing a response. Let me double check it. I can sure get it coming for you, Mark. That would be on me.

**COLUMBUS NE** [00:43]

No, no, it's fine. I would just, yeah, I guess I was sitting around here waiting to pick it up today, but I should have known when I didn't hear back that I should have made contact.

**Rodney Meier** [00:53]

That's all right. It happens. It happens. Not a problem.

**COLUMBUS NE** [00:57]

So, if you skip it direct, how does it come? ASAP?

**Rodney Meier** [01:01]

It'll come on UPS.

**COLUMBUS NE** [01:06]

All right. Yeah, that'll work.

**Rodney Meier** [01:07]

All right, yeah, 'cause it'll come out of Kansas City on UPS.

**COLUMBUS NE** [01:12]

All right. And so, you found my email about sending me a pro forma?

**Rodney Meier** [01:13]

I

**Rodney Meier** [01:18]

am looking right now.

**COLUMBUS NE** [01:23]

MONDAY AT 1:41 PM. All right,

**Rodney Meier** [01:31]

Yep, there it is. Please get it coming. Send me a performance so I can get a PO.

**COLUMBUS NE** [01:37]

we're all on the same page tomorrow though,

**Rodney Meier** [01:39]

Yep. Yes, I'll order it right now and

**Rodney Meier** [01:44]

I'll put a P.O. on the bill. There won't be one on the ticket, but that's fine. And I assume you want it to the 2251, 48th Avenue, to your shop there. Okay. It'll be ordered in the next 10 minutes.

**COLUMBUS NE** [01:53]

right? Correct. Yep,

**COLUMBUS NE** [01:59]

yep. All right, then when you get a chance, send me a pro forma, I'll get you a purchase order. All

**Rodney Meier** [02:01]

Yep. I will do that right away also. All right.

**COLUMBUS NE** [02:05]

right? Thank you.

**Rodney Meier** [02:06]

You bet, Mark. Thank you. Bye.

## Inbound call from ANDERSON SHEREE

Inbound

Positive

### AI SUMMARY

Charles Huffman (Sales rep) reached out to Anderson (Customer) to confirm details regarding seat cushion options and parts for a function lever cover, with Anderson agreeing to review the information at their next site visit.

### FULL TRANSCRIPT

**ANDERSON SHEREE** [00:00]

This call is being recorded.

**ANDERSON SHEREE** [00:06]

Yes,

**Charles Huffman** [00:07]

Hello. I sent you a couple of emails.

**ANDERSON SHEREE** [00:10]

darling. Uh-huh.

**Charles Huffman** [00:11]

So the seat cushion, I sent you a picture of what's available from

**Charles Huffman** [00:17]

DealerNet versus what's available from TVH, either just a cushion from DealerNet or the whole seat from TVH. Does that seat look correct?

**ANDERSON SHEREE** [00:30]

I'll have to look.

**Charles Huffman** [00:31]

OK. And then secondly, on the--

**Charles Huffman** [00:35]

Function lever cover thingy. I sent you drawing with all the pieces on there. I need you to identify what all you want.

**Charles Huffman** [00:44]

Okay,

**ANDERSON SHEREE** [00:45]

I will do that when we're heading to the next customer site.

**Charles Huffman** [00:48]

all? That'll work. Let me know.

## Inbound call from KNAPHEIDE TRUCK

May 06, 2026 | 03:34 PM | Duration: 2m 7s | From: KNAPHEIDE TRUCK | To: +18162877012

Inbound

Positive

### AI SUMMARY

Eric from KNAPHEIDE TRUCK called Philip Roseboro (Rion Equipment, Parts) to confirm details about the VR70, specifically its compatibility with Chevy 3500 trucks from 2022 or 2023, and the engine type.

### FULL TRANSCRIPT

**KNAPHEIDE TRUCK** [00:00]

This call is being recorded.

**Philip Roseboro** [00:03]

Rion Equipment, Parts, this is Phil, how can I help you?

**KNAPHEIDE TRUCK** [00:06]

Hey, Phil, this is Eric over at NAPOT. I just spoke with you here a minute ago about that VR70. I completely forgot to ask you what the year-making model of truck that is.

**Philip Roseboro** [00:09]

Yes.

**Philip Roseboro** [00:16]

Oh, let's see here, I know it's gonna be on a Chevy 3500

**Philip Roseboro** [00:22]

and I think it's a 22.

**Philip Roseboro** [00:26]

It's

**KNAPHEIDE TRUCK** [00:26]

And is it a gas or a diesel engine? All righty.

**Philip Roseboro** [00:29]

a gas engine.

**Philip Roseboro** [00:32]

I can, let me see if I, I don't have the truck here, so I don't know off the top of my head. It's 22, 23, somewhere in there, I think.

**KNAPHEIDE TRUCK** [00:43]

Okay, I can let them know it's for a 22 or a 23. I honestly think that there's a big group of model year trucks, you know, like a 20,

**Philip Roseboro** [00:47]

Yeah,

**KNAPHEIDE TRUCK** [00:57]

I believe you're correct.

**Philip Roseboro** [00:58]

I mean, I would think so, just because it's the same. I don't think Chevy's changed the, uh,

**Philip Roseboro** [01:06]

the engine or anything on that so because I know it's that newer body style of the 2500 or 3500 series

**Philip Roseboro** [01:19]

so whatever whenever they switch that it's to that one but

**KNAPHEIDE TRUCK** [01:23]

Okay, good deal. I will let them know. You bet.

**Philip Roseboro** [01:26]

yeah it should be somewhere in there

**Philip Roseboro** [01:30]

All right. I appreciate it. Thank you. All right. Bye.

Jake (Representative, Kintai Prepare) called Derrick Dea (Representative, Rion Equipment Omaha) to discuss a part needed for a breakdown, as the previous order was incorrect.

### FULL TRANSCRIPT

**SCHUMACHER C.** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Rion Equipment Omaha, this is Derrick. Yeah.

**SCHUMACHER C.** [00:06]

Hey, Derek, this is Jake with Kintai Prepare.

**SCHUMACHER C.** [00:10]

Hey, I'm just giving you a call back. I guess my tech actually needs something a little bit different for the breakdown. He needs it to be more by, like, the, what's it called, the check valve at the bottom. I believe I, I know I ordered one from you guys, and I guess it was too big. Now he's just trying to get

**Derrick Dea** [00:13]

Okay.

**Derrick Dea** [00:23]

Yeah.

**Derrick Dea** [00:30]

So this is at the bottom of the cylinder. This is at the bottom of the cylinder outside it. It's on the bottom of the cylinder and the hoses that go to it. Is that what you're looking for?

**SCHUMACHER C.** [00:32]

A breakdown of it all because he was working on the unit and someone was in there before. So, Marlowe's...

**SCHUMACHER C.** [00:43]

Okay.

**Derrick Dea** [00:52]

Okay. And you already got the wrong one then, huh? Okay, let me do some looking. Do you know what part you got so I don't re-get the right and wrong one? Or the sales order it was under or the part number or something?

**SCHUMACHER C.** [00:52]

Yeah.

**SCHUMACHER C.** [01:00]

Yeah.

**SCHUMACHER C.** [01:09]

Yeah, let me...

**SCHUMACHER C.** [01:14]

Let me see here. I should have a quote in my email somewhere.

**Derrick Dea** [01:24]

All right. All right.

**SCHUMACHER C.** [01:31]

I will just email you when I find the part number and send it to you through email. All right. Thank you, sir. Bye.

### AI SUMMARY

During the conversation, Kent Stewart (Customer Service Rep) assisted Lisa with a problem concerning an incorrect serial number for Rion equipment.

### FULL TRANSCRIPT

**BIG JOE FORKLIF** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing Rion equipment. This is Kenton Parks. How may I help you?

**BIG JOE FORKLIF** [00:04]

Hi Kent, let's leave it up with Big Joe. No, that's okay. You don't have to give me the serial number necessarily again, but you have to give me the right serial number because your serial number is not coming up.

**Kent Stewart** [00:10]

Hey, Miss Lisa. I just saw the email. I hadn't gotten to it yet. Oh,

**Kent Stewart** [00:22]

okay. Well, email them back and let them know that it's not working.

**BIG JOE FORKLIF** [00:27]

Right. What we need to do, just so you know, I don't know where they got that from.

**BIG JOE FORKLIF** [00:32]

If they got that off the tag, I need a picture, a clear picture of the tag. The serial number is actually stamped on the battery compartment. It's either going to be inside the walls, on the wall, you know, on the wall, inside or outside the

compartment, and it'll be clearly stamped.

**Kent Stewart** [00:37]

Okay.

**Kent Stewart** [00:50]

Okay, so it's stamped on inside. You have to open up the battery compartment door, whatever.

**BIG JOE FORKLIF** [00:55]

You probably have to take the batteries out and you're going to have to search the walls of the compartment where the battery goes. More than likely it's going to be towards the bottom.

**Kent Stewart** [01:01]

Okay. Okay.

**Kent Stewart** [01:05]

Okay. Well, I will contact them and let them know. Okay, because I got – I wrote something wrong. Making sure you got this. Yep, yep, I've got them. Okay.

**BIG JOE FORKLIF** [01:12]

Right. And then I sent

**BIG JOE FORKLIF** [01:14]

you a picture yesterday.

**Kent Stewart** [01:16]

Yes. And I thought I sent, I just copied and pasted what she had given me. So I will get back in touch with my, my contact and let them know.

**BIG JOE FORKLIF** [01:23]

Okay. I just want to make sure because I'm wondering if it's terminology and that's why we don't see it.

**Kent Stewart** [01:28]

Okay. Alrighty. Thank you, Ms. Lisa.

**BIG JOE FORKLIF** [01:30]

So I hate to be a pest. I just want to make sure that you know that I'm not -- I didn't forget you.

**Kent Stewart** [01:34]

Alrighty. Thank you very much, Ms. Lisa.

**BIG JOE FORKLIF** [01:37]

You're very welcome, sir. Bye-bye.

**Kent Stewart** [01:39]

Bye-bye. Ms.

## Inbound call from ARNOLD

May 06, 2026 | 02:13 PM | Duration: 1m 14s | From: ARNOLD | To: +18162877012

Inbound

Positive

### AI SUMMARY

Marcus (Sales rep) contacted Philip Roseboro to discuss the availability of a transmission priced at \$19,125, which includes a core charge and high freight costs, leading to a positive conclusion about the order timeline.

### FULL TRANSCRIPT

**ARNOLD** [00:00]

This call is being recorded.

**Philip Roseboro** [00:03]

Ryan Equipment Parts, this is Phil Hump. How can I help you?

**ARNOLD** [00:04]

Bill, it's Marcus with Arnold Machinery. Hey, good. Giving you a call back on this transmission. So, I found one. So, price on it is \$19,125. That price does have a \$7,500 core charge in it.

**Philip Roseboro** [00:08]

Hey, how you doing?

**Philip Roseboro** [00:12]

Yes, sir.

**Philip Roseboro** [00:15]

Okay.

**Philip Roseboro** [00:22]

Okay.

**Philip Roseboro** [00:29]

Okay. Okay, so that's included into that price.

**ARNOLD** [00:32]

Yes, exactly. So \$7,500 off of that. And it'd take about a week and a half to get in. And then, unfortunately, freight would be a little high. It'd probably be about \$800 to \$1,000 because it'd be the transmission coming in and then sending your core out.

**ARNOLD** [00:52]

All right. That sounds good. All right. Perfect. No problem. Bye.

**Philip Roseboro** [00:53]

Okay. Well, let me see what they want to do.

**Philip Roseboro** [00:58]

And we'll go from there and I'll let you know.

**Philip Roseboro** [01:02]

I appreciate it. All right. Bye.

## Inbound call from JASON HICKS

May 06, 2026 | 02:09 PM | Duration: 2m 30s | From: JASON HICKS | To: +15152995624

Inbound

Positive

### AI SUMMARY

During the call, Jason Hicks (Technician) updated Adam Henderson (Service Coordinator) on his work progress, mentioning tasks that needed completion by noon.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**JASON HICKS** [00:05]

Hey, I missed your phone call.

**Adam Henderson** [00:07]

Hello? Yeah. How long do you think you'll be at Arispe?

**JASON HICKS** [00:12]

I've got the master or I've got the GTR done. I'm about done with the hydraulic service.

**JASON HICKS** [00:23]

I've

**JASON HICKS** [00:25]

got the master cylinder to do.

**Adam Henderson** [00:26]

Masters.

**JASON HICKS** [00:29]

And that's going to take the longest, I think. And then the oil filter on the Gale, on the RS5.

**Adam Henderson** [00:32]

Yeah.

**JASON HICKS** [00:37]

And then the two frequent inspections on the scissor lifts, so probably noon.

**Adam Henderson** [00:43]

Noon?

**Adam Henderson** [00:48]

I don't think you'll have all that done by noon.

**Adam Henderson** [00:55]

Take your time, geez.

**Adam Henderson** [00:59]

But I was wondering if you could stop at Creston and look at an air compressor at White River. Okay, they're complaining about overheat.

**JASON HICKS** [01:06]

Yeah, I can.

**JASON HICKS** [01:11]

On the shuttle wagon?

**Adam Henderson** [01:12]

No, it's a solar air compressor. So it should just have a CAT diesel engine or a Kubota or whatever.

**JASON HICKS** [01:16]

Oh. Yeah, I can.

**JASON HICKS** [01:23]

Oh, okay.

**JASON HICKS** [01:26]

Yep, I'll stop there before I head back home.

**Adam Henderson** [01:29]

Okay, sounds good.

**JASON HICKS** [01:31]

And then...

**JASON HICKS** [01:34]

I tried calling Brian yesterday and again today. He's not, he must not be back from vacation yet.

**Adam Henderson** [01:40]

Yeah. The next person to call would be Scott Pendergaffer. That's the guy that writes us POs. I can find a phone number for him.

**JASON HICKS** [01:43]

So,

**JASON HICKS** [01:52]

okay.

**JASON HICKS** [01:57]

All right. Yeah, if you could, I'll, well, is he on site down there?

**Adam Henderson** [02:04]

Yeah.

**JASON HICKS** [02:05]

I'll just try and talk to him while I'm down there.

**Adam Henderson** [02:08]

Okay. It's that or Isaac is Ryan's boss. So.

**JASON HICKS** [02:13]

Okay. All right. Sounds good.

**Adam Henderson** [02:18]

All right. Thanks, man. Bye.

**JASON HICKS** [02:19]

Yep. Bye.

### AI SUMMARY

During the call, Jerry (Customer, Caller) inquired about a specific handbrake switch for forklifts, and Todd Babka (Sales rep) confirmed the order of two units, ensuring they would arrive the following day.

### FULL TRANSCRIPT

**WERNER CONSTR** [00:00]

This call is being recorded.

**Todd Babka** [00:05]

Farts is Todd.

**WERNER CONSTR** [00:06]

Yeah, this is Jerry with Warners. Hey, fine. I got a handbrake switch here for those forklifts. 91A5112220. Do you keep any of those there, Donovan?

**Todd Babka** [00:09]

Jerry, how are you?

**Todd Babka** [00:15]

Uh-huh.

**Todd Babka** [00:22]

Okay. Let me

**Todd Babka** [00:27]

check. I had to order the last one I just ordered.

**Todd Babka** [00:42]

Uh, I do not Omaha.

**WERNER CONSTR** [00:45]

Okay, I guess you're going to give me two of those for \$9-275 per PL. And then probably tomorrow then. Elliot.

**Todd Babka** [00:50]

275?

**Todd Babka** [00:57]

Okay. Yep, they'd be here tomorrow morning. So, should be here on the track,

**WERNER CONSTR** [01:02]

Elliot, thanks. Yep, you too. Bye. Tomorrow, I'll be in.

**Todd Babka** [01:03]

so. All right, you bet. Thank you. You have a good day. Will do. Thanks.

## Inbound call from REINKE MFG CO

May 06, 2026 | 01:59 PM | Duration: 3m 27s | From: REINKE MFG CO | To: +13088337146

Inbound

### AI SUMMARY

In a friendly conversation, Todd Babka (Sales rep) assisted a representative from REINKE MFG CO with parts inquiries for a GEC15K model.

### FULL TRANSCRIPT

**REINKE MFG CO** [00:00]

This call is being recorded.

**REINKE MFG CO** [00:04]

I kinda like this new system. When this call is recorded, boy, you just Johnny on the spot when you get a phone call. Don't ring.

**Todd Babka** [00:04]

\*\*\*, just died.

**Todd Babka** [00:10]

Yes.

**Todd Babka** [00:14]

Actually, no, I was just hanging up the phone when you rang in.

**REINKE MFG CO** [00:18]

If everyone

**Todd Babka** [00:18]

So I even had that receiver in hand to rip it back off the phone.

**REINKE MFG CO** [00:24]

was getting recorded, you'd jump.

**Todd Babka** [00:25]

Oh, nah, I keep forgetting about that. Oh, yeah, no, we are. So, for training purposes.

**REINKE MFG CO** [00:30]

So we're not recorded. Dang it. Training purpose. Geez, I figured after as long as you've been there, you'd know it all by now. Wouldn't have to be trained.

**Todd Babka** [00:44]

Well, I'll tell you I do, but most people will tell me I don't.

**Todd Babka** [00:50]

Pretty quick to it, too. So, what's going on in your neck of the woods today?

**REINKE MFG CO** [00:58]

I'm rolling a GEC15K.

**REINKE MFG CO** [01:02]

I think it's a AT81D00952 maybe. I need the regulator or vaporizer or whatever it's called.

**Todd Babka** [01:14]

Alright.

**REINKE MFG CO** [01:16]

You can send me a part number on that.

**Todd Babka** [01:18]

Okay.

**REINKE MFG CO** [01:21]

I think that's it for now anyway. But who knows.

**Todd Babka** [01:24]

Okay.

**Todd Babka** [01:26]

Well, yeah, the day is young.

**REINKE MFG CO** [01:28]

Yeah. Mindy ordered a few things this morning, so. Let off that one. I think I...

**Todd Babka** [01:33]

Yep, I was working on them here. Well, I got sidetracked already, but I was working on them.

**Todd Babka** [01:41]

Oh. Good

**REINKE MFG CO** [01:45]

You want to look up the gas shocks for that too? For the hood. It's only take one or two. One. Guess there's only one on there. You want to send that part number too. Yeah, they're kind of hard to hold open without that shock on there.

**Todd Babka** [01:59]

strut. Got it.

**Todd Babka** [02:04]

Alright.

**Todd Babka** [02:06]

Yeah.

**Todd Babka** [02:08]

A few of the guys around here have those, I don't know, they're like hood props or something that you get off like the tool trucks, I think. So instead of your customary piece of wood. So,

**REINKE MFG CO** [02:12]

Oh, yeah.

**REINKE MFG CO** [02:19]

Yeah.

**REINKE MFG CO** [02:25]

Yeah.

**Todd Babka** [02:27]

but they seem to work pretty good.

**Todd Babka** [02:32]

You don't have gas left in your strut.

**REINKE MFG CO** [02:35]

This one here is bent.

**Todd Babka** [02:42]

Yeah, that's probably not going to work too good at all. So, that reminds me, I need to get some struts for the back of my suburban.

**REINKE MFG CO** [02:48]

All

**Todd Babka** [02:52]

Get them done so that \*\*\*\* glass don't keep whopping me in the back of the head every time I open it.

**Todd Babka** [03:00]

Okay, well, I will get this stuff looked up and sent your way,

**REINKE MFG CO** [03:02]

righty.

**REINKE MFG CO** [03:06]

All righty, thanks.

**Todd Babka** [03:09]

sir. All right, you have yourself a great day. I will. All right, thanks. Bye-bye.

**REINKE MFG CO** [03:11]

Yep, you too. Bye.

### AI SUMMARY

Michael (Customer) reached out to Todd (Tabor Street Group, LLC representative) to check on the status of a parts order for Warner Construction, and Todd informed him that the items are expected to arrive today, resolving the inquiry quickly.

### FULL TRANSCRIPT

**VALERIO BREKKE** [00:00]

This call is being recorded.

**Todd Babka** [00:05]

Parts is tied.

**VALERIO BREKKE** [00:06]

Hey Todd, it's Michael.

**VALERIO BREKKE** [00:09]

Hey, I've got a question for you. Warner Construction, we ordered two secondary seal kits.

**VALERIO BREKKE** [00:19]

Do you know if those showed up?

**Todd Babka** [00:22]

So, what's

**VALERIO BREKKE** [00:25]

The work order says open,

**VALERIO BREKKE** [00:29]

but it looks like the check valve showed up. It's 803-991.

**Todd Babka** [00:31]  
the work order?

**Todd Babka** [01:40]  
It says, today between 1045 and 145, they'll be delivered.

**VALERIO BREKKE** [01:47]  
Okay. Okay, that's all I need to know.

**Todd Babka** [01:49]  
Alrighty, sounds good. You betcha.

**VALERIO BREKKE** [01:52]  
Thank you. Yep.

### AI SUMMARY

Nick (Customer, Caller) called to rectify a card number error, and Nick Korth (Company Representative) efficiently guided him through the correction, resulting in a successful transaction.

### FULL TRANSCRIPT

**GLOBAL** [00:00]  
This call is being recorded.

**GLOBAL** [00:06]  
Nick, Keith at GLOBAL. I was just getting ready to run this card and I apparently have one of the numbers wrong.

**Nick Korth** [00:15]  
Yeah. \*\*\*\* it, Heath, what did you do?

**GLOBAL** [00:16]  
Yeah? I don't know.

**Nick Korth** [00:19]  
You

**Nick Korth** [00:23]  
should probably just put this thing on file because there's as much stuff as we get from you,

**GLOBAL** [00:26]  
Yeah, well, we have the capability doing that now where I automatically save it before we had

**GLOBAL** [00:31]  
They put it in a cryptic way under your account and then it would, because they would try to kick it out and not so you couldn't do it. And I'm like, but software. So I got, yep, 48080910.

**Nick Korth** [00:34]  
so. Oh.

**Nick Korth** [00:42]

Oh. I gotcha. Yeah. Okay. Software, technology, you know.

**Nick Korth** [00:52]  
Nope. 0190.

**GLOBAL** [00:57]  
0190-0738-3900. Alright, I'll just run it here while you're on the phone. 68137.

**Nick Korth** [01:01]  
Yep.

**Nick Korth** [01:06]  
Yep. Yeah, you're good,

**GLOBAL** [01:15]  
Alright, we're good. Probably be about 1.32 o'clock. I would probably expect it.

**Nick Korth** [01:22]  
man. You're fine. Yeah, I'm waiting on some other \*\*\*\* for this weird forklift, so. All right. Thanks, Heath. Appreciate it, buddy. Yep. Bye.

**GLOBAL** [01:25]  
Okay. We're all good. Thank you. Bye. See ya.

AI SUMMARY

Marcus (Customer, Caller) reached out to Philip Roseboro (Sales rep) to discuss an update on a transmission issue, agreeing to reconnect the following morning at 9 a.m.

FULL TRANSCRIPT

**ARNOLD** [00:00]  
This call is being recorded.

**Philip Roseboro** [00:03]  
Ryan Equipment, this is Phil. How can I help you?

**ARNOLD** [00:06]  
Phil, it's Marcus, Arnold Machinery. Hey, good. So I sent another thing to Heisser on that transmission just to see if they found anything, but the two places, other places I know, have already closed. So I'll give them a call in the morning. What time do you get in?

**Philip Roseboro** [00:08]  
Hey, how you doing?

**Philip Roseboro** [00:19]  
Okay.

**Philip Roseboro** [00:23]  
Let's see here. I'm usually here by 8 a.m., and we're about an hour ahead of you.

**ARNOLD** [00:30]

Okay, perfect. So about, okay, about nine o'clock.

**Philip Roseboro** [00:33]

So, yeah, so, I mean, if you show up at 8, I'm already here.

**ARNOLD** [00:39]

Okay. Okay, sounds good. I will give you a call around then. All right, no problem. Bye.

**Philip Roseboro** [00:43]

I appreciate it. Thank you.

**Philip Roseboro** [00:46]

All right. Bye.

## Inbound call from LINDBERG ROB

May 05, 2026 | 09:22 PM | Duration: 5m 26s | From: LINDBERG ROB | To: +14025942051

Inbound

Neutral

### AI SUMMARY

The conversation involved Derrick Dea (Employee, Ryan Equipment Omaha) and LINDBERG ROB discussing a malfunctioning piece of equipment.

### FULL TRANSCRIPT

**LINDBERG ROB** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Ryan Equipment Omaha, this is Derrick. Yeah. So what do you want to do? He hasn't called me back yet. I think he left for the day, but I'll know by morning. It's in Lincoln.

**LINDBERG ROB** [00:06]

Hey, Derrick. I stuck her all back together and she just cranks.

**LINDBERG ROB** [00:12]

Well, do they have one anywhere?

**LINDBERG ROB** [00:19]

That's fine. We'll just stop. I'll just... I'll get with you tomorrow and see what we got because, I mean, it's just a \*\*\*\*\* big-ass paperweight for me right now.

**Derrick Dea** [00:29]

Is it like it's not getting any fuel or what? Okay. Okay. Okay. Yeah, I can, I'd try to, I can get the...

**LINDBERG ROB** [00:30]

So...

**LINDBERG ROB** [00:33]

Well, they checked, they said it was getting fuel. I mean, we had the guys up here and they said it was the coil. We put a coil on, that didn't work, so our mechanic came up, he said, well, it's a distributor cap or the igniter. Well, we put the new cap on, cap and rotor on, and still nothing.

**Derrick Dea** [00:54]

Other part coming, but I'm hoping it's just the pickup, not the igniter, because that's the expensive part.

**LINDBERG ROB** [01:01]

Okay.

**Derrick Dea** [01:01]

But anyway, I'll just get them both and go from there, because I just want to find out.

**LINDBERG ROB** [01:05]

Okay.

**LINDBERG ROB** [01:07]

Does that pickup plug in from the outside to where you don't have to take it all apart again?

**Derrick Dea** [01:14]

I think you've got to take it all apart to switch them both out.

**LINDBERG ROB** [01:17]

Okay.

**Derrick Dea** [01:21]

The reason I'm waiting on Lincoln is because the OEM one is discontinued. So Lincoln said they had an OEM one. I just want to make sure they have it. Otherwise, I've got to go to an aftermarket source. So that's all I'm waiting on.

**LINDBERG ROB** [01:21]

Well, yeah, just...

**LINDBERG ROB** [01:28]

Right.

**LINDBERG ROB** [01:36]

Okay. All right. Otherwise, worst case scenario, what's the cost of a new distributor?

**Derrick Dea** [01:38]

So I'll go with you tomorrow. Okay, I'll have to see here.

**LINDBERG ROB** [01:44]

All new.

**Derrick Dea** [02:01]

And we want screw

**LINDBERG ROB** [02:01]

All new.

**Derrick Dea** [02:08]

down. Well, it goes by build date, which I don't know.

**LINDBERG ROB** [02:09]

I don't care if it's screw or clip, it doesn't matter.

**LINDBERG ROB** [02:13]

Oh, okay.

**Derrick Dea** [02:14]

Why I did that. So yours was built in '98 of February, so I got two choices here. So it's this one, then I bet it supersedes to the other one.

**LINDBERG ROB** [02:31]

Well,

**Derrick Dea** [02:33]

That one is discontinued.

**Derrick Dea** [02:38]

Let me see what this other one says. So the OEM distributor is discontinued. The MD326637, that's item number two on your page.

**Derrick Dea** [03:03]

But it does give me an aftermarket one. Let me put that on there. Copy that. It says they have some of those.

**Derrick Dea** [03:13]

Let's see what that says here.

**Derrick Dea** [03:59]

That is cheaper than the igniter, 375.84.

**LINDBERG ROB** [04:05]

then it'd be kind of dumb to buy the igniter, wouldn't

**Derrick Dea** [04:10]

So I got the pickup was 81, the igniter is 410. I'd have to order the igniter, the pickup is Lincoln, or you know, I could just get the distributor, but not things.

**LINDBERG ROB** [04:11]

it? Well,

**LINDBERG ROB** [04:22]

I'm willing to try the pickup.

**LINDBERG ROB** [04:26]

I'm willing to try the pickup, but if that's not it, then we'll just get a distributor.

**Derrick Dea** [04:31]

Yep, so I'll take the igniter kit off and I will find out from Lincoln if they have it and if he does I'll,

**LINDBERG ROB** [04:39]

Does Lincoln have the whole distributor too?

**Derrick Dea** [04:42]

no that's just order item, it's an aftermarket order item. We've never ordered it. Usually the cap rotor is, cap and rotor plugs and wires is all we usually change on it.

**Derrick Dea** [04:57]

For the most part on these older ones that we're still servicing, you know. So, anyway, at least you got an idea. The aftermarket's cheaper than the igniter kit, so I guess we'll see what Lincoln says and go from there.

**LINDBERG ROB** [05:01]

Right.

**LINDBERG ROB** [05:10]

Well, maybe it's

**LINDBERG ROB** [05:12]

a... Okay. Thanks, Derrick.

**Derrick Dea** [05:14]

I'll tell you tomorrow once I find out if Lincoln has it. Alright. Bye.

## Inbound call from WY LIFT SVC

May 05, 2026 | 09:11 PM | Duration: 10m 23s | From: WY LIFT SVC | To: +13072280504

Inbound

Positive

### AI SUMMARY

The conversation began with Laura (Customer) expressing confusion over part numbers 13 and 14 related to equipment drawings.

### FULL TRANSCRIPT

**WY LIFT SVC** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:04]

Thank you for calling around equipment this sad. I'm not going to help you.

**WY LIFT SVC** [00:07]

Hey, Adam, this is Laura.

**WY LIFT SVC** [00:11]

Okay, so I'm now confused because you're needing number 13 and number 14 unattached to drawing. And I just put on there number 13. If you look at the pricing and whatnot, all those up numbers, those Yale numbers, all update to the Heister number.

**WY LIFT SVC** [00:33]

And down below it says no, 13 and 14 does not come included. So I added 13 and 14 below that. Am I talking the wrong picture? Because I'm looking.

**Adam Ratcliff** [00:40]

But

**Adam Ratcliff** [00:43]

yeah.

**Adam Ratcliff** [00:45]

Yeah, you sent me two.

**Adam Ratcliff** [00:48]

I guess it didn't.

**Adam Ratcliff** [00:53]

I thought I sent you in that one yesterday.

**WY LIFT SVC** [00:56]

So are you talking the one down below?

**WY LIFT SVC** [01:02]

No, there's no 14 on that one.

**Adam Ratcliff** [01:05]

On the one that I sent you when I asked if

**WY LIFT SVC** [01:06]

Just now. I mean, you literally just sent it to me now. You said, any luck on 13 and 14.

**Adam Ratcliff** [01:15]

Yep, the one I sent yesterday afternoon because I asked you about it and then I hadn't heard from you. But

**WY LIFT SVC** [01:23]

Yeah, if you look down below, there's a list of the prices and the part number 13 and 14.

**Adam Ratcliff** [01:29]

look on the drawing on that email I sent you at 253 or at, I sent it yesterday.

**WY LIFT SVC** [01:37]

I am. I did. I did.

**Adam Ratcliff** [01:44]

And there's only, there's 2, 12, 13, 14 coming

**Adam Ratcliff** [01:50]

off the torque converter.

**Adam Ratcliff** [01:58]

I think we're looking at two different rocks.

**WY LIFT SVC** [02:01]

Yeah, I know. That's why I'm saying the drawing that is below, I put 13 and 14 on there, and it's that funky-looking washer and some bolts.

**Adam Ratcliff** [02:11]

Yep, this is 14 is, you know, what's it called?

**WY LIFT SVC** [02:12]

What other drawing are you...

**Adam Ratcliff** [02:18]

14 on this one is a backup ring. One,

**WY LIFT SVC** [02:24]

Yes, look at the part number, not the 5800 number, the 1311802.

**Adam Ratcliff** [02:34]

one,

**WY LIFT SVC** [02:35]

And look up above where the rest of the parts are and look at number 14.

**Adam Ratcliff** [02:48]

three. Oh, the heck, we got going here.

**Adam Ratcliff** [02:53]

The 1311802.

**WY LIFT SVC** [02:57]

Mm-hmm.

**Adam Ratcliff** [03:05]

Oh, okay.

**Adam Ratcliff** [03:11]

That is weird because 13 in the picture is

**Adam Ratcliff** [03:17]

a seal and it says it's a screw on the...

**WY LIFT SVC** [03:26]

Mm-mm.

**Adam Ratcliff** [03:28]

Do I have the wrong...

**WY LIFT SVC** [03:34]

13 on this picture is a bolt and number 14 is that backup ring. Unless you're looking at the...

**Adam Ratcliff** [03:41]

- I could be, Laura. Okay, so I'm looking at the other drawing you sent me.

**WY LIFT SVC** [03:51]

Which one that's down below?

**Adam Ratcliff** [03:54]

Yeah, it's got this, it's coming, looks like it's the output out of the torque converter. It's

**WY LIFT SVC** [04:00]

Okay, so I don't know which page you're doing now. You've got me boogered up. I don't know which one.

**Adam Ratcliff** [04:10]

a, I'm looking at,

**Adam Ratcliff** [04:16]

Number 1312274.

**WY LIFT SVC** [04:24]

1312274?

**Adam Ratcliff** [04:28]

Yeah.

**Adam Ratcliff** [04:33]

I think.

**Adam Ratcliff** [04:35]

Once I got my...

**WY LIFT SVC** [04:38]

Yes, the 1312274 is also in that list.

**WY LIFT SVC** [04:44]

That 580048397 updates to 131-2274.

**Adam Ratcliff** [04:57]

So

**Adam Ratcliff** [05:01]

what is the seal in this picture, number 13?

**Adam Ratcliff** [05:11]

Uh-huh.

**WY LIFT SVC** [05:14]

That's what I'm saying. I think you're looking at a different picture than I'm looking at because the picture that you attached here and asking me about

**Adam Ratcliff** [05:14]

I've got this stuff printed.

**WY LIFT SVC** [05:24]

is not a seal.

**Adam Ratcliff** [05:30]

What is it? I think...

**WY LIFT SVC** [05:35]

That's what the screw in the backup washer is.

**Adam Ratcliff** [05:41]

Yeah, but 13 on the picture I'm looking at. I'm going to send this picture again.

**WY LIFT SVC** [05:44]

That's what I'm saying.

**WY LIFT SVC** [05:47]

Give me that picture because the picture that I've been working with is the one that you just emailed back to me and says, I think we're talking about two different drawings. I need 13 and 14 on a...

**WY LIFT SVC** [05:59]

In the attached drawing, and the attached drawing down below

**WY LIFT SVC** [06:06]

is 13 and 14, which is the backup ring and screws.

**Adam Ratcliff** [06:12]

Okay, I'm sending this to you here right now.

**WY LIFT SVC** [06:14]

Okay. That's why I finally just called you because I'm not getting the same picture you're wanting to talk about, which is fine, but we'll get it to the bottom of it.

**Adam Ratcliff** [06:19]

Okay.

**Adam Ratcliff** [06:23]

No, you'll have that. Yeah.

**Adam Ratcliff** [06:31]

Oh, my email is slow today.

**WY LIFT SVC** [06:56]

I think I know which picture you're talking about.

**Adam Ratcliff** [07:05]

Oh, did it send to you?

**WY LIFT SVC** [07:10]

No, I just went back into my old emails. And I think what you're talking about is number 12, where if you look at the actual description, it says Baffle and Seal Assembly 131-2274.

**Adam Ratcliff** [07:21]

Yep.

**WY LIFT SVC** [07:27]

That part number is the same thing it's on the other illustration.

**Adam Ratcliff** [07:27]

Yep.

**WY LIFT SVC** [07:34]

That is number...

**WY LIFT SVC** [07:42]

It's all an assembly.

**Adam Ratcliff** [07:47]

So if I ordered number 12, the 1312274, I'll get the 13 and 14 with it.

**WY LIFT SVC** [07:56]

131-22-74, which was on there, the 5-800-48-397.

**Adam Ratcliff** [08:09]

And that will come with the 13, 14.

**WY LIFT SVC** [08:14]

According to this, it says the baffle and seal assembly.

**Adam Ratcliff** [08:19]

Okay.

**WY LIFT SVC** [08:21]

Yeah, now I see what you're saying because this picture just breaks down the other half where the actual stator is rather than... Yeah, I see what you're saying now, but it's actually on that other illustration too.

**Adam Ratcliff** [08:39]

Okay. Okay, then we're on the same page. And that will come with...

**WY LIFT SVC** [08:46]

Right, so number 12 on this picture is the same thing.

**WY LIFT SVC** [08:59]

Well, I don't know. I'm just telling you what this number is. You gave me the 58004837.

**WY LIFT SVC** [09:10]

Which you gave me a part number for. If you go down further. Yeah, now I see what you're saying. Yes, that's a whole different illustration, so I get that. But, like I said, that's all one assembly.

**Adam Ratcliff** [09:15]

Yeah, yeah.

**Adam Ratcliff** [09:25]

Okay, that's really all I needed to know. That seemed like it was a lot more confusing.

**WY LIFT SVC** [09:27]

Okay.

**WY LIFT SVC** [09:33]

Well, that's why when... Because you gave me the part number off of two different illustrations, and I'm working with the one that was attached. Okay.

**WY LIFT SVC** [09:40]

Sorry, that's why I finally called you going, wait a minute. Okay, sounds good. Thank you.

**Adam Ratcliff** [09:41]

I got it. No, you're good.

**Adam Ratcliff** [09:44]

I appreciate it.

**Adam Ratcliff** [09:47]

Thank you. Bye.

**WY LIFT SVC** [09:49]

All right, bye-bye.

## Inbound call from LINDBERG ROB

May 05, 2026 | 08:54 PM | Duration: 2m 26s | From: LINDBERG ROB | To: +14025942051

Inbound

Neutral

### AI SUMMARY

The conversation between Derrick (Parts Representative) and LINDBERG ROB centered around the need for an igniter kit to get equipment operational.

### FULL TRANSCRIPT

**LINDBERG ROB** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, this is Derrick. Yeah.

**LINDBERG ROB** [00:05]

Hey, Derrick, Rob. Got your email. This appears to be upside down from what we have, but it looks like that would be it.

**Derrick Dea** [00:08]

Yep.

**Derrick Dea** [00:17]

Okay, I'm checking on the other store to see if they have the pickup, but that igniter kit's kind of expensive.

**LINDBERG ROB** [00:24]

Yes. Well, if we don't have it, it ain't running. I'm guessing our only other option is a new distributor.

**Derrick Dea** [00:25]

Yeah, but...

**Derrick Dea** [00:32]

I'm checking my other store to see if they have the pickup. He hasn't called me back yet, but I'd have to order the igniter.

**LINDBERG ROB** [00:35]

Okay.

**LINDBERG ROB** [00:43]

Well, what do you pick up? Okay, you're talking.

**Derrick Dea** [00:44]

So, he's got to see if he has that one in Lincoln.

**Derrick Dea** [00:51]

Then I can order it out of Lincoln. Otherwise, it's discontinued. I have to order it from another supplier.

**LINDBERG ROB** [00:56]

Okay. Well, let me know.

**Derrick Dea** [00:58]

That's what I'm waiting on.

**LINDBERG ROB** [01:00]

Okay. Well, let me know.

**Derrick Dea** [01:01]

So the cap, you want to wait for the new parts before you try to start it then I suppose,

**LINDBERG ROB** [01:09]

Well, I suppose I could try starting it with that one to see if it works, but I was told to...

**Derrick Dea** [01:13]

huh? Well not the wrong one, but the original ones, but yeah.

**LINDBERG ROB** [01:17]

Yeah, the original one. Put everything I got back together.

**Derrick Dea** [01:20]

But like I said, it'll be a couple days. So it may save you \$410, but I don't know, that's up to you.

**LINDBERG ROB** [01:22]

Yeah, I guess I never even tried starting it.

**LINDBERG ROB** [01:31]

Yeah, I could try it. I mean, we're going to be waiting anyway.

**Derrick Dea** [01:34]

Yeah, so just, it's up to you to put your original pickup in the igniter kit and see if that takes care of your problem. If not, they'll still be on ore and you can swap them out later,

**LINDBERG ROB** [01:35]

Okay. Well, let me know what you find out.

**LINDBERG ROB** [01:43]

Okay. Well...

**LINDBERG ROB** [01:49]

Yep. I guess in the past, in the experience, what is it that usually goes bad first?

**Derrick Dea** [01:51]

so. Usually we just do the distributor cap and rotor and plugs and wires.

**Derrick Dea** [01:59]

But you know, some of these are aged, so some of them have been changed out, some of them haven't, so you know.

**LINDBERG ROB** [01:59]

Okay, well, well,

**LINDBERG ROB** [02:03]

well, let me,

**LINDBERG ROB** [02:06]

well, it's a matter of four screws and we're back together, so.

**Derrick Dea** [02:07]

Yeah, it's up to you, whatever you want to try, but see if that'll get you going at least. Alrighty. Bye.

**LINDBERG ROB** [02:14]

Okay, I'll try it.

**LINDBERG ROB** [02:16]

Thanks.

### AI SUMMARY

Gustin (Caller) reached out to Derrick (Sales rep) for a pricing inquiry regarding a joystick for Nebraska Warehouse, and Derrick agreed to provide the information soon.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:06]

Derrick, how's it going?

**GUSTIN KELVIN** [00:08]

Hey, I got one over here at Nebraska Warehouse. Let me

**GUSTIN KELVIN** [00:16]

see. Hang on. Dang it.

**GUSTIN KELVIN** [00:23]

805-179.

**GUSTIN KELVIN** [00:28]

Serial number of 910-65331.

**GUSTIN KELVIN** [00:37]

Can you price out a joystick?

**GUSTIN KELVIN** [00:44]

Isn't it great? Isn't it lovely?

**GUSTIN KELVIN** [00:49]

That's what I got. I told him it probably wouldn't be until in the morning. You got time, right?

**Derrick Dea** [00:51]

Alright, yep.

**GUSTIN KELVIN** [00:56]

Let me know. Thanks, Derrick. You have a great evening. Bye.

**Derrick Dea** [00:57]

Will do. Yep. Bye.

## Inbound call from LIFT SOLN INC

### AI SUMMARY

Jose from LIFT Solutions contacted Todd Babka regarding the verification of a part number for a JLG harness, and Todd agreed to follow up with Brett to confirm the details.

### FULL TRANSCRIPT

**LIFT SOLN INC** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Parts is tied.

**LIFT SOLN INC** [00:05]

Hey Todd, Jose, LIFT Solutions. Hey, I believe

**Todd Babka** [00:07]

What's up, Jose?

**LIFT SOLN INC** [00:12]

Brett reached out to you about some JLG parts. Okay, so that was for me. Now, off of that volunteer number he gave you, can you confirm that is the right harness for that unit? Because I looked up on my end over here, and it shows me that 492-1364 part number is the harness.

**Todd Babka** [00:17]

Yeah.

**Todd Babka** [00:32]

Four, what's a harness for?

**LIFT SOLN INC** [00:34]

The engine for the DUTZ engine for that JLG.

**Todd Babka** [00:37]

To go from the machine to the engine?

**LIFT SOLN INC** [00:42]

Yes.

**Todd Babka** [00:42]

Okay, I will have to call him and ask him. So, okay, I will call him and ask him. It'll probably be tomorrow before I know anything.

**Todd Babka** [00:54]

So, alright. You betcha not a problem. You too.

**LIFT SOLN INC** [00:54]

Okay. Alrighty. Sounds good, sir.

**LIFT SOLN INC** [00:58]

Understood. Yep. Have a good one. Thank you.

## Inbound call from WIRELESS CALLER

Dave Peters called Bill Lewis to check on the status of his equipment repair, and Bill confirmed that the issue was resolved and the equipment was ready to go.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Bill Lewis** [00:04]

Good afternoon, Ryan Equipment. This is Bill.

**WIRELESS CALLER** [00:07]

Bill, Dave Peters calling you back.

**Bill Lewis** [00:09]

Hey, Dave, how you doing? I'm all right as well. Yeah, so the tech is just wrapping things up. It's amazing what you find sometimes from brand new pieces of equipment. The sensor, it actually backed itself completely out of the exhaust manifold. That was the issue.

**WIRELESS CALLER** [00:11]

I'm all right. How are you?

**WIRELESS CALLER** [00:34]

All right. And is that something you can fix or you have to get parts or what's

**Bill Lewis** [00:37]

Nope, no, it's, yeah, he's just about done wrapping everything up. He's just running some more tests, but yeah, it's good to go. The codes are all cleared, everything is fine. Like I said, he's just wrapping it up.

**WIRELESS CALLER** [00:52]

the -- okay, perfect. And then do you want my email?

**Bill Lewis** [00:54]

Yeah, yeah, if I could, that'd be great.

**WIRELESS CALLER** [00:57]

Yeah, tell me when you're ready.

**Bill Lewis** [00:58]

I'm ready.

**WIRELESS CALLER** [01:00]

David. Peters, P-E,

**Bill Lewis** [01:14]

Perfect. Alright. I will get you on this email as well.

**WIRELESS CALLER** [01:20]

T-E-R-S-001@RxO.com. All right, perfect. Thank you very much for calling.

**Bill Lewis** [01:23]

Yep, you bet. Thanks, Dave. Bye.

**WIRELESS CALLER** [01:24]

You bet. Bye-bye.

CALL 82 OF 611

## Inbound call from HAMPTON DENNIS

May 05, 2026 | 08:18 PM | Duration: 5m 3s | From: HAMPTON DENNIS | To: +14026440781

Inbound

Positive

### AI SUMMARY

The conversation began with Hampton (Customer, Caller) asking Rodney (Service rep) about the return process for a CORE air compressor at ADM.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Rion, equipment, Rod.

**HAMPTON DENNIS** [00:06]

Rod, it's Jake. How are you?

**Rodney Meier** [00:08]

Oh, not too bad. Just went upstairs for a glass of water when you called. Sure.

**HAMPTON DENNIS** [00:13]

Perfect. Hey, got a question for you.

**HAMPTON DENNIS** [00:16]

That CORE, CORE air compressor for ADM, is it possible to send Corey a UPS ticket to send it back to wherever it needs to go to?

**Rodney Meier** [00:23]

Okay.

**Rodney Meier** [00:31]

Yeah, I got to get an authorization to return first.

**HAMPTON DENNIS** [00:37]

What steps do we need to take to do that? Then we can just forward him a UPS.

**Rodney Meier** [00:42]

I don't know, I gotta get a hold of John Withers and find out.

**Rodney Meier** [00:49]

I need to get it returned off the service call first so I can even create a ticket.

**HAMPTON DENNIS** [00:49]

Perfect. Yeah,

**HAMPTON DENNIS** [00:56]

if you want to go through those steps, that job is done. That way I don't have to pick up that core and then take it to North Fork.

**Rodney Meier** [01:07]

It's at ADM,

**HAMPTON DENNIS** [01:10]

Correct. It's at ADM in the lube shop where it got dropped off at.

**Rodney Meier** [01:14]

right?

**HAMPTON DENNIS** [01:16]

So I figured if we can just print a ticket and give it to Corey and have UPS just pick it up there, if that's even doable.

**HAMPTON DENNIS** [01:28]

I don't see why it wouldn't be, but...

**Rodney Meier** [01:31]

Well, except for the fact that we can't create a UPS ticket. It's got to be done at the other store.

**Rodney Meier** [01:39]

I mean, it can be done.

**HAMPTON DENNIS** [01:40]

Well, we can create it there. We can create the UPS ticket at the other store and then send a copy of it to Corey,

**Rodney Meier** [01:47]

I just-- and well,

**Rodney Meier** [01:51]

technically, we should really have the label on there. I mean, I guess we can take a picture of it.

**Rodney Meier** [02:02]

How much does it weigh? That's the next question.

**HAMPTON DENNIS** [02:06]

correct? I'm not sure. I'll just swing in there and pick it up. And then I'll just...

**Rodney Meier** [02:09]

It might be easier just to pick it up. I know it's a pain in the \*\*\*,

**Rodney Meier** [02:14]

but yeah,

**HAMPTON DENNIS** [02:14]

That way I can just deal with it in North Fork.

**Rodney Meier** [02:17]

trying to create a label, take a picture of the label, email him the label, have him cut it out and attach to the package, and I assume does UPS pick up there, or do they have to take it to a UPS place somewhere?

**HAMPTON DENNIS** [02:32]

Well, I would imagine UPS picks up there. They deliver there. They've almost got to pick up there.

**Rodney Meier** [02:38]

Not necessarily. I mean, if they have it, they have to take it to wherever they drop it off, I guess. I mean, I assume they're dropped, do they leave their, they used to leave their packages at the guard shack, so I don't know what they do with them now.

**HAMPTON DENNIS** [02:53]

They must take them into the guard shack. Or not, past the guard shack. Nope, not a big deal. I will. I'll just swing in there and pick it up and then we can do.

**Rodney Meier** [03:01]

Okay. All right. I didn't know if you've seen my email from Kelly Corville.

**HAMPTON DENNIS** [03:08]

I saw that there was one there. Is that for the CCU stuff or is that for the mods?

**Rodney Meier** [03:13]

CPU and the modules both, they're both due in this week. They've been on back order. Basically it says, I'm checking on your purchasing, agree on your parts this afternoon. All of them should have arrived but do not appear to have done so at this time.

**HAMPTON DENNIS** [03:20]

Okay.

**Rodney Meier** [03:32]

I'll send you an update as soon as I can. So it sounds like they're supposed to be in this week and go out this week.

**HAMPTON DENNIS** [03:34]

Sure.

**HAMPTON DENNIS** [03:40]

Sure. Okay.

**Rodney Meier** [03:41]

The modules and the CPU.

**HAMPTON DENNIS** [03:45]

Deal. No, that's good.

**Rodney Meier** [03:47]

So hopefully we'll get them found

**HAMPTON DENNIS** [03:51]

Yeah, because I'm going to imagine that we've got to order another CCU once Dan and Luke are done diagnosing that.

**Rodney Meier** [03:52]

and they'll get out.

**Rodney Meier** [04:04]

Yeah, probably. Well, and I told her that. I said, yeah, I said, we have got this one on order. I said, it was on the spare battery or on a battery. We had a spare that went into that machine, but now that machine stopped. Oh, no. I said, so now we don't have the spare battery to put in there.

**Rodney Meier** [04:26]

So anyway, that's where I left it. So yeah, Kelly's the one we need to get a hold of for all warranty issues apparently.

**HAMPTON DENNIS** [04:34]

Okay. Deal. Well, I'm just pulling up to the guard shack at ADM, so I'll let you go, and I'll get this thing picked up. Awesome. Thanks, Rodney. Yep. Yep. Bye.

**Rodney Meier** [04:39]

Okay. Okay, sounds good. You bet. Thank you. Bye.

## Inbound call from MN ST COMM TECH

### AI SUMMARY

Robert Batsom, a diesel technology instructor at Minnesota State Community and Technical College, contacted Kevin Wilson from Ryan Equipment regarding internship opportunities for a student, Genesis Castro.

### FULL TRANSCRIPT

**MN ST COMM TECH** [00:00]

This call is being recorded.

**Kevin Wilson** [00:03]

Good afternoon, Ryan Equipment. This is Kevin. May I help you?

**MN ST COMM TECH** [00:06]

Hello, Kevin. My name is Robert Batsom, diesel technology instructor over here at Minnesota State Community and Technical College in Moorhead. I'm doing okay. Say, I got an email from you just a little over a month ago saying that you're looking for technicians. Is that still the case?

**Kevin Wilson** [00:13]

Hey, how are you doing, Robert?

**Kevin Wilson** [00:21]

Yeah.

**Kevin Wilson** [00:24]

That is still the case. Yes, sir.

**MN ST COMM TECH** [00:28]

I have a student here. Her name is Genesis Castro, and she needs a summer internship.

**Kevin Wilson** [00:37]

Okay.

**MN ST COMM TECH** [00:37]

So she's looking for, she's totally new to the industry, doesn't have any contacts, totally new to the trade. And she's looking for a place where she can work for the summer and get that internship taken care of and

**MN ST COMM TECH** [00:54]

And I guess whatever else comes after that. Are you interested or able to help her out?

**Kevin Wilson** [00:56]

Okay.

**Kevin Wilson** [01:00]

I may be able to -- so is she a first year and needs to get the internship through for her second year?

**MN ST COMM TECH** [01:05]

Yes.

**Kevin Wilson** [01:06]

Okay.

**Kevin Wilson** [01:10]

That's a little bit of a different position for us. Let me reach out to HR and see if we can make this work.

**MN ST COMM TECH** [01:17]

And I understand you guys are, you know, what, three quarters or, you know, nine out of ten of your techs are on the road in a truck. And that would be,

**MN ST COMM TECH** [01:28]

that may be a problem. But I was just seeing if there's any way you could help us out.

**Kevin Wilson** [01:31]

We may be able to. We do have some shop work, so that's okay. What's the best number to call you back at?

**Kevin Wilson** [01:47]

299, okay.

**Kevin Wilson** [01:51]

Okay.

**MN ST COMM TECH** [01:53]

701-299-6543. I gave you the wrong prefix. It's 218. Sorry.

**Kevin Wilson** [01:57]

218-299. That's all right. We're in that area. Okay. Yeah, let me see what I can do here, Robert, and see if I can get approval for like an intern position and see if we can make that work.

**MN ST COMM TECH** [02:09]

That would be great.

**Kevin Wilson** [02:11]

All right. Thank you, sir. You bet. Talk to you later.

**MN ST COMM TECH** [02:13]

Yep. Thanks a lot. I look forward to hearing from you.

**MN ST COMM TECH** [02:17]

Yep. Bye.

## Inbound call from ENDICOTT CLAY

May 05, 2026 | 07:51 PM | Duration: 4m 55s | From: ENDICOTT CLAY | To: +14024731032

Inbound

Positive

### AI SUMMARY

Russ (Customer) reached out to discuss an issue with an incorrectly ordered window for a CIT cab.

### FULL TRANSCRIPT

**ENDICOTT CLAY** [00:00]

This call is being recorded.

**ENDICOTT CLAY** [00:03]

Hey, this is Russ down in IndyCott. Well, you remember it's been a while back we ordered a window for a CIT cab, a side window. We got the wrong one. We didn't get the one we needed anyway. I don't know if we got the wrong one. We might have got the one I ordered. I don't know.

**Nate Ross** [00:08]

Yeah, what's going on?

**Nate Ross** [00:18]

Yeah, I think so.

**Nate Ross** [00:27]

What units are they

**ENDICOTT CLAY** [00:29]

That's number four and it's an AT28D50302 but the CAB number is a CIT20634.

**Nate Ross** [00:48]

for? Let me look at that real quick.

**ENDICOTT CLAY** [00:49]

And there should be two glasses on that upper and lower on the side, on the passenger side window. 02.

**Nate Ross** [00:57]

You said

**Nate Ross** [01:08]

it was 503.02.

**Nate Ross** [01:28]

Okay. Operator cab.

**Nate Ross** [01:37]

And that's on the doors.

**ENDICOTT CLAY** [01:38]

Maybe I should get a picture of that and send it to you.

**Nate Ross** [01:47]

I see where there's two. There's like the back one and there's the front one.

**Nate Ross** [02:03]

That might not be a bad idea.

**ENDICOTT CLAY** [02:04]

Okay. Yeah. Yeah.

**Nate Ross** [02:13]

Yeah, the assembly that I'm seeing, there's a front and a back. And it looks like you just slide it. There's the small window and the big window.

**Nate Ross** [02:22]

But you normally will sell those as a complete assembly because then you just pop it in.

**ENDICOTT CLAY** [02:30]

Yeah, yeah, well there's one set below that.

**Nate Ross** [02:37]

God, I'm not seeing...

**Nate Ross** [02:43]

I see there's like a panel. Well, hang on. Let me look at this. Maybe I'm thinking that the panel and their description is just terrible. Hang on here.

**ENDICOTT CLAY** [02:50]

Thank you.

**Nate Ross** [02:55]

It's for the handle.

**ENDICOTT CLAY** [03:17]

OK.

**Nate Ross** [03:21]

That

**Nate Ross** [03:29]

may

**Nate Ross** [03:35]

be it. There we go. Lower door glass. Yep.

**Nate Ross** [03:41]

Yeah, I see that now.

**ENDICOTT CLAY** [03:42]

OKAY.

**Nate Ross** [03:45]

Oh yeah.

**Nate Ross** [03:47]

Now my next question is, I'm guessing there's a seal. Yep, you get number four and number three. So you don't want to order the seal and the glass.

**Nate Ross** [04:00]

I'm assuming it just goes around and you just pop it in is what it looks like.

**ENDICOTT CLAY** [04:02]

Yeah. Yeah. How about 764S?

**Nate Ross** [04:06]

So, okay, what do you want for a PO on that?

**Nate Ross** [04:14]

All right, I wanted to see, they got plenty of the seals on hand with the glass, because it looks like it comes in a pallet.

**Nate Ross** [04:24]

Come on.

**ENDICOTT CLAY** [04:24]

OKAY. ALL RIGHT. THAT SHOULD DO ME FOR RIGHT NOW. ALL RIGHT. THANK YOU.

**Nate Ross** [04:26]

And I got 12 of those in Indy, so we should be good on that.

**Nate Ross** [04:31]

So, yeah, fair.

**Nate Ross** [04:34]

All right, I will get that word for you. Anything else?

**Nate Ross** [04:40]

All righty. I'll get that taken care of.

**Nate Ross** [04:44]

Thanks, Russ. Bye-bye.

## Inbound call from WIRELESS CALLER

May 05, 2026 | 07:45 PM | Duration: 1m 55s | From: WIRELESS CALLER | To: +14025942051

Inbound

Positive

### AI SUMMARY

During the call, Derrick Dea (Parts representative) confirmed the order details for four parts needed for Harvest Roasting Location 1, ensuring they would be delivered by tomorrow.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

PARTS, Derrick. Yeah.

**WIRELESS CALLER** [00:08]

As we speak,

**WIRELESS CALLER** [00:12]

Jody is making me a service call for Harvest Roasting Location 1 for

**Derrick Dea** [00:15]

HARVEST ROAST.

**WIRELESS CALLER** [00:20]

a serial number that ends in 0433.

**WIRELESS CALLER** [00:28]

And I need four part numbers.

**WIRELESS CALLER** [00:34]

The first one is a horn button. It's a 9797230050 for one.

**WIRELESS CALLER** [00:48]

The next one is a boot.

**WIRELESS CALLER** [00:51]

It's a 97972200 for one.

**Derrick Dea** [00:52]

Okay. Okay.

**WIRELESS CALLER** [01:04]

Next one is an F like Foxtrot, 1600, 5008.

**WIRELESS CALLER** [01:14]

That's a screw for one.

**Derrick Dea** [01:16]

Okay.

**WIRELESS CALLER** [01:17]

And the last one is an F like Foxtrot,

**Derrick Dea** [01:19]

Alrighty.

**WIRELESS CALLER** [01:22]

2500, 5008.

**WIRELESS CALLER** [01:27]

Washer for one. All for tomorrow, please.

**Derrick Dea** [01:32]

Yep.

**WIRELESS CALLER** [01:34]

Thank you. Bye.

## Inbound call from VALERIO BREKKE

### AI SUMMARY

The conversation centered around the upcoming inventory in Q2, with Valerio (Customer) asking Nate (Sales rep) if Brandon had contacted him regarding the details.

### FULL TRANSCRIPT

**VALERIO BREKKE** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Rion Equipment Parts, Nate?

**VALERIO BREKKE** [00:06]

Hey, it's

**VALERIO BREKKE** [00:08]

Michael. I forgot to tell you last week, or last Thursday, did Brandon get with you? We have to do our inventory in Q2.

**Nate Ross** [00:23]

No. He did not get with me on that.

**Nate Ross** [00:30]

Is he just going to print off the sheets or is he just going to send it to us?

**VALERIO BREKKE** [00:34]

I don't know how it's going to work.

**VALERIO BREKKE** [00:38]

I'll have to get with him. One of the many things we have to get with him about, but...

**Nate Ross** [00:43]

Yeah.

**VALERIO BREKKE** [00:43]

Yeah, he wants us to do our inventory, our full inventory in Q2.

**Nate Ross** [00:48]

Yeah, last time he just sent us the sheets. We printed them off and then we sent them back over to him.

**Nate Ross** [00:54]

That's how we did that. So

**Nate Ross** [00:58]

I'm assuming that's how it's going to go.

**VALERIO BREKKE** [00:58]

Well,

**VALERIO BREKKE** [01:00]

Riley is done with school after this week,

**Nate Ross** [01:08]

Oh, good.

**VALERIO BREKKE** [01:08]

so he's going to come in quite a bit,

**Nate Ross** [01:11]

Yeah, we'll just use him on that.

**VALERIO BREKKE** [01:14]

so. Yep. Yep. Okay.

**Nate Ross** [01:15]

Yep, we can do that. That will work.

**VALERIO BREKKE** [01:19]

Yep. Yeah, other than that, I'll have to find some time to speak with Mr. Brandon in

**Nate Ross** [01:28]

Yeah, like I said,

**VALERIO BREKKE** [01:28]

his busy lifestyle.

**Nate Ross** [01:31]

yeah, if he can just get us the papers, we can start doing that. And then we'll get him, because the biggest thing is that once he runs it,

**Nate Ross** [01:42]

We got to get it done because otherwise we're

**Nate Ross** [01:47]

pulling from it.

**VALERIO BREKKE** [01:48]

Yep.

**VALERIO BREKKE** [01:53]

Yep. Okay. Well, I'll be back here in 20, 30 minutes,

**Nate Ross** [01:58]

Sounds good?

**VALERIO BREKKE** [02:00]

so we'll see you then.

**Nate Ross** [02:01]

Sounds good.

**VALERIO BREKKE** [02:03]

Okay. Bye.

**Nate Ross** [02:03]

Thanks, man. Bye-bye.

Inbound

Positive

### AI SUMMARY

The call involved a service request made by a wireless caller for Harvest Roasting Location 1 to replace a horn button, with Jodi Nickell (Service Representative, Ryan Equipment, Omaha) facilitating the communication and confirming details about John's availability.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Ryan Equipment, Omaha. This is Jodi. How may I help you?

**WIRELESS CALLER** [00:06]

Did you know this call is being recorded?

**Jodi Nickell** [00:07]

I had a general idea of it.

**Jodi Nickell** [00:13]

Well, yeah, it's what they tell us.

WIRELESS CALLER [00:15]

That's what they tell us.

WIRELESS CALLER [00:18]

So I need a service call for Harvest Roasting Location 1

Jodi Nickell [00:24]

What you got?

WIRELESS CALLER [00:25]

on a serial number Alpha Foxtrot Bravo 2500433.

WIRELESS CALLER [00:37]

And we're going to replace Horn Button.

Jodi Nickell [00:41]

Replace horn button.

WIRELESS CALLER [00:44]

Button.

WIRELESS CALLER [00:48]

Is John there?

Jodi Nickell [00:49]

He's at lunch.

WIRELESS CALLER [00:51]

Is he? Okay. All right. Super.

Jodi Nickell [00:53]

All right. Do you want me to have them call you?

WIRELESS CALLER [00:56]

No, I'll talk to him. I should be back at the shop in about an hour or so.

Jodi Nickell [00:59]

Oh, okay. Yep, bye.

WIRELESS CALLER [01:00]

All right. Thanks.

AI SUMMARY

Rollins contacted Nate about a rear bearing issue with a part. Nate confirmed the inner bearing is too small and suggested options for replacement.

FULL TRANSCRIPT

ROLLINS F. [00:00]

This call is being recorded.

**Nate Ross** [00:05]

Ryan to comb my parts with Nate?

**ROLLINS F.** [00:07]

Hey Nate, on those bearings, that one, that rear one I was telling you about, they didn't send two of the same. That was a rear bearing. It's just too small.

**Nate Ross** [00:17]

Just too small.

**ROLLINS F.** [00:18]

Yeah, that's just not the right bearing.

**Nate Ross** [00:19]

Okay. That's what I assumed is there's probably a couple options on that is what I'm guessing. So I'll do some digging on that. But the inner bearing is too small.

**ROLLINS F.** [00:28]

Right.

**Nate Ross** [00:31]

Okay. Okay. All right, man. Yeah, bye.

**ROLLINS F.** [00:32]

All right. Bye.

Gustin and Derrick discussed work order 805153 for Burley Steel. Derrick confirmed the work order and mentioned they would handle it. The conversation ended with Derrick expressing appreciation and a wish for a movie.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. All

**GUSTIN KELVIN** [00:05]

Hey Derrick, that work order is 805153 for

**Derrick Dea** [00:10]

right, we'll do them. Yep. All righty.

**GUSTIN KELVIN** [00:13]

a packed in Burley Steel.

**GUSTIN KELVIN** [00:18]

Thank you sir, I appreciate it. I gotta go to Nebraska Warehouse now and go look at a movie mass that's down. Yippee-ki-yay. I thought I was gonna make it air light but I can't make it there yet so...

**Derrick Dea** [00:29]  
All right.

**GUSTIN KELVIN** [00:32]  
Thank you sir.

CALL 92 OF 611

**Inbound call from GREG SHEPHERD**

May 05, 2026 | 07:23 PM | Duration: 5m 57s | From: GREG SHEPHERD | To: +15152995624

**Inbound** **Negative**

**AI SUMMARY**

In the conversation, Greg Shepherd (Customer) sought assistance regarding battery trays for Toyotas and expressed frustration over the condition of existing batteries.

**FULL TRANSCRIPT**

**GREG SHEPHERD** [00:00]  
This call is being recorded.

**Adam Henderson** [00:03]  
Rion equipment to set them.

**GREG SHEPHERD** [00:06]  
Hey, Adam.

**Adam Henderson** [00:07]  
Oh,

**GREG SHEPHERD** [00:09]  
Hey, do you know if they sell

**GREG SHEPHERD** [00:11]  
a battery tray thing for these Toyotas? This thing's probably obsolete, ain't

**Adam Henderson** [00:17]  
I'm sure it probably is.

**GREG SHEPHERD** [00:19]  
it? By the way, nobody wants to \*\*\*\* with it.

**GREG SHEPHERD** [00:22]  
Yeah, the batteries are dry. One's like the \*\*\*\*\* plates are melted.

**Adam Henderson** [00:24]  
Huh.

**Adam Henderson** [00:28]  
That would be the reason why it probably doesn't charge.

**GREG SHEPHERD** [00:30]  
Stay

**GREG SHEPHERD** [00:33]

charging you. But they have the wiring or...

**Adam Henderson** [00:35]

Yeah.

**GREG SHEPHERD** [00:39]

The cord coming out for the charger, it's pulled out of the box connectors loose and they got the wires all zip tied up and taped.

**Adam Henderson** [00:48]

Huh. That's funny.

**GREG SHEPHERD** [00:50]

But you try to swivel out the trays and somebody's cobbled welds on the holder deals and the whole freaking thing falls out.

**Adam Henderson** [01:01]

Oh, geez. Let me look and see if anything is available.

**GREG SHEPHERD** [01:05]

So you kind of got to hold the battery and try to slide the plate in and put the

**GREG SHEPHERD** [01:11]

The round bars in the holes and try to get it pushed in at the same time.

**Adam Henderson** [01:19]

That seems like something that somebody would do.

**Adam Henderson** [01:23]

Let's see, battery pack.

**GREG SHEPHERD** [01:27]

I know I didn't replace these batteries because they're batteries plus.

**Adam Henderson** [01:34]

Ah. You can get the covers and you can get the trays and then the center support thing.

**Adam Henderson** [01:44]

Yeah, you can get it. It's like \$700 just for the center support.

**GREG SHEPHERD** [01:50]

They probably won't \*\*\*\*\* pay for it.

**Adam Henderson** [01:53]

Yeah, then your trays are 85 bucks a piece for the trays.

**GREG SHEPHERD** [02:02]

So you got to pretty much put it together.

**Adam Henderson** [02:04]

Yeah, you can't buy it as an assembly.

**Adam Henderson** [02:08]

It's the center tree thing that the charger mounts in and then it's got the two trays per side.

**Adam Henderson** [02:17]

And there's also another piece that they call a cord tray,

**Adam Henderson** [02:25]

which must be like, like makes a compartment for where the cord goes.

**GREG SHEPHERD** [02:30]

Probably the cord and the amp meter when you charge

**Adam Henderson** [02:34]

And it doesn't have a hole in it or anything.

**GREG SHEPHERD** [02:34]

in the fuse.

**GREG SHEPHERD** [02:39]

Yeah, this one's got an amp meter, a fuse, and a cord going to

**Adam Henderson** [02:42]

I think that's in the top of the center tree. Maybe. I don't know. I only got a picture of one side of it.

**GREG SHEPHERD** [02:55]

it. Yeah, I'll call and see what they want to do. I'm sure they won't \*\*\*\*\* do that. I'll have to fight it. Hopefully I don't...

**Adam Henderson** [03:01]

Yeah. Yeah, it's going to need batteries either way.

**GREG SHEPHERD** [03:04]

Yeah, it's going to need batteries. Hopefully it don't smash my hands.

**Adam Henderson** [03:06]

Yeah, looks like the charger itself has all that ammeter and everything in it.

**GREG SHEPHERD** [03:19]

I must change it because this is all wires and the charger is way down at the bottom.

**Adam Henderson** [03:24]

Yeah, so is this one, but it like slides down in the center of the tree.

**GREG SHEPHERD** [03:29]

Oh, I got you. So it bolts in somehow. Or sits in there.

**Adam Henderson** [03:33]

Well, unless it's this other one that says, "Swing out power wires." I'm not sure what that means. Oh, that's all the cables inside.

**Adam Henderson** [03:49]

There's just a swing out battery pack and then it just lists every individual piece.

**Adam Henderson** [03:59]

Or you can buy an entire battery pack assembly for \$5,200.

**GREG SHEPHERD** [04:02]

All right, I'll see what Jim wants

**GREG SHEPHERD** [04:08]

to do. We'll do that. We already know that.

**GREG SHEPHERD** [04:15]

They just barely fixed what they can do. Like, come on, people.

**Adam Henderson** [04:20]

Yeah, they should be watering their batteries though.

**GREG SHEPHERD** [04:23]

Yeah, true.

**Adam Henderson** [04:27]

So, yeah, just let me know what you need to get.

**GREG SHEPHERD** [04:29]

All right, I'll see what they're needing to do. Probably end up just going to get batteries, probably, but...

**Adam Henderson** [04:33]

Alright, thanks.

**Adam Henderson** [04:36]

Yeah, that would be my guess.

**GREG SHEPHERD** [04:39]

They're golf cart batteries, what's in them, but I don't know if that's what they're supposed to take or not, I'm sure.

**Adam Henderson** [04:45]

Yeah, that's what's supposed to be in there. Just GC2s.

**GREG SHEPHERD** [04:52]

Well, this

**GREG SHEPHERD** [04:55]

says SLIGC125.

**Adam Henderson** [05:00]

Yeah, that's just a golf cart battery.

**Adam Henderson** [05:05]

Some people call it weird things.

**GREG SHEPHERD** [05:09]

All right, then. I was just making sure to see if it's available or what. I guarantee they won't do it.

**Adam Henderson** [05:17]

Yeah. Sounds good.

**GREG SHEPHERD** [05:18]

All right. Thank you.

---

CALL 93 OF 611

## Inbound call from JANEY DYLAN

May 05, 2026 | 07:16 PM | Duration: 3m 6s | From: JANEY DYLAN | To: +13098657202

Inbound

Positive

### AI SUMMARY

The conversation involved Dylan from OneSource reaching out to Jesse Downey to follow up on an order for a foot brake valve for FeedHouse 2.

### FULL TRANSCRIPT

**JANEY DYLAN** [00:00]

This call is being recorded.

**Jesse Downey** [00:03]

Ryan and Equipment, Jesse and Parts.

**JANEY DYLAN** [00:06]

Hey, Jesse, this is Dylan from OneSource out here at ADM Cedar Rapids.

**Jesse Downey** [00:10]

Hey Dylan, how's it going?

**JANEY DYLAN** [00:12]

Did Mike Neal happen to call you yet?

**Jesse Downey** [00:15]

I have not spoken to him in a couple days at least.

**JANEY DYLAN** [00:18]

Okay. Well, he said something about sending me your info, but then Archie ended up sending it to me, and I didn't know if he was going to call you or not. But for FeedHouse 2, I'm not sure.

**Jesse Downey** [00:28]

No worries.

**JANEY DYLAN** [00:32]

I need another one of those foot brake valves.

**JANEY DYLAN** [00:37]

You just sent us one for refinery, but now FeedHouse is starting to act up too.

**Jesse Downey** [00:43]

Okay, the pedal, do you want the valve below it also or just the pedal alone?

**JANEY DYLAN** [00:44]

Yeah. I want the valve itself.

**Jesse Downey** [00:49]

You want...

**Jesse Downey** [00:52]

Okay, so the pedal's on top and the valve's underneath. Well, the pedal's kind of a valve also, but you want the piece that mounts underneath to the pedal, correct?

**JANEY DYLAN** [01:00]

Yes. Yes.

**JANEY DYLAN** [01:02]

Because it's stuck straight up, almost \*\*\*\* near straight up in the air. And every once in a while after you let off of it, it's acting like it's still on. And so they don't have throttle when they try to move, even though they're not on the brake.

**Jesse Downey** [01:16]

Okay. Yeah, I think that issue with the last one that caused the math to go out on the previous one, I believe.

**JANEY DYLAN** [01:22]

Yeah. So we have, we got the master cylinder and refinery, and then it just showed up literally 10 minutes ago. We got the one.

**JANEY DYLAN** [01:31]

For refinery, did Archie ask a second master cylinder just for us to have one on hand? Okay.

**Jesse Downey** [01:37]

Negative.

**JANEY DYLAN** [01:40]

Did he order two of them?

**Jesse Downey** [01:45]

I

**JANEY DYLAN** [01:47]

Sorry,

**JANEY DYLAN** [01:49]

you cut out a little bit.

**Jesse Downey** [01:51]

said I can put two on the quote to Mr. Neal.

**JANEY DYLAN** [01:56]

Oh, well, I was just curious because I, uh, hold on one sec.

**JANEY DYLAN** [02:07]

Gate 10, the sweeper's dead, and don't play draw fluid all over the road.

**JANEY DYLAN** [02:17]

10-4. Okay, forget all that. All I need is just that foot brake valve.

**Jesse Downey** [02:23]

Okie dokie. I'll get it to Mr. Neal. I'm still waiting on approval on the stuff I sent yesterday to him.

**JANEY DYLAN** [02:30]

Okay. Yeah, he knows that I'm ordering this. Like I said, I wasn't sure if he was going to call you or not, but figured I would just in case he forgets.

**Jesse Downey** [02:30]

That Archie talked about.

**Jesse Downey** [02:40]

No worries. I'll get this sent over to him and I'll wait for his PO.

**JANEY DYLAN** [02:43]

Awesome. Thank you very much,

**Jesse Downey** [02:46]

You're welcome, Dylan. Have a good day.

**JANEY DYLAN** [02:48]

sir. You as well. Bye.

**Jesse Downey** [02:49]

Thank you. Bye-bye.

**JANEY DYLAN** [02:50]

Thank you.

---

CALL 94 OF 611

## Inbound call from ROLLINS F.

May 05, 2026 | 07:15 PM | Duration: 2m 1s | From: ROLLINS F. | To: +14024731032

Inbound

Neutral

### AI SUMMARY

Fred (Customer) contacted Nate (Sales rep) to address issues with incorrect wheel bearings received for a lift and to inquire about a sleeve for the tie rod.

### FULL TRANSCRIPT

**ROLLINS F.** [00:00]

This call is being recorded.

**Nate Ross** [00:03]

Ryan, any comment parts,

**ROLLINS F.** [00:06]

Hey Nate, this is Fred on Yankee Brick.

**Nate Ross** [00:08]

Nate? Yeah, what's going on?

**ROLLINS F.** [00:09]

Hey, on that lift you got me those wheel bearings for?

**ROLLINS F.** [00:14]

For the spindle?

**ROLLINS F.** [00:17]

One was wrong. You gave me two small ones. I need a big one and a small one for that.

**Nate Ross** [00:23]

Okay, I'll follow back up with that guy.

**ROLLINS F.** [00:29]

And I wanted to see on that tie rod on the inside that connects to the axle. Is there a sleeve that goes inside there?

**Nate Ross** [00:37]

I'm not sure. I mean, we're not really a Komatsu dealer, so I just go through the Komatsu guy out of Des Moines, so I can definitely see if we can, if there is one in there. So, yep.

**ROLLINS F.** [00:48]

Okay.

**Nate Ross** [00:52]

Yep, I sure can.

**ROLLINS F.** [00:54]

Okay, check that out for me. The Baron I need as fast as you can get. Well, either one of them, if they take them, I need them as fast as you can get

**ROLLINS F.** [01:03]

them. P-O-V-8-1-8-7-7.

**Nate Ross** [01:05]

But you need

**Nate Ross** [01:08]

81877. And then, but you're needing the inner and the outer. We're both wrong.

**ROLLINS F.** [01:16]

I need the inner. I don't need the outer.

**Nate Ross** [01:18]

The inner, okay. Okay. All right. I'll do some.

**ROLLINS F.** [01:20]

They gave me two of the outers, and I didn't get one of the centers, but on that tie rod...

**Nate Ross** [01:27]

Oh, there must be two different options.

**ROLLINS F.** [01:28]

On the inside where it connects, there's a pin that goes down inside to hold that in,

**Nate Ross** [01:31]

Yeah.

**ROLLINS F.** [01:35]  
but it just seems really loose.

**Nate Ross** [01:35]  
Okay.

**Nate Ross** [01:37]  
Okay. All right. I will do some digging.

**ROLLINS F.** [01:40]  
So, okay, thank you.

**Nate Ross** [01:42]  
Thanks, man. Yep. Bye-bye.

Gustin Kelvin (Caller) reached out to Derrick Dea (Parts rep) to discuss a work order for a unit carry model, providing specifics about tire sizes and serial numbers.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
Parts, Derrick. Alright.

**GUSTIN KELVIN** [00:05]  
Hi Derrick, how's it going?

**GUSTIN KELVIN** [00:09]  
Hey,

**GUSTIN KELVIN** [00:11]  
I just sent Jody and John a text to get a work order made but Paxton Burling has got a unit carry model

**GUSTIN KELVIN** [00:23]  
Mary Adam Paul 1 Frank 2 Adam 2 5 Larry Victor

**Derrick Dea** [00:28]  
Thank you.

**GUSTIN KELVIN** [00:35]  
It's got a serial number of an Adam Paul 1,

**GUSTIN KELVIN** [00:41]  
Frank 2-9,

**GUSTIN KELVIN** [00:43]  
Universe

**Derrick Dea** [00:53]

Thank you.

**GUSTIN KELVIN** [00:53]

29177. And

**GUSTIN KELVIN** [00:56]

looks like the tire size is 21 by 8 by 9.

**GUSTIN KELVIN** [01:03]

The other one is a 18x7x8. It looks like it's

**GUSTIN KELVIN** [01:12]

in beadlock tires.

**GUSTIN KELVIN** [01:22]

They also got, they want to do a PM on the line too. So, I don't, I think it's in the system, but

**GUSTIN KELVIN** [01:31]

I'm sure we have filters and stuff for it, right? Since we're a unicary dealer too, right?

**Derrick Dea** [01:34]

I wouldn't know. Mm-hmm. Mm-hmm.

**GUSTIN KELVIN** [01:42]

I wouldn't either.

**GUSTIN KELVIN** [01:45]

We got everything, buddy. We got you.

**GUSTIN KELVIN** [01:50]

That's right.

**GUSTIN KELVIN** [01:52]

But she should be sending a text over pretty soon on the work order. There should be one popping up for PBS.

**Derrick Dea** [02:02]

All right. Yep. Yep.

**GUSTIN KELVIN** [02:05]

I'm gonna run back over to Air Light and see if I can't...

**GUSTIN KELVIN** [02:10]

I got my genie parts, my wheels.

**GUSTIN KELVIN** [02:14]

You know what else I got? That seat adjusting latch. Richard said there was in the Norfolk band.

**Derrick Dea** [02:20]

Yeah. All right. Yep. All righty. Bye.

**GUSTIN KELVIN** [02:24]

So we're good to go.

**GUSTIN KELVIN** [02:28]

We're gonna go tear it up, buddy. Thanks for your help.

**GUSTIN KELVIN** [02:35]

We'll see you later. Bye.

## Inbound call from COOPER PATRICK

### AI SUMMARY

Cooper Patrick (Technician, Toyota) called Adam Henderson (Representative) to discuss issues with a Toyota pallet jack's batteries, which were not holding a charge.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

What's up?

**COOPER PATRICK** [00:07]

Hey, Adam, hey, this is Greg.

**COOPER PATRICK** [00:11]

Oh,

**Adam Henderson** [00:13]

I

**COOPER PATRICK** [00:13]

working on a Toyota. Here I have the pallet jack.

**COOPER PATRICK** [00:19]

Last five is 45079.

**COOPER PATRICK** [00:25]

I complained about not taking no charge, not holding a charge.

**COOPER PATRICK** [00:31]

Well, I checked the charger. It's charging. It's working.

**COOPER PATRICK** [00:36]

But the batteries only have 26.8 volts.

**COOPER PATRICK** [00:41]

But I wanted to load check the batteries. How do you get that whole case out of there?

**Adam Henderson** [00:48]

don't

**COOPER PATRICK** [00:49]

Because it's like one solid steel case.

**COOPER PATRICK** [00:53]

I mean, there's holes on the side, but I ain't got, you gotta have like hooks or something to get it out or lifting eyes maybe.

**Adam Henderson** [01:03]

know. Yeah, I don't know how those come out of there. I guess I've never seen a Toyota, like, pack where it's just a, like, a steel case that you got to pull out.

**COOPER PATRICK** [01:15]

That's an older one.

**Adam Henderson** [01:17]

Yeah.

**COOPER PATRICK** [01:19]

I don't know if you can open that up for me, but I might have to run back to the shop and grab some eyelet things.

**COOPER PATRICK** [01:25]

I think I can bolt it on the top if they would hold, but you're trying to pull out four batteries with a lift.

**Adam Henderson** [01:31]

Yeah, that's only a couple hundred pounds. Those batteries are usually about 75 pounds. So maximum you got like 350 pounds.

**COOPER PATRICK** [01:38]

I'm

**COOPER PATRICK** [01:45]

trying to remember how I... I can't remember if it was this one or the other one I did.

**COOPER PATRICK** [01:51]

There was one of them I pulled out like that, but I can't remember how I did it.

**COOPER PATRICK** [01:59]

But I thought there were hooks on it originally, but I don't see any.

**COOPER PATRICK** [02:08]

Yeah, because I don't have none of those bolt-on eyelet things.

**COOPER PATRICK** [02:13]

That'd be the only other thing I can think of.

**Adam Henderson** [02:18]

Yeah. Yeah, I don't know if, well our battery bar would probably fit in there, wouldn't

**COOPER PATRICK** [02:26]

No.

**COOPER PATRICK** [02:29]

It's pretty solid, and it's only got three little, like, half-inch holes on the middle of the case on the sides.

**Adam Henderson** [02:32]

it?

**Adam Henderson** [02:36]

You can probably just put a bolt through there and put a nut on the inside with a washer.

**COOPER PATRICK** [02:37]

And it's all...

**COOPER PATRICK** [02:42]

Well, I can't get my hands in there. I pull the thing forward. I've only got, like, an inch and a half.

**COOPER PATRICK** [02:53]

I don't know if I just...

**COOPER PATRICK** [02:55]

And I know they ain't been watered.

**COOPER PATRICK** [02:59]

Because you can't get to them.

**Adam Henderson** [02:59]

They might, yeah, they may be

**Adam Henderson** [03:03]

gel batteries. My guess is if you can't get to them that they're gels.

**COOPER PATRICK** [03:18]

Okay.

**COOPER PATRICK** [03:23]

I'll figure something out. Because I guess I've got to use a lift to get it out of there.

**Adam Henderson** [03:33]

I don't think we have any like hooks in the

**COOPER PATRICK** [03:43]

Kind of like the lifting guys, but they're hooks or whatever they can put in a hole. Probably don't have nothing like that, do we?

**Adam Henderson** [03:51]

Uh, no. Not that I'm aware of. Nothing small like that. That would be like a normal, like, chain hook.

**COOPER PATRICK** [04:05]

All right. I'm trying to figure something out.

**Adam Henderson** [04:09]

Okay. Yeah, I've got that open for you. Just finishing up the work order here. Alright. Yep.

**COOPER PATRICK** [04:14]

All right. Thank you, sir. All right. Bye.

Positive

### AI SUMMARY

In a brief call, Bob from NE TRANSPORT discussed the need to turn down a Mitsubishi with Todd Babka (Parts representative), who agreed to inform Steve, mentioning his upcoming vacation.

### FULL TRANSCRIPT

**NE TRANSPORT** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Parts is Todd.

**NE TRANSPORT** [00:06]

Hey Todd, this is Bob at Cross Country.

**Todd Babka** [00:08]

Hey, Bob, how are you doing?

**NE TRANSPORT** [00:11]

Good. I got another one of the Mitsubishi's to turn down.

**Todd Babka** [00:12]  
Good.

**Todd Babka** [00:15]  
Okay. I will let Steve know.

**NE TRANSPORT** [00:18]  
I'll make sure it's made this time. They snuck it away on me last time.

**Todd Babka** [00:21]  
Ah, I see. Okay. Well, I will let him know. It'll probably be at the very earliest would be Monday. If not, sometime next week. Because he's leaving now for vacation for graduation.

**NE TRANSPORT** [00:38]  
Okay. I give you something to do.

**Todd Babka** [00:40]  
So, and he's the, yeah, I don't know if you want me dabbling in that. That thing might either run off the rails or it won't move. So, but, but just to let you know, so he's with our,

**NE TRANSPORT** [00:46]  
That's giving me a bad time.

**NE TRANSPORT** [00:58]  
Okay, if something happens with an A here, I'll let you know.

**Todd Babka** [01:01]  
okay, that'll be great. Now we'll let Steve know you need one turned down.

**NE TRANSPORT** [01:06]  
All right. Thanks.

**Todd Babka** [01:07]  
All right. Thanks, Bob. You bet. Bye-bye.

CALL 98 OF 611

**Inbound call from SMEAL MONICA**

AI SUMMARY

Monica (Customer) reached out to Rodney (Sales rep) to confirm the addition of details to a purchase order, and they smoothly agreed to proceed with the same PO number for the order.

FULL TRANSCRIPT

**SMEAL MONICA** [00:00]  
This call is being recorded.

**Rodney Meier** [00:04]  
Brian Equipment, this is Rod.

**SMEAL MONICA** [00:06]

Hey, Troy is writing in.

**Rodney Meier** [00:10]

Yeah, this is Rodney.

**SMEAL MONICA** [00:11]

Okay, hey, this is Monica Smeal and I'm calling in regards to that email you just sent me.

**Rodney Meier** [00:15]

Yeah.

**Rodney Meier** [00:20]

Yes, yes.

**SMEAL MONICA** [00:21]

And I'm going to go ahead and add that to that PO I just sent you.

**Rodney Meier** [00:26]

Same PO number. Okay.

**SMEAL MONICA** [00:27]

Yep, same PO number. So I will add that here shortly, but if you want to go ahead and get that stuff going, that's fine. Just use that PO number.

**Rodney Meier** [00:29]

Okay.

**Rodney Meier** [00:34]

Yep. Yep. Nope. No problem at all. I can certainly do that for you, Monica.

**SMEAL MONICA** [00:39]

Sounds perfect. Thanks, Rodney.

**Rodney Meier** [00:40]

All right. You bet. Thank you. Bye.

**SMEAL MONICA** [00:41]

Bye.

CALL 99 OF 611

## Inbound call from GUSTIN KELVIN

May 05, 2026 | 06:40 PM | Duration: 2m 56s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Positive

### AI SUMMARY

During the conversation, Derrick Dea (Company Rep) and Gustin Kelvin focused on resolving parts needed for a JLG machine, including switches and decals.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Oh, it's Derrick. Alright. Mmm.

**GUSTIN KELVIN** [00:04]

Derrick, how you doing, buddy?

**GUSTIN KELVIN** [00:09]

Come on, cheer up. We're on the downhill side. You only got like an hour, right? Two and a half hours. Hey, did you get my message on that JLG? Oh, you rock. Yeah, I don't know if you got pics or something that you need to look at.

**Derrick Dea** [00:14]

Yeah. Yeah. Yeah.

**GUSTIN KELVIN** [00:25]

For me to look at to help you see what we need but it was pretty

**Derrick Dea** [00:31]

What about it, Pierre? Two switches.

**GUSTIN KELVIN** [00:31]

self-explanatory wasn't it?

**GUSTIN KELVIN** [00:38]

Yeah so the switch and

**GUSTIN KELVIN** [00:43]

the... Yeah he actually only needs one of them switch assemblies so it comes with

**GUSTIN KELVIN** [00:47]

the rocker switch assembly so it's the housing, the switch and the arm and all that right?

**Derrick Dea** [00:50]

Okay. This is where?

**GUSTIN KELVIN** [00:58]

It's on the boom. It's inside on the boom. There's two switch assemblies. I just need one of them.

**Derrick Dea** [00:59]

Okay. Like a limit switch? What about the light or lens? Mm-hmm.

**GUSTIN KELVIN** [01:07]

Yes, that's what it is.

**GUSTIN KELVIN** [01:10]

The

**GUSTIN KELVIN** [01:12]

lens. So on the upper display, there's a cover, like a tinted cover that goes over the lights.

**Derrick Dea** [01:16]

I think I get the whole...

**GUSTIN KELVIN** [01:23]

That has the, you know, the insignias of what function you're doing and what's lit and what's not. If you can get just the lens, if you can't get that whole dash assembly with the lens,

**Derrick Dea** [01:39]

Delete display, don't you? Okay, I'll look.

**GUSTIN KELVIN** [01:41]

do you? I don't know. I do not know.

**Derrick Dea** [01:45]

Okay. Yep.

**GUSTIN KELVIN** [01:45]

And then also on that hood cover of the upper control, there's like decals that tell you the operation of the functions, like for the travel. He wants all the decals. My man, Roger, I give you the work order, didn't I? Yep. What else can I do for you, man? You rock. You got everything. And he doesn't...

**Derrick Dea** [02:06]

Alright, got it. Okay. Will do. Nope, I'm good.

**GUSTIN KELVIN** [02:11]

He wants some drop ship to him and ground him in no big hurry.

**GUSTIN KELVIN** [02:20]

Anything else I can do for you,

**GUSTIN KELVIN** [02:24]

sir? I know you're good. I'm just wondering if there's something I could do for you.

**Derrick Dea** [02:24]

Nope, we're all good.

**GUSTIN KELVIN** [02:29]

Back rub, massage, ultrasonic massage. That sounds good. I want one of them.

**Derrick Dea** [02:31]

Well,

**GUSTIN KELVIN** [02:39]

All right, well, I'm going to go to PBS and look at some tires and see if I can sell some tires, and I'm going back to Airlight.

**Derrick Dea** [02:39]

alright. See you too. Bye.

**GUSTIN KELVIN** [02:46]

Thank you very much. Have a great day. Thank you. Bye.

### AI SUMMARY

Darin Leick (Sales rep) and Ryan from Stock Rapids discussed the techs who work on the Toborgs, with Darin confirming Frederick as the primary tech and agreeing to text Ryan John's number for further inquiries.

### FULL TRANSCRIPT

**DAWSON MN** [00:00]

This call is being recorded.

**Darin Leick** [00:03]

Ryan Equipment, this is Darren. Darren and Ryan in Stock Rapids. What's up?

**DAWSON MN** [00:05]

Darin, it's Ryan from Stock Rapids.

**DAWSON MN** [00:09]

Hey,

**Darin Leick** [00:11]

Which of your

**DAWSON MN** [00:12]

which of your techs works on the Toborgs the most?

**Darin Leick** [00:16]

captains are you? Probably Frederick, but I know John has done a fair amount too. He's probably...

**DAWSON MN** [00:23]

Can

**DAWSON MN** [00:29]

you text me John's number?

**Darin Leick** [00:31]

Sure, he's probably more the one that could answer whatever question you have. Sure,

**DAWSON MN** [00:36]

All right, yeah. Text me his number, please. Okay, thanks.

**Darin Leick** [00:39]

will do. You bet.

CALL 101 OF 611

## Inbound call from WEILER WILLIAM

May 05, 2026 | 05:55 PM | Duration: 2m 51s | From: WEILER WILLIAM | To: +14026440781

Inbound

Neutral

### AI SUMMARY

In a conversation between William (Customer) and Rodney Meier (Representative, Ryan Equipment), William requested various steering parts for his Mitsubishi FG25N forklift and asked for a double order.

### FULL TRANSCRIPT

**WEILER WILLIAM** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Ryan Equipment, this is Rod.

**WEILER WILLIAM** [00:07]

Hi, Rod. Hey, this is Bill. Hey, how's it going?

**Rodney Meier** [00:12]

Oh, not too bad about you.

**WEILER WILLIAM** [00:14]

Oh, not bad. I'm surviving it. On a Mitsubishi, it's a model FG25N.

**Rodney Meier** [00:16]

Yeah, there you go.

**WEILER WILLIAM** [00:24]

Serial number is an A, is an Apple, F is in Frank, 17, D is in dog, 01789.

**WEILER WILLIAM** [00:36]

Can you give me all the parts of any for steering, the bearings, the bushings, the pins, the spacers, the bolts,

**WEILER WILLIAM** [00:46]

seals, whatever I all need, and then double the order so I have it on hand? I thought I had them one pin and I don't have any. I don't have, I don't know. And another question, did that,

**Rodney Meier** [00:55]

Oh, all right.

**WEILER WILLIAM** [01:00]

Vacuum gas shut off or whatever you call it. Did that ship? Yeah.

**Rodney Meier** [01:05]

The fuel lock? No, I haven't gotten a PO for it yet. I sent her an email and she was out of town that Friday and I assumed she'd take care of it Monday, but I haven't heard anything from her.

**Rodney Meier** [01:17]

I'll have to send her an email, see if she missed it or what she did.

**WEILER WILLIAM** [01:24]

Okay. I guess put all this on the same email then.

**Rodney Meier** [01:28]

Okay, yeah, well, yeah, it'll be two separate tickets because I can't put them on the same one. I'll see what I can do. All right, I will get them looked up and get something coming.

**WEILER WILLIAM** [01:30]

Yeah,

**WEILER WILLIAM** [01:34]

it's fine.

**WEILER WILLIAM** [01:38]

Okay.

**WEILER WILLIAM** [01:43]

Yeah, I don't know what to say. You want to let me know when you get a PO so that I can...

**WEILER WILLIAM** [01:48]

Kind of count on it because I was kind of counting on that fuel shutoff, but I guess, you know, you're not at fault,

**Rodney Meier** [01:54]

Yeah, nope, that's fine. I'll send her a reminder.

**Rodney Meier** [01:59]

See if we can get something going. Nothing else, I'll call her. Sometimes I think she just overlooks some of that stuff. So usually in the header, I put, you know, parts for Bill, forklift or something. So she, you know, sees what the email's about. Hopefully that, you know, helps her get it going a little bit faster. But apparently it doesn't. So we'll have to work on that.

**WEILER WILLIAM** [01:59]

so. Okay, sounds good.

**WEILER WILLIAM** [02:06]

Okay.

**WEILER WILLIAM** [02:23]

Yeah, well, it is what it is. Whenever I get it,

**Rodney Meier** [02:25]

Yep, nope, I'll see what I can do. I'll see what I can do for you, Bill. All right? All right, you bet. Thank you, Bill. See ya. Bye.

**WEILER WILLIAM** [02:28]

I get it. Okay. Okay. Thank you, Rod. Have a good day. Bye.

CALL 102 OF 611

**Inbound call from RINKER**

May 05, 2026 | 05:42 PM | Duration: 2m 5s | From: RINKER | To: +17015617461

**Inbound** **Positive**

**AI SUMMARY**

The conversation revolved around Toby's mix-up with brake shoe orders, where he mistakenly ordered the wrong part, but Darin Leick helped rectify the situation by confirming the correct order and return process.

**FULL TRANSCRIPT**

**RINKER** [00:00]

This call is being recorded.

**Darin Leick** [00:03]

Ryan, equipment, this is Darin. Yes, sir. Okay. Oh, no. All right.

**RINKER** [00:05]

Hey, Darin. Toby from Rinker.

**RINKER** [00:08]

I messed up when I ordered those brake shoes.

**RINKER** [00:14]

I was looking at too many books at one time again.

**RINKER** [00:21]

Yeah, I ended up ordering shoes for a 135-part brake instead of an old V-series. And I do have some of those on the shelf, so I'm going to end up sending these back.

**Darin Leick** [00:32]

Okay, sure. 8X2970.

**RINKER** [00:35]

And then what I need is an 8X2970.

**RINKER** [00:48]

I don't know why. I knew that other number wasn't an old B-Series number, but I don't know.

**Darin Leick** [00:51]

8X2970.

**Darin Leick** [00:56]

All right. Shoe and lining assembly.

**RINKER** [01:03]

We have two of those guys,

**Darin Leick** [01:05]

Okay.

**RINKER** [01:07]  
and I'll see if I can get my other two back to Fargo.

**Darin Leick** [01:11]  
Sure. Yeah. Once we get them, I'll just, I'll credit it and we'll be good. What was that unit number again, Toby? Toby?

**RINKER** [01:25]  
17, haven't we? Yep.

**Darin Leick** [01:34]  
Okay. All right. Two of those. Slow road, good? Okay. And just two of those, you said? All right. Yeah, I'll get those coming for you, Toby.

**RINKER** [01:38]  
Yeah, that's fine.

**RINKER** [01:47]  
Yep.

**Darin Leick** [01:52]  
All right. You bet. Thank you.

**RINKER** [01:52]  
Okay, thank you. Bye.

CALL 103 OF 611

**Inbound call from CARGILL INC**

May 05, 2026 | 05:04 PM | Duration: 8m 40s | From: CARGILL INC | To: +13098657203

**Inbound** **Positive**

**AI SUMMARY**

The conversation began with Steve from Cargill reaching out to Rachel Quintana from Rion Equipment to clarify service document SC792726.

**FULL TRANSCRIPT**

**CARGILL INC** [00:00]  
This call is being recorded.

**Rachel Quintana** [00:03]  
Rion Equipment, this is Rachel.

**CARGILL INC** [00:05]  
Hi, Rachel. This is Steve over at Cedar Rapids Cargo. How are you today?

**Rachel Quintana** [00:08]  
Yeah, hi, good, how are you?

**CARGILL INC** [00:10]  
Good. Hey, I was just trying to play catch up as I always am and I apologize. I was looking back. So on 4.1, you sent me, there was a service document number SC792726.

**Rachel Quintana** [00:14]

It's okay, sure.

**Rachel Quintana** [00:28]

Okay, let me grab this up there.

**Rachel Quintana** [00:32]

Okay, I've got yours all kind of clumped together here. All right, so you said it was 792-726? Okay, yes, I have that here.

**CARGILL INC** [00:40]

Yes. Yes.

**CARGILL INC** [00:43]

And I guess I was looking and so in the repair process it says perform 500 hour PM service.

**Rachel Quintana** [00:50]

Yes.

**CARGILL INC** [00:51]

And then I see and I'm just trying to verify just because I've been trying to make sure I keep track when I put in these POs. So I put in a PO from a proposal date of 123-26.

**CARGILL INC** [01:05]

It had an SC784322, and it was also for a 500-hour service on maintenance.

**Rachel Quintana** [01:14]

Okay, was it for the same unit?

**CARGILL INC** [01:14]

Yes, I only have the one unit.

**Rachel Quintana** [01:19]

Oh, okay. Yes,

**CARGILL INC** [01:21]

I just want to make sure I have no problem paying this one because it is over.

**Rachel Quintana** [01:23]

the only thing I can think of is if it was so many months apart, maybe it was due.

**CARGILL INC** [01:27]

I know we had our...

**Rachel Quintana** [01:32]

You know, like it was, yeah, let me pull it up.

**CARGILL INC** [01:32]

Yeah, I just wanted to make...

**CARGILL INC** [01:38]

I know we got a little behind, I think, on our timing. So maybe one was to catch us up and then maybe this \$500 came back. I just wanted to make sure

**Rachel Quintana** [01:38]

Let me...

**Rachel Quintana** [01:48]

No, I totally get what you're saying. Okay. Okay,

**CARGILL INC** [01:55]

it was, that one was \$2,191 and this one's \$2,140. So, let

**Rachel Quintana** [02:03]

so the PM service on this one,

**CARGILL INC** [02:08]

me see if it's more.

**Rachel Quintana** [02:09]

<REDACTED\_ENTITY>, that one's still in there, it's finished.

**Rachel Quintana** [02:15]

And then...

**Rachel Quintana** [02:20]

There was one that's closed.

**Rachel Quintana** [02:24]

7, 8, 4, 3, 2, <REDACTED\_ENTITY>. That was the other SC number you had, you said?

**CARGILL INC** [02:30]

<REDACTED\_ENTITY>, yes.

**Rachel Quintana** [02:32]

2, <REDACTED\_ENTITY>, okay. So let me look at that one.

**CARGILL INC** [02:37]

You should have a PO for that one. Yes.

**Rachel Quintana** [02:39]

Yes, I do. Ends in 7, 6, 5, 9.

**Rachel Quintana** [02:43]

Okay. This one was in January.

**Rachel Quintana** [02:53]

Look at the notes here.

**Rachel Quintana** [03:02]

OK, so it was completed and the document date was January 19th. So that one was done in January.

**Rachel Quintana** [03:13]

And then the one that is completed, still waiting for APO,

**Rachel Quintana** [03:20]

has a

**CARGILL INC** [03:24]

Service call data 227.

**Rachel Quintana** [03:24]

March 227 was when it was created.

**Rachel Quintana** [03:29]

I wonder if it was due to the hours.

**CARGILL INC** [03:36]

Right, they're just both listed as 500 hours. So I just wanted to make sure. I'm wondering if the first one wasn't

**CARGILL INC** [03:42]

It's supposed to be like a 250-hour service type thing. And I said, I think our times got off a little bit where I thought they were performed already. And maybe that one was a catch-up. And then we turned around and did it.

**CARGILL INC** [03:54]

Or maybe we did two 500-hour services pretty quick.

**Rachel Quintana** [03:57]

Yeah, or it could have just been down as a 500 hour and then--

**Rachel Quintana** [04:02]

let me see here.

**Rachel Quintana** [04:05]

I know Gavin tries to keep up on that too.

**Rachel Quintana** [04:10]

OK, this one says perform 500 hour.

**Rachel Quintana** [04:14]

And that's this one from

**Rachel Quintana** [04:18]

March. OK.

**Rachel Quintana** [04:24]

Let me go to

**Rachel Quintana** [04:28]

closed one.

**Rachel Quintana** [04:35]

That one says

**Rachel Quintana** [04:43]

the same thing.

**Rachel Quintana** [04:47]

All right.

**Rachel Quintana** [04:52]

So 4120. Let me write that down.

**Rachel Quintana** [04:58]

Okay. So the hours per--

**Rachel Quintana** [05:09]

this one was--

**Rachel Quintana** [05:15]

45, 60.

**Rachel Quintana** [05:19]

So I think we were close enough to 500 hours on the second one

**Rachel Quintana** [05:25]

to do another 500 hour. So I think hours wise, like where they were sitting as far as mileage. Because when we did it in January, it had 4,120. And then when we did it again in the February, March dates,

**CARGILL INC** [05:29]

OK. OK.

**CARGILL INC** [05:34]

OK. OK. OK.

**CARGILL INC** [05:40]

Yep. Okay. No, that makes sense. And we, our shuttle wagon sat under idle. Okay. No, that makes sense. I was thinking that the times of build, so it'd be like 250, 500, seven, like it would keep flying, but I wasn't thinking I was, it's every 500. It's a, it's a 500 hours. Okay. Okay.

**Rachel Quintana** [05:42]

It was at 4,560. So we were close enough to do another 500 hour.

**Rachel Quintana** [05:55]

Okay.

**Rachel Quintana** [06:00]

Okay. Yeah. And sometimes it's like pulling teeth from other companies to get those hours off of the machines because even though like it'll show me time wise, like, okay, your time is up to get it done. Like it's,

**CARGILL INC** [06:04]

Yep. No, no. Right.

**Rachel Quintana** [06:14]

It's due, but if those hours aren't on that machine and it hasn't been used, it's just been sitting, if it's not due, it's a waste of trip. But I think that's where Gavin sits there too. Even some of the other techs will say, hey, well, they're not due because of the hours on the machine. So we looked into that, and I think it was close enough to go ahead and do another one.

**CARGILL INC** [06:20]

Right, right.

**CARGILL INC** [06:29]

Yeah. Okay. Yeah. Nope. That makes sense. I see the media reading now, so I apologize. I didn't catch. Yeah. That, that makes more sense. And like I said, we're done with our shutdown now. So hopefully I'll be caught up. So I have, so I'll get that one in for the two, seven, two, six. And then also the other one I have is the one that ends in two, one, four, three.

**Rachel Quintana** [06:34]

Okay. Yeah. No, I want you to. At least you're paying attention. Okay.

**Rachel Quintana** [06:44]

Yeah. Yeah.

**Rachel Quintana** [06:46]

Okay.

**Rachel Quintana** [06:55]

Okay. Okay. Yep, that one's for the breaks. And then I have one that ends in 226 for a fault code.

**CARGILL INC** [06:56]

For the breaks? Yep. Am I missing others?

**Rachel Quintana** [07:04]

It's SC786226.

**CARGILL INC** [07:09]

Yes. Do you have a PO for that?

**Rachel Quintana** [07:12]

I still have the paper. Let me -- I don't believe I do, but I'm going to look.

**CARGILL INC** [07:19]

You should have a PO.

**Rachel Quintana** [07:19]

Okay.

**CARGILL INC** [07:25]

I can have them resend it if you don't have it. I've been having a huge thing of POs not going. It's been really weird. Okay.

**Rachel Quintana** [07:28]

Yeah, maybe. Yeah.

**Rachel Quintana** [07:34]

Okay. Yeah, it's still sitting under finish. I don't see a PO has been added.

**Rachel Quintana** [07:41]

Don't mind if you've got it. As soon

**CARGILL INC** [07:42]

Yeah, I will. I'll email it.

**Rachel Quintana** [07:47]

as I get them, I enter them.

**CARGILL INC** [07:50]

So you have the number, and then I'll put the CSSP on there to make them resend it too.

**Rachel Quintana** [07:58]

Okay, yeah, if we could just get caught up on these three, that's I think all I've got for you.

**CARGILL INC** [07:59]

Perfect. Thank you for your time. Have a good day. Bye.

**Rachel Quintana** [08:03]

All right, thanks for calling, Steve. All right, you too. Bye.

---

CALL 104 OF 611

## Inbound call from KOVANDA STEVE

May 05, 2026 | 04:58 PM | Duration: 7m 41s | From: KOVANDA STEVE | To: +13088337146

Inbound

Neutral

### AI SUMMARY

The conversation began with Kovanda Steve (Customer) inquiring about the status of parts including map sensors and a power steering pump motor.

### FULL TRANSCRIPT

**KOVANDA STEVE** [00:00]

This call is being recorded.

**Todd Babka** [00:05]

Or it's just Todd.

**KOVANDA STEVE** [00:06]

Yeah,

**Todd Babka** [00:07]

Hello.

**KOVANDA STEVE** [00:08]

well. Can you look and see if I've got anything that's come in like map sensors, motor, so on and so on?

**Todd Babka** [00:13]

He told you your map sensors were down in his box.

**KOVANDA STEVE** [00:16]

That was from Friday. That was one,

**KOVANDA STEVE** [00:22]

remember? Or Thursday or whatever.

**Todd Babka** [00:23]

I wasn't here Friday.

**KOVANDA STEVE** [00:27]

Because all I got was the one and there was nothing in his box this morning.

**Todd Babka** [00:29]

So. Whose are they?

**KOVANDA STEVE** [00:35]

FlowServe.

**Todd Babka** [01:10]

Where this one's at?

**KOVANDA STEVE** [01:26]

I can give you serial numbers if he wants.

**Todd Babka** [01:29]

The very first one I selected is still open.

**KOVANDA STEVE** [01:35]

Probably the 21030 serial number.

**Todd Babka** [01:44]

Yeah, yes.

**Todd Babka** [01:47]

Well,

**Todd Babka** [01:52]

it's... Did

**Todd Babka** [01:56]

it not get ordered?

**Todd Babka** [02:03]

It must not have got ordered. That's probably why it's not coming.

**KOVANDA STEVE** [02:07]

That would make sense.

**Todd Babka** [02:25]

Well, I got them. I'll have one here tomorrow.

**KOVANDA STEVE** [02:28]

Won't do me any good.

**Todd Babka** [02:33]

Maybe do somebody good.

**KOVANDA STEVE** [02:35]

Probably not. That's beside the point. That power steering pump motor, do you know when-- is that any time or is that end of the week or--

**Todd Babka** [02:46]

End of the week. I just brought in ground. Nobody said anything to have it red.

**KOVANDA STEVE** [02:51]

OK, well, that's why I was asking. I didn't know where it was coming from or how quick it was going to

**Todd Babka** [02:55]

Yeah, it's coming to Indianapolis on ground.

**KOVANDA STEVE** [02:59]

come. OK, and you remember that charger I didn't use? That was new style, wasn't it? Pallet jack charger.

**Todd Babka** [03:08]

I have no clue.

**KOVANDA STEVE** [03:11]

I was thinking it was.

**KOVANDA STEVE** [03:15]

Because they washed the old style, you know, that's got the cooling fans and open vents on it.

**Todd Babka** [03:20]

Nice.

**KOVANDA STEVE** [03:22]

And then the one Austin worked on on Friday and ordered the tiller switch for, it's running again.

**KOVANDA STEVE** [03:34]

They're moving stuff around here to there, and I'm looking for this jack because it wasn't in there where Austin said it was left. Then he called me, I said, "What's the serial number?" And he gave it to me, and sure enough, they were using it in another room.

**Todd Babka** [03:39]

Mm-hmm.

**Todd Babka** [03:46]

Huh. Well, I'll be damned.

**KOVANDA STEVE** [03:48]

So I'm guessing they washed it too.

**Todd Babka** [03:53]

And it just dried out or what?

**KOVANDA STEVE** [03:55]

Yeah, from what Austin told me, the tiller switch

**KOVANDA STEVE** [04:00]

It said the handle was down all the time. So of course, when you start it up, it won't start because it thinks the handle's down.

**Todd Babka** [04:04]

Mm-hmm.

**Todd Babka** [04:07]

Hmm. Well, I'll be damned. Well...

**Todd Babka** [04:10]

Good deal. So, but, I don't know, I don't remember anything about a charger.

**KOVANDA STEVE** [04:17]

It's been a month ago or so. I ordered a charger and then I returned it and told you it started working.

**Todd Babka** [04:25]

I'm sure I was \*\*\*\*\* off about it.

**KOVANDA STEVE** [04:27]

Yeah, I'm used to it. I ignore it.

**Todd Babka** [04:30]

Anyways.

**KOVANDA STEVE** [04:35]

Kind of like how I let you treat me. He'll get over it.

**Todd Babka** [04:38]

Yep. So, but, alright. Alright.

**Todd Babka** [04:43]

So, well, it'll be here tomorrow, if need be.

**KOVANDA STEVE** [04:49]

Okay, I'm debating as much as I really don't want to do it because it sets the wrong standard, but I might come back Thursday and work a couple hours,

**KOVANDA STEVE** [04:59]

as much as I probably shouldn't, because then the company expects that kind of \*\*\*\*.

**Todd Babka** [04:59]

Gotcha.

**Todd Babka** [05:02]

Right. You trying to take the rest of the week off? Is that what you're doing?

**KOVANDA STEVE** [05:07]

Well, yeah, I got Wednesday, Thursday, Friday off because there's graduations this weekend.

**Todd Babka** [05:10]

Oh, \*\*\*\*. See, yeah.

**KOVANDA STEVE** [05:14]

I'm ready to get ready for the party and family and...

**Todd Babka** [05:17]

Yep.

**Todd Babka** [05:20]

Good times.

**KOVANDA STEVE** [05:21]

Yeah, and then when it's all over you, you go, "Thank God, I want to go back to

**Todd Babka** [05:27]

Right. So... But... Okay. Well, I'll get this thing ordered.

**KOVANDA STEVE** [05:36]

work." Okay, and so you know, I mean, I told Michael, but it doesn't mean you remember, I will not have a phone because I got to send it to Omaha tonight.

**Todd Babka** [05:47]

Say what now? I'm sorry. Okay.

**KOVANDA STEVE** [05:49]

I will not have a phone because I got to send it to Omaha tonight.

**Todd Babka** [05:53]

Well, that's fine if you're supposed to be off anyways.

**KOVANDA STEVE** [05:56]

Yeah, they're supposed to be getting me a new one, but of course they can't just send it to me so I can transfer it.

**Todd Babka** [06:04]

Ah.

**KOVANDA STEVE** [06:04]

They have to have my phone, the old one.

**Todd Babka** [06:06]

Right. Oh, sure. Yeah.

**KOVANDA STEVE** [06:10]

NISSAL STEM for all I asked for was a phone case.

**Todd Babka** [06:14]

Really. Wow.

**KOVANDA STEVE** [06:15]

Well, we can't find one for that. I was just told to go ahead and replace your phone. It's past due.

**KOVANDA STEVE** [06:21]

Okay, whatever.

**Todd Babka** [06:22]

Next time you'll just order one on \*\*\*\*\* Amazon and be done with it.

**KOVANDA STEVE** [06:27]

That's half the thought. I mean, it is. I figured I'd push it until fall. The battery's been getting shorter and shorter lasting.

**KOVANDA STEVE** [06:34]

It still makes through the day generally, but it's generally down 10%, 20% at the end of the day, where it used to be 50%.

**Todd Babka** [06:42]

Yep. It's all on purpose.

**KOVANDA STEVE** [06:44]

Oh,

**KOVANDA STEVE** [06:49]

well. I can say it's not my money, but in a way it is.

**Todd Babka** [06:51]

Right. Okay. Well, I'll go get my print off and get it ordered. All

**KOVANDA STEVE** [07:00]

Okay, later.

**Todd Babka** [07:01]

right. Talk to you later. Bye.

---

CALL 105 OF 611

## Inbound call from WIRELESS CALLER

May 05, 2026 | 04:06 PM | Duration: 2m 47s | From: WIRELESS CALLER | To: +18162877013

**Inbound**

**Neutral**

### AI SUMMARY

During the call, Nick (Customer, Caller) reached out to Miguel Rivera Padilla (Representative, Rion Equipment) to inquire about an outstanding invoice and quote for a forklift.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Miguel Rivera Padilla** [00:04]

Rion Equipment, this is Miguel. How can I help you?

**WIRELESS CALLER** [00:06]

Hey, man. Hey, this is Nick with Titan. Hey, good. Just checking in. I don't think that I've gotten any invoice as well as a quote, I think, for that forklift.

**Miguel Rivera Padilla** [00:10]

Hey, how you doing, sir?

**Miguel Rivera Padilla** [00:21]

Gotcha. Let me take a look. I know the invoice is still in progress. Let me take a look. Yeah, let me take a look at it real quick.

**WIRELESS CALLER** [00:27]

Okay.

**WIRELESS CALLER** [00:31]

I just wanted to make sure you guys weren't waiting on me for anything. But also, when he was there and he fixed that ignition, now the ignition isn't getting any power. We just got in it today.

**Miguel Rivera Padilla** [00:34]

Oh, no,

**Miguel Rivera Padilla** [00:43]

no. Gotcha.

**Miguel Rivera Padilla** [00:46]

Gotcha.

**WIRELESS CALLER** [00:48]

So I kind of need somebody to come back out and look at that again.

**Miguel Rivera Padilla** [00:53]

Okay, sounds good. So, let me see. I know we were working on the quote to put that together.

**Miguel Rivera Padilla** [01:02]

So, we're still waiting, I think, on some part for the quote. And then the invoice

**Miguel Rivera Padilla** [01:11]

is still, let me see, it's still in progress. Let me take a look at it right now.

**WIRELESS CALLER** [01:21]

Yeah, like I said, no worries on that. I just wanted to make sure you weren't waiting on me and I thought I was waiting on you, you know, kind of thing. Yeah,

**Miguel Rivera Padilla** [01:28]

Oh no, no, no. When it comes to the invoice, do you want me to send you a copy through email whenever it's completed or...

**WIRELESS CALLER** [01:35]

if you could just email me a copy of it and then I can call and get it paid.

**Miguel Rivera Padilla** [01:39]

Okay, sounds good. I think I have your email already, don't I?

**WIRELESS CALLER** [01:45]

Yeah, yep.

**Miguel Rivera Padilla** [01:46]

Okay, sounds good, Nick. Yeah, if anything, I'll give you a call back, but as soon as we get that quote and we get all the parts that we're needing on the quote...

**Miguel Rivera Padilla** [01:54]

I'll send that to you through email and then we'll go from there.

**WIRELESS CALLER** [01:58]

Okay, and like I said, do you mind, can you send that guy back out? Because this ignition thing that he thought was fixed is not working. We can't even get the thing on right now.

**Miguel Rivera Padilla** [02:11]

Yeah, I'm going to send him right now. I'm going to send one of my techs right

**WIRELESS CALLER** [02:15]

Okay, I guess, can you let me know kind of an ETA so I can try to be there? Okay.

**Miguel Rivera Padilla** [02:22]

now. Yeah, he should be probably within the next, I would say 30 to 40 minutes, depending on how, you know, how traffic is right now, but he should be there within...

**Miguel Rivera Padilla** [02:32]

30 minutes or so. I'm going to let him know right now to head out. Yes, sir, no problem. Have a good one.

**WIRELESS CALLER** [02:36]

Okay. Perfect. Thank you. Bye.

### AI SUMMARY

Tracy reached out to Michael O'Neil (Sales rep) regarding a piece of equipment that was invoiced but did not match the service ticket details.

### FULL TRANSCRIPT

**SIEDELMANN G.** [00:00]

This call is being recorded.

**Michael O'Neil** [00:03]

Ryan Equipment, this is Mike. Can I help you?

**SIEDELMANN G.** [00:06]

Hey, Mike, it's Tracy. Hey, I'm going through this email on this piece of equipment and I can't find where we took this in on trade.

**Michael O'Neil** [00:16]

Yeah, give me some Centennial Contractors.

**SIEDELMANN G.** [00:16]

So, I thought I'd ask, do you know who the customer was?

**Michael O'Neil** [00:30]

It should be actually getting moved into our, I don't know what it's called, they're going to make it our shop, our permanent shop forklift.

**Michael O'Neil** [00:40]

So I don't know what Danny's doing to do that, but that's what it's eventually going to be.

**SIEDELMANN G.** [00:57]

This one's already been invoiced out of the system.

**SIEDELMANN G.** [01:05]

You know,

**SIEDELMANN G.** [01:18]

So there's just a couple things on this. So like the equipment number when I look at the service, this isn't like the same number that's on that service ticket. This isn't the same unit.

**SIEDELMANN G.** [01:30]

So what we took in from Centennial is it has a model in it but it's not that unit that's on Rachel's service ticket.

**SIEDELMANN G.** [01:42]

So that's where I started. I just started digging. I see that Trish entered this piece of equipment in the system on April 7th, but it's definitely not the same one that we have listed on the trade as a trade-in. So Trish, I'll let her know this is like a high priority to figure out where this unit came from.

**SIEDELMANN G.** [02:05]

And she should be able to track her email because I went through equipment update. It wasn't entered through there. So I'll have her check it out since we know it's holding up some stuff.

**SIEDELMANN G.** [02:18]

Are you there?

**Michael O'Neil** [02:19]

Yeah, I heard you. I thought you were still going on.

**SIEDELMANN G.** [02:21]

Yeah, so.

**SIEDELMANN G.** [02:24]

No, I just, yeah, I'm just a little perplexed by it. But yeah, definitely not the, I don't know. I'll see if Centennial

**Michael O'Neil** [02:27]

Yeah.

**SIEDELMANN G.** [02:32]

SEND IT OVER, BUT IT'S DEFINITELY NOT THE UNIT THAT'S ON THE TRADE-IN SHEET, AT LEAST NOT THE ONE IN APRIL. SO

**Michael O'Neil** [02:37]

Yeah.

**Michael O'Neil** [02:39]

Yeah, I don't know where we came up with that ID number. I don't know if it got assigned when we took it in as trade because they were going to look at reselling it or how, but... Okay. Yep. Bye.

**SIEDELMANN G.** [02:49]

I'LL HAVE TRISH CHECK IT OUT. OKAY. ALL RIGHT. THANKS. OKAY. BYE.

## Inbound call from OMAHA NE

### AI SUMMARY

Brett Cain (Customer) called to confirm the next rental payment date for Seneca and Des Moines with Chad Metzger (Equipment Rep), who provided the invoice details, ensuring the customer is informed about upcoming payments.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

All right, equipment is Chad.

**OMAHA NE** [00:05]

Chad, hey, Brett Cain.

**OMAHA NE** [00:08]

Hey, you're on my speakerphone. I'm in Ben Clark's truck.

**OMAHA NE** [00:13]

Hey, Seneca and Des Moines, they're going to buy their current rental.

**OMAHA NE** [00:18]

My question is, when's the next rental payment going to be sent out, that short-term rental,

**Chad Metzger** [00:25]

Let's take a look here.

**OMAHA NE** [00:27]

just so we don't have that problem?

**OMAHA NE** [00:37]

Sorry to stop you doing whatever you were doing.

**Chad Metzger** [00:39]

Oh, they're fine. Let me find it here. Seneca invoice.

**Chad Metzger** [00:55]

Most recent invoice was done through the 28th of April.

**Chad Metzger** [01:01]

Looks like the next one will be posted on the 19th. It'll be the next one that's posted.

**OMAHA NE** [01:02]

So it'll be the 28th of May, basically.

**OMAHA NE** [01:09]

Okay, so we'll tell them the 15th. All right, thanks,

**Chad Metzger** [01:12]

Yep. Perfect. No problem. See

**OMAHA NE** [01:15]

Chad. Enjoy the day.

**Chad Metzger** [01:17]  
ya. You too. Bye.

AI SUMMARY

During the conversation, Brett Langley (Customer) reached out to Derrick Dea (Rion Equipment) regarding a tailpipe for a cat forklift.

FULL TRANSCRIPT

**NMC Omaha Parts** [00:00]

This call is being recorded.

**NMC Omaha Parts** [00:03]

Hey Derrick, this is Brett with AGWORKS in Tekema.

**Derrick Dea** [00:03]

Rion Equipment, Omaha. This is Derrick. Yeah.

**NMC Omaha Parts** [00:10]

I've got a cat forklift that I'm looking for a tailpipe for.

**Derrick Dea** [00:13]

Okay. Yep.

**NMC Omaha Parts** [00:16]

Do you need my model number and serial number and stuff? The model number is GP25N.

**Derrick Dea** [00:25]

Just a tailpipe.

**NMC Omaha Parts** [00:28]

And my serial number?

**NMC Omaha Parts** [00:31]

Is AT35A08242?

**NMC Omaha Parts** [00:41]

Yeah, a tailpipe.

**NMC Omaha Parts** [00:45]

I've got a new muffler,

**NMC Omaha Parts** [00:48]

but I guess the tailpipe's all rusted out as well.

**Derrick Dea** [00:53]

Thank

**Derrick Dea** [01:08]

you.

**Derrick Dea** [01:18]

Thank you.

**Derrick Dea** [02:27]

Thank you.

**Derrick Dea** [02:45]

You got an account with us? Okay, so you just did a credit card on the muffler? Excuse

**NMC Omaha Parts** [02:48]

I don't believe we probably do.

**NMC Omaha Parts** [02:54]

Yeah, can we pay for it when we pick it up, or do you have to order this, or... Yep. Okay.

**Derrick Dea** [03:02]

me.

**Derrick Dea** [03:05]

Yeah, I'm looking here. You're coming to Omaha, right?

**Derrick Dea** [03:10]

I just got to make sure I got on the right store here.

**NMC Omaha Parts** [03:11]

Yeah, yeah, I've, yeah, yeah, Omaha.

**Derrick Dea** [03:16]

I'm just trying to get on a quote right now.

**NMC Omaha Parts** [03:30]

Okay, okay.

**Derrick Dea** [04:00]

Thank

**Derrick Dea** [04:20]

you.

**Derrick Dea** [04:23]

And let's see here, what was that tailpipe number?

**NMC Omaha Parts** [04:24]

Okay.

**Derrick Dea** [04:39]

Anything else like a clamp or anything?

**NMC Omaha Parts** [04:45]

Does it call for it?

**Derrick Dea** [04:48]

Well there's a clamp that clamps to the muffler but you could probably reuse it I would guess. There's some hardware like a rubber grommet and a bolt and a spacer but you probably be able to reuse that I'm guessing. So just the tailpipe is

**NMC Omaha Parts** [04:50]

Okay, I didn't...

**NMC Omaha Parts** [04:57]

I haven't looked at ours yet. Okay. Okay. Okay. I, yeah. Okay.

**Derrick Dea** [05:13]

20739, I have to get in for one of my other stores, so it was a couple days out. Go ahead and do it.

**NMC Omaha Parts** [05:14]

Okay. Yep, that's fine.

**NMC Omaha Parts** [05:21]

And then, yeah, that'll do it. Do you need a name or number or anything for us? Yeah, they'll have a card. He lives in Bennington, so he'll pick it up. Michael's his. Yeah. Yeah.

**Derrick Dea** [05:26]

Just a name and phone number and bring whoever's paying for it, bring a credit card. Okay, what name and phone number you want it under?

**NMC Omaha Parts** [05:38]

AGWERX Aviation, H-E-W-E-R-X

**Derrick Dea** [05:40]

Okay.

**NMC Omaha Parts** [05:44]

Aviation,

**Derrick Dea** [05:46]

Okay. Phone number? Yep.

**NMC Omaha Parts** [05:48]

402-374-2178,

**NMC Omaha Parts** [05:51]

or could I give you a cell number two for him? I might not be around is the reason why I'd like

**Derrick Dea** [05:57]

Okay.

**NMC Omaha Parts** [06:04]

to leave that for you. His first name is Michael.

**NMC Omaha Parts** [06:13]

This phone number is 785-216-0154.

**Derrick Dea** [06:16]

Okay. Is

**Derrick Dea** [06:23]

that what was your name? Right. Alrighty, will do.

**NMC Omaha Parts** [06:24]

Brett, B-R-E-T-T, Langley is my last name.

**Derrick Dea** [06:30]

Okay.

**NMC Omaha Parts** [06:32]

Yeah. So probably a couple days in, huh?

**Derrick Dea** [06:34]

Yeah, I'm guessing probably Thursday, probably. Alrighty. Bye.

**NMC Omaha Parts** [06:37]

Okay. Okay. Sounds good. All right. Thank you very much. Bye.

## Inbound call from ENNIS TX

### AI SUMMARY

Rodney Meier (Sales rep) reached out to Kelly at Sunlight Battery regarding a warranty order for a CCU that had been pending since February.

### FULL TRANSCRIPT

**ENNIS TX** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Ryan Equipment, this is Rod.

**ENNIS TX** [00:07]

Hi, Rion, equipment. This is Kelly with Sunlight Battery. Are you called?

**Rodney Meier** [00:11]

Yes, Kelly. We have a CCU ordered on a warranty from back in February. I had no information on it. I'm kind of getting secondhand information from my service guys. We apparently have not received it yet, and I'm just trying to find out.

**Rodney Meier** [00:32]

If it's on order or back order or where we're at with

**ENNIS TX** [00:35]

Probably backorder. What can you give me that I could look it up by?

**Rodney Meier** [00:40]

it. Give me a second here. I have the serial number of the battery.

**ENNIS TX** [00:49]

Okay. That's perfect.

**Rodney Meier** [00:51]

It's Sam, Mary, 0xray, 03517274.

**ENNIS TX** [01:03]

Okay. Let me see if I can find it real quick, and if not, I'll go back to my desk. I had to...

**Rodney Meier** [01:04]

It says,

**Rodney Meier** [01:06]

yeah.

**Rodney Meier** [01:11]

Okay, do you carry, do you do the warranty then? 'Cause I had Eric Kennedy's name on here too.

**ENNIS TX** [01:16]

Eric, he's still here, but if you deal with the warranties, warrantiesusa@sunlight-group.com or to me directly, k.corville,

**Rodney Meier** [01:31]

- Right, right.

**ENNIS TX** [01:35]

We will get it taken care of. Eric, he has a different job, but he was watching the warranties inbox for us for a little while because my counterpart got let go about a little over a year ago, and we're still working to get somebody in place to help me out. But let me see if I can get you.

**Rodney Meier** [01:35]

Right. Yup. Yup.

**Rodney Meier** [01:46]

Okay, that's fine.

**Rodney Meier** [01:50]

Sure.

**Rodney Meier** [01:59]

Okay, I will scratch through his name so I won't try and contact him.

**Rodney Meier** [02:04]

I was thinking that he was no longer in the warranty part.

**ENNIS TX** [02:04]

That's okay.

**ENNIS TX** [02:07]

Yeah, kind of. He handles a particular customer, but he was watching the warranties inbox for us and just kind of divvying them out for us. Ah, dang it. Come on. Okay. I know. That's the one I...

**Rodney Meier** [02:12]

Right,

**Rodney Meier** [02:16]

right. Sure,

**ENNIS TX** [02:26]

Let me see if I can connect real quick. I'm not at my desk and I

**Rodney Meier** [02:31]

sure. No, that's fine.

**Rodney Meier** [02:33]

Sure.

**ENNIS TX** [02:36]

don't know if it did.

**Rodney Meier** [02:48]

No, I was just looking at the notes in the service call, and apparently he had talked to your technical department,

**Rodney Meier** [02:55]

and originally they'd uploaded some files and

**Rodney Meier** [03:00]

And program some stuff, but then apparently there was supposed to be a, it says CCU4, I assume that's the kind of the brain box for the battery.

**ENNIS TX** [03:12]

Okay. Correct. There will be other numbers behind that. If it's the one I'm thinking it is, we should have just gotten our

**ENNIS TX** [03:22]

Our shipment in, but they were on back order for quite a while.

**Rodney Meier** [03:26]

Sure, sure. Well, apparently we had a machine that just totally stopped in the middle of a plant. And

**ENNIS TX** [03:34]

Oh, no.

**Rodney Meier** [03:36]

And so, yeah, so we're in the process of trying to get them a rental so we can keep them going. It's at the Cargill meat processor, so it's kind of a necessity that they have a machine running.

**ENNIS TX** [03:49]

Or at least be able to get it out of the way.

**Rodney Meier** [03:52]

And, yeah, well, and they have a couple of spare batteries, and I'm thinking that this one that we have on order is for the spare battery.

**Rodney Meier** [03:59]

So now the battery that's in the machine is down, so they kind of got two of them down now, at least for the time being.

**ENNIS TX** [04:07]

Okay. I am seeing that currently the...

**ENNIS TX** [04:13]

Claim order is scheduled to ship 522, but I'm going to check into it a little deeper, and I can give you a better idea of if that is going to be still good kind of thing. Let me go check on that, and then I will get back with you as soon as I can.

**Rodney Meier** [04:17]

Okay.

**Rodney Meier** [04:37]

Yeah, that would be great. I know we have some modules that are supposed to evidently be in this week, too. I think I got four modules on order for the chargers, and I think they're showing five. They're showing five. Yep, they're showing five eight, I think, for a

**ENNIS TX** [04:46]

Charger 48 volt?

**Rodney Meier** [04:52]

For an ETA.

**ENNIS TX** [04:54]

Yeah. I haven't been notified that we've gotten our next shipment in, but you said you had four or five of those?

**Rodney Meier** [05:03]

I have four of them ordered on three separate orders.

**ENNIS TX** [05:05]

Okay. Okay. Can you give me, are they POs or warranties?

**Rodney Meier** [05:07]

Or two separate orders, I guess.

**Rodney Meier** [05:11]

Yeah. POs. No, they're POs.

**ENNIS TX** [05:11]

At this point? Okay. Can you give me your PO numbers and I'll see if I can get those out to you all right now.

**Rodney Meier** [05:16]

Yeah, give me just a second here.

**Rodney Meier** [05:33]

Okay.

**Rodney Meier** [05:49]

All right, the first one, the PO number is PU-113-4453. That's for two.

**ENNIS TX** [06:00]

Okay.

**Rodney Meier** [06:04]

And then the other one is PU-114-1795. That's also for two.

**ENNIS TX** [06:14]

Okay. So it was just two POs, not three?

**Rodney Meier** [06:18]

Yes.

**ENNIS TX** [06:19]

Okay. Not a problem. I'll check those at the same time. Let me get connected back to our system, back to my desk, and I will get you answers to these.

**Rodney Meier** [06:29]

That would be great. I do appreciate that.

**ENNIS TX** [06:32]

Not a problem. Hope you have a great day.

**Rodney Meier** [06:33]

All right. I certainly will. Thanks. You too.

**ENNIS TX** [06:37]

Bye.

### AI SUMMARY

In a recent conversation, Kent Stewart (Customer, Ryan Equipment) contacted Lisa Piscitello (Customer Service Representative, BIG JOE) to seek help in locating a brake switch for a tiller handle.

### FULL TRANSCRIPT

**BIG JOE FORKLIF** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing Rion Equipment. This is Kenton Parts. How may I help you?

**BIG JOE FORKLIF** [00:07]

Hi, Kent. This is Lisa with BIG JOE.

**Kent Stewart** [00:09]

I miss Lisa.

**BIG JOE FORKLIF** [00:13]

No worries. I understand that you're looking for a part.

**Kent Stewart** [00:18]

Yes, I was looking for two of them. They were looking for like the park or the

**BIG JOE FORKLIF** [00:20]

Yes.

**Kent Stewart** [00:26]

Brake switch on the handle, and I couldn't find one. Anything I could found was like in the hydraulic system. They call it an interlock switch. Would that be it?

**BIG JOE FORKLIF** [00:35]

No, a brake switch should be at the bottom of the till arm. Is that what you're looking for?

**Kent Stewart** [00:39]

Yeah, I didn't find anything on the steering arm, so...

**BIG JOE FORKLIF** [00:43]

Yeah, no. Here's the situation, too. I can't give you pricing for anything because you are not a BIG JOE dealer.

**Kent Stewart** [00:51]

Yes, I am.

**BIG JOE FORKLIF** [00:53]

I didn't find you.

**Kent Stewart** [00:54]

Oh, okay. Well, let me get back in here. I'll get you my big Joe, big Joe, big Joe, big Joe.

**BIG JOE FORKLIF** [00:57]

Customer number is not going to help. I don't have Rion equipment. R-Y-A-N.

**Kent Stewart** [01:02]

Do you have Nebraska Machinery Company? That's my parent company.

**BIG JOE FORKLIF** [01:07]

Oh, that might explain why I couldn't find you. So hang on one second.

**Kent Stewart** [01:10]

Ah.

**Kent Stewart** [01:12]

Let's

**BIG JOE FORKLIF** [01:13]

Let me see. Nebraska.

**Kent Stewart** [01:15]

see what I have. Nope, I don't have Nebraska

**BIG JOE FORKLIF** [01:20]

Nope. Nebraska is not in there either.

**Kent Stewart** [01:25]

Machinery Company. Okay. Okay.

**BIG JOE FORKLIF** [01:27]

I have nothing with Nebraska period coming up.

**Kent Stewart** [01:33]

Hmm, okay.

**BIG JOE FORKLIF** [01:34]

Do you have an invoice from anything recent that you've ordered?

**Kent Stewart** [01:38]

Well, let me look here. Let me see. Nope, Nebraska Machinery in Omaha. All

**BIG JOE FORKLIF** [01:42]

Wait, are you Nebraska land in Bronx, New York?

**BIG JOE FORKLIF** [01:47]

Okay, that's you.

**BIG JOE FORKLIF** [01:50]

Yeah, no, there is no Nebraska. Let's try this again. NEBE.

**Kent Stewart** [01:52]

right, well, let me get back in here.

**Kent Stewart** [01:56]

All right, let's see. No, I want customers. I want vendors. Accounts payable.

**BIG JOE FORKLIF** [02:01]

No problem. You're fine. I have to guide you elsewhere if you're not. That's why I'm asking.

**Kent Stewart** [02:07]

Oh, OK, Big Joe, Big Joe. What is Big Joe? Where are you? Where are you? Where are you? Big Lift, right? Big Lift Company, V113021. Copy. Laser Search.

**BIG JOE FORKLIF** [02:13]

All right. Let's try this again.

**BIG JOE FORKLIF** [02:19]

Yes. I am not finding anything.

**Kent Stewart** [02:25]

Number, control V. Alright, so let's go to the last page. And the last one. What is it listed under? Come on, get bigger. Alright. Alright.

**BIG JOE FORKLIF** [02:41]

You're okay.

**BIG JOE FORKLIF** [02:46]

Yeah, I only have Nebraska land. That's the only thing I have in here.

**Kent Stewart** [02:50]

Hmm. I got Ryan equipment at 11002 SAP. Oh, it's RION, not R-Y-O-N, R-I-O-N.

**BIG JOE FORKLIF** [02:54]

Okay, so the company is Ryan Equipment.

**BIG JOE FORKLIF** [03:03]

Okay, it spells it on the system when you left the message, R-Y. So I apologize for that.

**Kent Stewart** [03:07]

Oh, okay. That's okay. Customer date, good terms. Okay. Okay.

**BIG JOE FORKLIF** [03:11]

You're good. Nope, you're fine. So all I need to know is it's Ryan Equipment. We're good.

**BIG JOE FORKLIF** [03:18]

All right. Let me see. I think I looked up your serial number. No, I did not. Bear with me. I got it. 729-200-0525. You put down -- at least it took down 729-200-0525?

**Kent Stewart** [03:21]

Do you

**Kent Stewart** [03:25]

want it?

**Kent Stewart** [03:39]

2000, 7292-000525.

**BIG JOE FORKLIF** [03:42]

Oh, okay.

**Kent Stewart** [03:54]

So it says it's on the killer handle. Oh, oh, I'm the one begging, so...

**BIG JOE FORKLIF** [03:54]

Sorry, I have to go to like 12 screens.

**BIG JOE FORKLIF** [04:01]

You're okay. You are quite all right. All right. I know what you need there. It's just a matter of getting there, so bear with me a second.

**Kent Stewart** [04:02]

See, I don't see anything. I don't see any switch on the tiller.

**Kent Stewart** [04:13]

Oh,

**BIG JOE FORKLIF** [04:13]

I'll tell you where it's at. We were in a meeting, so apologize for that.

**Kent Stewart** [04:18]

every Monday we're out of the outfit. We're tied up from 8 to 9 because we have a safety meeting. So we go over things and one customer, not one customer, but one individual gives their little for the week. And then we talk about safety.

**BIG JOE FORKLIF** [04:26]

Yeah.

**BIG JOE FORKLIF** [04:34]

Everything else. Yeah. No, you're okay. Let's see. \*\*\*, \*\*\*, \*\*\*.

**Kent Stewart** [04:35]

That and any instances that they've had.

**Kent Stewart** [04:38]

What's that?

**Kent Stewart** [04:40]

Okay.

**BIG JOE FORKLIF** [04:44]

No, that's not the one I want. I want steering. Okay.

**Kent Stewart** [04:50]

Because I'm looking at the steering arm and I don't see anything electric on there at all.

**BIG JOE FORKLIF** [04:57]

Yeah, no, there should be. There's supposed to be. I believe there's supposed to be two microphones.

**Kent Stewart** [05:00]

The only thing I find down here is like a number, 15 is called an inductor.

**BIG JOE FORKLIF** [05:07]

No, that's not what you want. So, 7292, 7297, no, you want this one?

**Kent Stewart** [05:09]

Okay.

**BIG JOE FORKLIF** [05:16]

I'm looking to see because I remember seeing this. It's just a matter. Is there one or two switches down there?

**Kent Stewart** [05:25]

I don't know. They just said brake switch.

**BIG JOE FORKLIF** [05:28]

Okay, that's not going to tell me anything. 17. No, that's a harness. That's not what I want. I know exactly what you need. It's just finding it.

**Kent Stewart** [05:42]

Where

**BIG JOE FORKLIF** [05:44]

Let me

**BIG JOE FORKLIF** [05:47]

go here and see. Load it up. Load it up. Come on. I see exactly where you're supposed to go. Why are you not taking your?

**BIG JOE FORKLIF** [06:04]

It's not taking me there. Ay, yi, yi. Electrical. No, I know it's not going to be in there either. Well, crumbs and a half.

**BIG JOE FORKLIF** [06:21]

I'm going to have to call you back on this because I know what you need. It's just a matter of where did they put it.

**Kent Stewart** [06:28]

do they hide it? Okay. All right.

**BIG JOE FORKLIF** [06:31]

And the big part is Big Joe does not put the same part in the same place twice.

**Kent Stewart** [06:35]

Okay. Do you want to just email me then? Would that be easier for you? Yeah, definitely.

**BIG JOE FORKLIF** [06:37]

Yeah, would that be okay?

**BIG JOE FORKLIF** [06:40]

Okay, so what is your email address?

**Kent Stewart** [06:42]

It's Kent, K-E-N-T-S-T-E-W-A-R-T, Kent Stewart, the at sign, correct, one word, and then at sign, then Ryan Equipment, all spelled out as R-I-O-N-Equipment.com.

**BIG JOE FORKLIF** [06:49]

One big word, no period between the names.

**BIG JOE FORKLIF** [06:53]

Okay.

**BIG JOE FORKLIF** [07:00]

My name is Lisa Piscitello.

**Kent Stewart** [07:02]

Okay. Hi, Ms. Lisa.

**BIG JOE FORKLIF** [07:04]

Hi, and you're looking for the tray that goes on top that you can put all your stuff on?

**Kent Stewart** [07:08]

Well, no, no, no. Actually, she – let me go back in here. What did she say? What did she – how did she word this? All right. Ms. Teresa, Ms. Teresa, where are you? Where are you? Where are you? Where are you? Where are you? Okay. The first one is the battery holder underneath that the battery sits in.

**Kent Stewart** [07:28]

And then the tiller handle brake switch at the bottom of the handle. Send a picture if unsure.

**BIG JOE FORKLIF** [07:34]

Okay. I am not 100% that you're able to buy that tray either. Okay. I will keep looking for you. Is there anything else that you need?

**Kent Stewart** [07:41]

So, okay. Okay, thank you, Ms.

**Kent Stewart** [07:47]

Not anymore at this time, but give me five minutes. I might have to call you back. So, all right.

**BIG JOE FORKLIF** [07:52]

No problem. My -- Lisa, my name is Lisa. I'm at extension 225.

**BIG JOE FORKLIF** [07:58]

If you need anything, just give me a shout. You'll have my email once I reply to you, so you can always email as well,

**Kent Stewart** [08:05]

Okay, thank you, Ms. Lisa. Have a good one. Bye-bye.

**BIG JOE FORKLIF** [08:07]

sir. You're very welcome. Bye-bye. You too. All right. I know I've seen this. There it is.

**Kent Stewart** [08:11]

Now.

### AI SUMMARY

Ryan (Customer) reached out regarding a NOx sensor issue on a demo unit, facing long lead times for parts.

### FULL TRANSCRIPT

**DAWSON MN** [00:00]

This call is being recorded.

**Kevin Wilson** [00:04]

Ryan Equipment, this is Kevin. May I help you? Hey, Ryan. How are we doing? Good.

**DAWSON MN** [00:07]

Kevin, it's

**DAWSON MN** [00:10]

Ryan. Good, how are you?

**DAWSON MN** [00:13]

Hey, so trying to just run something by you quick here, see what you think. So we've got a DOT unit that's out on a demo at a 3M customer. They're having a NOx sensor issue.

**Kevin Wilson** [00:21]

Okay. Yep.

**DAWSON MN** [00:29]

Um, turbid parts we're not able to get a hold of for the part right now. Um, source it locally. It's like 160 day lead time. You guys don't have, you guys don't have a 193, a YT193 unit sitting there, do you?

**Kevin Wilson** [00:34]

Oh, wow.

**Kevin Wilson** [00:41]

We don't have -- all eight units are back on rent. We would have a 223 maybe.

**DAWSON MN** [00:54]

I wonder if we could check part numbers and see if those part numbers are the same and then

**Kevin Wilson** [00:58]

Yeah, what's the part number you need? Okay.

**DAWSON MN** [01:01]

Part number we need is going to be CU5491423RX.

**DAWSON MN** [01:15]

That's Romeo X.

**Kevin Wilson** [01:21]

Let me see what I come up with and I'll call you back. All right. Yep. Thanks, Ryan. Yep. Bye.

**DAWSON MN** [01:24]

All right, sounds good, Kevin. Thank you. Yep, thank you.

### AI SUMMARY

Cooper Patrick initiated a service call regarding parts needed for a job, and Kent Stewart promptly provided the necessary PO number and confirmed the details of the order.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thank you for choosing Rion Equipment. This is Kenton Parts. How may I help you?

**COOPER PATRICK** [00:08]

Hey Kent, hey this is Greg.

**Kent Stewart** [00:09]

Hey, Mr. Gregg.

**COOPER PATRICK** [00:11]

A service call number 804-955-02. I

**Kent Stewart** [00:18]

804-955-9002. All right, let me get there.

**COOPER PATRICK** [00:28]

need a PO number for Thompson.

**Kent Stewart** [00:30]

804-955. Hy-Vee Food, Al Tuner.

**COOPER PATRICK** [00:36]

Yes, yes.

**Kent Stewart** [00:37]

All right. Replace hydraulic glass, miscellaneous. As long as I don't argue and lose when I talk to myself, I think that's okay. One hose or two?

**COOPER PATRICK** [00:49]

A few hoses.

**Kent Stewart** [00:50]

H-O-S-E-S. What's your total, sir?

**COOPER PATRICK** [00:53]

\$85.81.

**Kent Stewart** [00:56]

85, 81. All right.

**Kent Stewart** [01:03]

And you're at Tompkins, D106754, right? 106754, enter.

**Kent Stewart** [01:14]

Sir, your PO number is going to be 1142539.

**COOPER PATRICK** [01:23]

1142539.

**Kent Stewart** [01:26]

Yes, sir.

**COOPER PATRICK** [01:27]

All right.

**Kent Stewart** [01:28]

Thank you.

**COOPER PATRICK** [01:29]

Thank you.

**Kent Stewart** [01:30]

You bet.

## Inbound call from RXO

### AI SUMMARY

Bill Lewis (Service rep) updated David from RXO about the technician's arrival time and explained the derating issue affecting the equipment's functionality, confirming that it cannot be used until the code is cleared.

### FULL TRANSCRIPT

**RXO** [00:00]

This call is being recorded.

**Bill Lewis** [00:04]

Good morning, Ryan Equipment. This is Bill.

**RXO** [00:07]

David, RXO, how are you doing?

**Bill Lewis** [00:09]

Good, how are you?

**RXO** [00:10]

I'm all right. Two things. Any ETA on a tech or any update?

**Bill Lewis** [00:14]

Yeah, I've got a tech who's just wrapping up what he's doing right now. And while he's wrapping up, we're trying to see if we've got the NOx sensor for him to bring with. And so he should be hopefully down in the next hour or so.

**RXO** [00:33]

Okay. All right. And then... So what else... All right. So can't run it until he fixes it, right?

**Bill Lewis** [00:41]

Unfortunately, yeah, the code level is severe, so it derates it. Now, I don't really think there's really anything wrong with it, unfortunately, but it is currently derated until we clear the code. So, yeah, it won't let you really do much with it.

**RXO** [01:03]

Okay. All right. Got it. All right. Yeah. Let me know. Give me... Thanks.

**Bill Lewis** [01:06]

Definitely,

**Bill Lewis** [01:09]

yeah. Yep, you bet. Thanks, Dave.

## Inbound call from HAMPTON DENNIS

May 05, 2026 | 02:51 PM | Duration: 5m 58s | From: HAMPTON DENNIS | To: +14026440781

Inbound

### AI SUMMARY

The conversation between Hampton Dennis (Caller) and Rodney Meier (Company Rep) centered on obtaining a status update for a CCU order necessary for a lithium battery.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Good

**HAMPTON DENNIS** [00:07]

Good morning, Rod. How are you?

**Rodney Meier** [00:09]

morning. I'm good. How are you?

**HAMPTON DENNIS** [00:11]

Good. Driving down to Columbus. Can you do me a favor and get in contact with Triathlon and see what the holdup is for the CCU that we have on order for the lithium battery sitting in the shop in Cargill?

**Rodney Meier** [00:28]

For a CCU, what are we talking about?

**HAMPTON DENNIS** [00:31]

It's the computer on top of the lithium battery. I know Dusty had one on order.

**HAMPTON DENNIS** [00:37]

We were waiting on it. I need a status update on

**HAMPTON DENNIS** [00:43]

where it's

**Rodney Meier** [00:43]

Okay. I'll have to see if I can even find email. I guess I'm not sure if I've ever seen anything on it.

**Rodney Meier** [00:53]

I assume it must be a warranty thing.

**HAMPTON DENNIS** [00:57]

at. I don't remember if this is a warranty or if this was a customer pay one, to be honest with you.

**Rodney Meier** [01:03]

I mean, I have modules coming.

**HAMPTON DENNIS** [01:06]

Yep, yep. I know mods are coming, but this is a CCU for a lithium ion battery.

**Rodney Meier** [01:12]

I'll have to look and see because I don't recall seeing anything on it at all.

**HAMPTON DENNIS** [01:23]

No.

**HAMPTON DENNIS** [01:26]

Let me forward you this service call and I

**HAMPTON DENNIS** [01:34]

should be able

**HAMPTON DENNIS** [01:37]

to forward this service call to you and possibly check to see if we have

**HAMPTON DENNIS** [01:43]

any of these on order currently.

**Rodney Meier** [01:47]

Okay. Yeah.

**Rodney Meier** [01:49]

I'm drawing a blank to be honest with you.

**HAMPTON DENNIS** [01:56]

That should be headed your way.

**HAMPTON DENNIS** [02:11]

Yeah, because it's a CCU. It's the computer that basically talks between the lithium battery and the truck.

**HAMPTON DENNIS** [02:22]

Unfortunately, that's not talking right now, so the truck doesn't detect the battery and most likely going to need a CCU is

**Rodney Meier** [02:30]

Sure.

**Rodney Meier** [02:34]

769, 640.

**HAMPTON DENNIS** [02:36]

the gist of it.

**HAMPTON DENNIS** [02:39]

Yeah, if you want to look at that, I need to get on the horn with the rental department and get a rental headed for Cargill so loadout isn't down another truck.

**Rodney Meier** [02:50]

Oh, this service call you gave me is closed.

**HAMPTON DENNIS** [02:54]

Correct. But the parts that are on that service call, we should have one on order right now for the battery that's down in Dan's shop.

**Rodney Meier** [03:04]

There's no parts on this one.

**Rodney Meier** [03:09]

Because if it was closed, we would have had to receive the parts.

**HAMPTON DENNIS** [03:09]

Okay.

**HAMPTON DENNIS** [03:15]

In the in-process queue, are the service calls going on right now, are there any service calls about a battery for Cargill that the lithium battery is down? Because I know Dusty had these parts on

**Rodney Meier** [03:45]

Oh.

**Rodney Meier** [04:10]

Repair lithium ion battery.

**HAMPTON DENNIS** [04:16]

work. That sounds right.

**Rodney Meier** [04:22]

No parts on this one either.

**Rodney Meier** [04:29]

This has got Dan's name on it from February 11th, which would have been Dusty, but we probably switched it.

**HAMPTON DENNIS** [04:38]

Correct.

**HAMPTON DENNIS** [04:44]

I don't

**Rodney Meier** [04:45]

Yep, loadout, lithium ion, CCU4, warranty waiting on parts. That's all I got.

**HAMPTON DENNIS** [04:46]

have my computer.

**HAMPTON DENNIS** [04:54]

Yeah, so if you can, if you want to get a hold of Triathlon and see if that's enough information to,

**Rodney Meier** [05:01]

Yeah, I'll have to see what I can... I have to think I was carboned in on something,

**Rodney Meier** [05:13]

but yeah, I'll see what I can find out.

**HAMPTON DENNIS** [05:16]

yeah, if you can dig into that for me, that way I can have a, have somewhat of an answer for Laura when I get down there this afternoon.

**Rodney Meier** [05:25]

I'll see what I can do.

**Rodney Meier** [05:28]

Like I say, I don't know for sure. I'll have to see if I can find email or maybe started the chain.

**Rodney Meier** [05:37]

That was a bad thing. He took care of a lot of that warranty stuff himself.

**Rodney Meier** [05:43]

All right. Yep. Let me see what I can find out.

**HAMPTON DENNIS** [05:47]

Deal. Thank you.

**Rodney Meier** [05:49]

Yep. You bet. Thank you. All righty. Bye.

**HAMPTON DENNIS** [05:50]

Yep. Bye.

## Inbound call from GUSTIN KELVIN

### AI SUMMARY

Gustin Kelvin (Customer) reached out to Charles Huffman (Sales rep) to inquire about the foot valve parts for a Taylor model.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

CHARLIE, HOW ARE YOU DOING TODAY, BUD?

**Charles Huffman** [00:07]

Oh, man, finer and frog hair.

**GUSTIN KELVIN** [00:10]

OH, THAT'S HARD TO FIND, ROG AIR. HEY, I WAS WONDERING AIRBREAKS ON THAT ONE TAYLOR, DID WE EVER GET THE FOOT VALVE STUFF? I

**Charles Huffman** [00:25]

Oh, what the \*\*\*\* did happen with that?

**GUSTIN KELVIN** [00:28]

DON'T KNOW.

**GUSTIN KELVIN** [00:30]

You were gonna get a price on it and give it to Joda and tell her four hours. I don't know if you did. I'm gonna get a work order for you. You probably need a work order, don't you?

**Charles Huffman** [00:38]

I was going to see if I could...

**GUSTIN KELVIN** [00:38]

Let me see.

**GUSTIN KELVIN** [00:42]

Model serial number usually helps us. That THB 300L, serial number SM 328625. It's on work order 804-

**GUSTIN KELVIN** [00:57]

2-8-0. Does that help?

**Charles Huffman** [01:00]

Yes, sir.

**GUSTIN KELVIN** [01:04]

I think it was just the left pedal, the inching pedal. She's a leaker.

**Charles Huffman** [01:07]

Yep. Remember where that got left at. Let's see here. Okay.

**GUSTIN KELVIN** [01:15]

Oh,

**GUSTIN KELVIN** [01:24]

\*\*\*\*. Oh.

**GUSTIN KELVIN** [01:59]

Sorry, did you say something, Charlie? I was walked away.

**Charles Huffman** [02:10]

No, sir, I'm still looking here.

**GUSTIN KELVIN** [02:12]

Oh, sorry.

**GUSTIN KELVIN** [02:16]

Oh,

**GUSTIN KELVIN** [02:19]

my God.

**Charles Huffman** [02:30]

Looks like it's still in a quotation status.

**GUSTIN KELVIN** [02:34]

Oh, we still got it quoted? Okay.

**Charles Huffman** [02:36]

Yep, yep.

**GUSTIN KELVIN** [02:38]

All right. So it has been done. It just doesn't. I wonder if you got it. All right.

**Charles Huffman** [02:44]

I don't know. I'm going to go ask Jody here in a second.

**GUSTIN KELVIN** [02:48]

All right. Well, in quotation, so.

**Charles Huffman** [02:51]

All right. I'll let you know if there's anything shakes loose on it.

**GUSTIN KELVIN** [02:52]

Thank you, sir.

**GUSTIN KELVIN** [02:55]

Yeah, let me know, because I'm going to have to talk to him anyways. I figured I'd call him, trying to do two birds with one stone, maybe.

**GUSTIN KELVIN** [03:05]

Maybe. Thank you.

**Charles Huffman** [03:07]

Yes. You bet. Bye.

## Inbound call from BLACKBURN R.

### AI SUMMARY

During the conversation, Andrew (Ace Irrigation) requested parking brake drum and shoes for their DP90, and Todd (Tabor Street Group) confirmed he would send a quote, confirming the parts' availability.

### FULL TRANSCRIPT

**BLACKBURN R.** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Bart, it's just Todd.

**BLACKBURN R.** [00:06]

Hey Todd, this is Andrew at Ace Irrigation. Say hey, I need, good, I need a parking brake drum and shoes for our DP90. I got some part numbers if you want

**Todd Babka** [00:08]

Hey, Andrew, how are you?

**Todd Babka** [00:18]

Sure, what you got?

**BLACKBURN R.** [00:20]

them. The shoes are 92031-05100.

**Todd Babka** [00:31]

Sorry, 05100?

**Todd Babka** [00:35]

Okay.

**BLACKBURN R.** [00:38]

Yes. And the drum is 92031-11700.

**Todd Babka** [00:45]

All right.

**Todd Babka** [00:48]

All four shoes are the same?

**BLACKBURN R.** [00:55]

I think it's got just two shoes on the parking brake. Yeah, just two shoes, but yes. Yeah.

**Todd Babka** [01:00]

Oh, this is park brake. Okay.

**Todd Babka** [01:06]

Sorry, did say park break. That's how old age gets ya.

**Todd Babka** [01:22]

Check our system just

**Todd Babka** [01:25]

for giggles, but usually we don't keep this kind of stuff on hand for these bigger machines.

**BLACKBURN R.** [01:35]  
She. She.

**BLACKBURN R.** [01:52]  
She.

**Todd Babka** [01:53]  
Yep, the shoes are 137.40 each.

**Todd Babka** [02:09]  
The drum is \$438. Let's check factory stock.

**BLACKBURN R.** [02:09]  
She. She. She. She. She.

**Todd Babka** [02:23]  
Plenty of shoes.

**Todd Babka** [02:34]  
And plenty of drums.

**BLACKBURN R.** [02:36]  
Can you email me a quote and I'll get your PO.

**Todd Babka** [02:41]  
So, I will do so. I will send one over your short like.

**BLACKBURN R.** [02:42]  
All right. All right. Thanks,

**Todd Babka** [02:45]  
You bet. Thanks, Andrew.

**BLACKBURN R.** [02:47]  
Todd. Yeah, bye.

CALL 117 OF 611

**Inbound call from RUDD BRANDON**

May 05, 2026 | 02:27 PM | Duration: 12m 25s | From: RUDD BRANDON | To: +14025942048

Inbound

Neutral

AI SUMMARY

The conversation began with Rudd Brandon (Sales Rep) and Chad Metzger (Sales Rep) discussing umpiring and the MLB's new challenge system, highlighting how it affects umpires' performances.

FULL TRANSCRIPT

**RUDD BRANDON** [00:00]  
This call is being recorded.

**Chad Metzger** [00:03]  
Right. Equipments, Chad.

**RUDD BRANDON** [00:06]

This is Brandon in Chicago. How are you?

**Chad Metzger** [00:09]

Hey, how's it going?

**RUDD BRANDON** [00:11]

Not too bad. How are you? Umpiring.

**Chad Metzger** [00:15]

It's going well. Got some college postseason stuff coming up.

**RUDD BRANDON** [00:23]

What do you think about the ABS challenge stuff in Major League Baseball?

**RUDD BRANDON** [00:29]

What do umpires feel about that kind of stuff?

**Chad Metzger** [00:30]

MLB, I don't mind it. I mean, it is what it is. I mean, it's the top level. The crazy thing is like the SEC just said that they're going to use it for their conference tournament.

**RUDD BRANDON** [00:43]

Really?

**Chad Metzger** [00:44]

They're going to use a challenge system.

**RUDD BRANDON** [00:46]

Oh, wow.

**Chad Metzger** [00:48]

Which is like, oh, okay. Like, let's bring up some experimental rules, you know, in the season, you know, part of the season that matters the most.

**RUDD BRANDON** [00:58]

Yeah. Yeah.

**RUDD BRANDON** [01:00]

I was just wondering, like, I wonder how, because I always think about it when I'm watching an MLB game. I'm like, I wonder what that umpire thinks when, especially like the same player challenges three or four times a game. I wonder if that \*\*\*\*\* them off. Yeah,

**Chad Metzger** [01:10]

Right, yeah.

**Chad Metzger** [01:14]

I mean, honestly, like, I've been on that TrackMan stuff. I've had a couple games. And it's, I mean, it's really surprising. It's like, oh, okay. Yeah.

**Chad Metzger** [01:23]

Like it, I mean, it's not perfect by any means, but it gives you some good, some, you know, amazing feedback of what you think your zone is versus what, you know, the computer says it is.

**RUDD BRANDON** [01:42]

I always thought, I like it myself, but...

**Chad Metzger** [01:46]

So, yeah.

**RUDD BRANDON** [01:46]

I'm a fan. I'm not an umpire. I can see how if I was an umpire it may \*\*\*\* me off sometimes.

**RUDD BRANDON** [01:54]

So,

**Chad Metzger** [01:54]

Yeah. Yeah. I mean, they're still trying to rein it in and figure out the best way to go about it with the challenges. And I think it's getting everyone on the same page of what the strike zone actually is. I mean, it goes

**RUDD BRANDON** [01:56]

yeah,

**Chad Metzger** [02:10]

– I've talked to coaches and they're like, you know, if that's going to be the future, like we know like certain umpires where they have tendencies. Yeah.

**Chad Metzger** [02:22]

Yeah, like, hey, you know, John, he gives a lefty pitcher, you know, that inside corner and doesn't give that outside pitch versus, you know, Tim, who will give them that outside pitch. And they'll have their pitchers try to hit those spots based on the tendencies of, you know, the umpires, what they call, so, and their zone,

**RUDD BRANDON** [02:42]

I actually think in MLB just through what the first six weeks, I think it's made umpires better myself.

**Chad Metzger** [02:49]

so. Oh, yes, absolutely. Absolutely.

**RUDD BRANDON** [02:50]

Like I think at the beginning, they were missing them by three or four inches. Now if they miss them, it's, you know, maybe an inch.

**Chad Metzger** [02:58]

Yeah. I got a buddy that he got hired on. He's in like high A-level ball down in. He was in Arizona. Now he's down in Florida. And he just did a game and he hit 123 out of 124.

**RUDD BRANDON** [02:59]

That's

**Chad Metzger** [03:14]

Yeah. And he's like a 25-year-old kid. I mean, he's really sharp. Yeah.

**Chad Metzger** [03:21]

Talking with some guys, like, he's got the ability to go to the big leagues,

**Chad Metzger** [03:29]

so. He's still got probably three or four years before he gets up there, but he's one of the guys that we're pretty sure that he'll make it up there, so.

**RUDD BRANDON** [03:37]

pretty cool. Hey, I wanted to pick your brain real quick. I just looked at our availability for GT50 tailors in the rental fleet. We have what I can see, it looks like we have 15 available.

**Chad Metzger** [03:47]

Uh-huh.

**RUDD BRANDON** [03:52]

And that's just the GT50s. I don't know about the other

**RUDD BRANDON** [03:57]

makes or models or you know what I mean? Like Toyotas or...

**Chad Metzger** [04:00]

Okay. Yeah.

**RUDD BRANDON** [04:02]

So we have an opportunity to quote. So there's a company that has 22 units and they've been using the Toyota dealer here for years and years, but they're starting to slack on their service. So they're looking to...

**RUDD BRANDON** [04:16]

Kind of split it in half with another vendor. So they want us to quote 11 units. They told us what they were paying, which is really cheap at \$650 a month,

**Chad Metzger** [04:29]

Nope.

**RUDD BRANDON** [04:31]

which is, you know, worth \$1,500 a month. So I don't know, yeah, how low we want to go or what would be our threshold for 11 units.

**Chad Metzger** [04:34]

They can keep it.

**RUDD BRANDON** [04:43]

What's your thoughts on that would be if we just have them sitting? And I don't know how often they go out. Maybe they go out on rent more often than not, and we just happen to have 15 right now, and that's not a common thing. I don't know.

**Chad Metzger** [04:52]

We, well, we had 10 sitting in Des Moines that had CO2 emission issues. So we just got those back online. So that's, that's 10 of those that you're looking at right there. But yeah, we're, we're really thin on the 5Ks.

**Chad Metzger** [05:09]

I really needed those 10 for the seed season and yeah. Like how long of a term are they thinking?

**RUDD BRANDON** [05:16]

Well, all they do is rent. So they've been renting from them for years and years and years, is what Cynthia told me. The lady told her. Like, we've been renting from these people for years and years, and it just seems like

**Chad Metzger** [05:25]

Mm-hmm.

**RUDD BRANDON** [05:31]

The longer that

**RUDD BRANDON** [05:34]

they've been there, I don't know if the company is comfortable or it just takes them longer to get out to if there's an issue. It takes them longer to get out to them. Instead of being there in a day or two, it's taken four or five days. So she just thought maybe it's a good idea to just kind of have two options instead of just all of our eggs in one basket.

**Chad Metzger** [05:48]

Oh, I gotcha.

**Chad Metzger** [05:56]

Yeah, gotcha.

**RUDD BRANDON** [05:57]

But I told her, I was like, \$650 is cheap. I don't know how low we can go, but I don't see it's going to \$650.

**Chad Metzger** [06:05]

No.

**Chad Metzger** [06:13]

I mean,

**Chad Metzger** [06:16]

I would think like \$1,000 or \$1,100

**Chad Metzger** [06:20]

is what I'm thinking. Like if it's a long-term deal, like one to two year, if it's anything shorter than that, I mean,

**RUDD BRANDON** [06:39]

Yeah, because, I mean, we have to include, I mean, we're going to be doing PMs and all that good stuff.

**Chad Metzger** [06:43]

uh-huh.

**Chad Metzger** [06:46]

I mean, they're running single shift, double shift.

**RUDD BRANDON** [06:48]

So, no, what she said was around the clock. But now Cynthia's like, well, when I was there, there was seven or eight of them just sitting. So, yeah.

**RUDD BRANDON** [06:57]

He says around the clock. I don't know how accurate that is, but it's going to be a lot, right? It's just in a warehouse where they're

**Chad Metzger** [06:59]

Oh, well.

**RUDD BRANDON** [07:05]

loading and unloading trucks all day, every day,

**Chad Metzger** [07:08]

Oh, okay. Well, that's going to be a different story then. No wonder that they're...

**RUDD BRANDON** [07:09]

and all through the night. So,

**Chad Metzger** [07:15]

Yeah.

**Chad Metzger** [07:19]

That's a different animal if we're going to be running that many hours on those.

**Chad Metzger** [07:26]

And they're paying \$6.50. That's...

**RUDD BRANDON** [07:28]

yeah. That's what she said. The company probably wants to get out from underneath it.

**Chad Metzger** [07:35]

Wow. I bet so.

**RUDD BRANDON** [07:35]

My guess is that's a rate that was given years ago and they've just never raised the rate on them.

**Chad Metzger** [07:41]

See, we had that happen with Philadelphia Macaroni. When the sales went up there, it's like, oh, yep, we're going to get, we're breaking in there. We did some low rate and they come to find out, yeah, they run two, three shifts. It's

**Chad Metzger** [07:57]

like, you know, like two years down the road, it's like,

**Chad Metzger** [07:59]

Maybe we need to swap this unit out. It's got a high hours. I'm like, high hours? They're like, oh, yeah, they run two, three shifts. I'm like, oh, okay. Yeah, we need to adjust the rates. And those questions were asked. It's like, oh, no, it's just single shift.

**RUDD BRANDON** [08:07]

Yeah.

**Chad Metzger** [08:17]

Yeah, that's probably what that company's trying to do. Like, oh, yeah, well, we'll just drag our feet to do the service since we're not getting paid on those. And

**Chad Metzger** [08:25]

maybe we'll...

**Chad Metzger** [08:28]

Yeah. I mean, even a double shift rate.

**Chad Metzger** [08:36]

We're talking like 2100 at book rate.

**RUDD BRANDON** [08:39]

Yeah.

**RUDD BRANDON** [08:43]

Yeah. And I mean, I think for 11, we could give them a break. It's just, there's no way we're going to even be able to get close to

**RUDD BRANDON** [08:49]

The 650 from, I mean, I, and I told Cynthia, I was like, look, the math just doesn't match.

**Chad Metzger** [08:51]

Oh, no way.

**RUDD BRANDON** [08:57]

The math doesn't, in three years, it's going to have 16, if we send them brand new units in three years, they're going to have 16,500 hours and we're going to have recovered, you know, we're still going to owe over half, half the cost on the machine, not including what we spend on service.

**Chad Metzger** [09:07]

Nope. No, hardly anything.

**Chad Metzger** [09:14]

Yeah, because the machines are in a seven-year depreciation.

**RUDD BRANDON** [09:17]

Yeah. Yeah.

**Chad Metzger** [09:19]

And these are

**Chad Metzger** [09:24]

roughly about a year or two years old.

**Chad Metzger** [09:29]

So there's...

**RUDD BRANDON** [09:29]

Yeah, we'd have to make them last five years.

**RUDD BRANDON** [09:33]

And if they're truly doing that, and I know people say they work around the clock and it ends up not being that much, but it's still, it's a lot. It's more, yeah, it's more than eight hours.

**Chad Metzger** [09:39]

No, but I mean, two shifts, six days a week. Yeah, six days, you know, two shifts, six days a week.

**Chad Metzger** [09:49]

That's a lot of hours in a week, a lot of hours in a month.

**RUDD BRANDON** [10:01]

Yeah. I don't want to embarrass her by going in there at,

**RUDD BRANDON** [10:04]

you know, even if we just did regular book rate, knowing that they're going to run around the clock, that's over double of what she's paying.

**RUDD BRANDON** [10:13]

But I don't know,

**Chad Metzger** [10:15]

But then again, you can tell them, hey, we got machines that are one to two years old.

**Chad Metzger** [10:20]

There's value on that. You know, there's an issue with the machine. We could be there within a day or whatever.

**Chad Metzger** [10:36]

Yeah, I would say if it's a two-shift, I would just go to that book rate, just go like 1,500.

**RUDD BRANDON** [10:41]

you know. Yeah, okay.

**Chad Metzger** [10:46]

If we get it, we get it. If we don't, eh.

**RUDD BRANDON** [10:49]

Yeah, we won't get it. But I don't want to just, you know, not give her a price.

**RUDD BRANDON** [10:55]

Look, this is what we can offer. And my guess is the reason you're having issues with the other company now is they're, you know, underwater on these things. And they're trying to get out of some of

**Chad Metzger** [11:09]

Right. It's just a warehouse-style environment.

**RUDD BRANDON** [11:12]

them. Yeah, it's just a warehouse environment.

**Chad Metzger** [11:13]

Okay. All right.

**Chad Metzger** [11:16]

Yeah, I would say, you know, try to go in there at 1,500 and,

**Chad Metzger** [11:20]

you know, if they might, they might. If not,

**Chad Metzger** [11:23]

no worries.

**RUDD BRANDON** [11:25]

Yeah. I just, I don't know that I truly believe they're only paying \$650,

**Chad Metzger** [11:32]

Oh, no. No. No. Well,

**RUDD BRANDON** [11:33]

but I don't know. I don't know why a lady would lie, but yeah.

**Chad Metzger** [11:38]

yeah, because they're trying to get the lowest rate. They can.

**RUDD BRANDON** [11:41]

Yeah, yeah. But that's, I mean, you think you would be, if you're going to tell a fib, you'd make it seem somewhat realistic.

**Chad Metzger** [11:48]

I mean, it could be they're paying \$650 with no maintenance included.

**RUDD BRANDON** [11:53]

Well, she said that all the maintenance is included,

**Chad Metzger** [11:58]

Hmm. Well, again, so she says.

**RUDD BRANDON** [11:59]

but...

**RUDD BRANDON** [12:02]

Yeah, that's right. Okay. All right. Well, that's what we'll do. We'll just quote it that way and

**Chad Metzger** [12:02]

Yeah. No

**RUDD BRANDON** [12:10]

see what she says.

**RUDD BRANDON** [12:14]

All right. I appreciate it.

**Chad Metzger** [12:15]

problem. You bet. Talk to you soon. Bye.

**RUDD BRANDON** [12:17]

Thanks. Bye.

---

CALL 118 OF 611

## Inbound call from GUSTIN KELVIN

May 05, 2026 | 02:23 PM | Duration: 10m 34s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Positive

### AI SUMMARY

During the call, Gustin Kelvin (Customer) reached out to Derrick Dea (Representative) to discuss several work orders including 804-982 for a drive wheel.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

All right, equipment, almost to Derrick. All right. What's up? Okay.

**GUSTIN KELVIN** [00:06]

How's it going today, buddy?

**GUSTIN KELVIN** [00:10]

Hey, well, I don't know. A lot of stuff, I guess. I don't know. I got a work order of 804-982.

**GUSTIN KELVIN** [00:24]

How about a drive wheel, one of them? I think it's... Let me look real quick, like, hang on. I wrote it down, but... 513-31328 drive wheel. You probably got them in stock, don't you?

**Derrick Dea** [00:27]

Okay. I think so.

**GUSTIN KELVIN** [00:43]

And... Oh, \*\*\*\*. Oh, \*\*\*\*.

**GUSTIN KELVIN** [00:53]

Thank you.

**GUSTIN KELVIN** [01:19]

Yeah, look at those snap-on tool books I got. Holy schmoly, they want smart, you know, buy some tools.

**Derrick Dea** [01:30]

Yeah.

**GUSTIN KELVIN** [01:32]

Hmm?

**Derrick Dea** [01:40]

Thank

**Derrick Dea** [01:51]

you.

**Derrick Dea** [02:03]

Thank you.

**Derrick Dea** [02:25]

Thank you.

**Derrick Dea** [02:48]

Yeah, I got the tire in stock. It's done.

**GUSTIN KELVIN** [03:01]

You rock.

**GUSTIN KELVIN** [03:04]

Hey, so did you get any other emails from me about like a master cylinder?

**Derrick Dea** [03:09]

Yep, ordered it for tomorrow.

**GUSTIN KELVIN** [03:15]

And how about what was the other one? The 840, was that the seat adjuster? No, I didn't have a look back here. Let's see, work order 04898.

**Derrick Dea** [03:31]

511-6029.

**GUSTIN KELVIN** [03:36]

That's a load wheel. Did you have the load wheel 51160629?

**GUSTIN KELVIN** [03:50]

Mm-hmm.

**GUSTIN KELVIN** [03:54]

Mm-hmm.

**Derrick Dea** [03:55]

I'm missing a number. 5116029. I'm missing a number.

**GUSTIN KELVIN** [04:19]

Oh, 60629.

**Derrick Dea** [04:20]

Yeah, I got two of those. Where are they going? Same call?

**GUSTIN KELVIN** [04:24]

60629.

**GUSTIN KELVIN** [04:33]

Yeah, no, it goes on that work order 8048.

**GUSTIN KELVIN** [04:39]

98 for one. And then I need one for 084928 for the same part number.

**Derrick Dea** [04:47]

Okay.

**GUSTIN KELVIN** [04:59]

804-928 and 804-928.

**Derrick Dea** [05:10]

I got two of them.

**GUSTIN KELVIN** [05:12]

898. Hey, how about work order 804-896

**Derrick Dea** [05:17]

Okay.

**GUSTIN KELVIN** [05:19]

for that seat latch, card number <REDACTED\_ENTITY>.

**GUSTIN KELVIN** [05:34]

I think you got that one.

**GUSTIN KELVIN** [05:36]

Yes.

**Derrick Dea** [05:42]

It says ideal unit adjustment. Okay.

**GUSTIN KELVIN** [05:56]

Hey, so...

**GUSTIN KELVIN** [06:03]

How about 804980? Can you get a couple bottles of that battery neutralizer? What is it, 1U? Something, something. I don't know.

**Derrick Dea** [06:05]

Okay. 8267Q or whatever. Yep.

**GUSTIN KELVIN** [06:21]

Yeah, yeah. Hang on. I'm still looking at this. Hang on, I got...

**Derrick Dea** [06:22]

Okay.

**GUSTIN KELVIN** [06:27]

Sorry, I'm not trying to be a pain. I'm just trying to get my act together, right? Let's see. Let me go back. I've got to go back on the flipping

**GUSTIN KELVIN** [06:41]

manuals. Come on.

**GUSTIN KELVIN** [06:47]

Because I've got part number 5183088.

**GUSTIN KELVIN** [06:51]

3-2, and I don't know what the heck it's supposed to be for. I got to punch it up and see.

**Derrick Dea** [06:58]

Sensor unit.

**GUSTIN KELVIN** [07:01]

What is that part number?

**GUSTIN KELVIN** [07:08]

Oh, yes. That's the math. Yes, yes, yes. Yes. I need one of them bad. Hang on. Let me find it. My work order. Hang on.

**Derrick Dea** [07:15]

I have two of those, too. Okay.

**GUSTIN KELVIN** [07:25]

Let's see, that was for

**GUSTIN KELVIN** [07:31]

number three.

**GUSTIN KELVIN** [07:36]

It's for this 804-928-SEGMENT-2.

**Derrick Dea** [07:39]

Good. Good.

**GUSTIN KELVIN** [07:45]

And then I got 804-928-SEGMENT-2.

**GUSTIN KELVIN** [07:51]

978. Can I get a battery boss for that?

**GUSTIN KELVIN** [08:00]

I'm just looking through this stuff to make sure I got everything before it. Hey, so did the side shift hoses ever get in for that other one?

**Derrick Dea** [08:11]

I was checking them yesterday. I got a bunch of stuff on back order still. Let me check on it again today.

**GUSTIN KELVIN** [08:18]

So should I close it or leave it open? What do you think?

**GUSTIN KELVIN** [08:25]

I'll leave it open. Any luck on them genie tires? Okay.

**Derrick Dea** [08:25]

That finally got released. Should see them this week. Yeah, still working with LSI on it, because TVH gave me the OEM number, but it was one I got and the connector was wrong, so they're working on that.

**GUSTIN KELVIN** [08:34]

And the horn for that crown?

**GUSTIN KELVIN** [08:47]

That's fine. I'm just trying to keep up on this stuff. Sorry, man.

**Derrick Dea** [08:49]

Unless you want to change the connector out and put one of ours in. Okay, I'm still working on it then. Okay.

**GUSTIN KELVIN** [08:55]

I'd love to, but this truck, I don't know.

**GUSTIN KELVIN** [09:01]

I'm just going to, I'll just, yeah, I'll just wait for it. I also have, there was one for Echo, that handle for that Raymond. There's a core on that, wasn't there?

**Derrick Dea** [09:13]

Yeah. Yep, and the cylinders, I got three seal kits because there's three possible cylinders. Need to match them with the cylinder number. So there's the 60 millimeters above, 60 millimeters below, and...

**GUSTIN KELVIN** [09:15]

I got the old one. I'll bring it into you.

**GUSTIN KELVIN** [09:26]

Oh, shoot. See, I was looking

**GUSTIN KELVIN** [09:33]

for a cylinder number, and I couldn't find one.

**Derrick Dea** [09:35]

Well, it's on there unless it's an aftermarket cylinder.

**Derrick Dea** [09:40]

I don't know if I checked history on that one for that, but maybe I did, I don't know.

**GUSTIN KELVIN** [09:40]

Well, it's got to be on there. We sold the \*\*\*\* thing, I'm sure. And we probably even put a kid in it before. Who knows?

**GUSTIN KELVIN** [09:54]

Well, you got enough stuff to do. You shouldn't have to do that.

**GUSTIN KELVIN** [09:59]

Oh, look at Richard. He's delivering stuff like you wouldn't believe right to me. Yeah, I'll bring that handle. Should I give it to Richard?

**Derrick Dea** [10:01]

Yep. He can do it or I can do it. It's up to you. All right.

**GUSTIN KELVIN** [10:11]

I'll just give it to him. You got enough stuff to do. Yeah, it's a core.

**GUSTIN KELVIN** [10:15]

Yep, yep, that's for me, yep. And there's paperwork for that H&H for my truck. Thanks, Derrick. I'll get this stuff and I'll get out of your hair. Hopefully I don't bother you no more today. Bye. Yep.

**Derrick Dea** [10:18]

Yep.

**Derrick Dea** [10:23]

All righty. Bye.

May 05, 2026 | 02:17 PM | Duration: 8m 9s | From: VALERIO BREKKE | To: +14024731032

Inbound

Negative

### AI SUMMARY

In a detailed conversation, Nate Ross and Valerio Brekke discussed the challenges of pricing strategies related to their supplier, TVH.

### FULL TRANSCRIPT

**VALERIO BREKKE** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Ryan Equipment Parts, Nate.

**VALERIO BREKKE** [00:06]

Hey, Nate, it's

**Nate Ross** [00:07]

Hey, what's up?

**VALERIO BREKKE** [00:08]

Michael. Oh, I'm just looking at emails now. Troy Rickardson.

**Nate Ross** [00:11]

Oh, boy.

**Nate Ross** [00:14]

Yeah, I'm going through this.

**Nate Ross** [00:17]

I'm working up some different numbers on this because I get that he doesn't want to drop any of his pricing, but what he's not figuring, what he's not figuring, like if you look at the logistic sell price,

**VALERIO BREKKE** [00:25]

Yes, sir.

**Nate Ross** [00:35]

And look at the TVH costs.

**Nate Ross** [00:38]

What I'm doing is you'll take that minus the TVH price and then minus the logistic dollars.

**VALERIO BREKKE** [00:44]

Yeah. Mm-hmm.

**Nate Ross** [00:45]

You're not figuring in the lost margin that we're seeing. Because what I normally do is I take the TVH part and then I put it at

**Nate Ross** [00:59]

So we're apples for apples. I put that at their

**Nate Ross** [01:06]

list. So technically, because we bought it cheaper, we make more money.

**Nate Ross** [01:14]

But on the other side of the fence,

**Nate Ross** [01:17]

and I was kind of talking with Victoria about that a little bit this morning, is what's frustrating me is

**VALERIO BREKKE** [01:21]

Wow.

**Nate Ross** [01:24]

And that's why I sent that email to have a sit down with you and Brandon is

**Nate Ross** [01:31]

realistically, we should be sending, we were willing to send MLA our cost from TVH. We should be sending that stuff to TVH to see what they can do better.

**Nate Ross** [01:46]

Because yes, in this market as an MLA dealer, we're

**VALERIO BREKKE** [01:48]

Yeah.

**Nate Ross** [01:51]

We want to buy MLA, but there might be other markets that we could go out and sell TVH.

**VALERIO BREKKE** [01:57]

Yeah, I didn't even see that.

**Nate Ross** [02:00]

But no,

**VALERIO BREKKE** [02:02]

I'm just looking at it now, profit, he's going off profit difference, not the \$2,000 more that it would be for the customer.

**Nate Ross** [02:08]

that's what I'm saying. He's not showing the lost margin. And there's a reason he's not showing that. The other thing that ticks me off is like that fourth number down, there wasn't pricing there.

**VALERIO BREKKE** [02:16]

Just a loose?

**VALERIO BREKKE** [02:23]

Yeah,

**Nate Ross** [02:27]

That pricing wasn't in there yesterday. Well, because I gave him the pricing to beat, if you look over to Logisnex markup, look how it's 21%.

**Nate Ross** [02:40]

So they did that just to beat TVH. I'm like,

**Nate Ross** [02:45]

they're just not wanting to come to the table and

**VALERIO BREKKE** [02:45]

yeah.

**Nate Ross** [02:51]

make less margin.

**VALERIO BREKKE** [02:53]

No,

**VALERIO BREKKE** [02:58]

no. Log mark margin, TVH margin, same 35%, but...

**Nate Ross** [03:04]

But that's what I'm saying.

**VALERIO BREKKE** [03:04]

Then it's a supplier problem.

**Nate Ross** [03:08]

It is because like I said, like that first line, he's got lodges next, you're making 1067, TVH you're making 938.

**Nate Ross** [03:17]

Well, but yes, that is our standard. But what I would be doing is taking the 2680 in cost and

**Nate Ross** [03:30]

And I would be selling it for \$32.30, which I would make an extra \$4.

**VALERIO BREKKE** [03:32]

Right.

**VALERIO BREKKE** [03:37]

And that gives you, you know, you sell four of those at that price and then the one that you have to get competitive with, it's fine to get competitive with

**Nate Ross** [03:46]

But it's also, and he keeps not wanting to address the whole reason I started this is, is that you guys are competing against TVH.

**Nate Ross** [03:59]

And if, yes, we only market up this much.

**Nate Ross** [04:03]

But if like Yale wants to only market up, let's say 40%,

**Nate Ross** [04:10]

because of your guys' higher costs, we'll never be able to compete against the Yale group.

**Nate Ross** [04:19]

So I just, I'm putting that together right now. I'm putting another line in there with lost margin. And then once I get that done, I'll send that over to you and

**VALERIO BREKKE** [04:22]

them. With our own product line.

**Nate Ross** [04:30]

And Brandon. But I just think that we need to, all three of us need to have a conversation before we have that conversation with them because

**VALERIO BREKKE** [04:31]

Brandon?

**Nate Ross** [04:40]

we need to be united front with telling them like, hey,

**Nate Ross** [04:44]

I don't give a \*\*\*\* what you're coming up with. You need to give us better pricing.

**VALERIO BREKKE** [04:48]

Yeah.

**VALERIO BREKKE** [04:52]

Yeah. Otherwise, yeah, they need to.

**Nate Ross** [04:56]

Well, that ticked me off when I started walking through that and I was like, largest next markup, 21%. And I'm like, you guys only got to that because I gave you the cost.

**VALERIO BREKKE** [05:06]

Yeah.

**Nate Ross** [05:07]

But that's where I say it's like, if I'm going to give you the playbook,

**Nate Ross** [05:13]

yeah, all you got to do is beat the price. But if I give TVH the playbook, now what?

**Nate Ross** [05:21]

We're going to make them look even worse. And I think for us, we should do that.

**VALERIO BREKKE** [05:29]

Yeah. I mean, it makes sense. I mean, unfortunately,

**Nate Ross** [05:34]

But like I said, if you're going to do it for one, you should do it for the other.

**Nate Ross** [05:39]

Because now you truly know where they're at.

**Nate Ross** [05:46]

Yeah, that's just my opinion. I just don't know as above you and I what they're okay with us doing.

**VALERIO BREKKE** [05:52]

but what they're,

**Nate Ross** [05:57]

I know they want to get away from TVH, but we need to use TVH's leverage as much as possible, not only to leverage MLA, but also get better pricing so that down the road,

**Nate Ross** [06:09]

Other locations that aren't MLA dealers can use this to go out and grill margin dollars.

**VALERIO BREKKE** [06:15]

yeah. Yeah.

**Nate Ross** [06:20]

I don't know if we're thinking that far out, but that's where my mind is on it.

**VALERIO BREKKE** [06:25]

Yeah. Yeah.

**Nate Ross** [06:27]

And maybe that's a conversation where we get Brandon down here or we go there or something, but I think we need to all three have that conversation. Because when you get into, like you got Alfea,

**Nate Ross** [06:39]

And that's where my main thought is right now is Alfea and Continental.

**Nate Ross** [06:47]

That's how Rikus is going to get back in the door is using TVH.

**VALERIO BREKKE** [06:52]

Yeah. Yeah. Yeah.

**VALERIO BREKKE** [06:56]

Yeah.

**Nate Ross** [06:58]

Yeah, all kinds of good stuff.

**VALERIO BREKKE** [07:01]

Okay. Well, I guess we'll see. Yeah, we should probably talk to Brandon whenever he has a free second.

**Nate Ross** [07:09]

So, yeah, like I said, I think just kind of go over our concerns and, you know, we just got done with this five at this.

**Nate Ross** [07:16]

This EOS survey, you know, let's put that to some use and let's sit down and have some conversations and

**Nate Ross** [07:25]

make a difference kind of thing.

**VALERIO BREKKE** [07:28]

Absolutely.

**Nate Ross** [07:28]

So, yep. Yep. So, all right, man. Well, all right. Sounds good, man.

**VALERIO BREKKE** [07:30]

Okay. All right. Well, you get back to it, and we'll see you later.

**VALERIO BREKKE** [07:37]

Yep. Bye.

CALL 120 OF 611

## Inbound call from COOPER PATRICK

May 05, 2026 | 02:09 PM | Duration: 1m 55s | From: COOPER PATRICK | To: +15152995632

Inbound

Positive

### AI SUMMARY

The conversation involved COOPER PATRICK (Customer) checking on the availability of nylon hoses and other supplies with Adam Henderson (Sales rep), concluding with arrangements for pickup after additional hose repairs.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Adam Henderson** [00:04]

Ryan Equipment, the sound. Now he's on the phone.

**COOPER PATRICK** [00:07]

Scan off today.

**COOPER PATRICK** [00:11]

Oh, hey, do we have

**COOPER PATRICK** [00:14]

part number Mary Charlie Frank 0574825465

**COOPER PATRICK** [00:29]

nylon hoses?

**Adam Henderson** [00:29]

That number seems familiar, yeah. I think there's two back there on the shelf. 48, 25, 465. Yeah, I got two here. Yep.

**COOPER PATRICK** [00:43]

Do. Should be a Hy-Vee open for replace hoses.

**Adam Henderson** [00:49]

I'll...

**COOPER PATRICK** [00:50]

Can you put those on there, grab a couple things of brake clean and hydraulic fluid? Probably one thing of hydraulic fluid.

**Adam Henderson** [00:56]

Yep, not a

**Adam Henderson** [00:59]

problem. I'll get them set up for you.

**COOPER PATRICK** [01:01]

Okay, then I got to go get a couple other hoses made too,

**COOPER PATRICK** [01:07]

so. I don't know what they damaged it with.

**COOPER PATRICK** [01:11]

But, oh well.

**Adam Henderson** [01:11]

Running into bread or something.

**COOPER PATRICK** [01:13]

Well, I think they've been using it over there, so I think. Yeah, running in the bread. Yeah.

**COOPER PATRICK** [01:20]

Vegetables.

**Adam Henderson** [01:21]

Yeah, using it in the garden center probably.

**COOPER PATRICK** [01:24]

Garden center.

**COOPER PATRICK** [01:28]

Yeah. All right. A little few ladles aside. I'll swing by and pick those up after I get the hoses made.

**Adam Henderson** [01:33]

Okay, sounds good. Yep.

**COOPER PATRICK** [01:35]

All right. Thank you, sir. All right. Bye.

### AI SUMMARY

Mark (Caller, Grayson Tool) called to request information on the year of a CAT forklift by providing its serial number, but Michael Lowe was unavailable to respond at the time.

### FULL TRANSCRIPT

**Michael Lowe** [00:00]

Hello, this is Michael with Ryan Equipment in Lincoln and Donovan, Nebraska. I'm unable to answer the phone right now. If you need immediate attention, feel free to call the front office at 402-474-5566. If it's not immediate, you can leave a voicemail and I will get back to you as soon as possible. Thank you. Bye.

**GRAYSON TOOL CO** [00:27]

Hello, this is Mark calling from Grayson Tool over in Minden, Nebraska. And we're looking at a CAT forklift. It's a 2P5000. And just...

**GRAYSON TOOL CO** [00:41]

I was calling to see if maybe you could look up the serial number and let us know what year it is. The serial number is AT-APPLE-TOM, 353-4375. If you could do that, please, I'd appreciate it. The number here is 308-832-2613. Thank you. Bye.

### AI SUMMARY

Cooper Patrick (Customer) reached out to Shelby Lathrum (Representative, Ryan Equipment) to open a work order for Hy-Vee while dealing with email problems.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan Equipment. How may I help you?

**COOPER PATRICK** [00:10]

I need a work order open it for Hy-Vee. I don't know. I can try to send you email. I don't know what's going on with my email.

**Shelby Lathrum** [00:13]

Yes. Mine

**Shelby Lathrum** [00:17]

was being really weird this morning, denying me access, and I had to restart my computer.

**COOPER PATRICK** [00:22]

Yeah, that's what mine did.

**COOPER PATRICK** [00:25]

Then it would do something, ding. Then I took a picture and I sent it. Then it's saying just write a caption. I'm like, I don't want to write a caption. I want to do an email.

**Shelby Lathrum** [00:34]

Yeah. Yeah, it's having issues this morning.

**COOPER PATRICK** [00:39]

But serial number six, Apple.

**COOPER PATRICK** [00:45]

He is in Paul, 00, Q70,

**COOPER PATRICK** [00:50]

Inspect Hydraulic Leak.

**COOPER PATRICK** [00:54]

Then they have another one for me to look at too, a Toyota, but a pallet jack, but I told them I had to get this one going first.

**Shelby Lathrum** [01:02]

Okay. Are you going to need to, like, replace hoses, repair this?

**COOPER PATRICK** [01:07]

I

**COOPER PATRICK** [01:08]

just got here, so probably...

**Shelby Lathrum** [01:10]

Oh, okay.

**COOPER PATRICK** [01:13]

I have to look and see what's going on. Probably replace hoses because I see one hose is all chewed up.

**Shelby Lathrum** [01:20]

Okay.

**COOPER PATRICK** [01:20]

So I put replace hoses.

**Shelby Lathrum** [01:23]

Okay. I can get that going. Yep, no problem. All right. Bye.

**COOPER PATRICK** [01:26]

All right. Thank you.

**COOPER PATRICK** [01:28]

All right. Bye. Bye.

### AI SUMMARY

Dave (Customer) informed Bill (Sales rep) about a stop engine light issue with a unit and provided his direct line for follow-up, to which Bill agreed to connect and troubleshoot.

### FULL TRANSCRIPT

**RXO** [00:00]

This call is being recorded.

**Bill Lewis** [00:04]

Good morning, Ryan Equipment, this is Bill.

**RXO** [00:06]

Bill, Dave with RXOs. Talked to you yesterday.

**Bill Lewis** [00:09]

Yeah, how you doing, Dave?

**RXO** [00:11]

I'm okay. I used a unit this morning. Now it's flashing stop engine light, so I pulled it off. So you want to connect to it and let me know what you find out and call me back?

**Bill Lewis** [00:17]

Okay.

**Bill Lewis** [00:22]

Yeah, absolutely.

**RXO** [00:23]

All right, cool. I'll give you my number, direct line, whenever you're ready.

**Bill Lewis** [00:26]

I'm grabbing a pen right now.

**Bill Lewis** [00:31]

All right, I'm ready.

**RXO** [00:33]

651-318-650.

**Bill Lewis** [00:35]

Yep.

**Bill Lewis** [00:37]

Yep.

**RXO** [00:38]

7093.

**Bill Lewis** [00:40]

Perfect. Okay, I'll call you back in here in a few minutes.

**RXO** [00:43]

Yep, I'll be here. Thank you.

**Bill Lewis** [00:45]

Yep, you bet. Thanks, Dave. Bye.

**AI SUMMARY**

In a recorded call, Irwin Anthony (Customer) requested a quote from Rodney Meier (Sales rep) for specific parts related to serial number 34930.

**FULL TRANSCRIPT**

**IRWIN ANTHONY** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Ryan Equipment, this Rod.

**IRWIN ANTHONY** [00:06]

Rod, hey, it's Matt at TMS. I'm in need of a quote. It's going to be on serial number 34930.

**Rodney Meier** [00:08]

Yeah,

**IRWIN ANTHONY** [00:17]

And it

**IRWIN ANTHONY** [00:22]

will be, let's see here, I'm in Axel Group page 13-127.

**Rodney Meier** [00:29]

Matt. Give me a second here.

**Rodney Meier** [00:52]

34930.

**Rodney Meier** [00:57]

You said 13127.

**IRWIN ANTHONY** [01:08]

On the picture number 16,

**IRWIN ANTHONY** [01:14]

17, 18.

**IRWIN ANTHONY** [01:19]

10, 11, 12, 13,

**Rodney Meier** [01:24]

Say that again now. I got 1617.

**IRWIN ANTHONY** [01:29]

14, 18,

**Rodney Meier** [01:30]

Okay.

**IRWIN ANTHONY** [01:32]

10, 11, 12, 13, 14,

**IRWIN ANTHONY** [01:38]

number 2, and number 42.

**Rodney Meier** [01:43]

Okay. One side or both sides?

**IRWIN ANTHONY** [01:46]

One side.

**IRWIN ANTHONY** [01:51]

Let me quote together on that.

**IRWIN ANTHONY** [01:55]

And I'm working on the PO, but if you want to get

**IRWIN ANTHONY** [02:03]

it going on, let me see. Let me find that quote again here quick.

**IRWIN ANTHONY** [02:10]

That planetary quote.

**Rodney Meier** [02:12]

Oh, all right. Yeah, I should have it in my quote list here.

**IRWIN ANTHONY** [02:14]

122463-1.

**Rodney Meier** [02:21]

Give me a second here.

**Rodney Meier** [02:32]

Yeah, it's got the planetary plug cap screw.

**Rodney Meier** [02:42]

We'll get that ordered today. Let's see, Tuesday, possibly Friday.

**Rodney Meier** [02:52]

If I get it out today, possibly Friday.

**Rodney Meier** [02:56]

Because yeah, with that planetary, that'll have to come by truck.

**IRWIN ANTHONY** [03:00]

Yes.

**Rodney Meier** [03:01]

But I will get that coming for you.

**IRWIN ANTHONY** [03:04]

Okay. Yep. Send me that other quote and we'll go from there.

**Rodney Meier** [03:05]

Yeah, I like it. Sounds good, Matt. I'll get her going.

**IRWIN ANTHONY** [03:09]

I appreciate it. Thank you.

**Rodney Meier** [03:11]

All right, you bet. No problem. Thank you. Bye.

**IRWIN ANTHONY** [03:13]

Bye.

### AI SUMMARY

In a detailed conversation, Mark (Customer, Caller) sought clarification on the correct oil filter for a Toyota lift truck, initially confusing part numbers 76008 and 76009.

### FULL TRANSCRIPT

**LIFT PRO EQUIP** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:03]

Good afternoon, Rion Equipment. This is Lisa. How can I help you?

**LIFT PRO EQUIP** [00:08]

Hey, Lisa, it's Mark here. That oil filter, Toyota's saying it's supposed to be the 15601-76008. I sent you a picture of both filters on your phone. And they're saying, was it a 76009 that was on it? Or that's what NAPA said it was supposed to be? That's what was sent.

**Lisa Kleeman** [00:23]

No, that's what was... Nope, nope, that's what was sent. I have a 76009, not a 76008.

**LIFT PRO EQUIP** [00:34]

No, it's 76008. It was supposed to be on it. And then is there something special about this machine? Because the air filter they're saying it should take is a 17743-2360071. And...

**Lisa Kleeman** [00:41]

Thank

**Lisa Kleeman** [00:47]

you.

**LIFT PRO EQUIP** [00:54]

The dimensions of it are identical to the U2230. The dimensions are the same, but it's a different filter number. Is this like an explosion-proof unit, something special about it? Because when I open up the parts catalog, it says this is a special

**LIFT PRO EQUIP** [01:15]

Specially designed unit, yada, yada, yada. Let me read to you what it says here. It says this lift truck has been manufactured with a special design that may use nonstandard part numbers. Please refer to your distributors portal before placing order. What is so special about this truck?

**Lisa Kleeman** [01:29]

What one are we speaking of? Oh, yeah, I have no idea what's special on it.

**LIFT PRO EQUIP** [01:33]

You know,

**LIFT PRO EQUIP** [01:36]

this is the 8FG F25 that you wanted the...

**LIFT PRO EQUIP** [01:41]

The 500 hour filter service for?

**LIFT PRO EQUIP** [01:50]

Oh, okay. Well, is that the one you...

**Lisa Kleeman** [01:51]

Besides, I mean, go ahead. Yeah, this is the Mike Clinton one in Williston. This is the one that you sent me all the stuff for the PM service.

**LIFT PRO EQUIP** [01:57]

Is that... So, the <REDACTED\_ENTITY>, is that the other one we're working on with the FD70?

**LIFT PRO EQUIP** [02:10]

Yeah. Okay.

**Lisa Kleeman** [02:17]

You've sent me the info on the flywheel. And then I asked about the bull gear. That's where this one came from. Yep. So if your records show a 76008, they sent a 76009. So can I...

**LIFT PRO EQUIP** [02:25]

Okay. Okay. That's the...

**LIFT PRO EQUIP** [02:35]

Now, I was looking at the wrong truck. I was looking, hang on, I was looking at the 8FGF25. I just want to confirm which truck we're looking for filters for.

**Lisa Kleeman** [02:39]

Oh, let me, nope, hold on. Well, no, this.

**LIFT PRO EQUIP** [02:49]

This is the 5FD70.

**Lisa Kleeman** [02:55]

Hold on. No, the one I just sent you, the oil filter, that was wrong.

**LIFT PRO EQUIP** [03:05]

Okay.

**Lisa Kleeman** [03:08]

Is the 5FD70.

**LIFT PRO EQUIP** [03:08]

Okay.

**LIFT PRO EQUIP** [03:14]

That's the 5FD70. Okay. I was looking up the F-25. Yep. And that's where we're getting confused. Okay. So the 5FD70, the oil filter, is a calling for it. That's different. 1-5-600-76-7-6-7-7-7-7

**Lisa Kleeman** [03:16]

Yes.

**Lisa Kleeman** [03:19]

I know, we have like three of them going on right now. Maybe I should \*\*\*\*\* them out.

**LIFT PRO EQUIP** [03:40]

003-71 and that may be the 76009. Let me hit order. Yeah, that one is supposed to take the 1560176009 for the oil filter.

**Lisa Kleeman** [03:51]

Okay, my technician, I have to send this one back to you because my technician says that this oil filter is way smaller than what was on it.

**LIFT PRO EQUIP** [03:56]

And

**LIFT PRO EQUIP** [04:03]

somebody may have put the wrong filter on. Was it a Toyota filter that was on it?

**Lisa Kleeman** [04:07]

That part I don't know. But he said it literally, it was twice this size. Yeah,

**LIFT PRO EQUIP** [04:10]

Because this is...

**LIFT PRO EQUIP** [04:16]

Wow.

**Lisa Kleeman** [04:18]

this is one of the, this is just a little guy.

**LIFT PRO EQUIP** [04:18]

I'm just telling you, so...

**Lisa Kleeman** [04:24]

I taped it up,

**LIFT PRO EQUIP** [04:25]

So, yeah, the 76009 is a smaller filter, and that's going on truck, the 5FD70. It is calling

**Lisa Kleeman** [04:28]

but. Yes. Yes.

**LIFT PRO EQUIP** [04:34]

For the 1560176009-71.

**Lisa Kleeman** [04:34]

Okay, so you sent me the pictures, right, of the 08 and the 09. This one here is the size of the 08.

**LIFT PRO EQUIP** [04:42]

Right. Yep.

**LIFT PRO EQUIP** [04:48]

And it's stamped 09?

**Lisa Kleeman** [04:50]

Yes, I'm going to send this to you. Hold on. Because this is why I'm saying it's like twice the size. This is

**LIFT PRO EQUIP** [04:54]

That's fair.

**Lisa Kleeman** [04:58]

This is a little guy. This is not a big guy.

**LIFT PRO EQUIP** [05:12]

Yeah, that's the same. Yeah, it's not a very big filter.

**Lisa Kleeman** [05:15]

That's the little guy.

**Lisa Kleeman** [05:18]

No, but this one over here, this 76009, that should be twice that other size of that 08.

**LIFT PRO EQUIP** [05:23]

Yep. Mm-hmm.

**LIFT PRO EQUIP** [05:31]

It's

**LIFT PRO EQUIP** [05:34]

not.

**LIFT PRO EQUIP** [05:40]

It is not. That should be. Did I send that one to you?

**LIFT PRO EQUIP** [05:44]

That's one of them I sent over to you? Yeah, that's...

**Lisa Kleeman** [05:46]

Yep, you had to send it to me and then I had to send it up there.

**LIFT PRO EQUIP** [05:51]

And he said the one that's on it is twice that size?

**LIFT PRO EQUIP** [05:56]

Because this is the one that it's calling for. Is that a Baldwin B2?

**Lisa Kleeman** [05:56]

He had to go to Napa and get like a B2. He's trying to find a receipt for me.

**Lisa Kleeman** [06:07]

Yeah.

**LIFT PRO EQUIP** [06:09]

Okay, let me look at a Baldwin B2.

**LIFT PRO EQUIP** [06:13]

Baldwin B2, yeah, that's a monster filter in comparison.

**Lisa Kleeman** [06:18]

Yeah, he said that is what he ordered for that machine.

**Lisa Kleeman** [06:24]

This one did not work at all.

**LIFT PRO EQUIP** [06:28]

What in the world is going on here? Because I'm taking it right off the Toyota website.

**Lisa Kleeman** [06:33]

I know. That's why I always go to you.

**LIFT PRO EQUIP** [06:38]

Yep, let me do some checking on something here. Hold on. So I got a Baldwin B2 here.

**LIFT PRO EQUIP** [06:51]

So the

**LIFT PRO EQUIP** [06:56]

seal

**LIFT PRO EQUIP** [07:01]

is right,

**LIFT PRO EQUIP** [07:05]

and I think it's an M20.

**LIFT PRO EQUIP** [07:18]

Is it an M20 by 2.5?

**LIFT PRO EQUIP** [07:27]

No, that one doesn't fit either.

**LIFT PRO EQUIP** [07:41]

That doesn't fit either.

**LIFT PRO EQUIP** [07:45]

Those look like the same threads to you? They're pretty close, but I can't get it to...

**LIFT PRO EQUIP** [08:05]

They may have just put this B2 filter on there, but what the factory is calling for is the 76009, but I'm just trying to verify if the thread pitch is the same.

**Lisa Kleeman** [08:18]

Well, and if it's twice, the size is the diameter the same.

**LIFT PRO EQUIP** [08:24]

The diameter of the ceiling face is the same. Okay? But...

**Lisa Kleeman** [08:29]

Okay.

**Lisa Kleeman** [08:32]

But that B2 is like twice as long. Is that what you're telling me?

**LIFT PRO EQUIP** [08:36]

Oh, it's about two inches, inch and a half longer at least. And diameter-wise, you got another half-inch diameter all the way around. Okay?

**LIFT PRO EQUIP** [08:46]

It's a much bigger filter. I mean, it'll work, but it's a lot thicker. I'm just saying that there is a lot more...

**LIFT PRO EQUIP** [08:59]

Mm-hmm.

**Lisa Kleeman** [09:00]

I don't know. I do know he took it off and had to go to Napa there in Williston and they compared it and that's what they came up with.

**LIFT PRO EQUIP** [09:12]

A 7609 or a B2? Okay. Mm-hmm.

**Lisa Kleeman** [09:15]

The B2. That is what he put on the machine. The 76009 I have back here with me

**Lisa Kleeman** [09:24]

because it was not used.

**LIFT PRO EQUIP** [09:28]

Okay.

**LIFT PRO EQUIP** [09:32]

Let me look at something here.

**LIFT PRO EQUIP** [09:51]

I just want to look at something here. So the B2...

**LIFT PRO EQUIP** [09:56]

What is the... 3/4.16 is the thread pitch. 3/4.16 is what they're saying the B2 thread pitch is.

**LIFT PRO EQUIP** [10:18]

Okay, 3/4.16 is what that's supposed to be.

**LIFT PRO EQUIP** [10:24]

Let me look up this one. And...

**LIFT PRO EQUIP** [10:42]

3/4, 16. So they have the same thread pitch, the same ceiling surface, it's just the Baldwin is a bigger filter. They did that up on their choice. The one that the Toyota says it's supposed to take is the 1560176009. That's what it was supposed to take.

**Lisa Kleeman** [10:58]

Okay, then I will let my guy know then,

**LIFT PRO EQUIP** [11:03]

Yeah, it's a much smaller filter. A lot of times it won't even...

**Lisa Kleeman** [11:05]

which means that...

**LIFT PRO EQUIP** [11:08]

FIT IN THE SOCKET ON THE MACHINE. LET ME GET BACK TO THE DRAWINGS HERE.

**LIFT PRO EQUIP** [11:16]

YEAH, I'M SURPRISED IT EVEN FIT INTO THAT SPACE.

**LIFT PRO EQUIP** [11:25]

BUT THEN AGAIN, THIS IS DIFFERENTLY... THIS MACHINE IS... OH, WAIT, NO, THIS IS A DIFFERENT MACHINE. THIS IS THE... OH, YEAH, THE FD70. YEAH, PHYSICALLY, THE FD70

**LIFT PRO EQUIP** [11:38]

The threads are the same, the ceiling face is the same, but the actual physical dimensions of the filter are different. Now if we look at, let's look at one other thing here. When we look at filters, does it give me,

**LIFT PRO EQUIP** [11:55]

it does not give me the micron rating. It does not have a bypass.

**Lisa Kleeman** [12:04]

Okay, well, I will let him know that this is the correct one.

**LIFT PRO EQUIP** [12:05]

Yeah, that is the correct one.

**Lisa Kleeman** [12:09]

That the one that he put on there is one that they had initially, whoever they had do their stuff, which I know when I talk to the customer, the customer says, you know, we got this given to us. We don't know what has and hasn't been done. Let's do this. So, yeah.

**LIFT PRO EQUIP** [12:27]

Okay. I mean...

**Lisa Kleeman** [12:30]

That's kind of where we have been with a lot of things.

**LIFT PRO EQUIP** [12:37]

Okay, and this one has... The B2 has a bypass filter in it to where...

**Lisa Kleeman** [12:48]

Because remember this one also had that hydraulic filter. Remember I sent you that picture of the one on the--

**LIFT PRO EQUIP** [12:54]

Oh, yeah, that was in place. Okay. That was in line. Yeah. So, yeah, somebody's been fooling around in there. But the B2 filter has the bypass gasket or the...

**Lisa Kleeman** [12:57]

yeah. Yep, that's this one.

**LIFT PRO EQUIP** [13:18]

What am I trying to say? The bypass valve in it to where the Toyota filter does not. I don't know if that'll make any difference. It shouldn't. But like I said, it'll filter, but that's not what Toyota recommends for it. I'm not saying it won't work, but they probably just got what they could and put in there.

**LIFT PRO EQUIP** [13:40]

Type of deal.

**Lisa Kleeman** [13:42]

Probably at that point, yeah.

**LIFT PRO EQUIP** [13:45]

Yeah, because the 76009, that's what most of the Toyota diesels will take is that filter.

**Lisa Kleeman** [13:50]

Okay. Well, I will let him know that it is correct so we can keep this one for everything and when we do another service it will be the correct one that that B2 was something that somebody else down the line had put on.

**LIFT PRO EQUIP** [13:52]

So. Okay. Okay. Right.

**LIFT PRO EQUIP** [14:06]

I had to have because like I said what it's calling for is the 76009 filter. All right. Okay. All right. Sounds good. Thanks. Bye-bye.

**Lisa Kleeman** [14:21]

Okay, I will let him know. All right. Thank you. Bye.

CALL 129 OF 611

Inbound call from JASON HICKS

May 04, 2026 | 09:12 PM | Duration: 1m 31s | From: JASON HICKS | To: +15152995624

Inbound Positive

AI SUMMARY

In the conversation, Adam Henderson (Sales rep) is working on a purchase order for service equipment repair and maintenance while addressing inquiries from three other individuals, and JASON HICKS confirms item details and expresses gratitude for the support.

FULL TRANSCRIPT

JASON HICKS [00:00]

This call is being recorded.

Adam Henderson [00:03]

Yes,

JASON HICKS [00:05]

You got a PO yet?

Adam Henderson [00:06]

sir. I'm actually just working on it. I've had three people in here asking me questions already.

Adam Henderson [00:15]

I'll

Adam Henderson [00:35]

add your time to it too. It's going to be service equipment repair and maintenance.

JASON HICKS [00:42]

Okay. I don't

Adam Henderson [00:47]

I'll need a total here in a second when I get there.

JASON HICKS [00:50]

have a total yet.

Adam Henderson [00:51]

Okay, I'll just give you a dollar one.

JASON HICKS [00:53]

Yep.

Adam Henderson [01:00]

Ah,

Adam Henderson [01:09]

\*\*\*\*\*. 114, 2432.

JASON HICKS [01:18]

No. 114-24-32.

**Adam Henderson** [01:20]

Yep.

**JASON HICKS** [01:21]

All right. Sounds good. Thank you.

**Adam Henderson** [01:23]

Yep.

CALL 130 OF 611

## Inbound call from LIFT PRO EQUIP

May 04, 2026 | 08:55 PM | Duration: 10m 50s | From: LIFT PRO EQUIP | To: +13072280501

**Inbound**

**Neutral**

### FULL TRANSCRIPT

**LIFT PRO EQUIP** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:03]

Good afternoon, Rion Equipment. This is Lisa. How can I help you?

**LIFT PRO EQUIP** [00:08]

Okay, you got me totally confused.

**Lisa Kleeman** [00:10]

What the heck?

**LIFT PRO EQUIP** [00:12]

Well, because Adam is getting parts for the front driveshaft for this thing, for the front hubs, and that sort of thing. So what do you need for this one?

**LIFT PRO EQUIP** [00:29]

You need – because you sent me the attachment on the email was –

**Lisa Kleeman** [00:32]

Okay.

**LIFT PRO EQUIP** [00:36]

For the bull gear, for the flywheel assembly, and that was for

**Lisa Kleeman** [00:41]

No, it should have been I sent you for

**LIFT PRO EQUIP** [00:42]

that 7FD.

**LIFT PRO EQUIP** [00:47]

That was for the 5FD70, was the bull gear and the flywheel.

**Lisa Kleeman** [00:55]

the one that

**LIFT PRO EQUIP** [00:55]

And that's

**Lisa Kleeman** [00:57]

I sent initially on this one for the 500 and all of that.

**Lisa Kleeman** [01:04]

It was attached to the one, there's no oil pan gasket.

**LIFT PRO EQUIP** [01:07]

the... No,

**LIFT PRO EQUIP** [01:12]

there is no oil pan gasket.

**Lisa Kleeman** [01:13]

Just, yep, just the timing chain. And if you scroll down, yep, you had sent me the picture of all of the

**LIFT PRO EQUIP** [01:18]

You have just the timing gasket. And Adam asked

**Lisa Kleeman** [01:24]

engine seals, whatever.

**LIFT PRO EQUIP** [01:27]

me, but the email you sent me this morning asking about,

**Lisa Kleeman** [01:32]

Which one was that? Oh, the bull gear. Yes, that one is the flywheel.

**LIFT PRO EQUIP** [01:37]

OK, that one is the flywheel. And now we're looking for hydraulic oil fuel filter starter for this machine. Now is this the same one with the flywheel?

**LIFT PRO EQUIP** [01:48]

Okay, because that's the data tag you've got is for the flywheel. It's attached to this email.

**LIFT PRO EQUIP** [01:56]

And then just a little bit above that, you said, I'm looking for hydraulic oil fuel air starter for this machine. Let me know if you have questions.

**LIFT PRO EQUIP** [02:06]

Numbers and pricing availability, create a customer.

**LIFT PRO EQUIP** [02:11]

I quoted the filters there.

**Lisa Kleeman** [02:14]

No. No, because I have...

**LIFT PRO EQUIP** [02:15]

You know what we should do? Just start flat out. Okay, tell me what you need, and I'll write it down and start all over. Because my brain is just mashed.

**Lisa Kleeman** [02:22]

Because this is the one... Yeah, this is the one that I'm staring at

**LIFT PRO EQUIP** [02:28]

Okay.

**Lisa Kleeman** [02:29]

currently, which is the one that I sent you. The 11440.

**LIFT PRO EQUIP** [02:36]

Okay, let me see. And Ryan, or Adam is getting quotes for, this is where I'm getting all confused, because...

**LIFT PRO EQUIP** [02:45]

He's getting quotes and then the email that you sent me this morning I had the flywheel email attached to it.

**Lisa Kleeman** [02:51]

Yep, that's the full gear, which is the one that's in Williston.

**LIFT PRO EQUIP** [02:55]

Yep.

**LIFT PRO EQUIP** [02:58]

Okay, that one's in Williston. That's the 12802. Okay.

**Lisa Kleeman** [03:02]

Yep, my technician said to ask about that because they don't necessarily need the entire flywheel. If we can get just the bull gear, that would be wonderful. If not, then it would be the whole flywheel.

**LIFT PRO EQUIP** [03:14]

Okay, let me look here. Three ones. One, three, four.

**LIFT PRO EQUIP** [03:19]

Okay, the bull gear has the 37-day lead time as well. I

**LIFT PRO EQUIP** [03:29]

just heard back from Brett.

**LIFT PRO EQUIP** [03:33]

All right, so now on 11440, what do you want?

**Lisa Kleeman** [03:36]

When did he get with you to start getting this?

**LIFT PRO EQUIP** [03:45]

Just this morning, or this afternoon,

**Lisa Kleeman** [03:48]

Yeah.

**Lisa Kleeman** [03:51]

After I did.

**LIFT PRO EQUIP** [03:53]

Yep, he asked the timing cover, oil pan gaskets, and I'm looking at it going, didn't we quote this? And then he asked for a drive axle breakdown, then he came back and asked for the hub breakdown, and I just sent him that for the drive axle as well.

**LIFT PRO EQUIP** [04:11]

I'm just a bit confused. Sorry.

**Lisa Kleeman** [04:14]

No, it's the same one.

**LIFT PRO EQUIP** [04:16]

Okay. Okay.

**Lisa Kleeman** [04:17]

But it was a week and a half ago and I'm being asked where it's at.

**Lisa Kleeman** [04:24]

That's why I'm working on it. Or trying to.

**LIFT PRO EQUIP** [04:26]

Oh. Oh, he was supposed to work on it a week and a half ago is what you're saying. Okay.

**Lisa Kleeman** [04:33]

Yeah. Yeah.

**LIFT PRO EQUIP** [04:37]

Okay. So he's working on it as well. So what do you need from me? Tell me what you need.

**Lisa Kleeman** [04:53]

Yeah. Because I don't need you to double duty.

**LIFT PRO EQUIP** [04:57]

It's all right. It's been a day.

**Lisa Kleeman** [05:02]

Just absolutely.

**LIFT PRO EQUIP** [05:03]

I did get to go over to Sam's Club today, though. That was fun.

**Lisa Kleeman** [05:05]

Oh, well, that's good.

**LIFT PRO EQUIP** [05:07]

Yeah. We get our blue shop towels over there. They're a lot cheaper than going through O'Reilly Auto Parts and places like that.

**LIFT PRO EQUIP** [05:19]

They're 22 bucks for a dozen of them.

**Lisa Kleeman** [05:20]

He's going to go boo-hoo to the boss. \*\*\*\* it. Hate it when that \*\*\*\*\* happens. I'll \*\*\*\*\* at him. He drives me insane.

**LIFT PRO EQUIP** [05:25]

Who is?

**LIFT PRO EQUIP** [05:28]

Uh-oh.

**LIFT PRO EQUIP** [05:30]

That's okay. I'm the only one to drive me crazy here. So we have great conversation, though.

**Lisa Kleeman** [05:37]

Well, the thing of it is, is that I started with you on the timing gasket.

**Lisa Kleeman** [05:42]

To find out about that and the oil pan so that then I could turn and let my tech know.

**LIFT PRO EQUIP** [05:42]

Right. Yep.

**LIFT PRO EQUIP** [05:47]

Right. And that was.

**LIFT PRO EQUIP** [05:53]

Right.

**Lisa Kleeman** [05:54]

And I let them know, hey, there is no oil pan gasket. Just the timing gasket.

**LIFT PRO EQUIP** [06:01]

Yeah. And that was on the 28th when I taught when you hit me up for that.

**LIFT PRO EQUIP** [06:08]

That was on Monday and then he hit me up on the 29th or no, this morning.

**LIFT PRO EQUIP** [06:14]

Is when he started hitting me up on it. And then also on the 29th, you hit me up on that 5FD70.

**LIFT PRO EQUIP** [06:25]

So whatever you need.

**Lisa Kleeman** [06:25]

Yeah, because I just sent the freaking customer the bill.

**Lisa Kleeman** [06:31]

And he comes back with, I don't have a quote. I haven't seen one.

**Lisa Kleeman** [06:40]

So I have the timing gasket stuff from you.

**LIFT PRO EQUIP** [06:44]

Okay.

**Lisa Kleeman** [06:45]

I need a drive axle sill,

**Lisa Kleeman** [06:49]

a battery ground, and a 500-hour.

**LIFT PRO EQUIP** [06:50]

Okay. Okay. Okay. So let's

**LIFT PRO EQUIP** [06:57]

get back here. We need.

**LIFT PRO EQUIP** [07:01]

Which drive axle seal? I got it up right here. Let me look here. Would that be the outer or the inner bearing seal?

**Lisa Kleeman** [07:09]

I don't know. I can talk to Justice and find out if it's inner or outer.

**LIFT PRO EQUIP** [07:14]

There's the seal front axle hub, and there is the front axle hub for the outer

**LIFT PRO EQUIP** [07:22]

bearing. I'm

**Lisa Kleeman** [07:24]

I don't know. He said he's got to pull the hub off and that seal. So I don't know.

**LIFT PRO EQUIP** [07:31]

guessing that is that out--

**Lisa Kleeman** [07:35]

I can go ask.

**LIFT PRO EQUIP** [07:35]

That seal. Oh, he's pulling the hub off. I don't know which one comes off of here, \*\*\*\* it.

**Lisa Kleeman** [07:41]

Outer or inner. Okay. I will go ask.

**LIFT PRO EQUIP** [07:47]

Okay. I did just send Adam this breakdown. You want me to send it to you and then you can show him?

**Lisa Kleeman** [07:53]

It's probably what's been printed that I stuck up on the file cabinet because I'm tired of...

**Lisa Kleeman** [08:00]

RUNNING EVERYBODY THEIR STUFF OFF OF THE PRINTER.

**LIFT PRO EQUIP** [08:04]

Oh.

**Lisa Kleeman** [08:08]

DON'T WORRY, HE'S BEEN MAD AT ME ANYWAYS ALL MORNING BECAUSE I'VE ACTUALLY MADE HIM DO HIS JOB. SO, WHATEVER. I DON'T REALLY CARE. YEAH. DO YOU HAVE THE INVOICE FOR THAT BUZZER I ORDERED FROM YOU? I KNOW, I SENT YOU AN EMAIL.

**LIFT PRO EQUIP** [08:15]

I hate when that happens. Okay. Well, I will write...

**LIFT PRO EQUIP** [08:23]

No, I haven't even gotten to it yet. Like I said, it's been a \*\*\*\* show here this morning. I'll get it to you as quickly as I can.

**Lisa Kleeman** [08:30]

ME TOO.

**Lisa Kleeman** [08:34]

OKAY.

**LIFT PRO EQUIP** [08:36]

All right. Okay. So there is that one. Oh, that is the same one there. Wait a minute. Wait a minute. Maybe there is only one seal here, front hub seal.

**LIFT PRO EQUIP** [08:50]

So he's got to pull a hub. It's got to be that one.

**LIFT PRO EQUIP** [08:53]

It's got to be that one.

**LIFT PRO EQUIP** [08:59]

But

**Lisa Kleeman** [08:59]

I can go out and ask him if it's in or out or.

**LIFT PRO EQUIP** [09:02]

it's not the Axel CLO.

**Lisa Kleeman** [09:05]

Oh, he just told me he needed a drive axle seal.

**LIFT PRO EQUIP** [09:12]

Okay. I'm going to send you this picture.

**LIFT PRO EQUIP** [09:17]

And have you... I'm going to email us right back to you. Reply all...

**LIFT PRO EQUIP** [09:26]

Attach that, hook that up. Drive axle hubs. There you go. There. Now that should be coming to you.

**LIFT PRO EQUIP** [09:40]

Sorry I'm being such a pain.

**Lisa Kleeman** [09:42]

Oh, no, you're fine.

**LIFT PRO EQUIP** [09:45]

Yeah, there it is. So it's either 41, I'm thinking it's 41A or

**LIFT PRO EQUIP** [09:51]

41C, one of those two.

**LIFT PRO EQUIP** [09:57]

So yeah, there's your list.

**Lisa Kleeman** [09:59]

I

**Lisa Kleeman** [10:01]

will find out. All right. Thank you. Bye.

**LIFT PRO EQUIP** [10:03]

Okay, sounds good. Okay, thanks. Yep, bye-bye.

CALL 131 OF 611

## Inbound call from A D M WEEKDAYS

May 04, 2026 | 08:37 PM | Duration: 2m 49s | From: A D M WEEKDAYS | To: +14024731031

Inbound

Neutral

### AI SUMMARY

Tim from ADM contacted Victoria Bauer (Customer Service Representative, Ryan Equipment) to inquire about the status of a delayed oil pressure switch for their forklift.

### FULL TRANSCRIPT

**A D M WEEKDAYS** [00:00]

This call is being recorded.

**Victoria Bauer** [00:03]

Ryan Equipment, this is Victoria.

**A D M WEEKDAYS** [00:07]

Hi, Victoria. This is Tim with ADM. You're here in Lincoln? Yes. I'm in the COGEN department. Well, I was calling for an update on our forklift.

**Victoria Bauer** [00:12]

Tim with ADM. Which ADM would you be with?

**Victoria Bauer** [00:18]

In the COGEN, okay. What can I help you with?

**A D M WEEKDAYS** [00:26]

We were waiting for a oil pressure switch for that one. That was scheduled to, I think, arrive last Wednesday or Thursday, and we

**Victoria Bauer** [00:28]

An

**Victoria Bauer** [00:31]

oil pressure switch, okay.

**A D M WEEKDAYS** [00:43]

haven't seen anyone yet.

**Victoria Bauer** [00:45]

Okay. Let me get onto that screen quick and see where we're at on those.

**A D M WEEKDAYS** [00:55]

I think it was Justin that was going to...

**Victoria Bauer** [00:57]

Yep.

**Victoria Bauer** [01:08]

It's on your DP30K.

**A D M WEEKDAYS** [01:11]

Yeah. Yep.

**Victoria Bauer** [01:12]

Okay. Hang on.

**Victoria Bauer** [01:19]

Chris called in.

**Victoria Bauer** [01:22]

All right. Okay.

**A D M WEEKDAYS** [01:22]

Yeah, Chris, I think you've been talking to Chris.

**Victoria Bauer** [01:36]

Okay. Did that oil pressure sensor for Justin come in? I

**A D M WEEKDAYS** [01:41]

Yeah.

**Victoria Bauer** [01:45]

am told that that was installed last Thursday. Oh, it is done, I am told.

**A D M WEEKDAYS** [01:56]

Okay. I mean, no one here saw ITEC and no one talked to anyone.

**Victoria Bauer** [01:57]

Hang on here. Well, he let someone know. Let me do this. Let me follow up with Justin and I'll call you back. What's a good number, Tim? I can call you at?

**A D M WEEKDAYS** [02:06]

If you can call me today because we have a need for that lift. And if it's done, we would use it.

**Victoria Bauer** [02:12]

Okay.

**Victoria Bauer** [02:16]

Okay.

**A D M WEEKDAYS** [02:18]

It's 4:02.

**Victoria Bauer** [02:19]

I need to call, Jen. Okay, 402-465-477.

**Victoria Bauer** [02:26]

3-2-6-1. Give me a few minutes. I'll try to call him. He's out in the field.

**A D M WEEKDAYS** [02:29]

465-3261. OK. All right. Thanks. Yep. Bye.

**Victoria Bauer** [02:33]

All righty. You bet.

## Inbound call from KRIDER AUDIE

May 04, 2026 | 08:19 PM | Duration: 0m 59s | From: KRIDER AUDIE | To: +18162877013

Positive

### AI SUMMARY

KRIDER AUDIE from RP Lumber inquired about the arrival of a team member, and Miguel Rivera Padilla from Ryan Equipment confirmed that Robert was en route to Chillicoppy, ensuring timely assistance.

### FULL TRANSCRIPT

**KRIDER AUDIE** [00:00]

This call is being recorded.

**KRIDER AUDIE** [00:03]

Hey, Miguel, this is Gene over at RP Lumber and Chillicoppy.

**Miguel Rivera Padilla** [00:03]

Ryan Equipment, this is Miguel. Can I help you?

**Miguel Rivera Padilla** [00:10]

Yes, sir.

**KRIDER AUDIE** [00:11]

How's it going?

**Miguel Rivera Padilla** [00:12]

It's going, sir. How about you?

**KRIDER AUDIE** [00:14]

Good, good. Hey, was you able to find anything out about sending someone over to Chillicoppy?

**Miguel Rivera Padilla** [00:19]

Yes, sir. Robert should be either almost about to get there or on his way.

**KRIDER AUDIE** [00:24]

Perfect, perfect, perfect. All right. He's coming tonight, though.

**Miguel Rivera Padilla** [00:27]

Yes, sir. He's actually on his way over there. He left like about probably an hour ago or so.

**KRIDER AUDIE** [00:32]

All right. Perfect. Okay. I just got back to the store and I just wanted to double check. Awesome. Thanks, Miguel. All right.

**Miguel Rivera Padilla** [00:40]

Yes, sir. Yes, sir. No problem. Yes, sir. No problem. Have a good one, sir. Okay. Bye.

## Inbound call from WIRELESS CALLER

Inbound

Positive

### AI SUMMARY

Matt (Customer, Caller) reached out to Darin (Sales rep) regarding the shipment of a pack rat WeatherTech box, and Darin confirmed that it would be sent out the next day while discussing the shipping process.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Darin Leick** [00:03]

Ryan Equipment, this is Darin.

**WIRELESS CALLER** [00:05]

Hey, Darin, this is Matt with Rion Equipment and Gillette. How you doing?

**Darin Leick** [00:09]

Not too bad. What can I do for you? Yes, sir.

**WIRELESS CALLER** [00:11]

Good. Hey, are you, you're in Fargo,

**WIRELESS CALLER** [00:16]

right? Perfect. Hey, I was just talking to Kevin. I guess you guys are sending me that pack rat of yours.

**Darin Leick** [00:23]

Send in the what?

**WIRELESS CALLER** [00:26]

It's a pack rat, like a, it's a big WeatherTech box.

**Darin Leick** [00:33]

Hmm.

**WIRELESS CALLER** [00:33]

He, yeah, I guess, I guess just an extra one sitting on your shelf. It's a, it should be like a white metal,

**Darin Leick** [00:39]

Oh, why? Oh, okay, sure. Yeah. No, now I'm tracking with you, Matt. Yeah.

**WIRELESS CALLER** [00:43]

Okay. Yep. Sounds good. So I was wondering, do you need anything from me to get it shipped out? Do you need a label or are you guys... Okay.

**Darin Leick** [00:51]

No, I'll just go through the ecosystem. Obviously, it's got to be shipped via truck. So, yeah, I'll just go through the ecosystem, then it just gets centrally built through. Yeah, I think Brandon handles all that. So, if I...

**WIRELESS CALLER** [01:00]

Right. Yep.

**WIRELESS CALLER** [01:08]

Yep. Perfect.

**WIRELESS CALLER** [01:10]

Yeah, that'd be...

**Darin Leick** [01:12]

Hear differently, I'll get with you.

**WIRELESS CALLER** [01:16]

Sounds good. Yeah. Do you think you'll get that out tomorrow or...

**Darin Leick** [01:18]

Yeah, I should be able to get it out tomorrow. Alright, you bet, not a problem. Yep, bye.

**WIRELESS CALLER** [01:23]

Okay, sounds good. I sure appreciate it. Thank you.

**WIRELESS CALLER** [01:27]

Take care.

All righty. I'll be there before 4. Thank you. Bye-bye.

**Rachel Quintana** [00:13]

Sounds good. Thanks. Bye.

## Inbound call from T E SVC CO INC

May 04, 2026 | 07:46 PM | Duration: 13m 39s | From: T E SVC CO INC | To: +18162877012

Inbound

Positive

### AI SUMMARY

During the call, Philip Roseboro (Sales Representative, Rion Equipment Parts) engaged with Sean (Sales Representative, T&E;) to address the unavailability of 1,220 solid tires.

### FULL TRANSCRIPT

**T E SVC CO INC** [00:00]

This call is being recorded.

**Philip Roseboro** [00:03]

Rion Equipment Parts. This is Phil. How may I help you?

**T E SVC CO INC** [00:06]

Hey, Philip, this is Sean at T&E. I talked to you a little bit ago.

**Philip Roseboro** [00:10]

Yes, how are you doing?

**T E SVC CO INC** [00:12]

Good. So I figured it was easier to call you back and just go over a couple of things with you over the phone than try to email. I am not locating any availability on 1,220 solids. Nobody seems to have one available right now.

**T E SVC CO INC** [00:31]

With that being said, an alternative option would be, provided you're okay with it, I could quote it out this way, would be to do a 1220 tube type tire and we could just polyfill it. It essentially makes it a solid tire. You don't have to worry about it going flat, picking stuff up or whatnot.

**Philip Roseboro** [00:52]

Right. Yeah, actually, what's on it now is the 1200. They're actually foam-filled as well.

**T E SVC CO INC** [01:00]

Oh, they are?

**Philip Roseboro** [01:00]

Yeah. And I think the reasoning they're wanting solid tires is...

**T E SVC CO INC** [01:02]

Really? Okay.

**Philip Roseboro** [01:07]

Either the weight they're picking up or the type of yard or both, they're bouncing around but it split the tire open and all the foam's coming out.

**Philip Roseboro** [01:17]

So that's why they're trying to go to the solids to see if that makes any difference there.

**T E SVC CO INC** [01:20]

That's interesting.

**T E SVC CO INC** [01:23]

Yeah.

**T E SVC CO INC** [01:30]

Any idea? I mean, I know over time polyfill does break down. You know, it's not a for life type deal, but generally the tread on the tire wears out before the foam breaks down. And that's weird that you've got...

**T E SVC CO INC** [01:44]

Foam actually, polyfill actually coming out of the tire like that. That's crazy. I've never seen that.

**Philip Roseboro** [01:48]

Yeah, because it seems like the tire split open.

**T E SVC CO INC** [01:52]

Okay.

**Philip Roseboro** [01:55]

And I know this is a concrete

**Philip Roseboro** [01:58]

Casting place. I know a lot of the stuff they're picking up is heavy and I'm pretty sure that that area of the lot is dirt. So I'm guessing they're bouncing around all over the place is my guess.

**Philip Roseboro** [02:11]

Okay,

**T E SVC CO INC** [02:11]

Well, our primary vendor that I deal with on solid pneumatic tires doesn't even actually carry or produce a 1220 solid.

**T E SVC CO INC** [02:24]

So I went around to some other checking with some other vendors and I'm finding all kinds of, you know, pneumatic tires, just nothing in a solid. So I don't know if,

**T E SVC CO INC** [02:39]

I was going to say, I don't know if you want to do some calling around and check to see if somebody else comes up with something that I'm not. But like I said, I've checked literally every vendor that we have and nobody has anything in a solid option in that size.

**Philip Roseboro** [02:52]

let me... I'm gonna relay this to you, the guy who's

**Philip Roseboro** [02:59]

Trying to do this for the customer and see what they think. Because I know... Let's see here. I believe this is actually

**Philip Roseboro** [03:12]

a pretty new unit. Let's see. I'm just trying to see. Give me one moment. I just want to see the age of this thing.

**Philip Roseboro** [03:25]

Yeah, because it looks like they've had it about two years.

**Philip Roseboro** [03:30]

Okay. Let me see what we can come up with. Maybe is there something that has...

**Philip Roseboro** [03:38]

Like more plies or something that make it a little bit stronger without, you know, with the foam in it too or?

**T E SVC CO INC** [03:45]

Okay. Well, there definitely is a difference in ply ratings depending upon,

**T E SVC CO INC** [03:53]

you know, what the brand of the tire is that's on there. I think typically, I'm looking right now, what's the ply rating? Typically, those are about a 20...

**T E SVC CO INC** [04:05]

20-24 ply rating tire, which should be more than substantial enough for any kind of weight payload capacity on that. These ones here that I'm looking at that I was going to price out to you and price with the polyfill, they're actually a 24 ply.

**T E SVC CO INC** [04:24]

I mean, unless you've just got some kind of off-the-wall tire on there that's, you know, like a 16 or 18-ply tire that's just not a thick enough, heavy-duty enough tire. I mean, that could potentially be the problem, I guess. But, I mean, anything 20 or above, I would say, is more than sufficient, you know. That's a pretty thick tire.

**Philip Roseboro** [04:42]

Yeah, the only thing I got on, the only information I got on that is it's, you know, the 1200 RT20s and Continental TLs. I mean, that's the only info I got.

**T E SVC CO INC** [04:50]

Mm-hmm.

**T E SVC CO INC** [04:54]

Continental TL. Let me look that up real quick while I got you on the phone.

**Philip Roseboro** [05:02]

But it's not telling me how many plies, things like that. I'm just trying to go off the build sheet of this unit because this is

**T E SVC CO INC** [05:05]

Yeah,

**Philip Roseboro** [05:10]

a forklift. It's got a 36,000 pound capacity.

**T E SVC CO INC** [05:14]

yeah.

**Philip Roseboro** [05:17]

I'll

**T E SVC CO INC** [05:17]

Now I found

**T E SVC CO INC** [05:38]

that. It doesn't give me a point.

**T E SVC CO INC** [05:53]

16,535 pounds. 16,535 pounds.

**Philip Roseboro** [06:33]

see what they can... maybe a

**Philip Roseboro** [06:39]

larger ply tire on that or something.

**T E SVC CO INC** [06:47]

Yeah, from what I'm reading here, it looks like a 24 ply is the most standard ply rating on a tire that size.

**T E SVC CO INC** [06:55]

That's the most common, and especially being that it's a continental, I would certainly think that it would be the higher ply rating.

**Philip Roseboro** [07:09]

Is there any options for like a higher ply

**Philip Roseboro** [07:12]

rating on that?

**T E SVC CO INC** [07:15]

Higher than a 24?

**Philip Roseboro** [07:17]

Yeah.

**T E SVC CO INC** [07:19]

Let's see here.

**T E SVC CO INC** [07:55]

Well, this BKT that I was going to...

**T E SVC CO INC** [08:00]

Price out to you is actually a 28 ply.

**T E SVC CO INC** [08:06]

So it is a higher ply rating.

**Philip Roseboro** [08:10]

And that's that, 1220.

**Philip Roseboro** [08:19]

Okay, do we have anything in the 1200? Just because I know right now they're trying to do, it looks like the left side tires have split. So they're just trying to at least get one side done and then try to transfer them out. So I didn't want to put like two different sized tires on the...

**Philip Roseboro** [08:35]

But I don't know how much that makes a difference on there.

**T E SVC CO INC** [08:43]

What's the other size that is on it?

**Philip Roseboro** [08:45]

Is that 1200? 1200 RT20s?

**T E SVC CO INC** [08:52]

Okay. Yeah, that's what I was looking at here, 12 to 1220.

**Philip Roseboro** [08:56]

Okay. So yeah, so they got the 1200s on there now. And I know they're trying to replace just one, like a left side versus the left and right side. So I didn't know if

**T E SVC CO INC** [09:06]

Mm-hmm.

**Philip Roseboro** [09:08]

That would make a difference, you know, being having one side have 1,200s and the other side have 1,220s on it.

**T E SVC CO INC** [09:17]

So...

**T E SVC CO INC** [09:19]

The 1220 is the overall total size of the tire.

**T E SVC CO INC** [09:27]

There's not just a tire size 1200. It is a 1220.

**Philip Roseboro** [09:37]

Sorry, I'm just going by, you know, the only information, because everything I got just says

**T E SVC CO INC** [09:42]

No.

**Philip Roseboro** [09:43]

1,200 on it, so I didn't know if that would make a difference on it or if they're the same and just...

**T E SVC CO INC** [09:48]

No. So the 20 is the actual wheelbase.

**T E SVC CO INC** [09:54]

The size of the wheelbase and then the 1200 is the overall size of the tire itself.

**T E SVC CO INC** [10:01]

I suppose somebody could refer to it as just a 1200, but it would be a 1220.

**Philip Roseboro** [10:07]

Okay, okay, okay, I see what you're saying. I was thinking it was a...

**T E SVC CO INC** [10:10]

The only difference, the only real difference would be if you're talking difference in tread depth. Like if you're doing one, replacing a tire on one side and not the other,

**T E SVC CO INC** [10:22]

If the other side is worn down considerably, you could have a difference on how it sits because of the difference in tread depth, but overall size of the tire is still the same size.

**Philip Roseboro** [10:28]

Right, right. No, and,

**Philip Roseboro** [10:33]

okay, I think I know where I got confused at because I was thinking, you know, like 1,200,

**Philip Roseboro** [10:41]

then 20 versus a, like, so basically, yeah. Because when you were saying the 1,220, I was just thinking one, you know, the 1,220.

**T E SVC CO INC** [10:44]

Oh,

**T E SVC CO INC** [10:51]

I got you. I got you. Yeah.

**Philip Roseboro** [10:51]

Versus 1, 2, like 1,200, then like the 20 for the tire. You know what I mean? So that's where I was confused. I apologize about that. Okay, so yeah, they would be the same size.

**T E SVC CO INC** [10:59]

No, you're good, buddy.

**T E SVC CO INC** [11:04]

Yeah. And I've got, so this 28-ply tire that I was actually going to quote out to you, it's a BKT brand, which I don't know if you've heard of them before or not, but we sell a lot of them across the board, not so much on the industrial side, but for sure on the

**Philip Roseboro** [11:05]

Okay.

**T E SVC CO INC** [11:20]

The agricultural side, they make a good product. It's a really good quality tire. Actually, considerably inexpensive compared to a Continental or something along that line, but definitely this particular one for sure has got a higher ply rating to it, so it's certainly going to hold more

**T E SVC CO INC** [11:43]

And more payload capacity to it, which I think that mixed with the polyfill would probably do just fine for you. I mean, we do a lot of polyfill and I hardly ever, I don't even know that I ever have had anybody call back and say, hey, this tire split open or, you know, came apart or broke down or whatever the case may be.

**T E SVC CO INC** [12:05]

A lot of times, like I said, polyfill does break down over time, but a lot of times by the time you get to that point, the tread is already worn out anyways, and so it warrants a replacement of the tire by the time you get to that point. And if it breaks down before that, then there was probably an underlying issue with the way it was filled. They probably ended up with excessive air bubbles or pockets in the foam when they filled it.

**T E SVC CO INC** [12:28]

And that's probably what caused the breakdown. But just an option for you. I didn't want to come back empty handed and not have something to offer to you. But okay,

**Philip Roseboro** [12:37]

Yeah, no, if you can quote that out for me, that'd be amazing.

**T E SVC CO INC** [12:41]

yeah. I will, I've got some numbers here.

**Philip Roseboro** [12:43]

And then I'll present them and say, hey, there is no solid tire available for it.

**T E SVC CO INC** [12:50]

Okay. That'll work. I've got some numbers here initially. I'll get everything put into a quote and get it emailed over to you here just shortly.

**Philip Roseboro** [12:58]

Perfect. I appreciate that.

**T E SVC CO INC** [13:00]

Okay. Yes, sir. Thank you.

**Philip Roseboro** [13:01]

All right. Thank you. Bye.

CALL 136 OF 611

**Inbound call from LOUISVILLE NE**

AI SUMMARY

During the call, Luke asked Rodney (Representative, Ryan Equipment) for help in ordering shuttle wagon parts, particularly an air check valve.

FULL TRANSCRIPT

**LOUISVILLE NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Ryan Equipment, this rod.

**LOUISVILLE NE** [00:06]

Hey, Rod, this is Luke.

**Rodney Meier** [00:08]

Yes,

**LOUISVILLE NE** [00:10]

Could you order me some shuttle wagon parts?

**Rodney Meier** [00:15]

sir. Can I? - Sure.

**LOUISVILLE NE** [00:17]

Will I?

**LOUISVILLE NE** [00:20]

Maybe. That's 7035 at ADM. I don't have a service call on me on hand,

**Rodney Meier** [00:30]

- I can find it, not a problem.

**LOUISVILLE NE** [00:32]

but I do have the serial number.

**Rodney Meier** [00:35]

Is that the one that gets the compressor?

**LOUISVILLE NE** [00:37]

Yeah, I need an air check valve.

**LOUISVILLE NE** [00:42]

That is on the backside of the dryer tank.

**Rodney Meier** [00:48]

Oh, you don't have a number?

**LOUISVILLE NE** [00:48]

I don't... I do not have a number. I was trying to find

**Rodney Meier** [00:52]

You

**LOUISVILLE NE** [00:53]

my account, but I can't remember how to get back to that.

**Rodney Meier** [00:57]

might wanna have Charlie look it up. He could find it a lot faster than I can.

**Rodney Meier** [01:03]

Otherwise, I usually just send an email down to Shuttlewagon themselves.

**Rodney Meier** [01:08]

I have trouble negotiating the shuttle wagon parts manuals.

**Rodney Meier** [01:14]

I'll be honest with you. I'll be honest with you. I hate them.

**LOUISVILLE NE** [01:20]

Do you know what the website is to get on there?

**Rodney Meier** [01:23]

No, because it's tied into my frickin' desktop. Give me a second here.

**Rodney Meier** [01:36]

Mine actually is under 80.

**Rodney Meier** [01:39]

Oh, nope, that ain't the one either.

**Rodney Meier** [01:45]

Mine's under new internet shortcut.

**Rodney Meier** [01:49]

I actually have a login. I don't have a website.

**LOUISVILLE NE** [01:56]

See, that's what I thought I had, but I don't remember where it's at. I'm going to have to go into Barracuda.

**Rodney Meier** [02:00]

Because mine's under, my desktop says new internet shortcut and that goes to shuttle wagon parts.

**LOUISVILLE NE** [02:07]

Oh, gotcha. Okay.

**Rodney Meier** [02:12]

But yeah, if you're looking for

**Rodney Meier** [02:15]

Parts, I really don't negotiate it very well, I'll be honest. Usually I get a hold of Charlie for that.

**Rodney Meier** [02:32]

You probably have a better chance of getting a lot faster from him or even sending an email down. If you wanted to send an email to Shuttlewagon, you could if you're looking for part numbers.

**LOUISVILLE NE** [02:45]

Okay. Okay, I'll see what it's found and then I'll let you know.

**Rodney Meier** [02:49]

Because, I mean, if you send an email down to shuttlewagonparts

**Rodney Meier** [02:58]

at Wabtec, just give them the model and serial number, tell them what you're looking for, they'll give you part numbers.

**Rodney Meier** [03:07]

But, yeah, to be honest, I'm not very good at it. It would take me too long to find them. You can find them somewhere else faster.

**LOUISVILLE NE** [03:15]

Okay, sounds good.

**Rodney Meier** [03:16]

Okay?

**Rodney Meier** [03:18]

All right, you bet. Bye.

### AI SUMMARY

Chris from Southern Service reached out to Adam Ratcliff at Ryan Equipment to check on a specific stock order.

FULL TRANSCRIPT

**SUDDEN SERVICE** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:04]

Thank you for calling Ryan Equipment. This is Adam. How can I help you?

**SUDDEN SERVICE** [00:08]

Hi, Adam. This is Chris from Southern Service. How are

**Adam Ratcliff** [00:10]

Good, man. How are you doing?

**SUDDEN SERVICE** [00:12]

you? Good, man. I want to check an order with you. We had a stock order come in. Stock order was submitted on 75426665.

**SUDDEN SERVICE** [00:26]

And on this order,

**SUDDEN SERVICE** [00:29]

there is part number I-017-9582.

**Adam Ratcliff** [00:35]

Okay.

**SUDDEN SERVICE** [00:37]

It's an interrail.

**SUDDEN SERVICE** [00:39]

So we typically don't sell these parts. So, I mean, of course, our machine shop, one of them in college, basically, was not ordered by mistake because we cannot take these parts back in the case that they, you know, want to return these.

**Adam Ratcliff** [00:53]

Okay. Let me punch it in and see what you got going on

**Adam Ratcliff** [01:08]

here.

**Adam Ratcliff** [01:11]

Okay.

**Adam Ratcliff** [01:20]

What is it?

**SUDDEN SERVICE** [01:25]

It's an inner rail bar, right-hand inner rail bar.

**SUDDEN SERVICE** [01:31]

I mean, I got you guys a PO number if you need it.

**Adam Ratcliff** [01:36]

Matt, weren't you dealing with this part number last week doing that stock order?

**Adam Ratcliff** [01:43]

And it was, they don't normally sell them. So Chris just wanted to make sure we really want that.

**Adam Ratcliff** [01:52]

I will send

**Adam Ratcliff** [02:01]

this right over to you. I don't want to. Thank you.

**Adam Ratcliff** [02:15]

Well, I sent him an email. Hold on. Let me make sure what that will do.

**Adam Ratcliff** [02:21]

What's the DO, Chris?

**SUDDEN SERVICE** [02:25]

The PO is PU1141899.

**Adam Ratcliff** [02:31]

What? Hold on. This inner rail, what's that last word? Bar. Hold on, let me look.

**Adam Ratcliff** [02:47]

I'm

**Adam Ratcliff** [03:08]

looking for 9582.

**Adam Ratcliff** [03:23]

So I'm just like, I don't have... There's a chance I fat fingered that. Is it for quantity four or two?

**SUDDEN SERVICE** [03:33]

I'm not sure what the quantity is. Let me go check.

**Adam Ratcliff** [03:37]

Let me look. Hold on. I'm thinking I fat fingered the last number there. Let me check.

**Adam Ratcliff** [03:45]

Oh, don't worry. I just got authenticated again. Come on.

**SUDDEN SERVICE** [03:49]

Yes, for quantity four.

**Adam Ratcliff** [03:51]

It was for quantity four. Okay. I think that's the one.

**Adam Ratcliff** [04:00]

But I meant it to be... Hold

**Adam Ratcliff** [04:03]

on. Hey, Chris. Is there a...

**SUDDEN SERVICE** [04:07]

Yes, sir.

**Adam Ratcliff** [04:08]

I owe 179581 on that order. There's

**SUDDEN SERVICE** [04:15]

It is.

**Adam Ratcliff** [04:19]

81 and 82.

**Adam Ratcliff** [04:28]

Yeah, I got a feeling that

**Adam Ratcliff** [04:38]

9582 is not on our field.

**Adam Ratcliff** [04:42]

It's not on there, but I did have it on the . So it's like a weldment bar? Yeah,

**SUDDEN SERVICE** [04:56]

Yeah.

**Adam Ratcliff** [05:00]

I don't need that.

**SUDDEN SERVICE** [05:03]

Okay.

**Adam Ratcliff** [05:04]

We'll figure out what the heck it was supposed to be, but yeah, I don't need a weldment bar. Okay.

**SUDDEN SERVICE** [05:11]

All right. Okay. We'll get it removed from that order.

**Adam Ratcliff** [05:14]

Okay, thank you, sir. Thanks,

**SUDDEN SERVICE** [05:17]

All right. Bye.

**Adam Ratcliff** [05:17]

Chris.

### AI SUMMARY

The conversation between Rodney Meier (Company Representative) and the customer opened with a casual exchange, where the customer recounted a painful incident involving a lawnmower.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Hi, Dan.

**OMAHA NE** [00:06]

Hey, Rod, how's it going?

**Rodney Meier** [00:07]

Good, how are you?

**OMAHA NE** [00:09]

Oh, been doing better. Tried cutting my finger off, tipping my finger off yesterday.

**Rodney Meier** [00:15]

Uh-oh.

**OMAHA NE** [00:16]

Yeah, I was a \*\*\*\*\* dumbass.

**Rodney Meier** [00:17]

Good?

**Rodney Meier** [00:20]

Oh, well, it happens.

**OMAHA NE** [00:23]

So my lawnmowers have a blade break. They're a John Deere mower, and they got a blade break. So you let go of the handle, the engine stays running.

**Rodney Meier** [00:29]

Right.

**OMAHA NE** [00:32]

And the blade stops. Well, I bought a new-to-me mower from a junkyard, from a \*\*\*\* shop, and I went to start it yesterday, and \*\*\*\*, one pole, I bought it for 50 bucks. One pole, she started running great. All right, so cool, I got a decent mower. So I'm over there, and I'm going to go, you know, it's adjusted too high, so I want to adjust it down a little bit. So I reached around to the front.

**Rodney Meier** [00:39]

Uh-huh.

**OMAHA NE** [00:58]

I lowered the left hand wheel, I went around to the right hand side, and I, like I said, I do it all the time because the engine runs, the blades don't run. I put my hand by the deck underneath there, the \*\*\*\*\* blades run. And I grind off the entire meaty pad of my flip off finger on my left hand.

**Rodney Meier** [01:10]

Oh, \*\*\*\*. Oh, \*\*\*\*.

**Rodney Meier** [01:19]

Oh, Jesus.

**OMAHA NE** [01:21]

Yeah, yeah. So she's kind of tender today. It didn't get to the bone, but it got a lot of the meat off of it.

**Rodney Meier** [01:24]

Wow.

**Rodney Meier** [01:29]

Oh, \*\*\*\*. And it's sore as \*\*\*\*, too. Everything you try and do.

**OMAHA NE** [01:30]

So, yeah. Oh, yeah. You touch something or you actually go to stretch to reach for something, and then that stretching also pulls on it, too. Oh, well. No big deal, \*\*\*\* it. I live and learn. I won't do that again.

**Rodney Meier** [01:41]

Oh, God.

**Rodney Meier** [01:46]

Yeah. Well, hopefully not.

**OMAHA NE** [01:50]

Yeah, like I said, right or wrong, you're not supposed to do it, but I do it online all the time just for the fact of, you know, well, I don't necessarily reach over there either all the time, but, you know, but, yeah, it just so happens that the blade break is rusted up to where it stays engaged. So, and I...

**Rodney Meier** [02:03]

Right.

**Rodney Meier** [02:10]

Oh, boy.

**OMAHA NE** [02:11]

And I should have known by the way it sounded that the blade was running, but I didn't even pay attention to that.

**Rodney Meier** [02:18]

Ah, you were focused on other \*\*\*\*.

**OMAHA NE** [02:20]

Yeah, trying to get more \*\*\*\* done in the short amount of time I got to do. So, yeah. So, I \*\*\*\*\* that up, didn't I?

**Rodney Meier** [02:23]

Yeah.

**Rodney Meier** [02:25]

Yeah, there you go.

**Rodney Meier** [02:29]

Yeah, well, you'll get over it. You're wiser now.

**OMAHA NE** [02:32]

Yeah, yeah, I don't know about that. I don't know about that. But, so, yep.

**Rodney Meier** [02:35]

Yep, you're just wiser now.

**OMAHA NE** [02:41]

Okay, anyway, I just sent off a service call for fixing red lights and then for a horn. On those ProMatch red lights, is there any way of just getting the wire harness also?

**OMAHA NE** [02:56]

Because a lot of what they do is they rip the harness right out of the back of the plug and you can't repair it then.

**Rodney Meier** [03:01]

Right.

**Rodney Meier** [03:03]

I don't think there is.

**Rodney Meier** [03:11]

The only other possibility...

**Rodney Meier** [03:18]

Because I say that the harness is attached to the light,

**OMAHA NE** [03:22]

Yeah, the harness actually plugs into the back of the light. Yeah, and...

**Rodney Meier** [03:27]

but when you order the light, the harness doesn't come with

**OMAHA NE** [03:29]

Yes, it does.

**Rodney Meier** [03:31]

it. It does.

**OMAHA NE** [03:35]

Yeah. Yeah, the red-black wire harness comes with it.

**OMAHA NE** [03:41]

I'm actually opening up one now.

**OMAHA NE** [03:44]

I mean, if not, no big deal. We'd just order another set of lights. And a lot of times they break the light and the wire. This time they just broke the wire.

**Rodney Meier** [03:56]

Okay. It does not show one

**OMAHA NE** [03:58]

OK.

**Rodney Meier** [04:02]

with the light.

**OMAHA NE** [04:10]

Well, Dustin's got a bunch of wiring connections here. Maybe I can get this apart and actually fix it. But for now, I'm putting two lights on it just because that's what I've got for now.

**Rodney Meier** [04:11]

I was thinking that.

**Rodney Meier** [04:18]

Sure. Yeah. Well, is it simpler just to do that or is it a pain in the \*\*\* to do the harness?

**OMAHA NE** [04:27]

Well, if you haven't done a lot of them, it's kind of a pain in the \*\*\*. But like I said, what I'll do is I'll get the lights fixed, and then we'll get two new lights to replace it, and then I'll see if I can't fix the harnesses I got for backup when they do it. Because normally they break the lights too.

**Rodney Meier** [04:32]

Okay.

**Rodney Meier** [04:43]

Okay. Yeah. Yeah. Because they hang out around the edge and they just catch them on \*\*\*\*.

**OMAHA NE** [04:43]

You know, so this time, yeah, yeah, this time they just turned them and ripped the wires out of the plugs. Well,

**Rodney Meier** [04:51]

Huh. Wonderful.

**OMAHA NE** [04:53]

at least the one I'm looking at, the other one could be \*\*\*\*\* up too, I don't know. Actually, yeah, they screwed the plug completely up on that one.

**Rodney Meier** [04:58]

Yeah.

**Rodney Meier** [05:02]

Oh,

**OMAHA NE** [05:03]

So I won't be able to fix that one, but yeah, so...

**Rodney Meier** [05:05]

wow. Sure.

**OMAHA NE** [05:06]

I was just trying to see if they're in the future if I had plugs or is it easier to change than the plugs out.

**Rodney Meier** [05:12]

Sure. No.

**Rodney Meier** [05:13]

I was thinking that light was available from TVH, but it's not. That was a different light. I just got a bunch of lights for the rental department to put on machines, only they were different lights. They were only like, I thought they were the same, but they're not. They were only like 80 bucks a piece instead of 200 and something. And I thought, well, if we could do that, it might be cheaper to do the light, but it's not.

**OMAHA NE** [05:31]

Yeah, and see these are,

**OMAHA NE** [05:36]

I did, okay, that one, that rental that we had down here and then we sent back and then I had to get sent back to us. That one had red lights on it, but that one had only lights that were only probably two inches long.

**OMAHA NE** [05:50]

These lights here are probably like four or five inches long. So these are a bigger light altogether. Actually, sorry, these are six inches long by two inches wide, where the other ones were like maybe three by two

**Rodney Meier** [05:50]

Yeah. Yeah.

**Rodney Meier** [05:55]

- Right,

**Rodney Meier** [06:05]

right. Sure,

**OMAHA NE** [06:06]

that I've seen on the rental ones. And then those are kind of hose clamp to the underside of the headrest.

**OMAHA NE** [06:15]

So, but no, I was just curious if it was possible if the harness was available or not, you know, okay.

**Rodney Meier** [06:23]

sure. They don't show it separately, but I thought maybe there'd be an after. There isn't any other cross-references to go to.

**OMAHA NE** [06:35]

And on that horn, did Dusty ever keep any of those on hand? I'm still not finding everything he had in there.

**Rodney Meier** [06:39]

I don't think he did.

**OMAHA NE** [06:42]

Okay. Because this one's in the rendering department and it's full of, it's still onks.

**OMAHA NE** [06:49]

But it's full of, they must have washed it and got a bunch of fat and lard and grease and everything in it. And it's just kind of sound rawr. It's not, you know. I'm going to try, yeah, I'm going to try to clean what I can, but otherwise that's why I'm going to order a horn anyway. Okay.

**Rodney Meier** [06:52]

Sure,

**Rodney Meier** [06:57]

sure. Yep, it's muffled quite heavily.

**Rodney Meier** [07:05]

Yeah, well, Omaha has one, so I'm just doing an order here right now. She's got your call opened up already. So I will get those on ASAP for tomorrow, and we should be okay.

**OMAHA NE** [07:16]

That'll work.

**OMAHA NE** [07:19]

And then as soon as I get the one set of forks,

**OMAHA NE** [07:23]

Welded together, then I'm gonna order another set of forks because this one was on 21. The ones I ordered last time are for 22. For 21, they're ground off on the bottom too, so I'm gonna have to change them out next time. So just putting a

bug in here. I don't need them now, but I'll get them in the next. As soon as I get that set done, then I'll order another set.

**Rodney Meier** [07:37]

Sure,

**Rodney Meier** [07:47]

sure, sure. Nope, that'll be fine. Must have another horn ordered somewhere.

**OMAHA NE** [07:48]

So, okay.

**Rodney Meier** [07:55]

Omaha has one because it just looked, but something's holding it up. I'll get it. They should both be there on ASAP tomorrow.

**OMAHA NE** [08:04]

Okay, that'll work.

**OMAHA NE** [08:07]

Cool, thanks,

**Rodney Meier** [08:08]

You betcha. Talk to you later.

**OMAHA NE** [08:09]

Rob. Oh, actually, yeah, I did have one other question. That battery door latch, was that, did I get that or is that coming yet?

**Rodney Meier** [08:18]

Yeah.

**Rodney Meier** [08:22]

I believe,

**OMAHA NE** [08:22]

Not the spring, but the latch.

**Rodney Meier** [08:25]

didn't we, because did I order four of those? Because I was thinking they were on back order.

**OMAHA NE** [08:31]

Oh, okay.

**Rodney Meier** [08:31]

Give me a second here. Yeah, they're on back order till 526, end of the month.

**OMAHA NE** [08:33]

That would have been what?

**OMAHA NE** [08:38]

End of the month, okay. I did save the other one. Okay, I did save the one I took out just for the fact of it still works good enough in case, you know, because if those doors pop open, it shuts the truck off. And this way, even if it doesn't work the greatest, it'll still keep the door shut so you can be able to drive the truck. So, okay.

**Rodney Meier** [08:39]

Yep, I have four of them on order.

**Rodney Meier** [08:59]

Sure, sure. Okay. Yep, nope, looks like, yeah, the end, 526 are showing, so right after Memorial Day.

**OMAHA NE** [09:08]

Okay. Like I said, I don't think I need another one, but I've got the one coarse thread one here, plus I've got two fine thread ones, which I don't know why they don't use the same one. They've got to do two different ones.

**OMAHA NE** [09:22]

They're the same latch, same everything, other than there's different thread size.

**OMAHA NE** [09:28]

So, but anyway.

**Rodney Meier** [09:30]

All right, sounds good.

**OMAHA NE** [09:31]

Cool. Thank you. Yep. Yep. Bye.

**Rodney Meier** [09:33]

You bet. Thank you. Bye.

---

CALL 139 OF 611

## Inbound call from FAULKNER ARCHIE

May 04, 2026 | 06:37 PM | Duration: 1m 57s | From: FAULKNER ARCHIE | To: +13098657202

Inbound

Positive

### AI SUMMARY

The conversation involved Archie (Customer) placing an order for specific equipment parts due to corrosion issues, while Jesse Downey (Parts Equipment Supplier) confirmed the order and previous shipments.

### FULL TRANSCRIPT

**FAULKNER ARCHIE** [00:00]

This call is being recorded.

**FAULKNER ARCHIE** [00:03]

Archie, bad penny, you can't get rid of me today.

**Jesse Downey** [00:04]

All right, equipment, Jesse and Parts.

**Jesse Downey** [00:10]

What's going on?

**FAULKNER ARCHIE** [00:13]

So, alcohol shuttle wagon. I need to order another one of those hot water valves.

**FAULKNER ARCHIE** [00:24]

And I also need to order a right-hand steer cylinder that has the straight-ahead switch on it.

**Jesse Downey** [00:33]

Oh, OK.

**FAULKNER ARCHIE** [00:35]

The whole complete thing with a switch. If it doesn't have a switch, I need a switch as well.

**Jesse Downey** [00:43]

Yeah, I think only--

**FAULKNER ARCHIE** [00:43]

Where that switch screws up into the cylinder,

**FAULKNER ARCHIE** [00:49]

because it's a dual-shaped cylinder, is chock full of rust. That shaft is all rusty.

**Jesse Downey** [00:57]

oh, no.

**FAULKNER ARCHIE** [01:00]

Seen it before. It's the second or third time I've had that over here.

**Jesse Downey** [01:05]

Now all the corrosive environment it's in.

**Jesse Downey** [01:10]

I'm sorry, you said this was lit department alcohol?

**FAULKNER ARCHIE** [01:13]

Yep. Alcohol.

**Jesse Downey** [01:14]

OK.

**Jesse Downey** [01:18]

Alright, one of the water valves and the steering cylinder with the sensor built into it. Alright, I did get another master cylinder and that valve overnighted to you. So you should see it. You're welcome.

**FAULKNER ARCHIE** [01:23]

Yep.

**FAULKNER ARCHIE** [01:31]

Yep.

**FAULKNER ARCHIE** [01:33]

All right, thank you.

**FAULKNER ARCHIE** [01:36]

All right.

**Jesse Downey** [01:37]

Oh, yeah, could you send the other one back to me when you get a chance?

**FAULKNER ARCHIE** [01:41]

And it will do.

**FAULKNER ARCHIE** [01:44]

It sure will. You bet,

**Jesse Downey** [01:46]

You're welcome. Bye-bye.

**FAULKNER ARCHIE** [01:48]

thanks. Bye.

## Inbound call from FOWLER LARRY

### AI SUMMARY

Larry Fowler (Customer) called to follow up on a previous inquiry about a centrifugal belt for a forklift.

### FULL TRANSCRIPT

**FOWLER LARRY** [00:00]

This call is being recorded.

**Philip Roseboro** [00:03]

Ryan Equipment and Parts. This is Phil. How may I help you? Hello, sir. How are you doing?

**FOWLER LARRY** [00:07]

Hey, this is Larry Fowler. I'm assuming someone from the parts department called and I missed the call.

**Philip Roseboro** [00:15]

Yes, sir. That was me. I believe you called earlier today.

**FOWLER LARRY** [00:22]

Yep, I did. About a centrifugal belt.

**Philip Roseboro** [00:23]

I'm just returning your call.

**FOWLER LARRY** [00:27]

Somebody wrote down all that information for you. You have that information?

**Philip Roseboro** [00:33]

I do, but some of that information is not pulling up, so I'm trying to figure out the best thing that we need here.

**FOWLER LARRY** [00:38]

Yeah, because I'm not at my parts book now, so maybe I can walk you through what we need,

**Philip Roseboro** [00:46]

Yeah, and you said this is a Moffitt?

**FOWLER LARRY** [00:50]

maybe. It's a what?

**Philip Roseboro** [00:51]

What's the brand of the unit?

**FOWLER LARRY** [00:55]

Oh, \*\*\*\*.

**FOWLER LARRY** [00:59]

Blue. Uh,

**FOWLER LARRY** [01:02]

you know, my, it's on the dash, my pickup, I could call you back in a minute. What's my options? Give me my options of what it is.

**Philip Roseboro** [01:09]

Oh, it could be a lot of things. Is it a truck-mounted unit or is it an actual forklift?

**FOWLER LARRY** [01:15]

No, it's an actual forklift. It's one of them tricycle deals that they hang on the back of the trucks.

**Philip Roseboro** [01:21]

Okay, yeah, so that'd be one of our truck-mounted ones. So that's probably, I mean, there's Moffitt, there's Princeton, there's...

**Philip Roseboro** [01:28]

Oh man, there's a bunch of them.

**FOWLER LARRY** [01:34]

Well, let me, let me, it's blue. Did I give you anything?

**Philip Roseboro** [01:39]

I know most of the Princeton's are blue. I just don't know if there's any other manufacturers that would have that as well.

**FOWLER LARRY** [01:47]

Well, let me, uh, let me call the boys at the shop and then I can, but I, so I give you the serial number and all that, but you just don't know the brand name.

**Philip Roseboro** [01:58]

Well, the serial number is not pulling up on my end. And it's not necessarily that it's just more of sometimes certain older units that

**Philip Roseboro** [02:10]

I don't have access to and I'd have to call into the manufacturer but I just want to make sure because sometimes I can break it down by the model number but I'm not seeing that model number listed either.

**FOWLER LARRY** [02:24]

Well, you got my serial number and the one right above it was the model number, uh,

**Philip Roseboro** [02:29]

Right and I'm not seeing that model number come up.

**FOWLER LARRY** [02:34]

Well, the guy I talked to earlier, he wrote all that down. Did he give you that paper?

**Philip Roseboro** [02:40]

Yes he did.

**FOWLER LARRY** [02:41]

Okay. Well, let me call the boy that's over there at the shop and see if he can get that out of that book or I'll be back there in about an hour and I'll call you back when I get there.

**Philip Roseboro** [02:52]

Okay, and... Or is that truck... Is that unit there, or is it out and about right now?

**FOWLER LARRY** [03:00]

No, it's set over in a barn where we farm. I use it to load chemicals, so it's not even out on the road no more.

**Philip Roseboro** [03:09]

Okay. I was going to say, because a lot of times that... The data plate that's on the unit, that also provides the serial number, things like that.

**FOWLER LARRY** [03:11]

But I'll

**FOWLER LARRY** [03:19]

be back to where the unit is before I get back to the parts book. So when I get to that unit, I will call you.

**Philip Roseboro** [03:26]

Perfect. Yeah, and if you have a...

**FOWLER LARRY** [03:27]

And I'll probably be there in about an hour.

**Philip Roseboro** [03:29]

Okay, and as I say, if you have a way to send me a picture of that data plate, I can give you a cell number and we can send it that way. Sure thing.

**FOWLER LARRY** [03:34]

Yep, yep.

**FOWLER LARRY** [03:37]

Hold on, let me write it down here. Let me get, stop spraying here. And I'll get a number for you and then I'll take whatever picture you want me to take.

**Philip Roseboro** [03:49]

And whenever you're ready, just let me know where.

**FOWLER LARRY** [03:52]

Well, let me find me an ink pen here.

**Philip Roseboro** [03:54]

Yes, sir.

**FOWLER LARRY** [03:59]

All right, fire away.

**Philip Roseboro** [04:00]

Okay, the number you can send me a picture to is 816-

**FOWLER LARRY** [04:05]

Hold on. 816-3098.

**FOWLER LARRY** [04:18]

Okay. I will, I'll be at the unit here. I've got about,

**FOWLER LARRY** [04:23]

40 acres more to spray and I'll be filling up right there by it. And I'll just send you whatever pictures you need me to send you.

**Philip Roseboro** [04:26]

95816-956-3098. Okay, perfect.

**Philip Roseboro** [04:31]

Sounds good. And we'll do everything we can and make sure we get you in the right direction and find the parts. Go from there.

**FOWLER LARRY** [04:35]

Yep, I can take a picture of the motor and everything so you can see what belt I really need.

**Philip Roseboro** [04:39]

Sounds good.

**FOWLER LARRY** [04:40]

Okay, all right, thanks. You bet. Yep, bye.

**Philip Roseboro** [04:42]

You're welcome. You have a good day. Bye.

## Inbound call from WIRELESS CALLER

May 04, 2026 | 05:43 PM | Duration: 2m 39s | From: WIRELESS CALLER | To: +14026440781

Inbound

Positive

### AI SUMMARY

The conversation initiated with a Wireless Caller discussing a missing part number with Rodney Meier.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Yes, sir.

**WIRELESS CALLER** [00:06]

Hey, Rod, how are we doing today?

**Rodney Meier** [00:08]

Good.

**WIRELESS CALLER** [00:09]

Good. Hey, I had sent you an email this morning, or before lunch here, about a part for it's a little bolt, a little shaft is what they called it.

**Rodney Meier** [00:15]

Yeah, it's missing a part number. It's a group because it's not coming up as a good number.

**WIRELESS CALLER** [00:21]

Oh, that's the one that was...

**Rodney Meier** [00:22]

I just sent you an email. What section is it under? I'm trying to find it, but I'm not getting anything to come up. I punched in shaft for it.

**WIRELESS CALLER** [00:29]

It's going to be under the lift load. It's going to be under the fixed parts of the lifting device.

**Rodney Meier** [00:41]

So it was in the math section.

**WIRELESS CALLER** [00:42]

There's like two sections. Yeah, I believe so, yeah. It's in the math section. And it's going to be fixed parts.

**WIRELESS CALLER** [01:00]

I had trouble finding it too.

**Rodney Meier** [01:16]

Oh, you're

**WIRELESS CALLER** [01:30]

It is. Okay, hold on.

**WIRELESS CALLER** [01:33]

It's a whole \*\*\*\*\* thing. That's crazy. So I gave you the part number.

**WIRELESS CALLER** [01:39]

Yeah, it's 340. Part number 51512748.

**Rodney Meier** [01:44]

missing the one.

**WIRELESS CALLER** [01:46]

Oh, \*\*\*\*. I said, did I say 55?

**Rodney Meier** [01:50]

No, a 515, you said 51512748.

**WIRELESS CALLER** [01:57]

That's not what I emailed you?

**Rodney Meier** [02:00]

No, you missed the one.

**WIRELESS CALLER** [02:01]

Okay, yeah, that's my bad. Yeah, 525-12748. Sweet. Okay. I apologize.

**Rodney Meier** [02:04]

Let me see here. Oh, yep, that comes up. Yep, that comes up. It was missing the one in the middle.

**Rodney Meier** [02:10]

But it's not in Omaha. It's got to come from MLA. You need it next day?

**WIRELESS CALLER** [02:14]

Oh, it's not?

**WIRELESS CALLER** [02:17]

\*\*\*\*. Yeah, yeah, yeah.

**Rodney Meier** [02:19]

All right. I mean, I can get it next day. That's not a problem. I just need to know how soon you need it.

**WIRELESS CALLER** [02:23]

Yeah, yeah. Yep. Yep. Next day,

**Rodney Meier** [02:27]

All right. I will get it coming.

**WIRELESS CALLER** [02:29]

please. Thank you,

**Rodney Meier** [02:30]

You bet. No problem. Thanks. Bye.

**WIRELESS CALLER** [02:31]

sir. Bye. Yeah, bye.

## Inbound call from KRIDER AUDIE

May 04, 2026 | 05:36 PM | Duration: 1m 56s | From: KRIDER AUDIE | To: +18162877013

Inbound

Negative

### AI SUMMARY

Gene Kreider reported to Miguel Rivera Padilla (Ryan Equipment) that their Moffitt vehicle was experiencing steering and cylinder problems again, despite recent repairs.

### FULL TRANSCRIPT

**KRIDER AUDIE** [00:00]

This call is being recorded.

**KRIDER AUDIE** [00:03]

Sean said we could pick it up. Hey, Miguel, it's Gene Kreider. How you doing?

**Miguel Rivera Padilla** [00:04]

Ryan Equipment, this is Miguel, how can I help you?

**Miguel Rivera Padilla** [00:09]

Mr. Gene, how you doing,

**KRIDER AUDIE** [00:12]

Well, I'll tell you what, Miguel, it was a Monday, and I thought, you know what? I'm going to be okay. And God darn it, our first \*\*\*\* delivery today, our mopping got jacked up again.

**Miguel Rivera Padilla** [00:16]

sir?

**Miguel Rivera Padilla** [00:19]

Oh,

**Miguel Rivera Padilla** [00:25]

man.

**KRIDER AUDIE** [00:26]

Yeah, the steering went out on it again, and it looks like that dang cylinder is acting up again. We just put a new cylinder on the back end of that thing, on that Princeton, about three weeks ago, I think.

**Miguel Rivera Padilla** [00:34]

Gotcha.

**Miguel Rivera Padilla** [00:39]

Okay.

**Miguel Rivera Padilla** [00:41]

Right. Okay.

**KRIDER AUDIE** [00:43]

Can you guys get, how fast can you get somebody out there?

**Miguel Rivera Padilla** [00:47]

Let me see if robbery is available. If not, then I'll send another one of my guys.

**KRIDER AUDIE** [00:53]

Okay, and if that person wants to, um,

**KRIDER AUDIE** [00:57]

Like I said, Robert put a new cylinder in, so I have not seen it, Miguel. I'm traveling to other stores today. The store just told me the same thing happened again. But I don't know if that cylinder went out or if he's just meaning the steering went out. So whoever's coming might want to call the store and talk to one of my yard guys about it so they'll have what they need.

**Miguel Rivera Padilla** [01:05]

Gotcha.

**Miguel Rivera Padilla** [01:16]

Gotcha.

**Miguel Rivera Padilla** [01:23]

Okay, I'll call him right now and see what's going on.

**KRIDER AUDIE** [01:26]

Cool. All right, you'll want to talk to Larry or Jerry

**Miguel Rivera Padilla** [01:29]

Okay, Larry or Gary.

**KRIDER AUDIE** [01:30]

in the yard, and just let them know when you answer the phone that you're called about repairing the Moffitt so they'll go out there and get somebody for you.

**Miguel Rivera Padilla** [01:36]

Sounds good, Mr. Dean. I appreciate you calling us, man.

**KRIDER AUDIE** [01:40]

No, thank you for helping us out, Miguel. We appreciate the partnership,

**Miguel Rivera Padilla** [01:44]

Yes, sir. Same here, sir. Same here. Appreciate it. Okay. Okay. Bye.

**KRIDER AUDIE** [01:46]

sir. All right. Thank you, sir. Uh-huh.

---

CALL 143 OF 611

## Inbound call from TRI

May 04, 2026 | 05:35 PM | Duration: 1m 12s | From: TRI | To: +14024731031

Inbound

Positive

### AI SUMMARY

Victoria Bauer (Representative, Rion Equipment) confirmed the invoice details with TRI, who was pleased that the final cost was lower than expected, leading to a positive resolution of the inquiry.

### FULL TRANSCRIPT

**TRI** [00:00]

This call is being recorded.

**Victoria Bauer** [00:03]

Rion Equipment, this is Victoria.

**TRI** [00:07]

Hey Victoria, this is Jerkaware Tricon. Hey, that was the invoice I was looking for. It's just the mount's not quite the same, but that's all right, because at least it's less.

**Victoria Bauer** [00:08]  
Yes.

**Victoria Bauer** [00:17]  
Is that the correct PO? Because what you gave me was 6949 and this was a 69429.

**TRI** [00:23]  
Yeah. No,

**TRI** [00:26]  
no. Yeah, that's what I needed was a 69429.

**Victoria Bauer** [00:29]  
Okay. Well, that's what I show March 23rd that went to invoice status.

**TRI** [00:34]  
They probably just didn't use it as many hours as they thought they were going to.

**Victoria Bauer** [00:39]  
That could be. Maybe he gave you a projected, I don't know how he quotes his rentals, but that's what I could find.

**TRI** [00:51]  
Yeah, that's right. It came in less than it's all that really matters. Thank you. Appreciate it. All right. Bye.

**Victoria Bauer** [00:55]  
Okay. All right. You bet. We'll talk to you later. No problem. All right. Bye-bye.

CALL 144 OF 611

**Inbound call from LIFT SOLN INC**

May 04, 2026 | 05:28 PM | Duration: 5m 48s | From: LIFT SOLN INC | To: +13088337146

**Inbound**      **Neutral**

**AI SUMMARY**

During the call, Jose (Representative, LIFT Solutions) shared a serial number for a part, seeking confirmation on compatibility.

**FULL TRANSCRIPT**

**LIFT SOLN INC** [00:00]  
This call is being recorded.

**Todd Babka** [00:04]  
Parts is tied.

**LIFT SOLN INC** [00:06]  
Hey Todd, Jose, LIFT Solutions.

**Todd Babka** [00:07]  
What's up, Jose? How are you?

**LIFT SOLN INC** [00:09]  
Hey, I got a serial number for you on a power number. See if they will be able to fit together.

**LIFT SOLN INC** [00:16]

The models will be a P5000 GLP.

**LIFT SOLN INC** [00:21]

Serial number is going to be, when you're ready,

**Todd Babka** [00:23]

You betcha.

**LIFT SOLN INC** [00:25]

it'll be AlphaTango 3521058.

**Todd Babka** [00:31]

Five, eight, okay. What you got for a part number?

**LIFT SOLN INC** [00:35]

And partner is going to be a 91-alpha-0444-070.

**Todd Babka** [00:44]

What is this?

**LIFT SOLN INC** [00:47]

It's a panel, meter

**Todd Babka** [00:50]

Is this the same one you've worked on?

**LIFT SOLN INC** [00:56]

panel. Yes, this is the one I'm talking about. Yeah, but this is a different partner we're looking at right now.

**LIFT SOLN INC** [01:52]

No?

**Todd Babka** [02:15]

None of those are coming up.

**Todd Babka** [02:27]

None of those are coming up in that list.

**Todd Babka** [02:34]

Because it

**Todd Babka** [03:19]

comes close, but it doesn't, it's

**Todd Babka** [03:22]

not correct. And that's just for a propane only, not dual fuel.

**Todd Babka** [03:28]

And yours is dual fuel, it says.

**Todd Babka** [03:36]

So, none of them.

**Todd Babka** [03:39]

The closest it goes clear down to a,

**Todd Babka** [03:47]

it goes clear to a 91 Apple 045 4040.

**Todd Babka** [04:04]

There's no supersession on that one.

**Todd Babka** [04:07]

The one above it stops at 2006.

**Todd Babka** [04:12]

Here's the 2008 model.

**Todd Babka** [04:20]

And every one of them is no longer

**Todd Babka** [04:24]

available. They're all discontinued.

**Todd Babka** [04:27]

So, I don't know why they're not that old of machines,

**Todd Babka** [04:33]

but I guess we're getting...

**Todd Babka** [04:36]

Close to 20 years,

**LIFT SOLN INC** [04:41]

Okay. Okay.

**Todd Babka** [04:43]

but... So, other than that, sorry for the bad news,

**LIFT SOLN INC** [04:48]

It's okay, I understand. So, okay.

**Todd Babka** [04:50]

sir. Everybody's cutting everything out after so many years. They're not keeping all these parts on hand like they used to, unfortunately. So, I'm assuming Nissan's doing the same thing.

**LIFT SOLN INC** [05:08]

You're not wrong. No,

**Todd Babka** [05:08]

So, so, but anyways, if there's anything else I can help you out with,

**LIFT SOLN INC** [05:15]

it should be a tough. Appreciate you.

**Todd Babka** [05:17]

not a problem. You have a great day, Jose. Thank you. Bye.

**LIFT SOLN INC** [05:20]

You as well. Thank you so much. Bye-bye.

### AI SUMMARY

Derrick Day (Customer) called to provide three part numbers for fuses, which Derrick Dea (Representative) acknowledged and confirmed for a service call.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parks, this is Derrick. Yeah. Okay. Okay.

**WIRELESS CALLER** [00:03]

Derrick Day. I got three part numbers, like two of each. They're all fuses. First one is a 2I, 52,

**Derrick Dea** [00:17]

Okay.

**WIRELESS CALLER** [00:23]

Next one is an A, 160-46. And the

**Derrick Dea** [00:27]

Okay. Okay.

**WIRELESS CALLER** [00:31]

last one is a 511-92392. Two of each on service call 800-923-923-923-923-923-923-

**WIRELESS CALLER** [00:44]

515, Segment 1. Thank you for tomorrow. Thank you, sir. See you.

**Derrick Dea** [00:45]

Will

**Derrick Dea** [00:47]

do.

**Derrick Dea** [00:52]

Alrighty. Yep. Bye.

**AI SUMMARY**

In the conversation, Mike Moore (Customer Service) and Jesse Downey (Parts Representative) addressed a significant issue with purchase orders for ADM that were being sent to an employee on medical leave.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

All right, I'm Quentin, Jesse and Parts.

**WIRELESS CALLER** [00:05]

Jesse, this is Mike Moore in Omaha. How are you doing today,

**Jesse Downey** [00:09]

Ah, doing all right. How about you?

**WIRELESS CALLER** [00:11]

sir? I'm doing well, man. I'm doing well. Sorry I didn't get back to you Friday. I know we talked about some ADM POs and all that good stuff. What can I do for you,

**Jesse Downey** [00:22]

Well, I just want to see if we got that issue corrected or got that issue bumped up to someone that could fix it. I just want confirmation of that.

**WIRELESS CALLER** [00:31]

man? Right. I guess the only, you know, when Nick called me up, it was

**WIRELESS CALLER** [00:37]

The fact that you needed two POs to you. So what problem are we talking about? Is it a problem you getting POs from ADM, from Monica or George, or what's exactly your issue?

**Jesse Downey** [00:53]

All right, so what I told Nick was, so all the POs for ADM go to Monica.

**Jesse Downey** [00:59]

But Monica's on medical leave and she's been on medical leave for the past, for at least a month. So all these PEs are going to her email box and no one's sending them out. So I have to contact, so I had to contact Georgina because my customer called me like, "Hey, where are my parts at?" I'm like, "I never got to PO." "Well, we sent it." I'm like, "Okay, let me call."

**WIRELESS CALLER** [01:04]

Yeah, a couple weeks.

**WIRELESS CALLER** [01:12]

Right. Okay.

**WIRELESS CALLER** [01:23]

Right. Okay.

**Jesse Downey** [01:24]

So that's what I'm trying to alleviate is that issue.

**WIRELESS CALLER** [01:27]

Gotcha. Okay, perfect. I'm going to call Kim. You know, Kim December is Monica's boss.

**Jesse Downey** [01:32]

Yeah, she's out. I would try to call her.

**WIRELESS CALLER** [01:35]

Is Kim out too? Okay. I mean, I talk to Kim and George constantly nowadays. You know, we're working through a whole bunch of different things, and I'll make sure to talk to one of them today. I'll shoot Kim an email if you see seed on it.

**Jesse Downey** [01:37]

Yeah, and she was out last week too.

**Jesse Downey** [01:53]

All right, and I kind of brought this up to Georgina too.

**WIRELESS CALLER** [01:57]

Okay. Okay. Yeah, lawsuits to Kim. Kim will get it handled. I think that George does have access to some of Monica's emails, but I don't think it's all of them at this point. And I was kind of hoping Monica could be back in the office today. But...

**Jesse Downey** [02:15]

So, gotcha. From what I understand, Georgina said it's going to be a while longer, but who knows what gets communicated.

**WIRELESS CALLER** [02:21]

Yeah. I've had some issues with Monica for sure in the past, man. So I hope medically she's okay, but, you know, especially, you know, long story short, we had some real issues with Cargill here locally in Nebraska.

**Jesse Downey** [02:27]

Yeah.

**WIRELESS CALLER** [02:42]

TO A POINT TO WHERE THEY WERE -- THEY DIDN'T WANT TO TALK TO MONICA AGAIN. PRETTY MUCH. SO I GOT INVOLVED IN THAT. I KIND OF PADDED IT. THEY'RE HAPPY. WE GOT HALF A MILLION DOLLARS WITH INVOICES THAT PAYED THERE THAT WERE OUTSTANDING FOR THE LAST YEAR THAT WERE SUPPOSED TO BE SUBMITTED THAT WEREN'T.

**Jesse Downey** [02:49]

Yes. Oh, goodness. That's not good to have someone in that spot.

**WIRELESS CALLER** [03:04]

I TALK

**Jesse Downey** [03:05]

Oh, my gosh.

**Jesse Downey** [03:16]

Well, when she first started, I had some issues, but then she's good for a long time. But I'm like, why haven't I gotten emails? What's your milk on here for? Why hasn't anyone fixed her email address?

**Jesse Downey** [03:27]

For the PO though, I'm like, what the heck is going on guys?

**WIRELESS CALLER** [03:30]

TO KIM AND GEORGE ALL THE TIME. I WILL EMAIL

**WIRELESS CALLER** [03:38]

We'll go from there, buddy.

**Jesse Downey** [04:03]

Yep, I appreciate it, thank you.

**WIRELESS CALLER** [04:05]

Cool. Thanks, Jesse. Take it easy, man. Bye.

**Jesse Downey** [04:06]

Yep, bye bye, you too.

---

CALL 147 OF 611

## Inbound call from ANDERSON SHEREE

May 04, 2026 | 04:41 PM | Duration: 3m 45s | From: ANDERSON SHEREE | To: +14025942044

Inbound

Positive

### AI SUMMARY

ANDERSON SHEREE called to check on the availability and pricing of two Cummins parts, and Charles Huffman provided the necessary information, leading to a rough quote of \$2,500 for the customer.

FULL TRANSCRIPT

**ANDERSON SHEREE** [00:00]

This call is being recorded.

**ANDERSON SHEREE** [00:06]

Oh, Charlie,

**Charles Huffman** [00:08]

What? What's up?

**ANDERSON SHEREE** [00:10]

I got two Cummins part numbers, and I was curious if they're in our system already and how much is customer cost.

**Charles Huffman** [00:21]

What you got?

**ANDERSON SHEREE** [00:25]

So,

**ANDERSON SHEREE** [00:29]

give me a second. One minute. Okay.

**Charles Huffman** [00:32]

You called me,

**Charles Huffman** [00:37]

buddy. What's up? What is it? What is it? Come on.

**ANDERSON SHEREE** [00:38]

Part one is 5, 3, 1, 7, 1, 2, 0.

**Charles Huffman** [00:47]

531-7120.

**Charles Huffman** [01:03]

Engine wiring harness.

**ANDERSON SHEREE** [01:05]

Yes.

**Charles Huffman** [01:15]

Well, let's say the last time we bought it.

**Charles Huffman** [01:22]

It sold for \$1,727.

**Charles Huffman** [01:28]

And that was a year ago. So it's going to be more money than that now.

**ANDERSON SHEREE** [01:39]

You think it's under \$2,000,

**Charles Huffman** [01:41]

I can't guess.

**Charles Huffman** [01:44]

Maybe.

**ANDERSON SHEREE** [01:49]

though? All right. Second one,

**ANDERSON SHEREE** [01:52]

536-7847.

**Charles Huffman** [02:13]

Oh, that's a gasket with the

**Charles Huffman** [02:20]  
wiring built into it for the injectors.

**Charles Huffman** [02:49]  
Well, part number is in the system, but actually it's in there a couple of different ways,

**Charles Huffman** [02:55]  
but I can't really make a guess on

**Charles Huffman** [03:00]  
the pricing. Oh, \*\*\*\*.

**Charles Huffman** [03:05]  
We got it in stock under a Turbird part number here for \$423.

**ANDERSON SHEREE** [03:15]  
Okay. Well, I will tell them a rough quote of \$2,500 for parts as a rough quote,

**Charles Huffman** [03:23]  
Yep.

**ANDERSON SHEREE** [03:25]  
and we shall go from there.

**Charles Huffman** [03:28]  
Okay. Let me know. Yep.

**ANDERSON SHEREE** [03:29]  
Thank you.

CALL 148 OF 611

**Inbound call from HAMPTON DENNIS**

May 04, 2026 | 04:25 PM | Duration: 13m 32s | From: HAMPTON DENNIS | To: +14026440781

**Inbound** **Positive**

**AI SUMMARY**

Hampton Dennis began the call by confirming the recording and greeting Rodney Meier.

**FULL TRANSCRIPT**

**HAMPTON DENNIS** [00:00]  
This call is being recorded.

**Rodney Meier** [00:05]  
He is alive.

**HAMPTON DENNIS** [00:07]  
Well hello Rod, how are you?

**Rodney Meier** [00:09]  
I'm good.

**HAMPTON DENNIS** [00:12]  
Hey, I've got some

**HAMPTON DENNIS** [00:16]

stuff here.

**Rodney Meier** [00:17]

Yeah.

**HAMPTON DENNIS** [00:18]

Whenever you're ready, we'll start with this one. This one's a transfer from Des Moines.

**Rodney Meier** [00:21]

I am ready.

**HAMPTON DENNIS** [00:29]

I'll be damned, only \$6.55 in freight.

**Rodney Meier** [00:33]

That's because I had him send it on our account.

**HAMPTON DENNIS** [00:38]

Transfer ending in 5857. It's a park break button for Nucor for Ross.

**Rodney Meier** [00:55]

Got it.

**HAMPTON DENNIS** [00:59]

And then the next one

**HAMPTON DENNIS** [01:02]

is from TVH.

**HAMPTON DENNIS** [01:08]

PO number is PU1141772.

**Rodney Meier** [01:22]

That would be for, I

**Rodney Meier** [01:28]

think that's for Trevor.

**Rodney Meier** [01:34]

Yeah, that's for Trevor.

**HAMPTON DENNIS** [01:41]

Who's it for or what's it for? Oh, that's those

**Rodney Meier** [01:42]

He ordered a, yeah, I returned some parts that I transferred down to Omaha.

**HAMPTON DENNIS** [01:47]

EBM.

**HAMPTON DENNIS** [01:49]

That's EBM. They're

**Rodney Meier** [01:52]

Yes.

**HAMPTON DENNIS** [01:55]

like bushings and pins.

**HAMPTON DENNIS** [01:59]

They didn't look super familiar to me, but now it makes sense.

**HAMPTON DENNIS** [02:05]

EBM.

**HAMPTON DENNIS** [02:09]

Oh, what else do we got here?

**HAMPTON DENNIS** [02:15]

Oh, \*\*\*\*. Whoops. I think this is Raka Rentals.

**HAMPTON DENNIS** [02:20]

Because that's not RPO number.

**Rodney Meier** [02:23]

Well, my computer's doing some thinking here, so let me call you back. \*\*\*\*, computer's slow. Let me call you back.

**HAMPTON DENNIS** [02:26]

I got to see a filter.

**HAMPTON DENNIS** [02:31]

What's up?

**HAMPTON DENNIS** [02:34]

Yeah, right?

**Rodney Meier** [02:35]

All right, I'm ready.

**HAMPTON DENNIS** [02:38]

Yeah. Yeah, I want to do this.

**HAMPTON DENNIS** [02:42]

I'm getting a packing slip out of it now.

**HAMPTON DENNIS** [02:51]

It's all a chaotic morning.

**HAMPTON DENNIS** [02:54]

Okay, this one is PU1141466.

**HAMPTON DENNIS** [03:03]

A universal enclosure.

**Rodney Meier** [03:06]

That is for Signor Trucking

**Rodney Meier** [03:12]

for their RC60.

**HAMPTON DENNIS** [03:18]

It's going to get nice out now. What the \*\*\*\* do they need an enclosure for?

**Rodney Meier** [03:19]

They bought an RC60 from somebody and they wanted some kind of a cab. I said, "Well, can't do a cab." But probably I gave him my... actually sent him the measurements. He said, "Yeah, looks like that'll work."

**Rodney Meier** [03:39]

That was Jeremy Freeman that called.

**HAMPTON DENNIS** [03:41]

Oh, sure.

**HAMPTON DENNIS** [03:44]

Do you want to print out an

**HAMPTON DENNIS** [03:48]

invoice for that?

**HAMPTON DENNIS** [03:50]

And what is...

**Rodney Meier** [03:51]

Yeah, it'll print the back printer.

**HAMPTON DENNIS** [03:57]

Rock and Rentals, that's not...

**Rodney Meier** [03:58]

Printing right now.

**HAMPTON DENNIS** [04:01]

That's not...

**Rodney Meier** [04:09]

You didn't get a transfer from Gillette, did you?

**HAMPTON DENNIS** [04:15]

For...

**Rodney Meier** [04:18]

For an accumulator and a cartridge for Nucor, Ross.

**Rodney Meier** [04:25]

I had it shipped second day, but that was Friday. Yeah, it won't be there until tomorrow. Never mind.

**HAMPTON DENNIS** [04:30]

Yeah, nope. Nope. And I did all the transfers that were at the other store this morning.

**Rodney Meier** [04:33]

Okay, I'll say there should have been a cable, but that was too late, probably Friday afternoon.

**Rodney Meier** [04:42]

Trevor had me order a cable

**Rodney Meier** [04:47]

for one of his to plug into the computer.

**HAMPTON DENNIS** [04:49]

Yep. Yep, nope, I got it.

**Rodney Meier** [04:52]

Oh, you did get it?

**HAMPTON DENNIS** [04:54]

Yeah, it did make it.

**Rodney Meier** [04:55]

Okay, okay, I'll receive it then.

**HAMPTON DENNIS** [04:59]

I already did. It's already done.

**HAMPTON DENNIS** [05:02]

I did all those transfers this morning.

**Rodney Meier** [05:05]

It still showed hanging out.

**HAMPTON DENNIS** [05:13]

I thought I got them all this morning. So there was

**Rodney Meier** [05:16]

Well, that's the only one I got left now is the one from Gillette.

**HAMPTON DENNIS** [05:20]

a... Sure. Yeah, because I got the PM.

**Rodney Meier** [05:23]

Yeah, because there was a couple gallons of coolant.

**HAMPTON DENNIS** [05:25]

Yep. Yep. Yeah, there was antifreeze for Ross for handheld energy. And then, oh, what else was there? There was a...

**Rodney Meier** [05:31]

And I'll say a

**HAMPTON DENNIS** [05:38]

An accumulator, maybe. What the \*\*\*\* else was back there? I can't remember now.

**HAMPTON DENNIS** [05:44]

And then a PM kit.

**HAMPTON DENNIS** [05:48]

And I

**HAMPTON DENNIS** [05:51]

thought there was something else. That cable deal.

**Rodney Meier** [05:55]

couple hoses for Trevor.

**HAMPTON DENNIS** [05:57]

Yeah, yeah, and there's, yep, yep, there's a couple of young high-knit hoses and then one MLA home.

**HAMPTON DENNIS** [06:06]

I had something that was heavy. I'm walking out there now. I don't remember what the

**HAMPTON DENNIS** [06:15]

\*\*\*\* it was.

**Rodney Meier** [06:16]

I knew there was a bunch of them today.

**HAMPTON DENNIS** [06:19]

Yeah, it was an accumulator for Nucor.

**HAMPTON DENNIS** [06:28]

He did

**HAMPTON DENNIS** [06:33]

that. He did that.

**HAMPTON DENNIS** [06:36]

That should.

**HAMPTON DENNIS** [06:40]

Should be it.

**Rodney Meier** [06:42]

Okay, yeah, I gotta come out and get those two seals boxed up for TVH to get those returns sent back.

**HAMPTON DENNIS** [06:51]

Oh, yeah, those EVM seals.

**Rodney Meier** [06:54]

Yeah, the ones you didn't need.

**HAMPTON DENNIS** [06:56]

Yep.

**Rodney Meier** [06:57]

I got return authorizations, they were on the printer there.

**Rodney Meier** [07:01]

I gotta get them boxed up and sent back.

**HAMPTON DENNIS** [07:07]

Yeah, no, I think that's all I have right now. I got to run some

**HAMPTON DENNIS** [07:16]

parts down to D12. Should just call Shad and have them come pick them up. I mean, uh,

**Rodney Meier** [07:23]

Oh,

**HAMPTON DENNIS** [07:26]

I need to get out of here for half hour, 45 minutes.

**Rodney Meier** [07:30]

you didn't say that we didn't get the starter from Rikus yet, evidently.

**HAMPTON DENNIS** [07:35]

Yes, we got that.

**HAMPTON DENNIS** [07:40]

Yeah, we just got that.

**HAMPTON DENNIS** [07:44]

That was the last one on

**HAMPTON DENNIS** [07:47]

my pile

**HAMPTON DENNIS** [07:51]

here. It is PU1141493.

**HAMPTON DENNIS** [08:08]

I don't think this one's right either.

**Rodney Meier** [08:10]

And I just created a PO that hasn't been billed to anybody,

**HAMPTON DENNIS** [08:15]

I don't think this one's right because this has got a nose

**HAMPTON DENNIS** [08:21]

cone on it. And that one that he

**Rodney Meier** [08:23]

so... Oh \*\*\*\*.

**Rodney Meier** [08:26]

One he has doesn't. Nope.

**HAMPTON DENNIS** [08:27]

sent doesn't.

**HAMPTON DENNIS** [08:31]

Well, \*\*\*\*.

**Rodney Meier** [08:35]

Nope. I'll have to tell him, it has a heavy duty one. I thought, no, you know what, I didn't send the picture. I should have. I only attached the data tag.

**HAMPTON DENNIS** [08:35]

Let me get back into...

**Rodney Meier** [08:47]

Because the other one showed those two starters next to each other. I thought, "Yeah, we better not show him we already got a starter." I'll send him a note. We'll have to send it back.

**HAMPTON DENNIS** [08:57]

Sure. Because I sent you that picture, correct? Of the two starters or no?

**Rodney Meier** [09:00]

Yeah, you had the picture of both starters and the data tag, but I thought, "Well, I don't want to send him pictures of showing that we tried to get one from somewhere else."

**Rodney Meier** [09:11]

So I'll send him a note.

**HAMPTON DENNIS** [09:15]

And I can crop.

**HAMPTON DENNIS** [09:18]

Let's look at the second picture. The starter usually is the one on the left, and it looks like the gear is

**Rodney Meier** [09:19]

No, that's fine. I'll just tell him the one, the starter we have doesn't have a nose cone. He'll know what I'm talking about.

**HAMPTON DENNIS** [09:26]

not. Yeah. Yeah, because the one on the left is the one we sent him, and that's the one that's offset from the center.

**Rodney Meier** [09:33]

Yeah, yeah. Well, that's why I say it and I thought, well, better leave them out of it.

**HAMPTON DENNIS** [09:42]

Yeah, well, I'll put this Rikus invoice in that starter back in this box.

**HAMPTON DENNIS** [09:53]

And we'll just have to ship it back.

**HAMPTON DENNIS** [10:01]

I'll set it on this north table.

**HAMPTON DENNIS** [10:07]

That goes in. I'll take this with me.

**HAMPTON DENNIS** [10:11]

11:30 already, jeepers.

**HAMPTON DENNIS** [10:17]

What's the old saying? Time flies when you're having fun.

**Rodney Meier** [10:20]

Yes, sirree.

**HAMPTON DENNIS** [10:22]

And it's been a fun morning.

**Rodney Meier** [10:29]

I'll bet.

**HAMPTON DENNIS** [10:34]

Yeah. Well, do you know that? That works for me. It works for you. That should be everything I have.

**HAMPTON DENNIS** [10:41]

You're going to call Signor and let him know that these parts are here.

**Rodney Meier** [10:46]

Yeah, I will. I got Jeremy's phone number.

**HAMPTON DENNIS** [10:47]

And then you want to call Pepsi Mahaka and let him know that his cables are here. Yeah.

**Rodney Meier** [10:57]

Oh, Randy. Yeah.

**Rodney Meier** [11:00]

That or I can just run it over to when I come out and get them other ones.

**HAMPTON DENNIS** [11:04]

Yeah, dump it off on your way back five.

**HAMPTON DENNIS** [11:08]

And that should... Yeah, that's everything I got.

**HAMPTON DENNIS** [11:18]

Deal. Well,

**HAMPTON DENNIS** [11:20]

I'm going to let you go and get back at it.

**Rodney Meier** [11:23]

All right, it's been pretty quiet this morning for me. Hasn't been much going on.

**HAMPTON DENNIS** [11:27]

Yeah,

**HAMPTON DENNIS** [11:30]

it's... Trade you. Oh,

**Rodney Meier** [11:31]

Yeah, that's all right. That's okay. I'm sure mine will probably take off this afternoon and be busier than \*\*\*\*. So, looks like our...

**HAMPTON DENNIS** [11:38]

yeah. Yep, yep, you jinxed it.

**Rodney Meier** [11:43]

Charger modules are gonna ship from Triathlon at the end of the week.

**HAMPTON DENNIS** [11:50]

Good for cargo.

**Rodney Meier** [11:50]

We've had two on order since January and then Luke needed two more, and they're all scheduled to ship on the 8th.

**HAMPTON DENNIS** [11:56]

Should be a couple more from...

**HAMPTON DENNIS** [12:04]

Yep. Good, yeah, because we robbed two out of the downed charger.

**Rodney Meier** [12:04]

So keep our fingers crossed. Yeah.

**Rodney Meier** [12:10]

Out of the one that was already missing two, yeah. That already had two bad ones. Yeah, I talked to Luke about it the other day, but yeah, I just got confirmation on the other two this morning that they're supposed to ship on the eight, so apparently they must have a big \*\*\* order coming in.

**HAMPTON DENNIS** [12:12]

Yep.

**HAMPTON DENNIS** [12:15]

Yep. Yep.

**HAMPTON DENNIS** [12:27]

Hopefully.

**HAMPTON DENNIS** [12:28]

Hopefully. As long as we get four of them, I don't care after that.

**Rodney Meier** [12:34]

Yeah. All right, well, I am

**Rodney Meier** [12:41]

sending an email to my buddy at Rikus.

**HAMPTON DENNIS** [12:47]

Deal. That works for me. I might...

**Rodney Meier** [12:47]

Let's see what he can come up with.

**HAMPTON DENNIS** [12:50]

Yeah, I might try to jet out of here quick and go deliver these parts to DEETS, grab a bite of heat on my way back, and go from there.

**Rodney Meier** [13:03]

All right, sounds good.

**HAMPTON DENNIS** [13:05]

Awesome. I appreciate it. Thanks, Rod.

**Rodney Meier** [13:06]

All right, you bet. Thank you. Bye.

**HAMPTON DENNIS** [13:08]

Yep. Bye.

CALL 149 OF 611

**AI SUMMARY**

During the call, Archie detailed missing brake parts, including an essential air valve, prompting Jesse to confirm the situation and arrange for a replacement.

**FULL TRANSCRIPT**

**FAULKNER ARCHIE** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

All right, equipment, Jesse and parts.

**FAULKNER ARCHIE** [00:06]

Hey, Jesse, Archie here. So I got some brake parts.

**Jesse Downey** [00:08]

Hello.

**FAULKNER ARCHIE** [00:14]

I got a cylinder and I got a pedal assembly, but I don't have the rest of the valve underneath that pedal assembly.

**FAULKNER ARCHIE** [00:25]

And which is, that's what Gavin told me to replace all of it.

**Jesse Downey** [00:33]

Oh, that's all we ordered. All right, that's all we

**FAULKNER ARCHIE** [00:33]

So that air valve

**FAULKNER ARCHIE** [00:36]

That air valve is underneath the pedal and on the master cylinder has a switch on top of it

**Jesse Downey** [00:39]

ordered. Mm-hmm.

**FAULKNER ARCHIE** [00:45]

that's busted on the brand new one out of

**Jesse Downey** [00:50]

Oh, geesh. That's no good. Great. Yeah, as far as the pedal, that's the same pedal I ordered for Gavin, so I can quote you an additional part, but...

**FAULKNER ARCHIE** [01:02]

the box. There's a valve that it actuates that sits underneath the floor.

**Jesse Downey** [01:13]

Yeah, I can quote that.

**Jesse Downey** [01:16]

I was stating that that's not what I quoted Gab and such. So, all right. Which, is this still a feed house or is that a different one?

**FAULKNER ARCHIE** [01:26]

That's feed house, yes.

**FAULKNER ARCHIE** [01:29]

No, excuse me. This is a refinery.

**Jesse Downey** [01:35]

No

**FAULKNER ARCHIE** [01:35]

My bad. It's a refinery.

**Jesse Downey** [01:37]

worries. All right, and you said master cylinder is damaged.

**Jesse Downey** [01:45]

Okay.

**Jesse Downey** [01:47]

I'll send that one back and I'll send another one out to you, master cylinder, and you want the valve below the brake pedal.

**FAULKNER ARCHIE** [01:53]

You've got to order that from them.

**Jesse Downey** [01:58]

I'm sorry, you cut out.

**FAULKNER ARCHIE** [01:59]

Do you have that master cylinder in stock or do you have to order it?

**Jesse Downey** [02:03]

No, I have to order it.

**FAULKNER ARCHIE** [02:07]

Well, I need it to ASAP type deal.

**Jesse Downey** [02:10]

Yeah, yep, I know, you needed that last week, so. Alrighty, I'll get this going. I'll send the valve over to Mr. Neal.

**FAULKNER ARCHIE** [02:21]

All right. Thank you.

**Jesse Downey** [02:22]

Thank you, bye-bye.

**FAULKNER ARCHIE** [02:23]

You bet. Bye.

### AI SUMMARY

In a call between Reese Pedersen from Nebraska Public Power and Todd Babka, a service representative, Reese sought assistance regarding bleeding air from a lift cylinder on a Skyjack scissor lift.

### FULL TRANSCRIPT

**PEDERSEN REECE** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Parts is tied.

**PEDERSEN REECE** [00:06]

Hi, Todd. This is Reese Peterson with Nebraska Public Power.

**Todd Babka** [00:10]

How are you, Reese?

**PEDERSEN REECE** [00:11]

Oh, all right. Hey, I got a question, I guess.

**Todd Babka** [00:13]

Good.

**PEDERSEN REECE** [00:17]

Well, you guys have a service department there, don't you?

**Todd Babka** [00:22]

We do, yes.

**PEDERSEN REECE** [00:23]

Okay. Well, a while back, I ordered a lift cylinder for a Skyjack scissor lift.

**Todd Babka** [00:29]

Okay.

**PEDERSEN REECE** [00:32]

Put it in and all that.

**PEDERSEN REECE** [00:36]

I was, I'm not able to get the cylinder, like, completely bled of the air and was wondering if one of your technicians could point me in the right direction of how to bleed the system of

**PEDERSEN REECE** [00:54]

air.

**Todd Babka** [00:55]

Okay. Well, I don't know on a Skyjack. We don't see many Skyjacks around. Or, uh, is this a Skyjack or a Skytrack?

**Todd Babka** [01:06]

It was a Skyjack, wasn't it?

**PEDERSEN REECE** [01:08]

I think it was a skyjagged.

**Todd Babka** [01:09]

Yeah, we don't have a ton of those. I could send you over to Michael, the service manager, and see if he's got some insight as to how to get it completely bled. So, let's see here. I've got to find his number because I can't remember. After working with the same guy for 30 years, I can't remember the new guy's number.

**PEDERSEN REECE** [01:10]

Yeah.

**Todd Babka** [01:55]

I can give you his phone number here. 402-473-1033. That's his desk number at work. So...

**PEDERSEN REECE** [01:58]

Okay, I'm ready.

**PEDERSEN REECE** [02:09]

Okay, sounds good.

**Todd Babka** [02:10]

And I'll try and transfer you to him, but these lovely computer phones here, I still am. So, but hold on, I will transfer you to him.

**PEDERSEN REECE** [02:16]

Oh, yeah, I get

**PEDERSEN REECE** [02:21]

it. Okay, sounds good. Thank you.

**Todd Babka** [02:22]

All right, you bet. Thanks, Reese.

CALL 151 OF 611

Inbound call from CRAGG GREGORY

Inbound Positive

AI SUMMARY

The conversation involved CRAGG GREGORY seeking assistance regarding a new auto car and coordinating with Miguel Rivera Padilla to provide Garrett's contact information for upcoming engine work.

FULL TRANSCRIPT

CRAGG GREGORY [00:00]

This call is being recorded.

CRAGG GREGORY [00:03]

This thing should have a battery lockout on

Miguel Rivera Padilla [00:04]

Rion Equipment, this is me. Y'all gonna help you.

CRAGG GREGORY [00:07]

it. Mr. Miguel, what the heck's going on?

Miguel Rivera Padilla [00:09]

Hey, what's going on, sir?

CRAGG GREGORY [00:12]

Oh, just looking at this beauty of an auto car. Find the padlock.

Miguel Rivera Padilla [00:16]

Oh, okay. Gotcha, gotcha. I thought you were looking at a picture of me.

CRAGG GREGORY [00:20]

Hey,

CRAGG GREGORY [00:23]

do you have Garrett's phone number you could text over to me?

Miguel Rivera Padilla [00:26]

Yes,

Miguel Rivera Padilla [00:31]

sir, I'll send it to you.

CRAGG GREGORY [00:33]

Okay, I sure appreciate it. We finally got this truck in, and if he's hurting for work, he could come down and start pulling this thing out and get it ready, and the new engine should be here this week. He hasn't got tracking yet, but I just talked to the DCI, the place that owns this, and he said he thinks that engine will be showing up this week to us. He's shipping it straight to us.

Miguel Rivera Padilla [00:57]

Okay. Okay, okay. Sounds good, sounds good. Yeah, I'll send you his number right now.

**CRAGG GREGORY** [01:00]

All right.

**CRAGG GREGORY** [01:03]

Okay, I sure appreciate it.

**Miguel Rivera Padilla** [01:03]

No problem. Sounds good. Okay. Yes, sir.

**CRAGG GREGORY** [01:06]

All right, thanks, Miguel. Bye.

### AI SUMMARY

The conversation began with Lisa Kleeman (Customer Service Representative, Rion Equipment) assisting a participant from LIFT PRO EQUIP.

### FULL TRANSCRIPT

**LIFT PRO EQUIP** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:04]

Good morning, Rion Equipment. This is Lisa. How can I help you?

**LIFT PRO EQUIP** [00:07]

Yeah, I probably dropped the ball on that one.

**Lisa Kleeman** [00:11]

Hey, it's okay. I got an order.

**LIFT PRO EQUIP** [00:14]

Yeah, well, the guy that has to put it in, he just, he got his finger broke on Thursday here at the store.

**Lisa Kleeman** [00:19]

Oh, no.

**Lisa Kleeman** [00:23]

That's not good.

**LIFT PRO EQUIP** [00:26]

Nope, he put his fingers where he shouldn't have and

**LIFT PRO EQUIP** [00:31]

I don't know, I'm getting two stories. He said he was feeling rushed and Bob

**LIFT PRO EQUIP** [00:36]

Guy running the forklift said, don't put your \*\*\*\*\* hand there. And he put his hand there and then it let go. And so I don't know who to believe I wasn't there. All I know is that it's broke. And now we've got

**Lisa Kleeman** [00:42]

Reportable.

**LIFT PRO EQUIP** [00:51]

a, a gimp. Yep. We've got a recordable \*\*\*\*\* A.

**Lisa Kleeman** [00:54]

Yeah, nope, we got our first one in 10 years. Don't worry. Yeah, one of our technicians was in Idaho and the, you know, the heisters have the, like, butterfly, like, sights that come out of the motor. He had been working on it all day, all day, all day.

**LIFT PRO EQUIP** [01:01]

Oh, really? Wow. What happened there?

**Lisa Kleeman** [01:18]

Nothing. Moving it, driving it, doing all this right before they were getting ready to finish up. He went, made sure that all the fluids and all that were all done and that wing come down. Caught him right on top of the head.

**LIFT PRO EQUIP** [01:34]

Is he okay? Okay.

**Lisa Kleeman** [01:36]

Oh yeah, yeah, I think he said, I think, seven stitches or staples.

**LIFT PRO EQUIP** [01:42]

Oh, \*\*\*\*.

**Lisa Kleeman** [01:43]

Yeah, they did that without numbing medicine, so he felt every bit of it. So,

**LIFT PRO EQUIP** [01:47]

Ouch.

**LIFT PRO EQUIP** [01:50]

I probably won't do it again.

**Lisa Kleeman** [01:52]

no, no.

**LIFT PRO EQUIP** [01:55]

Well, here's the thing. Why didn't they numb him up?

**Lisa Kleeman** [01:59]

I don't know if it was in Idaho. I don't know how they work.

**LIFT PRO EQUIP** [02:04]

Well, our guy, I went with him up to the ER or to the urgent care.

**Lisa Kleeman** [02:10]

Mm-hmm.

**LIFT PRO EQUIP** [02:12]

And he wouldn't do...

**LIFT PRO EQUIP** [02:16]

And he was like, I'm not going to take any pain meds. I'm like, dude, it doesn't matter. This is a broken bone. It's recordable. But yeah, I can't take needles. I can't take needles. I'm

**LIFT PRO EQUIP** [02:28]

like, well, okay. And he's going to do the surgery to put the bone back in place without anesthesia. They're just going to do a block and block his finger.

**Lisa Kleeman** [02:35]

They'll do a beer block, yep, yep.

**LIFT PRO EQUIP** [02:39]

Yep. I told him, I said, I'd rather be knocked the \*\*\*\* out. That's going to be an hour surgery and you're going to be laying there through the whole thing. I just hate needles. I hate needles. I'm like, you're a \*\*\*\*\* grown \*\*\* \*\*\*\*\* man. Yep.

**Lisa Kleeman** [02:51]

Well, I mean, you still have them, though. I mean, because you have your IVs, you have your everything. That beer block, though, just puts it to where, and it could be the way he comes out of anesthesia, you know, in that aspect. I know anytime,

**LIFT PRO EQUIP** [03:06]

No, he's just being a pansy \*\*\*. He's being a little girl.

**Lisa Kleeman** [03:10]

I gotcha, I gotcha, yeah. I was going to say, sometimes it's just kind of how they come out of it, but, I mean, I've

**Lisa Kleeman** [03:19]

I laugh because I have, well, from Lonnie's side of everything, I have brother-in-laws and things like that, that they absolutely will not do needles whatsoever, but they'll go get a tattoo. I'm like, what's the difference, you know?

**LIFT PRO EQUIP** [03:33]

Yep. Mm-hmm. I don't get it either. And guess what? I found the email to send this to you. It was...

**Lisa Kleeman** [03:40]

I don't.

**Lisa Kleeman** [03:45]

Oh, hey, that didn't get sent. Is it in your draft?

**LIFT PRO EQUIP** [03:48]

It's in my drafts. And here's the thing. I will click on \*\*\*\* to send it, and it goes to drafts. And I've got to go into my draft box once a day to look at \*\*\*\*. And I got out of that habit. For some reason, I hit send, and it goes to drafts, and I don't know why. But, oh, well, not a big deal. We'll get it ordered.

**Lisa Kleeman** [04:05]

Oh.

**Lisa Kleeman** [04:10]

Huh. Yeah, that really is weird. No, I had that and I turned around and I was like, oh, no, did I really just drop the ball on this one? And so I went back and I was looking and I was like, nope, wasn't on my side. We're okay. Okay.

**LIFT PRO EQUIP** [04:14]

Well, no, we should have just ordered it from TBH. It's a \*\*\*\*\* buzzer. But our guys hate TBH so much that they...

**Lisa Kleeman** [04:35]

Yeah. Oh, yeah. I got one technician here, too.

**LIFT PRO EQUIP** [04:40]

And they \*\*\*\* talk it to the customers and then the customer's like, oh no, we got to have OEM. And I'm like, you guys are so \*\*\*\*\* stupid. TVH didn't build. Yep. And TVH didn't build a multi-billion dollar business by selling \*\*\*\* parts to everybody.

**Lisa Kleeman** [04:47]

Three times the price.

**Lisa Kleeman** [04:55]

Well, and the thing of it is that some of them, they go through and they have OEM anyways. They're just giving it at a discounted price.

**LIFT PRO EQUIP** [05:05]

Because they take 10,000 of them.

**Lisa Kleeman** [05:08]

Yeah, because, I mean, what was it? Something might

**Lisa Kleeman** [05:13]

have been this buzzer. I had looked in there. Or no, it was something else. Something else took 37 days. It was on your end. Was it on your end?

**LIFT PRO EQUIP** [05:19]

Wow.

**Lisa Kleeman** [05:27]

Could be. Anyways, took 37-day lead time. And I was like, oh, okay, you know.

**LIFT PRO EQUIP** [05:28]

Wow.

**Lisa Kleeman** [05:33]

Let the customer know, oh, there are other options. I can give you other options. So I punched it in two to four weeks, four to five weeks is what I was getting for everything else. And I'm like, that's going to be 37 days late time. So, I mean, sometimes, you know, they're getting it from them as well. It just takes them a little

**LIFT PRO EQUIP** [05:34]

Oh, what the heck was that? Yes, yes.

**Lisa Kleeman** [05:57]

...but longer because instead of it being direct shipped, you know, at that time or shipping out on that 37th day, they then in turn, you know, have to get it. Then they have to create the part and then they have to, you know, they have to go down through all this stuff too. And sometimes they can't get it. The dealers can't get it and they can't get it either. So...

**LIFT PRO EQUIP** [06:13]

Oh, absolutely.

**LIFT PRO EQUIP** [06:21]

Yeah, our guys, they will \*\*\*\* talk TBH that all their \*\*\*\* parts, their \*\*\*\* parts, and they do it right in front of the customer. And sometimes the customer will still say, I want the cheapest parts. Okay, you know, okay. And then they just act like, you guys don't \*\*\*\*\* sell parts. They're the ones killing us on parts. And we, I can't get it through.

**LIFT PRO EQUIP** [06:47]

Through their \*\*\*\*\* head that we've got a customer in town that orders \$5,000 worth of TVH parts a month.

**Lisa Kleeman** [06:53]

Mm-hmm. Oh. No. No, the only thing that mine have really had a problem with are bearings. And not all. Just some.

**LIFT PRO EQUIP** [06:53]

And they don't have problems. Just once in a while, we've had a problem with a...

**Lisa Kleeman** [07:05]

But other?

**LIFT PRO EQUIP** [07:08]

With brake parts, don't want to fit. And I honestly don't know if those are our guys that are making them not fit or what. Supposedly in the past, they've had brake parts with the shoes that fell off. You know, the pins didn't hold and they fell off. Electrical parts, I'm kind of leery of sometimes. But that's not, you know, anywhere you go.

**LIFT PRO EQUIP** [07:33]

But heck, we just got a bad

**LIFT PRO EQUIP** [07:40]

Toyota alternator, rebuilt alternator, bad from Toyota right out of the box.

**LIFT PRO EQUIP** [07:46]

What do you do? It's a bad part. Everybody's got bad parts. In fact,

**Lisa Kleeman** [07:48]

Yep. Yeah. Everybody does.

**LIFT PRO EQUIP** [07:52]

well, I had ordered some Mitsubishi brake parts from you, OEM, because that's what the customer wanted, three times the price.

**LIFT PRO EQUIP** [08:01]

And I had another customer order the same \*\*\*\*\* parts. I swear to God, same part numbers, everything. They came in, they looked just a little different, but they all fit just fine. They fit into each one of them. I went back and forth and I'm just like, there's no difference here, guys. No difference at all. All right, I've got another phone call here. I got to get to. So...

**Lisa Kleeman** [08:22]

All right.

**LIFT PRO EQUIP** [08:22]

If you'd order that, I'd appreciate it. All right, thanks.

**Lisa Kleeman** [08:24]

Yep, I already did. I figured you gave me a PO number that you needed it,

**LIFT PRO EQUIP** [08:29]

All right. All right, thanks. Yep, bye-bye.

**Lisa Kleeman** [08:30]

so. All right, thanks. Bye.

### AI SUMMARY

The conversation involved Jesse Downey (Parts representative, Rion Equipment) confirming the shipping status of forks with SUDDEN SERVICE, addressing concerns about possible additional charges for shipping.

### FULL TRANSCRIPT

**SUDDEN SERVICE** [00:00]

This call is being recorded.

**Jesse Downey** [00:03]

Rion Equipment, Jesse and Parts.

**SUDDEN SERVICE** [00:06]

Hey, Jesse, this is

**Jesse Downey** [00:07]

Yes.

**SUDDEN SERVICE** [00:08]

Chris. Hey, so on those forks, yeah, both set of forks should have shipped and our shipping department, he's going to get the other set shipped out today.

**Jesse Downey** [00:17]

Gotcha. Is there going to be additional charge now on that shipping?

**SUDDEN SERVICE** [00:24]

I mean, I'm not sure he said that he got the other set there. I mean, was that,

**Jesse Downey** [00:30]

Should have shipped.

**SUDDEN SERVICE** [00:33]

I mean, I'll ask him. I mean, I don't, I mean, that'll be a question I have to

**Jesse Downey** [00:40]

Yeah, just since they should have shipped on the previous orders while I'm asking, as you know. So, alrighty.

**SUDDEN SERVICE** [00:45]

ask. Yeah, sure. Okay.

**Jesse Downey** [00:47]

All the customer know.

**SUDDEN SERVICE** [00:49]

All right. Thank you.

**Jesse Downey** [00:50]

Thank you.

### AI SUMMARY

During the call, Charles Huffman (Sales rep) and Matthew Waisner discussed an issue regarding a Genie lift part number that was not appearing in their system.

### FULL TRANSCRIPT

**WAISNER MATTHEW** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Rion Equipment, this is Charlie.

**WAISNER MATTHEW** [00:06]

Hey, Charlie, Jonah with Odell.

**Charles Huffman** [00:08]

Yeah. Yeah, that part number came up for me.

**WAISNER MATTHEW** [00:13]

Yeah, I don't know if we're looking at, like, all the shit's online, so I don't know why that part number wouldn't pull up. I have a serial number for you.

**Charles Huffman** [00:20]

Yeah.

**WAISNER MATTHEW** [00:26]

Well, it's that GTH080-

**WAISNER MATTHEW** [00:33]

8 alpha is the first part of that. And then it's 12069.

**Charles Huffman** [00:42]

GTH 0808A12069.

**WAISNER MATTHEW** [00:46]

Correct.

**Charles Huffman** [00:50]

Okay.

**Charles Huffman** [00:54]

Let's...

**WAISNER MATTHEW** [00:55]

That's insane. These guys are just blocking the street like \*\*\*\*\* dummies. It doesn't matter. Sorry. It's a weird day.

**Charles Huffman** [01:06]

You

**Charles Huffman** [01:32]

said

**Charles Huffman** [02:01]

this is a genie lift,

**WAISNER MATTHEW** [02:04]

Correct, yep, it's an 844.

**Charles Huffman** [03:02]

right?

**Charles Huffman** [03:16]

GTH 844, serial number,

**Charles Huffman** [04:00]

Well, this is strange that looking at the serial number list here, it skips right over that 0806.

**Charles Huffman** [04:12]

There we go.

**Charles Huffman** [04:17]

And what does this harness control?

**WAISNER MATTHEW** [04:23]

That I don't know.

**WAISNER MATTHEW** [04:26]

I just have a harness for Genie 844, and then that was the part number that was written down for me,

**Charles Huffman** [04:52]

Well, probably gonna have to get some more information then to see if we can figure out where this thing is.

**Charles Huffman** [05:01]

What this part is because the part number is just not coming up for me. Try one more thing here.

**WAISNER MATTHEW** [05:06]

so. Oh, what does it say?

**WAISNER MATTHEW** [05:19]

I'm sorry. This is probably 4-2361GOLF10.

**WAISNER MATTHEW** [05:26]

Pango. No, I'm looking at this. It's probably Jeannie Telehandler, the last two out of \*\*\*\*\* six.

**Charles Huffman** [05:30]

4,

**WAISNER MATTHEW** [05:35]

Yeah, I'm like looking at... He still hasn't pulled up on his computer, so I'm looking through here. I'm like, oh, but his handwriting is substantially worse than the computer.

**Charles Huffman** [05:44]

2,

**WAISNER MATTHEW** [05:46]

And it looks like it's just labeled as Harness Main Power.

**Charles Huffman** [05:51]

3, 6, 1.

**Charles Huffman** [05:57]

Harness main power, look at that.

**WAISNER MATTHEW** [06:03]

It helps if you're working with the right information. I apologize.

**Charles Huffman** [06:05]

That's right. I'm new at this too, so I'm trying to figure out if it's me not putting in the right \*\*\*\* or what the issue might be. All right.

**WAISNER MATTHEW** [06:18]  
We'll get there.

**Charles Huffman** [06:20]  
Okay, they do have them in stock, so I'll get it ordered and...

**Charles Huffman** [06:25]  
We'll get it going for you. All right. Thank you.

**WAISNER MATTHEW** [06:27]  
Okay, perfect.

**WAISNER MATTHEW** [06:31]  
Appreciate it.

**Charles Huffman** [06:32]  
Yep. Bye.

CALL 156 OF 611

**Inbound call from NMC Doniphan Parts - HASTINGS NE**

May 04, 2026 | 02:31 PM | Duration: 1m 41s | From: NMC Doniphan Parts - HASTINGS NE | To: +13088337902

**Inbound** **Positive**

**AI SUMMARY**

Michael Lowe (Ryan Equipment) and Phil (Borleys or CLS) discussed the completion status of an electric forklift that was brought in for service, confirming it was done and ready for pickup.

**FULL TRANSCRIPT**

**Michael Lowe** [00:01]  
This is Michael with Ryan Equipment.

**HASTINGS NE** [00:04]  
Hey, this is Phil with Borleys or CLS up here in Hastings.

**Michael Lowe** [00:09]  
Hey Phil, what's going on?

**HASTINGS NE** [00:10]  
We brought a forklift. Yeah, we brought a forklift in there the other day, a little electric one.

**HASTINGS NE** [00:15]  
Was it done yet or?

**Michael Lowe** [00:18]  
I am not sure off the top of my head. Let me take a look. Kevin just emailed me about some.

**Michael Lowe** [00:33]  
I believe so, yes. He was working on the battery.

**HASTINGS NE** [00:36]

It is done. Yep, they were doing something with the battery. Okay, I'll see if I can get there and get it picked up then.  
Okay, thank you. Bye.

**Michael Lowe** [00:38]  
Yes, it is done.

**Michael Lowe** [00:44]  
Okay, thank you. Bye.

CALL 157 OF 611

**Inbound call from FREMONT NE**

May 04, 2026 | 02:12 PM | Duration: 2m 36s | From: FREMONT NE | To: +14025942063

**Inbound** **Positive**

**AI SUMMARY**

During the call, Brian Lundry from the Fremont Department of Utilities reached out to Jodi Nickell at Rion Equipment regarding a rail mover that was malfunctioning.

**FULL TRANSCRIPT**

**FREMONT NE** [00:00]  
This call is being recorded.

**Jodi Nickell** [00:03]  
Rion Equipment, Omaha. This is Jodi. How may I help you?

**FREMONT NE** [00:07]  
Hey Jodi, this is Brian Lundry, Fremont Department of Utilities.

**Jodi Nickell** [00:10]  
Jodi, Hi.

**FREMONT NE** [00:11]  
That rail mover that keeps throwing the code has now thrown the code again. We're trying to unload the train. I was wondering if you could have somebody out directly to look at it, please.

**Jodi Nickell** [00:15]  
Okay. Hang on one second.

**Jodi Nickell** [00:26]  
Thanks for holding. Yes, I can get someone out to you here in just a little bit.

**FREMONT NE** [00:31]  
OK.

**Jodi Nickell** [00:32]  
Do you know the serial number off that shuttle wagon by chance? That's okay. I can have them get it when they get there.  
And I'm sorry, your name again was? Brian.

**FREMONT NE** [00:37]  
I don't, but I can get it for you.

**FREMONT NE** [00:41]  
Okay. This is Brian, Lundry, L-U-N-D-R-Y.

**Jodi Nickell** [00:49]

And you're their point of contact, right, Brian? Okay. Is the good phone number here the 727-2643?

**FREMONT NE** [00:51]

Yeah.

**FREMONT NE** [00:58]

Actually, my cell phone would be better. It's 402-719-3953.

**Jodi Nickell** [01:06]

Okay. Okay. What's your address out there?

**FREMONT NE** [01:08]

2701 East First Street.

**Jodi Nickell** [01:13]

Fremont and...

**Jodi Nickell** [01:24]

A good email address for you, Brian.

**FREMONT NE** [01:30]

BRIAN.LUNDRY, L-U-N-D-R-Y,

**FREMONT NE** [01:35]

@FREMONTNE.gov.

**Jodi Nickell** [01:42]

Perfect. Yeah, they actually had just gotten back to the shop, so I think once they're done ordering parts for their last service call, they'll be en route to you.

**FREMONT NE** [01:50]

Okay. Do you want me to email you off of the same email chain we had last time to make sure my email is correct?

**Jodi Nickell** [01:58]

Sure. Yeah, that'd be fine.

**FREMONT NE** [02:01]

Okay. Thank you. Bye.

**Jodi Nickell** [02:02]

All right. Thank you. Bye.

### AI SUMMARY

Randy from Cardinal Tool and Die reached out to inquire about the status of his forklift service, which was expected to be completed shortly after it was picked up a couple of weeks ago, and he requested a callback for an update.

FULL TRANSCRIPT

**Michael Lowe** [00:00]

Hello, this is Michael with Rion Equipment in Lincoln and Donovan, Nebraska. I'm unable to answer the phone right now. If you need immediate attention, feel free to call the front office at 402-474-5566. If it's not immediate, you can leave a voicemail, and I will get back to you as soon as possible. Thank you. Bye.

**KATHMAN RANDALL** [00:05]

I'll go get this right now.

**KATHMAN RANDALL** [00:28]

Yeah, this is Randy with Cardinal Tool and Die. You guys picked up one of my forklifts a couple weeks ago. They said they thought I'd be done in just a couple days, and so I was just calling to check on status of that. If you could give me a call back at 308.

**KATHMAN RANDALL** [00:47]

390-4208. I would appreciate it. Thank you.

Inbound

Positive

### AI SUMMARY

The conversation involved Gustin Kelvin checking on a battery he needed, while Derrick Dea assured him that the correct one would be prepared for pickup.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Rion Equipment, Omaha. This is Derrick. Good.

**GUSTIN KELVIN** [00:06]

Good morning, Derrick. How are you doing today?

**GUSTIN KELVIN** [00:10]

Good. Hey, I forgot to pick up that battery. Is that battery setting out for echo?

**GUSTIN KELVIN** [00:20]

I know it's on a work order, but I don't think it's been pulled.

**Derrick Dea** [00:23]

Yeah, I'll just tell Richard and I'll fill the PO and take it, make sure it's the right one before I fill it.

**GUSTIN KELVIN** [00:24]

I got to come back and get that.

**GUSTIN KELVIN** [00:32]

Oh, I thought it... Yeah.

**Derrick Dea** [00:32]

I think it's the right one. It's on there.

**GUSTIN KELVIN** [00:36]

Yeah, it's got a...

**GUSTIN KELVIN** [00:39]

What is it? A 563-6055 cat battery in

**Derrick Dea** [00:45]

Well, I don't... It's just going to have to be the configuration of the post and the size. I don't... Those crosses aren't in there. Just look at it and grab the one you think it is, and we'll go from there. All right.

**GUSTIN KELVIN** [00:51]

it. Okay. Well, I'll take a picture.

**GUSTIN KELVIN** [00:57]

I'll take a pic. Better yet, I'll just bring it back with me. All

**Derrick Dea** [01:00]

Yep, that'll work.

**GUSTIN KELVIN** [01:02]

right. Thanks, Derrick. Bye.

**Derrick Dea** [01:03]

Yep. Bye.

## AI SUMMARY

Keith (Customer, Caller) reached out to Todd Babka (Sales rep) to find a starter for a GP30, and Todd provided information on availability and pricing, indicating a potential next-day pickup.

## FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Todd Babka** [00:05]

Farts, it's Todd.

**WIRELESS CALLER** [00:07]

Hi, Todd. Keith here. How you doing?

**Todd Babka** [00:09]

Good, you Keith?

**WIRELESS CALLER** [00:11]

Pretty good. I'm looking for a starter

**WIRELESS CALLER** [00:15]

for a GP30.

**Todd Babka** [00:16]

Okay.

**WIRELESS CALLER** [00:20]

The cereal is a 7-Alpha-Mama-04107.

**Todd Babka** [00:31]

Okay. Take a

**Todd Babka** [00:42]

look here.

**WIRELESS CALLER** [00:46]

Cool.

**Todd Babka** [00:52]

Come

**Todd Babka** [00:57]

on, mouse. Work with me.

**Todd Babka** [01:21]

Some screens open here.

**Todd Babka** [02:13]

234.40, it's new, and I've got a couple in Omaha.

**WIRELESS CALLER** [02:20]

You have one in stock and a couple in Omaha or that's just your Omaha own?

**Todd Babka** [02:25]

I don't have any in Donovan.

**WIRELESS CALLER** [02:28]

Okay, couple in Omaha, 234.

**Todd Babka** [02:29]

I just have, I got a couple in Omaha, one in North Platte, and the others are out-of-state stores.

**WIRELESS CALLER** [02:38]

All right, so it'll be a tomorrow thing.

**Todd Babka** [02:41]

Yep, it would be.

**WIRELESS CALLER** [02:41]

All right, let me, I'm just trying to see if I can, if there's a chance I can track one down here today. I'll give you a shout back if we can.

**Todd Babka** [02:50]

All righty, sounds good.

**WIRELESS CALLER** [02:52]

All right. Thanks,

**Todd Babka** [02:53]

All right. You bet. Thanks, Keith. Have a good day.

**WIRELESS CALLER** [02:56]

Todd. All right. You too. Bye-bye.

**Todd Babka** [02:57]

You bet. Bye-bye.

### AI SUMMARY

Nick called Derrick (Sales rep) to check on the status of Kelvin's items, to which Derrick provided an update about their expected arrival time at H&H; parts department and delivery options.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Derrick Dea** [00:04]

- Ryan Equipment, Omaha, this is Derrick. - Good.

**OMAHA NE** [00:07]

Hey, Derrick, it's Nick, how you doing,

**OMAHA NE** [00:11]

man? Hey, just checking to see how we ended up coming with Kelvin's stuff.

**Derrick Dea** [00:17]

- Well, I just got here, so I haven't checked on anything yet. But from what I told you Friday, it's supposed to be here sometime 10:30, it's supposed to be at H&H parts department. They can either pick it up or have them deliver it, whichever they decide to do.

**Derrick Dea** [00:34]

That was the last I heard, but I haven't heard anything today yet.

**OMAHA NE** [00:39]

Yeah, okay, yeah, I wasn't sure.

**Derrick Dea** [00:42]

All right. Yep. Bye.

**OMAHA NE** [00:42]

All right, cool, Derrick, appreciate

**OMAHA NE** [00:45]

it. Yeah, we'll see you, bye.

## Inbound call from KINNEY WILLIAM

May 01, 2026 | 08:49 PM | Duration: 1m 4s | From: KINNEY WILLIAM | To: +14025942051

Inbound

Neutral

### AI SUMMARY

Kinney William reached out to Derrick Dea (Parts) regarding the availability of roller bearings for Taylor Communications' primary lift chains, and Derrick promised to check on it and call back with information.

### FULL TRANSCRIPT

**KINNEY WILLIAM** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Parts, Derrick. Parts,

**KINNEY WILLIAM** [00:05]

Hey, Derrick, it's Sid. Hey, I don't have my pro and everything loaded up, but there's a call for Taylor Communications.

**KINNEY WILLIAM** [00:15]

I need the rollers for the primary lift chains.

**Derrick Dea** [00:19]

Derrick.

**KINNEY WILLIAM** [00:24]

I need those roller bearings.

**Derrick Dea** [00:29]

Two. Alrighty. I don't know, I gotta look them up. I don't know.

**KINNEY WILLIAM** [00:39]

Do we have them on hand by chance?

**KINNEY WILLIAM** [00:44]

Okay, because I have to call the guy back here in a minute and I'll let him know.

**Derrick Dea** [00:49]

Well, I'll have to look up. Look them up quick, I guess. Let you know. Alrighty. Bye.

**KINNEY WILLIAM** [00:53]

Okay. I don't know if you want to give me a call back or...

**KINNEY WILLIAM** [00:57]

All right. Cool. Thank you.

## Inbound call from GUSTIN KELVIN

May 01, 2026 | 08:21 PM | Duration: 1m 28s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Positive

### AI SUMMARY

The conversation involved Gustin (Customer) relaying specific part orders for Echo, while Derrick (Representative) confirmed receipt and understanding of the requests.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:05]

How's it going today?

**Derrick Dea** [00:06]

Yes? Alright, what's up?

**GUSTIN KELVIN** [00:08]

Echo.

**Derrick Dea** [00:09]

Echo? Echo! Echo!

**GUSTIN KELVIN** [00:11]

Yeah.

**GUSTIN KELVIN** [00:14]

So I got a couple work orders open for Echo. One is for a Princeton that we did them fittings for.

**Derrick Dea** [00:14]

Okay. Mm-hmm.

**GUSTIN KELVIN** [00:22]

I need to get some lift cylinder seal kit going for it. I don't have any of my information.

**Derrick Dea** [00:30]

Okay. Okay. Yeah. Okay.

**GUSTIN KELVIN** [00:30]

I need a segment two for the lift cylinder and I need a steel kit ordered for it. And then that one for the radiator,

**GUSTIN KELVIN** [00:39]

I need that lower hose clamp, one of the big clamp hoses, and I need the transmission cooler lines and little short ones

**GUSTIN KELVIN** [00:48]

and some hose clamps. And I'm probably going to need a couple gallons of antifreeze, green.

**Derrick Dea** [00:51]

Alright. Alright, will do. Yep. Bye.

**GUSTIN KELVIN** [00:56]

But I can't do any more today anyways because we got it out, but I'm as far as I can go. It's kind of hard to work with a pair of pliers and a hammer.

**GUSTIN KELVIN** [01:11]

Thank you, sir. Bye.

AI SUMMARY

POMPEI CARLOS (Caller) contacted Matt Wagner (Sales rep) to discuss transportation services for heavy equipment, but Matt informed him that they are currently well set up and do not need additional services.

FULL TRANSCRIPT

**POMPEI CARLOS** [00:00]

This call is being recorded.

**Matt Wagner** [00:04]

Brian Equipment, this is Matt. How can I help you?

**POMPEI CARLOS** [00:07]

Matt, this is Lex. So I'm reaching out because I provide transportation for heavy equipment and machines and was wondering if that's something you guys could also benefit from. OK, OK.

**Matt Wagner** [00:20]

Oh, not right now. We're actually pretty set up on trucking, but I sure appreciate it.

**POMPEI CARLOS** [00:30]

I would understand. Absolutely, Matt. But how do you do? Do you do it with brokers or do you have your own trucks? Oh, okay. And Matt, do you think it would hurt if I were to send you my email just so you have it on your roster whenever...

**Matt Wagner** [00:36]

A little bit of both. We just got some trucks, we got some brokers, and then we also have some local haulers that we use.

**Matt Wagner** [00:49]

You know, I sure appreciate it, but I'm all right right now. Thank you, though, sir. Take it easy.

**POMPEI CARLOS** [00:54]

No, no, definitely sounds like it. Matt?

CALL 166 OF 611

## Inbound call from WIRELESS CALLER

May 01, 2026 | 07:40 PM | Duration: 3m 19s | From: WIRELESS CALLER | To: +14025942063

Inbound

Positive

### AI SUMMARY

The conversation involved a customer reporting a missing segment in their service call for a fan replacement.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Yes? Hi.

**WIRELESS CALLER** [00:09]

Hey. So I'm missing a segment on my service call 801-666.

**WIRELESS CALLER** [00:19]

Segment one should have been replace fan.

**Jodi Nickell** [00:23]

It says,

**WIRELESS CALLER** [00:24]

I got all the parts, but I don't see the segment.

**Jodi Nickell** [00:27]

well, it's in finished status. Do you want me to reopen it?

**WIRELESS CALLER** [00:33]

See, I reopened it.

**Jodi Nickell** [00:34]

Okay. So you should see it if you have five.

**WIRELESS CALLER** [00:48]

Huh. I wonder how it got there.

**Jodi Nickell** [00:51]

I don't know.

**WIRELESS CALLER** [00:52]

I must have hit, I must have mistaken to close it because there's no time, no part, no time, no, no.

**Jodi Nickell** [00:58]

Yeah, I see that.

**WIRELESS CALLER** [01:00]

So I

**WIRELESS CALLER** [01:02]

also need, ooh, I dropped a marshmallow. Darn it? Marshmallow. I make my own

**Jodi Nickell** [01:05]

A marshmallow? Where are you at?

**WIRELESS CALLER** [01:11]

trail mix and I put marshmallows in it.

**Jodi Nickell** [01:14]

Sometimes I do my own trail mix with graham crackers and broken up Hershey bar pieces and marshmallows.

**WIRELESS CALLER** [01:15]

I'm at GOP.

**Jodi Nickell** [01:23]

Because I'm four.

**Jodi Nickell** [01:29]

Okay, you're a GOP.

**WIRELESS CALLER** [01:32]

I'm at GOP.

**WIRELESS CALLER** [01:35]

And

**WIRELESS CALLER** [01:38]

I broke the sensor on segment two, so I'm going to need a segment four

**WIRELESS CALLER** [01:43]

to order another sensor.

**WIRELESS CALLER** [01:50]

It's on me because I broke it.

**Jodi Nickell** [01:52]

That's fine. So I'll just service policy it.

**Jodi Nickell** [02:01]

Okay.

**Jodi Nickell** [02:09]

Replace sensor, take two.

**Jodi Nickell** [02:19]

Okay. You should see it right now if you have five.

**WIRELESS CALLER** [02:30]

There it is.

**Jodi Nickell** [02:32]

Okay, and I'm going to switch that to a policy segment,

**Jodi Nickell** [02:37]

so. And you should be good to go.

**WIRELESS CALLER** [02:42]

Thank you very much. Can you switch me over to Derek Day, please?

**Jodi Nickell** [02:45]

Derek Day.

**Jodi Nickell** [02:48]

Yes, he's been transferring me calls all day. It's about time I get to return the favor.

**Jodi Nickell** [02:55]

Hang

**Jodi Nickell** [02:58]

on.

**Jodi Nickell** [03:02]

Thank you.

---

So I have the feed house 2.

**FAULKNER ARCHIE** [00:15]

I don't know if you have them listed that way or not, but I think they're all, I'm pretty sure they're all the exact same. I need the train brake lever for on the dash, for on the console.

**Jesse Downey** [00:20]

I don't.

**Jesse Downey** [00:30]

All right, for the terrain break, you said?

**FAULKNER ARCHIE** [00:36]

The spring's broke in it and it doesn't return back up.

**Jesse Downey** [00:40]

Oh, yeah, that's not good.

**Jesse Downey** [00:49]

You said it's for the feed house.

**Jesse Downey** [00:54]

All right, let's note that.

**Jesse Downey** [00:57]

All righty. Did you get everything else?

**FAULKNER ARCHIE** [01:01]

I haven't got everything yet. I assume there's more coming. Okay, who ordered, Mike ordered that?

**Jesse Downey** [01:04]

Okay, well.

**Jesse Downey** [01:06]

Yeah, he ordered another set of the tire sensors in that other switch, too. So he got a double order of that one. He

**FAULKNER ARCHIE** [01:24]

Mike, you said Mike ordered that you said? Okay. All right. What it is, what it is. All right. Yeah, I got some of it, but not all of it, so. Monday. Monday.

**Jesse Downey** [01:25]

said go ahead and send...

**Jesse Downey** [01:28]

Correct, yep, he said go ahead and send another order of one of those. I said okay, will do.

**Jesse Downey** [01:44]

Alrighty, if not, you should see it all, you know, by the beginning of next week, I assume.

**FAULKNER ARCHIE** [01:49]

All right, sounds good. All right, you as well.

**Jesse Downey** [01:51]

Yeah. Alright, have a good weekend.

**Jesse Downey** [01:54]

Alright, bye-bye.

**FAULKNER ARCHIE** [01:55]

Bye.

### AI SUMMARY

Dan (Customer, Caller) reported a dead zone that caused issues with sending messages, but Kristi Johnson (Company Representative) acknowledged and assured him that it was not a problem.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**OMAHA NE** [00:06]

Hello, this is Dan. The only reason I sent you two texts was I sent the picture first, and it's an absolute dead zone in there, and it said failed to send or whatever, so I sent an actual text text. That's the only reason why I went two of them.

**Kristi Johnson** [00:19]

Uh-huh. Oh. Okay.

**Kristi Johnson** [00:23]

Nope, that's fine. That worked.

**OMAHA NE** [00:25]

And then as soon as I get out of the building, it sends them both.

**Kristi Johnson** [00:29]

Well, you're being extra careful, so that worked. Alrighty. I got it. Yep, no problem. Talk to you later. Bye.

**OMAHA NE** [00:33]

Yep, yep.

**OMAHA NE** [00:36]

Cool, thank you.

**OMAHA NE** [00:39]

Yep. Yep, later.

### AI SUMMARY

In a brief exchange, Nate Ross (Ryan Equipment Parts) informed the caller, Jordan, about the unavailability of Victoria and the temporary absence of Michael, while addressing concerns about a customer's difficulty in reaching someone due to an outdated number.

### FULL TRANSCRIPT

**KEARNEY NE** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Ryan Equipment Parts, Nate.

**KEARNEY NE** [00:06]

Hey Nate, Jordan here. How's it going?

**Nate Ross** [00:09]

Good, how you doing,

**KEARNEY NE** [00:11]

Good, good. Hey, is Victoria off today or...

**Nate Ross** [00:15]

man? She is, yeah, she took off at noon today.

**KEARNEY NE** [00:18]

Okay. Is Michael there in the office?

**Nate Ross** [00:21]

I think he's here somewhere.

**KEARNEY NE** [00:24]

I called his cell phone and he just...

**Nate Ross** [00:25]

He might, well, I don't think he's in his office, though. I know he's here, but he's not. No, he's in the restroom, that's why. So, I can have him give you a call when he gets out.

**KEARNEY NE** [00:31]

Oh, okay.

**KEARNEY NE** [00:34]

Yeah, I'll just type, there's a customer that's been trying to get a hold of somebody and of course Victoria's phone goes straight to voicemail and this guy had Darren Bush's old number and apparently that number goes nowhere, which

**Nate Ross** [00:49]

Yeah, but, yeah. No, I'll have him,

**KEARNEY NE** [00:51]

I would think

**Nate Ross** [00:54]

but I can have him give you a call when he gets out.

**KEARNEY NE** [00:54]

is, I

**KEARNEY NE** [00:57]

think, yeah, I'll, yeah, you just mentioned that I called, I'm going to send him a text here, I guess.

**KEARNEY NE** [01:03]

So, anyway, thanks, Nate. I appreciate it. Yeah, bye.

**Nate Ross** [01:05]

OK. Will do. Hey, no problem. No problem, man. Goodbye.

### AI SUMMARY

The conversation involved a caller reporting a leak in a truck and their inability to address it due to imposed restrictions.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Ryan Equipment. How may I help you?

**WIRELESS CALLER** [00:07]

Well, what I was trying to avoid is now happening.

**Shelby Lathrum** [00:12]

What might that be?

**WIRELESS CALLER** [00:12]

I'm not allowed to touch nothing for three weeks.

**Shelby Lathrum** [00:16]

Huh. Yeah. Do you have to stay home?

**WIRELESS CALLER** [00:18]

But

**Shelby Lathrum** [00:22]

Okay.

**WIRELESS CALLER** [00:23]

I just got a message from Nick at Winfield.

**WIRELESS CALLER** [00:29]

And the \*\*\*\* truck had sprung, looks like a...

**Shelby Lathrum** [00:29]

Nick?

**WIRELESS CALLER** [00:36]

It's red, it looks like transmission fluid, but the photo he sent me looks like either one of the hoses for the...

**WIRELESS CALLER** [00:45]

Uh, steering box, so the steering box is leaking.

**Shelby Lathrum** [00:49]

Okay. Mike's going up there Monday because fork truck number nine is leaking oil.

**WIRELESS CALLER** [01:00]

What the \*\*\*\*?

**Shelby Lathrum** [01:02]

Yeah. So I'll get this opened up to Mike as well.

**WIRELESS CALLER** [01:05]

Is that one, maybe I didn't,

**WIRELESS CALLER** [01:08]

maybe I messed up one of the hoses. I don't know if that's one I did hoses on or not.

**Shelby Lathrum** [01:13]

It is.

**Shelby Lathrum** [01:15]

But we don't know yet. We'll find out.

**Shelby Lathrum** [01:18]

I'll get it open for this \*\*\*\* truck to Mike for a leak possible steering box.

**WIRELESS CALLER** [01:21]

I don't know if

**WIRELESS CALLER** [01:28]

it, okay, yeah, I'll let you know.

**Shelby Lathrum** [01:31]

Okie dokie. Sounds good.

**WIRELESS CALLER** [01:33]

Oh, thanks.

**Shelby Lathrum** [01:34]

Yeah, thank you.

**Shelby Lathrum** [01:36]

Bye.

CALL 171 OF 611

## Inbound call from ORTONVILLE MN

May 01, 2026 | 05:37 PM | Duration: 6m 58s | From: ORTONVILLE MN | To: +13203427815

Inbound

Positive

### AI SUMMARY

The conversation centered around Miranda Wright (Sales rep) seeking clarification on a customer inquiry from Danny Litzinger about EcoPalette's Ryan Burke's request for a pedal accelerator assembly.

### FULL TRANSCRIPT

**ORTONVILLE MN** [00:00]

This call is being recorded.

**Miranda Wright** [00:04]

Rion Equipment, it's

**ORTONVILLE MN** [00:06]

Hi, Miranda, it's

**Miranda Wright** [00:08]

Miranda. Oh, hi, boo.

**ORTONVILLE MN** [00:10]

Bill. I never know which you prefer, the desk phone or cell. So I always just start with the desk phone.

**Miranda Wright** [00:16]

Oh,

**Miranda Wright** [00:19]

no, that's fine.

**ORTONVILLE MN** [00:21]

I just read your text message.

**ORTONVILLE MN** [00:25]

So give me a little background. Who's the customer? Do you know?

**Miranda Wright** [00:29]

Yeah, okay, so Forrest sent, Forrest forwarded me an email from Danny Litzinger. Let me see. He works with Rion Equipment, too, but I just don't know what location he's at, so I'm going to...

**Miranda Wright** [00:44]

Sorry, it's a girl. I'm so sorry.

**ORTONVILLE MN** [00:47]

That's right.

**Miranda Wright** [00:51]

Let me just see where...

**Miranda Wright** [00:57]

Okay. So, yeah, Danny from St. Louis sent Forrest an email in regards to a customer named Ryan Burke with EcoPalette in Wisconsin.

**Miranda Wright** [01:13]

HE'S LOOKING FOR A PEDAL ACCELERATOR ASSEMBLY. AND SHE SAID HE IS NOT LOCATED IN OUR TERRITORY AND I'M TRYING TO GET HIM IN TOUCH WITH WHO IS. AND THEN SHE PUT ALL HIS CONTACT INFORMATION DOWN BELOW AND THEN SENT IT TO FOREST FOR A YOUNG HENRIK UNIT. AND THEN FOREST CALLED RYAN ASKING RYAN IF WE CAN SELL PARTS

**Miranda Wright** [01:39]

TO A CUSTOMER IN WISCONSIN. AND THEN I WAS LIKE, I THINK SO. I DON'T SEE WHY NOT. BUT I WAS LIKE, I JUST WANT TO CONFIRM WITH YOU, BEFORE I CONTACTED RION WITH ECOPALATE, IT WAS LIKE, IT'S RYAN BURKE, CEO, ECOPALATE.

**ORTONVILLE MN** [01:52]

Okay. Right.

**ORTONVILLE MN** [02:02]

Okay.

**Miranda Wright** [02:03]

And I looked up the company too.

**ORTONVILLE MN** [02:09]

Does it look like a large company? Probably not.

**Miranda Wright** [02:12]

No, it's not. Really, there's like really not too much to their website. Just says call this number, you know, for pricing availability and then has like a list of different sizing of pallets.

**Miranda Wright** [02:28]

And then at the bottom it says an address and it has two phone numbers or has a phone and a fax. And that's pretty much

**Miranda Wright** [02:35]

it to their website.

**ORTONVILLE MN** [02:38]

Okay. How much is the part?

**Miranda Wright** [02:41]

So the part, one second, I'm punching the part again.

**Miranda Wright** [02:49]

So the pedal accelerator assembly, their cost is \$634.55.

**ORTONVILLE MN** [02:58]

Okay. So the reason I'm asking so many questions and

**ORTONVILLE MN** [03:03]

We'll just kind of say this generically. So Minnesota, you've got Wiese. Wiese covers all of Minnesota for Cat and Young Heinrich. And they cover part of Wisconsin, the western part of Wisconsin. Walter's Lift Truck covers the...

**ORTONVILLE MN** [03:25]

Other side of Wisconsin for Cat, or I'm sorry, for Young Heinrich. Then Equipment Depot also covers Cat and Young Heinrich for Wisconsin as well. So Wisconsin's got some weird coverages. And

**ORTONVILLE MN** [03:45]

Technically, we, our location, can't sell CAT and Young Heinrich part numbers to anybody in the territory. Now, again, that's from a high level. Now, somebody like this, that's why I was digging for all the information. If it's just a smaller customer, one-off, and they're

**ORTONVILLE MN** [04:08]

And nobody's going to care. You know what I mean? The only time that we would get in trouble is if, like, we were going after a big customer, a big account, and trying to sell parts that way. Then people would get \*\*\*\*\* off. But, like, in this case...

**Miranda Wright** [04:25]

Okay.

**ORTONVILLE MN** [04:26]

It's not going to be a big deal. I would say go ahead and call that customer and say give them the price and availability and just tell them obviously it's a credit card sale because there's no account set up. And yeah, we can sell to them. It's not the end of the world.

**Miranda Wright** [04:48]

Okay, but usually like if we're not in their territory technically if it's a bigger company we're not supposed to.

**ORTONVILLE MN** [04:54]

Yeah, Minnesota and Wisconsin are a little bit weird. So you wouldn't be able to sell like, you know, I know, again, it gets a little crazy, but you wouldn't be able to sell a Young Heinrich specific. We could sell rapid parts or...

**ORTONVILLE MN** [05:12]

Logisnex parts, the ones that start with like an A, 000, we could sell those all day long anywhere we want. But where it gets a little iffy is if it's truly a Young Heinrich number, like a 509 or 91 Edward, CAT numbers, those get a little bit iffy.

**ORTONVILLE MN** [05:35]

And it only, again, it would only be an issue if it was a larger customer that, you know, the other dealer would feel like we're just stealing the business from them. It's not the case here. We're just, we're helping them out and we're selling apart. It doesn't, it's not a big deal.

**Miranda Wright** [05:35]

Okay.

**Miranda Wright** [05:55]

Okay, perfect. So I, yes that does make sense. Yeah, because I was like it gets a little confusing too especially when, when, cat.

**ORTONVILLE MN** [05:57]

Does that make sense?

**ORTONVILLE MN** [06:02]

It does, right. Yeah. So that's why, you know, a lot of times it's kind of just by the details, you know, let's look at the details and if it's a harmless just taking care of the customer and we're not stealing anything, when I say stealing, like stealing accounts,

**ORTONVILLE MN** [06:23]

FROM WESE OR ANYBODY ELSE, IF IT'S JUST HELPING THE CUSTOMER, THEN SO BE IT. BECAUSE WE'LL PROBABLY NEVER HEAR FROM THIS PERSON AGAIN. WE'RE JUST TAKING CARE OF THEM.

**Miranda Wright** [06:35]

Okay, gotcha, no that makes sense. I appreciate it.

**ORTONVILLE MN** [06:39]

YEAH, OF

**Miranda Wright** [06:40]

All right, I will give the customer call then.

**ORTONVILLE MN** [06:44]

COURSE. OKAY, SOUNDS GOOD.

**Miranda Wright** [06:45]

All right. Thank you,

**ORTONVILLE MN** [06:47]  
YEP, YOU BET.

**Miranda Wright** [06:48]  
Bill. All right. Bye-bye.

CALL 172 OF 611

**Inbound call from GUSTIN KELVIN**

May 01, 2026 | 05:37 PM | Duration: 2m 14s | From: GUSTIN KELVIN | To: +14025942051

**Inbound** **Negative**

**AI SUMMARY**

Gustin (Customer) called to discuss an issue with a harness that is only sold with a whole fan assembly, leading to frustration over costs.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

This number. Derrick, well, the harness doesn't work.

**Derrick Dea** [00:03]

Parts, Derrick.

**Derrick Dea** [00:06]

Yeah.

**Derrick Dea** [00:13]

Okay.

**GUSTIN KELVIN** [00:14]

But you got to buy the whole frickin' fan assembly. That's what you got to do to get the harness.

**GUSTIN KELVIN** [00:22]

Is there a way that you can cross this number?

**GUSTIN KELVIN** [00:27]

Ready for the part number?

**Derrick Dea** [00:28]

Okay.

**Derrick Dea** [00:39]

I'll try Napa.

**GUSTIN KELVIN** [00:41]

97668320. So that's a whole fan assembly. They do have one in, what do you say, Dearborn, Michigan? Yeah, Michigan. They do have one, but it's seven to 10 days out.

**GUSTIN KELVIN** [00:54]

It's available, but they don't know.

**GUSTIN KELVIN** [00:59]

So he gave me the part number and see what we can do. He said, you might be able to find one.

**GUSTIN KELVIN** [01:04]

FROM AN AUTO PARTS STORE.

**GUSTIN KELVIN** [01:08]

BUT THAT HARNET THAT WE NEED IS SOLD WITH THE FAN CLUSH, NOT SOLD SEPARATE.

**Derrick Dea** [01:19]

Alrighty. That's up to you. I did all I can do. I'll check on this. It's above me now. It's in management hands now, what they're going to do. That's up to John and Nick.

**GUSTIN KELVIN** [01:20]

WE'RE GONNA COME BACK THAT WAY? HOW'S THAT SOUND?

**GUSTIN KELVIN** [01:24]

SHOULD I CALL IT A DAY?

**GUSTIN KELVIN** [01:29]

I KNOW, YOU'VE DONE A FINE JOB. YOU'VE DONE A FINE JOB.

**GUSTIN KELVIN** [01:35]

ME TOO.

**GUSTIN KELVIN** [01:37]

Yeah, they want \$539.16 for that frickin' thing. That's a

**Derrick Dea** [01:44]

Alright. Upstairs. Yeah. Alrighty. Alrighty. Alright. Will do. Bye.

**GUSTIN KELVIN** [01:45]

lot. Yeah. John's not here, and Nick's probably in a dozen different ways. Oh, he is?

**GUSTIN KELVIN** [01:52]

Well, we'll find out what they want to do.

**GUSTIN KELVIN** [01:56]

See what you can do with that part number from NAP or somebody. Let us know. Bye.

**AI SUMMARY**

Cooper Patrick called to address an issue with service call 803-701 for Williams Manufacturing, and Shelby Lathrum promptly resolved the assignment confusion during the conversation.

**FULL TRANSCRIPT**

**COOPER PATRICK** [00:00]  
This call is being recorded.

**Shelby Lathrum** [00:03]  
Thank you for choosing Rion Equipment. How may I help you?

**Shelby Lathrum** [00:08]  
Hi, Alden.

**COOPER PATRICK** [00:10]  
Hey, I don't see service call 803-701 open to me.

**COOPER PATRICK** [00:16]  
A rental for Williams Manufacturing?

**Shelby Lathrum** [00:21]  
Let me take a look,

**Shelby Lathrum** [00:25]  
see. Did Adam

**Shelby Lathrum** [00:33]  
send you up there?

**COOPER PATRICK** [00:37]  
I can't hear you.

**Shelby Lathrum** [00:37]  
Or did I attach you to that?

**Shelby Lathrum** [00:41]  
Did he send you up there or did I attach you to the

**COOPER PATRICK** [00:45]  
My parts were on my bench. I know me and him talked about it,

**Shelby Lathrum** [00:51]  
email? Okay.

**COOPER PATRICK** [00:51]

what was that, a couple days ago? And he's like, well, we're waiting on hoses.

**Shelby Lathrum** [00:55]

Okay. He... Ah, yeah. He just didn't assign you to it. I'm getting you put on it right now.

**COOPER PATRICK** [00:56]

I'm like, okay. I think you were gone that day.

**Shelby Lathrum** [01:06]

Okie doke, you should see it in a second. Yep, no problem. Alright, bye.

**COOPER PATRICK** [01:06]

Thank you. All right. All right. Bye.

Positive

### AI SUMMARY

The conversation involved Todd from Gilcrest discussing a parts order with Kent Stewart (Parts Representative, Rion Equipment), where they confirmed shipping arrangements and a Purchase Order for the items requested.

### FULL TRANSCRIPT

**GILCREST JEWETT** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing Rion Equipment. This is Kenton Parts. How may I help you?

**GILCREST JEWETT** [00:08]

Hey Kent, it's Todd at Gilchrist. How you doing?

**Kent Stewart** [00:10]

Not too bad. Did you get my quote?

**GILCREST JEWETT** [00:13]

I did. I did. Whatever you got to do, I guess, go ahead and just ship them to me.

**Kent Stewart** [00:13]

Okay. Cool.

**Kent Stewart** [00:20]

Okay.

**GILCREST JEWETT** [00:21]

If you want to just get them all from one place, that's fine. And just ship them to me, that'd be great.

**Kent Stewart** [00:26]

Oh, okay. All right, because I've got some, Omaha's got some, North Platte's got some, and OEM's got some. I'm doing everything from one place.

**GILCREST JEWETT** [00:33]

If you could, you just won't, that'd be fine.

**Kent Stewart** [00:35]

All right.

**Kent Stewart** [00:36]

Okay, what PO am I going to use?

**GILCREST JEWETT** [00:40]

How about a TSF-101-787?

**Kent Stewart** [00:49]

Tango Sierra, Foxtrot, 101787. All right, I'll ask that everything be shipped from the OEM. Tuesday? It should be there Tuesday,

**GILCREST JEWETT** [00:55]

That is correct,

**GILCREST JEWETT** [01:03]

sir. That's fine. Appreciate it.

**Kent Stewart** [01:04]

sir. You bet, sir. Thank you.

**GILCREST JEWETT** [01:06]

Thanks, Kent. Yep. Bye.

## AI SUMMARY

Jim from AVOCA Building reached out to Jodi (Representative, Rion Equipment) concerning a service invoice for warranty work that had not been completed satisfactorily.

## FULL TRANSCRIPT

**AVOCA BUILDING** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion Equipment, Omaha. This is Jodi. How may I help you?

**AVOCA BUILDING** [00:03]

Hey, morning, Jodi, Jim at AVOCA Building in AVOCA, Iowa. Hey, Jodi, just received a service invoice in the mail here. I'm going to give you that service invoice number.

**Jodi Nickell** [00:16]

Give me one second here.

**Jodi Nickell** [00:22]

Okay, I'm ready.

**Jodi Nickell** [00:33]

Okay.

**AVOCA BUILDING** [00:33]

INV774636. And Jodi, this should have been warranty work. I had this same thing put on back in December. I called in January that we had a problem that the new one they put on was just free spinning. Took Calvin about two and a half months to get out of here after they got it.

**AVOCA BUILDING** [00:50]

And they just put it on the other day, but I just had this put on in December and it failed right away. And I can give you that invoice from December also.

**Jodi Nickell** [01:01]

Okay, give me just a second here.

**Jodi Nickell** [01:06]

I'm

**Jodi Nickell** [01:14]

just going to print this one off.

**AVOCA BUILDING** [01:19]

I don't

**AVOCA BUILDING** [01:26]

have a paper tape. I

**AVOCA BUILDING** [01:29]

don't have a paper

**AVOCA BUILDING** [01:32]

tape. Let me see what y'all are showing here.

**AVOCA BUILDING** [01:43]

Well, that's fine. No, I understand.

**Jodi Nickell** [01:49]

Sorry, my computer is moving pretty slow here.

**Jodi Nickell** [02:02]

Like really slow. It's still just spinning at me.

**AVOCA BUILDING** [02:07]

I think you can. I think you can.

**Jodi Nickell** [02:13]

Yeah, you can do it.

**Jodi Nickell** [02:25]

Oh, come on, PRO.

**Jodi Nickell** [02:31]

It's like it knows when you're on the phone.

**AVOCA BUILDING** [02:38]

Hey James, on the

**AVOCA BUILDING** [02:48]

tape on it, I've got the tape separate, is that alright?

**AVOCA BUILDING** [02:56]

You okay with that? Okay, do you want AVO?

**Jodi Nickell** [03:04]

Well, I apologize because this thing is still spinning.

**Jodi Nickell** [03:10]

I might have to reboot it. Do you want me to call you right back? Sure. Yeah.

**AVOCA BUILDING** [03:17]

Sure, do you want me to give you the other number just so that way you can pull it off to look at it before you call me back?

**AVOCA BUILDING** [03:24]

Okay, so the original where the repair was done is on invoice number, INV, 752427.

**Jodi Nickell** [03:35]

Okay. And then what's the...is it 712-343-6323?

**AVOCA BUILDING** [03:36]

You are correct.

**Jodi Nickell** [03:45]

436323. And what was your name again? Jim. Okay.

**AVOCA BUILDING** [03:47]

Jim. Okay. Okay. Thanks, Jodi.

**Jodi Nickell** [03:51]

Give me a few minutes here, Jim, and I'll give you a call back. Bye.

### AI SUMMARY

Randy from GOQ Countertops contacted Jodi Nickell (Equipment Specialist, Rion) to discuss diagnostic charges related to their equipment repair.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion, Equipment, OMAHA, this is Jodi, how may I help you?

**OMAHA NE** [00:06]

Hey Jodi, this is Randy at GOQ Countertops. Are

**Jodi Nickell** [00:09]

Oh, I'm actually just emailing you. Yeah.

**OMAHA NE** [00:11]

you? Okay. Okay. That's so funny. I also did have a question about like the, if we did go through with the diagnostics, are we going to be, is that charge going to be applied to the total or?

**Jodi Nickell** [00:24]

Well, I think we have a general idea of what's going on and I'm kind of explaining that in my email. So basically,

**Jodi Nickell** [00:37]

We believe that the hydraulic pump motor brushes need to be replaced. So replacing, basically, replacing the brushes would be parts and labor about an additional 525. There's a small chance that the problem is deeper within that hydraulic pump motor.

**OMAHA NE** [00:51]

Okay. Okay.

**Jodi Nickell** [00:58]

And that's a considerably higher amount to replace. You know, you're in the thousands at that point. So I'm kind of just spelling it out for you with the parts and pricing, and then you can talk it over with Pradeep and let me know.

**OMAHA NE** [01:18]

Okay. Okay. Yeah. And he was concerned. He's like, well, if we did move forward with all the services and everything, is that like the diagnostic fee, is that applied to the total? Yeah.

**Jodi Nickell** [01:31]

Well, that initial hour diagnosis, yes, that's applied to the total. I didn't charge any more diagnostic for this.

**OMAHA NE** [01:42]

Okay. That was his concern. That was his concern. He's like, "We're putting so much money into this." And I'm like, "Okay." Yeah.

**Jodi Nickell** [01:45]

Yeah, yeah,

**Jodi Nickell** [01:49]

right. I mean, that initial diagnostic was just a place to start, and that was, you know, at the time, the most obvious things that needed to happen, so...

**OMAHA NE** [01:54]

Okay.

**OMAHA NE** [01:58]

Yes. No, I get that. Okay.

**Jodi Nickell** [02:00]

Okay, so I'll send this over to you here in a minute and then you guys can let me know how you want to proceed.

**OMAHA NE** [02:08]

Great. Sounds good. Thank you.

**Jodi Nickell** [02:09]

All right, bye.

**OMAHA NE** [02:11]

Bye-bye.

### AI SUMMARY

Chris (Customer, Caller) reached out to Victoria Bauer (Representative, Ryan Equipment) to follow up on a delayed service ticket for an oil pressure sensor for a forklift.

### FULL TRANSCRIPT

**ADM** [00:00]

This call is being recorded.

**Victoria Bauer** [00:03]

Ryan Equipment, this is Victoria.

**ADM** [00:07]

Hi, Victoria. This is Chris with ADM, COI, REP. I was calling just to follow up on a service ticket I called you about a couple of days ago. I guess when I talked to you last, you said the part was coming in next day air, but I didn't see him

yesterday. So I was just wondering if it actually came in or if it held up somewhere.

**Victoria Bauer** [00:25]

Yes. Well,

**Victoria Bauer** [00:31]

your call is on the board. I'd have to get with the tech to see where they did that oil pressure sensor get in for ADM,

**Victoria Bauer** [00:43]

Nate? That oil pressure sensor for ADM that was coming in next day for Justin, did that come in?

**Victoria Bauer** [00:50]

Okay. He should be -- yeah, we're under the understanding that it got completed. Hang on, let me get that service call open here.

**ADM** [01:07]

Yeah, because I've had the keys of our forklift and it's still got the light there. No one's started it or anything since I grabbed it before I called you.

**Victoria Bauer** [01:16]

Okay.

**Victoria Bauer** [01:18]

Okay. Well, let me check where -- let's see here. I got my computer back up. Our system is dropping and coming back in. So, hang on here.

**Victoria Bauer** [01:31]

Let me call the tech and see

**Victoria Bauer** [01:37]

when he has that

**Victoria Bauer** [01:40]

scheduled. Hang on here. Let me

**Victoria Bauer** [01:45]

see. Yeah, because I have it on the DP30.

**Victoria Bauer** [01:52]

Apologize, my computer's running a little slow here. Let me reach out to Justin and see when

**ADM** [01:56]

Oh, that's fine.

**Victoria Bauer** [02:01]

When he has that scheduled and have him give you a buzz or I can give you a buzz back. Will that work? Okay. Well, let me give him a quick call and see where he's at on that and we'll get you an answer.

**ADM** [02:07]

Okay, either way.

**ADM** [02:14]

Okay, sounds good. Thank you.

**Victoria Bauer** [02:15]

All right. You bet. Bye-bye.

## Inbound call from HH GROUP

May 01, 2026 | 04:04 PM | Duration: 1m 58s | From: HH GROUP | To: +14025942051

Inbound

Positive

### AI SUMMARY

The conversation between Derrick Dea (Ryan Equipment) and AJ from H&H; Chevy focused on sourcing a pigtail for a fan.

### FULL TRANSCRIPT

**HH GROUP** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Ryan Equipment, Omaha, this is Derrick. Yeah.

**HH GROUP** [00:06]

Hey, Derrick, it's AJ at H&H Chevy.

**HH GROUP** [00:09]

So I found a pigtail, but I don't have a connector that's like a jumper wire that goes from five pins to six pins. I just have the pigtail that plugs into the fan.

**Derrick Dea** [00:10]

I guess they have to splice it. Okay. Guess we gotta do what we gotta do.

**HH GROUP** [00:24]

Yeah.

**Derrick Dea** [00:28]

Also they said there's a little vacuum tube right next to it, a hose. They were trying to, I said check our warehouse, see if we got any hose tubing, but it says about a quarter inch, but they don't know where they're going, so.

**HH GROUP** [00:41]

I was going to say that would

**HH GROUP** [00:43]

probably be your

**Derrick Dea** [00:47]

From one port to the other port. So how do I get this pigtail here? Do you got somebody to deliver it?

**HH GROUP** [00:55]

E. I actually have one, so

**HH GROUP** [00:58]

If you guys want to come get it or if you want it delivered.

**Derrick Dea** [01:04]

I'll just send them with a credit card and come and get it. Alrighty. It'll just be at the...

**HH GROUP** [01:05]

Yeah, but I don't know what time.

**HH GROUP** [01:09]

That's the only thing. So it depends on if you can wait until this afternoon sometime or if you need it.

**HH GROUP** [01:17]

Okay, that'll work.

**HH GROUP** [01:20]

But as far as the two, yeah, I don't.

**HH GROUP** [01:25]

Yeah, it'll be at the front counter.

**Derrick Dea** [01:27]

Okay, the parts counter at H&H in Pavilion, or H&H Chevy.

**HH GROUP** [01:31]

Chevy. Yeah.

**HH GROUP** [01:34]

Yeah, because there's an H&H Kia and an H&H Jeep Dodge.

**Derrick Dea** [01:37]

Okay, I will let them know. All right, bye.

**HH GROUP** [01:43]

All right, cool. Sounds good.

### AI SUMMARY

Gustin (Customer, Caller) called Derrick (Sales rep) to thank him for the parts and to discuss an issue with an electric fan harness, requesting assistance in obtaining the necessary part from Chevy.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:04]

Hi Derrick, how's it going today?

**Derrick Dea** [00:05]

All right.

**GUSTIN KELVIN** [00:08]

Hey, thanks for getting the parts for me buddy.

**GUSTIN KELVIN** [00:12]

Hey, I do have one thing.

**GUSTIN KELVIN** [00:16]

This has got an electric fan up front. There's no harness from the fan going back. Is there any way you can get a hold of Chevy and see what that part number is and see if they got it?

**GUSTIN KELVIN** [00:31]

It wiped out the electric fan clutch harness.

**Derrick Dea** [00:33]

Okay. Okay. Mm-hmm. All right.

**GUSTIN KELVIN** [00:37]

I found a wire that will plug in, but it's got to have a short wire that plugs into it to tell the fan to go fast. Let me know. I'm just outside. Thanks,

**GUSTIN KELVIN** [00:51]

Derrick. Bye.

## Inbound call from HAMPTON DENNIS

May 01, 2026 | 03:46 PM | Duration: 31m 46s | From: HAMPTON DENNIS | To: +14026440781

Inbound

### AI SUMMARY

The call between Rodney Meier and Hampton Dennis revolved around operational challenges at Northeast Power, particularly the need for a side shifting care and a specific fork positioner.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Good morning.

**HAMPTON DENNIS** [00:07]

Good morning Rod, how are ya?

**Rodney Meier** [00:09]

Well, I've had better mornings, but not bad.

**HAMPTON DENNIS** [00:14]

What's going on?

**Rodney Meier** [00:15]

Well, that \*\*\*\*\* machine over there at Northeast Power and Plain, apparently we have to do something with a fork positioner?

**HAMPTON DENNIS** [00:24]

We gotta install a side shifting care. Yep, yep.

**Rodney Meier** [00:28]

Fork positioner.

**Rodney Meier** [00:31]

Yeah, well, they have one in Lincoln, but it's frickin' 47 inches wide, and I can't find a frickin' load backrest.

**Rodney Meier** [00:39]

The machine only comes with 1,000 or 1,500 and I need a 1,200. And they discontinued the 1,200 in Caterpillar.

**HAMPTON DENNIS** [00:40]

Oh really?

**HAMPTON DENNIS** [00:47]

Even better.

**Rodney Meier** [00:50]

So I'm afraid I'm going to have to probably get a hold of Cascade and see if they can furnish one. And I know that's why Nate Ross passed it off to me.

**HAMPTON DENNIS** [00:55]

I don't see if I can find one for it.

**HAMPTON DENNIS** [01:00]

No.

**Rodney Meier** [01:04]

Yeah, I think he could probably just order one on a stock order. Well, Brett wants it done ASAP. Well, if we're going to do it on a stock order, it ain't going to be ASAP.

**HAMPTON DENNIS** [01:05]

They wouldn't do that to you,

**Rodney Meier** [01:15]

Yeah, the side shift fork positioners in Lincoln, whatever you guys think is fine. Yeah, Nate. Yeah, I think Rod should order it.

**HAMPTON DENNIS** [01:23]

Rod. So it's going through his store that I bet you he did

**Rodney Meier** [01:25]

And probably because he can't find a freaking load backrest for it.

**HAMPTON DENNIS** [01:29]

all the legwork of trying to find one and couldn't. And now it's, well, yeah, we better have Rod do it.

**Rodney Meier** [01:35]

Well, yeah. Yeah, have Rod just do it. Yeah, I'm thinking the safe freight, freight cost, have Rod order this.

**HAMPTON DENNIS** [01:44]

But any time freight comes out of Lincoln, it's \$15 to \$20. Yep.

**Rodney Meier** [01:48]

Yeah. Well, you know, I was surprised I had to get some wear pads for Dan, and they had them over in Des Moines. And so I transferred them from Des Moines, but then I sent an email over to Kent, and I said, yeah, send them UPS Collect and gave me my account number.

**Rodney Meier** [02:06]

\$6.76. When they send it, it's \$19. Why? That makes no sense at all.

**HAMPTON DENNIS** [02:13]

They have their margins to cover it. Yeah. I know they mark everything out. If they have to pay the shipping, they mark it

**Rodney Meier** [02:24]

Yeah. But Lincoln, I've done a collect and they still come up 19 bucks. So they don't really care.

**HAMPTON DENNIS** [02:30]

out. I'm betting they didn't run it collection then, but...

**HAMPTON DENNIS** [02:37]

But anyhow, I got some UPS freight here if you want to run through it quick.

**Rodney Meier** [02:38]

So they say.

**Rodney Meier** [02:42]

Okay. Yep. I think most of them I've already done, but okay.

**HAMPTON DENNIS** [02:47]

I've got two seat cushions that don't have packing slips, but then I've got another seat cushion that does.

**Rodney Meier** [02:52]

Yes, all three of them go to Trevor.

**HAMPTON DENNIS** [02:55]

Okay. So then he'll have a total of four.

**Rodney Meier** [02:56]

And I've already done them. The paperwork's on the printer in the back.

**HAMPTON DENNIS** [03:01]

Okay. So then Trevor will have a total of four seats.

**Rodney Meier** [03:05]

Yep, three for custom feeds and one for Conatech.

**HAMPTON DENNIS** [03:08]

Okay, perfect. This must be the CONATEC one and then that one's... Because the one ending in 2310, the part number ending in 2310, that's CONATEC,

**Rodney Meier** [03:19]

No, custom feeds. He ordered it for Conatech to start with and it wasn't right. The 5601 is for Conatech.

**Rodney Meier** [03:27]

That's the newer style seat.

**HAMPTON DENNIS** [03:31]

right? So

**Rodney Meier** [03:35]

And then one of the 56-hole, the one, yep, one goes to custom feeds and the 2310s go to custom feeds because they go with those fender kits.

**HAMPTON DENNIS** [03:36]

there's two of them going to CONATEC. Oh, one of them goes to custom feeds.

**HAMPTON DENNIS** [03:44]

Okay. Okay,

**HAMPTON DENNIS** [03:46]

perfect. Perfect. And you have the...

**Rodney Meier** [03:48]

And I ran all the paperwork already. It's on the back printer.

**HAMPTON DENNIS** [03:52]

Even better. And then I've got a bracket, pulley hose, so on and so forth from TDH.

**Rodney Meier** [04:00]

Those are for Chris. Those are for Chris Apache. And, yep.

**HAMPTON DENNIS** [04:03]

That's the MP Global ticket set on the printer. Or not MP Global, but Apache.

**Rodney Meier** [04:07]

There's, yep, and then there should be one in the back with the other parts. Some of the TVH parts were in our system already. So I ordered them through the regular system. So that'll be on the back printer for the rest of the parts because there's only one part on that one on the printer in front. And all the rest of them will be on the printer in the back.

**HAMPTON DENNIS** [04:15]

Oh, really?

**HAMPTON DENNIS** [04:21]

Sure.

**HAMPTON DENNIS** [04:24]

Yep. Yep.

**Rodney Meier** [04:30]

And I can give Chris a call and let him know those are in.

**HAMPTON DENNIS** [04:40]

Perfect. Pal it up. You want to call them and let them know if there's tires here. I don't have Justin's number. I know I had it at one point,

**Rodney Meier** [04:47]

I don't either, but I'll try and get ahold of somebody. I'm surprised he hasn't called looking for it. But yeah, there should have been some invoices on the printer for planner.

**HAMPTON DENNIS** [04:49]

but yeah.

**HAMPTON DENNIS** [04:59]

Some TVH returns and then Adam stopped in and paid all those

**Rodney Meier** [05:05]

Okay, okay, and picked up the, okay. Yeah, should have been \$613.81.

**HAMPTON DENNIS** [05:06]

and took his data tag.

**HAMPTON DENNIS** [05:14]

Something like that. Yeah, it was pinch over 600 bucks.

**Rodney Meier** [05:15]

Yeah, and I suppressed the invoices.

**HAMPTON DENNIS** [05:19]

Perfect. Yep, I made copies, sent him the invoice, and I've already done my check log, and that's in the mail already.

**Rodney Meier** [05:20]

So they won't get a bill.

**Rodney Meier** [05:26]

Okay. Okay. Yeah, the total I come up with was 613.81 for the five invoices. But anyway,

**HAMPTON DENNIS** [05:33]

Yeah.

**Rodney Meier** [05:38]

yeah, I talked to Zach earlier this morning,

**HAMPTON DENNIS** [05:42]

Yeah. Yeah, Adam was just coming off of nights, and he was

**Rodney Meier** [05:42]

so told him there was some there.

**HAMPTON DENNIS** [05:46]

just coming off of nights, and he looked less than pleased to be up and awake.

**Rodney Meier** [05:51]

So yeah, I'll bet. I'll bet.

**HAMPTON DENNIS** [05:56]

Yeah, but yeah, no, I think that's all. No,

**Rodney Meier** [06:01]

Yeah, I'm waiting for the other return on that other seal for TVH because I want to send them both back at the same time for one freight. So if you want to just put that return document over there by the seals, they haven't given me authorization on the second one yet, so I'm going to hold off until I get it.

**HAMPTON DENNIS** [06:01]

what was this?

**HAMPTON DENNIS** [06:15]

Yep, yep, I've got it in that box.

**HAMPTON DENNIS** [06:21]

And then I've got some power cables from

**HAMPTON DENNIS** [06:27]

Logismex. Here's a purchase order number.

**HAMPTON DENNIS** [06:31]

PU1141130.

**Rodney Meier** [06:37]

And I believe that is for Bahaska.

**Rodney Meier** [06:43]

Yes, that is for Randy at Mahoska.

**Rodney Meier** [06:56]

So I will receive that.

**Rodney Meier** [07:06]

And that should be on the back printer then.

**HAMPTON DENNIS** [07:12]

I

**HAMPTON DENNIS** [07:14]

will run these seat cushions out to

**HAMPTON DENNIS** [07:19]

the server.

**HAMPTON DENNIS** [07:22]

Thankfully,

**HAMPTON DENNIS** [07:25]

we had a shuttle wagon debacle at Cardinal this morning. Been dealing with that all morning. They had a shuttle wagon go down.

**HAMPTON DENNIS** [07:32]

And unfortunately, Dan's not super diverse in shuttle wagons yet. So I've been hitting the scramble button and finally got somebody from Lincoln to go up. And then I've got a rental shuttle wagon coming from Omaha because I think...

**Rodney Meier** [07:33]

Oh, \*\*\*\*.

**Rodney Meier** [07:38]

Well, no.

**HAMPTON DENNIS** [07:51]

I think what they got going on in that shuttle wagon is going to take a few parts that we're not going to have right away.

**Rodney Meier** [07:58]

Yeah, because see, Dan told me that

**Rodney Meier** [08:02]

the guy that oversees that shuttle wagon cone got some hydraulic oil from him.

**Rodney Meier** [08:07]

Tuesday or Wednesday. Because I ordered a gallon,

**HAMPTON DENNIS** [08:15]

Yeah, so that...

**Rodney Meier** [08:16]

yeah, or coolant. I don't remember which one it was anyway. Yeah, he said they come and,

**Rodney Meier** [08:25]

yeah.

**Rodney Meier** [08:28]

Yeah, maybe it was coolant he got.

**Rodney Meier** [08:32]

Yeah, it wasn't oil because that takes a different oil. It must have been coolant he come and got. Because I billed a gallon of coolant to our service call.

**HAMPTON DENNIS** [08:37]

I just found

**HAMPTON DENNIS** [08:41]

a lug nut setting out in the parking

**Rodney Meier** [08:44]

Well, there you go.

**HAMPTON DENNIS** [08:44]

lot. Hopefully that didn't just come off somebody's vehicle.

**Rodney Meier** [08:49]

Well, I had to laugh. You sent all those towels and gloves and stuff down to Dan. There was an axle in there for a pallet jack. I don't think, well, we hadn't ordered one since the first part of February.

**HAMPTON DENNIS** [09:01]

I saw that. I was wondering if that was for them, so I just threw it in there because that's the only person I could

**HAMPTON DENNIS** [09:10]

see.

**Rodney Meier** [09:10]

So I'm wondering if maybe we got one in for Trevor or somebody and he never used it or never got taken out of the box. I don't know.

**Rodney Meier** [09:19]

But it fits the pallet jacks down there. So I told Dan to just hang on to it.

**HAMPTON DENNIS** [09:19]

Yeah. Yeah, I'm not sure.

**HAMPTON DENNIS** [09:22]

Yep, and that could be my fault because I thought that's who it was for. I'm like, huh, I know Dan uses the \*\*\*\* out of these,

**Rodney Meier** [09:30]

Yeah, I don't know. Yeah. And why was it in Norfolk?

**HAMPTON DENNIS** [09:32]

so nobody's... Yeah, that's why I thought maybe it got transferred up, just didn't get put on a transfer or what. Nobody's squawking,

**Rodney Meier** [09:38]

So, yeah, I don't know. Yeah, no, that part number I...

**Rodney Meier** [09:44]

Yep, I punched the part number in and we hadn't done anything since February with it. So I said, Al, I don't know what to tell you.

**HAMPTON DENNIS** [09:48]

So...

**HAMPTON DENNIS** [09:53]

Yep, it's yours. Congratulations.

**Rodney Meier** [09:56]

Yep, you'll find a use for it somewhere.

**HAMPTON DENNIS** [10:00]

Yeah, especially since it fits the pallet jacks down there.

**Rodney Meier** [10:06]

Yeah, so,

**HAMPTON DENNIS** [10:09]

Yeah, well, I'm walking these out to

**HAMPTON DENNIS** [10:16]

Trevor now and

**HAMPTON DENNIS** [10:20]

grab paperwork on my way back up and go like \*\*\*\*.

**Rodney Meier** [10:26]

yep, there you go.

**HAMPTON DENNIS** [10:28]

Thank you. Well, that works. I appreciate it. If I don't talk to you beforehand, have a good weekend.

**Rodney Meier** [10:31]

All right, well,

**Rodney Meier** [10:35]

Yeah, planning on it. I don't know. We're going, we're having another garage sale in Belden tomorrow.

**HAMPTON DENNIS** [10:40]

What's that got?

**HAMPTON DENNIS** [10:43]

Oh, yeah?

**Rodney Meier** [10:44]

So yeah, they're having a craft show or something. And so

**Rodney Meier** [10:51]

my sister thought it'd be a good idea maybe to have the storage facility open again.

**Rodney Meier** [10:59]

So

**HAMPTON DENNIS** [11:00]

Try to get a little more out of it.

**Rodney Meier** [11:03]

Yeah, well, we talked about taking the camper up and camping in Coleridge just to get out. It's next weekend. We got graduations. The weekend after, Lori has to work. And the weekend after that, it's Memorial Day. So that pretty much takes care of our camping. And then a week after that, we're going to Wisconsin Dells. So it'd be nice to get out and camp at least once before we take off for Wisconsin. But

**HAMPTON DENNIS** [11:21]

Yeah. Yeah. Yeah. No kidding. It'd be nice to get out with it and make sure everything...

**Rodney Meier** [11:25]

time's slipping away.

**Rodney Meier** [11:27]

Yeah, time's slipping away. Yeah, I've still got it winterized. I haven't even flushed the lines out yet. Well, you know what I mean? I was talking to Mel last night and he said, boy, I don't know if I'd be taking the winterizer out of it yet. I said, you know, even if it gets down to 31 tonight, it isn't going to freeze nothing up in one night.

**HAMPTON DENNIS** [11:33]

Don't feel bad. I'm in the same boat.

**Rodney Meier** [11:49]

We went out last night. I hadn't started the refrigerator out, so I went out and turned the refrigerator on, and \*\*\*\*, it was 58 degrees in the frickin' camper. So, I mean, it's just like, yeah, it's not gonna get that cold in there. Between the electric fireplace and a heater, and I've got tank heaters on my camper.

**HAMPTON DENNIS** [12:03]

Yeah, it's catching all the sunlight during the day.

**Rodney Meier** [12:09]

So I mean, I could always turn the tank heaters on, but I mean, God, if there's 15 gallons of water in there, it ain't gonna freeze. It isn't gonna get cold enough to do any of that. So I don't know. Lori's not sure she wants to go yet. But I said, it's gonna be pretty chilly.

**HAMPTON DENNIS** [12:28]

I think if you just hook the pickup up and go, she'll go along.

**Rodney Meier** [12:33]

Yeah, well, but the refrigerator is empty. We'd have to at least put some stuff in.

**Rodney Meier** [12:38]

We probably eat out most of the time anyway in Coleridge.

**Rodney Meier** [12:45]

And then we got to come back. We got a confirmation on Sunday afternoon we got to go too. So too much \*\*\*\* going on.

**HAMPTON DENNIS** [12:51]

Probably got to catch a baseball game sometime in there, don't you?

**Rodney Meier** [12:55]

No, not. That's the sad part.

**Rodney Meier** [12:59]

Yeah. Yeah. Well, they don't play. High schools only play on Saturday. They don't play during most of their stuff during the week.

**HAMPTON DENNIS** [13:00]

I don't know, maybe one of the boys would have a game.

**HAMPTON DENNIS** [13:08]

Really?

**Rodney Meier** [13:11]

Yeah, well, like today, yeah, they play at Bellevue East today.

**Rodney Meier** [13:20]

Yeah, grandson has a game tomorrow at 1.30, and he doesn't play until Monday.

**Rodney Meier** [13:29]

And it says to be determined, so it's not even for sure.

**Rodney Meier** [13:33]

So, and then it's a hit and miss whether they play. That's a bad part,

**Rodney Meier** [13:40]

too. I know the last time we went and seen him, he never played. So then it's like, you know, that's...

**HAMPTON DENNIS** [13:41]

Yeah. Yeah.

**HAMPTON DENNIS** [13:44]

Yep, and that's the tough one. You know, you drive an hour and a half, two hours, whatever it may be, and then they don't...

**Rodney Meier** [13:48]

Yeah. Well, yeah, of course, like my daughter said, you know, you're still there to support the team. It's not like you're there just for them. I said, well, that's true.

**HAMPTON DENNIS** [13:56]

Correct, but it's

**HAMPTON DENNIS** [13:59]

yes and no. I mean, you wouldn't go watch Gretna baseball if your grandson wasn't on the team. Yeah.

**Rodney Meier** [14:03]

But yeah. Yeah. Well, like, well, even Monday we stopped at Omaha. We stopped at my daughter's and Brady was playing at five o'clock and Bennett was playing at 630 and neither one of them played.

**Rodney Meier** [14:17]

So we just stayed down there to watch the team, but we wouldn't have seen nothing. So it's kind of like, eh, you know, grandpa and grandma being there is not that big a deal.

**HAMPTON DENNIS** [14:23]

Yeah.

**HAMPTON DENNIS** [14:30]

Great. So, mom and dad being there, yeah, that's different, but...

**HAMPTON DENNIS** [14:35]

The example being that it is what it is whether you're there or not.

**Rodney Meier** [14:42]

So, yep.

**HAMPTON DENNIS** [14:45]

Well, yeah, like I said, if I don't talk to you beforehand, hopefully you got a good weekend and we'll...

**Rodney Meier** [14:54]

So, yeah. Kirsten had much to say about her mom when you talked to her?

**HAMPTON DENNIS** [14:58]

No. No, that was a very mute. She's not talking to her. She wants nothing to do with her.

**Rodney Meier** [15:07]

Oh, I believe that.

**HAMPTON DENNIS** [15:07]

She actually spent the night at Justin's house. She goes, I'd rather talk to Justin than my mom.

**Rodney Meier** [15:16]

Well, you know, that's the sad part. Justin's a \*\*\*\* of a nice guy. Oh, my God. Hard-working son of a \*\*\*\*\*.

**HAMPTON DENNIS** [15:19]

He is. He really is. Yeah. Yep. Good dude. I still don't know the whole story of...

**Rodney Meier** [15:26]

Yeah, I mean, you know, anybody that's man enough to sling tires for a living.

**HAMPTON DENNIS** [15:31]

Mm-hmm. Mm-hmm. I still don't know the whole story and what all happened, but I know that, unfortunately, she stepped out on him.

**Rodney Meier** [15:37]

Because he filed for divorce, didn't he?

**HAMPTON DENNIS** [15:40]

Correct. Correct. She stepped out on him, and then he kicked her out of the house. And the \*\*\*\*\* part is, I mean, like, the two younger girls are still in high school, and...

**Rodney Meier** [15:45]

Oh, \*\*\*\*.

**Rodney Meier** [15:51]

Yeah. Well, the one who graduates. Yeah.

**HAMPTON DENNIS** [15:54]

Yeah, yeah, Mariska graduates.

**HAMPTON DENNIS** [16:00]

Yeah, so it's...

**HAMPTON DENNIS** [16:02]

And Kirsten goes, yeah, I want... As of right now, I want nothing to do with her. I'm like, hmm, that's too bad. Too bad. But the nice part is, is Justin let her...

**Rodney Meier** [16:08]

- No, no.

**Rodney Meier** [16:11]

Yeah.

**HAMPTON DENNIS** [16:14]

Like all of the \*\*\*\* she's been ordering for their house in Kansas, she's been shipping it to Justin's house and then Justin just puts it in the basement for her and they loaded up a big \*\*\* 30 foot long U-Haul this morning and those Justin and Kirsten are headed for Kansas for Kirsten and Adam's new to them house at

**Rodney Meier** [16:33]

Right, right.

**HAMPTON DENNIS** [16:34]

He's just, he's a \*\*\*\* good dude. It's just unfortunate. He had to, had to marry her.

**Rodney Meier** [16:37]

Oh \*\*\*\*, yeah.

**Rodney Meier** [16:42]

Yeah, it makes you wonder if he's the one who wanted to get married or she is. But, 'cause now the house was his house, wasn't it? Or was it hers?

**HAMPTON DENNIS** [16:46]

Yeah. Yeah.

**HAMPTON DENNIS** [16:50]

Correct. Correct. He, no, it was his. He bought the house.

**Rodney Meier** [16:52]

I thought it was.

**HAMPTON DENNIS** [16:54]

Yep. Yep. He bought the house.

**Rodney Meier** [16:56]

Yeah, because I mean it's a block and a half for me.

**HAMPTON DENNIS** [17:00]

I'd say, yeah, it's just right around the corner from you.

**Rodney Meier** [17:02]

Yeah, yeah, just down the street a little ways. So, yeah, I always tease him when I see him. Well, when we at the last time we were up in Coleridge too and he was up there, I said, well, just wave when you go by.

**HAMPTON DENNIS** [17:15]

Yep. Yep. And like you said, he's, he's just a \*\*\*\* of a good dude. And,

**Rodney Meier** [17:21]

Yeah, yeah. I can't, you know, why would she give up something that good? But, of course, I mean, probably the only one I would have ever, probably, the only one I probably ever did question was Lucas. You know, that was just a strange thing to begin with, but.

**HAMPTON DENNIS** [17:29]

So yeah, right?

**HAMPTON DENNIS** [17:43]

Out of all of her husbands, Justin's been my favorite and \*\*\*\* her first husband was my brother-in-law. Not that he's a bad guy, just in my eyes, Justin's a better dude.

**Rodney Meier** [17:51]

Yeah, yeah, yeah. Well, and then that, yeah, that, yeah, that Mark, husband, husband, was it husband number three, Mark? You know, that, that only lasted, what was it, six, six months, I think, or something. Um, yeah, my daughter knew him. He worked at the, he worked at the post office when they first met, uh,

**HAMPTON DENNIS** [18:00]

Oh, should have forgot about that one.

**HAMPTON DENNIS** [18:04]

Something like that. Mandy and I were talking about that.

**Rodney Meier** [18:12]

Sarah knew him, said, super nice guy. He'd never been married. That was part of the problem. He'd been single until he was in his 30s. Four,

**HAMPTON DENNIS** [18:19]

Yep. Yep. Yeah. Because me and I were talking about that. She'd been married, was Justin four or was Justin five?

**Rodney Meier** [18:27]

I believe. I think she's only been married four times. So I'm trying to think. Your brother-in-law, then Lucas,

**HAMPTON DENNIS** [18:31]

Because I know she was married to Jared. There's Jared, Lucas,

**Rodney Meier** [18:37]

then it was Mark.

**HAMPTON DENNIS** [18:37]

and then was it Mark? I thought there was another one in between there.

**HAMPTON DENNIS** [18:43]

I thought there was one that

**HAMPTON DENNIS** [18:46]

it was a real short story.

**Rodney Meier** [18:48]

Yeah, there was one down. They got married down by Lee.

**Rodney Meier** [18:53]

'Cause the one in, when she married Mark, that one was here in Norfolk 'cause that was at the Lutheran Church out east of town. 'Cause we went to that one.

**HAMPTON DENNIS** [19:00]

Yeah, that's what I'm saying. I think, I think, I think,

**Rodney Meier** [19:03]

But there was one out at some facility out by Lee out in the country. But I don't remember that guy's name. Yeah, so Justin had been five.

**HAMPTON DENNIS** [19:13]

that's what I'm saying. I think Justin was five.

**Rodney Meier** [19:17]

Yep, Justin would be five. I forgot about the one out in the country down by Lee or Creston or somewhere.

**HAMPTON DENNIS** [19:18]

And I think that one,

**HAMPTON DENNIS** [19:24]

because I think that one was short enough, they just annulled that. I don't think they actually had a divorce.

**Rodney Meier** [19:28]

Yeah, well, and I think Mark's was almost the same. I think Mark's was maybe a year of that much

**HAMPTON DENNIS** [19:36]

Yeah, it's

**Rodney Meier** [19:36]

because Mark was from Pierce. I remember that.

**HAMPTON DENNIS** [19:39]

a, yeah, because his last name is,

**Rodney Meier** [19:40]

But yeah, the guy down by Lee or Creston, I don't remember that guy at all because I remember

**HAMPTON DENNIS** [19:46]

Yeah, because Mark's last name is Burns,

**Rodney Meier** [19:47]

Mel was talking about he gave him a thousand bucks for the wedding and that was it. He said, I won't give you any more because that was husband number three.

**HAMPTON DENNIS** [19:56]

right? Yep. Yep. Because Mark's

**HAMPTON DENNIS** [20:01]

last name is Burns, right? Isn't he a brother or brother-in-law to the folks that own Black Cow Fat Pig?

**Rodney Meier** [20:04]

I believe so, yes.

**Rodney Meier** [20:10]

That could be. To be honest, I never really got, you probably got more involved with it than I did because I really, you know, Mel and Vicki don't talk about it too much. I know even a lot of people here,

**HAMPTON DENNIS** [20:13]

Or maybe that's

**Rodney Meier** [20:22]

Right after the divorce was going through, we got talking about the chairs that Justin paid for Mariska, because supposedly at that time Mariska was still going to move down to Kansas. And he bought those two chairs my mom had. And then after that, I said something about chairs or something. And Vicki's like, yeah, man, she just kind of passed

**HAMPTON DENNIS** [20:35]

the... Yep, down in Kansas.

**Rodney Meier** [20:48]

\*\*\*\*\* off like, yeah, we don't want to talk about that. And so I just stay out of it. I just stay out of it. They haven't said a word about her and Justin. And I just, to me, that's too much. Even last night I talked to her for a little while and Mel was there too. And I said something about graduations. Oh my God, then they start talking about all the graduations that they got.

**Rodney Meier** [21:13]

Because like Mel's youngest daughter, see, they got six freaking kids. And yeah, fourth grade, third grade, second grade, first grade, kindergarten and preschool.

**HAMPTON DENNIS** [21:25]

Jeepers. Jeepers.

**HAMPTON DENNIS** [21:28]

No, thanks.

**Rodney Meier** [21:32]

Yeah, because she was talking about Sammy, the first boy, he's going to graduate kindergarten here next week. So, yeah.

**Rodney Meier** [21:41]

And there's one younger than that yet. Like, oh, my God, what possesses you? You know, and I don't know what kind of a job he even has. He was he worked for Smeal for a long time. He's a welder, had a good job.

**Rodney Meier** [21:56]

Rion,

**Rodney Meier** [22:03]

COI, RON, CO

**HAMPTON DENNIS** [22:06]

Yeah, that's a tough goal.

**HAMPTON DENNIS** [22:15]

Oh,

**Rodney Meier** [22:19]

with that many kids. But I don't know what they do for insurance because I think the oldest three all wear glasses because

**HAMPTON DENNIS** [22:22]

absolutely.

**HAMPTON DENNIS** [22:30]

Holy \*\*\*\*.

**Rodney Meier** [22:31]

Melissa has really bad eyesight. She's worn glasses since she was probably three or four.

**Rodney Meier** [22:41]

So I'm sure that's a hereditary thing more than likely, but it's just like, oh my God, that's way too much drama for me.

**HAMPTON DENNIS** [22:49]

Mel and Vicki have his, hers, and theirs, correct? Do they have kids together?

**Rodney Meier** [22:55]

No, no.

**HAMPTON DENNIS** [22:57]

I thought Mel and Vicki had kids

**Rodney Meier** [22:57]

No, see, they've been married 25

**Rodney Meier** [23:01]

years.

**Rodney Meier** [23:05]

But see, she was already, she was mid to late 40s when they got married.

**HAMPTON DENNIS** [23:10]

together. Oh,

**Rodney Meier** [23:11]

She's 72,

**Rodney Meier** [23:16]

because she's two years older than I am yet.

**HAMPTON DENNIS** [23:16]

sure. Sure, yeah, I didn't know that.

**Rodney Meier** [23:19]

Yeah, no, they got married in '99,

**Rodney Meier** [23:25]

because I was, well, see, her first husband, he was really bad diabetic when he got kidney pancreas transplants, but then

**Rodney Meier** [23:36]

He got a blood clot and died in December of 98. He died in November. I don't know if you ever heard that whole story. He got a blood clot and died in his sleep in November of 98 in a snowstorm.

**Rodney Meier** [24:00]

There was \*\*\*\*\* 22 inches of snow. Took them three days to get out to the farm where they

**HAMPTON DENNIS** [24:02]

Oh, \*\*\*\*.

**HAMPTON DENNIS** [24:07]

Holy smokes, that would...

**Rodney Meier** [24:09]

lived. So he laid at home dead for three days.

**HAMPTON DENNIS** [24:12]

Yeah. Yeah, that'd be tough.

**Rodney Meier** [24:15]

Yeah, yep. And because then that was in November and then she married Mel the next May.

**Rodney Meier** [24:24]

Six months. Yeah. Yeah. She married male to the next May. Six months.

**HAMPTON DENNIS** [24:24]

Oh, wow.

**Rodney Meier** [24:31]

So they've been married since May of '99. So yeah, their anniversary is coming up here. They'll be 27 years.

**Rodney Meier** [24:40]

So

**HAMPTON DENNIS** [24:40]

Yeah? Yeah, because then... So all of the kids are males then,

**Rodney Meier** [24:44]

they're all males from two different wives.

**Rodney Meier** [24:49]

The first four were his first wife and then Melissa was his second wife. So Vicki's his third wife.

**Rodney Meier** [24:57]

And I think Melissa, the second wife, I think they were only married three or four years, maybe two or three.

**HAMPTON DENNIS** [24:58]

right? Yeah, because it's...

**Rodney Meier** [25:06]

And I'm not so sure that probably his first wife, they weren't married more than maybe five or six years. They had four kids in like six years.

**HAMPTON DENNIS** [25:07]

Yeah, because the...

**HAMPTON DENNIS** [25:14]

That'd be tough. That's a lot to take on.

**Rodney Meier** [25:16]

Yeah, yeah, yeah, yeah. Because I mean, when I first knew him in Madison, all the kids were my kids' age and they weren't married when we moved to Madison in '90. And because I remember Mel would come down like for confirmation or whatever, Mel would be there for church, but she was already married, had two kids with somebody else.

**Rodney Meier** [25:40]

So I know they were, 'cause I was gonna say Jolene is, I don't know how old Jolene, 40?

**HAMPTON DENNIS** [25:49]

Probably somewhere in there.

**Rodney Meier** [25:51]

Maybe not quite 40?

**HAMPTON DENNIS** [25:53]

Yeah, I'm not 100%

**Rodney Meier** [25:54]

So I mean, so I mean, he wasn't, so I mean, it was at least longer than that, 'cause see, Josh is 40,

**Rodney Meier** [26:05]

so he's been divorced at least 40 years from her, from his first wife.

**HAMPTON DENNIS** [26:13]

sure. Yeah, because I think Jess is 40, I think.

**Rodney Meier** [26:13]

So he was divorced in between Josh and Jolene. He got divorced.

**HAMPTON DENNIS** [26:19]

Yeah, because there's one older than Jess,

**Rodney Meier** [26:24]

Two.

**HAMPTON DENNIS** [26:25]

right? Oh, there's two older than? Jeremy and Justin.

**Rodney Meier** [26:26]

Jeremy and Justin. Justin, Jeremy, Jesse, and Josh.

**Rodney Meier** [26:32]

Yeah, there's four kids.

**HAMPTON DENNIS** [26:32]

Yeah, and then there's Jolene.

**Rodney Meier** [26:35]

And then Jolene, but that's Lepore. That's not his. Yeah, there were Jolene and Jared.

**HAMPTON DENNIS** [26:38]

Yeah, yeah.

**Rodney Meier** [26:46]

And yeah, those were both. Those were both.

**HAMPTON DENNIS** [26:47]

So Jolene and those are both Vicki's kids?

**Rodney Meier** [26:51]

No, those are Mel's second wife. Or no, that's not Mel's. They're not Mel's. Those are Mel's first wife's kids from her second marriage.

**HAMPTON DENNIS** [26:54]

Oh, okay,

**Rodney Meier** [27:02]

Joel Lepore is their dad.

**HAMPTON DENNIS** [27:05]

yeah, yeah. Sure, so all the kids share the same mom,

**Rodney Meier** [27:12]

Except the first four and then the two Lepores, Jolene and Jarrett. Jessica, or

**HAMPTON DENNIS** [27:12]

then? Or the first four? The first four share the same mom.

**Rodney Meier** [27:23]

I'm sure why can't you say her name? Melissa is a separate lady altogether. And she lives over in West Point where the kids live, where Melissa lives. And her husband just, her second husband just died of cancer here a year and a half ago, two years ago.

**Rodney Meier** [27:42]

Yeah, it's

**Rodney Meier** [27:45]

way too much for me. I have a hard time keeping them all straight.

**HAMPTON DENNIS** [27:49]

That's a very entangled family tree. Yeah.

**Rodney Meier** [27:52]

Oh, my God. You know, and I, and God bless him. He's involved in every single one of them. I mean, they're going to West Point for every school thing that they got going on. You know, and I think they never

**HAMPTON DENNIS** [28:02]

I've never thought Mel was a bad guy.

**Rodney Meier** [28:06]

was a bad guy. Not a thing he wouldn't do for you. Yep. Yep. Well, I had to laugh even yesterday. There was a funeral in Cowrie's for somebody and

**HAMPTON DENNIS** [28:08]

Yeah, I've never thought of him as a bad guy. Yeah, he just...

**Rodney Meier** [28:17]

When I was talking to Vicki, she said, yeah, Mel had to run down to Wisner first thing in the morning. Apparently he put a padlock on one of the doors. They were getting ready to do something with pouring concrete for the highway. And evidently he had a, like a lockout tagout padlock on something and he was the only one that had the key. And so she said he had to run down and unlock it. She said, you know,

**HAMPTON DENNIS** [28:35]

Oh, shoot.

**Rodney Meier** [28:40]

They're doing a government job. He said, you know, we can't cut the padlock off because we got to get a \*\*\*\*\* permit to cut anything. So he had to drive to Wisner and unlock the padlock yesterday morning and then drive back for a funeral at 10 o'clock.

**HAMPTON DENNIS** [28:50]

Yep.

**Rodney Meier** [29:00]

So it's like, you know, yeah, he's back on full time at Gearholds again.

**HAMPTON DENNIS** [29:08]

Yeah, they'll \*\*\*\* him back in.

**Rodney Meier** [29:08]

Which I don't know why.

**Rodney Meier** [29:10]

You know, I said something to him a couple weeks ago when we were in Belden. We got talking about 401ks. I said, well, yeah. I said, you probably have to start drawing your 401k pretty soon, don't you? Well, what do you mean? I said, well, I think 73 is the limit now. If you don't start drawing it at 73, they start penalizing you for not drawing it.

**Rodney Meier** [29:32]

Oh, really? I said, yeah. I said, I thought it was 75. We just met with Lori's financial advisor and I said, I mentioned, I said, well, yes, it's 75. No, it's 73. I said, if you don't start drawing your 401k at 73, they penalize you. They cost you a penalty to be late withdrawing your retirement. Oh, I probably better look into that.

**Rodney Meier** [29:55]

Because, I mean, he's got his Gearhold retirement and his National Guard retirement. He probably never even thought about his 401k.

**Rodney Meier** [30:07]

But it's like, yeah, I wish I had that problem. I had so many retirement accounts. I couldn't keep track of them all.

**HAMPTON DENNIS** [30:13]

Yeah, right? Oh, shoot, I forgot about that one. Yeah.

**Rodney Meier** [30:15]

Yeah, yeah.

**Rodney Meier** [30:18]

But, well, it looks like Trevor just sent me a note. Needs a couple of hoses here.

**Rodney Meier** [30:26]

So I suppose I better get them done. So, all right.

**HAMPTON DENNIS** [30:29]

Yep, I'm going to touch base with the folks at Cargill and see if that shuttle wagon is showing up yet, and we'll go from there.

**Rodney Meier** [30:37]

All right, and I'll see if I can find a 1200 millimeter load backrest to get it on a stock order ASAP.

**HAMPTON DENNIS** [30:44]

Yeah, right, right. Put it on the stock order so there's less freight, but get it here ASAP.

**Rodney Meier** [30:50]

Yeah, yeah, get it here ASAP. Yeah, it doesn't work that way. All right, we'll talk to you later.

**HAMPTON DENNIS** [30:57]

Yep, I appreciate it. Thanks, Rod. Yep, bye.

**Rodney Meier** [30:57]

All right. Yep. See ya. Bye.

#### AI SUMMARY

Toby (Customer) reached out to Darin Leick (Sales rep) to inquire about the availability of brake parts for Caterpillar equipment.

#### FULL TRANSCRIPT

**RINKER** [00:00]

This call is being recorded.

**Darin Leick** [00:03]

Ryan Equipment, this is Darren.

**RINKER** [00:06]

Hey, Darin, it's Toby at Rienker.

**Darin Leick** [00:06]

Good morning. What can I do for you today?

**RINKER** [00:09]

Morning. I'm looking for some...where'd that go?

**RINKER** [00:16]

Brakeshoes for a parking brake on a Caterpillar.

**Darin Leick** [00:18]

Okay.

**RINKER** [00:21]

92331-05300.

**Darin Leick** [00:22]

Okay.

**RINKER** [00:30]

Two of those, obviously.

**Darin Leick** [00:33]

Let's get into here.

**Darin Leick** [00:43]

All right.

**Darin Leick** [00:47]

They are available. Good deal.

**RINKER** [00:57]

All right. And I was looking for a couple of high-speed.

**RINKER** [01:05]

Oh, that first one was unit number 17. Yeah.

**Darin Leick** [01:08]

Okay. 17 and ground okay for that one? Okay.

**Darin Leick** [01:22]

Okay.

**RINKER** [01:23]

Then I'm looking for Heister Wheelstud 107296.

**Darin Leick** [01:29]

6, and that's a wheel stud. Let me see if that comes up on my lookup. 107, 296. All right, wheel stud. Oh.

**Darin Leick** [01:53]

How many are you looking at, Eden, Toby? Three. Three? You are in luck. There's three left through our main vendor. One,

**RINKER** [01:53]

Three. Three.

**RINKER** [02:07]

Okay, now I'm looking for nuts for those as well. 11276.

**Darin Leick** [02:12]

one, two.

**Darin Leick** [02:18]

I'm sorry, could you say that, the nut number? 1, 2, 7, 6. 7, 6, okay. 1, 2, 7, 6. All right. Cap, single nut. Yeah, that comes up as a different number, but 3.

**RINKER** [02:21]

11276.

**Darin Leick** [02:44]

Okay. Zero, four, five, three. And how many of the nuts are you needing? Three? Okay. All right. Unit number on that one. Okay.

**RINKER** [02:55]

Three as well. Three as well, yeah. 32.

**RINKER** [03:04]

And ground is fine with that as well. And

**Darin Leick** [03:06]

Okay. All right. Yeah, I will get that stuff coming for you, Toby. All right. Thank you. You have a great weekend. Thank you. Bye.

**RINKER** [03:13]  
that's the doom right now.

**RINKER** [03:20]  
Okay. Thank you.

**RINKER** [03:24]  
You too. Bye.

### AI SUMMARY

During the call, NMC Omaha Parts inquired about the appropriate antifreeze for a C5000 LP forklift, and Derrick Dea (Representative, Ryan Equipment Omaha) confirmed that traditional green antifreeze is typically used unless specific alternatives are needed.

### FULL TRANSCRIPT

**NMC Omaha Parts** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
Ryan Equipment Omaha, this is Derrick.

**NMC Omaha Parts** [00:06]  
Hey, Derrick, I got a cat, a C5000 LP forklift. Can you tell me the kind of antifreeze that takes?

**Derrick Dea** [00:17]  
We just put in the traditional green.

**NMC Omaha Parts** [00:23]  
The green stuff?

**NMC Omaha Parts** [00:25]  
The all-around either-or?

**Derrick Dea** [00:26]  
Yeah. When we make the conventional green, yeah, that's what we put in most of them.

**Derrick Dea** [00:33]  
Unless they're specifically calls for CAD ELC, which...

**Derrick Dea** [00:37]  
We have that too, but we usually keep that for like our bigger equipment, like our tailors and turbergs and bigger stuff. But for most of them, it's just traditional green. Yep. Bye.

**NMC Omaha Parts** [00:46]  
Gotcha.

**NMC Omaha Parts** [00:49]  
Okay. Hey, thank you very much. I appreciate it.

### AI SUMMARY

During the conversation, Jesse (Equipment Chair, Casper) sought guidance on the oil type for a Taylor forklift, and Matt Wagner clarified the correct oil and filling instructions.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Matt Wagner** [00:03]

Sorry. Ryan, Quibben, Gillette, this is Matt speaking. How am I going to help you?

**WIRELESS CALLER** [00:08]

Yeah, this is Jesse, the equipment chair again in Casper. I got a question about that Taylor forklift again. What, the transmission, I just don't know what kind of oil to put in

**Matt Wagner** [00:15]

Okay. What do you got going on?

**Matt Wagner** [00:23]

Chevron THF-1000.

**WIRELESS CALLER** [00:27]

it. THF 1000, all right. And do you, do you have a breakdown of where the filler neck is on this thing?

**Matt Wagner** [00:36]

Fill your neck is the same as where the dipstick is. Fill it through the dipstick.

**WIRELESS CALLER** [00:37]

If I,

**WIRELESS CALLER** [00:40]

It's where?

**WIRELESS CALLER** [00:42]

Oh, okay. Alrighty. TH1.

**Matt Wagner** [00:45]

And if you're pregnant in the \*\*\*\*, don't fill it very fast or it'll bubble out and make a giant mess.

**WIRELESS CALLER** [00:50]

Oh, yeah. Okay. Let me write that oil down again. \*\*\*\*. Now I can't find a pen.

**WIRELESS CALLER** [00:58]

All right. Now, what kind of oil was it again?

**Matt Wagner** [01:02]

Chevron.

**WIRELESS CALLER** [01:05]

Okay.

**WIRELESS CALLER** [01:07]

Okay.

**WIRELESS CALLER** [01:09]

Alrighty. Cool. I appreciate it. And yes, you as well. Bye.

**Matt Wagner** [01:14]

THF1000. All right, take it easy.

**AI SUMMARY**

In the conversation, Joe (Representative, ITI Intermodal) reached out to Chad Metzger (Representative, Equivis) to discuss a \$6,000 rental invoice he found unreasonable.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Right, Equivis, Chad.

**WIRELESS CALLER** [00:05]

Hey, Chad. Joe with ITI Intermodal. I spoke with somebody up there yesterday. They said that they would kind of give you the down low on what I was calling about. But basically, just wanted to talk to you about this rental invoice that I received.

**WIRELESS CALLER** [00:27]

Basically, I received an invoice from our corporate team saying that we owed like \$6,000, which feels steep and aggressive and I understand that we had the equipment on site and all that, but when the equipment got here, it was low on fluids,

**Chad Metzger** [00:41]

Let

**WIRELESS CALLER** [00:48]

So we had to call the local dealer and have them bring somebody out. The person that they brought out filled a couple things and told us that he doesn't refill coolant. So at that point it was like 3.30 or 4 o'clock and we didn't use the machine that day. Got in the machine the next morning, attempted to use the machine, and it turns out that the machine was not the...

**WIRELESS CALLER** [01:14]

It couldn't do what we needed it to do, basically. So we tried to use the machine for maybe an hour or two and found that it wouldn't work for us. And at that time, I called and said, hey, this machine doesn't work for us. You guys can come pick it up.

**WIRELESS CALLER** [01:31]

So, I mean, I guess I had a lawn ornament for a handful of days. I didn't think it was \$6,000 worth of a lawn ornament, but, I mean, I guess you can tell me I'm wrong there and it is what it is.

**Chad Metzger** [01:49]

me look at it here. We should have to ship that unit in. Yeah, unfortunately, rentals based on availability, we couldn't rent anybody else. You guys had it.

**WIRELESS CALLER** [02:02]

I hear you. I mean, and just my side of it is I couldn't use it.

**Chad Metzger** [02:02]

That type of thing.

**WIRELESS CALLER** [02:09]

When it got here, it wasn't operational. I mean, it was operational, but it didn't have the correct fluid levels or anything like that.

**WIRELESS CALLER** [02:18]

So, I couldn't use it the initial day that was here. And then the day that I tried to use it, I

**WIRELESS CALLER** [02:25]

went and attempted to use it and then called you guys early the next morning saying, hey, I can't use this lift. And then it sat here for a few days or over a weekend or whatever.

**WIRELESS CALLER** [02:35]

But that wasn't my doing, basically, is what I'm saying.

**Chad Metzger** [02:42]

Yeah.

**Chad Metzger** [02:44]

Yeah, I can't do anything with the freight. I mean, I can...

**Chad Metzger** [02:49]

Cut the rental rate in half. Instead of that \$1,563, I can maybe do like \$700.

**Chad Metzger** [03:01]

You guys just want to short pay that invoice to \$700 and whatever the taxes on that, but does that sound good to you?

**WIRELESS CALLER** [03:11]

I mean, I'm not really the guy that's going to end up making the call on any of this. I'm just the guy that's, you know, trying to

**Chad Metzger** [03:15]

Oh, okay.

**WIRELESS CALLER** [03:19]

see what we can do here to make this any more palatable for us and, you know.

**Chad Metzger** [03:25]

Yeah, I mean, unfortunately, we got costs associated with the hauling and the availability. So...

**WIRELESS CALLER** [03:30]

Yeah, I get that fact, too.

**WIRELESS CALLER** [03:36]

Okay, well, all right, I will let people know and we'll see what they want to say or do about it. Go from there.

**Chad Metzger** [03:42]

Okay. All right. You bet. Thanks, Joe. All right. Bye.

## Inbound call from WIRELESS CALLER

### AI SUMMARY

During the call, Jodi Nickell (Service rep) assisted with service call 804-100 by updating the serial number and discussing additional maintenance segments with the caller.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Hey Tim.

**WIRELESS CALLER** [00:05]

Good morning. Super. Just a lovely day down here at GOP.

**Jodi Nickell** [00:06]

How's it going? Yeah?

**Jodi Nickell** [00:13]

Mmm. I bet.

**WIRELESS CALLER** [00:15]

So on service call 804-100, can you change the serial number to 659 rather than 660?

**Jodi Nickell** [00:23]

Okay.

**Jodi Nickell** [00:30]

I'm assuming that's the last three. Okay. Instead of 660.

**WIRELESS CALLER** [00:33]

Yeah.

**Jodi Nickell** [00:39]

Okay.

**Jodi Nickell** [00:41]

I

**WIRELESS CALLER** [00:42]

Super. And then add a segment for repaired lift linkage.

**Jodi Nickell** [00:43]

can do that.

**WIRELESS CALLER** [00:55]

Please and thank you.

**Jodi Nickell** [00:57]

Okay. I'm on it.

**WIRELESS CALLER** [01:03]

I might add another segment for clean battery also.

**WIRELESS CALLER** [01:09]

Is the PM due on it?

**Jodi Nickell** [01:10]

Okay.

**Jodi Nickell** [01:13]

I don't know. I think GOP PMs are due, but we'd probably try to knock them all out at the same time.

**WIRELESS CALLER** [01:18]

Yeah,

**WIRELESS CALLER** [01:20]

that's a good deal.

**Jodi Nickell** [01:24]

Okay.

**WIRELESS CALLER** [01:25]

Okey-dokey.

**Jodi Nickell** [01:26]

All right. You're welcome. Bye.

**WIRELESS CALLER** [01:28]

Thank you.

### AI SUMMARY

During the call, Kristi Johnson (Service rep) and OMAHA NE discussed plans to open an additional service call for a door repair, following a previous call about a wheel change.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Kristi Johnson** [00:03]

Hey, Dan.

**OMAHA NE** [00:04]

Good morning, how's it going?

**Kristi Johnson** [00:06]

Good. How are you?

**OMAHA NE** [00:07]

It's Friday at least. Yep, yep, yep. Looking forward to going to Junk Stock Saturday.

**Kristi Johnson** [00:09]

It's Friday. Yes. What can I help you with?

**Kristi Johnson** [00:17]

Oh, are you going to that? The one over by Omaha?

**OMAHA NE** [00:20]

Yeah, yeah, out there on, well, it's the far west end of Dodge Street, right as you turn there and come in, Sycamore Farms or whatever. Yeah, I try to go every once in a while, I don't get all the time, but...

**Kristi Johnson** [00:21]

Okay.

**Kristi Johnson** [00:31]

Yeah, me and my daughter went a couple years ago. It was like right after they had a tornado there. And...

**OMAHA NE** [00:37]

So. Oh, okay, yeah,

**Kristi Johnson** [00:38]

Yeah, whatever year that was. And yeah, my gosh, the place was packed. It was busy.

**OMAHA NE** [00:44]

yeah. It's always packed. It's packed for, well, it'd be packed, it's actually going on probably today already. Today, tomorrow and Sunday. And then it skips five days and it does Friday, Saturday, Sunday again next week.

**Kristi Johnson** [00:51]

So, yeah.

**Kristi Johnson** [00:58]

Oh, I didn't realize it was two weekends in a row. Nice.

**OMAHA NE** [01:01]

Yeah, they do two weekends in a row in the spring and two weekends in a row in the fall.

**Kristi Johnson** [01:05]

Huh. I'll have to make it there again. Oh, my gosh. I love going to those kind of things. Yeah, I do the same. So, I hear you.

**OMAHA NE** [01:06]

I always find something I don't need.

**OMAHA NE** [01:12]

Yep, yep, yep. So anyway, what I called you for was I need to open up another call on 51 for door repair. Do you just want to do that as a second segment or do you just want me to send you another email just for another call?

**Kristi Johnson** [01:26]

Did we just open one for FikYuan?

**OMAHA NE** [01:29]

Yeah, yeah, we just did on 51 for change and drive wheel.

**Kristi Johnson** [01:32]

Oh, I can just add you a second segment then because that'll both be customer pay. So, yep, for damaged door, you said?

**OMAHA NE** [01:40]

Yep, damaged door, door repair.

**Kristi Johnson** [01:42]

Okay, yep, I'll just add a segment.

**OMAHA NE** [01:44]

Cool, thank you. I didn't know if we wanted to do that or just send you another email for the whole thing.

**Kristi Johnson** [01:48]

Yeah, as long as it's the same, you know, it's both customer pay and not a TMNR, then it's fine if we put more than one segment. So, yeah.

OMAHA NE [01:58]

Okay, that'll work. Thank you.

Kristi Johnson [01:58]

Yep, that'll work. All right. Yep, bye.

OMAHA NE [02:02]

Yep, later.

### AI SUMMARY

Ben (Customer) reached out to Shelby (Sales rep) to coordinate a delivery schedule for MidStates, ensuring the timing aligned with their operations.

### FULL TRANSCRIPT

WIRELESS CALLER [00:00]

This call is being recorded.

Shelby Lathrum [00:03]

Thank you for choosing Rion equipment. How may I help you?

WIRELESS CALLER [00:06]

Yeah, Shelby, it's Ben.

Shelby Lathrum [00:08]

Hello, Ben.

WIRELESS CALLER [00:10]

Talked with MidStates, and he said they're moving pipes on Monday morning, and so he asked for a noon delivery, so I told him, like, well, I explained everything to him of our third-party haulers and stuff, and so I was like, I can request after noon, but that's

Shelby Lathrum [00:28]

Yeah.

WIRELESS CALLER [00:32]

Probably the best I can do. And he's like, that's totally fine. And I was like, again, hopefully they listened. And so you think you could message them and ask them about that for Monday for mid-states?

Shelby Lathrum [00:44]

Yeah.

Shelby Lathrum [00:47]

Yeah, I'm going to submit to them today about that haul so that they can get it on their schedule. And then I'll put in there that, like,

WIRELESS CALLER [00:54]

Yeah, perfect.

**Shelby Lathrum** [00:57]

Please be picking the one up here by like 1130. So that they're there by 12. Or does he want...

**WIRELESS CALLER** [00:59]

Yeah,

**WIRELESS CALLER** [01:02]

or I mean...

**WIRELESS CALLER** [01:04]

Yeah, and he said any time in the afternoon is fine. Like, if they – yeah, if it's 2, 3, that's fine just because they're just moving pipes in the morning. And so, like, he's like, I don't want them to show up at 10 and us having to still be taking this mask off and the, you know, their clamp and all that stuff. I was like, yeah, I mean –

**Shelby Lathrum** [01:08]

Okay, so,

**Shelby Lathrum** [01:13]

okay. Okay.

**Shelby Lathrum** [01:23]

Yeah.

**WIRELESS CALLER** [01:27]

I agree. It's hard to control them sometimes.

**Shelby Lathrum** [01:28]

Okay. Yeah.

**Shelby Lathrum** [01:32]

Huh. Yeah. So...

**WIRELESS CALLER** [01:34]

So, okay, no.

**Shelby Lathrum** [01:35]

Okay. I can request just after 12 but before 3.

**WIRELESS CALLER** [01:42]

Yeah.

**Shelby Lathrum** [01:43]

Because I know they like to leave early sometimes.

**WIRELESS CALLER** [01:46]

Sure. No, I appreciate that. And then I let, yeah, J&L Farms know that their unit's coming. So, okay.

**WIRELESS CALLER** [01:58]

Thank you. Adam gone today?

**Shelby Lathrum** [01:59]

Yep, not a problem. Yes.

**WIRELESS CALLER** [02:02]

Good. Good for him.

**Shelby Lathrum** [02:03]

Yep. Yeah.

**WIRELESS CALLER** [02:05]

So, how's Logan? Is he back?

**Shelby Lathrum** [02:09]  
He went to Eddieville this morning, but he's going to be trying to go do an x-ray because his hand still hurts a

**WIRELESS CALLER** [02:16]  
Yeah,

**WIRELESS CALLER** [02:18]  
I bet it does.

**Shelby Lathrum** [02:20]  
lot. Yeah, it wouldn't surprise me if he has some kind of fracture in there.

**WIRELESS CALLER** [02:24]  
Yeah. Okay. Well, yeah. So I'll be around. I might stop by in the office a little bit today, but I'm out and about seeing some people.

**Shelby Lathrum** [02:35]  
Okie dokie.

**WIRELESS CALLER** [02:37]  
Thanks, Shelby.

**Shelby Lathrum** [02:38]  
Yeah, no problem.

**WIRELESS CALLER** [02:40]  
Bye.

CALL 191 OF 611

AI SUMMARY

During the call, Logan (Employee, Ryan Equipment) discussed his painful hand injury with Shelby Lathrum (Employee, Ryan Equipment), expressing concerns about a possible fracture.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Shelby Lathrum** [00:04]  
Thank you for choosing Ryan Equipment. How may I help you?

**Shelby Lathrum** [00:08]  
Good morning, Logan.

**WIRELESS CALLER** [00:10]  
YELLO. MORNING, SHELBY.

**Shelby Lathrum** [00:12]  
How are you doing?

**WIRELESS CALLER** [00:14]

I HURT.

**Shelby Lathrum** [00:15]

I can't imagine.

**WIRELESS CALLER** [00:16]

It's

**Shelby Lathrum** [00:18]

Is it bruised yet?

**WIRELESS CALLER** [00:20]

wrapped up right now. We re-wrapped it last night, so I don't know.

**Shelby Lathrum** [00:25]

I gotcha.

**WIRELESS CALLER** [00:26]

It is still definitely swollen.

**Shelby Lathrum** [00:28]

I bet. Hopefully there's not a fracture inside there.

**WIRELESS CALLER** [00:34]

That's what I'm thinking.

**Shelby Lathrum** [00:36]

Yeah.

**WIRELESS CALLER** [00:39]

With how much it still hurts, I think it might be fractured.

**Shelby Lathrum** [00:43]

Yeah. Well, you...

**WIRELESS CALLER** [00:45]

When we took LJ out to,

**WIRELESS CALLER** [00:53]

what is that?

**WIRELESS CALLER** [00:56]

Yeah, Blank Children's Hospital last night.

**Shelby Lathrum** [00:58]

Yeah.

**WIRELESS CALLER** [01:00]

My wife thought, thinks I might have a boxing fracture and the ER doctor thinks I might have a boxing fracture. She goes, we can take you next door. I was like, look, one, two,

**WIRELESS CALLER** [01:13]

I was like, I appreciate the offer. Two, I was

**WIRELESS CALLER** [01:18]

like, one of two ways it's going to be free for me. Either I'm going to my wife's work and getting an x-ray, or I'm doing it through workers' comp. I was like, I don't need an x-ray,

**Shelby Lathrum** [01:27]

Yeah. It would have to be through Workman's Comp. Yeah. That was nicely offered.

**WIRELESS CALLER** [01:31]

though. No, I know that.

**WIRELESS CALLER** [01:35]

No, my wife's work is free.

**Shelby Lathrum** [01:38]

Oh, is it?

**WIRELESS CALLER** [01:39]

Yeah, for me.

**Shelby Lathrum** [01:40]

Yeah.

**WIRELESS CALLER** [01:41]

Yeah, because she works there, we get free healthcare for the most part.

**Shelby Lathrum** [01:48]

That's good.

**WIRELESS CALLER** [01:48]

Some things ain't, like my CAT scan wasn't.

**Shelby Lathrum** [01:52]

Oh, yeah.

**WIRELESS CALLER** [01:54]

But I think that's a different part of the hospital, so. Well, I

**WIRELESS CALLER** [02:02]

just sent you an email about the kitting for a question. I got that fixed and it's gone.

**Shelby Lathrum** [02:06]

Okay. Are you headed back here?

**WIRELESS CALLER** [02:10]

Yeah, I didn't know. Oh, wait a

**WIRELESS CALLER** [02:16]

minute. What the \*\*\*\* is this?

**WIRELESS CALLER** [02:18]

I'll call you back.

**WIRELESS CALLER** [02:23]

I don't know if I need to go somewhere specific to have an x-ray done.

**Shelby Lathrum** [02:29]

Um, I don't think so.

**WIRELESS CALLER** [02:35]

Maybe I call Bryce. I don't want to bug Adam.

**Shelby Lathrum** [02:39]

Uh, he's gonna prefer that you go through him first before you get Bryce involved.

**WIRELESS CALLER** [02:45]

That makes sense.

**Shelby Lathrum** [02:47]

Yeah. Just so you don't have to get involved with that stuff yet.

**WIRELESS CALLER** [02:57]

Yeah, just because of the pain level, I think it might be fractured.

**Shelby Lathrum** [02:57]

But...

**Shelby Lathrum** [03:02]

Well, you need to also think of your future and the industry you're in. You need to make sure that you're

**WIRELESS CALLER** [03:11]

I'm still not taking six weeks off. I don't give a \*\*\*\*.

**Shelby Lathrum** [03:15]

alright. Oh, Logan, stop being a hardass.

**WIRELESS CALLER** [03:19]

No, this \*\*\*\* needs to get done.

**Shelby Lathrum** [03:21]

We can get her done.

**WIRELESS CALLER** [03:24]

I don't care. I can get it done, too. I still have my right hand. How do you think I got those hoses stretched out?

**Shelby Lathrum** [03:30]

Oh. Logan.

**WIRELESS CALLER** [03:32]

Shelby?

**WIRELESS CALLER** [03:34]

You want to know a funny story? And it's going to be even funnier because this is recorded.

**Shelby Lathrum** [03:41]

Yeah. Let's hear it.

**WIRELESS CALLER** [03:46]

This is bad. So, well, I'm at Eddyville. I stopped at BP to get some soda and some Zen.

**Shelby Lathrum** [03:48]

Logan.

**Shelby Lathrum** [03:54]

Yeah.

**WIRELESS CALLER** [03:57]

And I'm walking out, and you know what a lot lizard is?

**Shelby Lathrum** [04:00]

Yeah.

**WIRELESS CALLER** [04:03]

She walks up to me and goes, I \*\*\*\* \*\*\*\*.

**Shelby Lathrum** [04:07]

What?

**WIRELESS CALLER** [04:09]

And I looked at her, I was like, I don't give a \*\*\*\*.

**Shelby Lathrum** [04:14]

Ma'am, it is daylight hours. You are not supposed to be out and about.

**WIRELESS CALLER** [04:21]

It was bad, I was like, I gotta go, I was like, I'm leaving.

**Shelby Lathrum** [04:25]

Yeah, oh my gosh.

**WIRELESS CALLER** [04:26]

Okay, yeah, I will reach out to Adam and see what he would like me to do.

**Shelby Lathrum** [04:29]

Okay,

**Shelby Lathrum** [04:32]

sounds good. If you can't get a hold of him, just let me know.

**WIRELESS CALLER** [04:37]

Alright, thank you.

**Shelby Lathrum** [04:38]

Yep, no problem. Bye.

### AI SUMMARY

Jesse from Equipment Chair called Matt Wagner at Rion Equipment to ask for the torque specifications on a specific part, and Matt promised to look it up and follow up shortly.

### FULL TRANSCRIPT

**Fwd Adam Ratcliff, Ext. 11425** [00:00]

This call is being recorded.

**Matt Wagner** [00:04]

Rion Equipment Gillette, this is Matt speaking, how am I helping you?

**Fwd Adam Ratcliff, Ext. 11425** [00:07]

Hi, yeah, this is Jesse at Equipment Chair in Casper. I have a tailor here. I have a DIN number for you if you'd like.

**Matt Wagner** [00:15]

Um, well what do you got going on real quick? I just, I don't,

**Fwd Adam Ratcliff, Ext. 11425** [00:16]

Well,

**Fwd Adam Ratcliff, Ext. 11425** [00:19]

I got the output shaft to the transmission yoke nut. I just don't know what torque that has to be at.

**Matt Wagner** [00:28]

oh okay, um yes, let me, I thought that was what you were going to be talking about. I'm just walking into the shop here, let me get my computer fired up.

**Matt Wagner** [00:40]

See what I can find and I'll give you a shot right back. So, all right. Thank you. Bye.

**Fwd Adam Ratcliff, Ext. 11425** [00:40]

Thanks. Alrighty, cool. Thank you very much. Bye.

Inbound

Neutral

### AI SUMMARY

During the call, Terberg Taylor inquired about a recent shipment of glass that was found to be broken upon delivery.

### FULL TRANSCRIPT

**TERBERG TAYLOR** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

I can't

**TERBERG TAYLOR** [00:06]

Hi, good morning, Charles? Charlie?

**TERBERG TAYLOR** [00:10]

Cristobal from Terberg. How are you?

**TERBERG TAYLOR** [00:14]

Feels like bad luck lately,

**TERBERG TAYLOR** [00:20]

huh? Sometimes you just got to laugh. Charlie, can I ask you a question? Is this shipment that was tried to deliver with only the glass? Was there anything else that was trying to be delivered with it?

**Charles Huffman** [00:33]

answer that. I didn't look at the package myself. That was from our receiving guy that sent me those pictures. But I think it was just glass.

**TERBERG TAYLOR** [00:41]

Yeah.

**TERBERG TAYLOR** [00:47]

Okay. Okay.

**Charles Huffman** [00:48]

It was wrapped in a cardboard box, and it was kind of an upright box because the email that you had sent earlier

**Charles Huffman** [00:56]

It had a picture of a crate that was like short and squat, kind of an old wood crate. This one was not that. It was, it

**TERBERG TAYLOR** [01:02]

I think the images were mixed up. Yeah, I think the images were probably mixed up when the team sent over the invoice. I think they didn't attach the right image with the right bill lady. That's probably what happened. Okay, let me identify how many

**TERBERG TAYLOR** [01:19]

I just wanted to know if it had been delivered or what happened with it first.

**Charles Huffman** [01:37]

was, yeah, it showed up and the receiving guy looked in, because there's a big hole in the side of the, and it was just wrapped in cardboard. So he looked through there and you could, you can see in the picture that, that it's broken. And so they looked a little closer and apparently all of it was broken. So he refused the shipment.

**TERBERG TAYLOR** [01:46]

Okay. Yeah.

**Charles Huffman** [01:54]

And at that point, then the driver started to claim on it.

**TERBERG TAYLOR** [01:55]

No, that's not a good question.

**TERBERG TAYLOR** [01:59]

Good. Thank you for sharing that claim number and we'll follow it. And it's time for now we'll try to solve this problem

**TERBERG TAYLOR** [02:08]

and figure out how many were on this shipment.

**TERBERG TAYLOR** [02:13]

Alrighty. Thank you so much. We'll be in touch.

**Charles Huffman** [02:15]

You bet. All right. Thanks. Bye.

**TERBERG TAYLOR** [02:17]

Okay. Bye.

Positive

AI SUMMARY

The conversation involved Lisa Kleeman (Customer Service Representative) assisting Chris from SUDDEN SERVICE regarding the labeling of parts for Ryan Equipment.

FULL TRANSCRIPT

SUDDEN SERVICE [00:00]

This call is being recorded.

Lisa Kleeman [00:03]

Good afternoon, Ryan Equipment. This is Lisa. How can I help you?

SUDDEN SERVICE [00:07]

Hey Lisa, this is Chris, SUDDEN, SERVICE, how are you?

Lisa Kleeman [00:09]

Hey, I am good. How are you?

SUDDEN SERVICE [00:12]

Good. I'm looking at your email that you sent me and you said that these parts are not labeled. But these parts are all labeled. If you look at item number 10 and number 11,

Lisa Kleeman [00:16]

Yes.

Lisa Kleeman [00:27]

That does not...

SUDDEN SERVICE [00:33]

number 10 and number 11 is what goes there.

Lisa Kleeman [00:34]

Okay, and what about the LC2?

SUDDEN SERVICE [00:39]

Okay, now, so that's not steering. So the way this is set up is you can do this in your 16 group, your 15 group, or on your hydraulic system on page 24-205. So this is all not on one page.

SUDDEN SERVICE [01:06]

You said which one was it?

Lisa Kleeman [01:08]

The... Oh, \*\*\*\*. Let me... <REDACTED\_ENTITY>?

Lisa Kleeman [01:17]

On that diagram.

SUDDEN SERVICE [01:19]

Okay, so on that one, you would actually look at catalog page 24-205-4, and this is item number two. So I know how

**Lisa Kleeman** [01:29]

Hold on. Say that number again.

**SUDDEN SERVICE** [01:32]

to, it'll be 24-205-4,

**Lisa Kleeman** [01:36]

Dash four. And you said it's number two?

**SUDDEN SERVICE** [01:39]

item number two.

**Lisa Kleeman** [01:41]

Okay. And the other is this 10 and 11.

**SUDDEN SERVICE** [01:47]

Well, that's not LC2. LC2 is different. LC2 is different.

**Lisa Kleeman** [01:47]

No,

**Lisa Kleeman** [01:52]

no, no, no. I'm saying the others. The LC1...

**Lisa Kleeman** [01:59]

What was it that I was in the PRB? The first in the diagram off of page 16, 24, 10,

**Lisa Kleeman** [02:11]

the first circle you're telling me is 10 and 11,

**SUDDEN SERVICE** [02:18]

No. Well, there's only one blue circle. If you look at these, there's a little, it shows you which one goes where. Number 10 will go on your left side and then the other one for your right side.

**Lisa Kleeman** [02:31]

but on the diagram that I sent asking,

**Lisa Kleeman** [02:37]

For these part numbers, there are two blue circles. Did you not get that?

**SUDDEN SERVICE** [02:42]

Okay, so I did. That's why I said you need to go to catalog page 24-205-4 to see your LC2. It's not on the same catalog page.

**Lisa Kleeman** [02:54]

Yeah, but what I'm asking is the other two that are in here, what is this, the LC1 and the other, the first circle at the top, that's the one you're telling me is 10 and 11?

**SUDDEN SERVICE** [02:54]

Because this is

**Lisa Kleeman** [03:09]

Okay. Okay.

**Lisa Kleeman** [03:16]

Because that is not how it looked.

**SUDDEN SERVICE** [03:25]

a, I mean, I'm just, I'm just, I'm just want to show you how to, how to find this next time you're looking for it. Because,

**Lisa Kleeman** [03:29]

But, yeah, no, and that's all fine. I mean, I appreciate that, definitely.

**SUDDEN SERVICE** [03:36]

because, I mean, it's not, because you can see LC2 there, but it don't give you a port number when you're looking at it in your steering circuit. But if you look at it in your hydraulic,

**SUDDEN SERVICE** [03:49]

in your hydraulic valve manifold, or your hydraulic valve assembly, it gives you the port number for it there.

**Lisa Kleeman** [04:05]

Okay. Oh, my computer keeps going.

**Lisa Kleeman** [04:12]

Yep. I don't even have a phone.

**Lisa Kleeman** [04:19]

Are you still there,

**Lisa Kleeman** [04:22]

Chris? Okay, sorry. No, my phone keeps going in and out. We're having major internet issues.

**Lisa Kleeman** [04:29]

So it's like glitching left and right.

**Lisa Kleeman** [04:38]

Okay. Then I will get these quoted over to my customer.

## Inbound call from OMAHA NE

April 30, 2026 | 08:33 PM | Duration: 2m 57s | From: OMAHA NE | To: +14026440781

Inbound

Positive

### AI SUMMARY

The conversation involved Rodney Meier (Company Representative) assisting the customer with ordering slide bushings.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

- Yes,

**OMAHA NE** [00:06]

Okay, one last thing. I use those slide bushings, or the side shift slide bushings, and I'm looking on here, I got two different bags, different part numbers, but they got the same PU number on

**Rodney Meier** [00:22]

sir. Oh, 'cause they were ordered at the same time. One's upper and one's lower. The PO number, PU is the purchase order number they were bought on. There should be a CTA 121.80 and a CT 167 something.

**OMAHA NE** [00:24]

them. Oh, the PU, okay, that, okay.

**OMAHA NE** [00:30]

Okay,

**OMAHA NE** [00:39]

okay. Yeah, one, two, seven, six, four.

**Rodney Meier** [00:42]

There, okay, yep, that's the upper. The 121.80 is the lower, I believe.

**OMAHA NE** [00:46]

No, the 764 is the lower.

**Rodney Meier** [00:50]

Okay, I had it backwards, all right.

**OMAHA NE** [00:51]

And the 180 is the upper. I need two of the uppers and one of the lowers. I'm sorry. I tried sending an email, but I was sending the PU number, not the \*\*\*\*\* whatever number.

**Rodney Meier** [01:01]

Oh, yep, yep, nope, the PU is a purchase order was bought on. So it was 121.80 or 121.20 and what was the other one?

**OMAHA NE** [01:06]

Okay.

**OMAHA NE** [01:13]

Nope. 121, 121, 80.

**OMAHA NE** [01:18]

And 127, 64. Okay.

**Rodney Meier** [01:22]

All right, and you needed two,

**OMAHA NE** [01:24]

Two of the 180s

**Rodney Meier** [01:26]

okay.

**OMAHA NE** [01:27]

and one of the 764.

**Rodney Meier** [01:30]

Okay. All right. Do we have a call open for that already?

**OMAHA NE** [01:31]

Okay.

**OMAHA NE** [01:34]

Yep, that's what I'm going for.

**Rodney Meier** [01:36]

Or you're working on it?

**OMAHA NE** [01:38]

Hold on. Let's

**OMAHA NE** [01:45]

see. It would be 804009.

**Rodney Meier** [01:53]

Okay. 804009. All

**OMAHA NE** [01:55]

Yep, that was the one I finished when I got those rollers. And I just got it together, but the battery's toast. So like I said, it's together. It's just the battery shot.

**Rodney Meier** [02:01]

right. Oh, sure.

**Rodney Meier** [02:08]

Right, right. Okay. I will get these coming.

**OMAHA NE** [02:12]

Okay, and then put them on there so then I can maybe close that call out at some point.

**Rodney Meier** [02:16]

Yep. Yep. Nope. I will get her done as soon as possible.

**OMAHA NE** [02:21]

Okay. Cool, thank you. I'm so far behind closing \*\*\*\* out, it ain't even funny.

**Rodney Meier** [02:22]

All right. You bet.

**Rodney Meier** [02:25]

Yeah, well, and I'm due to sign out, so I'll probably do it first thing in the morning.

**OMAHA NE** [02:30]

That is fine. Don't worry about it. I'm going to put time on today, and that's all I'm doing.

**Rodney Meier** [02:32]

Okay, all right.

**Rodney Meier** [02:35]

Okay, that sounds good.

**OMAHA NE** [02:37]

Yep. See you later.

**Rodney Meier** [02:38]

All righty, you bet. See you, Dan. Bye.

**OMAHA NE** [02:39]

Thanks. Yep. Thank you.

This call is being recorded.

**Nate Ross** [00:03]

Ryan, you're coming apart as Nate.

**KAWASAKI MOTORS** [00:05]

Nate, this is Tim back. I'm trying to fill out that request right now. And do you actually have a, brain, come on, work, part number for these tires?

**Nate Ross** [00:20]

Give me one second,

**KAWASAKI MOTORS** [00:26]

One second,

**Nate Ross** [00:32]

sir. That part number is going to be M as in Mary, M as in Mary,

**KAWASAKI MOTORS** [00:35]

one second, one second, one second here.

**KAWASAKI MOTORS** [00:41]

MM.

**Nate Ross** [00:43]

H as in Harry,

**KAWASAKI MOTORS** [00:47]

Okay.

**Nate Ross** [00:47]

5, 4,

**Nate Ross** [00:49]

33, 78.

**KAWASAKI MOTORS** [00:53]

Okay. All right. All right. Thank you. I just had to get that number in there, okay?

**Nate Ross** [01:00]

Nope, sounds good.

**KAWASAKI MOTORS** [01:02]

All right. Thank you. Bye. Bye.

**Nate Ross** [01:03]

Thanks. All right.

AI SUMMARY

The conversation involved Tim Keiser from KAWASAKI MOTORS following up on a tire quote, which was not provided, and Nate Ross confirming he will facilitate access to a login from Turbo for further processes.

FULL TRANSCRIPT

KAWASAKI MOTORS [00:00]

This call is being recorded.

Nate Ross [00:04]

Brian, you coming apart tonight?

KAWASAKI MOTORS [00:05]

Hi Nate, this is Tim Keiser. Hey, I'm following up on some of Lucas' stuff. Did he ever give you a quote for those tires?

Nate Ross [00:20]

Never did,

KAWASAKI MOTORS [00:21]

Okay, I'll work on that. All right. I think I know they're not...

KAWASAKI MOTORS [00:27]

No help is a stock part which makes it harder to do.

Nate Ross [00:32]

no. And then I was going to tell you guys, I did get them to, Turbo's going to get me a login for you guys. So I will let you know as soon as I get that done.

KAWASAKI MOTORS [00:40]

Okay.

KAWASAKI MOTORS [00:44]

Alright, yeah, send that to me. I'll probably work on this tomorrow because I'm going to set it up to get me a...

Nate Ross [00:47]

Yep, I sure will.

KAWASAKI MOTORS [00:57]

A blah, blah, blah, blah, blah. That's how my day is. I'm going to get it set up to be a stock part, which I have to get some approvals for at that price, okay?

Nate Ross [01:03]

Yeah.

Nate Ross [01:10]

Okay, sounds good.

KAWASAKI MOTORS [01:13]

All right, you have a good day, man. All right, bye.

**Nate Ross** [01:14]

Hey, you too. Yep. Bye bye.

**AI SUMMARY**

Amber Barth from Rion Equipment took a call from Alex at Momentum Drug Group, who requested the DOT number.

**FULL TRANSCRIPT**

**MOMENTUM TRUCK** [00:00]

This call is being recorded.

**Amber Barth** [00:04]

Rion Equipment, this is Amber. How may I help you?

**MOMENTUM TRUCK** [00:06]

Hey, Amber, my name is Alex. I'm calling for Momentum Drug Group on Highway 10. Hey, I forgot to ask for the DOT number while you guys were here. Do you have that handy by any chance?

**Amber Barth** [00:15]

Oh, let me--

**Amber Barth** [00:21]

gosh, I don't know if it's different for those as opposed to our trucks. I'll send you over an email. I just want to double check.

**MOMENTUM TRUCK** [00:29]

Okay, perfect. Sounds good. Thank you.

**Amber Barth** [00:32]

Thank you. Did you get my message about the hose?

**MOMENTUM TRUCK** [00:36]

How about the hose? I did not.

**Amber Barth** [00:41]

OK.

**Amber Barth** [00:43]

Yeah, if you guys have like one of the seven prong hoses.

**MOMENTUM TRUCK** [00:48]

So like airline hoses or what kind of

**Amber Barth** [00:53]

Right, yeah.

**MOMENTUM TRUCK** [00:55]

like? I'll do some checking for you.

**Amber Barth** [00:58]

Yeah, I left you a message like right when we had dropped it off.

**MOMENTUM TRUCK** [01:02]

Oh, okay. I'm going to be honest with you. I've been very behind on voicemails today. End of month is just killing me.

**Amber Barth** [01:05]

For sure, no. Yeah, nope, I get it.

**MOMENTUM TRUCK** [01:08]

I'll double check if we've got the hose you need and get you all that information. Is it like there's damage to the hose that's on there?

**Amber Barth** [01:17]

Perfect.

**Amber Barth** [01:24]

No, there just currently isn't one.

**MOMENTUM TRUCK** [01:26]

Oh, okay, I got you. That makes it easy. Okay, sounds good. Yeah. I'll do some checking for you and see what I can find.

**Amber Barth** [01:29]

Perfect. Okay. Okay. Perfect. And you can even just reply back to the email that I send you too. Perfect. Absolutely. Yes. Absolutely. Yep. Whatever works easiest for you.

**MOMENTUM TRUCK** [01:35]

And that's what I was going to ask next. Is it okay if I just email back? Because I am away from my desk more than I should be. Thank you so much. Bye.

**Amber Barth** [01:43]

Yes. Thank you. Bye-bye.

## Inbound call from WIRELESS CALLER

April 30, 2026 | 07:37 PM | Duration: 6m 4s | From: WIRELESS CALLER | To: +14025942048

Inbound

Negative

### AI SUMMARY

The conversation involved a customer from ITI calling about a \$5,200 invoice related to a forklift rental.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Rion Equipment, this is Danny.

**WIRELESS CALLER** [00:07]

Hi. I was actually reaching out trying to get a hold of Chad Metzger.

**Chad Metzger** [00:10]

He's actually out today. He'll be back in the morning. Is there something I can help you with?

**WIRELESS CALLER** [00:17]

Okay. I mean, maybe you can answer my question or my concerns here. So I'm sitting here looking at an invoice from you guys for \$5,200.

**WIRELESS CALLER** [00:32]

I work with ITI on a modal. We tried to rent a piece of equipment from you guys. It was a Taylor 360, I believe. Big forklift. We got it sent down here. Once it got here, we looked it over and realized that it was low on some fluids.

**Chad Metzger** [00:46]

Thank

**WIRELESS CALLER** [00:56]

And we had the local Ryan dealer come out and put in a handful of those fluids, but not even all of the fluids. We said that it was low on coolant, and we were told that he doesn't keep coolant on his truck, and he wouldn't refill that for us or whatever. So that was odd. But...

**WIRELESS CALLER** [01:19]

So couldn't use the truck the first day that we got it because obviously it wasn't ready to be run fluids wise. And then the second day we took it out and ran it and realized that it didn't go high enough for what we needed it for. So I called that truck.

**Chad Metzger** [01:20]

you.

**Chad Metzger** [01:28]

Yep.

**WIRELESS CALLER** [01:41]

LATER THAT MORNING AND BASICALLY SAID, HEY, THIS WON'T DO WHAT WE NEED IT TO. YOU GUYS CAN COME GET IT.

**WIRELESS CALLER** [01:49]

SO I WAS NEVER ABLE TO USE THE MACHINE FOR MORE THAN AN HOUR. AND DURING THAT HOUR, I BASICALLY FOUND OUT THAT I COULDN'T USE THE MACHINE. I'M

**WIRELESS CALLER** [02:01]

KIND OF JUST, YOU KNOW, HOPING THAT I'M NOT GOING TO EAT FIVE GRAND FOR

**WIRELESS CALLER** [02:07]

I need to have this as a lawn ornament for a couple days in my yard.

**Chad Metzger** [02:13]

Let me see what I can pull up here.

**Chad Metzger** [02:25]

36,

**WIRELESS CALLER** [02:26]

Yeah,

**Chad Metzger** [02:36]

8'4".

**WIRELESS CALLER** [02:45]

and I actually never received the rental agreement until

**WIRELESS CALLER** [02:49]

After I had told you guys and been like, hey, this isn't going to work for us. And then I got a follow-up email from, I believe from Chad as well, saying that it was canceled or something along those lines. But then I still have this invoice.

**Chad Metzger** [03:10]

I see

**WIRELESS CALLER** [03:11]

Yeah, I have an email from Chad saying that it's a voided Rion rental agreement sent to me.

**Chad Metzger** [03:23]

the contract right here.

**Chad Metzger** [03:27]

It shows closed.

**Chad Metzger** [03:35]

He typically handles the billing stuff. So I'm trying to see what I can find out here for you.

**WIRELESS CALLER** [03:41]

I mean, I hear you and if he needs to call me back on it tomorrow, it is what it is.

**Chad Metzger** [03:49]

Yeah, he will be back in the morning tomorrow. He's here in the morning. I think he's out in the afternoon.

**Chad Metzger** [04:00]

So if you want to give him a shout back, I'm looking. Basically, this shows me what my view here just shows me. Yes, you were the customer. Yes, here was your rate.

**WIRELESS CALLER** [04:02]

Okay.

**Chad Metzger** [04:13]

And it shows me closed, but I can't see where it was deleted or canceled. Do you know what I mean?

**WIRELESS CALLER** [04:20]

Yeah.

**Chad Metzger** [04:21]

Okay. But you did get a bill for it. Is that what you're saying?

**WIRELESS CALLER** [04:26]

Okay. Yeah, I got, I mean, all of our invoices and stuff are sent directly to the corporate office and then they send them here and, you know, basically get them approved or not, whether

**WIRELESS CALLER** [04:37]

THE SERVICE OR THE RENTAL WAS DONE OR NOT DONE OR WHATEVER. SO THEY SENT ME THE RENTAL INVOICE FROM THE 21ST THAT HAS A TRANSPORTATION FEE, ENVIRONMENTAL FEE, TRANSPORTATION PICKUP FEE, RENTAL EQUIPMENT PROTECTION, AND THEN THE SHORT-TERM RENTAL.

**Chad Metzger** [04:41]

I got you.

**Chad Metzger** [04:55]

262.

**WIRELESS CALLER** [04:58]

AND THAT ALL BASICALLY COMES OUT TO

**WIRELESS CALLER** [05:02]

56, 29, 54, and I was never able to use the equipment. So just a little bit of bad taste over here.

**Chad Metzger** [05:15]

No, I'm just making some notes here. Okay. I'll talk to him about it in the morning, too. If you want to reach out and give him a call in the morning and then see what we can do and get you squared away of some sort.

**WIRELESS CALLER** [05:26]

Okay.

**WIRELESS CALLER** [05:33]

Okay. Sounds good. Thank you, sir. Bye.

**Chad Metzger** [05:34]

All right. No problem. Thank you. Bye.

CALL 204 OF 611

**Inbound call from CRAGG GREGORY**

April 30, 2026 | 07:37 PM | Duration: 2m 14s | From: CRAGG GREGORY | To: +18162877013

Inbound

Positive

**AI SUMMARY**

The conversation between CRAGG GREGORY and Miguel Rivera Padilla revolved around scheduling work for Garrett, specifically an engine swap for a spotter truck.

**FULL TRANSCRIPT**

**CRAGG GREGORY** [00:00]

This call is being recorded.

**Miguel Rivera Padilla** [00:05]

Ryan Equipment, this is Miguel, how can I help

**CRAGG GREGORY** [00:08]

What is going on today?

**Miguel Rivera Padilla** [00:10]

you? Hey, what's going on, sir?

**CRAGG GREGORY** [00:12]

Oh, just trying to make sense of life.

**Miguel Rivera Padilla** [00:16]

You and I both.

**CRAGG GREGORY** [00:16]

It ain't working so far, but I'm trying.

**CRAGG GREGORY** [00:21]

Yep, I think it's a losing battle. I'll keep trying, but I think it's a losing battle. Hey, what do you got Garrett doing next week?

**Miguel Rivera Padilla** [00:24]

Man.

**Miguel Rivera Padilla** [00:31]

Let's see. I don't think I have anything in the calendar for him.

**Miguel Rivera Padilla** [00:40]

I don't think I have anything for him so far.

**CRAGG GREGORY** [00:45]

So if you get something, you can go ahead and put him on it, no big deal, but I know Nick's been wanting me to use some of them guys if we get something. We've got a spotter truck coming. It's an auto car that needs an engine put in it. We're

just going to swap the engine out. And Nick said he was kind of a truck guy. Is that right?

**Miguel Rivera Padilla** [01:04]

Yes, sir, he is.

**CRAGG GREGORY** [01:06]

Hey, I'd be right up his alley. So the customer, I'm sending a wrecker after this thing tomorrow to get it here.

**CRAGG GREGORY** [01:12]

The engine is supposed to ship here next, it should be here next week. So once I know what day it's going to be here, I'll give you a call. Garrett ain't there right now, is he?

**Miguel Rivera Padilla** [01:17]

Okay.

**Miguel Rivera Padilla** [01:26]

Okay. No, he's not. He's actually at a customer location right now.

**CRAGG GREGORY** [01:31]

Oh, okay. So will you talk to him today?

**Miguel Rivera Padilla** [01:35]

Yeah, I'll talk to him.

**CRAGG GREGORY** [01:36]

You want to kind of just let him know it's an auto car spotter truck. We've got to swap the engine in it.

**Miguel Rivera Padilla** [01:41]

Okay.

**CRAGG GREGORY** [01:42]

See if he'd be interested in coming next week and then once I know for sure what day it'll be here, I'll let you know and if we can make it work, we'll make it work.

**Miguel Rivera Padilla** [01:51]

Okay, sounds good. Sounds good. Yes, sir, I'll call you and let you know what he says.

**CRAGG GREGORY** [01:53]

All right, Miguel, I appreciate it.

**CRAGG GREGORY** [01:59]

Okay, sounds good.

**Miguel Rivera Padilla** [02:00]

Sounds like a deal. Yes, sir, have a good one. All right, bye.

**CRAGG GREGORY** [02:02]

All right, thank you.

**CRAGG GREGORY** [02:04]

All right, see ya. Bye.

## Inbound call from OMAHA NE

April 30, 2026 | 07:28 PM | Duration: 1m 29s | From: OMAHA NE | To: +14026440781

Inbound

### AI SUMMARY

Rodney Meier (Company Representative) called to address a malfunctioning forklift battery issue but ended on a positive note by sharing that a TVH part was ordered, which should arrive soon.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

I must have caught you in the plant somewhere.

**OMAHA NE** [00:07]

No, I was actually on the phone with Jake. Remember I told you that forklift that died on me this morning when I was coming through the line with a bad battery? And I told you a whole rigmarole or whatever. Well, I put it in the one I'm working on with the rollers, and as soon as I went, I moved it a little bit. I went to go raise the hydraulics, and it coated out again, so the battery is \*\*\*\*\* toast.

**Rodney Meier** [00:19]

Yeah, yeah.

**OMAHA NE** [00:30]

So I told him, I said, we ain't got one. What am I supposed to do about it? You know.

**Rodney Meier** [00:30]

Oh, wow. Yeah.

**Rodney Meier** [00:35]

Yeah, no \*\*\*\*. No \*\*\*\*. Well,

**OMAHA NE** [00:38]

Yeah, there's no spare batteries.

**Rodney Meier** [00:40]

yeah, there you go. Would you like some good news for a change?

**OMAHA NE** [00:44]

So what's that?

**Rodney Meier** [00:45]

Apparently, my TVH was locked up. They had that rail. They should be there either tomorrow or Monday at the latest.

**OMAHA NE** [00:50]

Oh, cool.

**OMAHA NE** [00:54]

Okay. I'll let Jimmy know on that. He'll be happy with that.

**Rodney Meier** [00:56]

So I thought I'd give you some good news. Yeah, it's ordered. I don't know if, you know, when it's just late in the afternoon, you never know if it's going to go out or not. But yeah, I got everything ordered. So if you don't see it tomorrow, you'll probably see it Monday.

**OMAHA NE** [00:59]

Yeah, yeah.

**OMAHA NE** [01:07]

Yep, exactly.

**OMAHA NE** [01:14]

Okay. I will let him know.

**Rodney Meier** [01:15]

Okay, sounds good. You betcha. Bye.

**OMAHA NE** [01:16]

Cool. Thanks. Thanks, Rod. Goodbye.

CALL 206 OF 611

## Inbound call from ENDICOTT CLAY

April 30, 2026 | 07:23 PM | Duration: 5m 6s | From: ENDICOTT CLAY | To: +14024731032

Inbound

Neutral

### AI SUMMARY

The conversation began with ENDICOTT CLAY seeking a governor for a DEWU, only to find out it was discontinued.

### FULL TRANSCRIPT

**ENDICOTT CLAY** [00:00]

This call is being recorded.

**Nate Ross** [00:03]

Rion and Clement Parts, Nate,

**ENDICOTT CLAY** [00:05]

Nate, hey, this is Russ. I'm looking for a governor for a DEWU. I have a part number of 7E5090.

**Nate Ross** [00:16]

what you got?

**ENDICOTT CLAY** [00:24]

And it says it's discontinued to contact you.

**Nate Ross** [00:29]

Oh, no.

**Nate Ross** [00:36]

And it is available through TBH. What a deal.

**Nate Ross** [00:45]

What do you want for appeal on

**ENDICOTT CLAY** [00:51]

764S, but I got some more I'll add to that.

**ENDICOTT CLAY** [00:55]

Maybe if I find the right \*\*\*\* page.

**Nate Ross** [01:03]

it? You just want one of those?

**ENDICOTT CLAY** [01:03]

Oh, I probably should have two.

**ENDICOTT CLAY** [01:09]

Okay, and then I need a...

**ENDICOTT CLAY** [01:12]

I guess we'll have two of these. 8N5146.

**Nate Ross** [01:29]

Chamber Assembly?

**ENDICOTT CLAY** [01:31]

Yeah.

**Nate Ross** [01:34]

Is that

**Nate Ross** [02:18]

a chamber assembly?

**ENDICOTT CLAY** [02:19]

Yes.

**Nate Ross** [02:21]

I cannot get my hands on those. I remember those now.

**Nate Ross** [02:26]

They discontinued those completely through, even through Doosan,

**Nate Ross** [02:32]

which is the new Daewoo dealer. I do remember those now.

**Nate Ross** [02:37]

I was looking back through my email because I tried to order one of those for you a while back.

**ENDICOTT CLAY** [02:42]

Okay. Well,

**Nate Ross** [02:45]

Yeah, through TVH and through

**Nate Ross** [02:49]

MLA, I cannot get those.

**ENDICOTT CLAY** [02:53]

okay.

**Nate Ross** [02:57]

Unless you can get them on eBay or something sometimes. That would be about the only thing.

**ENDICOTT CLAY** [03:01]

Yeah, he's got wrote on here, vacuum advance.

**ENDICOTT CLAY** [03:07]

Okay, then I need a number 372705.

**ENDICOTT CLAY** [03:14]

He says it's a sheave.

**Nate Ross** [03:17]

Let's take a look. 3727305.

**Nate Ross** [03:27]

3727305.

**Nate Ross** [03:35]

What's it on? Is that DEWU?

**Nate Ross** [03:39]

3727305. I am not getting that to come up. I'm getting it to come up as

**ENDICOTT CLAY** [03:41]

372705.

**Nate Ross** [03:47]

05. There we go.

**Nate Ross** [03:53]

Yep, it is a sheave, yep. And we're good to go there. We can order them. How many of those do you

**ENDICOTT CLAY** [03:58]

I'd take two of

**ENDICOTT CLAY** [04:02]

them. And then I need a 3, 4, 6. 3, 8, 9, I'd take two of them.

**Nate Ross** [04:11]

want? Take a look on that.

**Nate Ross** [04:13]

Three, four, six, three, eight, one.

**Nate Ross** [04:21]

And we have those on hand as well.

**ENDICOTT CLAY** [04:23]

Okay. Well, that would fix me up. I'll have to see what that would be.

**Nate Ross** [04:26]

All right. How fast do you want those?

**ENDICOTT CLAY** [04:30]

No.

**ENDICOTT CLAY** [04:33]

I suppose sooner the better, probably.

**Nate Ross** [04:37]

Okay. I'll get her taken care of,

**ENDICOTT CLAY** [04:39]

All right. Sounds good. Thank you. Yep.

**Nate Ross** [04:40]

Russ. All right. Thank you, sir. Yeah, all right.

## Inbound call from LOUISVILLE NE

April 30, 2026 | 07:13 PM | Duration: 10m 22s | From: LOUISVILLE NE | To: +14026440781

Inbound

Neutral

### AI SUMMARY

The conversation opened with a question about whether Dan had ordered two modules for a charger at Cargill.

### FULL TRANSCRIPT

**LOUISVILLE NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Hi,

**LOUISVILLE NE** [00:06]

Howdy. Got a question for you.

**LOUISVILLE NE** [00:10]

Did Dan ever order two modules for a charger at Cargill?

**Rodney Meier** [00:20]

Luke. Good question. How long ago would we have ordered them?

**LOUISVILLE NE** [00:26]

I can give you a service call.

**LOUISVILLE NE** [00:30]

802-035.

**Rodney Meier** [00:49]

Give me a second to clear this off.

**Rodney Meier** [01:00]

Too many screens open.

**Rodney Meier** [01:13]

Come on, don't lock up on me now.

**Rodney Meier** [01:19]

There we

**Rodney Meier** [01:26]

go. Okay. 802035.

**Rodney Meier** [01:41]

Hopefully I'd punch you in the right number. Gosh dang it.

**Rodney Meier** [01:57]

I have nothing on order there. I have no part numbers.

**LOUISVILLE NE** [02:03]

Okay,

**LOUISVILLE NE** [02:13]

I will...

**Rodney Meier** [02:16]

Yeah, 417. No, that was when I was in Texas. I don't recall seeing anything.

**LOUISVILLE NE** [02:16]

Because I don't know any of that information.

**LOUISVILLE NE** [02:30]

Okay.

**LOUISVILLE NE** [02:35]

Yeah, because it's those chargers

**LOUISVILLE NE** [02:39]

for the lithium-ion batteries that are at Cargill.

**Rodney Meier** [02:40]

All the triathlon ones.

**Rodney Meier** [02:45]

And I think I have some modules on order now that are supposed to be coming the end of May, maybe for something else.

**LOUISVILLE NE** [02:53]

Yeah. For probably the one we robbed models out

**Rodney Meier** [02:56]

That's a possibility.

**Rodney Meier** [03:01]

Give me a second here.

**Rodney Meier** [03:09]

I've got two 48-volt power modules ordered from Sunlight Batteries.

**Rodney Meier** [03:16]

That were ordered back in frickin' December, I think.

**LOUISVILLE NE** [03:20]

of. Yeah, so that was a Dustin order. Now we need that order again.

**Rodney Meier** [03:29]

At least I assume these are the modules probably that you're looking for.

**LOUISVILLE NE** [03:33]

Yeah, likely.

**Rodney Meier** [03:35]

035-6803-MMH.

**Rodney Meier** [03:43]

Yeah, they're \$1,400 a piece, our cost.

**LOUISVILLE NE** [03:51]

Did he have to send a quote to get that approved?

**LOUISVILLE NE** [03:56]

Or did you just order it?

**Rodney Meier** [03:56]

- No, I think the ones I had were on TMNR, so it didn't make any difference.

**Rodney Meier** [04:02]

In fact, I think he may have closed that call 'cause this is on an open work order or an open PO. I don't have it assigned to any service call yet.

**Rodney Meier** [04:13]

So I think he may have closed that first one up

**Rodney Meier** [04:19]

because it had been hanging out so long.

**Rodney Meier** [04:22]

Because the one that I have here, the 802.035,

**Rodney Meier** [04:33]

of course it looks like she just opened it up on April 17th is all. But there's 40, there's a couple hours labor on it already.

**LOUISVILLE NE** [04:42]

Yep, that was... I had to go help.

**LOUISVILLE NE** [04:45]

And figure this one out.

**Rodney Meier** [04:47]

Give me a second, let me look at something once.

**Rodney Meier** [05:05]

Okay, let's see.

**Rodney Meier** [05:21]

Okay, battery charger not working.

**Rodney Meier** [05:28]

SC802835, the one we're talking about.

**Rodney Meier** [05:42]

Let's see. I think that's just the battery. I think we must have put some, oh, here's a couple of battery, well, repair battery module.

**Rodney Meier** [05:59]

This one's got Dan's name on it from February 11th.

**Rodney Meier** [06:07]

And I'm thinking maybe that's the one that these two go to.

**LOUISVILLE NE** [06:14]

Has it been that long?

**Rodney Meier** [06:25]

And warranty waiting on parts battery is in the shop. Nope, that must be a battery one. That's not a charger.

**LOUISVILLE NE** [06:31]

Oh, that's right.

**Rodney Meier** [06:36]

Okay, let's go back.

**LOUISVILLE NE** [06:39]

Yeah, the one, that 417 is the one I did help him with.

**Rodney Meier** [06:42]

All right, I do have a couple of remove and replace modules that are still open yet.

**Rodney Meier** [06:53]

And this one has no, I think that's what happened to get closed and reopened. 'Cause here's, there's two of them here for replacing modules.

**Rodney Meier** [07:03]

Jake opened them up, so I'm guessing that's what we did.

**Rodney Meier** [07:08]

'Cause there's no parts or labor on either one of them.

**Rodney Meier** [07:12]

And they are dated 11-23. So we put Dan on them. These are the ones that were originally opened up for

**Rodney Meier** [07:22]

Dustin.

**Rodney Meier** [07:26]

And we changed Dustin's name to Dan's. It's on Unit 36 and Unit 37.

**Rodney Meier** [07:37]

So I don't know what unit you have.

**LOUISVILLE NE** [07:41]

I think that one's 36 as well.

**Rodney Meier** [07:50]

Yeah, 651046. And yep, 651046. So yeah, that's unit 36. So we have a couple calls open for replacing the two modules that I have on order. Are we gonna need more?

**LOUISVILLE NE** [08:09]

Yeah, it's two more.

**Rodney Meier** [08:12]

How many modules are in each charger? Like three? Six in each charger?

**Rodney Meier** [08:23]

So we'll need two for the 802.035 and then one each on the other two I assume is why I only have two on order.

**LOUISVILLE NE** [08:33]

Yeah, two were probably ordered for Dustin, and he said the parts were way out and it was faster to buy a new charger.

**Rodney Meier** [08:41]

Yep, yep, 'cause I think we ended up, yeah, I think they did,

**LOUISVILLE NE** [08:42]

And so they did.

**LOUISVILLE NE** [08:47]

And then

**LOUISVILLE NE** [08:49]

this is probably that same scenario of we need two modules and it's probably going to be way the \*\*\*\* out there, ain't it?

**Rodney Meier** [08:56]

yeah. Well, it depends on how many they have coming in. If they have more coming in to where they can ship them all at the same time, we might be okay.

**Rodney Meier** [09:08]

I'll have to get ahold of sunlight and see what their availability is on them right now.

**Rodney Meier** [09:15]

And we can go from there.

**Rodney Meier** [09:22]

So let me, I've got the part number written down here.

**Rodney Meier** [09:30]

So let me see what I can find out. I have your service call number and you need two for that service call.

**Rodney Meier** [09:37]

Plus the two we have coming, so that'll give us four total.

**Rodney Meier** [09:46]  
So let me see what I can find out.

**LOUISVILLE NE** [09:51]  
Okay.

**Rodney Meier** [09:54]  
All right, you bet, Luke, thanks, bye.

CALL 208 OF 611

**Inbound call from WIRELESS CALLER**

April 30, 2026 | 07:12 PM | Duration: 1m 43s | From: WIRELESS CALLER | To: +14025942063

**Inbound** **Positive**

**AI SUMMARY**

The conversation involved the Wireless Caller requesting a service call for steering calibration, which Jodi Nickell successfully arranged while discussing previous pickup details and confirming everything was on track.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**WIRELESS CALLER** [00:04]  
Hello. Can you open me a service call, please, for serial number 9846-9880

**Jodi Nickell** [00:07]  
Hello? What's going on?

**WIRELESS CALLER** [00:14]  
for calibrate steering.

**Jodi Nickell** [00:23]  
Alrighty.

**Jodi Nickell** [00:25]  
I can do that.

**WIRELESS CALLER** [00:26]  
And I will be at GOP tomorrow.

**Jodi Nickell** [00:32]  
GOP?

**WIRELESS CALLER** [00:33]  
Yep.

**Jodi Nickell** [00:35]  
Alright. Are you still at Merck? Oh. So you were there. They didn't tell me when they were picking it up,

**WIRELESS CALLER** [00:36]  
I think, yep.

**WIRELESS CALLER** [00:39]

I had

**WIRELESS CALLER** [00:42]

it. Yeah, he showed up. Yeah, he called me and said he was on his way. And yeah, so it worked out. It worked out okay.

**Jodi Nickell** [00:47]

so... Oh. Well...

**Jodi Nickell** [00:51]

At least he called you because I was like,

**WIRELESS CALLER** [00:53]

Yeah.

**Jodi Nickell** [00:55]

because I said if it's coming by sub hauler, call Tim when en route. So they must have just called you either way. So I was like, please let me know if this is going to happen today. I didn't hear anything. I just saw Courtney's message that it had arrived.

**WIRELESS CALLER** [01:03]

Yeah, there's... Yeah.

**Jodi Nickell** [01:13]

So I was like, okay then.

**WIRELESS CALLER** [01:14]

Ha! Ha! Ha! Yeah, yeah. There's gonna need to be wheels on it. Tim drove it from Nurk.

**Jodi Nickell** [01:22]

Right. So, well good. It all worked out then.

**WIRELESS CALLER** [01:24]

Oh, \*\*\*\*.

**WIRELESS CALLER** [01:26]

Okay. Yep.

**Jodi Nickell** [01:29]

Okay. Yeah. Bye.

**WIRELESS CALLER** [01:30]

Thank you. Bye.

### AI SUMMARY

A called Chad to confirm his availability and schedule a follow-up call. Chad informed A that he would be back in the morning and out in the afternoon, and A agreed to try again the next day.

### FULL TRANSCRIPT

**A** [00:00]

This call is being recorded.

**Chad Metzger** [00:05]  
Ryan, equipment this is Danny.

**Chad Metzger** [00:08]  
He's actually out today.

**A** [00:08]  
Hi, yes, is Chad available?

**A** [00:13]  
Oh, okay, alright. Okay, I will try again tomorrow.

**Chad Metzger** [00:14]  
He will be back.

**Chad Metzger** [00:18]  
Yep, he will be back. He's in in the morning and then he's out in the afternoon.

**A** [00:23]  
Oh, okay, I'll try again tomorrow morning.

**Chad Metzger** [00:27]  
Okay, that's all. Thank you. Bye.

**Inbound**      **Neutral**

**AI SUMMARY**

Kristi and Louisville discussed a missing email with AJB instead of AG. Kristi acknowledged the issue and promised to check the email.

**FULL TRANSCRIPT**

**LOUISVILLE NE** [00:00]  
This call is being recorded.

**Kristi Johnson** [00:03]  
Hey Luke. Sit down a minute. Wait. Yeah, that looks fine. But yeah, like I said, let us know how we can help. Okay, it's what? Sorry, I'm on a...

**LOUISVILLE NE** [00:05]  
That email I sent you is just AGB, not AG, for A-J-B.

**LOUISVILLE NE** [00:14]  
It needs to be A-J-B, sorry.

**Kristi Johnson** [00:18]  
AJB. Okay. I haven't looked at it yet. Sorry, I'm on a call with Jake and George. So, I will look at it here in a second.

**LOUISVILLE NE** [00:27]  
Okay, thank you.

**Kristi Johnson** [00:28]  
Alright, thanks. Bye.

### AI SUMMARY

The conversation consisted of Michael Lowe (Rion Equipment) leaving a voicemail indicating his unavailability and Laura (CPI Holsting) requesting a callback for a potential fix, highlighting a need for communication between the two parties.

FULL TRANSCRIPT

**Michael Lowe** [00:00]

Hello, this is Michael with Rion Equipment in Lincoln and Donovan, Nebraska. I'm unable to answer the phone right now. If you need immediate attention, feel free to call the front office at 402-474-5566. If it's not immediate, you can leave a voicemail, and I will get back to you as soon as possible. Thank you. Bye.

**HAMMER C.** [00:29]

Hello, this is Laura from CPI Holsting, 402-984-4066. If you could give me a call back, we may have that fixed. If you could give me a call again, 402-984-4066. Thank you.

CALL 213 OF 611

**Inbound call from OMAHA NE**

April 30, 2026 | 06:38 PM | Duration: 18m 59s | From: OMAHA NE | To: +14026440781

Inbound

Positive

**AI SUMMARY**

During the call, OMAHA NE reached out to Rodney Meier (Product Support, JLG) to inquire about ordering a replacement bent rail for a JLG man lift.

FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Yes, Dan.

**OMAHA NE** [00:06]

- Hey Rod, question for you. I got a JLG man lift here and they've got a bent rail on here. What do I need to give you so we can order that?

**Rodney Meier** [00:17]

Oh, a rail on the basket.

**OMAHA NE** [00:19]

Yeah, on the basket, it's the top slide rail that's got the latches in it.

**OMAHA NE** [00:25]

I've got the model and serial number a picture of and I took some pictures and I got a measurement. What else do you need?

**Rodney Meier** [00:25]

Okay.

**Rodney Meier** [00:37]

That should be it. The measurement's not going to do me any good because they're not going to give me any measurements. The picture should be fine.

**OMAHA NE** [00:41]

Yeah, 'cause it's, as you're

**OMAHA NE** [00:46]

sitting on it, it's the left-hand side.

**Rodney Meier** [00:48]

Right. And I know you're real busy. You can actually go into JLG.com and look those up.

**OMAHA NE** [00:58]

Okay,

**OMAHA NE** [01:01]

I can do that.

**Rodney Meier** [01:01]

But that's up to you if you've got time. Yeah, JLG.com.

**OMAHA NE** [01:04]

Nope, yep, I'm just putting that other lift back together, so this was the only other call.

**Rodney Meier** [01:11]

And then you can go into parts, parts look up, you can put it in by serial number or by model.

**Rodney Meier** [01:20]

And then you can go to the, it'll be the basket assembly.

**OMAHA NE** [01:27]

Okay, I can do that.

**Rodney Meier** [01:28]

It's fairly simple to go through. What is the serial number? If you got it handy, I can look at it too.

**OMAHA NE** [01:37]

Gotta get down on floor, serial numbers, B as in boy.

**OMAHA NE** [01:43]

Two zero, zero zero zero, one zero zero zero. So that's two and a one, two, three, four zeros, a one and three zeros. 2011 and it's a 1930 ES.

**Rodney Meier** [01:54]

A one and three zeros?

**Rodney Meier** [02:01]

Okay. But it's just a rail that actually slides out or is it the rail that

**OMAHA NE** [02:02]

Okay, I will be over there a little,

**OMAHA NE** [02:08]

yeah,

**OMAHA NE** [02:10]

It's the rail that's got the latch on it. Well, I can look too when I get over there and figure this out. It's just, it bolts on onto the front, you know, where your control pendant is.

**Rodney Meier** [02:16]

it... Let me look quick. I'm right here.

**Rodney Meier** [02:24]

That's fine.

**OMAHA NE** [02:34]

It bolts on there, and then it's like a U-channel with a roller and a bolt on the back, and then your basket will extend out the back from there.

**Rodney Meier** [02:43]

Ah, okay.

**OMAHA NE** [02:45]

And it's got the lock lever on it to lock how far out you pull. Yes.

**Rodney Meier** [02:51]

To lock the extension.

**Rodney Meier** [02:56]

B2, one, two, three, four. One, two, three.

**Rodney Meier** [03:06]

Oop, apparently I didn't put enough zeros in there.

**Rodney Meier** [03:16]

Try that.

**Rodney Meier** [03:20]

There we go. Platform. Platform.

**OMAHA NE** [03:23]

Okay. I'm sending you three pictures.

**Rodney Meier** [03:29]

But these aren't a fold down. This is a regular,

**OMAHA NE** [03:37]

No, the lever's pulled down.

**OMAHA NE** [04:00]

Okay, the pictures are still trying to send.

**OMAHA NE** [04:04]

Let me get outside here.

**OMAHA NE** [04:14]

Okay, you see them now? They're on your cell phone.

**OMAHA NE** [04:42]

See anything yet?

**Rodney Meier** [04:44]

yeah, I see it.

**Rodney Meier** [04:47]

And this is the one with the latch on it, huh?

**OMAHA NE** [04:49]

The one with the latch, yes. And see on the second picture how that latch is bent up? That should be actually straight down.

**OMAHA NE** [04:59]

And see to the back side where it's got that bolt on it where it slides on the basket?

**Rodney Meier** [05:09]

You need the bolts too or just need the rail?

**OMAHA NE** [05:11]

I'd get everything.

**Rodney Meier** [05:15]

All right, because

**OMAHA NE** [05:15]

The bolts on both ends. There's one bolt that locks the front one on, and this one here's got a plastic roller, a bolt and nut. And then I would think the latch is good. The latch looks good. I can go make sure, but...

**Rodney Meier** [05:28]

the latch is attached to the rail.

**OMAHA NE** [05:31]

Okay, even with the bolt on there, it's attached. Okay.

**Rodney Meier** [05:35]

Well, let me, no, let me look. It looks like if the rail's all right,

**Rodney Meier** [05:42]

let me look here, 104. All right, the extension handle is separate.

**Rodney Meier** [05:52]

2560191, and you need two of those or just one?

**OMAHA NE** [05:58]

Just one. And it's the left-hand side because they're different.

**Rodney Meier** [06:03]

Not according to this, they're the same one.

**Rodney Meier** [06:09]

Let me look at this other picture here, make sure they're

**Rodney Meier** [06:18]

not, 310, 315.

**OMAHA NE** [06:27]

I'll send you a picture of what it's supposed to look like. And that's on the right-hand side.

**Rodney Meier** [06:33]

Yeah, it says extension handle 2560191, quantity two.

**OMAHA NE** [06:39]

OK, well, yeah, the extension handles are the same. It's just that rail, that U-channel is the one I need then. The handles look good, so I won't need the handle.

**Rodney Meier** [06:52]

Okay, so you,

**OMAHA NE** [06:52]

I'm just going to need that rail.

**Rodney Meier** [06:58]

And you said it's the left side?

**OMAHA NE** [07:01]

Yes.

**Rodney Meier** [07:03]

And that would be, I'm looking, if you're looking at the control panel, it'd be the left side?

**Rodney Meier** [07:10]

Okay, 302 and number 4.

**Rodney Meier** [07:16]

1, 2, 7, 16, 17.

**Rodney Meier** [07:26]

And let's see what number 4 is. Might just be a bolt or something.

**Rodney Meier** [07:35]

Well,

**Rodney Meier** [07:38]

Yours has the gate,

**OMAHA NE** [07:41]

Yeah, but that's not attached to anything.

**OMAHA NE** [07:45]

The gate's not attached to the part I'm looking for.

**Rodney Meier** [08:02]

but you wanted the bolts for both ends.

**Rodney Meier** [08:07]

Yeah, it looks like there's a solid on one side.

**OMAHA NE** [08:12]

One with a roller on the other side.

**Rodney Meier** [08:15]

Okay, up 316, 22, and 20.

**OMAHA NE** [08:21]

I'm going to send you a couple more pictures. One on the front end

**OMAHA NE** [08:27]

and one on the back end.

**Rodney Meier** [08:28]

And you just need one roller, I assume.

**OMAHA NE** [08:31]

Yeah. Yes.

**Rodney Meier** [08:37]

3860111.

**Rodney Meier** [08:43]

I forgot what the part number was, what part numbers were I needed here.

**Rodney Meier** [08:48]

All right, 16, 20, and 22.

**Rodney Meier** [09:08]

401, 0, 6, 18. That's the side with the ruler.

**OMAHA NE** [09:13]

There's some awesome freaking smells here.

**Rodney Meier** [09:16]

Oh, I'll bet.

**Rodney Meier** [09:19]

6 and 10.

**Rodney Meier** [09:31]

All right, the nut was the same.

**OMAHA NE** [09:31]

Yeah. And that

**Rodney Meier** [09:39]

Bolts and the nuts are the same.

**Rodney Meier** [09:42]

- The one's got a roller in it and then the rail. You just need the rail, the nuts and the bolts.

**OMAHA NE** [09:53]

little plastic roller, if you can get it.

**Rodney Meier** [09:58]

That's in there, yeah. They're showing a roller in there on the one end.

**OMAHA NE** [09:58]

I mean, it's... Okay.

**OMAHA NE** [10:03]

Yep, yep. That's so when you slide the part that moves out, it rolls on that if it's got a little tension on it.

**Rodney Meier** [10:11]

Right.

**Rodney Meier** [10:17]

Yeah, let me make sure I got everything right here.

**OMAHA NE** [10:20]

I haven't opened the collar yet. I'm trying to get it right back around to the forklift shop over here and then I'll do that.

**OMAHA NE** [10:52]

And yeah, all the pins and shims and everything come in for that forklift.

**Rodney Meier** [10:58]

Oh, there you come, okay. He must have sent them on UPS then when he got done.

**OMAHA NE** [11:02]

Actually, I think FedEx brought them. Oh, \*\*\*\*, I honestly don't know.

**Rodney Meier** [11:06]

No, probably UPS. We don't do FedEx. But yeah, see, UPS ships about 45 minutes later than ASAP. So if it's a small package and it misses ASAP, he'll put it on UPS because that's only like seven bucks. So that's what he'll do.

**OMAHA NE** [11:08]

Okay.

**OMAHA NE** [11:18]

Okay. Okay.

**Rodney Meier** [11:32]

All right, yeah, the rail, okay. I got everything. I will see the quickest we can get it to you. Hopefully I might get lucky maybe if TVH happens to have that rail. That would be great because I'm sure they'll have the rest of it.

**OMAHA NE** [11:46]

Yeah, the rail is the big thing that I need because they've got demand left out of service until we put that rail on.

**Rodney Meier** [11:55]

Yeah, they don't have it. So I'll have to get that from JLG.

**Rodney Meier** [12:03]

Let me make sure they got it. That'd be the last thing in the world we need is for them not to have it.

**Rodney Meier** [12:11]

Come on, computer.

**OMAHA NE** [12:12]

And that way I can let Jimmy know when it's going to come in.

**OMAHA NE** [12:20]

He said they loaned it out to somebody in there doing some, I don't

**Rodney Meier** [12:26]

Work inside?

**OMAHA NE** [12:26]

know, a contractor in there and they \*\*\*\*\* it up.

**Rodney Meier** [12:30]

Yep, yep, go figure.

**Rodney Meier** [12:34]

Okay, come on, computer. There we go.

**OMAHA NE** [12:37]

Yeah, that was the same one we put wheels

**OMAHA NE** [12:42]

on it a month ago.

**Rodney Meier** [12:45]

- Sure. Yeah, they have nine in stock. How long is that, about five foot?

**OMAHA NE** [12:54]

60-something,

**Rodney Meier** [12:56]

Okay, well they'll be able to send it on UPS, probably ground, I don't know if it would go air freight. Usually it starts getting that long, they don't like to air freight it without costing an arm or leg.

**OMAHA NE** [13:05]

yeah. Yeah, there's no weight there. It's just...

**OMAHA NE** [13:08]

Yeah, there's no weight there. It's just lengthwise. But, yeah, I

**Rodney Meier** [13:11]

Right, would be size.

**OMAHA NE** [13:13]

think it's like 62 and a half inches.

**Rodney Meier** [13:18]

All right, let me get it ordered. I guess I don't know how much, if they want to pay the extra freight, I can see if I can get it sooner.

**OMAHA NE** [13:22]

Okay, thank you.

**Rodney Meier** [13:33]

It's in Pennsylvania is where it's

**Rodney Meier** [13:38]

at. So normally that'd be about four days.

**OMAHA NE** [13:41]

Okay, do you want me to call Jimmy and ask him if he wants?

**Rodney Meier** [13:45]

I don't know, do they use it, do they need it really that bad?

**OMAHA NE** [13:49]

I honestly don't know.

**Rodney Meier** [13:51]

If they borrowed it out, they probably don't. That'd be my guess.

**Rodney Meier** [14:01]

Let me ponder it. I'll get it coming one way or the other.

**OMAHA NE** [14:06]

Okay. Yeah, like I said, give me a lead time so I can let him know otherwise.

**Rodney Meier** [14:10]

Yeah, let's figure middle to latter part of next week.

**OMAHA NE** [14:14]

Okay, I'll let him know.

**Rodney Meier** [14:16]

Yeah, because Pennsylvania, it's too late to ship today. So it wouldn't ship till Friday. So yeah, probably next Thursday if I do a ground freight.

**OMAHA NE** [14:29]

I will let them know.

**Rodney Meier** [14:31]

All right, I'll get it coming.

**OMAHA NE** [14:33]

Thank you.

**Rodney Meier** [14:34]

You bet, no problem, thanks Dan.

**OMAHA NE** [14:35]

Rod, Rod, that was JLG.com and then you looked under what?

**Rodney Meier** [14:40]

Yeah. There's a thing on the left that'll say JLG and there's like three lines.

**OMAHA NE** [14:48]

Okay.

**Rodney Meier** [14:50]

And then there's interactive parts manuals.

**OMAHA NE** [14:54]

Okay.

**Rodney Meier** [14:56]

And you would like, you'd click on that and then you pick boom lift, scissor lift, whatever it is you want to look for.

**OMAHA NE** [15:08]

And then you do your...

**Rodney Meier** [15:09]

And there's actually a manual search option there where you can punch in the actual serial number.

**Rodney Meier** [15:22]

Yeah, you might have to go to order now. Nope, you stay where you're at.

**OMAHA NE** [15:22]

I can do that.

**Rodney Meier** [15:30]

Yeah, it's under parts. It'll say parts, interactive manuals.

**Rodney Meier** [15:39]

Then you'll be able to pick whether you want boom lift, scissor lift. You can pick, well, you pick JLG first and then you pick your scissor lift. And as you said, it was an ES. So you'd go to your ES series and figure 1930 ES.

**Rodney Meier** [15:55]

And yeah, it's just a matter of click, click, click, click, and it'll give you the parts manual. It won't give you prices, but it'll give you part numbers.

**OMAHA NE** [15:59]

Okay, so the JLG that...

**OMAHA NE** [16:02]

The JLG I got onto says JLG Agriculture, JLG...

**OMAHA NE** [16:07]

University Online Express. Then it says equipment.

**Rodney Meier** [16:10]

You can do that. Online Express.

**OMAHA NE** [16:22]

What? Okay, and then there's a manual search.

**OMAHA NE** [16:26]

Okay.

**OMAHA NE** [16:28]

And what was that model number? I just want to make sure I'm getting to

**Rodney Meier** [16:31]

Well, you'll go to parts on the top left-hand corner where there's three lines across there, right next to the JLG.

**OMAHA NE** [16:41]

it. Okay, yep.

**Rodney Meier** [16:43]

You'll go to parts,

**OMAHA NE** [16:46]

Interactive parts manual. Okay.

**Rodney Meier** [16:51]

and it'll ask you what brand you want.

**OMAHA NE** [16:54]

It's telling me to sign in or create an account.

**OMAHA NE** [17:00]

This page you are trying to view requires you to sign in. Please sign in to continue.

**Rodney Meier** [17:06]

Okay.

**Rodney Meier** [17:17]

I gotta remember what my username is. I don't sign into it very well.

**OMAHA NE** [17:20]

That's fine, Rod. That's fine. We can do this later.

**Rodney Meier** [17:24]

All right, yep, that's fine. We got the parts looked up. Yeah, someday we'll work on it when we got time.

**OMAHA NE** [17:30]

Yep, that'll work. Thank you.

**Rodney Meier** [17:31]

All right, I'll get these parts coming, Dan. Sure, thank you. All

**OMAHA NE** [17:33]

Yep. Seriously, sorry for being a pain in your \*\*\*.

**Rodney Meier** [17:37]

right, don't worry about it. No, Dan, don't worry about it. That's my job.

**Rodney Meier** [17:44]

All right.

**OMAHA NE** [17:44]

I hate being,

**Rodney Meier** [17:47]

Don't worry about it. Nope, don't worry about it. That's what I'm here for. That's what I'm here for. I'm product support, so not a problem. All right?

**OMAHA NE** [17:54]

yeah. Cool.

**OMAHA NE** [17:57]

And this place would not run without you, let's put it that way.

**Rodney Meier** [18:00]

Well, I keep telling myself that, but I'm trying not to keep from getting a big head about it.

**OMAHA NE** [18:07]

Trust me, I'll pump your head up bigger than you need to.

**Rodney Meier** [18:11]

Not a problem. All right, we'll see you later.

**OMAHA NE** [18:15]

Yep, thanks, Rod.

**Rodney Meier** [18:16]

All right, you bet. Bye.

---

CALL 214 OF 611

## Inbound call from THIESSEN JOSHUA

April 30, 2026 | 06:28 PM | Duration: 2m 24s | From: THIESSEN JOSHUA | To: +13088337146

**Inbound**

**Neutral**

### AI SUMMARY

During the call, Todd Babka (Company Representative) voiced his frustration over access issues while THIESSEN JOSHUA (Customer) detailed a parts request.

### FULL TRANSCRIPT

**THIESSEN JOSHUA** [00:00]

This call is being recorded.

**THIESSEN JOSHUA** [00:06]

Yeah, how's it going?

**Todd Babka** [00:06]

Well, not so good because I can't get into nothing. I'm going to say \*\*\*\* it and leave, so what are you doing?

**THIESSEN JOSHUA** [00:12]

Oh, that's not good.

**THIESSEN JOSHUA** [00:16]

Well, there you go. I need some parts whenever you get a chance, I guess.

**Todd Babka** [00:21]

Okay.

**THIESSEN JOSHUA** [00:23]

I just sent an email to Victoria, so hopefully she'll get a work order and get back to you on that. But I need a paperizer.

**Todd Babka** [00:29]

Okay.

**THIESSEN JOSHUA** [00:37]

And a diaphragm and PM parts for this FGC70@CLS. The serial number and stuff is on the work order or in the email.

**Todd Babka** [00:49]

So you need a vaporizer kit

**Todd Babka** [00:54]

or a whole vaporizer?

**THIESSEN JOSHUA** [00:55]

Probably just a vaporizer kit, probably fine.

**Todd Babka** [01:00]

That's just the same as the P5000, ain't

**THIESSEN JOSHUA** [01:04]

It has that Cobra or whatever in it, I believe.

**THIESSEN JOSHUA** [01:08]

So...

**Todd Babka** [01:09]

it? Oh, it's got that one.

**THIESSEN JOSHUA** [01:11]

Hold on, I have the work order up here when we did it before, I can tell you just a second.

**Todd Babka** [01:16]

I'm gonna say if it's a Cobra, then it's just, we don't rebuild those.

**THIESSEN JOSHUA** [01:23]

Give me a second, my computer's trying to load.

**Todd Babka** [01:28]

That's fine.

**THIESSEN JOSHUA** [01:31]

So the converter is

**THIESSEN JOSHUA** [01:34]

an MCFA00002180.

**Todd Babka** [01:40]

Yep, that's just complete converter.

**THIESSEN JOSHUA** [01:44]

Yeah, I need that. The diaphragm for the mixer and PM parts. Yep.

**Todd Babka** [01:49]  
On the carburetor? Okay.

**THIESSEN JOSHUA** [01:53]  
THAN PM PARTS.

**Todd Babka** [01:57]  
OK. Okey-dokey. I'll get her going soon as she sends me an email.

**THIESSEN JOSHUA** [02:01]  
AND I THINK THAT'S IT FOR NOW.

**THIESSEN JOSHUA** [02:07]  
ALL RIGHT. THANK YOU.

**Todd Babka** [02:08]  
All right. Thanks. Bye-bye.

CALL 215 OF 611

**Inbound call from LOUISVILLE NE**

April 30, 2026 | 06:19 PM | Duration: 6m 54s | From: LOUISVILLE NE | To: +14026440783

Inbound

Positive

AI SUMMARY

During the conversation, Kristi Johnson (Tabor Street Group, LLC representative) and the caller discussed several work orders, specifically work order 800-155 for a battery replacement.

FULL TRANSCRIPT

**LOUISVILLE NE** [00:00]  
This call is being recorded.

**Kristi Johnson** [00:04]  
Hey, Luke.

**LOUISVILLE NE** [00:05]  
Hey, how's it going?

**LOUISVILLE NE** [00:09]  
Could you add a segment on work order 800-155?

**Kristi Johnson** [00:09]  
800-155

**Kristi Johnson** [00:15]  
for ADM. Yep.

**LOUISVILLE NE** [00:21]  
It would be replace battery.

**Kristi Johnson** [00:23]  
Replace battery.

**Kristi Johnson** [00:26]  
Yep, I can do that.

**LOUISVILLE NE** [00:28]

And then I have that NAPA receipt that I need a PO for that.

**Kristi Johnson** [00:34]

OK. Do you want to send that to me? Or do you just have a-- do you want to send it over to me and I'll send it back?

**LOUISVILLE NE** [00:45]

I mean, I can wait. I'm just doing notes.

**Kristi Johnson** [00:47]

Oh, OK. Let me get out of here.

**Kristi Johnson** [00:55]

And

**Kristi Johnson** [00:58]

what was that one for? That was for that same one?

**LOUISVILLE NE** [01:03]

The battery,

**Kristi Johnson** [01:05]

Well, what was-- oh, \*\*\*\*. Now I lost it. Can you give me that work order number again for the battery?

**LOUISVILLE NE** [01:11]

800-155.

**Kristi Johnson** [01:13]

8001. OK. Let me do this first here.

**Kristi Johnson** [01:37]

Did you see that I made you a ticket for that one call? Oh,

**LOUISVILLE NE** [01:41]

Yeah, Jake must not have said anything because he was saying we were just going to write it off as a pre-work.

**Kristi Johnson** [01:49]

well, I wonder if I was even supposed to make one then. He didn't tell me anything.

**LOUISVILLE NE** [01:53]

Nice. That sounds accurate.

**Kristi Johnson** [01:55]

Seems

**Kristi Johnson** [01:57]

to happen a lot. OK, battery, 1401.

**LOUISVILLE NE** [02:02]

I suppose you had to fight a bunch of people to get that open too, didn't you?

**Kristi Johnson** [02:07]

Well, it was weird because she said, oh, you got to fill out this form and blah, blah, blah, whatever. And then so I called him this morning and he's like, oh, yeah, we decided we're not going to do anything with it. And he wasn't really giving me any information because I told him, well, we need your, you know, I need your information and make sure it's up to date or whatever.

**Kristi Johnson** [02:27]

And I was like, oh, yeah, well, we're not going to do that anymore. And I'm like, OK. And I was like, well, I'll just let Jake handle it then. Well, then I got an email saying here's

**Kristi Johnson** [02:40]

their customer number. So I tried it again, and then it worked. So I just made a ticket. So I guess if he doesn't want it, I'll just cancel it. But he didn't say

**LOUISVILLE NE** [02:47]

Yeah. I guess they're going out of business, so even if we send them a bill, they're likely like, eh, what's it going to hurt us any?

**Kristi Johnson** [02:53]

anything. Probably not going to pay it yet.

**Kristi Johnson** [02:56]

Right. Okay. So I got that segment in there. And then was the NAPA receipt, was that for a certain call?

**LOUISVILLE NE** [02:58]

So I wouldn't worry about it.

**LOUISVILLE NE** [03:04]

That was for that same segment.

**Kristi Johnson** [03:06]

Oh, it was. Okay. For the battery one?

**Kristi Johnson** [03:09]

Oh, gotcha. Okay. Okay. Replace battery, miscellaneous.

**Kristi Johnson** [03:19]

And battery. Okay.

**Kristi Johnson** [03:25]

And what was the price on that?

**LOUISVILLE NE** [03:27]

\$199.99.

**Kristi Johnson** [03:30]

99, okay. Okay.

**Kristi Johnson** [03:58]

Okay, so the P on that is going to be a PU1141580.

**LOUISVILLE NE** [04:09]

Okay. Can

**LOUISVILLE NE** [04:12]

you do one more? PEO, real quick.

**Kristi Johnson** [04:15]

Yep. Let me close this out here.

**LOUISVILLE NE** [04:18]

This one will be on the monthly tooling.

**Kristi Johnson** [04:21]

Okay. Close. Let's see.

**Kristi Johnson** [04:26]

MONTHLY. AND DO YOU WANT THAT PROBABLY ON LAST MONTH? HE HASN'T CLOSED THAT OUT YET, RIGHT?

**LOUISVILLE NE** [04:32]

Yeah, last month.

**Kristi Johnson** [04:34]

OKAY.

**LOUISVILLE NE** [04:35]

I don't even know that the new ones are out, are they?

**Kristi Johnson** [04:37]

WELL, I MADE ONE, BUT NOBODY STARTED IT YET. SO, APPARENTLY, IF YOU CAN'T SEE IT. SO, AND THIS IS JUST FOR SHOP SUPPLIES?

**LOUISVILLE NE** [04:40]

Oh, okay.

**LOUISVILLE NE** [04:47]

Tooling.

**Kristi Johnson** [04:48]

Tooling. I didn't know we had a tooling. Oh, service tool purchase?

**Kristi Johnson** [04:58]

It's for tools.

**LOUISVILLE NE** [04:58]

I think that's what it goes under. Rod always just calls it tooling, so maybe.

**Kristi Johnson** [05:03]

I don't see anything that says tooling. We're going to put it under service tool purchase. OK.

**LOUISVILLE NE** [05:09]

That sounds right.

**Kristi Johnson** [05:16]

And what was it for?

**LOUISVILLE NE** [05:22]

It was basically specialized hose. I needed it for a job to test some pressures, but it couldn't be installed.

**LOUISVILLE NE** [05:30]

So I talked with Jake and he said, just put it under tooling.

**Kristi Johnson** [05:34]

Okay, what pressure testing?

**LOUISVILLE NE** [05:36]

So specialized hoses.

**Kristi Johnson** [05:38]

What?

**LOUISVILLE NE** [05:39]

Specialized hoses, maybe.

**Kristi Johnson** [05:41]

Specialized hoses, okay, we'll go with that.

**Kristi Johnson** [05:47]

And this is one that you already paid for, right? How much?

**LOUISVILLE NE** [05:49]

Yeah, it's a credit card.

**Kristi Johnson** [05:56]

<REDACTED\_ENTITY>. Okay.

**Kristi Johnson** [06:14]

OKAY. AND THE P.O. FOR THAT ONE IS GOING TO BE A PU 1141582.

**LOUISVILLE NE** [06:26]  
<REDACTED\_ENTITY>. Okay, what's the service call on that?

**Kristi Johnson** [06:29]  
It is 798376-007.

**LOUISVILLE NE** [06:40]  
Okay, thank you.

**Kristi Johnson** [06:42]  
All right, no problem. Bye.

**AI SUMMARY**

Derrick from Hards called to confirm receipt of an email and requested to order two of the service items instead of one, as mentioned in the email.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**WIRELESS CALLER** [00:05]  
Derrick Day,

**Derrick Dea** [00:05]  
Hards, Derrick. Yeah.

**WIRELESS CALLER** [00:07]  
did you get my email?

**Derrick Dea** [00:09]  
Yes, I did. Okay. Yep.

**WIRELESS CALLER** [00:10]  
Can you order me two of those on that service call instead of one,

**WIRELESS CALLER** [00:16]  
please? All right, thank you very much.

## Inbound call from OMAHA NE

April 30, 2026 | 05:44 PM | Duration: 4m 6s | From: OMAHA NE | To: +14026440781

Inbound

Positive

### AI SUMMARY

The conversation between OMAHA NE and Rodney Meier revolved around the delivery of wheels for ADM and the status of various forklift maintenance parts.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

- Hey Dan,

**OMAHA NE** [00:06]

Hey, Rob, I've got a question for you. I just got four wheels in, 21 by 7 by 15 and 16 by 6 by 10 and a half, smooth.

**Rodney Meier** [00:17]

those are for Luke for ADM.

**OMAHA NE** [00:20]

Okay, okay, they're here.

**Rodney Meier** [00:23]

Okay, yeah, I think he knows it. He's gotta do a PM and some other stuff. Jake sounded like he was gonna try and get a tech up from Lincoln to help him out with it. But yeah, that's who they're for. They're for ADM for Luke.

**OMAHA NE** [00:36]

Okay. Yep, like I said, they're sitting here behind, by the shack, so I didn't know, I was just making sure I knew what they were for.

**Rodney Meier** [00:42]

Okay, nope.

**Rodney Meier** [00:44]

Yep, yep, that's who they're for.

**OMAHA NE** [00:47]

Yeah, because I'm trying to figure out, Laura sent a text that I was at dinner, can I look at Fab Shop Maintenance's forklift, something about side rails or something, and nobody knows anything about it. And she didn't give me a forklift number because nobody calls it Fab Maintenance forklift.

**Rodney Meier** [00:59]

- Oh,

**Rodney Meier** [01:07]

right. Well,

**OMAHA NE** [01:08]

So I'm trying to figure out what, you know. Yeah.

**Rodney Meier** [01:10]

yeah, you may have to walk into her office.

**OMAHA NE** [01:15]

- Well, she's in a meeting right now. I've already done that.

**Rodney Meier** [01:17]

Oh, of course she is. Yeah, of course she is. That's usually the way that works.

**OMAHA NE** [01:20]

I think all the parts come for the rollers and that, so I'm gonna be working on that one instead.

**Rodney Meier** [01:27]

Yes, he should have been able to get all the shims and everything in that order yesterday before it left. And then you should have had one package from UPS

**OMAHA NE** [01:33]

Yeah,

**Rodney Meier** [01:37]

From MLA.

**OMAHA NE** [01:38]

the bearings come in this morning with the set of forks from ASAP. And then, like I said, I just picked up, there's three packages here.

**OMAHA NE** [01:48]

I'm assuming they're what I've got. I haven't got them opened up yet.

**Rodney Meier** [01:52]

Yeah, should be, yeah. It's possible if those shims and stuff weren't in that box with the rollers, you might not get them until tomorrow. Because it was iffy if I got them in in time. And he maybe UPS them too, I don't know.

**OMAHA NE** [02:03]

Okay.

**OMAHA NE** [02:10]

Yeah, like I said, I got the rollers in this morning. But like I said, I just picked up three packages. I haven't opened them up yet with those tires five minutes ago. So I'd be willing to bet that's what those are.

**Rodney Meier** [02:17]

Sure. Okay. Okay.

**Rodney Meier** [02:22]

- That's a possibility. Yep, that's a possibility. All right. Nope, sounds good.

**OMAHA NE** [02:23]

Okay.

**OMAHA NE** [02:27]

Yep, and then I'm going to have to order some slides for the Cascade, those plastic war slides. I'll order those once I get them put in, but I can't put them in until I get the mass kind of, or the carriage back on the forklift,

**Rodney Meier** [02:42]

Right, right, sure. Okay. Nope, that should be fine.

**OMAHA NE** [02:47]

so. Okay, that'll work. Like I said, I'll email you something about those later, but I'll

**Rodney Meier** [02:49]

Alrighty.

**Rodney Meier** [02:52]

Okay, nope. Yeah, that'll work.

**OMAHA NE** [02:53]

And what's weird is on those one,

**OMAHA NE** [03:00]

it's the wear side shifters. It comes with four of them in there, but I only use two of them. The other two are like glue-on or stick-on ones. What are those for?

**Rodney Meier** [03:08]

They send extra ones. There's two different styles, but they're in the one kit, so you probably don't need those other two.

**OMAHA NE** [03:14]

Okay.

**OMAHA NE** [03:16]

No, no, the stick-on ones I don't, the ones that pop on is the ones that I use. Okay.

**Rodney Meier** [03:20]

- Yep, yep. And apparently there's two different styles and that's why they do that that way. They just include them both in that package.

**OMAHA NE** [03:29]

Well, then I'll keep a couple and throw the rest away because I think I got like six now of the stick-on ones.

**Rodney Meier** [03:34]

So, yep, probably. Yep, yeah, the stick-on ones you don't need, for some reason they come in the kit. So, not a problem.

**OMAHA NE** [03:43]

Okay. Yep. Like I said, I'm just trying to figure out answer or figure \*\*\*\* out. So, cool.

**Rodney Meier** [03:45]

Oh yeah, I hear ya, I hear ya. Yep, you can toss the other ones.

**OMAHA NE** [03:51]

Okay. That'll work. Thank you.

**Rodney Meier** [03:52]

All right. Sounds good. You betcha. Bye.

---

Derrick is ordering a coil for next-day air delivery to a customer who will pick it up from the shop.

**FULL TRANSCRIPT**

**ANDERSON SHEREE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

All right, Derrick. Okay. Okay. Okay. Bye.

**ANDERSON SHEREE** [00:04]

Hey Derrick,

**ANDERSON SHEREE** [00:08]

there's a call open for that machine. Go ahead and order that coil for next day air on it. It's going to be though, the customer is going to come pick it up though from the shop.

**ANDERSON SHEREE** [00:25]

Thank you.

CALL 220 OF 611

**Inbound call from CHICAGO ZONE IL**

April 30, 2026 | 05:37 PM | Duration: 1m 58s | From: CHICAGO ZONE IL | To: +14025942060

Inbound

Positive

**AI SUMMARY**

The conversation involved SQL Safety introducing their new work gloves tailored for the rental industry and John Howard (Employee, EquipmentOmau) directing the inquiry to the appropriate contact for approval.

FULL TRANSCRIPT

**CHICAGO ZONE IL** [00:00]

This call is being recorded.

**John Howard** [00:03]

All right, EquipmentOmau, this is

**CHICAGO ZONE IL** [00:07]

Hi, John. My name is, hi, John. I'm here. I'm so sorry, John. I'm calling because I'm giving a call from my company, SQL. And did I catch you with just a quick second?

**John Howard** [00:11]

John. All good.

**John Howard** [00:19]

I guess, is this business related or...

**CHICAGO ZONE IL** [00:24]

It is business related, yes.

**John Howard** [00:26]

Okay. And you said you were with SQL?

**CHICAGO ZONE IL** [00:28]

Okay, so I'm with SQL Safety, yes. Okay.

**John Howard** [00:32]

Okay.

**CHICAGO ZONE IL** [00:33]

So I'm giving you a call John because I want to see if this is relevant. So my company SQL is a new vendor on SmartEquip and we built work gloves specific to the rental industry. So I wanted to know if evaluating new options for your employees was a priority for you this year.

**John Howard** [00:50]

I would say that you'd be better off getting with our safety director. He'd be the one to approve any new gloves or anything like that we utilize. I can give you his contact info if you're interested.

**CHICAGO ZONE IL** [00:57]

Okay.

**CHICAGO ZONE IL** [01:03]

Okay, awesome.

**CHICAGO ZONE IL** [01:08]

Good. Thank you so much.

**John Howard** [01:16]

All right.

**John Howard** [01:19]

His contact is going to be Bryce, B-R-Y-C-E, and his number is 531-262-1402.

**CHICAGO ZONE IL** [01:37]

Okay, awesome. And what's his last name just so I can put it down?

**John Howard** [01:40]

Feeney.

**CHICAGO ZONE IL** [01:44]

Okay, thank you so much, John. I really appreciate it. I hope you have a great day. All right, bye-bye.

**John Howard** [01:48]  
Thanks, you too.

CALL 221 OF 611

**Inbound call from ANDERSON SHEREE**

April 30, 2026 | 05:31 PM | Duration: 3m 3s | From: ANDERSON SHEREE | To: +14025942051

Inbound

Neutral

**AI SUMMARY**

ANDERSON SHEREE contacted Derrick Dea regarding the availability of a coil with serial number 5AM06514; Derrick informed her that the part would need to be ordered, with delivery expected either the next day or on Monday, prompting ANDERSON SHEREE to state she would call back after consulting with the customer.

**FULL TRANSCRIPT**

**ANDERSON SHEREE** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
All right, Derrick. Hmm? Hmm? Ah, I have to look.

**ANDERSON SHEREE** [00:06]  
Yo, Derrick, serial number for you.

**ANDERSON SHEREE** [00:13]  
5AM06514.

**ANDERSON SHEREE** [00:21]  
Do we have a coil in stock for

**Derrick Dea** [00:29]  
Everything.

**ANDERSON SHEREE** [00:30]  
it? I knew you were going to have to look. That's why I'm calling.

**ANDERSON SHEREE** [00:36]  
Or I just figured you knew everything. I thought you knew everything,

**ANDERSON SHEREE** [00:42]  
Derrick. You're the all-knowing.

**Derrick Dea** [00:55]  
Thank you.

**ANDERSON SHEREE** [01:13]  
Why'd you shove dirt back in it?

**ANDERSON SHEREE** [01:27]  
Way to go.

**ANDERSON SHEREE** [01:32]  
Then your fat \*\*\* is leaning on it.

**Derrick Dea** [01:35]

Thank you.

**Derrick Dea** [01:57]

Looks like

**Derrick Dea** [02:24]

I have to order it in. Yep. Probably the next day or it would be tomorrow, otherwise it would be Monday.

**ANDERSON SHEREE** [02:26]

You have to order it in.

**ANDERSON SHEREE** [02:30]

Let me give you a call back in a second then. How soon could he get

**Derrick Dea** [02:42]

Okay. Bye.

**ANDERSON SHEREE** [02:44]

it? Okay, let me talk to the customer right

**ANDERSON SHEREE** [02:48]

here. All right.

CALL 222 OF 611

## Inbound call from GUSTIN KELVIN

April 30, 2026 | 05:27 PM | Duration: 1m 45s | From: GUSTIN KELVIN | To: +14025942051

**Inbound**

**Neutral**

### AI SUMMARY

Gustin (Caller) initiated the call to Derrick (Sales rep) to discuss pricing for a left pedal assembly and the status of a work order, while Derrick requested to pause closing another work order as they awaited additional information.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:05]

All right.

**GUSTIN KELVIN** [00:08]

Derrick, how's it going today,

**GUSTIN KELVIN** [00:12]

buddy? Hey, I've got a work order of 80428, excuse me, 804280. It's got a tailor here, it's a THB 300 model,

**GUSTIN KELVIN** [00:29]

and it's got a serial number of a Sam Whiskey, or excuse me,

**GUSTIN KELVIN** [00:33]

Sam, Mary, 238625.

**GUSTIN KELVIN** [00:41]

I need a price on that left pedal. I think that's the inching pedal.

**GUSTIN KELVIN** [00:48]

That pedal assembly, the whole air valve.

**GUSTIN KELVIN** [00:55]

Let me know.

**GUSTIN KELVIN** [00:57]

Any luck on... I'm going to close out work order one for the hose. Can I do that?

**Derrick Dea** [01:04]

OK.

**GUSTIN KELVIN** [01:04]

Or you want me to wait?

**Derrick Dea** [01:07]

Just wait.

**Derrick Dea** [01:09]

All

**GUSTIN KELVIN** [01:11]

Okay. Any word on the genie?

**Derrick Dea** [01:14]

right. I haven't had a chance to call the county. At least my worries.

**GUSTIN KELVIN** [01:17]

I understand that. I understand that. That's good. Okay, buddy.

**Derrick Dea** [01:21]

Step to order, so. All right.

**GUSTIN KELVIN** [01:24]

Okay, I'm sorry. Just let me know, okay, buddy? Thank you very much. See you later. Bye.

**Derrick Dea** [01:28]

Yep. Bye.

**AI SUMMARY**

In this conversation, Michael Lowe from Ryan Equipment spoke with Tim from Darryl Concrete regarding a required four-month inspection for a Heister forklift.

**FULL TRANSCRIPT**

**Michael Lowe** [00:01]

This is Michael with Ryan Equipment.

**NORFOLK NE** [00:03]

Yeah, see this Tim with Darryl concrete.

**NORFOLK NE** [00:08]

Our forklift in Hastings needs a four-month inspection done on it. So checking out the chains and all those, you know, make sure everything's good on it. We do that every four months.

**NORFOLK NE** [00:24]

If you could, it's a Heister, I think, 80 HM, believe, so the number of it.

**Michael Lowe** [00:32]

Gotcha.

**NORFOLK NE** [00:36]

When would something like that be

**Michael Lowe** [00:36]

Let me get this.

**Michael Lowe** [00:40]

What's that?

**NORFOLK NE** [00:41]

able to send somebody out to inspect that?

**Michael Lowe** [00:47]

I'm

**Michael Lowe** [00:49]

going to assume it'll be sometime next week. I think the Donovan guys are pretty booked out this week, if that works for you.

**NORFOLK NE** [01:01]

Yeah. Now, is that Ryan equipment? Is that Ryan equipment also?

**Michael Lowe** [01:02]

I am in the field today.

**Michael Lowe** [01:09]

Yes, yep,

**NORFOLK NE** [01:09]

Is there, what is that? Yeah, okay. Okay, that's who I've dealt with in Norfolk and that too. Okay.

**Michael Lowe** [01:16]

yep, yep, yep, absolutely. But I'll get this written down, and when I get back to the shop here in about an hour, I'll get a call opened up for the inspect, and I'll have a technician reach out to you to see when a good day can make it out to you.

**NORFOLK NE** [01:30]

Okay. Do you want to write down my e-- yeah, it is a good callback number. Do you want my email so you can send the invoice when you guys get done inspecting it and seeing what you find wrong?

**Michael Lowe** [01:34]

Is this a good callback number? Oh, go. Yeah, absolutely.

**Michael Lowe** [01:44]

Absolutely.

**NORFOLK NE** [01:47]

So it'd be Tim.

**NORFOLK NE** [01:50]

dot, P as in Paul, O-L-E-N-S-K-E

**NORFOLK NE** [01:59]

at G-E-R-H-O-L-D

**Michael Lowe** [02:12]  
Concrete.com. Gotcha. Okay.

**NORFOLK NE** [02:15]  
concrete.com. All right.

**Michael Lowe** [02:15]  
Absolutely. I will get that call opened and I'll have them reach out to you.

**NORFOLK NE** [02:20]  
All right. All right. Thank you.

**Michael Lowe** [02:23]  
Okay. Thank you. Bye.

AI SUMMARY

Robbie from the trail contacted Adam Henderson (Representative, Rion Equipment Services) to clarify the status of several pass-through invoices after receiving an incorrectly forwarded email.

FULL TRANSCRIPT

**MARSHALLTOWN IA** [00:00]  
This call is being recorded.

**Adam Henderson** [00:03]  
Rion Equipment Services, Adam, how can I help you?

**MARSHALLTOWN IA** [00:07]

Hey, Adam. This is Robbie from the trail. Is Shelby available?

**Adam Henderson** [00:09]

Yeah,

**Adam Henderson** [00:13]

what's going on?

**MARSHALLTOWN IA** [00:15]

I got

**MARSHALLTOWN IA** [00:17]

an email sent to Ryan Donnelly. He used to be a manager here. I don't know why it got sent to him. So he forwarded it to me.

**MARSHALLTOWN IA** [00:33]

Statement saying, it says, "Please provide status on payment on all pass-through invoices." It's got a whole list of

**MARSHALLTOWN IA** [00:41]

invoices here.

**Adam Henderson** [00:43]

Uh-huh.

**MARSHALLTOWN IA** [00:44]

But, man, some of them are kind of old. But then a lot of them are

**MARSHALLTOWN IA** [00:51]

not that old. I don't know.

**Adam Henderson** [00:52]

Uh-huh.

**MARSHALLTOWN IA** [00:55]

I can't understand why I got sent to Ryan, for one, or Ryan Donnelly.

**Adam Henderson** [00:56]

Uh-huh. Uh,

**Adam Henderson** [01:00]

that's probably just one of the contacts on our system.

**MARSHALLTOWN IA** [01:04]

But then there's, okay, I'm not sure what to do.

**Adam Henderson** [01:08]

Mm-hmm. Um, I'll look into it and give you a shout back.

**MARSHALLTOWN IA** [01:09]

As far as,

**MARSHALLTOWN IA** [01:12]

yeah, it's,

**MARSHALLTOWN IA** [01:15]

because there's ones on here that says negative money on there for duplicating stuff, so I don't know what the deal is there with that.

**Adam Henderson** [01:20]

Yeah, for credits. Yeah, your accounting probably never took the credit. So sometimes even when the accounts go past due on a credit, it'll lock the account down.

**Adam Henderson** [01:33]

Even though we technically owe you that money. The way our system is, it...

**MARSHALLTOWN IA** [01:36]

Oh, okay.

**Adam Henderson** [01:39]

It gets weird when stuff gets over like 180 days. Yeah,

**MARSHALLTOWN IA** [01:44]

Yeah, because we're net 60 for payment here.

**MARSHALLTOWN IA** [01:49]

And most of those are not 60 days yet for like all the PMs and stuff around them.

**Adam Henderson** [01:56]

and I think our terms are following month 15. So... Yeah.

**MARSHALLTOWN IA** [02:00]

Yeah, yeah, that's why most companies are, and we're 60 here, which makes it

**MARSHALLTOWN IA** [02:06]

an issue always. Okay, if you can look into that, I guess, I'm gonna hold off on, I was gonna say it to AP, like, can you make sense of it? But I thought I better talk to you guys first.

**Adam Henderson** [02:08]

Yeah.

**Adam Henderson** [02:19]

Yeah, we'll look into it and I'll give you a shout back.

**MARSHALLTOWN IA** [02:22]

Okay. All right. Thanks,

**Adam Henderson** [02:25]

Yeah, no problem.

**MARSHALLTOWN IA** [02:26]

Adam. Bye.

**Adam Henderson** [02:27]

Bye.

### AI SUMMARY

Charles and OMAHA discuss work order 803-426, confirming the need for a seat belt and a Caterpillar black key. OMAHA requests the seat belt be thrown on the order.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Mr.

**OMAHA NE** [00:05]

Hey Charlie, let's see, work order number 803-426.

**OMAHA NE** [00:13]

I just need a seat belt thrown on there too. It's a Caterpillar, it's just a black one.

**Charles Huffman** [00:19]

Keys.

**OMAHA NE** [00:21]

That's all I need for now bud, thanks.

**Charles Huffman** [00:23]

OK. 803-426, he said.

**OMAHA NE** [00:26]

803-426, yeah for ABC Supply.

**Charles Huffman** [00:28]

OK. OK. Yep.

**OMAHA NE** [00:30]

Thanks bud.

## Inbound call from KYLE SCHROEDER

### AI SUMMARY

In a conversation between Kyle (Technician) and Shelby (Sales rep), Kyle discussed the installation of a mast at Mount Air and the unexpected need to swap a carriage from a dead machine.

### FULL TRANSCRIPT

**KYLE SCHROEDER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Rion Equipment. How may I help you?

**KYLE SCHROEDER** [00:07]

Boss man busy.

**Shelby Lathrum** [00:08]

He literally just walked out to the shop.

**KYLE SCHROEDER** [00:11]

Do you know the story behind this mast I'm installing down here at Mount Air?

**Shelby Lathrum** [00:17]

We don't know a whole lot other than we have to install the mast.

**KYLE SCHROEDER** [00:23]

Okay, so that's done. But nobody said anything about swapping a carriage over to it. The other machine is completely dead and immobile. So I'm going to swap it over because that's what they need to happen. But...

**KYLE SCHROEDER** [00:38]

I don't know how that's going to affect the quote or that was a part of the quote.

**Shelby Lathrum** [00:44]

As far as I know, that was not a part of the quote. They never mentioned that at all.

**KYLE SCHROEDER** [00:48]

Okay. Well,

**Shelby Lathrum** [00:49]

So, um, who's your, who are you speaking with down there? That, the guy that Adam told you to? Or that Adam provided?

**KYLE SCHROEDER** [00:53]

when... No,

**KYLE SCHROEDER** [00:57]

he's been busy. I've been working with one of their workers down here.

**Shelby Lathrum** [01:02]

Okay. See if you remember his name and stuff just so we have it, just in case.

**KYLE SCHROEDER** [01:08]

What was your name again? I'm sorry. Evan.

**Shelby Lathrum** [01:10]

Evan. Okay. I will...

**Shelby Lathrum** [01:13]

Reach out to who I need to and let them know that the carriage has to be swapped from one to the other.

**KYLE SCHROEDER** [01:19]

Yeah, it has to be swapped and then the machine is completely dead. So, I mean, that adds to the complication of

**Shelby Lathrum** [01:24]

Are they...

**Shelby Lathrum** [01:26]

Oh, yeah. Yeah. Carriage needs... Will you give me a picture of the data tag?

**KYLE SCHROEDER** [01:34]

the attachment or the machine I'm taking off of for both.

**Shelby Lathrum** [01:38]

Let's just do both to cover ourselves.

**KYLE SCHROEDER** [01:41]

Okay, I'll get it to you shortly.

**Shelby Lathrum** [01:42]

Okay, thank you. Yep, bye.

**KYLE SCHROEDER** [01:43]

All right. Bye.

## Inbound call from WIRELESS CALLER

April 30, 2026 | 04:33 PM | Duration: 2m 54s | From: WIRELESS CALLER | To: +14025942060

Inbound

Neutral

### AI SUMMARY

The conversation between Rachel (Recruiter, Rion Equipment) and John Howard (Representative, Rion Equipment) centered around a potential candidate for a technician role in Fremont.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**John Howard** [00:04]

Rion Equipment, Omaha, this is John.

**WIRELESS CALLER** [00:04]

Hey, John, it's Rachel with Recruiting. How are you?

**John Howard** [00:09]

Good, how are you?

**WIRELESS CALLER** [00:10]

Good. Hey, so I talked to Jake and he said you might want this Fremont guy. Is that right?

**John Howard** [00:17]

Potentially.

**WIRELESS CALLER** [00:20]

Can you give me a little bit more insight into what this Fremont role would look like so I can talk it over with him?

**John Howard** [00:27]

So it's not, it wouldn't be Fremont specific, but we do have a large customer base in that area. So I guess the idea that he would be...

**John Howard** [00:42]

Is he looking for Fremont specific or is he just looking for a role?

**WIRELESS CALLER** [00:47]

Well, he's based in Fremont. I think there might have been confusion here because I was told that

**WIRELESS CALLER** [00:53]

I should post this job in Fremont, the resident technician role. And so I did. And this is the candidate that applied that was interested. I thought it would be based out of Norfolk. So I think it was just there's confusion here. Like, because he applied for a job that said Fremont because I was told that we could use somebody that was in Fremont.

**John Howard** [01:13]

Yeah, so... Okay, yeah, my store covers the Fremont area. So we've got several customers out there, but right now we do not have a resident technician. Even the guy I've got going down there right now to cover that area, I mean...

**WIRELESS CALLER** [01:13]

So I don't really know what this is. I apologize.

**WIRELESS CALLER** [01:20]

Okay.

**John Howard** [01:33]

There should be enough to where they can come back and forth. I mean, they wouldn't be in Fremont solely. They would have to be able to do some customers down there and then other areas in Omaha.

**WIRELESS CALLER** [01:46]

Where would the, kind of what would the territory be, just Omaha then?

**John Howard** [01:50]

Yeah, I mean, primary territories would be like Fremont, Omaha, Council Bluffs.

**WIRELESS CALLER** [02:02]

Okay.

**WIRELESS CALLER** [02:05]

And he, when we were talking pay, he was looking at like 42 to 45 an hour. Is that within what you're looking at for the role?

**John Howard** [02:14]

Depending on experience, I mean, that's kind of towards the, I don't want to say top end, but it's up there for some of the guys with experience.

**WIRELESS CALLER** [02:24]

Okay. Sounds good. He's got some good experience. He's been working on his own and

**WIRELESS CALLER** [02:29]

And he's been working on forklifts as well as heavy equipment. So he's got some experience there. Let me chat it over with him and get back to you then.

**John Howard** [02:39]

Okay, sounds good.

**WIRELESS CALLER** [02:41]

All right. Thank you. Bye.

**John Howard** [02:42]

Bye.

Positive

### AI SUMMARY

The conversation involved Stephanie Owen, who was at the shop front looking for sweeper parts, and Rodney Meier (Equipment representative), who provided guidance on their whereabouts.

### FULL TRANSCRIPT

**STEPHANIE OWEN** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Ryan, equipment, this Rod.

**STEPHANIE OWEN** [00:06]

Hi, Rod. This is Shane Owens again. I just stopped here at your guys' shop front, and the guy up here doesn't seem to know where the sweeper parts are.

**Rodney Meier** [00:20]

Okay, Jake must not be there.

**Rodney Meier** [00:24]

Big tall guy, red hair.

**STEPHANIE OWEN** [00:27]

I'm colorblind. I don't think he has red hair.

**Rodney Meier** [00:29]

Nope, nope, he's six foot eight. He's six foot eight. You'd know who he was. He's in the office on the left side over there. There's some boxes on the table over there. There's four boxes, flat boxes that have the brushes in there.

**STEPHANIE OWEN** [00:41]

Mm-hmm.

**Rodney Meier** [00:44]

And then there should be a package with keys in there too.

**STEPHANIE OWEN** [00:48]

Package with keys, and then four boxes on the table. Off to the left or the right?

**Rodney Meier** [00:52]

Yep, the four boxes on the table.

**Rodney Meier** [00:55]

On the right side. They're on that table over there.

**STEPHANIE OWEN** [00:55]

Okay. I'll let you talk to the... I'll let you talk to your... Here you go. He can hear you now. Hey, Rod, it's

**Rodney Meier** [01:05]

Yeah, there should be four boxes on the table over there. They're flat boxes stacked on top of each other.

**STEPHANIE OWEN** [01:10]

Colton.

**STEPHANIE OWEN** [01:12]

Yeah, there was. I don't know where they're at now.

**Rodney Meier** [01:15]

Oh, I bet Jake took them. I bet Jake was gonna deliver them. God dang it.

**STEPHANIE OWEN** [01:19]

Yeah, that's all right.

**Rodney Meier** [01:20]

He told me two days ago he was going to deliver them and they were still there yesterday afternoon. Yeah, why don't you, yeah, if you got Jake's phone number, give him a call.

**STEPHANIE OWEN** [01:25]

Let me call. I'll call Dave so we can see where they're at. All right.

**STEPHANIE OWEN** [01:32]

Thank you. Oh, I think he's driving him to the car.

**Rodney Meier** [01:34]

I bet he's delivering them right now.

**STEPHANIE OWEN** [01:37]

Yep, looks like it.

**Rodney Meier** [01:39]

Okay, sorry about that.

**STEPHANIE OWEN** [01:42]

All right. Thank you. Bye.

**Rodney Meier** [01:43]

Okay, keep

## AI SUMMARY

Scott from White River Nutrition reached out to Shelby Lathrum at Rion Equipment for assistance with forklift services and a malfunctioning battery charger.

## FULL TRANSCRIPT

**CRESTON IA** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**CRESTON IA** [00:05]

Shelby. Hello, are you there? Hey, Shelby, this is Scott from White River Nutrition. Sorry, my phone cuts out every once in a while.

**Shelby Lathrum** [00:08]

Hello? This is she. Yeah?

**Shelby Lathrum** [00:14]

That's a... Okay, it was some weird noises coming out there.

**CRESTON IA** [00:19]

Yeah, I don't know.

**CRESTON IA** [00:24]

Do you get -- we're using you guys for forklift services now, right?

**Shelby Lathrum** [00:28]

I think so, yeah. I mean, you can, sure.

**CRESTON IA** [00:30]

Okay. Well, I mean, I think Brian had something set up or --

**CRESTON IA** [00:36]

I think he was going through with Adam Henderson.

**Shelby Lathrum** [00:40]

Okay.

**CRESTON IA** [00:40]

Do you guys, are you guys also working on our batteries or is that something that's not within the scope of your text?

**Shelby Lathrum** [00:50]

No, we're working on your batteries. We actually have one here to be load banked.

**CRESTON IA** [00:55]

Okay, well, we have a battery charger here on site that one of the cables has decided to melt itself.

**CRESTON IA** [01:04]

So I need to get a tech here to replace it or fix it or do whatever you need to do. My maintenance guys are like, well, just order one and we can do it ourselves. And I'm like, no, that's why we have a contract. You know, that's why we pay these people to come in and try to do it, you know, to fix this stuff because that way you guys don't have to do it. And that way I don't order the wrong part.

**Shelby Lathrum** [01:24]

Yeah, or they don't get electrocuted. Right?

**CRESTON IA** [01:25]

And then have to hear about that for, yeah, you know, I'll have to hear about it for nine months afterwards.

**Shelby Lathrum** [01:32]

Yeah. Would you be able to send me a picture so we can find out if we need to get parts coming via email?

**CRESTON IA** [01:33]

Yep,

**CRESTON IA** [01:41]

I will get out there and get some pictures taken and go from there. And then I'll send you an email. I'll copy Adam in on it.

**Shelby Lathrum** [01:45]

Okay. Okay,

**Shelby Lathrum** [01:50]

do you have my email address?

**CRESTON IA** [01:52]

Yes, ma'am, I do.

**Shelby Lathrum** [01:53]

Perfect. Sounds great, then. We'll look for that. All right. Thank you. Yep. Bye.

**CRESTON IA** [01:55]

Okay. Okay, thanks. Bye.

CALL 235 OF 611

## Inbound call from JASON HICKS

April 30, 2026 | 04:08 PM | Duration: 2m 5s | From: JASON HICKS | To: +15152995624

Inbound

Negative

### AI SUMMARY

In the conversation, JASON HICKS detailed an alarming encounter with a reckless driver, expressing his frustration about the driver's dangerous maneuvers that nearly caused accidents.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**JASON HICKS** [00:07]

You really need to figure out how to look up \*\*\*\*\* videos from

**JASON HICKS** [00:14]

these dashcams.

**Adam Henderson** [00:15]

Hello? Why?

**JASON HICKS** [00:18]

This little blue Honda Civic rice burner piece of \*\*\*\*. I was turning off of, I think it's Roosevelt down here in Valley Junction to come over here to Rinker. Like come flying up beside me in the turning lane.

**Adam Henderson** [00:28]

Yeah.

**JASON HICKS** [00:33]

So, like, I'm getting over, so I had to \*\*\*\* the wheel back into the, like, travel lanes.

**JASON HICKS** [00:41]

Then goes, proceeds to turn down the same road that I'm turning on and cuts off two Dodge pickups, or a Dodge pickup in, like, a Dodge Durango, I think it was. Almost hits the car sitting at the stop sign.

**JASON HICKS** [00:56]

And like, everybody's like, what the \*\*\*\*? Like, I mean, you can see him in their windshields. Like, what's that guy's problem? So, but yeah, really need to figure out how to look that \*\*\*\* up.

**Adam Henderson** [01:05]

Yeah.

**Adam Henderson** [01:09]

That's funny. Yeah, I don't even know if I have access. I know I can look at, like, a location and, like, when you guys are actually driving, but I don't think I have access to anything. Yeah.

**JASON HICKS** [01:19]

Yeah. So, yeah, I was really, I was like really hoping he was going to come, he was on his way to Rinker.

**JASON HICKS** [01:27]

I was going to make sure he had some flat \*\*\*\*\* tires before he left.

**Adam Henderson** [01:31]

Yeah. Like, don't even come near me ever again.

**JASON HICKS** [01:35]

Yeah, yeah. Like, because, I mean, he literally about caused three accidents in a matter of less than a minute. So, yeah.

All right. I'm going to put these in.

**Adam Henderson** [01:46]

That's kind of wild.

**Adam Henderson** [01:50]

All right, sounds good.

**JASON HICKS** [01:53]

Yeah, bye.

CALL 236 OF 611

## Inbound call from John Howard

April 30, 2026 | 04:01 PM | Duration: 3m 21s | From: John Howard | To: Unknown

Inbound

Negative

### AI SUMMARY

The conversation began with John Howard transferring Colton Dunphy to Shelby Lathrum for support regarding a generator issue.

### FULL TRANSCRIPT

**John Howard** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan Equipment. How may I help you?

**John Howard** [00:06]

Hey, this is John over in Omaha. I've got a customer on the line. Says he normally does business with you guys and called us by accident. He didn't, but I've got him on the line, so I'll transfer him over.

**Shelby Lathrum** [00:14]

Okay. Do you happen to say who he was?

**Shelby Lathrum** [00:17]

Okay.

**Shelby Lathrum** [00:19]

Okay. Sounds good. Thank you. Yep.

**John Howard** [00:21]

All right. Thanks, Shelby.

**+16412024458** [00:29]

Hello, is this Shelby? Hi, this is Colton Dunphy from Creston, Iowa. I had a guy come and service a generator on a poultry facility. It's been some time ago.

**Shelby Lathrum** [00:33]

This is she.

**+16412024458** [00:51]

It's probably been at least a year ago-ish. Does that ring any bells? When he was here, so I just, I've had electrical issues on the outside of the generator and I'm getting a new transfer switch put in and he was here installing today and nothing worked. He did a little

**Shelby Lathrum** [00:55]

Yeah. Yep.

**+16412024458** [01:14]

Further diagnosis and then came to find out that I guess somehow, some way the battery charger was turned off. I don't know if that was done in the service.

**+16412024458** [01:31]

But the battery charger was turned off for whatever reason and I got a dead battery and then he turned it back on and for whatever reason the battery charger, I believe, I'm not on site so

**+16412024458** [01:54]

I'm taking this second hand, but I believe the battery charger decided to catch fire and I've got some damage on a very expensive generator. So, no, it's not. So,

**Shelby Lathrum** [02:00]

Okay. Oh.

**Shelby Lathrum** [02:06]

Yeah, that's not good.

**+16412024458** [02:17]

At minimum, I'm probably going to need this battery charger situation checked out.

**Shelby Lathrum** [02:28]

Okay.

**Shelby Lathrum** [02:32]

Charger. Okay, I can...

**Shelby Lathrum** [02:36]

Call Kyle and have him give you a shout, too. Do you have a good phone number that works for you?

**+16412024458** [02:37]

Okay, yeah, that might be helpful. Yeah, 641-202-4458. Yep.

**Shelby Lathrum** [02:49]

Okay.

**Shelby Lathrum** [02:52]

4458. Okay. I can get the service call opened up for checking the battery charger, and I will call Kyle and have him give you a shout as well. I'll sort of tell him what you let me know and then have him call you. Does that sound okay?

**+16412024458** [03:02]

OK. Sounds good. All right. Thank you. OK. Bye.

**Shelby Lathrum** [03:08]

Perfect. Alrighty. I'll get this going. Yeah, thank you. Bye.

CALL 237 OF 611

## Inbound call from HENTGES JACOB

Positive

### AI SUMMARY

In a conversation between HENTGES JACOB and Amber Barth (Customer Service Representative, Brian Equipment), they discussed the ETA of a technician for service and arranged a preventive maintenance schedule for equipment, confirming parts availability and scheduling for the following week.

### FULL TRANSCRIPT

**HENTGES JACOB** [00:00]

This call is being recorded.

**Amber Barth** [00:04]

Brian Equipment, this is Amber. How may I help you?

**HENTGES JACOB** [00:06]

Hey, Amber, Jake, Bruce Ariel. Hey, guys. Do you have an ETA on the guy coming? Yep.

**Amber Barth** [00:08]

Hey, how's it going?

**Amber Barth** [00:13]

Yes, I'm hoping he is headed to another job this morning and then hopefully he should be able to come out this afternoon yet.

**HENTGES JACOB** [00:21]

Okay. And then I can talk to him when he's here, but can we get on the schedule, too, to get a PM done on that thing?

**Amber Barth** [00:27]

Yes, absolutely.

**HENTGES JACOB** [00:28]

Whenever. Whenever. So you got the parts.

**Amber Barth** [00:30]

Yeah, yeah, absolutely. I'll get a call open for it and then we'll get parts coming and then I would think next week we should be able to come out and get it done.

**HENTGES JACOB** [00:40]

Perfect. Thank you.

**Amber Barth** [00:41]

Yes, you're welcome.

**Amber Barth** [00:43]

All right. Thanks, Jake. Bye-bye.

## Inbound call from NMC Doniphan Parts - HAMMER C.

### AI SUMMARY

Laura (Customer, Caller) contacted Michael Lowe (Service Rep) to report a cracked propane line on their forklift.

### FULL TRANSCRIPT

**Michael Lowe** [00:01]

This is Michael with Ryan Equipment.

**HAMMER C.** [00:04]

Yes, this is Laura from CPI Holsting, and I was calling to see if we could get someone to work on our forklift.

**Michael Lowe** [00:11]

Yeah.

**Michael Lowe** [00:13]

You said CPI and TASTE?

**HAMMER C.** [00:15]

Holsting?

**Michael Lowe** [00:20]

Do you know what's going on with the forklift?

**HAMMER C.** [00:23]

Yes, we have a, there's a line that goes from the propane tank to the machine, and it's cracked.

**Michael Lowe** [00:33]

Do you know what the model and serial number of that unit is, by chance?

**HAMMER C.** [00:37]

I do. A as in apple, T as in Tom, 1, 7, B as in boy,

**HAMMER C.** [00:44]

Okay, 95249.

**Michael Lowe** [00:49]

I should be

**HAMMER C.** [00:49]

With the serial number on it.

**Michael Lowe** [00:51]

able to look that up just on that. And you said it is the...

**Michael Lowe** [00:58]

LPG line that's from the propane tank to the fourth base. Okay. Absolutely.

**HAMMER C.** [01:01]

Mm-hmm. To the machine. Yes.

**Michael Lowe** [01:06]

All right. I will get a call opened up. I'll see if one of my techs is in the area, see if he can just take it off and possibly go get it made or we have one in stock, but...

**Michael Lowe** [01:21]

Is this a good callback number that I could have them call you back on?

**HAMMER C.** [01:21]

Okay.

**HAMMER C.** [01:25]

Yes. And what was your name?

**Michael Lowe** [01:26]

Okay. Michael, what's Ryan equipment?

**HAMMER C.** [01:32]

All right.

**Michael Lowe** [01:34]

Okay. I will get this call open and I'll call a couple of my guys, see if they're in the area. If not, I'll just have them give you a call and see when they can make it out.

**HAMMER C.** [01:46]

Okay. All right. Thank you so much. Bye.

**Michael Lowe** [01:47]

Okay. Thank you. Yep.

CALL 239 OF 611

# Inbound call from OMAHA NE

April 30, 2026 | 03:34 PM | Duration: 15m 16s | From: OMAHA NE | To: +14026440781

Inbound

Neutral

## AI SUMMARY

OMAHA NE called Rodney Meier at Tabor Street Group, LLC to discuss a few issues.

## FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

- Morning, Dan.

**OMAHA NE** [00:06]

Good morning, Rod. How's it going?

**Rodney Meier** [00:07]

Good, how about you?

**OMAHA NE** [00:09]

Kind of a \*\*\*\* show this morning so far. Imagine that, huh?

**Rodney Meier** [00:13]

Welcome to Gargill.

**OMAHA NE** [00:15]

Yep, pretty much, pretty much. And I've seen that you ordered some stuff, but yesterday on that 1,000-hour PM, on that, what, 30, what did you order for that? Or what?

**Rodney Meier** [00:25]

Yes.

**Rodney Meier** [00:26]

Yes. I ordered seven gallons and a filter.

**OMAHA NE** [00:30]

Okay, okay, that'll work then. Because...

**OMAHA NE** [00:35]

I use three gallons of actual oil to top it off. So like I said, and it's not due for another, at least another thousand for the 2000 hours.

**Rodney Meier** [00:39]

Oh, okay.

**Rodney Meier** [00:47]

Yeah, I went in and looked and we never showed 1,000 hour on it. We only showed a 2,000 hour. So I went ahead and just ordered seven gallons and a filter.

**OMAHA NE** [00:47]

So, okay.

**OMAHA NE** [00:57]

Okay. Yep, that'll work. I mean, that works fine.

**Rodney Meier** [01:00]

Yeah, yeah, I went into the history because I thought, well, I was thinking, do we even do a thousand hour? I think we only do a two thousand hour. Maybe we just check it at a thousand.

**OMAHA NE** [01:10]

At a thousand hour, I check everything is what it is. It is what Dustin has everything down as. Basically, you just go over and check everything. Grease what you can grease, check mass chains. And while I, yeah,

**Rodney Meier** [01:13]

Okay, okay.

**Rodney Meier** [01:16]

Okay, that's why,

**Rodney Meier** [01:22]

yeah. Right, so it's just a P, yeah, it's just basically just a PM service is all it really is.

**OMAHA NE** [01:27]

just, yes, yes. Sorry, I guess I wrote the wrong, I wrote the number down.

**Rodney Meier** [01:28]

- Okay, that's fine. No, that's fine, not a big deal.

**OMAHA NE** [01:31]

But anyway, that eliminates the three gallons of oil that I was going to have you order. And then I need to order one gallon of Cat Antifreeze, the red, because I gave it to one to Beto, the shuttle wagon guy. He said every once in a while he grabs a gallon from Dustin and puts it in.

**Rodney Meier** [01:40]

Okay,

**Rodney Meier** [01:50]

okay, so what do we wanna bill that to?

**OMAHA NE** [01:54]

I honestly don't know. That's why I'm talking to you. What did Dusty usually do, or did he just order to have extra enterprise on hand?

**Rodney Meier** [02:01]

Oh, he may have just added it to something, who knows.

**Rodney Meier** [02:07]

I'll figure it, you just need a gallon?

**OMAHA NE** [02:09]

I just need one gallon. Bing's he took it, I figured I'd replace it, so I got it.

**Rodney Meier** [02:14]

Yep, yep, yep. And he works for Cargill?

**OMAHA NE** [02:18]

Yes, yes. Beto is the rendering manager, and he's the one that's actually in charge of the shuttle wagon.

**Rodney Meier** [02:25]

Oh, okay, okay.

**OMAHA NE** [02:26]

And he checks everything's, you know, uh...

**OMAHA NE** [02:31]

Does all the checks on it and everything else and I think runs it and that.

**Rodney Meier** [02:35]

All right, what I'm going to do is I'm just going to bill one to our service department because we'll use it to top off whatever, whenever. So, yeah, I'll just bill one to our service department.

**OMAHA NE** [02:43]

Yep.

**Rodney Meier** [02:49]

And it'll come from our store up here. So I will take care of getting a gallon for you.

**OMAHA NE** [02:56]

Okay. And then while I got you, on the gloves that got sent down, those were the neoprene, the exam gloves.

**Rodney Meier** [03:05]

Just to coat it.

**OMAHA NE** [03:07]

I need actually the cut-resistant gloves, the S-S-S.

**Rodney Meier** [03:12]

Okay. All right. There's a lighter weight once.

**OMAHA NE** [03:14]

Yes, the SD Tech Pro, and I think it's the number is a 619379XL1.

**Rodney Meier** [03:17]

Okay.

**Rodney Meier** [03:25]

All right. I bet Jake, because Jake was getting that together. I'll take that along with me when I go out. I got to go out at lunchtime. So

**Rodney Meier** [03:35]

I'll take a look at that and see if we can get that figured out and get that straightened out.

**OMAHA NE** [03:40]

Yeah, he sent me a box of orange nitrile gloves, which I already, I got a box and a half down here, which I'll eventually use them, it's just I didn't need them right then.

**Rodney Meier** [03:44]

Sure.

**Rodney Meier** [03:48]

That wasn't the gloves you actually needed. No, that's fine. I think I know where they're at on the shelf there. Hopefully there's still some there. Our Cintas lady comes around once a month and fills those up.

**OMAHA NE** [03:51]

No, no.

**Rodney Meier** [04:04]

Let me figure that out and we'll get them coming down to you.

**OMAHA NE** [04:09]

And then in that same box, there was a bolt from Young Henrik. It was a 5150XL.

**OMAHA NE** [04:16]

6072, it says Bolt. Do you know what that was for?

**OMAHA NE** [04:21]

Was that something Dustin ordered that took a while to get?

**Rodney Meier** [04:25]

It came on UPS?

**OMAHA NE** [04:27]

No, it came in that box of stuff from Norfolk.

**Rodney Meier** [04:32]

Oh,

**OMAHA NE** [04:34]

It came with the three white balls. Yeah.

**Rodney Meier** [04:35]

I honestly

**Rodney Meier** [04:39]

don't know.

**Rodney Meier** [04:42]

I wonder if it was in a box that he picked up that was from something else.

**OMAHA NE** [04:47]

I don't know, it could be.

**Rodney Meier** [04:50]

You got me stumped there.

**OMAHA NE** [04:50]

I'm just trying to figure out so I don't have to go do something and forget about doing it. So I'll just check and see what it

**Rodney Meier** [04:58]

And let me look here, see what kind of a bolt it is.

**OMAHA NE** [05:02]

was. To me, it's a shaft. I mean, it's got really no threads on it. It's got

**Rodney Meier** [05:10]

Oh, come on picture.

**OMAHA NE** [05:10]

like a roll pin hole in it and a screwdriver slot.

**OMAHA NE** [05:16]

I'm thinking it's something that Dustin might have ordered because on those pallet jacks, it's a leverage or a linkage pin.

**OMAHA NE** [05:25]

I'm thinking that's what it's for, but I didn't think we, unless it was something that was late or he replaced and we didn't get, you know what I mean.

**Rodney Meier** [05:34]

Yeah,

**OMAHA NE** [05:37]

Because it looks familiar. Nothing that I've done anything recently that needed it.

**Rodney Meier** [05:45]

yeah the number looks familiar. Well they got six of them in Omaha.

**Rodney Meier** [05:50]

For

**Rodney Meier** [05:53]

some reason my MCF is not

**Rodney Meier** [05:57]

Cooperating with me. I was hoping to get a picture of it so I could see what the \*\*\*\* it was I was looking at here.

**Rodney Meier** [06:04]

Yeah, let me try something here once. What is

**Rodney Meier** [06:10]

it they say? When in doubt, reboot.

**OMAHA NE** [06:17]

Yeah, this morning I was driving a forklift out. They were \*\*\*\*\*. One was the forks wouldn't go up and down. Well, when I got in there, it went up and down, fine, whatever. And like, you know, I looked at the battery and the battery wasn't full, but it was, you know, like quarter or at least I thought like a quarter on the gauge. And so I'm driving it out and I stopped because on here you got to drive through a \*\*\*\*\* line of hanging beef.

**Rodney Meier** [06:25]

Oh.

**Rodney Meier** [06:43]

Oh yeah, yep, I know what you're talking about. So you have to time it.

**OMAHA NE** [06:47]

Yeah, so time it or have them do it. So I stopped the scale chain. And when I went to take off, \*\*\*\*, it died right where the \*\*\*\*\* beef was going to hit me right with the freaking deal. And it got stuck. So I stopped the \*\*\*\*\* line this morning. So, yeah, that, yeah, yeah. And then I had...

**Rodney Meier** [06:56]

Oh, Jesus. Oh, Jesus. Oh,

**Rodney Meier** [07:02]

Jesus. Oh, wow. I bet that was fun.

**OMAHA NE** [07:07]

There were Mexicans in there coming there telling me how to run it, whatever else, which is fine, whatever, but it would move about a foot every time we'd get it to move. Well, as soon as we got it out of line so they could keep the line going, then I was able to get it to move again and drove it out here. But like I said, I think the battery's \*\*\*\*\* junk. There's written junk on it, but I swapped it with a...

**Rodney Meier** [07:21]

Sure,

**OMAHA NE** [07:28]

I swapped it with a battery that I had from the one out here that I'm waiting on the rollers on. And drove it around a bunch and it was working fine so I took it back inside. It's just, yeah, now I gotta see what this battery's all about. So yeah, so I stopped the \*\*\*\*\*, the hanging beef line this morning so.

**Rodney Meier** [07:33]

sure. Sure.

**Rodney Meier** [07:43]

Sure.

**Rodney Meier** [07:48]

Oh, wow. Yeah, I've only been down there once, but Destin gave us a tour and

**Rodney Meier** [07:55]

That was when Jill was still here. And yeah, he showed us how you had to time it so you could walk through without getting smacked with a piece of beef. So yeah, that was real interesting.

**OMAHA NE** [08:03]

Yeah. Yep, that \*\*\*\*\*. I wish there was

**OMAHA NE** [08:07]

I wish there was some other way of getting \*\*\*\* around because, yeah, it's, I mean, he would actually go over there and flip a couple levers and get the beef to give himself so he'd have a, you know, an opening to get, yeah, space to come through, but, you know, whatever, and, yeah, I never, I never seen him how he'd do it, and then there's a lady every once in a while, sure,

**Rodney Meier** [08:18]

Oh, a little space.

**Rodney Meier** [08:24]

Oh,

**OMAHA NE** [08:29]

Stop the line for me. Well, I hit the stop button, thinking I could drive through and then get off and turn the line back on. Well, it died right in the middle of the \*\*\*\*\* line.

**Rodney Meier** [08:38]

Jesus. Oh, man. Yeah, that would \*\*\*\*. That would \*\*\*\*.

**OMAHA NE** [08:41]

Yeah, yeah.

**OMAHA NE** [08:43]

Yeah. Then I got people yelling at me.

**Rodney Meier** [08:48]

They're saying something, whatever it is.

**OMAHA NE** [08:52]

Yeah. It's like, dude, I know. I'm trying. We got to get it \*\*\*\*\* moved. I understand.

**Rodney Meier** [08:55]

Yeah, got me some slack, man. Yeah, I tell you, that's got to be a fun, fun thing. Fun, fun thing.

**OMAHA NE** [08:59]

Yeah. Yeah.

**OMAHA NE** [09:06]

Yes. So then on these big batteries, I don't have a battery storage area, so I've got nowhere to set with the pallet jack we use. I can pull one out, but I've got nowhere to set it down to go grab another one. So I brought it in here where I put it on the charger that Dustin has in here, and I blocked it up with some blocks, and I backed out, and then I swapped batteries around, and yeah, so that's where I'm at right now.

**Rodney Meier** [09:18]

So, sure,

**Rodney Meier** [09:31]

sure. Wow, wow, yeah.

**OMAHA NE** [09:33]

Yeah, if it ain't one thing, it's another. And to top it off, yesterday they decided to ship out a spare one they had in the plant.

**Rodney Meier** [09:40]

Oh, well, okay.

**OMAHA NE** [09:42]

Yeah, so apparently, who's the guy that was above Darren? Or that's taking or working around the area that comes with Jake every once in a while? I can't.

**Rodney Meier** [09:53]

Big tall guy. Yep, Brett Kane.

**OMAHA NE** [09:54]

What was that? Yeah, big tall, about as tall as Jake.

**OMAHA NE** [09:59]

Okay, well, he, him and Jake were down here talking, uh, when they got that van that day, and apparently they, they decided, somebody decided they were going to get rid of one of their, their rental forklifts, and, okay, well, so yesterday, uh, the, uh, the,

**OMAHA NE** [10:15]

The driver, the flatbed semi-driver from NMC showed up and asked me, so where's this forklift at? What are you talking about? Well, I talked to Jake. Jake said, well, they were supposed to have, they, as in Cargill, were supposed to have it out sitting out by the shop. Because that's what the guy told me. He said, well, it's supposed to be sitting out here. No, I had to go find the \*\*\*\*\* thing.

**Rodney Meier** [10:31]

Oh,

**OMAHA NE** [10:36]

And then, of course, well, they swap batteries around, whatever. So like I told Jake, I said, hopefully it's the battery. I have no idea.

**OMAHA NE** [10:45]

You know, so you got what you got because nobody told me, you know, give me enough time to go find it. And I had to put the backrest back on. So I got the backrest on and so they could load it and get it out of here. But yeah, it would have been nice to have that backup forklift today, though. Yeah.

**Rodney Meier** [10:55]

Sure,

**Rodney Meier** [10:59]

sure. Yeah, I bet it would have been.

**OMAHA NE** [11:02]

Yeah, because I would have had two of them down then. But like I said, I swapped batteries and hopefully got, I mean, put that back on the charge and got it running.

**Rodney Meier** [11:10]

- Yeah, well, my MLA is down for some reason. Mitsubishi Cat must be down for some reason. I looked up that bold in our system. We have not ordered one since February.

**Rodney Meier** [11:26]

So I'm not sure if it really goes to anything. I guess set it off to the side, we'll figure it out.

**OMAHA NE** [11:31]

Yep, yep, I'll put it over here. But I just seen it come in and I was just trying to figure out what it was for, if it was something that I needed to do or go find or what.

**Rodney Meier** [11:39]

Yeah. I don't, I don't, well, if it was, it was from back in February. But these were stuff we had in stock, so it didn't come from MLA. So I can look up the sales order here and see what the last one was. But I would say just hang on to it.

**OMAHA NE** [11:55]

Yep,

**OMAHA NE** [12:00]

I will. I'll put it in a pile.

**Rodney Meier** [12:00]

You may need it somewhere sometime. Let me see where the lab...

**OMAHA NE** [12:05]

Yep. Yeah, and that's the other thing is I got to try to get so I can get on the, what's the one that you look under for a unit of Heinrich parts? Truck, not truck,

**OMAHA NE** [12:20]

parts navigator. I can't even get on the parts navigator to look up the ship.

**Rodney Meier** [12:21]

Oh,

**Rodney Meier** [12:25]

yeah, see, and I don't use parts navigator, so I honestly couldn't tell you. I know Dustin used it all the time. I don't use it. I had trouble navigating through it. I didn't like it.

**OMAHA NE** [12:28]

Okay.

**OMAHA NE** [12:33]

Yep. Yeah, I can't even get into it, so.

**OMAHA NE** [12:41]

So, but yeah, so hopefully I don't need parts for that, otherwise I'll have to give you a call and help me figure it out.

**Rodney Meier** [12:45]

Well, you can look up Young Heinrich parts in the regular parts manual too.

**OMAHA NE** [12:50]

Even the pallet jacks?

**Rodney Meier** [12:51]

Yes, yes. It's just not as, maybe not as much into detail,

**Rodney Meier** [12:59]

but you can look up any cat product. Young Heinrich, Mitsubishi, Caterpillar can all be looked up under the parts manual.

**Rodney Meier** [13:07]

The parts page. So you shouldn't have to worry about that. In fact, once in a while I could find parts in there that Dustin couldn't. So you're okay. Yeah, you just punch your FN number or your 988 number or whatever it is.

**OMAHA NE** [13:08]

Okay.

**OMAHA NE** [13:15]

Oh, okay.

**OMAHA NE** [13:24]

Yeah, yeah, nine, eight something.

**Rodney Meier** [13:26]

You just punch that in. You just punch your serial number in. That's not a problem. It'll still give you the same pictures.

**OMAHA NE** [13:30]

Okay, good.

**OMAHA NE** [13:34]

Good to know. I didn't know that. I was just going off what Craig had said when I was in that pallet jack class down there, the junior line class.

**Rodney Meier** [13:35]

Yep, yep,

**Rodney Meier** [13:41]

yep, yep, yep.

**Rodney Meier** [13:44]

That bolt that you got, that is for load wheels on the pallet jacks.

**OMAHA NE** [13:50]

Okay, that's what I thought it was. I'll put it in the pallet jack box and just leave it here if I need it.

**Rodney Meier** [13:52]

Yep, yep.

**Rodney Meier** [13:55]

Yep, yep, the last one we ordered went on an EJE, went on, yep, on a load, on a R&I load wheel. So that's what it's for.

**OMAHA NE** [13:59]

225. Okay.

**OMAHA NE** [14:09]

That'll work. That's kind of what I thought it was. I just didn't know if it was something that was waiting for a part or just for stock.

**Rodney Meier** [14:10]

So you got an extra one.

**Rodney Meier** [14:17]

Nope, nope, I'm guessing it just got left in a box somewhere. I think I ordered a bolt for...

**Rodney Meier** [14:25]

For Trevor, and I think maybe he didn't get the bolt or he didn't need it. I'm not sure because he was working. It's the same bolt that they use on the other pallet jacks too. On the 120s, I think it takes the same bolt. Because, yeah, I recognize that part number two. So, yeah, just hang on to it. You know where it goes.

**OMAHA NE** [14:33]

Oh, okay.

**OMAHA NE** [14:36]

Okay.

**OMAHA NE** [14:44]

Yep. Yep, will do.

**Rodney Meier** [14:46]

All right. Sounds good, Dan.

**OMAHA NE** [14:48]

Yep, thanks, Rod. Yep, bye.

**Rodney Meier** [14:49]

You bet. Thank you. Bye.

CALL 240 OF 611

# Inbound call from CARLSON RODNEY

April 30, 2026 | 03:20 PM | Duration: 5m 31s | From: CARLSON RODNEY | To: +14025942051

Inbound

Neutral

## AI SUMMARY

The conversation between Derrick Dea (Sales rep) and Carlson Rodney focused on clarifying missing model and serial numbers for equipment data plates.

## FULL TRANSCRIPT

**CARLSON RODNEY** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Bryant Equipment Omaha, this is Derrick.

**Derrick Dea** [00:08]

Hello?

**CARLSON RODNEY** [00:10]

Hello, this is Derrick.

**Derrick Dea** [00:11]

Yep.

**CARLSON RODNEY** [00:13]

Hey, Rod. Hey, I emailed you over those data plates. I filled them out the best I could. As far as your tabbage on there, I just kind of went with what came off the ones we bought from you. We have like little brand new ones sitting outside. But wasn't 100% sure what was a model number or a serial number, so I just kind of put them off there.

**Derrick Dea** [00:17]

Yeah. Yeah.

**CARLSON RODNEY** [00:36]

Let me know if you need something else. I don't know.

**Derrick Dea** [00:38]

Well I'm looking at this first one, number six, you didn't put a model serial number on it at all.

**CARLSON RODNEY** [00:45]

On the attachment?

**Derrick Dea** [00:47]

Yeah, on the sheet, he sent me number six. Yeah, so.

**CARLSON RODNEY** [00:52]

Oh, no \*\*\*\*? Oh, \*\*\*\*. Here. I got it right here. Sorry about that. Model members, an SG25N.

**Derrick Dea** [01:00]

Okay. Okay. That looks good. It's got the side shifter on it.

**CARLSON RODNEY** [01:07]

And the serial numbers are Adam Frank, 17, Eric,

**CARLSON RODNEY** [01:12]

05464.

**CARLSON RODNEY** [01:23]

Yeah, I just put that, I put one serial number pretty much on like three of them. I mean, some of the Cascades, I don't know if there's no \*\*\*\*\* serial number on.

**Derrick Dea** [01:33]

So on number one, little 31188, what do you mean by squeeze forks?

**CARLSON RODNEY** [01:34]

No idea what the model number is.

**CARLSON RODNEY** [01:40]

Uh...

**CARLSON RODNEY** [01:44]

It's got, so that one's got

**CARLSON RODNEY** [01:49]

the two cylinders, the forks that go in and out. So I guess adjustable forks would have been the right word, not sweet. So they're not adjustable, but dual, they both go left and right.

**Derrick Dea** [01:53]

- Well, there are hot, so it's got fork position, just a fork position around there, no side shift?

**CARLSON RODNEY** [02:04]

Fork positioner, yes, that's the word I'm looking for,

**Derrick Dea** [02:07]

Is there a side shift on there too?

**CARLSON RODNEY** [02:10]

sorry. No, nope, they just go, both forks go open and close, basically.

**Derrick Dea** [02:13]

So they go in and out.

**CARLSON RODNEY** [02:16]

Not that you can squeeze it up. In and out, yeah, both of them. It's got a dual cylinder.

**Derrick Dea** [02:18]

- Right.

**CARLSON RODNEY** [02:25]

That's kind of what we should just put on all of them because that's pretty much what we bought them with. So that's what the data plate would have on it. Rather than having the, you know, like the rotator squeeze because we put them on there later.

**Derrick Dea** [02:37]

Okay,

**CARLSON RODNEY** [02:40]

These are just for safety reasons. They're not getting more critical. I just want to have a plate on there for safety reasons.

**Derrick Dea** [02:42]

so number two, is it the same thing?

**CARLSON RODNEY** [02:46]

Yeah.

**Derrick Dea** [02:47]

Fork positioner.

**CARLSON RODNEY** [02:49]

Yep.

**Derrick Dea** [02:56]

So what's number four, a dual slide, he said. Just a fork positioner, no side shift.

**CARLSON RODNEY** [02:57]

Yep. Plus we change them around quite a bit too. So when the fork goes from one area to another area, we swap the attachment.

**CARLSON RODNEY** [03:04]

So yeah, I just,

**CARLSON RODNEY** [03:07]

that's the same thing.

**CARLSON RODNEY** [03:14]

Fork position, I guess.

**CARLSON RODNEY** [03:21]

I just put them all as forked positioners.

**Derrick Dea** [03:24]

Well number three says cascade side shifter.

**CARLSON RODNEY** [03:31]

They're all cascades.

**Derrick Dea** [03:35]

I'm just going through each one. Number ten is what kind of

**CARLSON RODNEY** [03:37]

Got you.

**CARLSON RODNEY** [03:42]

Yeah, forked positioners.

**Derrick Dea** [03:48]

attachment? No side shift, just fork position.

**CARLSON RODNEY** [03:55]

Yeah.

**Derrick Dea** [03:55]

And then number nine, Sight Shifter.

**Derrick Dea** [04:02]

Alright, so

**Derrick Dea** [04:07]

we'll see how this goes.

**CARLSON RODNEY** [04:09]

Okay, okay, keep me in the loop, buddy. I will get you whatever information I can, but most of the questions, I don't even know what they meant.

**Derrick Dea** [04:10]

Alrighty,

**Derrick Dea** [04:13]

are all the data tags missing?

**CARLSON RODNEY** [04:19]

Yes, they're all missing, completely missing. Dong, dong. And then I think, number nine and ten, too, they are still under warranty. I don't know how them disappeared.

**Derrick Dea** [04:20]

They're gone. Gone. Completely gone. Okay.

**CARLSON RODNEY** [04:31]

I have no idea why they're gone. They're \*\*\*\*\* gone.

**Derrick Dea** [04:34]

Because normally with a fork positioner that moves them in and out, the spreader, usually there's a side shifter on there too. But if you're saying all those do not shift the carriage side to side,

**CARLSON RODNEY** [04:46]

Uh-uh. No, Moses, you just go. Yeah. Yep.

**Derrick Dea** [04:47]

And just move the forks in and out. The forks in and out. Okay. Alrighty. I'll see what happens when I type these in one by one. Alrighty. Alrighty. Will do. Alright. Bye.

**CARLSON RODNEY** [04:59]

Okay. All right. I'm sorry. Thank you. When you get time. When you get time. Don't be right.

**CARLSON RODNEY** [05:06]

Bye, Derrick. Thank you. Bye.

---

CALL 241 OF 611

## Inbound call from PERHAM TRUCK

April 30, 2026 | 03:07 PM | Duration: 0m 50s | From: PERHAM TRUCK | To: +13203427815

Inbound

Positive

### AI SUMMARY

During the call, Dave from Lake Searay Trucker requested a copy of an invoice, and Miranda (Sales rep) assured him that it would be sent the following morning after closing out the necessary details.

### FULL TRANSCRIPT

**PERHAM TRUCK** [00:00]

This call is being recorded.

**Miranda Wright** [00:04]

Miranda, come here. It's

**PERHAM TRUCK** [00:06]

Yeah, Dave here at Lake Searay Trucker. Morning. See, on that line we got in from you,

**Miranda Wright** [00:09]

Miranda. Hi, Dave.

**PERHAM TRUCK** [00:15]

can I get an invoice, copy of an invoice?

**Miranda Wright** [00:19]

Yeah, I will send that over right away tomorrow morning. I just have to wait for it to close out, and usually it takes about a day or two. So I'll get that over to you right away tomorrow morning for that hose that was delivered.

**PERHAM TRUCK** [00:30]

Okay.

**PERHAM TRUCK** [00:33]

That sounds good.

**Miranda Wright** [00:36]

All right. Well, you have a great day. Yes, of course. Bye-bye.

**PERHAM TRUCK** [00:37]

Thank you very much. You too. Yep. Bye.

CALL 242 OF 611

## Inbound call from HAMPTON DENNIS

April 30, 2026 | 02:47 PM | Duration: 15m 34s | From: HAMPTON DENNIS | To: +14026440781

Inbound

Neutral

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Yes,

**HAMPTON DENNIS** [00:06]

Hello, Rod. I got a bunch of parts here today.

**Rodney Meier** [00:10]

sir. A bunch. Wow.

**HAMPTON DENNIS** [00:11]

A bunch. Boxes after boxes.

**Rodney Meier** [00:16]

Yeah, what was that? What was the guy's name in David City for the starter? Jeremy. No, it's not Jeremy. Jerry. Oh,

**HAMPTON DENNIS** [00:25]

Something's Faelia or Faelia

**Rodney Meier** [00:29]

there you go.

**HAMPTON DENNIS** [00:32]

or... Is it David?

**HAMPTON DENNIS** [00:35]

I think it's Dave. Dave or David. Faelia or Faelia or some \*\*\*\*.

**Rodney Meier** [00:40]

I thought, did we? Well, but we didn't set up an account for him, did we?

**HAMPTON DENNIS** [00:44]

Ooh, that I don't know.

**Rodney Meier** [00:47]

No, I don't think we did. I'm just going through David City's addresses and I'm not seeing it. Well, I sent forward to that over to my buddy in Sioux City and he sent me the part number back and it looks like the same \*\*\*\*\* part number we sent

**Rodney Meier** [01:04]

him.

**Rodney Meier** [01:07]

Yeah, 'cause it's showing a regular starter with the nose cone on it and they're showing the heavy duty one with the reduced head.

**Rodney Meier** [01:21]

And I think it's the same number, so we may have to order it. He wants 200 and some dollars for it from him, 273.46. He says he has one in Sioux City.

**HAMPTON DENNIS** [01:29]

Perfect. Sure.

**HAMPTON DENNIS** [01:36]

Oh,

**Rodney Meier** [01:40]

Yeah, maybe we better order one from him to be a safe,

**HAMPTON DENNIS** [01:43]

really? Throw a bone to

**Rodney Meier** [01:46]

huh? Yeah,

**HAMPTON DENNIS** [01:47]

them. Thanks for giving us part numbers all the time. But if it's the same part number as what we've ordered, is it going to be the exact same?

**Rodney Meier** [01:55]

yeah. Well, but from TVH, I don't know. That's just it. You know, TVH might be doing some kind of an aftermarket.

**HAMPTON DENNIS** [02:00]

Yeah. Yeah.

**Rodney Meier** [02:09]

That's why I'm thinking maybe we better order the OEM that he tells it's supposed to be.

**HAMPTON DENNIS** [02:15]

Yeah, we can do that. Order it and just ship it here.

**Rodney Meier** [02:19]

Yeah, yep.

**HAMPTON DENNIS** [02:20]

I can call that guy and tell him to bring both starters and see if we can get them swapped and all that good jazz.

**Rodney Meier** [02:23]

See if we can figure it out. Yeah, see if we can figure it out.

**Rodney Meier** [02:29]

Yep, I will do that. All right, give me a second here. All right, I am ready for the first PO.

**HAMPTON DENNIS** [02:39]

Okay, the one from Foley Engine, PU1139007.

**Rodney Meier** [02:53]

That's already confirmed an invoice. That was the one we paid for with your credit card. So we're good there.

**HAMPTON DENNIS** [02:58]

Oh, that's right, I forgot how to pay to put that in my credit card. Here's one for a data tag.

**Rodney Meier** [03:06]

Okay, that's for Zach Planner.

**HAMPTON DENNIS** [03:14]

I don't see my blind or there are no PU numbers on this.

**Rodney Meier** [03:17]

Oh, yeah, it's very small print right up towards the middle.

**HAMPTON DENNIS** [03:23]

Oh, there it is. PU1139013.

**Rodney Meier** [03:29]

Yeah, they do a wonderful job of putting that right in there where everybody can see it. Jesus Christ.

**HAMPTON DENNIS** [03:33]

Yeah, it's... I mean, honestly, it's hidden right in plain sight, but it's...

**Rodney Meier** [03:39]

Oh, yeah, yeah, there you go. Hidden in plain sight. That'd be a good way to put it.

**HAMPTON DENNIS** [03:41]

It's like, where the hell... Oh, there it is.

**HAMPTON DENNIS** [03:46]

This is...

**Rodney Meier** [03:49]

And I will, I'll print all those invoices, 'cause he owes us for about five of 'em. I haven't invoiced any of 'em yet,

**HAMPTON DENNIS** [03:57]

Sure.

**HAMPTON DENNIS** [04:01]

This one is PU1149013.

**HAMPTON DENNIS** [04:05]

1158. It's for Deep Spell. That one I know.

**HAMPTON DENNIS** [04:11]

What is this box?

**Rodney Meier** [04:12]

so. Yeah, that should be the three parts for them.

**HAMPTON DENNIS** [04:21]

This one is addressed

**HAMPTON DENNIS** [04:23]

to you from Sioux Falls from D. Gary Peterson. I

**Rodney Meier** [04:31]

What is that one?

**HAMPTON DENNIS** [04:32]

don't know. I'm opening it up.

**HAMPTON DENNIS** [04:41]

Oh, this is a transfer for that seal kit in the side shift rod. It

**HAMPTON DENNIS** [04:51]

only costs \$6.55 to ship that here. Yeah, yeah, this is for travel. You want the transfer number or do you already got

**Rodney Meier** [04:51]

Oh, okay, that goes to Trevor.

**Rodney Meier** [04:58]

Give me just a second, I'm just punching transfer numbers in right now. And,

**Rodney Meier** [05:05]

Yep, there it is right there. I am receiving it now.

**Rodney Meier** [05:11]

We're just,

**HAMPTON DENNIS** [05:11]

it? \$6.55 for freight.

**HAMPTON DENNIS** [05:14]

All the way from Sioux Falls. \*\*\*\*, we get charged more than that coming from Omaha.

**Rodney Meier** [05:19]

yeah, it's like seven something from Omaha, but yeah, \*\*\*\*, lucky it's not Des Moines or Lincoln. It's \*\*\*\*\* 20 bucks.

**HAMPTON DENNIS** [05:26]

Yeah. Yeah, I've thrown a couple jabs at Adam Henderson about that. I don't ever order anything for you because you charge me out the \*\*\* for it. I got to recoup my cost.

**Rodney Meier** [05:36]

Yeah, Nate says he's, I've given Nate our account number and he still says it comes up as 18, 19 bucks.

**Rodney Meier** [05:43]

Which I think is \*\*\*\*\*, but anyway.

**HAMPTON DENNIS** [05:50]

Okay. This photo.

**Rodney Meier** [05:59]

Did Eric make it out there yet?

**HAMPTON DENNIS** [06:01]

He must have because those seals are gone. Here is the O-rings. Excuse me, the O-rings.

**Rodney Meier** [06:04]

The seals or the O-rings?

**Rodney Meier** [06:07]

Okay, say God don't let him take seals.

**HAMPTON DENNIS** [06:10]

Here is a fender kit, PU1140892. Hey,

**HAMPTON DENNIS** [06:21]

I'm a driver up here. This is Paul.

**Rodney Meier** [06:23]

That's a sender.

**HAMPTON DENNIS** [06:25]

Like a fender.

**HAMPTON DENNIS** [06:28]

A fender kit? I don't know what the \*\*\*\* these are.

**Rodney Meier** [06:31]

Oh, oh yes, that's the rest of the stuff for custom feeds. There should be some cushions too, I hope.

**HAMPTON DENNIS** [06:35]

Oh.

**HAMPTON DENNIS** [06:39]

There's

**Rodney Meier** [06:39]

Should be three seat cushions and a fender, this is a fender kit, 930, 140, 1048. The little covers for the bottoms of the seat cushions.

**HAMPTON DENNIS** [06:55]

custom seats. There are no seats.

**Rodney Meier** [06:55]

But we didn't get any seat cushions.

**HAMPTON DENNIS** [06:58]

No. I've got one more box to go through, but the shape of this box, I'm guessing there's no seat cushions in it.

**Rodney Meier** [07:06]

Okay, but you got two of those fender kits.

**HAMPTON DENNIS** [07:09]

Correct.

**HAMPTON DENNIS** [07:15]

This is from Cindy Cooper, out in clear, right? See, like this, it's \$6.73 to get this shipped.

**Rodney Meier** [07:15]

I will check those in.

**HAMPTON DENNIS** [07:26]

Oh, this is probably the rest of it.

**Rodney Meier** [07:29]

Yeah, the fender kits are for custom feeds.

**HAMPTON DENNIS** [07:33]

Yep, yep, I got that written down.

**Rodney Meier** [07:34]

I don't know why they call them fender kits, stupidest thing in the world, but whatever.

**HAMPTON DENNIS** [07:37]

Well, yeah, I'm here, kids, what the \*\*\*\* is that? These are...

**HAMPTON DENNIS** [07:44]

Brake Shoes from Clear Lake, or from Mason City, excuse me, Mason City. There's no transfer number in here. I'm assuming she transferred them to us. Cindy Cooper.

**Rodney Meier** [07:54]

Yes, those are,

**HAMPTON DENNIS** [07:59]

They're Rosses, but I don't remember who they're for.

**Rodney Meier** [08:02]

yeah, they're for the 6,000.

**HAMPTON DENNIS** [08:06]

Oh, West Lumber down at Newman Grove.

**Rodney Meier** [08:09]

Yes.

**HAMPTON DENNIS** [08:19]

And then Pallet Up's tire came. I'll text Justin.

**Rodney Meier** [08:23]

Yeah, I received that yesterday. I think there was a ticket on the printer for it already. I'm assuming you must have pressed it and not billed him.

**HAMPTON DENNIS** [08:28]

There was.

**HAMPTON DENNIS** [08:32]

No, I did not press it. Yep, they're bolt-together rims. What

**Rodney Meier** [08:33]

- He was gonna try it himself,

**Rodney Meier** [08:39]

huh? Well, I knew that, but that's not always the easiest either.

**HAMPTON DENNIS** [08:46]

the \*\*\*\* is this? It's a 699 number.

**HAMPTON DENNIS** [09:04]

You don't have Justin's phone number, do you, Rod?

**Rodney Meier** [09:08]

Justin,

**HAMPTON DENNIS** [09:11]

Justin with Paladine.

**Rodney Meier** [09:14]

who? Oh, no I don't. I think I had Javier's, I don't even have Justin in as our contact.

**HAMPTON DENNIS** [09:24]

I know I texted him.

**HAMPTON DENNIS** [09:29]

I did.

**Rodney Meier** [09:29]

And you got the, did you get the, you haven't done anything with the transfers you picked up today?

**HAMPTON DENNIS** [09:36]

Those are done.

**Rodney Meier** [09:38]

Oh, I still show the OP tank here.

**HAMPTON DENNIS** [09:40]

The...

**HAMPTON DENNIS** [09:44]

Oh, that's the only one I haven't done yet. I did the seal kits. I haven't done the propane tank yet.

**Rodney Meier** [09:52]

Okay, I'm doing it right now. And I have given Zobeck to PO for the propane already. She sent me an email for the product charges on it. So she has a PO.

**HAMPTON DENNIS** [09:55]

Perfect, because that's...

**HAMPTON DENNIS** [10:02]

Perfect. Yep. Yep, because I dropped it off down there this morning.

**Rodney Meier** [10:07]

Yeah, it's already done.

**HAMPTON DENNIS** [10:09]

Oh, they already have it filled?

**HAMPTON DENNIS** [10:13]

Perfect, yeah. I asked them to...

**Rodney Meier** [10:13]

Yeah, she sent me the invoice already.

**HAMPTON DENNIS** [10:17]

Yeah, it's nice. It didn't have called me when it was done, but...

**Rodney Meier** [10:20]

And I got a couple of 48 inch forks. You picked those up?

**HAMPTON DENNIS** [10:25]

Yep, yep, those are in the back of the pickup right now. Those

**Rodney Meier** [10:29]

Okay. And those are class twos because this is a 5,000 pounder,

**HAMPTON DENNIS** [10:34]

are Class 3s because it's going on a 6,000-pound truck.

**Rodney Meier** [10:39]

right? Well then you got the wrong forks.

**HAMPTON DENNIS** [10:43]

No, she sent me Class 3 forks.

**Rodney Meier** [10:46]

Who did? I've got a part number for class twos on a transfer.

**HAMPTON DENNIS** [10:48]

Courtney...

**HAMPTON DENNIS** [10:52]

Oh, that's the forks that went straight to Cargill. I

**Rodney Meier** [10:57]

No, this is a, well maybe that one is.

**HAMPTON DENNIS** [11:01]

thought I already did that transfer.

**Rodney Meier** [11:02]

I said, "Yeah, it probably is. It probably is. Yeah, I did some already. I guess I didn't see the one for the class three. She must have just sent some,

**HAMPTON DENNIS** [11:09]

I don't say I don't. Yeah, I think she just sent him. I don't think she actually did a transfer because there was no transfer paperwork.

**Rodney Meier** [11:12]

huh?" I'll say, "Okay, no, no, I don't have a transfer for clinic class threes." So yeah, if you got class three, she just sent you some.

**HAMPTON DENNIS** [11:18]

Yep.

**HAMPTON DENNIS** [11:22]

Yeah. Perfect. And...

**Rodney Meier** [11:26]

The only thing I show yet is I need

**Rodney Meier** [11:31]

a set of brake shoes and stuff for Trevor.

**Rodney Meier** [11:39]

Brake shoes, cylinder assemblies, cables.

**HAMPTON DENNIS** [11:44]

Sure, I do not.

**Rodney Meier** [11:44]

That was from Tuesday already. Should have came yesterday.

**HAMPTON DENNIS** [11:52]

I do not have those. Let me double check.

**Rodney Meier** [11:54]

Let me look and see because I thought that went to Trevor.

**HAMPTON DENNIS** [11:58]

Let me check my pile here quick.

**Rodney Meier** [11:59]

And I have a pulley bracket also

**Rodney Meier** [12:05]

from Omaha.

**Rodney Meier** [12:07]

I'll look them up. I'll see where they go.

**Rodney Meier** [12:15]

Maybe they're not for Trevor. Maybe they, I didn't think I shipped them direct anywhere, but let me look.

**HAMPTON DENNIS** [12:21]

I know Dan was after a Pauley bracket deal.

**Rodney Meier** [12:31]

Yeah, maybe it was him. I've got sales order numbers. I'll look them up.

**HAMPTON DENNIS** [12:34]

What is this down

**HAMPTON DENNIS** [12:40]

here?

**HAMPTON DENNIS** [12:43]

I don't think this is ours. I think this is Raca Rentals. Raca Rentals. This

**HAMPTON DENNIS** [12:54]

is Trevor's. That's right. This is Trevor's.

**HAMPTON DENNIS** [13:08]

Sweet. Well, I think...

**HAMPTON DENNIS** [13:13]

I think that's all I have right here. Let me double check.

**HAMPTON DENNIS** [13:18]

Double check my chaos.

**HAMPTON DENNIS** [13:22]

Yeah. Yeah. That's everything that I've got.

**Rodney Meier** [13:28]

Oh, the brake job went to Luke. That was for ADM.

**HAMPTON DENNIS** [13:32]

Oh, yeah. For idiot, man. I'm on nutrition.

**Rodney Meier** [13:35]

Yep,

**HAMPTON DENNIS** [13:36]

Yep. I haven't already talked about that. I might. I might try to pull somebody up from Lincoln next week and...

**HAMPTON DENNIS** [13:45]

Because that's a full day deal. It's brakes, tires, and a PM.

**Rodney Meier** [13:51]

yep, yeah. Yeah, he should have everything because I ordered the PM stuff for him and he should have the tires over at Cargill.

**HAMPTON DENNIS** [13:58]

Yeah.

**HAMPTON DENNIS** [14:00]

All right. Well, that should be

**HAMPTON DENNIS** [14:05]

everything I have. You have the

**HAMPTON DENNIS** [14:09]

\$6.73 billed for the

**HAMPTON DENNIS** [14:14]

West Lumber brakes.

**Rodney Meier** [14:18]

I will have it in a minute.

**HAMPTON DENNIS** [14:20]

Perfect. And then, what was this one? \$6.55 for the seal kit. And a side shift rod for, how is that, Midwest? Is it Midwest Builders or Great Plains Builders? I can't remember the name of that place.

**Rodney Meier** [14:38]

Yeah, something like that. I know who you're talking about.

**HAMPTON DENNIS** [14:44]

Yeah. No, that should be...

**HAMPTON DENNIS** [14:48]

Should be everything we've got.

**Rodney Meier** [14:52]

All right. I got Tom from Baylin trying to get a hold of me, so I suppose I better answer that. All right. All right. Talk to you later. You bet.

**HAMPTON DENNIS** [14:53]

I will

**HAMPTON DENNIS** [14:59]

let you go. I appreciate it. Thanks, Rod.

CALL 243 OF 611

**Inbound call from LOGAN HEARSHMAN**

Inbound

Positive

**AI SUMMARY**

LOGAN HEARSHMAN (Caller) called to request two LP tank seal kits and one coupler, which Adam Henderson (Company Rep) confirmed were available, ensuring a smooth transaction.

**FULL TRANSCRIPT**

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

What's going on?

**LOGAN HEARSHMAN** [00:07]

Hello. Hey, we got LP tank seals and a coupler.

**Adam Henderson** [00:12]

Give me just a second. I'll go grab them to make sure.

**Adam Henderson** [00:44]

Yes, sir. Got them in my hand.

**LOGAN HEARSHMAN** [00:51]

All right, cool. I need two LP tank seal kits and then just one coupler.

**Adam Henderson** [00:54]

Okay, will do. All right.

**LOGAN HEARSHMAN** [00:59]

Perfect. I'll be there. Come grab

**LOGAN HEARSHMAN** [01:03]

them. Bye, thanks.

## Inbound call from ROLLINS F.

### AI SUMMARY

In this conversation, Fred (Customer, Caller) called Nate Ross (Sales rep) to order parts for a lift, including a spindle and kingpin.

### FULL TRANSCRIPT

**ROLLINS F.** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Rion, equipment, parts, Nate?

**ROLLINS F.** [00:06]

Hey, Nate, this is Fred out of Yankee Brick.

**ROLLINS F.** [00:09]

Hey, on that same lift, I need a spindle for that,

**Nate Ross** [00:15]

Which side?

**ROLLINS F.** [00:18]

too. It'd be the driver's side.

**Nate Ross** [00:22]

Are you going to need the kingpin and wheel seal and all that stuff then? Okay. What about the tie rods?

**ROLLINS F.** [00:25]

Yes, yes, yes. Is there, is one that says, is it? No, I got the tie rod.

**ROLLINS F.** [00:34]

Is there any bushings that go in for that tie, for that, into that spindle for the tie rod?

**Nate Ross** [00:42]

Oh, yeah. Yeah, there's a bunch of... Well, let me...

**Nate Ross** [00:47]

I would assume so.

**ROLLINS F.** [00:48]

I pretty much need everything but the tie rod.

**Nate Ross** [00:51]

I would assume so.

**Nate Ross** [00:53]

On that, because every other truck, it seems like they have those. So I will see if I can't.

**ROLLINS F.** [00:58]

Right. I'm used to the Toyotas,

**Nate Ross** [01:01]

Yeah, I will see if I can't get a breakdown on that and kind of pick out what we need on that.

**ROLLINS F.** [01:08]

but... Well, I pretty much need everything except for the tie rod.

**ROLLINS F.** [01:16]

I don't need the hub or anything. I just need the spindle and everything that goes with that and the tie rod.

**Nate Ross** [01:21]

So. So you need the spindle, the kingpin, the bushings for the kingpin. Yep.

**ROLLINS F.** [01:22]

Except...

**ROLLINS F.** [01:26]

Yes.

**ROLLINS F.** [01:29]

And I need them as fast as you can get them to me.

**Nate Ross** [01:32]

OK. OK. Yeah, let me see what I can get a hold of.

**ROLLINS F.** [01:36]

Okay. Thank you.

**Nate Ross** [01:37]

All right. Thanks, man. Bye-bye.

CALL 245 OF 611

## Inbound call from RUDD BRANDON

April 30, 2026 | 02:31 PM | Duration: 3m 30s | From: RUDD BRANDON | To: +14025942060

Inbound

Positive

### AI SUMMARY

In the conversation, Brandon (Customer) contacted John (Sales rep, MoMA) to ask about a non-DOT Turburg unit under repair.

### FULL TRANSCRIPT

**RUDD BRANDON** [00:00]

This call is being recorded.

**John Howard** [00:04]

Brian Equipment of MoMA, how are you,

**RUDD BRANDON** [00:07]

Hey, John, this is Brandon up in Chicago. How are you?

**John Howard** [00:09]

John? Good, how are you?

**RUDD BRANDON** [00:11]

I'm doing all right. Hey, I had a quick question for you.

**RUDD BRANDON** [00:15]

You guys have a non-DOT Turburg there. It's EQN 217269.

**RUDD BRANDON** [00:24]

It's a new unit, but it says it's under repair.

**RUDD BRANDON** [00:30]

Just wondering what that repair was or a salesperson is going to quote it.

**John Howard** [00:37]

So, we had a new non-DOT on yard, but I think it just went out on rent. We got one back.

**John Howard** [00:59]

What was the last for that VIN? <REDACTED\_ENTITY>?

**John Howard** [01:30]

So, it's got a flat tire on it that was getting fixed.

**John Howard** [01:36]

And then an inspect. I don't...

**John Howard** [01:41]

Know that we've got anything left going on?

**RUDD BRANDON** [01:48]

1168. Do you know if the -- so it has 34 hours. It must go out on a demo or what?

**John Howard** [01:54]

I think so.

**RUDD BRANDON** [01:56]

Okay. I wonder if

**John Howard** [01:57]

I think that's all it was.

**RUDD BRANDON** [01:59]

-- did they start the warranty or no? Probably not, right?

**John Howard** [02:02]

That would be a question I'd have to

**John Howard** [02:08]

get with somebody else on to see if they know.

**RUDD BRANDON** [02:12]

Okay.

**John Howard** [02:16]

Well, I'm going to look and see if it shows in here.

**RUDD BRANDON** [02:17]

Can I --

**John Howard** [02:27]

Yeah, it's not showing warranty in PRO for it, so I don't know if they actually activated it or not because it's

**John Howard** [02:36]

not sold or anything.

**RUDD BRANDON** [02:38]

yeah. Okay.

**RUDD BRANDON** [02:46]

All right, I'll just tell him he can go ahead and quote it then. I mean, I'm assuming the tire will be repaired in the next three or four days.

**John Howard** [02:54]

It might already be repaired. We're probably just waiting on the PO to come back or the invoice to come in from the vendor,

**RUDD BRANDON** [03:02]

Okay.

**John Howard** [03:04]

but I'll double check on that for you.

**RUDD BRANDON** [03:04]

Very good.

**RUDD BRANDON** [03:09]

I appreciate it.

**John Howard** [03:10]

Yep, not a problem.

**RUDD BRANDON** [03:12]

All right, thank you.

**John Howard** [03:13]

Yep, bye.

### AI SUMMARY

Matt Wagner from Rion Equipment coordinated with Chris from Sudden Service regarding a drain pan order, ensuring a warranty claim and discussing the need for a purchase order to move forward with the order.

### FULL TRANSCRIPT

**SUDDEN SERVICE** [00:00]

This call is being recorded.

**Matt Wagner** [00:04]

Rion Equipment, this is Matt. How can I help you?

**SUDDEN SERVICE** [00:07]

Hey, Matt, this is Chris, Southern Service. How are

**Matt Wagner** [00:10]

Hey, good, man. How are you?

**SUDDEN SERVICE** [00:12]

you? Oh, good, man. I just got some information back on that drain pan.

**SUDDEN SERVICE** [00:18]

Now, we can get one.

**SUDDEN SERVICE** [00:22]

Your cost on this would be \$580.32, but there's no part.

**Matt Wagner** [00:27]

I don't care how much it costs. I'm going to warranty it anyway.

**SUDDEN SERVICE** [00:31]

Okay, cool. So, well, the thing is, there's no part number set up for this, and no, you know,

**Matt Wagner** [00:32]

Okay.

**SUDDEN SERVICE** [00:37]

If you get me a PO for this, we'll get a partner set up for it and we'll get it on order. It's about a 10-day lead time to us.

**Matt Wagner** [00:44]

Okay. Sounds good. I'll get you a PO, and then, yeah, I guess I'll just shoot it to you in the email.

**SUDDEN SERVICE** [00:46]

Yeah, it'll be fine. It could be just a PO.

**Matt Wagner** [00:53]

Email and let you know it's four and then you can sort out how to get it coming. You know what I mean? So and then once you get a part number, let me know.

**SUDDEN SERVICE** [01:02]

Yeah, it could be just a PO with that. I mean, you can put a description on it. I mean, we'll come back and we'll get it set up and then we can put a partner on it. Okay. All right. That'll work.

**Matt Wagner** [01:09]

So. I'll just you're good. I'll just send you a blank PO. So.

**Matt Wagner** [01:15]

All right. Thank you, sir. Take care. Bye.

**SUDDEN SERVICE** [01:16]

Yes, sir. Bye-bye.

### AI SUMMARY

During the conversation, Derrick Dea (Sales rep) informed Gustin Kelvin that a hose is out of stock and needs to be ordered.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Let me

**GUSTIN KELVIN** [00:06]

Hi, Derrick.

**GUSTIN KELVIN** [00:09]

Hey, did you have that hose in stock?

**Derrick Dea** [00:14]

see. I was doing a, closing a bunch of calls. Let me see here.

**GUSTIN KELVIN** [00:24]

You're doing a big...

**GUSTIN KELVIN** [00:26]

Yeah, I'm sorry.

**Derrick Dea** [00:27]

Let's close a bunch of counter-orders because it's the end of the month. Mm-hmm.

**GUSTIN KELVIN** [00:31]

Oh, yeah, you gotta get that money. End of month.

**GUSTIN KELVIN** [00:46]

Oh, really?

**Derrick Dea** [00:52]

Thank

**Derrick Dea** [01:07]

you.

**Derrick Dea** [01:17]

No, I do not, and I gotta call them and get one made, it looks like, because they show zero stock. Yep. Okay. Yeah. So, uh...

**GUSTIN KELVIN** [01:25]

Well, I got them in stock of my van, so it's up and running. I'm just wondering, I'm not going to close it until you get the part. It's going to be a while, though, ain't

**GUSTIN KELVIN** [01:37]

it? Hey, you've

**Derrick Dea** [01:39]

I'll figure something out to get it on there so you can close it.

**GUSTIN KELVIN** [01:42]

got time. The only other thing I got is, do you know when them Genie tires are going to come in for air light?

**Derrick Dea** [01:45]

I'm working on that too. I think we got an issue with our account there. I don't know because there's a couple other orders that I'm waiting on too for mid-April. So I got to call accounting to call their accounting and see what's going on because they show ordered but they haven't shipped them yet.

**GUSTIN KELVIN** [01:51]

Oh,

**GUSTIN KELVIN** [01:58]

okay. Oh, we're not paying the air light.

**Derrick Dea** [02:06]

So that tells me there's probably a problem with the count. Yep. Yep. I'm supposed to call accounting from what I'm told to find out what's going on.

**GUSTIN KELVIN** [02:07]

Uh-oh. Uh-oh.

**GUSTIN KELVIN** [02:11]

Somebody didn't bill something.

**GUSTIN KELVIN** [02:13]

Somebody didn't pay a

**GUSTIN KELVIN** [02:17]

bill. Who pays the bills?

**GUSTIN KELVIN** [02:23]

Okay.

**GUSTIN KELVIN** [02:27]

Okay, buddy. Appreciate it. Thank you. Bye.

**Derrick Dea** [02:28]

All right. Yep. Bye.

CALL 249 OF 611

Inbound call from IRWIN ANTHONY

April 30, 2026 | 01:46 PM | Duration: 5m 24s | From: IRWIN ANTHONY | To: +14026440781

Inbound Positive

AI SUMMARY

Matt (TMS) called Rodney Meier (Equipment Representative) to discuss the planetary assembly parts needed for a tailor.

FULL TRANSCRIPT

IRWIN ANTHONY [00:00]

This call is being recorded.

IRWIN ANTHONY [00:03]

Hey, it's Matt at TMS. I'm working on one of my tailors. Serial number 36543.

Rodney Meier [00:05]

Rion, equipment this Rod.

Rodney Meier [00:15]

Okay.

IRWIN ANTHONY [00:19]

So I'm on

IRWIN ANTHONY [00:23]

the actual planetary pages.

Rodney Meier [00:25]

Okay. Give me a second here.

Rodney Meier [00:41]

Okay. Three, six, five, four, three.

IRWIN ANTHONY [00:58]

Yeah, if I'm on the planetary page.

Rodney Meier [01:01]

You said you're on the planetary.

Rodney Meier [01:08]

Okay. Give me a second here. Yeah. 14, 196,

IRWIN ANTHONY [01:08]

Yes. So, the spider assembly number three...

Rodney Meier [01:20]

three. Uh-huh.

IRWIN ANTHONY [01:20]

What all comes with that?

IRWIN ANTHONY [01:32]

Is it everything above it?

**Rodney Meier** [01:35]

Yes, you have to order number two.

**IRWIN ANTHONY** [01:41]

I have to order number two?

**Rodney Meier** [01:41]

That 3815784.

**IRWIN ANTHONY** [01:48]

Okay.

**Rodney Meier** [01:48]

You have to get the planetary on the spider assembly. The spider is not sold separately. Number three is not sold separately.

**IRWIN ANTHONY** [01:55]

Okay. Okay. So that would be my number three, and that comes with number one and number two.

**Rodney Meier** [02:00]

It would come with number two, the 3815784.

**IRWIN ANTHONY** [02:10]

But it comes with the screw and the fill plug.

**Rodney Meier** [02:13]

It should come with the screw, the plug, I don't know about the screw, I'd have to ask him about the screw.

**IRWIN ANTHONY** [02:20]

Okay. So I need that one on a quote. Okay.

**IRWIN ANTHONY** [02:27]

And availability, the planetary assembly.

**Rodney Meier** [02:28]

3815784,

**IRWIN ANTHONY** [02:33]

Number four.

**Rodney Meier** [02:38]

3815785.

**IRWIN ANTHONY** [02:43]

Number 12.

**Rodney Meier** [02:51]

3811, 717,

**IRWIN ANTHONY** [02:55]

Number 13.

**Rodney Meier** [03:00]

3815,

**Rodney Meier** [03:04]

783,

**IRWIN ANTHONY** [03:09]

And number 15.

**IRWIN ANTHONY** [03:19]

Okay. And then also, so on page 14-196-4.

**Rodney Meier** [03:28]

okay. You

**IRWIN ANTHONY** [03:31]

Okay.

**Rodney Meier** [03:33]

said 14196 for

**Rodney Meier** [03:37]

the next page,

**IRWIN ANTHONY** [03:39]

Number two,

**Rodney Meier** [03:42]

okay. 3814, 381.

**IRWIN ANTHONY** [03:47]

I think it says 361.

**Rodney Meier** [03:48]

Now that's what I was just, I was gonna try and expand it a little bit.

**Rodney Meier** [03:56]

Yes, 361, the O-ring,

**IRWIN ANTHONY** [03:58]

Number four,

**Rodney Meier** [04:02]

okay. 50, 81, 132.

**IRWIN ANTHONY** [04:06]

number five,

**Rodney Meier** [04:09]

38, 16, 308.

**IRWIN ANTHONY** [04:14]

and number nine.

**Rodney Meier** [04:17]

38, 15, 596.

**Rodney Meier** [04:24]

And I assume you're doing one side,

**IRWIN ANTHONY** [04:28]

Yes.

**Rodney Meier** [04:31]

Okay. Because quantities are all listed for both sides.

**IRWIN ANTHONY** [04:38]

If you can throw me that quote and availability together and email it to me and we'll get it figured out from there.

**Rodney Meier** [04:43]

All right. Nope. I can certainly do that.

**IRWIN ANTHONY** [04:47]

Okay. And I think that's all I needed on your end right now. Okay.

**Rodney Meier** [04:52]

All right. I will get this put together and get it out to you.

**IRWIN ANTHONY** [04:56]

Thank you.

**Rodney Meier** [04:57]

All right. You bet. Thank you. Bye.

**IRWIN ANTHONY** [04:58]

Bye.

---

CALL 250 OF 611

## Inbound call from KAWASAKI MOTORS

April 30, 2026 | 01:46 PM | Duration: 22m 6s | From: KAWASAKI MOTORS | To: +14024731031

Inbound

Positive

### AI SUMMARY

The conversation was initiated by Ben Granger from Kawasaki Motors, who reached out to Victoria Bauer from Ryan Equipment regarding some confusion about service records and billing.

### FULL TRANSCRIPT

**KAWASAKI MOTORS** [00:00]

This call is being recorded.

**Victoria Bauer** [00:03]

Ryan Equipment, this is Victoria.

**KAWASAKI MOTORS** [00:06]

Hello, Victoria, it's Ben Granger Kawasaki, how are you? Hey, pretty good, just returning your call.

**Victoria Bauer** [00:09]

I'm fine. How are you?

**Victoria Bauer** [00:15]

Yeah, I was just, I sent you an email. I think we're all on the same page now.

**KAWASAKI MOTORS** [00:18]

Okay,

**KAWASAKI MOTORS** [00:21]

there was some, yeah, I seen your email. I guess my confusion, or maybe it's all my confusion, I'm not sure.

**KAWASAKI MOTORS** [00:31]

I got an email yesterday from one of the other ladies that works up in the finance area or whatever asking on some recs and those recs were already had sent through and gone through and they had different balances.

**KAWASAKI MOTORS** [00:50]

Now I have a few recs open from

**KAWASAKI MOTORS** [00:56]

From services for you guys, I see you replied back and said that they weren't

**KAWASAKI MOTORS** [01:03]

done yet.

**KAWASAKI MOTORS** [01:06]

So I guess there was just some confusions, I guess, on balances-wise.

**Victoria Bauer** [01:12]

And I'm thinking what happened, and this is just trying to get the team on the same board. My policy for 31 years has been PMs are PMs and follow-ups are a new PO. But a couple of those, then when they, I think when they sent it through, verbal was spoken and assumed that

**KAWASAKI MOTORS** [01:25]

Correct.

**Victoria Bauer** [01:36]

We could go ahead and dump it on certain calls or whatever, or they didn't include the inspection when we went back out or added stuff. And I think that kind of created a little bit of confusion with all the new players we have here. And so...

**KAWASAKI MOTORS** [01:54]

Brian. Okay.

**Victoria Bauer** [01:57]

I re-stress that with, I talked with Michael yesterday about that we really need to just keep PMs, PMs, and any inspections are inspections, and then the option, we include that time into when we quote what we found. So they're all...

**Victoria Bauer** [02:16]

The whole picture is sent over and not the findings and then hit them on the back side with the inspect. And so I think we're all on the same page here. So I just thought I'd send you where I was at. I know that the PMs are completed on those and Michael forwarded that to Justin just to get the

**KAWASAKI MOTORS** [02:37]

Okay. Okay.

**Victoria Bauer** [02:41]

The PM parts all closed out. On the one you'll see under my subject line, I have a column for the guys when I send them stuff. It's kind of like the short version of the whole story. And I did the PM and then we had an email conversation with you about the follow-up work. Did we want to dump it with the PM?

**Victoria Bauer** [03:04]

Because Justin was thinking, well, I already talked to him and he said that would be okay. And I said, well, let's just get it black and white. Because that way then, I said, I live off of email responses, not of verbal. Because all of us are busier than \*\*\*\*. And verbal, you forget 10 feet from the conversation spot. So...

**KAWASAKI MOTORS** [03:24]

Sure. Sure,

**Victoria Bauer** [03:25]

So I think we're on the outside of the one that I have that says PM and then the follow-up work. Everything else is PM, PM and follow-up is extra, is another call. And you gave me POs for all, so I think we're matched up.

**KAWASAKI MOTORS** [03:31]

sure.

**KAWASAKI MOTORS** [03:42]

Okay, so I guess my only other question would be, I'll just do these one at a time.

**KAWASAKI MOTORS** [03:50]

So, we have a bill from Rion. The PO for that was 118001001.

**Victoria Bauer** [04:01]

118-01-01.

**Victoria Bauer** [04:07]

Let

**Victoria Bauer** [04:10]

me pull up.

**KAWASAKI MOTORS** [04:10]

But if you go into, see, we've ran that through back in January.

**KAWASAKI MOTORS** [04:18]

And I think this, I don't know when this bill surfaced. It says the invoice, see, it's 4-1.

**Victoria Bauer** [04:25]

Yeah, I think it, I don't know if it got closed because I know there for a while, I'm waiting for my computer to clear its pause deal. I'm thinking of some of those stories.

**KAWASAKI MOTORS** [04:26]

Okay.

**Victoria Bauer** [04:38]

I know at the beginning of the year we were getting, you guys were getting triggered for the time. The POs were up, the POs were up and got sent. And I think, I'm trying to think back, we were getting duplicates and I thought we had voided out some, but hang on here, I got this to clear.

**KAWASAKI MOTORS** [04:59]

Yeah, this would have been for a 4,000 hour PM on one of the trackers.

**Victoria Bauer** [05:03]

Right. And I'm looking at that now where we then had the PM follow-up. And again, that goes back to we could use the same PO. But technically, we can't use it. We opened up a new call for the PM follow-up.

**Victoria Bauer** [05:25]

And then it came back and said, oh, well, we can use the same PO. And I went, okay, well, normally we don't, but, and,

**KAWASAKI MOTORS** [05:32]

Yeah, it's probably best if they don't. It's less confusing.

**Victoria Bauer** [05:35]

yeah, and that's what I said. You know, when you do a PM or inspection, that's a done deal. When they shoot you a deal to check it out, that's a done deal. Then what we find out, the results of either or,

**KAWASAKI MOTORS** [05:44]

Right.

**Victoria Bauer** [05:50]

Is when we request saying, hey, this is what I found. On the PM, we'll do a new call. On the inspection, that would be your option, but we would have to include that inspection time with the quote we send you of what we found.

**KAWASAKI MOTORS** [06:05]

Right, that would give us an opportunity to send you a new PO.

**Victoria Bauer** [06:09]

New PO, right. And so, and,

**KAWASAKI MOTORS** [06:11]

Okay, yeah, that would be better because it caused confusion in finance, I think, because they're like, well, this show's paid, but there's like an outstanding bill. And I'm like, I don't know, that was four months ago.

**Victoria Bauer** [06:21]

right, right.

**Victoria Bauer** [06:26]

Yeah, and you would have had two separate service calls on that same PO. Do you want me to send you the little screenshot of it? We had your initial PO started January 27th. That's when I got it and opened the call. Then I was requested to add a new segment or a new call,

**KAWASAKI MOTORS** [06:30]

Okay.

**KAWASAKI MOTORS** [06:35]

Okay.

**Victoria Bauer** [06:50]

To do the PM follow-up, but we can use the old PO. And I went, who said that? You know, that's my question. And I don't care who the customer is. Normal policy is PMs, PMs, inspects are inspects, and everything else is a new call, new PO. But...

**KAWASAKI MOTORS** [07:09]

Sure. And

**Victoria Bauer** [07:11]

We're just all getting on the same page here. I says it's... Okay.

**KAWASAKI MOTORS** [07:15]

I'm okay with that. I just, when I got this, I was like, well, I,

**KAWASAKI MOTORS** [07:20]

Normally I will say, "Hey, here's this PO for this service," or whatever the case is. I was just confused because like I said, it was an old rec number that... So I was like, "I don't know, do I push another one through so I can take care of these?" Or there was two different ones. So I was...

**Victoria Bauer** [07:24]

Right.

**Victoria Bauer** [07:30]

An old... Yeah. That came...

**Victoria Bauer** [07:39]

Now, I can do your screenshot, and if it's easier for your gals in accounting, I can definitely...

**Victoria Bauer** [07:50]

I can send these over and then if you want I can send you an invoice. Well, you probably got an invoice for both calls with the same REC.

**KAWASAKI MOTORS** [07:59]

Well, it's actually, let me look here. I think it's two different racks. Yeah, the other one's 118403.

**Victoria Bauer** [08:09]

But the one that got issued, that one that you just gave me, the 118001, there's two different service calls on that. One for the initial 400-hour service.

**Victoria Bauer** [08:20]

PM, which was in January, which that was a legit. Then we did the PM follow-up for a hydraulic tank and the driver window handle that also used that same PO.

**KAWASAKI MOTORS** [08:33]

Okay, and I don't, correct me if I'm wrong, I don't remember seeing an invoice sent back to me for that.

**Victoria Bauer** [08:42]

Well, I'm going to do this then. I'm going to create a new call here.

**KAWASAKI MOTORS** [08:47]

Because I don't, normally, I'm not saying I'm perfect, but I try to be right on top of that stuff when I get it.

**Victoria Bauer** [08:50]

Oh, I hear ya. That's, you know.

**KAWASAKI MOTORS** [08:55]

So I don't recall getting a bill for that. Sometimes that stuff's delayed getting to me.

**KAWASAKI MOTORS** [09:03]

I don't know all the channels it goes through,

**KAWASAKI MOTORS** [09:07]

but if I get that stuff right away, normally I will do a PO right on the spot and get it sent through because it's got to go through three or four levels of approval after me.

**Victoria Bauer** [09:19]

Okay, I'm gonna do this. I'm gonna put Kawasaki, POL118001. And I'm just gonna put history.

**KAWASAKI MOTORS** [09:22]

So...

**KAWASAKI MOTORS** [09:32]

Alrighty.

**Victoria Bauer** [09:38]

And then I'm going to do a screenshot like I did before.

**Victoria Bauer** [09:45]

I'm

**Victoria Bauer** [09:48]

going to put that and paste that.

**Victoria Bauer** [09:56]

OK, so then let me do this. And then I'm going to, if you want to hang on, then I'll wait and we'll go through this together. Make sure that that all clicks.

**Victoria Bauer** [10:11]

I'm going to send you a copy of it.

**Victoria Bauer** [10:24]

Kawasaki,

**Victoria Bauer** [10:35]

I'm going to put here. This is Unit 170149, POL118001.

**KAWASAKI MOTORS** [10:37]

Thank you.

**Victoria Bauer** [10:48]

And I'm just going to put today's on because that's where we're at. Okay. I'm going to attach this.

**Victoria Bauer** [11:09]

Okay. All right. Sent. It's heading your way now.

**Victoria Bauer** [11:20]

And I included a screenshot of the two calls against the 1PO.

**KAWASAKI MOTORS** [11:27]

Okay. Okay,

**Victoria Bauer** [11:28]

And then a copy of the invoice that was the follow-up repair with the same PO.

**KAWASAKI MOTORS** [11:33]

so... Yeah, I think this is...

**Victoria Bauer** [11:45]

Probably one that...

**KAWASAKI MOTORS** [11:46]

Yeah, this is the bill that her name's Jessica and Finance sent me yesterday. So what I will do, I will go ahead and just create two new wrecks because they're for two different tractors. And I will send this one and the other one through.

**Victoria Bauer** [12:03]

Okay, now do you need me to back that out and create a new one? POs? Okay.

**KAWASAKI MOTORS** [12:07]

Um, no. No, I'll just make a note and I'll let her, I'll let them know up front that, that, uh, an old wreck was used. This is for that bill. And that should hopefully eliminate the confusion. Like I said, I had just, cause I file every bill that I ever get from any of our, our outside, uh,

**Victoria Bauer** [12:27]

Okay.

**KAWASAKI MOTORS** [12:33]

Vendors or whatever, I always keep those and I don't, I didn't have these so that's why I was like, well what are these?

**Victoria Bauer** [12:36]

Yeah.

**Victoria Bauer** [12:42]

Okay.

**KAWASAKI MOTORS** [12:42]

So that makes sense now that after you, you know, telling me about it, I'm like okay, yeah, now I kind of remember that. So no, that should be fine. I will just go ahead and I will push these two to get those paid. And then I

**Victoria Bauer** [12:54]

Okay. Okay. Okay. Yeah, and then I'm just reiterating to the guys that I've been here long enough to know all the quirks. I said it's kind of, this works the best. It's clear for everybody. And because...

**Victoria Bauer** [13:14]

Verbal conversations are terrible. Yeah. And then you look back and go, oh, yeah, oh, that must have been when this fell down and I was in a rush to get to something else and you followed me on my run. So, yeah.

**KAWASAKI MOTORS** [13:15]

Yeah. Yeah, they can be. You're like, did I say that? Okay.

**KAWASAKI MOTORS** [13:32]

Yeah. Yeah, and we've ran into this, you know, with other vendors in the past. And it's like I said, it just gets, you know, we have so many, probably like you guys, we have so many wrecks that we have to keep track of. And then you're like, oh my gosh, I forgot about them. And yeah, there are a lot of different services daily. So, yeah.

**Victoria Bauer** [13:46]

Oh, yeah, oh, yeah.

**Victoria Bauer** [13:51]

Yeah, yeah, I hear you.

**Victoria Bauer** [13:55]

Yeah, oh yeah, you know, if everybody just had one machine and just one location and the same issue always happened to the same thing, it's a lot easier to track. But you start with other stuff.

**KAWASAKI MOTORS** [14:04]

Sure. Yep, absolutely. All right, well, I appreciate your time.

**Victoria Bauer** [14:12]

Oh yeah, no problem. You call me or email me anytime and we'll get to the deal. And I'll

**Victoria Bauer** [14:18]

I'll reiterate then too that it's just cleaner if we just per task and

**KAWASAKI MOTORS** [14:22]

Well, yeah, and moving forward too, I guess, if I have questions, I'll say, hey, do you by chance have an invoice for whatever?

**Victoria Bauer** [14:30]

yeah. And too, it... Go ahead.

**KAWASAKI MOTORS** [14:31]

Because I have a screen I follow on our recs or whatever, and after a certain period of time, they still show open. That's when questions start coming up. Well, where's the bill for that? Or, you know, that kind of thing. So, yeah.

**Victoria Bauer** [14:47]

Okay.

**KAWASAKI MOTORS** [14:47]

I'll be sure to reach out to you if we ever run into that again.

**Victoria Bauer** [14:51]

Okay, yeah, just shoot me an email and I will be more than happy to follow up and check and...

**Victoria Bauer** [14:59]

I'll reiterate that in our meeting, too, we have on Wednesdays that we really need to stick tight to

**KAWASAKI MOTORS** [15:01]

Yeah,

**Victoria Bauer** [15:07]

the inspect PMS or on one call and then follow up new PO for others. So,

**KAWASAKI MOTORS** [15:12]

yeah, yeah. And if they run into that, or I should say when they run into that, because there's always going to be repairs.

**KAWASAKI MOTORS** [15:19]

Just let me know and I can send out a new wreck to use for that repair.

**Victoria Bauer** [15:19]

yeah.

**Victoria Bauer** [15:26]

Okay. Yeah.

**KAWASAKI MOTORS** [15:28]

And then hopefully, like I said, it'll be a little less confusing. Sure, I hope so.

**Victoria Bauer** [15:31]

We'll get there. We'll get there, you know.

**Victoria Bauer** [15:35]

So, I mean, you know, it's just, that's a good thing, I guess, sometimes to have growing pains. That means we're all headed in the right direction. But for those of us who have to track all that paperwork and dot our I's and cross our T's, so both sides get.

**KAWASAKI MOTORS** [15:41]

Yep.

**KAWASAKI MOTORS** [15:46]

Right, right. Yeah, like mine, I stare at a computer screen with hundreds of different wrecks. And then you're following dates. What was this for? What was that for? But that should be easy enough, though. Like I said, I'll get these sent through, and then we should be current.

**Victoria Bauer** [15:58]

Yep.

**Victoria Bauer** [16:07]

Okay.

**KAWASAKI MOTORS** [16:11]

Until the other bill or whatever invoices come in.

**Victoria Bauer** [16:17]

Okay. All right. Well, I think we're back on par, except for that one that I sent you that we had a shared repair, that we had an email trail that said that we could follow that same PO. So if, too, when we get ready to close that out, I can always send you and say, here's the final bill.

**KAWASAKI MOTORS** [16:38]

And it must be on that 118-001.

**Victoria Bauer** [16:42]

I think that's where I sent it. Let me go back to your main file here.

**Victoria Bauer** [16:49]

That's the, get up here,

**KAWASAKI MOTORS** [16:57]

That's the one I'm guessing.

**Victoria Bauer** [17:00]

the, yeah, because that would have been, let's see, I sent you the one about 820, the one that we are sharing a piece

**Victoria Bauer** [17:10]

And a follow-up work is on your rec L119809.

**KAWASAKI MOTORS** [17:15]

Oh,

**Victoria Bauer** [17:21]

820 I sent you that.

**KAWASAKI MOTORS** [17:24]

need to go back to my emails.

**Victoria Bauer** [17:41]

Would have come from me.

**KAWASAKI MOTORS** [17:43]

Yeah, that's the one you sent here, the calls we still have in process.

**Victoria Bauer** [17:49]

Here are the calls we still have in process. Let me know if you have any questions. So that very first line that's

**KAWASAKI MOTORS** [17:53]

Okay.

**Victoria Bauer** [17:56]

It's your PO 119809, or it says JP would be Justin Pierce, our tech, and then it's a 5,000-hour PM, and the follow-up, same PO was okayed.

**KAWASAKI MOTORS** [18:12]

Okay, which is fine.

**Victoria Bauer** [18:12]

But,

**Victoria Bauer** [18:19]

you know, too, if you need to, if you would rather we not...

**KAWASAKI MOTORS** [18:19]

Yeah.

**Victoria Bauer** [18:24]

From the paper, we had an email that said it was okay for us to do that from you. But if you would rather we break that out, I surely can break that out and make the 500 hour, the 500 under that 1908. And then we can do...

**KAWASAKI MOTORS** [18:42]

Yeah, after this, that's fine. Let's do that because then I can always create a new wreck and say, you know, after PM repairs is usually what we do. After PM repairs,

**Victoria Bauer** [18:52]

Okay.

**KAWASAKI MOTORS** [18:53]

After they do their PMs and inspections and everything like that, then we can just create a new one for the actual this needs repaired type thing. Either or, whatever's easiest. Like I said, if it's, I guess the issue sometimes with that is, like, you might get the bill

**Victoria Bauer** [18:58]

Okay.

**Victoria Bauer** [19:01]

Okay, so do you want to leave that call as is or do you want me to tweak it and create a new one?

**KAWASAKI MOTORS** [19:18]

...for the PM right away, and then it might be a while before you get the bill for the repair. You know what I mean? I set everything at once. So that's where it gets confusing.

**Victoria Bauer** [19:22]

Right.

**Victoria Bauer** [19:26]

Well, yeah, right. And what you're going to have on this one for the follow-up on this 500-hour PM or that 5,000 hours, he's replacing the window glass frame.

**KAWASAKI MOTORS** [19:39]

Oh,

**Victoria Bauer** [19:42]

He's replacing the brake safety decals. And he's replacing your turbocharger heat shield.

**KAWASAKI MOTORS** [19:53]

okay.

**Victoria Bauer** [19:55]

But that would be presented to you. I can make a note here to run you a Performa before I close it, if that helps. And then going forward,

**Victoria Bauer** [20:08]

We'll keep them separated.

**KAWASAKI MOTORS** [20:10]

Okay. Yep, yep, I think that's going to be the best way to do it.

**Victoria Bauer** [20:13]

Okay. Because if I get in there now and start tweaking, I've got parts in between. And so having done parts before for a long time, too, that's a logistic nightmare to cancel POs, recreate POs, move them over to a new. So...

**KAWASAKI MOTORS** [20:18]

No, that's okay. We'll make it work.

**KAWASAKI MOTORS** [20:28]

Ah, I understand that.

**Victoria Bauer** [20:31]

Living both worlds, I'm going to go, if we can stop where we're at and then going forward, don't blend them.

**KAWASAKI MOTORS** [20:39]

Okay. Okay. Sounds good. I hope so.

**Victoria Bauer** [20:40]

Okay, but I'm making a note here to send you a performa before closing.

**Victoria Bauer** [20:47]

Okay, I'm going to put the, okay, and then going forward, we should be smooth as honey, so.

**Victoria Bauer** [20:55]

That's the plan. That's what we're going to go into summer with. So, all righty.

**KAWASAKI MOTORS** [20:57]

That is the plan. Okay. But yeah, I'll get these other two sent through so they can get...

**KAWASAKI MOTORS** [21:06]

Our end of it taken care of. Perfect. Yeah, yes, likewise, and thank you for your help.

**Victoria Bauer** [21:08]

Okay. Sounds great. All right. Well, nice talking to you.

**Victoria Bauer** [21:14]

All right. Oh, you bet. Anytime. All right. You too. Bye-bye.

**KAWASAKI MOTORS** [21:17]

All right, you have a good day. All right, bye.

CALL 251 OF 611

## Inbound call from HAMPTON DENNIS

Inbound

Positive

### AI SUMMARY

In a recorded call, Hampton Dennis and Rodney Meier discuss various logistical updates, including the return of O-rings and seals by Eric Moore.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Good morning.

**HAMPTON DENNIS** [00:06]

Good morning.

**Rodney Meier** [00:07]

You done talking on the phone now?

**HAMPTON DENNIS** [00:09]

I was getting forks from the other store. I needed some class three forks for the rental that's here and I didn't want to try shoving them in my personal pickup so I grabbed a shop pickup and then I ran a propane tank down to Zobex and all that good jazz.

**Rodney Meier** [00:18]

Oh, yeah. Sure,

**Rodney Meier** [00:24]

sure. Well, what a deal. Eric Moore is coming back out to get those O-rings.

**Rodney Meier** [00:31]

And there are two credit invoices or credit tickets on the printer up front for those seals that he returned.

**HAMPTON DENNIS** [00:38]

Okay. Yep, yep, for the two wrong ones.

**Rodney Meier** [00:39]

So if you want to give him those return tickets when he comes to get the O-ring. He called me about the O-ring. He ruined the O-ring putting it back together yesterday afternoon. I said, well, it just so happened that the O-ring we ordered the first time was the right one, and it's there. So you're more than welcome to go get it. Yeah.

**HAMPTON DENNIS** [00:57]

Yep, yep. So you're \*\*\*\* lucky, Eric, that we didn't have it returned yet.

**Rodney Meier** [01:01]

Well, and I just told him, I said, I had a piece of paper in front of me. In fact, I wasn't going to return the O-rings because I figured he'd need them anyway. But I did return the two SEALS that were there so you can give him those credit tickets and let him know. So he lets the office know that they're coming because then I invoice the credits right away. And if Ross is in the shop today, go out and slap him upside the head.

**Rodney Meier** [01:27]

He returned that master cylinder for Polestar and \*\*\*\*\* T completed it. They got an invoice yesterday, \$436 \*\*\*\*\* master cylinder.

**HAMPTON DENNIS** [01:35]

Yeah.

**Rodney Meier** [01:40]

Christy opened it back up. I did the credit on it. She was going to re-invoice it. She'd had a PO from him already. I said, well, just send him the invoice. Tell him that there was a part that never got put on there for the return.

**Rodney Meier** [01:53]

I'm sure they'll be happy to see a \$400 credit off their bill. And soon enough they probably haven't written a check yet. But she thought she did it yesterday or the day before. But yeah, that part never got returned off the \*\*\*\*\* service call.

**HAMPTON DENNIS** [01:57]

Oh, yeah. Yeah.

**HAMPTON DENNIS** [02:10]

Oh, yeah. He wrote it on a piece of paper and thought it just would magically get done.

**Rodney Meier** [02:14]

Well, but the other ones he didn't. The new core steel ones he didn't. The Blackburn, he didn't.

**Rodney Meier** [02:21]

So he had his head up his \*\*\*, I guess. But we got it corrected, so we should be okay.

**Rodney Meier** [02:30]

But anyway, so I just thought I would let you know that those two credit tickets are up there for Eric when he comes out.

**Rodney Meier** [02:39]

I assume he's coming out fairly soon because it sounded like he was going to come out right away.

**HAMPTON DENNIS** [02:45]

Yeah, I'm just crossing Benjamin now on 37. So if he beats me there, he beats me there.

**Rodney Meier** [02:50]

Okay. Okay.

**Rodney Meier** [02:53]

Well, that's possible. It was probably 15 minutes ago, 20 minutes ago I talked to him. So he may be, he'll have to find them if he goes out there and you're not there yet. So, because they're off in that corner yet. So, yeah, yep. So, all right. Well, I will let you go. I just thought I would give you a heads up that they're on the printer. Oh, and the printer in the back is out of paper.

**HAMPTON DENNIS** [03:02]

Yep.

**HAMPTON DENNIS** [03:05]

Yep, they're in that top left corner.

**HAMPTON DENNIS** [03:17]

Is it out of paper again? Because we just put paper in it two days ago.

**Rodney Meier** [03:23]

Oh, well, maybe it was Tuesday that it told me it was out of paper.

**HAMPTON DENNIS** [03:27]

That could be.

**Rodney Meier** [03:28]

That might have been Tuesday it was out of paper in the morning. So if you put some in, it's probably all right. All right. Well, sounds like you handled that.

**HAMPTON DENNIS** [03:34]

Yep, yep, it had paper on, it had \*\*\*\* printed on it this morning, so it,

**Rodney Meier** [03:39]

Okay. Yep. You must have got it in between time. I forgot all about it. And then this morning I was printing tickets on. Oh, \*\*\*\*. I bet there isn't any paper yet. So how are we doing for paper? Do I need to get a case ordered?

**HAMPTON DENNIS** [03:47]

yeah, because I'm

**HAMPTON DENNIS** [03:51]

letting them buy it all. If they want to buy it, let them. And I'm still, we're still getting charged for the, for the Cintas stuff, so.

**Rodney Meier** [03:55]

Okay, all right. Yep, and yeah, the front printers.

**HAMPTON DENNIS** [04:02]

For the rugs and stuff. And I told him, I go, tell us, I'm not going to argue about a \$20 a week charge or whatever it is. I'm not.

**Rodney Meier** [04:02]

Oh, sure,

**Rodney Meier** [04:09]

sure, sure, sure, okay.

**HAMPTON DENNIS** [04:11]

Well, we use the rugs just as much as you do. We'll just keep buying the rugs.

**Rodney Meier** [04:15]

Well, yeah, probably, yeah, probably. So, okay. All righty, that'll be fine.

**HAMPTON DENNIS** [04:25]

Deal. I appreciate it. I'm sure we will talk later on.

**Rodney Meier** [04:26]

All right.

**Rodney Meier** [04:30]

I would wager a pretty good guess. I am going to come out at lunchtime. Now that I got these parts returned, I'm going to do a transfer for them back to Omaha. I put them all in that one box. So I'm going to do a transfer for all of them back to Omaha, and then we can run that over to the other store.

**HAMPTON DENNIS** [04:39]

Sure. Yep.

**Rodney Meier** [04:47]

And there's a box to go out to Gillette, yeah, too, still sitting over there on the table. That's that core return that she told me to just send back to Gillette. So we just have to UPS it back to them.

**HAMPTON DENNIS** [04:57]

Oh yeah, that turbo actuator.

**Rodney Meier** [05:06]

So I'll maybe do that, run out. My Eggman's supposed to come before lunch, so I'll probably run out at lunchtime, pick up my eggs, and take care of that.

**Rodney Meier** [05:19]

All right.

**HAMPTON DENNIS** [05:19]

Deal. Well, I'm going to jet to lunch. I don't know what time yet. Kirsten is back. They moved back, and she's in North Fork today. So I'm going to have lunch with her this afternoon at some point.

**Rodney Meier** [05:26]

Oh, sure. Yep.

**Rodney Meier** [05:30]

Oh, wow.

**Rodney Meier** [05:33]

Sure, sure. Yeah, I didn't know if you heard her mom's divorced again.

**HAMPTON DENNIS** [05:38]

Yeah, what a deal.

**Rodney Meier** [05:40]

All right.

**HAMPTON DENNIS** [05:41]

It turns out a tiger can't shed its stripes.

**Rodney Meier** [05:46]

I got Matt from TMS trying to call me, so I better answer it.

**HAMPTON DENNIS** [05:52]

Deal. That'll work. We'll talk to you later, Rod. Yep. Bye.

**Rodney Meier** [05:53]

Later. You bet. Bye.

### AI SUMMARY

Gustin (Customer, Caller) called Derrick (Company Representative) to request billing for a hose linked to work order 804160, providing specific part numbers, and the call ended promptly after confirmation.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

All righty.

**GUSTIN KELVIN** [00:06]

Good morning, Derrick. How's it going?

**GUSTIN KELVIN** [00:09]

Hey, I got a hose here I need to be billed out. Let's see what my work order is here. Looks like it's an 804160 for air light.

**GUSTIN KELVIN** [00:23]

And the part number is 51871438 or 432.

**GUSTIN KELVIN** [00:37]

518-714-32. Okay. Thank you, sir. Appreciate it. Bye.

**Derrick Dea** [00:37]

Yep. Yep. Bye.

CALL 253 OF 611

## Inbound call from MOORE ERIC

April 30, 2026 | 01:06 PM | Duration: 3m 11s | From: MOORE ERIC | To: +14026440781

Inbound

Positive

### AI SUMMARY

Eric (Customer, Caller) reached out to Rodney Meier (Sales rep) to clarify the status of O-rings related to a previous order.

### FULL TRANSCRIPT

**MOORE ERIC** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Ryan, equipment to us, Rod.

**MOORE ERIC** [00:07]

Hello, Rod. This is Eric at EBM. How are you?

**Rodney Meier** [00:11]

I'm good, Eric. How are you?

**MOORE ERIC** [00:13]

Oh, it could be better. It could be worse than usual.

**Rodney Meier** [00:15]

Yeah, normal day then.

**MOORE ERIC** [00:19]

Say, when I had you, when I called to order these numbers a long time ago when I was working on the Drive Hub, the numbers that I gave you, even though they were out of the book, were the wrong ones.

**Rodney Meier** [00:32]

Right. Well, one of them, the O-ring was actually the correct number.

**MOORE ERIC** [00:33]

And I

**MOORE ERIC** [00:39]

don't know if them are still down there or not.

**Rodney Meier** [00:42]

Yes, they are. Yes, they are.

**MOORE ERIC** [00:44]

Because, yeah, I ruined one of my O-rings putting it back together. I installed it wrong.

**Rodney Meier** [00:51]

And I, yep, and I think we had, I think we had actually ordered two. So there is one down there yet. I was just there yesterday.

**MOORE ERIC** [01:01]

Yeah, I was confused. I didn't know if those were the right O-rings anymore then or what the deal was.

**Rodney Meier** [01:05]

Yeah, the second time around when Jake looked it up, it was the correct O-ring. And I was going to credit that other seal back to you that we ordered wrong. But yeah, the O-ring is still there because I was just there yesterday afternoon and I told Jake, I said, well, yeah, that is the correct O-ring. But yeah, there's still O-ring.

**MOORE ERIC** [01:26]

Oh, that's why the O-ring wasn't with the seal because the other one was... Okay.

**Rodney Meier** [01:31]

With the last order. Yep, yep. So yeah, the O-ring is down there.

**MOORE ERIC** [01:34]

No, I thought that maybe I just didn't get the O-ring or something the third time around.

**Rodney Meier** [01:40]

No, and I, yeah, well, and I was gone. I was down in Texas on vacation. I was kind of working from there, so I didn't get a chance to talk to Jake as much as I'd like to. But yeah, I was out there yesterday, and there isn't O-ring there yet.

**Rodney Meier** [01:57]

So you can run out and get that O-ring and then I just, I won't credit the O-ring back to you then. I'll just credit that other seal back.

**MOORE ERIC** [02:05]

Yeah, I was finally, I've been getting called away and I've been working on this thing like 15 minutes a day for the last week.

**Rodney Meier** [02:10]  
Sure.

**Rodney Meier** [02:15]  
Yep, nothing drives you crazier when you just get started on it and you get called away somewhere else.

**MOORE ERIC** [02:21]  
So, I was hoping that I could get this thing done today.

**Rodney Meier** [02:25]  
Well, the O-ring is there, so you should be able to, hopefully.

**MOORE ERIC** [02:27]  
All right, well, thanks for clearing that up.

**Rodney Meier** [02:33]  
Yep, yep, nope, not a problem.

**MOORE ERIC** [02:35]  
So, yeah, I had meaning to call you as soon as I picked up that seal and I was confused about the O-rings. And I'm like, well, mine aren't tore yet, so maybe I just get by without them, but...

**Rodney Meier** [02:40]  
Yeah.

**Rodney Meier** [02:45]  
Yeah, yeah. No, the O-rings are still there yet. I was going to run a credit on them today. In fact, I got the sheet of paper in front of me right now. So I'll hold off until we get the O-rings. So not a problem.

**MOORE ERIC** [02:55]  
Good thing I didn't wait to call you.

**MOORE ERIC** [03:00]  
All right. Thanks, Rod.

**Rodney Meier** [03:01]  
All right, you bet, Eric. Thank you. Bye.

### AI SUMMARY

In a brief and informal conversation, Nate Ross (Company representative) and ROLLINS F. discussed a mask number and PL details for a truck, agreeing on the next steps before ending the call.

### FULL TRANSCRIPT

**ROLLINS F.** [00:00]  
This call is being recorded.

**Nate Ross** [00:04]

Morning,

**ROLLINS F.** [00:06]

Hey, how's it going? You said you needed the number off of the mask.

**Nate Ross** [00:07]

man. Not too bad.

**Nate Ross** [00:10]

I sure do.

**ROLLINS F.** [00:12]

It's E60-MT-515-00185.

**Nate Ross** [00:25]

All right. I will send that to him and see if we can get her going.

**ROLLINS F.** [00:30]

Okay, do you need a PL on that? I think I gave you one.

**Nate Ross** [00:33]

I will send

**Nate Ross** [00:34]

the same one that you used before since it was the same truck. But, yeah, if you need a different one, I can sure use that.

**ROLLINS F.** [00:41]

Yeah, because I think I got those last week. 81872.

**Nate Ross** [00:47]

All right, sir. I'll get her on there. Thanks, man.

**ROLLINS F.** [00:49]

All right. Thank you. Bye.

### AI SUMMARY

Chris from Rock River Electric called to confirm if Michael's location is open and if he could allow a person to enter. Michael confirmed the location is open and offered to let the person in.

### FULL TRANSCRIPT

**ENGELBRECHT C.** [00:00]

This call is being recorded.

**Michael O'Neil** [00:03]

Rion equipment, this is Mike, can I help you?

**ENGELBRECHT C.** [00:07]

Hey Mike, how you doing? Hey, this is Chris with Rock River Electric. Are you guys open yet over at your place? I got a guy sitting over there in a truck and he says he's calling the number but it says you're not open yet.

**Michael O'Neil** [00:12]  
Yeah, we're open.

**Michael O'Neil** [00:15]  
Oh,

**Michael O'Neil** [00:19]  
okay. I've been here since quarter after seven, so I'll uh...

**ENGELBRECHT C.** [00:22]  
Yeah, your phone number, the phone number that allows people to get into the gate isn't even allowing people to get through to whoever's in there, I guess.

**ENGELBRECHT C.** [00:30]  
Unless you do the emergency line so so he's just chilling there if you want to let him in. Thanks man.

**Michael O'Neil** [00:31]  
Okay. Yep, no

**Michael O'Neil** [00:35]  
problem. Yep.

CALL 256 OF 611

**Inbound call from JASON HICKS**

April 29, 2026 | 09:33 PM | Duration: 0m 58s | From: JASON HICKS | To: +15152995624

**Inbound** **Positive**

**AI SUMMARY**

The conversation involved Jason (Caller) seeking clarification on how to identify solenoids based on wiring in a transmission, with Adam (Technical Support) explaining voltage checks and grounding before they wrapped up the call.

**FULL TRANSCRIPT**

**JASON HICKS** [00:00]  
This call is being recorded.

**JASON HICKS** [00:05]  
I'm having a dumb moment.

**Adam Henderson** [00:07]  
Yep. Okay.

**JASON HICKS** [00:09]  
So with just those two wires going down into that transmission, how will you know which

**JASON HICKS** [00:21]  
solenoid you're on?

**Adam Henderson** [00:23]

But you can check and see that, like when you put it in forward, just see what voltage you want. Which one has voltage in forward, that'll tell you which wires forward.

**JASON HICKS** [00:33]

Okay. So one of those wires is

**JASON HICKS** [00:40]

forward and one's reverse, and then case is...

**Adam Henderson** [00:41]

Once you...

**Adam Henderson** [00:43]

Yep, and then the solenoids ground through the case.

**JASON HICKS** [00:46]

Yeah. Okay. Okay. Sounds good. Yep. Bye.

**Adam Henderson** [00:50]

All right.

CALL 257 OF 611

## Inbound call from JASON HICKS

April 29, 2026 | 09:30 PM | Duration: 2m 41s | From: JASON HICKS | To: +15152995624

### AI SUMMARY

During the conversation, Jason (Technician, Caller) discussed issues with the Toyota Creston BSM that was acting up.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**JASON HICKS** [00:05]

Hey, so the Toyota Creston BSM is acting up again.

**JASON HICKS** [00:15]

I'm here looking at it.

**JASON HICKS** [00:21]

I cannot get it

**JASON HICKS** [00:25]

to malfunction.

**Adam Henderson** [00:26]

Yeah. Okay.

**JASON HICKS** [00:27]

There's only two wires going to this transmission.

**Adam Henderson** [00:33]

Uh, what do you mean to what? To the solenoid?

**JASON HICKS** [00:33]

How...

**JASON HICKS** [00:38]

There's just two wires that go into the top cover on the transmission.

**Adam Henderson** [00:43]

Okay, so yeah, the solenoids are internal.

**JASON HICKS** [00:48]

So

**JASON HICKS** [00:50]

it will always go in reverse,

**JASON HICKS** [00:54]

but if it acts up,

**JASON HICKS** [00:57]

they have to go, like trying to go forward,

**Adam Henderson** [01:00]

Uh-huh.

**JASON HICKS** [01:01]

they have to go to reverse and then go back to forward and it will work.

**Adam Henderson** [01:07]

Okay.

**Adam Henderson** [01:07]

Yeah, we probably need to get gaskets for the top end of it and get it off of there and maybe the only thing else you could do is if there's a connector you can disconnect, you could check the resistance to the body of the transmission to those wires and see if what each coil says. If like one's way high or one's way low.

**JASON HICKS** [01:28]

Oh, okay. And that is with...

**JASON HICKS** [01:34]

- With it in gear or not?

**Adam Henderson** [01:36]

No, just static. You just want to do resistance and just see what they say. If they're about the same, they're probably good, but...

**Adam Henderson** [01:42]

Other than that, it's probably a stuck valve or something or inching doing something funky.

**JASON HICKS** [01:43]

- Okay.

**JASON HICKS** [01:49]

- Yeah.

**JASON HICKS** [01:51]

All right, I'll check the resistance and then let Cody know that we need to get gaskets and whatnot. And yeah, he basically said just order them.

**Adam Henderson** [01:59]

Yeah, just let me know.

**JASON HICKS** [02:00]

And then on that master

**JASON HICKS** [02:05]

cylinder deal,

**JASON HICKS** [02:10]

It's gonna need a new brake fluid cap. Mike said that you have to get the whole reservoir for that as well.

**Adam Henderson** [02:16]

Okay, I'll order one of those too. Did it break it?

**JASON HICKS** [02:18]

It \*\*\*\*\* up the seal, the O-ring, and it looks like it's deformed a little bit. So, all right, sounds good.

**Adam Henderson** [02:26]

Okay. Will do.

**Adam Henderson** [02:31]

All right. Thanks,

**JASON HICKS** [02:32]

Yep, bye.

**Adam Henderson** [02:32]

man.

### AI SUMMARY

Chris Wenzel (Customer) reached out to Victoria Bauer (Service Rep) to follow up on the low oil pressure warning for his diesel forklift.

### FULL TRANSCRIPT

**ADM** [00:00]

This call is being recorded.

**Victoria Bauer** [00:03]

Brian Equipment, this is Victoria.

**ADM** [00:06]

Hi, this is Chris Wenzel with ADM, COGEN here. I was just following up from yesterday. I gave you a call about our diesel forklift here. Had a low oil pressure light and I was just seeing if someone was going to come out. I know you said today, but if not, that's fine. I was just following up here.

**Victoria Bauer** [00:10]

Yes.

**Victoria Bauer** [00:13]

Right.

**Victoria Bauer** [00:28]

So nobody called you back on that?

**ADM** [00:31]

No, not yet.

**Victoria Bauer** [00:32]

Oh, okay. Hang on. Hang on.

**Victoria Bauer** [00:50]

Let me

**Victoria Bauer** [00:59]

put you on hold and see if Michael knows anything on it. I don't...

**Victoria Bauer** [01:05]

I know I dispatched to Justin, but I'm not sure where we're at on it. So I'm going to put you on hold just a minute.

**ADM** [01:13]

Okay. Okay. Sounds good.

**Victoria Bauer** [01:13]

Thanks. Thanks. Okay. I am told that they are ordering parts for the units. They were out there.

**Victoria Bauer** [01:27]

And I guess Justin got with Michael Lowe, our service manager, and they have got parts ordered. Do you know how long that part will be for the ADM service call, that 803-894?

**Victoria Bauer** [01:48]

He is on the other line. I can never tell because his earpiece is on the other side of his head there. I'm assuming it's coming...

**ADM** [01:51]

Oh, okay.

**Victoria Bauer** [01:57]

GROUND, which is three days out. Do you know if it's coming to part with requesting GROUND or next day?

**Victoria Bauer** [02:05]

Oh, Michael says that it was ordered next day air, so that would be, Justin is planning on being back out there tomorrow.

**ADM** [02:14]

Okay. Do you know what time?

**Victoria Bauer** [02:15]

Ann? I do not. Our UPS ranges anywhere from 10 to

**Victoria Bauer** [02:21]

Until 1:00 for drop-off. And as soon as we see that, Nate will call from our parts department to Justin to come get the part and then he'll roll from there. But I can make a note and call you if it comes in. It'll let you know.

**ADM** [02:23]

Okay.

**ADM** [02:38]

Okay. You could just have him let the guard shack know, yeah, and they can call back to Cogen.

**Victoria Bauer** [02:43]

Show up and put it on.

**Victoria Bauer** [02:45]

Yeah, yeah, because Justin is out there. Justin's out there pretty much every day, either working on your guys' shuttle wagons or some of the other units. So he is your main technician for any issues. Yeah, I was out for a couple hours, and so I'm just doing the catch-up of the bazillion emails. And Michael said that they...

**ADM** [02:51]

Okay.

**ADM** [02:58]

Okay. Okay.

**ADM** [03:05]

Thank

**Victoria Bauer** [03:10]

Got a part coming for that. So if it's coming next to air, then Justin does plan on being back out there tomorrow with it intact. Okay.

**ADM** [03:19]

you very much. I appreciate it.

**Victoria Bauer** [03:20]

You bet. Well, yeah, I'm sorry you didn't get a follow-up on that, but that's where it is. But I'll make a note to double-check on that in the morning then.

**Victoria Bauer** [03:31]

When UPS rolls. Okay then. All right. Thanks.

**ADM** [03:33]

Sounds good.

**ADM** [03:35]

Thanks. Bye.

## Inbound call from ANATRA ROBERT

April 29, 2026 | 08:25 PM | Duration: 5m 23s | From: ANATRA ROBERT | To: +14025942042

Inbound

Positive

### AI SUMMARY

In the conversation, Rob (Customer) reached out to Brandon (Sales rep) for help with shipping parts to Transpect Leasing in Denver, as there was an issue with the vendor Welch.

### FULL TRANSCRIPT

**ANATRA ROBERT** [00:00]

This call is being recorded.

**Brandon Williams** [00:05]

This Brandon.

**ANATRA ROBERT** [00:07]

Hey, Brandon, it's Rob. How are you?

**Brandon Williams** [00:09]

Good, how about you?

**ANATRA ROBERT** [00:11]

Well, I'm going to need your help, and I'm going to authorize you to ship some parts into Denver for TSL.

**Brandon Williams** [00:20]

TSL? Transpect?

**ANATRA ROBERT** [00:21]

Yep, Transpect Leasing. Well, apparently, Jim Casanes, who is Teresa Taylor's husband, is working at TSL

**Brandon Williams** [00:23]

I didn't know they had a Denver.

**ANATRA ROBERT** [00:36]

And he went to buy a valve at Welch, and they wouldn't sell it to him.

**ANATRA ROBERT** [00:41]

And TSL in Denver does not like Welch, so the man is in a bind. So you'll have to call Brandon Meyer, I guess, and get a PO for it.

**ANATRA ROBERT** [00:56]

But I'm going to tell James White...

**ANATRA ROBERT** [01:01]

TO SHIP IT INTO DENVER. AND THIS IS A NEXT DAY ORDER. THE PART NUMBER IS 2797.

**Brandon Williams** [01:09]

Hold on.

**ANATRA ROBERT** [01:10]

YOU WANT ME TO

**Brandon Williams** [01:10]

I'm riding with Jeff back to Omaha right now.

**ANATRA ROBERT** [01:15]

-- OKAY, YOU WANT ME TO E-MAIL IT TO YOU? OKAY,

**Brandon Williams** [01:17]

Yeah, yeah, go ahead and email.

**Brandon Williams** [01:19]

So what do you need, a PO from me?

**ANATRA ROBERT** [01:19]

I'LL E-MAIL IT TO YOU RIGHT NOW.

**ANATRA ROBERT** [01:23]

Yeah, basically, I need your PO, and Brandon should

**ANATRA ROBERT** [01:33]

cut you a PO, and I'm going to tell James White to ship the part directly to the customer. But I'll send you an email on it right now.

**Brandon Williams** [01:45]

How come Welch doesn't want to sell parts?

**ANATRA ROBERT** [01:49]

You know what? I have no idea. But then again, I can only listen to – I can only take about 50 percent of the conversation that I have with Jim Costanis as valid.

**Brandon Williams** [02:01]

Ah, gotcha.

**ANATRA ROBERT** [02:02]

But I could probably understand why TSO in Denver doesn't want to deal with Welch

**ANATRA ROBERT** [02:09]

because of some of the issues that I've had with them here in the last six months.

**Brandon Williams** [02:14]

Gotcha.

**ANATRA ROBERT** [02:16]

You got to be customer friendly. You know what I'm saying?

**Brandon Williams** [02:19]

I do exactly,

**ANATRA ROBERT** [02:22]

I'm going to shoot you an email right now and I'm told, in fact, let me just double check. I'm sitting in the airport in Nashville trying to catch up before I head to Vegas for the ACT show.

**ANATRA ROBERT** [02:38]

Yeah, we're showing two of those on hand in Philadelphia, so filling the order should not be a problem.

**Brandon Williams** [02:49]

yep. Okay.

**ANATRA ROBERT** [02:56]

Just to

**ANATRA ROBERT** [02:59]

make sure my DOC guys are 2797278.

**ANATRA ROBERT** [03:05]

Okay, I'm gonna shoot you an email right now,

**ANATRA ROBERT** [03:13]

buddy. And we get the order and get it next day.

**Brandon Williams** [03:13]

Um,

**ANATRA ROBERT** [03:15]

Unless you want to give me your PO, and I'll tell James and Adam to put the order in on your PO.

**Brandon Williams** [03:24]

yeah, it'd be a minute. I'd have to pull my computer out and VPN in, but I can surely log in and do it remote here.

**ANATRA ROBERT** [03:32]

Okay. Yeah, no worries. I'll send the email right now.

**Brandon Williams** [03:34]

You got, you got part number on there? I'm, uh, I wonder if I got it in stock somewhere, too.

**ANATRA ROBERT** [03:38]

2797.

**ANATRA ROBERT** [03:42]

2797. 2797. 2797. It's a VG80 valve. And I know we have two in Philly. I'll just check.

**Brandon Williams** [03:51]

2797, what's the rest?

**ANATRA ROBERT** [03:54]

278.

**Brandon Williams** [04:00]

So you'll have a TSL address and all that out there in Denver.

**ANATRA ROBERT** [04:05]

Yep, coming to you right now.

**Brandon Williams** [04:08]

And who'd you say that guy's name was, Jim?

**ANATRA ROBERT** [04:10]

Jim Casanas, K-T-A-N-S-E-S.

**Brandon Williams** [04:21]

He's married to Teresa Taylor.

**ANATRA ROBERT** [04:25]

He is.

**Brandon Williams** [04:26]

Ah.

**ANATRA ROBERT** [04:27]

He used to be the chef at the lodge.

**Brandon Williams** [04:41]

But yeah, I don't have a problem doing that.

**ANATRA ROBERT** [04:44]

Okay, email's coming to you right now. Appreciate you.

**Brandon Williams** [04:47]

All right. Yep, no problem. I'll get logged in.

**ANATRA ROBERT** [04:49]

Thank you, Mike.

**Brandon Williams** [04:52]

Thanks, Rob.

**ANATRA ROBERT** [04:53]

Yes, sir.

### AI SUMMARY

During the call, Steel Merrill sought clarification on a quote for a tailor, specifically its validity and requested updates.

### FULL TRANSCRIPT

**STEEL MERRILL** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

Ryan and Kuhlman, Jesse in Parts.

**STEEL MERRILL** [00:06]

Hey, Jesse, it's Mike down at Merrill.

**Jesse Downey** [00:09]

Hey, how's it going?

**STEEL MERRILL** [00:10]

Not too bad. Hey, I called and talked to Mike earlier about this quote that we had for the tailor.

**Jesse Downey** [00:14]

Yeah, for the mask.

**STEEL MERRILL** [00:18]

Yeah, can I get a, this one says it's only valid to 320. Can I get an updated one or is this one still good?

**Jesse Downey** [00:27]

Do you still have that in your email by chance?

**STEEL MERRILL** [00:31]

I do not have it in the email. Oh, my email or

**STEEL MERRILL** [00:36]

you're talking this quote.

**Jesse Downey** [00:37]

Yeah.

**Jesse Downey** [00:39]

The quote, let me see if I can't remember how I sent it to you. Oh, never mind, I do have an internal quote I sent you. So I will...

**STEEL MERRILL** [00:46]

Yeah, I got the quotation ID number if that helps.

**Jesse Downey** [00:50]

I actually got that. I just pulled it up. Yes, I will go through this and verify all the pricing and then resend it back out to you.

**STEEL MERRILL** [00:53]

Oh, okay.

**STEEL MERRILL** [00:59]

That'd be awesome.

**STEEL MERRILL** [01:02]

All right, I sure appreciate it, man. Thank you very much.

**Jesse Downey** [01:04]

You're welcome. Have a good day.

**STEEL MERRILL** [01:05]

Yep. You have a good day too, buddy. Bye.

**Jesse Downey** [01:07]

All right. Bye-bye.

## Inbound call from WIRELESS CALLER

### AI SUMMARY

The conversation involved Derrick Dea (Parts, Organization) assisting a caller with placing a service call for GOP and ordering multiple parts, with a request for quick delivery.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:04]

Parts, Derrick.

**Derrick Dea** [00:06]

Yes.

**WIRELESS CALLER** [00:08]

So as we speak, Jody is opening a service call for GOP.

**Derrick Dea** [00:13]

GOP.

**WIRELESS CALLER** [00:15]

Yep, I'm going to have four part numbers. I would like to have them for tomorrow if possible.

**Derrick Dea** [00:17]

Okay.

**WIRELESS CALLER** [00:23]

First one is 514-24-902

**Derrick Dea** [00:28]

How many? Okay. Okay. Okay.

**WIRELESS CALLER** [00:31]

for one. Next one is 514-24-903 for one.

**WIRELESS CALLER** [00:39]

Next number is 516-01350 for 1,

**WIRELESS CALLER** [00:45]

and a 516-21021 for 1.

**Derrick Dea** [00:50]

Okay. Yep. Bye.

**WIRELESS CALLER** [00:54]

All righty.

**WIRELESS CALLER** [00:57]

Thank you, sir. See ya.

## Inbound call from OMAHA NE

April 29, 2026 | 07:53 PM | Duration: 5m 6s | From: OMAHA NE | To: +13098657202

Inbound

Neutral

### AI SUMMARY

The conversation began with Jesse Downey (Parts Representative, Rion Equipment) addressing an issue regarding Purchase Orders not being processed properly due to the absence of Monica, who usually handles them.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

Rion Equipment, Jesse in Parts.

**Jesse Downey** [00:09]

Hey, how's it going,

**OMAHA NE** [00:11]

Hey, doing good.

**Jesse Downey** [00:13]

Nick? Good. So Monica handles a third party buyer POs. Do you know Monica? She's currently out. So I have not been getting any POs. So I reached out to someone in credit.

**OMAHA NE** [00:22]

Yes.

**Jesse Downey** [00:33]

To get my POs directly from them. So I think what needs to happen is they need to change the email address so someone else gets notified so they can send those POs out to all our customers.

**OMAHA NE** [00:48]

Yes. So where are they currently going?

**Jesse Downey** [00:51]

To Monica, and she's out on...yep.

**OMAHA NE** [00:53]

To Monica. She's going. All right. What company are we talking or what customer?

**Jesse Downey** [01:01]

Well, multiple use it, but the current issue is ADM is the big one, obviously.

**OMAHA NE** [01:03]

Are they?

**OMAHA NE** [01:07]

ADM.

**Jesse Downey** [01:09]

Yeah, they call me like, "Where are these parts at?" I'm like, "I haven't got a PO. We sent a PO two days ago." Oh, \*\*\*\*. Let me look.

**OMAHA NE** [01:18]

OK. All

**OMAHA NE** [01:23]

right. Let me do some digging on it.

**OMAHA NE** [01:28]

I would, if you have emails that went out to Monica already, I would forward those over to Kim DeSim.

**Jesse Downey** [01:40]

Yeah, I was gonna call her, but it looks like she's out.

**OMAHA NE** [01:41]

And Kim, maybe I'll...

**OMAHA NE** [01:44]

She's out? Okay. All

**Jesse Downey** [01:45]

Yep, that was the one I called her first.

**OMAHA NE** [01:48]

right. Yeah, Georgine is the other one. She's been taking over a lot of Monica's accounts, but anyhow...

**OMAHA NE** [02:05]

I'm on the road till probably about 4:30 today.

**Jesse Downey** [02:06]

Yeah.

**OMAHA NE** [02:11]

So I won't be till late tonight that I start working on it. Just

**Jesse Downey** [02:17]

No worries.

**OMAHA NE** [02:17]

giving you a heads up there.

**Jesse Downey** [02:19]

No worries. Unless there's someone else that you think I can contact to get this handled. I mean, I've talked to Georgina. She doesn't really know how.

**Jesse Downey** [02:26]

Kim's out. Jeff's out.

**Jesse Downey** [02:33]

So I

**OMAHA NE** [02:33]

Yeah, what portal are

**Jesse Downey** [02:36]

think

**OMAHA NE** [02:37]

they using? Is it Ariba?

**Jesse Downey** [02:38]

it's-- I think it's

**Jesse Downey** [02:41]

Koopa possibly. Yeah.

**OMAHA NE** [02:43]

COOPA? COOPA? OK. All right. I'll give Mike Moore a call.

**OMAHA NE** [02:50]

And Mike

**OMAHA NE** [02:54]

handles a lot of that stuff just on the Ryan equipment side. But he may be able to access COOPA and get access to that.

**Jesse Downey** [03:04]

Email and change that.

**OMAHA NE** [03:06]

Well, so the email is set up to who?

**OMAHA NE** [03:12]

TO MONICA RIGHT NOW, CORRECT?

**Jesse Downey** [03:14]

Correct. And it only allows one email.

**OMAHA NE** [03:15]

YEAH, AND THAT'S

**OMAHA NE** [03:18]

-- YES, YEAH. SO IT HAS TO BE ACCOUNTS RECEIVABLE. NOW, IT SHOULD BE PROBABLY A GROUP E-MAIL.

YEAH, YEAH, IF IT'S

**Jesse Downey** [03:27]

I'm just going to suggest that. This is not good to have one person.

**OMAHA NE** [03:33]

-- YEAH, YEAH.

**OMAHA NE** [03:38]

But I'll have at least Mike Morgan, if he can get access to CUPA, he may be able to

**OMAHA NE** [03:49]

look at getting that changed. But it has to be a group email, and it needs to be accounts receivable employees only, just because there's so many customers tied to those third-party vendors.

**Jesse Downey** [04:05]

Oh, gotcha.

**OMAHA NE** [04:05]

Yeah, we can't go

**OMAHA NE** [04:10]

to individual, you know, like within business units and all that because the accountability should be on CABRS

**OMAHA NE** [04:18]

and that department to distribute those.

**OMAHA NE** [04:23]

So, you know, if there's a breakdown, then that department needs to fix that deficiency.

**Jesse Downey** [04:28]

And I definitely need to.

**OMAHA NE** [04:31]

So, sure. Yep. Yep.

**OMAHA NE** [04:34]

Okay. Yeah, let me get on the phone with Mike and see if I can get some answers here for you. All right. Thanks for reaching out, Jesse. All right. Yeah, thanks. Appreciate it. Talk to you later.

**Jesse Downey** [04:40]  
Alrighty. Thank you.

**Jesse Downey** [04:44]  
No problem. Have a good drive.

**Jesse Downey** [04:47]  
Bye.

CALL 263 OF 611

**Inbound call from WIRELESS CALLER**

April 29, 2026 | 07:49 PM | Duration: 1m 16s | From: WIRELESS CALLER | To: +14025942063

**Inbound** **Positive**

**AI SUMMARY**

Jodi (Ryan Equipment Omaha) assisted a wireless caller in arranging a service call for replacement covers at GOP and Mercon Hilltop, confirming the details before ending the call amicably.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Jodi Nickell** [00:03]  
Ryan Equipment Omaha, this is Jodi. How may I help you?

**WIRELESS CALLER** [00:07]  
Did you know this call is being recorded?

**Jodi Nickell** [00:08]  
I had an idea. No? Yeah, I did.

**WIRELESS CALLER** [00:11]  
Did you? So, I need a, let's see, what the

**WIRELESS CALLER** [00:24]  
I need a service call for,

**WIRELESS CALLER** [00:29]  
\*\*\*\*, they're both, \*\*\*\* it, 98.

**WIRELESS CALLER** [00:35]  
340, 660 for replace covers. That's at GOP.

**Jodi Nickell** [00:43]  
Like, just covers?

**Jodi Nickell** [00:48]  
Is that everything?

**WIRELESS CALLER** [00:50]  
And I will be at Mercon Hilltop and GOP tomorrow.

**Jodi Nickell** [00:55]  
Awesome. That sounds amazing.

**WIRELESS CALLER** [00:56]  
How's that sound?

**WIRELESS CALLER** [00:59]  
Me too.

**Jodi Nickell** [01:00]  
All right. Well, have a good night, Tim. Bye.

CALL 264 OF 611

**Inbound call from CEDAR RAPIDS IA**

April 29, 2026 | 07:39 PM | Duration: 2m 44s | From: CEDAR RAPIDS IA | To: +13098657202

**Inbound** **Positive**

**AI SUMMARY**

The conversation between Mike Neal (Supplier) and Jesse Downey (Parts Rep) focused on issues surrounding Purchase Orders and notification processes.

**FULL TRANSCRIPT**

**CEDAR RAPIDS IA** [00:00]  
This call is being recorded.

**Jesse Downey** [00:04]  
All right, I'm coming to Jesse and Parts.

**CEDAR RAPIDS IA** [00:06]  
Hey, Jesse, Mike Neal at ADM. How's it going,

**Jesse Downey** [00:09]  
That's going all right. So I just issue we're having with the POs here.

**CEDAR RAPIDS IA** [00:12]  
buddy? Yeah, so I'm going to pull you up right now while we're talking, and I'm going to tell you who gets notified. I'm not going to write a PO and then wait for it to get approved and send it to you every time. The way that it works is whoever's on NMC's, which looks like it's Monica Hatcher,

**Jesse Downey** [00:33]  
Yep, that's usually who sends me those.

**CEDAR RAPIDS IA** [00:36]  
Yep. So Monica Hatcher gets confirmation when a PO is approved and an MC receives it. So she is the one that needs to get it to, you know what I mean?

**Jesse Downey** [00:52]  
Yeah, so there's some kind of issue going on there. So I'm reaching out to someone above just to get this sorted. I thought there was an easy way you could get me added to the email, but it's not an easy way to do that, is there?

**CEDAR RAPIDS IA** [01:04]  
I tried with it yesterday because I got another contractor the same way, and this is how they...

**CEDAR RAPIDS IA** [01:11]

I figured it out on how you need to do it. You need to become, you need to make a group email, whether it's invoices from ADM at nmc.com or whatever, and make that your notification email through Coupa and put you and Monica and whoever else that needs to be notified, and then it'll send out, you know what I mean? You can only put one notified email from

**CEDAR RAPIDS IA** [01:34]

Link to CUPA, so I can't just add you. I was hoping I could because it would make life much easier.

**Jesse Downey** [01:40]

Gotcha. It wasn't because I had the same problem with Lucas. He had some parts that he was waiting on. Anyways, I am trying to process this last order. R2 needs right away if my machine is down.

**CEDAR RAPIDS IA** [01:41]

Yeah.

**CEDAR RAPIDS IA** [01:48]

So,

**CEDAR RAPIDS IA** [01:51]

okay. So, I've got parts for alcohol, shuttle wagon, 877, 63,

**CEDAR RAPIDS IA** [01:58]

I've got four different lines on this one PO. Def filters, break parts, all that \*\*\*\*. Yep, yep,

**Jesse Downey** [02:07]

Yeah. I noticed line one says Rex comb. Might have put me just the wrong description in.

**CEDAR RAPIDS IA** [02:11]

yep. I write a lot of POs, buddy.

**Jesse Downey** [02:13]

But that's why I understand that. That's why I didn't really mention the mountain of match.

**CEDAR RAPIDS IA** [02:18]

Yep. Can I mic? Yeah, and at least it was to the right vendor. At least it wasn't paid direct, Phil. Yeah.

**Jesse Downey** [02:25]

So, yep. Alrighty.

**CEDAR RAPIDS IA** [02:26]

Yep, so you have the PO. You see all four of my lines and it should be good. Beautiful. Appreciate it, buddy.

**Jesse Downey** [02:29]

Yes, sir. Yes,

**Jesse Downey** [02:33]

sir. Thank you.

**CEDAR RAPIDS IA** [02:34]

Yep, thank you. Bye.

AI SUMMARY

Joe Hurley (Customer) reached out regarding his reservation for a truck, asking Chad Metzger (Representative, Rion Equipment) for pictures of the unit to confirm the right vehicle for pickup.

FULL TRANSCRIPT

HURLEY JOE [00:00]

This call is being recorded.

Chad Metzger [00:04]

Rion Equipment, this is Danny.

HURLEY JOE [00:06]

Danny Hayes, I was calling about a reservation I got for tomorrow, seeing if someone can maybe text me some pictures of this unit so I know which truck I need to bring for tomorrow.

Chad Metzger [00:21]

Hang on here.

HURLEY JOE [00:22]

I got a reservation number and some other stuff.

Chad Metzger [00:25]

Yep, I'm going to get back to the computer here.

HURLEY JOE [00:39]

Okay.

Chad Metzger [00:49]

Okay.

Chad Metzger [01:06]

It's loading thing on here.

HURLEY JOE [01:07]

I

**Chad Metzger** [01:12]

All right, what's the number you got?

**HURLEY JOE** [01:15]

have looks like reservations number is RRE 053 187.

**Chad Metzger** [01:49]

Reservation. No one of our contracts is not there, so let me try this one here.

**HURLEY JOE** [01:52]

As I say, maybe it's on rent. Looks like it does have an equipment number.

**HURLEY JOE** [01:57]

It says ID, EQN,

**HURLEY JOE** [02:00]

and it's got 183.

**Chad Metzger** [02:01]

The 30,000 pound unit.

**HURLEY JOE** [02:04]

Yeah, the 30,000 pounder. Looks like Kenny set it up.

**Chad Metzger** [02:21]

What's that equipment number you got on it?

**HURLEY JOE** [02:22]

It is equipment number 183453.

**Chad Metzger** [02:36]

Yep, I got it here. Is this your...

**HURLEY JOE** [02:39]

You think you could, this is my cell, you think you could send me pictures of what that unit looks like so I know what truck to send?

**Chad Metzger** [02:49]

Yeah, yep, I can. Typically in RGN.

**HURLEY JOE** [02:53]

Okay, yeah, that's what I figured. So, all right, still send me pictures if you don't mind. I just want to make sure.

**Chad Metzger** [02:57]

And then we may have to...

**Chad Metzger** [03:03]

Yep, I'll send a message to my yard coordinator and have him go out there and send me a couple pictures.

**HURLEY JOE** [03:08]

Okay, you want my phone number? My phone is not going to be under Kenny. They just go to Kenny. He's just the guy that set it up.

**Chad Metzger** [03:10]

I'm

**Chad Metzger** [03:17]

showing you calling from 531-389-1726.

**HURLEY JOE** [03:21]

7. Yes, sir.

**Chad Metzger** [03:24]

Okay. I got it here. I'll shoot it over to you.

**HURLEY JOE** [03:25]

All right. I appreciate it.

**HURLEY JOE** [03:28]

All right. Thank you. Yep. Bye-bye.

**AI SUMMARY**

The conversation revolved around Archie (Customer) checking on brake parts and POs, with Jesse (Parts representative) indicating no updates since their last discussion.

**FULL TRANSCRIPT**

**FAULKNER ARCHIE** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

Rion Equipment, Jesse and Parts.

**FAULKNER ARCHIE** [00:06]

Hey, Jesse, how's your day going?

**Jesse Downey** [00:08]

That's all right, how about you?

**FAULKNER ARCHIE** [00:10]

Oh, it's what, the third Monday of the week?

**Jesse Downey** [00:13]

That it is.

**FAULKNER ARCHIE** [00:16]

Have you heard anything on the brake parts or any of the stuff, or did you still not get a PO?

**Jesse Downey** [00:23]

I haven't got any new PO since last week I talked to you.

**FAULKNER ARCHIE** [00:33]

Wow.

**Jesse Downey** [00:34]

So I think all I got okay was a TPMS and I sent that one part and then there was another PO I think I was sent out.

**Jesse Downey** [00:45]

Let's see which one that was. I'll verify that we... I emailed him directly asking him to send the POs to me directly, just in case they're not getting caught between a third party buyer. So let's see which one's...

**Jesse Downey** [01:08]

Yeah, the last four you sent me, I've sent it, I've not got anything. The dev filter, the water valve, the \*\*\*\*, and the brake parts.

**FAULKNER ARCHIE** [01:23]

Great. Okay, well, I'll let him know that's why his shuttle wagon is sitting here.

**Jesse Downey** [01:24]

Still waiting on them. Yep.

**Jesse Downey** [01:31]

Okie dokie. Now, you're welcome, R.T.

**FAULKNER ARCHIE** [01:33]

All right, thanks.

**FAULKNER ARCHIE** [01:35]

See you, bye.

### AI SUMMARY

In a brief conversation, Jodi Nickell (Equipment, OMAHA) updated Randy about the expected arrival of parts for his equipment, while Randy expressed the urgency of needing a rental forklift to mitigate their operational challenges.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion, Equipment, OMAHA. This is Jodi. How may I help you?

**OMAHA NE** [00:06]

Hey there, Jodi. This is Randy. I just missed a call from you.

**Jodi Nickell** [00:08]

Hey. Yep. I'm actually just sending you an email to... It basically just kind of says your parts should be... They're expected to be here tomorrow. As far as the completion date, I don't know because we're not sure if that's going to fully address your loss of power. So...

**OMAHA NE** [00:21]

Okay.

**OMAHA NE** [00:27]

Sure. Sure, sure. Yeah. Okay. Yeah. We did speak with Danny and so we are getting a rental forklift for us. So yeah, we need it really bad. Okay. Fantastic. So I'll look out for that email then.

**Jodi Nickell** [00:35]

Oh, okay,

**Jodi Nickell** [00:39]

good. Right. Okay.

**Jodi Nickell** [00:44]

All right. Thank you. Bye.

OMAHA NE [00:46]

Thanks. Bye-bye.

## AI SUMMARY

During the call, Jason (Caller) raised concerns about a missing filter part number, while Adam (Support rep) provided insights on its order history and inventory issues.

## FULL TRANSCRIPT

JASON HICKS [00:00]

This call is being recorded.

Adam Henderson [00:09]

Hello. Yeah.

JASON HICKS [00:10]

Question. Got a part number here. It's not on any of my work orders.

JASON HICKS [00:16]

It's a filter.

Adam Henderson [00:17]

What number is it? What number is it?

JASON HICKS [00:25]

It's A000060932.

Adam Henderson [00:40]

Okay, looks like...

Adam Henderson [00:57]

Now I see where it was put on the work order, er, on a sales order, but I'm waiting for it to load.

JASON HICKS [01:05]

All right. And then did he tell you that he gave me too much oil? So the inventory's off.

Adam Henderson [01:09]

Yeah.

Adam Henderson [01:12]

Yep.

Adam Henderson [01:17]

Well, last time I see that build out is parts policy. Is there a sticker on that filter?

JASON HICKS [01:27]

Like,

Adam Henderson [01:28]

One of our white labels with an SL number on it.

**JASON HICKS** [01:36]

no.

**Adam Henderson** [01:38]

Okay. Well, we don't show any on hand. The last time it was billed was 417 to a parts policy.

**Adam Henderson** [01:56]

So I have no idea.

**JASON HICKS** [01:57]

That's not the same one for the transmission filter on this, is it?

**Adam Henderson** [02:01]

Is that the Toyota?

**JASON HICKS** [02:03]

No, it's the gale.

**Adam Henderson** [02:08]

Oh, I wouldn't

**Adam Henderson** [02:11]

think so.

**Adam Henderson** [02:14]

Because I don't see... It looks to me like that last time we ever used that. Was it

**Adam Henderson** [02:23]

Marshalltown? Oh, yeah, that's where it belongs. So that goes to Kyle and not to that file.

**Adam Henderson** [02:35]

That belongs to Kyle for Terra Marshalltown.

**JASON HICKS** [02:40]

All right. Sounds good.

**Adam Henderson** [02:43]

All right. Thanks.

## Inbound call from Rion Omaha Service - OMAHA NE

April 29, 2026 | 07:11 PM | Duration: 11m 17s | From: Rion Omaha Service - OMAHA NE | To: +14027345438

**Inbound**

**Neutral**

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Ryan Equipment, this is Danny.

**OMAHA NE** [00:06]

Hi, Danny. This is Randy at GO2 Countertops. Hey, listen, we have a forklift there at your place being repaired, and we're kind of in desperate need of a forklift for our countertop fabricating. Can you maybe give me some pricing on

**OMAHA NE** [00:29]

what you guys have?

**Chad Metzger** [00:30]

Yeah.

**Chad Metzger** [00:34]

Just a second here. All right. Here we go. How long are you thinking you need it and what capacity?

**OMAHA NE** [00:42]

How much can we pick up can be?

**OMAHA NE** [00:51]

Right. So... Forty-five hundred pounds. Forty-five hundred pounds. And that we have... And we're thinking probably we'd only need it till maybe about Monday or Tuesday. When you bring us... Right, because you guys have our... our repairs.

**Chad Metzger** [01:07]

They're repairing it. Okay, so they're repairing it here in the shop.

**OMAHA NE** [01:11]

Correct, yes.

**Chad Metzger** [01:13]

Let's see. So let me see what I have available here before. So it would probably be a 5,000-pound unit is what would work for you. Do you need LP or diesel?

**OMAHA NE** [01:17]

Right, the price.

**OMAHA NE** [01:30]

Okay. Yeah, diesel on...

**Chad Metzger** [01:30]

What did you guys have before?

**OMAHA NE** [01:33]

We have a battery-powered one. Diesel, gas you don't know because you don't actually use it.

**Chad Metzger** [01:36]

Oh, yeah.

**OMAHA NE** [01:41]

So probably like the...

**OMAHA NE** [01:43]

Battery on... battery on...diesel.

**Chad Metzger** [01:46]

I know I have LP. It'll come with an LP tank.

**OMAHA NE** [01:53]

Diesel. Okay.

**OMAHA NE** [01:55]

Okay. Would you give us an extra water?

**Chad Metzger** [01:59]

No,

**OMAHA NE** [02:00]

Yeah, would we need like an additional one if we had it for those days? Just probably about one, two, three, maybe four days? Okay.

**Chad Metzger** [02:07]

it's probably good.

**Chad Metzger** [02:13]

If not, you'll just have to get it refilled.

**Chad Metzger** [02:19]

The tank. Okay, so I have a 5,000-pound unit here.

**Chad Metzger** [02:27]

Let me make sure it's available. So 5,000-pound runs for the daily 236,

**Chad Metzger** [02:36]

for weekly 529, for monthly 1504.

**OMAHA NE** [02:45]

Let's do weekly to begin with it. Okay. If we were to do the weekly, how soon can we get the unit out here?

**Chad Metzger** [02:54]

Let's see what time is it. It's 2 o'clock. It'd be pretty tight to get it there today. I could probably get it out there tomorrow.

**OMAHA NE** [03:03]

Okay, that might work. Is there any additional charge for delivery or anything?

**Chad Metzger** [03:07]

Yep. Yep. Yeah, where are you located at?

**OMAHA NE** [03:12]

We're in Lubista, off of 120th and Giles.

**Chad Metzger** [03:18]

So let's see. Less than 20 miles. You are looking at 150 each way.

**OMAHA NE** [03:26]

Would

**Chad Metzger** [03:27]

Unless you're able to pick it up.

**OMAHA NE** [03:33]

we be charged twice because since you're going to have to bring back our unit, would we be charged twice for the delivery? Or is it just a one-time charge, delivery fee?

**Chad Metzger** [03:45]

So we don't have our own trucking. Technically, we do, but we don't. It's part of our sister company, NMC.

**Chad Metzger** [03:55]

So they run the dispatch portion.

**Chad Metzger** [03:59]

So it would be \$150 for them to pick it up here and then \$150 to bring it

**OMAHA NE** [04:06]

But there'll be one less trip right for them? Wouldn't that be considered one less trip for you guys just because you're picking it up? Would it be the same company picking it up as well?

**Chad Metzger** [04:13]

back.

**Chad Metzger** [04:20]

Yeah. Hang on here. No, I got you.

**OMAHA NE** [04:21]

Delivering?

**OMAHA NE** [04:25]

It's just that we've spent a lot of money already with you guys and we're just trying to figure out what's the best option.

**Chad Metzger** [04:37]

Let me just let me take a look at this here real quick. See if I can pull your list that they're doing right now.

**Chad Metzger** [04:45]

I don't handle this every day. Like Chad, you probably talked to him. He's our rental coordinator, but he's out today. So I know just enough to help to get by.

**OMAHA NE** [04:53]

OK. Oh, I see. Yeah, I

**OMAHA NE** [04:58]

don't... Nice.

**Chad Metzger** [05:01]

All right, so...

**Chad Metzger** [05:10]

Yeah,

**Chad Metzger** [05:13]

that's fine. I can do 150 there and then

**Chad Metzger** [05:18]

not charge for the... So, returning back.

**OMAHA NE** [05:24]

And for the weekly, is that the best price that you can give us for the 529?

**Chad Metzger** [05:34]

For the 513.

**OMAHA NE** [05:38]

Oh, 513. Sorry.

**Chad Metzger** [05:39]

It would be

**OMAHA NE** [05:41]

Okay, yeah, if we can get it tomorrow, that would be great. Oh,

**OMAHA NE** [05:51]

do they, oh. Oh, weekly means same time next week. For the full week,

**OMAHA NE** [05:57]

yes. That's okay. Okay, yeah, what time do you think you could deliver that to us tomorrow?

**Chad Metzger** [05:59]

in the morning if I do it now here. Let me pull you up here and get your customer put up here.

**Chad Metzger** [06:12]

And then... Okay, what's the name of the company again?

**OMAHA NE** [06:21]

It's called our granite-o-corks, LLC.

**Chad Metzger** [06:32]

Gotcha. 1-2-3-0-5, Cary Circle.

**OMAHA NE** [06:35]

Yes, that's correct.

**Chad Metzger** [06:37]

0-3-7...

**Chad Metzger** [06:41]

Sorry, I'm talking out loud here.

**OMAHA NE** [06:44]

That's

**Chad Metzger** [06:46]

All right. Let me make sure I got an email for you because I'll send you the DocuSign with the contract.

**Chad Metzger** [07:01]

I'm showing the contact of Randy Smith.

**OMAHA NE** [07:05]

okay.

**Chad Metzger** [07:06]

And it looks like the email address is sales at GOQCountertops.

**OMAHA NE** [07:13]

Yes. Yep, that's correct.

**Chad Metzger** [07:15]

And

**OMAHA NE** [07:16]

GOQCountertops.com.

**Chad Metzger** [07:19]

phone number is 402-926-9069.

**OMAHA NE** [07:29]

960. 960-0432.

**Chad Metzger** [07:36]

What was it again?

**OMAHA NE** [07:40]

So my phone number is 402-960-0432. And the other number is Pradeep Gupta. He's the owner.

**Chad Metzger** [07:52]

Oh, okay. I will put your, do you want me to put your number in there then? So that way they'll contact you and figure out where to drop it off or whatnot.

**OMAHA NE** [07:57]

Yeah, that would be

**OMAHA NE** [08:04]

great. Yep, that would be great.

**Chad Metzger** [08:05]

And you guys have a loading dock?

**OMAHA NE** [08:08]

We do have two big bay doors, one in the front and one in the back.

**Chad Metzger** [08:14]

Okay.

**OMAHA NE** [08:15]

Just kind of reloading on our bay.

**Chad Metzger** [08:19]

OK, no, that's fine. I just didn't know. Basically, just asking whether you need a ground delivery or if they can do a flatbed and roll right up next to

**OMAHA NE** [08:26]

No, it'd be a ground delivery.

**Chad Metzger** [08:28]

the dock. All right. It's not a problem.

**OMAHA NE** [08:32]

Okay, cool.

**Chad Metzger** [08:34]

All right. I will get this going and I will get it sent over to you.

**OMAHA NE** [08:39]

Awesome. Thank you so much, Danny. I appreciate your help.

**Chad Metzger** [08:40]

Not a problem. Thank you.

**OMAHA NE** [08:43]

Thanks. Bye-bye.

CALL 271 OF 611

# Inbound call from POMPS TIRE SERV

April 29, 2026 | 07:06 PM | Duration: 3m 19s | From: POMPS TIRE SERV | To: +18162877012

Inbound

Neutral

## AI SUMMARY

In the conversation, Jeremy (Tire Service Representative) informed Philip Roseboro about the tire availability, stating that while he can obtain them, they won't arrive until July 2nd.

## FULL TRANSCRIPT

**POMPS TIRE SERV** [00:00]

This call is being recorded.

**Philip Roseboro** [00:03]

Rion Equipment Parts, this is Phil, how can I help you?

**POMPS TIRE SERV** [00:06]

Hey, Phil, Jeremy, I'm on tire service. No, not too bad, buddy. Okay, finally got an answer on your tires there. There's good news, there's bad news. I can get my hands on them. Unfortunately, there's no ETA. Well, there's an ETA of July 2nd before they're in the United States and can ship to us.

**Philip Roseboro** [00:07]

Hey, how you doing?

**Philip Roseboro** [00:12]

Okay.

**Philip Roseboro** [00:18]

Okay.

**Philip Roseboro** [00:28]

Wow.

**POMPS TIRE SERV** [00:29]

Obviously, you're probably needing them sooner than that.

**Philip Roseboro** [00:33]

As far as I know, yes.

**POMPS TIRE SERV** [00:37]

Okay, okay. I can check some other sources too. With Trailboard, the company that does most of those polys, they're \$10.90 a piece.

**Philip Roseboro** [00:51]

1090, okay.

**POMPS TIRE SERV** [00:52]

Yep, so \$1,090 a piece. So...

**POMPS TIRE SERV** [00:57]

But let me do some more, reach out to a few more companies here real quick, and I will definitely get back with you on it and see if there's something available sooner.

**Philip Roseboro** [01:04]

Perfect. And can you also check another size? Pretty much the same. This is for the same unit, it's just a smaller for a steer tire. It's a 22 by 9 by 16.

**POMPS TIRE SERV** [01:12]

Yep, yep, what you got?

**POMPS TIRE SERV** [01:19]

You're in a steel mill with those bad boys, aren't you? So what I'm doing is I've got a steel mill that I do mine on, too.

**Philip Roseboro** [01:23]

Okay.

**POMPS TIRE SERV** [01:31]

So, but yeah, let me see here what I can do. Are they dead set on that poly or are they wanting rubber? Does it matter? I mean, rubber would change things for sure.

**Philip Roseboro** [01:40]

I think it would. I know the unit itself got shipped from the manufacturer with polys on it. I know, I believe,

**POMPS TIRE SERV** [01:49]

So it was probably ordered like that then,

**Philip Roseboro** [01:52]

well, and, but I mean, if we can get pricing for both, I just believe that the rubber is just going to get chewed up like no other.

**POMPS TIRE SERV** [02:00]

yeah. Right, right, okay, okay.

**Philip Roseboro** [02:01]

So I think the poly is going to stay stronger and stay longer but I mean right now they're just looking at I mean I think the last time we did steer tires on this thing was like two years ago so I mean two years to go that far but I think rubber will probably last probably about four or five months.

**POMPS TIRE SERV** [02:14]

Right, yeah.

**POMPS TIRE SERV** [02:19]

Right, exactly, yeah. So, yeah, let me do some more and I will get back with you,

**Philip Roseboro** [02:23]

Sounds good. Yeah, and I mean, you can quote out both versions. I mean, that's fine. Just let me know and we'll present them and let them know because I know

**Philip Roseboro** [02:33]

if they want to do rubber, we'll put them on, but I'm not going to guarantee how long they last.

**POMPS TIRE SERV** [02:35]

buddy. Well, seeing that 93 drurometer, that's a pretty...

**POMPS TIRE SERV** [02:41]

Pretty hard compound. So that's, I mean, I think they probably ordered them like that to achieve what they have with it. So, but, but yeah, let me see what all I can come up with and I will let you know, sir. Hey, thank you. Bye-bye.

**Philip Roseboro** [02:52]

I appreciate it.

**Philip Roseboro** [02:54]

All right, thank you. Bye.

CALL 272 OF 611

### Inbound call from Rion Gillette Parts - FOSSUM ROBERT

#### AI SUMMARY

In a friendly exchange, Robert from Amex called Lisa Kleeman (Parts Order Representative, Ryan Equipment) to ask about the inner parts of graphite stick holders.

#### FULL TRANSCRIPT

**FOSSUM ROBERT** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:04]

Good afternoon, Ryan Equipment. This is Lisa. How can I help you?

**FOSSUM ROBERT** [00:09]

Hey, Ms. Lisa, this is Robert at Amex.

**Lisa Kleeman** [00:12]

Hey, how are ya?

**FOSSUM ROBERT** [00:13]

I don't know, you make me smile and laugh every time I hear your voice. Okay, my question was, you know those graphite stick holders?

**Lisa Kleeman** [00:19]

Aww.

**Lisa Kleeman** [00:24]

Yeah.

**FOSSUM ROBERT** [00:30]

Can we buy just the insides?

**Lisa Kleeman** [00:36]

Is that not just the insides? It's the bracket.

**FOSSUM ROBERT** [00:36]

Or they're, you know...

**Lisa Kleeman** [00:44]

That's what I was told. It's a bracket. That's all I know. I don't know what they're for. I'm not the mechanic. I'm just the parts order. Don't shoot the middleman. Oh.

**FOSSUM ROBERT** [00:45]

Yeah. Because there's...

**FOSSUM ROBERT** [00:55]

Oh, the hustling lady.

**Lisa Kleeman** [00:59]

Right? Maybe.

**Lisa Kleeman** [01:02]

Yeah, this just says it's a \*\*\*\*\* bracket.

**FOSSUM ROBERT** [01:07]

Yeah. Yeah, the graphite stick goes in

**FOSSUM ROBERT** [01:12]

it. But you can't just purchase the inside.

**Lisa Kleeman** [01:16]

The insides of what?

**FOSSUM ROBERT** [01:20]

The bracket is actually...

**FOSSUM ROBERT** [01:23]

It locks and unlocks to hold the graphite stick to keep pressure on it inside that orange bracket.

**Lisa Kleeman** [01:29]

Okay, hold on. Can you...

**FOSSUM ROBERT** [01:30]

But I have some that the inside of the brackets are all broken or messed up.

**FOSSUM ROBERT** [01:43]

You might have to ask them that question. Or do I need to send you a picture?

**Lisa Kleeman** [01:47]

Nope, nope, I'm just going to ask. Can you just purchase the inside of the brackets that hold the graphite stick?

**FOSSUM ROBERT** [01:53]

Yeah, the inside part that pushes and locks the graphite stick.

**FOSSUM ROBERT** [02:01]

Graphite, graphene, whatever you want to call it.

**Lisa Kleeman** [02:07]

Okay, I'm going to see. I'll let you know. Okay.

**FOSSUM ROBERT** [02:08]

All right, that's

**FOSSUM ROBERT** [02:10]

what... That's

**Lisa Kleeman** [02:13]

I can let you know as soon as I know.

**FOSSUM ROBERT** [02:18]

what... Okay.

**Lisa Kleeman** [02:19]

Okay?

**FOSSUM ROBERT** [02:21]

All right. He hasn't called to order those yet, has he, to pay for those yet? No?

**Lisa Kleeman** [02:22]

All right.

**Lisa Kleeman** [02:26]

Have I what?

**FOSSUM ROBERT** [02:28]

JR hasn't called to pay for those yet?

**Lisa Kleeman** [02:31]

No, no, he has not. Nobody's given me permission for him.

**FOSSUM ROBERT** [02:36]

Yeah, I'm just waiting on him. Okay.

**Lisa Kleeman** [02:38]

Yep. So, I haven't heard from him.

**Lisa Kleeman** [02:43]

The only time I heard from him was shortly after I spoke to you. He called me because of the field tank. And I was like, it's already been delivered. And he's like, what? That wasn't what I was told. So, yeah. But he got it. He got it. So,

**FOSSUM ROBERT** [02:43]

All right, let me know on that.

**FOSSUM ROBERT** [02:51]

Fuel tank?

**FOSSUM ROBERT** [02:59]

Yeah. Yeah. I just got it today,

**Lisa Kleeman** [03:04]

yep. Yep.

**Lisa Kleeman** [03:06]

He was on it yesterday, but it had already showed delivered, and he wasn't seeing that, and so, you know, we got it, though.

**FOSSUM ROBERT** [03:14]

so. Yeah. Yeah. He told me it was a delivery date later.

**Lisa Kleeman** [03:20]

Yeah, it was like the 23rd that it was delivered, and I guess he was up there just before.

**Lisa Kleeman** [03:27]

I think is what he said, or maybe early that morning, something or other, he was there and he's like, it wasn't there.

**Lisa Kleeman** [03:36]

So,

**FOSSUM ROBERT** [03:37]

Yeah. I don't know where it was because I've been up there to pick up other parts and I didn't see it.

**Lisa Kleeman** [03:42]

yeah, and that's what JR said too. And he's like, there was one pallet. He says, I never looked at. He says, I bet you anything. So, we

**FOSSUM ROBERT** [03:51]

Yeah, yeah. All right. Thank you, Miss Lisa.

**Lisa Kleeman** [03:54]

got it all. Okay.

**Lisa Kleeman** [03:58]

Thank you. Bye.

**FOSSUM ROBERT** [04:00]

Bye.

### AI SUMMARY

Steel (Customer) called to get details about a quote from Jesse (Sales rep) regarding a \$15,000 stub shaft for a rebuild.

### FULL TRANSCRIPT

**STEEL MERRILL** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

Ryan Equipment, this is Mike, can I help you?

**STEEL MERRILL** [00:06]

Hey Mike, this is Mike Donomero-Steele.

**STEEL MERRILL** [00:09]

Hey, we had got a quote from Jesse, trying to look for the date on this thing. It's for our tailor. It was a pretty big dollar amount for this rebuild for this mast.

**Jesse Downey** [00:23]

Yes.

**STEEL MERRILL** [00:28]

Um, I wanted, my boss wanted me to find out. Um, so it has like a, it says a stub shaft, which is like a, it's like a \$15,000 part.

**Jesse Downey** [00:30]

Okay.

**Jesse Downey** [00:38]

Okay, unless I'm thinking of something else, the stub shafts normally aren't that much, but...

**STEEL MERRILL** [00:41]

Um,

**Jesse Downey** [00:48]

You could have a specialty master or something. I don't know without looking at them.

**STEEL MERRILL** [00:48]

this,

**STEEL MERRILL** [00:53]

yeah, I'm just, just looking on the thing. It says price was like 15 grand. So what for the, it's,

**Jesse Downey** [00:58]

OK.

**STEEL MERRILL** [01:01]

Now, it's something that we don't know if we're going to have to have it or not. Now, if we order that, is there a return policy on that?

**Jesse Downey** [01:04]

Right.

**STEEL MERRILL** [01:11]

If we don't need it, because I would...

**Jesse Downey** [01:11]

I would have to check, because sometimes, with most parts, we can return them. There might be like a 15% or 25% restock fee. But some parts, depending on what they are,

**STEEL MERRILL** [01:20]

Okay.

**Jesse Downey** [01:22]

It's, you know, because Taylor might have to order it or, you know, have it specialty made. And that's usually for much older trucks. But we have run into a few instances where they're like, when you buy this, it's yours. If they return it, we can't take it back.

**STEEL MERRILL** [01:35]

Yeah. Yeah.

**STEEL MERRILL** [01:38]

Okay. Yeah, because the boss was just kind of wondering what our options were. If we're able to return it, if we don't use it, or if by chance...

**Jesse Downey** [01:39]

So.

**STEEL MERRILL** [01:48]

We need it. What was like the lead time on it?

**Jesse Downey** [01:51]

Right. I tell you what, I'm going to transfer you to my phone because I'm in Jesse's office and I can't look anything up. Can you give me just a second? I'm going to transfer you over to mine.

**STEEL MERRILL** [01:58]

Sure.

**Jesse Downey** [01:59]

Yeah, hold on.

## Inbound call from JASON HICKS

April 29, 2026 | 06:51 PM | Duration: 1m 10s | From: JASON HICKS | To: +15152995624

### AI SUMMARY

Jason (Customer) contacted Kent Stewart (Customer Service Representative, Around Equipment) to address confusion about having too many quarts of 10W30 for BSM, leading Kent to check the inventory and follow up later.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing around equipment. This is Kenton Parks. How may I help you?

**JASON HICKS** [00:07]

Hey, Kent. Hey, this is Jason. I'm

**Kent Stewart** [00:08]

Hey, Mr. Jason. Mm-hmm.

**JASON HICKS** [00:13]

confused on parts.

**JASON HICKS** [00:18]

I think I've got four quarts of 10W30 too many, too much for BSM.

**Kent Stewart** [00:27]

Okay.

**JASON HICKS** [00:29]

So could you check your inventory and make sure that it's right?

**JASON HICKS** [00:34]

Or make sure that I'm not messing up down here.

**Kent Stewart** [00:38]

Okay. All right. Well, I got to go back and count it, and I will give you a call back.

**JASON HICKS** [00:41]

Yep.

**JASON HICKS** [00:44]

All right. It might be four quarts off. I don't know.

**Kent Stewart** [00:48]

Okay. All right. I'll look.

**JASON HICKS** [00:50]

But. All right. Bye.

**Kent Stewart** [00:51]

Thanks. Bye.

## Inbound call from OMAHA NE

April 29, 2026 | 06:19 PM | Duration: 20m 55s | From: OMAHA NE | To: +14026440781

Inbound

Positive

### AI SUMMARY

In a detailed conversation, OMAHA NE reached out to Rodney Meier (Sales rep) to add items to an existing order.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Hey, Dan.

**OMAHA NE** [00:06]

Is it too late to add something to that order with those wheels and those bearings?

**Rodney Meier** [00:11]

Shouldn't. Should be all right.

**OMAHA NE** [00:12]

I need some of those shims. It would be item 50,

**OMAHA NE** [00:19]

part number is 500-2077.

**OMAHA NE** [00:25]

Give me four of those.

**Rodney Meier** [00:28]

Okay.

**OMAHA NE** [00:30]

And item 40, the 503, 2502. Give me also four of those.

**Rodney Meier** [00:40]

Okay, let me see what the availability is here.

**OMAHA NE** [00:45]

One side, eight, everything frick into pieces, and I'm going to have to polish the shaft to get the bearing to slide on.

**Rodney Meier** [00:51]

Oh, boy.

**OMAHA NE** [00:52]

Yeah. And actually, both lower bearings are totaled on it. They actually fell apart.

**Rodney Meier** [00:58]

Okay, yep, I got, yeah, the one shim, there's a lot of them. The other one, I'm sure there probably is too.

**OMAHA NE** [01:06]

Yeah, one's a 1 millimeter, one's a .3 millimeter.

**Rodney Meier** [01:09]

Yep, I got, yeah, I got 20 some of each one. Not a problem. All right, I'll get them added on.

**OMAHA NE** [01:12]

Okay. Could you give me four of each, please? Thank you. And I'm thinking that's all I need. Actually, no. Well, I got you. The pins, now where would I look for the free lift chain pins that attach to the carriage? Where would I look for that at?

**Rodney Meier** [01:16]

Yep, will do. Thank you.

**Rodney Meier** [01:36]

They'll

**OMAHA NE** [01:38]

I'm trying to...

**Rodney Meier** [01:39]

be in that same area.

**OMAHA NE** [01:45]

Okay, well they got mounting parts, but it just shows two pins.

**OMAHA NE** [01:50]

I don't know if they're the right ones. They don't say where they go though.

**OMAHA NE** [01:57]

Because I got one on the bottom that looks like it's all bent up.

**Rodney Meier** [02:03]

Yeah. Give me a second. My drawing expired here. I got to get back in there again.

**Rodney Meier** [02:12]

There we go.

**Rodney Meier** [02:14]

Okay.

**OMAHA NE** [02:16]

Because they don't even show where the chains would be at.

**OMAHA NE** [02:49]

I'm thinking that'd be it. I'm measuring it right now,

**OMAHA NE** [03:00]

so. Oh \*\*\*\*, they showed four pins.

**OMAHA NE** [03:05]

That's what I hate every time I back out of this, the screens change and things look different.

**OMAHA NE** [03:19]

Okay, because yeah, there are different lengths.

**Rodney Meier** [03:24]

Yeah. Yeah, they are. I knew that. Oh, where are you at?

**Rodney Meier** [04:29]

About in the same boat you are. It takes me time to find this stuff too.

**OMAHA NE** [04:29]

Actually, this

**OMAHA NE** [05:23]

one. So how was the vacation besides being bugged by us all the time?

**Rodney Meier** [05:26]

You know, it actually worked out pretty good because like in the mornings my grandkids are in school, my son and daughter-in-law both working.

**Rodney Meier** [05:34]

You know, we really didn't do anything in the morning. So my wife stayed up late. She likes to sleep in. So I just did some work between 8 and 11. And then we'd take off and go somewhere for lunch. And I'd come back about 1.32 and work for an hour. Weather was good. They had a lot of rain the first few days we were down there. They had five inches of rain in three days.

**OMAHA NE** [05:42]

Okay.

**OMAHA NE** [05:56]

Yeah, that's what I...

**Rodney Meier** [05:57]

But they needed it. They were really, really dry.

**OMAHA NE** [06:00]

Yeah.

**Rodney Meier** [06:03]

And so

**Rodney Meier** [06:05]

it was good. It was getting warm when we were ready to come home.

**OMAHA NE** [06:10]

Yeah. Imagine that. When you went up nice, it...

**Rodney Meier** [06:14]

Yeah. And I mean, you know, I mean, I played golf on Wednesday. We were out Thursday, Friday, Saturday, Sunday. We left Sunday afternoon, drove as far as Oklahoma City and then finished driving home.

**Rodney Meier** [06:27]

We were going to try and drive it all once. It's 14 and a half hours. And we split it going down. It was like kind of nice to just drive about six or seven hours and then quit.

**OMAHA NE** [06:39]

Yeah. Yeah. Now, how far down were you?

**Rodney Meier** [06:42]

Between San Antonio and Austin,

**OMAHA NE** [06:44]

Okay, yeah, that's a waste.

**Rodney Meier** [06:46]

40 miles from my house.

**OMAHA NE** [06:48]

Okay. Yeah, see, last time I was down there, all I went to was Fort Worth because I drove a couple

**OMAHA NE** [06:54]

Fire trucks down there or I'd actually go down there with a car and then bring a truck back. So yeah, as far in the Texas I ever got was Fort Worth.

**Rodney Meier** [07:02]

Oh yeah, no, we were another three and a half hours south of there.

**OMAHA NE** [07:06]

Yeah, and for me, Fort Worth to home was

**OMAHA NE** [07:11]

12, 13 hours. But that was with a fire truck that has 60 mile an hour.

**Rodney Meier** [07:15]

Yep, yep, yep. Well, and I know we talked about that. We talked things like work from home. We talked about maybe taking our camper down to Texas for maybe a month, six weeks after Christmas. And I'm thinking, you know, 60, 65, it's going to take me two good days to get down there. I may have to take three.

**Rodney Meier** [07:37]

I am in, yeah,

**OMAHA NE** [07:38]

And then the gas mileage, you know, getting down there.

**Rodney Meier** [07:42]

yep, I am in connecting element mast-DZ.

**OMAHA NE** [07:57]

OK, connect, OK, yep. I just opened that

**Rodney Meier** [07:59]

Hit the dropdown and the first one connect element DZ, that's got all your pins and chain and everything on it.

**Rodney Meier** [08:08]

Should be number 740, should be the chain connector. Is that what you're looking for?

**OMAHA NE** [08:08]

up.

**OMAHA NE** [08:13]

OK.

**Rodney Meier** [08:16]

For the lift chains?

**OMAHA NE** [08:18]

Not for the lift chain, for the free lift, free lift cylinder.

**Rodney Meier** [08:21]

Oh,

**OMAHA NE** [08:25]

I don't know if that's 790.

**Rodney Meier** [08:36]

oh, oh. Yes.

**OMAHA NE** [08:40]

No, 790 is a split pin.

**Rodney Meier** [08:46]

Although they're showing two pins there.

**OMAHA NE** [08:51]

Well, I'd have one for the bottom on the carriage and one for the bolt on the back of the free lift.

**Rodney Meier** [08:58]

And there are two different pins, one is 790 and one is 940.

**OMAHA NE** [09:04]

Okay.

**Rodney Meier** [09:04]

They're both right there. They're both right there.

**OMAHA NE** [09:06]

Yep. 790 and 740, those are the hairpins, the split pin.

**Rodney Meier** [09:12]

Okay. Oh, you need, okay, so you just need the pin itself?

**OMAHA NE** [09:16]

Yeah,

**Rodney Meier** [09:18]

Okay, that would be 780.

**OMAHA NE** [09:21]

yeah. 780 and this is 930. But they...

**Rodney Meier** [09:23]

And they're calling two of those. 930, I'm

**Rodney Meier** [09:33]

thinking that might just be the, let me see what that is.

**Rodney Meier** [09:41]

It says connecting parts.

**OMAHA NE** [09:49]

To me they look like the same pin because I got them sitting next to each other other than one's broken.

**Rodney Meier** [09:55]

Yeah.

**OMAHA NE** [09:57]

No,

**OMAHA NE** [10:00]

they're two different numbers, 5187413 and then 51874116.

**OMAHA NE** [10:10]

This is quantity two. So unless,

**OMAHA NE** [10:25]

I clicked on the number trying to see if it's going to give me a description.

**Rodney Meier** [10:30]

No, it won't. It'll give you a picture.

**OMAHA NE** [10:33]

Okay.

**OMAHA NE** [10:35]

Because what I'm looking for is

**OMAHA NE** [10:40]

49

**OMAHA NE** [10:46]

millimeters long.

**Rodney Meier** [10:48]

See, there's only one of that one pin, two of the other one.

**Rodney Meier** [10:54]

And that 940 breaks down into separate parts.

**Rodney Meier** [11:09]

Trying to make heads or tails out of this here.

**OMAHA NE** [11:17]

Okay, now on that same page where you said connecting elements, mass DZ, and then there was a block roller, then there's four pictures of pins, and it's just showing pins.

**OMAHA NE** [11:32]

And I-- there was a-- let's see now, that's not even the same.

**Rodney Meier** [11:37]

Oh, yeah, it's picture number three.

**OMAHA NE** [11:41]

I think picture number three. Hold on. Yeah, picture--

**Rodney Meier** [11:44]

Yeah, 10 and 20.

**OMAHA NE** [11:47]

yes. And like I said, my measurement is 49 millimeters long. And I measure 6--

**OMAHA NE** [11:58]

like 645, 6.45 millimeters, which would be, I think, 650.

**OMAHA NE** [12:06]

But what's that-- why does it go mounting parts? Is that the kit above it that's got no number on it? And then it breaks it down to 10 and 20, which would be the pin and then the split or the cotter pins?

**Rodney Meier** [12:19]

Yeah, a second here. Yeah,

**OMAHA NE** [12:20]

You see what I'm seeing?

**Rodney Meier** [12:25]

I'm just loading it.

**OMAHA NE** [12:25]

Actually, yes, yes, that's what it is. Because I wrote that one number down from your other page.

**Rodney Meier** [12:31]

Which is what number?

**OMAHA NE** [12:33]

51874116.

**OMAHA NE** [12:39]

So if you would go to that page, and then that was 780,

**OMAHA NE** [12:50]

no, not 780, it would be

**OMAHA NE** [12:54]

930.

**Rodney Meier** [12:57]

Seeing that 116 breaks down into separate parts, that's what I was trying to figure out here.

**OMAHA NE** [13:02]

Okay, yeah, which would be two cotter pins and one pin is what would be in that kit.

**OMAHA NE** [13:11]

And 930 is that same on that page you found.

**Rodney Meier** [13:16]

Yes.

**OMAHA NE** [13:17]

Yeah, 51874116. That one is, it says quantity one, but that's,

**Rodney Meier** [13:23]

Right, but see that breaks down into three separate parts.

**OMAHA NE** [13:30]

which would be two cotter pins and one pin.

**Rodney Meier** [13:35]

Yeah, it's not, it's showing me part numbers here, but it's not giving me

**Rodney Meier** [13:43]

actually the actual parts. Trying to see what we got here.

**OMAHA NE** [13:46]

Is nine,

**Rodney Meier** [14:01]

Okay.

**Rodney Meier** [14:20]

Oh, get down to the bottom one here. All right, so there's

**Rodney Meier** [14:26]

a, be two split pins, does that sound right?

**OMAHA NE** [14:30]

yeah. And then one pin.

**Rodney Meier** [14:33]

Yeah, let me get the pin number here.

**OMAHA NE** [15:05]

I put you on speaker, you can hear me?

**Rodney Meier** [15:07]

Yeah, you're fine.

**OMAHA NE** [15:10]

Yeah, six, four,

**Rodney Meier** [15:10]

All right, there's the split pin.

**OMAHA NE** [15:29]

five. I mean, they show them there, but they don't show them where they go to.

**Rodney Meier** [15:36]

Yeah, see I'm getting the split pins, but I'm not getting the pin number.

**OMAHA NE** [15:42]

Okay, well, the pin number I would have on

**OMAHA NE** [15:48]

that one would be a 51861838.

**Rodney Meier** [15:54]

Say that number again?

**OMAHA NE** [15:56]

51861838.

**OMAHA NE** [16:02]

That is a link pin. 6.50 by 49.0.

**OMAHA NE** [16:14]

Then it lifts, but it only shows one and one, though.

**OMAHA NE** [16:19]

Like for the split pin, what not?

**Rodney Meier** [16:20]

That's a pin and then it takes a split pin on each hand.

**OMAHA NE** [16:25]

Yeah, but on here for quantity only says one, and it should be two.

**Rodney Meier** [16:30]

Of the regular pin you mean?

**OMAHA NE** [16:32]

Yeah, of the split pin,

**Rodney Meier** [16:34]

Yes, well there's two separate numbers. They both supersede to the same number,

**OMAHA NE** [16:39]

yes. Oh, okay.

**Rodney Meier** [16:40]

which is a 778-000-53.

**OMAHA NE** [16:45]

Yeah, that's a split pin.

**Rodney Meier** [16:46]

- Yep, and it requires two of those. Both of those numbers go to that number.

**OMAHA NE** [16:51]

Yep, so I need four of the split pins

**OMAHA NE** [16:54]

and two of the link pins.

**Rodney Meier** [16:57]

Okay, now did you need that 51874113 then?

**Rodney Meier** [17:05]

That was that original one we seen in the front picture.

**Rodney Meier** [17:13]

That was that number 780,

**OMAHA NE** [17:13]

Hold on, let me...

**Rodney Meier** [17:18]

which is different than any other one.

**OMAHA NE** [17:18]

I would say no.

**OMAHA NE** [17:21]

No, I need the, well, 780, yeah. I mean,

**Rodney Meier** [17:25]

The two bottom ones?

**OMAHA NE** [17:29]

yeah.

**Rodney Meier** [17:29]

The two bottom ones are 930, the two upper ones looks like they're 780.

**OMAHA NE** [17:39]

It's hard saying in this picture, but I would say I need two of the 930s.

**Rodney Meier** [17:41]

Yeah,

**Rodney Meier** [17:43]

see, and they're only calling for one

**Rodney Meier** [17:47]

and two of the 780s, which is kind of confusing.

**Rodney Meier** [17:59]

Maybe I better send you all of them, then you'll have them.

**OMAHA NE** [18:01]

Yep, yep. Because, yeah, like I said, I'm looking here.

**OMAHA NE** [18:10]

They're showing an 890.

**OMAHA NE** [18:16]

And then a 930.

**Rodney Meier** [18:22]

Yeah, the 930 is a pin, it calls for one of those is all,

**Rodney Meier** [18:28]

and it calls for two of the 780s.

**Rodney Meier** [18:32]

And that 790 is a split pin, same split pin as all of them. They're all using the same split pin.

**OMAHA NE** [18:41]

Yep.

**OMAHA NE** [18:47]

Yeah, and then the 890,

**OMAHA NE** [18:51]

which would be the 51874116.

**Rodney Meier** [18:56]

Yeah, see that's the one that breaks down into separate pieces.

**OMAHA NE** [18:56]

Yeah, okay.

**OMAHA NE** [18:59]

Okay,

**Rodney Meier** [19:00]

And it requires, it says one of those is all.

**OMAHA NE** [19:07]

okay. Well, make sure I have – give me two of each. Okay.

**Rodney Meier** [19:10]

Yep, we can do that.

**OMAHA NE** [19:13]

That way I got them because, like I said, I'm looking at the picture where the adjustment bolt is. They got 890 in there. And then you scroll down to the bottom of it.

**OMAHA NE** [19:26]

And then the same pin is 930. I don't know why, but it's,

**OMAHA NE** [19:34]

yeah. Okay. As long as I got 930 and the 780, let's,

**Rodney Meier** [19:39]

Yep. And then the 940s are the pins. So...

**OMAHA NE** [19:40]

or 8, sorry, 890. Okay.

**Rodney Meier** [19:46]

I'll get you four pins and eight split pins.

**OMAHA NE** [19:52]

Yep, yep. Yes, yes.

**Rodney Meier** [19:54]

So that'll be pins for each end.

**Rodney Meier** [19:57]

Because it looks like that 790 actually has a pin already, one pin already in it.

**OMAHA NE** [20:02]

Okay. And that could very well be.

**Rodney Meier** [20:04]

Yep, it comes with the pin where the other one didn't.

**OMAHA NE** [20:09]

Okay.

**Rodney Meier** [20:10]

But we'll get enough for you. And you want them on that same call?

**OMAHA NE** [20:12]

If you would, please.

**OMAHA NE** [20:14]

Yes, that's for the same one.

**Rodney Meier** [20:17]

All right. I will get them on there.

**OMAHA NE** [20:20]

Cool. Thank you.

**Rodney Meier** [20:21]

You bet. No problem. See ya. Bye.

**OMAHA NE** [20:23]

Yep. Yep, bye.

CALL 276 OF 611

## Inbound call from HINSDALE IL

### AI SUMMARY

Nick from Rion equipment assisted Don with a steering issue on a lift truck. Don identified a stuck lift switch or lower switch as the problem, and Nick will pass the information along.

### FULL TRANSCRIPT

**BIG JOE FORKLIF** [00:00]

This call is being recorded.

**Nick Korth** [00:03]

Thanks for calling Rion equipment this Nick.

**BIG JOE FORKLIF** [00:06]

Hi Nick, non-bigger big lift return your call.

**Nick Korth** [00:08]

Yes sir.

**BIG JOE FORKLIF** [00:09]

So the steering is normal. The truck does back and forth.

**Nick Korth** [00:14]

Yep, steering is normal, drives normal, just no lift with that code.

**BIG JOE FORKLIF** [00:19]

The alarm says that there's an input stuck on the 238. So they need to inspect either a stock lift switch or our lower switch.

**Nick Korth** [00:29]

Okay. Stuck lift switch or lower switch? Okay. I'll pass it along. Thanks Don.

**BIG JOE FORKLIF** [00:33]

All righty.

**BIG JOE FORKLIF** [00:36]

You're welcome sir. Have a great day.

**Nick Korth** [00:36]

Okay have a good one. You too. Bye.

## Inbound call from INTERSTATE

April 29, 2026 | 06:08 PM | Duration: 2m 34s | From: INTERSTATE | To: +13203427814

Inbound

Positive

### AI SUMMARY

In the conversation, Carrie (Commercial Account Manager, Interstate Batteries) reached out to Bill Lewis to follow up after his vacation.

### FULL TRANSCRIPT

**INTERSTATE** [00:00]

This call is being recorded.

**Bill Lewis** [00:04]

Hi, it's Bill.

**INTERSTATE** [00:06]

Hi, Bill. This is Carrie with Interstate Batteries. Did I just miss your call?

**Bill Lewis** [00:10]

You did, yeah. I just left you a quick message, but yeah, I was just actually returning your call. You had called while I was out of the office on vacation for a couple of weeks and just trying to follow up with all my fun stuff that I got on my plate. Yeah.

**INTERSTATE** [00:17]

Okay.

**INTERSTATE** [00:21]

Okay.

**INTERSTATE** [00:27]

Got a deal. Okay. Let's see. Let me pull up your account real quick.

**Bill Lewis** [00:32]

Sure. Yep.

**INTERSTATE** [00:34]

How was

**INTERSTATE** [00:49]

your vacation?

**Bill Lewis** [00:51]

It was good. Yeah, really good. Went to Iceland, London, and Greece. Yeah.

**INTERSTATE** [00:53]

Where'd you go?

**INTERSTATE** [00:58]

Wow. Wow. Yeah. That was fun.

**Bill Lewis** [01:03]

Yeah. Can't complain, right.

**INTERSTATE** [01:07]

Yeah. So I was just actually giving you a quick call, Bill. I work with a store there and I was just giving you a quick call. I'm one of the commercial account managers and really just wanted to touch base and see if you guys needed anything or had anything coming up.

**Bill Lewis** [01:21]

Nothing that I'm aware of. I mean, everything's kind of just when needed type of situation for us. Um.

**INTERSTATE** [01:26]

Okay. Okay.

**Bill Lewis** [01:28]

But the local store, I work with Chad, and he does a great job. He's a great asset for you guys.

**INTERSTATE** [01:32]

Yep.

**INTERSTATE** [01:35]

Yep. Yes, I like working with him too.

**Bill Lewis** [01:37]

Yeah, and beyond that, though, no real urgent needs as of right now. Usually for us, with what we do, we start seeing it a lot, obviously, in the fall season and the winter months. Not a whole lot of...

**Bill Lewis** [01:55]

A lot of battery action during the summer.

**INTERSTATE** [01:58]

Okay. And what was I just going to ask? Oh, do you normally come into the store or do we deliver?

**Bill Lewis** [02:04]

We usually come in. Yeah, the text will usually just swing in there.

**INTERSTATE** [02:06]

Oh, okay.

**INTERSTATE** [02:08]

Stop in. Okay. All right. Well, we do have the option. If they don't stop in, we can always deliver as well.

**Bill Lewis** [02:16]

Yep. Sure. Yep. Always good to know.

**INTERSTATE** [02:19]

Yep. All right. Well, thanks for returning my call and you have a good rest of your day. Yeah. Have a good one. Thanks. Bye-bye.

**Bill Lewis** [02:22]

Of course. Thanks. You as well. Thank you. Bye-bye.

CALL 278 OF 611

## Inbound call from HENDERSON ADAM

Inbound

Positive

### AI SUMMARY

Kent Stewart (Parts Rep) assisted Henderson Adam by confirming that a forklift delivery would be dropped off at the back of the facility while Adam would manage it later.

### FULL TRANSCRIPT

**HENDERSON ADAM** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing round equipment. This is Kenton Parts. Help me help you.

**HENDERSON ADAM** [00:07]

Hey Kent, this is

**Kent Stewart** [00:08]

Hey, sir. Uh-huh. Do you want me to drop it on the ground or at the dock?

**HENDERSON ADAM** [00:09]

Adam. Hey, somebody was just pulling in with a forklift.

**HENDERSON ADAM** [00:14]

He could

**HENDERSON ADAM** [00:16]

just drop it on the ground out back and then I'll handle it when I get back.

**Kent Stewart** [00:21]

Okay. All right. Boss just called me, said drop it around back, and he'll take care of it when he gets back. He went to go grab something to eat. Okay. Thank you. Thank you.

**HENDERSON ADAM** [00:30]

Alright, thanks.

**Kent Stewart** [00:31]

Yep, he was just like, okay, hold on, I got to answer this phone call, hold on, go get some meat.

**HENDERSON ADAM** [00:35]

Yeah.

**HENDERSON ADAM** [00:38]

Alright.

## Inbound call from GREG SHEPHERD

Inbound

Neutral

### AI SUMMARY

In the conversation, Greg Shepherd (Customer) raised concerns about leaks in the Yale equipment, particularly with control valves and pumps.

### FULL TRANSCRIPT

**GREG SHEPHERD** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

All right, this is Adam. How can I help you?

**Adam Henderson** [00:08]

What's going on?

**GREG SHEPHERD** [00:09]

What did he say was wrong with the Yale?

**Adam Henderson** [00:11]

I said something about Starter. I don't know. He didn't really say because he was getting a third party from the other guy.

**GREG SHEPHERD** [00:20]

Because I know this other one, it had leaks. I don't know if you knew about that one,

**Adam Henderson** [00:24]

The PD12000.

**GREG SHEPHERD** [00:28]

too.

**GREG SHEPHERD** [00:30]

Could be. I took a picture of it. I can't remember what it was. No, it's the DP55.

**Adam Henderson** [00:32]

Yeah,

**Adam Henderson** [00:37]

we've... Oh, yeah. We've got open already for that one.

**GREG SHEPHERD** [00:41]

It has leaks, multiple leaks.

**Adam Henderson** [00:44]

The one we have open for it right now is the control valve.

**GREG SHEPHERD** [00:50]

I fixed that.

**Adam Henderson** [00:53]

The main control valve?

**GREG SHEPHERD** [00:56]

It just had a leak at the elbow at the one hose going in for the return. The elbow was loose. I put an O-ring on it.

**Adam Henderson** [01:05]

Eh, Kyle said it was leaking between the sections last time he was there.

**GREG SHEPHERD** [01:12]

Huh. Well, I cleaned it all up and blew it off, but I guess we can do that too. I don't care.

**Adam Henderson** [01:20]

Yeah. I don't know. Unless it just kind of healed itself, because now it's warm out.

**GREG SHEPHERD** [01:27]

No. Then it's got a water pump leaking.

**Adam Henderson** [01:29]

Ah.

**GREG SHEPHERD** [01:30]

It's got the hydraulic pumps leaking between the transmission and where it bolts together.

**Adam Henderson** [01:40]

Yep, just write it all up. We'll take care of it. But yeah, we've already got one open for the control valve on the main control valve. The Yale, I don't know what's wrong with it because he's getting it from that other guy. I can't remember his name.

**GREG SHEPHERD** [01:54]

I don't know. I'll check with him here in a little bit. I'm just finishing up putting this back together. I thought I'd get outside. I was going to send you the thing. Then I seen your text because that all popped up. I'm like, well, okay. Which one is he talking about now?

**Adam Henderson** [02:04]

Yeah. Yeah. Yep.

**Adam Henderson** [02:12]

Sounds good.

**GREG SHEPHERD** [02:12]

All right.

**GREG SHEPHERD** [02:15]

Did my key switch come in?

**Adam Henderson** [02:17]

UPS hasn't been here yet.

**Adam Henderson** [02:22]

So whenever it gets here, I'll let you know. All right. Thanks, man.

**GREG SHEPHERD** [02:25]

All right.

**GREG SHEPHERD** [02:28]

All right. Thank you. Yep. Bye.

## Inbound call from JASON HICKS

### AI SUMMARY

During the conversation, Adam Henderson (Service rep) addressed the details of a work order involving oil and filters, while JASON HICKS (Customer, Caller) pointed out inconsistencies in the paperwork, leading to a plan for better tracking in the future.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Yes sir. 1,

**JASON HICKS** [00:05]

Work order number

**Adam Henderson** [00:11]

2, 85, okay.

**JASON HICKS** [00:15]

801-285. Is there any oil on

**Adam Henderson** [00:25]

Yeah,

**Adam Henderson** [00:34]

two gallons of regular diesel oil.

**JASON HICKS** [00:37]

it? 1540.

**JASON HICKS** [00:39]

Okay. All right. My paper, papers, I got three papers here. Neither one of them show any oil or anything on it other than three filters.

**Adam Henderson** [00:49]

Yeah, it's got oil, two gallons of oil, oil filter, two air filters, and then grease, chain lube, and brake clean. And then fuel filters, it's got one.

**JASON HICKS** [00:49]

Four filters.

**JASON HICKS** [01:03]

Yep. There's actually two on it.

**Adam Henderson** [01:05]

Oh, okay. Get numbers off of them if you can. That way we can do it next time.

**JASON HICKS** [01:10]

Yeah. It's kind of...

**JASON HICKS** [01:14]

I don't even know which one I got. All right, I'll figure it out.

**Adam Henderson** [01:15]  
Okay, sounds good.

**JASON HICKS** [01:19]  
Yep, bye.

CALL 281 OF 611

**Inbound call from JASON HICKS**

April 29, 2026 | 04:43 PM | Duration: 1m 17s | From: JASON HICKS | To: +15152995624

**Inbound**      **Neutral**

**AI SUMMARY**

The conversation centered on a GT50 unit experiencing hydraulic oil leakage, with Adam Henderson addressing warranty concerns and planning to order a master cylinder for repair.

**FULL TRANSCRIPT**

**JASON HICKS** [00:00]  
This call is being recorded.

**Adam Henderson** [00:03]  
How does that settle?

**JASON HICKS** [00:05]  
Hey, down at BSM, one of the GT50s. It's pushing hydraulic oil out of the brake fluid reservoir.

**Adam Henderson** [00:08]  
Uh-huh.

**Adam Henderson** [00:15]  
Oh, God. I've got to order a master.

**JASON HICKS** [00:18]  
Yeah. To my understanding, this is a leased unit, so I'm unsure of how that works.

**Adam Henderson** [00:24]  
It'll be normal warranty unless it's out of warranty and then it'll just be on them to repair.

**JASON HICKS** [00:31]  
659 is the hours on it.

**Adam Henderson** [00:32]  
I'll have to check. Okay. I'll have to see if there's a warranty applied to it. You want to send me a

**Adam Henderson** [00:39]  
Pick of the data plate. Okay, I'll get it handled.

**JASON HICKS** [00:41]  
Yeah, will do. So, all right. And then it's good for them to operate and everything.

**Adam Henderson** [00:49]  
Uh, yeah, so Mike, what he did is he just would kind of \*\*\*\* a little bit out so that it wouldn't fill up and spill all over.

**JASON HICKS** [00:55]

Yeah, I just got off the phone with him. So, all right.

**Adam Henderson** [00:59]

Yeah. So, yeah, I'll order a master as soon as I get that info. Alright, thanks.

**JASON HICKS** [01:04]

All right, sounds good. Yeah, buddy. Howdy.

### AI SUMMARY

In the call, Adam Ratcliff (Sales rep) from Ryan Equipment engaged with David from Riley Industrial to address outstanding bills and process an order for parts.

### FULL TRANSCRIPT

**RILEY** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:03]

Thank you for calling Ryan Equipment. This is Adam. How can I help you?

**RILEY** [00:07]

Hey, this is David, Riley Industrial.

**Adam Ratcliff** [00:10]

Hey, how's it going, Devin?

**RILEY** [00:10]

Oh, not too bad. They ain't got that, uh, them bills paid yet.

**Adam Ratcliff** [00:17]

Oh, let me see here.

**Adam Ratcliff** [00:23]

I think I told you they were paid. I thought they were. But there must have been two hanging out from March.

**RILEY** [00:26]

Yeah.

**RILEY** [00:33]

Too hiding. Sorry.

**Adam Ratcliff** [00:35]

Yeah.

**RILEY** [00:37]

I'm gonna need to get some over rings coming for him. I'll just put them on my credit card.

**Adam Ratcliff** [00:43]

Okay.

**Adam Ratcliff** [00:45]

Um...

**Adam Ratcliff** [00:51]

Yeah, I'm sure they haven't been processed through yet,

**RILEY** [00:54]

Yeah.

**Adam Ratcliff** [00:55]

even if they did.

**RILEY** [00:57]

Yep. Okay. Yeah, he's gone.

**Adam Ratcliff** [00:58]

I can do the credit card deal.

**RILEY** [01:01]

Yeah. Yeah, let me see if you got these old...

**Adam Ratcliff** [01:07]

No. Let me get in there.

**Adam Ratcliff** [01:18]

All right, what do you

**Adam Ratcliff** [01:29]

got?

**Adam Ratcliff** [01:31]

That one, write that down. I'm going to have to order that one.

**Adam Ratcliff** [01:37]

4, 5, 1, 9, 2, 7, 7. How many of those do you want?

**RILEY** [01:43]

4519-277. He's got just one here,

**Adam Ratcliff** [01:46]

Okay.

**RILEY** [01:48]

but probably put a couple each just in case.

**RILEY** [01:55]

And then a 4519-13.

**Adam Ratcliff** [02:03]

Okay. One, what was the last three?

**RILEY** [02:07]

143.

**Adam Ratcliff** [02:08]

One, four, three.

**Adam Ratcliff** [02:11]

Okay, I've got four of those.

**Adam Ratcliff** [02:16]

Four, five,

**RILEY** [02:16]

And a 4518-654.

**Adam Ratcliff** [02:24]

six, five, four.

**RILEY** [02:27]

There'll be a bunch of parts on that stinking junky trailer.

**Adam Ratcliff** [02:33]

Never ending, is it?

**RILEY** [02:35]

Not with this one, it ain't.

**Adam Ratcliff** [02:40]

4-5-1-8-6-5-4,

**Adam Ratcliff** [02:45]

right? I don't... I'll have to order that one,

**Adam Ratcliff** [02:50]

too. Um... What else? Yeah.

**RILEY** [02:52]

Oh, that's it.

**Adam Ratcliff** [02:55]

That's it. Uh... Okay, let me, uh... I'll get this worked up as a cash sale and get it ordered, and then I'll give you a holler. Um...

**RILEY** [03:01]

Okay.

**Adam Ratcliff** [03:08]

Or probably when you get them, we'll settle up is the way we usually like to do it. Just so, okay.

**RILEY** [03:15]

Okay, however works for you. That way we make sure we pay up,

**Adam Ratcliff** [03:20]

Yep. Yeah, no, I'm not worried about that at all. I know you will. But yeah, I'll get them coming your way. And then do you need them just ground or

**RILEY** [03:25]

so. Mmm, fairly fast.

**RILEY** [03:34]

That wouldn't cost a whole...

**Adam Ratcliff** [03:36]

next day fast? Yeah.

**Adam Ratcliff** [03:42]

What's that?

**RILEY** [03:44]

That wouldn't cost a whole...

**Adam Ratcliff** [03:46]

No, it shouldn't. I'll put it on our account.

**RILEY** [03:47]

Yeah,

**RILEY** [03:51]

I'd do that.

**Adam Ratcliff** [03:53]

Okay.

**Adam Ratcliff** [03:55]

All right. I'll get these orders right now.

**Adam Ratcliff** [04:07]

And you just want two of each?

**RILEY** [04:09]

Yeah, I'd get it... Yep.

**Adam Ratcliff** [04:15]

Yeah, that's never a bad idea. But, yeah, we'll talk to you here when you get them. Should be tomorrow, so...

**RILEY** [04:22]

Okay. Yeah, I'll call you and settle up.

**Adam Ratcliff** [04:26]

I'll let you know if they're out of stock or anything with Taylor.

**Adam Ratcliff** [04:30]

All right. I appreciate you.

**RILEY** [04:32]

Okay. Alrighty. Alrighty. Thank you.

**Adam Ratcliff** [04:35]

Yep. Bye.

Omaha and Rodney discuss putting four motors on a call. Omaha is sending an email, and Rodney confirms no issues.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**OMAHA NE** [00:05]

Okay, on those rollers, do I put that motor and four of them then? On it? On the call?

**Rodney Meier** [00:10]

Yes, sir. Yeah, either way you can put yeah if you want four just put four on there that's

**OMAHA NE** [00:15]

Okay, yep, I'll put four. I just, yeah, making sure I'm not \*\*\*\*\* something up here.

**Rodney Meier** [00:20]

fine. Nope, you're fine.

**OMAHA NE** [00:22]

Four. So, cool. I'm just sending that email off right now.

**Rodney Meier** [00:23]

Nope, you're fine.

**Rodney Meier** [00:29]

Okay, sounds good.

**OMAHA NE** [00:30]

So, cool. Thank you.

**Rodney Meier** [00:32]

You betcha, no problem. Later, bye.

### FULL TRANSCRIPT

**Michael Lowe** [00:01]

This is Michael with Rion Equipment.

**TALBERT WILLIAM** [00:04]

Yeah, I need some work done on my forklift.

**Michael Lowe** [00:08]

Gotcha.

**Michael Lowe** [00:11]

Can I ask who's calling?

**TALBERT WILLIAM** [00:12]

This is Bill Talbert.

**TALBERT WILLIAM** [00:19]

I don't know, Talbert and Sons or whatever. We got it from you years ago.

**Michael Lowe** [00:26]

Yeah, absolutely.

**TALBERT WILLIAM** [00:26]

Bought it from you. It's an older truck.

**TALBERT WILLIAM** [00:32]

I don't know. Is the plate with a number on it? Industrial truck with a number. Is that what you need to look up?

**Michael Lowe** [00:42]

Yes, generally, yeah. You should have a model and a serial number.

**TALBERT WILLIAM** [00:45]

Starts...

**TALBERT WILLIAM** [00:48]

Well, it's just got a number on it. It's an A200117. I don't know if that's the right one. I'm going to look for a different place.

**Michael Lowe** [00:58]

I believe it should be on your right-hand side next to the handles.

**TALBERT WILLIAM** [00:59]

Oh...

**Michael Lowe** [01:06]

Or the hydraulic levers as you're sitting in the seat. I'll see if I can pull up that.

**TALBERT WILLIAM** [01:13]

That plate is so distorted, I can't

**TALBERT WILLIAM** [01:20]

make head nor tails out of that plate.

**Michael Lowe** [01:24]

Okay. Is it a V40D?

**TALBERT WILLIAM** [01:28]

Yes, it is.

**Michael Lowe** [01:29]

Okay. I think I found it.

**TALBERT WILLIAM** [01:33]

It's got a Peugeot in it, or however you say that. It's on propane.

**Michael Lowe** [01:37]

Yep.

**Michael Lowe** [01:39]

Yep. Gotcha.

**TALBERT WILLIAM** [01:40]

First off...

**TALBERT WILLIAM** [01:44]

The three-stage mast cylinder is leaking, needs to be fixed,

**Michael Lowe** [01:52]

Okay. Gotcha. Is that the one in the center then?

**Michael Lowe** [01:57]

Okay. Gotcha. Primary. All right.

**TALBERT WILLIAM** [01:59]

and the hoses that roll up, they're not in very good shape.

**Michael Lowe** [02:06]

Okay, absolutely.

**TALBERT WILLIAM** [02:08]

And it needs whatever the brakes need fixed on it. They don't work. I suppose it's a wheel cylinder or something on the

**TALBERT WILLIAM** [02:19]

Drive axle.

**TALBERT WILLIAM** [02:22]

I have no idea. I'm just assuming.

**Michael Lowe** [02:22]

Gotcha.

**Michael Lowe** [02:25]

Okay. Yeah.

**TALBERT WILLIAM** [02:25]

And then the rear tires on it are totally shot.

**Michael Lowe** [02:33]

Yeah. Okay. Drive to steer tires.

**TALBERT WILLIAM** [02:38]

Is it possible that you can give me an estimate on what it's going to run to fix this old thing? Because...

**TALBERT WILLIAM** [02:51]

I do not want, I mean, I want to get it fixed, but I don't want to spend more money than the unit may be worth. You know what I'm saying?

**Michael Lowe** [03:01]

Absolutely. Yeah, absolutely. I can get a quote worked up for the resealing the primary mass cylinder. Brakes leaking.

**Michael Lowe** [03:12]

It might be the master cylinder or the wheel cylinders, but I could quote both just in case. And then the rear steer tires. Yeah, I can quote all that. Do you have a good email I could send that to?

**TALBERT WILLIAM** [03:19]

Right.

**TALBERT WILLIAM** [03:28]

Yes. All lowercase.

**TALBERT WILLIAM** [03:33]

It would be BTBodyShop.

**Michael Lowe** [03:39]

BTBodyShop.yahoo.com.

**TALBERT WILLIAM** [03:41]

At yahoo.com.

**Michael Lowe** [03:48]

Okay. Absolutely. I can...

**TALBERT WILLIAM** [03:49]

Yeah. And it would probably be better to,

**TALBERT WILLIAM** [03:55]

I think, I've got a pretty decent car trailer with 7,000 pound axles, double axles. Surely that'll haul it. I wouldn't have to try to get it on a gooseneck.

**TALBERT WILLIAM** [04:11]

And bring it over because I don't know that you want to bring a truck out and work on it. The truck's going to cost a lot more to have somebody come over on it here.

**Michael Lowe** [04:22]

Absolutely. Yeah. Okay. Yeah, I will get that together and send you that quote and we can go from there.

**TALBERT WILLIAM** [04:25]

That's what I figured.

**TALBERT WILLIAM** [04:35]

Okay, that would be a plan. I've been kind of dragging my feet. I use this thing about every other day if it's decent, whether I'm lifting something or...

**TALBERT WILLIAM** [04:46]

Well, we're cleaning out this one shop and I went outside and grabbed the dumpster with it and brought it inside so I didn't have to walk so far to the dumpster.

**TALBERT WILLIAM** [04:54]

You know, stupid \*\*\*\* like that. Been loading junk with it and whatnot. It works fairly good, you know. So, anyway.

**Michael Lowe** [05:02]

Well, that's good.

**TALBERT WILLIAM** [05:04]

Let me know. Might have you change the oil in the \*\*\*\* thing. I've never changed oil in the engine.

**Michael Lowe** [05:13]

Okay. Yeah, absolutely.

**TALBERT WILLIAM** [05:15]

Sometimes it kind of like doesn't want to take off and run. I don't know if there's a like a regulator valve on the propane or the fuel system that

**Michael Lowe** [05:26]

Yeah,

**TALBERT WILLIAM** [05:30]

It's over feeding it or under feeding it. I don't know. We're running around if I get it over there sometime and we'll go from there.

**Michael Lowe** [05:39]

and there's some manual fuel adjustments you can do on that older stuff too to make it

**Michael Lowe** [05:46]

I know,

**Michael Lowe** [05:55]

like everything

**TALBERT WILLIAM** [05:59]

I don't believe... It's an older forklift, but I don't believe that I need to update because I don't use it as much as I did. But it's nice to have it around and in working condition, you know.

**TALBERT WILLIAM** [06:16]

I know like everything else has probably gone up quite a bit.

**Michael Lowe** [06:17]

else has probably

**Michael Lowe** [06:21]

gone up. Oh, yeah. Yes, there are.

**TALBERT WILLIAM** [06:21]

So I

**Michael Lowe** [06:25]

They have gone up quite a bit

**Michael Lowe** [06:29]

20 years ago.

**TALBERT WILLIAM** [06:29]

know when,

**TALBERT WILLIAM** [06:31]

yeah, I know when we spoke for this, he brought it up, the salesman brought it over and unloaded it and he used to try it out and worked okay. And I think he was at \$5,000 on this thing at that time.

**TALBERT WILLIAM** [06:49]  
So, I imagine I'm

**Michael Lowe** [06:49]  
Yeah, now they're

**TALBERT WILLIAM** [06:53]  
going to – go ahead.

**Michael Lowe** [06:54]  
a brand new forklift that size is probably closer to \$35,000.

**TALBERT WILLIAM** [07:01]  
Holy \*\*\*\*.

**TALBERT WILLIAM** [07:04]  
Yeah, I know.

**Michael Lowe** [07:06]  
Inflation,

**TALBERT WILLIAM** [07:07]  
Well, let's

**TALBERT WILLIAM** [07:10]  
see what we can do on this and go from there, and I'll make up my mind, and then we'll try to – if we're –

**TALBERT WILLIAM** [07:20]  
Something that I'm going to agree on on price, I'll bring it over when you can schedule it in.

**Michael Lowe** [07:27]  
yeah. Absolutely. I will get these parts sent over to my parts guy and I'll get you a quote by the end of the day.

**TALBERT WILLIAM** [07:35]  
Okay. Thank you.

**Michael Lowe** [07:36]  
Okay, thank you.

**TALBERT WILLIAM** [07:38]  
Bye.

CALL 285 OF 611

**Inbound call from Rion Clear Lake Parts - REILLY FAX**

April 29, 2026 | 04:19 PM | Duration: 1m 24s | From: Rion Clear Lake Parts - REILLY FAX | To: Unknown

**Inbound** **Positive**

**AI SUMMARY**

The conversation involved Reilly Fax (Customer, Riley's) requesting a seal kit and belt for a cylinder, which Jaylee Bartz (Sales rep) confirmed could be shipped to the provided address in Ocean, Iowa.

FULL TRANSCRIPT

**Cindy Cooper** [00:00]

This call is being recorded.

**Jaylee Bartz** [00:04]

Ryan Equipment,

**Cindy Cooper** [00:06]

OKAY? THERE YOU GO.

**Jaylee Bartz** [00:10]

this is Jaylee.

**REILLY FAX** [00:12]

Jaylee, Wayne at Riley's.

**REILLY FAX** [00:14]

Can you get a seal kit for that cylinder?

**Jaylee Bartz** [00:18]

I should be able to.

**REILLY FAX** [00:22]

Okay, let's try a seal kit first

**REILLY FAX** [00:25]

and then get me that belt. We just bought this thing so maybe a seal kit will do it but if it don't then I'll have to get the cylinder from you.

**Jaylee Bartz** [00:34]

Okay. Okay. We want a steering cylinder steel kit.

**REILLY FAX** [00:39]

Yep, and then that belt.

**Jaylee Bartz** [00:40]

Okay. And you just want me to ship it directly to you?

**REILLY FAX** [00:43]

Yeah, if you could. Do we got an account with you?

**Jaylee Bartz** [00:44]

Okay. Perfect. Yeah. Yep, you actually do.

**REILLY FAX** [00:48]

Okay, in Ocean,

**Jaylee Bartz** [00:50]

So, okie dokie. Yeah, yeah, except for I only have a P.O. box, so what is your physical address?

**REILLY FAX** [00:53]

Ocean, Iowa. It's in Ocean, Iowa.

**REILLY FAX** [00:59]

Okay. Shipping address, you can send it to 1468, Highway 52.

**Jaylee Bartz** [01:07]

Okay, 52 and then 52161.

**Jaylee Bartz** [01:14]

Perfect.

**REILLY FAX** [01:14]

All right. All right. Thanks for now.

**Jaylee Bartz** [01:17]  
Thank you.

**REILLY FAX** [01:18]  
Yep. Bye.

CALL 286 OF 611

**Inbound call from LOGAN HEARSHMAN**

April 29, 2026 | 04:14 PM | Duration: 2m 15s | From: LOGAN HEARSHMAN | To: +15152995624

**Inbound** **Positive**

**AI SUMMARY**

Logan (Customer, Caller) reached out to Adam (Support rep) regarding a missing hose, and after some back-and-forth, they successfully located it between the shelf and wall, resolving the concern quickly.

**FULL TRANSCRIPT**

**LOGAN HEARSHMAN** [00:00]  
This call is being recorded.

**Adam Henderson** [00:03]  
I don't

**LOGAN HEARSHMAN** [00:07]  
Hey, did I leave a hose there?

**Adam Henderson** [00:09]  
know, did you?

**LOGAN HEARSHMAN** [00:12]  
I'm not sure.

**Adam Henderson** [00:14]  
Let me grab my earpiece and go look.

**LOGAN HEARSHMAN** [00:15]  
I thought I grabbed them all.

**LOGAN HEARSHMAN** [00:22]  
Did I do? That's what

**Adam Henderson** [00:24]  
Can you hear me? Okay, switch to my earpiece. I hardly ever do that anymore.

**LOGAN HEARSHMAN** [00:27]  
I thought. Yeah, I hear

**LOGAN HEARSHMAN** [00:33]  
you. I swear I grabbed them all, but I can't find one.

**Adam Henderson** [00:40]  
Uh, no, there's none here. Did you go anywhere else in the shop besides from your bench to your

**Adam Henderson** [00:50]  
ouch van?

**LOGAN HEARSHMAN** [00:50]

When I grabbed the hose, it was straight from the shop to my van.

**Adam Henderson** [00:54]

Yeah, there's nothing on your bench. I don't see anything, like, dropped anywhere.

**Adam Henderson** [01:03]

Maybe outside? I don't know.

**LOGAN HEARSHMAN** [01:07]

I think if I dropped it outside, someone would have brought it down.

**Adam Henderson** [01:10]

Well, you'd think so, but no, I don't see anything outside either. You set it somewhere where it just kind of blends in.

**LOGAN HEARSHMAN** [01:21]

I put all the hooks,

**Adam Henderson** [01:23]

Oh,

**LOGAN HEARSHMAN** [01:23]

unless it drops, but I don't

**LOGAN HEARSHMAN** [01:28]

see any on my floor.

**LOGAN HEARSHMAN** [01:34]

Did it fall? Ah, it fell in between the shelf and the wall.

**Adam Henderson** [01:37]

okay.

**LOGAN HEARSHMAN** [01:40]

Let me make sure this is

**LOGAN HEARSHMAN** [01:43]

it. Yeah, this is it. All right. Got it.

**Adam Henderson** [01:46]

All right, cool. Yep. Yep. All good. Talk to you later. Yep.

**LOGAN HEARSHMAN** [01:47]

I was freaking out. I was like, I swear to God, I grabbed it.

**LOGAN HEARSHMAN** [01:53]

All right. Thank you. Yep, I

CALL 287 OF 611

## Inbound call from OMAHA NE

April 29, 2026 | 04:11 PM | Duration: 13m 56s | From: OMAHA NE | To: +14026440781

Inbound

Neutral

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Good morning.

**OMAHA NE** [00:06]

Good morning, Rod. How's it going?

**Rodney Meier** [00:08]

Oh good, how about you?

**OMAHA NE** [00:10]

It's going. It was steady and all of a sudden, boom, now I've got like five things in a row.

**Rodney Meier** [00:16]

Yes, that's the way it works down there.

**OMAHA NE** [00:18]

Pretty much, pretty much. This morning I was working on a battery door or a charger port latch on a forklift, and I got into the manuals and was looking at it, and on the picture, I found the picture, I clicked on the link,

**Rodney Meier** [00:18]

Okay.

**OMAHA NE** [00:33]

And it's like number 60 or whatever happened to be. It went over to the deal. But when you go to open up the picture, it says it's a adapter, not a latch. And it doesn't look anything like it. And the number is totally different. I just wanted to make sure I had the right latch because actually I didn't know there's different ones. Dustin had some in a box.

**OMAHA NE** [00:53]

They were the wrong pitch. Well, luckily, the one that was in a bag that still had a part number on it was the right pitch that I needed. So that's – I'm sending a service call in right now, and it's got one of those latches on there. I guess

**Rodney Meier** [01:05]

Okay.

**OMAHA NE** [01:12]

my point is –

**OMAHA NE** [01:15]

DO WE NEED TO SAY ANYTHING OR DO ANYTHING ON THE PICTURE OR WHATEVER BECAUSE IT'S WRONG?  
I'M ASSUMING THIS IS THE RIGHT LATCH, BUT THAT NUMBER DOESN'T EVEN...

**Rodney Meier** [01:23]

What part number do you have?

**OMAHA NE** [01:26]

5243-3557.

**OMAHA NE** [01:35]

AND THAT WAS ON A BAG THAT THE PART WAS IN.

**Rodney Meier** [01:36]

And it's supposed to be a latch.

**OMAHA NE** [01:39]

YEAH, THAT IS THE LATCH.

**Rodney Meier** [01:42]

Okay.

**OMAHA NE** [01:42]

But then you, okay, hold on, let me, I'm going to send the email off and then I'm going to get out of here and see if I can't get in there.

**OMAHA NE** [01:56]

Come on, open up.

**Rodney Meier** [01:59]

Yeah, they currently don't have any of those latches at MLA.

**OMAHA NE** [02:00]

And,

**OMAHA NE** [02:07]

yeah, well, like I said, I had one and I put it in and,

**OMAHA NE** [02:12]

okay.

**OMAHA NE** [02:22]

The thing is, I found it one time, so I don't know if I'll be able to \*\*\*\*\* find it again.

**Rodney Meier** [02:27]

That's usually the way it works.

**OMAHA NE** [02:30]

Yeah, this is on the back of the truck. It's where you plug in the charger into the unit. So would that be under?

**Rodney Meier** [02:35]

Right. Has a little spring that we replaced quite a bit on the door.

**OMAHA NE** [02:40]

No, this would be the flat one that has actually a door that lays flat. This would be on the 8,000-pound. And actually, I'll give you that. It's an FN651051.

**Rodney Meier** [02:44]

Okay.

**Rodney Meier** [02:47]

Oh, okay.

**Rodney Meier** [02:49]

Oh, okay.

**OMAHA NE** [02:57]

And it's an EPC, two EPC-8000.

**OMAHA NE** [03:07]

Subframe structure.

**OMAHA NE** [03:15]

I'd still much rather have a paper book to look at.

**Rodney Meier** [03:39]

This latch is in that picture.

**OMAHA NE** [03:42]

Okay, yeah, so I opened up,

**OMAHA NE** [03:47]

\*\*\*\* it. I got into,

**OMAHA NE** [03:54]

let's see where the \*\*\*\*,

**Rodney Meier** [04:04]

And we're talking about the charger door, right, for the charger plug?

**OMAHA NE** [04:07]

Yes, the charger, yeah. And I'm looking at it right now, and I hit 60. Well, now the \*\*\*\*\* thing goes to latch.

**OMAHA NE** [04:17]

But it's a different part number,

**Rodney Meier** [04:20]

What section are you in? I assume you're in frame and superstructure.

**Rodney Meier** [04:32]

Or maybe I should ask what part number are you coming up with?

**OMAHA NE** [04:35]

though. Okay, no, I think I'm wrong. That was bracket 160 amp. This is a 300 amp. So I'm even in the wrong...

**OMAHA NE** [04:48]

Okay, I'm going to go to Options, and I went into the K battery charger,

**Rodney Meier** [04:54]

Oh, okay, give me a second here.

**OMAHA NE** [04:59]

but the only thing that opens up is bracket 160 amp,

**OMAHA NE** [05:06]

and this is 300 amp.

**Rodney Meier** [05:21]

And you're looking for the latch.

**OMAHA NE** [05:24]

Yeah, it would be item 60 on that picture,

**Rodney Meier** [05:30]

It's an M16 by 1.5.

**Rodney Meier** [05:35]

Because the other one's an M16 by 2.0. All right, this one shows a latch and a nut. 51318455.

**OMAHA NE** [05:35]

and this one's,

**OMAHA NE** [05:38]

yeah, and that's,

**OMAHA NE** [05:43]

yes, yes.

**OMAHA NE** [05:46]

Okay, but the latch that I put in, which is the thread, is an M16 by 2.0 pitch. So this one is wrong in this picture. Well, but it says 100...

**Rodney Meier** [05:53]

Right?

**Rodney Meier** [05:58]

Well, see, and we ran into that on a couple of items.

**Rodney Meier** [06:05]

That they had the wrong one listed under that serial number. I don't...

**OMAHA NE** [06:10]

Because this is actually saying 160 amp, though. This isn't 160 amp. The thing that's on the back of the trucks is 300 amp. So I guess...

**Rodney Meier** [06:18]

Right, right.

**OMAHA NE** [06:20]

So that would be the...

**OMAHA NE** [06:23]

But I'm not seeing where it says 300 amp,

**Rodney Meier** [06:26]

Right. Yeah, see, and I'm in MLA and you're probably in the young Heinrich one, aren't you?

**OMAHA NE** [06:29]

though. Oh, hold on.

**OMAHA NE** [06:35]

Nope. In the lift manuals.

**Rodney Meier** [06:38]

Yeah.

**OMAHA NE** [06:45]

Either way, the 3557 is the one that I put in, and that's the one that works, so I need to replace that. So I guess I need to figure out how to use this manual again, or, you know, whatever.

**Rodney Meier** [06:52]

Okay.

**OMAHA NE** [06:57]

Because that's the wrong, that by one five is the wrong pitch. Because I think I got two of those that are used and they're a finer pitch.

**Rodney Meier** [07:02]

Right. Yep.

**Rodney Meier** [07:05]

- Yep.

**OMAHA NE** [07:10]

So, okay, but I did send off a,

**Rodney Meier** [07:11]

Well, it shows that I had, well, it shows that I had two, they were both in the, he had them in their inventory.

**OMAHA NE** [07:20]

and see I've only found one.

**Rodney Meier** [07:21]

The one that ends in 557, so apparently we didn't get one billed out. You just had the one is all.

**OMAHA NE** [07:28]

Yeah, yeah, that's all I've seen in the book. But I do have two,

**OMAHA NE** [07:33]

I do have two other ones, but they're the wrong pits.

**Rodney Meier** [07:37]

There's a 455 instead of the 557.

**OMAHA NE** [07:39]

I got to order parts for that, so it's going to be a little while. When it's ready, I'll bring it back in.

**OMAHA NE** [07:52]

- What was that? - No, it's not ready now. I gotta order parts for it. I don't have that wheel. Sorry. And that's the other thing I'm on, and if you could help me get that going so I don't have to figure it out.

**OMAHA NE** [08:10]

It is...

**OMAHA NE** [08:13]

2 ET 4000, and it's a serial number, an FN651033. And I'm looking for the rollers on the carriage. There's three of them on there that goes into the mast.

**Rodney Meier** [08:23]

Okay?

**OMAHA NE** [08:36]

- Into the mass channel? Yes, yes, they're in the mass channel.

**Rodney Meier** [08:36]

That are on the carriage itself.

**OMAHA NE** [08:45]

And I need, well I need one, but I haven't got it off to see if I need any more. There's six in here total. And does he show that he has any of those in here? 'Cause I can't find anything.

**Rodney Meier** [09:04]

Yeah, I don't know. Give me a second here.

**OMAHA NE** [09:07]

Yeah, I'm sorry. I got people standing here for, I don't know who this, I

**Rodney Meier** [09:09]

No, that's fine. I just got to get to the right picture.

**OMAHA NE** [09:13]

don't know who these people are. That's the whole idea. I'm just, yeah.

**OMAHA NE** [09:23]

Yeah, we just finally yesterday got this to where it actually would open up the right way, the lift manuals.

**OMAHA NE** [09:34]

It was totally different than everybody else's and yeah, they were trying to explain \*\*\*\* to me and it didn't.

**Rodney Meier** [09:44]

Okay,

**Rodney Meier** [09:56]

yep, we have four. I still have four of those rollers.

**OMAHA NE** [10:06]

Well, I've got one broke, so

**OMAHA NE** [10:11]

I mean, like I said, I haven't got it apart, you know.

**OMAHA NE** [10:18]

Can I get at least two?

**OMAHA NE** [10:23]

Or, I mean, I take all four because they're gonna be interchangeable to everything I've got here, right? Okay.

**OMAHA NE** [10:32]

Where did you find that? Now, I'm trying to find it here. I'm in the mast.

**OMAHA NE** [10:43]

Okay, you click on mast.

**OMAHA NE** [10:51]

Okay, yep. Fixed parts, fork, care, okay.

**Rodney Meier** [10:52]

And then scroll down and fix parts fork carrier and

**OMAHA NE** [10:57]

Okay, yep.

**Rodney Meier** [11:00]

it should show you the whole carriage.

**OMAHA NE** [11:02]

Yep, it is. And they're all six the same,

**Rodney Meier** [11:07]

Yes, they're all six the same.

**OMAHA NE** [11:09]

right? Actually, the top two. Okay. Yeah, would you send those to me as soon as possible?

**Rodney Meier** [11:17]

Yep. Yeah, they're in Omaha, so that's not a problem.

**OMAHA NE** [11:18]

And, okay, I will open a call for it so you can bill it to it.

**Rodney Meier** [11:25]

Yep. Yep.

**Rodney Meier** [11:28]

And I will bill, I'll bill both latches out because you're using the last one, correct?

**OMAHA NE** [11:32]

Yes, I just used it already.

**Rodney Meier** [11:34]

Okay.

**Rodney Meier** [11:35]

Okay, and I will have to, they're showing none in stock, so I'm gonna have to get an order for some in, get 'em coming, to get 'em back to you again so you have some next time. 'Cause they're showing zero right now, so we'll have to make sure we get something done with that.

**OMAHA NE** [11:53]

Okay. Okay, so on this...

**Rodney Meier** [11:54]

They don't even show any incoming stock,

**OMAHA NE** [11:57]

Oh, okay. On this rollers, it shows it's a 10, 20, or a 30. Which one would it be then?

**Rodney Meier** [12:03]

so, the 20.

**OMAHA NE** [12:04]

For me. The 20?

**Rodney Meier** [12:06]

Under the serial number, and that's the one we stocked, so that's the one we've been using.

**OMAHA NE** [12:10]

Okay. Okay, okay.

**OMAHA NE** [12:13]

That'll work for me then. So...

**Rodney Meier** [12:15]

Yeah, yeah, well, actually, the 10 is the one we're using, 51300513, because I recognize that number.

**OMAHA NE** [12:21]

Okay.

**OMAHA NE** [12:25]

Okay.

**OMAHA NE** [12:26]

513-00513. Okay, I'll put that in the service call, and things you already know about it, you know what you got to do.

**Rodney Meier** [12:39]

Yeah, because we haven't ordered any of the other ones at all.

**OMAHA NE** [12:43]

Okay. Yep, like I said, I got, I mean, there's one broke for sure, and...

**OMAHA NE** [12:54]

Yeah, it's fell apart. And like I said, the other ones, I'm not sure until I get them apart. Because I've got to lift the carards off of it.

**Rodney Meier** [13:03]

Right, yep, yep. Nope, that shouldn't be a problem.

**OMAHA NE** [13:07]

Okay, that'll work. Thank you. Sorry to be a pain in the \*\*\*, but I'm trying to figure it

**Rodney Meier** [13:09]

All righty, you betcha, Dan. Thanks.

**Rodney Meier** [13:13]

Oh, if you're not, you're fine. You're fine. Don't worry about it. It's what we're here for.

**OMAHA NE** [13:18]

out. Yep. Cool, thank you.

**Rodney Meier** [13:19]

That's what we're here for. You betcha. Talk to you later.

**OMAHA NE** [13:22]

Yep, later.

**Rodney Meier** [13:23]

Alrighty. Bye.

## Inbound call from A

### AI SUMMARY

Miranda (Customer, Caller) contacted Chad Metzger (Representative) to inquire about changing information on an invoice, but was informed that the relevant person, Jason, would not be available until the following morning.

### FULL TRANSCRIPT

**A** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

We're on equipment. This is Danny.

**A** [00:07]

Hi, yes. My name is Miranda. I work for A&T Farms. I have a question about an invoice if we can get some information changed.

**Chad Metzger** [00:17]

Yeah, let's see here.

**Chad Metzger** [00:25]

Actually, just about to lunch here right now. So Chad is normally the one who does it. And just let me double check. I believe he's back first thing in the morning. I know just enough to get me by to cover for him. As far as Jason...

**A** [00:40]

Okay. Yeah, I left a voicemail with him, so I guess on this work number. So you said he'll be back tomorrow?

**Chad Metzger** [00:49]

Yeah, let me double check in here.

**Chad Metzger** [01:00]

Yes, he will be back tomorrow morning.

**A** [01:03]

Okay. All right. I will just call then.

**Chad Metzger** [01:04]

He's just out today. Okay, not a problem. Thank you. Appreciate it. Bye.

CALL 289 OF 611

### AI SUMMARY

In this conversation, Nick Korth (Sales rep) reached out to Don Baker from Big Joe Forklift regarding a code issue with the J1Joey forklift.

### FULL TRANSCRIPT

**HINSDALE IL** [00:00]

This call is being recorded.

**Nick Korth** [00:03]

Thanks for calling Ryan to put me this,

**HINSDALE IL** [00:06]

Hi, Nick. Don Baker, Big Joe Forklift. Return your call.

**Nick Korth** [00:10]

Nick. How you doing, Don? Not too bad. Did you get my message then about that? About the code I'm getting on this J1Joey?

**HINSDALE IL** [00:11]

You're good, and yourself?

**HINSDALE IL** [00:18]

Yes, I did, but unfortunately, I need to see where the alarm is occurring, if it's on steering or traction. 238, it has different meanings depending on what controller.

**Nick Korth** [00:29]

Oh, okay. So we've got to figure out if it's...

**HINSDALE IL** [00:31]

And I need the, yeah, I need the serial and hours as well.

**Nick Korth** [00:37]

Okay, I will have to get that. I've got the serial number. I'll give you that right now. It is...

**HINSDALE IL** [00:42]

Sure, what you got?

**HINSDALE IL** [00:51]

Any hours for

**Nick Korth** [00:52]

2272-00158. I don't think he sent it to me yet. So I will have to call you back on that, Don.

**HINSDALE IL** [01:03]

it? I'll just add in the information here real quick. And 238 is certain.

**Nick Korth** [01:10]

Yep.

**HINSDALE IL** [01:11]

Do we know if the truck steers, lifts, travels?

**Nick Korth** [01:14]

It does not lift. I do know that. I did reach out to my customer to see if it did drive and he had not responded yet. So...

**HINSDALE IL** [01:23]

Okay. Do we know if it steers?

**Nick Korth** [01:24]

That's a good point. I don't know that either, Don. Honestly, I was thinking about all this after he sent me this this morning. And it's a new customer of ours. So it's just like, oh, I want to help this guy out as much as I can. Oh,

**HINSDALE IL** [01:28]

Okay.

**HINSDALE IL** [01:35]

No worries. Yeah, unfortunately,

**HINSDALE IL** [01:39]

I can give you a gist. If it's an 06A238, which is on steering, that's an EPS not aligned alarm. So basically the steering is not binding home. However, it usually doesn't hinder lift. The controller typically doesn't care. If it's an 02A238 alarm, which is on your traction,

**Nick Korth** [01:54]

okay.

**HINSDALE IL** [02:02]

It's an HW fault EV, which I kind of doubt you have that alarm for this, or a lift lower is active, so it's seeing an input at startup. But again, same thing with the vice versa on steering. It wouldn't hinder your steering.

**Nick Korth** [02:20]

Okay. Gotcha.

**Nick Korth** [02:23]

Okay, so you figure out steering or traction, and if it does steer, I even send them... Go ahead.

**HINSDALE IL** [02:27]

Yeah, and a...

**HINSDALE IL** [02:29]

A good sign is just based on what the truck is doing and not doing, right? So if we turn the truck on, it does a self-test, and it continues to steer, but it does not lift or travel, then we know the alarm is related to the traction. If we power on, steering does not do a self-test, however, it continues to lift because the drive controller typically doesn't care. It says, well,

**HINSDALE IL** [02:50]

You can't drive because I'm not going to allow drive because you can't steer me, but lift all you want.

**Nick Korth** [02:57]

Gotcha. Okay. I will get some more information, and I'll call you back, Don. All right. Thank you, sir. Thanks for the callback. Okay. Yep. You too. Bye.

**HINSDALE IL** [03:02]

Okay. Sounds good.

**HINSDALE IL** [03:05]

You're welcome, sir. Have a great day.

**HINSDALE IL** [03:08]

Bye-bye.

## Inbound call from WIRELESS CALLER

### AI SUMMARY

In a call between Sean (Customer) and Rodney Meier (Representative, Ryan Equipment), Sean asked about replacing a seat on a Mitsubishi forklift for improved comfort.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Ryan Equipment, this is Rod.

**WIRELESS CALLER** [00:06]

Yeah, Rod, Sean, down here at Vermont. I got a question for you.

**Rodney Meier** [00:11]

Sure.

**WIRELESS CALLER** [00:12]

Okay, yesterday we got a Mitsubishi 5,000-pounder for a rental, to replace a rental that we had here.

**WIRELESS CALLER** [00:20]

And I think we just did a rental to start with. We're going to move it to a lease. But anyway,

**WIRELESS CALLER** [00:26]

the guy operating it is wanting to know if he can get a different seat. Okay.

**WIRELESS CALLER** [00:33]

One that's like spring-loaded like some of these other ones.

**Rodney Meier** [00:33]

Okay. Okay,

**Rodney Meier** [00:36]

like a suspension seat? Sure. Do you by chance know what the serial number is for that machine?

**WIRELESS CALLER** [00:39]

Yes, correct.

**WIRELESS CALLER** [00:43]

I do. Well, tell you what, hang on one second. Let me shut this \*\*\*\*\* forklift off.

**Rodney Meier** [00:45]

It's probably an AF something.

**WIRELESS CALLER** [00:48]

I took a picture yesterday when I got here so I can look into my pictures.

**WIRELESS CALLER** [00:53]

Okay, where's that?

**WIRELESS CALLER** [00:57]

Okay, AF...

**WIRELESS CALLER** [01:00]

I'm

**Rodney Meier** [01:08]

Okay, let me just have a look here, see what's available.

**WIRELESS CALLER** [01:12]

just kind of curious if it's possible just to switch the seats out. You know what I mean? This

**Rodney Meier** [01:16]

- It should be.

**WIRELESS CALLER** [01:19]

seat's brand new. I mean, you can just switch it out and take this one with you if that's feasible or possible.

**Rodney Meier** [01:25]

Well, we'll see what we can do here. Nothing's impossible.

**WIRELESS CALLER** [01:28]

Yeah, talk to some people,

**WIRELESS CALLER** [01:33]

even if we've got to pay for the installer. You know what I mean, whatever.

**Rodney Meier** [01:36]

Yep, yep, well, that's something you can do. There's just bolts underneath the cover, the engine cover there, so, okay.

**WIRELESS CALLER** [01:45]

Oh, I've changed out plenty of seats. I know I can do it. I didn't

**Rodney Meier** [01:49]

Yep, I think that's, yeah. All right, well, let's see. Vinyl suspension seat.

**Rodney Meier** [01:58]

Clicked

**Rodney Meier** [02:05]

on the wrong button here. Give me a second.

**Rodney Meier** [02:38]

It must be a brand new machine they gave you,

**WIRELESS CALLER** [02:41]

know. It only had 4.2 hours, so I'm assuming it's fairly new.

**Rodney Meier** [02:42]

huh? They're fairly new.

**Rodney Meier** [02:46]

Yep, April, well, actually it's April of 24, so it's not super new. It's

**Rodney Meier** [02:51]

Almost two years old. That's probably low hours, I'm gonna guess.

**WIRELESS CALLER** [02:56]

Yeah, 4.2 when it got here.

**Rodney Meier** [03:01]

Well, it says that the seed is on a hard freeze right now, which means I'd have to get it released. They're not showing, they're showing four in stock at the distribution center.

**Rodney Meier** [03:20]

But they don't have a price on it right now. I'm just trying to figure out why we couldn't put a different seat on it. I don't think there'd be any difference in it.

**WIRELESS CALLER** [03:31]

Like I said, though, it might be going through the rental fleet yet. I'm not real sure how that's working.

**Rodney Meier** [03:36]

Yeah, yeah, well, yeah, if there's a seat that would be available in our area, swapping them out wouldn't be a big deal, at least not as far as I'm

**Rodney Meier** [03:47]

I'm concerned anyway. Let me just punch in an FG25M. Let me go to an older model. Maybe I can get a seat number here.

**WIRELESS CALLER** [03:48]

Yeah, no, I hear you.

**WIRELESS CALLER** [04:06]

Told the operator he's \*\*\*\*\* soft. I said, you gotta \*\*\*\*\* man up a little bit. He said, I am soft. He said,

**Rodney Meier** [04:10]

There you go. Yep.

**Rodney Meier** [04:13]

Well,

**WIRELESS CALLER** [04:15]

I couldn't even make fun of him, \*\*\*\* it.

**Rodney Meier** [04:17]

that's not good.

**WIRELESS CALLER** [04:19]

I know.

**Rodney Meier** [04:21]

Okay, let's see.

**Rodney Meier** [04:41]

Okay, here's a vinyl suspension seat which would probably fit on that same machine. I just went to the same model. 1410010, which means the other ones are just updated numbers.

**Rodney Meier** [04:59]

Let's see if somebody's got one by chance.

**WIRELESS CALLER** [05:05]

Yeah,

**Rodney Meier** [05:17]

And nobody in Nebraska has one. I'd have to order one in. I don't see why we couldn't make it work. It shows that the seat's \$1,200 for a whole seat. That's the slide and everything. But they don't, well, they have one coming in next week. They don't currently have one in stock.

**WIRELESS CALLER** [05:30]

I suppose.

**Rodney Meier** [05:39]

Let me see if my aftermarket supplier maybe have that seat.

**Rodney Meier** [05:49]

Like I say, I don't know why there isn't any reason we couldn't figure out a way to make it work.

**Rodney Meier** [05:57]

Yeah, it's back ordered from there. Yeah, we could probably get one and take a couple weeks to do it.

**WIRELESS CALLER** [06:05]

That's fine.

**Rodney Meier** [06:06]

But I think we could probably, we can probably make it work somehow. Let me see if I can work my magic. We'll see if we can get one coming for you.

**WIRELESS CALLER** [06:11]

Like I said, if you need...

**WIRELESS CALLER** [06:15]

Like I said, if you need to talk to the rental group or whatever and see if it's possible or, you know what I mean?

**Rodney Meier** [06:19]

Yeah, yeah. Yep, yep. Nope, we can, we'll figure it out. We'll get something coming for you. Like I say, it's not currently in stock for a week or so, but let me see what I can do for you.

**WIRELESS CALLER** [06:27]

So. Okay. Sounds good.

**WIRELESS CALLER** [06:32]

Yep. Not a problem. He can survive that one. Trust me. It'll be all right. There

**Rodney Meier** [06:34]

All right? All right.

**Rodney Meier** [06:35]

Well, there you go. There you go. Tell him to bring a picture pillow.

**WIRELESS CALLER** [06:39]

we go.

**Rodney Meier** [06:41]

All right. We'll do. All right. Thanks, Sean. You bet. Bye.

**WIRELESS CALLER** [06:41]

Yeah. Find out what you can do. Let me know.

**WIRELESS CALLER** [06:44]

All right. Thank you much. Yep. Bye.

June Marie from Carco Trucks reached out to Miranda Wright at Rion Equipment for account paperwork to facilitate a tax-exempt purchase.

### FULL TRANSCRIPT

**FRIEDRICH JUNE** [00:00]

This call is being recorded.

**FRIEDRICH JUNE** [00:05]

Hi, good morning. This is Rion Equipment.

**FRIEDRICH JUNE** [00:10]

Okay, is Miranda available?

**Miranda Wright** [00:12]

Yes, yep, this is.

**FRIEDRICH JUNE** [00:14]

Oh, hi, this is June Marie with Carco Trucks. I believe he spoke with Kurt.

**Miranda Wright** [00:19]

Yes, yep.

**FRIEDRICH JUNE** [00:21]

Okay, so he needs this part and I need to get some account paperwork filled out with you because I am tax exempt.

**Miranda Wright** [00:31]

Okay, let me provide you my email address and you can just send that.

**FRIEDRICH JUNE** [00:38]

Go ahead.

**Miranda Wright** [00:43]

Okay,

**FRIEDRICH JUNE** [00:46]

One second. Carco Trucks.

**FRIEDRICH JUNE** [00:50]

Is Tom around? One moment.

**FRIEDRICH JUNE** [00:54]

I'm ready when you are.

**Miranda Wright** [00:56]

perfect. My email address can be Miranda, M-I-R, A-N-D-A,

**Miranda Wright** [01:04]

WRITE, W-R-I-G-H-T, at Ryan, R-I-O-N, equipment.com.

**FRIEDRICH JUNE** [01:16]

Okay. And I will send that to you right now, and then you can send me all the paperwork that I would need to have an account with you guys so I can get this part ordered.

**FRIEDRICH JUNE** [01:28]

All right.

**Miranda Wright** [01:28]

Perfect. I can do that.

**FRIEDRICH JUNE** [01:31]

Sounds good. I'll get it over shortly. Thank you. Bye-bye.

**Miranda Wright** [01:32]

All right. Perfect. Thank you. Yes. Bye-bye.

## Inbound call from ENGELBRECHT C.

Rachel Quintana (Rion Equipment) reached out to Chris Engelbrecht (Rock River Electric) regarding a seal kit that is ready for repair, and they arranged for Chris to bring the unit in for service at their shop.

### FULL TRANSCRIPT

**ENGELBRECHT C.** [00:00]

This call is being recorded.

**Rachel Quintana** [00:03]

Rion Equipment, this is Rachel.

**ENGELBRECHT C.** [00:04]

Hey, Rachel, this is Chris with Rock River Electric. I saw a missed call from you.

**Rachel Quintana** [00:06]

Hi,

**Rachel Quintana** [00:08]

Chris. Yeah, no worries. I left you a message that the seal kit is in for that unit that needs repaired. So if you prefer, we can actually decide that we can have you bring the unit over and we can do the work in our warehouse, in our shop.

**ENGELBRECHT C.** [00:13]

Okay.

**ENGELBRECHT C.** [00:18]

Okay. Yeah. Yep. Okay.

**Rachel Quintana** [00:25]

So if you want to bring that over, we've got a tech available tomorrow and if need be, Friday.

**Rachel Quintana** [00:32]

So do you want to just let us know when you want to bring it over and we can open the gate for you when you're here?

**ENGELBRECHT C.** [00:35]

Yeah, we might be able to get it over today or tomorrow, so just for that.

**Rachel Quintana** [00:40]

Okay. Yeah, just shoot me. I left you my number or the number you just called. Just when you get here, there's a number on the gate or you can call me directly and then we can open the gate for you to bring it through.

**ENGELBRECHT C.** [00:47]

Okay.

**ENGELBRECHT C.** [00:53]

Perfect.

**Rachel Quintana** [00:53]

When you guys are here. And then, yeah, we can just get started on it.

**ENGELBRECHT C.** [00:57]

That worked. Thank you. Bye.

**Rachel Quintana** [00:58]

Okay, yeah, no problem. Thanks for calling back. All right, bye.

**AI SUMMARY**

In the conversation, Travis from Mikkelsen Farm detailed a hydraulic issue with their forklift, identifying the steer cylinder as the likely source of the problem.

**FULL TRANSCRIPT**

**Michael Lowe** [00:00]

This is Michael with Ryan equipment.

**MIKKELSEN FARM** [00:03]

Hi, this is Travis with Kenny's Lumber.

**Michael Lowe** [00:06]

Yeah, Travis.

**MIKKELSEN FARM** [00:06]

I was going to see if I could get somebody up here to look at our forklift.

**MIKKELSEN FARM** [00:14]

It's got, I'm guessing, a bad seal. There's a hydraulic, what do they call it,

**MIKKELSEN FARM** [00:24]

piston, pump, shaft.

**MIKKELSEN FARM** [00:29]

I think it's got bad seals.

**Michael Lowe** [00:32]

Gotcha.

**MIKKELSEN FARM** [00:32]

That would be my guess.

**Michael Lowe** [00:34]

Do you know what

**MIKKELSEN FARM** [00:36]

What do they call that?

**MIKKELSEN FARM** [00:40]

It's like the pump. Not the pump, but the shaft that goes in and out.

**Michael Lowe** [00:45]

– oh, the cylinder?

**MIKKELSEN FARM** [00:46]

The cylinder. God, I could not think of that word. Yeah, so like when you turn the wheels, you know, so you can look in it, you can see the cylinders covered with hydraulic oil and it's dripping out of it. I'm assuming it's probably got bad seals. It's on the backside. It should be fairly easy to access, you know, as long as you just turn the wheels and...

**Michael Lowe** [00:58]

Oh, gotcha.

**Michael Lowe** [01:03]

Oh, the steer cylinder.

**MIKKELSEN FARM** [01:07]

You can access it somewhat easy, but it's bleak, and I'm...

**Michael Lowe** [01:11]

Yeah. Absolutely. Do you know what

**Michael Lowe** [01:16]

unit that's on?

**MIKKELSEN FARM** [01:18]

It's the Heister. They've serviced it several times.

**Michael Lowe** [01:22]

Okay.

**MIKKELSEN FARM** [01:23]

I think they were just up here this year even doing the front next to the forks. They were replacing seals on that.

**Michael Lowe** [01:29]

Okay, absolutely.

**Michael Lowe** [01:32]

Okay. Well, I can get a call opened and I can get the serial number off that and then look at getting this cylinder kit for the steer cylinder. Do you want to quote on that at all or do you just want to send somebody out there once we have the parts?

**MIKKELSEN FARM** [01:46]

Okay. Yep, I'm...

**MIKKELSEN FARM** [01:53]

Yeah, I wouldn't mind getting a quote if you can.

**Michael Lowe** [01:56]

Absolutely. And do you have a good email I could send that to?

**MIKKELSEN FARM** [02:01]

Yep, it's Travis at

**MIKKELSEN FARM** [02:04]

Kenny's LFS.com. So it's Travis at K-E-N-N-Y-S and then L as in lumber, F as in farm, F as in supply.com.

**Michael Lowe** [02:17]

All right.

**Michael Lowe** [02:19]

I'll get that worked up. I'll get that seal kit ordered. And I will have somebody come out when we get that in.

**MIKKELSEN FARM** [02:26]

Okay,

**MIKKELSEN FARM** [02:31]

sounds good.

**Michael Lowe** [02:32]

Okay. All right. Thank you.

**MIKKELSEN FARM** [02:33]

All right, thank you. Yep, bye.

### AI SUMMARY

In a call between Rodney Meier and Hampton Dennis, Rodney provided updates on the Yale for Dietz project, including a breakdown of parts needed for an assembly.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Are you back from the big call?

**HAMPTON DENNIS** [00:07]

I am headed into the office now. What's up?

**Rodney Meier** [00:11]

All right. I got a breakdown of that stand-up for the Yale for Dietz. I forwarded the charts list to you.

**Rodney Meier** [00:19]

You can't really tell from the picture exactly what you all wanted.

**HAMPTON DENNIS** [00:22]

Well, yeah. He goes, "Hey, I need one of these." I'm like, "I don't... What is that?" He goes, "Well, I'll send you a picture of it."

**Rodney Meier** [00:27]

Yeah. He thought it... Well, and I forwarded the picture to my guy in Sioux City at Rikus, and he said it looked like a caster.

**Rodney Meier** [00:38]

Assembly. So that's what he sent a break, that's what he sent a breakdown of. And I looked at it, there's a lot of \*\*\*\* parts there. So I thought, well, I'm going to have you, maybe you can decipher what he needs out of that.

**HAMPTON DENNIS** [00:39]

Yeah, and I think that's what it is.

**HAMPTON DENNIS** [00:49]

I might buzz down there sometime today and take a peek at it.

**Rodney Meier** [00:54]

Okay. All right. Nope, that'll be fine. Yep. No, I didn't know. I just was seeing if you were back in the office. So to let you know that I forwarded that to you.

**Rodney Meier** [01:06]

Got the engine ordered from Helmar this morning. They'll probably be sending us a credit card, online information to pay for it here pretty soon. But it is ordered, so as soon as they figure out the freight, they'll probably be sending us an invoice and a

**Rodney Meier** [01:26]

And a form to fill out for a credit card. So,

**HAMPTON DENNIS** [01:29]

Yeah, yeah. Either forward it to me or if they're sending it to me or however I can call them.

**Rodney Meier** [01:34]

they'll probably send it to me, but I'll forward it to you so you'll have the address and whatnot. So, that shouldn't be a problem. So, other than that, I think that's all I got for you right now.

**HAMPTON DENNIS** [01:48]

I'm going to stop at the other store on my way in and grab parts and pieces. I do have an interview for Backfill and Dusty's business at 3 o'clock today.

**Rodney Meier** [01:56]

Oh, yeah.

**HAMPTON DENNIS** [02:01]

So thankfully, that'll...

**Rodney Meier** [02:02]

Well, I'll probably be leaving at 3ish. We got first night of golf tonight.

**HAMPTON DENNIS** [02:08]

I was just going to ask. First time to golf league, I bet.

**Rodney Meier** [02:11]

Yeah, league starts next week, but it's a fun night tonight. So, yeah, I don't know. It looked like chances of rain, so I hope they're wrong.

**Rodney Meier** [02:21]

But one forecast says a chance of a few showers, and the other forecast says no. So 1% chance.

**Rodney Meier** [02:30]

But we'll go one way or the other. All right.

**HAMPTON DENNIS** [02:31]

Yep, you'll know that. Absolutely. That works for me. I'm sure we'll talk later on today.

**Rodney Meier** [02:38]

Yep. Nope. That'll be fine. I'll be here.

**HAMPTON DENNIS** [02:41]

Perfect. I appreciate it. Thanks, Rodney.

**Rodney Meier** [02:42]

All right. Yep. Talk to you later. Bye.

**HAMPTON DENNIS** [02:45]

Yep. Bye.

Man, how's the weather over there?

**Michael O'Neil** [01:06]

Nice and sunny, a little cool, but nice and sunny. We've had rain for about the past week.

**Michael O'Neil** [01:10]

Yeah, same here.

**Michael O'Neil** [01:14]

We're kind of off and on for the last week. So we needed it, but it's nice to have a day where it's not raining or no chance of rain.

**Michael O'Neil** [01:21]

Yeah, same here. We got all kinds of crazy weather.

**Michael O'Neil** [01:27]

And now it's just cool and sunny. I love it though. These are the temperatures I like.

**Michael O'Neil** [01:34]

Yeah. Well, we've had a bunch of tornadoes up here, too. So not quite where I'm at, but, you know, definitely within the area.

**Michael O'Neil** [01:39]

Yeah,

**Michael O'Neil** [01:43]

yeah. Around, yeah, yeah. Same here.

**Michael O'Neil** [01:44]

But, yeah. So...

**Michael O'Neil** [01:51]

All right. So, yeah, Nick called me this morning, wanted me to kind of go over, I guess you're having one of your customers starting to question you on your invoices and stuff, per tech or pre tech.

**Michael O'Neil** [02:09]

Yeah, pre-tech. I mean, the warranty expired on both of the units.

**Michael O'Neil** [02:15]

Yeah.

**Michael O'Neil** [02:18]

And so any little thing that we are doing for them, they're pretty much questioning everything.

**Michael O'Neil** [02:28]

Yeah. And, you know, and honestly, right now in the environment we're in because everything is so tight, you know, I don't care what you say. The economy is for \*\*\*\* right now. We have that same thing happening up here that, you know, everybody's looking at their bills a little more tightly. Like, hey, what's this? What's that? What's this?

**Michael O'Neil** [02:40]

Yeah, it is.

**Michael O'Neil** [02:48]

For

**Michael O'Neil** [02:49]

So I get it. I think we can help them out and kind of clean things up a little bit, looking at some of these calls that I kind of went through and looked at.

**Michael O'Neil** [03:02]

So I'll share my-- Yeah, yeah, yeah.

**Michael O'Neil** [03:05]

that account, you mean?

**Michael O'Neil** [03:08]

So well, we're not going to credit anything back. But moving forward, we can be a little more transparent.

**Michael O'Neil** [03:17]

Yeah, as far as crediting back, we're not going to do that. Like I said, I can show you some stuff we do. And some stores do this, some stores they don't. The way I look at it is, you know, I want to be as transparent as possible without...

**Michael O'Neil** [03:17]

Yes, yes, that's

**Michael O'Neil** [03:37]

I'm going over the line, I guess you could say. When I get my bills, I like to see here's travel, here's labor, here's this, blah, blah, blah. Then I can see where everything is rather than why am I being charged \$8,000 in labor when the guy was here for

**Michael O'Neil** [03:40]

fine. Most definitely.

**Michael O'Neil** [03:58]

Four hours. Well, some of that's travel time. I had to go back and forth, you know, stuff like that.

**Michael O'Neil** [04:06]

So you, you break it, you create a segment for travel alone just for some of those customers?

**Michael O'Neil** [04:14]

So, oh, yeah. Yep. So, you got your team's viewer up now?

**Michael O'Neil** [04:23]

Yeah, I got it up.

**Michael O'Neil** [04:24]

Okay. Let me try to share this screen here with you. So, we'll look at this call here.

**Michael O'Neil** [04:32]

Oh, da-da-da-da.

**Michael O'Neil** [04:35]

Why is it not letting me do this here?

**Michael O'Neil** [05:00]

OK. So this call here-- first thing-- so here's something I noticed right off the bat. Down here where it says resource,

**Michael O'Neil** [05:14]

excuse me, if you put whoever tech is working on that,

**Michael O'Neil** [05:19]

What that does is it populates over here. So you'll see on the resource on all of the calls for this customer, it would say, okay, Garrett did this one, so-and-so did this one, blah, blah, blah, blah. So you can actually, rather than go into the call, you can see who actually worked on it or is currently working on it.

**Michael O'Neil** [05:37]

Yes, sir.

**Michael O'Neil** [05:38]

And the reason we do that now is every Monday, Rachel will send each tech

**Michael O'Neil** [05:45]

Michael, I'm going to go ahead and see if you have a list of their open calls so that they can review them and get them closed or that, you know, if they got an old one, they're like, oh, \*\*\*\*, I got to finish that one up. I need to get it cleaned up, get it taken care of. So it's easier for her to break them out by, you know, when we add the resource in there by who it is because now we can see

**Michael O'Neil** [06:04]

You know, which tech it is and you can, when you do that, you can send it to an Excel spreadsheet for each tech and then send it to them that way rather than, you know, having to write everything down and then send it to them. You can actually do an Excel sheet.

**Michael O'Neil** [06:19]

So you mean when you're creating the service call, you put the technician right there on the resource instead of when you go to the segment section and add them there?

**Michael O'Neil** [06:34]

No, I actually do it on both. When you add them here on the header,

**Michael O'Neil** [06:37]

Yeah, that's what I'm saying,

**Michael O'Neil** [06:39]

Yeah, so on this header screen, when you add the resource here, that will populate it to this screen where you can see who's actually working on it. Because right now you just have Garrett in here one time, which he might be the only one working on this account.

**Michael O'Neil** [06:41]

yeah. Mm-hmm.

**Michael O'Neil** [06:45]

Gotcha.

**Michael O'Neil** [06:56]

That was Paul who created that one, so he added it there.

**Michael O'Neil** [06:57]

But yeah, so it helps you guys.

**Michael O'Neil** [07:04]

When you're looking at your service calls for the day. So let me

**Michael O'Neil** [07:10]

pull up ours. I'm going to open a new screen here.

**Michael O'Neil** [07:18]

Let's see how ours looks when all our service calls. We actually don't have them anyway. We got some big jobs, but we don't have a lot of service calls. Yeah, we only got 39 going right now.

**Michael O'Neil** [07:31]

So, like here you can see I got Drew, Gavin, Drew, Brady. I can see on all these calls who he's actually working on.

**Michael O'Neil** [07:38]

Oh, I see what you're saying,

**Michael O'Neil** [07:41]

So then if I just want to break it down by Drew,

**Michael O'Neil** [07:41]

yeah. I see.

**Michael O'Neil** [07:47]

who usually has the most because he's our on-site tech for Sterling Steel, that's all his calls. So then I can hit export through Excel.

**Michael O'Neil** [07:53]

I see. I see.

**Michael O'Neil** [07:56]

It'll give me an Excel spreadsheet and then I can send that to him and say, hey, you've got some old ones here, we need to get closed out.

**Michael O'Neil** [08:03]

I see. I see what you're saying.

**Michael O'Neil** [08:04]

Yeah, so it just helps keep track of everything. And again, if you want to send them an email every Monday or whenever for them to review so they know, hey, I've got some old ones, I need to finish these up or whatever.

**Michael O'Neil** [08:20]

Gotcha, gotcha.

**Michael O'Neil** [08:22]

OK, so close that out. OK, so let's see.

**Michael O'Neil** [08:30]

Let me see. So that's that. So yeah, I still add them on the hour line too, though, because you kind of have to. Otherwise, they don't see it in their job queue.

**Michael O'Neil** [08:43]

Although you seem to be working on this one. Oh,

**Michael O'Neil** [08:48]

Which one?

**Michael O'Neil** [08:50]

that's Robert. I'm sorry.

**Michael O'Neil** [08:52]

Sorry, wrong guy. Okay. So on this one, I was looking at this one. First thing down here under your miscellaneous fees, the only fee that we do now is miscellaneous shop supplies. We don't add a fuel surcharge. We don't add a PM surcharge, any of that stuff anymore. Everything is run under just miscellaneous shop supplies.

**Michael O'Neil** [09:18]

Yeah, that's what Nick was telling us yesterday.

**Michael O'Neil** [09:20]

Yep. So he sent you the matrix and everything. We do it a little differently here.

**Michael O'Neil** [09:27]

We just do, we take the total of the invoice and then we multiply that by 7% and then that's what we generally charge on each service call up to \$100. I don't go over \$100 because it's

**Michael O'Neil** [09:42]

To me, if you're going over \$100, and that means there's probably stuff on there you should bill out as a part and out of a miscellaneous shop supply. For me, miscellaneous shop supplies is nuts, bolts, washers, our rags,

**Michael O'Neil** [10:01]

basically all our expensable stuff that we wouldn't normally bill on a call.

**Michael O'Neil** [10:06]

Now, again, we are adding the fuel in there and stuff like that, but we just, as a personal principle, I just don't go over \$100. Some stores do, they'll charge \$150 as a shop supply. I generally don't, but you guys do whatever you want to do down there. But yeah.

**Michael O'Neil** [10:29]

So all that stuff, so you wouldn't charge any more fuel surcharge. I've seen there's grease. I've seen there's oil disposal fee. All that falls under miscellaneous.

**Michael O'Neil** [10:40]

And we only bill it one time. We don't bill it on every line. We just bill it one time as a total. Again, Gillette, Wyoming, he bills it on every line, a percentage on every line.

**Michael O'Neil** [10:51]

And that works for them. Their customers don't say anything, but we generally don't do that. We just do it as a one time. So, and again, that's up to you guys. If you want to build a little bit off on each line, you know, if that works for you guys, that's fine. But I just, I don't particularly like that because to me, it looks like I'm being repetitively charged for the same stuff.

**Michael O'Neil** [11:12]

But that's up to you guys. So that's, yeah, that's that. And then,

**Michael O'Neil** [11:13]

Yeah, yeah, yeah, most definitely.

**Michael O'Neil** [11:18]

Most definitely.

**Michael O'Neil** [11:23]

so I looked at the segment transactions here and you got labor at four hours. Now, from what Nick was saying is you guys are just filling your travel time, your work labor and everything under one, just under the one thing.

**Michael O'Neil** [11:39]

Yeah, if the customer is within the area, if it's not, depending on the mileage, we don't really add a travel segment.

**Michael O'Neil** [11:49]

Right. Yeah. So what I would do here, there's two things you can do here. When the tech puts in his time, which is going to be a little more on his side,

**Michael O'Neil** [12:01]

he can do a line on his pro time card with that ID number, but he would just change the field category to travel.

**Michael O'Neil** [12:13]

And it'll bill, you know, if he wants to bill half an hour travel and then he can put his field time and then if he's traveling back to the shop or whatever, he can do it again. So when you're back on this backside here, when we went into the segment transaction, so.

**Michael O'Neil** [12:31]

When I hit segment transactions here and then come back here, you can look at the customer's call and say, why am I being charged four hours for labor? Well, it was three hours to work on the machine and he had an hour of travel time.

And you'll be able to see that rather than it all show in the field. So that's one way you can do that.

**Michael O'Neil** [12:51]

So for us, if the customer is within either less than an hour from here,

**Michael O'Neil** [12:57]

I DON'T WANT TO SAY I DON'T CHARGE TRAVEL TIME. LIKE YOU, I DO. I'LL JUST BREAK IT OUT THAT WAY. BUT WHAT I USUALLY TEND TO TRY TO DO THEN IS, OKAY, WE'LL CHARGE -- SO WE'LL JUST SAY 30 MINUTES. I'LL CHARGE THEM 30 MINUTES OF TRAVEL TO GET THERE AND DO THEIR WORK. AND THEN IF HE'S GOING TO ANOTHER JOB AFTER THAT,

**Michael O'Neil** [13:20]

I'll charge 30 minutes to that next job. Or if he's coming back to the shop, then generally I'll just split with the customer. You pay the 30 minutes to get there, we'll take care of the 30 minutes coming back.

**Michael O'Neil** [13:34]

Just to make it a little easier for them to swallow.

**Michael O'Neil** [13:38]

And then

**Michael O'Neil** [13:40]

Depending on the customer, because I have some customers that want to see travel, even if it's 15 minutes, then yes, I will add an extra line down here and then put the travel on there as well. So I'll put the travel time there. Again, it depends on the customer preferences. It sounds like this customer may want to see that.

**Michael O'Neil** [13:52]

Okay. Okay.

**Michael O'Neil** [14:00]

Yeah, this is the only customer,

**Michael O'Neil** [14:03]

Yeah. So that might be something that you have to do for these guys is put a travel line and then your tech will have to put a half an hour or an hour or whatever it is on that line to break it out. The other thing that sometimes I do if it's a really good customer because I believe travel builds out the same price as regular labor is

**Michael O'Neil** [14:16]

really. Okay.

**Michael O'Neil** [14:28]

Sometimes I'll go in on the backside and change the labor rate for travel to, you know, we'll say 176 just because he isn't really doing nothing but driving. So we're still more than covering our costs, but it kind of looks to them, it looks like, you know, you're giving them a

**Michael O'Neil** [14:48]

A decent price to get there and not charging them full labor rate. Whereas, you

**Michael O'Neil** [14:53]

Okay. So did you just flat write it or like...

**Michael O'Neil** [14:56]

know, you can flat rate it if that works. There's a way to come into the segment transactions here and I could click this and then there's about 20 steps I can do in here to change that from change the T27 here, change that to 176, but it's a lot of steps.

**Michael O'Neil** [14:58]

Okay.

**Michael O'Neil** [15:13]

So, easiest way, if you want to flat rate it, you can.

**Michael O'Neil** [15:18]

So,

**Michael O'Neil** [15:23]

yeah, so that's the main thing. It's just one fee, no extra fees, and then either have your text

**Michael O'Neil** [15:32]

change the line category to add the traveler. It'll still bill out onto this segment, but you'll just see it here.

**Michael O'Neil** [15:37]

Yeah.

**Michael O'Neil** [15:39]

That'll say travel and then field time. Again, it's an extra step for them, but, you know.

**Michael O'Neil** [15:43]

Right. It'll break it down also in the actual invoice, right? Whenever you're crazy.

**Michael O'Neil** [15:48]

No, it'll still show it. No, it'll still show it's just labor under the job. It'll still show it won't actually break it out.

**Michael O'Neil** [15:59]

But you'll be able to see if the customer calls and like, yeah, he had, you know,

**Michael O'Neil** [16:04]

You know, he had an hour to get there. Or if he had to leave the job to go get parts and come back, you can have him do it that way, too. That way, you know, when in their notes, hopefully they put that down to, hey, I got there, found all this. I had to run to, you know, A, B and C place to get hoses made and everything. You would be able to say, hey, yeah, he had to leave for two, you know, an hour and a half.

**Michael O'Neil** [16:26]

I THINK I WANT TO GO GET HOSES MADE SO HE CAN PUT IT AS TRAVELERS THAT WAY TOO.

**Michael O'Neil** [16:31]

Gotcha.

**Michael O'Neil** [16:32]

OR YOU CAN JUST ADD AN EXTRA LINE ON IT, WHICH TO ME IS ACTUALLY EASIER. I LIKE TO ADD THE EXTRA LINE ON IT. IF I KNOW THEY'RE GOING TO BE LEAVING, YOU KNOW, IN THEIR NOTES THEY SAID THEY HAD TO GO SOMEWHERE

**Michael O'Neil** [16:46]

And you know, it took them, you know, the closest hose place was 25 minutes away when now you got 50 minutes of travel time to go get a hose made.

**Michael O'Neil** [16:55]

You can show it that way as well.

**Michael O'Neil** [16:57]

Okay.

**Michael O'Neil** [16:58]

So, and it's kind of, you know, it's going to be really what works for you guys. You might have to experiment a little bit, but again, it sounds like with this customer, they're wanting to see breakouts on everything.

**Michael O'Neil** [17:12]

Okay. Yes, sir. Yes, sir. Well, and the reason why, you know, like the fees that we were charging,

**Michael O'Neil** [17:20]

And those, when Job was still here, like, I think it was like a month before he got let go, you know, there was a template that was sent out with a fee matrix. And so that's what we were using. After that, we didn't hear anything else, you know.

**Michael O'Neil** [17:31]

Yeah. Yep.

**Michael O'Neil** [17:39]

Yep. Yeah.

**Michael O'Neil** [17:40]

I'm not sure how to do that in regards to fees or anything like that or how to break it down like that. So that's why even for PMS, when you have a customer that is on a PM agreement and you create the PM and it will create for the lubricants and I think it's another fee.

**Michael O'Neil** [18:05]

And those cancel sometimes when you create the service call and you open it, it'll cancel it, but we have to go back and reopen them again. So that's one thing that she was saying. But Nick said to just go ahead and charge everything under just one end. So that's what I'll be doing.

**Michael O'Neil** [18:21]

Yep. Yep. So you can delete those two off of there and then just add the miscellaneous shop supply.

**Michael O'Neil** [18:28]

I DON'T KNOW IF HE GAVE YOU THAT ONE, BUT THERE IS ONE FOR PMS THAT THOSE ARE ACTUALLY FLAT RATED, WHAT THE SERVICE CHARGES ARE, OR THE MISCELLANEOUS FEE IS. I DON'T KNOW IF HE GAVE YOU THAT ONE OR NOT, BUT IF HE DIDN'T, I CAN SEND IT TO YOU.

**Michael O'Neil** [18:46]

So the one that he sent me is actually, it's for PM.

**Michael O'Neil** [18:53]

I don't know if there's anything else for like a regular service call. All I have...

**Michael O'Neil** [18:58]

I think there is. Let me write this down so I can find it. I'll put C matrix. I'm pretty sure there is. Like I said, with us, we just do 7% of the total and then just don't go over \$100, but you guys, you know,

**Michael O'Neil** [19:20]

You guys know your customers better down there. If they're willing to pay a little more, then you can charge them a little more. Yeah.

**Michael O'Neil** [19:26]

Oh, trust me, with the other fee matrix that I was utilizing, I had customers paying up to like \$250 on fees.

**Michael O'Neil** [19:34]

Yeah. Yeah. That's getting excessive. I mean, if it's a huge, huge job that, you know, I've gone over 100. If it's a, you know, seriously huge job where we're out there for two weeks doing stuff.

**Michael O'Neil** [19:48]

Then yeah, we're going to charge a little bit more. But if it's a one day job, then no, there's no reason to charge that much. So you just got to use your best discretion. Once you get in there and start doing them, you'll kind of like, oh yeah, I know I can charge this guy this or this job took forever. Yeah, we can charge a little more. Okay, so that's that.

**Michael O'Neil** [19:58]

Yes, sir. Most of the time.

**Michael O'Neil** [20:13]

Let me see. There was one. I was looking at a quote, you guys. Let me see if I can find it

**Michael O'Neil** [20:21]

because it was something that kind of caught my eye.

**Michael O'Neil** [20:25]

Oh, this one here. Okay. So you're doing a quote for a TX360 for replacing the hydraulic pump. So one thing on that is

**Michael O'Neil** [20:41]

Let's see, I need to change screens I'm sharing.

**Michael O'Neil** [20:48]

All right, can you see this Taylor catalog I got pulled up here? Okay, so that pump is, let's see, 16, 17. So the other thing I would always quote when you're replacing these pumps is this gasket, because that's the gasket that goes between the pump and the engine.

**Michael O'Neil** [20:51]

Yeah. Yeah, yeah.

**Michael O'Neil** [21:05]

And if you've already got it out, you might as well just replace the gasket and put a new gasket in there as well. They're not that expensive. More often than not, when you take this apart, that gasket's probably going to be bad anyways. So when you're doing that stuff, I would always replace the gasket. And if you're doing like hoses and stuff,

**Michael O'Neil** [21:24]

Yes,

**Michael O'Neil** [21:26]

And you're ordering from Taylor. Sometimes the hoses come with the O-ring seals in them. Sometimes they don't. So you want to check that, make sure that the seals are in there. So looks like you guys already quoted this. But yeah, I would always, we always do that casket just because, like I say, most of the time it's,

**Michael O'Neil** [21:32]

sir. Right, right.

**Michael O'Neil** [21:46]

Needs to be replaced.

**Michael O'Neil** [21:47]

It's going to need to be replaced. And then this one here, I did notice that they flat rated the labor on.

**Michael O'Neil** [21:57]

So that come out to just under four hours, which I called my tech out of curiosity. And he's like, no, that's actually not bad. He says he can usually do them in about two and a half to three hours unless he's got one that wants to fight him.

**Michael O'Neil** [21:11]

Then it might take them a little longer. So that wasn't too bad. Usually when we do it, we'll put the hours in down here. So then it shows on, you know, what that does is it's kind of so that actually will affect this flat rating thing.

**Michael O'Neil** [22:30]

So if you put four hours here and then when he builds it out he has three and a half hours, well that actually helps his flat rate percentage go

**Michael O'Neil** [22:41]

up because he did it in less time than what we quoted. It's kind of like same as a PM. So that actually helps the service tech when you do that.

**Michael O'Neil** [22:44]

Yes, sir.

**Michael O'Neil** [22:51]

Yes, sir.

**Michael O'Neil** [22:54]

And then also

**Michael O'Neil** [22:58]

Since you're quoting, I would actually quote the miscellaneous shop supplies here as well. Again, it's just a transparency thing. You're trying to be as transparent as possible. You're not going to add it later. Who is this for? I think this was for

PERT or whatever they're called, Pre-Tech.

**Michael O'Neil** [23:08]

Yes, sir. Yes,

**Michael O'Neil** [23:11]

sir. Yes, sir.

**Michael O'Neil** [23:18]

So, yeah. So, again, with this customer now, you're being a lot more transparent with them.

**Michael O'Neil** [23:25]

So,

**Michael O'Neil** [23:29]

and then you can actually even, if you kind of got an idea, you can have your parts guy give you a freight estimate because it's going to be freight to ship this in. And you can add that onto your quote as well, too.

**Michael O'Neil** [23:31]

Mm-hmm.

**Michael O'Neil** [23:41]

Okay.

**Michael O'Neil** [23:43]

So the more on quotes, the more information and stuff you can give them, the better it is, you know, because then you're not going back saying, hey, oh, yeah, we got to bill you free. Oh, hey, yeah, we got to bill you this. Hey, we got to bill you that. You know, you know, I know it's a quote, but nowadays when you send someone a quote,

**Michael O'Neil** [24:01]

Yeah, but you want to be transparent.

**Michael O'Neil** [24:04]

Yeah, but when you send them the quote, they're going to say, hey, you quoted me this much and now you're charging me this much. Yes, it's a quote, but we still want to try to be, again, as transparent as possible. Sometimes \*\*\*\* happens and he goes to pull the pump out and all the hoses fall apart.

**Michael O'Neil** [24:24]

Rion, WIRELESS, REP, MICHAEL, COI, PRO.

**Michael O'Neil** [24:39]

Yes, sir.

**Michael O'Neil** [24:47]

Yes, sir. Understood.

**Michael O'Neil** [24:50]

So that's, I mean, honestly, that's kind of about it. Like I said, it just looked to me, it sounded and looked to me like these guys were just wanting things to be more visible to them.

**Michael O'Neil** [25:05]

Yeah, it's good. I can do that. It's not complicated. It's simple.

**Michael O'Neil** [25:07]

So, yeah, yeah. No, no, no. And if you've got any questions, I can walk you through one and show you. But I

**Michael O'Neil** [25:16]

Yeah, you should be able to handle it pretty easily. I have noticed that seeing what they do, the precast concrete, we have a couple we deal with, and I think they're struggling right now, too, because nobody's really buying anything. So they're kind of like, yeah, we call them for PMs, and they're like, well, we're going to stretch this out a little bit longer. We're not ready yet, which means they're probably not doing much right now. So...

**Michael O'Neil** [25:19]

Yeah, yeah, yeah.

**Michael O'Neil** [25:40]

Yeah, I think one of the issues that we're having over here is that

**Michael O'Neil** [25:45]

So there is two managers, right? And they, I think that they can't, seems like they can't see each other eye to eye. So when we're requesting service from one of them, the other one is not aware. So when the one that approves the, like, you know, the service calls or the invoices, when he gets them, he's questioning everything.

**Michael O'Neil** [26:10]

And so the other one is jumping into the email saying, hey, this is what happened, this is what it was done. And so there's a disagreement between the two and we're pretty much in the middle.

**Michael O'Neil** [26:22]

Yeah, that makes your job so much more fun, doesn't it? Uh-huh.

**Michael O'Neil** [26:22]

Oh

**Michael O'Neil** [26:24]

my God, have mercy, Lord. So yeah, so that's the issue that we're having with this account.

**Michael O'Neil** [26:34]

They're questioning pretty much. And it's only one person, but, you know, just this one person, you know, we gotta... And I'll break it down to them. I really, I just really wish that the communication, when it came to this, whenever, you know, like the fees and stuff like that, you know, it was, it would have been passed down.

**Michael O'Neil** [26:41]

Yep.

**Michael O'Neil** [26:56]

Yeah.

**Michael O'Neil** [26:59]

Yep. Well, as I said before, we can't change the past. We just got to move forward.

**Michael O'Neil** [27:04]

So, oh yeah, most definitely,

**Michael O'Neil** [27:06]

So we'll correct the mistakes that were done and we'll just keep moving forward. So. So. Yep.

**Michael O'Neil** [27:10]

man. Yes, sir. Yes, sir. Most definitely. So, now that I have you here, do you have a second to show me the posted hours?

**Michael O'Neil** [27:22]

Oh, yeah, yes.

**Michael O'Neil** [27:25]

I've got some service calls that are on tech complete.

**Michael O'Neil** [27:29]

OK. All right. So we're just going to go into approved labor.

**Michael O'Neil** [27:35]

If you don't have that, you can get it. Let me see. I think you guys are 133. Yeah. OK. So Nick said he's-- I asked him about showing you this. And he's like, well, I've been trying to go in every day and take care of it. But I also know he's busy too.

**Michael O'Neil** [27:53]

Okay.

**Michael O'Neil** [27:55]

So he did get last week, OK. So we'll just look at this one. Well, let me find one that actually has a job on it.

**Michael O'Neil** [28:04]

OK, this is a good one. So what you can do here-- so right now, he has it checked as calculated. So you see the little checkmark there. You just uncheck that.

**Michael O'Neil** [28:16]

And then you just go to each job line, not the clock in and out. So like this one, replace engine.

**Michael O'Neil** [28:22]

You click on line approved. It takes a second. And then you click on line transferred. And that'll go ahead and approve that time on that call.

**Michael O'Neil** [28:34]

And you just do that for

**Michael O'Neil** [28:34]

Line approve. And what was the other one? Line approve and

**Michael O'Neil** [28:39]

line transferred.

**Michael O'Neil** [28:40]

line transfer.

**Michael O'Neil** [28:43]

Gotcha.

**Michael O'Neil** [28:44]

And then do that for each project line that is an actual call. I wouldn't worry too much about your shop call.

**Michael O'Neil** [28:53]

I don't know if this is your shop call number, the 798722, but this one and this one, I would go ahead and do it that. And then when you're done, just go ahead and re-hit CALCULATED, and that'll close this back out so that no one comes in here and does a bunch of changes or anything.

**Michael O'Neil** [29:14]

And then Nick can still go in and look at it.

**Michael O'Neil** [29:15]

So I only do the...

**Michael O'Neil** [29:18]

Sorry. So I only do the ones that say like the service call numbers, not anything else. Okay.

**Michael O'Neil** [29:22]

Yeah. Right. Yep. And that way Nick can still come back in and approve and transfer everything, close it out, completely close it out for the day. You're not, you

**Michael O'Neil** [29:35]

know, in case there's a question, like he comes in and he's like, why has he got, you know, 10 hours on cleaning the floor? You know, he can see that if he wanted to call and question you or question the service tech, he can.

**Michael O'Neil** [29:49]

Gotcha. Okay. That's it?

**Michael O'Neil** [29:52]

So, yeah, that's all there is to it. You can just do that and then, like I say, once you approve it and transfer it, then it approves it on a service call and you should be able to go and close them out.

**Michael O'Neil** [30:04]

Oh, okay.

**Michael O'Neil** [30:05]

Yeah. Yeah, it's literally that simple.

**Michael O'Neil** [30:06]

Okay. So once you approve it, does it show right away or does it take like for the next day to...

**Michael O'Neil** [30:16]

No. No, it's...

**Michael O'Neil** [30:18]

Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael,

**Michael O'Neil** [30:28]

Okay. Okay, man, this whole time. Okay. Got it, got it, got it, got it. Okay. Yeah, because I have a bunch of them that are still sitting there, and then there was some for, like, the monthly service calls.

**Michael O'Neil** [30:31]

Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion,

**Michael O'Neil** [30:33]

COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy,

**Michael O'Neil** [30:38]

REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion, COI,

**Michael O'Neil** [30:47]

WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS, Michael, Jeremy, REP. Rion,

**Michael O'Neil** [30:47]

Yeah, like the monthly service calls.

**Michael O'Neil** [30:51]

I waited and waited and waited on my previous manager and I was closing out the month by the 13th of every month almost. So,

**Michael O'Neil** [30:57]

COI, WIRELESS, Michael, Jeremy, REP. Rion, COI, WIRELESS,

**Michael O'Neil** [31:04]

Michael, Jeremy, REP. R

**Michael O'Neil** [31:07]

yes, I

**Michael O'Neil** [31:10]

kept on sending emails and telling me, hey, I need these hours posted. I need you to take a look at this.

**Michael O'Neil** [31:18]

Man, it's just, Lord have mercy. So,

**Michael O'Neil** [31:22]

Sooner or later, we're going to find you a good one.

**Michael O'Neil** [31:27]

but, man, I hope so. I hope so.

**Michael O'Neil** [31:28]

So actually, I'm glad I got you on the phone. So I know you were talking about reapplying for this job and Nick said he's going to kind of hang off a little bit and get things smoothed out. So while you have time, what I would do if I were you...

**Michael O'Neil** [31:47]

Let's go to Talent Development. Let's

**Michael O'Neil** [31:57]

I was supposed to do one, and they canceled it. And they postponed it to, like, December, if I'm not mistaken.

**Michael O'Neil** [32:09]

see. Yeah.

**Michael O'Neil** [32:15]

All right.

**Michael O'Neil** [32:18]

So, yeah, I would come in here to the Talent Development screen and

**Michael O'Neil** [32:25]

There's some good kind of quick managerial classes.

**Michael O'Neil** [32:33]

Yeah, I was supposed to take one, I think it was in April or the beginning of April. I was supposed to do one and then the lady canceled it and she moved it down to like December.

**Michael O'Neil** [32:38]

Yeah. Yep.

**Michael O'Neil** [32:46]

Yeah. Yeah, I was, I mean, any of these easy kind of management, you know, giving feedback,

**Michael O'Neil** [32:57]

This one here, navigating from Bud to Boss. I start looking at jumping in those and just \*\*\*\* up all the ones you can. And then when he comes back for interview time and he's like, hey, you know, you're like, hey, while we're transitioning, I took it upon myself and started hitting these, you know, these one and two hour classes to develop my skills to, you know, show them you're serious.

**Michael O'Neil** [33:22]

That you're not just sitting there waiting for him, that you're taking the initiative to do the things you think at least you need to do to get to that point. Because that, I'll be honest with you, that's something Nick very much likes when guys take initiative without having to be told.

**Michael O'Neil** [33:23]

Okay. Yes, sir.

**Michael O'Neil** [33:39]

Yes,

**Michael O'Neil** [33:40]

So, you know, in your case, that's what I would do is start, you know, don't overwhelm yourself, but yeah, and try to grab whichever one you can get into and

**Michael O'Neil** [33:49]

You know, start laying that foundation that you're putting the effort into show that you really want to do this job.

**Michael O'Neil** [33:57]

sir. Yes, sir. Yes, sir. Most definitely. I appreciate that. Yes, sir.

**Michael O'Neil** [33:58]

So,

**Michael O'Neil** [34:00]

yeah. So, I mean, I think you can do it. You're going to need a little guidance for a little while. And, you know, the main thing, you know, this class moving from bud to boss, that should be a good one because, you know, guys do have that problem when they transition from, you know,

**Michael O'Neil** [34:16]

And I think that's a lot of people who are in charge now, because before you were kind of their friend and they could come talk and blah, blah, blah. And now you're the boss. And that does change the dynamics. So you've got to understand how to navigate that, you know, without alienating everybody, but at the same time, letting them know that, hey, I'm the guy in charge now.

**Michael O'Neil** [34:40]

Yes, sir. Yes, sir. Yes, sir. No, I'm not different.

**Michael O'Neil** [34:40]

So, you know, some guys can do that. Some guys have a hard time with that.

**Michael O'Neil** [34:46]

So, yeah. Yeah, but you don't want to go too extreme to the other side. You guys already experienced that. So, you got to find, again, you got to find that balance.

**Michael O'Neil** [34:46]

Oh, I don't.

**Michael O'Neil** [34:48]

I don't.

**Michael O'Neil** [34:53]

Yes,

**Michael O'Neil** [34:56]

sir. Yeah, exactly. There's a balance. There's a balance. There's a balance. When you're coming down.

**Michael O'Neil** [34:57]

So, yep.

**Michael O'Neil** [35:03]

So, as far as I know, I'm not.

**Michael O'Neil** [35:07]

Unless Nick tells me I need to come down, I'm not. I mean, I will if he wants me to. I called him as soon as I saw that they let Paul go. I'm like, hey, if you need me to go down there again to help out with stuff, I'll be happy to. And he said, no, he's going to kind of run with it this time, but he'll reach out like he did with this. And, you know, he said, if I do need stuff, I will call you, though. And I'm like, yeah, that's fine.

**Michael O'Neil** [35:29]

So, a lot of times I just sit here and \*\*\*\* up the sunlight, so why not?

**Michael O'Neil** [35:30]

Yeah. No, yes, sir.

**Michael O'Neil** [35:35]

I KNOW HE SHOWED UP YESTERDAY. HE SHOWED UP YESTERDAY AND HE WAS JUST TELLING US ABOUT THE FEES AND ALL THAT STUFF. JUST A LITTLE BIT OF NOTES.

**Michael O'Neil** [35:41]

Yeah.

**Michael O'Neil** [35:55]

Yep. So, so.

**Michael O'Neil** [36:06]

I just held the obligation of

**Michael O'Neil** [36:10]

everybody here. And it's like pretty much they respect it. They know where I stand. They know how I am.

**Michael O'Neil** [36:18]

I'm busy with customers trying to do some marketing to expand this business. I'm doing what I can. Whether I jump in, whether I get the position or not, that's just who I am.

**Michael O'Neil** [36:37]

Hey, I don't know where you moved to, but you're kind of in a dead spot. You keep breaking up.

**Michael O'Neil** [36:43]

I'll try to get something.

**Michael O'Neil** [36:45]

Oh, there you go. Okay. Now I can hear you.

**Michael O'Neil** [36:46]

There you go.

**Michael O'Neil** [36:49]

Yeah. Yeah, so we're doing what we can.

**Michael O'Neil** [36:51]

So, yeah.

**Michael O'Neil** [36:55]

All right, yeah. Like I said, though, I would definitely try to jump on those workshops when you can and, you know, hit the ones you can, but again, don't overwhelm yourself, but show that you are personally taking the initiative that, you know, hey, I really want this.

**Michael O'Neil** [37:11]

I jumped on all these trying to get that experience to

**Michael O'Neil** [37:15]

You know, prove that I'm not just here for the money that I actually want to do and I'm willing to put the work in.

**Michael O'Neil** [37:22]

Yes, sir. Most definitely. Most definitely. All right, Michael. I appreciate it, man. I sure will, man. Same here. Okay. All right. Bye.

**Michael O'Neil** [37:23]

So. All right. Yep. Yep. Reach out anytime.

**Michael O'Neil** [37:31]

Talk to you later.

## Inbound call from TRIMARK PROP

April 29, 2026 | 02:18 PM | Duration: 2m 15s | From: TRIMARK PROP | To: +16412017881

Inbound

Neutral

### AI SUMMARY

The conversation between Nick Korth (Technician, TRIMARK) and DJ from TRIMARK focused on troubleshooting a Big Joe machine.

### FULL TRANSCRIPT

**TRIMARK PROP** [00:00]

This call is being recorded.

**Nick Korth** [00:05]

Thanks for calling, Ryan. Come in,

**TRIMARK PROP** [00:07]

Hey Nick, DJ at TRIMARK, how are ya?

**Nick Korth** [00:10]

Nick. Yeah, do you?

**TRIMARK PROP** [00:11]

Not too bad, not too bad. Hey, um, I was just, you know, curious if you could give me some ideas to troubleshoot on this thing. I guess I didn't necessarily need somebody to come over, but...

**Nick Korth** [00:25]

Okay. Yeah, that's what I was going to do. You know, reading your email to Ryan to me this morning, I was just getting my head wrapped around it, just trying to... And I called one of my technicians who kind of works on the Big Joe just to see, and he actually doesn't... I thought maybe he had a scan to like a Zappy or some kind of handheld to hook up to him, but he says no. Usually...

**TRIMARK PROP** [00:33]

Right.

**Nick Korth** [00:44]

You know, 90% of the time he finds broken wires or a bad sensor or whatever. So my plan was to get the serial number from you and then contact Big Joe Direct since we are a dealer for him and rattle their, you know, technical brain and then give you the information or the tools, you know. So, of

**TRIMARK PROP** [00:58]

Right.

**TRIMARK PROP** [01:00]

Yeah, and I mean, I have a ZAPI controller that we use to program these things. We basically detune them, slow them down, and all that stuff for safety. But, yeah, I'll take a picture of the nameplate on it here, and it just...

**TRIMARK PROP** [01:20]

It's funny that error codes in the manual that we have, but there's nothing to troubleshoot, no information, right? Yeah, so. Oh, I know, I know. And I really don't want to just start throwing parts at it. Hopefully they can give us some things to try or check out.

**Nick Korth** [01:24]

course.

**Nick Korth** [01:28]

Right. Uh-huh. You got to love OEM sometimes. I'll just tell you that right now.

**Nick Korth** [01:35]

Uh-huh. Right.

**Nick Korth** [01:43]

Right. Yeah, that was my plan. I was going to, yeah, before I sent a technician over, I was going to, obviously your email says, you know, you guys have been working on your own stuff and whatnot. I was just going to, you know, be the bridge to help you out between the two, you know, just to give you some information on it. So.

**TRIMARK PROP** [01:44]

Alright. Okay,

**TRIMARK PROP** [01:57]

I'll shoot a picture of that over to you here shortly.

**Nick Korth** [02:01]

Okay. Appreciate it, DJ. Yep. Have a good one. Bye.

**TRIMARK PROP** [02:02]

Thanks, Nick. Yep, bye.

---

CALL 298 OF 611

## Inbound call from IRWIN ANTHONY

April 29, 2026 | 02:17 PM | Duration: 6m 8s | From: IRWIN ANTHONY | To: +14026440781

Inbound

Positive

### AI SUMMARY

During the call, IRWIN ANTHONY (Customer, Caller) sought confirmation on the correct filters needed for a forklift service.

### FULL TRANSCRIPT

**IRWIN ANTHONY** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Rion, equipment, this rod.

**IRWIN ANTHONY** [00:06]

Rod, hey, it's bad at TMS. Just, I'm fixing to do a service on one of the forklifts, and I'm just trying to make sure I got all the right filters here. Serial number 49270.

**IRWIN ANTHONY** [00:25]

Okay.

**IRWIN ANTHONY** [00:28]

So the hydraulic and transmission ones,

**IRWIN ANTHONY** [00:32]

I've got a 4071967.

**Rodney Meier** [00:48]

Okay.

**IRWIN ANTHONY** [00:49]

5277-307. But then there's one that's showing up, a 3939-9540 that I'm not sure if that's correct. I was just wondering if you make sure I'm correct on those other two and if that one is

**Rodney Meier** [01:02]

3939.

**IRWIN ANTHONY** [01:05]

what, 9540?

**Rodney Meier** [01:07]

That doesn't sound right. Usually it's just three digits after the first four.

**IRWIN ANTHONY** [01:14]

Oh, 954.

**Rodney Meier** [01:37]

Well, the 3939954 is a transmission.

**Rodney Meier** [01:51]

You said the other one was 6277307?

**IRWIN ANTHONY** [01:56]

5277-307.

**Rodney Meier** [02:02]

That'd be why it's not coming up.

**Rodney Meier** [02:13]

Yeah, and that's a cartridge filter.

**Rodney Meier** [02:17]

Yeah, it's an element for a 24-oh-fun 760.

**Rodney Meier** [02:35]

Yeah, those should all be the right filters.

**IRWIN ANTHONY** [02:38]

Okay. And fuels, other than the one that goes in the ball, are nothing weird.

**Rodney Meier** [02:44]

Yeah, shouldn't be.

**IRWIN ANTHONY** [02:51]

That 39-39-954. What is that one? How much is that one?

**Rodney Meier** [03:02]

Showing me 110-65.

**IRWIN ANTHONY** [03:12]

You don't have that one in Omaha, do you?

**Rodney Meier** [03:14]

I do not. I have eight of them in Gillette, Wyoming, but I don't have any in Omaha.

**Rodney Meier** [03:22]

I was thinking I had some at one time because I think that's the same one that said Volcraft in their machines.

**Rodney Meier** [03:34]

'Cause I ordered three of 'em last month, probably for them, I'm guessing.

**Rodney Meier** [03:45]

'Cause I think they were getting ready to do some. Yeah, and then I must've ordered, yeah, I ordered some in January also.

**Rodney Meier** [03:55]

So I stocked 'em until we shipped 'em to Omaha, then they quit stocking 'em.

**Rodney Meier** [03:59]

I mean, I can suggest that he stocks them down there so we have some. Because, I mean, Volcraft uses them too, so it's not like nobody's going to use them.

**IRWIN ANTHONY** [04:08]

Mm-hmm.

**Rodney Meier** [04:14]

I'll make a note of that and have my guy in Omaha keep about three of them on the shelf

**Rodney Meier** [04:23]

so they'll be easier access. Because I did stock them when I had parts up here.

**Rodney Meier** [04:35]

But I mean, I can get one for you next day out of Gillette. They're pretty good about shipping out next to air if you need one right away.

**IRWIN ANTHONY** [04:36]

No change.

**IRWIN ANTHONY** [04:53]

Yeah, let's do that.

**Rodney Meier** [04:55]

Okay.

**IRWIN ANTHONY** [04:56]

Yeah, it's not a new core forklift, so I will just charge them for it.

**Rodney Meier** [05:00]

Yeah, there you go. Well, on the overnight freight on just that one filter, we're looking at like 23 bucks.

**IRWIN ANTHONY** [05:07]

Okay. Yeah, that's not horrible.

**Rodney Meier** [05:08]

It's not that expensive for one little one like that.

**IRWIN ANTHONY** [05:13]

Okay. Yep, if you would do that, I will.

**Rodney Meier** [05:17]

Okay, and go ahead and get those other parts ordered, get them coming.

**IRWIN ANTHONY** [05:22]

Yes, please, and I'll get

**Rodney Meier** [05:23]

Okay, all right. Yeah, there's the one part, the first one on the list, they didn't have in Mississippi. They have it in one of the other facilities. So I will ship that on UPS because it's only 10 pounds. So that should be there at least.

**IRWIN ANTHONY** [05:25]

the, I'll get a PO going for them.

**Rodney Meier** [05:41]

If not before the other parts on truck.

**Rodney Meier** [05:46]

But I will get them on their way.

**IRWIN ANTHONY** [05:49]

All right, thank you.

**Rodney Meier** [05:51]

All right. You bet. Thanks, Matt. Bye.

**IRWIN ANTHONY** [05:52]

Yep, bye.

CALL 299 OF 611

## Inbound call from MIKE SMITH

April 29, 2026 | 02:06 PM | Duration: 1m 30s | From: MIKE SMITH | To: +15152995624

Inbound

Positive

### AI SUMMARY

During the conversation, Mike inquired about a purchase order for replacing hoses, and Adam quickly facilitated this by providing the necessary PO number and pricing information.

### FULL TRANSCRIPT

**MIKE SMITH** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Alright, this is Adam.

**MIKE SMITH** [00:06]

Hey, Adam, this is Mike. Can you give me a PO for Tompkins?

**Adam Henderson** [00:07]

Hey, what's going on?

**Adam Henderson** [00:10]

Yeah. Get the record right here.

**MIKE SMITH** [00:17]

It's going to be for that Will Scott one.

**MIKE SMITH** [00:20]

Replacing the hoses.

**Adam Henderson** [00:23]

Okay. You got a price already.

**MIKE SMITH** [00:27]

I do. It's 112.55.

**Adam Henderson** [00:32]

Okay.

**MIKE SMITH** [00:34]

And then I also got some zip ties on there. There's two hoses and then zip ties.

**MIKE SMITH** [00:41]

I used about 30 or 40 zip ties is what I cut off of it. So I'm like, eh, I don't have that many in my van. So I figured I'd get them here.

**Adam Henderson** [00:49]  
OK. Yeah. P.O.

**Adam Henderson** [00:54]  
number

**Adam Henderson** [01:05]  
1141084.

**MIKE SMITH** [01:13]  
Perfect. That'll work. Thank you.

**Adam Henderson** [01:16]  
Yeah, no problem.

**MIKE SMITH** [01:17]  
Bye.

CALL 300 OF 611

## Inbound call from HUERKAMP KURT

April 29, 2026 | 01:47 PM | Duration: 5m 59s | From: HUERKAMP KURT | To: +13203427815

Inbound

Neutral

### AI SUMMARY

The conversation began with Miranda Wright (Sales rep) reaching out to confirm the correct parts for a throttle body and position sensor with Kurt Huerkamp.

### FULL TRANSCRIPT

**HUERKAMP KURT** [00:00]  
This call is being recorded.

**Miranda Wright** [00:05]  
Rion, I'm coming with this Miranda.

**HUERKAMP KURT** [00:07]  
Yeah, this hurts my car,

**Miranda Wright** [00:09]  
Oh, hey, Kurt. Sorry, I was trying to beep in. I'm like, what's going on? I just wanted to give you a call. So I left you or I sent you an email. I just wanted to verify. I just want to make sure that I'm recording out the correct parts. So I sent you an email just of the visuals just to verify that that's the right part just before I send over a price change. Okay. Okay.

**HUERKAMP KURT** [00:13]  
though. Okay.

**HUERKAMP KURT** [00:29]  
Let me try and pull it up here quick.

**HUERKAMP KURT** [00:42]  
Miranda?

**Miranda Wright** [00:43]  
Yes, yep,

**HUERKAMP KURT** [00:44]

Yeah, that looks like the right one.

**Miranda Wright** [00:46]

yep, the right throttle body, and I see that there was the, it's the assembly, and then,

**HUERKAMP KURT** [00:49]

Yeah.

**HUERKAMP KURT** [00:54]

I think number one is

**HUERKAMP KURT** [00:57]

it? Should be.

**Miranda Wright** [00:58]

yep, it should be the one that, let me go in there, and

**HUERKAMP KURT** [01:04]

Yeah, it looks like the right one.

**Miranda Wright** [01:06]

yeah, and then I see number five,

**Miranda Wright** [01:09]

Is a harness sensor. And the one I sent you, if you go below it, it'll say like position sensor. That's the sensor that came up when I typed in that 911A number that you provided me.

**HUERKAMP KURT** [01:19]

Yeah, that looks right. That looks right, the sensor.

**Miranda Wright** [01:23]

Okay, so both those two. That position sensor and then the thoroughbred that I sent.

**Miranda Wright** [01:32]

Okay, since I have you, I'll just go ahead and type in the numbers. I'll just give you pricing availability quick.

**Miranda Wright** [01:46]

Alright, so that position sensor is

**Miranda Wright** [02:01]

\$188.29. Let me see if anybody has

**Miranda Wright** [02:13]

it.

**HUERKAMP KURT** [02:25]

Do we have an account with you guys yet or not?

**Miranda Wright** [02:28]

I can look at that too, just to verify.

**HUERKAMP KURT** [02:32]

We have to get a better pricing or not.

**Miranda Wright** [02:45]

Let me check.

**Miranda Wright** [03:05]

Yeah,

**Miranda Wright** [03:11]

no, I'm not seeing your account because it's Cockle Truck out in Rice, Minnesota, right?

**Miranda Wright** [03:26]

1830 115th Street, NW.

**Miranda Wright** [03:31]

Yeah, I'm not seeing it in our system, so we'll have to create a particular system.

**Miranda Wright** [03:41]

And then that position sensor, I can transfer that in from the wrong location as the vendor does not have any of those available.

**Miranda Wright** [03:51]

Let me check that throttle body quick.

**Miranda Wright** [04:20]

Okay.

**Miranda Wright** [04:31]

And then that throttle body is going to be \$382.25. And then that is available through the factory.

**HUERKAMP KURT** [04:54]

And that's our cost on it.

**Miranda Wright** [04:56]

Correct, yup, that \$382.25 for the thrower body, that's your cost, and then as well as that \$188.29 for that sensor that I have also listed below in that photo, that's also your cost. And it looks like both of those I can pull from another, have those transferred to you from another Rhine location.

**HUERKAMP KURT** [05:12]

Okay.

**HUERKAMP KURT** [05:20]

Let me talk to the boss man here, see what he wants to do. MMLGVH, go back here. Is there a direct number to you or just...

**Miranda Wright** [05:27]

Yes, yep, that 320-342-7815 is my direct.

**HUERKAMP KURT** [05:33]

Is that the one that I called or

**HUERKAMP KURT** [05:37]

what did I call? 3427815.

**Miranda Wright** [05:37]

Let me check.

**Miranda Wright** [05:42]

Yep, yep, that's the one you called,

**HUERKAMP KURT** [05:43]

Okay. Sounds good.

**Miranda Wright** [05:45]

yep. All right, I'll wait to hear back from you.

**HUERKAMP KURT** [05:45]

I will.

**HUERKAMP KURT** [05:47]

All right. Thanks. Bye.

**Miranda Wright** [05:48]

Yes, you're welcome, bye-bye.

### AI SUMMARY

The conversation involved Greg from Ziegler Inc. reaching out to Miranda Wright to request a seat switch for their forklift.

### FULL TRANSCRIPT

**ZIEGLER INC.** [00:00]

This call is being recorded.

**Miranda Wright** [00:03]

Rion, come with us. It's

**ZIEGLER INC.** [00:05]

Good morning, Miranda. This is Greg at Ziegler in St. Cloud.

**Miranda Wright** [00:09]

Miranda. Hey, Greg, how you doing?

**ZIEGLER INC.** [00:10]

Pretty good. How's it going for you over there?

**Miranda Wright** [00:13]

It's going good.

**ZIEGLER INC.** [00:14]

That's good. See, I got a forklift that needs some parts. It's our shop forklift. And what we're looking for is the seat switch under the seat cushion. And if we have to buy the seat cushion, we will get the whole thing.

**Miranda Wright** [00:15]

Yeah.

**Miranda Wright** [00:27]

OK, the seed switch.

**Miranda Wright** [00:34]

Perfect. I can definitely take a look. What's the serial number?

**ZIEGLER INC.** [00:38]

Let me check, make sure I got the right number here. Serial number is A as in Apple, T as in Tom, 13, F as in Frank, 01410.

**Miranda Wright** [00:52]

Perfect. OK, you're just looking for that seed switch.

**ZIEGLER INC.** [00:55]

Yep. And the model of that machine should be a P as in Penny, 6000.

**Miranda Wright** [00:56]

Perfect.

**ZIEGLER INC.** [01:03]

It's a cat.

**Miranda Wright** [01:03]

OK. Perfect. OK. I will take a look and I will send over pricing availability.

**ZIEGLER INC.** [01:10]

Sounds good. Thank you.

**Miranda Wright** [01:11]

Yeah, you're very welcome. Bye-bye.

**ZIEGLER INC.** [01:13]

All right. Yeah, bye.

CALL 302 OF 611

## Inbound call from ROGERS DANIEL

April 28, 2026 | 09:55 PM | Duration: 4m 22s | From: ROGERS DANIEL | To: +13072280501

Inbound

Negative

### AI SUMMARY

Rogers Daniel called to address an issue with incorrect cables received, confirming with Lisa Kleeman that the cables were mispackaged.

### FULL TRANSCRIPT

**ROGERS DANIEL** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:03]

Good afternoon, Rion Equipment. This is Lisa. How can I help you?

**ROGERS DANIEL** [00:08]

- Lisa, your favorite guy in Buffalo.

**Lisa Kleeman** [00:11]

How are you?

**ROGERS DANIEL** [00:12]

- Not worth a \*\*\*\*.

**Lisa Kleeman** [00:13]

Well, why not?

**ROGERS DANIEL** [00:15]

'Cause them cables are wrong.

**Lisa Kleeman** [00:17]

Well, did you get my email that I sent you?

**ROGERS DANIEL** [00:23]

I did, but I just spent 20 minutes on the phone with Blake Williamson at Taylor. And he just called me back and he said, "You are 100% right. "Those are not the right cables."

**ROGERS DANIEL** [00:36]

So we need to get them back to you. You need to send both of these back.

**ROGERS DANIEL** [00:42]

And he's going to call both of us tomorrow and let us know in ETA.

**Lisa Kleeman** [00:47]

Okay. And he, does he have the proper cable number?

**ROGERS DANIEL** [00:54]

Nope. Well, so the number's right. The number's correct. But even in the parts breakdown, it says it's a quarter-inch cable, and the ones we keep getting are 5/16ths.

**Lisa Kleeman** [00:58]

Oh. Oh.

**ROGERS DANIEL** [01:06]

So he said, yeah, those cables are not the right one. He said, for sure. They went out in the warehouse. He got a guy on the phone. They started the next box. No, he didn't have one. But he said that they had a machine in there, and he said it is definitely not the right one. So Blake Williamson is who you want to...

**Lisa Kleeman** [01:24]

Oh. Okay. Yep.

**ROGERS DANIEL** [01:29]

I put attention to when these go back. And I've left Cotter a message to pick them up. I ain't heard from him whether, you know, I guess he's too lazy to pick them up, wait and ship them.

**Lisa Kleeman** [01:41]

Yeah, I have not, I am unsure of what my sales guys do. I don't pay attention to him. I got texts of my own everywhere from Idaho to North Dakota to here. And so I don't track him very well.

**ROGERS DANIEL** [01:52]

I get it.

**ROGERS DANIEL** [01:58]

Right. I sent him a message. He's got to drive by my shop every day to go to Gillette. So I thought, well, save somebody a nickel.

**Lisa Kleeman** [01:59]

Okay.

**ROGERS DANIEL** [02:08]

Okay, I'll call him tonight. I'll just call him right now and tell him to pick him up. Otherwise, if you don't want to handle it, I'll just send him over.

**Lisa Kleeman** [02:08]

Yeah. No,

**Lisa Kleeman** [02:12]

I... Okay.

**ROGERS DANIEL** [02:19]

Okay. So we're...

**Lisa Kleeman** [02:19]

All righty. And Blake is going to call us tomorrow or you guys?

**ROGERS DANIEL** [02:23]

Yep, he's going to call you and me.

**Lisa Kleeman** [02:26]

Okay. Okay.

**ROGERS DANIEL** [02:29]

He's very healthy.

**Lisa Kleeman** [02:32]

No, he is very, very helpful. I wish we could have him. That's all I can say. But that's... He's...

**ROGERS DANIEL** [02:39]

I know. Yeah, yeah, yeah, yeah, yeah.

**Lisa Kleeman** [02:42]

Unfortunately, he's not my guy. And anytime I have reached out to him, he has had to forward it to my guy. And I'm like, ugh. But, you know, we deal with what we deal with. But, yes, he is amazing. And he listens. He takes the extra time. He does everything. So, yeah.

**ROGERS DANIEL** [03:01]

Yep, 100%.

**Lisa Kleeman** [03:03]

Absolutely. I'm glad you got him.

**ROGERS DANIEL** [03:06]

So why we're doing this, let's order also part number 2705-124.

**Lisa Kleeman** [03:15]

27,

**Lisa Kleeman** [03:17]

124. Okay. And just one?

**ROGERS DANIEL** [03:21]

Yeah, that's just a new throttle pedal. Ours is getting pretty loose and goosey, so we'll just do that at the same time.

**Lisa Kleeman** [03:22]

Okay.

**Lisa Kleeman** [03:25]

Okay.

**Lisa Kleeman** [03:29]

No worries. All right. I'll wait for him to give me that part number so that I can get everything together together.

**ROGERS DANIEL** [03:31]

Okay. Well,

**Lisa Kleeman** [03:38]

And then hopefully, you know, Cotter will get a hold of you and we can get those other ones back too.

**ROGERS DANIEL** [03:45]

like I said, the part number is correct. It's just mispackaging.

**Lisa Kleeman** [03:51]

Missed packaging. Okay. Okay, I'll have to find out from...

**ROGERS DANIEL** [03:52]

Yep. Because my old cable has the same part number.

**Lisa Kleeman** [04:01]

Yeah, yeah.

**ROGERS DANIEL** [04:02]

Yep. So anyway, I think we got the battle one.

**Lisa Kleeman** [04:08]

Okay.

**ROGERS DANIEL** [04:12]

OK. Thank you, Lisa. All right.

**Lisa Kleeman** [04:13]

All right, thank you.

## Inbound call from LIUM JOHN

April 28, 2026 | 09:04 PM | Duration: 3m 55s | From: LIUM JOHN | To: +13072280501

Inbound

Positive

### AI SUMMARY

In a call between LIUM JOHN from JMAC Resources and Lisa Kleeman from Ryan Equipment, they addressed an issue regarding tracking details for a UPS freight shipment.

### FULL TRANSCRIPT

**LIUM JOHN** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:03]

Good afternoon, Ryan Equipment. This is Lisa. How can I help you?

**LIUM JOHN** [00:08]

Hi, Lisa. This is Chair with JMAC Resources or NDTransload out of Doran, North Dakota. Doing well. Thank you. I got tracking information for that UPS freight for that shuttle wagon, the tank fuel cell. However, I put it into UPS freight and it says it's not – doesn't exist.

**Lisa Kleeman** [00:13]

How are you?

**Lisa Kleeman** [00:28]

And I went through, I got the same thing. I emailed, hold on, let me get into my deal here, because he sent me a

**Lisa Kleeman** [00:46]

Shipped through XPO and it was delivered?

**LIUM JOHN** [00:53]

Delivered.

**Lisa Kleeman** [00:54]

Yes.

**LIUM JOHN** [00:56]

Where was it delivered to 121 48th?

**Lisa Kleeman** [01:00]

On Wednesday it was in transit, last Wednesday.

**LIUM JOHN** [01:07]

Okay.

**LIUM JOHN** [01:09]

Do you have the delivery address?

**Lisa Kleeman** [01:09]

I will give you,

**Lisa Kleeman** [01:12]

yeah, your normal Williston, yeah.

**LIUM JOHN** [01:14]

The 121.

**Lisa Kleeman** [01:18]

Yeah, hold on. It's the same one I mail to all the time. Give me just a second.

**LIUM JOHN** [01:26]

Okay. That should have been the 121 48th Avenue.

**Lisa Kleeman** [01:32]

Hold on.

**LIUM JOHN** [01:34]

Holding.

**LIUM JOHN** [01:37]

All right. Well, I was up there and I didn't see it, so they must have it wrapped in something.

**LIUM JOHN** [01:43]

I guess there's a pallet outside one of the doors.

**Lisa Kleeman** [01:45]

The one,

**Lisa Kleeman** [01:48]

okay, 121 48th Avenue. Do you want me to give you this XPO number?

**LIUM JOHN** [01:54]

You said X-ray Tango Oscar?

**Lisa Kleeman** [01:56]

X-Ray Paul Oscar.

**LIUM JOHN** [01:59]

Yeah. Go ahead. What's that number?

**Lisa Kleeman** [02:01]

Yep, because it was in Minot on

**Lisa Kleeman** [02:07]

the 22nd that morning. So that number is 707-056033.

**LIUM JOHN** [02:11]

Okay. What's the tracking number then?

**LIUM JOHN** [02:21]

Oh, I've been going into UPS Freight because that's what I was told.

**Lisa Kleeman** [02:23]

Yep, that's what they told me initially, and then I went in, I was like, okay, look, I can't

**Lisa Kleeman** [02:30]

Get into this. Can you give me tracking? And so Shuttle Wagon gave me the tracking. And this is what they gave me.

**LIUM JOHN** [02:37]

All right. Well.

**LIUM JOHN** [02:42]

SHIPPING, TRACKING. OKAY. I-- YEAH, I'M IN. I'LL JUST GO AHEAD AND TAKE A LOOK TO SEE IF I CAN FIND IT. IF IT SAYS IT'S DELIVERED, I'LL...

**LIUM JOHN** [02:51]

I'LL FIGURE OUT WHERE IT IS. SHIPPING, TRACKING. OKAY. LET ME GIVE THAT A TRY. AND YOU SAID THAT WAS 707-

**LIUM JOHN** [03:01]

And then it was 0560. Okay, let's see where she'd be.

**Lisa Kleeman** [03:04]

033.

**Lisa Kleeman** [03:07]

Yep. No, you're good.

**LIUM JOHN** [03:10]

All right, we got it at? Return to location. No, I'm just kidding. It's asking me if I'm a robot.

**LIUM JOHN** [03:20]

Can we all say you want it to

**Lisa Kleeman** [03:21]

Don't they all anymore? I get the same thing.

**LIUM JOHN** [03:23]

come? I know, okay, it says, yep, it says delivered to recipients in Wilson, North Dakota. Okay.

**Lisa Kleeman** [03:29]

Yes, sir.

**LIUM JOHN** [03:30]

That was on the 23rd, so that was five days ago, and I've been trying to figure out where this is with UPS Freight. Okay.

All right. I will go up and take a look for that.

**LIUM JOHN** [03:43]

Thanks a lot. I appreciate it.

**Lisa Kleeman** [03:45]

No problem. Thank you. Bye.

**LIUM JOHN** [03:47]

You too. Bye.

CALL 304 OF 611

## Inbound call from ADM

April 28, 2026 | 08:53 PM | Duration: 3m 49s | From: ADM | To: +14024731031

Inbound

Positive

### AI SUMMARY

Chris Winslow (Customer, ADM, GoGen) called to schedule service for a DP30 diesel pneumatic forklift due to a low oil pressure warning light.

FULL TRANSCRIPT

**ADM** [00:00]

This call is being recorded.

**Victoria Bauer** [00:03]

Ryan Equipment, this is Victoria.

**ADM** [00:07]

Hi, this is Chris Winslow with ADM, GoGen. I was calling to see who I could talk to to schedule a service for Forklift. We had some issues.

**Victoria Bauer** [00:09]

Let's

**Victoria Bauer** [00:15]

see,

**Victoria Bauer** [00:18]

Chris. I believe we have a tech out there looking at some of your units. Hang on here. Bear with me a minute and we'll...

**Victoria Bauer** [00:33]

Open calls. I know Justin, I believe, has been out there doing some service work.

**ADM** [00:45]

Is that today?

**Victoria Bauer** [00:46]

Oh, no, let's see. Which particular, is this on your DP30?

**Victoria Bauer** [00:55]

Or do you have the model serial number of your unit?

**ADM** [00:55]

It

**ADM** [01:00]

would be the diesel

**Victoria Bauer** [01:03]

Which would be the DP30. That's a diesel pneumatic tired forklift. It's the only one you guys have had forever. It's on the COGEN side. Yes. And what issues are you having with that?

**ADM** [01:03]

unit.

**ADM** [01:11]

Yep. Yep, that would be it.

**ADM** [01:20]

So, it was the low oil pressure light that came on.

**Victoria Bauer** [01:27]

Okay.

**Victoria Bauer** [01:29]

I know that...

**Victoria Bauer** [01:33]

Let me get up here. We were putting together a quote or were on, let's see, it had a radiator issue, front lights, batteries, but now you have a low oil pressure. Low oil pressure. Okay.

**ADM** [01:52]

Yes.

**Victoria Bauer** [01:56]

I can have, Justin has been the technician that's been out there following up on your equipment there. I can check with his schedule tomorrow and have him stop out. Will that work for you?

**ADM** [02:11]

Yeah, that'd be great if you could stop out tomorrow.

**Victoria Bauer** [02:13]

Okay. All right.

**Victoria Bauer** [02:16]

And Chris, what was your last name again?

**ADM** [02:19]

Wenzel, W-E-N-Z-L.

**Victoria Bauer** [02:23]

And what's a good telephone number he can call you back at?

**ADM** [02:29]

You can call me back at 402-465-4255.

**Victoria Bauer** [02:39]

I'm sorry, 6277-3277.

**ADM** [02:41]

465-3277. 465-3277.

**Victoria Bauer** [02:47]

Okay, oil pressure. Okay, well, let me get that. I'll send him a deal because I know we had follow-up work that they were going to let us do. And so let me

**ADM** [02:50]

Yes.

**Victoria Bauer** [03:02]

Check to see where we're at on that and I'll have Justin stop out and take a look at it. He'll probably give you a call and let you know what his schedule is because they kind of, but I'll just put that it's an oil pressure light on dash, on dash, and then that'll kind of give him an urgent and then I'll give him a quick call and

**ADM** [03:20]

That sounds good.

**Victoria Bauer** [03:24]

We'll take it from there and he should call you and let you know when he can stop out. Okay. All righty then. Thanks, Chris, for calling in. You bet. Bye-bye.

**ADM** [03:29]

Okay. That sounds great. I appreciate it.

**ADM** [03:33]

Thank you. Yep. Thank you. Have a good one. Bye.

## Inbound call from WIRELESS CALLER

In a brief conversation, Jodi Nickell (Company Representative) addressed a misassignment related to troubleshooting a battery issue for Royal Canin, ultimately resolving the concern.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

You were literally just here.

**WIRELESS CALLER** [00:06]

You assigned me to Calvin's, it's Royal Canin's.

**Jodi Nickell** [00:07]

To

**Jodi Nickell** [00:14]

Royal Canada? I did?

**WIRELESS CALLER** [00:16]

Yeah, you assigned me to

**WIRELESS CALLER** [00:19]

it. Troubleshoot battery?

**Jodi Nickell** [00:21]

Oh, Anthony?

**WIRELESS CALLER** [00:23]

I don't know who it was, but it's not me, I can tell you that for sure.

**Jodi Nickell** [00:29]

Well, it might be. Yeah, you sure are there. I meant to put Sid, but you were standing right in front of me. You were rushing me.

**WIRELESS CALLER** [00:35]

Yep.

**WIRELESS CALLER** [00:38]

I was an opposing source. I demand your attention.

**Jodi Nickell** [00:48]

Well, I'm going, I'm going. All right, it's fixed. Bye. Yep.

**WIRELESS CALLER** [00:53]

Okay. Thank you. Bye.

### AI SUMMARY

The conversation between Adam (Rion Equipment) and Scott (Royce) revolved around a delivery issue for a forklift, where Scott reported a wrong phone number hindering communication with the driver.

### FULL TRANSCRIPT

**SCOTT SCHREIER** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Rion Equipment, this is Adam. How can I help you?

**SCOTT SCHREIER** [00:08]

Hi, Adam. This is Kayla with Royce. Is Shelby available by chance?

**Adam Henderson** [00:13]

She's actually gone for the day. What can I do for you?

**SCOTT SCHREIER** [00:16]

Oh, okay. Can I get... We are moving that Des Moines to Marshalltown load, the forklift.

**Adam Henderson** [00:24]

Yeah. Mm-hmm.

**SCOTT SCHREIER** [00:26]

And for the delivery, I believe we have the wrong phone number.

**Adam Henderson** [00:30]

Okay. Let me get... It should be Robbie Tiernan.

**Adam Henderson** [00:35]

Let's see here. Progress.

**SCOTT SCHREIER** [00:36]

Okay.

**Adam Henderson** [00:46]

Oop, clicked

**Adam Henderson** [00:49]

the wrong thing. Excuse me. It's been one of them days.

**SCOTT SCHREIER** [00:52]

Oh, you're fine.

**SCOTT SCHREIER** [00:59]

Oh, I feel ya.

**Adam Henderson** [01:02]

This many years in, I think I'd have more resilience to it, but...

**Adam Henderson** [01:13]

Come on, view contacts? 712-541-2265.

**SCOTT SCHREIER** [01:25]

Yeah, that's the number that it's not working for our driver. He said that he called it and it's wrong number.

**Adam Henderson** [01:32]

Weird. Let me find his emails.

**SCOTT SCHREIER** [01:34]

Yeah.

**SCOTT SCHREIER** [01:40]

Okay.

**Adam Henderson** [01:46]

I just got another email from him today. Of course, it doesn't have...

**Adam Henderson** [01:53]

Phone number on it. What's your phone number? I'll make some phone calls and see if I can get a hold of somebody.

**SCOTT SCHREIER** [01:58]

Okay. It's going to be, I'll just give you my cell. It's 515-975-9910.

**Adam Henderson** [02:09]

Okay, I'll make some phone calls and call you back. Thank you. Thank you.

**SCOTT SCHREIER** [02:11]

Awesome. Thank you. I appreciate it.

Matt and Jesse discussed a call regarding no current work, with Jesse confirming no work is available.

### FULL TRANSCRIPT

**LEWIS MATTHEW** [00:00]

This call is being recorded.

**Jesse Downey** [00:03]

Ryan Equipment, this mic.

**LEWIS MATTHEW** [00:05]

Hey, Mike, this is Matt. You got anything going on today?

**Jesse Downey** [00:09]

Ah, let me go check, hold on.

**Jesse Downey** [00:26]

No, we do not.

**LEWIS MATTHEW** [00:27]

Alrighty, thank you. I appreciate it. Have a good day.

**Jesse Downey** [00:28]

Yep, I'm back.

CALL 308 OF 611

Inbound call from POFAHL BRETT

April 28, 2026 | 07:39 PM | Duration: 4m 19s | From: POFAHL BRETT | To: +15152995626

Inbound

Positive

AI SUMMARY

During the conversation, Brett (Representative) informed Adam Henderson about the finalized shuttle wagon training at Eddieville and adjustments in their operational territory.

FULL TRANSCRIPT

POFAHL BRETT [00:00]

This call is being recorded.

Adam Henderson [00:04]

All of

POFAHL BRETT [00:07]

So Shelby's name's on the list of phones that are being recorded when you call them.

Adam Henderson [00:13]

them are.

POFAHL BRETT [00:14]

All of them are.

Adam Henderson [00:16]

Yeah. Us and Omaha.

POFAHL BRETT [00:16]

I called Chad the other day and it said this call is being recorded and I'm like, oh, okay.

Adam Henderson [00:21]

Yeah. Put my nice face on. Yeah.

POFAHL BRETT [00:29]

Exactly, that's what you say.

POFAHL BRETT [00:34]

Anyway, we got that Eddieville training all squared away finally getting that done.

POFAHL BRETT [00:40]

So

Adam Henderson [00:41]

Training for...

POFAHL BRETT [00:43]

we've been back, shuttle wagon training.

POFAHL BRETT [00:46]

We've been back and forth with these guys trying to

Adam Henderson [00:50]

Oh, for like Faber and everybody.

**POFAHL BRETT** [00:51]

get a PO from them to get

**POFAHL BRETT** [00:54]

them. Yeah, well, this is actually the company that issued the PO to me.

**POFAHL BRETT** [01:01]

Is SHERCO out of Yankton, South Dakota, which is odd because SHERCO is,

**Adam Henderson** [01:05]

Oh, yeah.

**POFAHL BRETT** [01:09]

they're a tarp manufacturer. They manufacture tarps for semis.

**Adam Henderson** [01:13]

Yeah, and for open train cars.

**POFAHL BRETT** [01:16]

And for, yeah, so they must be doing the operations. I don't know how they're involved, but when I got the PO,

**Adam Henderson** [01:23]

So they clean out and repair the train cars at Eddyville.

**POFAHL BRETT** [01:30]

okay, so, but they're obviously doing now,

**POFAHL BRETT** [01:34]

Operations and operating the machine because we got a whole class of people that Drew's got to train.

**Adam Henderson** [01:38]

Yep, so, yep, they, uh, \*\*\*\* it, um, they, they bought one of Eddieville's old ones so that they can move train cars around, so when they're working on them and stuff.

**POFAHL BRETT** [01:51]

So when they're working, they bought one. Okay, I got you now.

**Adam Henderson** [01:54]

Yeah, they bought the old 2018 that we didn't take on trade.

**POFAHL BRETT** [01:59]

Okay. Gotcha.

**Adam Henderson** [02:01]

Yep, they bought that one and then they're just maintaining it and using it to move train cars as they empty them, clean them, and repair them. They're not doing actual moves, they're just doing repairs and stuff.

**POFAHL BRETT** [02:09]

Gotcha.

**POFAHL BRETT** [02:18]

Okay. So also last week, the new guy started out

**POFAHL BRETT** [02:24]

of Kelowna.

**Adam Henderson** [02:25]

Yeah, Vic, or Scott, I think is what they call him,

**POFAHL BRETT** [02:30]

Yeah, Scott Anderson, but we adjusted the territory line, you know, before it was basically I-35.

**Adam Henderson** [02:37]

but... Mm-hmm.

**POFAHL BRETT** [02:38]

Well, now we've moved it further east.

**POFAHL BRETT** [02:42]

So I'm keeping Enneville.

**POFAHL BRETT** [02:45]

And basically it's Highway 63 north to south. So like Enneville all the way up to Lawler.

**POFAHL BRETT** [02:56]

So I think basically if you cover the area, it'll be mine. And if Kelowna covers it, it'll be his. So like I said, Eddieville is still mine, but Waterloo, Cedar Rapids, that's all his.

**Adam Henderson** [03:06]

Cool. Okay.

**Adam Henderson** [03:15]

Yeah, that'd be good. Because that keeps us for, say, like Otumwa, Oskaloosa, New Sharon, Montezuma.

**POFAHL BRETT** [03:28]

So yeah, it's a little different because Pfeiffer and I talked about it and we didn't want to switch Eddieville or

**POFAHL BRETT** [03:35]

For Lawler was the other one, Homeland Energy, I'm Lawler again. So he's like, let's move that line over. And I've got a county map the next time I'm over, Austin, that or I'll text it to you.

**POFAHL BRETT** [03:48]

That way you've got

**Adam Henderson** [03:49]

Okay. Yeah, and then I can give it to or share it with Shelby and Kent. That way they can understand if we get a call whose it is.

**POFAHL BRETT** [03:57]

it. Yep, yep.

**Adam Henderson** [04:00]

Cool.

**POFAHL BRETT** [04:00]

So. All right, well, I just wanted to let you know what was cooking there.

**Adam Henderson** [04:03]

Okay. Yeah, sounds good. Thanks for the heads up.

**POFAHL BRETT** [04:04]

All right, man, thanks. You bet.

## Inbound call from DENVER CO

### AI SUMMARY

In the conversation, Bill from Annexter Wesco reached out to Matt Wagner from Ryan Equipment to ask if they could provide a quote for an old John Deere skid steer unit.

### FULL TRANSCRIPT

**DENVER CO** [00:00]

This call is being recorded.

**Matt Wagner** [00:04]

Ryan Equipment, Gillette. This is Matt. How can I help you?

**DENVER CO** [00:08]

Hi there Matt, my name is Bill. I'm with Annexter Wesco here in Gillette. I was just curious, we've got an old John Deere skid steer unit that I was hoping, I didn't know if you guys, you guys do our service for us, but would you be able to get us a quote on this old unit that we're trying to find a new home for?

**Matt Wagner** [00:31]

Yeah, we'd be happy to help you out. Excuse me, I don't totally understand what you're looking. You want us to repair something?

**DENVER CO** [00:38]

Oh,

**DENVER CO** [00:40]

No, it'd be, do you guys purchase old equipment, I guess, is the question.

**Matt Wagner** [00:44]

Oh, not skid steers typically. We typically don't do that, but I can get you over to my sales guy and he definitely can visit with you about it.

**DENVER CO** [00:59]

Yeah, if, would you mind if I took down his email address and I could just email him over some pictures and he could tell me yay or nay or whatever?

**Matt Wagner** [01:07]

Yeah, that'd work. So tell me when you're ready.

**DENVER CO** [01:09]

Okay, cool. Hold on, let me, yeah, let me get back to my computer.

**DENVER CO** [01:16]

Yeah, go ahead.

**Matt Wagner** [01:19]

So his is, it's Cotter Kinghorn, so C-O-T-T-E-R-K-I-N-G-H-O-R-N.

**Matt Wagner** [01:29]

at RyanEquipment, Ryan, R-I-O-N, Equipment.com.

**DENVER CO** [01:31]

Got it.

DENVER CO [01:40]

Sweet. All right, cool. Well, I appreciate the help, and I'll shoot Cotter an email and just laying out the unit we got and see if he can help us out or not. Sweet. Thank you. Appreciate all the help. Bye.

Matt Wagner [01:51]

All right. Sounds good. Appreciate it. Thank you. Yep.

This call is being recorded.

Chad Metzger [00:03]

Ryan Equipment.

JENNINGS W. [00:07]

Chad, William Jennings up here in O'Neill, how are you?

Chad Metzger [00:11]

Good. How you doing,

JENNINGS W. [00:13]

All right. Okay, I got your email here or a rental agreement. Maybe you can get it accomplished. We need to correct my bill to address.

Chad Metzger [00:30]

sir? Your account number.

JENNINGS W. [00:34]

N as in Nancy, <REDACTED\_ENTITY>.

Chad Metzger [00:43]

All right. Okay.

JENNINGS W. [00:49]

It's, ready?

Chad Metzger [00:51]

It's updating here.

JENNINGS W. [00:59]

The job site address would be correct,

Chad Metzger [01:06]

And what is the billing and business address?

**JENNINGS W.** [01:06]

but my home.

**JENNINGS W.** [01:10]

Okay, it's 87192.

**JENNINGS W.** [01:15]

Then it's spelled T

**JENNINGS W.** [01:18]

as in Tom, E as in Everett, J as in John, L as in Larry, O,

**JENNINGS W.** [01:26]

It has an orange R's in Robert Lane, L-A-N-E.

**JENNINGS W.** [01:32]

And it's O'Neill also,

**JENNINGS W.** [01:37]

<REDACTED\_ENTITY>.

**Chad Metzger** [01:44]

All right, I've got that updated on your account number.

**JENNINGS W.** [01:49]

Okay, I'll let you send me a new one

**JENNINGS W.** [01:53]

rental agreement out.

**Chad Metzger** [01:56]

All right, I will update that

**Chad Metzger** [02:01]

shortly and I'll send it.

**JENNINGS W.** [02:02]

Sounds good. Thanks,

**Chad Metzger** [02:03]

Give me a couple minutes and you should get a new DocuSign.

**JENNINGS W.** [02:07]

man. Yeah, you're good. All right, thanks, Mike.

**Chad Metzger** [02:10]

All right, thanks, Wayne. You bet. Bye-bye.

### AI SUMMARY

In the conversation, Rick (Customer, Stella Jones) reached out to Charles (Sales rep) to order various parts needed for their operations.

### FULL TRANSCRIPT

**HAUGLUM PETER** [00:00]

This call is being recorded.

**Charles Huffman** [00:04]

My equipment,

**HAUGLUM PETER** [00:05]

Hey Charlie, Rick at Stella Jones, Bangor, Wisconsin.

**HAUGLUM PETER** [00:10]

Hey, I need some tailored parts.

**Charles Huffman** [00:14]

Charlie. What?

**HAUGLUM PETER** [00:15]

I have some part numbers for you.

**HAUGLUM PETER** [00:19]

First one is 2614-004.

**HAUGLUM PETER** [00:27]

I need, let's get 10 of those.

**HAUGLUM PETER** [00:32]

And then 4200-550, should be a stud.

**HAUGLUM PETER** [00:38]

Get 10 of those. The first one was a lug nut, by the way.

**HAUGLUM PETER** [00:45]

4200-124 is a, we call it a stud nut also, holds the backside of the wheel stud in.

**Charles Huffman** [00:50]

Okay.

**HAUGLUM PETER** [00:57]

I need four of those.

**Charles Huffman** [01:01]

Four. Okay.

**HAUGLUM PETER** [01:05]

6500-002 should be an AC relay. I need two of those.

**HAUGLUM PETER** [01:16]

And then I-1-28-3035-002.

**HAUGLUM PETER** [01:26]

Should be control panel assembly for the heater fan speed and temperature. I need one of those.

**Charles Huffman** [01:34]

Okay. Alrighty.

**Charles Huffman** [01:38]

You want me to send you a quote on this or

**HAUGLUM PETER** [01:41]

No, I just need them. You can just go ahead and order them,

**Charles Huffman** [01:43]

just need them?

**Charles Huffman** [01:46]

Okay. Do you have a PO number for that?

**HAUGLUM PETER** [01:46]

yeah. You can just put verbal Rick on PO number.

**HAUGLUM PETER** [01:54]

Okay.

**Charles Huffman** [01:58]

All right. Give

**HAUGLUM PETER** [02:06]

All right.

**Charles Huffman** [02:08]

me just a second here.

**Charles Huffman** [02:44]

You just want these shipped ground.

**HAUGLUM PETER** [02:50]  
Yes. That'll

**Charles Huffman** [02:53]  
Okay. Alrighty.

**HAUGLUM PETER** [02:58]  
work.

**HAUGLUM PETER** [03:04]  
That's

**Charles Huffman** [03:06]  
Your phone number, 253-312-6591.

**HAUGLUM PETER** [03:08]  
my cell phone, yes.

**Charles Huffman** [03:12]  
Cell phone? Okay. I will get this going. If I have any issues, I will give you a shout back.

**HAUGLUM PETER** [03:17]  
Okay, Charlie, thank you.

**Charles Huffman** [03:18]  
You bet. Bye.

**HAUGLUM PETER** [03:20]  
All right. Bye.

CALL 314 OF 611

**Inbound call from WIRELESS CALLER**

April 28, 2026 | 06:45 PM | Duration: 2m 21s | From: WIRELESS CALLER | To: +15152995626

**Inbound**      **Neutral**

**AI SUMMARY**

The conversation revolved around a work order concerning hydraulic hoses, where Adam Henderson (Company Rep) sought to clarify details with a wireless caller.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Adam Henderson** [00:03]  
Oh.

**WIRELESS CALLER** [00:07]  
You guys switching phone numbers or what?

**Adam Henderson** [00:09]  
No, she was just walking out of the office when it started ringing.

**WIRELESS CALLER** [00:12]  
Mike

**WIRELESS CALLER** [00:14]

says he does not have them and he's pretty sure he gave me everything because it was all the hoses were still on his bench when he handed them to me.

**Adam Henderson** [00:27]

Which work order are we talking about?

**WIRELESS CALLER** [00:29]

Let me look back over here. It is 4-0.

**Adam Henderson** [00:42]

Left auxiliary hose?

**WIRELESS CALLER** [00:44]

799150. Wait, wait, wait, wait. No, I'm sorry.

**Adam Henderson** [00:47]

Or is this the one with all four hoses?

**WIRELESS CALLER** [00:50]

I... No, I think that was a mistake. Let me pull this up and double check. I thought I gave you the wrong work order number.

**WIRELESS CALLER** [00:59]

Indeed, I did. That is 799156.

**Adam Henderson** [01:06]

With all four hoses.

**Adam Henderson** [01:10]

Yeah, because I have the one here. And then...

**WIRELESS CALLER** [01:13]

And Mike said that he doesn't. He thought he gave me everything.

**Adam Henderson** [01:19]

Okay. Give me just a second. Do you have anything for it?

**WIRELESS CALLER** [01:23]

So I don't know. I

**WIRELESS CALLER** [01:27]

have the seatbelt

**WIRELESS CALLER** [01:31]

for segment two,

**WIRELESS CALLER** [01:34]

but I don't have any hydraulic hoses on my van for that unit.

**Adam Henderson** [01:38]

Okay. I'm going to go do some looking. I'll call you right back.

**WIRELESS CALLER** [01:41]

Unless I was stupid for some reason and put it in my cab, but I don't think I did on the cab.

**Adam Henderson** [01:43]

Okay.

**Adam Henderson** [01:49]

Because you should have two hoses ending in 410, and then you should have one hose ending in 460. You should have two, but one of them is physically here still because it never got pulled. It got put on the shelf.

**WIRELESS CALLER** [01:56]

One hose or two hoses?

**WIRELESS CALLER** [02:04]

Okay. Yeah, no, I don't have this at all, so...

**Adam Henderson** [02:07]

Okay. Let me go to a book, and I'll call you back. Yep.

## AI SUMMARY

Nate and OMAHA discussed sending a list of parts for a work order and updating pricing. OMAHA requested a grand total for estimation of labor costs.

## FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Rion, you coming to parts with Nate?

**OMAHA NE** [00:06]

And as it's awesome, just calling to let you know that I sent that list of parts if we could get double check pricing updates so I could go talk to the customer quick.

**Nate Ross** [00:17]

Yep, I'm doing that right now.

**OMAHA NE** [00:19]

And I appreciate it.

**Nate Ross** [00:20]

And I'll put them on that work order too. That way they're on there for you.

**OMAHA NE** [00:23]

Yeah. Yep. And then if you could just send me a grand total, that way I can know what parts is and then I can estimate labor from there.

**Nate Ross** [00:31]

Yep, will do.

**OMAHA NE** [00:33]

All right. Appreciate it. Thanks, sir.

**Nate Ross** [00:34]

No problem, man. All right, bye.

## Inbound call from LOGAN HEARSHMAN

April 28, 2026 | 06:36 PM | Duration: 5m 39s | From: LOGAN HEARSHMAN | To: +15152995624

Inbound

Neutral

### AI SUMMARY

In the conversation, Logan Hearshman (Technician) reached out to Shelby Lathrum (Company Representative) regarding a mix-up with hydraulic hoses for work orders 799-150 and 799-156.

### FULL TRANSCRIPT

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Hey, you get me?

**LOGAN HEARSHMAN** [00:10]

Hey, Adam's voice changed the lock.

**Shelby Lathrum** [00:13]

Only a little since this morning.

**Shelby Lathrum** [00:17]

What's up? Um, he literally just walked out of here into the shop. Do you want me to have him call you?

**LOGAN HEARSHMAN** [00:19]

No, Adam?

**LOGAN HEARSHMAN** [00:26]

I don't know, maybe you can tell me.

**Shelby Lathrum** [00:28]

Oh, I don't know.

**LOGAN HEARSHMAN** [00:30]

I don't know either. So, work order 799-150.

**Shelby Lathrum** [00:35]

Okay.

**LOGAN HEARSHMAN** [00:38]

Okay, so I got

**LOGAN HEARSHMAN** [00:42]

two hydraulic hoses, two different hydraulic hoses.

**LOGAN HEARSHMAN** [00:47]

However, the one ending in 5306, it came in a bag with two in it.

**LOGAN HEARSHMAN** [00:56]

Am I replacing both of those, or was one of them supposed to stay at the shop?

**Shelby Lathrum** [01:01]

Okay. Oh, I'll be darned. Guess who just walked back in here? It's Hirschman. He's got, um, possibly too many parts. He needs to know what to do.

**Shelby Lathrum** [01:15]

Are we replacing all hoses? Something with this call here.

**Shelby Lathrum** [01:22]

There's only one hose, one hose, and a brake clean.

**Shelby Lathrum** [01:26]

But 5306, he's got two of those. Two came in the bag.

**LOGAN HEARSHMAN** [01:34]

I'm not saying out of the other work orders, I'm not saying in either one of those hoses.

**Shelby Lathrum** [01:40]

Okay. From what we're seeing, it's only supposed to be the one.

**LOGAN HEARSHMAN** [01:45]

Okay, so one of those hoses should have stayed at the shop then.

**Shelby Lathrum** [01:48]

Yeah, he's wondering if it was a mishap on MLA's side that they accidentally sent us

**Shelby Lathrum** [01:57]

Too many? He's going to check the physical availability of the shelf right now of what's here.

**LOGAN HEARSHMAN** [02:03]

Okay, because I think I'm even missing a hose.

**LOGAN HEARSHMAN** [02:08]

I can't remember which one it was on.

**Shelby Lathrum** [02:08]

Oh no. You were given one too many. There's only one on the shelf back here. And then do you have a hose ending in 25260?

**LOGAN HEARSHMAN** [02:26]

Yeah, yeah, yeah, I got plenty of those. I think I'm missing a hose off of a different work order,

**Shelby Lathrum** [02:31]

Plenty of those. Okay, what work order is that one?

**LOGAN HEARSHMAN** [02:36]

though. I'm trying to find it. I think it might be this one, if I recall.

**Shelby Lathrum** [02:39]

Okay.

**LOGAN HEARSHMAN** [02:42]

Let me double check here.

**LOGAN HEARSHMAN** [02:45]

Yes, it is this one.

**LOGAN HEARSHMAN** [02:49]

That is work order 799156.

**Shelby Lathrum** [02:55]

156. 156. You should have four free lift hoses and a seat

**LOGAN HEARSHMAN** [03:05]

Yeah, so I have...

**Shelby Lathrum** [03:09]

belt.

**LOGAN HEARSHMAN** [03:10]

Wait, do I even have that?

**Shelby Lathrum** [03:13]

Hold on, something's looking wrong on the

**Shelby Lathrum** [03:17]

work order here.

**LOGAN HEARSHMAN** [03:19]

I don't even think I have any of these.

**Shelby Lathrum** [03:21]

The other one wasn't, one of these hoses wasn't received, so you should,

**Shelby Lathrum** [03:29]

just a second here.

**LOGAN HEARSHMAN** [03:29]

6410 or 5460, I don't think I have any of those.

**Shelby Lathrum** [03:38]

But if he was always... Okay, yeah, never mind.

**LOGAN HEARSHMAN** [03:41]

Yeah, I don't have any of those hoses.

**Shelby Lathrum** [03:44]

Oh, you don't? He said he doesn't have any of these.

**LOGAN HEARSHMAN** [03:48]

I have the seatbelt, but I don't have the hoses.

**Shelby Lathrum** [03:51]

Did Mike give you everything from Winfield?

**LOGAN HEARSHMAN** [03:54]

He said he did.

**Shelby Lathrum** [03:56]

Okay, I'll have to double check these on

**LOGAN HEARSHMAN** [04:00]

Okay, I'll get with Mike. I'll double check with him.

**Shelby Lathrum** [04:07]

the one we received in.

**Shelby Lathrum** [04:11]

Just a second.

**Shelby Lathrum** [04:15]

Okay, so we have the hose that belonged to that.

**Shelby Lathrum** [04:19]

We'll have to find the other hoses. He said Mike gave him everything. So who knows where he set

**LOGAN HEARSHMAN** [04:23]

I can call him and double check, see maybe if he missed something.

**Shelby Lathrum** [04:28]

everything. No? Okay. Yeah, maybe ask Mike if he accidentally has them still or where they are.

**LOGAN HEARSHMAN** [04:35]

So you guys have two of the hoses and then two of them are missing?

**Shelby Lathrum** [04:36]

No.

**Shelby Lathrum** [04:42]

The one that you have that extra one of, that needs to come back and go back to inventory because you should never have received it.

**LOGAN HEARSHMAN** [04:51]

Yep, no, I got that.

**Shelby Lathrum** [04:51]

And then the one ending in 25460, you're supposed to have two of those. One of them was never applied to the work order. It is now sitting here. So you are missing three hoses for the call 799-156.

**LOGAN HEARSHMAN** [05:08]

Okay, perfect. Okay, I'll get with Mike and see if maybe he missed those because I definitely do not have them.

**Shelby Lathrum** [05:10]

Yes. Okay.

**Shelby Lathrum** [05:15]

Okay. Sounds good.

**LOGAN HEARSHMAN** [05:16]

All right, appreciate it. Thank you.

**Shelby Lathrum** [05:18]

Yep. No problem.

**Shelby Lathrum** [05:19]

Bye.

### AI SUMMARY

Ryan (Customer, Caller) reached out to Chad Metzger (Sales rep) to discuss sending straight names for a project setup, confirming that they are awaiting client confirmation but are already in motion with the process.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan Equipment is Chad.

**WIRELESS CALLER** [00:05]

Hey, Chad, it's Ryan calling you back. Hey.

**Chad Metzger** [00:10]

Oh, yeah, I saw your second email.

**WIRELESS CALLER** [00:10]

So, what's

**WIRELESS CALLER** [00:13]

up? Oh, I know. After you sent that, I started thinking, I'm like, oh, no, he's totally right. We need to send those straight names.

**Chad Metzger** [00:21]

Yeah, because they need to be stood up on site.

**WIRELESS CALLER** [00:23]

Yep, exactly. No. All right. Is that all you needed?

**Chad Metzger** [00:27]

Yep, that's it.

**WIRELESS CALLER** [00:29]

I like easy phone calls. All right. Thanks for your help on this one,

**Chad Metzger** [00:31]

I know.

**Chad Metzger** [00:35]

Yep,

**Chad Metzger** [00:37]

is this a go or are we still waiting for them to confirm it?

**WIRELESS CALLER** [00:40]

Chad. Oh, they're going to confirm it, but I got to get the numbers all in front of them, but I've been on the phone with them and stuff, so they're not going to be taken by surprise when I send it to them. So, yeah, it should be in motion, hopefully sooner than later.

**Chad Metzger** [00:46]

Gotcha.

**Chad Metzger** [00:51]

Gotcha.

**Chad Metzger** [00:56]

Okay. Awesome. Sounds good.

**WIRELESS CALLER** [00:57]

Awesome. All right. Thanks, Chad.

**Chad Metzger** [00:59]

All right. Talk to you soon. You bet. Bye.

## Inbound call from GUSTIN KELVIN

### AI SUMMARY

Gustin Kelvin (Customer) called Derrick Dea (Sales Rep) to discuss ordering a joystick and hydraulic control valve for specific machinery, confirming multiple prices for the joystick and discussing the backordered valve from Germany.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts of Derrick. Alright.

**GUSTIN KELVIN** [00:05]

Derrick, how's it going? Hey, I got me a ring over here at ECHO. It's a 750R45TT.

**GUSTIN KELVIN** [00:20]

It's a serial number 750-12-BostonDavid33376.

**Derrick Dea** [00:28]

Okay.

**GUSTIN KELVIN** [00:33]

I'm looking for this joystick. Part number 101-841-4/104R. The 104R probably means that it's three, man.

**Derrick Dea** [00:51]

101-8414-104R. Okay.

**GUSTIN KELVIN** [00:53]

Yeah, slash 104R.

**GUSTIN KELVIN** [01:00]

Any idea? Did that thing cross over to TBH? You think?

**GUSTIN KELVIN** [01:15]

It was a great day. I got a few more things to order from you too, sir.

**Derrick Dea** [01:18]

Sounds good.

**GUSTIN KELVIN** [01:23]

I know you don't like talking to me, so I figured I'd call out one time and get it all taken care of. What do you think? Do you like my music in the background? I don't know what it is, but I'm moving out of here. Yeah, I'm going over here to my truck because I got to get some work done.

**Derrick Dea** [01:40]

They are. So I don't know what to do here. It says it's available. I've got to figure out what the price is. It's telling me three different prices. You want the JLG one? They have it. I can get it. I've just got to figure out the price.

**GUSTIN KELVIN** [01:57]

GUSTIN, PRO, Rion, Derrick, COI, REP. GUSTIN, PRO, Rion, Derrick, COI, REP. GUSTIN,

**Derrick Dea** [02:02]

It's giving me \$931, \$1203, \$581, \$350. I gotta figure out a price.

**GUSTIN KELVIN** [02:06]

PRO, Rion, Derrick, COI, REP. GUSTIN, PRO, Rion, Derrick,

**GUSTIN KELVIN** [02:08]

COI, REP. GUSTIN, PRO, Rion, Derrick, COI, REP. GUSTIN, PRO, Rion, Derrick, COI, REP. GUSTIN, PRO, Rion, Derrick, COI, REP. GUSTIN, PRO, Rion, Derrick, COI, REP. GUSTIN, PRO, Rion, DRIVING, COI, REP. GUSTIN, PRO, Rion, DRIVING, COI, REP. GUSTIN, PRO, Rion, DRIVING, COI, REP. GUSTIN, PRO, Rion, DRIVING, COI,

**Derrick Dea** [02:11]

Yeah. TVH. I just don't know what price to do here.

**Derrick Dea** [02:23]

I will say,

**GUSTIN KELVIN** [02:23]

REP. GUSTIN, PRO, Rion, DRIVING, COI, REP. GUSTIN, PRO, Rion, DRIVING, COI, REP. GUSTIN, PRO, Rion, DRIVING, COI, REP. GUSTIN

**Derrick Dea** [02:35]

yeah, let's see here. Three man.

**GUSTIN KELVIN** [02:38]

6 million, 2 gazillion. And is that a reman or is that for the...

**GUSTIN KELVIN** [02:46]

It's for reman. Ah. Cool beans.

**Derrick Dea** [02:50]

I would say \$2,500. Mm-hmm.

**GUSTIN KELVIN** [03:00]

And that's available probably tomorrow if we need it,

**GUSTIN KELVIN** [03:04]

right? Cool beans. So...

**GUSTIN KELVIN** [03:10]

Did we ever order that hydraulic valve for about--

**GUSTIN KELVIN** [03:17]

that 517367-- or 51736870, the hydraulic control valve?

**GUSTIN KELVIN** [03:31]

870.

**Derrick Dea** [03:38]

51736.

**GUSTIN KELVIN** [03:43]

I think that's the one that's on Germany item, backorder, machine down, thing. Sorry, I'm trying to charge up my battery while I'm here so I can--

**Derrick Dea** [03:45]

Yeah, that's not ordinary. They don't have any. Yeah.

**GUSTIN KELVIN** [04:01]

Yeah, it's Germany item only, I think, ain't it?

**GUSTIN KELVIN** [04:05]

So,

**GUSTIN KELVIN** [04:08]

anyway, we can get that ordered.

**Derrick Dea** [04:11]

It's not yet. What's the call?

**GUSTIN KELVIN** [04:15]

Hang on, I think it's, I got, I'm looking it up, but I think it's 879936 maybe. Let me check, make sure. Trying to get booted up here and put my passwords in.

**Derrick Dea** [04:31]

Thank you.

**GUSTIN KELVIN** [04:31]

Hot spot. Get my hot spot on.

**GUSTIN KELVIN** [04:51]

Oh, Derrick, jeepers creepers.

**Derrick Dea** [04:53]

Thank you.

**GUSTIN KELVIN** [04:58]

Yeah, that's me, automatic connect.

**GUSTIN KELVIN** [05:06]

Automatically connect, okay. Connection secured. Let's go to our VPN.

**GUSTIN KELVIN** [05:18]

VPN, connect. Let's see how fast it works since I did that other thing. Know what I'm talking about?

**Derrick Dea** [05:26]

Oh, that's just for... Oh, okay. Okay.

**GUSTIN KELVIN** [05:31]

Oh, Wozniak sent out an email that Renee had a...

**GUSTIN KELVIN** [05:41]

VPNing. Yeah, that makes my life real easy now.

**GUSTIN KELVIN** [05:49]

I don't have to do it 12 times before I get connections.

**GUSTIN KELVIN** [05:57]

Okay, come on, it's trying to go. Let's see. Oh, look. Look, electric warning. Electronic device of this is all of NMC's information and you shall not take it ever.

**GUSTIN KELVIN** [06:09]

If so, we will take your firstborn along with everything that you have. Right?

**Derrick Dea** [06:16]

Yep.

**GUSTIN KELVIN** [06:18]

It's almost there, Derrick. I swear to God.

**Derrick Dea** [06:22]

Thank you.

**GUSTIN KELVIN** [06:24]

There we go.

**GUSTIN KELVIN** [06:27]

I'm up to 21 words for this. Holy schmoly.

**GUSTIN KELVIN** [06:35]

Yeah, so that work order for that Raymond is going to be 803819. And then that one for Nebraska Warehouse is, oh, it's 799369.

**Derrick Dea** [06:47]

Okay. Alright. Yeah.

**GUSTIN KELVIN** [06:50]

It's not, yeah, it's 799369 is a work order.

**GUSTIN KELVIN** [06:56]

My last item?

**GUSTIN KELVIN** [07:01]

Work Order 803794, Lyman Ritchie. It's a Genie S60 Track, DR8X, serial number S60 Tom, X-ray, 14263.

**GUSTIN KELVIN** [07:25]

895. I didn't give you the word cord, didn't I? 803794. I need the emergency disconnect for the lower box. And on the engine side, there's like bungee-type latches that you pull and they hook up and latch

**GUSTIN KELVIN** [07:49]

The hood down? I need them.

**Derrick Dea** [07:53]

Alright, hold on. Is it already on there?

**GUSTIN KELVIN** [07:53]

You can go ahead and order that stuff, huh?

**Derrick Dea** [07:59]

Emergency disconnect. Where? Ground?

**Derrick Dea** [08:04]

Ground box.

**GUSTIN KELVIN** [08:06]

Yeah, in the lower control box, the lower control box, there's a e-stop button, ready button, e-stop.

**GUSTIN KELVIN** [08:15]

I need that. And then on the hood,

**Derrick Dea** [08:15]

Okay.

**GUSTIN KELVIN** [08:21]

Which if you're in the operating basket looking back to the truck it'd be on the right side, the engine side. The hood when you pull it down there's a bungee that T handle bungee that you pull up and it latches a hood from coming off. I need that rubber bungee. And you can go ahead and order them things. We got a...

**Derrick Dea** [08:39]

I have no idea what this looks like. Rubber what? Bungie?

**GUSTIN KELVIN** [08:43]

Yeah, it's like a rubber bungee. It looks like a T. It fastens to the frame.

**Derrick Dea** [08:48]

Like on the Jeep that holds the list down? Like on a Jeep that holds it down? Rubber latch that holds the hood down?

**GUSTIN KELVIN** [08:51]

It holds the hood down.

**GUSTIN KELVIN** [08:55]

Well, Jeep is metal. These are just rubber.

**Derrick Dea** [08:59]  
Oh, okay. Alright.

**Derrick Dea** [09:02]  
Yep. Alright.

**GUSTIN KELVIN** [09:02]  
Yes. Right? Yeah, problem. Just send me a pic, and I'll look at it and circle it and send it back to you. \$2,500 is for that handle.

**Derrick Dea** [09:11]  
Well you said throw a price so I did. It'll probably be less but I gotta figure it out because it gave me three different prices.

**GUSTIN KELVIN** [09:16]  
Let me go talk to him because I've got him right here. Let's see. He's going to give me a yay or nay, right? He's going to say, get out of here and leave me alone. Or he's going to say, get it.

**Derrick Dea** [09:20]  
Yeah.

**Derrick Dea** [09:31]  
Thank you.

**GUSTIN KELVIN** [09:35]  
Oh, it looks like he's got somebody in there. I am not. Children.

**GUSTIN KELVIN** [09:44]  
CHILDREN ARE

**Derrick Dea** [09:53]  
Thank you.

**GUSTIN KELVIN** [09:59]  
DUMBASSES

**GUSTIN KELVIN** [10:09]  
That handles it. He's working on the price, but it won't be no more than \$2,500. I don't know if you... Holy moly, is that... Oh, I thought that was coffee. So I'm going to have him go ahead and order it because you can't do anything with it, right?

**GUSTIN KELVIN** [10:29]  
All right. It might be a little cheaper. He's checking to see if he can't get a better rate, but okay. Oh, yeah, they got it. They got it in stock. So, I mean, we don't have it in stock, but we can have it in here a day or two, right? Okay. Okay, Derrick, you heard the man. We got to have it.

**Derrick Dea** [10:38]  
Well, alright, alright.

**GUSTIN KELVIN** [10:50]  
What else do we got? Oh, \*\*\*\*. I don't even know what we talked about. What did we talk about? Yeah, the Aesop and the Bungie and the... Oh, the Vow Body, right?

**Derrick Dea** [11:04]  
Yep. Yep. Oh. They look right, because hopefully they're right. Okay. Okay.

**GUSTIN KELVIN** [11:06]  
Okay, we're good to go, right? Everything else is good. I got my half for my controller.

**GUSTIN KELVIN** [11:11]  
Or from my counsel today. I'll see if I can't get that in and get it closed, okay?

**GUSTIN KELVIN** [11:20]  
I don't even know. I just grabbed the box and left.

**Derrick Dea** [11:26]

Well, it was discontinued through OEM, so just saying. Okay. Great. Yep. Nope.

**GUSTIN KELVIN** [11:26]

It's got to be right. It can't be wrong, can it?

**GUSTIN KELVIN** [11:30]

No.

**GUSTIN KELVIN** [11:35]

No, it's got to be correct.

**GUSTIN KELVIN** [11:38]

Right? It's got to be correct. That's the spirit. Well, keep up the good work, man. You need anything? Some coffee?

**GUSTIN KELVIN** [11:47]

A week off?

**Derrick Dea** [11:50]

No. Maybe. Maybe. Yep. Bye.

**GUSTIN KELVIN** [11:53]

You don't want a week off? Okay, buddy. See you later. Bye.

---

CALL 319 OF 611

## Inbound call from OMAHA NE

April 28, 2026 | 06:26 PM | Duration: 18m 18s | From: OMAHA NE | To: +14026440781

Inbound

Neutral

### AI SUMMARY

In a detailed conversation, Rodney Meier (Sales Rep) and OMAHA NE discussed various orders and parts needed for equipment maintenance.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Yes, Dan.

**OMAHA NE** [00:06]

Hey Rod, how's it going?

**Rodney Meier** [00:08]

Well, not too bad. Playing catch up. Man, I was gone one day. I had 68 freaking emails this morning.

**OMAHA NE** [00:11]

Yeah.

**OMAHA NE** [00:14]

I tried not sending you any, so, so,

**Rodney Meier** [00:17]

That's all right. I'm down to one, so I'm doing okay.

**OMAHA NE** [00:21]

oh, okay. Okay, cool. A couple questions. Did you, you see that one where I ordered some fuses in there? Were you able to find any of them? Okay, okay.

**Rodney Meier** [00:29]

They're on their way. They're on their way.

**OMAHA NE** [00:32]

I may have to have you order more of them because what they are, those are for the lights.

**OMAHA NE** [00:36]

And when they cut the wires or whatever, it shorts them out. And I think I've got like two fuses left. And I think I ordered 12.

**Rodney Meier** [00:37]

Sure.

**Rodney Meier** [00:40]

Oh, okay.

**Rodney Meier** [00:42]

Okay. Yeah, what I...

**Rodney Meier** [00:44]

Yeah, that was that order last week. You had the gloves and the towels and stuff. I shipped it all into Norfolk because I had to get some of those buckets of wipes and Ross wanted some too. And we just set a buy. I just created a label for a box to ship out of Norfolk. You should see it all tomorrow.

**OMAHA NE** [00:50]

Yep, yep.

**OMAHA NE** [00:58]

Okay.

**OMAHA NE** [01:05]

Okay, that'll work. That'll work on that. What about...

**Rodney Meier** [01:09]

But you think we might need some more fuses, huh?

**OMAHA NE** [01:11]

Well, no, if I get those 12, that'll keep me going for a little while. Like I said, I may have to order on the next one, order some more, so I got some, because Napa, they only go to five down here at Napa, so they don't go any smaller.

**Rodney Meier** [01:14]

Yep. Okay.

**Rodney Meier** [01:22]

Yep. Yep. Yep. Yeah, that four is an oddball. I knew that.

**OMAHA NE** [01:26]

Yep, yep. And I'm sure a five would probably work, but I don't know enough about these electric forklifts to say \*\*\*\* it, put a five in it,

**Rodney Meier** [01:33]

Yeah. Yeah, be our luck that one little amp would burn something up.

**OMAHA NE** [01:38]

so. Pretty much, pretty much, that'd be my luck, so. So.

**Rodney Meier** [01:39]

Sure. Sure. Yep. So you should see some tomorrow. Got that.

**OMAHA NE** [01:43]

Okay, and then on that mower, did you see all those parts?

**Rodney Meier** [01:45]

Yes. I have them all written down here. I...

**OMAHA NE** [01:51]

It's no rush. I just wanted to make sure.

**Rodney Meier** [01:53]

No, I, yep, no, I have them all. The only thing I don't have is I tried to find the part number for the blades, and for some reason every,

**OMAHA NE** [01:59]

And okay, I can give you the one that's there, but it doesn't say it's a 72-inch mower, though. It just says it's a 60-something, though. Here, let me pull that out, and I'll give you the blade, the number that's here. Okay.

**OMAHA NE** [02:15]

- Yep.

**Rodney Meier** [02:15]

and I mean, I can call them and ask them too. For some reason, every time I order them, I didn't write the freaking part number down, and I'm, and I'm pretty sure probably Dustin put it in his, in his note somewhere, but, um,

**OMAHA NE** [02:21]

Oh, okay.

**OMAHA NE** [02:26]

Yeah, and I don't, having figured all them out, and all I got is what's written on his fuse box,

**Rodney Meier** [02:29]

No, no. Yep, yep, nope, I get that.

**OMAHA NE** [02:34]

so. Okay, so what, well here, I must not have, I looked at something totally different then.

**OMAHA NE** [02:41]

We're looking at a different page. The number I need is a 72-inch high-lift fusion blade, and it's a 038-7230-00.

**OMAHA NE** [02:50]

I was on the wrong page. I was looking at the one for the 63-inch deck, and I couldn't figure out why it was different.

**Rodney Meier** [02:58]

Oh, for the 60, sure, sure.

**Rodney Meier** [03:03]

Yep, so you need three of those.

**OMAHA NE** [03:05]

Yep, three of those blades.

**Rodney Meier** [03:06]

Okay,

**OMAHA NE** [03:07]

Let's see what else. Okay, that bracket, you ordered that bracket, which was on last Friday or something or whatever.

**Rodney Meier** [03:14]

okay. Yes. Omaha, yep, Omaha had that, so you should see that tomorrow.

**OMAHA NE** [03:17]

Okay. I welded it, had them welded together and it's working, but this way I put a new one on and it's done. The other thing is, how do I get some parts for, Jake ordered a Switch and a

**OMAHA NE** [03:32]

Push button plate for the wake up buttons for the lithium ion forklifts. Can I just order one to have one on hand here? I mean not go toward the forklift but have it here.

**Rodney Meier** [03:39]

Okay.

**Rodney Meier** [03:46]

Sure. Do you have a power number?

**OMAHA NE** [03:48]

Yep. The switch is 51376644. That is the switch.

**Rodney Meier** [03:56]

Okay.

**OMAHA NE** [03:58]

And then the plate, the actual flipper deal goes on it is 51648529.

**Rodney Meier** [04:09]

Okay, what I'll do is I'll just bill them to the service department and then when you use them, we'll bill out the replacement.

**OMAHA NE** [04:18]

Okay,

**Rodney Meier** [04:19]

So if you use it, we'll bill that part number out, which will send you another one.

**OMAHA NE** [04:24]

okay. Okay, that works.

**Rodney Meier** [04:25]

So yeah, it's kind of like an inventory on your van. You know, nobody else can get it because it's already been sold to you.

**OMAHA NE** [04:28]

That works. Okay, okay.

**OMAHA NE** [04:33]

Yep, that works. Like I said, it'd be nice to have that because...

**Rodney Meier** [04:36]

Oh yeah,

**OMAHA NE** [04:37]

The forklift was kind of down for a day until I was waiting for that switch. I mean, well, yes and no. The manager didn't know how to get it to work. I told them I could show them how. The operators know how. They were sticking a pencil in the switch and then actuate the switch, which all it was is they broke the cover off, but the switch still worked. It's just fantastic.

**Rodney Meier** [04:51]

oh boy.

**Rodney Meier** [04:53]

Of course they were.

**OMAHA NE** [04:58]

You know, I didn't have any parts and I didn't finish it until the next day or whatever. So, okay, and then I have to order some, and I don't know if Dustin ordered them or not. They are a CA-689279, and that's one of those well-done fork brackets.

**Rodney Meier** [05:03]

Yep, nope, I hear ya. Yep, I hear ya. Go ahead.

**Rodney Meier** [05:23]

Oh, okay. Yes, the CA would have come from TVH. Give me a second here.

**OMAHA NE** [05:23]

Did he order any of those?

**OMAHA NE** [05:29]

Okay, I haven't seen those yet.

**Rodney Meier** [05:36]

You say he ordered some?

**OMAHA NE** [05:38]

I thought he might have, otherwise maybe he told me to. All he knows, he welds those on like the rendering and hides his department because they use the rotators and he welds them on here so the forks don't break the latches and everything off.

**Rodney Meier** [05:49]

Oh,

**Rodney Meier** [05:52]

- Right. Yep, nope, I don't have any ordered. I know what you're talking about now, but I don't have any ordered.

**OMAHA NE** [05:56]

Okay, I need,

**OMAHA NE** [05:58]

okay, can I get like six of those?

**OMAHA NE** [06:02]

And then I'm going to need a set of 48-inch forks.

**Rodney Meier** [06:06]

Okay, those will come out of Omaha.

**OMAHA NE** [06:08]

And those, I think, are the, what, the Class 2 with their 16s?

**Rodney Meier** [06:11]

Yep, they're still class twos, yep.

**OMAHA NE** [06:13]

Okay, but I need them 48. And I did get the 42s. They showed up this morning.

**Rodney Meier** [06:19]

Yes, yes. Did they come by truck or how did they, oh, they were probably there Saturday. Oh, when did he order them?

**OMAHA NE** [06:21]

And the one load wheel.

**OMAHA NE** [06:25]

Honestly, I don't know. They were sitting by the shop here when I got here this morning.

**Rodney Meier** [06:29]

Okay, they came on ASAP, 'cause ASAP delivers before you get there.

**OMAHA NE** [06:35]

Okay, yeah, he...

**Rodney Meier** [06:35]

And they only deliver our shop. They don't deliver to Cargill. They only deliver to our shop.

**OMAHA NE** [06:41]

Okay. Okay, okay. Yeah, so I wonder how he gets them out.

**Rodney Meier** [06:43]

But I knew they were coming out of OMA. I guess I thought you would have got them. We ordered those, what, Friday?

**OMAHA NE** [06:48]

Possibly,

**OMAHA NE** [06:51]

yeah. Yeah, that's probably...

**Rodney Meier** [06:51]

Maybe I ordered them too late to get them out on ASAP, but I wouldn't have thought I did.

**OMAHA NE** [06:56]

Like I said, they were sitting by the shop when I pulled up this morning,

**Rodney Meier** [06:57]

Was

**Rodney Meier** [07:00]

there other stuff with them?

**OMAHA NE** [07:02]

so... Yes, there was a load wheel or a drive wheel for one of those young Heinrich forklifts or pallet jacks.

**Rodney Meier** [07:08]

Yep, yep, okay. Yep, yep.

**Rodney Meier** [07:12]

- Yeah, I remember ordering that too. So, do we have a call to put these parts on?

**OMAHA NE** [07:17]

For the forks, not yet. I've got to go and find one of the forklifts that need it, and then I'm going to have it. It's just what I've got to do is I either have to take the forks home with me, weld them on, or take them over to the fab shop over here and try to get them to see if they can weld them on because it's a...

**Rodney Meier** [07:39]

Otherwise you gotta have a hot works permit and all the other \*\*\*\* goes along,

**OMAHA NE** [07:39]

The hot work from it and have people stand there for an hour with me.

**Rodney Meier** [07:44]

yeah. Yep, yep, yep. Can we just build those hooks to the call with the forks?

**OMAHA NE** [07:47]

That's what I'm asking.

**OMAHA NE** [07:51]

Yeah, yeah. Well, here. Okay. Okay. Yeah, I know Dustin said he was...

**Rodney Meier** [07:53]

Okay, when she gets one opened up, I'll put six of them on there.

**Rodney Meier** [07:59]

And then whatever you decide to do with the other, I would say probably be all right to just have them do it. I think that's usually what Dusty did.

**OMAHA NE** [08:05]

Okay. Okay.

**OMAHA NE** [08:10]

Yeah, he'd go over there and either he'd weld them up or they'd weld them up or whatever. It was just, like I said, it's just, I'd like to, it's going to take me a little bit of time to get them ready. And then that way when I swap them out, I don't have

to be out that much longer while I'm doing it.

**Rodney Meier** [08:14]

Right,

**Rodney Meier** [08:22]

right, right. Oh yeah, yep, yep, nope, totally get it, totally get it. So no, that's fine.

**Rodney Meier** [08:30]

I have Christie open up a call for you for the forks and then I'll put those, I'll put six of those hooks on there.

**OMAHA NE** [08:37]

Okay. Okay.

**Rodney Meier** [08:38]

Because the forks you build a Cargill so that's fine.

**OMAHA NE** [08:41]

Oh, okay. So yeah, just go ahead and send the forks out. And then, like I said, yeah, then we can do the other one.

**OMAHA NE** [08:46]

Let's see. I'm trying to think of another thing. Oh, okay. I'm going through, I went through the list and I'm coming up with PM stuff. Do I have you order the PM like when it's a 2,000 hour PM? That's like what, six gallons of oil and two filters or whatever? Or do I just order the filters and how many gallons of oil I need from you?

**OMAHA NE** [09:08]

Or do I just tell you I need a 2000?

**Rodney Meier** [09:08]

Oh like on the Pallet Jacks? Yeah, because I think he normally does what seven gallons and then the one or yeah the two filters and I think a gasket maybe.

**OMAHA NE** [09:15]

Actually

**OMAHA NE** [09:20]

just two filters from what I'm thinking. But then on the other one, it doesn't take all seven gallons and it only takes one filter on the four-wheel ones.

**Rodney Meier** [09:29]

Right, right. Yep, yep. Yeah, they take the same filter on that one and then the one takes the extra filter. And you should have those part numbers.

**OMAHA NE** [09:35]

Yeah, the one is a power steering filter.

**OMAHA NE** [09:39]

Yeah, I'm looking at them right now. I've got two, looks like power steering, and three hydraulics.

**Rodney Meier** [09:40]

And if you want to just, yeah, just put those, yep, put those part numbers on your request for a service call

**OMAHA NE** [09:50]

Okay, and then, like you said, he did, what, six or seven gallons of hydraulic oil? Or what was that?

**Rodney Meier** [09:50]

like you would normally.

**Rodney Meier** [09:56]

- Yep, six one time and seven the next, I think. I don't remember. It was always right around there.

**OMAHA NE** [10:01]

Okay, because I think I've got some here. It's just I don't want to run out, and I just want to keep replenishing what I've got.

**Rodney Meier** [10:07]

I'm thinking it, yeah. And if you want to put seven on one and six on another, it's not a big deal.

**OMAHA NE** [10:12]

Okay, okay.

**Rodney Meier** [10:13]

Then you'll have a little extra, 'cause I'm wondering if maybe it takes just a little more than six.

**Rodney Meier** [10:19]

And so he always kept an extra one there to top it off. Yeah.

**OMAHA NE** [10:21]

Yeah, because like I

**Rodney Meier** [10:25]

Because see, originally those took, the original Young Heinrich oil came in liter bottles and not gallons. And I think that's where we got off. Because I think it takes, if I remember right, I think it takes six liters.

**OMAHA NE** [10:31]

said, oh, okay,

**Rodney Meier** [10:42]

And so that's probably where it's messed up.

**OMAHA NE** [10:43]

okay. Yep,

**OMAHA NE** [10:45]

okay.

**Rodney Meier** [10:47]

But yeah, six or seven, either one, whatever. If you want to keep extra there, they pay for the PM, so it's not a big deal.

**OMAHA NE** [10:53]

Yep, and like I said, I'm going through and trying to get numbers in that so I can just knock on wood. Today has been extremely freaking quiet. So I'm trying to get, you know, PM \*\*\*\* lined up and see where we are on hours and going from there.

**Rodney Meier** [11:06]

So, yep.

**Rodney Meier** [11:08]

Yep. Yeah, just put your part numbers on the service call request, and then we'll get them ordered. Because Omaha has them, so that's not a problem.

**OMAHA NE** [11:13]

Okay. Okay. Okay. And then, like I said, I noticed there's a bunch of damaged rims and tires. I have to see if it's time to change them yet, but I'll have to give you tires and rim sizes and that.

**Rodney Meier** [11:27]

Yep, yep. Well, and the tires, yeah, they're the 250s.

**Rodney Meier** [11:32]

And the rims are 504, 1509, I think, if I remember right. We may have to have him order some rims in. I don't know if he's got very many there.

**OMAHA NE** [11:36]

Okay. Okay.

**OMAHA NE** [11:41]

I think he's got two of each here, from what I had seen here.

**Rodney Meier** [11:45]

Okay, and those are already billed out. So when we order them, we'll just be replacing inventory.

**OMAHA NE** [11:49]

Yep. Yep.

**Rodney Meier** [11:57]

Yeah, I think I remember the part number, but let me look here.

**Rodney Meier** [12:06]

Yep, 504-1509. Says Omaha has two in stock.

**OMAHA NE** [12:11]

Okay, like I said, I mean, I'm not gonna change out the whole fleet at one shot, so I mean, when I see them, I need them, I order them, when they come in or whatever, then I'll go back and get them and change them out.

**Rodney Meier** [12:15]

Oh, sure.

**Rodney Meier** [12:20]

Yeah, yep. And he may have mentioned it to you. I'm just having to think about that while we're talking here. He was talking about some of the rotators needing new forks.

**OMAHA NE** [12:31]

Yeah, that's the ones I was talking about, the 48s.

**Rodney Meier** [12:33]

Okay, okay, okay.

**OMAHA NE** [12:35]

Yeah, that would be rendering and hides is where those rotators are.

**Rodney Meier** [12:39]

Okay, okay, because he was telling me a month or two ago that, yeah, they were going to be due.

**OMAHA NE** [12:46]

Yeah, and those were what I was talking about. And he said the only ones is those were 48-inch long,

**OMAHA NE** [12:52]

And then they've got a couple of them that are the class threes here, like that 8,000 pound in maintenance and something else.

**Rodney Meier** [12:57]

Right, right, right. Yep, yep, and we'd have to order those in. We're not going to stock those, but yeah.

**OMAHA NE** [13:03]

Yeah, and those, like I said, there's only one pair or two of those anyway.

**Rodney Meier** [13:06]

Yep, yep, Omaha has a set of the 48 yet, because I think we ordered just a set of 48 the other day. So, but yeah, not a problem. We can fix you up.

**OMAHA NE** [13:17]

Yep, and then the last thing I got is any word on that Skyjack cord yet?

**OMAHA NE** [13:24]

That control cable.

**Rodney Meier** [13:27]

Now we ordered it. What did I tell you?

**OMAHA NE** [13:31]

You thought it was going to be at least a week,

**OMAHA NE** [13:35]

or was it longer than that?

**Rodney Meier** [13:35]

Yeah, let me

**Rodney Meier** [13:37]

see if I got anything in here.

**OMAHA NE** [13:39]

I know they got a rental for a month so they could have, you know, I told them it'd be, you know, definitely get it longer than a week, but yeah.

**Rodney Meier** [13:45]

Yep, I see it here.

**OMAHA NE** [13:50]

Unless something for,

**Rodney Meier** [13:50]

Estimated due date 5/13.

**OMAHA NE** [13:55]

okay, okay, so we got a little, we got time yet.

**Rodney Meier** [13:58]

Yep, be a couple weeks. And who knows, because I had a couple of seals that were on back order. The customer called me and asked me about it. I looked and they were supposed to come on 510, I think, or something. And the next day, Jake called me and he had them.

**OMAHA NE** [14:15]

Okay.

**OMAHA NE** [14:17]

Funny how that works.

**Rodney Meier** [14:17]

So who knows? Who knows when they might show up? But it says 513 on here.

**OMAHA NE** [14:20]

Yeah.

**OMAHA NE** [14:24]

Okay.

**OMAHA NE** [14:25]

I know they did get a rental so they could keep it for a month. I told Lynn. She asked me if she needed it for a week. I said I would go for at least longer. And she said, well, a month is cheaper. So,

**Rodney Meier** [14:29]

Yep,

**Rodney Meier** [14:35]

yep. A month, yeah. Oh yeah, a month is way cheaper for them. Yep. But yeah, it's showing May 13th.

**OMAHA NE** [14:43]

okay, that works. I'll write that down so I won't keep bugging on that.

**Rodney Meier** [14:47]

Okay, no, that's fine. Not a problem.

**OMAHA NE** [14:49]

So, let's see. What else was there?

**Rodney Meier** [14:50]

Not a problem.

**OMAHA NE** [14:54]

I think I've got, oh, that hose, that one that was supposed to

**OMAHA NE** [15:01]

be, they had to make it, I mean, I ordered two hoses and some fittings, the one hose was on,

**Rodney Meier** [15:04]

Oh, yes, yes, yes. I have not heard anything on it yet. I got an email that they were going to expedite it, but I did not get anything for an estimated delivery.

**OMAHA NE** [15:19]

okay, because, yeah, like I said, I did get the long one, and then there was that, yeah, that was that shorter one,

**Rodney Meier** [15:22]

Right. Any other stuff?

**OMAHA NE** [15:27]

Let's see, I got the 29.89, but I was waiting on the 29.85, which I took a used hose I had here and I made it work so they can use it. It's just I don't want to go put one hose on and then tomorrow the hose comes in and put the other hose on, if you know what I mean.

**Rodney Meier** [15:37]

Yeah, yeah.

**Rodney Meier** [15:42]

Well, and yeah, right now I just went in and looked at the back orders. The ETA is June 4th.

**Rodney Meier** [15:49]

Which is a month. That doesn't mean it might not come sooner, but that's estimated right now.

**OMAHA NE** [15:55]

Okay, so I will, if I can find a forklift, I'm going to put that hose that, I mean, it's

**OMAHA NE** [16:01]

Not cut through to where it's leaking oil, but it's smashed and got the rubber torn. Yeah, to where it ain't going to take long. Okay.

**Rodney Meier** [16:04]

Just ready.

**Rodney Meier** [16:08]

Yep. Yep. Yep. Nope. That's what it's giving me for right now. That doesn't mean it might not come sooner, but that's what it's estimated at.

**OMAHA NE** [16:10]

That answered that question.

**OMAHA NE** [16:19]

And then you're going to have to help me remember on those, I'm looking at a box of wheel hubs, steering axle hubs that Dustin said. That one set is like \$2,000 and one is \$200.

**Rodney Meier** [16:28]

Oh.

**OMAHA NE** [16:31]

For the 4,000 pound forklift it's \$2,000, for the 5,000 pound it's \$200.

**Rodney Meier** [16:38]

Mm-hmm. Yeah. Yep. And I put in a request and I've never heard anything back

**Rodney Meier** [16:42]

Back on it. If we need to get one, we'll maybe have to see what we can do. And I mean,

**OMAHA NE** [16:47]

Yeah, I'm thinking I've got two that are rebuilt, it looks like one needs to go in at some point, but he says it doesn't make sense to just send one off to get it rebuilt, or get it redone up in North Orford.

**Rodney Meier** [16:56]

right, right,

**Rodney Meier** [17:00]

right. Yep, yep, yeah. RF Machine Works up here rebuilds them for us.

**OMAHA NE** [17:06]

And how do I get them up there?

**Rodney Meier** [17:08]

Probably

**Rodney Meier** [17:10]

you could go to, you could have them UPS them.

**Rodney Meier** [17:15]

And then I just, when you get ready to do that, we can UPS them up here to the store and I'll give you our account number so you can just tell them to bill it to that account. We have a UPS account so then they don't have to pay for it that way.

**OMAHA NE** [17:25]

Okay. Okay.

**Rodney Meier** [17:32]

And who knows, somewhere between now and then we may meet up with you somewhere too.

**OMAHA NE** [17:32]

Yeah.

**OMAHA NE** [17:38]

Yeah, exactly. That or I'll run them up at some point at whatever. So.

**Rodney Meier** [17:41]

Yeah, yeah, yep, yep.

**OMAHA NE** [17:45]

Okay. Cool. Yep. Like I said, I'm thinking I got everything that I remembered I was going to ask you about.

**Rodney Meier** [17:45]

So shouldn't be a problem.

**Rodney Meier** [17:51]

That's all right. And if you think of something else, you can always send an email or call me back. Not a big deal.

**OMAHA NE** [17:56]

Yep. So. Okay. Cool. Thank you.

**Rodney Meier** [17:58]

All right. You bet, Dan. Thanks. Bye.

**OMAHA NE** [18:01]

Yep. Talk to you later.

CALL 320 OF 611

## Inbound call from ROLLINS F.

April 28, 2026 | 06:23 PM | Duration: 1m 50s | From: ROLLINS F. | To: +14024731032

Inbound

Positive

### AI SUMMARY

During the call, Fred (Customer) followed up on a previous order for parts needed for his Komatsu, while Nate (Sales rep) helped clarify and expand the order to include necessary components.

### FULL TRANSCRIPT

**ROLLINS F.** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Ryan and Clement Parts, Nate.

**ROLLINS F.** [00:06]

Hey Nate, this is Fred at Yankee O'Brick.

**Nate Ross** [00:08]

Yeah, what's going on,

**ROLLINS F.** [00:10]

Hey, I ordered some parts for our Komatsu a while back. Do you remember if I ordered a set of roller bearings for the mass?

**Nate Ross** [00:21]

man? That does not sound right. Let me look back on my notes, though.

**ROLLINS F.** [00:25]

Okay.

**Nate Ross** [00:30]

I don't remember them being that.

**ROLLINS F.** [00:34]

Well, if I didn't, I need to order some and I need to get them as soon as I can possibly get them.

**Nate Ross** [00:37]

Some tie rods and some bushings, it looks like.

**ROLLINS F.** [00:40]

Yeah, that's what I thought.

**ROLLINS F.** [00:43]

I need to order the carriage bearings and the mass rollers and

**Nate Ross** [00:52]

What

**ROLLINS F.** [00:53]

shims.

**Nate Ross** [00:57]

about the slide blocks, since you're already taking the carriage off?

**ROLLINS F.** [01:02]

Yeah, I need those too.

**Nate Ross** [01:04]

Slight blocks.

**Nate Ross** [01:10]

Mass rollers.

**Nate Ross** [01:14]

If they have some different sizes, I may hit you up on that. But let me see what I find first. So, because I know on our side, on the CAT side, there'll typically be different sizes sometimes on the mass rollers. So, but let me see what I can find out, sir.

**ROLLINS F.** [01:18]

Okay.

**ROLLINS F.** [01:33]

Okay. Okay. Sounds good. Thank you.

**Nate Ross** [01:35]

All right. Thanks, man. Yeah. Bye, bye.

CALL 321 OF 611

## Inbound call from HAMPTON DENNIS

April 28, 2026 | 06:02 PM | Duration: 10m 11s | From: HAMPTON DENNIS | To: +14026440781

Inbound

Positive

### AI SUMMARY

HAMPTON DENNIS contacted Rodney Meier to discuss an invoicing error regarding a sales order for a hydraulic pump.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

- Just the guy was getting ready to call.

**HAMPTON DENNIS** [00:07]

My ears were burning. Are you going first or am I? I feel we can help each other. Hey, so I have that sales order for Ross for that hydraulic pump. I accidentally invoiced it without charging freight. How do I return the invoice or how do I create a credit for a sales order? I've never done this before.

**Rodney Meier** [00:09]

Must have been, must have been.

**Rodney Meier** [00:13]

I don't care, go ahead, go ahead.

**Rodney Meier** [00:21]

Okay.

**HAMPTON DENNIS** [00:32]

Obviously, I'm going to have to create a credit for it, but I've never...

**Rodney Meier** [00:35]

All right, all you have to do is start a ticket like you're gonna sell it to him.

**Rodney Meier** [00:45]

So you'll open up a sales order

**HAMPTON DENNIS** [00:47]

Yep.

**HAMPTON DENNIS** [00:50]

This thing would load.

**Rodney Meier** [00:53]

to Ross, of course.

**HAMPTON DENNIS** [00:55]

Okay. Yep. <REDACTED\_ENTITY>.

**HAMPTON DENNIS** [01:01]

There, there, contact.

**Rodney Meier** [01:05]

Is this a CAT part or is it a TVH part?

**HAMPTON DENNIS** [01:05]

Crossland.

**HAMPTON DENNIS** [01:08]

There are TVH parts.

**Rodney Meier** [01:09]

- Ooh, okay. You might be better off just to give him another invoice for the freight.

**HAMPTON DENNIS** [01:17]

Okay. Do I hear...

**Rodney Meier** [01:18]

TVH gets a little wishy-washy

**HAMPTON DENNIS** [01:22]

On returning the parts.

**Rodney Meier** [01:23]

because they're not in our inventory.

**HAMPTON DENNIS** [01:25]

Oh, okay. Yeah, because I have a base. Well,

**Rodney Meier** [01:27]

Normally you would open up a sales order,

**HAMPTON DENNIS** [01:31]

I... Because I sold it as a...

**Rodney Meier** [01:31]

which you're opening up anyway, so you can just bill him freight on this ticket that you're opening up.

**HAMPTON DENNIS** [01:35]

Yeah. And then he can... I'm assuming he's going to write me a check, so he'll just write me a check for both of them.

**Rodney Meier** [01:39]

You just give him two invoices. Yep, for both of them together. If you have the ticket open, let me show you where it would be at. Let me know when you have the header and everything open.

**HAMPTON DENNIS** [01:42]

Yep. And then when I do the ledger,

**HAMPTON DENNIS** [01:51]

it's... Yep, I've got it open.

**Rodney Meier** [01:53]

Okay, up at the top where it says sales order, right next to it, it says sell.

**Rodney Meier** [01:58]

Click on that. And then to the far left, it'll say credit.

**HAMPTON DENNIS** [02:00]

Yep, and then it's charge. Oh, okay.

**Rodney Meier** [02:05]

And click on that.

**Rodney Meier** [02:11]

And then it'll show you all the parts for here or all the purchases for his account.

**HAMPTON DENNIS** [02:20]

Because then you just select the one that you want to return,

**Rodney Meier** [02:23]

You select the one that you want to credit. Yep. And then you would click those boxes and it'll automatically credit it. But then we're supposed to register them and pick them and pack them, which we don't because we have nowhere to go with them. And then you're going to have to turn around and retype all that. But you're going to have to retype all that back in again on the next invoice.

**HAMPTON DENNIS** [02:36]

right? Yeah. Cool. I sold them as a...

**HAMPTON DENNIS** [02:42]

Oh, okay. Yeah. Yeah. So it's going to be easier to just...

**Rodney Meier** [02:43]

And you don't want to do that. It's easier just invoicing for the freight.

**HAMPTON DENNIS** [02:48]

What do I use for my line item then for freight?

**Rodney Meier** [02:53]

You do FTC underscore MH.

**HAMPTON DENNIS** [02:56]

Let's see.

**Rodney Meier** [03:00]

And then quantity one and whatever you're going to be billing for freight.

**HAMPTON DENNIS** [03:05]

Nothing \$1,000 can't fix. He was \$380 worth of \*\*\*\*. \$35. Ooh, man, you're charging me freight.

**Rodney Meier** [03:19]

Yeah, and that went up as of today.

**Rodney Meier** [03:24]

So he's lucky he got it yesterday.

**HAMPTON DENNIS** [03:26]

Yeah, we'll pretend like it's not gone up yet.

**Rodney Meier** [03:30]

- No, it went up effective today. So anything that shipped out today is higher freight. Looked like everything went up a buck.

**HAMPTON DENNIS** [03:40]

I don't have to express pick the freight, do I?

**Rodney Meier** [03:43]

Nope, nope. You can just invoice it

**Rodney Meier** [03:48]

and it'll print an invoice.

**Rodney Meier** [03:50]

You don't have to pick and pack nothing. You can just invoice it direct.

**HAMPTON DENNIS** [03:59]

Invoice, resource.

**Rodney Meier** [03:59]

Yeah, oh, effective April 27th. That was yesterday. Well, we'll give him a break.

**Rodney Meier** [04:07]

Yeah, it's 18, you said 36 or 35, it went up two bucks, it went up to 37.

**HAMPTON DENNIS** [04:07]

Yep, yep.

**HAMPTON DENNIS** [04:15]

Then Sansa,

**Rodney Meier** [04:17]

Yeah, 18, 25, 31, 37 and 41. And anything over \$550 is free, plus it's tires or forks.

**HAMPTON DENNIS** [04:29]

well he should have bought more.

**Rodney Meier** [04:33]

Yeah, there you go.

**HAMPTON DENNIS** [04:33]

Yeah, well mine was simple and easy. What have you got?

**Rodney Meier** [04:39]

That engine for that Toyota, \$1,750 from Helmar.

**HAMPTON DENNIS** [04:44]

Okay, yeah I get one coming.

**Rodney Meier** [04:47]

All right, I may have to use your credit card. I don't know. Chrissy's trying to call me right now.

**Rodney Meier** [04:54]

I was just getting ready to look to see if they were still on hold on our vendor list. And I'm thinking we can't charge it. I think we have to pay for it, but let me look here.

**Rodney Meier** [05:12]

We used to be able to charge, I thought,

**Rodney Meier** [05:16]

but yeah, they're not even listed in our vendors anymore.

**Rodney Meier** [05:26]

Yeah, they're not even listed as a vendor anymore.

**Rodney Meier** [05:30]

So, well, I have an account with them. I mean, we got a discount. It was supposed to be \$19.25, and we got it for \$17.50, so I mean, they took \$175 off, but

**Rodney Meier** [05:44]

So anyway, all right, I will see what I can do.

**HAMPTON DENNIS** [05:50]

Yeah, yeah get her coming and we'll go from there.

**Rodney Meier** [05:53]

Yep, and yeah, you should have, yeah, if you just bill him extra for the freight. Yeah, anytime you gotta start doing a credit with TVH, it can turn into a headache, especially if you're gonna rebuild it, 'cause then you just gotta build, you gotta charge everything back out again and put all the part numbers back in again and yeah.

**HAMPTON DENNIS** [06:11]

The nice part is these TVH part numbers were in our system already, so that was nice.

**Rodney Meier** [06:18]

Oh, were they? Well, then we could have probably done a credit, but you just still had to register them, pick them and pack them to put them back into stock, and then you had to rebuild them all back out again. It's Ross, just billing for the freight. Yeah, just billing for the freight. And if he says something like, well, you know, for no more money than we make off of you,

**HAMPTON DENNIS** [06:23]

Yeah. Yep, yep. Pick them and pack them.

**HAMPTON DENNIS** [06:28]

Yeah. I like this. I like

**HAMPTON DENNIS** [06:31]

it. Yep. Yep, that's exactly what I'm doing.

**HAMPTON DENNIS** [06:42]

Oh, we didn't make anything. Yeah.

**Rodney Meier** [06:43]

'Cause I was gonna say, it probably ran it through, if you had regular R parts, it probably ran them through at cost, whatever we had in our system anyway.

**Rodney Meier** [06:52]

I assume it matched what was in the system on the PO.

**HAMPTON DENNIS** [06:55]

Yep. Yep. Yep.

**Rodney Meier** [06:58]

Okay, 'cause they don't always update those, that's why I

**HAMPTON DENNIS** [07:01]

Yeah, everything was hunky-dory.

**Rodney Meier** [07:05]

asked. Yeah, 'cause I was surprised if even that Van Mar, Van Air,

**Rodney Meier** [07:11]

Compressor part, it was \$2,000 less in our system.

**HAMPTON DENNIS** [07:16]

Really? I did see that.

**Rodney Meier** [07:17]

It showed it at \$17,000 in our system when I put it in, or \$16,000 something. Yeah, I adjusted the price to what you quoted. And it's processed, so it should be shipping today or tomorrow.

**HAMPTON DENNIS** [07:21]

Yeah. Yeah. So our sales tape just wasn't updated yet.

**HAMPTON DENNIS** [07:33]

Yeah, because

**HAMPTON DENNIS** [07:36]

what's-his-bucket even said that

**HAMPTON DENNIS** [07:40]

they were

**HAMPTON DENNIS** [07:43]

in Kansas City.

**Rodney Meier** [07:47]

Yeah, yeah, nope, I got John, yeah, John Wither just sent me an email, said thank you, I have this on order number to ADM Corn.

**Rodney Meier** [07:56]

So, so yeah, they should get it, should get it before the end of the week, I would guess.

**HAMPTON DENNIS** [08:07]

Yeah, and then I'll get Luke or get Justin from Lincoln up there to put it in.

**Rodney Meier** [08:07]

So, should be fine.

**Rodney Meier** [08:13]

Oh, Lincoln up there. Sure, sure.

**Rodney Meier** [08:16]

Okay. Yeah, I got tires ordered for Luke. He had me send them to Cargill for ADM for that C5000. He did want traction tires. I don't know why he wanted traction. I looked it up. We never put tires on it. Apparently, it had non-marking tires on it when we sold it to him.

**HAMPTON DENNIS** [08:23]

Really?

**Rodney Meier** [08:36]

That's how it came out of the factory anyway. And I couldn't find any information. We ever did any tires on it. So I don't know if we ever changed any at all.

**Rodney Meier** [08:46]

It might've been mixed in with something that never got put in the headers. But anyway, I ordered them all from TBH. So he'll get all four of them on a pallet.

**HAMPTON DENNIS** [08:51]

No, that never happens around here.

**HAMPTON DENNIS** [09:00]

Nothing ever gets mixed up around here. What are you talking about?

**Rodney Meier** [09:03]

So yeah, yeah. But now I'm trying to find a fricking mirror bracket.

**Rodney Meier** [09:09]

One of the machines at FlexCon, he needed a mirror and it's clamped on, it's not bolted on 'cause there's no headlights on here. So there's just like a U-bolt in a bracket, but I can't find the bracket anywhere.

**Rodney Meier** [09:30]

It's some kind of a special, I don't know, almost looks like an elbow. I can't, I went into miscellaneous and I, I don't know, I'll have to do some looking. So, oh, your buddy Jennings is calling now.

**HAMPTON DENNIS** [09:45]

I was curious what you guys came up with on the price for that.

**Rodney Meier** [09:49]

Yeah, yeah, he must have told, he must have figured parts and not service. I'll let it go through, it'll go through to Christy and she can transfer it to you.

**HAMPTON DENNIS** [09:54]

Yeah, we'll do.

**HAMPTON DENNIS** [09:58]

Deal. That works. I appreciate it, Rod. Thank you. Yep. Yep. Bye.

**Rodney Meier** [10:01]

All right. Okay. Talk to you later. All right. Bye.

AI SUMMARY

Dawson (Customer) called Nate Ross to follow up on previous matters concerning MLA and ABC Electric, specifically regarding a lifting device's serial number.

FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Nate Ross** [00:03]

This is Nate.

**OMAHA NE** [00:05]

Hey Nate, it's Dawson. Just wanted to follow up. You heard back from MLA about that

**Nate Ross** [00:06]

Hey, what's up?

**Nate Ross** [00:11]

I'll be here tomorrow

**OMAHA NE** [00:13]

yet? Oh yeah, let's have that last time too.

**Nate Ross** [00:14]

due to inclement weather coming from Grand Rapids.

**OMAHA NE** [00:17]

Oh,

**OMAHA NE** [00:19]

inclement weather my \*\*\*. Anyhow, just also wanted to follow up on that ABC Electric has that one video.

**Nate Ross** [00:21]

Yep, yep.

**Nate Ross** [00:24]

One

**OMAHA NE** [00:30]

Open for lifting devices on, I can give you the serial number real quick.

**Nate Ross** [00:36]

sec, let me get over there.

**OMAHA NE** [00:38]

Alright.

**OMAHA NE** [00:44]

Serial number is going to be 0200262540.

**Nate Ross** [00:54]

That don't come up with anything.

**Nate Ross** [00:59]

Let me try something else.

**OMAHA NE** [01:01]

Just try 2540 as the last four.

**OMAHA NE** [01:14]

It should be for ABC Electric.

**Nate Ross** [01:20]

Yeah, they have the serial number and there is M in front of it.

**OMAHA NE** [01:25]

Yeah, I've put in tickets to have that corrected before, but it's never gotten corrected. So anyhow, for that one that's open for lifting devices, could I have you go to that and double check the pricing of the parts that are on that for the pump assembly and everything? Yeah.

**Nate Ross** [01:27]

That's why.

**Nate Ross** [01:54]

Is that on the AMI one?

**OMAHA NE** [01:55]

Is it what?

**Nate Ross** [01:58]

Is that on the AMI one?

**OMAHA NE** [02:00]

No, it should be one that says inspect lifting device.

**Nate Ross** [02:07]

For that serial, I've got two of them. One is DH lift issues slash decals check serial. Okay. Okay.

**OMAHA NE** [02:14]

Yeah, that one. Yep, lift issue.

**OMAHA NE** [02:19]

Yep. Yep, that one. There should be pumps, seals, and filters on there.

**Nate Ross** [02:20]

Okay, so

**OMAHA NE** [02:27]

I need to verify pricing on those because once I get done looking at this unit...

**Nate Ross** [02:31]

there's

**Nate Ross** [02:34]

on the install decals, there's an invoice decal and then on the inspect lifting devices, the only thing that's on there is a pressure relief valve.

**OMAHA NE** [02:41]

Yes, that one.

**OMAHA NE** [02:48]

Oh, that's right, because we had to delete all that stuff for you to be able to order

**Nate Ross** [02:50]

Oh \*\*\*\*, that is right. Yeah, that is right. I remember that now. Well,

**OMAHA NE** [02:55]

it. Okay. Okay, yeah. Give me a second to get this pressure port put back together, and then I will...

**OMAHA NE** [03:04]

Look up those parts in 70s. That way we can get accurate pricing. And because with replacing that

**OMAHA NE** [03:13]

relief valve, it's still bypassing. So it's going to be, unfortunately, it's that pump assembly.

**OMAHA NE** [03:21]

All right. Well, I'll get that sent over to you here shortly then.

**Nate Ross** [03:25]

\*\*\*\*. Sounds good.

**OMAHA NE** [03:26]

All right. Thanks,

**Nate Ross** [03:27]

Thanks, man. Bye, bye.

**OMAHA NE** [03:29]

sir. Yep. Bye.

Inbound

Positive

### AI SUMMARY

Cooper Patrick called Adam Henderson from Rion Equipment regarding an obsolete harness.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Adam Henderson** [00:04]

Rion equipment, this Adam.

**COOPER PATRICK** [00:08]

Is Kent there or is he a lunch?

**Adam Henderson** [00:11]

He's at lunch from 12 to 12:30.

**COOPER PATRICK** [00:13]

Oh, hey. He's supposed to be looking for a harness for me. Well, I got to a Toyota and I found a number.

**COOPER PATRICK** [00:21]

But they don't carry it no more. It's obsolete.

**Adam Henderson** [00:25]

Yeah, what's the number?

**COOPER PATRICK** [00:27]

56301-23.

**COOPER PATRICK** [00:34]

001-71A is an apple.

**Adam Henderson** [00:40]

Okay.

**COOPER PATRICK** [00:42]

It looks like it. It's kind of hard by the picture, but it looks like

**Adam Henderson** [00:46]

Yep, not available from TVH either.

**COOPER PATRICK** [00:50]

it. So pretty much I just have to splice wires.

**Adam Henderson** [00:52]

Yep, yeah, I just have to make something work.

**COOPER PATRICK** [00:56]

But it's right at the connector.

**Adam Henderson** [01:00]

Yeah, cut both connectors off and just bypass the connector.

**COOPER PATRICK** [01:06]

Well, it's the connector to the key switch because they had the key switch was...

**COOPER PATRICK** [01:10]

It was loose in there and it just kept twisting the freaking wires. I believe it broke the wires in the \*\*\*\*

**COOPER PATRICK** [01:17]

harness because I could twist it and it'll start. But if I untwist it, it won't do nothing.

**Adam Henderson** [01:23]

It's just spades on the switch though,

**COOPER PATRICK** [01:27]

It's got a connector, like a four plastic connector. It's got those push-in style like, oh, yeah.

**Adam Henderson** [01:34]

right? The Molex ones. Yeah, I'd just cut that off there and just put normal spades on the wires and extend whatever you gotta do.

**COOPER PATRICK** [01:43]

Yeah, I told him I'd recommend putting a key switch in it too, but it's a little, got a little play at the end, but it ain't bad.

**COOPER PATRICK** [01:57]

I'll probably have to do that, and I'll get him by for now, then order a key switch for it,

**Adam Henderson** [02:02]

Yeah. Okay.

**COOPER PATRICK** [02:03]

because they didn't have one at Toyota, so,

**Adam Henderson** [02:05]

Really? Huh. Yeah, Omaha had one, so I can have one tomorrow. So.

**COOPER PATRICK** [02:11]

okay. Or if I should keep it apart and just,

**COOPER PATRICK** [02:15]

well, I guess I could fix the wires now, but.

**Adam Henderson** [02:18]

Yeah.

**COOPER PATRICK** [02:21]

All right. Yeah, if you could order that key switch. I know he said just go ahead and order it

**Adam Henderson** [02:26]

Okay, will do.

**COOPER PATRICK** [02:26]

and check on the wires.

**Adam Henderson** [02:31]

I'll get it handled.

**COOPER PATRICK** [02:31]

Yeah. For that Innovative Ag Services or something like that.

**Adam Henderson** [02:35]

Yeah, I still have it up.

**COOPER PATRICK** [02:40]

All right. And it's like a black plastic looking one,

**Adam Henderson** [02:42]

Yep, it's just got four terminals on the back of it with a plug. Yep, I'll get it handled.

**COOPER PATRICK** [02:45]

right? Four on the

**COOPER PATRICK** [02:47]

back. Yep.

**COOPER PATRICK** [02:50]

Yep. Okay. All right. Thank you.

**Adam Henderson** [02:52]

Thank you.

**COOPER PATRICK** [02:53]

Yep. Bye.

### AI SUMMARY

Nick reached out to Miguel Rivera Padilla (Representative, Ryan Equipment) to inquire about the ETA for a delivery and to confirm the correct email address for communication.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Miguel Rivera Padilla** [00:03]

Ryan Equipment, this is Miguel. I can help

**WIRELESS CALLER** [00:07]

Yeah, hey, Miguel. Hey, it's Nick again.

**Miguel Rivera Padilla** [00:09]

you. Hey, Nick.

**WIRELESS CALLER** [00:10]

Hey, I was just checking to see one kind of ETA and then two. I haven't got that.

**Miguel Rivera Padilla** [00:17]

Okay. Let me...

**Miguel Rivera Padilla** [00:22]

Okay.

**Miguel Rivera Padilla** [00:26]

So the email that I have is...

**WIRELESS CALLER** [00:33]

If you want, could you email to just office at thetitanrentals.com?

**Miguel Rivera Padilla** [00:38]

Yeah, yeah, yeah. What is the email there?

**WIRELESS CALLER** [00:43]

It's just office at

**WIRELESS CALLER** [00:46]

thetitanrentals.com.

**Miguel Rivera Padilla** [00:53]

Is Titan... Does it have an S in between or no?

**WIRELESS CALLER** [00:57]

Uh, nope, it's just Titan and then rentals with an S on the end of that one.

**Miguel Rivera Padilla** [01:03]

So I have office at the titansrentals.com.

**WIRELESS CALLER** [01:10]

It's just, it's the Titan rentals. So Titan is singular.

**Miguel Rivera Padilla** [01:12]

Gotcha. Okay, I'm going to go ahead and send you this then.

**Miguel Rivera Padilla** [01:22]

All right, I'm going to send it right now.

**WIRELESS CALLER** [01:24]

Okay, and then do you have an ETA for him yet?

**Miguel Rivera Padilla** [01:26]

Yeah, yeah, yeah. Here, as soon as I get that paperwork, I have to submit it real quick and I'm able to send the mail.

**WIRELESS CALLER** [01:34]

Oh, okay. I thought you were sending them. Okay. Um, I thought you said you were sending them while we get this figured out, but...

**Miguel Rivera Padilla** [01:35]  
Yes, sir.

**Miguel Rivera Padilla** [01:39]  
No, I'm, uh, so I have to get the, pretty much the account in the system, open it, you know, like trying to, like, submit it. Yeah, I'm sending it right now.

**WIRELESS CALLER** [01:49]  
Okay, let's... Gotcha.

**WIRELESS CALLER** [01:52]  
Yep, let's send it again. We're just waiting here with containers stacking up, waiting for, you know, so we're kind of in a bond, so

**Miguel Rivera Padilla** [01:57]  
Okay. Okay, I'm sending it right now. Okay.

**WIRELESS CALLER** [02:01]  
thanks.

### AI SUMMARY

Kent Stewart (Sales rep) communicated with Cooper Patrick regarding the absence of harness listings at TVH and is awaiting further information after reaching out to them.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Kent Stewart** [00:04]

Hey, Mr. Gregg.

**COOPER PATRICK** [00:07]

Hey, we'll find out.

**Kent Stewart** [00:08]

I didn't find any harnesses listed at TVH. What I did is I emailed them and said, hey, can you tell me what the harness is between the instrument cluster and the main wiring harness?

**Kent Stewart** [00:25]

And I haven't received anything back. When I looked at TVH on their electrical, I did not see any wiring harnesses. So I'm not sure what the skinny is on that, but I do not have an answer for you yet,

**COOPER PATRICK** [00:41]

All right. I'll see what the customer wants to do. All right. Bye. Yep. Bye.

**Kent Stewart** [00:42]

sir. Okay.

**Kent Stewart** [00:45]

All right. Thank you.

### AI SUMMARY

In a conversation between Nate Ross (Representative, Brian Equipment Partners) and Valerio Brekke, they discussed various topics including a recent EOS survey that highlighted positive takeaways and dealer engagement opportunities.

### FULL TRANSCRIPT

**VALERIO BREKKE** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Brian Equipment Partners,

**VALERIO BREKKE** [00:06]

Hey Nate, it's

**Nate Ross** [00:07]

Nate. Hey, what's up?

**VALERIO BREKKE** [00:09]

Michael. How'd your meeting go this morning?

**Nate Ross** [00:11]

Oh, it was good. It was kind of like our EOS survey is what it was. They're kind of like a third party. I mean, it was questions like, hey, like, what could they do better? What are some positive takeaways? If there's...

**VALERIO BREKKE** [00:16]

Oh yeah?

**Nate Ross** [00:29]

They were kind of like going like over, he told me that they were looking to go to like some kind of dealer engagement party to where they can, you know, kind of have some cross talk and things like that. But no, like I said, it was good.

**Nate Ross** [00:51]

Then UPS showed up and I didn't have my package for that ECM.

**VALERIO BREKKE** [00:56]

Yeah, what's going on with them?

**Nate Ross** [00:58]

So supposedly inclement weather

**VALERIO BREKKE** [01:03]

Oh, perfect.

**Nate Ross** [01:04]

from Grand Rapids.

**Nate Ross** [01:08]

So it's supposed to be here tomorrow.

**VALERIO BREKKE** [01:08]

Perfect.

**Nate Ross** [01:11]

So then Troy calls me and I'm talking to him and he's like, oh, you can shoot me out, blah, blah, blah. And I said, Troy, I was like, that's kind of a waste of time.

**Nate Ross** [01:19]

For me to get wound up and chew you out. What needs to happen is we just need to get this under control.

**Nate Ross** [01:28]

But we talked about all those emails I fired off this morning about pricing.

**Nate Ross** [01:35]

And he goes, well, you know, what we can do is we'll get together and

**Nate Ross** [01:41]

And we'll start going over like, you know, usage. And I was like, Troy, I'm not having that conversation with you.

**Nate Ross** [01:48]

What do you mean? I said, I'm not, this isn't a conversation to have. We're not going to go about usage. I don't want to hear about usage. I gave you the price. You got to either meet it or beat it or else I'm going to use TVH. It's that simple.

**VALERIO BREKKE** [02:05]

Right.

**Nate Ross** [02:06]

He goes, well, we got to have an idea of what you're going to buy. I said, no, you don't. You need to match the same as TVH does or else I promise you, you're not going to get in the door.

**Nate Ross** [02:18]

I was like, I didn't hide nothing from you. Like, there it is, point blank. It's on hand. I said, there's one email that you guys don't even have it on hand.

**Nate Ross** [02:27]

TVH does. But I said, you got to match the price,

**VALERIO BREKKE** [02:36]

Yeah, absolutely.

**Nate Ross** [02:36]

man. I can't stress that enough. You're just going to have to do that.

**Nate Ross** [02:45]

You're not going to make me buy a whole bunch of it when I can buy one.

**VALERIO BREKKE** [02:51]

Right. No, I had that same conversation with Home Depot today.

**VALERIO BREKKE** [02:59]

Rion, Nate, VALERIO, REP, PRO, COI.

**VALERIO BREKKE** [03:22]

To hopefully install them and then install it and then it just get denied. I'm not doing that.

**VALERIO BREKKE** [03:31]

And if you have a problem with that, talk to my boss.

**Nate Ross** [03:31]

So, yeah, I'm just...

**Nate Ross** [03:35]

It's got to make sense. I don't know why this is so hard to comprehend sometimes.

**Nate Ross** [03:45]

Yeah, I was sitting there. I was just like, really? You're going to call me to have that conversation? That's idiotic.

**VALERIO BREKKE** [03:51]

The usage is \*\*\*\*\* once right now. And then maybe later on in the future, that's the \*\*\*\*\* usage.

**Nate Ross** [03:59]

Well, and that's kind of where I'm at with it is just that at that point.

**VALERIO BREKKE** [04:09]

But yeah, I mean, it's...

**VALERIO BREKKE** [04:12]

I mean, I got \*\*\*\*\* with the Home Depot people today. I said, okay, and I'll just play devil's advocate for service labor, okay? You don't want whole seats to be replaced and you would want individual parts and blah, blah, blah. Well, it takes me three hours to change that part out, okay?

**VALERIO BREKKE** [04:30]

And I can do the seat in 30 minutes.

**VALERIO BREKKE** [04:35]

I need to protect my guys' time so they can make money because they're not making money at Home Depot, so I'm putting a seat in there. Well, that's just not the right way that we can do it. I was like, I don't... Well, what's right and what's not is just something that I don't care about,

**Nate Ross** [04:51]

Well, and that's the whole thing is you guys...

**VALERIO BREKKE** [04:52]

So...

**Nate Ross** [04:54]

You guys are doing things to be competitive against Yale's and everything else. But again, we're not apples to apples here. You know, for a seat that might be on a Toyota that might take 10 minutes to do,

**Nate Ross** [05:13]

may take an hour for us to do on that. But to be competitive, you're

**Nate Ross** [05:18]

You're like, oh, we'll put that in an hour because the dealer is the one who's going to take it in the shorts on the backside anyway.

**Nate Ross** [05:23]

Like that.

**Nate Ross** [05:27]

Yeah. No, I went over with this guy. He's like, what's what's one of the biggest struggles that you see that hinders your guys is growth in part sales. And I said.

**Nate Ross** [05:38]

I laughed. I said, well, do you got a brand new pen? Because I said, this one's going to take a little bit. And he kind of laughed. And I went over. I said, you know, we have online parts counter. I said, we live in an Amazon world. I said, how do we make it to where it's like, it's just like we use Amazon? He goes, you know, I hear this all the time in the field. And I said, they have become the benchmark.

**VALERIO BREKKE** [05:43]

Well,

**Nate Ross** [06:03]

And that's what we have to do. So with that being said,

**Nate Ross** [06:09]

I went over like our stock to emergency and how that works and how stock orders work. And I said, now you have no recollection, no background in this company, correct? He goes, nope. I said, okay. I said, this is a great opportunity for

**Nate Ross** [06:27]

for me to give you an education and so that you can understand the severity of this. I said, if I came to you as the customer and you were wanting to buy X, I said, I can either, I give you the choice to order it yourself. You don't have an option to not have

**Nate Ross** [06:47]

What I'm suggesting is that I give you the option to either stock order it, free freight, comes in three days, or you ground ship it, comes in a day.

**Nate Ross** [07:03]

Why wouldn't you even do that? Why would you not offer that? And I said, that's what I'm saying.

**Nate Ross** [07:09]

I said, think about that in the shop world where now I can utilize the parts,

**Nate Ross** [07:14]

Online parts. And now I can start selling everything. Not just little things. Because I said, we don't sell them stock order stuff because we're too high on the freight.

**Nate Ross** [07:27]

He goes, yeah, that makes perfect sense. He goes, that's a great way to look at it. He goes, yeah, there's probably a lot of things that you guys don't sell them. Absolutely.

**Nate Ross** [07:37]

So even someone that has no recollection of parts,

**Nate Ross** [07:42]

was able to understand why that is hindering their growth and our growth.

**Nate Ross** [07:53]

So now whether something comes of it, I don't know. But we'll see.

**Nate Ross** [08:04]

But no, I'm glad you pounded old Home Depot. That's good. I like hearing that.

**VALERIO BREKKE** [08:04]

you can only hope.

**VALERIO BREKKE** [08:10]

No, they didn't fucking...

**VALERIO BREKKE** [08:14]

They just argued with me more. It's going to get to a point where Home Depot is just going to be at the bottom of our list and we just won't care about your scorecards at all.

**Nate Ross** [08:26]

I told that to Neil. I said, Neil, I said, if the scorecard doesn't make sense for us and it doesn't put bottom dollars to the bottom line,

**VALERIO BREKKE** [08:26]

It is what it did.

**Nate Ross** [08:36]

I said, we'll neglect to do it. A scorecard is a scorecard.

**Nate Ross** [08:42]

And, yeah. Did you see that email I fired off about the run rate for Kubota parts?

**VALERIO BREKKE** [08:49]

I did,

**Nate Ross** [08:51]

Oh, man. I was just curious on what, since we're creeping up to halfway mark of the year, I wonder what our run rate is right now. That's huge growth

**Nate Ross** [09:04]

in Kubota parts.

**Nate Ross** [09:08]

Yeah, that's huge growth. That's over. I did the math on that a little bit ago. At Holden, 20...

**Nate Ross** [09:19]

26% gross margin will make over \$78,000 in pure profit just in that one line item.

**VALERIO BREKKE** [09:27]

yeah. Nice.

**Nate Ross** [09:28]

So that's huge.

**Nate Ross** [09:31]

When you get back, you'll have to look at how they did the drainage for the downspouts.

**Nate Ross** [09:40]

It looks like a five-year-old did it.

**VALERIO BREKKE** [09:43]

Perfect.

**Nate Ross** [09:44]

It looks bad. It looks bad.

**VALERIO BREKKE** [09:48]

Who did it?

**Nate Ross** [09:50]

The landlord's people did it. It looks, it looks, they're not going to run it to the pavement. They're running it over to the ditch, to the street.

**VALERIO BREKKE** [09:55]

Oh, perfect.

**Nate Ross** [10:03]

So you're going to have this great big \*\*\* 8, 10 inch.

**VALERIO BREKKE** [10:06]

Ow, you have a hill.

**Nate Ross** [10:08]

Yeah, I know. That's what I thought. So yeah, they're going to run that. They're going to run along the building and then run it

**Nate Ross** [10:16]

I just,

**Nate Ross** [10:25]

I was like, okay,

**VALERIO BREKKE** [10:25]

\*\*\*\* yeah.

**Nate Ross** [10:29]

sounds good.

**VALERIO BREKKE** [10:30]

Sounds good.

**Nate Ross** [10:31]

Yep, sounds good.

**VALERIO BREKKE** [10:33]

Sounds good. Ugh.

**Nate Ross** [10:35]

So, all right, man, well, when you, when you heading back,

**VALERIO BREKKE** [10:40]

I'm going to leave here around 2, so I should be back around 3.30, 4 o'clock.

**Nate Ross** [10:45]

sounds good,

**Nate Ross** [10:47]

man. Well, we'll see you then.

**VALERIO BREKKE** [10:48]

Yes, sir. Bye.

**Nate Ross** [10:49]

Yep. All right. Bye.

CALL 329 OF 611

## Inbound call from TRI

April 28, 2026 | 04:31 PM | Duration: 4m 45s | From: TRI | To: +13072280504

Inbound

Positive

### AI SUMMARY

In the conversation, Adam Ratcliff (Sales rep) helped Brad from Transhorse address a problem with a loose pilot bushing in a flywheel.

### FULL TRANSCRIPT

**TRI** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:03]

Thanks, Collin, Ryan and Clemens. This is Adam. I can help you.

**TRI** [00:07]

Hey, Adam, this is Brad again at Transhorse.

**TRI** [00:10]

Hey, they're going to do the, we're probably going to build up the pilot on this old flywheel so we can get this thing going. But the new pilot bushing that we got is loose in the old flywheel and the new flywheel, and the old one we took out is not. So they want to order another one to see if maybe they machined this one wrong.

**Adam Ratcliff** [00:33]

Okay.

**TRI** [00:34]

Is it returnable if it's exactly the same?

**Adam Ratcliff** [00:38]

That bushing.

**TRI** [00:39]

Yeah.

**Adam Ratcliff** [00:41]

Yeah, we can do that.

**TRI** [00:41]

I mean, if we got to pay restock and freight or whatever, I get that part of it, but they want to get another bushing in here because they don't know why the old one's tight in the flywheel and the new one's not.

**Adam Ratcliff** [00:54]

Yeah, that is kind of different.

**TRI** [00:55]

So...

**TRI** [00:58]

Yeah, well, and that's, and then, like I said, when he tapped the old one out, it kind of dinged it up a little bit, so we can't really reuse that one, and we want to get the other bushing, so if we're going to have it machined, then we're going to have it machined right to this other bushing.

**Adam Ratcliff** [01:05]

Okay.

**TRI** [01:20]

Is it the same price? Do you want the part number?

**Adam Ratcliff** [01:23]

Oh, yeah, if you got that handy, that'd be perfect.

**TRI** [01:24]

Oh yeah, I got it.

**TRI** [01:31]

Whenever you're

**Adam Ratcliff** [01:32]

Yeah, I'm ready.

**TRI** [01:33]

ready. It's a 699-039-299.

**Adam Ratcliff** [01:41]

\$299.

**TRI** [01:53]

I kind of figured they wouldn't give you dimensions on that machining on that thing anyway, truthfully, just because it's so proprietary, you know.

**Adam Ratcliff** [02:01]

Yeah. Well, they came back here just when you were calling and sent me an email, and it says that that is,

**Adam Ratcliff** [02:10]

I apologize, but the flywheel is a Cummins part, and we do not have any specifications for its manufacturing.

**TRI** [02:10]

Yeah, I've got you. Okay.

**Adam Ratcliff** [02:19]

Which, I'd probably have a way of saying they don't want to give it to me.

**TRI** [02:24]

Right. Yeah. Well, a lot of places are like that, though. Yeah. If it's proprietary, they're like, nope. You're going to buy it from us. We're going to charge you \$4,000. We're going to make \$2,000 on it and see you later.

**Adam Ratcliff** [02:33]

Yeah.

**Adam Ratcliff** [02:38]

Right. Let me, I'm going to send my parts that shuttle wagon this part number and just verify that that is the correct one.

**Adam Ratcliff** [02:52]

Okay.

**Adam Ratcliff** [02:55]

You know what I mean? Before I order another one?

**TRI** [02:55]

Yeah, it says it is for Cummins. Yeah, right. It does say it is for the Cummins on the parts diagram and B and C and Funk. It looks like they're all the same, but like I said, it's definitely, I went out there and it's definitely not as tight in there, but then your guy said, yeah,

**TRI** [03:12]

Yeah, those pilots are loose and they just tap in. Well, this one doesn't tap in. It just drops in. So they're like, let's order another one just to see if it's something different. But double check it. That's fine. But if it's the same price, I'll just give you a PO for it. And then that'll be done. But I was going to see if you could next day it.

**Adam Ratcliff** [03:29]

Okay.

**Adam Ratcliff** [03:37]

Yep. Yeah,

**Adam Ratcliff** [03:41]

he'll get back to me right away here and I'll get it verified and then I'll get it next day to you. What PO do you want on that? It should be the same price. That was only a couple weeks ago.

**TRI** [03:41]

Cool. Okay. Okay, PO number is going to... Yeah, and I can just change it. But yeah, so the PO number is going to be 1689.

**Adam Ratcliff** [03:55]

I can let you know if it's

**Adam Ratcliff** [04:04]

not. 1689.

**TRI** [04:05]

Yeah, and then just make sure that they don't charge me tax on that one like they did the other one. Okay. Okay. Sounds good, man. I appreciate it. Thank you. Bye.

**Adam Ratcliff** [04:07]

Okay.

**Adam Ratcliff** [04:11]

Yeah. Yeah. I got you. Hopefully that is fixed. So, all right. I'll be in touch. All right. Thank you. You bet.

**Adam Ratcliff** [04:24]

Yep.

CALL 330 OF 611

AI SUMMARY

Jesse and Chris discussed the issue of the COI not automatically adding to the order. Jesse confirmed he manually added it, and Chris clarified that the COI is automatically added once a R number is added.

FULL TRANSCRIPT

SUDDEN SERVICE [00:00]

This call is being recorded.

Jesse Downey [00:04]

Hey Chris.

SUDDEN SERVICE [00:05]

Hey man, I just wanted to let you know what happened on that order, first order. What happened was you added the COI. The COI is automatically added once you put a R number on there. You don't have to put the COI. The COI will be automatically added.

Jesse Downey [00:19]

Oh, it did not add, so I manually added it. Okay, so gotcha.

SUDDEN SERVICE [00:24]

All right? But that's what happened.

Jesse Downey [00:26]

All right, well next time I know. All right, thank you.

SUDDEN SERVICE [00:28]

Yes, sir.

SUDDEN SERVICE [00:30]

All right. Bye.

CALL 331 OF 611

AI SUMMARY

The conversation began with a friendly greeting from Lisa Kleeman (Sales rep) to Nicholas Cochran from Dina.

FULL TRANSCRIPT

**COCKBURN N.** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:04]

Good morning, Rion Equipment. This is Lisa. How can I help you?

**COCKBURN N.** [00:09]

Hey, Lisa, this is Nicholas Cochran with Dina. Oh, Colin, I'd give you some money.

**Lisa Kleeman** [00:11]

Hey, how are ya?

**Lisa Kleeman** [00:16]

Oh, well, we'll take it.

**Lisa Kleeman** [00:21]

Give me just a second here. Are we doing it in two segments like we did last time?

**COCKBURN N.** [00:22]

Cool.

**COCKBURN N.** [00:31]

I hate to do this, but I got in a lot of trouble for running that much in one month. So I'm going to have to ask you if we can do half of what's current code.

**Lisa Kleeman** [00:41]

Okay. Okay. So we're going to pay \$23.47.94. Okay. Let me write this paid.

**Lisa Kleeman** [01:14]

\$2,347.94. Okay, \$2,347.94. Ready for a card number when you are.

**Lisa Kleeman** [01:34]

Expiration?

**COCKBURN N.** [01:37]

<REDACTED\_ENTITY>, 129,

**Lisa Kleeman** [01:42]

Three-digit code.

**COCKBURN N.** [01:46]

589.

**Lisa Kleeman** [02:03]

Okay. And then when are we going to do the remainder?

**COCKBURN N.** [02:11]

It will be the 20th, let's see, the 23rd, let's do the 25th of May. Because that's my month. Yeah, well, our months are done.

I think it's like 23rd to 23rd, but just to be safe, we'll do it on the 25th.

**Lisa Kleeman** [02:20]

25th of May.

**Lisa Kleeman** [02:32]

Okay. Put that on Friday. I'm looking at my...

**COCKBURN N.** [02:37]

Oh, cool, that'll work.

**Lisa Kleeman** [02:40]

Nope, it'll be a Monday. That's Memorial Day weekend.

**Lisa Kleeman** [02:49]

Swing call shortly thereafter, like the 27th. I'll be gone that day, but we'll do Wednesday. Does that work?

**COCKBURN N.** [02:50]

Okay. How about

**COCKBURN N.** [02:53]

26 for

**COCKBURN N.** [02:56]

when is...

**COCKBURN N.** [03:01]

Yeah, that'll work.

**Lisa Kleeman** [03:02]

Okay.

**Lisa Kleeman** [03:04]

Then I will go through. I will send you a copy of this.

**Lisa Kleeman** [03:10]

I'll just reply to the same email that I sent so that you have this portion of it and then we'll go from the other part as soon as we can.

**COCKBURN N.** [03:20]

Okay.

**Lisa Kleeman** [03:21]

All right.

**COCKBURN N.** [03:23]

All right. Thank you.

**Lisa Kleeman** [03:24]

Thank you. Bye.

### AI SUMMARY

In the conversation, Chris (Customer service) and Jesse Downey (Equipment representative) discussed an issue with two stock orders submitted to Illinois.

### FULL TRANSCRIPT

**SUDDEN SERVICE** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

Rion, Equipment, Jesse and Parts.

**SUDDEN SERVICE** [00:06]

Hi, Jeff. It's Chris. SUDDEN, SERVICE. How are you?

**Jesse Downey** [00:08]

How about you?

**SUDDEN SERVICE** [00:10]

Oh, man. Pretty good, man. Hey, I got a call from our shipping department. It looks like we got two stock orders submitted, shipped them to Illinois. Both of you in the same PO number. We're just trying to make sure that this is not a duplicate or,

**Jesse Downey** [00:26]

Oh, well, I submitted one, then I got a big air screen. So I went back and see if there was an open order to see if it submitted and it did not. So it must have, so I went back to my cart and everything was still there. So I'm like, okay, this must not have submitted.

**SUDDEN SERVICE** [00:27]

you know, or if you.

**Jesse Downey** [00:44]

So I placed an order. So it looks like it may have been double, maybe like \$92,000.

**SUDDEN SERVICE** [00:46]

Okay.

**SUDDEN SERVICE** [00:51]

I really don't know the cost on it, but it hadn't went through yet. I mean, it hadn't pulled anything yet. So what I'll do is I'll get the first one voided and we'll just go with the latest one you submitted. Does that work?

**Jesse Downey** [01:08]

Yeah, that should work. But just a note, when I submitted the second one, it put on multiple sales orders. So I'll make sure you're aware of that.

**SUDDEN SERVICE** [01:18]

I mean, I'm only seeing one sales order.

**Jesse Downey** [01:20]

Well, I can see, I can show you what I...

**SUDDEN SERVICE** [01:27]

I mean, we can keep the first one. I mean, it don't matter. I mean, you can give me the sales order of which one you want to keep and that's which one we'll go with.

**SUDDEN SERVICE** [01:36]

I got two sales order numbers right here. 7542.

**Jesse Downey** [01:36]

No, it was just odd.

**Jesse Downey** [01:39]

It was just odd when I submitted the order.

**Jesse Downey** [01:43]

They gave me three sales order on that PO. That's why I'm telling. Uh-huh.

**SUDDEN SERVICE** [01:44]

Okay.

**SUDDEN SERVICE** [01:47]

On the second order.

**SUDDEN SERVICE** [01:50]

Okay. What's your first order?

**Jesse Downey** [01:53]

I never got an email on that one. I don't know what the sales order was. I never got to that one.

**Jesse Downey** [01:59]

So I have...

**SUDDEN SERVICE** [02:00]

What's your three sales order numbers that you have for your second order?

**SUDDEN SERVICE** [02:09]

Because it should be only just one.

**Jesse Downey** [02:12]

So, 7542-1637,

**SUDDEN SERVICE** [02:17]

Yeah, that's the only one I got. All right. What's

**Jesse Downey** [02:20]

7542-1551.

**SUDDEN SERVICE** [02:26]

your other one? Okay. That's your first order you submitted.

**Jesse Downey** [02:29]

Okay, I'm not sure. All right. They all came out once after I submitted the second order, so I'm not sure what was going on.

**SUDDEN SERVICE** [02:32]

All right.

**SUDDEN SERVICE** [02:36]

I got you. So, I mean, what I have is only two sales order numbers. That's 75421551. That's the one that came out first. And then 75421637. So we'll just, we'll avoid the, we'll, yeah, we'll avoid the 11551 and go to 1637.

**Jesse Downey** [02:48]

All right, just go with the second one, please.

**Jesse Downey** [02:56]

Okay.

**Jesse Downey** [02:58]

Alright, well next time that comes up I'll just make sure and call you. I just didn't think it went through because my cart was still there and I usually get an email out to some of the owner and I did not.

**SUDDEN SERVICE** [03:06]

I got you. I got you. All right, well, we'll go with the second one.

**Jesse Downey** [03:11]

Alright, thanks Chris.

Nick Plummer (Customer, Titan Rentals) contacted Miguel Rivera Padilla (Representative, Ryan Equipment) to address issues with a TX280 lift, specifically needing a new joystick and reporting ignition problems.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Miguel Rivera Padilla** [00:03]

Ryan Equipment, this is Miguel. How can I help you?

**WIRELESS CALLER** [00:07]

Yeah, hi, Miguel. Hey, my name is Nick. Hey, I've got a TX280 that apparently Taylor is saying needs a new joystick. And I didn't know if you guys could come out and

**WIRELESS CALLER** [00:20]

put that in today or what.

**Miguel Rivera Padilla** [00:22]

Yes. Let me, hold on. Let me take a look at it. What company you say you were with?

**WIRELESS CALLER** [00:30]

I'm with Titan Rentals. We haven't worked with you before. This is the first time we just got the lift.

**Miguel Rivera Padilla** [00:37]

Gotcha, gotcha. Okay, okay, okay. Let me get some information here from you.

**Miguel Rivera Padilla** [00:45]

And we can go ahead and proceed with this. Okay. All right. And you say your name was? Okay, Nick. Thank you for choosing Rion Equipment as well.

**WIRELESS CALLER** [00:53]

My name is Nick Plummer.

**WIRELESS CALLER** [01:01]

Yeah, absolutely.

**Miguel Rivera Padilla** [01:03]

Okay. And what unit do you have? What kind of unit is it?

**WIRELESS CALLER** [01:09]

It's a Taylor TX280M.

**Miguel Rivera Padilla** [01:19]

OK. All right. And it needs the joystick to be put on.

**WIRELESS CALLER** [01:26]

Yeah, so I'm having a couple issues. I was having like a C110 code. Apparently, we ran through some stuff and he thinks it's the joystick.

**WIRELESS CALLER** [01:39]

I didn't know if you guys could grab that joystick, and I can give you the part number if you need it. But I'm also having an issue, and it just started the other day. The ignition, like, it doesn't go to, like, the accessory on. It just goes straight to starting it.

**Miguel Rivera Padilla** [02:02]

OK. Got you.

**WIRELESS CALLER** [02:05]

So I didn't know if you could bring one of those to see if you end up having to swap that out.

**Miguel Rivera Padilla** [02:07]

OK.

**Miguel Rivera Padilla** [02:10]

OK. If we are having issues with that, I prefer, like,

**Miguel Rivera Padilla** [02:17]

Have the technician come over, take a look at it, and that way, you know, he can look at the unit more into detail and see, you know, what we're really needing. That way, we're not really ordering anything that, you know, is not necessary. And that way, you know, we're going directly to the problem. Okay, Nick and the...

**WIRELESS CALLER** [02:41]

So you guys actually have that joystick in stock. This Clark guy I've been talking to you already said you guys did.

**WIRELESS CALLER** [02:51]

They said I would probably for sure need that.

**Miguel Rivera Padilla** [02:51]

Gotcha. Okay.

**WIRELESS CALLER** [02:57]

How quickly could you guys get out there?

**Miguel Rivera Padilla** [03:00]

I have to see my availability right now on technicians. I know I have two that are being dispatched right now, three of them to different locations, and then I have one here. I can probably send him over and take a look at it.

**Miguel Rivera Padilla** [03:15]

But here's what's going on. So what company are you with, Nick?

**WIRELESS CALLER** [03:22]

Titan Rentals.

**Miguel Rivera Padilla** [03:24]

Do

**Miguel Rivera Padilla** [03:28]

you guys have an account with us at all?

**WIRELESS CALLER** [03:31]

I do not,

**Miguel Rivera Padilla** [03:33]

Okay. All right. So let me get your information here. What is the address to the location?

**WIRELESS CALLER** [03:43]

no. Uh, two, two, zero, three,

**WIRELESS CALLER** [03:47]

three. Blue Ridge Boulevard.

**WIRELESS CALLER** [03:51]

And that's, uh, Independence, Missouri.

**Miguel Rivera Padilla** [04:00]

Okay. What's the zip code?

**WIRELESS CALLER** [04:03]

Six, uh, I think it's six, four, one, three, zero.

**Miguel Rivera Padilla** [04:12]

Okay, Nick, what's the best phone number for me to get back in touch with you in case we lose contact?

**WIRELESS CALLER** [04:21]

Uh, eight, one, six, three, one, nine, eight, two, eight,

**Miguel Rivera Padilla** [04:28]

Okay, do you have an email contact as well?

**WIRELESS CALLER** [04:31]

eight. Yep, it's management.

**Miguel Rivera Padilla** [04:46]

Okay, so it is management@thetitanrentals.com. Okay, I'm gonna send you

**Miguel Rivera Padilla** [04:58]

I'm going to send you an application real quick through the email. How soon can you get this application filled out for me, Nick?

**WIRELESS CALLER** [05:09]

TheTitanRentals.com. I mean, I'm not really somewhere I can fill out an application. I mean, what am I filling out an application for?

**Miguel Rivera Padilla** [05:16]

This is like the credit app application. That way we can go ahead and get your account set up and we can go ahead and dispatch our technician over.

**WIRELESS CALLER** [05:28]

Yeah, I don't need any credit. I can pay you when you get there, you know, or pay you while you're there.

**Miguel Rivera Padilla** [05:35]

Okay, so this will be like a cash or check payment?

**WIRELESS CALLER** [05:41]

Yeah, yeah.

**Miguel Rivera Padilla** [05:44]

Okay, alright. Now for W2 purposes because we have to get the account set up, are you able to do any type of paperwork like that to where you can fill out some of the information from me that way I can have your company information?

**WIRELESS CALLER** [06:03]

Yeah, yeah, I can, I mean, yeah.

**Miguel Rivera Padilla** [06:07]

Okay, so what I'm going to do,

**WIRELESS CALLER** [06:07]

I just right now we're at a pause because we can't lift any containers until this is done so we're kind of in a rush.

**Miguel Rivera Padilla** [06:13]

gotcha, gotcha, gotcha, gotcha. So I'm going to send you this paperwork real quick and I'm going to try, you know, as soon as we get this, I'm going to go ahead and start opening your account in the system. And then the sooner, you know, we get this paperwork back, I'll go ahead and, you know, dispatch my guide to your location.

**Miguel Rivera Padilla** [06:34]

Take a look at it for you. So I'm going to go ahead and get this done right now and I'm going to go ahead and start getting the account set up.

**WIRELESS CALLER** [06:37]

Okay,

**WIRELESS CALLER** [06:42]

yeah. Is there a way that you could dispatch him while I'm filling out the information to get everything set up so that he's at least on his way?

**Miguel Rivera Padilla** [06:49]

Yeah, I'm going to talk to him right now. And the address that I have is 2033 Blue Ridge Boulevard Independence, Missouri 64130.

**WIRELESS CALLER** [06:52]

Okay.

**Miguel Rivera Padilla** [07:00]

Okay, gotcha. Okay, sounds good. Well, if anything, I'll give you a call back and if you have any other questions, Nick, you can give me a call back as well.

**WIRELESS CALLER** [07:09]

Okay, and do you know roughly how long it'll take for him to get here?

**Miguel Rivera Padilla** [07:15]

It shouldn't take him that long. It shouldn't take him that long. I would say maybe within 30 minutes or so, depending on the traffic.

**WIRELESS CALLER** [07:23]

Okay, perfect. Okay. All right. Yeah, just as soon as I get your paper or your paperwork, I'll get it filled out and then I'll just be waiting for him to get here.

**Miguel Rivera Padilla** [07:35]

Okay, sounds good.

**WIRELESS CALLER** [07:37]

All right. Thanks, sir.

**Miguel Rivera Padilla** [07:38]

All right, have a good one. Bye.

CALL 334 OF 611

# Inbound call from HAMPTON DENNIS

April 28, 2026 | 04:05 PM | Duration: 13m 21s | From: HAMPTON DENNIS | To: +14026440781

Inbound

Positive

## AI SUMMARY

In a collaborative conversation, Rodney Meier (Company Representative) and HAMPTON DENNIS (Customer) discussed various operational tasks, including shipping materials to Dan and ordering supplies.

## FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

- Yes, sir.

**HAMPTON DENNIS** [00:05]

Well, hello, Rod. How are you?

**Rodney Meier** [00:08]

Oh man, I'm just terrific. Sat through that big meeting and that was just really eventful for me.

**HAMPTON DENNIS** [00:15]

I didn't even get on it. I've been swimming in it. I got all the stuff in for Dan. You want to print me off an ASAP label for,

**HAMPTON DENNIS** [00:30]

call it 20 pounds, so I can send all this \*\*\*\* down to Dan.

**Rodney Meier** [00:38]

Yeah, I think Ross wanted some of the wipes. I don't know how many he wanted,

**HAMPTON DENNIS** [00:41]

Yep, yep. I put three tubs out there, one for each of them and one for the shop and then the rest can go down to Dan and then the fuses, that cascade deal. There's a gallon of oil, gallon of diesel oil

**Rodney Meier** [00:46]

but okay.

**Rodney Meier** [00:48]

Sure,

**Rodney Meier** [00:51]

sure. Yeah, okay.

**HAMPTON DENNIS** [00:59]

and then I think that was it.

**Rodney Meier** [01:01]

The gloves.

**HAMPTON DENNIS** [01:04]

Oh yeah, gloves.

**Rodney Meier** [01:05]

You wanted some of those extra large, the lighter weight coated ones? There should be some there I think.

**HAMPTON DENNIS** [01:10]

Yep, yep. Yep, yep. I'll grab those quick. Yeah, if you want to print me off an ASAP label for

**Rodney Meier** [01:16]

I will do it here right now. Been debating what to do with that Cargill, if I should change it to Attention Dan, because everything says Attention Dustin right now.

**HAMPTON DENNIS** [01:18]

that box, then I will.

**HAMPTON DENNIS** [01:31]

Yep.

**HAMPTON DENNIS** [01:39]

Yeah, it should be all I need for right now. I'm going to go to lunch at 1130. My wife called and

**HAMPTON DENNIS** [01:52]

He says, I want to go to lunch with you. Oh, okay. Yeah, yeah, right? So, yeah, 1130, I'm going to head for lunch.

**Rodney Meier** [01:56]

Gee, thanks.

**Rodney Meier** [02:00]

Okay, I did send you an email on our remand engine for Jennings. They have one at MLA. So I didn't even get a hold of,

**HAMPTON DENNIS** [02:05]

Yep, I saw that.

**Rodney Meier** [02:14]

God, why can't I say the name of the one in Carolina, Helmer.

**HAMPTON DENNIS** [02:18]

Oh, yeah, yep.

**Rodney Meier** [02:19]

We might have been able to get one from Helmer, but I didn't know if we wanted to mess around with that or not.

**HAMPTON DENNIS** [02:24]

Now I'd like to stick with MLA if that's possible. Yeah, I'll have to. I've been dealing with Dan's

**Rodney Meier** [02:29]

Yeah.

**HAMPTON DENNIS** [02:34]

Dan's computer, his view at parts is different than our view at parts. And I'm trying to figure out why. It's like it's in a view only mode to where he can't click into some stuff, but he can click into other things. I don't know. It's weird. So I've got IK on the horn and we're talking through that.

**Rodney Meier** [02:41]

Oh,

**HAMPTON DENNIS** [02:59]

Yeah, it's been an eventful morning.

**Rodney Meier** [03:03]

well. I'll bet. Yeah, I've been trying to,

**Rodney Meier** [03:08]

looking for a mirror on one of those old ATV 3200s that we had at FlexCon. I've lost all the installation information.

**Rodney Meier** [03:19]

Everything I go to, there's only two service calls opened on it. And I know, I mean, we've had this thing for 10 fricking years and I can't get into any history.

**Rodney Meier** [03:32]

I think I just printed two tickets for you.

**HAMPTON DENNIS** [03:39]

Awesome.

**Rodney Meier** [03:41]

I printed one and I didn't think it printed, so I hit it again. I think I just printed it twice. So you should have two labels.

**HAMPTON DENNIS** [03:48]

I will get it taped to it. Yeah,

**Rodney Meier** [03:53]

Sure. This ADM one for this Van Air, they want a whole new Van Air compressor?

**HAMPTON DENNIS** [04:02]

because by the time you get into the van air and rebuild just the compressor,

**HAMPTON DENNIS** [04:09]

You're better off just replacing the whole unit.

**Rodney Meier** [04:13]

Okay, okay. Probably we'll have to get ahold of John down there at Shuttle Wagon to see what we need

**HAMPTON DENNIS** [04:21]

It should be just that. What the \*\*\*\* is that? Part number?

**Rodney Meier** [04:24]

or have Charles do it, 'cause all I've ever ordered is the kit, the PM kit.

**HAMPTON DENNIS** [04:28]

Yeah. Yep.

**HAMPTON DENNIS** [04:30]

Yep. Yeah. I'm

**HAMPTON DENNIS** [04:33]

positive you're tied into that email. Maybe not. I'll forward that email to you. I had Charles look up a

**HAMPTON DENNIS** [04:41]

Look up an air compressor for the whole replacement. I think I have

**HAMPTON DENNIS** [04:48]

it. Let me look real quick. Emails.

**HAMPTON DENNIS** [05:00]

Let's go here.

**HAMPTON DENNIS** [05:03]

Here. Charles Huffman.

**Rodney Meier** [05:03]

Yeah, I didn't get in on that one that I remember.

**HAMPTON DENNIS** [05:08]

Yeah, that's my fault. I sent it to just Charles.

**Rodney Meier** [05:13]

What was the availability?

**HAMPTON DENNIS** [05:15]

They've got him setting in Kansas City.

**HAMPTON DENNIS** [05:21]

I'll just forward this whole conversation to you.

**Rodney Meier** [05:26]

Yeah, 'cause I'll say I see the quote, but there's no part number on the quote, so.

**HAMPTON DENNIS** [05:26]

I disordered

**Rodney Meier** [05:36]

Oh, wait a minute.

**HAMPTON DENNIS** [05:42]

you that.

**Rodney Meier** [05:43]

Yeah, I just, it was down at the bottom of the email here. I see it now.

**HAMPTON DENNIS** [05:56]

Yeah,

**Rodney Meier** [06:14]

You wanna ship a direct to ADM?

**HAMPTON DENNIS** [06:16]

let's just ship it to ADM. That way I don't have to \*\*\*\* with getting it here and then figuring out how to get it down there.

**Rodney Meier** [06:17]

Okay,

**Rodney Meier** [06:25]

they gotta know what to do with it when it gets there.

**HAMPTON DENNIS** [06:29]

Oh, yeah, I called and talked to Craig Bender. We can put Attention Craig Bender on it.

**Rodney Meier** [06:36]

Craig Bender, all right.

**HAMPTON DENNIS** [06:38]

Yeah.

**HAMPTON DENNIS** [06:41]

Yeah.

**Rodney Meier** [06:44]

All right, and I assume there's a call open.

**HAMPTON DENNIS** [06:47]

Yeah, there's a service call open for

**HAMPTON DENNIS** [06:51]

it. Yeah, because I had Justin Pierce from

**HAMPTON DENNIS** [06:55]

the Lincoln store look at it when he was on site helping Luke.

**Rodney Meier** [07:01]

I suppose

**Rodney Meier** [07:15]

we'll have to figure out how we're going to get it back up here to get the core sent back to

**HAMPTON DENNIS** [07:20]

Yeah, I can get that sent out after it's been replaced.

**Rodney Meier** [07:21]

you. Okay,

**Rodney Meier** [07:40]

I don't think I had any other questions for you. See there's one for Luke here for some tires and some other stuff. I'll have to look at that.

**HAMPTON DENNIS** [07:53]

Tires for Luke, you said?

**Rodney Meier** [07:55]

Yeah,

**Rodney Meier** [07:58]

So I sent it to both of us. Can you finish ordering the parts for the PM segment and the brake segment?

**Rodney Meier** [08:06]

And then apparently he needed a couple of 21715T, I assume traction tires. That kind of caught me off guard. It doesn't say who the customer is. Just give me a service call number. So I haven't looked it up yet.

**HAMPTON DENNIS** [08:17]

Oh,

**HAMPTON DENNIS** [08:21]

sure. I'm not sure which

**HAMPTON DENNIS** [08:25]

session you went before.

**Rodney Meier** [08:27]

Yeah, 803-516, give me a second, I'll tell ya.

**Rodney Meier** [08:35]

And I gotta get Ross and Trevor out of sending me fuckin' emails with just me. It's for ADM for their C5000.

**HAMPTON DENNIS** [08:46]

Oh, OK.

**HAMPTON DENNIS** [08:48]

I think

**HAMPTON DENNIS** [08:50]

they must have decided to

**HAMPTON DENNIS** [08:54]

keep that one. I know they were on the fence about getting rid of that one,

**HAMPTON DENNIS** [09:00]

but must have decided it was worth keeping.

**Rodney Meier** [09:05]

Well, I just wonder what he wanted for brake parts.

**Rodney Meier** [09:10]

Please order the parts for the PM segment and the brake segment.

**Rodney Meier** [09:17]

God, I hate to send him everything, but I guess we can.

**HAMPTON DENNIS** [09:24]

You know, you can always send for us backing up and it would be a pain in the \*\*\*\*, but

**Rodney Meier** [09:31]

Yeah, I wish, well, I wish Chrissy could have sat in on that meeting this morning. It was more service related, but they talked about just in labor prices and flat rate. That was one I guess I didn't realize. In the flat rate, if we just flat rate a total and we don't flat rate the labor and the parts separately, it charges tax for the whole service call.

**HAMPTON DENNIS** [09:50]

Oh yeah, it's \*\*\*\*\* everything.

**HAMPTON DENNIS** [09:53]

Yep.

**Rodney Meier** [09:55]

And I guess I wasn't aware of that. That was one thing I guess I did learn. I mean, I don't flat rate anything anymore,

**HAMPTON DENNIS** [10:02]

Yep. Yeah, when we use flat rate, it's got to be individualized out, or parts, or just service, or labor, I should say.

**Rodney Meier** [10:08]

but yeah,

**Rodney Meier** [10:11]

sure. Well, and you can do all three, but yeah,

**Rodney Meier** [10:19]

but that was the one thing I did learn, but

**Rodney Meier** [10:24]

as I was kind of half paying attention and trying to maybe get caught up on other stuff, but

**HAMPTON DENNIS** [10:29]

Yeah, I wanted to set in on it, but Dan has called, and he's having problems with how he looks up parts.

**HAMPTON DENNIS** [10:39]

I figured that was a more pressing issue than...

**Rodney Meier** [10:42]

Yeah. A little more priority.

**Rodney Meier** [10:45]

Yeah. And then they wish Gary Peterson luck because his retirement party's next Monday.

**HAMPTON DENNIS** [10:52]

Yeah. Yeah, you think everybody's gonna get invited to that?

**Rodney Meier** [10:56]

You know, I don't know. I see Nate and Renee are both going up because they were talking about seeing him next Monday.

**HAMPTON DENNIS** [11:05]

Yeah, and that's the \*\*\*\*\* part is we're gonna have folks from a different business unit go up, but yet guys who have worked with them for how many years

**Rodney Meier** [11:17]

Yeah. Yeah. I don't know how many of them will show up up there.

**HAMPTON DENNIS** [11:17]

aren't gonna go.

**HAMPTON DENNIS** [11:20]

Yeah, that's the part that kind of drives me a little bonkers,

**Rodney Meier** [11:30]

- Yeah, I guess I don't know how they do that. Like, you know, when they had Chuck's, I don't know how they decided who was coming and who wasn't.

**HAMPTON DENNIS** [11:36]

but yeah, yeah, who,

**Rodney Meier** [11:40]

Or if it was just an email that the manager sent out or what they did, I don't know.

**HAMPTON DENNIS** [11:45]

yeah, I'm not real sure. I know like when Darren Bush retired, they didn't,

**HAMPTON DENNIS** [11:52]

I don't think they really invited anybody. I think it was just a word of mouth type deal.

**Rodney Meier** [11:57]

Sure,

**Rodney Meier** [12:01]

sure. Yeah, I don't know. Oh, well. All right.

**HAMPTON DENNIS** [12:02]

Jesus Christ, quarter after 11. But yeah, no, I will. Oh, let's get back at it. I got a couple of things I want to finish up before I dip out for lunch quick and go

**HAMPTON DENNIS** [12:14]

for there.

**Rodney Meier** [12:16]

Yeah, just looking.

**Rodney Meier** [12:19]

He must want to, would they put traction tires on that machine?

**HAMPTON DENNIS** [12:25]

I don't know why they would, but it's

**Rodney Meier** [12:29]

Let me see what's on there. 9011904.

**HAMPTON DENNIS** [12:32]

down there, I guess. It isn't going to make much difference.

**Rodney Meier** [12:36]

Well, and he would have, if he looked up the TVH number, it had a T on it, which means traction. Otherwise, it would have had an SM on it for smooth. So maybe that's what he wanted, I don't know.

**Rodney Meier** [12:49]

I'll look and see maybe what we, I'm sure we put tires on it somewhere along the line.

**Rodney Meier** [12:57]

Can't believe they've had it that long and we haven't replaced the tires somewhere.

**Rodney Meier** [13:04]

All right, well, I'll let you go. I'll look into it, see what I can find out.

**HAMPTON DENNIS** [13:08]

Awesome. I appreciate it. Thank you. Yep. Bye.

**Rodney Meier** [13:09]

Okay, yep, talk to you later. Bye.

CALL 335 OF 611

# Inbound call from WIRELESS CALLER

## AI SUMMARY

The conversation revolved around a demo opportunity at the 3M plant in Maple Grove, with Travis Spencer (Sales Manager) briefing Bill Lewis about the necessary preparations for the event.

## FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Bill Lewis** [00:05]

Hi, it's Bill.

**WIRELESS CALLER** [00:07]

Bill, Travis, Spencer.

**Bill Lewis** [00:08]

Hey, how you doing?

**WIRELESS CALLER** [00:10]

Good, how are you?

**Bill Lewis** [00:11]

I'm good, thanks.

**WIRELESS CALLER** [00:13]

Good, you got a quick second?

**Bill Lewis** [00:15]

Absolutely.

**WIRELESS CALLER** [00:16]

So we have a demo opportunity down in Maple Grove

**Bill Lewis** [00:22]

Sure.

**WIRELESS CALLER** [00:23]

at the 3M plant down there.

**Bill Lewis** [00:26]

Okay.

**WIRELESS CALLER** [00:27]

So a company called RXO out of Des Moines is

**WIRELESS CALLER** [00:32]

does the third-party yard-spotting service for 3M at that facility. I was just looking at Danny's report, and you have a plated DOT unit at your facility.

**Bill Lewis** [00:38]

Okay.

**Bill Lewis** [00:40]

Yeah.

**Bill Lewis** [00:49]

Yes, I believe that's what that one is. Yes.

**WIRELESS CALLER** [00:52]

Okay. Just kind of being proactive, giving you a heads up.

**WIRELESS CALLER** [00:58]

Could you, when able, this will probably be, this will probably, they're going to, we'll probably deliver it on Monday. But could you in the next, you know, this week, have one of your techs kind of make sure that it's ready to rock and roll?

**Bill Lewis** [01:14]

Yeah, absolutely.

**WIRELESS CALLER** [01:16]

And I guess my next, do you know, this will be the next thing. It, I

**WIRELESS CALLER** [01:25]

Is that in our demo fleet or is it new? That's my –

**Bill Lewis** [01:30]

Oh, that's a great question. I believe that one has been out. So I want to say it is, but we have the four units and things got a little gray between them all. So I'm not 100% sure, but I believe that one has been out.

**WIRELESS CALLER** [01:32]

has it been out? You know the whole

**WIRELESS CALLER** [01:46]

– yeah, yeah.

**WIRELESS CALLER** [01:48]

Okay, okay. Yeah, if you could, you know, make sure it's ready to rock and roll, fire extinguisher, you know the –

**Bill Lewis** [01:56]

For sure.

**WIRELESS CALLER** [01:58]

We want to shine for this customer. Yeah, it's a 4-6 truck opportunity. And so we want to put our best foot forward and everything.

**Bill Lewis** [02:00]

Yep. Yep.

**Bill Lewis** [02:06]

Right, absolutely. 3M's a huge customer.

**Bill Lewis** [02:20]

For sure.

**WIRELESS CALLER** [02:21]

Why have you on the phone? Because I'm sure Bill, at some point, we'll start talking, and we already have, about service and support. Do you have texts that go down to that area regularly?

**Bill Lewis** [02:35]

Yeah, so Maple Grove is probably 45 minutes from the shop. So not...

**WIRELESS CALLER** [02:42]

Yeah, that's what I saw. Yep.

**Bill Lewis** [02:45]

Yeah, not too far. And it's, you know, it's right on our way to everything. So literally, we're going through there daily. And as well, it's kind of my old stomping grounds. I grew up there. So it's really close to where I live as well. So, you know, as far as any other kind of after-hour support or anything, we certainly can shine there too.

**WIRELESS CALLER** [02:54]

Okay. Okay.

**WIRELESS CALLER** [03:08]

Okay. If you're available, you're more than welcome to come to this demo. And I've been trying to do, I've been doing that with a lot of, with the different branches is at some point bringing in the branch manager

**WIRELESS CALLER** [03:28]

Service manager, whatever, to that local area. I think there's a lot of value there. Sometimes we come across as just salesy people and we're just there and that's not the Ryan way, right? It's a team effort and there's more, like I tell these people, we want to be a

**Bill Lewis** [03:35]

Yep. Yep, I do too.

**Bill Lewis** [03:40]

Right.

**Bill Lewis** [03:44]

Right.

**WIRELESS CALLER** [03:49]

Solution from the beginning for the whole life cycle of this piece of equipment for you. And it's not just selling you a unit and just being a seller to you. We want to be a solution for you.

**Bill Lewis** [03:57]

Yep.

**Bill Lewis** [04:05]

No,

**Bill Lewis** [04:07]

I'm 100% with you. I always think that's the best approach because they want to know who's local. They want to know who's going to be there when it comes.

**WIRELESS CALLER** [04:16]

So, yeah. Who can I call?

**Bill Lewis** [04:17]

When the time is needed.

**WIRELESS CALLER** [04:19]

Who can I call in an emergency? And everything's always our emergency in this business. We laugh a little bit. We laugh at that sometimes. Not everything, but the customer always thinks it's an emergency. And who can I call and I can trust? And we're still in the phase of building the Ryan name, I think, throughout our network. And that's

**Bill Lewis** [04:24]

Right. Yep. Exactly.

**Bill Lewis** [04:34]

Right.

**Bill Lewis** [04:41]

Absolutely.

**WIRELESS CALLER** [04:42]

That's the hesitation a little bit from some of these customers is, well, we don't know who you are and we're like going out on a limb and crossing our fingers a little bit. So if we can start putting people in front of these customers like yourself, I think it will help take that out of their mind. So, yeah.

**Bill Lewis** [04:47]

Yeah.

**Bill Lewis** [05:02]

Absolutely.

**Bill Lewis** [05:04]

Yep. I'm with you. 100%.

**WIRELESS CALLER** [05:07]

Okay. Well, more to come on that, but we're probably going to do it like mid-afternoon by the time the truck gets down there on Monday. And then I'm probably going to spend the night in that area and then follow up with the customer like the next day. And Ben Clark is going to come up because...

**Bill Lewis** [05:16]

Okay.

**Bill Lewis** [05:23]

Sounds good.

**WIRELESS CALLER** [05:28]

Des Moines is like the corporate office, so he has the relationship there, just to bring you up to speed. And, you know, Ben would probably come up sometime later that week or the next week, just to kind of follow up as well.

**Bill Lewis** [05:45]

Okay. Sounds great.

**WIRELESS CALLER** [05:47]

All right. Well, I appreciate it. Thought I'd just give you kind of a heads up what's going on. And if you could...

**Bill Lewis** [05:52]

Yeah. I appreciate that.

**WIRELESS CALLER** [05:55]

Yeah, at some point this week, maybe just start kind of, you know, making sure it's ready to rock and roll, and then you'll probably get an email from Chad or whoever that, you know, we're going to deliver it on Monday-ish. All right. How's everything else while I have you on the phone? Yeah, how's everything else? How's everything else while I have you on the phone?

**Bill Lewis** [06:09]

That sounds good. Thank you. I appreciate the heads up. What was that? Oh, good.

**Bill Lewis** [06:18]

Yeah, good. Everything's good. No complaints. Everything's going well. Yeah, doing good.

**WIRELESS CALLER** [06:20]

Good.

**WIRELESS CALLER** [06:24]

Good, good. Things are rocking and rolling. So we're trying to, Luke and I are trying to figure out a solution with that Stella Jones or whatever. They're pulling those, they're not rail cars, but they're pulling those things full of ties that they put back in their

**Bill Lewis** [06:27]

Right.

**WIRELESS CALLER** [06:46]

You know, when they do the creosote on the ties or whatever. And they've had two deaths on how they're doing their operation right now. And so they're looking for a different solution. And so Luke called me and I got kind of a Turberg and we have a solution for him.

**Bill Lewis** [06:51]

Yep. Yep.

**Bill Lewis** [06:57]

Yeah.

**WIRELESS CALLER** [07:11]

You know, putting a heavy-duty turbog in there, not our stocked unit. And they would have to retrofit a little bit their trailer because the trailer doesn't have brakes on it. And so that's another issue or thing that we have to, you know,

**Bill Lewis** [07:26]

Right.

**WIRELESS CALLER** [07:34]

So that's,

**Bill Lewis** [07:36]

Which, oh, I was just going to ask, which Stella is it? Because we've got a few. There's one in La Crosse. There's one up in Duluth. Is it the La Crosse one?

**WIRELESS CALLER** [07:46]

I think that's where Luke's contact is. But this guy is looking to solve this problem for their whole,

**Bill Lewis** [07:53]

Okay. Okay.

**WIRELESS CALLER** [07:58]

For their entire company and wherever they do this type of operation. I don't think the death happened there. I think it happened at another. Of course, every company is always hush-hush when that happens, but they don't want it to get out or whatever. But

**Bill Lewis** [07:59]

Oh, wow.

**Bill Lewis** [08:08]

OK. Right.

**WIRELESS CALLER** [08:20]

If they like it, they would buy this for every location. So we'll see where it kind of goes. So more to come there.

**Bill Lewis** [08:33]

Yeah. Good to be at least involved in possible problem solving with it. So that's

**WIRELESS CALLER** [08:37]

Yeah, yeah. I mean, that's where I need...

**Bill Lewis** [08:45]

good.

**WIRELESS CALLER** [08:45]

You know, it's a team effort. That's where I need. I'm one guy right now. My role kind of changed. I'm the sales manager now, so I'm trying to hire a team. Yeah, I'm trying to hire a team. And Minnesota, I have an open position. I have an open position to run the Kansas City, St. Louis territory. But to make this go,

**Bill Lewis** [08:50]

Right.

**Bill Lewis** [08:54]

Right. I saw that. Yeah.

**WIRELESS CALLER** [09:10]

I NEED HELP FROM EVERYBODY, YOU KNOW, LIKE THINGS LIKE THAT, LIKE LUKE TO CALL ME AND, HEY, I GOT THIS CUSTOMER, THIS IS WHAT'S GOING ON, DO YOU HAVE ANY IDEAS, AND, YOU KNOW, HOW CAN WE BE A SOLUTION PROVIDER TO THEM TO TAKE CARE OF THIS PROBLEM?

**Bill Lewis** [09:13]

Absolutely.

**WIRELESS CALLER** [09:31]

So, it's starting to work. It's starting to work.

**Bill Lewis** [09:37]

And do you just to, I guess, insert the little tidbit too, Stella, not only, they're actually a national account for Taylor as well. So I didn't know if you knew that at all. I just wanted to make sure you were aware of that.

**WIRELESS CALLER** [09:39]

So, yeah.

**WIRELESS CALLER** [09:47]

Yeah. Yeah. Yeah. Yeah. Yep. Yep. Yep. Yep.

**WIRELESS CALLER** [09:54]

Yep, most definitely. And so we'll have to figure out how that kind of works and everything like that. But if you hear of anyone, a good candidate for a Turburg specialist up in your area,

**Bill Lewis** [10:05]

Right.

**Bill Lewis** [10:15]

Yeah.

**WIRELESS CALLER** [10:15]

Please pass them my way. The talent group is working hard to find the right candidate. I'm a firm believer we could probably hire a body right now, but I don't think that's the right way to do it. I think being selective to find the right individual, he or she,

**WIRELESS CALLER** [10:38]

Is the best way to do it. And if that takes us six months, it takes us six months. And so more to come on that.

**Bill Lewis** [10:41]

I agree.

**Bill Lewis** [10:52]

Yeah, good. That's great.

**WIRELESS CALLER** [10:53]

Yeah. Yeah. Well, I will let you run, sir. Thank you for your time and appreciate all your support.

**Bill Lewis** [10:57]

All right. Of course, anytime.

**Bill Lewis** [11:03]

Sounds great. Thanks again. You bet. Bye.

**WIRELESS CALLER** [11:05]

Thanks, Bill. Bye.

CALL 336 OF 611

## Inbound call from COOPER PATRICK

April 28, 2026 | 03:59 PM | Duration: 1m 42s | From: COOPER PATRICK | To: +15152995632

Inbound

Positive

### AI SUMMARY

Cooper Patrick (Customer) reached out to Kent Stewart (Parts Specialist, Rion Equipment) to locate a specific wire harness for a Toyota, providing detailed information for the search, and Kent assured him he would check and call back.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing Rion Equipment. This is Kenton Parts. Let me help you.

**COOPER PATRICK** [00:08]

Hey Kent, hey this

**Kent Stewart** [00:10]

Hey, Mr. Gregg.

**COOPER PATRICK** [00:12]

is Greg. Hey I didn't know if maybe you could look up

**COOPER PATRICK** [00:19]

and see if you could find a instrument panel dash wire

**COOPER PATRICK** [00:28]

harness for a Toyota. I'll

**COOPER PATRICK** [00:31]

give you the model number.

**COOPER PATRICK** [00:34]

It's 42-5-Franc-Golf-25-Franc-Franc-Franc-F

**Kent Stewart** [00:44]

Okay. Okay.

**COOPER PATRICK** [00:45]

And the serial number is 405-FRANK-GOLF-U-80694.

**Kent Stewart** [01:00]

So you need the instrument panel and the harness that goes up to it.

**COOPER PATRICK** [01:04]

No, just the wire harness. There's a wire harness that's up in the instrument panel that plugs in. Just a little short harness.

**Kent Stewart** [01:13]

Okay, and what does it plug into?

**Kent Stewart** [01:16]

The instrument panel? Okay.

**COOPER PATRICK** [01:16]

The main harness. Yeah, it plugs into the dash panel and the main harness.

**Kent Stewart** [01:23]

Okay, let me see what I can find this for a serve.

**COOPER PATRICK** [01:26]

You know, call me back.

**Kent Stewart** [01:27]

Yes, yes, yes.

**COOPER PATRICK** [01:30]

All right, I appreciate it. Thank you,

**Kent Stewart** [01:31]

Bye.

**COOPER PATRICK** [01:33]

sir. All right, bye-bye.

### AI SUMMARY

During the call, Nick (Customer, Caller) communicated his difficulty in lifting containers, leading Charles Huffman (Representative) to promise to escalate the matter and ensure Nick receives assistance promptly.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

This is Charlie.

**WIRELESS CALLER** [00:05]

Hey, Charlie, it's Nick. Hey, sir, I'm having no luck getting...

**Charles Huffman** [00:12]

Okay, let me get ahold of somebody and find out what the heck's going on, and I'll get somebody to call you back. If you don't hear from somebody down at noon, call me back and let me know, and I will run this up to my superiors and let them figure out what's going on. But we need to get you taken care of.

**WIRELESS CALLER** [00:31]

Yeah, but I can't lift any containers, so we're kind of stuck in the water, so... Well...

**Charles Huffman** [00:35]

Yeah, yep, okay. Let me start calling and see who I can get ahold of.

**WIRELESS CALLER** [00:41]

All right, thank you.

Inbound

Negative

### AI SUMMARY

During the call, Dawson followed up with Nate Ross (Ryan Equipment Parts) about the delayed ECM delivery and confirmed parts ordering for the steer axle replacement, highlighting ongoing issues with MLA.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Nate Ross** [00:04]

Ryan Equipment Parts is Nate.

**OMAHA NE** [00:06]

Hey, Nate, it's Dawson. Just got two follow-up things. Just wanted to make sure that that ECM arrived today.

**Nate Ross** [00:14]

Has not yet. I'm fighting with MLA right now.

**OMAHA NE** [00:16]

You gotta be \*\*\*\*\* kidding me. Did UPS show up?

**Nate Ross** [00:18]

Nope. The EPS showed up. I'm fighting with MLA right now.

**OMAHA NE** [00:23]

Okay, sounds good. And then, well, at least on a positive note, Matt did text back and he said to replace the steer axle instead of repair. So we can go ahead and get those parts ordered.

**Nate Ross** [00:35]

The ones that you circled,

**OMAHA NE** [00:37]

The ones that I circled, the axle assembly and then the wheel bearings, the axle nuts, and the rotating rings.

**Nate Ross** [00:43]

right? The six other parts. Okay. I'll get that done.

**OMAHA NE** [00:46]

Yeah, yep.

**OMAHA NE** [00:49]

All right, and then just the two cans of brake clean and the tube of ball bearing grease at the bottom of the page,

**OMAHA NE** [00:56]

too. All right, appreciate it. Thanks, sir.

**Nate Ross** [00:57]

No problem. Bye-bye.

### AI SUMMARY

In the conversation, Nick reached out to Charles Huffman (Representative) after struggling to connect with someone at the company, and Charles provided a contact number for the manager, promising to assist further if necessary.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

This is Charlie.

**WIRELESS CALLER** [00:05]

Hey, Charlie, this is Nick again. Hey, sir, sorry to keep bothering you. I've tried like four different numbers and I can't get anybody to answer the phone. Do you have like a number that...

**Charles Huffman** [00:16]

Let me look here.

**Charles Huffman** [00:37]

I

**Charles Huffman** [00:41]

have a number for Paul Spengler, who is the manager. That number is 816-400-2540.

**WIRELESS CALLER** [00:56]

All right, you said his name is Paul?

**WIRELESS CALLER** [01:00]

Perfect. All right. All right, sir, I'm sorry. Hopefully this is the last call.

**Charles Huffman** [01:05]

Yes. No, if you're not getting through, you let me know and we'll get something figured out. And try him. If that doesn't work, call me back and then I will start calling them directly and give them your number and have them call you.

**WIRELESS CALLER** [01:20]

Okay, I appreciate your help. I'll check all the things real quick.

**Charles Huffman** [01:22]

Not a problem.

**Charles Huffman** [01:24]

All right. Bye.

### AI SUMMARY

Ryan (Customer, Caller) reached out for support regarding an ignition issue and the potential replacement of a joystick.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Ryan, this is Charlie.

**WIRELESS CALLER** [00:05]

Yeah, hey, Charlie. Hey, this is Nick again calling back. Hey, quick question. Do you have a service number for them? Like, how much would it add for them to come out here and just swap this out for me? I'd like to see if they can look at something else because my ignition just goes from, instead of going on to the accessory power, it just goes straight to

start.

**Charles Huffman** [00:18]

Okay,

**WIRELESS CALLER** [00:31]

I'd like to see if they could look at that real quick.

**Charles Huffman** [00:34]

hold on just a second. Let's see if I can find the right number for that.

**Charles Huffman** [00:53]

All right. The direct phone number to the service writer down there is 816-287-7013.

**WIRELESS CALLER** [01:12]

Okay.

**Charles Huffman** [01:13]

And his name is Miguel.

**WIRELESS CALLER** [01:22]

All right. And then

**WIRELESS CALLER** [01:25]

what was that part number for that joystick?

**Charles Huffman** [01:28]

You'd have to ask me that. Let me see if I still have it up here.

**WIRELESS CALLER** [01:33]

I'm

**Charles Huffman** [01:38]

It's going to be T-A-Y, the letter I, and then dash 1, dash 29, dash 1242.

**WIRELESS CALLER** [01:54]

sorry. Okay. All righty.

**Charles Huffman** [01:55]

That's a six-function joystick.

**WIRELESS CALLER** [01:59]

Okay. Perfect. Okay.

**WIRELESS CALLER** [02:03]

And these things are just plug and play, aren't they? Just unplug it, plug the new one in and bolt it down and then you calibrate it?

**Charles Huffman** [02:08]

I think so. I'm not in service, so I really don't know. But as far as I know, they're just a straight swap.

**WIRELESS CALLER** [02:19]

Okay. All righty. Let me call them real quick and see what it would take for them to come out here. I appreciate your help. Thank you.

**Charles Huffman** [02:25]

OK. Not a problem. Bye.

## Inbound call from TRI

April 28, 2026 | 03:03 PM | Duration: 6m 39s | From: TRI | To: +13072280504

Inbound

### AI SUMMARY

Brad (Customer, Transource) reached out to Adam Ratcliff (Representative, Ryan Equipment) regarding an issue with a loose pilot on a flywheel.

### FULL TRANSCRIPT

**TRI** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:03]

Thank you for calling Ryan Equipment. This is Adam. How can I help you?

**TRI** [00:08]

Adam, how's it going today, man? This is Brad at Transource here in Casper. Oh, I don't know. It feels like it's Monday number two now.

**Adam Ratcliff** [00:12]

Not bad. How about yourself?

**Adam Ratcliff** [00:19]

I was thinking the same thing.

**TRI** [00:19]

Oh, yeah. Well, we had a little issue with the pilot on the flywheel on this thing, so we ordered, you know, I ordered that new pilot bushing from you.

**Adam Ratcliff** [00:31]

Yeah.

**TRI** [00:31]

And then it was still loose in there. We've been talking the JO. And so anyway, we ended up ordering a flywheel for it, and it's freaking drilled different for the flex plate. So it's got the same part number as the old one on it, coming from Cummins. I was wondering if there was any...

**Adam Ratcliff** [00:52]

Yeah. Yeah,

**TRI** [00:54]

Any type of modifications that Shuttlewagon did to it, if you could check that for me on the flywheel.

**Adam Ratcliff** [00:59]

there is. Because I went to camp, well, I don't know, about three months ago, we had to do a transmission on an 8040.

**Adam Ratcliff** [01:09]

And I went to Cummins because shuttle wagons said they were out of them and had no ETA and Cummins couldn't find me the flywheel because it was modified. It was the story I got. So I ended up having to wait on that shuttle wagon one because they ordered

**TRI** [01:27]

Wow. Wow.

**Adam Ratcliff** [01:31]

They ordered the Cummins one and then had to send it to a machine shop to get their

**Adam Ratcliff** [01:37]

shuttle wagon flywheel made, you

**TRI** [01:37]

Yep. Yep, that's what I'm facing too because same thing. It's got the same part number stamped on it and everything, but it's drilled different for the recessed for the bolt for the flex plate.

**Adam Ratcliff** [01:43]

know? Yep.

**Adam Ratcliff** [01:58]

Yep. Yep. What?

**TRI** [02:01]

Can you see if Shell Wagon has one available for this unit?

**Adam Ratcliff** [02:03]

Yeah, what serial number are you working on?

**TRI** [02:05]

It is...where'd that one go? I'll tell you here in just a second.

**TRI** [02:13]

If they don't have it, I mean, we got a machine shop here, but then I don't know what that does to the balance of the flywheel.

**Adam Ratcliff** [02:20]

Yeah, I don't know. You know what? They do that stuff, so you got to...

**Adam Ratcliff** [02:27]

I don't know why it's not just that Cummins flywheel on there, you know what I mean? I guess because they're making it to a John Deere transmission, I suppose.

**TRI** [02:32]

Well, when I went to Cummins with the serial number, it didn't show me the flywheel, and then it showed me an upfit. So I hit the upfit, and then boom, that flywheel number popped right up, and it's the exact same flywheel number that we had on it. So I was assuming we were good.

**Adam Ratcliff** [02:53]

Yeah, no, I... Yeah, no, it was a...

**TRI** [02:55]

It isn't.

**Adam Ratcliff** [03:00]

I'm a \*\*\*\*\* to get that flywheel from Shuttlewagon, but hopefully they got a couple of them in when they got that one in and still got one.

**TRI** [03:08]

I hope so, because I'm going to, and I'll just send this one back,

**TRI** [03:14]

but if I can get logged in here, it'll tell you. I don't know why it's not logging me in.

**TRI** [03:20]

I just told you it's Monday number two.

**Adam Ratcliff** [03:22]

Yeah.

**TRI** [03:29]

System socket. I don't care about a system socket. I want to get logged in here.

**Adam Ratcliff** [03:35]

I

**TRI** [03:35]

I got another screen I can go to as well.

**Adam Ratcliff** [03:44]

might be able to look it up

**Adam Ratcliff** [03:47]

as well.

**TRI** [03:59]

Midstream, I think.

**Adam Ratcliff** [04:00]

Whose Shuttlewagon is it?

**TRI** [04:13]

And, well, later in the second video, we got 2026, exclamation. It's making me change my password, so.

**Adam Ratcliff** [04:14]

Oh, that's

**Adam Ratcliff** [04:24]

handy, huh? Yeah, just when you get it down where you can fly it through typing in a password, they change

**TRI** [04:24]

Oh, yeah.

**TRI** [04:29]

They do. Okay, it let me in, so I'm good. I'm good. Okay, so that thing, serial number on that is...

**Adam Ratcliff** [04:33]

it.

**Adam Ratcliff** [04:37]

All right.

**TRI** [04:50]

I'm surprised J.O. didn't mention that to Brandon when he told him.

**TRI** [04:55]

Or maybe he didn't tell him to water fly well. So it looks like it's a...

**TRI** [04:59]

8040-14046. Does that sound right? Yeah, 8040-1406. That's 8040-2011.

**Adam Ratcliff** [05:05]

14046.

**Adam Ratcliff** [05:09]

Let me punch that in.

**Adam Ratcliff** [05:19]

Could

**TRI** [05:20]

Yeah, Mark.

**Adam Ratcliff** [05:25]

you be missing a number in there?

**TRI** [05:25]

Did that come up? It's 8040-14.

**Adam Ratcliff** [05:29]

That 80-40.

**TRI** [05:34]

14.046 is behind the 80-40. Yeah, 14.046. Does that go in?

**Adam Ratcliff** [05:37]

Oh, 46. That might do her. There we go.

**Adam Ratcliff** [05:43]

Yep. Yep. I will get a hold of Shuttlewagon here this morning and see if they got any flywheels.

**TRI** [05:45]

Tweet. Okay. Sounds like a winner.

**Adam Ratcliff** [05:55]

And I'll get in touch with you here when I hear back from them.

**TRI** [05:56]

Okay.

**TRI** [06:00]

All right, buddy. I appreciate it. Yeah, see if we can put a rush on it, if you would. We're trying to stab this thing, and it's like, ah, one thing after another. Yeah, okay, man. Thanks a lot. All right.

**Adam Ratcliff** [06:04]

No.

**Adam Ratcliff** [06:08]

I know exactly where you're at. I was there three months ago. So I'll see if I can get you.

**Adam Ratcliff** [06:17]

You bet. Have a good one.

**Adam Ratcliff** [06:19]

Bye.

### AI SUMMARY

Nick Plummer (Customer) reached out regarding a needed replacement joystick for his TX280, providing the serial number for assistance.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Ryan, equipment,

**WIRELESS CALLER** [00:06]

Yes, sir. Hey, my name is Nick Plummer. I'm here in Kansas City. I need, apparently, I need a new joystick for a TX280.

**WIRELESS CALLER** [00:17]

And I was wondering if I could get that in one, if you have one, or do you have them in stock,

**Charles Huffman** [00:23]

what's the serial number on your machine?

**WIRELESS CALLER** [00:26]

or? Oh, let's see.

**WIRELESS CALLER** [00:35]

Where do you need me to put this? Just put it on the other side of, of the other side.

**WIRELESS CALLER** [00:44]

Other side of the...

**WIRELESS CALLER** [00:46]

Yeah, just put them on the other side. Hold on. So I've got the last five are 37410.

**Charles Huffman** [00:56]

37410. Okay.

**WIRELESS CALLER** [01:06]

Yeah, that's right. I'm doing it right now. But thank you. Because that's what I thought about having to ask them. Did you call me?

**WIRELESS CALLER** [01:19]

That's how I'm on. Yeah. Okay. What about the other guy? Well, apparently, I need a new joystick. I walked through it with Taylor when they were doing all the tests and stuff, and apparently something's wrong with the joystick. It's just like two bolts, and I plug and play. So how quick? I don't know. That's what I'm trying to figure out right now.

**WIRELESS CALLER** [01:40]

Is it here in town? They have the location at least somewhere.

**WIRELESS CALLER** [01:47]

All right. So just jumping on the far side of the... Yeah. Hopefully they have a joystick in and I can start back. Yeah. You're only good for four. Yeah, no, because I've got... That was a release for five of...

**WIRELESS CALLER** [02:01]

So, yeah, thanks.

**Charles Huffman** [02:06]

Nick, can I get your phone number? I'll just call you back soon as I get something on this.

**WIRELESS CALLER** [02:11]

Yeah, yeah, it's 816-319-8288. Okay, thank you.

**Charles Huffman** [02:18]

Okay. Yeah, give me just a few minutes. You bet.

**Charles Huffman** [02:24]

Bye.

### AI SUMMARY

The conversation began with Rodney Meier (Company Rep) discussing his Texas vacation, which included significant rain after a dry spell.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Rodney Meier** [00:03]

- Good

**Rodney Meier** [00:05]

morning.

**WIRELESS CALLER** [00:06]

Good morning, Rod. How are you?

**Rodney Meier** [00:08]

Oh, good.

**WIRELESS CALLER** [00:08]

Good. How was your Texas vacation? Was it blue skies, sun shining?

**Rodney Meier** [00:12]

Very good, very

**Rodney Meier** [00:16]

good. Actually, they had rain the first four days we were there. They had five inches of much needed rain.

**WIRELESS CALLER** [00:19]

No way.

**WIRELESS CALLER** [00:23]

No, yeah. Yeah, we kind of, it was kind of, it's been gloomy out here. It's been kind of rainy last.

**Rodney Meier** [00:26]

Yeah, flash flood warnings for about two days straight. 'Cause, well, everything is rock-based. They got no basements down there at all, so water just runs.

**WIRELESS CALLER** [00:30]

Oh, no.

**WIRELESS CALLER** [00:33]

Yeah. Yeah. Yeah. Yeah. Distant flood zones. Yeah.

**Rodney Meier** [00:36]

But they needed the rain really bad because my son was telling me last summer they had 112 days with no rain.

**WIRELESS CALLER** [00:45]

Eesh, down there that gets a little dry.

**Rodney Meier** [00:47]

Yes, it's real dry. Yeah, he was allowed to water his lawn once a week. He could run water for eight hours because they had a restriction on water.

**WIRELESS CALLER** [00:49]

Yeah.

**WIRELESS CALLER** [00:53]

Oh, because they have those things. More usage. That's crazy. I can't imagine it. But hey, hey, wanted to touch base. Well, that's good. I mean, it's good. You still got to enjoy it. It wasn't terrible. But hey, wanted to touch base on that seal kit.

**WIRELESS CALLER** [01:10]

...for that P6000 that, um, it was, you said it was ordered from Omaha. Jake's just in a meeting right now, otherwise I'd ask him, but, um, you think that's, you think that's probably at the Cat Heavy store? That's he'll get for the, yeah. Okay, yeah, no, that's fine. That's perfect, that's perfect.

**Rodney Meier** [01:19]

He should have been over there Friday already. So apparently he must not have stopped there on his way in this morning.

**WIRELESS CALLER** [01:27]

Well, he did, oh, it's right here. It's sitting right here. Let me see.

**Rodney Meier** [01:33]

Because I told Christy it was over there and I didn't know if she was going to get over there or not Friday.

**WIRELESS CALLER** [01:38]

I think this is it. He did bring some \*\*\*\* in this morning, so I think this is it. I'll double check with him though. I didn't see him bring this stuff in.

**Rodney Meier** [01:44]

Yeah, because I think there was one for Ross too, but I don't remember what part numbers they were.

**WIRELESS CALLER** [01:47]

If he got it. Okay. Nope, that's fine. I appreciate it.

**Rodney Meier** [01:52]

He was going to do that. You might look on the back. He was going to do the transfer, so there should be a ticket printed in the back.

**WIRELESS CALLER** [01:58]

In the back of it.

**Rodney Meier** [02:00]

In the back printer back there by where you guys are. Because when he receives the transfers, they print back there.

**WIRELESS CALLER** [02:02]

Uh-oh. Yeah.

**Rodney Meier** [02:08]

He would give you the correct part number if you're double-checking just to make sure.

**WIRELESS CALLER** [02:11]

Apache.

**WIRELESS CALLER** [02:16]

Sacramento.

**WIRELESS CALLER** [02:18]

I think

**Rodney Meier** [02:21]

Give me just a second. I can probably tell you what part number it's supposed to be.

**WIRELESS CALLER** [02:23]

it's supposed to be 9305-110078.

**Rodney Meier** [02:47]

Yeah, seven, eight. I'm pretty sure that one's yours. Yep.

**WIRELESS CALLER** [02:50]

I appreciate it,

**Rodney Meier** [02:54]

All right. No problem at all. You bet. I bet I will. Thanks.

**WIRELESS CALLER** [02:55]

sir. Thank you. Have a good day. Bye.

### AI SUMMARY

During the call, Brian (Customer) reached out to Adam Ratcliff (Sales Rep) to make a payment of \$298.77 and requested an invoice.

### FULL TRANSCRIPT

**SHEPPARD JASON** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:04]

Thank you for calling Ryan. I'm just sad. I'm not going to help you.

**SHEPPARD JASON** [00:07]

Hi, Adam, it's Brian with Equipment Share.

**Adam Ratcliff** [00:10]

Hey, Brian. How's it going?

**SHEPPARD JASON** [00:11]

Oh, pretty good. Just wanted

**Adam Ratcliff** [00:13]

Wanting to pay your bills this morning?

**SHEPPARD JASON** [00:15]

to see if I can pay you and get an invoice.

**Adam Ratcliff** [00:19]

Yeah. Yeah. Yeah, we tried calling you yesterday, but I'm sure you were busy.

**SHEPPARD JASON** [00:25]

Oh, I don't even have a missed call.

**Adam Ratcliff** [00:27]

Oh, yeah. Looks like \$298.77.

**SHEPPARD JASON** [00:34]

Okay, I got credit card number here whenever you're

**Adam Ratcliff** [00:35]

I'm not...

**Adam Ratcliff** [00:38]

All right, I'm going to turn you over to Lisa here and she'll take your card.

**Adam Ratcliff** [00:43]

Hello,

**Adam Ratcliff** [00:46]

Brian. How are you?

**SHEPPARD JASON** [00:50]

ready. I'm good, and yourself?

**Adam Ratcliff** [00:52]

I'm hanging in there. It's not Monday anymore, so we're doing good.

**SHEPPARD JASON** [00:56]

Oh, but it's only Tuesday, though.

**Adam Ratcliff** [00:58]

I know, I know. It's like Monday B all over again.

**SHEPPARD JASON** [01:02]

They're all Mondays until Friday at 5:00.

**Adam Ratcliff** [01:05]

This is true, but then, you know, Friday, like...

**Adam Ratcliff** [01:09]

Sneak Saturday right by and then all of a sudden it's Sunday and you're like, holy \*\*\*\*, I got to go to bed because I got to go to work tomorrow.

**SHEPPARD JASON** [01:15]

Yeah, Sundays are just pre-Monday.

**Adam Ratcliff** [01:18]

I know, I know. I am ready.

**SHEPPARD JASON** [01:20]

It's all just cooking, cleaning, and laundry.

**Adam Ratcliff** [01:23]

Yes, yes. I am ready for a card number when you are.

**SHEPPARD JASON** [01:26]

All right.

**SHEPPARD JASON** [01:29]

<REDACTED\_ENTITY>

**SHEPPARD JASON** [01:38]

<REDACTED\_ENTITY>, 5, 9, 7.

**Adam Ratcliff** [01:40]

Expiration date?

**SHEPPARD JASON** [01:45]

6, 28.

**Adam Ratcliff** [01:49]

Three-digit code.

**SHEPPARD JASON** [01:53]

5, 6, 7.

**Adam Ratcliff** [02:04]

I will go

**Adam Ratcliff** [02:12]

through and get this all squared away. I will have Adam send you the actual invoice with the copy of the credit card payment.

**SHEPPARD JASON** [02:22]

Perfect. All right. Thank you so much.

**Adam Ratcliff** [02:26]

All right. Thank you.

**Adam Ratcliff** [02:29]

Bye.

### AI SUMMARY

In a conversation between Jodi (Rion Equipment representative) and Ryan (customer), they discussed a long-standing service call for a Young Heinrich ACR 327.

### FULL TRANSCRIPT

**BUSCH RYAN** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion Equipment, Omaha. This is Jodi. How may I help you?

**BUSCH RYAN** [00:05]

Hi, Jodi, this is Ryan Bush at Taylor in Omaha. How are you doing? What was

**Jodi Nickell** [00:08]

Hey. Good. So it looks like that service call has been open since like September.

**BUSCH RYAN** [00:18]

it for? Which one?

**Jodi Nickell** [00:19]

It's for a Young Heinrich ACR 327. It just says production side. I can give you the serial number.

**BUSCH RYAN** [00:28]

That's okay.

**BUSCH RYAN** [00:33]

What was it for? Do we know?

**Jodi Nickell** [00:34]

It's for adjust travel speed.

**BUSCH RYAN** [00:38]

Okay. I'm trying to look. I have another one that might be the same one

**BUSCH RYAN** [00:47]

that when it lifts, when it lifts, one side lifts higher than the other.

**Jodi Nickell** [00:56]

Oh, yeah, this would be different. Travel is like how fast you want it to go.

**BUSCH RYAN** [00:57]

Right, right.

**BUSCH RYAN** [01:05]

I don't, I don't recall, I mean, I know that was probably an issue, but I don't remember what,

**BUSCH RYAN** [01:14]

if it was fixed or not, I guess.

**Jodi Nickell** [01:16]

Because I kind of touched base with Keith about it. And he said that adjust travel speeds, unit braking, not as required, adjustments necessary, check software unit compatibility.

**BUSCH RYAN** [01:24]

Okay.

**Jodi Nickell** [01:30]

So, and that was in October. And I don't have any notes since then. But, I mean, I can, I have the software compatibility here at the shop for sure.

**Jodi Nickell** [01:42]

I don't, he just made a note of the brake adjustment. I don't, unless that was on another service call, I don't know if that's happened. But, yeah.

**BUSCH RYAN** [01:48]

Okay.

**BUSCH RYAN** [01:53]

Do you have the serial number? Go ahead.

**Jodi Nickell** [01:56]

Yes, it is 903-99860.

**BUSCH RYAN** [02:04]

Okay, on that same unit, let's go ahead and have somebody come out for what you're talking about. Okay. And then on that same unit, when you raise the forks, one fork goes higher than the other one.

**Jodi Nickell** [02:12]

Okay,

**BUSCH RYAN** [02:24]

I think it's been an issue before on the same unit.

**Jodi Nickell** [02:29]

is that something that you would be okay with us bringing back to the shop?

**BUSCH RYAN** [02:32]

If it needs to be done that route, yeah.

**Jodi Nickell** [02:36]

Yeah, it would probably just get done a little quicker for you.

**BUSCH RYAN** [02:38]

Is it a software thing?

**Jodi Nickell** [02:42]

The software thing for the travel, for sure, yeah. And then they can look at the one forklifting higher than the other while it's here.

**BUSCH RYAN** [02:49]

Yeah, let's go ahead and do it.

**Jodi Nickell** [02:50]

Okay. And then would this be dock load or ground load?

**BUSCH RYAN** [02:54]

Dock load.

**Jodi Nickell** [02:55]

Dock load.

**Jodi Nickell** [02:59]

Okay. I'll try to get it picked up today. Worst case would be tomorrow. Just have them call you.

**BUSCH RYAN** [03:08]

Yeah, have them call me because it's in production right now and I'll have to bring it up there. All right, great. Thank you.

**Jodi Nickell** [03:12]

Okay.

**Jodi Nickell** [03:14]

Yep, thank you.

### AI SUMMARY

Brandon (Customer, Caller) reached out to Adam Henderson (Rion Equipment) to follow up on a tire replacement for a forklift that had been quoted previously.

### FULL TRANSCRIPT

**BOB** [00:00]

This call is being recorded.

**Adam Henderson** [00:04]

Rion Equipment, this is Adam. How can I help you?

**BOB** [00:06]

Hi, this is Brandon with Campbell Supply. Hey, we had reached out last week. We had a flat on our forklift, and I was just calling to see, I guess, I wanted to see, I guess, if it's been confirmed. I mean, I know that we need to get it fixed. I just, I was out that day that it was quoted, and I

**Adam Henderson** [00:07]

Yeah.

**Adam Henderson** [00:24]

Uh-huh.

**BOB** [00:26]

I'm just calling to see if you guys had that on the schedule to get replaced or where we were at with that, I guess. Okay.

**Adam Henderson** [00:32]

Let me ask my service writer real quick if we got approval. Did we get approval for Campbell's Supply Tire?

**Adam Henderson** [00:42]

Okay. After she gave the timeframe, they never responded with a yay or nay.

**BOB** [00:50]

Well, we, yeah, we will want to go ahead and go ahead with that on the pneumatic tire.

**Adam Henderson** [00:56]

Okay. So I guess I have one question on the-- because there was questioning the solid versus the aeropneumatic.

**Adam Henderson** [01:07]

So the solid is still like the same tread and everything. It's just solid rubber. So the only difference would be it would ride a little harder, but it still have the same like outdoor style tire. And you wouldn't have to worry about flats.

**BOB** [01:07]

Mm-hmm.

**BOB** [01:16]

Not to me, no. As I know that, like I said, I was out that day and I know that

**Adam Henderson** [01:26]

So that's, I didn't know if that had been communicated what that difference was.

**Adam Henderson** [01:35]

Okay.

**BOB** [01:41]

My guy who I had taken care of it, you know, he had just asked if it would be more cost-effective to change both of the tires, and I guess that's the last thing that I had saw of any communication on that. Let's see, so it was \$1,100 for a regular tire, \$1,700 for...

**BOB** [02:03]

Okay, and maybe I was swayed, I just, I was under the impression that in outdoors those solid tires just don't have...

**Adam Henderson** [02:08]

Yeah, because then they're completely solid rubber. We just press them on the same wheels and everything, and they're the same diameter and same tread and everything.

**BOB** [02:27]

Like in the wintertime I guess when there's snow on the ground that there's not any, there's just not enough traction on those. I guess I've heard. I've never experienced it myself but I've only ever used the pneumatic one. Okay. Okay.

**Adam Henderson** [02:37]

Yeah, the steers, there's really, they're just kind of along for the ride anyway.

**Adam Henderson** [02:43]

They're just kind of like a dolly caster. They're just, they're no power or anything in the rear, especially. But yeah, they're the same contact patch to the ground and everything as a pneumatic. And I have those on hand.

**BOB** [02:52]

So I guess it would it be would it be more cost-effective I guess to replace both tires then or is it really not gonna?

**Adam Henderson** [03:05]

Over time, if you have more flats, yes. So that's like what all lumber yards and stuff run, is because they don't have to deal with flats. And then they wear a long time too, because you can wear them past the tread even and get them re-grooved if they get worn down. So...

**BOB** [03:13]

Okay. Okay. But I guess in terms of like where I'm looking at like on a labor charge, I guess for example, I mean, I guess if I'm doing both tires, is labor going to be double? I guess is more what I'm

**BOB** [03:38]

Oh, and that is for two tires. Oh, okay, well, heck, let's go ahead and do that. Okay, yeah, if you could just let me know, I guess, whenever that is going to happen, that would be great, and we'll kind of go from there.

**Adam Henderson** [03:39]

Nope. Nope. What I quoted there is what it is. That's for all of it. The solids were quoted as a pair.

**Adam Henderson** [03:50]

Okay. And I have those on hand, so I can get those on the schedule.

**Adam Henderson** [04:00]

Yeah,

**BOB** [04:03]

Sounds good. Thank you.

**Adam Henderson** [04:03]

absolutely. We'll let you know. Thank you.

Positive

### AI SUMMARY

Kent Stewart (Representative, Rion Equipment) engaged with Sean from Murphy Tractor to address an order related to the equipment serial number.

### FULL TRANSCRIPT

**MURPHY TRACTOR** [00:00]

This call is being recorded.

**Kent Stewart** [00:05]

Thanks for choosing Rion Equipment. This is Kenton Potter. Tell me to help you.

**MURPHY TRACTOR** [00:09]

Hey Kent, this is Sean up at Murphy Tractor in Fort Dodge.

**Kent Stewart** [00:12]

Hey, Mr. Sean. Does that look better? Does that look more like what you've got on your system? Okay, because what I sent you was what shows up when you look up the

**MURPHY TRACTOR** [00:13]

Hey, as luck would have it, yeah.

**Kent Stewart** [00:26]

serial number. And so I told Adam, my boss, and said, well,

**Kent Stewart** [00:32]

Is it an N? I'm like, I'll look and see. Do you

**Kent Stewart** [00:42]

still have the serial number in front of you,

**MURPHY TRACTOR** [00:46]

Yeah, I can grab it real quick here.

**Kent Stewart** [00:47]

sir? Is it AF17B as in boy or E as in Edward?

**MURPHY TRACTOR** [00:52]

Let me look here. Yeah, I did double check with the service manager and he said this one should work, just judging by the pictures, and he talked to the technician as well.

**Kent Stewart** [01:00]

Okay. Okay, well, it can't be an E because that one doesn't work. So, yeah, I know boss said, well, they talk about it. Is it a serial number right? I'm like, well, if I gave it to me, it brought it up. So, yeah, I do have those in stock.

**MURPHY TRACTOR** [01:13]

So, yeah, F17B90492.

**Kent Stewart** [01:15]

Okay, so it is Bravo then. Okay. Well, I have two of those here. Do you want me to use the same purchase order number? Do you want me to use a different one?

**MURPHY TRACTOR** [01:25]

I'll have to get you a different one. And I actually have a guy headed down that way. Would he just be able to swing by and swap him out?

**Kent Stewart** [01:27]

Okay. Oh. Oh, sure. Yeah. Oh, swap them out? Sure. Yeah, yeah. If he's got them. I was going to say, if you guys ship by UPS, I would give you my number to send that back to me so it doesn't cost you guys anything. But he's on his way down.

**MURPHY TRACTOR** [01:45]

Okay. Oh, it's no big deal. We can do it this way too since he's headed down there.

**Kent Stewart** [01:49]

Okay. What I will do is convert that to an order, get it ready, and then wait for – if he gets here before you get

**MURPHY TRACTOR** [01:58]

I

**Kent Stewart** [02:02]

the purchase order done, I can add that later.

**MURPHY TRACTOR** [02:06]

can give you a PO right now. I just pulled one up.

**Kent Stewart** [02:08]

Okay. I'm ready to copy, sir.

**MURPHY TRACTOR** [02:13]

2729552.

**Kent Stewart** [02:17]

272-9552. I'll get her going,

**MURPHY TRACTOR** [02:23]

Alright, and he'll be down, he'll be leaving here shortly, so a couple hours probably.

**Kent Stewart** [02:26]

sir. A couple hours? Okay, I've never driven to Fort Dodge, so I have no idea how long it would take. No, not at all. It's 5601

**MURPHY TRACTOR** [02:31]

And what's your address, if you don't mind me asking real quick?

**Kent Stewart** [02:38]

Northeast 22nd Street. You'll be coming down 35, correct?

**Kent Stewart** [02:45]

Easiest probably would be to get off on Corporate Woods Drive and then turn south when you get to Delaware or 22nd Street.

**Kent Stewart** [02:55]

And then if you go through a second stoplight, you've gone too far. We're on the east side of the building. So if you're heading south, it would be on the left side.

**Kent Stewart** [03:10]

You'll go over a set of railroad tracks, and then you can kind of see our building right there. There's like big shuttle wagons in the corner, big red marks.

**MURPHY TRACTOR** [03:21]

And is that a Des Moines address?

**Kent Stewart** [03:22]

Yes, it is. It's also on the quote, I think, isn't it? My address? Oh, okay. Okay.

**MURPHY TRACTOR** [03:28]

It could be, yeah, I wasn't going to send that with him, so I just thought I'd jot it down.

**Kent Stewart** [03:32]

Okay. I don't know if it was on – I don't know if they're on there or not. I happen to think, but I don't know if it's got my address or the corporate headquarters address. I don't print them out anymore. I say I don't print them out anymore because I don't – usually what I'm doing is I'm not handing a quote to somebody. I'm emailing it to them. I'm like, well,

**MURPHY TRACTOR** [03:34]

Alrighty.

**MURPHY TRACTOR** [03:40]

Yeah, I didn't even look yet. Oh, it does have that address. So, yeah.

**Kent Stewart** [03:52]

I don't need a paper copy of this. I could just save it as a PDF. All right. All right. I will get this going,

**MURPHY TRACTOR** [03:55]

Yeah, right?

**MURPHY TRACTOR** [03:59]

Sounds good. Thank you. Bye.

**Kent Stewart** [04:00]

sir. Thank you.

**Kent Stewart** [04:02]

Bye.

## Inbound call from MARTIN EQUIP CO

### AI SUMMARY

David discussed a purchase order with Jesse Downey (Sales Representative, Ryan Equipment) regarding exhaust parts, confirming changes and backorder details, while expressing appreciation for Jesse's assistance.

### FULL TRANSCRIPT

**MARTIN EQUIP CO** [00:00]

This call is being recorded.

**Jesse Downey** [00:03]

Ryan Equipment, Jesse and Parts.

**MARTIN EQUIP CO** [00:06]

Hey, Jesse, it's David and Martin Coleman.

**Jesse Downey** [00:09]

Hello. What can I do for you?

**MARTIN EQUIP CO** [00:11]

That quote that you worked on with me yesterday for those exhaust parts.

**MARTIN EQUIP CO** [00:18]

Can I give you a PO for most of that?

**Jesse Downey** [00:25]

Yeah, this works a PO.

**MARTIN EQUIP CO** [00:27]

The PO number is going to be 1103600RIDA.

**MARTIN EQUIP CO** [00:39]

We're going to take one part off of that quote.

**MARTIN EQUIP CO** [00:44]

That exhaust mount weldment, that I-1236294. Yeah, we're going to...

**Jesse Downey** [00:54]

I have to pull up your code I sent you here, but yeah, everything about the exhaust weldment.

**MARTIN EQUIP CO** [01:01]

We're not going to order that, but everything else we're going to order.

**Jesse Downey** [01:05]

Okay, let's see here.

**Jesse Downey** [01:10]

Yep, so I'll make sure there's only one weld a minute. Okie dokie. Yep. Alright, I'll get everything else.

**MARTIN EQUIP CO** [01:15]

And I know you... Yeah, everything else, go ahead and put on that PO. And I know you said a lot of this stuff is back order, but go ahead and put it in for next year.

**Jesse Downey** [01:27]

Alright, I understand. I will try to get it to piece together as quicker as possible.

**MARTIN EQUIP CO** [01:31]

Okay. And then just let me know when it's all complete and we'll come get it.

**Jesse Downey** [01:36]

Alrighty. What do, sir?

**MARTIN EQUIP CO** [01:38]

I appreciate it. Thank you.

**Jesse Downey** [01:42]

You're welcome, David. Have a good day.

**MARTIN EQUIP CO** [01:43]

You too. Bye.

### AI SUMMARY

Chad Metzger (Sales Rep) and Brett discussed the complexities of rental equipment swaps and the necessity for customer communication regarding purchase options.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan Equipment, this is Chad.

**OMAHA NE** [00:06]

Hey, Chad, Brett.

**Chad Metzger** [00:09]

So I guess I'm kind of confused. I guess

**Chad Metzger** [00:14]

in the past when we had to do these rental swaps, we just swapped them out. We never contacted the customer if they wanted to buy it or not. That wasn't the pending decision. We just needed to swap it out because they're long-term rentals.

**OMAHA NE** [00:27]

Well, what the problem is, as soon as you do that, then upper management of other companies get \*\*\*\*\* because then they want that option. And they honestly deserve that option. Otherwise, I've got the same situation I've got going on at Seneca. Just because, you know, people pay these long rents and we're not communicating with

**OMAHA NE** [00:48]

How that works. I get your point, but I still feel it's right for the customer for them to have the option to buy it first

**OMAHA NE** [00:58]

since their rentals. And then since you called and I called you back, I'm having issues with Seneca. They may return their rental since they're so \*\*\*\*\* at us that they've been paying

**OMAHA NE** [01:10]

however long, short-term month-to-month rental. What, what,

**OMAHA NE** [01:16]

What's a return policy look like when they return it? So it's just they got to pay for the haul. We do an inspection. If there's anything outside of normal wear and tear, we bill

**Chad Metzger** [01:26]

Correct.

**OMAHA NE** [01:27]

them. Is that basically what it comes down to?

**Chad Metzger** [01:29]

Yeah, they already paid the return fee, return haul. That gets billed on the first invoice. Yeah, it gets billed on the first invoice.

**OMAHA NE** [01:33]

Oh, they already have.

**OMAHA NE** [01:35]

Oh, okay. I'm glad I asked them. I've got an issue with them there.

**OMAHA NE** [01:41]

They're all \*\*\*\*\* at us for them doing what they wanted and now they expect us to bend over backwards for them.

**OMAHA NE** [01:47]

Like all customers.

**Chad Metzger** [01:49]

Yeah. No, I guess I understand, like, the discounted thing for Will Scott, but I just wanted Ben to know, like, hey, rental's based on availability. Like, it's not our fault that the customer

**OMAHA NE** [01:50]

So,

**OMAHA NE** [02:03]

no, oh, that Ben situation. Yeah, we, I understand that completely. I explained it to Brent.

**Chad Metzger** [02:04]

messed up on their end.

**OMAHA NE** [02:11]

He, we both said the same thing.

**OMAHA NE** [02:16]

And Brent was willing to do what he did. So, I mean, I know what you're saying,

**Chad Metzger** [02:21]

Yeah. I just feel like there's been a...

**OMAHA NE** [02:22]

Chad. Completely.

**Chad Metzger** [02:26]

A pattern from Ben of everything needs to be discounted.

**OMAHA NE** [02:33]

He's out there grinding. With the problem in Des Moines, there's so many \*\*\*\*\* wholesalers.

**Chad Metzger** [02:42]

Sure.

**OMAHA NE** [02:43]

I mean, like twice, three times as many as we have in Omaha.

**Chad Metzger** [02:47]

Right.

**OMAHA NE** [02:47]

So, he's chasing the right customers and the wrong customers. So,

**OMAHA NE** [02:53]

And \*\*\*\*, in Columbus, we've got the H2 dealer. That's the new Bobcat dealer. And all the times I was complaining about Darren, I went in there and walked in on what their rental rate was. And they saw who I was and they laughed. I'm like, guys, I'm just trying to figure out where the market is. And they're under \$1,000 for a 5K rental. So I get it.

**Chad Metzger** [03:14]

Yeah. Yeah. But what are they getting?

**OMAHA NE** [03:17]

And that's a valid point.

**OMAHA NE** [03:20]

I don't disagree with your comment. It's just the battles we fight in the day-to-day deal, as you know.

**OMAHA NE** [03:29]

So I understand where Darren is coming from, but like you said, we're giving him two years or three years or newer equipment. So if it does break down, which it doesn't normally.

**OMAHA NE** [03:41]

So, no, I get your point. But I'll let you know how the Seneca thing goes.

**OMAHA NE** [03:46]

And we'll figure out next steps. Like I said, I sent milk. If I knew someone at Milk Specialties, this would be easy. I don't.

**OMAHA NE** [03:56]

It's the biggest problem we have. And Darren was working at someone at corporate and he never wrote down his email address in the system.

**OMAHA NE** [04:03]

So I'm reaching out to people that I've dropped off business cards at the plant. So I sent them an email just saying, hey, if I don't hear from you by Tuesday,

**OMAHA NE** [04:11]

We're just going to swap it. I can't wait any longer.

**Chad Metzger** [04:15]

Which I think they just they just rent. That's all they do. I don't know if they ever buy.

**OMAHA NE** [04:19]

They normally do, but Darren has two separate activities in the CRM that says they were looking at buying that machine.

**OMAHA NE** [04:31]

And he says the customer's looking at buying the machine, so it doesn't give me any direction to

**OMAHA NE** [04:36]

So this is my out and obviously your out was saying, hey Brett, no matter what I want to pick it up on the 28th and I just forgot the 28th came and gone.

**Chad Metzger** [04:51]

Yeah, no worries.

**OMAHA NE** [04:52]

So no worries. So either way, like I said,

**Chad Metzger** [04:53]

I just sent dispatch an updated email like, hey, push this back another week.

**OMAHA NE** [05:01]

I'll, all right, well, do we note on the Ben thing? I'll keep an eye on it and I'll be out there with him next week. So,

**Chad Metzger** [05:05]

Okay. Sounds good. Talk to you soon. See ya. Bye.

**AI SUMMARY**

Ryan McCann (Sales rep) reached out to Michael Lowe (Rion Equipment) to follow up on an email regarding adjustments required for Columbia Stock Chasers, specifically inquiring about equipment availability for connecting to make those adjustments.

**FULL TRANSCRIPT**

**Michael Lowe** [00:00]

Hello, this is Michael with Rion Equipment in Lincoln and Donovan, Nebraska. I'm unable to answer the phone right now. If you need immediate attention, feel free to call the front office at 402-474-5566. If it's not immediate, you can leave a voicemail, and I will get back to you as soon as possible. Thank you. Bye.

**WIRELESS CALLER** [00:29]

Hey, good morning, Michael. This is Ryan McCann over at Ryan in Chicago. Hey, I was just following up with you to see if you saw my email about these Columbia Stock Chasers. So the customer that we had done some work on one for and the two that you sent to them, so they

**WIRELESS CALLER** [00:46]

They need us to plug into that thing and change the speed settings on a couple of them. And I was just wondering if you guys know or have the equipment needed to connect to those. So yeah, if you could just shoot me an email or give me a call when you get a chance, that'd be great. 331-237-9890. Thank you.

Jenna (Customer, Caller) contacted Charles Huffman (Sales rep) at Brian Equipment to finalize an order for a drum truck and provided credit card details for the transaction.

### FULL TRANSCRIPT

**BECKMAN JENNA** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Brian Equipment, this is Charlie.

**BECKMAN JENNA** [00:05]

Hi, this is Jenna with Tillotson Enterprises. I was calling you about that drum truck I was trying to get ordered.

**BECKMAN JENNA** [00:17]

You just need credit card information to get that going basically.

**BECKMAN JENNA** [00:27]

Okay. I have that here whenever you're

**BECKMAN JENNA** [00:32]

ready. Okay. <REDACTED\_ENTITY>.

**Charles Huffman** [00:44]

Expiration.

**BECKMAN JENNA** [00:46]

6810-5664-3321. 726-447.

**Charles Huffman** [00:51]

And a three digit.

**Charles Huffman** [00:57]

Okay. I will get this going for you and I'll let you know when it's ready to get picked up. And when the transaction is complete, then I will send you the receipt, credit card receipt and invoice. All right. Thanks for calling.

**BECKMAN JENNA** [01:09]

Okay.

**BECKMAN JENNA** [01:12]

Yeah, that'd be great. All right. You bet. Thank you.

## Inbound call from CASPER WY

April 27, 2026 | 08:11 PM | Duration: 3m 14s | From: CASPER WY | To: +13072280504

Inbound

Positive

### AI SUMMARY

In a conversation regarding an invoice issue, Adam Ratcliff (Invoicing and payments representative) and Lisa clarified that the customer, Mark, could short pay the invoice to exclude tax, which would help in updating future orders correctly.

### FULL TRANSCRIPT

**CASPER WY** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:04]

Hey, Mark.

**CASPER WY** [00:06]

Hey, how's it going,

**Adam Ratcliff** [00:08]

Good, you?

**CASPER WY** [00:09]

man? Good. Hey, did they send out that other invoice, Dino, without the tax on

**Adam Ratcliff** [00:15]

Uh-oh, one second.

**CASPER WY** [00:27]

it? Where did you work at before you were at, Rion?

**Adam Ratcliff** [00:31]

Antelope, mine.

**CASPER WY** [00:35]

Oh, that's not what I'm thinking.

**Adam Ratcliff** [00:43]

So

**Adam Ratcliff** [00:49]

what they come back with was if you short pay this invoice, then they can update the account.

**Adam Ratcliff** [00:58]

TO INCLUDE WYOMING TAX-FREE,

**Adam Ratcliff** [01:03]

UM, GIVE ME ONE SECOND, LET ME GET WITH LISA HERE AND SEE, I'M TAKING THAT AS IF YOU JUST MAKE A PARTIAL PAYMENT, YOU CAN UPDATE THE INVOICE AND FIX THE TAX.

**Adam Ratcliff** [01:20]

OKAY, HANG ON, I'M GOING TO STICK YOU ON SPEAKER HERE WITH LISA.

**Adam Ratcliff** [01:37]

All right, Mark, I got Lisa here and she takes the payments and does the invoicing and stuff. If you go through, so what they're stating on there, so your invoice, if you just short paid the taxes portion that's on there, then they will get everything out.

**CASPER WY** [01:45]

Okay.

**Adam Ratcliff** [01:59]

Applied on your end, which then any other time that you order will go through and have that be corrected.

**Adam Ratcliff** [02:09]

This won't be an every time thing.

**CASPER WY** [02:12]

Okay. So when they push this invoice through, you just need to tell them to short pay, don't pay the taxes, and...

**Adam Ratcliff** [02:19]

Don't pay the taxes. Yep. And Adam Arab, he would have made that notation in there in the system.

**Adam Ratcliff** [02:27]

So when accounting gets in there, they'll see why it is short paid.

**Adam Ratcliff** [02:35]

And I'll send them an email too and just let them know that that's what we did

**Adam Ratcliff** [02:40]

and get it squared away.

**CASPER WY** [02:43]

Okay. All right. Sounds good,

**CASPER WY** [02:46]

guys. All right. Thank you.

**Adam Ratcliff** [02:47]

You're welcome. Have a good one. Bye.

### AI SUMMARY

Jerrett Kyle (Customer) called Cindy Cooper (Sales rep) to discuss the quote for a Taylor steel kit necessary for a pilot filter.

### FULL TRANSCRIPT

**JERRETT KYLE** [00:00]

This call is being recorded.

**Cindy Cooper** [00:04]

Ryan Equipment, this is Cindy.

**JERRETT KYLE** [00:06]

Hey, Cindy, Kyle at Mobile Track. How you doing?

**Cindy Cooper** [00:09]

I'm good, Kyle. How are you?

**JERRETT KYLE** [00:11]

Good. Hey, I just seen that quote you sent over about the Taylor steel kit.

**Cindy Cooper** [00:14]

Yeah, that goes with that pilot filter? Yeah, they strongly recommend that you place those seals with that.

**JERRETT KYLE** [00:21]

Yep, that pilot filter housing.

**Cindy Cooper** [00:30]

So...

**JERRETT KYLE** [00:31]

We had, yeah, we got to replace that housing. It got seized together for some reason. I don't know if somebody cross-threaded it or what, but, yeah, do you have a description of where the steel kit goes? Is it in the housing or?

**Cindy Cooper** [00:45]

It must be. I could have them send a diagram with it if you want. Okay, because he's got the filter and he said he's got the seal kit. So if you want, I can go ahead and send them together. If you just want to change that PO number or make a new PO, we can do that too. I just won't close.

**JERRETT KYLE** [00:46]

Okay.

**JERRETT KYLE** [00:50]

That'd be outstanding.

**JERRETT KYLE** [01:04]

Yep. What we can do is we can add another line to it. Ryan is out until tomorrow.

**Cindy Cooper** [01:12]

That's fine. I'll go ahead and have him send them today if that's okay.

**JERRETT KYLE** [01:15]

Okay. Yeah, that's fine with me. I'll just have Ryan. I'll put it on my job right now and then I'll let Ryan know so when he walks in in the morning he knows what's going on.

**Cindy Cooper** [01:23]

Okay. Okay. And I will call Adam and tell him to go ahead and ship that and I'll see if he can give you a description or something that shows where those go. Okay?

**JERRETT KYLE** [01:33]

Okay. Yeah, that'll be good. I appreciate it.

**Cindy Cooper** [01:35]

Alrighty. Yeah, I want to order them. You too. Bye.

**JERRETT KYLE** [01:36]

You have a good rest of your day.

**JERRETT KYLE** [01:39]

Thanks. Bye.

### AI SUMMARY

The conversation involved SIEDELMANN G. reaching out to Nick Korth regarding a delay in training for Mortenson Construction's XH-650L.

### FULL TRANSCRIPT

**SIEDELMANN G.** [00:00]

This call is being recorded.

**Nick Korth** [00:03]

Yes, Tracy.

**SIEDELMANN G.** [00:05]

Hey, do you got a few minutes?

**Nick Korth** [00:08]

I'm going to be leaving for a doctor's appointment about 10. Can you take more than that?

**SIEDELMANN G.** [00:11]

Okay. Yeah, you might be able to answer this question. I took a phone call today from Mortenson Construction and the person I talked to was Robert. He was a safety manager there and he was calling training for the XH-650L and one of the things he said was Bill, that he had talked to Bill and Bill was supposed to give him a call

**Nick Korth** [00:24]

Okay.

**SIEDELMANN G.** [00:36]

And he said it's going on, you know, a week or two and he goes I haven't heard anything about training his employees. And I guess I thought well did he have a wrong name because I called Amber. I'm like hey, you know, it's just kind of weird because I pulled up the agreement and all that. Do you know anything about

**Nick Korth** [00:53]

I talked to that Robert, and he's actually based out of Minneapolis, out of their corporate office. And I talked to him, and it's probably been two or three weeks ago. And then he had initially or somehow got

**SIEDELMANN G.** [00:58]

that? Okay.

**Nick Korth** [01:06]

I had a Sauk Rapids number and he did talk to Bill. And then I knew Bill was on vacation or out, I don't know, something. He was out for at least a week, maybe a week and a half. And yeah, they were going to talk or, yeah, he wants some kind of training or some go around. So I talked to Bill, me and him talked, and then this all happened on a Friday afternoon, I remember. Yeah.

**SIEDELMANN G.** [01:16]

Yeah, he's still a

**SIEDELMANN G.** [01:28]

good name. Of course.

**Nick Korth** [01:29]

Yeah, of course. And he was going to circle back and talk to him because he initially reached out to Bill. And Bill's got no problem with his talking with the guys. Like he said, he was close and he can do it all. But let me just circle back with Bill. Maybe he didn't get his number because I think I talked to my two site people that are at Northwood because nobody had this Roberts number. He didn't leave it with me either. So let me, yeah.

**SIEDELMANN G.** [01:51]

Okay, well I

**SIEDELMANN G.** [01:54]

I just wanted to run it by you. And Bill, I think somebody said, I heard him say that he was in Europe. So, and I didn't ask Amber. I didn't think. I thought, you know, I talked to her and I thought, well, she said something about you. And I'm like, all right, let me give you a quick shout.

**Nick Korth** [02:05]

Yeah, yeah, yeah. Me and Bill initially talked to Robert about it. And like I said, I talked to my two. He was really asking for a lot of stuff, but he's new at the safety role first off. And so, you know, how this goes.

**SIEDELMANN G.** [02:16]

Okay. So, no. And so, I have to follow up with him today. And so, obviously, I know I'm not going to train, you know, or set up anything.

**Nick Korth** [02:17]

Yep,

**SIEDELMANN G.** [02:24]

But what I would like to do is at least touch base with him again this afternoon and so that I'd let him know that Bill's out of the office and when he'll be back. And I will email both you and Bill so that way either of you can get in touch with him. I just didn't want to misspeak or anything like that without having all the information. So, yeah, he was up but they're trying

to get training like right now. So,

**Nick Korth** [02:43]

you're good.

**Nick Korth** [02:49]

All right. Yeah, exactly.

**Nick Korth** [02:51]

Yeah, me and Bill both talked. We're like, yeah, it's a big forklift, but at the end of the day, it's still a forklift. And then when we talked to that Robert, yeah, but that's not a forklift.

**SIEDELMANN G.** [02:58]

Okay. And, yeah, because,

**SIEDELMANN G.** [03:00]

yeah, he was really nice. And he mentioned, he goes, any type of, it could be as simple as, you know, needing some training documentation or something like that, too. So, well, that sounds good. Then I'll circle back with him and I'll just talk with you, you know, here in the next couple days. How's that sound?

**Nick Korth** [03:17]

Yeah, that'll work. Yeah, no problem.

**SIEDELMANN G.** [03:19]

All right, Nick, I appreciate it. Thank you.

**Nick Korth** [03:20]

Okay. Yep. Have a great day.

**SIEDELMANN G.** [03:23]

You too. All right. Bye.

**Nick Korth** [03:23]

Okay. We'll see you. Bye.

### AI SUMMARY

Brent Steckley contacted Chad regarding a missed call from Ryan equipment. Chad confirmed he has not called anyone and apologized for the inconvenience.

### FULL TRANSCRIPT

**STECKLY BRENT** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Rion, equipment's jammed.

**STECKLY BRENT** [00:06]

Yeah, this is Brent Steckley. I just missed a call from you.

**Chad Metzger** [00:13]

No, I haven't called anybody.

**STECKLY BRENT** [00:15]

You haven't? You said this is Ryan equipment?

**STECKLY BRENT** [00:22]

Hmm. I suppose it's one of them.

**STECKLY BRENT** [00:25]

I get a lot of these spam calls. They piggyback in on other people's phone numbers.

**Chad Metzger** [00:30]

No, I haven't called anybody.

**STECKLY BRENT** [00:33]

Okay. Well, I'm sorry to bother you. Thank you.

**Chad Metzger** [00:34]

All right. No problem. No problem. Thanks, friend. You bet, Mike.

### AI SUMMARY

Trisha from All Star Toe called Amigo from Ryan Equipment to confirm a charge for a service and to obtain his direct contact number for future communications, showing a proactive approach to streamline their connection.

### FULL TRANSCRIPT

**+18168584488** [00:00]

This call is being recorded.

**Miguel Rivera Padilla** [00:03]

Ryan Equipment, this is Amigo, how can I help you?

**+18168584488** [00:06]

Hi, Miguel, it's Trisha over here at All Star Toe. Good, you. I was just closing out the calls for last week and we had that one last Wednesday that we did from Edgerton to Lee Summit for \$557. Is that one okay to go ahead and put on that credit card?

**Miguel Rivera Padilla** [00:09]

Hi, how you doing ma'am?

**Miguel Rivera Padilla** [00:12]

I'm doing good, thank you for asking, thank you for asking.

**Miguel Rivera Padilla** [00:22]

Yes ma'am?

**Miguel Rivera Padilla** [00:25]

Yes ma'am.

+18168584488 [00:27]

Okay, I'll go ahead and charge it and send you a paid receipt.

**Miguel Rivera Padilla** [00:29]

Thank you so much. You too.

+18168584488 [00:30]

Thank you. Have a good day. Oh, can I get your direct phone number also just so I don't have to call the office?

**Miguel Rivera Padilla** [00:35]

Um, yes.

**Miguel Rivera Padilla** [00:39]

Let me know when you're ready. 816-907-1541.

+18168584488 [00:39]

I'm ready.

+18168584488 [00:50]

Perfect. Then I can avoid the office and call you directly. I appreciate it. You have a good day. Bye.

**Miguel Rivera Padilla** [00:52]

Okay, sounds good. Have a good one, man. You too. Bye-bye.

### AI SUMMARY

The conversation involved Brett Christensen seeking a rear axle seal for his R80 cat forklift, where Todd Babka emphasized the need for the serial number to provide accurate assistance.

### FULL TRANSCRIPT

**CHRISTENSEN B.** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Rion equipment, the stun parts.

**CHRISTENSEN B.** [00:07]

Yeah, this is Brett Christensen. I'm working on an R80 cat forklift.

**Todd Babka** [00:12]

Okay.

**CHRISTENSEN B.** [00:14]

I need a rear axle seal.

**Todd Babka** [00:22]

Okay. You have your serial number,

**CHRISTENSEN B.** [00:27]

I'm sorry, I do not.

**Todd Babka** [00:29]

Brett? So I'm going to need that. Do you know, has this got big hubs on it? Like eight bolts or ten bolts?

**CHRISTENSEN B.** [00:37]

Yeah.

**Todd Babka** [00:39]

With oiled hubs?

**CHRISTENSEN B.** [00:41]

Yes.

**Todd Babka** [00:43]

Okay. So that's just... Alright. I will have to go dig in and find that paperwork because that's an updated axle.

**CHRISTENSEN B.** [00:49]

Hold on, I can try to get... Yeah, I can try to get that. I have somebody at the shop. I'll try to get that. I need the serial number.

**Todd Babka** [00:55]

That's fine. I just, I know what axle you have. So, what's your number?

**CHRISTENSEN B.** [01:03]

402?

**Todd Babka** [01:08]

Okay.

**Todd Babka** [01:13]

I just have to go find my paperwork on the updated heavy-duty axles and all. But I'll get that found and call you back. All right, thanks, bye.

**CHRISTENSEN B.** [01:20]

8-7-9-5-9-3-4. Okay, thanks.

**CHRISTENSEN B.** [01:24]

Yep, bye.

## Inbound call from JOHNSON DANA

April 27, 2026 | 05:23 PM | Duration: 9m 27s | From: JOHNSON DANA | To: +14024731033

Inbound

Positive

### AI SUMMARY

In a conversation between Michael Lowe (Support rep) and Dana Johnson, Dana sought assistance with a service campaign for a Heinrich pallet stacker.

### FULL TRANSCRIPT

**Michael Lowe** [00:01]

This is Michael with Rion Equipment.

**JOHNSON DANA** [00:03]

Hey, Michael. This is Dan James with Rion up in Sioux Falls here.

**Michael Lowe** [00:08]

Hey, what's going on?

**JOHNSON DANA** [00:08]

And I have a question about a service campaign on a young Heinrich pallet or walkie stacker. And it involves downloading a folder from Dealernet or a file from Dealernet and then installing it. Normally, I just have Craig remote into my laptop, download it, and then install it.

**JOHNSON DANA** [00:28]

But he is out of the office today. I wasn't sure if that's something you would be able to do or would I have to get

**JOHNSON DANA** [00:34]

the... Who would I have to call to get that figured out?

**Michael Lowe** [00:38]

Let's see if

**Michael Lowe** [00:40]

I can do that. What is your TeamViewer ID?

**JOHNSON DANA** [00:48]

I'm not at the machine now. It's like a two-hour drive away. I just wanted to see if it could be done, but I can... You still need that TeamViewer ID.

**JOHNSON DANA** [00:59]

Okay, let's see. All right, 589-766-105.

**Michael Lowe** [01:08]

05. All right.

**Michael Lowe** [01:12]

And it'll take a minute and then I'll need your password. All right. What's that password?

**JOHNSON DANA** [01:18]

Lowercase i, 1, X, K, I, X, T, V. All lowercase.

**Michael Lowe** [01:31]

Oh, I must say I1.

**Michael Lowe** [01:37]

What was the most, the rest of it?

**JOHNSON DANA** [01:40]

X, K,

**Michael Lowe** [01:40]

XX.

**JOHNSON DANA** [01:43]

I, X,

**Michael Lowe** [01:45]

I, X,

**JOHNSON DANA** [01:46]

T, V.

**JOHNSON DANA** [01:48]

T,

**Michael Lowe** [01:50]

TV.

**JOHNSON DANA** [01:51]

V, T, isn't Terry?

**Michael Lowe** [01:55]

Okay. TV.

**Michael Lowe** [02:01]

There we

**Michael Lowe** [02:04]

go. Okay. Which one did you need

**JOHNSON DANA** [02:11]

Let's see.

**JOHNSON DANA** [02:18]

I haven't found it yet. I was still looking. Download the judit-sdt-4.585-smart-sensor-dshell.es.

**Michael Lowe** [02:36]

to... What was the campaign for?

**JOHNSON DANA** [02:41]

It's

**Michael Lowe** [02:42]

What kind of stuff was it?

**JOHNSON DANA** [02:45]

a campaign. It's a EJC 110 I.

**JOHNSON DANA** [02:51]

I have the campaign number two to sell.

**Michael Lowe** [03:11]

That's nice.

**Michael Lowe** [03:23]

Okay.

**Michael Lowe** [03:29]

Let's try this a minute.

**Michael Lowe** [03:49]

Come on, you can do it. What is that campaign?

**JOHNSON DANA** [03:55]

J26009.

**Michael Lowe** [04:05]

Smart sensor to limit it, okay. Form software update, 2025,

**Michael Lowe** [04:19]

2026 electric truck,

**Michael Lowe** [04:23]

truck campaign, electric truck.

**Michael Lowe** [05:36]

Okay, so if that worked,

**Michael Lowe** [05:42]

we should have...

**Michael Lowe** [05:50]

One of these should work.

**JOHNSON DANA** [05:52]

I believe so.

**Michael Lowe** [05:59]

Let's go to other.

**Michael Lowe** [06:02]

There it is.

**Michael Lowe** [06:04]

So,

**Michael Lowe** [06:07]

select

**Michael Lowe** [06:58]

that one.

**Michael Lowe** [07:01]

2020, 506, 2016. OK, good.

**Michael Lowe** [07:07]

OK.

**Michael Lowe** [07:09]

So when you get out there-- oh, gosh darn

**Michael Lowe** [07:21]

it. I locked out. Let's see. Close that.

**Michael Lowe** [07:27]

Close that.

**Michael Lowe** [07:29]

All right, so you have the software now. So when you go out there, you'll just hit Judith 4.

**Michael Lowe** [07:39]

Hit the other tab and you're looking for this one.

**Michael Lowe** [07:43]

And then you're going to, instead of start, Judith, you're going to hit software download tool.

**Michael Lowe** [07:50]

And then it'll bring up this page and you want to make sure you hit 800 kilobyte baud rate.

**Michael Lowe** [07:59]

And then it already selects the most up-to-date software.

**Michael Lowe** [08:06]

And you'll just hit this button

**Michael Lowe** [08:08]

and then it'll go through the updating prompts.

**Michael Lowe** [08:14]

And then it

**Michael Lowe** [08:19]

should go through all the prompts. Sometimes it might require key switches, but it'll tell you once it brings it up. And then

**Michael Lowe** [08:32]

Once it's done, you will just hit the lovely exit out of that and then key switch and make sure the truck works.

**Michael Lowe** [08:46]

Okay.

**JOHNSON DANA** [08:46]

Sweet. Well, hopefully I won't have to call you again, but.

**JOHNSON DANA** [08:49]

In case something does go wrong, I'll give you a call, but I'll hopefully should be able to figure it

**Michael Lowe** [08:56]

Okay. Sounds good, sir.

**JOHNSON DANA** [08:57]

out. Awesome. Thank you. Bye.

#### AI SUMMARY

Travis (Customer) reached out to report a hydraulic leak in his forklift and left a message for Michael Lowe (Sales rep) at Rion Equipment to call back regarding the issue.

#### FULL TRANSCRIPT

**Michael Lowe** [00:00]

Hello, this is Michael with Rion Equipment in Lincoln and Donovan, Nebraska. I'm unable to answer the phone right now. If you need immediate attention, feel free to call the front office at 402-474-5566. If it's not immediate, you can leave a voicemail, and I will get back to you as soon as possible. Thank you. Bye.

**MIKKELSEN FARM** [00:27]

Hi, this is Travis with Kenny's Lumber. I'm having, I think, a hydraulic leak out the back of my forklift. Could you give me a call back at 402-746-4224? Thanks.

CALL 362 OF 611

### Inbound call from GUSTIN KELVIN

April 27, 2026 | 04:45 PM | Duration: 5m 6s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Positive

#### AI SUMMARY

During the call, Gustin Kelvin (Caller) reached out to Derrick Dea (Representative) regarding a work order for a Princeton PB80.3.

#### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts there.

**GUSTIN KELVIN** [00:03]

Hey, I remember what I was going to tell you. So I got a work order of 803-526.

**GUSTIN KELVIN** [00:13]

It's Princeton.

**GUSTIN KELVIN** [00:18]

Let's see if I can get the... Come on, open up.

**GUSTIN KELVIN** [00:24]

Why don't I want to show me the picture? Here it is. It's a PB80.3.

**Derrick Dea** [00:27]

Thank you.

**GUSTIN KELVIN** [00:31]

Serial number, Nancy, 360218, Charlie.

**GUSTIN KELVIN** [00:42]

So on the hydraulic valve that's down on the frame, there's two big hoses that come from the pump that go to that valve body. There's fittings that screw in that valve body I need to order.

**Derrick Dea** [00:49]

Alright, two hoses, what?

**GUSTIN KELVIN** [00:55]

I don't have a Princeton manual, but if you could send me a pic, I'll tell you what I need. It's their fittings that screw into the valve body. I'll send you a picture of what I'm looking for.

**Derrick Dea** [01:08]

Alright, and they're going where to, in a valve body?

**GUSTIN KELVIN** [01:13]

They go to the hydraulic pump.

**GUSTIN KELVIN** [01:17]

Yes, sir, they go to the hydraulic pump. I'll send you a pic.

**GUSTIN KELVIN** [01:25]

Let me send you this pic right now when I'm thinking of it. Let's see, what is your name? Derrick Day?

**Derrick Dea** [01:27]

Yep.

**GUSTIN KELVIN** [01:33]

Yes, sir. Oh, why did he go to Alfredo? What the heck?

**GUSTIN KELVIN** [01:46]

There we go.

**GUSTIN KELVIN** [01:49]

Oh, my God.

**GUSTIN KELVIN** [01:53]

God, it used to be so easy, Derrick. Oh, yes, yes, yes.

**Derrick Dea** [01:58]

Are they elbows or what are they?

**GUSTIN KELVIN** [02:01]

No, they're straight fittings. I think they're O-ring boss fittings that screw in there.

**GUSTIN KELVIN** [02:09]

They go into a hose. Come on, send it over there. Come on. It's still going round and round yet.

**GUSTIN KELVIN** [02:20]

I can't wait to go to see my buddy Butch at Waco.

**Derrick Dea** [02:21]

All right.

**GUSTIN KELVIN** [02:27]

Why ain't this going?

**GUSTIN KELVIN** [02:31]

What's up with this thing?

**GUSTIN KELVIN** [02:37]

Let me drive out from underneath this building here and maybe it'll come through faster because it ain't doing shy at.

**Derrick Dea** [02:49]

GUSTIN, Rion,

**GUSTIN KELVIN** [02:50]

Still going around.

**GUSTIN KELVIN** [02:53]

Not real sure why.

**GUSTIN KELVIN** [02:56]

Still going round and round.

**GUSTIN KELVIN** [03:00]

Might have to send it again because it's not going,

**GUSTIN KELVIN** [03:06]

bud. I'm over in Council Bluffs. Can't have that bad of a connection, can we?

**Derrick Dea** [03:08]

REP, COI, Derrick, Jessica, PRO.

**GUSTIN KELVIN** [03:13]

I just got a circle going round and round, round and around,

**GUSTIN KELVIN** [03:21]

round and around, round and around.

**GUSTIN KELVIN** [03:26]

Let me try resetting it again, then you'll get it three times.

**GUSTIN KELVIN** [03:34]

Come on.

**Derrick Dea** [03:35]

Okay.

**GUSTIN KELVIN** [03:40]

There we go.

**Derrick Dea** [03:41]

Thank you.

**GUSTIN KELVIN** [03:50]

Let's try it again.

**GUSTIN KELVIN** [03:56]

Well, I got a round and round thing again.

**GUSTIN KELVIN** [04:06]

Derrick, I don't know why this thing ain't working.

**GUSTIN KELVIN** [04:12]

No connection.

**GUSTIN KELVIN** [04:15]

Let's

**GUSTIN KELVIN** [04:19]

see

**GUSTIN KELVIN** [04:24]

it first. We're just going to let it sit here and do its thing and call me when you... and we'll move on and keep on rolling.

**Derrick Dea** [04:27]

All right.

**Derrick Dea** [04:31]

Alright, we'll do. Okay. Okay. Bye.

**GUSTIN KELVIN** [04:33]

Oh, it went. It sent.

**GUSTIN KELVIN** [04:44]

Thank you, sir.

### AI SUMMARY

The conversation centers around Gustin (Customer, Caller) seeking a quote for a cab plate while expressing concern over the missing hardware necessary for installation.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Hello, Derrick. How's it going?

**GUSTIN KELVIN** [00:09]

Hey, give me a quote for a plate. Is that for the cab?

**Derrick Dea** [00:10]

Alright, does that look right? Because it's kind of interesting. I forwarded it to you. Let me look at it again.

**GUSTIN KELVIN** [00:19]

I never even seen any pictures. All I seen was a price on the cab.

**GUSTIN KELVIN** [00:29]

All I got is a quote for \$607.20.

**Derrick Dea** [00:29]

There should be a PDF in there. Click on it.

**GUSTIN KELVIN** [00:36]

Oh, how do I get to it? I can't even get to it.

**GUSTIN KELVIN** [00:43]

Oh, there we go. There we go.

**GUSTIN KELVIN** [00:47]

PDF. Yeah, the PDF

**Derrick Dea** [00:48]

That's our cost, not their cost.

**GUSTIN KELVIN** [00:51]

just goes to that

**GUSTIN KELVIN** [00:54]

price that you give me. Oh, there you go. There's a picture down below plate.

**Derrick Dea** [00:55]

Yeah. I'll...

**GUSTIN KELVIN** [01:00]

So I see that but what isn't there bolts that bolt to the cab? There should be software or hardware that bolts up through there with some rubber drommets or something.

**Derrick Dea** [01:19]

That's what he sent. I don't know if it's part of the plate or not. Well it looks like those...if I'm looking at this plate it looks like the cushions are these little holes just next to the big bolt holes maybe. I don't know. I can't turn this plate over to see what it looks like.

**GUSTIN KELVIN** [01:23]

No it's not it all I see is a plate.

**GUSTIN KELVIN** [01:40]

Yeah, I can't

**Derrick Dea** [01:44]

Looks like the cabin is bolted to the frame using a plate and not included. Not individual mounts. Check out the picture below. Does it look right? If so, attach quote.

**GUSTIN KELVIN** [01:48]

either. Huh. Yes?

**GUSTIN KELVIN** [01:59]

Yeah, that's what I... That's what I...

**Derrick Dea** [02:07]

They don't look right.

**GUSTIN KELVIN** [02:10]

So...

**GUSTIN KELVIN** [02:14]

Well, that is the plate,

**GUSTIN KELVIN** [02:17]

but there should be bolts. There should be hardware. There should be some kind of a bolt nut that...

**Derrick Dea** [02:31]

Yeah, that's what I was thinking too. I don't know if there's four or one or two or what. I have no idea. I'm going

**GUSTIN KELVIN** [02:34]

Yeah, I mean, as far

**GUSTIN KELVIN** [02:38]

as... Should be four. Should be four bolts and some kind of rubber drama.

**Derrick Dea** [02:40]

to...

**GUSTIN KELVIN** [02:50]

Yes, sir.

**Derrick Dea** [02:51]

Yeah, I'll know if you scroll down if that's them at the bottom or not. I don't know.

**GUSTIN KELVIN** [02:57]

Well, I'm at the bottom of the page, and I don't see... All I see is... Yeah, I see the blue box.

**Derrick Dea** [02:58]

There's a blue box. And there's little things down sticking at the bottom. I don't know what those are.

**Derrick Dea** [03:08]

All right.

**GUSTIN KELVIN** [03:08]

Well, I think that's what it just rests on. There's still got to be some kind of a bolt that fastens that to the frame.

**GUSTIN KELVIN** [03:17]

You know what I mean?

**Derrick Dea** [03:20]

Yeah.

**GUSTIN KELVIN** [03:24]

I wish we had a book on these.

**GUSTIN KELVIN** [03:31]

Or I got a better idea. Let's not work on them no more.

**GUSTIN KELVIN** [03:38]

Well, that ain't going to happen.

**Derrick Dea** [03:39]

Yeah. Nope.

**GUSTIN KELVIN** [03:41]

I'm pretty much messed up when I fixed it the first time.

**Derrick Dea** [03:44]

He did. I'll see if there's any bolts or mounts or rubber mounts or hardware.

**GUSTIN KELVIN** [03:46]

Yeah, I fixed

**GUSTIN KELVIN** [03:52]

it. Yeah, there's got to be some, there's got to be four bolts that go through it all and tighten it down.

**Derrick Dea** [03:55]

Okay, I'll see what he says.

**GUSTIN KELVIN** [04:02]

All right. No hassle

**GUSTIN KELVIN** [04:09]

for the column.

**Derrick Dea** [04:09]

The what? Oh, yeah. Nothing now. Still waiting.

**GUSTIN KELVIN** [04:15]

The column for that Yale for

**GUSTIN KELVIN** [04:19]

airline.

**GUSTIN KELVIN** [04:25]

Okay. Oh, did you there? Remember that? I got to ask John, but that control valve one?

**GUSTIN KELVIN** [04:35]

Nebraska warehouse, I'm going to have to get that thing. It was overseas. I'll give

**Derrick Dea** [04:39]

Alright, I need to order it or return it or what?

**GUSTIN KELVIN** [04:40]

you a card number here in a little bit. No, we need to order it. It's six weeks out.

**Derrick Dea** [04:52]

Oh. Oh, okay. Yeah.

**GUSTIN KELVIN** [04:52]

I'll have to change that work order to a warranty. The package says if that's what it is, they're going to say they'll cover it under warranty. I'll change it after if that takes care of it. I'm sure it's going to take care of it. We better make sure,

**Derrick Dea** [05:07]

Okay.

**Derrick Dea** [05:13]

Yep. Alright. Bye.

**GUSTIN KELVIN** [05:15]

huh? Okay, buddy. Thank you. Bye.

### AI SUMMARY

In the conversation, Jodi Nickell checked on the status of finding a technician for the MHC Turbird, revealing confusion over the ownership and location of the truck, which complicated the service call.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Hey, Nick.

**OMAHA NE** [00:05]

Hey Jodi, just checking in to see if

**OMAHA NE** [00:09]

you guys were able to find a technician to go out to that MHC Turbird.

**Jodi Nickell** [00:15]

Not yet. I called John to see if he and Anthony could stop out there when they're done at Forest, and I was just waiting for him to call back.

**OMAHA NE** [00:27]

Okay,

**Jodi Nickell** [00:29]

So, yeah, that's my... So, it was really confusing because that...

**Jodi Nickell** [00:37]

What was the three letters of that customer? Anyway, they're not even our customer. Yeah. So I was like, who are you? But yeah, so

**OMAHA NE** [00:43]

alright. Yeah.

**OMAHA NE** [00:50]

Yeah, that must be the ownership of it or the ownership. So that must be like the ownership of MHC there?

**Jodi Nickell** [00:53]

what's that?

**Jodi Nickell** [00:59]

I don't know because Chad said that that's supposed to be at Syngenta and it's not supposed to leave.

**Jodi Nickell** [01:05]

And then it's in Council Bluffs and it's a non-DOT \*\*\*\* truck. So it took us a minute to put the pieces together.

**OMAHA NE** [01:14]

Yeah. Okay. Yeah, I would be blowing those two up then if not trying to trouble somebody else out, at least to just look at the issue and verify some stuff there.

**Jodi Nickell** [01:26]

So, okay. Yeah. I'll finish writing this service call and I'll try calling John again.

**OMAHA NE** [01:31]

Okay, thank you.

**Jodi Nickell** [01:32]

Okay. Yep. Bye.

Dan James from ADM called Adam Henderson to confirm details about an upcoming visit regarding a shuttle wagon, ensuring communication with service representative Kyle.

### FULL TRANSCRIPT

**DES MOINES IA** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Brian, equipment, Sam?

**DES MOINES IA** [00:05]

Hey, Adam, this is Dan James out of ADM.

**Adam Henderson** [00:09]

Yes, sir. Yeah, I think Kyle just left you a message about coming Wednesday.

**DES MOINES IA** [00:10]

Hey, is you calling touch base about that shuttle wagon?

**DES MOINES IA** [00:18]

Oh, we did?

**DES MOINES IA** [00:20]

Okay, I didn't see it yet then. Okay, so you're going to be here this Wednesday?

**Adam Henderson** [00:24]

Yep, he should be there at 8.30 or so. Yes.

**DES MOINES IA** [00:27]

Is Kyle the service guy then?

**DES MOINES IA** [00:31]

Okay, I want to make sure I swing by and actually talk to him then.

**Adam Henderson** [00:35]

Yeah, he's one of my shuttle wagon guys.

**DES MOINES IA** [00:36]

All right.

**DES MOINES IA** [00:39]

Okay, that sounds great. I appreciate it. Thank you.

**Adam Henderson** [00:41]

Yeah, not a problem at all.

**DES MOINES IA** [00:45]

But.

AI SUMMARY

During the call, Jacob (Maintenance Guy, Grable) informed Jodi Nickell (Ryan Equipment) about a forklift accident and described the damages needing attention.

FULL TRANSCRIPT

COLUMBUS NE [00:00]

This call is being recorded.

Jodi Nickell [00:03]

Ryan Equipment, Omaha, this is Jodi, how may I help you?

COLUMBUS NE [00:06]

Hey Jodi, this is Jacob at Grable.

Jodi Nickell [00:08]

Hey, what's going on?

COLUMBUS NE [00:10]

Well, we had a little accident with a forklift.

Jodi Nickell [00:13]

Uh-oh.

COLUMBUS NE [00:15]

So I need to see if I can have one of your guys come out and take a look at what all is damaged. I have a pretty good idea of what all is damaged, but I need it in writing.

Jodi Nickell [00:29]

Do you have the serial number to the unit?

COLUMBUS NE [00:31]

Yes, I do.

Jodi Nickell [00:32]

Perfect.

COLUMBUS NE [00:34]

All right, it's Alpha Frank 81 Frank 30606.

Jodi Nickell [00:35]

Ready.

Jodi Nickell [00:44]

What happened?

COLUMBUS NE [00:47]

Well, they had a load on the forks that went above the mast, and

**COLUMBUS NE** [00:55]

one of the racks that we used popped off and unlocked from the others when they hit a bump, and it came over the top of the mast, and

**COLUMBUS NE** [01:06]

I definitely

**COLUMBUS NE** [01:17]

have two hydraulic lines that need to be replaced for

**COLUMBUS NE** [01:30]

For the side shift, I'm not too sure about the primary and secondary hydraulics. Or I guess that's, yeah, primary, secondary, I don't know what the \*\*\*\* that's for, I don't know.

**COLUMBUS NE** [01:41]

The sheaves, I got too much \*\*\*\* going on and I'm, I don't know, I might be looking for another \*\*\*\*\* job at this point. I'm tired and exhausted of not being \*\*\*\*\* listened to.

**Jodi Nickell** [01:44]

I hear you. Uh-oh.

**COLUMBUS NE** [01:52]

So, I'm the only \*\*\*\*\* maintenance guy for this giant-ass building and all this industrial equipment. So, the hydraulic scheeve, the pulley, the wheel, whatever you want to call it, the sheave, that the hydraulic lines go up and over. I know for a fact one of them is...

**Jodi Nickell** [01:59]

Yeah. Okay.

**Jodi Nickell** [02:08]

Mm-hmm.

**COLUMBUS NE** [02:13]

SEVERELY DAMAGED. I'M LOOKING RIGHT AT IT. I'M NOT TOO SURE ABOUT THE OTHER ONE, BUT I KNOW THE KEEPER ROLLER FOR THE ONE ABOVE IT IS ALSO JACKED UP. SO I JUST NEED SOMEBODY TO COME OUT HERE AND GET IT ALL ADDED UP.

**Jodi Nickell** [02:25]

Okay. With a load in the air. Um...

**Jodi Nickell** [02:35]

I, Jacob, I'll try to get someone out to you today.

**COLUMBUS NE** [02:40]

IF NOT TODAY, IT DOESN'T MATTER BECAUSE I GOT IT LOCKED OUT AND NOBODY'S GOING TO BE USING IT.

**Jodi Nickell** [02:44]

Okay. Okay. Okay. Perfect. That's what I needed. All right. I will get this on the board as a priority.

**COLUMBUS NE** [02:53]

ALL RIGHT. I APPRECIATE YOU.

**Jodi Nickell** [02:54]

Yeah. Hey, have a better Monday.

**COLUMBUS NE** [02:58]

I'M GOING TO TRY TO. THANK YOU. HOPE YOU HAVE A GOOD MONDAY TOO.

**Jodi Nickell** [02:59]

All right. Thanks. Bye.

CALL 372 OF 611

## Inbound call from VALENTINE NE

April 27, 2026 | 02:41 PM | Duration: 1m 17s | From: VALENTINE NE | To: +14025942048

Inbound

Negative

### AI SUMMARY

Chad Metzger (Company Representative) discussed the logistics of product replacement and repair, indicating a delay until at least Wednesday while expressing dissatisfaction with the situation.

### FULL TRANSCRIPT

**VALENTINE NE** [00:00]

This call is being recorded.

**VALENTINE NE** [00:05]

Okay. Nailed it,

**VALENTINE NE** [00:10]

huh? Yeah. They can't do that?

**VALENTINE NE** [00:16]

Hmm. All right. Well, I'm glad I tagged you in it.

**Chad Metzger** [00:17]

Thank you.

**Chad Metzger** [00:20]

That is, then how do we know where it's at?

**VALENTINE NE** [00:27]

Hmm. All right. Well, I'll get with John and see with him and Anthony if they're done, if they can go look at it, or you let me know what you're doing, or if you're calling it off and bringing it back. Okay.

**Chad Metzger** [00:29]

Ridiculous.

**Chad Metzger** [00:42]

I don't have anything to swap it out with. The best thing is just to have someone go out there and try to fix it.

**Chad Metzger** [00:49]

I won't have anything here until probably at least Wednesday.

**VALENTINE NE** [00:55]

Amazing. Yeah. Okay.

**Chad Metzger** [00:56]

I'll have to bring one in from either Fargo or Chicago.

**VALENTINE NE** [00:59]

Ew. Okay. All right. Well, happy Monday.

**Chad Metzger** [01:07]

Yep.

**VALENTINE NE** [01:08]

Bye.

Inbound call from WIRELESS CALLER

April 27, 2026 | 02:37 PM | Duration: 3m 27s | From: WIRELESS CALLER | To: +14025942051

Inbound Neutral

AI SUMMARY

During the call, Derrick Dea (Representative) assisted with requests for body panels and rubber parts across two service calls, but mentioned the unavailability of enough quantities to meet the needs.

FULL TRANSCRIPT

WIRELESS CALLER [00:00]

This call is being recorded.

Derrick Dea [00:14]

This is Derrick. Morning. Morning.

WIRELESS CALLER [00:17]

Good morning.

WIRELESS CALLER [00:20]

So on, let's see,

WIRELESS CALLER [00:25]

on service call 801-666, segment three,

WIRELESS CALLER [00:33]

I need

WIRELESS CALLER [00:35]

two body panels.

WIRELESS CALLER [00:39]

One of them is a part number 91A-120-3100.

WIRELESS CALLER [00:52]

And you need the rubber that goes over the top, which is a 91A-120-4700.

WIRELESS CALLER [01:06]

And then the second number is a 91A-120-7520.

WIRELESS CALLER [01:18]

And then a 91A-120-4800.

WIRELESS CALLER [01:26]

Hold on a second. I got one more number here.

Derrick Dea [01:27]

Thank

WIRELESS CALLER [01:38]

I need number five

WIRELESS CALLER [01:41]

for a... It's a 91... Sorry, 91A, 120, 1800 for

**Derrick Dea** [01:45]

you.

**WIRELESS CALLER** [01:52]

four.

**WIRELESS CALLER** [01:56]

And then on...

**Derrick Dea** [02:00]

Okay.

**WIRELESS CALLER** [02:08]

On 803-433, segment one,

**WIRELESS CALLER** [02:16]

I need the

**WIRELESS CALLER** [02:21]

91A-120-3100,

**WIRELESS CALLER** [02:29]

the 91A-120-4700,

**WIRELESS CALLER** [02:36]

and the 91A-120-8400,

**WIRELESS CALLER** [02:49]

two

**WIRELESS CALLER** [02:51]

OF THE GROMMETS THAT ARE IN 91A-120-1800.

**WIRELESS CALLER** [03:01]

REGULAR FREAK IS FINE IF WE DON'T HAVE THEM. THANK

**Derrick Dea** [03:03]

Okay. I don't have enough to cover these quantities, but okay.

**WIRELESS CALLER** [03:09]

YOU, SIR.

**Derrick Dea** [03:10]

Yep. Bye.

### AI SUMMARY

Gustin Kelvin initiated the conversation with Derrick Dea (Parts, Derrick) regarding the availability of a seal for a work order, confirming its availability and inquiring about additional parts needed from State Steel Hub Tech.

FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Busy man.

**Derrick Dea** [00:03]

Parts, Derrick. Alright. Okay.

**GUSTIN KELVIN** [00:05]

Hi, Derrick, how's it going? Hey, I sent you a couple emails. I was looking for that seal, 91-Edward-330-1800.

**GUSTIN KELVIN** [00:23]

For work order 803-240, segment two. You got one, don't you?

**Derrick Dea** [00:25]

Okay.

**Derrick Dea** [00:50]

Just one.

**GUSTIN KELVIN** [00:52]

Uno.

**GUSTIN KELVIN** [00:57]

Uno. Uno. Uno.

**Derrick Dea** [01:02]

I got one. Yep.

**GUSTIN KELVIN** [01:03]

How's it going today? Everything going great?

**GUSTIN KELVIN** [01:10]

We'll be back and pick it up, sir. I appreciate it.

**GUSTIN KELVIN** [01:14]

There's another email I sent, too, from Dave over at State Steel Hub Tech. The cab mounts, the rubber mounts and the bolts that fasten, I think we need a...

**Derrick Dea** [01:17]

Okay. All right. Yep.

**GUSTIN KELVIN** [01:29]

But I need some pics so I can see what the \*\*\*\* is going on with the \*\*\*\* things. I don't know what the order is.

**GUSTIN KELVIN** [01:36]

Okay?

**Derrick Dea** [01:38]

Yeah, Mike.

**GUSTIN KELVIN** [01:38]

Thank you very much, sir.

**GUSTIN KELVIN** [01:41]

See you later.

### AI SUMMARY

The conversation revolved around a confusion regarding the location and status of a unit meant for Syngenta, with Chad Metzger (Sales rep) clarifying that it had been sold to Marmon Energy.

### FULL TRANSCRIPT

**VALENTINE NE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

All right, Quimins,

**VALENTINE NE** [00:05]

Did you say MHC?

**VALENTINE NE** [00:09]

Uh-huh. Because there's people tagged on here from MHC.

**Chad Metzger** [00:17]

Chad. So they moved our unit that was supposed to be at Syngenta

**VALENTINE NE** [00:17]

So

**Chad Metzger** [00:22]

down to this other place?

**VALENTINE NE** [00:24]

I'm guessing because I got another email that said we have an issue regarding the fifth wheel operation on unit 1903.

**Chad Metzger** [00:27]

That's a huge no-no.

**VALENTINE NE** [00:37]

It's dropped two trailers in the last seven days. And he is from MHC Truck Leasing. And then the email I saw from Donald Burnett is WSI

**VALENTINE NE** [00:49]

in Council Bluffs.

**Chad Metzger** [00:52]

19063, that's not even a serial number we have.

**VALENTINE NE** [00:55]

190363. Yeah, I don't know. Is that the equipment number? Yeah.

**Chad Metzger** [00:58]

Oh, 190363?

**Chad Metzger** [01:03]

No,

**Chad Metzger** [01:07]

that's not even a serial number or...

**Chad Metzger** [01:13]

Or an EQN.

**Chad Metzger** [01:23]

Let me look one other place. I wonder if it's a sold unit.

**Chad Metzger** [01:35]

Yeah, that was a sold unit.

**VALENTINE NE** [01:38]

To MHC?

**Chad Metzger** [01:38]

Let me see if I can find one that's sold to.

**Chad Metzger** [02:07]

190363 got sold to Marmon Energy. That's up in, like, Sioux Falls area.

**Chad Metzger** [02:16]

So they are confused.

**Chad Metzger** [02:22]

I

**Chad Metzger** [02:28]

think that used to be on-site there,

**Chad Metzger** [02:33]

but that's not the current unit that's on-site.

**Chad Metzger** [02:38]

And it's not even at WSI.

**VALENTINE NE** [02:45]

I'm going to tag you on this email.

**Chad Metzger** [02:48]

That's not it.

**VALENTINE NE** [02:50]

This one has all the information on it. And then it's going to say,

**VALENTINE NE** [02:55]

could you by chance verify the serial number?

**VALENTINE NE** [03:08]

I'll just say send over the last six of the VIN number.

**Chad Metzger** [03:11]

Yeah, that's fine. That's not going to work.

**VALENTINE NE** [03:13]

Because then I can--

**VALENTINE NE** [03:17]

OK. We'll get to the bottom of it eventually, I guess.

**Chad Metzger** [03:20]

Yep.

**VALENTINE NE** [03:22]

All right. Thank you. Bye.

**Chad Metzger** [03:25]  
You bad, mate.

CALL 376 OF 611

**Inbound call from VALENTINE NE**

April 27, 2026 | 02:14 PM | Duration: 3m 48s | From: VALENTINE NE | To: +14025942048

**Inbound**      **Neutral**

**AI SUMMARY**

The call revolved around a rental truck situation for WSI in Council Bluffs, where the urgency was emphasized due to a safety concern regarding a malfunctioning fifth wheel.

**FULL TRANSCRIPT**

**VALENTINE NE** [00:00]

This call is being recorded.

**VALENTINE NE** [00:05]

Hey, it's me. Hey, apparently we must be renting a \*\*\*\* truck to WSI in Council Bluffs.

**Chad Metzger** [00:18]

All right,

**VALENTINE NE** [00:19]

It says WSI.

**VALENTINE NE** [00:31]

Because he's like,

**VALENTINE NE** [00:35]

Apparently the fifth wheel is not working and he's like, "I want to stress the urgency of getting a replacement truck on site as soon as possible. The safety risk here is significant."

**Chad Metzger** [00:56]

so Omaha, we have Omaha Steaks, MHC Kenworth,

**Chad Metzger** [01:03]

Royal Modal, Oxbow, Oxbow. I wonder if that's MHC Kenworth.

**VALENTINE NE** [01:12]

MHC Kenworth, is that the same as Syngenta? Weren't they like renting to re-rent? Okay.

**Chad Metzger** [01:20]

Yes, yes.

**Chad Metzger** [01:22]

Yeah.

**VALENTINE NE** [01:23]

So I don't know who WSI is then, I guess, but I'll try to get a little more information.

**Chad Metzger** [01:29]

No idea.

**VALENTINE NE** [01:34]

But he makes it sound like it was a rental. That's why I wanted to check with you.

**Chad Metzger** [01:39]

Yeah, the only rental I have that would be that's that one for MHC and that's down at Syngenta.

**VALENTINE NE** [01:47]

Yeah.

**Chad Metzger** [01:48]

What's WSI?

**VALENTINE NE** [01:49]

Okay. To what it says, Donald Burnett at WSI,

**VALENTINE NE** [01:59]

Council Bluffs.

**VALENTINE NE** [02:03]

It says, regarding 190363. I don't know what that is either.

**Chad Metzger** [02:14]

I don't know anything else down there.

**Chad Metzger** [02:18]

Just have one at Omaha Stakes, MHC Kenworth, which is at Syngenta. The two at Royal Modal Group in Fremont, one at Oxbow,

**Chad Metzger** [02:28]

another one at Oxbow.

**VALENTINE NE** [02:28]

Okay.

**Chad Metzger** [02:30]

And that's it for Omaha.

**VALENTINE NE** [02:32]

Do we have any to rent?

**Chad Metzger** [02:36]

Let's see.

**Chad Metzger** [02:52]

Not in Omaha.

**VALENTINE NE** [02:55]

Okay.

**VALENTINE NE** [02:58]

I'll have to see if I can try to get someone down there because I was... I've got John out in the field today trying to clear the call board. It's crazy.

**Chad Metzger** [03:09]

Yeah, I don't have anything close.

**VALENTINE NE** [03:13]

Okay.

**Chad Metzger** [03:15]

I guess the only one I'm going to have is going to be close to the Clear Lake.

**VALENTINE NE** [03:15]

All right.

**VALENTINE NE** [03:19]

Okay. Well...

**VALENTINE NE** [03:23]

I got good calling me, so, but thank you for your help. All right. Bye.

**Chad Metzger** [03:25]

Okay. No problem. All right. Bye.

CALL 377 OF 611

## Inbound call from OMAHA NE

April 27, 2026 | 01:40 PM | Duration: 0m 52s | From: OMAHA NE | To: +14025942044

Inbound

Neutral

### AI SUMMARY

During the conversation, OMAHA NE confirmed the preparation of a work order for a throttle pedal position sensor, expressing urgency for delivery by tomorrow or overnight if needed, and Charles Huffman acknowledged the request.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**OMAHA NE** [00:05]

Hey, Charlie.

**OMAHA NE** [00:08]

Jody is making up a work order for one over here at ABC. Serial number is Adam Thomas, 13 Frank, 31256.

**OMAHA NE** [00:19]

I need one of part number 91 Adam, 510-8400.

**OMAHA NE** [00:27]

That's the throttle pedal position sensor.

**OMAHA NE** [00:32]

If we can have it tomorrow, great. If not, I don't know. I mean, I suppose we can overnight it. That shouldn't cost much to overnight that thing. All right. Thanks, bud.

**Charles Huffman** [00:44]

All right. Thank you. Bye.

**OMAHA NE** [00:45]

Bye. Yep. Bye-bye.

## Inbound call from GETZSCHMAN

### AI SUMMARY

In the conversation, Mike (Customer) reached out to Jake Paustian (Company Representative) regarding a pending service call for a lift in Columbus, Nebraska.

### FULL TRANSCRIPT

**GETZSCHMAN** [00:00]

This call is being recorded.

**Jake Paustian** [00:04]

Ryan Equipment, this is Jake.

**GETZSCHMAN** [00:06]

Jake, Mike with the Getzschmans in Fremont, how are you? Good. Hey, I called last week and left a voicemail that we needed a service call to one of our lifts in Columbus, Nebraska. Yep,

**Jake Paustian** [00:09]

Good, how are you Mike?

**Jake Paustian** [00:18]

Sure. Is that one on site there at BD then?

**GETZSCHMAN** [00:22]

yep.

**Jake Paustian** [00:24]

Okay.

**GETZSCHMAN** [00:25]

And the guy that's on the job there, he just sent me a text that nobody has reached out to him yet. Can you maybe push this along or not?

**Jake Paustian** [00:33]

Yeah, yeah, absolutely I can. I'm actually texting my technician that's on site there at BD every day right now. It's what part of the building is that in?

**GETZSCHMAN** [00:43]

PERFECT. WELL, NOW YOU GOT ME STUMPED THERE. I HAVE NO IDEA. I HAVE -- IT'S SO DOGGONE BIG DOWN THERE. I GET TWISTED EVERY TIME I'M THERE.

**Jake Paustian** [00:50]

Oh,

**Jake Paustian** [00:52]

yeah. Yep, yep. I know that feeling all too well.

**GETZSCHMAN** [00:55]

OKAY. AND I GIVE YOU HIS NUMBER, RIGHT? YOU GOT GREG'S NUMBER?

**Jake Paustian** [00:59]

Yeah, shoot it to me one more time just so I know I got it.

**GETZSCHMAN** [01:02]

SURE. YEP, THAT WOULD BE GREAT. OKAY. 402-720-8155.

**Jake Paustian** [01:12]

And that's Greg,

**GETZSCHMAN** [01:14]

Yep, Greg Teneper is his name.

**Jake Paustian** [01:21]

right? Perfect. I'll get this forwarded over to Luke and have him touch base with him. I know he's scheduled to be on site there this morning. They had a forklift

**GETZSCHMAN** [01:22]

Yep. Oh,

**Jake Paustian** [01:32]

GO DOWN OVER THE WEEKEND. SO I'LL HAVE HIM TOUCH BASE WITH GREG WHEN HE'S DONE WITH THAT.

**GETZSCHMAN** [01:36]

perfect.

**GETZSCHMAN** [01:38]

Okay. All right, that sounds great. I'll shoot him a text back and calm him down a little bit. Thank you so much.

**Jake Paustian** [01:42]

PERFECT. I APPRECIATE IT. THANKS, MIKE.

**GETZSCHMAN** [01:44]

Yep, you bet. Bye-bye.

Inbound

Positive

### AI SUMMARY

In this conversation, BASCH STEVEN and John Howard coordinated the management of equipment and supplies, discussing what to keep and remove from inventory.

### FULL TRANSCRIPT

#### BASCH STEVEN [00:00]

This call is being recorded.

#### BASCH STEVEN [00:05]

Okay, jack stands, wheel chalk. I got the kit, but then there's also like filters and oil and stuff. Do you want to leave that stuff in here?

#### John Howard [00:17]

How much is there?

#### BASCH STEVEN [00:20]

I mean, I could show you a picture.

#### BASCH STEVEN [00:25]

Looks like one case of hydraulic oil, two cases of oil, case transmission fluid,

#### BASCH STEVEN [00:36]

And then a couple, I mean maybe like 10 different sized air filters.

#### BASCH STEVEN [00:44]

And then I got some stuff on the bottom,

**BASCH STEVEN** [00:48]

some other containers.

**John Howard** [00:54]

Yeah, go ahead and take them out.

**John Howard** [00:59]

I would just throw them in Anthony's.

**BASCH STEVEN** [01:02]

I don't have any more room in Anthony's \*\*\*\*.

**John Howard** [01:06]

Oh, I was just going to say pile it on top so it's overflowing out of there.

**BASCH STEVEN** [01:10]

It's already overflowing out of all three boxes.

**BASCH STEVEN** [01:15]

You want to keep the toolbox in here.

**BASCH STEVEN** [01:19]

What about this blue box?

**John Howard** [01:20]

Yeah, toolbox stays with it. Blue boxes stay with it.

**BASCH STEVEN** [01:22]

Okay, what about the blue box?

**BASCH STEVEN** [01:25]

Okay.

**John Howard** [01:26]

You know what? \*\*\*\* it. Leave all the oil and filters and \*\*\*\* in there. I'll tell Adam he's got free inventory now.

**BASCH STEVEN** [01:32]

Okay, so like take wheel chocks and cribbing out and then leave like stuff that can go and be like used for machines.

Okay, I got a...

**BASCH STEVEN** [01:47]

A 20 ton jack, you wanna, yeah, I'll take that out.

**BASCH STEVEN** [01:53]

Okay, jack, all the jacks, do you want the cones? We got plenty of cones.

**John Howard** [02:00]

Yeah, leave the cones.

**BASCH STEVEN** [02:01]

And then chain, couple chains on the floor.

**John Howard** [02:05]

Uh, keep the chains.

**BASCH STEVEN** [02:08]

Okay, I'll just drive this in here and put like a little bit of stuff on a pallet.

**John Howard** [02:18]

That'll work. Thanks, Courtney.

**BASCH STEVEN** [02:21]

Uh-huh, bye.

### AI SUMMARY

John (Company Representative) and Basch (Company Representative) discussed the logistics of picking up a black van and the tools it contained, deciding on which items to keep and how to handle the keys.

### FULL TRANSCRIPT

**BASCH STEVEN** [00:00]

This call is being recorded.

**BASCH STEVEN** [00:09]

Did you need me?

**John Howard** [00:12]

Hello? Yeah, I was calm because I forgot that the black van

**BASCH STEVEN** [00:20]

Uh-huh.

**John Howard** [00:21]

is going to be going to Des Moines.

**John Howard** [00:25]

I want to say

**John Howard** [00:29]

Adam was planning on coming this weekend to pick it up.

**John Howard** [00:33]

Are there any shop tools in it?

**BASCH STEVEN** [00:36]

I'll take a

**John Howard** [00:37]

I think like our wheel chocks and things like that.

**BASCH STEVEN** [00:45]

peek. You want to keep those?

**John Howard** [00:47]

Yeah, wheel chocks, cribbing.

**John Howard** [00:52]

I don't know. Maybe not all the kits of like O-rings and \*\*\*\*. Those probably aren't worth the hassle of pulling them out and storing them with all the other stuff we still

**BASCH STEVEN** [00:59]

Yeah. Okay, I'll take a

**John Howard** [01:05]

got.

**John Howard** [01:07]

Okay, yeah, and then just either throw the keys on your desk and I'll grab them or

**John Howard** [01:15]

something.

**BASCH STEVEN** [01:17]

peek. Okie dokie.

**John Howard** [01:17]

Thanks, Courtney.

**BASCH STEVEN** [01:20]

Uh-huh. Bye.

Inbound

Positive

### AI SUMMARY

During the conversation, Derrick Dea (Sales rep) confirmed the availability and pricing of a left side tilt cylinder for Derrick (Customer).

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Ryan Equipment, Omaha. This is Derrick. Yeah. Tilt, yeah. Yeah, they finally gave me a number. Let me see here.

**WIRELESS CALLER** [00:05]

Hey, Derrick, it's Derrick from Lyles again. I just want to make sure, did I, I told you tilt cylinder, not left,

**WIRELESS CALLER** [00:13]

right? Tilt, yes. I'm like, I thought about that. I'm like, I better call him back. I don't want you to go through all that work and not be the right one. Yep, left side tilt. Yep. Okay. Oh, okay. Well, that's quick.

**Derrick Dea** [00:31]

Good thing I called them. That is available.

**Derrick Dea** [00:42]

Let's see if we get a price on it.

**Derrick Dea** [00:59]

Thank

**Derrick Dea** [01:17]

you.

**Derrick Dea** [01:47]

Thank you.

**Derrick Dea** [01:52]

So 9300501021 is the cylinder number.

**Derrick Dea** [02:04]

9300501021.

**WIRELESS CALLER** [02:04]

What was that again? Nine. Nine.

**WIRELESS CALLER** [02:13]

930050, okay.

**Derrick Dea** [02:14]

And...

**Derrick Dea** [02:20]

Be coming out of Indianapolis and it has the eyelet and everything on it.

**WIRELESS CALLER** [02:26]

Oh, it's got the yoke and everything on it, or the,

**Derrick Dea** [02:27]

Yep, one of the bushings are in there, looks like. 669.56.

**WIRELESS CALLER** [02:30]

okay. Okay.

**Derrick Dea** [02:35]

Now the seal kit.

**WIRELESS CALLER** [02:38]

Do you know what a kit, like a rebuild kit would be, or is that just a pain in the \*\*\* to do, or do

**WIRELESS CALLER** [02:45]

you, I mean, obviously you're going to have to have the whole, the rod.

**Derrick Dea** [02:47]

The seal kit would be

**Derrick Dea** [03:00]

201.47 for the seal kit and then the rod.

**WIRELESS CALLER** [03:01]

It's going to be a whole new solid seal kit and a rod anyway.

**Derrick Dea** [03:20]

Just the rod and the seal kit is going to be more than the

**WIRELESS CALLER** [03:32]

Just

**Derrick Dea** [03:32]

cylinder. The rod's 485, 19 and the seal kit's 201, 47.

**WIRELESS CALLER** [03:38]

keep it by the whole thing all set and ready to go. Just slapped in then.

**WIRELESS CALLER** [03:44]

Okay. Go ahead and order one, would you? I better get you a PO and all that stuff.

**Derrick Dea** [03:47]

Yep. Okay, I'll watch for it.

**WIRELESS CALLER** [03:53]

Yeah, I will. It'll probably come from Melissa, so I'll take this info up to her.

**Derrick Dea** [03:58]

Okay, I'll watch for it.

**Derrick Dea** [04:01]

Yeah, did you know Eric retired? So tell Melissa that Eric retired because sometimes she would send them to him, then he'd forward them to me. So she'd have to send it to me.

**WIRELESS CALLER** [04:04]

No.

**WIRELESS CALLER** [04:09]

Okay.

**Derrick Dea** [04:15]

Instead of Eric. Yep. Usually lately she's been sending them to Eric and he's been forwarding them to me.

**WIRELESS CALLER** [04:15]

Okay, you're Derrick though, right? Yeah. Yep. So she didn't ever send them to you.

**WIRELESS CALLER** [04:25]

Okay. Okay. All right. Well, good for him for retiring then. Okay. I'll get a PO and everything. So 9300501021 is the whole cylinder.

**Derrick Dea** [04:29]

Yep.

**Derrick Dea** [04:40]

Yeah.

**WIRELESS CALLER** [04:41]

Okay. I will give that number to her and she'll probably be getting with you.

**Derrick Dea** [04:45]

Alrighty. Bye.

**WIRELESS CALLER** [04:46]

All right. Thanks, man. Bye-bye.

CALL 384 OF 611

## Inbound call from LIFT PRO EQUIP

April 24, 2026 | 06:03 PM | Duration: 5m 54s | From: LIFT PRO EQUIP | To: +13072280501

Inbound

Neutral

### AI SUMMARY

In the conversation, Lisa Kleeman (Sales rep) initiated the call by addressing LIFT PRO EQUIP and explaining the call recording policy.

### FULL TRANSCRIPT

**LIFT PRO EQUIP** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:03]

Good morning, Ryan Equipment. This is Lisa. How can I help you?

**LIFT PRO EQUIP** [00:08]

Why are they recording our phone calls? Is somebody jealous?

**Lisa Kleeman** [00:11]

Oh, they do tell you that they are. We were wondering about that. Hello, recording. Oh, yeah, no, it's just started yesterday, and it's for the next two weeks.

**LIFT PRO EQUIP** [00:14]

Yeah.

**LIFT PRO EQUIP** [00:16]

I've never heard it before. Really?

**LIFT PRO EQUIP** [00:23]

Okay.

**LIFT PRO EQUIP** [00:26]

Okay. So that little buzzer, buzzer beater, we've got a tech that absolutely hates

**Lisa Kleeman** [00:27]

Yeah.

**LIFT PRO EQUIP** [00:36]

TBH. So he told her that we would get OEM.

**Lisa Kleeman** [00:37]

OK. Yeah, I have one of those too.

**LIFT PRO EQUIP** [00:45]

And even if I put it in a young Heinrich box, he would \*\*\*\* talk it if he found out. So it's just better off not to fight with him. I just need a price. And which part number was it? Was it the...

**Lisa Kleeman** [01:01]

The 29815.

**LIFT PRO EQUIP** [01:03]

Where was I at?

**LIFT PRO EQUIP** [01:05]

It is the 29815. Okay. All right.

**Lisa Kleeman** [01:07]

Yes.

**LIFT PRO EQUIP** [01:12]

So my page here.

**LIFT PRO EQUIP** [01:18]

29815.

**Lisa Kleeman** [01:18]

Yes. To order this.

**LIFT PRO EQUIP** [01:25]

And if I remember right, Young Heinrich's got a minimum order charge and all that \*\*\*\*, doesn't it?

**Lisa Kleeman** [01:30]

I don't know. I will find out from my guy because he has all the login stuff for that.

**Lisa Kleeman** [01:39]

I'm going to find out pricing and all of that. I don't think so. But they order enough of that stuff anyways. So, yeah.

**LIFT PRO EQUIP** [01:40]

Okay.

**LIFT PRO EQUIP** [01:45]

Well, if not...

**LIFT PRO EQUIP** [01:48]

Okay. Yeah, just give me a price so I can get an order and build a PO.

**Lisa Kleeman** [01:52]

Absolutely. I can do that.

**LIFT PRO EQUIP** [01:54]

Because I've got – and they call that a traveling alarm or just a buzzer?

**Lisa Kleeman** [01:59]

They call it a buzzer. Yeah.

**LIFT PRO EQUIP** [02:01]

Buzzer. Because I sent him over with a backup alarm because he \*\*\*\*\* up on a job. Darren did.

**Lisa Kleeman** [02:03]

Buzzer.

**LIFT PRO EQUIP** [02:12]

And put in three backup alarms on Clark's. And they weren't the – they were just generic ones. So rather than

**Lisa Kleeman** [02:19]

Oh, I remember that.

**LIFT PRO EQUIP** [02:21]

– yeah, so I'm still trying to get him to use them up. And he's like, well, what do I have to do?

**Lisa Kleeman** [02:23]

Yeah, because I actually bought one from you.

**LIFT PRO EQUIP** [02:27]

Did it work? It worked fine, I hope? Okay.

**Lisa Kleeman** [02:29]

I think so. It didn't come off of anything. As far as I know, it did. That was a long time ago,

**LIFT PRO EQUIP** [02:33]

Well, yeah, so –

**LIFT PRO EQUIP** [02:37]

Yep, so, oh, I still got two of them left that I'm trying to get rid of.

**Lisa Kleeman** [02:41]

though. Oh.

**LIFT PRO EQUIP** [02:42]

Yeah.

**Lisa Kleeman** [02:43]

Okay. Derek just read this, so

**Lisa Kleeman** [02:47]

hopefully he'll be getting me a prize here.

**LIFT PRO EQUIP** [02:47]

Okay.

**LIFT PRO EQUIP** [02:52]

I see. And I want you to know that hydrocodone is wonderful.

**Lisa Kleeman** [02:53]

And they show they have 10 of them. Oh, I bet you it is.

**LIFT PRO EQUIP** [03:00]

Yeah, I had surgery yesterday.

**Lisa Kleeman** [03:02]

Yeah. Did they take the whole thing?

**LIFT PRO EQUIP** [03:04]

They did.

**LIFT PRO EQUIP** [03:06]

Yeah, they took the... well, I had part of it removed, the tip of it removed a few years ago, and they took the rest of it yesterday. The second bone got infected.

**Lisa Kleeman** [03:16]

Yep. Well,

**LIFT PRO EQUIP** [03:20]

I don't have no big toe on my right foot, or left foot. That's my shifting foot, so hopefully it doesn't affect my shifting.

**Lisa Kleeman** [03:31]

it shouldn't. I mean, as long as you have one, because that's a balance thing, but...

**LIFT PRO EQUIP** [03:34]

I wouldn't think so.

**LIFT PRO EQUIP** [03:37]

Yeah, yeah, absolutely.

**Lisa Kleeman** [03:38]

As long as you have one. And I'm not hearing back from him right away. I bet you anything he's pulling it back up for me. I'll email you because I'll have to order it through him anyways.

**LIFT PRO EQUIP** [03:41]

Yep, Purdue.

**LIFT PRO EQUIP** [03:46]

Not a big deal. Yeah, just shoot me an email.

**LIFT PRO EQUIP** [03:52]

Okay, okay. All right.

**Lisa Kleeman** [03:53]

So I'll just shoot you with an email for it.

**LIFT PRO EQUIP** [03:58]

Yep, price, and if they've got like a minimal order charge or anything like that.

**LIFT PRO EQUIP** [04:03]

I got some parts yesterday from Industrial Scientific and they started putting line items for tariffs.

**Lisa Kleeman** [04:11]

Oh.

**LIFT PRO EQUIP** [04:13]

Yeah, 10 cents on a \$200 watering kit. 10 cents. Really, you can't just absorb that cost, really.

**Lisa Kleeman** [04:24]

Yeah, most of them not so much.

**LIFT PRO EQUIP** [04:28]

Well, I'm thinking it's just probably liberal ideology running rampant over there, so...

**LIFT PRO EQUIP** [04:37]

You know, Trump bad. Trump bad.

**Lisa Kleeman** [04:39]

Yeah. That's what everybody says, but I don't know. I haven't had any issues, but you know.

**LIFT PRO EQUIP** [04:41]

Whatever.

**LIFT PRO EQUIP** [04:47]

No, I personally, and this is just me, he promised that he would get rid of the swamp, drain the swamp, and nothing's happening. They're still doing the same dumb \*\*\*\*. Nancy Pelosi's still in there. John Thune, our guy is such a \*\*\*\*\* piece of \*\*\*\*. He's still in there. I mean, all these guys...

**LIFT PRO EQUIP** [05:07]

You know, it's like, dude, you said you'd take care of this and you promised the first time around. Now you went the second time around. You still got them running around there. What's going on? And I just want the killing to stop. I want the wars to stop. Ukraine's still kicking \*\*\* on Russia and \*\*\*\*. Oh, wait, we're in \*\*\*\*\* Iran. \*\*\*\*.

**Lisa Kleeman** [05:17]

Oh, yeah.

**LIFT PRO EQUIP** [05:30]

Getting sick of it, you know? Sick of it. Sick of it. Anyhoo, yeah, shoot me that price and I'll get a deal built and ordered.

**Lisa Kleeman** [05:31]

Absolutely.

**Lisa Kleeman** [05:42]

Okay, sounds good.

**LIFT PRO EQUIP** [05:43]

All right. Awesome. Thanks, Lisa.

**Lisa Kleeman** [05:44]

All right. Thanks. Bye.

CALL 385 OF 611

## Inbound call from WIRELESS CALLER

April 24, 2026 | 05:56 PM | Duration: 6m 18s | From: WIRELESS CALLER | To: +14025942051

**Inbound**

**Neutral**

### AI SUMMARY

In a recorded call, Eric Larson from LAW Corporation requested pricing information for a tilt cylinder for a Mitsubishi FGC 15N model.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:05]

Rion Equipment Omaha, this is Derrick.

**WIRELESS CALLER** [00:07]

Hey Derrick, it's Eric Larson at LAW Corporation. How you doing?

**Derrick Dea** [00:10]

Yeah. Good.

**WIRELESS CALLER** [00:12]

Good. Can you give me a price on a tilt cylinder for a Mitsubishi?

**Derrick Dea** [00:19]

Yep.

**WIRELESS CALLER** [00:20]

It's the FGC 15N model.

**Derrick Dea** [00:25]

Serial number?

**WIRELESS CALLER** [00:27]

AF81,

**WIRELESS CALLER** [00:31]

F42639.

**Derrick Dea** [00:36]

Okay, see if I can find it quick.

**WIRELESS CALLER** [00:40]

And it would be the left side if that's got to do any as you're sitting on the unit.

**Derrick Dea** [00:43]

Okay. Oh,

**WIRELESS CALLER** [00:48]

Ever had those shafts just snapping too?

**Derrick Dea** [00:50]

yeah. I've heard that happen,

**WIRELESS CALLER** [00:53]

Really? Yep, it snapped right at the yoke.

**Derrick Dea** [00:58]

yeah. Been flexing or something.

**WIRELESS CALLER** [01:01]

Yeah.

**Derrick Dea** [01:12]

AF81F.

**WIRELESS CALLER** [01:26]

Yep, AF81F42639.

**Derrick Dea** [01:40]

Thank you.

**Derrick Dea** [02:04]

Did you recently replace it?

**WIRELESS CALLER** [02:08]

I don't know, I'm aware of, this is probably one of our newer machines.

**Derrick Dea** [02:14]

Okay.

**WIRELESS CALLER** [02:21]

Is it cheaper to replace the whole thing or do a kit?

**Derrick Dea** [02:24]

Uh, well, the rods broke, so...

**WIRELESS CALLER** [02:28]

Yeah, the rod is broken. I

**Derrick Dea** [02:32]

So let's see if it's what year.

**WIRELESS CALLER** [02:38]

didn't plan on rebuilding it anyway, I was going to take it to a cylinder shop to do,

**Derrick Dea** [02:41]

2023, yeah. Up to 8 of 2023, and this is...

**Derrick Dea** [02:55]

Yeah.

**WIRELESS CALLER** [03:05]

but yeah, it's our newer, newest to us anyway, forklifts.

**WIRELESS CALLER** [03:13]

\*\*\*\*, maybe it's still warranty.

**WIRELESS CALLER** [03:17]

No, can't get that lucky.

**Derrick Dea** [03:19]

I don't know. I have no idea what was purchased with it. It just had to be cemented to see. I just wanted a couple of

**WIRELESS CALLER** [03:28]

Yeah, and I couldn't tell you what we purchased with it or whatever warranty wise.

**Derrick Dea** [03:33]

different...

**WIRELESS CALLER** [03:34]

I'm sure we got a little bit, I'm guessing.

**Derrick Dea** [03:43]

So it's this one.

**Derrick Dea** [03:50]

Up to

**Derrick Dea** [03:59]

this one.

**Derrick Dea** [04:21]

So there's actual-- I'm trying to narrow this down here.

**Derrick Dea** [04:47]

Left hand from right hand,

**Derrick Dea** [04:57]

right hand, left hand, up to...

**Derrick Dea** [05:32]

I think it's this one. All right.

**Derrick Dea** [05:40]

So, it says item not priced. I have to get it priced and give you a call. So, what's the phone number?

**WIRELESS CALLER** [05:49]

712-303-0084.

**Derrick Dea** [05:55]

All right. Once I'm off to submit a ticket to Lyft Central to get this thing in there so I can give you a price and availability. All right.

**WIRELESS CALLER** [06:05]

Okay, sounds good. Okay, thank you.

**Derrick Dea** [06:08]

Yep. Bye.

Inbound

Positive

### AI SUMMARY

During the call, Alan (Customer, Caller) shared the news of his upcoming retirement with Lisa Kleeman (Representative, Rion Equipment), expressing mixed emotions about leaving his long-held role amid significant changes at work.

### FULL TRANSCRIPT

**SAWYER TRISTAN** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:05]

Good morning, Rion Equipment. This is Lisa. How can I help you?

**SAWYER TRISTAN** [00:08]

Oh, it is still morning, \*\*\*\* it. Yeah. Hey, this is Alan in Denver. On that camera, are you looking? I am amazingly wonderful because I'm retiring.

**Lisa Kleeman** [00:10]

Oh, no, I ruined your whole day.

**Lisa Kleeman** [00:15]

How

**Lisa Kleeman** [00:18]

are you?

**Lisa Kleeman** [00:23]

Wait a minute. This is not allowed. Who am I supposed to deal with now?

**SAWYER TRISTAN** [00:30]

I don't know because

**SAWYER TRISTAN** [00:36]

it's been a lot of changes over the last six months, so...

**Lisa Kleeman** [00:40]

Oh, great.

**SAWYER TRISTAN** [00:42]

Rich is probably your best bet. Yeah. Yeah.

**Lisa Kleeman** [00:46]

OKAY. WELL, I'VE DEALT WITH HIM. I DO HAVE HIS EMAIL. SO WHEN ARE YOU RETIRING?

**SAWYER TRISTAN** [00:52]

Well, the official day is next Thursday. But as far as actually doing anything, I'm going to try to.

**Lisa Kleeman** [00:58]

WHAT? OH, YOU ARE FINISHING OUT THE MONTH.

**SAWYER TRISTAN** [01:07]

It has been a real challenge, let me tell you.

**Lisa Kleeman** [01:07]

YOU

**Lisa Kleeman** [01:10]

KNOW, WHEN YOU PUT IN YOUR OFFICIAL NOTICE FOR RETIREMENT OF EVERYTHING, I THINK IT BECOMES A CHALLENGE SIX MONTHS BEFORE YOU DECIDE TO ACTUALLY PUT THE RETIREMENT NOTION IN.

**SAWYER TRISTAN** [01:22]

Well,

**Lisa Kleeman** [01:23]

Usually hence the reason we really go, yep, this is my last day. I'm done.

**SAWYER TRISTAN** [01:28]

yeah, well, in September when Dave was still doing his thing, I was his, you know, number one and all that. We had a great thing going. Between the two of us, we got like 75 years of experience, so, you know. And so...

**Lisa Kleeman** [01:44]

Oh, I know. Yeah, I've gotten all kinds of things from the two of you. Now I don't know what I'm going to do.

**SAWYER TRISTAN** [01:49]

And then he goes and decides to play corporate guy and kind of leaves me hanging. And I'm like, I told our general manager and stuff, it's like, you know, yeah, I would, if this was even five years ago, I'd have jumped at the chance to be the parks manager again and taken on the

**Lisa Kleeman** [01:55]

Ew.

**SAWYER TRISTAN** [02:13]

The load and all that. I said, but at that point, I was thinking it was going to be a little less than two years that I was going to retire. I was planning on retiring in May of 27 when my wife retires.

**Lisa Kleeman** [02:14]

Yeah, yeah.

**Lisa Kleeman** [02:26]

Oh, you're jumping the gun before her? Oh, no! Yeah.

**SAWYER TRISTAN** [02:26]

And then, oh, yes.

**SAWYER TRISTAN** [02:32]

Yeah, I know. But then they...

**SAWYER TRISTAN** [02:36]

I told them, I said, no, I don't want to do that. I don't want to get started and then retire and you guys really need to work on getting somebody in here, which you should have been doing already because even with Dave's got the same basic plan, same time frame.

**SAWYER TRISTAN** [02:56]

You know, you guys should have been looking at getting a replacement parts manager that could have come in, figured we got the system rolling, all of that. And they're like, no, no, no, drag feed, drag feed, drag feed. So then,

**Lisa Kleeman** [03:07]

Well, if he did it September of last year, that's given them more than enough time.

**SAWYER TRISTAN** [03:12]

but,

**SAWYER TRISTAN** [03:15]

oh yeah, well, you think, right? So it took them until the beginning of,

**SAWYER TRISTAN** [03:23]

I think it was like the last week of January, the new parts manager started.

**Lisa Kleeman** [03:29]

Oof.

**SAWYER TRISTAN** [03:29]

I turned 65 in February and when I turned 65 I looked at my wife and I'm like, I don't know, I can't, this is going to kill me. I was already stressed to the max with Dave being gone but with a new person coming in and wanting to make all kinds of changes it's like, I can't do this anymore.

**SAWYER TRISTAN** [03:55]

We got to figure out a way that I can retire now and we can still survive down the road.

**Lisa Kleeman** [04:02]

Yeah, absolutely.

**SAWYER TRISTAN** [04:04]

And so we did a whole bunch of calculating and figuring and we're going to have to cut back on some of our real trips until she retires and starts pulling her Social Security and

**Lisa Kleeman** [04:18]

That means you have to stop gambling, you know, those kinds of things. It's all right.

**SAWYER TRISTAN** [04:21]

Well, we used to do more of that. We haven't been lately. Our big gambles now are travel.

**Lisa Kleeman** [04:26]

Oh, well, that's good. Oh, yeah. Oh, yeah. We put one before the other.

**SAWYER TRISTAN** [04:31]

But, yeah, but so, you know, I'm

**SAWYER TRISTAN** [04:37]

going to be in the house next week, but not really. They've got a couple of lunches planned for me and

**Lisa Kleeman** [04:42]

Okay.

**SAWYER TRISTAN** [04:45]

My biggest question is on this Calmar that we're working on to get back to the real story, is which wheel bearings are you looking for, steer or drive?

**Lisa Kleeman** [04:51]

Yes.

**SAWYER TRISTAN** [05:02]

Because if it's the drive wheels, it's a whole lot more complicated than just a couple

**Lisa Kleeman** [05:07]

Absolutely no idea. But let me ask. Okay.

**Lisa Kleeman** [05:21]

Um... Drive wheels? Or steer?

**Lisa Kleeman** [05:29]

Okay, hopefully I'll get a response fairly quick. We'll see.

**SAWYER TRISTAN** [05:35]

of bearings. I've had my notice then since middle of February.

**SAWYER TRISTAN** [05:45]

The person that took over the parts manager's job, I think she's a wee bit too much of a control person and has so overloaded her plate that a whole lot of stuff's not getting done because of that. And then she wants, it's like, well, I want to be in charge of this, but

**Lisa Kleeman** [05:59]

Oh, no. Yeah.

**SAWYER TRISTAN** [06:06]

It's not working. So then she dumps it onto somebody else who's new, who doesn't really understand the whole process either. So then it gets even more confused and complicated.

**Lisa Kleeman** [06:18]

Pretty soon things in the system are going to start going south.

**SAWYER TRISTAN** [06:20]

But, well, it's starting to pile up, yeah. And then, so they haven't

**Lisa Kleeman** [06:25]

Mm.

**SAWYER TRISTAN** [06:29]

gotten my replacement yet.

**SAWYER TRISTAN** [06:33]

Really, there's supposedly somebody starting on Monday. Oh, yeah. So you've got, you're going to have

**Lisa Kleeman** [06:35]

They're going to be

**Lisa Kleeman** [06:37]

in trouble.

**SAWYER TRISTAN** [06:44]

two people that have been here for a little while, but one of them was mainly doing our shipping and receiving paperwork guy.

**SAWYER TRISTAN** [06:54]

I'm not sure if you're not sure

**Lisa Kleeman** [07:10]

Why change it if it's not broken?

**SAWYER TRISTAN** [07:13]

if

**SAWYER TRISTAN** [07:15]

you

**Lisa Kleeman** [07:18]

Well, and that's fine for...

**SAWYER TRISTAN** [07:19]

You can't, you can't, it's not going to work for you, but, you know, I'll let you see what you can do.

**Lisa Kleeman** [07:24]

Yeah, I mean, you know, observe everybody, but don't change it if it's not broken.

**SAWYER TRISTAN** [07:31]

Yeah, exactly. So, it's, you know, they've spun a bunch around. One of the new people that we hired, she's really good at disappearing into the back to do...

**SAWYER TRISTAN** [07:46]

I WANT TO HIDE IN THE BACK AND PULL STUCK FOR MY MECHANICS AND STUFF.

**Lisa Kleeman** [07:48]

Mm-hmm.

**Lisa Kleeman** [07:58]

Oh, I have one of those? Oh!

**Lisa Kleeman** [08:03]

Huh. You know, that doesn't work that way here either.

**SAWYER TRISTAN** [08:09]

And they seriously think that they're going to be able to get somebody with not much experience that can handle the load that I was doing. And so they're going to try and do what really should be a six-person department anyway if you're really at full

**SAWYER TRISTAN** [08:27]

They are going to try and do it with three new people and two guys that have under 10 years.

**Lisa Kleeman** [08:28]

Mm-hmm.

**Lisa Kleeman** [08:36]

Oof.

**SAWYER TRISTAN** [08:38]

It's going to be a challenge for a while. I'm sorry for that for you.

**Lisa Kleeman** [08:42]

Oh, yeah, no. As long as I still have Richard, I'll be okay.

**SAWYER TRISTAN** [08:48]

I have one of my techs that I deal with all the time. He's in Colorado Springs.

**SAWYER TRISTAN** [08:58]

So it's mostly over the phone, but I deal with them and stuff. But when I told him that I was retiring, the next day he calls and he says, yeah, I went home last night and I was sitting on the couch kind of sniffing and crying. And my wife, his wife goes, well, what's wrong? And he goes, my parts guy's leaving. She goes, well, it's just a parts guy. It's no problem. He goes, no, you don't understand. It's the parts guy. Hey.

**Lisa Kleeman** [09:16]

I know.

**Lisa Kleeman** [09:21]

Exactly. Yeah, no, they, they, we don't, nobody else will understand.

**SAWYER TRISTAN** [09:27]

But yeah, he's been hilarious with it, though. And then the other day he told me, he said, I'm going to have to figure out a way to come to Denver to get something that I don't really need next week just so I can give you a big \*\*\*\*\* bear squeeze. Because, I mean, he's a big guy. Yeah.

**Lisa Kleeman** [09:43]

Well, let me tell you, you said you're having lunches and all kinds of stuff next week, you know, and I can make road trips.

**SAWYER TRISTAN** [09:51]

Hey, if you want to stop by, I'll be here till Thursday, or through Thursday. I'm pretty sure you need to come get something in NIMVA, right?

**Lisa Kleeman** [09:55]

That's right.

**Lisa Kleeman** [10:02]

Something, something, yeah. Need to go shopping, need to do something. I mean, you know, it's one of those.

**SAWYER TRISTAN** [10:08]

So, have they given you a jingle back yet?

**Lisa Kleeman** [10:10]

They have not, but as soon as I hear back from her, I will shoot you that email that lets you know, driver, steer.

**SAWYER TRISTAN** [10:18]

Okay, perfect. Thanks. We'll talk to you soon. Bye.

**Lisa Kleeman** [10:19]

Okay?

**Lisa Kleeman** [10:21]

All right, thank you. Okay, bye.

Positive

### AI SUMMARY

Mark (Customer, Transhorse Trucking Equipment) reached out to Adam Ratcliff regarding a parts invoice that had an incorrect sales tax charge.

### FULL TRANSCRIPT

**CASPER WY** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:03]

All right, equipment, this is Adam. How can I help you?

**CASPER WY** [00:06]

Hi, Adam, this is Mark with Transhorse Trucking Equipment. Casper, how are you,

**Adam Ratcliff** [00:11]

Yeah, do you?

**CASPER WY** [00:12]

man? Good. It's Friday. We finally made it.

**Adam Ratcliff** [00:15]

Yeah, right. That's an accomplishment for Ben.

**CASPER WY** [00:18]

Hey, Brad brought to my attention, we're looking at a parts invoice,

**Adam Ratcliff** [00:23]

Uh-huh.

**CASPER WY** [00:24]

and they charged a sales tax.

**Adam Ratcliff** [00:29]

Oh. When? Okay. That shouldn't be.

**CASPER WY** [00:36]

Yeah, because Brad gave you the W-9 and all that, did he?

**Adam Ratcliff** [00:40]

Yep, and I got it. So it should have been tax-exempt.

**Adam Ratcliff** [00:46]

Um...

**CASPER WY** [00:47]

Is there any way so I don't know...

**Adam Ratcliff** [00:47]

Hang on one sec.

**CASPER WY** [00:51]

This just gets billed out of someplace else. If you're going to have to see if they can...

**Adam Ratcliff** [00:59]

Yeah, let me

**Adam Ratcliff** [01:02]

dig into that, Mark, and I'll call you back here directly. Still got who I got to get a hold of, because I did get that squared away with the tax exempt, because it put Jill's credit limit when I, you know what I mean? So we had to do that.

**CASPER WY** [01:20]

So, yeah. I know.

**Adam Ratcliff** [01:21]

Yeah, let me -- let me -- go ahead.

**CASPER WY** [01:26]

I was just going to say, I know it's a pain in the \*\*\* when you're dealing with corporate. It's like, man, come on, guys. I gave you everything. So, yes.

**Adam Ratcliff** [01:33]

Yeah, no, we'll get her squared away. Let me look into it, TransSource, out of CASPER. Yep, I'll be in touch here.

**CASPER WY** [01:40]

Yeah. All right, man. You need...

**CASPER WY** [01:45]

You need the invoice number or anything?

**Adam Ratcliff** [01:48]

Sure.

**CASPER WY** [01:50]

Where is it at? There's equipment number. Invoice number. CUI1605228.

**Adam Ratcliff** [02:06]

Awesome. Thank you, sir.

**CASPER WY** [02:10]

All right, Adam. Let me know.

**Adam Ratcliff** [02:11]

Yep. Are you going to be around all through the rest of the day or peeling out early or anything?

**CASPER WY** [02:15]

Yeah. Do you have this number?

**Adam Ratcliff** [02:20]

277-4942. Okay.

**CASPER WY** [02:25]

Yep, that's my cell phone, man. I'll have it. I don't leave it.

**Adam Ratcliff** [02:31]

All right. I'll give you a call as soon as I get this sorted out.

**CASPER WY** [02:35]

All right. Thanks, man.

**Adam Ratcliff** [02:37]

Thank you. Bye.

**CASPER WY** [02:38]

Bye.

### AI SUMMARY

Kelly Ficken from Major Nebraska reached out regarding a bad oil leak on a Caterpillar forklift, leaving a voicemail for Michael Lowe at Rion Equipment for further assistance as he was unavailable.

### FULL TRANSCRIPT

**Michael Lowe** [00:00]

Hello, this is Michael with Rion Equipment in Lincoln and Donovan, Nebraska. I'm unable to answer the phone right now. If you need immediate attention, feel free to call the front office at 402-474-5566. If it's not immediate, you can leave a voicemail, and I will get back to you as soon as possible. Thank you. Bye.

**FICKEN KELLY** [00:29]

This is Kelly Ficken from Major Nebraska. My son Cameron's called before for service on a Caterpillar forklift. I've got a bad oil leak on a hose underneath the seat, kind of runs horizontal. Just wanted to visit with somebody about it and see if something we can do or if we need to have you guys out or whatever. So if you could return my call, 402-364-3081. Thank you.

## Inbound call from URCINO DAVID

April 24, 2026 | 03:17 PM | Duration: 2m 13s | From: URCINO DAVID | To: +13088337146

Inbound

Positive

### AI SUMMARY

URCINO DAVID and Todd Babka discussed shipping logistics, confirming a Saturday delivery to resolve an issue with a mix-up of parts.

### FULL TRANSCRIPT

**URCINO DAVID** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Farts just died.

**URCINO DAVID** [00:06]

Hey, Todd, it's Lincoln again. How's it going?

**Todd Babka** [00:07]

Good, good. So.

**URCINO DAVID** [00:09]

Awesome. Hey, so talk to my tech and, you know, kind of figured out what the situation was. So it sounds like they're going to have a truck there to unload at 11 on Monday. So that UPS, you know, Monday may not work.

**Todd Babka** [00:12]

Okay.

**Todd Babka** [00:23]

Okay. Okay. Well.

**URCINO DAVID** [00:28]

If we ended up just doing Saturday delivery, could you guys cover like the portion that would be like the next day air charge for it?

**Todd Babka** [00:37]

I can do that.

**URCINO DAVID** [00:38]

Okay, sweet. Yeah, we'll probably go with that then if you want to transfer that one from, I think you said Sioux Falls,

**Todd Babka** [00:43]

Sioux Falls has got it and it's a water pump in the box. So.

**URCINO DAVID** [00:48]

right? Okay, good. Yeah, so it turns out I did ask my tech about it. So it looks like there was some stickers. It was actually a fuel injector is what it was.

**Todd Babka** [00:58]

Okay.

**URCINO DAVID** [00:58]

I guess there was some stickers with the fuel injector on it, and then there was another sticker on top that had water pump, and I'm guessing the Omaha guys got confused before they sent it out, and my guy didn't open the box until he tore everything apart.

**Todd Babka** [01:12]

Right. I was just, a fuel injector is not very big.

**URCINO DAVID** [01:13]

Yeah,

**URCINO DAVID** [01:18]

I don't know if – I wonder – I don't know. For some reason, I wonder if it was a –

**URCINO DAVID** [01:23]

A water pump box that got repackaged with a fuel injector or something like that. Yeah, who knows?

**Todd Babka** [01:28]

So, well, it pretty well could have been. Who knows? I don't know. I've seen a lot of crazy \*\*\*\* in this world as long as I've been in it. So, but, okay. Well, I will have him send it red Saturday delivery to Cozab.

**URCINO DAVID** [01:34]

Yep, I know.

**URCINO DAVID** [01:43]

Perfect. And you can send it the same address as that original PO to Jake.

**Todd Babka** [01:49]

Jake. Yep. So, okay. I will have him do it. All right. You betcha. Not a problem. You have a good weekend. Will do. Thanks.

**URCINO DAVID** [01:53]

Yep. Okay, fantastic. Thanks so much, man. I appreciate it.

**URCINO DAVID** [01:57]

You too, sir. Thanks.

## Inbound call from GUSTIN KELVIN

April 24, 2026 | 03:06 PM | Duration: 3m 13s | From: GUSTIN KELVIN | To: +14025942051

### AI SUMMARY

The call featured Gustin Kelvin (Customer, Caller) discussing work order 803-240 with Derrick Dea (Sales rep), where he specified various parts needed for maintenance including oil coolers and brake components.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

All right, this is Derrick.

**GUSTIN KELVIN** [00:06]

How's it going today?

**Derrick Dea** [00:08]

All right.

**GUSTIN KELVIN** [00:09]

Good. Hey, I got a work order 803-240.

**GUSTIN KELVIN** [00:18]

Segment four is the transmission oil coolers. What is that, 12 millimeter hose?

**Derrick Dea** [00:25]

Okay.

**GUSTIN KELVIN** [00:26]

You got about, probably about three foot of it and eight clamps.

**GUSTIN KELVIN** [00:34]

And let's see, I got to look at the...

**GUSTIN KELVIN** [00:37]

Vanguard's on three, same work order. I need that guard, that 9-1-Adam,

**GUSTIN KELVIN** [00:44]

0-1-1, 3-400.

**GUSTIN KELVIN** [00:49]

And I need four of them rivets. It's a 9-1-Adam, 0-1-0-3-3-0-0.

**Derrick Dea** [00:56]

Okay. Okay.

**GUSTIN KELVIN** [01:03]

And I think the last one is brakes. So I

**Derrick Dea** [01:06]

Okay.

**GUSTIN KELVIN** [01:10]

can... Wheel center, but I need a couple of wheel centers.

**GUSTIN KELVIN** [01:15]

What is the department of my name? 91-Edward-4600-12.

**GUSTIN KELVIN** [01:27]

Shoes.

**GUSTIN KELVIN** [01:29]

This is the item.

**GUSTIN KELVIN** [01:32]

91-Edward-4600-114.

**GUSTIN KELVIN** [01:45]

Another shoe is a 91-Edward-113.

**Derrick Dea** [01:49]

Thank you.

**GUSTIN KELVIN** [02:08]

Yeah, I need two of the 91 head work, number 600,

**GUSTIN KELVIN** [02:15]

the last shoe, 91,

**GUSTIN KELVIN** [02:18]

number 600, two, two, two.

**Derrick Dea** [02:22]

2-1-2.

**GUSTIN KELVIN** [02:27]

You know, a good bottle of brake fluid and probably four cans of

**GUSTIN KELVIN** [02:36]

brake. I want to throw in a can or a tube of silicone or running out of silicone.

**Derrick Dea** [02:42]

Well, I don't know, I just sold a bunch of brake stuff, so we'll see. Hope you got it reordered. Alrighty.

**GUSTIN KELVIN** [02:45]

Probably got all this stuff in stock, aren't you?

**GUSTIN KELVIN** [02:52]

Well,

**GUSTIN KELVIN** [02:54]

let me know because I'm going to run over to another location. If you have it, I'll swing by, pick it up, and do that.

**Derrick Dea** [03:01]

Will do. Yep. Bye.

**GUSTIN KELVIN** [03:03]

Thank you, sir. I appreciate it.

## Inbound call from OMAHA NE

April 24, 2026 | 02:48 PM | Duration: 17m 30s | From: OMAHA NE | To: +14026440781

Inbound

Neutral

### AI SUMMARY

The conversation began with Rodney Meier (Company Representative) and an OMAHA NE employee discussing a recent quarterly meeting, noting its dullness.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Rodney Meier** [00:05]

Are you bored to death yet?

**OMAHA NE** [00:07]

No, actually I just was on that meeting for the quarterly meeting.

**Rodney Meier** [00:13]

Yeah, I was too.

**OMAHA NE** [00:15]

Yeah, so I haven't watched that for,

**Rodney Meier** [00:17]

That's why I mean, that's why I wondered if you were bored. That Brett Pfeiffer one was pretty boring.

**OMAHA NE** [00:23]

yeah, yeah, I don't know. I just went through some things that probably, you know, maybe don't pertain to us a whole lot. So there

**Rodney Meier** [00:31]

Yeah, I was able to look up, I looked up some parts while I was waiting.

**OMAHA NE** [00:35]

you go. That works. So I tried to call you on Teams.

**OMAHA NE** [00:42]

But it's telling me that, what does it say here? Outbound calling is disabled as we are unable to connect to the desktop plugin. Please check if you have installed or wait a few moments. So I don't know what that means.

**Rodney Meier** [00:58]

Huh.

**OMAHA NE** [00:58]

So I'm like, well, I don't, so I don't know if we can,

**OMAHA NE** [01:02]

If I can do like a Teams call, if you were going to do that, just show me how to do these invoices. So,

**Rodney Meier** [01:09]

Yeah, usually just go to Ring Central and just do, just call me from there.

**OMAHA NE** [01:15]

well, that's what I mean. That's what I'm trying to do. Yeah. So, I brought your name up and then when I go to click on your name to call you, it's telling me my outbound calling is disabled.

**Rodney Meier** [01:27]

Oh, you might have to refresh it. It's done that to me a couple of times.

**OMAHA NE** [01:34]

Okay.

**OMAHA NE** [01:36]

Okay.

**Rodney Meier** [01:38]

Trying to think of what it made me do. It's kind of one of those deals where you got to sign out, sign back in.

**OMAHA NE** [01:44]

Okay, well, I've got to... I've had that happen before where it says like you need to... Oh, I don't know. I can't remember what it said,

**OMAHA NE** [01:57]

but... Let me click on my name. Oh, well, it still says I'm in a meeting. I wonder why that is. Maybe if I'm available, that would work. Let me look. Okay.

**Rodney Meier** [02:12]

I would say you left the meeting, didn't you?

**OMAHA NE** [02:14]

Yeah, yeah, as far as I know.

**OMAHA NE** [02:21]

Nope, it's still telling me I'm disabled. I

**OMAHA NE** [02:27]

don't know why it would do that. Everything I've got is plugged in.

**OMAHA NE** [02:33]

Well, I can mess with it here a little bit and give you a call back if you want me to do that.

**Rodney Meier** [02:39]

Sure, otherwise, yeah, otherwise I'm available if you got something you need done.

**OMAHA NE** [02:44]

Well, I just was calling because I got the UPS delivery.

**OMAHA NE** [02:49]

So we got two...

**Rodney Meier** [02:50]

Did you get them open or...

**OMAHA NE** [02:53]

Yeah, I got them opened. So one of them is a service kit cylinder and

**OMAHA NE** [03:00]

then the other one is a rim. Two, well, it says one, rim, wheel, but two. Okay, yep, yep, yep, two boxes. So those,

**Rodney Meier** [03:06]

Okay. Right. There's probably one on each. There's two boxes.

**Rodney Meier** [03:11]

What are the PO numbers?

**OMAHA NE** [03:15]

we've got a <REDACTED\_ENTITY>.

**Rodney Meier** [03:22]

Okay.

**OMAHA NE** [03:23]

And a <REDACTED\_ENTITY>.

**Rodney Meier** [03:29]

Okay. Why don't you take those as long as we get, if you got a few minutes, why don't we go in and show you how to receive those?

**OMAHA NE** [03:40]

Okay. Can you do that without me having teams?

**Rodney Meier** [03:43]

I can see if I can connect.

**Rodney Meier** [03:48]

And show you my screen.

**OMAHA NE** [03:54]

Do you got a call?

**Rodney Meier** [03:54]

Do you got a call? No, it's on my company phone that I'm getting all kinds of spam calls. And the guy that had it before me in New Jersey, it was his birthday last week. So I had like 15 birthday messages for him. Do you know?

**OMAHA NE** [04:02]

Oh, fun.

**OMAHA NE** [04:07]

Oh,

**OMAHA NE** [04:11]

nice.

**Rodney Meier** [04:12]

Yeah, so I have not given, I think you're the only one that has that number. I have not given it to anybody else just because of that because I have no idea if they're for me or who they're for. Most everything they need to get a hold of me. If they have my personal cell, they call it there or they just send me an email.

**OMAHA NE** [04:18]

Okay.

**OMAHA NE** [04:23]

Right, right.

**OMAHA NE** [04:31]

Yep, yep.

**Rodney Meier** [04:32]

But yeah, it's pretty crazy. I don't know. It drives me nuts.

**OMAHA NE** [04:37]

When I...

**OMAHA NE** [04:39]

When I called you just now, it told me that my call is being recorded. So they must have started their initiative of recording calls or whatever. So, yep, yep. Which is fine, you know, if it helps them, it helps them.

**Rodney Meier** [04:44]

Yep.

**Rodney Meier** [04:50]

Yep. Yes, they did. Yes, they did.

**Rodney Meier** [04:56]

Yeah. Yep. That's right. That's right. Let me see.

**Rodney Meier** [05:07]

I think I can see if I can share my screen and we can go from there.

**Rodney Meier** [05:22]

There's Christy Johnson right there.

**Rodney Meier** [05:37]

All right. I am hearing my screen.

**OMAHA NE** [05:43]

All right, accept screen share. There you are.

**OMAHA NE** [05:48]

Okay.

**OMAHA NE** [05:50]

I'm going to put you on speaker.

**Rodney Meier** [05:52]

Yeah, no, that's fine.

**OMAHA NE** [05:54]

There we go.

**Rodney Meier** [05:56]

All right. These are my purchase orders, but for like you, you would just go over here to all purchase orders.

**OMAHA NE** [06:04]

Okay. Okay. Let me get there.

**Rodney Meier** [06:06]

You should be able to see my screen, I think.

**Rodney Meier** [06:14]

So for you, you just go to all purchase orders because you don't know for sure who you're doing.

**Rodney Meier** [06:21]

And then just put your purchase order number right here.

**Rodney Meier** [06:25]

So it'll be 113-9707.

**Rodney Meier** [06:36]

Oh, this is something that I have to do. I'm in parts, so I have to take my parts out.

**Rodney Meier** [06:45]

You don't have to because you're not assigned to parts.

**OMAHA NE** [06:48]

Okay.

**Rodney Meier** [06:50]

Because this is for a service call, it won't come up under my parts one.

**Rodney Meier** [06:56]

So anyway, yeah, just hit contains. So this one was from TBH. If you look down below, it's a seal kit, a Cascade seal kit. I do know that this one is going to go to Ross for baiters.

**Rodney Meier** [07:13]

So if you want to write that on the paper or whatever, because it won't print a ticket.

**OMAHA NE** [07:21]

Yep. And then I'll write it on the box too so we know.

**Rodney Meier** [07:24]

Yeah, yep. So anyway, you just double click on this.

**Rodney Meier** [07:31]

And

**Rodney Meier** [07:33]

always, I guess, let me go back to the first screen. Notice that it says confirmed, and it's an open order, which means it hasn't been received yet.

**Rodney Meier** [07:43]

So normally, like in the purchase area, there's a confirmed area over here. You can see I've already confirmed it.

**OMAHA NE** [07:51]

Yep.

**Rodney Meier** [07:52]

And so then we'll just go to receive. Now, when you run across something that's like an OSP like this, we have to use what we call a product receipt.

**OMAHA NE** [08:01]

Mm-hmm.

**Rodney Meier** [08:07]

I wish we had an MLA one coming, but anyway. So anyway, all I have to do is double click on this and put your PO number right down here

**Rodney Meier** [08:22]

and hit OK and

**Rodney Meier** [08:27]

it's received. That's all there is to it.

**OMAHA NE** [08:31]

Oh, okay. I think you showed before, but I just, I don't do it ever.

**Rodney Meier** [08:32]

So it's...

**Rodney Meier** [08:35]

Yep. Yeah, and it's one of those that, yeah, it's a repetition thing. The more you can do it, the easier it gets.

**Rodney Meier** [08:45]

So, yeah, those are pretty simple. You said the other one was 9400?

**OMAHA NE** [08:52]

So, yep. And who's this one for?

**OMAHA NE** [08:56]

That was those,

**Rodney Meier** [08:56]

The 9400 goes with those two tires.

**Rodney Meier** [09:03]

I believe that's those rims.

**OMAHA NE** [09:04]

for a truck,

**OMAHA NE** [09:07]

yep, did you say that was,

**Rodney Meier** [09:09]

Yeah, that goes with those two, they're solid pneumatic tires sitting there,

**OMAHA NE** [09:15]

oh, okay.

**Rodney Meier** [09:15]

or are they cushion tires?

**OMAHA NE** [09:19]

The only few tires I've seen over there are, they look like trailer tires almost. I don't even know if there are.

**Rodney Meier** [09:24]

Okay. When

**Rodney Meier** [09:28]

we get done here, I'll have you go over and tell me what size is on the tire, then I'll know what they're for.

**Rodney Meier** [09:36]

So anyway, this is the tires or the rims that go with, I think they go with that tire or those two tires.

**OMAHA NE** [09:46]

So product receipt, copy and paste,

**Rodney Meier** [09:54]

So yeah, this would be the two rims.

**OMAHA NE** [10:06]

and then you just leave the paperwork with the items or do you need to do

**Rodney Meier** [10:09]

I usually do because like I say, when these come, they don't print where they go in the back.

**OMAHA NE** [10:16]

something? Uh-huh.

**Rodney Meier** [10:17]

So yeah, a lot of times I'll just write on there who they're for or if I know who they go to.

**Rodney Meier** [10:24]

The guys usually know who they belong to, but sometimes it's good to leave a ticket there.

**OMAHA NE** [10:29]

Let

**Rodney Meier** [10:36]

Those tires that are over there on the ground, are they white tires or are they black?

**OMAHA NE** [10:41]

me look here.

**OMAHA NE** [10:49]

So the ones that I'm looking at, they're pneumatic tires with the rim. So I don't even think they're

**Rodney Meier** [10:55]

No, doesn't sound like it. Is there a size on the side of the tire?

**OMAHA NE** [11:00]

ours. ST17580R13.

**Rodney Meier** [11:05]

Yep, they must be the rental departments.

**OMAHA NE** [11:08]

That, yeah. So, oh,

**Rodney Meier** [11:12]

The other two tires are already out there, probably to Trevor, because I think Trevor was assigned to that Pilgrim Co-op.

**OMAHA NE** [11:21]

and then I have brush and key set. You ordered that for that scrubber or whatever.

**Rodney Meier** [11:27]

Right, yep, I need to get ahold of him and let him know they're here.

**OMAHA NE** [11:32]

Oh, wait.

**Rodney Meier** [11:32]

I forgot to do that yesterday, so I'll get ahold of him.

**OMAHA NE** [11:37]

There's a box here. It kind of looks like it's never been opened.

**OMAHA NE** [11:43]

Otherwise,

**OMAHA NE** [11:47]

I don't.

**Rodney Meier** [11:47]

Does it say where it's from?

**OMAHA NE** [11:51]

James White, Taylor Precision Industries.

**OMAHA NE** [11:59]

Let me

**OMAHA NE** [12:01]

grab my

**OMAHA NE** [12:03]

knife here. I don't think it's been opened up, but I thought that one was already here when I got here.

**OMAHA NE** [12:10]

But maybe not.

**Rodney Meier** [12:10]

Well, it's possible.

**OMAHA NE** [12:15]

But yeah, I don't see any other tires unless they're in this

**Rodney Meier** [12:19]

Well, the two tires for the co-op came up on the shuttle yesterday, so they're probably out in the shop already.

**OMAHA NE** [12:24]

box. Oh, okay.

**Rodney Meier** [12:27]

And then there's two

**Rodney Meier** [12:31]

There's two other tires coming from Lincoln. I'll bet them \*\*\*\* heads probably sent them by truck,

**Rodney Meier** [12:39]

which will cost us an arm and a leg.

**OMAHA NE** [12:42]

Gotcha. This says that it is a fuel supply tube, supply tube, injection pump, and O-ring seal.

**Rodney Meier** [12:52]

Those are for Ross.

**OMAHA NE** [12:54]

From Sudden Service Incorporated.

**Rodney Meier** [12:56]

Yep, that's the Taylor dealership in Mississippi.

**Rodney Meier** [13:00]

So that's one we can do the other way. That's one we can receive

**Rodney Meier** [13:06]

the regular way like we would a cat part.

**OMAHA NE** [13:09]

Okay. So I do have a PO number on this one too.

**Rodney Meier** [13:14]

Right. Yep. Go ahead and go back to your desk and we'll go through that one.

**OMAHA NE** [13:24]

Okay. Whenever you're ready.

**Rodney Meier** [13:25]

All right. What you got?

**OMAHA NE** [13:27]

The PO is PU1139694.

**Rodney Meier** [13:35]

Okay. Those are for Nucor Steel or ROS.

**Rodney Meier** [13:45]

So because this one has, if you look, it has part numbers. It's not an OSP.

**Rodney Meier** [13:57]

And this would be the same as if you're doing CAT parts also.

**Rodney Meier** [14:02]

Because they have part numbers,

**Rodney Meier** [14:05]

when we receive this one, we go to the arrival journal.

**Rodney Meier** [14:14]

And then you'll have a little screen that pops up like this.

**Rodney Meier** [14:22]

And you just double click on the receipt journal

**Rodney Meier** [14:30]

and we register it.

**Rodney Meier** [14:34]

They're all here. If we would only add part of them, you go in and just put the part numbers that you received. But these are all there.

**OMAHA NE** [14:41]

Okay.

**Rodney Meier** [14:41]

So we're going to register all. And this is just like a packing slip almost is what it is. You apply it.

**Rodney Meier** [14:52]

And then you register and you close it.

**Rodney Meier** [14:58]

And this one will print a ticket back in the back.

**OMAHA NE** [14:58]

Okay.

**Rodney Meier** [15:05]

But I do know these are for Ross for Monday.

**OMAHA NE** [15:08]

Okay. I will write that on there so he knows where it

**Rodney Meier** [15:11]

So that must have came in today too because I ordered it yesterday.

**OMAHA NE** [15:16]

is. Yeah.

**OMAHA NE** [15:18]

It might have or it came yesterday and Jake just didn't get it checked in. I'm not sure.

**Rodney Meier** [15:23]

Well, no, I ordered it yesterday.

**OMAHA NE** [15:26]

So. Okay.

**OMAHA NE** [15:29]

And that's it.

**Rodney Meier** [15:29]

And so, yeah, that is printed in the back. So that one you can put a ticket with it, but that's for Ross at Nucor.

**OMAHA NE** [15:38]

And I can just leave them sit on the table over there.

**Rodney Meier** [15:42]

I might go ahead and put them out in the shop

**OMAHA NE** [15:45]

On their desk.

**Rodney Meier** [15:47]

on their table or what, you know, they both have a little table that they can put stuff on.

**OMAHA NE** [15:51]

Okay, okay. I will put them back here then.

**Rodney Meier** [15:56]

Yeah, that way they know they're there.

**OMAHA NE** [16:00]

Sounds like plans.

**Rodney Meier** [16:02]

But I think that should be all we have, I believe.

**Rodney Meier** [16:07]

Unless you want to run over and get that seal kit, but that's up to you.

**OMAHA NE** [16:07]

Yeah, that's what that

**OMAHA NE** [16:11]

looks. Yeah, probably, I don't know. We'll see. Maybe after I go to lunch, I'll grab it on my way back or something.

**Rodney Meier** [16:18]

Oh, sure. Well, take the company truck, Jim. Take the company truck,

**OMAHA NE** [16:23]

So, I'll just make part. Yeah.

**OMAHA NE** [16:28]

Okay, well, I think that's all I have then for now.

**Rodney Meier** [16:33]

Jim. Okay. Yeah, I'm going to probably work till about 1:00 and then I'm done. We're going over to Houston to see my grandson tonight,

**OMAHA NE** [16:42]

So that'll be fine. If I got anything, I'll just send an email and you can look at it Monday.

**Rodney Meier** [16:46]

so. Yep, yep, not a problem. We can do that.

**OMAHA NE** [16:50]

So, all right, well, enjoy the rest of your time there.

**Rodney Meier** [16:53]

Oh, yeah. Yeah, it's winding down. Won't be too much longer. We'll be headed back.

**OMAHA NE** [16:58]

Yep, yep, yep, well,

**Rodney Meier** [17:01]

But it's warmer now. It's 87 today.

**OMAHA NE** [17:04]

oh, there you go. Sure, now the weather decides to get nice on you.

**Rodney Meier** [17:08]

So, yeah. Yep. Now that the rain's over.

**OMAHA NE** [17:11]

Yep, yep. Oh, well, they needed it,

**Rodney Meier** [17:15]

All right. Nope. All right. Have a good rest of your day.

**OMAHA NE** [17:19]

so. Yep, you too. We'll talk to you later. Bye.

**Rodney Meier** [17:20]

All right. You bet. Talk to you. Bye.

### AI SUMMARY

In the conversation, Dawson (Technician, Caller) sought confirmation from Nate Ross (Technical Support) regarding a pressure issue with a unit.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Nate Ross** [00:03]

Brian and Clement parts of Nate.

**OMAHA NE** [00:05]

Hey, Nate, it's Dawson. Since Michael's off, got to rattle something off your head, just make sure I'm in the right headspace for it. So I'm working on this unit. The main lift pressure relief is supposed to be 1950, plus or minus 50, so rough ballpark 2000. So deadhead the assembly, and it hits that 2000 PSI.

**OMAHA NE** [00:32]

And then after it deadheads for about five seconds, slowly starts declining until it hits a thousand. So my two thought points are either the pump is deadheading and bypassing, which I'm a little skeptical of because if it was bypassing the pump, it wouldn't reach deadhead pressure. So it's leading me to think that it would be the main relief valve. It's bypassing once it hits pressure.

**Nate Ross** [00:55]

That's what I was thinking.

**Nate Ross** [00:58]

Yeah, it's leaking back.

**OMAHA NE** [01:00]

Yeah. So I just wanted to make sure that, I just wanted to make sure outside perspective that that's in the right headspace with that.

**Nate Ross** [01:07]

That's what I would go towards. I mean, that's the cheapest fix.

**OMAHA NE** [01:10]

Yeah. That's kind of what I was thinking too is to talk with the customer and be like, hey, this is where it's pointing to and the relief, it's here the relief valve or the pump and the relief valve is the cheaper of the two options.

**Nate Ross** [01:11]

Before we just go throw a pump at it.

**OMAHA NE** [01:26]

So, okay. That's kind of,

**Nate Ross** [01:27]

Yeah, that's what I would do.

**OMAHA NE** [01:29]

That's kind of what I figured, but I just wanted to rattle it off. Just, you know, it's Friday morning. I'm checked out. All

**Nate Ross** [01:34]

No, I don't blame you a bit. I don't blame you a bit on that. So, absolutely.

**OMAHA NE** [01:43]

right. Well, I'll talk to the customer and let them know. Thanks,

**Nate Ross** [01:44]

Absolutely.

**Nate Ross** [01:46]

Sounds good, man. Yep. Bye-bye.

**OMAHA NE** [01:48]

sir.

### AI SUMMARY

In a conversation between Jesse Downey from Ryan Equipment and Archie Faulkner, Archie requested parts for a refinery shuttle wagon, including a master cylinder and brake foot pedal.

### FULL TRANSCRIPT

**FAULKNER ARCHIE** [00:00]

This call is being recorded.

**Jesse Downey** [00:04]

Ryan Equipment, Jesse in Parts.

**FAULKNER ARCHIE** [00:06]

Hey, Jesse, Archie here.

**Jesse Downey** [00:08]

Hey, Archie, what you know? Yep, it's Friday again.

**FAULKNER ARCHIE** [00:10]

Well, it's the fifth Monday of the week.

**FAULKNER ARCHIE** [00:15]

Yes, sir. The refinery shuttle wagon. Let me get you

**FAULKNER ARCHIE** [00:26]

a serial number here.

**Jesse Downey** [00:29]

Yeah.

**FAULKNER ARCHIE** [00:32]

5252-4123.

**FAULKNER ARCHIE** [00:39]

Master cylinder.

**Jesse Downey** [00:46]

All right, got it.

**FAULKNER ARCHIE** [00:50]

Do you have... Those are WABCO parts, aren't they? For the most part.

**Jesse Downey** [01:02]

I'm not sure if that one is or not, but some of them are.

**Jesse Downey** [01:06]

I'm thinking of some of the electronics or Repco. I just don't know which ones are. It's half time they come unlabeled for me.

**FAULKNER ARCHIE** [01:06]

Yeah.

**FAULKNER ARCHIE** [01:14]

Got ya.

**Jesse Downey** [01:17]

I did get one PO for the Team PMS sensors and other party order with that one. So that was ordered yesterday. Then I emailed Mr. Neal directly.

**FAULKNER ARCHIE** [01:27]

Okay.

**Jesse Downey** [01:31]

If he could just send the PO directly to me instead of going through a third party person because that's what's delaying some of the orders, at least for me anyway.

**FAULKNER ARCHIE** [01:39]

Gotcha. Okay.

**FAULKNER ARCHIE** [01:43]

Well, I definitely need a master cylinder.

**FAULKNER ARCHIE** [01:47]

I'm going to assume that's going to have to probably have to come from you guys. And then I want to replace the brake foot pedal as well.

**Jesse Downey** [01:58]

We just did a similar thing on one unit here recently.

**Jesse Downey** [02:06]

Break pedal.

**FAULKNER ARCHIE** [02:06]

Yeah. Yeah, you did one over at Cargill.

**Jesse Downey** [02:09]

Yep, must talk to Gavin,

**FAULKNER ARCHIE** [02:11]

Yep.

**Jesse Downey** [02:14]

huh? Break pedals.

**FAULKNER ARCHIE** [02:15]

I'm thinking that foot pedal is definitely a WABCO part.

**FAULKNER ARCHIE** [02:23]

And I can probably get that local maybe if I had a WABCO part number or a part number in general.

**Jesse Downey** [02:32]

Alrighty. I can give you...

**FAULKNER ARCHIE** [02:34]

It'll get here afterwards, you know.

**Jesse Downey** [02:39]

Yeah, you have to wait a week to get a PO or however it's going to take to get a PO.

**FAULKNER ARCHIE** [02:44]

Yeah.

**Jesse Downey** [02:48]

Yeah, I can give you a call back with a part number on that.

**FAULKNER ARCHIE** [02:51]

Yeah, that'd be great.

**FAULKNER ARCHIE** [02:54]

As a matter of fact, just order both of them and I'm going to call him and tell him we need them like now because

**FAULKNER ARCHIE** [03:03]

I don't like them guys. I don't like refinery driving another part

**FAULKNER ARCHIE** [03:09]

of the plant's shuttle wagon because this is the group that's so terrible on brakes. They're the first ones to explode the brakes.

**FAULKNER ARCHIE** [03:18]

They're their own worst enemy.

**Jesse Downey** [03:19]

Oh no.

**FAULKNER ARCHIE** [03:24]

We had a 7,000 hours on

**Jesse Downey** [03:24]

Gotcha.

**FAULKNER ARCHIE** [03:28]

it and no issues with any brakes and their unit had 2,000 hours on it and they exploded the brakes on it.

**FAULKNER ARCHIE** [03:38]

So we know they don't know how to drive them even though we've trained them multiple times.

**Jesse Downey** [03:44]

Messed when we had to wait forever on that little caliper bolt, right?

**FAULKNER ARCHIE** [03:48]

So that is exactly right.

**Jesse Downey** [03:50]

Now you have like a box of like 100 of them there. I can't remember how many he ended up ordering.

**FAULKNER ARCHIE** [03:55]

Something like that, yeah. So, yeah, you know, thinking ahead type thing. So, yeah, if you go ahead and get that stuff coming, and I'm going to get a hold of Neil and tell him what's going on so he can shoot you a PO right now to get the ball rolling.

**Jesse Downey** [04:15]

Yep, I'll get invoices ready and everything set up and I'll give you a call back directly at ETA. That way you can touch base with Mike again.

**FAULKNER ARCHIE** [04:27]  
All right, thank you.

**Jesse Downey** [04:28]  
You're welcome. Bye-bye.

**FAULKNER ARCHIE** [04:30]  
You bet, bye.

CALL 395 OF 611

**Inbound call from IRWIN ANTHONY**

April 24, 2026 | 01:36 PM | Duration: 4m 21s | From: IRWIN ANTHONY | To: +14026440781

**Inbound** **Positive**

**AI SUMMARY**

In this conversation, IRWIN ANTHONY from TMS reached out to Rodney Meier from Tabor Street Group, LLC regarding a steering axle breakdown, focusing on the specifics of parts 45 and 50.

**FULL TRANSCRIPT**

**IRWIN ANTHONY** [00:00]  
This call is being recorded.

**Rodney Meier** [00:04]  
Ryan Equipmentist, Rod.

**IRWIN ANTHONY** [00:07]  
Rod, hey, it's Matt at TMS. I'm looking at that steering axle breakdown and that 45 and 50 area.

**Rodney Meier** [00:09]  
Good morning.

**Rodney Meier** [00:20]  
Okay.

**IRWIN ANTHONY** [00:21]  
45 has the

**IRWIN ANTHONY** [00:24]  
housing bearing.

**IRWIN ANTHONY** [00:27]  
It says NI. I'm assuming that's not included.

**Rodney Meier** [00:31]  
No, it means it's not illustrated.

**IRWIN ANTHONY** [00:32]  
Or is that?

**IRWIN ANTHONY** [00:34]  
Oh, not illustrated. Okay.

**Rodney Meier** [00:36]  
It's part of 45, but it's not illustrated.

**IRWIN ANTHONY** [00:43]

Okay. So 45 and

**IRWIN ANTHONY** [00:47]

50, but I still would need...

**IRWIN ANTHONY** [00:52]

Or does 50 come with the bolts and nuts and stuff to put it all together?

**Rodney Meier** [00:56]

No, that does not. When it says not illustrated, actually, when it says not illustrated, let me go back and look at it here. Give me a second.

**Rodney Meier** [01:30]

Okay, no, the not illustrated does not come with 45. It's just separate parts that you can't see.

**IRWIN ANTHONY** [01:37]

Okay.

**Rodney Meier** [01:38]

So 45 is just the bushing.

**Rodney Meier** [01:44]

And then 50 is just the pivot block.

**IRWIN ANTHONY** [01:53]

Housing. The housing that's under 45?

**Rodney Meier** [01:57]

I'm

**Rodney Meier** [02:00]

showing 45 as the bushing. You're talking about the pivot bushing there at the steer axle,

**IRWIN ANTHONY** [02:04]

Yeah.

**Rodney Meier** [02:06]

right? Yeah, 45 is just a bushing.

**IRWIN ANTHONY** [02:12]

Okay.

**Rodney Meier** [02:12]

That slips over that, slips over that post and then it goes inside the block, goes inside the block.

**IRWIN ANTHONY** [02:15]

Okay, so that stuff underneath it...

**IRWIN ANTHONY** [02:21]

Bearing and stuff like that. I guess I'm trying to figure out where the \*\*\*\* that sits.

**IRWIN ANTHONY** [02:31]

Scraper rod.

**IRWIN ANTHONY** [02:47]

Okay, I think I can figure it out from there.

**Rodney Meier** [02:51]

Okay. Yeah, I was just looking at that too. I was trying to figure out whether they were talking about the not illustrated.

**Rodney Meier** [02:59]

That may be on a different part of the steer axle too. That might not even be anywhere near there.

**IRWIN ANTHONY** [03:07]

Yeah, because I would say...

**Rodney Meier** [03:08]

The six, yeah, 46, 47, 48, and 49 are actually in different spots.

**Rodney Meier** [03:15]

46 is a grease cert and 47, yeah, they're on the block there, but like 48 and 49 are in a different spot.

**IRWIN ANTHONY** [03:24]

Okay. Another question. Do you have that tracking number on the other stuff that's coming for that mask?

**Rodney Meier** [03:30]

No, it wasn't there yet this morning. I checked it first thing this morning when I responded to your PO that you sent me, and it hasn't come up yet. But to my knowledge, it did ship yesterday, so you should be getting it today.

**IRWIN ANTHONY** [03:48]

Okay. If you see it, please send it to me.

**Rodney Meier** [03:50]

And I mean, I can call too and probably get a tracking number. They just have, they just have, they don't give me a tracking until they invoice it and they hadn't invoiced it yet this morning.

**IRWIN ANTHONY** [03:54]

If you would, I would...

**Rodney Meier** [04:01]

But I can, I can certainly find out if you want me to.

**IRWIN ANTHONY** [04:02]

Okay. If you would, I would appreciate it.

**Rodney Meier** [04:05]

All right. Yeah. Let me see what I can find out.

**IRWIN ANTHONY** [04:09]

All right. Thank you.

**Rodney Meier** [04:10]

All right. You bet. Thank you. You bet. Bye.

**IRWIN ANTHONY** [04:11]

Appreciate it. Yeah, bye.

### AI SUMMARY

Todd Babka (Company Representative) and Jelinek Charles engaged in a friendly conversation, discussing their weekend plans and home improvement activities.

FULL TRANSCRIPT

**JELINEK CHARLES** [00:00]

This call is being recorded.

**Todd Babka** [00:03]

Parts is Todd.

**JELINEK CHARLES** [00:04]

Hey, what are you doing?

**Todd Babka** [00:07]

Oh, not much. Just sitting here working you.

**JELINEK CHARLES** [00:09]

Oh, nothing. Just said, Mom, and sit down for a minute and get us and get going then.

**Todd Babka** [00:15]

Not good. How's the weather up?

**JELINEK CHARLES** [00:17]

So what are you doing this weekend?

**Todd Babka** [00:19]

I guess we're staying home because the weather's going to be crappy. So, but, well,

**JELINEK CHARLES** [00:23]

Oh, I thought it was going to be raining. I thought it would be perfect weather to go out and work in your garage.

**Todd Babka** [00:30]

that it would, but we got other things to do and I think I got to help tearing out some and so it's just a

**JELINEK CHARLES** [00:36]

Oh, okay, okay.

**Todd Babka** [00:38]

Good weekend to stay home and get some stuff done here. But no, yeah, worked in the yard last weekend and got some stuff done.

**JELINEK CHARLES** [00:42]

Well, good for you. That's great.

**JELINEK CHARLES** [00:45]

You

**JELINEK CHARLES** [00:47]

did what to the yard?

**Todd Babka** [00:50]

We trimmed the bushes out in the back. They're really tall, so we trimmed them down and got them looking respectful now.

**JELINEK CHARLES** [00:59]

Yeah. Well, good.

**Todd Babka** [01:00]

So, just stuff that needs done. It's been put off for years. So, but how does things go?

**JELINEK CHARLES** [01:05]

Yeah.

**JELINEK CHARLES** [01:07]

There was a guy they were showing on a baseball game, a major league baseball game, and the batter hit the ball and it went towards the pitcher and he couldn't find it. It went inside his outfit.

**Todd Babka** [01:12]

Yeah?

**Todd Babka** [01:21]

Oh, I think I've seen that. He was like spinning around looking for it or something. Jesus Christ. You'd have thought that would hurt like \*\*\*\*.

**JELINEK CHARLES** [01:23]

Yeah. Yeah. Did you go get those chemicals?

**Todd Babka** [01:33]

Yeah, we did. We did that Saturday afternoon. Ran over there quick before they closed. So, yeah. Yeah, it was... The guy that was there was really nice, so... But, yeah, they had a lot of nice tubs in there. So, all right, you guys too. I said they had a lot of nice tubs in there. So, I'm bad.

**JELINEK CHARLES** [01:35]

Oh, okay. Okay. They're pretty nice outfits. Yeah.

**JELINEK CHARLES** [01:47]

Well, you have a good weekend, okay? What's that?

**JELINEK CHARLES** [01:54]

Oh, yeah.

**Todd Babka** [01:58]

No, he was, I don't even know if he was from that store, because his car out front looked like it had North Platte plates on it, so he was probably from the other store.

**JELINEK CHARLES** [01:58]

Yeah. Okay.

**JELINEK CHARLES** [02:03]

Well, I think there are other stores at North Platte,

**Todd Babka** [02:08]

Yeah, so, but, yeah, he looked pretty bored when I walked in. He was just standing there, so. Poor guy. I know how that feels, so. All right, you guys too. Enjoy the rain.

**JELINEK CHARLES** [02:10]

Todd. Yeah.

**JELINEK CHARLES** [02:19]

Have a good one, okay, this week.

**JELINEK CHARLES** [02:25]

Bye, Todd. Yeah, bye-bye.

**Todd Babka** [02:27]

Bye-bye.

## Inbound call from WIRELESS CALLER

Negative

### AI SUMMARY

In a conversation between Kent Stewart (Representative, Rion Equipment) and a caller from Pacific West Systems, the caller expressed concern over delayed responses to urgent parts requests.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing Rion equipment. This is Kenton Parts. How may I help you?

**WIRELESS CALLER** [00:08]

It's WIRELESS, Pacific West Systems. How are you doing?

**Kent Stewart** [00:11]

I am Welser and you.

**WIRELESS CALLER** [00:14]

I'm all right. I'm just trying to see what's going on over there. I don't know if you guys have gave my emails.

**Kent Stewart** [00:17]

Well, no,

**Kent Stewart** [00:21]

no, no. I see the emails in here. I just haven't had an opportunity. I've been extremely busy. I'm trying to get through them today.

**WIRELESS CALLER** [00:27]

I haven't gotten responses for last week. I got people breathing down my neck, about to throw me off a bridge if I don't get them some quotes.

**Kent Stewart** [00:34]

Well, I'm trying to get some of that stuff.

**Kent Stewart** [00:40]

I've started on them. I just haven't had a chance to finish them. I need to make sure they're accurate before I send them. So I am working on them right now.

**WIRELESS CALLER** [00:47]

Okay, because I didn't even get like response at all, like saying that, saying what you're saying to me right now.

**Kent Stewart** [00:52]

OK, well, I apologize. I mean, some of those big lists that you sent me, I have to go through and ensure each one of those parts is loaded correctly.

**Kent Stewart** [01:02]

And then I got to key it in. I mean, I'm working on them now, sir. I'm going to stay late tonight to see if I can get them finished and get you something by the...

**WIRELESS CALLER** [01:03]

Because

**WIRELESS CALLER** [01:08]

some of these are like two parts, Kent, like so since last Friday, I've been

**WIRELESS CALLER** [01:14]

We got steering cylinders, steer lockout valve. And then I'm just like, hey, hey, hey, hey, like nothing. So, you know what I mean? That's where my problem is. It's just that there's two parts. I get it if it's a whole list, but if it's two parts, you know what I mean? I'm working. As long as you just say, hey, I'm working on it, that makes me at least peace of mind, you know what I mean?

**Kent Stewart** [01:25]

Okay. Well, I'm trying to solve your problem.

**Kent Stewart** [01:37]

Okay.

**WIRELESS CALLER** [01:39]

Because I got...

**Kent Stewart** [01:39]

Okay, I'll try to do that. And right now I've got...

**WIRELESS CALLER** [01:43]

Are you the only one that could help me with shuttle wagon ports over there?

**Kent Stewart** [01:47]

Nope, Adam can. Adam can help too.

**WIRELESS CALLER** [01:50]

Because I put both of you in it and, you know what I mean, to try to alleviate your work pile, that's why I do that. So, and then I, you know what I mean, I just, I don't know.

**Kent Stewart** [01:53]

Okay.

**WIRELESS CALLER** [02:04]

How we could make it. Because, like, literally, I'll be on a thing, like, where pretty much, like, I expect to get an answer back on stuff within, like, a day or two. So when it goes, like, a whole week, I'm like, what the heck? I was like, do they not like me anymore? I don't know what's going on.

**Kent Stewart** [02:24]

Okay. Nope, it's not that. It's just that I haven't found the time to get it taken care of yet. So I just saw the steering cylinder and parts. So, yeah, I'm trying to get it taken care of, sir. It's just that I run out of time of the day. So, all right.

**WIRELESS CALLER** [02:25]

All right. I'm like, did we pay the bill?

**WIRELESS CALLER** [02:32]

Yeah.

**WIRELESS CALLER** [02:38]

Right. But we're talking about days. We're talking about week almost about, you know what I mean? So to me, it's weird because I deal with multiple customers and do all, I do a whole mess of stuff here and, uh,

**Kent Stewart** [02:41]

Okay. Okay.

**WIRELESS CALLER** [02:54]

So I hold kind of a standard a little bit. So I don't know if it's too high of a standard, but definitely I need to get some parts ordered. And OK.

**Kent Stewart** [03:04]

Okay. Okay. I'm trying to get that now, but I'm talking on the phone, so... Okay? You're most welcome. I'll be in touch.  
Bye.

**WIRELESS CALLER** [03:08]

All right. Well, thank you,

**WIRELESS CALLER** [03:13]

man. Bye. All right. Bye.

Jake (Caller) confirmed the purchase order S29024674-001 with Todd Babka (Company Representative), and they agreed on the next steps for processing it before ending the call amicably.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Todd Babka** [00:05]

Parts is tied.

**WIRELESS CALLER** [00:06]

Hey, it's Jake. I got that PO for that radio host.

**Todd Babka** [00:07]

Yo.

**Todd Babka** [00:11]

Okay. I'm ready when you are,

**WIRELESS CALLER** [00:16]

S29024674-001.

**Todd Babka** [00:25]

sir. Okay, just ground on it.

**WIRELESS CALLER** [00:27]

Yep. Yep, that's fine.

**Todd Babka** [00:30]

Okay. I'll get her coming. You betcha have a great evening.

**WIRELESS CALLER** [00:31]

All right. Thank you, sir. All right. You,

**Todd Babka** [00:36]

I will as soon as I get the \*\*\*\* out of here.

**WIRELESS CALLER** [00:39]

too. Oh, \*\*\*\*.

**Todd Babka** [00:40]

So, but anyways, I'll put a note on here to call you.

**WIRELESS CALLER** [00:44]

All right. Sounds good. All right. Thanks, Mike.

**Todd Babka** [00:45]

All right, we'll see ya. You bet, thanks. Bye-bye.

CALL 399 OF 611

## Inbound call from MITSUBISHI

April 23, 2026 | 08:23 PM | Duration: 10m 33s | From: MITSUBISHI | To: +12512179789

Inbound

Neutral

### AI SUMMARY

During the conversation, Wendy (Service Coordinator) and Jaymeson Brady (Service Operations Coordinator) discussed the importance of using the IVR system for processing job statuses.

### FULL TRANSCRIPT

**MITSUBISHI** [00:00]

This call is being recorded.

**Jaymeson Brady** [00:03]

This is Jaymeson.

**MITSUBISHI** [00:05]

Hi, Jaymeson. It's Wendy. How are you doing? Okay. Oh, I'm trying to pack up. I've got to go out of town. You can't manually -- you shouldn't be manually changing statuses for Home Depot. You need to pick up the phone and use the IVR because the screenshot you sent me is that you were waiting on material. So the proper way to do it is to pick up the phone

**Jaymeson Brady** [00:07]

Hey, Wendy. How's it going?

**Jaymeson Brady** [00:19]

Okay.

**MITSUBISHI** [00:29]

Call in and clock in and then that moves you back into progress. Then you, in theory, would be working on the forklift because you're no longer waiting on the materials. So you've arrived, you call in, throws it into progress, you complete the repair, and then you clock out, making sure you capture your elapsed time.

**MITSUBISHI** [00:50]

So it sounds like maybe they already made the repair and they didn't use the IVR. Is that okay? So you are going to have to be the boy genius and figure out, go in and look at your IVR time as it sits right now, the elapse. Then you're going to maybe tomorrow call in and that throws you into progress, hang up the phone, set a timer to capture

**Jaymeson Brady** [00:54]

Yeah.

**MITSUBISHI** [01:13]

You can't,

**Jaymeson Brady** [01:23]

Okay. So they did IVR

**Jaymeson Brady** [01:30]

into it initially for 10 hours when they did the work.

**Jaymeson Brady** [01:37]

Yeah.

**Jaymeson Brady** [01:41]

We've got enough time and IVR'd onto it for what we need.

**MITSUBISHI** [01:42]

Okay, so you just need to call into the phone, pick up the phone because you're stuck in that waiting on materials because they never clocked out. So in theory, you've told Home Depot, the job's not done. You stopped the clock when you did waiting on material. So you've told Home Depot, hey, job's not done because I am waiting on material.

**Jaymeson Brady** [02:01]

Okay.

**Jaymeson Brady** [02:07]

Okay. I got you.

**MITSUBISHI** [02:08]

So, without looking at the log and understanding and all that, but you need to get that to a completed status because I don't know how many days this has been from the dispatch and the clock in and the clock out to waiting on materials. I don't know how many days it has elapsed, but you may have already failed this call on the scorecard. I don't know how many days it has elapsed.

**Jaymeson Brady** [02:30]

Okay. Because they IVR'd on it on March 30th.

**MITSUBISHI** [02:35]

You know that this is-- So you told Home Depot that you've been waiting on material since March 30th, and today is April 20-something.

**Jaymeson Brady** [02:36]

Was the last IVR time.

**Jaymeson Brady** [02:46]

Yeah, I just caught this one today working with the branch and trying to inform them.

**MITSUBISHI** [02:53]

Do you know who your fleet admin is?

**Jaymeson Brady** [02:58]

I think I can, is that who would be emailing like to say, hey, get it out, get it into complete status?

**MITSUBISHI** [03:00]

Do you know--

**MITSUBISHI** [03:09]

In a perfect world, they would be talking about asking you for updates.

**MITSUBISHI** [03:15]

Because it's been over, it's coming up on 30 days. So if you want,

**Jaymeson Brady** [03:18]

Yeah, well, I think that's why they've been bugging them. Because they did get an email from our rep. Yep.

**MITSUBISHI** [03:22]

so they're reaching out to the branch.

**MITSUBISHI** [03:26]

Yeah, let's see, it's Susan, it's, they don't work in Houston. I have one in Houston, you're not his dealer. I don't know, figure out, yeah, let me know.

**Jaymeson Brady** [03:39]

I

**MITSUBISHI** [03:43]

I'll try to -- if you want to shoot me an email and ask me to tell you who your fleet admin is, then I'll have to look at my spreadsheet tomorrow.

**Jaymeson Brady** [03:50]

can figure out who it is. Because somebody's been emailing that branch telling them to get it out of that status from your guys' in. So I'm assuming that's who it is.

**MITSUBISHI** [04:00]

Yeah, let me see if there's anything on your email chain here. Yeah, I mean, I don't know what -- I truly don't know what reach you have. I hope you have a lot, but that's a problem.

**Jaymeson Brady** [04:12]

Is it Haley? Haley, I think it's

**MITSUBISHI** [04:15]

Hey, yeah, that's your FA, that's your state admin for all of your national accounts, not just Home Depot. So, but this leads back to not knowing you're, let's say, you don't, you're just, you're the service operations coordinator. So, do you have the authority and the ability to enforce the

**Jaymeson Brady** [04:17]

Haley. Yep.

**Jaymeson Brady** [04:22]

Okay.

**MITSUBISHI** [04:35]

At a local level of them not getting this done in almost 30 days, even though Haley is apparently only emailing and not calling. Do you have the ability to figure out where the disconnect is internally, why it's not getting taken care of?

**Jaymeson Brady** [04:50]

Yeah, and that's what me and Mike are working to hash out with that branch. This is the branch that the guys up there are newer. They're trying to figure out this system, so we've really been hammering them hard the last couple of days to get the process correctly with them.

**Jaymeson Brady** [05:05]

And this is going to be another prime training material. But to get this, just so I have it right, to get this one back in the status we need, they need to call them, clock in, that'll move it back into work in progress, and then complete the repair and clock out.

**MITSUBISHI** [05:06]

Okay.

**MITSUBISHI** [05:11]

Okay.

**MITSUBISHI** [05:24]

Yeah, so you're in waiting on material, so you're going to, I would say,

**MITSUBISHI** [05:28]

If you want to have them do it, that's your choice. But someone needs to call into the IVR, throws it back into progress, and I would just clock out because you've already accumulated a lot of time.

**Jaymeson Brady** [05:39]

Okay. Now, just...

**MITSUBISHI** [05:41]

That's what I would do if I was you.

**Jaymeson Brady** [05:44]

Okay, just so I know because I'm unfamiliar with this portion of it, once it goes back into work in progress, to complete it, do they call in to complete it or do they just complete it within the dispatch to

**MITSUBISHI** [05:52]

No, in progress. Just in progress.

**MITSUBISHI** [06:00]

Okay.

**MITSUBISHI** [06:05]

So I'm advising...

**MITSUBISHI** [06:07]

My personal choice, if this is right, unless you want to reach out to Haley, but I think, I don't know, she's up north, so it may be a different time zone. If you pick up the phone and call into the IVR and punch into that, it will immediately clock you back in to in progress. And if you follow the prompts, it will give you the option to

**MITSUBISHI** [06:29]

You may have to enter the number. I haven't clocked into this system in I don't know how many years. But you could, in theory, you could call in and clock in to in progress, clock in, and that clocks you back into the job. And then you could hang up and call right back in or follow the prompts. It should allow you to complete the job, complete whatever the verbiage is. It's a very simple automated process.

**Jaymeson Brady** [06:30]

clock out?

**MITSUBISHI** [06:55]

System talks to you and it gives you selection one, two, three, whatever. You should have a cheat sheet for that. I provided you a cheat sheet for the IVR. So in theory, that's what you should be able to do. But yeah, I would capture this as a teaching moment because yeah, I don't know. Yeah, that's a lot.

**Jaymeson Brady** [07:03]

Okay. Okay.

**Jaymeson Brady** [07:14]

OK. OK. But all this should be done over the phone, though, correct?

**MITSUBISHI** [07:21]

Yeah, it has to be because other than that you don't capture the elapsed time. You shouldn't be manually moving anything. That's a big no-no.

**Jaymeson Brady** [07:30]

OK.

**MITSUBISHI** [07:31]

You don't manually move anything, okay?

**Jaymeson Brady** [07:34]

OK. I'll make sure all our branches are aware of that because it sounds like maybe our location here was going in and selecting it within that. So--

**MITSUBISHI** [07:35]

So

**MITSUBISHI** [07:43]

if you manually move something, it doesn't capture elapsed time. So if you needed 16 hours

**MITSUBISHI** [07:52]

And they're manually moving it, then you lose whatever time. It doesn't count. Yeah, yeah, yeah. I mean, if you want to, I've got like three dealers I'm going to be training over the next month. If you want to start making a list of people on the service side, not the one bill side, I'm modifying my class.

**Jaymeson Brady** [07:56]

Whatever that time is in between. Okay.

**MITSUBISHI** [08:15]

To give very direct instructions to the service people from the moment it gets hacked, here's what you need to do up until it's completed and this is, if you have all this lined out and your invoicer gets this information, everything should go through. Because 90% of my problems are the dealers, the service department doesn't give two hoots what the invoicer has to deal with.

**MITSUBISHI** [08:40]

Don't you love that?

**Jaymeson Brady** [08:41]

Yeah, I'm on board with you there. So that's kind of the seat I'm in. Yep. That sounds great, though. I'll advise them to do that or I'll do it. I'll see you.

**MITSUBISHI** [08:47]

Yeah, they just, they don't care.

**MITSUBISHI** [08:50]

Yeah. All

**Jaymeson Brady** [08:57]

Kind of how our team wants that to roll here for this current call. And then, yeah, I'll get a list of names and we can get them in a training with you.

**MITSUBISHI** [09:01]

right. Yeah.

**MITSUBISHI** [09:05]

Yeah, and it may be next, it may be past next month because y'all are going to end of lease in the month next week.

**MITSUBISHI** [09:13]

And then I've got already set up training, trying to schedule dates right now. But, yeah, I recommend PM coordinators, service dispatchers, the service manager if he wants to. Maybe have the building coordinator in there to back up things that I'm saying to their service counterpart. But, yeah, I'm a firm believer, and I'm sure I've told you, if it's

**MITSUBISHI** [09:37]

Everybody in the chain doesn't understand what's going on. You can't know that you're doing something incorrectly or that you're impacting and causing a negative reaction at the end of the chain if you don't know the whole chain. So think about that. All right, I got to go. I got to go load up. I got a two-hour drive, and I got to make a baseball game by seven.

**Jaymeson Brady** [09:48]

So, yeah. Yep.

**Jaymeson Brady** [09:57]

Oh, shoot. Get rolling. We'll get this handled on our end. And if there's still issues, I'll just shoot you an email and just let me know whenever I know you're busy. So in this one, it's.

**MITSUBISHI** [09:58]

All right, I'll talk to you later.

**MITSUBISHI** [10:07]

Yeah, I'll be working in the morning.

**Jaymeson Brady** [10:07]

Sounds like we dropped the ball anyway,

**MITSUBISHI** [10:10]

All right, very good. Thanks, James. Thanks, James. Bye-bye.

**Jaymeson Brady** [10:11]

so that'll work. Thank you.

**Jaymeson Brady** [10:14]

Yep. Bye.

Positive

**AI SUMMARY**

The conversation involved Bob from NE Transport requesting Todd Babka from Parts to manage a forklift turn down and providing a PO number for the invoice, with Todd agreeing to pass the information to Steve for action.

**FULL TRANSCRIPT**

**NE TRANSPORT** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Parts is Todd.

**NE TRANSPORT** [00:06]

Hey Todd, this is Bob at cross-country. Good.

**Todd Babka** [00:08]

Hey, Bob, how are you doing today?

**NE TRANSPORT** [00:13]

Got another forklift to get turned down.

**NE TRANSPORT** [00:18]

Do what? Oh. Alright.

**Todd Babka** [00:19]

All right.

**Todd Babka** [00:25]

Excuse me. I'm just writing here my note. Turn down. Okay. All right. How quick do you need her done, sir?

**NE TRANSPORT** [00:36]

Ah, whatever, it's here. Alright,

**Todd Babka** [00:37]

Okay. I will let Steve know, and I'll have him swing in and see and turn her down here when he gets a quick chance.

**NE TRANSPORT** [00:45]

sounds good. Oh, I got a PO number to put on that invoice before I break it.

**Todd Babka** [00:48]

All right. Well, thank you.

**Todd Babka** [00:55]

Oh, okay. Okay. What you got?

**Todd Babka** [01:05]

1752. Okay. We will get it on there,

**NE TRANSPORT** [01:06]

2604-1752. All right, sounds good. Yeah, you too. Bye.

**Todd Babka** [01:12]

sir. All right. Well, thank you very much. You have a good day. Will do. Thank you. Bye-bye.

CALL 402 OF 611

## Inbound call from BAUER BUILT

April 23, 2026 | 07:12 PM | Duration: 3m 9s | From: BAUER BUILT | To: +14025942063

Inbound

Positive

### AI SUMMARY

The conversation began with Jodi Nickell (Support Rep) offering assistance, followed by Terry from BAUER BUILT explaining the challenges faced by a new technician dealing with a tug wagon.

FULL TRANSCRIPT

**BAUER BUILT** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

We're in Equipment Omaha. This is Jodi. How may I help you?

**BAUER BUILT** [00:06]

Hey Jodi, it's Terry. Hey, my guy don't know how to do those.

**Jodi Nickell** [00:09]

Hey.

**Jodi Nickell** [00:11]

The

**BAUER BUILT** [00:14]

On that tug wagon you got.

**Jodi Nickell** [00:15]

shuttle wagon?

**BAUER BUILT** [00:17]

Yeah.

**Jodi Nickell** [00:19]

Is he new? Because you guys have always fixed them.

**BAUER BUILT** [00:20]

Yeah, he kind of, he's not new to tires. He's new to the bigger stuff. I was familiar with

**BAUER BUILT** [00:29]

For some reason I thought it was like a telehandler or something, so I was good with him doing that. He's never done one of them before. So, he has no idea how to get that tank that's above it off.

**Jodi Nickell** [00:36]

The

**Jodi Nickell** [00:47]

tank

**Jodi Nickell** [00:49]

that's above it off. They just jack them up.

**BAUER BUILT** [00:51]

And it'll, well, from what it looks like, there's like a, I think it's, if I remember right, it's like a water tank maybe or a water sprayer or something. Is that what it is? It's right in front of the tire?

**Jodi Nickell** [00:55]

It's

**Jodi Nickell** [01:03]

an air compressor.

**Jodi Nickell** [01:05]

Yeah, well, it's on top of the shuttle wagon.

**BAUER BUILT** [01:10]

No, there's a piece that's like right in front of the tire.

**Jodi Nickell** [01:16]

Oh.

**BAUER BUILT** [01:17]

But he don't know, I don't know if you have to take that off or not. Usually Craig is the one that does this stuff for you guys and he's tied up. If we can get it in the air and that piece off and he can take it off, he can bring it over to me and I can do it here.

**Jodi Nickell** [01:39]

Okay. What about the Turburg?

**BAUER BUILT** [01:42]

Is that, that's... The \*\*\*\* truck, he should have no problems doing it. It should be just a, it's just a semi-truck, right? Yeah. Yeah, he should have zero problems with that. Is that the one you need right away?

**Jodi Nickell** [01:42]

Or the shuttle wagon? Not shuttle wagon, the \*\*\*\* truck.

**Jodi Nickell** [01:53]

Yeah. Okay.

**Jodi Nickell** [01:58]

Well, the shuttle wagon was more right away, but when is Craig available? That's fine.

**BAUER BUILT** [02:01]

Yeah.

**BAUER BUILT** [02:05]

First thing in the morning I could have him there? Is that going to work? Okay, I'm sorry. I did not know this is what that was. And yeah, no, he, that guy, he's been doing service calls for us forever, years. I just started getting him into the OTR stuff, so this is new to him, and I'll probably have him go back over with him so that way he can see how it's done.

**Jodi Nickell** [02:11]

Yep, that'll work.

**Jodi Nickell** [02:15]

No, you're good.

**BAUER BUILT** [02:32]

Yeah, I'm kind of like trying to train him and the only way you can do it is hands-on, but I don't have the people to send him everywhere with him. It's a huge pain.

**Jodi Nickell** [02:44]

Okay. Okay. Yeah, I haven't even seen him, so you're good. Yeah, no worries. Thanks. Bye-bye.

**BAUER BUILT** [02:45]

But I will get him over there first thing in the morning. He should be able to do the other one though. All right, I'm sorry about that.

**BAUER BUILT** [02:55]

I'm sorry. I appreciate it, though. Thank you. Bye.

## Inbound call from SHEPPARD JASON

April 23, 2026 | 07:06 PM | Duration: 4m 8s | From: SHEPPARD JASON | To: +13072280504

Inbound

### AI SUMMARY

During the call, Bryan from Equipment Share expressed confusion over discrepancies between the packing slip and the items received.

### FULL TRANSCRIPT

**SHEPPARD JASON** [00:00]

This call is being recorded.

**Adam Ratcliff** [00:03]

All right, equipment, this is Adam. I can help you.

**SHEPPARD JASON** [00:05]

Hey, Adam, this is Bryan, Equipment Chair.

**Adam Ratcliff** [00:08]

Hey.

**SHEPPARD JASON** [00:10]

Hey, I just got the box you sent here. A little confused. There's more in the box than what's on your paper here.

**Adam Ratcliff** [00:25]

Uh-oh. Let me

**Adam Ratcliff** [00:28]

pull up the deal here.

**Adam Ratcliff** [00:50]

What do you got in there?

**SHEPPARD JASON** [00:55]

So in the box, you've got the O-ring, which is 45-2771,

**SHEPPARD JASON** [01:04]

which, I mean, it's fine. It just doesn't match what's on your sheet. You have 45-22-017 on the sheet.

**Adam Ratcliff** [01:15]

There should be both.

**Adam Ratcliff** [01:18]

There should be...

**SHEPPARD JASON** [01:21]

The only thing that... Wait, let me look. I kind of just assumed it came from here. Yeah, it's from Ryan Equipment. German Ryan Gillette.

**Adam Ratcliff** [01:22]

Because I, is that the box that I shipped you?

**Adam Ratcliff** [01:33]

Yeah, that should be the 452771, a 442694,

**Adam Ratcliff** [01:45]

and a 4520406.

**SHEPPARD JASON** [01:49]

Mm-hmm. Okay, your sheet only has O-ring and washer on it, which is 4522017 O-ring.

**SHEPPARD JASON** [02:00]

And then 4420 695 washer.

**Adam Ratcliff** [02:13]

I guess I'm confused. The sheet that's in the box?

**SHEPPARD JASON** [02:20]

Yeah, well, it's a packing slip on the outside of the box.

**Adam Ratcliff** [02:24]

Yeah. God \*\*\*\* it.

**Adam Ratcliff** [02:29]

Oh.

**SHEPPARD JASON** [02:35]

I just want to make sure you're charging me for all the stuff you're supposed to. And I mean, I don't care what the part number says on the sheet as long as all your

**SHEPPARD JASON** [02:45]

As long as you're gonna get paid what you're supposed to get paid. But I got three items in the box and only two on the sheet and none of the parts, none of the part numbers match on the sheet.

**Adam Ratcliff** [02:47]

I...

**Adam Ratcliff** [02:59]

And it's got your info on there.

**Adam Ratcliff** [03:05]

They sent the wrong...

**SHEPPARD JASON** [03:09]

I mean, yeah, equipment share, A655 Delta.

**SHEPPARD JASON** [03:16]

It's all Taylor and Spicer stuff, so I mean it looks right to me,

**Adam Ratcliff** [03:21]

Yeah, no, I should be right. I just...

**SHEPPARD JASON** [03:23]

but your sheet just doesn't match within the box.

**Adam Ratcliff** [03:26]

Yeah, I need to figure out here. Let me...

**Adam Ratcliff** [03:32]

Is this number a good one to get back with you at, Brian?

**Adam Ratcliff** [03:36]

Okay, let me call you right back since I find paperwork for this.

**SHEPPARD JASON** [03:41]

No problem.

**Adam Ratcliff** [03:42]

Get my ducks in a row and I'll give you a call.

**SHEPPARD JASON** [03:45]

All good, thank you.

**Adam Ratcliff** [03:46]

Thank you. Bye.

### AI SUMMARY

Craig Lundberg from Pleasant Hill Grain called seeking service for a forklift, having been unable to reach the retired Darren Bush.

### FULL TRANSCRIPT

**MASON KODA** [00:00]

This call is being recorded.

**Todd Babka** [00:05]

Parts, just Todd.

**MASON KODA** [00:07]

Hi, my name is Craig Lundberg with Pleasant Hill Grain. We have a couple of forklifts. One of them needs service and we were given this number by Darren Bush if we need immediate assistance. I tried calling Darren last week and I tried calling him again today and he didn't pick up. So I'm calling this number and seeing if he can help.

**Todd Babka** [00:29]

Well, I can get you to where you need to be. Darren has retired.

**MASON KODA** [00:34]

Oh, okay.

**Todd Babka** [00:34]

So he retired at the first of the year. So now Michael Lowe is our service manager at Lincoln. He's handing them both stores. But I can,

**Todd Babka** [00:47]

well, let me get your number, Craig, and I will have him call you.

**MASON KODA** [00:52]

Okay. Okay. Is it Michael Lowe? Okay.

**MASON KODA** [00:56]

Okay. Sounds good. My number is, if you're ready for it,

**Todd Babka** [01:01]

Yes. I am ready.

**MASON KODA** [01:03]

402-631-7967.

**Todd Babka** [01:08]

631.

**Todd Babka** [01:14]

67. And I can give you his number too here.

**MASON KODA** [01:17]

Yeah, that'd be great.

**Todd Babka** [01:18]

Get over here to his.

**Todd Babka** [01:25]

Maybe.

**Todd Babka** [01:41]

His desk number is 402-473-1033.

**Todd Babka** [01:52]

And I got a mobile number here too for you if you'd like it.

**MASON KODA** [01:55]

Okay. Yes, please.

**Todd Babka** [01:57]

402-990-5214.

**MASON KODA** [02:04]

Okay, that's his mobile and the first one is an office phone.

**Todd Babka** [02:07]

Correct, yes. So he just left. He might be able to catch him. He said something about jumping on a meeting though.

**MASON KODA** [02:16]

Okay, well, I'll just give him some time to call me then. And if he doesn't, then I'll call

**Todd Babka** [02:19]

Okay, that'll be fine.

**Todd Babka** [02:24]

Okay. I will shoot him over an email to tell him to call you.

**MASON KODA** [02:25]

him. Alrighty.

**MASON KODA** [02:28]

Alrighty, thank you very much. I appreciate it. Yep, bye-bye.

**Todd Babka** [02:29]

You bet. Thanks,

**Todd Babka** [02:33]

Greg. Bye-bye.

### AI SUMMARY

Gustin Kelvin initiated the call to check the availability of part number 517-368-70, and Derrick Dea (Parts Supplier) informed him of its price and lack of domestic availability, resulting in a collaborative and positive exchange.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Yeah. Alright. Mm-hmm.

**GUSTIN KELVIN** [00:06]

Hi,

**GUSTIN KELVIN** [00:08]

Derrick. How goes the battle?

**GUSTIN KELVIN** [00:12]

Good.

**GUSTIN KELVIN** [00:14]

Hey,

**GUSTIN KELVIN** [00:18]

can you check out a part number and see what availability of this thing is?

**GUSTIN KELVIN** [00:25]

517-368-70.

**Derrick Dea** [00:38]

Block valve, \$5,134.74.

**Derrick Dea** [00:49]

No availability in the states, probably overseas, I have to call them to get an ETA. Alrighty. Yep, bye.

**GUSTIN KELVIN** [00:55]

I love it.

**GUSTIN KELVIN** [00:58]

Well, let me go do a test real quick, Clay, and let you know if we're going to

**GUSTIN KELVIN** [01:04]

get this thing ordered up,

**GUSTIN KELVIN** [01:09]

huh? Thank you, Derrick.

**GUSTIN KELVIN** [01:11]

Have a great day.

AI SUMMARY

Archie (Customer) called Jesse (Equipment and Parts) to order four knobs for shuttle wagon controls, while also following up on previous quotes that he hadn't received a response to.

FULL TRANSCRIPT

FAULKNER ARCHIE [00:00]

This call is being recorded.

Jesse Downey [00:03]

All right, equipment, Jesse and Parts.

FAULKNER ARCHIE [00:06]

Hey, Jesse, Archie here.

Jesse Downey [00:07]

Hey, Archie.

**FAULKNER ARCHIE** [00:09]

So they're on to something new this week. We're going to order four of the knobs that go up for the fan speed control and for the temperature control on the shuttle wagons. Now those are coming up missing.

**Jesse Downey** [00:24]

Oh, OK.

**Jesse Downey** [00:30]

Yeah, and I talked to you last week about the one quote. I sent that and I re-sent the other ones that I sent earlier. I still haven't heard anything back on any of those, just FYI.

**Jesse Downey** [00:44]

Yep.

**FAULKNER ARCHIE** [00:46]

Really? Um, let's see here, Mike Neal.

**FAULKNER ARCHIE** [01:07]

Yeah, on Monday at 7.05, he says 10-4, I'll get them a P.O.

**Jesse Downey** [01:15]

All right, well, I'll check with my person at EasyGism POs, but she usually sends them right away, but I'll check just to make sure they didn't miss it.

**FAULKNER ARCHIE** [01:26]

Yep. Yep. Sounds good.

**Jesse Downey** [01:29]

I'll get four of these knobs and over to Mr. Neal.

**FAULKNER ARCHIE** [01:33]

Thank you. See you.

**Jesse Downey** [01:34]

You're welcome. Bye-bye.

### AI SUMMARY

Carl from NAVAJO TECH called to ask about renting a forklift for a short task, and Lisa Kleeman directed him to the appropriate manager for further assistance.

### FULL TRANSCRIPT

**NAVAJO TECH** [00:00]

This call is being recorded.

**Lisa Kleeman** [00:04]

Good afternoon, Ryan and equipment. This is Lisa. How can I help you?

**NAVAJO TECH** [00:08]

Hi Lisa, this is Carl out at Cordero Rojo.

**Lisa Kleeman** [00:12]

Hello. How are you?

**NAVAJO TECH** [00:14]

I'm surviving.

**Lisa Kleeman** [00:17]

Just surviving? Oh, well, at least it's almost Friday.

**NAVAJO TECH** [00:18]

Yep, I'm a survivor.

**NAVAJO TECH** [00:22]

Yeah. Hey, I got a question for you. My granddaughter lives right up the road from where you guys are at. And I want to see what you guys charge me to rent a forklift for like one hour.

**Lisa Kleeman** [00:39]

An hour.

**NAVAJO TECH** [00:41]

I just gotta pick a propane tank up and set it on my car trailer. Okay.

**Lisa Kleeman** [00:45]

Give me one second, okay?

**Lisa Kleeman** [00:52]

Hey Carl, I'm going to give you Matt's number and I'm going to let him make all of that.

**NAVAJO TECH** [00:53]

Yes.

**NAVAJO TECH** [00:56]

Oh, okay.

**Lisa Kleeman** [01:02]

He's the manager here. His number is 605. It is a Rapid City number. He is from Gillette, don't worry. Yeah, we don't know why they did this with his, but we just take it as it is. Okay, so 605.

**NAVAJO TECH** [01:08]

Oh, okay.

**NAVAJO TECH** [01:13]

Oh,

**NAVAJO TECH** [01:15]

I know.

**NAVAJO TECH** [01:26]

Five, eight. All right.

**Lisa Kleeman** [01:27]

982-8858. And give me about five minutes. I'm going to call him real quick.

**NAVAJO TECH** [01:32]

Okay.

**Lisa Kleeman** [01:32]

Okay?

**NAVAJO TECH** [01:34]

All right. Thanks, Lisa. Bye.

**Lisa Kleeman** [01:34]

All right. Thank you. All right. Bye.

### AI SUMMARY

The conversation involved Todd (Supplier/Service Representative) processing an order and discussing the availability of a radiator hose for an older model, assuring the customer of assistance.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

Or just Todd.

**WIRELESS CALLER** [00:05]

Hey, he said just to order it.

**Todd Babka** [00:07]

Okay.

**WIRELESS CALLER** [00:09]

So, and I'd probably be there by tomorrow, wouldn't it? This is a long walk. Okay. I got a PO for

**Todd Babka** [00:11]

Yep. Yeah, should be. Okay. What you got?

**WIRELESS CALLER** [00:17]

you. S29024523-001.

**Todd Babka** [00:26]

S29024523-001.

**Todd Babka** [00:33]

Okay. I will get her ordered right now, sir.

**WIRELESS CALLER** [00:34]

I also,

**WIRELESS CALLER** [00:36]

all right, I also wanted to ask you,

**WIRELESS CALLER** [00:39]

I have another freaking ancient cat. It's a TAD.

**Todd Babka** [00:41]

Uh-huh. Uh-huh.

**Todd Babka** [00:45]

Oh my, mm-hmm.

**WIRELESS CALLER** [00:46]

What are the odds of us being able to get a lower radiator hose for it?

**Todd Babka** [00:53]

Oh, we can try. What's your serial number?

**WIRELESS CALLER** [00:56]

It's kind of worn. It's 5KB03654.

**WIRELESS CALLER** [01:02]

That's what it looks like.

**Todd Babka** [01:10]

I wouldn't

**Todd Babka** [01:14]

think that'd be tough to get.

**WIRELESS CALLER** [01:18]

Yeah, it's just kind of bent all freaking weirdy. He wouldn't run around aching to look to find one, but no one had one that would work.

**WIRELESS CALLER** [02:03]

Okay,

**Todd Babka** [02:20]

Nobody stocks that one. \$9,457, Indianapolis has got some.

**WIRELESS CALLER** [02:28]

that's fine. I mean, it doesn't have to be here quick. I can get you, I don't have it right now, but I can get you a peel for that later today.

**Todd Babka** [02:38]

Okay. That'll work. I'll write her down here on my pad.

**WIRELESS CALLER** [02:42]

Alrighty. Thank you,

**Todd Babka** [02:43]

You bet. Thank you. We'll see you tomorrow.

**WIRELESS CALLER** [02:45]

sir. Yep. Yep. See ya.

**Todd Babka** [02:47]

All right. See you, Jake. Bye-bye.

**AI SUMMARY**

Gustin inquired about the availability of wheels for the genie lift, which Derrick confirmed would be available the next day or Monday. Derrick advised Gustin to head back to the location to pick up the wheels.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick.

**GUSTIN KELVIN** [00:06]

Derrick, how's it going?

**Derrick Dea** [00:07]

Alright.

**GUSTIN KELVIN** [00:09]

Hey, I just got a silly question. The wheels for the genie lift, they're probably going to be

**GUSTIN KELVIN** [00:16]

maybe tomorrow or Monday maybe.

**Derrick Dea** [00:17]

Yep.

**GUSTIN KELVIN** [00:20]

Okay. Yeah, I'm going to head back down there and do something that's bigger than if them wheels are coming in today. I just swing by and grab

**Derrick Dea** [00:26]  
Okay. Bye.

**GUSTIN KELVIN** [00:27]  
them. Alrighty. Thank you, sir.

**AI SUMMARY**

In the conversation, Todd Babka (Company Representative) addressed a voicemail greeting issue that had confused both him and the customer.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Todd Babka** [00:05]  
Please leave your name and number after the beep. Beep.

**WIRELESS CALLER** [00:09]  
I was so confused. I'm like, what the \*\*\*\*?

**Todd Babka** [00:14]  
I don't know. Something changed when I was trying to redo my voicemail message when I was out of the office last week.

**Todd Babka** [00:22]  
And I don't know how to get that stupid greeting thing off that starts before it starts ringing.

**WIRELESS CALLER** [00:29]  
Yeah, usually when I hear that, I'm thinking, oh, it's going straight to the voice. I'm thinking, oh, he's probably on the phone or something. And weird.

**Todd Babka** [00:34]  
Nope, nope. So, yeah, it goes to that greeting and then it starts ringing after that.

**WIRELESS CALLER** [00:40]  
That's weird.

**Todd Babka** [00:40]  
So I don't know why it has to say that you're calling my phone when you're calling my phone.

**WIRELESS CALLER** [00:46]  
Sure.

**WIRELESS CALLER** [00:48]  
I don't know.

**Todd Babka** [00:49]

So, I don't know. So what do you need a coil for?

**WIRELESS CALLER** [00:54]

GB25K.

**Todd Babka** [00:57]

I don't have one.

**WIRELESS CALLER** [00:57]

GB25K.

**WIRELESS CALLER** [01:00]

You know how I figured you didn't. I got a serial

**Todd Babka** [01:03]

Oh, GP25K. I bet I don't have one. What's your number?

**WIRELESS CALLER** [01:08]

number. AT17B95672.

**Todd Babka** [01:15]

We've got a minute, Mike.

**WIRELESS CALLER** [01:27]

Okay.

**Todd Babka** [01:34]

We win engines, don't we?

**Todd Babka** [01:43]

AT17B95672.

**Todd Babka** [02:20]

Mexican

**Todd Babka** [02:28]

machine.

**WIRELESS CALLER** [02:47]

Thank

**WIRELESS CALLER** [03:02]

you.

**Todd Babka** [03:20]

At

**Todd Babka** [03:35]

least this one's not one

**Todd Babka** [03:39]

of those

**Todd Babka** [03:41]

tier one trucks.

**WIRELESS CALLER** [03:43]

Yeah, we're lucky on that part.

**Todd Babka** [03:50]

Uh, Omaha has one.

**WIRELESS CALLER** [03:53]

The deal. Okay. How much is it? Or how much would it be?

**Todd Babka** [04:00]

Today's price is \$167.76.

**WIRELESS CALLER** [04:05]

167.76. Let me call the customer and just let him know. I don't think he'll care, but I'll call you back in a minute. So, all right. Thank you.

**Todd Babka** [04:13]

Okay. Sounds good. You bet. We'll see ya. Thanks, Jake.

**WIRELESS CALLER** [04:17]

All right. Bye.

Inbound

Negative

### AI SUMMARY

During the call, Derrick Dea (Parts Supplier) informed Gustin Kelvin about the availability and pricing of a seal kit, which is expected to take several weeks for delivery.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Part number is a 51993624 for the seal kit. They're \$500 a piece, four to six weeks out. Overseas in Young Heinrich.

**GUSTIN KELVIN** [00:06]

Sorry Derrick, I couldn't connect to you. I don't know, I heard you were calling me. What's up?

**GUSTIN KELVIN** [00:18]

Ah!

**GUSTIN KELVIN** [00:26]

Oh man! Six weeks out, holy moly.

**GUSTIN KELVIN** [00:34]

Well,

**GUSTIN KELVIN** [00:36]

they must not have any problems with them then,

**Derrick Dea** [00:39]

Apparently not. I'd have to order it and expedite it, machine down, you know, get it quicker.

**GUSTIN KELVIN** [00:41]

huh? I'm just guessing six weeks out, that's crazy. Oh well. Well,

**GUSTIN KELVIN** [00:51]

I better write down that word quarter or the part number. You said it's 519.

**Derrick Dea** [00:58]  
51993624. Yep.

**GUSTIN KELVIN** [01:05]  
Thank you, sir. What has it got? Got a different number, huh? Super Seeds or something?

**Derrick Dea** [01:08]  
Yeah, it supersedes. Yep. Yep.

**GUSTIN KELVIN** [01:11]  
Wow. What if I didn't show it on my side? It just says part numbers are not available or not bound. Oh,

**GUSTIN KELVIN** [01:21]  
well. Maybe I need an update on my stuff. I don't know.

**Derrick Dea** [01:21]  
Yep.

**GUSTIN KELVIN** [01:25]  
Well, thank you, sir. I appreciate that. Keep up the good work. Man.

**Derrick Dea** [01:27]  
Yep. Me too. Bye.

### AI SUMMARY

The conversation began with a wireless caller asking Shelby (Customer Service Representative) for the location of Johnson Hardware, which Shelby provided, despite some confusion and lighthearted exchanges about communication.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Shelby Lathrum** [00:03]  
Thank you for choosing your own equipment. How may I help you?

**WIRELESS CALLER** [00:07]  
So, stupid question, where is Johnson Hardware?

**Shelby Lathrum** [00:11]  
On the address on the call?

**Shelby Lathrum** [00:15]  
I will look up the call for you. It is on 500 Scott Ave, Des Moines, Iowa.

**WIRELESS CALLER** [00:35]  
Are you there?

**Shelby Lathrum** [00:40]

Hello?

**WIRELESS CALLER** [00:43]

Address?

**Shelby Lathrum** [00:44]

I gave it to you.

**WIRELESS CALLER** [00:47]

Yeah, but I wasn't ready.

**Shelby Lathrum** [00:48]

What is your passenger doing? Why didn't he write it down?

**WIRELESS CALLER** [00:56]

You weren't on speaker. He's being a passenger princess.

**Shelby Lathrum** [00:59]

500 Scott Ave, Des Moines, Iowa.

**WIRELESS CALLER** [01:10]

Okay, say that one more time.

**Shelby Lathrum** [01:12]

500 Scott Ave, Des Moines, Iowa.

**WIRELESS CALLER** [01:19]

500 Scott Avenue.

**WIRELESS CALLER** [01:23]

Des Moines, Nebraska.

**Shelby Lathrum** [01:25]

Yes.

**WIRELESS CALLER** [01:26]

Best Plains, Illinois. Best Plains, Illinois.

**Shelby Lathrum** [01:28]

Des Moines.

**WIRELESS CALLER** [01:31]

Why do you talk so quiet, Shelby? You need to speak with your chest.

**Shelby Lathrum** [01:36]

I'm not talking quiet. I'm talking normal.

**WIRELESS CALLER** [01:40]

\*\*\*\*\* murder. Uh-huh. I don't know. Jason's phone \*\*\*\*\*,

**Shelby Lathrum** [01:46]

Yes, it does. Okay, bye.

**WIRELESS CALLER** [01:48]

though. Okay, bye-bye.

Todd confirmed the availability of oil, air, and two fuels for Eric. Eric will be at the warehouse in about 40-30 minutes.

### FULL TRANSCRIPT

**MAASKE ERIC** [00:00]

This call is being recorded.

**Todd Babka** [00:04]

All right, this is Todd.

**MAASKE ERIC** [00:04]

Sorry, I didn't recognize your number, so it goes to voicemail, Ms. Maskey. Hey, I need, I was, the guy was talking, what do you have there?

**Todd Babka** [00:06]

No problem. I was just sending me a text.

**Todd Babka** [00:14]

I have everything. I have oil, air, and two fuels

**MAASKE ERIC** [00:18]

Okay, two fuels. Okay, I'm gonna, I'm gonna, okay, I'm just gonna, let me think here. I've got my, I've got a visa on me. I'm headed your way then, so I'll be there in about 40, 30, 40 minutes.

**Todd Babka** [00:19]

all in stock. I went and...

**Todd Babka** [00:31]

Okay, we'll have them ready for you out in the warehouse.

**MAASKE ERIC** [00:32]

Thanks. Yep, goodbye.

**Todd Babka** [00:34]

All right, thanks Eric.

### AI SUMMARY

Gustin Kelvin (Customer) reached out to Derrick Dea (Parts representative) regarding a suspected problem with the tilt cylinders on a truck at Nebraska Warehouse.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Alright.

**GUSTIN KELVIN** [00:06]

Hey, how you doing today, Derrick?

**GUSTIN KELVIN** [00:09]

What a great day, huh? Hey, the factory was telling me that they think that the problem is in the tilt cylinders on this truck out here at Nebraska Warehouse.

**Derrick Dea** [00:10]

Mm-hmm.

**GUSTIN KELVIN** [00:23]

And I'm going out to take some pictures to show them.

**GUSTIN KELVIN** [00:29]

Well, I was looking up the parts for the tilt cylinder seal kits for

**GUSTIN KELVIN** [00:35]

it, and it shows that it's a 519-829-38,

**GUSTIN KELVIN** [00:42]

and that seal kit doesn't come up. It says it's an invalid number.

**Derrick Dea** [00:46]

9/11, 7/11.

**GUSTIN KELVIN** [00:47]

I don't know if there's something that... I don't know. I guess I don't understand that.

**GUSTIN KELVIN** [00:54]

But it's on that serial number, 911-79-559.

**Derrick Dea** [01:03]

Okay, I'll look.

**GUSTIN KELVIN** [01:03]

9559.

**GUSTIN KELVIN** [01:10]

Yeah, it shows a right and a left tilt cylinder. When you click on a truck, you have to go to

**Derrick Dea** [01:10]

Okay.

**GUSTIN KELVIN** [01:19]

Attachments. And then it shows the pictures of both the right and left. They do show individual seals.

**GUSTIN KELVIN** [01:26]

But the kit, it gives you a part number. I guess I don't know why. I don't even know if I need them. I'm just kind of trying to be, I don't want to say,

**Derrick Dea** [01:28]

PROACTIVE. OK.

**GUSTIN KELVIN** [01:39]

ahead of the game and see if they're even available. It just doesn't come up. So just let me know. I'm going to run over there and take some pictures for the factory so they can see what's

**GUSTIN KELVIN** [01:50]

See what's going on. They don't believe what I'm telling them.

**Derrick Dea** [01:54]

All right. Yep. Not yet.

**GUSTIN KELVIN** [01:56]

Say I got something put together wrong. Well, I didn't take anything apart. So, okay.

**GUSTIN KELVIN** [02:04]

But anyways, if you could find something out for me, I would appreciate it. And you haven't seen anything come yet for the

**GUSTIN KELVIN** [02:14]

pass

**GUSTIN KELVIN** [02:17]

for that Yale yet, right?

**GUSTIN KELVIN** [02:20]

Okay. Well, thank you, sir. I'll talk to you later. Bye.

**Derrick Dea** [02:21]

Yep. All right. Bye.

### AI SUMMARY

Chad Metzger (Company Representative) communicated with Brett Pofahl about rescheduling a driver due to bad weather, confirming arrangements for Friday instead.

### FULL TRANSCRIPT

**POFAHL BRETT** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

All right, equipment's chance.

**POFAHL BRETT** [00:05]

At 60-30 leave,

**Chad Metzger** [00:08]

Why

**POFAHL BRETT** [00:09]

I didn't see anything from this match.

**POFAHL BRETT** [00:29]

I don't think in driving this freaking wind the way it's blowing today.

**Chad Metzger** [00:35]

can't I scroll on my email?

**Chad Metzger** [00:52]

Friday. I have it set up for Friday.

**POFAHL BRETT** [00:55]

Okay.

**POFAHL BRETT** [00:57]

I was just about there, and I just thought, well, that way I'd have a better idea when they were talking,

**Chad Metzger** [01:00]

Yeah. Because I knew the weather was going to be kind of crappy today, so I think I put it in for Friday. And that way they have a chance to get a driver.

**POFAHL BRETT** [01:07]

so. Gotcha. Okay.

**Chad Metzger** [01:07]

That'll be tomorrow,

**POFAHL BRETT** [01:09]

I'll let them know.

**Chad Metzger** [01:10]

so. Cool. You bet.

**POFAHL BRETT** [01:11]

Thanks, man. Bye.

CALL 420 OF 611

Inbound call from JASON HICKS

April 23, 2026 | 03:24 PM | Duration: 1m 54s | From: JASON HICKS | To: +15152995624

Inbound

Positive

AI SUMMARY

During the conversation, Jason (Technician) addressed a low coolant issue and confirmed no charges for the customer, while Adam (Representative) coordinated the next steps for tire replacement and a future service.

FULL TRANSCRIPT

JASON HICKS [00:00]

This call is being recorded.

JASON HICKS [00:05]

Hey, so I'm down here at Will Scott. This one's my fault. I forgot to check it the other day when I was here doing the PMs.

Adam Henderson [00:06]

What was

Adam Henderson [00:15]

that?

JASON HICKS [00:17]

It was just low coolant.

Adam Henderson [00:18]

Oh, okay.

JASON HICKS [00:20]

Both codes were for low coolant.

JASON HICKS [00:25]

So, yeah, I told her that we wouldn't charge her anything for me coming down.

Adam Henderson [00:29]

Okay. Okay, yeah, sounds good. Does she want that tire replaced on the Mastercraft? You want to take it off and just take it to Pomp's? Because I can't get an answer out of them \*\*\*\*\* people.

JASON HICKS [00:32]

And then,

JASON HICKS [00:36]

I'd assume so.

JASON HICKS [00:43]

Oh, yeah, I can. And then on the heister, she okayed a cooling system flush because that coolant is looking pretty rough.

Adam Henderson [00:51]

Okay.

JASON HICKS [00:56]

So, but she doesn't want it done, like,

**Adam Henderson** [00:59]

So

**JASON HICKS** [01:02]

anytime soon.

**Adam Henderson** [01:04]

more towards like June probably.

**JASON HICKS** [01:07]

Yeah. Like, yeah. She's got, like, 200 containers or something to unload. Yeah.

**Adam Henderson** [01:15]

Okay. Yeah, I'll just open a work order and we can just call her and see if she's ready for it.

**JASON HICKS** [01:21]

Okay. All right. Sounds good. I'll talk to her about taking this tire off and, yeah, getting it off while I'm here.

**Adam Henderson** [01:23]

Yeah. All right. Thanks.

**Adam Henderson** [01:31]

Yeah, just get a picture of the other side. That way we know what brand so they match. All right. Thanks, man.

**JASON HICKS** [01:36]

Oh, yeah. Yep. Sounds good.

**JASON HICKS** [01:40]

Yep. Bye.

---

CALL 421 OF 611

## Inbound call from KUEBLER

April 23, 2026 | 03:21 PM | Duration: 1m 0s | From: KUEBLER | To: +14025942051

Inbound

Positive

### AI SUMMARY

Doug Kimber reached out to Derrick Dea (Parts Representative) to confirm the shipment of a tube ordered, which Derrick confirmed was shipped to the correct address, and Doug expressed gratitude for the service.

### FULL TRANSCRIPT

**KUEBLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, this is Derrick. Yeah. Yep, shipped out last night. Yep, to the corrected address. Yep. Yep.

**KUEBLER** [00:05]

Hey, Derrick, I went right to parts today. Hey, this is Doug Kimber. Did we get that tube ordered? Okay. You shipped it out last night?

**KUEBLER** [00:21]

2387. All right. I appreciate that. Okay. I just wanted to check with you because I didn't see any.

**Derrick Dea** [00:28]

The other one? Okay. Alright, so as I get it, I'll refund the card. Alright. Bye. Me too. Bye.

**KUEBLER** [00:31]

You should be getting that. I shipped it out yesterday, the other two. So you ought to be getting it, I don't know if it's today or tomorrow or something. Okay.

**KUEBLER** [00:44]

All righty. Thanks, Derrick. Have a good one. Bye.

CALL 422 OF 611

## Inbound call from HAMPTON DENNIS

April 23, 2026 | 03:18 PM | Duration: 10m 9s | From: HAMPTON DENNIS | To: +14026440781

Inbound

Positive

### AI SUMMARY

The conversation between HAMPTON DENNIS and Rodney Meier revolved around the handling of shipments and parts for various clients.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

You're back.

**HAMPTON DENNIS** [00:06]

Hey, all my bunch of UPS just showed up. I'm going through it right now.

**HAMPTON DENNIS** [00:14]

I have, I know what everything is minus some rubber bushings.

**Rodney Meier** [00:19]

Those are, is there four of them?

**HAMPTON DENNIS** [00:23]

There are,

**Rodney Meier** [00:24]

That's for that Jake at

**HAMPTON DENNIS** [00:27]

oh, West Hotson. Yep, okay.

**Rodney Meier** [00:27]

West Hodson. It's funny, he called me yesterday. I looked them up and they weren't due until May 12th.

**Rodney Meier** [00:37]

Yeah, they're like four half moon gaskets.

**HAMPTON DENNIS** [00:40]

Yep.

**Rodney Meier** [00:41]

Yep, yeah, those are for Jake.

**HAMPTON DENNIS** [00:46]

Deal. And then maybe...

**Rodney Meier** [00:46]

I think, I assume he got all the rest of his stuff already.

**HAMPTON DENNIS** [00:50]

Yes, he came and grabbed all that last week, early this week, late last week, something like that.

**Rodney Meier** [00:57]

Must have been this week because he just called me yesterday.

**HAMPTON DENNIS** [01:01]

And then the brake stuff for, I'm pretty sure this is for Blackburn. I'll give you this PO number quick.

**Rodney Meier** [01:08]

Oh, yep, there's some pads, some discs.

**HAMPTON DENNIS** [01:11]

Yep, pads, disc, seal, lip, stuff like that.

**Rodney Meier** [01:14]

Yep, yep, that's all for Blackburn.

**HAMPTON DENNIS** [01:15]

Yep, yep, PU1138999 is that one.

**HAMPTON DENNIS** [01:25]

And then you have the PO for Chris and Eric already done because two tickets are printed. And then a bunch of \*\*\*\*\* for Factory Cat showed up.

**Rodney Meier** [01:32]

Yes, yep.

**Rodney Meier** [01:38]

Oh, okay, that's for milk specialties.

**HAMPTON DENNIS** [01:39]

I don't know if you...

**HAMPTON DENNIS** [01:42]

Okay.

**Rodney Meier** [01:47]

Yeah, there should be four disc pads and two sets of keys.

**Rodney Meier** [01:59]

And the question I had for you that I was going to ask you when I talked to you the first time, I'm doing this head gasket for King Steel.

**Rodney Meier** [02:11]

It's a TB45. It says there's 26 head bolts. Is that right?

**HAMPTON DENNIS** [02:19]

Sure. I can believe that. It's a six cylinder. And if it's a six cylinder, it's got four. If you've got four bolts per cylinder and then two more random ones somewhere, yeah, I can believe that.

**Rodney Meier** [02:24]

Yep, it's a six-toner.

**Rodney Meier** [02:33]

Okay. It just seemed like an awful lot. Okay.

**HAMPTON DENNIS** [02:36]

Yeah, I can definitely believe that.

**HAMPTON DENNIS** [02:40]

I'm surprised it's only 26, really. I thought it'd be more like 28 or so, but yeah, no, that makes sense.

**Rodney Meier** [02:46]

Yeah, no, 26 is all I've seen.

**Rodney Meier** [02:51]

And then, of course, 26 washers,

**HAMPTON DENNIS** [02:55]

Those are tires for Flexcom.

**Rodney Meier** [02:56]

but, and hopefully all the manifold bolts and nuts and everything work because nobody has them.

**HAMPTON DENNIS** [03:02]

Yeah, I wouldn't even pull the exhaust manifold off if I was doing it. I would leave it all bolted to the head and lift it as an assembly.

**Rodney Meier** [03:08]

Well, and he hopefully isn't. I'm going to price him a gasket for each side just in case

**HAMPTON DENNIS** [03:15]

Sure.

**HAMPTON DENNIS** [03:20]

Alright, next down, next. Oh yeah, who knows out there. I told him when this whole thing started that you guys probably cooked it and it needs a head gasket now. Oh no, I don't think that's it. Weird. Three months, two months later, here we are. They're holding a head gasket.

**Rodney Meier** [03:21]

because you never know what they might be trying to do.

**Rodney Meier** [03:40]

Yeah.

**HAMPTON DENNIS** [03:42]

Yeah, well you want to print off pick tickets for that Blackburn one and then these ones for milk specialties. Are we delivering these milk specialties? Are they coming to get them or what?

**Rodney Meier** [03:50]

Yep, I certainly can.

**Rodney Meier** [03:55]

Yes, I'll get a hold of that Frank Albanese. He's the one I was getting email from. He actually went through Brett and

**HAMPTON DENNIS** [04:03]

Oh sure.

**Rodney Meier** [04:05]

he's kind of, Brett's been included in with that whole thing. So I will send Frank an email and let him know that they're there at their store ready to pick up.

**HAMPTON DENNIS** [04:14]

Awesome. Yeah, because then I got Wes Hodson's stuff set here. Is this

**HAMPTON DENNIS** [04:21]

Are these gasket deals, are they a part of the building? Okay, perfect. That's what I thought. I'm going to double check. That's Eric Moore's stuff. That's Chris Vessels. Radiator hose. Those tires are for Luke. He needs, when he comes up to

press those next week. Take that out to Ross. Take that to the trash. Perfect.

**Rodney Meier** [04:23]

They're already built out.

**Rodney Meier** [04:27]

Yep, they're already billed out, so that's not a problem.

**Rodney Meier** [04:45]

I was going to tell you, I had to talk to Brandon. I had to get the new login for Factory Cat because his expired. And he went to send it to me. He goes, well, it says you're out of the office. I said, well, I am. I said, I'm down in Texas. I'm on a working vacation. Well, aren't you a dedicated guy?

**HAMPTON DENNIS** [04:45]

All right. Yeah, if you want to...

**HAMPTON DENNIS** [04:53]

Oh,

**HAMPTON DENNIS** [05:06]

sure.

**Rodney Meier** [05:07]

I said, "Well, you know, it helps to keep up with all this \*\*\*\* so I don't get far behind when I get back." "Oh, yeah, I guess that makes sense." "Well, you're really dedicated." "Well, I don't know if I'd call it dedicated. Let's just say I'm just trying to keep myself from having a \*\*\*\*\* of stuff when I get back."

**HAMPTON DENNIS** [05:15]

Yeah,

**HAMPTON DENNIS** [05:22]

exactly. If you work a little bit now, it's not so bad when you come back. I worked, quote-unquote, ahead last night and tried putting some \*\*\*\* in play for when I'm gone tomorrow.

**Rodney Meier** [05:26]

No, no.

**Rodney Meier** [05:37]

Yeah.

**HAMPTON DENNIS** [05:38]

It's not as bad Monday when I come back.

**Rodney Meier** [05:41]

And I will be, I'll let you know too, I am going to take all of Monday off. We're going to split up our drive back. So I probably won't be online at all Monday. I'll put in for a PTO.

**HAMPTON DENNIS** [05:52]

Sure, that's perfectly

**HAMPTON DENNIS** [05:55]

fine. Nope, that's perfectly fine. It's nice that you don't split that drive up so you're not trying to hammer it all out in one go.

**Rodney Meier** [06:03]

Yeah.

**Rodney Meier** [06:05]

Yeah. All right. The Blackburn stuff should be printing on the back printer.

**HAMPTON DENNIS** [06:15]

Perfect.

**HAMPTON DENNIS** [06:19]

I'm going to grab it on my way out.

**Rodney Meier** [06:19]

I would say that death...

**Rodney Meier** [06:23]

I don't know if I can quote, but I better not because this phone is being recorded. So, yeah,

**HAMPTON DENNIS** [06:28]

Well, I'll say Rod Meyer got an A+ on this phone call. Whoever his boss is, he needs to give him a raise. Feel, know that works for me, Rod. I'll let you go and we'll get to getting.

**Rodney Meier** [06:39]

there you go. There you go.

**Rodney Meier** [06:51]

Yep, I will. I'm printing that. I'll print that ticket for milk

**HAMPTON DENNIS** [07:00]

No special piece.

**Rodney Meier** [07:01]

specialties here in a minute. So it'll be on the printer.

**HAMPTON DENNIS** [07:05]

Awesome. I'm going to run these out to rocks and lift out to the trash and keep on keeping on.

**Rodney Meier** [07:12]

All right. Sounds good.

**HAMPTON DENNIS** [07:13]

Did you, have you found pricing availability on that bracket and some poise and stuff? Okay.

**Rodney Meier** [07:18]

No, no. In fact, I had to laugh. Dan called me. I printed off the Cascade side shift so he could see that all he needed was that cylinder. And I just sent it to him and it wasn't 30 seconds. He called me. Yeah, I tore that apart. I think all I need is that bar with the cylinder.

**HAMPTON DENNIS** [07:37]

Yep. We've.

**Rodney Meier** [07:40]

I said, "Yeah, probably that. The wear pads on the bottom were completely gone and the wear pads on the top are almost gone." And so I said, "Yeah." I said, "Well, that's probably part of the reason why it probably snapped a cylinder off to begin with because there wasn't anything to drag on it anymore."

**HAMPTON DENNIS** [07:46]

Yeah. Which is.

**HAMPTON DENNIS** [07:49]

Yep, which is par for the course.

**HAMPTON DENNIS** [07:56]

Boy, there was no, exactly, there was no wear bars, so it was steel on steel, and then it just wears that down, and it takes one time to catch the forks on something, and boop, it's broken.

**Rodney Meier** [08:10]

"Well, and they, you know, they're always trying to slide pallets on the floor."

**HAMPTON DENNIS** [08:12]

Yeah. What? No, that never happens.

**Rodney Meier** [08:17]

"No, no, that's right."

**Rodney Meier** [08:20]

He even said that. He said, well, we can keep these idiots from doing it again. Yeah, well, good luck with that.

**HAMPTON DENNIS** [08:24]

Yeah, if you find a way, let me know so I can pass the word.

**Rodney Meier** [08:29]

Yeah, no \*\*\*\*. I said, you know, I'm probably guilty of it too a time or two.

**HAMPTON DENNIS** [08:35]

Yeah, I mean, I've done it. I think everybody who's ever been a forklift has done it.

**Rodney Meier** [08:40]

As long as it's not a heavy piece, you can usually do it pretty good. But I imagine they get a pallet of feet and try and slide it. You know, they're probably talking a couple thousand pounds. Might be a little much for it.

**HAMPTON DENNIS** [08:52]

You're grunting some stuff at that point.

**Rodney Meier** [08:57]

Yep. All right. That ticket for milk specialties is, should be on the printer here shortly.

**HAMPTON DENNIS** [09:03]

Perfect. I will walk back up front and get it.

**Rodney Meier** [09:06]

All right. And I will,

**Rodney Meier** [09:10]

let's see, try to think. I forgot what it was I was supposed to look up for that. I got a serial number. I forgot to write it down.

**HAMPTON DENNIS** [09:16]

All the pulley stuff, that pulley that sits on top of the main lift cylinder. Yep.

**Rodney Meier** [09:19]

Police, there you go.

**Rodney Meier** [09:21]

Yep. For the side shift.

**Rodney Meier** [09:25]

I'm writing it down this time, so don't forget it. I got a serial number here. I have Jeff written down, but I didn't do anything else.

**HAMPTON DENNIS** [09:30]

Yep. I'm pretty sure it's

**Rodney Meier** [09:31]

So, all right, I'll get it hooked up. I'll get it coming to you.

**HAMPTON DENNIS** [09:36]

the guys at ABC Storage, but I can never remember.

**HAMPTON DENNIS** [09:42]

Cornelio?

**Rodney Meier** [09:44]

Oh, yep.

**HAMPTON DENNIS** [09:45]

I'm pretty sure that was Cornelio standing there with him, but...

**Rodney Meier** [09:49]

Yep. Sure. That would be it, probably,

**Rodney Meier** [09:55]

yeah. All righty. Sounds good.

**HAMPTON DENNIS** [09:56]

Yeah. I appreciate it, Rod. Thank you.

**Rodney Meier** [09:59]

All right. You bet. Talk to you later. All righty. Bye.

**HAMPTON DENNIS** [10:01]

Yep. Yep. Bye.

---

CALL 423 OF 611

## Inbound call from KENT FEEDS

April 23, 2026 | 03:12 PM | Duration: 2m 5s | From: KENT FEEDS | To: +14026440781

Inbound

Positive

### AI SUMMARY

In the conversation, Rodney Meier (Sales rep) discussed the necessary assembly parts with KENT FEEDS, confirming the inclusion of wear pads and a cylinder.

### FULL TRANSCRIPT

**KENT FEEDS** [00:00]

This call is being recorded.

**KENT FEEDS** [00:03]

Yeah, I don't know why.

**Rodney Meier** [00:03]

Hey, Dan, I lost you there for a

**Rodney Meier** [00:08]

minute. Yeah, hard to say. I did just send you a breakdown of that assembly in an email. Yeah, I think that just that strip with the cylinder is all you really need and then some wear pads to put up underneath there.

**KENT FEEDS** [00:09]

Okay. Yeah, yeah, that would work great.

**Rodney Meier** [00:27]

And I sent you pricing information and part numbers.

**KENT FEEDS** [00:27]

Does the... Okay, well we need the part so we might as well get the stuff, okay? Is there where pads at the bottom where it locks on to the bottom of the carriage? Okay, this has nothing. So...

**Rodney Meier** [00:38]

Okay, okay.

**Rodney Meier** [00:45]

Yes, there is. Yes, there is.

**Rodney Meier** [00:50]

Yep.

**KENT FEEDS** [00:52]

Give me all wear pads and the tin piece with the cylinder on it and I should be able to work with that. Is the cylinder...

Excellent, excellent. I would assume

**Rodney Meier** [01:00]

Yep, I think that should be what you need. And it is all in Kansas City, so it should be there tomorrow.

**Rodney Meier** [01:11]

All right.

**KENT FEEDS** [01:12]

Boom, the cylinder is complete. You don't have to put the ends on it or anything or a shaft in it. It should be all complete.

Excellent. Let's do that. Yep. Yep. No problem.

**Rodney Meier** [01:16]

Nope, nope. It's all ready to fit in there.

**Rodney Meier** [01:22]

Yeah, the only thing you'll have to change is the fittings come out of that cylinder for the hoses.

**Rodney Meier** [01:30]

Otherwise, you should be good. And that drawing I sent you in the attachment, I sent it to Tiffany. You'll be able to see how it kind of all goes together.

**KENT FEEDS** [01:33]

Okay. Excellent. Very good. That takes a load off today. Okay. Well, thanks again, and I'll talk to you later. You bet. Bye.

**Rodney Meier** [01:49]

All right. Thank you, Dan.

**Rodney Meier** [01:52]

All righty. Bye.

### AI SUMMARY

Rodney assisted Kent with a missing part for a cylinder fitting over the carriage, confirming an email was sent for further assistance.

### FULL TRANSCRIPT

**KENT FEEDS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Ryan equipment this rod.

**KENT FEEDS** [00:05]

Hey there, Rod. This is Dan. I got it tore apart. I got the cylinder off and I picked up the piece that slips over the top of the carriage that has a cylinder on it. Part of that is missing. It's war paper thin in a couple

**Rodney Meier** [00:16]  
Yep, yep.

**KENT FEEDS** [00:25]  
Spots, I mean, we need a new part for the cylinder that fits over there, you know.

**Rodney Meier** [00:32]  
Sure. I did just send you an email.

CALL 425 OF 611

**Inbound call from HAMPTON DENNIS**

April 23, 2026 | 02:45 PM | Duration: 7m 12s | From: HAMPTON DENNIS | To: +14026440781

**Inbound** **Positive**

**AI SUMMARY**

During the call, Rodney Meier (Sales rep) and Hampton Dennis engaged in a productive discussion about transfer orders and the status of various parts needed for their operations.

**FULL TRANSCRIPT**

**HAMPTON DENNIS** [00:00]  
This call is being recorded.

**Rodney Meier** [00:04]  
Good morning.

**HAMPTON DENNIS** [00:06]  
Good morning, Rod. How are you?

**Rodney Meier** [00:07]  
I'm good. How are you?

**HAMPTON DENNIS** [00:10]  
Good swimming in it. I've got 904 things going on right now. I wanted to let you know that transfer order ending in 4349 and 4356. Everything is here.

**Rodney Meier** [00:16]  
Well, when you hit a thousand, you'll have it made.

**Rodney Meier** [00:32]  
Okay.

**HAMPTON DENNIS** [00:34]  
And then can you

**Rodney Meier** [00:34]  
That's all that stuff for Trevor.

**HAMPTON DENNIS** [00:39]  
– correct, correct. There's the – the one transfer was the 2,000 hour for Trevor, and then the other transfer was the tires for Pilger Co-op. When or how are the rims coming?

**Rodney Meier** [00:51]

Yeah.

**Rodney Meier** [00:55]

They'll be there tomorrow on UPS.

**Rodney Meier** [00:59]

For some reason they didn't make the truck. I actually got an email that there was an issue with them getting chipped out yesterday. So I would assume they'll be there tomorrow.

**HAMPTON DENNIS** [01:09]

Are they coming TVH or they were coming –

**Rodney Meier** [01:13]

They're coming from TBH on UPS.

**HAMPTON DENNIS** [01:13]

Are they coming to MLA? Okay. Okay, perfect. And then while I got you on the phone, I need you to look up the pulley system for the side shift hoses that go over that main lift cylinder for this serial number. You ready for it?

**Rodney Meier** [01:36]

Give me a second. Ready.

**HAMPTON DENNIS** [01:39]

It's AT3535404. I had a Jeff Dusick walk in with a mangled bracket.

**Rodney Meier** [01:52]

Is it just the big pulley or is it the three little ones?

**HAMPTON DENNIS** [01:55]

It's the three little ones, and he needs everything from basically the mounting point up.

**Rodney Meier** [02:04]

Sure. Even the brackets.

**HAMPTON DENNIS** [02:04]

It needs the bracket, the pins, the three rollers, stuff like that. You want to email me price and availability on that so I can get back with them? I've got to get with Lincoln to get a guy to Columbus. Luke's got two turret trucks down, and he's in the middle of an ADM shuttle wagon service.

**Rodney Meier** [02:16]

Yep,

**Rodney Meier** [02:31]

yep. Okay, well, that must have been why Dan called him about the side shift cylinder broke off of their machine. He said he thought maybe they could weld it back on. I said, well, ask Luke if he's willing to do it because I don't know if he would or not. Luke must have said he didn't think he wanted to try it. So...

**Rodney Meier** [02:51]

Did you get, what's that?

**HAMPTON DENNIS** [02:51]

The side shift cylinder for who?

**HAMPTON DENNIS** [02:56]

The side shift cylinder broke for who?

**Rodney Meier** [02:58]

On Kent Feeds on their 2C5000.

**HAMPTON DENNIS** [03:01]

Oh, sure.

**Rodney Meier** [03:03]

You got two gallons of antifreeze from the other store too, didn't you?

**Rodney Meier** [03:08]

Okay, that goes with Trevor's also.

**HAMPTON DENNIS** [03:14]

Yep. Yeah, I guess I didn't see transfer paperwork for that.

**Rodney Meier** [03:15]

There should be two tires for FlexCon should be there on UPS today from Lincoln.

**HAMPTON DENNIS** [03:19]

Yeah.

**HAMPTON DENNIS** [03:23]

Perfect. Yeah.

**Rodney Meier** [03:25]

And there should be a radiator hose and a seal coming. The hose is for Apache and the seal is for Eric Moore. Should be tickets on the printer for them.

**HAMPTON DENNIS** [03:36]

Oh, at EBM.

**HAMPTON DENNIS** [03:39]

Perfect. I'll look at those right now.

**HAMPTON DENNIS** [03:46]

Yep, got them right here.

**HAMPTON DENNIS** [03:51]

Well, I will let you get at it so I can get phone calls made to try to get a text to Columbus.

**Rodney Meier** [03:59]

Yeah, I got a quick question I was going to ask yesterday and I forgot you were on the road yesterday. Did we ever get that fuel injection pump from Dualift from Omaha?

**HAMPTON DENNIS** [04:06]

Sure, what's up?

**Rodney Meier** [04:14]

I had ordered a fuel injector pump for dual lift. It wasn't the right one and they sent it to Omaha and Richard was supposed to send it up to us on the shuttle.

**HAMPTON DENNIS** [04:14]

Fuel injection pump for...

**HAMPTON DENNIS** [04:28]

No. No, I have not seen it.

**Rodney Meier** [04:29]

All right, I'll find out from Richard if he ever sent it or if he sent it and it got as far as Norfolk and heavy and they kept it there thinking it was for them.

**HAMPTON DENNIS** [04:39]

Yeah. Okay. Deal. Well, that works for me.

**Rodney Meier** [04:42]

Because I told him I was going to give him credit for whatever I could get because I figured it would be a restock. But, and yeah, there'll be some -- Ross needed an injection pump and some hoses for Nucor.

**HAMPTON DENNIS** [05:02]

Correct. For NU-06.

**Rodney Meier** [05:04]

Yep, he gave me the Cummins numbers and they crossed them to Taylor. So I ordered them from Taylor. They'll be there tomorrow. He wanted them for Monday and I thought if I second to air them, they won't deliver them until frickin' one o'clock in the afternoon and then he'll be \*\*\*\*\* and moaning 'cause he didn't get them in time. So,

**HAMPTON DENNIS** [05:21]

Yep. He's on PTO tomorrow, so he won't be here. That's his Monday plan.

**Rodney Meier** [05:25]

all right, well, I ordered them next to air so they'll be there for first thing Monday morning so he won't have an excuse.

**HAMPTON DENNIS** [05:30]

Perfect. Awesome. Nope, that works for me.

**Rodney Meier** [05:36]

Other than that, I think there's some seal kits coming for them. Trevor needed a seal kit. Ross needed a seal kit for Bader's Highway.

**HAMPTON DENNIS** [05:45]

Yep. Yep.

**Rodney Meier** [05:46]

Those should all be there tomorrow.

**Rodney Meier** [05:52]

I think other than that, I got everything else caught up.

**Rodney Meier** [05:59]

I'm looking up a head gasket for King Steel right now. They want to replace the head gasket on our GP40.

**Rodney Meier** [06:09]

And I'm waiting to hear back on a side shift carriage for Kent Feeds. He wanted to price a whole new frame. So I'm waiting for a price back from Cascade on that.

**HAMPTON DENNIS** [06:21]

Because just the hang on side shift is what broke, I assume.

**Rodney Meier** [06:25]

Yeah, the cylinder broke off.

**HAMPTON DENNIS** [06:28]

Yeah, yeah.

**Rodney Meier** [06:29]

And I was thinking, doesn't that bar fit underneath that frame?

**HAMPTON DENNIS** [06:33]

It does. That side shift.

**Rodney Meier** [06:34]

He said he thought it was welded, but I thought he could replace that bar in that cylinder.

**HAMPTON DENNIS** [06:41]

Oh, I got Yancey, \*\*\*\*\*, and Colin B. Rod. I'm going to let you go.

**Rodney Meier** [06:44]

All right. Well, you better get on with him.

**HAMPTON DENNIS** [06:46]

Yep. Thank you. Bye.

**Rodney Meier** [06:47]

All right. Later. Bye.

CALL 426 OF 611

Inbound call from IRWIN ANTHONY

AI SUMMARY

Rodney Meier (Sales rep) and Irwin Anthony (Customer, Caller) discussed the expected delivery of equipment and the details regarding a purchase order, while also acknowledging Rodney's limited availability due to a working vacation.

FULL TRANSCRIPT

IRWIN ANTHONY [00:00]

This call is being recorded.

Rodney Meier [00:04]

Ryan Equipmentist, Rod.

IRWIN ANTHONY [00:06]

Rod, hey, it's Matt, TMS. Getting your stuff together on that next day or pieces. Is that, are we figuring tomorrow then we'll have them?

Rodney Meier [00:08]

Hi,

Rodney Meier [00:16]

Matt. Should have them tomorrow.

IRWIN ANTHONY [00:18]

Should have them tomorrow, okay. Yeah, whenever you get, if you get a tracking at any point, let me know what that is on the, just email me that, please.

Rodney Meier [00:24]

Yeah, I might not see it until tomorrow morning, but I can certainly get one to you as soon as I get it.

IRWIN ANTHONY [00:30]

Yep, sounds good. I will, I'll get that PO going then.

Rodney Meier [00:34]

Yeah, yep, nope, that'll be fine. Just a heads up for you, I'm on kind of a working vacation. I'm actually down in Texas right now.

IRWIN ANTHONY [00:35]

Okay. Thank you.

Rodney Meier [00:46]

I'm working like three hours in the morning and one hour in the afternoon. We're down visiting my son and my grandkids. So I'm kind of working to stay caught up and then taking some time off too. So if you don't get a response right away, that's the reason why.

IRWIN ANTHONY [00:58]

Okay. Well,

**IRWIN ANTHONY** [01:01]

okay. No, that's fine. Otherwise, I'll, you know, throw an email if I don't think that's what's going on.

**Rodney Meier** [01:07]

Nope, that'll be great.

**IRWIN ANTHONY** [01:09]

Okay. Thank you.

**Rodney Meier** [01:10]

You bet. Thanks, Matt. Bye.

**IRWIN ANTHONY** [01:11]

Bye.

### AI SUMMARY

Cooper Patrick reached out to Shelby Lathrum to discuss an urgent matter regarding a unit with error codes after a brief call from Todd at Johnson Hardware.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**COOPER PATRICK** [00:07]

I sure do.

**Shelby Lathrum** [00:08]

Howdy.

**COOPER PATRICK** [00:09]

Hey, did Todd call from Johnson Hardware or something on a unit that's got codes on the dash?

**Shelby Lathrum** [00:16]

He did, and then he basically hung up on me because you were calling him back.

**COOPER PATRICK** [00:21]

Oh.

**COOPER PATRICK** [00:24]

Well, I couldn't answer the phone because I was driving.

**Shelby Lathrum** [00:28]

Oh, yeah. All he said was Johnson hardware and LIDON codes on the dash, and then he basically hung up after that. Is that the gist of it?

**COOPER PATRICK** [00:43]

Oh. I didn't know if he had somebody free to go do it. I mean, I don't know if I can try and go this afternoon.

**COOPER PATRICK** [00:49]

I was planning on going to Allen, Dan, but I guess I can go there.

**Shelby Lathrum** [00:54]

You can always go tomorrow morning.

**COOPER PATRICK** [00:56]

I'm off tomorrow.

**Shelby Lathrum** [00:58]

Rude. Let's

**Shelby Lathrum** [01:04]

play it by ear. I might be able to get Jason over there depending on how long Will Scott takes him today.

**COOPER PATRICK** [01:10]

I mean, I told

**COOPER PATRICK** [01:14]

them, hey, I'll plan on going this afternoon then. I'll just plan on going. I told them I could either try and get there this afternoon or first thing Monday,

**Shelby Lathrum** [01:23]

Okay.

**COOPER PATRICK** [01:24]

but I just didn't know how everything was going to work out, you know.

**Shelby Lathrum** [01:27]

Yeah. Yeah. Well, we've

**COOPER PATRICK** [01:28]

The way my life is, it never works out, so it don't matter.

**Shelby Lathrum** [01:31]

got Mike off today.

**Shelby Lathrum** [01:36]

Today and tomorrow as well. And then we've got Kyle down because his truck's broke. So we're in a mess. Did he happen to tell you what machine it was?

**COOPER PATRICK** [01:43]

All right.

**COOPER PATRICK** [01:46]

I only have one. It's the same one I was down there.

**Shelby Lathrum** [01:48]

Okay.

**Shelby Lathrum** [01:49]

Okay. They've got a few in the system, but the account is through Omaha. So I can look back and find out which one it is. Not a big deal.

**COOPER PATRICK** [01:50]

Should be a cat.

**COOPER PATRICK** [01:58]

Oh.

**COOPER PATRICK** [02:03]

Yeah, I don't remember what to... I know it's a cat. But, yeah, I'll try and plan on going this afternoon if everything works out. If not, it'll be next week, then...

**Shelby Lathrum** [02:13]

Okay. Okay.

**Shelby Lathrum** [02:16]

Yep. We'll get her figured out then. Alright, thank you. Yep. Bye. Yeah.

**COOPER PATRICK** [02:17]

All right. All right. Thank you. Yep. Hey, I got you on the phone,

**COOPER PATRICK** [02:24]

too. Dave said something about something with bushings. Was there something getting bushings or

**Shelby Lathrum** [02:29]

Bushings.

**COOPER PATRICK** [02:29]

something? I mean, I don't see nothing on my work orders.

**Shelby Lathrum** [02:31]

Um, interesting.

**COOPER PATRICK** [02:33]

All I had was load wheels, well, then batteries, but batteries, they're having somebody else do them,

**Shelby Lathrum** [02:40]

Oh. Like the PMs on the batteries? Oh.

**Shelby Lathrum** [02:46]

Um, what about the Versa scissor lift tables? Is that what they're having other people do?

**COOPER PATRICK** [02:54]

so. Scissor lift tables.

**Shelby Lathrum** [02:56]

That's what these are called in our system. It's Vestal scissor lift tables. I don't know what that is.

**COOPER PATRICK** [03:02]

Oh, they're on my...

**COOPER PATRICK** [03:05]

They're not batteries?

**Shelby Lathrum** [03:07]

Nope. Not from what this is showing, anyways. It's called Vestal scissor lift tables.

**COOPER PATRICK** [03:17]

Oh, I guess, yeah, we'll do those. I mean,

**Shelby Lathrum** [03:17]

I...

**Shelby Lathrum** [03:21]

No. I'm not seeing anything about... All that we have open is load wheels and then the PMs you're assigned to. So I'll have to go back through some emails and see what he's talking about.

**COOPER PATRICK** [03:22]

I know what those are,

**COOPER PATRICK** [03:36]

but... So the PMs are... They're not battery? I swear they said <REDACTED\_ENTITY> would be Hawker.

**Shelby Lathrum** [03:41]

They say M4.

**Shelby Lathrum** [03:44]

For, I think that's like miscellaneous. Yeah, miscellaneous material. Yeah.

**COOPER PATRICK** [03:47]

Oh. Okay. Then, yeah, then...

**COOPER PATRICK** [03:51]

I was messed up. I don't know. If I don't have a name or nothing, I don't know what they are.

**Shelby Lathrum** [03:53]

That's alright. Yeah, I don't know what he's...

**Shelby Lathrum** [03:59]

Yeah. Um, I don't know what he's talking about with bushings. I don't even see anything, like, recently that would be in relation to that.

**COOPER PATRICK** [04:09]

He said somebody come and put a wire harness on for a pallet jack and that didn't work so it needed bushings. I'm like, I don't know. I don't see nothing on my side.

**Shelby Lathrum** [04:16]

Okay.

**Shelby Lathrum** [04:18]

That's a little more. Mike came and replaced the wire harness, and I will have to get with him and Adam about the rest of it then, and find out what's going on with that.

**COOPER PATRICK** [04:28]

Okay. Because he's like, are you doing that too? I'm like, I have no clue what's going on. All I know is I'm assigned to load wheels.

**COOPER PATRICK** [04:35]

I didn't see nothing else on my deal.

**Shelby Lathrum** [04:39]

Yeah. Yeah, I don't think so.

**COOPER PATRICK** [04:40]

I said maybe parts are on order. They're not here yet.

**Shelby Lathrum** [04:45]

Yeah, we'd have to have a work order open, but we do not. So I'll get down to the bottom of this one.

**Shelby Lathrum** [04:53]

Okie dokie.

**COOPER PATRICK** [04:55]

Yep. All right. Thank you. So I'll plan on going this afternoon if I freed up. Well, I got those tables to do so probably Monday,

**Shelby Lathrum** [04:56]

All right. Yep, no problem.

**Shelby Lathrum** [05:04]

Okay. And if I can get someone else there sooner, I will.

**COOPER PATRICK** [05:04]

but just depends.

**COOPER PATRICK** [05:10]

All right. Let me know.

**Shelby Lathrum** [05:11]

Okay. I can do that. All right. Yep, no problem. Bye.

**COOPER PATRICK** [05:13]

All right. Thank you. Bye. Bye.

### AI SUMMARY

During the conversation, Dan from KENT FEEDS reached out to discuss a replacement carriage for a Caterpillar forklift that has wear issues.

### FULL TRANSCRIPT

**KENT FEEDS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Brian, equipment is brought.

**KENT FEEDS** [00:06]

Hey there, Rob. This is Dan again. I'm looking at this thing. It's going to be pretty difficult to get a welder in there to try to weld it. The boss gave us a quote on a replacement carriage for that. And this carriage also doesn't have anything to wear on the top as far

**Rodney Meier** [00:08]

Get in.

**Rodney Meier** [00:15]

Okay.

**Rodney Meier** [00:20]

Okay.

**KENT FEEDS** [00:29]

As far as where it slides, there is no UHMW. It's steel to steel and it's grinding.

**Rodney Meier** [00:35]

Sure. Sure. Yeah, there's probably a set of wear strips that go in there that are probably just wore down. What's the serial number of that machine,

**KENT FEEDS** [00:36]

So,

**KENT FEEDS** [00:41]

there's supposed to be...

**KENT FEEDS** [00:46]

That machine is serial number AT9034858.

**KENT FEEDS** [00:58]

It's Caterpillar 2C5000 2013. And if--

**Rodney Meier** [01:03]

Dan? Sure.

**Rodney Meier** [01:09]

Let me just look and see what kind of a side shift is on there.

**KENT FEEDS** [01:14]

yeah, this is a welded on.

**Rodney Meier** [01:15]

They make two different styles. There's a hang on and then they have what they call an integral.

**KENT FEEDS** [01:20]

Yeah, could a guy change this into the hang on?

**Rodney Meier** [01:28]

Well, that's possibility. That's what I was going to look at and see what we had.

**KENT FEEDS** [01:34]

We need something with a huge cylinder on it so they can move the whole forklift over. No.

**Rodney Meier** [01:44]

There you go.

**Rodney Meier** [01:49]

Does that have a fork positioner on it too?

**Rodney Meier** [01:53]

Okay. I just see it said it's got four valves, which sometimes when it gets at it has a...

**Rodney Meier** [02:00]

Fork positioner on it.

**KENT FEEDS** [02:04]

Thank you.

**Rodney Meier** [02:07]

Yeah, it looks like it must have a hang on.

**Rodney Meier** [02:16]

See what we can do here.

**Rodney Meier** [02:38]

I believe that has a 36 inch carriage.

**KENT FEEDS** [02:42]

So, did this guy ever actually get done? I brought that bolt to it.

**KENT FEEDS** [02:56]

I just kind of cobbled it together. This guy's been here for three hours because he plugged it once earlier. So I'm going to get him the \*\*\*\* out of here and then we can go out and make that a little more permanent. Okay. It's just kind of cobbled it off to put a cover over. Yeah, something, yeah. Yeah. All right. I just kind of stuffed that ball in there and taped it on as best I could.

**KENT FEEDS** [03:16]

Okay. That's where we are now. Good night. Let's take the \*\*\*\* out of there. Oh, golly.

**Rodney Meier** [03:27]

Let me do some research on this and give you a call back. It looks like it does have a hang on.

**KENT FEEDS** [03:32]

Okay.

**Rodney Meier** [03:35]

Which we should be able to get you a side shift to hang on there. And it just has a frame and a cylinder all in one piece.

**KENT FEEDS** [03:46]

Yeah, and then...

**KENT FEEDS** [03:49]

Can we upgrade to the other style? I don't know if that'd be stronger or not, but then everything will be great.

**Rodney Meier** [03:55]

No, it really, really wouldn't make any difference. It would be the same either way.

**KENT FEEDS** [03:59]

Okay.

**KENT FEEDS** [04:05]

Okay.

**Rodney Meier** [04:05]

But let me do some research because I think Cascade makes a hang on that we could put on there. And it's just the frame and the cylinder all in one piece would go on there with no problem at all.

**KENT FEEDS** [04:10]

Okay.

**KENT FEEDS** [04:19]

Okay. Yeah, that sounds good.

**Rodney Meier** [04:25]

Yeah, in fact, I've, yeah.

**Rodney Meier** [04:27]

Yeah, let me verify some part numbers and some pricing. I actually have a folder that's got that particular assembly in it.

**Rodney Meier** [04:38]

One thing I might add, so you have my email address, don't you,

**KENT FEEDS** [04:43]

No, I don't. Okay. What's your email address?

**Rodney Meier** [04:45]

Dan? Okay. Is there a possibility you could take a picture of that and send it to me by email?

**Rodney Meier** [04:57]

It's Rod, R-O-D as in dog, Meyer, M-E-I-E-R, and that's all one word,

**KENT FEEDS** [04:59]

Okay.

**Rodney Meier** [05:08]

at Ryan, R-I-O-N,

**Rodney Meier** [05:14]

equipment, spelled out,

**Rodney Meier** [05:17]

dot com.

**KENT FEEDS** [05:22]

.com. Okay. All right. We will see what we can do as far as getting a picture back to you and go from there. Do you need any measurements or anything?

**Rodney Meier** [05:37]

Yeah, because if that's what I'm thinking it is, I think we can get you without having to do the whole carriage.

**KENT FEEDS** [05:46]

Well, everything looks like it's all welded into one place. I can't take pieces off.

**Rodney Meier** [05:50]

Yeah, well, and yeah, the hang on one, the cylinder is welded to a bar which sets up underneath that frame.

**KENT FEEDS** [05:59]

Yeah.

**Rodney Meier** [06:01]

And that's what I'm thinking. We can get you just the bar with the cylinder and not the whole frame.

**KENT FEEDS** [06:06]

Well, how do you un-un-weld that? I mean, I looked at it thinking... Yeah. And the bar is welded to the cage.

**Rodney Meier** [06:10]

No, the cylinder is welded to this bar.

**Rodney Meier** [06:22]

And it might not be a hang on then because the hang on I'm looking at it is separate.

**KENT FEEDS** [06:25]

Okay. Yeah, this looks like it's all one unit because I looked around and I'm like, I can't unbolt this thing. Okay. We'll see what we can do then.

**Rodney Meier** [06:28]

That's why I'd like to see a picture of it.

**Rodney Meier** [06:37]

Sure.

**Rodney Meier** [06:43]

All right. Sounds good, Dan.

**KENT FEEDS** [06:45]

All right. Talk to you later. Bye.

**Rodney Meier** [06:46]

All right. You betcha. Thanks, Dan. Bye.

### AI SUMMARY

Dan from Kent Feeds called Rodney (Sales rep) to discuss a broken side shift on a forklift.

### FULL TRANSCRIPT

**KENT FEEDS** [00:00]

This call is being recorded.

**Rodney Meier** [00:04]

Good morning,

**KENT FEEDS** [00:06]

Hey Rod, this is Dan Kent-Peds in Columbus here.

**KENT FEEDS** [00:11]

I've got a forklift with a side shift and the side shift was welded onto the carriage itself. They broke the welds out of that thing.

**Rodney Meier** [00:20]

Dan. Uh-huh.

**Rodney Meier** [00:24]

Okay.

**KENT FEEDS** [00:24]

So the cylinder moves back and forth, but it doesn't move the side shift, obviously. It just goes back and forth because it's broken out. I have a welder here in the shop, and I brought it into the shop. And didn't know if you had a guy that could take it apart. And, you know, I can weld it if necessary. But...

**Rodney Meier** [00:31]

Sure.

**Rodney Meier** [00:33]

Sure. Okay.

**KENT FEEDS** [00:46]

Do you have anybody in the area?

**Rodney Meier** [00:47]

That'd probably be a question for Luke, if Luke would want to take it.

**Rodney Meier** [00:53]

Do you have Luke's number?

**KENT FEEDS** [00:55]

Yeah? Uh, no, I don't.

**Rodney Meier** [01:00]

Give me a second here. I've got it in my pile here somewhere.

**KENT FEEDS** [01:09]

I used to have his number. I don't have a crime now.

**KENT FEEDS** [01:18]

Oh, I think I might have it right here. Luke, Mayan, Bird, 402-949-9228.

**KENT FEEDS** [01:30]

Okay.

**Rodney Meier** [01:32]

Yeah, say, you know, give him a holler, see what he thinks.

**Rodney Meier** [01:38]

If he's willing to do it, I don't see why it wouldn't be an issue. It would be an issue.

**KENT FEEDS** [01:41]

Okay. Yeah, otherwise the guy would have to buy a whole new carriage, I guess.

**Rodney Meier** [01:50]

Yeah, usually I'd have to look it up. It might be if it's a what they call a hang on, it might not be real bad, but it'd be bad enough. If you could weld it, it'd sure be nicer.

**KENT FEEDS** [01:56]

Yeah, I don't know how long it'll last with these clowns. Okay.

**Rodney Meier** [02:06]

Well, you know, and I'm sure probably what it, you know, they're trying to shift something on the floor without picking it up.

**KENT FEEDS** [02:11]

Yeah. Yeah. Hey, man, just a sec. If you got something you want to let me get there, maybe get out of here and get it out of here. Okay. Okay.

**Rodney Meier** [02:13]

That's usually the case with most of them anyway,

**Rodney Meier** [02:19]

which I'm guilty. I've probably done it too.

**Rodney Meier** [02:28]

But yeah, if you want to just give Luke a call, that'd be fine. We can sure work it out.

**KENT FEEDS** [02:34]

I'll give Luke a holler and go from there. Okay. Yep, bye.

**Rodney Meier** [02:37]

Okay, sounds good, Dan.

**Rodney Meier** [02:40]

Thanks. You bet. Bye.

CALL 430 OF 611

## Inbound call from CRAGG GREGORY

April 23, 2026 | 02:04 PM | Duration: 1m 44s | From: CRAGG GREGORY | To: +14025942048

Inbound

Neutral

### AI SUMMARY

CRAGG GREGORY contacted Chad Metzger (Equipment Representative) regarding a yellow status for one of their turbirds during inventory, which should have been green; Chad confirmed the equipment is present and advised to notify the team.

### FULL TRANSCRIPT

**CRAGG GREGORY** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Brian, equipment, Chad.

**CRAGG GREGORY** [00:04]

Hey, Chad Forrester, how's it going?

**CRAGG GREGORY** [00:09]

Hey, so we did inventory this morning and one of our turbirds are coming up yellow and it should be green. It's

**CRAGG GREGORY** [00:18]

here. I'm just curious maybe if it's still showing out or something.

**CRAGG GREGORY** [00:25]

The serial number, the last part of it, 737-598. It's a non-DOT.

**Chad Metzger** [00:33]

Okay. 737598.

**CRAGG GREGORY** [00:37]

Yes.

**Chad Metzger** [01:10]

Yeah, I don't know. I show it there.

**CRAGG GREGORY** [01:12]

Okay, well we'll just let Kathy or one of them know where we do our dusting or somebody, let them know that it is here and for whatever reason it came up yellow on our inventory today.

**Chad Metzger** [01:23]

Okay.

**CRAGG GREGORY** [01:24]

Cool, thank you.

**CRAGG GREGORY** [01:26]

All right, see you back.

### AI SUMMARY

Carson from Highway Signing called to express frustration over a delayed forklift delivery, initially scheduled for 8 a.m., but informed by Shelby Lathrum of Rion Equipment that it would actually arrive by 10 a.m. due to scheduling issues with the hauler.

### FULL TRANSCRIPT

**SORENSON J.** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**SORENSON J.** [00:06]

Hey, this is Carson with Highway Signing. I'm calling about a forklift that I was supposed to have delivered at 8 a.m., and it's not here.

**Shelby Lathrum** [00:12]

Yes,

**Shelby Lathrum** [00:15]

I let the salesman and the rental coordinator know when they submitted that that it would not be there at 8:00 AM because the hauler doesn't even start until 8:00 AM. So I told them that it would be there before 10:00 AM and they said they would handle it from there.

**SORENSEN J.** [00:31]

I got two semis out here that I'm paying \$150 an hour, and nobody told me that it wouldn't be here until 10. Jesus Christ.

**SORENSEN J.** [00:43]

Okay. Is there anyone I can, like, is the coordinator, is there any other information I have about?

**Shelby Lathrum** [00:43]

I'm sorry they told you that.

**Shelby Lathrum** [00:51]

The coordinator is actually in Omaha. I have a message in the hauler asking when they're coming to get it because I did ask for them to come get it first thing this morning. I haven't heard back from them yet as to when they're coming.

**SORENSEN J.** [01:05]

Okay. Sounds good.

**Shelby Lathrum** [01:08]

I'm sorry.

Inbound

Positive

### AI SUMMARY

In the conversation, Scott (Customer, Caller) reached out to Shelby (Sales rep) to discuss the status of equipment pickups.

### FULL TRANSCRIPT

**SCOTT SCHREIER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Rion Equipment. How may I help you?

**SCOTT SCHREIER** [00:07]

Hey, Shelby, it's Kayla again. Hey, sorry to bug you. So I contacted the one customer that Lime Machinery, and he said he already staged it out for us, so we're good on that one. Yeah, and then the other customer, I cannot get a hold of him. So I'm not sure.

**Shelby Lathrum** [00:11]

No, you're fine.

**Shelby Lathrum** [00:23]

Oh,

**Shelby Lathrum** [00:29]

awesome. Oh.

**SCOTT SCHREIER** [00:32]

Or do you want us to just go over there and see if they have it sitting out for us to snag today? Or do you want us to just grab it tomorrow morning?

**Shelby Lathrum** [00:41]

Um, let me... One second. Let me ask my manager. Hey, Adam. Does Golden Valley typically close by now?

**Shelby Lathrum** [00:53]

Because Steve's not answering his phone for a while.

**Shelby Lathrum** [00:57]

And to find out if they can come get it.

**Shelby Lathrum** [01:10]

Would we want Roy's to just drive over there and see if they can get it or we need to get a hold of

**Shelby Lathrum** [01:19]

someone? Adam's gonna try to call him real quick. From what he sees they close at 4:30, but they're like moving warehouses so they could be like in between the two right now.

**SCOTT SCHREIER** [01:29]

Okay. That's not worried. Okay. Do you want to call me back or do you want me to... I can hold as well. I can do whatever you guys want me to.

**Shelby Lathrum** [01:39]

Yeah. Um, he's calling real quick so I should have an answer for you in just a

**SCOTT SCHREIER** [01:46]

Okay. That sounds good. Thank you.

**Shelby Lathrum** [01:49]

second. Oh, he's, he got someone, let's find out.

**SCOTT SCHREIER** [01:54]

And it could be that they just didn't recognize the phone number, so...

**Shelby Lathrum** [01:58]

Oh, yep, that's totally a possibility. People will be weird.

**SCOTT SCHREIER** [02:02]

Yeah. Yo, lots of scammers out there nowadays.

**Shelby Lathrum** [02:06]

Yes, they are. Um, they're asking if you can be there before 4:30.

**SCOTT SCHREIER** [02:12]

OK, let me switch some calls around and I will get someone headed that way.

**Shelby Lathrum** [02:17]

They're going to have someone headed that way.

**Shelby Lathrum** [02:21]

He's

**Shelby Lathrum** [02:24]

verifying that's going to work for them.

**SCOTT SCHREIER** [02:26]

OK, otherwise, if it's easier for them, we can just pick it up in the morning.

**Shelby Lathrum** [02:31]

Nope, they're good with that.

**SCOTT SCHREIER** [02:33]

OK, cool. Sounds good. Thank you,

**Shelby Lathrum** [02:34]

All right. All right. Yep, thank you.

**SCOTT SCHREIER** [02:37]  
guys. Yep, bye.

**Shelby Lathrum** [02:38]  
Bye.

**AI SUMMARY**

Derrick Day (Employee) initiated a discussion about the hydraulic tank seals for the stand-up lifts, while Derrick Dea (Employee) promised to locate the necessary information and check stock for the upcoming need.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
What's going on? Okay. Yeah.

**WIRELESS CALLER** [00:06]  
Well hello Derrick Day.

**WIRELESS CALLER** [00:10]  
So on the stand up lifts,

**WIRELESS CALLER** [00:15]  
on the hydraulic tank, on the return, that return elbow where the filter is,

**WIRELESS CALLER** [00:21]  
you had found a kit that had all those seals in it.

**Derrick Dea** [00:24]  
Well, yeah, I mean, I'm on top of my head, but I can find it again. Which color are we putting it on?

**WIRELESS CALLER** [00:26]  
All I'm finding is the individual seal numbers. You have that number off the top of your

**WIRELESS CALLER** [00:38]  
head? Okay.

**WIRELESS CALLER** [00:41]  
We're putting it on 802-773-5.

**Derrick Dea** [00:48]  
Alrighty, I don't remember, I'll just have to find it. I'm sure it's on somewhere in there. I thought we did, but let me find out and let you know. Okay. Yep. Bye.

**WIRELESS CALLER** [00:53]  
Okay, do we have those in stock, do you think?

**WIRELESS CALLER** [00:58]

Okay, if not,

**WIRELESS CALLER** [01:00]

bring it in for tomorrow, please.

**WIRELESS CALLER** [01:04]

Thank you.

**AI SUMMARY**

Gustin and Derrick discussed work orders for bushings and mass mounts, confirming the details of the work orders 802.784 and 802.784. Derrick confirmed the work orders and ended the call.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

All right, I'll move them.

**GUSTIN KELVIN** [00:06]

And what a beautiful day it is,

**GUSTIN KELVIN** [00:10]

Derrick. They want to go ahead and do them in some bushings. So that work order is 802.784.

**GUSTIN KELVIN** [00:23]

Jody's making a segment two for

**GUSTIN KELVIN** [00:26]

the mass mounts and segment three for the tilt cylinders.

**Derrick Dea** [00:32]

Yep. Fine.

**GUSTIN KELVIN** [00:33]

Thank you very much, sir. You are the best.

## Inbound call from SCOTT SCHREIER

### AI SUMMARY

Scott Schreier (Caller) reached out to Shelby Lathrum (Service rep) regarding the pickup of forklifts, confirming they would be available until 5:00 PM.

### FULL TRANSCRIPT

**SCOTT SCHREIER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Ryan Equipment. How may I help you?

**SCOTT SCHREIER** [00:06]

Hey, this is Kayla. Is this Shelby?

**Shelby Lathrum** [00:09]

Yes,

**SCOTT SCHREIER** [00:11]

Hey, Shelby. I was curious. I have a driver towing one of your or hauling one of your forklifts.

**Shelby Lathrum** [00:19]

ma'am. Yeah, Tim.

**SCOTT SCHREIER** [00:19]

Yeah, he mentioned about a timing. So we still have two more forklifts to knock out for you.

**SCOTT SCHREIER** [00:29]

What time do you guys close for us to be able to get these done for you today still?

**Shelby Lathrum** [00:36]

There will be someone here until 5:00. My concern with -- because I think he was assigned to the Golden Valley next after the Perry -- was if someone was going to be at the customer site.

**Shelby Lathrum** [00:49]

They could always be dropped off outside here but it's being someone at the customer site was a concern.

**SCOTT SCHREIER** [00:49]

Okay.

**SCOTT SCHREIER** [00:56]

Okay. All right. I'm going to do some switching. So I still have the one for that, I don't know, is it lay machinery or lie machinery?

**SCOTT SCHREIER** [01:11]

We still have that one to knock out for you guys. Would they be the same

**SCOTT SCHREIER** [01:19]

way for picking up? Do you think we have time to get that picked up still? Or should I check in with them quick?

**Shelby Lathrum** [01:27]

I don't know what time they close or leave or if they... this is my first interaction with that customer so they could have just left it outside in the key and that's a strong possibility.

**SCOTT SCHREIER** [01:34]

Okay.

**SCOTT SCHREIER** [01:38]

Sounds good. And I do apologize. Today has been a crazy day for us.

**SCOTT SCHREIER** [01:45]

Got real busy real quick. Okay, I will call over there and see what time they have to see if we can get it knocked out. If for some reason they don't allow it, do you want us to just grab it first thing tomorrow morning?

**Shelby Lathrum** [01:45]

I'm sorry, I've been slamming you guys with stuff. Yep.

**Shelby Lathrum** [02:05]

Yep, that'd be fine.

**SCOTT SCHREIER** [02:07]

Okay, sounds good. I will keep you updated on what they tell me.

**Shelby Lathrum** [02:09]

Okay, sounds good. And I'm here until 4:30, but my parts guy is here until 5:00. But if they don't see any vehicles in the parking lot, they can just drop them out back.

**SCOTT SCHREIER** [02:21]

OKAY. THAT SOUNDS GOOD.

**Shelby Lathrum** [02:22]

All right. Thank you. Yeah, not a problem. Bye.

**SCOTT SCHREIER** [02:23]

AWESOME. THANK YOU. BYE.

### AI SUMMARY

Aaron Taylor from Huxley called Shelby Lathrum (Customer Service Representative, Rion Equipment) to confirm that the purchase order was applied to his recent PM work invoices and to discuss the scheduling of future PMs.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**WIRELESS CALLER** [00:07]

Yes, this is Aaron Taylor at Huxley and at Bear Shelby. Hi, just a quick question. I got some invoices of some PM work that Greg did last week and you said you were going to put that on the PO, is that correct?

**Shelby Lathrum** [00:26]

Yeah, I applied the PO to the invoices, yes sir.

**WIRELESS CALLER** [00:29]

Okay, that sounds good. I just want to make sure I didn't want to use my credit card, so.

**Shelby Lathrum** [00:34]

Oh, no. It is applied.

**WIRELESS CALLER** [00:38]

Okay. Thank you very much. And I think he said the next PMs will be in June.

**Shelby Lathrum** [00:42]

Yeah, we looked them up and they were a little bit later. We still had some time yet before they were due.

**WIRELESS CALLER** [00:49]

Okay. Great. Thank you very much.

**Shelby Lathrum** [00:51]

Alrighty. Yep, not a problem at all. Alright, bye.

**WIRELESS CALLER** [00:54]

Yep. Bye.

**AI SUMMARY**

Gustin Kelvin (Customer) called Derrick Dea (Parts representative) to inquire about pricing for several parts including pins and bushings, providing specific part numbers and quantities.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. All right.

**GUSTIN KELVIN** [00:05]

Derrick, how's it going?

**GUSTIN KELVIN** [00:08]

Hey, I got some pictures from you, buddy.

**GUSTIN KELVIN** [00:13]

Can you shoot me a price on some of this stuff? There's pins and bushings on one side. It's a 376051.

**Derrick Dea** [00:19]

How many? Okay.

**GUSTIN KELVIN** [00:26]

Pins, 1347862. Two.

**Derrick Dea** [00:31]

Okay.

**GUSTIN KELVIN** [00:35]

Two pins, 376053.

**GUSTIN KELVIN** [00:41]

Two bushings, 376038.

**GUSTIN KELVIN** [00:49]

Oh, it looks like them are the same different bushings.

**Derrick Dea** [00:52]

Thank

**GUSTIN KELVIN** [00:53]

Oh, what the heck.

**GUSTIN KELVIN** [00:57]

Yeah, what the heck. I guess it takes four of the 376051

**Derrick Dea** [01:00]

you.

**GUSTIN KELVIN** [01:05]

and two of the, or four of the 134862s.

**GUSTIN KELVIN** [01:11]

So it takes four and four and then two and two of the pins, of course you saw the other one.

**Derrick Dea** [01:15]

Okay, 4422.

**GUSTIN KELVIN** [01:18]

Four, four, two, two. Let me know what price is and I'll

**GUSTIN KELVIN** [01:22]

call them Enterprise and say, hey, this is what it's going to cost,

**Derrick Dea** [01:25]

Okay. What was that call for the brake clean? I didn't find anything.

**GUSTIN KELVIN** [01:27]

buddy. Let's do it, right?

**Derrick Dea** [01:35]

Open. Who's the customer?

**GUSTIN KELVIN** [01:36]

You mean the brake, that valve for the cans or spray clean? That's Echo.

**Derrick Dea** [01:38]

Yeah. Who's it for?

**GUSTIN KELVIN** [01:42]

Echo for the control valve for that side chip control valve.

**Derrick Dea** [01:42]

Echo. Echo.

**Derrick Dea** [01:46]

Okay. I'll look again. Alright. Okay. Alright. I'll look again. Might have been. I don't know. I'll look again. Yep. Bye.

**GUSTIN KELVIN** [01:50]

Sorry, man. My computer's dead. I'm pretty well \*\*\*\*\*.

**GUSTIN KELVIN** [01:56]

I can't say that. I'm sorry. That was that recorded?

**GUSTIN KELVIN** [02:01]

It was. It was.

**GUSTIN KELVIN** [02:04]

Thanks, sir. Bye.

## Inbound call from OMAHA NE

### AI SUMMARY

The conversation between Jodi Nickell (Sales rep) and Brett Kane (Rion Equipment) focused on coordinating the forklift service at Northern Supply in Fremont, highlighting communication challenges and scheduling details.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion Equipment, OMAHA, this is Jodi, how may I help you? Sorry, you're breaking up. What? No.

**OMAHA NE** [00:07]

Jodi, Brett Kane, Rion, Equipment, Omaha, Lincoln, Fargo, Sioux Falls. Am I really breaking up? Nicely done. I think you guys called, somebody called Norton Supply up in Fremont.

**Jodi Nickell** [00:25]

Northern supply?

**OMAHA NE** [00:31]

God \*\*\*\* it, he said it and I've already lost it.

**OMAHA NE** [00:39]

It's a supply company in Fremont. We called him to do a PM a couple weeks ago, and they couldn't allow us to take the forklift. He's telling us that we can take the forklift anytime we want this week or next week. They're not busy with it.

**Jodi Nickell** [00:52]

I'll have to try to figure out who that was. It shouldn't be too hard since it's Fremont.

**OMAHA NE** [00:55]

I can give you a phone number.

**OMAHA NE** [01:00]

It shouldn't be that hard.

**Jodi Nickell** [01:01]

Well, you would think, but you never know.

**OMAHA NE** [01:06]

You never know,

**Jodi Nickell** [01:09]

Yes. All right. Yeah, give me a few minutes here to look and then I'll give you a jingle if I can't find it. Yep, bye.

**OMAHA NE** [01:09]

especially if the PM dropped off the PM scheduler.

**OMAHA NE** [01:16]

Well, let me know if you need more than that. I'll call the person back on my phone if I need to, if you can't find someone.

**OMAHA NE** [01:30]

Okay, thank you.

AI SUMMARY

Chris from Southern Service reached out to Kent Stewart (Representative, Organization) to confirm the part number for the main lift cylinders.

FULL TRANSCRIPT

SUDDEN SERVICE [00:00]

This call is being recorded.

Kent Stewart [00:03]

Thank you for choosing around equipment. This is Kenton Parts. Help me help you.

SUDDEN SERVICE [00:07]

Hey Kent, this is Chris from Southern Service. I had a missed call from

Kent Stewart [00:08]

Oh, yeah. I was just getting ready to leave. The rang seven times. I'm like, I don't think his answering machine is going to pick up. So I got a real quick question for you. I'm working on a machine, P28138. And if I'm reading this right for the cylinders, for the main lift cylinders, there are

SUDDEN SERVICE [00:17]

you. Yeah.

SUDDEN SERVICE [00:19]

Okay.

Kent Stewart [00:31]

2750-600. Am I doing it right? Because when I looked on the page, it just said C above, and that's the only number that I can see that matches.

SUDDEN SERVICE [00:42]

Yes, sir. That is correct.

Kent Stewart [00:43]

That is correct. Okay. I just wanted to show up. Like, oh, a guy with cylinders, I'm never good

Kent Stewart [00:49]

with them that entire. So, okay. I did it right. Yay!

SUDDEN SERVICE [00:50]

You are correct.

Kent Stewart [00:54]

Well, thank you very much, Mr. Chris. Hopefully all the rest of your calls are just as easy.

SUDDEN SERVICE [00:57]

Yes,

**SUDDEN SERVICE** [00:59]  
sir. All right. I hope so.

**Kent Stewart** [01:01]  
All right. Thank you,

**SUDDEN SERVICE** [01:03]  
All right. Bye.

**Kent Stewart** [01:04]  
sir. Bye.

**AI SUMMARY**

The conversation between JASON HICKS and Adam Henderson focused on the unexpected pricing of Valvoline products, with both discussing price comparisons and potential supplier options.

**FULL TRANSCRIPT**

**JASON HICKS** [00:00]  
This call is being recorded.

**Adam Henderson** [00:03]  
Yes,

**JASON HICKS** [00:04]  
Arnold's does not have a bucket of \$85,140. The only thing they have in a bucket is \$75,140.

**Adam Henderson** [00:14]  
sir. That'll be fine.

**JASON HICKS** [00:16]  
Okay, \$315 a bucket.

**Adam Henderson** [00:19]  
What? What the

**JASON HICKS** [00:21]  
Yeah, he told me that and I'm like, what the \*\*\*\*?

**Adam Henderson** [00:25]  
\*\*\*\* is it? Amsoil full synthetic?

**JASON HICKS** [00:27]  
So,

**JASON HICKS** [00:30]  
it's Valvoline.

**Adam Henderson** [00:33]  
Holy balls.

**JASON HICKS** [00:33]

I...

**JASON HICKS** [00:36]

It's up to you.

**Adam Henderson** [00:37]

Well, let me... \*\*\*\*, I think the stuff we sell is like

**Adam Henderson** [00:43]

\$100.

**Adam Henderson** [00:48]

Cheese and rice.

**Adam Henderson** [00:56]

I don't know why, that just like shocks the \*\*\*\* out of me.

**JASON HICKS** [01:03]

Let it lock this \*\*\*\*\* back out.

**JASON HICKS** [01:10]

I can check O'Reilly's and Oski.

**Adam Henderson** [01:31]

Yeah, we sell it for \$153.

**Adam Henderson** [01:35]

I only pay \$84.99 a bucket. Yeah.

**JASON HICKS** [01:38]

Okay. That's ridiculous.

**JASON HICKS** [01:43]

Okay. I'll call O'Reilly's and Haynes uptown to see what I can figure out. But...

**Adam Henderson** [01:49]

Okay. O'Reilly's house brand is, part number is 80042.

**JASON HICKS** [01:54]

Oh, wait a minute.

**JASON HICKS** [01:59]

8-0, wait, 8-0-0-4-2.

**JASON HICKS** [02:04]

And that's

**JASON HICKS** [02:06]

their O'Reilly's brand. Okay. All right.

**Adam Henderson** [02:08]

It's Master Pro or whatever.

**JASON HICKS** [02:13]

All right. I'll do some calling.

**Adam Henderson** [02:13]

Okay.

**JASON HICKS** [02:16]

Sounds good. Thank you.

**Adam Henderson** [02:17]

Thank you.

CALL 442 OF 611

**Inbound call from GUSTIN KELVIN**

Inbound

Positive

AI SUMMARY

Gustin Kelvin reached out to Derrick Dea (Parts) regarding a work order for an echo control valve and requested assistance with break clean due to his computer being non-functional.

FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

- Here right now.

**Derrick Dea** [00:03]

Parts, Derrick. Alright.

**GUSTIN KELVIN** [00:05]

- Derrick, how you doing? - Oh.

**GUSTIN KELVIN** [00:08]

- Hey, I've got a work order opened up for that echo for that control valve.

**Derrick Dea** [00:16]

Okay. Yep.

**GUSTIN KELVIN** [00:16]

Can you build, my computer's dead, and it only lasts like, it's dead by 11:30. Can you build out like four cans to break clean to that?

**GUSTIN KELVIN** [00:28]

- Thank you very much, sir.

**Derrick Dea** [00:29]

Oh, you betcha.

**GUSTIN KELVIN** [00:31]

How's everything else going? Everything going great?

**Derrick Dea** [00:35]

Yeah. Well, yep, bye.

**GUSTIN KELVIN** [00:37]

Okay, sir. I'll talk to you later. Bye.

## Inbound call from DEVINE WILLIAM

April 22, 2026 | 06:29 PM | Duration: 2m 45s | From: DEVINE WILLIAM | To: +15152995624

Inbound

Positive

### AI SUMMARY

In a conversation between Adam (Service rep) and Bill (Customer), they discussed the repair needs for a vehicle, including a cracked cylinder head and the installation of a battery disconnect switch.

### FULL TRANSCRIPT

**DEVINE WILLIAM** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Rion equipment, this is Adam, how can I help you?

**DEVINE WILLIAM** [00:06]

Hey, Adam, this is Bill Devine with Waste Management.

**Adam Henderson** [00:09]

Yeah, how's it going?

**DEVINE WILLIAM** [00:11]

Good, I missed your call. I'm sorry, I was out in the engine room.

**Adam Henderson** [00:13]

Oh, good. So I left you a message, but took that head off because there was coolant in the cylinders. Took it at machine shop, heads junk. It's cracked in three spots.

**Adam Henderson** [00:29]

So I ordered a new head. It should be here tomorrow. So hopefully we have this thing fixed up for you by like mid next week.

**DEVINE WILLIAM** [00:36]

Okay. Can you do one other thing for me?

**Adam Henderson** [00:38]

Sure.

**DEVINE WILLIAM** [00:40]

Can you guys put a battery disconnect switch on that?

**Adam Henderson** [00:44]

Yeah. You having problems with it going dead or something?

**DEVINE WILLIAM** [00:45]

Okay.

**DEVINE WILLIAM** [00:48]

No, it's just it should have always had one because it's parked inside the building and it's never had one.

**DEVINE WILLIAM** [00:54]

And they will not allow us to do it. Someone professional has to do it.

**Adam Henderson** [00:59]

Okay. Yeah, I get it. We have quite a few places that have to have that done that way. But yeah, we can do one.

**DEVINE WILLIAM** [01:06]

So since it's there, that'd be cool if you could.

**Adam Henderson** [01:12]

Okay, yeah, we'll get it handled.

**DEVINE WILLIAM** [01:14]

Might also,

**DEVINE WILLIAM** [01:20]

and I'm not sure if it was because of the cylinder head going bad or what, but

**DEVINE WILLIAM** [01:26]

It seems like just in the days prior it was leaving, marking its territory.

**DEVINE WILLIAM** [01:35]

So, and I don't remember, I don't know, it was

**DEVINE WILLIAM** [01:41]

steer axle, between the steer axle and the engine.

**Adam Henderson** [01:47]

Yeah. Okay, so it could have been like transmission cooler lines or something.

**DEVINE WILLIAM** [01:51]

Yeah, I could have been antifreeze, you know, because the head gasket was blown. You know, I don't honestly know.

**Adam Henderson** [01:59]

Okay.

**DEVINE WILLIAM** [01:59]

And if since you're in that far, probably ought to put a water pump on

**Adam Henderson** [02:05]

Yep, yeah, we're doing water pump, timing belt. We do all that when we take the head off.

**DEVINE WILLIAM** [02:09]

it. Okay. All right. Just thinking out loud.

**Adam Henderson** [02:12]

Yep. Yep, because you've got to take the timing belt off to do the water pump. So it's like, man, we're just doing it while we're there.

**Adam Henderson** [02:19]

Yep, and then we'll run it super hard once we get it back together and see what's leaking. All right, not a problem. Thank you,

**DEVINE WILLIAM** [02:24]

Okay. I appreciate your help.

**DEVINE WILLIAM** [02:29]

Bye-bye.

**Adam Henderson** [02:31]

sir.

## Inbound call from Rion Omaha Parts - AWD PPE

### AI SUMMARY

Steve from AWD PPE called John Howard from Rion Equipment to check on Canon supplies and invoice issues, but John indicated he wasn't the right contact for invoices.

### FULL TRANSCRIPT

**AWD PPE** [00:00]

This call is being recorded.

**John Howard** [00:04]

Rion Equipment, Omaha, this is

**AWD PPE** [00:06]

Hey, John, it's Steve calling back on the Canon supplies. I was just seeing if my shipping department ever reached out to you on the toner.

**John Howard** [00:07]

John. Yeah, so they keep calling and asking for an email to send an invoice to, but I guess I'm not the account holder or the point of contact for the entire contract or whatever we've

**AWD PPE** [00:21]

Gotcha.

**AWD PPE** [00:26]

Yeah.

**John Howard** [00:30]

I'm just a local site contact so I don't pay any of the invoices. So I don't know if that's where we're running into issues.

**AWD PPE** [00:36]

Yeah.

**AWD PPE** [00:39]

Yeah. That's probably, they're probably, normally the accounts payable department, they should have that. You don't have the email or where that goes to, do you?

**John Howard** [00:49]

I, you know, honestly, I don't know who sets that up. I would imagine someone in our IT department, but who that would be, I've got no clue. Yeah, not a problem. Yep, thank you. Bye.

**AWD PPE** [00:58]

Okay, let me double check on my – let me double check. I'm sorry about the holdup. All righty. Thank you, sir. Bye-bye.

## Inbound call from LI MITCH

April 22, 2026 | 05:23 PM | Duration: 1m 16s | From: LI MITCH | To: +14025942048

Inbound

Positive

### AI SUMMARY

Mitch communicated about the equipment pickup, confirming he used his own and Chad (Representative, Equipments) informed him that the truck is scheduled for pick up soon.

### FULL TRANSCRIPT

**LI MITCH** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Rion, Equipments, Chad.

**LI MITCH** [00:05]

Hey Jack, this is Mitch.

**LI MITCH** [00:08]

I leave the message for you. My job is already done so you can pick it up.

**Chad Metzger** [00:14]

All right. Yep. I got it scheduled to be picked up.

**LI MITCH** [00:16]

And then, you pooping? I didn't use it. I used my own. So, yeah, I didn't use it. You pooping, the gas. Okay? Okay, so do you have an idea when they want to pick it up?

**Chad Metzger** [00:26]

Okay. Sounds good.

**Chad Metzger** [00:33]

I literally just sent them an email about 10 minutes ago to get a truck picked up. So the driver will call you when they're on their way.

**LI MITCH** [00:42]

Maybe I will leave very soon. So the leaves still... You sure?

**Chad Metzger** [00:48]

You can leave the forklift outside.

**Chad Metzger** [00:51]

Yep. We park them outside all the time.

**LI MITCH** [00:52]

Okay. Okay. I leave outside. Yeah, the parking lot, I think it should be very safe. Okay, I leave outside. Thank you. Bye-bye. Bye.

**Chad Metzger** [01:00]

Okay. Thanks, Mitch. All right. Bye.

## Inbound call from GUSTIN KELVIN

April 22, 2026 | 04:12 PM | Duration: 2m 40s | From: GUSTIN KELVIN | To: +14025942051

### AI SUMMARY

In the conversation, Gustin Kelvin (Caller) reached out to Derrick Dea (Company Representative) to discuss several work orders, including the status of parts for a scissor lift and other equipment.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:04]

All right.

**GUSTIN KELVIN** [00:04]

Derrick, how you doing today, buddy?

**GUSTIN KELVIN** [00:11]

Hey,

**GUSTIN KELVIN** [00:14]

that work order from yesterday for that scissor lift,

**Derrick Dea** [00:17]

Mm-hmm.

**GUSTIN KELVIN** [00:20]

I don't know if you ordered them tires or not yesterday.

**Derrick Dea** [00:23]

Well, it's a beanie, right? Mm-hmm.

**GUSTIN KELVIN** [00:28]

Yes, did you get my... Yeah, it was... Okay.

**Derrick Dea** [00:31]

Yes, I got it. Yep.

**GUSTIN KELVIN** [00:34]

All right. As long as you knew that it was a Genia GS 1930, that's

**GUSTIN KELVIN** [00:40]

cool. Hey, I got something else here. I got an Enterprise Work Order 802784.

**GUSTIN KELVIN** [00:51]

Can you give me some pictures and breakdown of the mass mounts and the tilt cylinder mounts

**Derrick Dea** [00:57]

OK.

**GUSTIN KELVIN** [00:58]

on a H360 XL?

**GUSTIN KELVIN** [01:03]

Uh, serial number David 019, David 01782, ROBERT.

**GUSTIN KELVIN** [01:16]

Um, what else we got? Uh, did you find anything out about, huh?

**Derrick Dea** [01:16]

Mass mountain tilt cylinder mounts, right? Mass mountain tilt cylinder mounts, right?

**GUSTIN KELVIN** [01:23]

Come again?

**GUSTIN KELVIN** [01:24]

Yeah, the mast mounts, the pins, and there's bushings, and then the...

**GUSTIN KELVIN** [01:29]

The tilt cylinder pins and bushings or bearings or whatever there are in there.

**GUSTIN KELVIN** [01:38]

Did you find anything out yesterday about the half for that air light truck, that steering column?

**Derrick Dea** [01:42]

I called him. Still on back order because it's supposed to be due this week. I'll have to call him again today because I never responded.

**GUSTIN KELVIN** [01:52]

Oh, okay.

**Derrick Dea** [01:56]

The one I ordered from TVH was the OEM number, so I have to order it from Lift Solutions. It was the right number, but wrong horn from TVH.

**GUSTIN KELVIN** [01:56]

Did you find anything out on a warrant for that crown?

**GUSTIN KELVIN** [02:10]

All right. Well...

**GUSTIN KELVIN** [02:15]

Yeah, that's weird. It looks exactly the same. I just can't plug the connector in. It's too small.

**GUSTIN KELVIN** [02:23]

Okay, buddy. Appreciate it. You have a great day.

**Derrick Dea** [02:23]

Yep. All right. You too.

**Derrick Dea** [02:28]

Bye.

## Inbound call from JASON HICKS

### AI SUMMARY

The conversation centered around a report from Arnold's about a defective head, which Jason Hicks communicated to Shelby Lathrum, who agreed to inform Adam and prepare for the necessary actions regarding a purchase order.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:05]

What do you want?

**JASON HICKS** [00:07]

I was just going to let him know that I spoke with Arnold's

**Shelby Lathrum** [00:07]

Just kidding. Okay.

**JASON HICKS** [00:13]

and this call is being recorded.

**Shelby Lathrum** [00:15]

Are you not in the mood for my BS today?

**JASON HICKS** [00:20]

I am never in the mood for your BS.

**Shelby Lathrum** [00:23]

Oh, bologna and cheese. You enjoy it.

**JASON HICKS** [00:28]

That's why I come to work every day, for your BS.

**Shelby Lathrum** [00:28]

Just

**Shelby Lathrum** [00:33]

to see me. That's number one. My BS is just an added bonus.

**JASON HICKS** [00:38]

Yeah, just a perk of the job. But no, I just talked to Arnold's. They said that head has a crack in it and it is junk.

**Shelby Lathrum** [00:48]

Yes. Oh no.

**JASON HICKS** [00:51]

SAD DAY.

**Shelby Lathrum** [00:52]

That is a day. He has crack junk.

**JASON HICKS** [00:54]

SO, DO I NEED TO SEND HIM AN EMAIL OR WILL YOU RELAY THE MESSAGE?

**Shelby Lathrum** [01:00]  
To Adam?

**JASON HICKS** [01:01]  
YES.

**Shelby Lathrum** [01:02]  
Um, I will go tell him right now. Okay.

**JASON HICKS** [01:05]  
OKAY. ALL RIGHT. I TOLD CODY UP THERE THAT I WOULD PICK IT UP, THE STUFF UP TOMORROW. I GOT TO GO UP THERE AND PICK UP THAT INTAKE MANIFOLD. ANYWAY,

**Shelby Lathrum** [01:15]  
Okay. Sounds good.

**JASON HICKS** [01:16]  
SO, AND THEN IF HE WANTS A PO, TELL HIM TO GET IT READY.

**Shelby Lathrum** [01:20]  
Okay. We'll need P.O. Okay, sounds good.

**Shelby Lathrum** [01:26]  
All right. Bye.

CALL 448 OF 611

**Inbound call from ANDERSON SHEREE**

April 22, 2026 | 03:20 PM | Duration: 1m 5s | From: ANDERSON SHEREE | To: +14025942051

**Inbound**      **Neutral**

**AI SUMMARY**

Derrick Dea (Company Representative) engaged with Anderson Sheree regarding technical specifications of a JLG control switch and the status of a mass number from Yale, with a promise of follow-up on the NASA number.

**FULL TRANSCRIPT**

**ANDERSON SHEREE** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
Questions? What control switch for VAL is on this JLG? Upper control, lower control, joystick, toggle switch?

**ANDERSON SHEREE** [00:22]  
It's a toggle switch on the platform control module to switch between travel and lift.

**Derrick Dea** [00:39]  
Now the Yale, did they get in that mass number?

**ANDERSON SHEREE** [00:45]  
No, but we'll be back out there. I can get you the NASA number when I go back out.

**Derrick Dea** [00:47]

Okay. A lot of work. All right. Bye.

**ANDERSON SHEREE** [00:52]

Sorry.

CALL 449 OF 611

**Inbound call from HANNON CODY**

April 22, 2026 | 03:18 PM | Duration: 1m 39s | From: HANNON CODY | To: +14025942048

Inbound

Positive

**AI SUMMARY**

Cody Hannon (JBS) called Chad Metzger to verify the rental status of equipment, confirming that there are no current rentals, including Jag trucks and shuttle wagons, leading to a smooth conclusion of the call.

**FULL TRANSCRIPT**

**HANNON CODY** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Brian Dequipins, Chad.

**HANNON CODY** [00:06]

Hey, Chad, Cody Hannon out of JBS. How are you doing today?

**HANNON CODY** [00:11]

Hey, I'm updating our rental list and I was wondering if we are currently renting anything from you guys

**HANNON CODY** [00:23]

in Grand Island.

**Chad Metzger** [00:33]

I don't

**Chad Metzger** [00:51]

show anything.

**HANNON CODY** [00:52]

Are those, those Jag trucks are not rented under you guys?

**Chad Metzger** [00:56]

Nope. No. You guys own those.

**HANNON CODY** [01:01]

That'll work. What about the shuttle wagon?

**Chad Metzger** [01:16]

I don't show anything on rent to you guys.

**HANNON CODY** [01:20]

Okay. That was easy.

**Chad Metzger** [01:23]

Yeah, no problem.

**HANNON CODY** [01:25]

All right. Appreciate it. Thanks, man. Have a good day. Yeah, bye.

**Chad Metzger** [01:26]

Thanks, Cody. You bet. Bye.

CALL 450 OF 611

**Inbound call from WIRELESS CALLER**

April 22, 2026 | 03:08 PM | Duration: 5m 33s | From: WIRELESS CALLER | To: +14025942063

Inbound

Positive

**AI SUMMARY**

The conversation involved the WIRELESS CALLER seeking a service call and checking on the status of a unit at a roasting location.

**FULL TRANSCRIPT**

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Hey, Tim. How's it going? Yeah? Mm-hmm.

**WIRELESS CALLER** [00:05]

Good morning.

**WIRELESS CALLER** [00:09]

Super.

**WIRELESS CALLER** [00:11]

So I need a service

**WIRELESS CALLER** [00:17]

call open for and also I need to check to see I'm at harvest roasting location one. When was the last time unit serial number 82826082 was done?

**Jodi Nickell** [00:28]

You mean PMs? Give me a minute. I'm right in the middle of an EMR. I don't know. Crazy, right? Uh...

**WIRELESS CALLER** [00:41]

Yeah. What?

**WIRELESS CALLER** [00:45]

You need to drop what you're doing and care to my knees.

**Jodi Nickell** [00:52]

I'm trying, I'm trying. Ground load. Okay, let me see here.

**Jodi Nickell** [01:45]

YEAH. P.M. OH, THERE'S ANOTHER ONE.

**WIRELESS CALLER** [02:00]

Let me guess. They don't have contracts.

**Jodi Nickell** [02:01]

February of '25? But no, this one does not look like it. It looks like the contract has expired. But let me see if it's been renewed since then. Scheduled services.

**WIRELESS CALLER** [02:11]

Huh.

**Jodi Nickell** [02:19]

Negative. This one is not on a contract. So...

**WIRELESS CALLER** [02:21]

I guess we'd have to have salesmen.

**WIRELESS CALLER** [02:26]

We'd have to have salesmen before they could be signed up, huh? Oh.

**Jodi Nickell** [02:26]

I WONDER IF --

**Jodi Nickell** [02:50]

Okay, so,

**WIRELESS CALLER** [02:55]

They

**Jodi Nickell** [02:58]

yeah, I mean it looks like a lot of their machines, why are they all over the place? Some expire in January, some expire in June.

**Jodi Nickell** [03:17]

LET ME JUST LOOK AT THIS ACCOUNT NUMBER. SORRY. IT WILL GIVE ME A BETTER IDEA OF WHAT IS GOING ON WITH IT.

**WIRELESS CALLER** [03:28]

got another one that they're

**WIRELESS CALLER** [03:32]

waiting for delivery too.

**WIRELESS CALLER** [03:36]

I'll

**Jodi Nickell** [03:41]

Open Sesame. So it says it goes through 9/1 of 26, but that machine is not on there. I don't know. Probably have to get with Brett Kane. 828269.

**WIRELESS CALLER** [03:53]

be darned, I wonder why.

**WIRELESS CALLER** [04:03]

The last one it's

**Jodi Nickell** [04:06]

Sounds about right. Okay.

**WIRELESS CALLER** [04:09]

showing looks like it was 1, 2 of 25.

**WIRELESS CALLER** [04:19]

So I think we should probably do it, do PM service on that.

**WIRELESS CALLER** [04:27]

And then on the battery, well,

**WIRELESS CALLER** [04:33]

I don't know, since there's no

**WIRELESS CALLER** [04:37]

Contract, we just put all this on one

**WIRELESS CALLER** [04:40]

because the battery, so the unit needs it, the battery needs to have a service done on that and a cleaning and also the SB connectors need to be replaced.

**Jodi Nickell** [04:44]

Yeah.

**Jodi Nickell** [04:54]

Clean battery and replace SB. Okay. Got it.

**WIRELESS CALLER** [04:59]

Okie

**WIRELESS CALLER** [05:05]

dokie.

**Jodi Nickell** [05:05]

I'll get it open here for you. Yep-er. Bye.

**WIRELESS CALLER** [05:07]

Thank you. Bye.

CALL 451 OF 611

# Inbound call from POFAHL BRETT

April 22, 2026 | 02:54 PM | Duration: 1m 52s | From: POFAHL BRETT | To: +14025942048

Inbound

Positive

## AI SUMMARY

In a detailed exchange, Chad Metzger (Company Representative) and POFAHL BRETT (Customer) discussed the Valero deal, confirming their responsibility for freight costs and addressing a new purchase order with a significant rate increase.

## FULL TRANSCRIPT

**POFAHL BRETT** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

I got equipment, Chad,

**POFAHL BRETT** [00:05]

Hey, are we, I think you and I talked about this on this Valero deal, are we going to be responsible for the freight?

**POFAHL BRETT** [00:12]

All right.

**Chad Metzger** [00:13]

because it's our machine that we're swapping out.

**POFAHL BRETT** [00:16]

That's what I thought. Because he sent me a new PO, I'll forward this to you to get this swapped out. And he said, do I need to add for...

**POFAHL BRETT** [00:25]

Delivery and pickup. Sure. So I thought, no, you and I discussed that. It's our responsibility. But I've got a new PO. Well, it's actually the same PO, but we'll adjust the rate. It's not full rate, but it went from 9,300 to almost 16,000.

**Chad Metzger** [00:33]

I mean,

**Chad Metzger** [00:42]

but it's better.

**Chad Metzger** [00:47]

Oh, well.

**Chad Metzger** [00:49]

Okay.

**POFAHL BRETT** [00:50]

- Yeah, and the rate, I mean, the rate on that unit should be, well, it's basically service rate is what we're giving them.

**POFAHL BRETT** [00:59]

So,

**POFAHL BRETT** [01:01]

all right, I will reply back and then I forward this email to you and John telling them to get her swapped out.

**Chad Metzger** [01:08]

Well, I will get that work on this week.

**POFAHL BRETT** [01:11]

Appreciate that, man. And then let me call Danny and see where he wants that old one to go if he wants it to go to Mason City or somewhere else. Is he in?

**Chad Metzger** [01:12]

No problem.

**Chad Metzger** [01:19]

Well, if we have a truck coming from Omaha, I'll just have them bring it here.

**POFAHL BRETT** [01:21]

I was going to say we'll just take it back to Omaha, and then that way if we decide to do a rebuild on it.

**Chad Metzger** [01:25]

Yeah.

**POFAHL BRETT** [01:28]

Ryan Rademacher, holy \*\*\*\*. Things have just freaking opened up in the last couple of days here. I mean, my God, it's crazy.

**POFAHL BRETT** [01:37]

So, all right, let me get this over to everybody.

**Chad Metzger** [01:40]

Sounds good.

**POFAHL BRETT** [01:41]

Thanks.

**Chad Metzger** [01:42]

Thanks. Bye.

### AI SUMMARY

Paula reached out to Shelby Lathrum (Representative, Rion Equipment) to check on service for the heister, expressing urgency due to the breakdown of multiple forklifts, and Shelby assured her that the technician would be informed to arrive tomorrow.

### FULL TRANSCRIPT

**DES MOINES IA** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**DES MOINES IA** [00:06]

Hello, is Shelby available?

**Shelby Lathrum** [00:08]

This is she.

**DES MOINES IA** [00:10]

Hi, Shelby, it's Paula.

**Shelby Lathrum** [00:11]

Hi, how are you?

**DES MOINES IA** [00:12]

I'm all right. Any idea of how soon someone will be able to get here to take a look at the heister?

**Shelby Lathrum** [00:19]

I asked Jason to let you know that yesterday, I'm guessing he did not.

**DES MOINES IA** [00:25]

He did not.

**Shelby Lathrum** [00:26]

What a booger. When I spoke to him, he was thinking Thursday or Friday, because today he's down in Edieville.

**DES MOINES IA** [00:35]

Oh, I see. Okay. If there's any way to make it happen tomorrow, because right now we are, well, we can't move anything because Bob is, our middle forklift is down because it needs a new tire.

**DES MOINES IA** [00:49]

The big forklift to Hyster is now down because it's got an antifreeze leak. And yeah, so we need to move trailers and stuff.

**Shelby Lathrum** [00:55]

Okay. Okay.

**Shelby Lathrum** [00:58]

I will make sure he knows that he needs to be there tomorrow.

**DES MOINES IA** [01:03]

Okay. Thanks, Ellie.

**Shelby Lathrum** [01:04]  
Yeah, not a problem.

### AI SUMMARY

In a recorded call, Chad Metzger (Sales rep) and POFAHL BRETT discussed a price adjustment for a unit swap, expressing the need for urgency in the process.

### FULL TRANSCRIPT

**POFAHL BRETT** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Right, Equipments,

**POFAHL BRETT** [00:05]

You know, this is the first time that I've ever called you and my phone before it rang said, "This call is being recorded."

**Chad Metzger** [00:13]

Chad? Yeah, it's a new thing that they're testing out for like two weeks, two or three weeks.

**POFAHL BRETT** [00:19]

Really?

**POFAHL BRETT** [00:22]

Interesting.

**Chad Metzger** [00:23]

All right, iPhone parts and service in Omaha is kind of like a trial.

**POFAHL BRETT** [00:31]

Okay, Valero, Albert City, Iowa.

**POFAHL BRETT** [00:37]

We are going to swap out. I'm waiting for a price adjustment on their PO and a new copy of their PO.

**POFAHL BRETT** [00:44]

But the 5025 for the 6030 that's in Omaha.

**POFAHL BRETT** [00:51]

I was just getting in, typing in to get into PRO to get you which unit that was.

**POFAHL BRETT** [00:57]

With a significant price increase.

**Chad Metzger** [00:58]

Well, I am in there right now.

**Chad Metzger** [01:02]

Yes, sir. That's going to be 22-1-21.

**POFAHL BRETT** [01:05]

22,121. Okay. I finally, I sent an email like a week ago to these guys and said, hey,

**POFAHL BRETT** [01:13]

We're dropping a cylinder, it's burning oil. We got to get, if the thing's tired, it needs to be retired. We got to get it out of there.

**POFAHL BRETT** [01:23]

And given the new rate, he said, here you go. Or you can buy a new unit, but I don't have another 5025 available to rent.

**POFAHL BRETT** [01:35]

And finally got a reply back on a conversation this morning.

**POFAHL BRETT** [01:40]

And they're like, well, we're going to move forward with a purchase, but let's go ahead and upgrade to the new one. We'll get an adjustment done on the PO and get that sent right over to you. But if we can get it swapped out this week, that'd be great.

**POFAHL BRETT** [01:52]

So, 22-1-21.

**POFAHL BRETT** [01:56]

Okay. As soon as I see the new PO, I'll get all the details sent to you.

**POFAHL BRETT** [02:01]

I can't believe I couldn't remember what. I didn't know if it was that one or the one that was in Des Moines, but Des Moines doesn't have a remote in it.

**Chad Metzger** [02:09]

I'm so disappointed in you. You don't...

**Chad Metzger** [02:12]

You're usually on the ball. Yep.

**POFAHL BRETT** [02:14]

I know, man. I'm like, well, that unit was in Sioux Falls. The really sad thing is, is AGP in Aberdeen.

**POFAHL BRETT** [02:26]

I've got one more signature to get that unit bought. And for some reason, when Jeff Arthur quoted them a machine, he quoted that one and not the unit that they were currently renting.

**POFAHL BRETT** [02:43]

Because I asked him about it, and he goes, well, I just thought that unit would be too expensive, and this one we had a better book value on, and we were going to make more money. And I'm like...

**Chad Metzger** [02:45]

Oh, Lord.

**POFAHL BRETT** [02:54]

And at that time, it was on rent at Poet and Chancellor. I'm like, why are you quoting something that's on rent at another customer instead of what's on rent currently at that customer?

**Chad Metzger** [03:06]

To them.

**POFAHL BRETT** [03:08]

It makes no freaking sense.

**Chad Metzger** [03:11]

Right. Yep.

**POFAHL BRETT** [03:12]

But we were going to make more profit. I'm like, you don't get paid on \*\*\*\*\* profit. You get paid on sale price.

**Chad Metzger** [03:17]

Hello? Yep.

**POFAHL BRETT** [03:21]

\*\*\*\*, dude. It just muddled everything up. And now it's going to take Valero forever to buy a unit. I hope not. But

**POFAHL BRETT** [03:29]

now this unit's going to go over there.

**POFAHL BRETT** [03:36]

Anyway, so as soon as I see a new PO, I will, because I think that unit's ready to go. I don't think, I can't get into my VPN right now.

**Chad Metzger** [03:44]

I don't see any... It shows ready service status.

**POFAHL BRETT** [03:51]

Okay. Okay.

**Chad Metzger** [03:52]

I don't... I think everything's buttoned up on it. Yep, everything's done,

**POFAHL BRETT** [03:58]

Perfect. Well, I'm going to call Nick and let him know what's going on and that we're probably going to swap that out and then he's got to get with Danny and everybody to figure out on 15046 if we're even going to do anything with it or if it's just going to go to auction. That thing's tired. It's got

**POFAHL BRETT** [04:16]

20-some thousand hours on it. It just needs to go away. We have no book value in it.

**Chad Metzger** [04:18]

so... Yeah.

**POFAHL BRETT** [04:22]

So, all right. I'll get you an email sent us. Let's see it. Thanks, man. Bye.

**Chad Metzger** [04:22]

Yep. Cool. Yep. Sounds good.

**Chad Metzger** [04:26]

Perfect. Thanks, bud. See ya.

### AI SUMMARY

Adam Forrest and CRAGG discussed a warning to be issued to a witness, with CRAGG requesting Adam's assistance on Teams at 9-15. Adam agreed to assist.

### FULL TRANSCRIPT

**CRAGG GREGORY** [00:00]

This call is being recorded.

**Adam Henderson** [00:04]

No, Sam.

**CRAGG GREGORY** [00:06]

Hey, Adam Forrest, what's happening?

**Adam Henderson** [00:08]

Oh, hold on. What's going on?

**CRAGG GREGORY** [00:10]

Oh, not much. You got anything planned here for about 9-15?

**Adam Henderson** [00:14]

I don't think so.

**CRAGG GREGORY** [00:16]

If I holler at you on Teams, I need you for a witness. I got to do a warning, a written warning.

**CRAGG GREGORY** [00:22]

And I don't have nobody here but peers. And Susan said, well, maybe Adam or Nick. I know Nick's busy today. Jeff's out. So if you don't mind, I'll holler at you on Teams. I'll have it open and ready to go here about 9-15.

**Adam Henderson** [00:31]

Yeah.

**Adam Henderson** [00:36]

Okay. Yeah, sounds good.

**CRAGG GREGORY** [00:38]

All right. Thanks, sir. Yep. Bye.

**Adam Henderson** [00:39]

Yeah, thank you.

### AI SUMMARY

Craig Stoneman (Customer, Caller) reached out to Jodi Nickell (Sales rep) to check on the status of Anthony's visit regarding PM parts, and Jodi confirmed that he would be bringing them, possibly tomorrow.

### FULL TRANSCRIPT

**LOUISVILLE NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion Equipment, Omaha. This is Jodi. How may I help you? Good. How are you? I believe so, yes.

**LOUISVILLE NE** [00:06]

Hi Jodi, this is Craig Stoneman down at Ask Grove in Louisville. How are you?

**LOUISVILLE NE** [00:11]

Good. Hey, I never seen Anthony yesterday. Was he coming down today by chance?

**LOUISVILLE NE** [00:18]

Okay. All right. I just wanted to double check because my guy that needs to run it asked me about it again this morning. So I said I'll double check.

**Jodi Nickell** [00:25]

Yep, I'm also... Yeah. I'm going to open all the PMs for you that are due out there, too, so he's going to be coming down with those, so...

**Jodi Nickell** [00:34]

I mean, worst case, it would be tomorrow, I'm guessing, if for some reason I didn't have all the parts for the PMs. All right.

**LOUISVILLE NE** [00:35]

Okay.

**LOUISVILLE NE** [00:41]

All right. Nope. That sounds good, Jodi. I appreciate it.

**Jodi Nickell** [00:44]

Thank you. Bye.

**LOUISVILLE NE** [00:45]

Thank you. Bye-bye.

Dino (Customer) urgently requested a forklift and pallet jack rental for unloading a truck in North Platte, but Chad Metzger (Equipment Provider) regrettably informed him that there are no rentals available.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

All right, equipment is Chad.

**WIRELESS CALLER** [00:03]

Hi, Chad. This is Dino. I am

**WIRELESS CALLER** [00:09]

up here on DuVinci Street. I need a rental of forklift and pallet jack.

**Chad Metzger** [00:22]

What city?

**WIRELESS CALLER** [00:24]

North Platte.

**Chad Metzger** [00:26]

North Platte, all right. And when do you need it?

**WIRELESS CALLER** [00:28]

Yes, Super 8. I need it like right away.

**Chad Metzger** [00:32]

Okay, let me take a look here.

**WIRELESS CALLER** [00:33]

I have a truck waiting to unload, you know, 18-wheeler.

**Chad Metzger** [00:39]

Let me take a look.

**Chad Metzger** [00:46]

Unfortunately, I do not have any pallet jacks or forklifts available in North Platte today.

**Chad Metzger** [00:53]

I am out of stock.

**WIRELESS CALLER** [00:56]

Oh, boy. Okay. All right. Thank you.

**Chad Metzger** [00:58]

All right, you bet.

Keith (Customer, Caller) called regarding a parts breakdown for the overhead guard on a machine, and Charles Huffman (Company Representative) agreed to assist with the information requested.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**OMAHA NE** [00:11]

Yeah, Charlie? No, this is Keith.

**Charles Huffman** [00:15]

Yeah.

**OMAHA NE** [00:17]

Serial number WD040898, Bravo.

**OMAHA NE** [00:26]

That is a Moffitt over here at ABC. Jody's making up a work order on it. I need a parts breakdown for

**OMAHA NE** [00:34]

on the overhead guard. When you step into the machine, there's a...

**OMAHA NE** [00:41]

Oh, it's like a guard bracket that swings down to kind of lock you into the overhead guard.

**Charles Huffman** [00:49]

Uh-huh.

**OMAHA NE** [00:50]

I need the parts breakdown of what's... It pivots on the overhead guard where it mounts the overhead guard, and there's got to be like a return spring or something in there that lets this thing return to the upward position. I'll send you a picture of...

**OMAHA NE** [01:06]

Thank you.

**Charles Huffman** [01:10]

Okay. I'll see what I can find for you. You bet.

## Inbound call from GUSTIN KELVIN

AI SUMMARY

In the conversation, Eric from Lift Solutions sought assistance from Derrick regarding a seat bottom for a C4000 model.

FULL TRANSCRIPT

**LIFT SOLUTIONS** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Yeah.

**LIFT SOLUTIONS** [00:05]

Hey Derrick, this is Eric over at Lift Solutions. I'm trying to look up a cat truck on TVH and it's telling me I don't, my information is wrong.

**LIFT SOLUTIONS** [00:18]

I'm looking for a seat bottom. I got a serial number AT Adam Tom 9030190.

**Derrick Dea** [00:29]

Yeah.

**LIFT SOLUTIONS** [00:32]

Should be for a C4000.

**LIFT SOLUTIONS** [00:42]

I put Caterpillar in there and put model C4000, serial prefix is 1890, and then everything was good until I put that serial number in, 30190.

**Derrick Dea** [00:53]

Well...

**Derrick Dea** [01:17]

91A, 140, 1280. That's manual controls, suspension, vinyl, old style seat because it's a 2010.

**Derrick Dea** [01:41]

Let me look. I think I just sold one today, but hold on.

**LIFT SOLUTIONS** [01:42]

Okay. Ooh, that thing's not cheap either.

**LIFT SOLUTIONS** [01:49]

Um, do you have one of those in stock?

**LIFT SOLUTIONS** [01:53]

Probably not, huh? You're

**Derrick Dea** [02:05]

Computer spending.

**LIFT SOLUTIONS** [02:22]

fine.

**Derrick Dea** [03:18]

Yeah, I sold the last one. Hadn't stopped this morning. Yep.

**LIFT SOLUTIONS** [03:25]

Okay. I can probably get it off a dealer net. All right. Thanks.

**Derrick Dea** [03:29]

TVH is \$148.35, they have plenty of them, or whatever. I don't know what your price is, but... Yep. Dealing that's usually higher, but yep, I sold it this morning,

**LIFT SOLUTIONS** [03:35]

That's cheaper than what this one says it is on Dealernet. Alright, thanks,

**LIFT SOLUTIONS** [03:45]

Derrick.

**LIFT SOLUTIONS** [03:47]

No problem. Bye-bye.

**Derrick Dea** [03:48]

yep. Bye.

## Inbound call from BANKER MARCUS

April 21, 2026 | 08:44 PM | Duration: 1m 2s | From: BANKER MARCUS | To: +15152995626

Inbound

Positive

### AI SUMMARY

Marcus (Representative, Central Albatoni) initiated a call to Shelby Lathrum (Customer Service Representative, Rion Equipment) to get help finding a forklift at Progress Rail when his onsite contact, William, was unresponsive, and Shelby promptly offered to assist by making additional calls.

### FULL TRANSCRIPT

**BANKER MARCUS** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Rion Equipment. How may I help you?

**BANKER MARCUS** [00:07]

Yeah, my name is Marcus, I'm with Central Albatoni. I'm over here in Marshalltown at Progress Rail trying to find a forklift.

**Shelby Lathrum** [00:09]

Okay. How can I help you?

**Shelby Lathrum** [00:16]

Okay. Did you call the contact that's on site, William? What?

**BANKER MARCUS** [00:17]

Yeah, he no answer.

**BANKER MARCUS** [00:23]

Yeah.

**BANKER MARCUS** [00:25]

He must not like me today.

**Shelby Lathrum** [00:26]

Yeah.

**Shelby Lathrum** [00:29]

I don't know what that's about. Let me try to make some phone calls and get a hold of someone for you. Are you, like, just at the front gate?

**BANKER MARCUS** [00:37]

Yeah, I'm just down in the frontage road right here. I didn't go too far in there because I'll have to turn around eventually. So I'm just kind of hanging out right here in the front.

**Shelby Lathrum** [00:46]

Okay. Okay, I'll get a hold of someone. Yep, thank you.

**BANKER MARCUS** [00:49]

Thank you.

**Shelby Lathrum** [00:52]

Thanks.

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Hey Tim. Oh, okay, thanks.

**WIRELESS CALLER** [00:05]

Hey, just to let you know this call is being recorded.

**WIRELESS CALLER** [00:09]

Okay. So on 790, 810,

**Jodi Nickell** [00:15]

Okay.

**WIRELESS CALLER** [00:18]

that's a PM for a battery.

**Jodi Nickell** [00:22]

Change

**WIRELESS CALLER** [00:22]

Can you change the serial number to 1761 instead of 1762?

**Jodi Nickell** [00:32]

to 1761.

**WIRELESS CALLER** [00:32]

1762?

**WIRELESS CALLER** [00:35]

Yep, 1762 has been gone for

**WIRELESS CALLER** [00:39]

two or three years.

**Jodi Nickell** [00:40]

Okay. I can do that.

**WIRELESS CALLER** [00:45]

So I'm not going to even try to get somebody else to do their job. We'll just fix it here and be done with it.

**Jodi Nickell** [00:52]

There you go.

**Jodi Nickell** [00:56]

Hang on.

**WIRELESS CALLER** [00:57]

Their head's blowing up over Merck. Good Lord.

**Jodi Nickell** [01:05]

17, 6, is it 8282?

**WIRELESS CALLER** [01:08]

No, it's a PL10517-1762.

**WIRELESS CALLER** [01:18]

It's a battery. Yeah, it

**Jodi Nickell** [01:25]

EQUIN. OKAY.

**WIRELESS CALLER** [01:27]

needs... Yeah, because...

**WIRELESS CALLER** [01:30]

1761 is still here, 1762 is gone, but they never have, and I've brought it to their attention several times, that you need to swap these, because the other one's not here, and this one is, and I'm done.

**Jodi Nickell** [01:45]

Yeah. 7908101762, change to 1761.

**WIRELESS CALLER** [01:49]

And

**WIRELESS CALLER** [01:59]

then...

**WIRELESS CALLER** [02:01]

And then I need a service call for harvest roasting location one, which I'm going to go to tomorrow,

**Jodi Nickell** [02:13]

Okay, that, hang on, that's been switched over just so you know. If you F5, you should see 6-2 disappear and it should say 6-1.

**WIRELESS CALLER** [02:20]

for, okay, a five.

**Jodi Nickell** [02:24]

Okay.

**WIRELESS CALLER** [02:30]

There it is. Boom. Got it.

**WIRELESS CALLER** [02:37]

Okay, and then...

**Jodi Nickell** [02:39]

Carb is roasting tomorrow morning, location one.

**WIRELESS CALLER** [02:41]

Yeah. FN... Did I tell you about this one already? <REDACTED\_ENTITY>? No, I didn't.

**Jodi Nickell** [02:49]

No, I wrote an FN1 up this morning for New Star.

**WIRELESS CALLER** [02:55]

For Newstar, that was it.

**WIRELESS CALLER** [02:58]

So this is an <REDACTED\_ENTITY> for Harvest Roasting Location 1. We're going to troubleshoot steering or repair steering whichever whichever one you want.

**Jodi Nickell** [03:01]  
Okay.

**Jodi Nickell** [03:05]  
Whatever one you want.

**Jodi Nickell** [03:16]  
Okay. I'm going to put diagnose and repair. How about that? Okay.

**WIRELESS CALLER** [03:22]  
Super. Ooh, look. There is finally the email that I sent myself over an hour ago. It just got to me.

**Jodi Nickell** [03:39]  
So you're going to harvest roasting tomorrow. Hang on. I'm talking to Tim. Hang on.

**WIRELESS CALLER** [03:41]  
Huh.

**WIRELESS CALLER** [03:47]  
Yep. Harvest roasting, then I'll probably go to, uh,

**Jodi Nickell** [03:57]  
Oh, he said, tell Tim hi. John. Oh, now he's getting a phone call.

**WIRELESS CALLER** [03:58]  
I'll go to Merck. What?

**WIRELESS CALLER** [04:04]  
Who? Who's that? Oh, hi. Hi, John.

**Jodi Nickell** [04:15]  
Okay, so Harvest Roasting, Mark. Okay. Okay.

**WIRELESS CALLER** [04:22]  
Darn. Yep.

**WIRELESS CALLER** [04:24]  
And we will have a great Wednesday.

**Jodi Nickell** [04:24]  
I think I got it. You too. Okay, bye.

**WIRELESS CALLER** [04:31]  
All right. See you. Bye.

CALL 466 OF 611

**AI SUMMARY**

Derrick Dea (Sales rep) reached out to Brett Kane (Customer) regarding triathlon battery cables, highlighting their difficulties and scheduling a reminder for further discussion when Brett returns on Thursday.

FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Hey, when are you coming back this way? I got a question about these triathlon battery cables for air light on the lithium ones that have the clamshell on them.

**OMAHA NE** [00:05]

Derrick, hey, Brett Kane.

**OMAHA NE** [00:25]

I'm getting back on Thursday. I've got to go to North Fork tomorrow.

**Derrick Dea** [00:28]

Okay. I'll ask you that. It's nothing urgent, but... Okay. No, I can't forget these \*\*\*\* cables because they're a nightmare. All right. Will do. Yep. Bye.

**OMAHA NE** [00:33]

Just don't forget because by Thursday I'll forget. All right.

**OMAHA NE** [00:41]

Yeah, well, I'm just saying I'm not swimming very well, Derrick, so I'm going to ask you to remind me on Thursday when I'm in town.

**OMAHA NE** [00:50]

Thanks, man.

### AI SUMMARY

CRAGG GREGORY reached out to Shelby Lathrum about a callback concerning GT 50s and 60s, discussing wiring harness issues and inviting Chris Mayles to stop by for an inspection.

### FULL TRANSCRIPT

**CRAGG GREGORY** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:05]

Thank you for choosing Rion Equipment. How may I help you?

**CRAGG GREGORY** [00:07]

Yeah, Adam just tried to call me this first over in St. Louis. I was just calling him back.

**Shelby Lathrum** [00:11]

Hi, yeah.

**Shelby Lathrum** [00:13]

He left the office somewhere in this building. I could shoot a message and have him call you.

**CRAGG GREGORY** [00:21]

Well, if you want to, just tell him I've got a handful of GT 50s and 60s, and if Chris wants, I think Chris Mayles up there, is that right?

**Shelby Lathrum** [00:30]

Yes, sir.

**CRAGG GREGORY** [00:31]

Yeah, tell him he can stop by here if he wants to and look these over. We don't have emission problems. We've got wiring harness problems.

**CRAGG GREGORY** [00:39]

So he's welcome to stop. That's what Adam called for if you want to relay that to him. He's welcome to stop and look at these.

**Shelby Lathrum** [00:39]

Okay,

**Shelby Lathrum** [00:45]

yeah, I can let him know that.

**CRAGG GREGORY** [00:47]  
Okay, sounds good.

**Shelby Lathrum** [00:49]  
All righty, thank you.

**CRAGG GREGORY** [00:50]  
You bet. Thank you. Bye.

**Shelby Lathrum** [00:51]  
Yep, bye.

### AI SUMMARY

In a brief conversation, CRAGG GREGORY (Company Rep) updated Chad Metzger (Company Rep) on the delivery of a new GTR 80 to Mechanical Dynamics and the return of their rental unit.

### FULL TRANSCRIPT

**CRAGG GREGORY** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

The equipment is Chad.

**CRAGG GREGORY** [00:04]

Hey Chad Forrest, how's it going?

**CRAGG GREGORY** [00:08]

Hey we're getting ready to deliver that GTR 80 over to Mechanical Dynamics. That is their new one. It is serial number 54759 and they're gonna turn their rental in. They've got it cleaned up and ready to go. It's another GTR 80. It's 5218 I believe. Let me get in here to my board.

**Chad Metzger** [00:29]

Well, didn't know anything about it.

**CRAGG GREGORY** [00:32]

Yep, they've had that thing for a while.

**Chad Metzger** [00:35]

Yeah. I just didn't know that they were getting a new one.

**CRAGG GREGORY** [00:40]

Oh, yeah, Kirby told me about it this morning that they were, yeah, they bought a brand new one and they're going to turn this one in. Yeah, that rental over there is 52108.

**Chad Metzger** [00:50]

Yep. Okay.

**CRAGG GREGORY** [00:51]

And then we're going to pick it up. So it'll be back here today at some point and I'll shoot you the ending hours.

**Chad Metzger** [00:57]

Sounds good. I'll get a call off. Thank you. You bet. Bye.

**CRAGG GREGORY** [00:58]

All right, thanks, Chad. Appreciate it. Yep, see you. Bye.

## Inbound call from GREENSBORO NC

April 21, 2026 | 06:09 PM | Duration: 3m 16s | From: GREENSBORO NC | To: +14025942051

Inbound

Neutral

### AI SUMMARY

The conversation involved Derrick (Sales rep) seeking clarification on the individual part numbers for charger cables in sales order 007757.

### FULL TRANSCRIPT

**GREENSBORO NC** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Ryan Equipment Omaha, this is Derrick. Yep, so I got a question for you. On this sales order 007757 that we emailed back and forth back in March, PO number PU112

**GREENSBORO NC** [00:06]

Hey there, this is Ashley with Sunlight Battery. All right, make sure to

**Derrick Dea** [00:29]

9243, 243.

**GREENSBORO NC** [00:31]

call. PU1129243.

**Derrick Dea** [00:35]

So I have a question.

**GREENSBORO NC** [00:37]

Give me one moment.

**Derrick Dea** [00:43]

All these parts that make up the two charger cables with clamshells,

**GREENSBORO NC** [00:44]

Okay.

**Derrick Dea** [00:53]

on that last email you sent me,

**Derrick Dea** [00:57]

Got a list of one, two, three, four, a bunch of parts to make these clamshells,

**Derrick Dea** [01:04]

cables with clamshell, remember this or draw it a blank.

**GREENSBORO NC** [01:08]

I'm trying to pull it up now. Give me one moment.

**Derrick Dea** [01:19]

It was back on 19th, around 8:00 AM. You sent it to me?

**GREENSBORO NC** [01:23]

Okay.

**GREENSBORO NC** [01:27]

Mm-hmm.

**Derrick Dea** [01:28]

March 19th. Did you find it? So all these part numbers,

**GREENSBORO NC** [01:32]

Yes, and what was your question?

**Derrick Dea** [01:37]

is there any way possible that you can combine all those part numbers into one part number I can put on my PO and order it?

**Derrick Dea** [01:46]

Or is that completely impossible?

**GREENSBORO NC** [01:48]

No, it's impossible.

**Derrick Dea** [01:50]

Because the other cables that we did for air light is on this other material code. It's the 0358645 material code part number.

**GREENSBORO NC** [02:04]

No, it has to be done like this because they're individually charged. So, yeah, they have their own individual part number.

**GREENSBORO NC** [02:15]

Yeah, unfortunately.

**Derrick Dea** [02:16]

Okay. So there's no way in the future they can combine these down and make it more simple at all.

**GREENSBORO NC** [02:24]

They're individually priced. So each part is priced. So there's no way that we can combine it together like that when each part is priced.

**Derrick Dea** [02:33]

Because otherwise I got to make up all these numbers, put all these prices in, put them in stock, and bill them all out as needed for whatever calls we're working on. So my manager wouldn't be calling out, so.

**Derrick Dea** [02:53]

Now that I did that, I can see what he wants me to do now because we might have to get different batteries from somewhere. I don't know.

**Derrick Dea** [03:02]

Something we can actually make. But I'll see what he says. Alright, bye.

**GREENSBORO NC** [03:03]

Okay.

**GREENSBORO NC** [03:08]

Okay, just let me know.

**GREENSBORO NC** [03:11]

Okay, bye-bye.

## Inbound call from LI MITCH

April 21, 2026 | 05:58 PM | Duration: 1m 58s | From: LI MITCH | To: +14025942048

Inbound

Neutral

### AI SUMMARY

During the call, Mitch checked on the delivery time for the 15K equipment, which Chad confirmed would occur this afternoon, but he could not specify a time.

### FULL TRANSCRIPT

**LI MITCH** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Right, equipment, Chad.

**LI MITCH** [00:06]

Hey, Jack, this is Mitch. I just double-checked what time the chalk will be delivered today.

**Chad Metzger** [00:13]

I'm sorry?

**LI MITCH** [00:13]

And what time the 15K delivered today?

**LI MITCH** [00:20]

This is Mitch.

**Chad Metzger** [00:22]

Yeah, it should be there this afternoon.

**LI MITCH** [00:27]

Yeah, this afternoon, do you know what time?

**Chad Metzger** [00:32]

I don't.

**Chad Metzger** [00:40]

No, I don't.

**LI MITCH** [00:42]

Oh. Uh-huh.

**Chad Metzger** [00:46]

Let's see what she said.

**Chad Metzger** [01:05]

Yeah, it'll be sometime this afternoon because it's a towing company.

**LI MITCH** [01:11]

Oh, you don't know, you don't

**Chad Metzger** [01:12]

So I don't know when they're going to come pick it up yet.

**LI MITCH** [01:16]

know the... Oh, not picked it up yet?

**Chad Metzger** [01:16]

But yeah, they will deliver it today.

**Chad Metzger** [01:21]

And they've got your phone number to give you a call.

**LI MITCH** [01:21]

They...

**LI MITCH** [01:24]

Yeah, they delivered today,

**Chad Metzger** [01:26]

Yes, they'll deliver today.

**LI MITCH** [01:28]

right? Yeah, can you call him and find out what time they delivered because I need to go over there to waiting for him.

**Chad Metzger** [01:36]

Yeah, they'll call you when they're on their way. Yeah, the driver will call you when he's on his way.

**LI MITCH** [01:39]

Okay, all right,

**LI MITCH** [01:43]

okay. Okay, okay, that's fine. Yeah, thank you. All right, bye.

**Chad Metzger** [01:44]

All right, you bet.

Inbound

Positive

### AI SUMMARY

Gustin Kelvin called to discuss work order 802-520, highlighting the need for specific parts including mass mount bushings.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts there.

**GUSTIN KELVIN** [00:04]

How are

**GUSTIN KELVIN** [00:06]

you doing today,

**GUSTIN KELVIN** [00:10]

buddy? Hey, I got me a work order 802-520.

**Derrick Dea** [00:15]

Okay. How many? Okay.

**GUSTIN KELVIN** [00:16]

Hey, mass mount bushings. I need that bushing at 517-013-35.

**GUSTIN KELVIN** [00:31]

And where's the kit? Are you using a kit for this?

**GUSTIN KELVIN** [00:41]

God, I thought there was a kit for this.

**GUSTIN KELVIN** [00:48]

Let's check them with the bolts,

**GUSTIN KELVIN** [00:53]

shims.

**Derrick Dea** [00:55]

I think so.

**GUSTIN KELVIN** [00:58]

I don't see the, I see the bushing, I see the \*\*\*\*\*, the 272-000-110. I see the shims,

**GUSTIN KELVIN** [01:08]

which is a 516-17452,

**GUSTIN KELVIN** [01:14]

but I don't see the rest of it. What the heck?

**GUSTIN KELVIN** [01:19]

That's weird.

**GUSTIN KELVIN** [01:23]

What the heck, Derrick?

**GUSTIN KELVIN** [01:27]

I know we sold these before.

**GUSTIN KELVIN** [01:32]

It comes in a kit with the bolts. They don't even show me the bolts.

**GUSTIN KELVIN** [01:37]

Maybe it's on the mat or on the differential. Maybe it's on the frame of the truck.

**Derrick Dea** [01:43]

Yeah, I pulled up an old call, Kit Repair B.

**Derrick Dea** [01:51]

Yeah, on a previous call, 517-68210.

**GUSTIN KELVIN** [01:51]

Oh, you already see it?

**GUSTIN KELVIN** [01:56]

Oh, cool.

**GUSTIN KELVIN** [02:04]

51768120.

**Derrick Dea** [02:05]

68210.

**GUSTIN KELVIN** [02:13]

Let me punch that up and see if that comes up because...

**GUSTIN KELVIN** [02:16]

I'm pretty sure it's a kit. I think that's the whole kit,

**GUSTIN KELVIN** [02:22]

eh? Yeah, probably.

**Derrick Dea** [02:22]

Mm-hmm. Mm-hmm.

**GUSTIN KELVIN** [02:25]

Hey, you're doing a \*\*\*\* of a good job, Derrick. You know that?

**GUSTIN KELVIN** [02:30]

You probably don't get that, soldier. You probably don't get... Nobody tells you that, do they?

**Derrick Dea** [02:33]

Nope, nope.

**GUSTIN KELVIN** [02:36]

Well, I try to, buddy. I try to. Hey, \*\*\*\* of a speech this morning. Good safety speech. It was good. I loved it.

**Derrick Dea** [02:41]

You like that?

**GUSTIN KELVIN** [02:46]

I liked it. I like it. I don't think I have one for a long time.

**GUSTIN KELVIN** [02:54]

Let's see what that number is. 517681210.

**Derrick Dea** [03:01]

Now 517-68210. 2-Meet-1.

**GUSTIN KELVIN** [03:05]

I wrote it down.

**GUSTIN KELVIN** [03:09]

51768210.

**GUSTIN KELVIN** [03:14]

Let's try that one because that part wasn't found in that last one.

**GUSTIN KELVIN** [03:19]

That's it. That's it. But it doesn't come with that bearing or that bushing. I need that bushing, that 517-013-55.

**Derrick Dea** [03:29]

Yeah. Okay.

**GUSTIN KELVIN** [03:35]

If you could bring that, man, that'd be great. And I'll come back there and get some other parts because I think it says I got some more parts in there.

**Derrick Dea** [03:35]

Alrighty.

**GUSTIN KELVIN** [03:44]

Appreciate it, sir. Thank you very much and have a great day.

**Derrick Dea** [03:45]

We do. Bye.

That's acceptable.

**Jodi Nickell** [00:19]

Ooh.

**WIRELESS CALLER** [00:25]

FN, like Foxtrot, Foxtrot, Nancy,

**Jodi Nickell** [00:29]

Uh-huh.

**WIRELESS CALLER** [00:32]

546315,

**Jodi Nickell** [00:35]

Okay. Repair

**WIRELESS CALLER** [00:37]

for repair, AUX, MAST.

**Jodi Nickell** [00:40]

what?

**WIRELESS CALLER** [00:43]

AUX MAST, Auxiliary, AUX MAST.

**Jodi Nickell** [00:47]

Auxiliary mask?

**Jodi Nickell** [00:55]

Okay, I'll see what I can do with that.

**WIRELESS CALLER** [00:58]

Yep. Well, that's what we were working on before.

**Jodi Nickell** [01:02]

I don't remember how I put that, but I'll figure it out. Okay, I'll figure something out. Yeah, I'm just going to put repair machine. I'm just kidding. All right.

**WIRELESS CALLER** [01:04]

Well, you could repair

**WIRELESS CALLER** [01:11]

mast rail. How's that?

**WIRELESS CALLER** [01:18]

Perfect. Okay.

**WIRELESS CALLER** [01:22]

Okay, okay Jim, what'd you do? Truck broke, fix truck. God bless him. I wonder what...

**Jodi Nickell** [01:25]

That's right.

**Jodi Nickell** [01:32]

Yeah. He was always very informative with his information.

**WIRELESS CALLER** [01:38]

Yes, he was, wasn't he?

**Jodi Nickell** [01:42]

Yes.

**WIRELESS CALLER** [01:42]

I wonder what the old...

**WIRELESS CALLER** [01:45]

\*\*\*\* stick is doing.

**Jodi Nickell** [01:48]

I don't know. He stops in here every so often. Yeah. Yeah. I think he was working as a parts driver for Napa or O'Reilly's or one of those. So.

**WIRELESS CALLER** [01:51]

Does he? He misses us.

**WIRELESS CALLER** [02:03]

Wow. I thought they, well, I thought they liked happy drivers.

**Jodi Nickell** [02:07]

Yeah. Well, have you seen the ones that come in here? Yeah. They're not.

**WIRELESS CALLER** [02:11]

No, I have not.

**Jodi Nickell** [02:14]

They don't talk. No. All right. Yeah, I know. I try to be. All right. Yeah.

**WIRELESS CALLER** [02:14]

They're not happy? \*\*\*\* it.

**WIRELESS CALLER** [02:21]

If people aren't happy, they just \*\*\*\*. Alrighty.

**WIRELESS CALLER** [02:30]

You know, that's all you can be. It just ain't that important.

**Jodi Nickell** [02:35]

Right. You learn that a little more when you get older.

**WIRELESS CALLER** [02:38]

So,

**WIRELESS CALLER** [02:41]

yeah. \*\*\*\* it.

**Jodi Nickell** [02:43]

So, yeah. Way to go. All right. Okay. Well, let me get this open for you. All right. Bye, Tim.

**WIRELESS CALLER** [02:54]

Alright. Okie dokie.

**WIRELESS CALLER** [02:58]

Bye.

**Inbound**

**Neutral**

### AI SUMMARY

Kent and Logan discussed a service call regarding parts for Kyle's truck. Kent informed Logan that Adam is out of the office and will return later, while Logan requested a callback from Michelle.

### FULL TRANSCRIPT

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Kent Stewart** [00:05]

Hey Mr. Logan, Adam's away from his desk, Michelle is out in the shop. Anything I can help you with?

**LOGAN HEARSHMAN** [00:11]

You could just have Addie and me ring back and get the

**Kent Stewart** [00:15]

Okay. All right, I'm not sure how long that's going to be. Adam's out of the office right now. I guess he had to go get parts to bring Kyle to fix his truck.

**LOGAN HEARSHMAN** [00:17]

chance. Okay.

**Kent Stewart** [00:28]

I'll just have Michelle to give you a call back.

**Kent Stewart** [00:32]

OK. Thank you.

**LOGAN HEARSHMAN** [00:33]

Okay. Bye, thank you.

AI SUMMARY

ANDERSON SHEREE discussed the need for correct parts with Derrick Dea, who confirmed the use of a credit card for purchase while mentioning the necessity of a PO.

FULL TRANSCRIPT

ANDERSON SHEREE [00:00]

This call is being recorded.

Derrick Dea [00:03]

Parts, Derrick. Yeah. Mm-hmm.

ANDERSON SHEREE [00:08]

So the starter, so the genie left at Vallas.

ANDERSON SHEREE [00:14]

The starter's wrong and the oil filter's

ANDERSON SHEREE [00:19]

wrong. O'Reilly's has one. I'm going to pick it up. Do you just want me to use my card and bring the receipts here or do you want to do two separate POs?

Derrick Dea [00:28]

Charge account, O'Reilly's. Yep, use a credit card. You gotta use your credit card.

ANDERSON SHEREE [00:34]

Okay. I just figured I'd ask.

Derrick Dea [00:34]

Do you need a PO? Still gotta use a PO though. Alright. Alright, bye.

ANDERSON SHEREE [00:40]

I'll just worry about that when I bring the receipts in.

John (Representative, Rion Equipment) had a brief conversation with Kruger Victor, who was returning a call that seemed to be made in error, resulting in an apology for the confusion.

FULL TRANSCRIPT

**KRUGER VICTOR** [00:00]

This call is being recorded.

**John Howard** [00:03]

Rion Equipment, Omaha, this is John. John with Rion Equipment.

**KRUGER VICTOR** [00:03]

Who? No, I don't think so. I'm just returning your call. Huh? Yep.

**John Howard** [00:17]

Who would you be with, sir?

**John Howard** [00:23]

You said you got a call from this number? Okay.

**John Howard** [00:28]

Oh, um, you don't have known any forklifts or need any service or anything, would you?

**John Howard** [00:36]

Hmm, I can't imagine why you would have gotten a call from our number. Do you know when you got a call?

**KRUGER VICTOR** [00:42]

No. It came in at 9:14.

**John Howard** [00:46]

914. Okay, well, I apologize that you would have gotten a call from us. Uh, I don't know.

**KRUGER VICTOR** [00:53]

Yeah.

**John Howard** [00:55]

Probably was made an error. Yep, thank you. Bye.

**KRUGER VICTOR** [00:56]

Thank you. Bye.

### AI SUMMARY

In a recorded call, Jeffrey from Cass County Publishing reached out for help with a malfunctioning lift truck, stressing the urgency of the situation as a paper delivery was looming.

### FULL TRANSCRIPT

**BULLOCK JEFFREY** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:05]

Thank you for choosing Ryan Equipment. How may I help you?

**BULLOCK JEFFREY** [00:08]

Yes, can I speak with Adam Henderson?

**Shelby Lathrum** [00:10]

He had to leave. He will be back later today. Can I have him give you a shout then?

**BULLOCK JEFFREY** [00:18]

I guess. This is Jeff with Cass County Publishing. I emailed him another document verifying that we're an actual company. I guess it's verified out of Nevada because

**Shelby Lathrum** [00:32]

Okay.

**BULLOCK JEFFREY** [00:33]

we're owned by a corporation.

**BULLOCK JEFFREY** [00:36]

We just operate, they own three newspapers in Iowa, so they emailed me something to email you. But I'm really needing to get this lift truck fixed. I can't just keep stalling out over

**BULLOCK JEFFREY** [00:51]

this because I have a load of paper coming in at the end of the week.

**Shelby Lathrum** [00:52]

Yeah, I understand.

**Shelby Lathrum** [00:57]

Okay. I will get this on his desk. I will shoot him a text and let him know that you called in about this. Because he has his work for

**Shelby Lathrum** [01:07]

But I'm not sure what he's able to do from that. But I'll let him know that this is a emergency type deal.

**BULLOCK JEFFREY** [01:15]

Okay. Okay, I appreciate it because he never called me back yesterday.

**Shelby Lathrum** [01:19]

Oh, okay. I didn't know that. I gave him your note and asked him to call you. I apologize that he did not.

**BULLOCK JEFFREY** [01:25]

Yeah, I've never had an issue with this. I just, you know, how they do their bookkeeping is beyond me, you know. But, you know, when you're owned by someone out of state, you run into this kind of stuff sometimes.

**Shelby Lathrum** [01:35]

Yeah.

**Shelby Lathrum** [01:40]

Yeah, it can be tricky sometimes.

**BULLOCK JEFFREY** [01:44]

All right, I appreciate it. Thank you.

**Shelby Lathrum** [01:46]

Yeah, I'm not a problem. Yep. Bye.

### AI SUMMARY

Derrick Day and Derrick Dea (Employee, Rion Equipment Omaha) communicated about updating contact details and successfully arranged for service call parts, concluding the call positively.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:04]

Rion Equipment Omaha, I said Derrick. Sup? Now

**WIRELESS CALLER** [00:07]

Derrick Day.

**WIRELESS CALLER** [00:10]

So does Charlie have Eric's old number?

**Derrick Dea** [00:14]

his is, uh, 2044. 594-2044. Yeah, that old number's gone.

**WIRELESS CALLER** [00:25]

Okay. Okay, because I just erased Eric's number and put Charlie on it, and I just said, you can't get there from here.

**Derrick Dea** [00:29]

Yeah.

**WIRELESS CALLER** [00:36]

So, okay, I got three numbers. Let's see.

**WIRELESS CALLER** [00:43]

The first one is, well, let's see. The first we need to go on service call 802-225, segment one. Regular freight is fine.

**Derrick Dea** [00:50]

Okay. Okay.

**WIRELESS CALLER** [01:00]

First number is a 512-02477 for one.

**WIRELESS CALLER** [01:09]

Second one's a real doozy. It's a main harness. 511-89836 for one.

**Derrick Dea** [01:11]

Okay. Okay.

**WIRELESS CALLER** [01:21]

And the last one is a 512-970-77 for one.

**WIRELESS CALLER** [01:30]

That's it. Regular Freight.

**Derrick Dea** [01:32]

Will do. Yep. Bye.

WIRELESS CALLER [01:33]

Thank you. Bye.

### AI SUMMARY

The conversation began with a customer inquiring about the availability of load wheels, and Kent (Parts Representative, Rion Equipment) provided detailed information on part numbers and pricing.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Kent Stewart** [00:04]

Thanks for choosing Rion Equipment. This is Kenton Parts. How may I help you?

**WIRELESS CALLER** [00:07]

Hey, Kent, can you tell me if we have some load wheels in stock?

**Kent Stewart** [00:13]

Do you have a part number?

**WIRELESS CALLER** [00:14]

I don't, but I got a serial number for a machine.

**Kent Stewart** [00:17]

Okay.

**Kent Stewart** [00:20]

Yes, sir.

**WIRELESS CALLER** [00:22]

828-24-588.

**Kent Stewart** [00:50]

Okay. So it is 8, 10, 23, 18. Okay.

**Kent Stewart** [01:14]

Load wheels tandem. What's the part number? 10?

**Kent Stewart** [01:22]

513-68735. These are tandem load wheels, correct? Okay.

**Kent Stewart** [01:33]

Let me see, F51388735.

**Kent Stewart** [01:42]

No, we do not. Let's see.

**WIRELESS CALLER** [01:45]

How much are they?

**WIRELESS CALLER** [01:47]

It is that with bearings.

**Kent Stewart** [01:51]

Okay. They're \$54.65, and let me look at a picture online one moment.

**Kent Stewart** [02:04]

Okay.

**Kent Stewart** [02:07]

It looks like they come with bearings,

**WIRELESS CALLER** [02:14]

Okay. How about those side plates?

**Kent Stewart** [02:20]

sir. Side plates.

**WIRELESS CALLER** [02:21]

Like that, because it's in a carrier thing.

**Kent Stewart** [02:23]

A brace. I'm assuming that's what they're calling it. All

**Kent Stewart** [02:33]

right. 513394.

**Kent Stewart** [02:44]

Nope,

**Kent Stewart** [02:53]

nobody does on that one. So those are \$337.19 a piece.

**WIRELESS CALLER** [02:59]

Okay, and you said the wheels are 54-something each? God, that seems cheap.

**Kent Stewart** [03:02]

Yes.

**Kent Stewart** [03:04]

Well, let's see. Is there a number for everything? Well, there is a number for...

**Kent Stewart** [03:12]

The whole Hootie Kai, is that available?

**Kent Stewart** [03:17]

It is. All right.

**Kent Stewart** [03:21]

Wow. Got to be cheaper to buy the whole thing, it looks like.

**Kent Stewart** [03:36]

The whole thing, which is what they're calling the load wheel tandem, it's

**Kent Stewart** [03:43]

Everything set up looks like you just pull it out and put it back in. Clear Lake has one. They've got \$189 at the factory, and they sell for

**WIRELESS CALLER** [03:46]

Unbolt? Yep.

**Kent Stewart** [04:00]

\$470.27 apiece.

**Kent Stewart** [04:05]

So about 470-27.

**WIRELESS CALLER** [04:05]

Okay, so 479 versus 54.

**WIRELESS CALLER** [04:12]

Oh, 470.

**Kent Stewart** [04:15]

That's the whole thing. That's two of them together, two wheels together, and the bars and all the rest of that stuff.

**WIRELESS CALLER** [04:15]

So...

**WIRELESS CALLER** [04:22]

Okay, so that's literally the entire assembly that fits between the thing. I do, I think that's \$470

**Kent Stewart** [04:26]

Correct. Yep, that is. Yep. And it is...

**Kent Stewart** [04:31]

And you're getting two wheels as opposed to one at \$334. So Mason City shows that they have one. It's in a temporary stock, so I don't know if it's actually there or not. But there's \$189. Yes, \$470, \$27 for the load tandem wheels, the two wheels together.

**WIRELESS CALLER** [04:45]

each side.

**WIRELESS CALLER** [04:54]

Okay, all right, so we're looking at \$940,000.

**Kent Stewart** [04:54]

Yeah. All

**WIRELESS CALLER** [05:00]

Okay, all righty, I'll run this by them and I'll let you know, Kent.

**Kent Stewart** [05:04]

right. Thanks, sir. Bye.

CALL 484 OF 611

# Inbound call from OMAHA NE

April 20, 2026 | 08:41 PM | Duration: 1m 25s | From: OMAHA NE | To: +14025942063

Inbound

Neutral

## AI SUMMARY

Jodi Nickell reached out to clarify who is responsible for handling expired plates on a rented Turburg DOT, with OMAHA NE confirming Dustin Wagner's role in this matter and detailing the renewal process.

## FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Hey, I have a quick question for you. If a Turburg DOT is on rent and the plates are expired, who handles that?

**OMAHA NE** [00:14]

Sure. Dustin Wagner.

**Jodi Nickell** [00:15]

Justin Wagner. Okay. I would call John, but he's in a meeting at Bella's, and I thought you were still here, so. Okay.

**OMAHA NE** [00:22]

Yeah, no problem. No problem. Yeah, it should be... Well, I got... Hold on. Let me see what this is.

**Jodi Nickell** [00:26]

Okay.

**OMAHA NE** [00:31]

Let me set this on my desk.

**OMAHA NE** [00:34]

Oh,

**OMAHA NE** [00:36]

yeah. No, that's... Should be Dustin.

**Jodi Nickell** [00:39]

OKAY. MAYBE I'LL JUST --

**OMAHA NE** [00:40]

So I would imagine if he already had them set up at one point, we should just be waiting on the renewal to come in

**OMAHA NE** [00:49]

for it. So I would imagine the branch should be, somebody here should be receiving those. It's kind of like service trucks are kind of the same way. You just get the new deal from the DMV when it shows up or whatnot. Yeah.

**Jodi Nickell** [00:57]

Okay. Maybe I'll forward it to him just to remind him, but that way he's in the loop. All right. Thank you. Bye.

**OMAHA NE** [01:11]

Yep. Yeah, no problem. All right, Jerry. Yep. Bye.

### AI SUMMARY

In a conversation, Craig Solman from Ash Grove reached out to Jodi Nickell (Service Representative, Rion Equipment) regarding a faulty stand-up forklift in the B building.

### FULL TRANSCRIPT

**LOUISVILLE NE** [00:00]

This call is being recorded.

**Jodi Nickell** [00:05]

Rion Equipment, Omaha. This is Jodi. How may I help you? I'm good. How are you?

**LOUISVILLE NE** [00:08]

Hi Jodi, this is Craig Solman at Ash Grove in Louisville. How are you?

**LOUISVILLE NE** [00:14]

Good. Can I talk to someone in the service department by chance?

**Jodi Nickell** [00:18]

I'm in service.

**LOUISVILLE NE** [00:22]

Okay Jodi. Hey, I had sent an email, I don't know who it went to for sure, but our stand up forklift in our B building, I was going to see if somebody could come out and take a look at it.

**LOUISVILLE NE** [00:36]

Because the foot pedal, whenever you push down, it stops the machine and you get a red light on it and it just says, it goes dead. So I don't know if there's a switch in the foot pedal or something that's hitting or what, but we can't move it right now.

**Jodi Nickell** [00:46]

Okay.

**Jodi Nickell** [00:51]

Is there like an emergency stop button on that thing anywhere? Okay.

**LOUISVILLE NE** [01:01]

I don't...

**LOUISVILLE NE** [01:03]

I believe so, but I know that he's used that for multiple years, so he knows how to run it, so that wouldn't, I don't think so. There may be, but I'm not for sure. But for some, because he was using it, he got a pallet down, and he was moving, and it just stopped.

**Jodi Nickell** [01:18]

Okay. Okay.

**LOUISVILLE NE** [01:21]

When he, when he, uh...

**LOUISVILLE NE** [01:23]

So, and now whenever he can start it up, do whatever he needs to do, but then as soon as he tries to go forward or back, it just stops and gives that red light on the side there.

**Jodi Nickell** [01:35]

Would you be the contact out there, Craig? Okay. And you said that was in the B building?

**LOUISVILLE NE** [01:37]

And it won't move, so.

**LOUISVILLE NE** [01:40]

Yep, yep.

**LOUISVILLE NE** [01:44]

Yep, the B building, the second floor on the top, yep. Because we have two down there.

**Jodi Nickell** [01:47]

Second floor. And you don't buy... Anthony?

**LOUISVILLE NE** [01:50]

Who is our guy? Is it awesome? It comes down here? Anthony, that's, yeah.

**Jodi Nickell** [01:56]

Yeah. And then do you happen to have the serial number to that unit?

**LOUISVILLE NE** [02:01]

No, I sure don't.

**Jodi Nickell** [02:03]

Okay.

**LOUISVILLE NE** [02:04]

Not without having to walk down there and look it up, so I am not for sure.

**Jodi Nickell** [02:09]

No, that's fine.

**Jodi Nickell** [02:12]

I don't think they'll be able to make it out today, but I will let them know for tomorrow.

**LOUISVILLE NE** [02:13]

Okay, that's fine.

**LOUISVILLE NE** [02:19]

That would be great if they could come out tomorrow, and then we'll just put it on that blanket PO that we have out there for, like, we do our monthly stuff. Okay, thank you. Thanks, Jodi. All

**Jodi Nickell** [02:24]

Okay. Yep. Sounds good.

**Jodi Nickell** [02:29]

Yeah, no worries.

**Jodi Nickell** [02:31]

You too. Bye.

**LOUISVILLE NE** [02:33]

right, bye.

### AI SUMMARY

The conversation involved Jeffrey Bullock (Caller, Cass County Publishing) attempting to reach Adam Henderson about a credit application issue related to their DUNS report, which incorrectly listed their name, and Shelby Lathrum (Representative, Ryan Equipment) noted Adam would follow up once available.

### FULL TRANSCRIPT

**BULLOCK JEFFREY** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:05]

Thank you for choosing Ryan Equipment, how may I help you?

**BULLOCK JEFFREY** [00:08]

Can I speak with Adam Henderson?

**Shelby Lathrum** [00:10]

He is currently busy at the moment, can I have him give you a shot when he's done?

**BULLOCK JEFFREY** [00:14]

Oh, we put out a credit app and it says it comes back on a DUNS report. That ain't our name, but it is our name. It's Cass County Publishing.

**BULLOCK JEFFREY** [00:28]

It's for Atlantic News Telegraph. I don't

**BULLOCK JEFFREY** [00:31]

know what he wants me to do, but that is what our name is.

**Shelby Lathrum** [00:36]

Okay, yeah, I'll have to have him give you a shot about this. Telegraph. And what was it, was your name Jeff?

**BULLOCK JEFFREY** [00:45]

Okay.

**Shelby Lathrum** [00:50]

Jeff, okay. And is this a good contact phone number for you, Jeff?

**BULLOCK JEFFREY** [00:54]

Yeah, if I don't answer the phone, I'll call him back. It just means I'm out in the shop.

**Shelby Lathrum** [00:59]

Okay. Yeah, not a big deal. Yeah, thank you. Bye.

**BULLOCK JEFFREY** [01:01]

Okay? All right. Thank you.

**BULLOCK JEFFREY** [01:04]

Bye.

#### AI SUMMARY

Justin (Caller) called Rion Equipment seeking assistance to connect with Chuck Russo, while Shelby Lathrum (Representative, Rion Equipment) offered to reach out to him on his behalf.

#### FULL TRANSCRIPT

**WHITE JUSTIN** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**WHITE JUSTIN** [00:10]

Hey, this Chuck Russo, he's not answering.

**Shelby Lathrum** [00:13]

Yes.

**WHITE JUSTIN** [00:15]

And none of these people know where anything's at.

**Shelby Lathrum** [00:19]

Oh, wasn't that fun? Innovated.

**WHITE JUSTIN** [00:19]

Yeah. And this place is huge.

**Shelby Lathrum** [00:24]

Yes. Let me see.

**Shelby Lathrum** [00:32]

Is this a good contact phone number for you?

**WHITE JUSTIN** [00:35]

Yeah, this is my cell phone.

**Shelby Lathrum** [00:37]

Okay, let me try to get a hold of him from my end and see if I can get him to you. Alright.

**WHITE JUSTIN** [00:43]

Okay, sounds good. I'm over here and receiving.

**Shelby Lathrum** [00:47]

Okay, I'll let him know.

**WHITE JUSTIN** [00:49]

So, okay, sounds good. No problem.

**Shelby Lathrum** [00:50]

Alright, thank you, sir. Bye.

Inbound

Positive

### AI SUMMARY

LI MITCH contacted Chad Metzger (Representative, Ryan Equipment) to confirm the delivery schedule for equipment, which was adjusted to the afternoon after initially being set for 9 a.m.

### FULL TRANSCRIPT

**LI MITCH** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan Equipment, Chad.

**LI MITCH** [00:06]

Hey, Jack, this is MITCH. I just double-check everything good for tomorrow deliver?

**Chad Metzger** [00:08]

Yes, sir.

**Chad Metzger** [00:13]

Yep. We're good to go.

**LI MITCH** [00:15]

OK, I just double-check. So what time you going to deliver tomorrow?

**Chad Metzger** [00:33]

Let's see what I did. What did I schedule it for?

**Chad Metzger** [00:51]

Looks like it'll get there around 9 a.m.

**LI MITCH** [00:56]

Wow, so early,

**Chad Metzger** [01:00]

Let me see here.

**LI MITCH** [01:00]

huh? Because we use on Wednesday, so you don't need to do it early. After no, it's fine.

**Chad Metzger** [01:04]

Oh, hold on. Maybe,

**Chad Metzger** [01:08]

well, let me look here and see what.

**LI MITCH** [01:10]

Yeah.

**Chad Metzger** [01:16]

Okay, that's not right.

**Chad Metzger** [01:51]

I guess what

**Chad Metzger** [02:14]

time do you want it delivered? Just tomorrow afternoon?

**LI MITCH** [02:18]

Yeah, that's a matter. I just, yeah, that's a matter with me.

**Chad Metzger** [02:23]

OK, yep. I'll get it there tomorrow afternoon.

**LI MITCH** [02:24]

Okay, thank you so much. Yeah, thank you so much. Bye-bye.

**Chad Metzger** [02:27]

All right, thank you. See you next. All right, bye.

## AI SUMMARY

During the call, Adam Henderson (Sales rep) communicated with Zach from Forklifts about returning an incorrect part and ensuring the correct fan belt tensioner was acquired, indicating a cooperative approach to resolve the issue.

## FULL TRANSCRIPT

**FORKLIFTS OF DSM FORKLIFTS OF DSM** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Ryan Equipment, this is Adam. How can I help you?

**FORKLIFTS OF DSM FORKLIFTS OF DSM** [00:04]

Hey, what's up, Adam? Zach with Forklifts. Did we miss your call, sir? Yeah, yeah, go ahead and forward it to me. He's gone right now. He should be back, but... Oh, gotcha.

**Adam Henderson** [00:08]

Hey. Yeah, I was just calling. I sent Chris an email looking for a different part. I'll forward this to you.

**Adam Henderson** [00:21]

Okay, I was going to send a tech down to return something. I picked the wrong call-out number.

**FORKLIFTS OF DSM FORKLIFTS OF DSM** [00:27]

Okay, so you just need to return it and then get the right part? Okay. Okay. All right. Yeah, maybe hold off. Don't send them quite yet. Let me see if we've got the right one. Do you want to do that? All right. Sounds good. Yep. All right.

**Adam Henderson** [00:30]

So, yep. So...

**Adam Henderson** [00:32]

Yeah, he'll come down and return this part either way, but he's looking for the fan belt tensioner on the machine I just sent you.

**Adam Henderson** [00:48]

Yeah, that's fine. Just give me a shout back.

## Inbound call from LOGAN HEARSHMAN

April 20, 2026 | 05:37 PM | Duration: 1m 50s | From: LOGAN HEARSHMAN | To: +15152995624

Inbound

Neutral

### AI SUMMARY

Logan Hearshman reported that his VPN is still not functioning while discussing a specific aluminum distributor's serial number with Adam Henderson, who noted confusion about its location and history.

### FULL TRANSCRIPT

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Yes, sir.

**LOGAN HEARSHMAN** [00:05]

My VPN is still not working. So on that aluminum distributor, the only one that's left is the serial number ending in 0808.

**Adam Henderson** [00:16]

Yes.

**LOGAN HEARSHMAN** [00:32]

Okay, they do not have it.

**Adam Henderson** [00:35]

That is not one of their units anymore? Or it's not there?

**LOGAN HEARSHMAN** [00:39]

He said it never was part of theirs. I don't know.

**Adam Henderson** [00:45]

What?

**LOGAN HEARSHMAN** [00:47]

He said that they've only had three units.

**Adam Henderson** [00:51]

Okay,

**LOGAN HEARSHMAN** [00:52]

I just went through all three of them.

**LOGAN HEARSHMAN** [00:55]

And that is not one of them. He thinks it might, it's either one out in Cedar Rapids or one out in Omaha.

**Adam Henderson** [01:03]

well, we PMed it in March of '25.

**Adam Henderson** [01:09]

But then now it's got the last time it had a hydraulic leak was July of

**LOGAN HEARSHMAN** [01:09]

Yeah, I asked him.

**Adam Henderson** [01:15]

25 in Omaha.

**Adam Henderson** [01:19]

So it must be in Omaha.

**LOGAN HEARSHMAN** [01:21]

They must have just borrowed one from Omaha and it was here when we were doing PM, so we did one for him maybe.

**Adam Henderson** [01:28]

I'm guessing, but I think it's even on their agreement. So we'll get it taken off there. All right. Thanks,

**LOGAN HEARSHMAN** [01:38]

I think.

**Adam Henderson** [01:39]

man.

### AI SUMMARY

Hinners Roger (Customer) requested a forklift delivery at Target and Carney for Thursday morning, and Chad Metzger (Company Representative) assured him it would be there before 9 AM, leading to a successful arrangement.

### FULL TRANSCRIPT

**HINNERS ROGER** [00:00]

This call is being recorded.

**HINNERS ROGER** [00:05]

Hey, Chad. That Target and Carney, can you get me a forklift there on Thursday morning?

**Chad Metzger** [00:13]

I got you covered.

**HINNERS ROGER** [00:15]

Cool. What time do you think you can have it there?

**Chad Metzger** [00:18]

One time you want it there.

**HINNERS ROGER** [00:22]

Before 9?

**Chad Metzger** [00:24]

Before nine?

**Chad Metzger** [00:26]

Gotcha.

**HINNERS ROGER** [00:27]

It can just be put outside by the loading docks. There's a door I can drive in and out of, so it doesn't have to be a dock height or anything like that. Cool. I'll see you then. I appreciate it.

**Chad Metzger** [00:39]

Perfect, no problem. Have a good one. All right, bye.

**HINNERS ROGER** [00:40]

Thank you. Bye.

### AI SUMMARY

Denise (Customer Service Rep) called Kent (Parts Representative) to check on the advanced drain hose delivered for an SC6000 model repair.

### FULL TRANSCRIPT

**MOR** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing around equipment. This is Kenton Parts. How may I help you?

**MOR** [00:08]

Hello, Kent, Denise over at MVP. How are you?

**Kent Stewart** [00:11]

I am well, thank you, and you?

**MOR** [00:13]

Oh, doing great. Thought I'd follow up on that advanced drain hose that delivered to you Friday. Make sure everything looked A-OK.

**Kent Stewart** [00:16]

Yes,

**Kent Stewart** [00:23]

it does.

**MOR** [00:26]

Fabulous. All right.

**Kent Stewart** [00:26]

Yep.

**MOR** [00:30]

What model unit was that for, do you recall?

**Kent Stewart** [00:36]

No, but give me a second. I can tell you. Here, hold on.

**MOR** [00:39]

That's OK.

**Kent Stewart** [00:51]

Where is it? Where is it? Where

**Kent Stewart** [00:56]

is it?

**Kent Stewart** [01:11]

All righty.

**Kent Stewart** [01:24]

As soon as the Poodoo does what it's supposed to do now. No,

**MOR** [01:34]

Now is that for a repair or something the customer just picked up from you?

**Kent Stewart** [01:41]

that was for a repair.

**MOR** [01:44]

Ah, okay.

**Kent Stewart** [01:44]

It

**Kent Stewart** [01:46]

is a SC6000.

**MOR** [01:51]

Oh, alrighty. Those are popular, very popular models. So...

**Kent Stewart** [01:53]

Yeah. Yeah, they are.

**MOR** [01:58]

Now, I know we help you a lot with the advanced line, a little on the tenant side of things. Are you seeing any other lines besides those?

**Kent Stewart** [02:05]

Yeah. Mm-hmm.

**Kent Stewart** [02:08]

Nope, just those two. Every once in a while, I don't think it's a...

**Kent Stewart** [02:18]

Vyper Fang. Every once in a while comes up. I think that's what it is. I remember Fang. F-A-N-G.

**MOR** [02:19]

Yeah, you're...

**MOR** [02:21]

Oh.

**MOR** [02:24]

Mm-hmm. Okay.

**MOR** [02:29]

Yeah. Yeah. And those are...

**MOR** [02:33]

We're gaining on age right now, but we still have a good number of parts for them as well as...

**Kent Stewart** [02:35]

Yep.

**Kent Stewart** [02:39]

I always check you guys first.

**MOR** [02:42]

Oh, great. That is fantastic. So are you guys finally starting to see some good spring weather?

**Kent Stewart** [02:50]

Yeah, the sun's been shining. It's been like, oh, goodness gracious, chilly. The sun's out, but it's still kind of chilly in the morning. So you get like 60 in the afternoon, but it's like 34 in the morning and I'm an old guy, so I have to wear coats. Yeah.

**MOR** [03:10]

Oh, I'm wearing coats too. Trust me. I mean, it was 29 degrees here this morning.

**Kent Stewart** [03:16]

Oh, yep, yep.

**MOR** [03:17]

So, yeah. Chilly, chilly.

**Kent Stewart** [03:22]

OK. Oh, I just got a-- I found Outlooks out there. I got a truck to go unload. So it was good talking to you, yeah?

**MOR** [03:29]

Oh, yeah. Well, you sounded, yes, you as well, you sounded kind of busy when I first caught you on the phone. I was just going to see if there was anything else that you might need assistance with or thought maybe we were lacking up here and needed to improve upon. But, so...

**Kent Stewart** [03:42]

Oh, no. No, nothing is lacking. And, you know, 10 is all the way around that way. But, yeah, I won't know until the technicians go out there and say, hey, I need this part. So, will

**MOR** [03:53]

Yeah, absolutely. You give me a shout if we can be of service and if you need anything at all. You know where to find me. Thanks, Kent. Have a great rest of your week. All right, bye-bye.

**Kent Stewart** [03:59]

do. Yes, ma'am. Thank you. You as well. Bye-bye.

## Inbound call from HINNERS ROGER

Inbound

Positive

### AI SUMMARY

During the conversation, Chad Metzger (Sales rep) provided Hinnners Roger with details on the forklift rental costs, including transportation and daily rates, while Roger considered the needs of his team for an upcoming job.

### FULL TRANSCRIPT

**HINNERS ROGER** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Hey, Roger.

**HINNERS ROGER** [00:04]

Hey, Roger. Hey. How you doing, Chad?

**Chad Metzger** [00:07]

Not bad yourself?

**HINNERS ROGER** [00:07]

Oh, not bad, not bad. Just waiting for this temperature to warm up a little bit, and it doesn't seem to be getting there today. That wind is, it's a little chilly.

**Chad Metzger** [00:15]

No.

**Chad Metzger** [00:18]

No.

**HINNERS ROGER** [00:25]

Now, I can tell my wife, I said, just got to think if it's January. If it was January, this would be beautiful.

**Chad Metzger** [00:29]

Oh, this would be beautiful. Yeah.

**HINNERS ROGER** [00:34]

Yes, there you go. I

**Chad Metzger** [00:34]

It's all in perspective.

**HINNERS ROGER** [00:41]

have a job in Kearney, Nebraska.

**HINNERS ROGER** [00:46]

And I know your closest place is going to be Grand Island, isn't it?

**Chad Metzger** [00:50]

Donovan, yeah. Yeah, Gray-Alan Donovan. Yep.

**HINNERS ROGER** [00:51]

- Jonathan, Grandel, yeah. One, what would it cost to get a forklift to the Target at 4,800 3rd Avenue in Kearney in a day rental?

**HINNERS ROGER** [01:08]  
5,000 pound warehouse style, four foot forks.

**Chad Metzger** [01:23]  
Looks like it's 296 each way.

**HINNERS ROGER** [01:26]  
296 each way.

**HINNERS ROGER** [01:32]  
What's the day rental on that?

**Chad Metzger** [01:35]  
236.

**HINNERS ROGER** [01:40]  
236. If I needed one for Thursday of this week, you got one available?

**Chad Metzger** [01:45]  
Yeah. Oh,

**HINNERS ROGER** [01:47]  
Okay. Let me see if they're wanting to spend the extra money, and I will

**HINNERS ROGER** [01:54]  
let you know.

**Chad Metzger** [01:55]  
yeah. Sounds good.

**HINNERS ROGER** [01:56]  
Awesome. Thank you. Bye.

**Chad Metzger** [01:57]  
Talk to you soon. All right.

### FULL TRANSCRIPT

**CRAGG GREGORY** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Brian, equipment is Chad.

**CRAGG GREGORY** [00:05]

Hey, Chad Forrest, how's it going?

**Chad Metzger** [00:07]

Hey, Forrest.

**CRAGG GREGORY** [00:08]

Hey, that demo that's going out tomorrow, that Turburg, that's EQN2402

**CRAGG GREGORY** [00:15]  
going to Quincy Farm and home.

**Chad Metzger** [00:18]  
Just

**CRAGG GREGORY** [00:19]  
Just so you know, we got that one back, the non-DOT back from Midwest Systems or Boasso Global, and it would also be ready. Do we want to send that?

**CRAGG GREGORY** [00:30]  
Non-DOT, or you want me to go ahead and send this DOT truck?

**Chad Metzger** [00:33]  
send the one that we already have on the contract.

**CRAGG GREGORY** [00:36]  
Okay, sounds good. We'll get her over there in the morning.

**Chad Metzger** [00:37]  
Yep. Perfect. Thank you.

**CRAGG GREGORY** [00:41]  
All right, thanks Chad. Bye.

**Chad Metzger** [00:41]  
All right. Bye.

CALL 500 OF 611

**Inbound call from GUSTIN KELVIN**

April 20, 2026 | 01:51 PM | Duration: 2m 25s | From: GUSTIN KELVIN | To: +14025942051

**Inbound** **Positive**

**AI SUMMARY**

In this friendly exchange, Gustin Kelvin reached out to Derrick Dea (Parts Representative, Airlite) to request a big load bearing for a drive unit, providing the relevant serial number.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
Parts, Derrick. Pretty good. Sounds like you're in a good mood because apparently you're whistling while you're working.

**GUSTIN KELVIN** [00:06]  
Well, good morning, Derrick. How are you on this lovely day?

**Derrick Dea** [00:14]  
Oh, okay.

**GUSTIN KELVIN** [00:16]  
No, I'm just one of the seven dwarfs.

**GUSTIN KELVIN** [00:23]

Hey, you got to apologize. I don't have a laptop. I don't... It's back there doing some updates and stuff, but I've got a unit over here at Airlite. Oh, come on back. Gosh, chickadee, sorry. I'm looking through my...

**Derrick Dea** [00:26]

Thank you.

**GUSTIN KELVIN** [00:41]

Old Pitchers, but it's, I don't know if you can see my work orders

**GUSTIN KELVIN** [00:46]

on unit number,

**GUSTIN KELVIN** [00:49]

what is it, 155, it's the zero number, and in 155, I'm looking,

**Derrick Dea** [00:53]

Okay.

**GUSTIN KELVIN** [00:57]

let's see if I can get you the whole zero number, if I can find it,

**Derrick Dea** [01:02]

Mm-hmm.

**GUSTIN KELVIN** [01:03]

you can pull up my work orders, can't you?

**GUSTIN KELVIN** [01:07]

Yeah, this one there, it ends in 155, that has the,

**GUSTIN KELVIN** [01:13]

I need one of them big load bearings that go on

**GUSTIN KELVIN** [01:17]

a drive unit. You know what I'm talking about? I'm

**Derrick Dea** [01:20]

Yep. Okay. Well, I wouldn't say that. I'll look it up, I'm sure.

**GUSTIN KELVIN** [01:22]

needing that. The bolt's a kid.

**GUSTIN KELVIN** [01:25]

I wish I could give you a part number, but I ain't got it. I'm kind of useless today.

**GUSTIN KELVIN** [01:34]

Here's the serial number. 911-80155.

**Derrick Dea** [01:40]

911-80155. Okay. Yep.

**GUSTIN KELVIN** [01:43]

Like I say, it's up to you.

**GUSTIN KELVIN** [01:46]

Yep, and there's, like, I'm needing that big bearing now on the drive unit. Like I said, I don't have one. I can't look it up, man. I can't look it up. But I'm hoping you guys have that in stock. You usually do.

**Derrick Dea** [02:00]

Yeah. Let me look it up and see.

**GUSTIN KELVIN** [02:07]

Let me know, sir. I'm going to run over to see Mr. John Holmes over at PBS and

**Derrick Dea** [02:08]

All right. All right. You too. Bye.

**GUSTIN KELVIN** [02:13]

I'll wait to hear from you. Thank you very much, sir, and have a great day.

CALL 501 OF 611

## Inbound call from OMAHA NE

April 17, 2026 | 08:29 PM | Duration: 0m 56s | From: OMAHA NE | To: +14025942051

Inbound

Neutral

### AI SUMMARY

Derrick Dea (Company Representative) engaged in a brief conversation with OMAHA NE regarding a charger issue and an urgent request for a seatbelt for a Caterpillar machine, highlighting the need for timely delivery.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

There is a call open for the charger.

**OMAHA NE** [00:05]

Yeah, Derrick. I think Jody's calling me back. Does she need something?

**OMAHA NE** [00:18]

Oh, there is. Okay, it's not on my queue, so maybe I wasn't on it. Ticket number 801-304.

**Derrick Dea** [00:28]

Okay. Okay. Is it an orange one or? Okay, will do. Bye.

**OMAHA NE** [00:29]

It's a Caterpillar over at ABC. I need a seatbelt for that.

**OMAHA NE** [00:34]

And if we've got something, I would really like to have it Monday morning if possible.

**OMAHA NE** [00:40]

I believe it's an orange one, yeah.

**OMAHA NE** [00:44]

Thanks.

**OMAHA NE** [00:46]

Hey, Derrick.

## Inbound call from WAISNER MATTHEW

April 17, 2026 | 07:52 PM | Duration: 3m 50s | From: WAISNER MATTHEW | To: +14025942051

Inbound

Neutral

### AI SUMMARY

During the call, Derrick Dea (Company Representative) communicated difficulties in locating certain product numbers, while some items were successfully identified.

### FULL TRANSCRIPT

**WAISNER MATTHEW** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

A lot of these numbers aren't coming up for me. So the first page, the one, two, three, four,

**WAISNER MATTHEW** [00:06]

Hey, it's showing with Odell. Sorry, I didn't see that you called.

**WAISNER MATTHEW** [00:17]

I know they're on the...

**Derrick Dea** [00:27]

Top first four, nothing. But the rest of them are coming in on the first page. Yeah, I couldn't get any to come up on the diagram.

**WAISNER MATTHEW** [00:36]

Is that the one with the diagram?

**WAISNER MATTHEW** [00:44]

Okay, and then you said for the list, you said the first four didn't pop up either?

**Derrick Dea** [00:52]

So, the GM, the GM 32 830, nothing. GM 17494, nothing. <REDACTED\_ENTITY>, nothing.

**WAISNER MATTHEW** [00:56]

Yeah, but the pin kit, all that \*\*\*, the spring pack, all those, you were able to find?

**Derrick Dea** [01:15]

And then 36078, nothing. I tried that on TVH and Genie's website.

**Derrick Dea** [01:23]

Then the pin kits came in and went down to the booth.

**Derrick Dea** [01:27]

Those all showed up as good numbers.

**Derrick Dea** [01:31]

But then that 360181 seal,

**Derrick Dea** [01:36]

nothing.

**WAISNER MATTHEW** [01:39]

Okay.

**Derrick Dea** [01:39]

And the other page, let me try a couple of these.

**Derrick Dea** [01:48]

119 is not coming up. Oh, nope, 119,

**Derrick Dea** [02:01]

360071,

**Derrick Dea** [02:09]

nothing.

**Derrick Dea** [02:13]

GM,

**Derrick Dea** [02:21]

174, 171.

**Derrick Dea** [02:25]

Yeah, now those are coming up. Just the spring kit, spring kit, spring pack, and return spring. And boot.

**WAISNER MATTHEW** [02:38]

Okay. Why don't I go ahead and get those coming?

**Derrick Dea** [02:42]

Okay. So four, four, four, and four. How many boots? One.

**WAISNER MATTHEW** [02:44]

And then I'll figure something else out for the rest of it.

**Derrick Dea** [02:52]

Okay, so four. Four. Four. Four.

**WAISNER MATTHEW** [02:52]

I'm assuming,

**Derrick Dea** [03:06]

Yeah, that's only five of them I got to come up. One, two, three, four, five out of all of them.

**Derrick Dea** [03:22]

Get 'em coming? All right.

**WAISNER MATTHEW** [03:22]

yeah. Okay. Yeah, I will...

**WAISNER MATTHEW** [03:26]

I'll, yeah, if you don't mind getting those coming and do some digging into the rest of it.

**Derrick Dea** [03:32]

All right. Bye.

**WAISNER MATTHEW** [03:33]

Okay. Appreciate it.

**WAISNER MATTHEW** [03:36]

Bye.

## Inbound call from ROBINSON KEVIN

April 17, 2026 | 07:20 PM | Duration: 2m 37s | From: ROBINSON KEVIN | To: +15152995632

Inbound

Positive

### AI SUMMARY

Robinson Kevin (Customer, Robinson Truck and Trailer Recarter) contacted Kent Stewart (Sales Representative, Around Equipment) to order a Wokelub relay, which was confirmed available, and the order was successfully placed with payment details exchanged.

### FULL TRANSCRIPT

**ROBINSON KEVIN** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing around equipment. This is Kenton Parts. Help me help you.

**ROBINSON KEVIN** [00:08]

Hey Kent, Robinson Truck and Trailer Recarter here.

**Kent Stewart** [00:11]

Hey, sir.

**ROBINSON KEVIN** [00:12]

That sidetracked the other day, sorry, I didn't get the call,

**Kent Stewart** [00:16]

Okay.

**ROBINSON KEVIN** [00:18]

yeah. Needed to get this relay, this Wokelub relay coming.

**Kent Stewart** [00:29]

Okay. Okay.

**Kent Stewart** [00:34]

Okay. Yep.

**Kent Stewart** [00:43]

All right, Rob is in track and trail, I think. You guys are COD. R-O-B-I-N-S-O-N space T. Yeah, okay. You want me to get that coming for you? Last time I checked, on the 15th, they had an

**Kent Stewart** [01:07]

847 of them in the factory. So hopefully somebody hasn't bought all of those yet. So

**ROBINSON KEVIN** [01:14]

Yeah, and can they direct ship it to me?

**Kent Stewart** [01:16]

yes, yes. I would need to get a credit card for you from you, sir, though. I'm ready to order a copy, sir. Mm-hmm.

**ROBINSON KEVIN** [01:19]

Yep. I got a credit card right here.

**ROBINSON KEVIN** [01:25]

<REDACTED\_ENTITY>, <REDACTED\_ENTITY>.

**ROBINSON KEVIN** [01:30]

66-03, 48-97,

**ROBINSON KEVIN** [01:38]

<REDACTED\_ENTITY>,

**Kent Stewart** [01:40]

Expires. And three-digit code, sir.

**ROBINSON KEVIN** [01:43]

781.

**Kent Stewart** [01:44]

I'm going to read that number back. I copied 4246-3154-6603-4897, expiring 06 of 28, and 781 is the code.

**Kent Stewart** [01:59]

766-320th Street there in Woodward. All right. I'll go ahead and get this on its way to you, sir. And then, yeah, I think I've got your email address. I'll just email you a copy of the invoice and credit card receipt. All right. Thanks, Kevin. Have a good weekend. You bet.

**ROBINSON KEVIN** [02:04]

Yep.

**ROBINSON KEVIN** [02:09]

Yep. All right,

**ROBINSON KEVIN** [02:18]

bud. Okay, that sounds good.

**ROBINSON KEVIN** [02:21]

Thanks, Kent. You too, man. All right, bye.

CALL 504 OF 611

## Inbound call from COOPER PATRICK

April 17, 2026 | 06:24 PM | Duration: 1m 56s | From: COOPER PATRICK | To: +15152995626

Inbound

Neutral

### AI SUMMARY

Cooper Patrick reached out to Shelby Lathrum for assistance with two chargers he was unfamiliar with, leading to a discussion about basic maintenance and the option to connect with a more knowledgeable staff member for further help.

### FULL TRANSCRIPT

**COOPER PATRICK** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Rion equipment. How may I help you?

**COOPER PATRICK** [00:07]

Hey, two of these are chargers that I have no clue about.

**Shelby Lathrum** [00:13]

As in, like, how to PM them?

**COOPER PATRICK** [00:16]

Any of them? Ever worked on them? Never looked at them? Never touched them before? Don't know how they work?

**Shelby Lathrum** [00:22]

Well, today's a good day to learn.

**COOPER PATRICK** [00:25]

Hmm. Is that how it works?

**Shelby Lathrum** [00:28]

Yeah.

**Shelby Lathrum** [00:31]

Um, I think you just blow them out and make sure they function. I can shoot you over to Adam so he could go over it with you.

**Shelby Lathrum** [00:44]

Mm-hmm.

**COOPER PATRICK** [00:44]

No matter. Go ahead.

CALL 505 OF 611

## Inbound call from WIRELESS CALLER

April 17, 2026 | 05:49 PM | Duration: 10m 49s | From: WIRELESS CALLER | To: +14025942051

Inbound

Neutral

### AI SUMMARY

During the call, Derrick Dea (Representative) sought information on specific rotators while Derrick Gaye (Customer) shared a part number for a replacement.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Hey, I got a question on them rotators. Those rotators that you had me working on, can you find out if there's an EQN on the truck or the rotator itself?

**WIRELESS CALLER** [00:05]

Derrick Gaye. Pardon

**WIRELESS CALLER** [00:10]

me?

**WIRELESS CALLER** [00:21]

I have a,

**WIRELESS CALLER** [00:24]

uh,

**WIRELESS CALLER** [00:25]

I have

**Derrick Dea** [00:28]

Oh, you do?

**WIRELESS CALLER** [00:28]

a part number

**WIRELESS CALLER** [00:31]

for the, because I, yeah, I got a, I got a deal from Brett Kane. It's a 55GRRB24A.

**WIRELESS CALLER** [00:45]

They got me an estimate for replacement.

**Derrick Dea** [00:49]

That's the new one? Oh, how much?

**WIRELESS CALLER** [00:49]

Those things are...

**WIRELESS CALLER** [00:52]

Yeah, that's the new one.

**WIRELESS CALLER** [01:06]

I just saw it here.

**Derrick Dea** [01:12]

Because the drive was like, what I say, I just sold one, a similar one to Graph Central, yeah, something like that. For a new one? So they're going to replace them or?

**WIRELESS CALLER** [01:18]

Four grand.

**WIRELESS CALLER** [01:22]

Yeah, this one was... List price, \$10,195.

**WIRELESS CALLER** [01:35]

So, no, I just got that so I could tell them the difference in price on them. So, what I was going to say is rather than the whole thing,

**Derrick Dea** [01:43]

Okay.

**WIRELESS CALLER** [01:49]

there's a rotator pump

**WIRELESS CALLER** [01:54]

and that's in that picture that I sent you.

**WIRELESS CALLER** [01:58]

Let me pull it up here.

**Derrick Dea** [01:59]

Thank you.

**WIRELESS CALLER** [02:04]

And the picture that I sent you,

**WIRELESS CALLER** [02:08]

that's the part over to the side.

**WIRELESS CALLER** [02:11]

Yes, I did.

**WIRELESS CALLER** [02:13]

I am, aren't I? If

**WIRELESS CALLER** [02:18]

you look at that picture, there's

**Derrick Dea** [02:20]

I think that's the whole rotator pump assembly. I think.

**WIRELESS CALLER** [02:24]

a, it's the part where the line's actually attached to.

**WIRELESS CALLER** [02:30]

Right down below that,

**WIRELESS CALLER** [02:33]

That whole attachment there is the rotator pump.

**Derrick Dea** [02:45]

So you just want the piece that sits on top of it? No.

**WIRELESS CALLER** [02:47]

No, because the whole... well, I don't know.

**WIRELESS CALLER** [02:51]

Because what I was looking for was that the round piece, the worm gear underneath,

**WIRELESS CALLER** [02:58]

and that.

**WIRELESS CALLER** [03:03]

No. I want the piece that sits below it.

**Derrick Dea** [03:08]

Thank you.

**WIRELESS CALLER** [03:10]

That's the rotator pump.

**WIRELESS CALLER** [03:13]

Let's see if I can make this more simple for you.

**WIRELESS CALLER** [03:22]

That's not it. That's not it.

**Derrick Dea** [03:31]

I got the two pictures with the round piece and then one just going in on the right side, I guess.

**WIRELESS CALLER** [03:34]

Oh, no.

**Derrick Dea** [03:52]

Thank you.

**WIRELESS CALLER** [03:58]

Okay, I'm going to send you another picture.

**Derrick Dea** [04:17]

Thank

**Derrick Dea** [04:26]

you.

**WIRELESS CALLER** [05:57]

Ha! I got

**WIRELESS CALLER** [06:00]

it. What a pain in the air.

**Derrick Dea** [06:06]  
Thank you.

**Derrick Dea** [06:58]  
Thank you.

**WIRELESS CALLER** [07:43]  
For some reason it's not going to let me send it.

**WIRELESS CALLER** [08:59]  
Okay, so there.

**Derrick Dea** [09:35]  
Okay.

**WIRELESS CALLER** [09:40]  
I got a \*\*\*\* signal here and it's not going to let me send it.

**WIRELESS CALLER** [09:47]  
Let me see if I can walk outside here and if it will give me a better.

**WIRELESS CALLER** [10:02]  
Let me try, maybe it won't let me send it because I'm on the phone. I'm trying to send it from my phone.

**Derrick Dea** [10:07]  
All righty.

**WIRELESS CALLER** [10:17]  
Alright, let me try sending it when I'm off the

**Derrick Dea** [10:21]  
Bye.

**WIRELESS CALLER** [10:22]  
phone. Alright, bye.

AI SUMMARY

Gustin and Derrick discuss a seat cushion in stock and Derrick plans to pick up the cushion and seal kits for a cylinder repair.

FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]  
This call is being recorded.

**Derrick Dea** [00:03]  
All right, Derrick. All right. Yep.

**GUSTIN KELVIN** [00:05]

Derrick, how's it going, buddy?

**GUSTIN KELVIN** [00:08]

Hey, did we happen to have that seat cushion in stock?

**GUSTIN KELVIN** [00:13]

You rock, man. You rock. Okay, buddy. I got to come back and get some seal kits to do a cylinder, and I'll pick up that seat cushion. Thank you, sir.

**Derrick Dea** [00:18]

Okay. Bye.

CALL 507 OF 611

**Inbound call from COOPER PATRICK**

April 17, 2026 | 04:48 PM | Duration: 2m 12s | From: COOPER PATRICK | To: +15152995626

Inbound

Positive

**AI SUMMARY**

In the conversation, Cooper Patrick (Employee) reached out to Shelby Lathrum (Sales rep) for clarification on equipment assignments and deadlines.

**FULL TRANSCRIPT**

**COOPER PATRICK** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Rion Equipment. How may I help you?

**COOPER PATRICK** [00:07]

Hey, Shelby.

**COOPER PATRICK** [00:10]

What am I supposed to be working on here?

**COOPER PATRICK** [00:15]

Because the units that we have that you gave me...

**Shelby Lathrum** [00:17]

Yeah.

**COOPER PATRICK** [00:21]

Oh, there's two of them. Hold on. I don't know what's going on. This place got me.

**COOPER PATRICK** [00:27]

Okay, I found them too.

**COOPER PATRICK** [00:30]

He's telling me I got to do the heisters and everything else. Are they on there too?

**Shelby Lathrum** [00:34]

Hi, Stern.

**Shelby Lathrum** [00:36]

Let me look.

**Shelby Lathrum** [00:39]

They're

**COOPER PATRICK** [00:51]

Are they due?

**Shelby Lathrum** [00:52]

not due. I extended it out 30 days, and they don't populate then. We extended out 60 days.

**COOPER PATRICK** [01:00]

Oh, so they're not, they're not,

**Shelby Lathrum** [01:03]

The heisters and the Toyotas are not due until mid-June. Okay.

**COOPER PATRICK** [01:03]

because he was

**COOPER PATRICK** [01:08]

like, June, okay, I'll let him know and make sure, because he was thinking I was going to do all of

**Shelby Lathrum** [01:15]

Oh, gotcha. Yeah.

**COOPER PATRICK** [01:17]

them, because I, well, I called and told him, you know, I don't know, I've never been here, I mean, I've been here once, but not

**COOPER PATRICK** [01:23]

the whole facility.

**COOPER PATRICK** [01:26]

All I did was do breaks or something on a unit,

**Shelby Lathrum** [01:29]

If he wants us to move those up, we can, but as of right now, they're not due until June.

**COOPER PATRICK** [01:39]

but, okay.

**COOPER PATRICK** [01:43]

I'll let him know to make sure.

**Shelby Lathrum** [01:44]

Okay. Yeah, that sounds good.

**COOPER PATRICK** [01:46]

It does not do until June.

**COOPER PATRICK** [01:50]

OK. That'll work. I'm just making sure I'm

**Shelby Lathrum** [01:51]

Okie dokie. Okay.

**COOPER PATRICK** [01:55]

kind of lost.

**Shelby Lathrum** [01:57]

Yeah. That's all

**COOPER PATRICK** [01:58]

All right. Thank you.

**Shelby Lathrum** [02:00]  
right. Yep, no problem.

**Shelby Lathrum** [02:01]  
Bye.

Rion, Equipment Services, Adam.

**Adam Henderson** [00:09]

Yeah, how's it going?

**Adam Henderson** [00:12]

Not too bad.

**CARQUEST CORP** [00:13]

sir? Hey, so I'm cleaning up all this old stuff that I'm laying around. There's an order in the system from the 10th of this month for some decal and adhesive remover, part number 248879.

**Adam Henderson** [00:31]

Yep, for a quantity of four.

**CARQUEST CORP** [00:31]

Yeah, yep, so it looks like they delivered two of them. They can't get the other two. There's still two waiting on parts and they can't get them and there's no more in inventory. Oh, you did? Now I'm really confused. I've been clearing this stuff up. So you got all four of them right then.

**Adam Henderson** [00:42]

I got all four of them.

**Adam Henderson** [00:45]

Yeah.

**Adam Henderson** [00:48]

I did, and I was invoiced for them all, so I wonder if they just didn't...

**Adam Henderson** [00:56]

Canceled some lines or something.

**CARQUEST CORP** [00:59]

Yeah, I wonder if they didn't cancel the lines and they build them out a different way. Well, I will cancel this and then I'll clear everything else up. So is there anything else that you're missing? Okay, I went through the last order. I told Paul I didn't realize that when you sent it over for the pricing,

**Adam Henderson** [01:03]

Yeah.

**Adam Henderson** [01:08]

Not that I'm aware of. So I...

**CARQUEST CORP** [01:16]

That was actually the order and he said, yeah. I was like, okay, well I won't mess that up ever again. So that's what happened with the last one.

**Adam Henderson** [01:23]

Okay, yeah, no biggie.

**CARQUEST CORP** [01:24]

So we'll be good from there. Then we're all set, bud. Thank you, sir. Bye.

**Adam Henderson** [01:27]

So... Alright. Sounds good. Thank you.

CALL 511 OF 611

# Inbound call from GUSTIN KELVIN

## AI SUMMARY

Gustin Kelvin (Customer) called Derrick Dea (Representative) to discuss work order 801-921, specifically requesting a seat cushion and addressing issues with a faulty key switch that produced error codes.

## FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:04]

At home.

**GUSTIN KELVIN** [00:06]

More balls, dude? Yeah, she made a purse out of my balls.

**Derrick Dea** [00:11]

Hello? Hello? Hello, hello? Yeah. Yep. Some of it.

**GUSTIN KELVIN** [00:13]

Oh,

**GUSTIN KELVIN** [00:17]

man. Derrick, are you there?

**GUSTIN KELVIN** [00:20]

Sorry, did you hear that?

**GUSTIN KELVIN** [00:23]

Oh, am I being recorded?

**Derrick Dea** [00:26]

Maybe. Yep.

**GUSTIN KELVIN** [00:27]

Oh, man. Sorry.

**GUSTIN KELVIN** [00:31]

It wasn't on my phone. It was on my speaker. Dang it. Hang on. Let me switch this over. Are you there now?

**GUSTIN KELVIN** [00:39]

Sorry, man. Hey,

**GUSTIN KELVIN** [00:44]

uh, the, uh,

**GUSTIN KELVIN** [00:46]

work order 801-921.

**Derrick Dea** [00:49]

Okay. Okay. No. All right.

**GUSTIN KELVIN** [00:51]

I need a seat cushion, 515-711-97.

**GUSTIN KELVIN** [00:59]

Do I need to explain our conversation we were having? Okay. Hey, also, that key switch I ordered, we put it in and this thing throws all kinds of codes as soon as we turn it on.

**Derrick Dea** [01:12]

The new one? That's weird because that's what we put in on a previous call so I don't know. That's how I found it.

**GUSTIN KELVIN** [01:16]

So I'm going to, yeah.

**GUSTIN KELVIN** [01:25]

I don't either. But I'm going to order another key switch because...

**GUSTIN KELVIN** [01:31]

The O-key switch does work. This one, as soon as you plug it in and lift, it codes out right away.

**Derrick Dea** [01:37]

That could be a bad one. I can order another one. Okay.

**GUSTIN KELVIN** [01:41]

Yeah, I got another work order coming up for it, but if you could order another one of them, what is it, part number 50017769 switch,

**GUSTIN KELVIN** [01:54]

and I'll roll over and do some brake jobs. How's that? Should I go do a brake job?

**Derrick Dea** [01:56]

Sounds good. Yep. Mm-hmm. Oh, I don't know. We'll see what happens. Yep. Yep. Yep. Later.

**GUSTIN KELVIN** [02:00]

How's everything going today? It's Friday,

**GUSTIN KELVIN** [02:04]

dude. Excited?

**GUSTIN KELVIN** [02:07]

Got big plans for the weekend, do you?

**GUSTIN KELVIN** [02:12]

There you go. Take it in stride, buddy. All right. See you later, Derrick. Appreciate it.

### AI SUMMARY

Ray (Customer, Omaha Track) called to ask about the Freon capacity of their air conditioning unit, and Charles (Representative, Ryan Equipment) promised to send the information once located.

### FULL TRANSCRIPT

**BORCHERS W.** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Ryan Equipment, this is Charlie.

**BORCHERS W.** [00:06]

Good morning. This is Ray from Omaha Track.

**BORCHERS W.** [00:10]

On our 60-30, I was wondering if you could tell me the Freon capacity.

**Charles Huffman** [00:20]

Oh, let's

**Charles Huffman** [00:33]

see. Well,

**Charles Huffman** [01:00]

where do I have that? I know I've got a copy of that document somewhere.

**BORCHERS W.** [01:16]

Yeah, it's getting to be that time of year. These guys are going to want that air conditioner working.

**BORCHERS W.** [01:21]

They'll be squawking.

**BORCHERS W.** [01:26]

So I took it apart and we ordered some parts. I put a new compressor.

**Charles Huffman** [01:33]

Yep.

**BORCHERS W.** [01:33]

Expansion valve and thermostat and all that stuff in it. I just need to charge it up now.

**Charles Huffman** [01:45]

I'm

**Charles Huffman** [02:03]

sorry.

**Charles Huffman** [02:31]

Yeah, I'm going to have to do a little more digging for this. I thought I had it in this file, but I'm not seeing it here. What's your email address? When I find it, I'll just send it over to you.

**BORCHERS W.** [02:43]

You can send it to Ray Borchers at Yahoo.

**BORCHERS W.** [02:48]

It's R-A-Y-B-O-R-C-H-E-R-S.

**Charles Huffman** [02:50]

Okay.

**Charles Huffman** [02:54]

Yahoo.com. Okay. Yeah, there's a chart with temperature readings and stuff on it, so I'll find that and get it sent over to

**BORCHERS W.** [02:59]

Yes.

**BORCHERS W.** [03:08]

That would be great. Thank you very much.

**Charles Huffman** [03:10]

you. You bet. Bye.

**BORCHERS W.** [03:11]

Bye.

CALL 513 OF 611

## Inbound call from OMAHA NE

April 16, 2026 | 09:16 PM | Duration: 1m 29s | From: OMAHA NE | To: +14025942051

Inbound

Neutral

### AI SUMMARY

In this conversation, Derrick Dea (Sales rep) and another participant clarified details about a quote for a hydraulic unit and discussed previous deals involving hand pilot trucks.

FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Yes. Yeah. I did. That's the first one on the quote. It's an A500002748 and it's like \$530.

**OMAHA NE** [00:04]

Hey,

**OMAHA NE** [00:07]

Derrick. On this hand pilot truck thing for Gran or Omaha, do we not have a standard hand pilot, Jack? We just quote them?

**OMAHA NE** [00:17]

Okay.

**Derrick Dea** [00:25]

Then they either bought an A5 model or an A4 model. I don't know which hydraulic unit they bought because I couldn't find the sale on their account. So I don't know what they bought.

**OMAHA NE** [00:26]

Okay, perfect. I'm just seeing the other email strings. I'm like, what is going on?

**OMAHA NE** [00:39]

10-4.

**OMAHA NE** [00:41]

I bet it's one of them Access 100 ones that we had from that deal a year or two ago, that's my guess.

**Derrick Dea** [00:48]

Well, it's a cat one so it had to be either an A4 or an A5 because the GSers are all the old ones but the hydraulic units are completely different. So I quote I'm a new jack, I quote I'm a hydraulic unit for the A4 and hydraulic unit for the A5 because I don't know which one they have.

**OMAHA NE** [00:51]

Yeah.

**OMAHA NE** [00:54]

Sounds good.

**OMAHA NE** [01:06]

Oh, Jesus.

**OMAHA NE** [01:09]

Okay, you got a handle. I'm just seeing, I'm like, I'm just going to make a phone call to you to see

**Derrick Dea** [01:13]

Yeah. Yeah. All right. Bye.

**OMAHA NE** [01:14]

if there's anything I can help with. Doesn't look like there is.

**OMAHA NE** [01:19]

Thanks, man.

## Inbound call from BULLOCK JEFFREY

### AI SUMMARY

Jeff from Atlantic News Telegraph inquired about a missing credit application email, and Adam from Ryan Equipment resolved the issue by sending it during the call.

### FULL TRANSCRIPT

**BULLOCK JEFFREY** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Ryan Equipment, this is Adam. How can I help you?

**BULLOCK JEFFREY** [00:07]

Hey, Adam, this is Jeff at the Atlantic News Telegraph. I never did get an email.

**Adam Henderson** [00:11]

I'm just adding our credit app to it and you should have it in just a second. I lost the credit app on my computer and I couldn't find it and I just found it. So, yep, you should have it here.

**BULLOCK JEFFREY** [00:15]

Okay.

**BULLOCK JEFFREY** [00:21]

Okay, I'll just double-checking.

**BULLOCK JEFFREY** [00:24]

A lot of times people mistype

**Adam Henderson** [00:28]

Yeah, you should have it. I literally just hit send so you should have it right now.

**BULLOCK JEFFREY** [00:33]

it. All right, hold on, I'll check.

**Adam Henderson** [00:34]

Okay. All right. Sounds good.

**BULLOCK JEFFREY** [00:38]

Yep, I got it.

**BULLOCK JEFFREY** [00:41]

All right, thank you.

**Adam Henderson** [00:43]

Thank you, sir.

CALL 515 OF 611

## Inbound call from LOGAN HEARSHMAN

April 16, 2026 | 08:39 PM | Duration: 9m 0s | From: LOGAN HEARSHMAN | To: +15152995624

Inbound

### AI SUMMARY

The conversation between Logan (Technician) and Adam (Service Rep) revolved around technical details regarding Toyota hoses and tilt cylinder removal.

### FULL TRANSCRIPT

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Adam Henderson** [00:05]

Halo. What's up?

**LOGAN HEARSHMAN** [00:09]

Hey, that photo I emailed you with the Toyota for those hoses,

**LOGAN HEARSHMAN** [00:15]

we're going to have to order those because they're those mated hoses, right?

**Adam Henderson** [00:21]

Uh, maybe. I don't know. Are they?

**LOGAN HEARSHMAN** [00:26]

No, they are mated.

**Adam Henderson** [00:28]

OK.

**LOGAN HEARSHMAN** [00:29]

So I was just making sure that we have to order those or if I just go buy two separate hoses.

**Adam Henderson** [00:35]

Yeah, I mean, you can do two separate hoses. Sometimes they'll get wrapped up in each other is the problem.

**LOGAN HEARSHMAN** [00:40]

I'll just stick with the mated so I don't have to deal with that happening.

**Adam Henderson** [00:44]

Yeah, I'd have to have the overall length probably because or information off of the reel.

**Adam Henderson** [00:55]

So still may have to take them off and they may have to be down

**LOGAN HEARSHMAN** [00:55]

Okay, I

**Adam Henderson** [00:59]

with fork positioner if you can cap it off.

**LOGAN HEARSHMAN** [01:06]

can get that tomorrow when I go out there because I got to do the tilt cylinders on that anyways.

**Adam Henderson** [01:12]

Okay.

**LOGAN HEARSHMAN** [01:14]

I wanted to do them today,

**LOGAN HEARSHMAN** [01:18]

but I guess I need a slide hammer.

**Adam Henderson** [01:21]

To, oh, to get the pins out?

**LOGAN HEARSHMAN** [01:25]

Yeah, they're not like ours. I thought they were, but they got like

**LOGAN HEARSHMAN** [01:33]

a thing that the pin, when you rotate it,

**LOGAN HEARSHMAN** [01:39]

it adjusts the angle of the tilt cylinders.

**Adam Henderson** [01:46]

What? Like an eccentric?

**LOGAN HEARSHMAN** [01:47]

Yeah.

**Adam Henderson** [01:50]

Are you sure the pins aren't disworned?

**LOGAN HEARSHMAN** [01:53]

They'd have to be worn really freaking bad.

**Adam Henderson** [01:56]

Well, you've seen that one I got in my cabinet.

**LOGAN HEARSHMAN** [01:59]

And now

**LOGAN HEARSHMAN** [02:03]

I didn't notice any play in them,

**LOGAN HEARSHMAN** [02:09]

but I mean, I could very well be wrong too because I wasn't strictly paid attention for that.

**LOGAN HEARSHMAN** [02:18]

But the way it's set up, the way that one's set up is

**LOGAN HEARSHMAN** [02:26]

the pin itself has like a bolt head on it.

**LOGAN HEARSHMAN** [02:30]

And when you turn that, it'll adjust the angle.

**LOGAN HEARSHMAN** [02:34]

And then it will have another plate that you put over that and then bolt that into place to lock it at that angle.

**Adam Henderson** [02:42]

Oh, so it's got like a plate with a

**Adam Henderson** [02:46]

hex on it.

**LOGAN HEARSHMAN** [02:49]

To lock it into that angle. So I'd assume that would be a centric pin.

**Adam Henderson** [02:55]

Yeah, leave it to Toyota.

**LOGAN HEARSHMAN** [02:57]

I'm sitting there, I'm hitting it with the impact and I'm watching it. I'm like, this does not look right. So I called Kyle. I was like, have you seen this \*\*\*\*?

**LOGAN HEARSHMAN** [03:09]

All confused.

**Adam Henderson** [03:09]

I don't think I've ever seen one like that.

**LOGAN HEARSHMAN** [03:14]

And he goes, oh yeah, he said he's dealt with them a couple times, but I'm just like, how the \*\*\*\* do I remove these bands?

**Adam Henderson** [03:22]

Yeah, well, you could probably get it to where it's pulled back the most and then pull it out of there.

**Adam Henderson** [03:30]

I was going to try and look it up and see how it's

**LOGAN HEARSHMAN** [03:30]

I, I, yeah, I tried pulling it, tried impacting it,

**Adam Henderson** [03:36]

designed. Yeah.

**LOGAN HEARSHMAN** [03:38]

and it was just,

**Adam Henderson** [03:39]

Is that on the frame side or is that on the mass side?

**Adam Henderson** [03:50]

Yeah.

**Adam Henderson** [03:56]

Yep, it is an eccentric.

**Adam Henderson** [04:00]

Weird.

**LOGAN HEARSHMAN** [04:00]

well, it kind of, kind of \*\*\*\*\* me a little bit. I kind of \*\*\*\*\* myself all day today, though, to be fair.

**Adam Henderson** [04:14]

Yeah, I've never seen that before.

**LOGAN HEARSHMAN** [04:16]

And then on that PCB,

**Adam Henderson** [04:19]

Yeah.

**LOGAN HEARSHMAN** [04:21]

you were saying that was just an or, you thought it may have just been an orifice. No, that was a, it did have another PCB. It had a PCB in there. It was just like half the size of the one that I got the part.

**LOGAN HEARSHMAN** [04:34]

Yeah. Like it's,

**Adam Henderson** [04:35]

Yeah, because all the ones I show for it, I just looked it up again just curiously, and it's just a standard GM one like I got you.

**Adam Henderson** [04:43]

According to this, that doesn't mean that the book's not wrong.

**LOGAN HEARSHMAN** [04:47]

it's real itty bitty. It's like the size of the tip of my pinky.

**Adam Henderson** [04:53]

Huh.

**LOGAN HEARSHMAN** [05:00]

Well, yeah, because I pulled it out of there.

**LOGAN HEARSHMAN** [05:04]

And as soon as I pulled it out, I'm like, this don't look right.

**LOGAN HEARSHMAN** [05:10]

But

**LOGAN HEARSHMAN** [05:14]

I don't know what to see if we can find one or if we're just not replace it or.

**Adam Henderson** [05:21]

Uh, we'll just probably not replace it because it's... I was just doing that because that's...

**Adam Henderson** [05:26]

Part of like a normal standard tune-up, but if it rattled and everything, it's

**LOGAN HEARSHMAN** [05:30]

Yeah, it had rattle to it, so.

**Adam Henderson** [05:33]

fine. Yeah, I'll probably just leave it.

**Adam Henderson** [05:36]

Oh,

**LOGAN HEARSHMAN** [05:38]

All right, then I can just close out that work order then. Oh yeah, and I found that filter.

**Adam Henderson** [05:43]

good.

**LOGAN HEARSHMAN** [05:44]

It's halfway up the outside of the back, the outside back of the cab.

**Adam Henderson** [05:52]

Really?

**LOGAN HEARSHMAN** [05:53]

Yeah.

**Adam Henderson** [05:57]

Like it goes to the cab and then has another hose that goes inside?

**LOGAN HEARSHMAN** [06:03]

Yeah, so you'll, I followed the hose back towards the LP tank. That would go outside the cab, halfway up, and then it's bolted to the overhead guard.

**Adam Henderson** [06:14]

Weird.

**LOGAN HEARSHMAN** [06:16]

Shut up!

**LOGAN HEARSHMAN** [06:21]

Not all about you.

**LOGAN HEARSHMAN** [06:29]

So, okay, yeah, I'll just come and I'll grab the slide hammer in the morning and

**LOGAN HEARSHMAN** [06:36]

if everything goes as planned, I should be able to pretty much finish out most of Cargill tomorrow.

**Adam Henderson** [06:49]

Failed. That'd be good to get some of that off your plate.

**LOGAN HEARSHMAN** [06:49]

That's just everything goes as planned.

**Adam Henderson** [06:52]

That'd be good to get some of that off your plate. It's been quite a bit.

**LOGAN HEARSHMAN** [06:55]

Huh? Why? It's only going to get filled up a car bill, I guess.

**Adam Henderson** [06:58]

Probably.

**LOGAN HEARSHMAN** [07:00]

As soon as Fisher approves the quote for the skid steer.

**LOGAN HEARSHMAN** [07:10]

Oh, and I know that you've probably heard of

**LOGAN HEARSHMAN** [07:16]

ECA, that they're selling that.

**LOGAN HEARSHMAN** [07:20]

Yeah, that's not the only thing they're getting rid of.

**LOGAN HEARSHMAN** [07:25]

They are

**Adam Henderson** [07:25]

What are they getting rid of,

**LOGAN HEARSHMAN** [07:27]

getting rid of vitamin and

**LOGAN HEARSHMAN** [07:31]

there's another area that they're getting rid of.

**LOGAN HEARSHMAN** [07:36]

I can't remember. I want to say it might be mill, but I'm not 100% sure.

**Adam Henderson** [07:41]

too? Weird.

**Adam Henderson** [07:45]

Are they like Cargill companies? Or are they like separate companies?

**LOGAN HEARSHMAN** [07:45]

She told me.

**LOGAN HEARSHMAN** [07:49]

Different companies.

**Adam Henderson** [07:51]

Huh. Well, we just need to make sure we get the information for who needs to... who we need to contact so we can continue on with those companies. Hopefully.

**LOGAN HEARSHMAN** [07:53]

So I'm

**LOGAN HEARSHMAN** [08:08]

not even sure. Jara knows. She just knows that they're going.

**Adam Henderson** [08:08]

That'd be nice.

**LOGAN HEARSHMAN** [08:13]

But I'll ask her tomorrow.

**Adam Henderson** [08:13]

Yeah, like ECA. ECA's getting, like, I can't remember the name of the company, but they sent me some emails about, like, vendor stuff. So...

**LOGAN HEARSHMAN** [08:27]

Okay, well, I'll ask her tomorrow. See if she might know.

**Adam Henderson** [08:32]

Okay. Sounds good.

**LOGAN HEARSHMAN** [08:33]

Go from there. All right, well, I'll see you in the morning. All right, bye.

**Adam Henderson** [08:37]

All right. I'll see you. Bye.

CALL 516 OF 611

## Inbound call from Jodi Nickell

April 16, 2026 | 08:28 PM | Duration: 6m 27s | From: Jodi Nickell | To: +15152995624

Inbound

Positive

### AI SUMMARY

Jodi Nickell (Sales Rep) initiated a call to Adam Henderson (Service Technician) regarding service availability for a CAT forklift in Atlantic.

### FULL TRANSCRIPT

**Jodi Nickell** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Hey, Adam. It's Jodi in Omaha.

**Adam Henderson** [00:03]

Rion equipment this time.

**Adam Henderson** [00:08]

Yeah, what's going on?

**Jodi Nickell** [00:09]

Not much. I have a quick question. Do you guys service Atlantic?

**Adam Henderson** [00:13]

That's kind of like a split territory for us. We can.

**Jodi Nickell** [00:15]

Okay. Yeah, I knew. I just didn't know exactly where the split was because it was like we're an hour and... Oh, Highway 71. Um...

**Adam Henderson** [00:17]

That's like right on the line for our territories, technically.

**Adam Henderson** [00:23]

Yeah, Highway 71.

**Adam Henderson** [00:29]

Ish.

**Jodi Nickell** [00:31]

Yeah, I don't know exactly where in Atlantic this guy is, but he's got a cat forklift that he needs worked on, and for me to get out there right now, it's going to be probably longer than he wants to wait, but I mean, I'd be happy to take him, unless you guys are super busy too. Yeah, okay, here, is it okay if I transfer him to you?

**Adam Henderson** [00:46]

I mean, we're busy, but I can handle it. I know you guys are super short,

**Adam Henderson** [00:53]

so. Oh, yeah, that's fine. Yep. Wait.

**Jodi Nickell** [00:54]

Okay, cool. Thanks, Adam. Bye. Oh, hang on. It's not going to transfer now. Oh, hang on.

**Adam Henderson** [01:09]

Hello?

**Adam Henderson** [01:16]

Yeah, that's Adam with the Des Moines store. What can I do for you?

**BULLOCK JEFFREY** [01:20]

Hello? I have a Caterpillar sport truck that I need work done on. Do you guys come to Atlantic, Iowa?

**Adam Henderson** [01:27]

Yeah, we can.

**BULLOCK JEFFREY** [01:29]

Okay, it's a P5000. Do you need the serial number from it?

**Adam Henderson** [01:34]

Uh, yeah, I'd like that.

**BULLOCK JEFFREY** [01:37]

It's 3510564.

**Adam Henderson** [01:43]

Okay. And what's going on with it?

**BULLOCK JEFFREY** [01:48]

Well, it'll run, then it'll die, and then it'll take, before you can start it again, it takes five to eight seconds, and then it'll run for a little bit, run and die. It acts like

**BULLOCK JEFFREY** [02:03]

it's not getting propane, maybe. I don't know. And then today, the boom, quit tilting back and forth.

**Adam Henderson** [02:06]

Uh-huh.

**BULLOCK JEFFREY** [02:13]

Originally, it was

**BULLOCK JEFFREY** [02:19]

a three lever for the hydraulics and they added some switch thing to make it four way because we have a clamp for picking up newspaper rolls with it.

**BULLOCK JEFFREY** [02:33]

And now it won't till back to where we can get in and out of the building without just tearing into the cement.

**Adam Henderson** [02:44]

Okay. Yeah, it should be something we can handle. Um, what's the name of the company?

**BULLOCK JEFFREY** [02:49]

Atlantic News Telegraph.

**BULLOCK JEFFREY** [02:57]

Shut that off.

**Adam Henderson** [02:59]

Telegraph. And then what's the phone number for you?

**BULLOCK JEFFREY** [03:05]

712-254-6860. That's my cell phone number.

**Adam Henderson** [03:13]

Okay. And then what's your first and last name?

**BULLOCK JEFFREY** [03:15]

Jeff Bullock, B-U-L-L-O-C-K.

**Adam Henderson** [03:26]

Okay. And then what's the address the machine's at?

**BULLOCK JEFFREY** [03:29]

410 Walnut Street.

**Adam Henderson** [03:31]

TenWalmart.

**Adam Henderson** [03:42]

Okay, and then let me see, have we ever worked on your equipment before? Okay.

**BULLOCK JEFFREY** [03:48]

No. The last place I had come out, I thought they were CAT certified and they were only able to do basic stuff. They couldn't get into the OBDs or anything like that. So they were kind of pointless.

**Adam Henderson** [04:02]

Yep. Yep, yeah, we're the dealer, so we got all the software and everything. What's an email for you?

**BULLOCK JEFFREY** [04:13]

Jeff's Press, it's all lowercase, 06 at yahoo.com.

**Adam Henderson** [04:28]

Can you spell out that first part? I just want to make sure I get it right.

**BULLOCK JEFFREY** [04:31]

J-E-F-F-S-P-R-E-S-S and then 06@yahoo.com.

**Adam Henderson** [04:44]

Okay. What I'll have to do, would you be paying a credit card or would this be like need to get an account set up?

**BULLOCK JEFFREY** [04:53]

We probably need to get an account set up so if you email me something I can get it to our bookkeeper and she can fill it out.

**Adam Henderson** [05:01]

Yeah, absolutely. I can email you some stuff. So it'd be a credit app. It's either fillable and send back or, and then I'll also send RW9. So it's all good to go in one shot. And then as soon as you get that back to me, I'll get it to my people and we'll get something set up.

**BULLOCK JEFFREY** [05:05]

Okay.

**BULLOCK JEFFREY** [05:19]

Okay. So we're probably looking at next week sometime.

**Adam Henderson** [05:22]

Yeah, I'm booked out till, I'm gonna say, probably next Tuesday. I might be able to break somebody free to get down there.

**BULLOCK JEFFREY** [05:31]

Okay. All right, go ahead.

**Adam Henderson** [05:32]

So, shouldn't be too long. That's just kind of a general idea. It's

**BULLOCK JEFFREY** [05:37]

Okay. Go ahead and email that to me. And if I don't receive anything in the next

**BULLOCK JEFFREY** [05:44]

hour or two, what is the phone number I can call you back at?

**Adam Henderson** [05:48]

515-299-5624

**BULLOCK JEFFREY** [05:50]

515. Okay.

**Adam Henderson** [05:52]

is my direct desk number.

**BULLOCK JEFFREY** [05:58]

5624. And your name was?

**Adam Henderson** [06:00]

Adam Henderson.

**BULLOCK JEFFREY** [06:08]

Okay. All right. If I don't receive anything in the next hour or so, I'll give you a call back.

**Adam Henderson** [06:14]

Okay, yep, I'm typing it up right now so it shouldn't be too long.

**BULLOCK JEFFREY** [06:17]

All right. Thank you.

**Adam Henderson** [06:18]

All right, thank you, sir.

**BULLOCK JEFFREY** [06:20]

Bye.

### AI SUMMARY

The call initiated by Jeffrey Bullock involved a request for service on a Caterpillar forklift, with Jodi Nickell from Omaha confirming their certification and discussing the service area.

### FULL TRANSCRIPT

**BULLOCK JEFFREY** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

We're in Equipment, Omaha. This is Jodi. How may I help you? This is.

**BULLOCK JEFFREY** [00:09]

Service? Yeah. I need a Caterpillar or four truck worked on. Are you guys certified to work on them?

**Jodi Nickell** [00:14]

We are. Let me see how far Atlantic is.

**BULLOCK JEFFREY** [00:17]

Okay. Do you guys come to Atlantic, Iowa?

**BULLOCK JEFFREY** [00:26]

Where are you guys located?

**Jodi Nickell** [00:27]

Omaha, so are you closer to like Des Moines?

**BULLOCK JEFFREY** [00:31]

No. We're by a few miles. Yeah, we're kind of like jet center. We're like 50, 60 miles from Omaha.

**Jodi Nickell** [00:32]

You are closer to Omaha? Right. I don't know if we go out quite that far. Let me see.

**BULLOCK JEFFREY** [00:41]

Depending on how far out in Omaha you are.

**Jodi Nickell** [00:53]

So an hour and four minutes.

**Jodi Nickell** [01:10]

Yeah, let me...

**Jodi Nickell** [01:20]

I just want to make sure that I don't want to set you up at the wrong place and then get you shuffled around. So give me just one second, okay?

**Jodi Nickell** [01:31]

All right, let me see something here real quick.

**Jodi Nickell** [01:39]

I'm going to try one more person over there, okay?

**Jodi Nickell** [01:45]

All right, hang on one second.

### AI SUMMARY

The conversation involved Derrick Dea (Rion Equipment) and Chuck from Omaha Public Power District discussing the status of missing parts for a window installation.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Rion Equipment, Omaha, this is Derrick. Yesterday... So you got all the stuff for the inside, but you need the stuff for the outside now, right?

**OMAHA NE** [00:07]

Hey, Derrick Chuck with Omaha Public Power District. Hey, did you, I sent you an email, I thought this week, but maybe not. Yes, yeah, on that missing pieces for that window. Whatever holds it, yeah, whatever squeezes it, you know, holds it on from the outside.

**Derrick Dea** [00:27]

Holds it open. See, I ordered all that stuff, I thought. For the outside.

**OMAHA NE** [00:31]

Well I mean just connects the latch to the window. Because they said they're missed. They got everything for the inside but there's nothing to you know hold it that holds it all together from the outside.

**OMAHA NE** [00:51]

I don't know if it's just a plain black metal thing that threads into or... Alright. And then I've got another JLG that we're looking for a block heater cord on it.

**Derrick Dea** [00:51]

I'll have to double check the drawings. I thought that was everything. Okay. I'll go back and look. Yep. Yeah.

**OMAHA NE** [01:13]

And I don't know if they hopefully offer that, but I have no idea. If you can look, I guess.

**Derrick Dea** [01:16]

Was it factory installed? That's the other thing. Because they might have gone to an auto parts store and just got one, you know? Yeah.

**OMAHA NE** [01:28]

But,

**OMAHA NE** [01:31]

yeah, that's what I don't know. I know it's a Deutz engine.

**OMAHA NE** [01:39]

Okay, if it's not on the build sheet then I'll have to go elsewhere.

**Derrick Dea** [01:39]

Yeah, I guess send me that information, I'll take a look at it, see if it says anything on the build sheet. Yeah, prior to the Deutz or Interstate, if whoever installed it, I don't know where, it was not on the build sheet, it's got to be through the engine place or aftermarket. So...

**OMAHA NE** [01:49]

But, mm-hmm.

**OMAHA NE** [01:56]

Yeah. I'll send you the info and

**Derrick Dea** [02:03]

Okay. All right. Bye.

**OMAHA NE** [02:04]

See if you can come up with anything. All right. Thank you. Yep. Bye.

### AI SUMMARY

John Howard (Sales rep) contacted Bob from AI Imaging Warehouse to discuss a toner order for the Canon copier, confirming pricing and addressing invoice details.

### FULL TRANSCRIPT

**Anonymous** [00:00]

This call is being recorded.

**Anonymous** [00:03]

John Howard, please. Hey, Bob over at AI Imaging Warehouse. How are you today?

**John Howard** [00:15]

Good. How about you?

**Anonymous** [00:17]

I'm good. I'm calling you back. You spoke to Steve from the office the other day in reference to the toner for the Canon copier. I want to ask, I got a box here going out to you at last year's price of \$5.29. If it's

**Anonymous** [00:29]

It's okay. I have a ship deducted with UPS to 7820 L Street, Omaha. I need an email address for the invoice.

**John Howard** [00:38]

I'm not sure if you guys found out who it is,

**John Howard** [00:45]

but we are account, I don't know who the account admin is for us, so I would assume the invoice would go to them

**John Howard** [00:53]

because I'm just a local contact. I'm not sure who the, who pays those invoices when they come in.

**Anonymous** [01:00]

All right. I'll figure it out. Thank you. I'll let them know. Thank you.

**John Howard** [01:02]  
Yep, thanks.

## AI SUMMARY

Chad Metzger (Sales rep) and NEBRASKA CIT NE discussed the availability of 360s for Welsh's rental needs in Utah, noting limited stock and planning for future communication.

## FULL TRANSCRIPT

**NEBRASKA CIT NE** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Brian, equipment's cad.

**NEBRASKA CIT NE** [00:04]

Hey Chad, Danny, how's it going?

**NEBRASKA CIT NE** [00:08]

Hey, question for you. Jeff tagged me on email. Did he ask you about any extra 360s

**NEBRASKA CIT NE** [00:16]

for a re-rent for Welsh?

**Chad Metzger** [00:20]

No.

**NEBRASKA CIT NE** [00:20]

Okay, so Welsh is looking for a possible re-rent in Utah for 36,000 pounds, either an X or an XH, but I think we're pretty slim on those, aren't we?

**Chad Metzger** [00:34]

The only thing we have in Gillette are H's.

**NEBRASKA CIT NE** [00:38]

I don't have a computer in front of me,

**NEBRASKA CIT NE** [00:45]

but until we get the ones that we ordered, I'm pretty sure that we've sold a bunch of them to run pretty slim.

**NEBRASKA CIT NE** [00:52]

Like if we let one go.

**Chad Metzger** [00:52]

Yeah, there's... I've got a customer that was picking one up

**Chad Metzger** [01:04]

today.

**Chad Metzger** [01:08]

It'll be back Monday.

**Chad Metzger** [01:12]

And then the other one was a local customer that was just going to pick it up and use it for a couple hours this morning.

**NEBRASKA CIT NE** [01:21]

Is that the one in Omaha?

**Chad Metzger** [01:22]

So I'll have two next week in Gillette.

**NEBRASKA CIT NE** [01:25]

Oh, in July. Got it. Okay. Would we...

**NEBRASKA CIT NE** [01:31]

I DON'T KNOW HOW LONG IT IS. THAT'S THE ISSUE.

**Chad Metzger** [01:36]

Yeah, otherwise they're just going to sit there.

**NEBRASKA CIT NE** [01:39]

YEAH, THAT'S TRUE.

**NEBRASKA CIT NE** [01:42]

OKAY. I'LL RESPOND TO HIM AND I'LL TAG YOU ON IT TOO. SO THAT WAY YOU KNOW. ALL RIGHT. THANKS, CHET.

**Chad Metzger** [01:47]

Okay, sounds good.

**Chad Metzger** [01:49]

All right, thanks. Bye.

### AI SUMMARY

In a recent call, Pamela Parsons (Customer) reached out to Derrick Dea (Representative, Ryan Equipment) regarding her Caterpillar lift model NRR45, which experienced damage to its cylinders.

### FULL TRANSCRIPT

**PARSONS PAMELA** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Ryan Equipment, Omaha, this is Derrick. Okay. Okay.

**PARSONS PAMELA** [00:03]

Good morning,

**PARSONS PAMELA** [00:06]

Derrick. My name is Kirk, and I'm working on a model, a Caterpillar lift model NRR45,

**PARSONS PAMELA** [00:18]

and I've got a serial number if you need it.

**PARSONS PAMELA** [00:22]

2, G as in girl, L as in laugh, 01783, 36 volts.

**Derrick Dea** [00:25]

Okay.

**PARSONS PAMELA** [00:34]

We got

**PARSONS PAMELA** [00:36]

Dropped off the cement. We hooked on this thing, pull it back up on the cement. I hooked to the wrong place, i.e., the forklift frame, the forks itself. It pulled it out.

**PARSONS PAMELA** [00:49]

The mass tilt, it's a package machine, and it's the cylinders that extend the forks

**Derrick Dea** [00:49]

Okay.

**PARSONS PAMELA** [00:57]

in and out.

**PARSONS PAMELA** [01:01]

And we've evidently blown the inside of them cylinders, pulled the end off of the ram. And I just wondered if you guys carry parts or kits or cylinders or...

**Derrick Dea** [01:11]

Well that's a pretty old one, I'd have to do some looking, but some of them are no longer available, but off the

**PARSONS PAMELA** [01:25]

Okay.

**Derrick Dea** [01:26]

look. But

**Derrick Dea** [01:29]

uh, I got your phone number 712, are you here in Omaha?

**PARSONS PAMELA** [01:33]

5921592.

**Derrick Dea** [01:37]

Persia, okay. Alrighty, let me do some checking, see if we can get some prints over to you because there could be a lot of stuff broke on it. I don't know if you want to have, if you know exactly what's broke, I can send you some prints and then I can go from there on what you actually need and see if it's available or

**PARSONS PAMELA** [01:38]

I'm Persia, Iowa.

**Derrick Dea** [01:59]

It's about the easiest way I know how to do it because I can't really look at it and see what's broke because I'm not at the machine you know. Well I can send you some pictures you can look at and see if it's still available with part numbers but I do know that's probably a... let me see what year that is.

**PARSONS PAMELA** [02:02]

Okay, alright.

**PARSONS PAMELA** [02:09]

Yeah.

**PARSONS PAMELA** [02:21]

I think it's an 05.

**Derrick Dea** [02:23]

Let's see, because I think Raymond pretty much took care of that product line from us. NRR-45.

**Derrick Dea** [02:50]

97. Yep. There's a lot of pictures in that mast.

**PARSONS PAMELA** [02:53]

1997.

**PARSONS PAMELA** [03:01]

It sure runs good when you don't do stupid stuff with it.

**Derrick Dea** [03:15]

There's a load wheels. I'll send you some of these sections here, I guess.

**PARSONS PAMELA** [03:22]

So you--

**PARSONS PAMELA** [03:36]

well, those-- it doesn't specify like the cylinders I described or--

**Derrick Dea** [03:37]

Oh, there's the extend and retract the scissor section.

**PARSONS PAMELA** [03:49]

yeah.

**PARSONS PAMELA** [03:56]

Everything else works, but them cylinders are-- they plugged one line on there, and you can just pull this thing back and forth. So it destroyed something inside them to bypass that oil.

**Derrick Dea** [04:01]

Trying to see if I can find the carriage assembly, fork carriage.

**Derrick Dea** [04:26]

Thank you.

**PARSONS PAMELA** [04:44]

Thank you.

**Derrick Dea** [05:13]

Is it a single reach or double reach? Do you know? Yeah, there's no...

**PARSONS PAMELA** [05:32]

I'm standing. So you'd be saying one scissor or two, it's a single.

**Derrick Dea** [05:40]

Yeah. Three cylinder single.

**PARSONS PAMELA** [05:42]

It's just got one scissor point in it.

**Derrick Dea** [06:01]

Also, the cylinder numbers would probably be stamped on the barrel. Be like a 105.581, something like that. I just picked one out of a single reach and that one's

**PARSONS PAMELA** [06:09]

Oh, OK.

**PARSONS PAMELA** [06:19]

Now when you say, OK.

**Derrick Dea** [06:22]

Like \$1900. There should be a number stamped on the cylinder. Like a 1055881 somewhere stamped on the cylinder. If it's just that you need, that would be nice and I can just see if that cylinder is available. Is it just the cylinder that's blown?

**PARSONS PAMELA** [06:43]

Yeah, everything else functions. Nothing's broke.

**Derrick Dea** [06:47]

I'm thinking it's this cylinder, but that's how I would identify it. This is a single cylinder, 1055881.

**PARSONS PAMELA** [06:48]

We just lost our--

**PARSONS PAMELA** [06:51]

the system is energizing the oil on both sides, you know?

**PARSONS PAMELA** [06:56]

And

**PARSONS PAMELA** [07:01]

give me that number again,

**Derrick Dea** [07:09]

One end's got a single clevis, the other one has a double.

**PARSONS PAMELA** [07:16]

please. Just a second.

**PARSONS PAMELA** [07:18]

- One

**Derrick Dea** [07:38]

Thank you.

**PARSONS PAMELA** [07:40]

piston going into the clevis right there.

**PARSONS PAMELA** [07:45]

- Bar solid, 10 goes through the K-9.

**PARSONS PAMELA** [07:49]

Yeah, this has got one clevis and then it's solid on the back side of it.

**Derrick Dea** [07:54]

Yeah, if I could get that number up the side sure make it easier.

**PARSONS PAMELA** [08:00]

Okay, well, I'll call you back after we... So if it was that cylinder, can you get the repairs for the inside of it?

**Derrick Dea** [08:02]

Well if it's blown and I can send you the energy but I just get the whole thing but that was like 1900 bucks but I need to get the cylinder number to

**Derrick Dea** [08:18]

Get the actual cylinder and get the actual breakdown to you. Then go from there. You might have to just pop the pins and take it out and clean it up. You know, I mean, you can't use it, you know what I mean? It's probably where you can't see it anyway. Probably on the

**PARSONS PAMELA** [08:22]

Okay, let me...

**PARSONS PAMELA** [08:25]

I can't get my eyes on the number. I'll call you back when we get that number located.

**PARSONS PAMELA** [08:33]

Okay.

**PARSONS PAMELA** [08:38]

I hear you.

**Derrick Dea** [08:41]

Side where it's behind something, I'm assuming that's where they tend to be all the time. And also there's hydraulic shops if there's parts broke internally could probably fabricate them if they got the original pieces you know if it's not available you know because we do have

**PARSONS PAMELA** [08:48]

Yeah. Right. Right. Okay. All right. Let me do some disassembly here and I'll get back with you.

**Derrick Dea** [09:06]

Cylinder shops here in Omaha, some of these older cylinders are no longer available. They need like a rod made or a piston made or the head of the cylinder made. They can actually machine them. Just what service picks, I mean, just

**PARSONS PAMELA** [09:19]

Do you have a shop that you deal with?

**Derrick Dea** [09:25]

Any hydraulic shop and sometimes we even send it to the CAT machine group building, the cylinder shop there on Sapp Brothers Drive. Sometimes, it just depends. I think the big stuff goes to the Sapp Brothers Drive, I think, but they just pick whoever they want to go to, you know, I mean, I don't know exactly which one, but they're all over the place.

**PARSONS PAMELA** [09:38]

All right. Sounds like fun.

**Derrick Dea** [09:48]

Alrighty. Alrighty.

**PARSONS PAMELA** [09:48]

Yeah. Okay. All right. Thank you. I'll be back in touch with you. We get this thing taken off and see what we find.

**PARSONS PAMELA** [09:57]

All right. Thanks.

### AI SUMMARY

Gustin Kelvin called Derrick Dea to inquire about the stock availability of a muffler, and they exchanged light-hearted banter about Derrick's busy schedule before concluding the call amicably.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Alright, Derrick. Alright. I haven't even looked yet. Yep.

**GUSTIN KELVIN** [00:04]

Derrick, how you doing buddy?

**GUSTIN KELVIN** [00:09]

Good. Hey, I left you a message. Did you happen to have a muffler and adapt it in stock?

**GUSTIN KELVIN** [00:18]

Holy moly, Derrick, you're that busy you can't even...

**GUSTIN KELVIN** [00:23]

You're a swamp, dude.

**GUSTIN KELVIN** [00:26]

Good God. You want me to see if Richard's got it?

**Derrick Dea** [00:29]

Yep, if you want, if you're wanting it now. Alright. Will do. Nope.

**GUSTIN KELVIN** [00:34]

Well, I'm just curious if we had it, I'd take it and go put it on because they're like, it's ugly.

**GUSTIN KELVIN** [00:40]

I'll ask him. I'm in the boys' room right now and I'll go out there and ask Richard. I appreciate it, man. Keep up the good work. Is there anything I can get you?

**Derrick Dea** [00:51]

Yep. Alright. Bye.

**GUSTIN KELVIN** [00:51]

Sure. Good, buddy. Thank you.

### AI SUMMARY

In the conversation, Logan (Customer, Caller) sought guidance from Adam (Sales rep) regarding the installation of a specific filter for work order 795-631-7.

### FULL TRANSCRIPT

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

What's

**LOGAN HEARSHMAN** [00:05]

Hey, question for ya.

**Adam Henderson** [00:07]

up?

**LOGAN HEARSHMAN** [00:08]

Work order 795-631-7. Where the \*\*\*\* does this filter thing go?

**Adam Henderson** [00:16]

795631.

**LOGAN HEARSHMAN** [00:20]

795-631, yep. Segment 7.

**Adam Henderson** [00:24]

What filter for like a fuel filter?

**LOGAN HEARSHMAN** [00:31]

The part number is A-0000-47622.

**Adam Henderson** [00:39]

Yeah, it should just have like a bolt together aluminum thing somewhere in the fuel line.

**Adam Henderson** [00:49]

Should have like four screws that hold it together, but if it's not there, I don't know. It's just what was listed for the machine.

**LOGAN HEARSHMAN** [00:58]

I wonder if it's on the...

**LOGAN HEARSHMAN** [01:02]

On the backside by the LP tank, I was looking underneath the hood and I'm like, where the \*\*\*\* does this even go?

**Adam Henderson** [01:08]

Yeah, it could be. I'd just start looking in the high-pressure fuel line to see if you can find one.

**LOGAN HEARSHMAN** [01:13]

Okay, yeah, I followed that all the way from

**LOGAN HEARSHMAN** [01:18]

the vaporizer back to behind the hood, but I didn't go all the way back to the tank.

**Adam Henderson** [01:24]

Yeah. If you'd...

**LOGAN HEARSHMAN** [01:26]

Did you know you got to remove the throttle body to replace the PCB valve?

**Adam Henderson** [01:31]

No. That's weird.

**LOGAN HEARSHMAN** [01:35]

The other side just got the elbow.

**Adam Henderson** [01:40]

That's a V6,

**LOGAN HEARSHMAN** [01:43]

Yep, Vortex.

**Adam Henderson** [01:45]

right? Huh. Super weird. Why would they do that?

**LOGAN HEARSHMAN** [01:47]

Yeah, the left side has the elbow and then the right side, right underneath the throttle body is where the PCV valve is.

**Adam Henderson** [01:57]

Huh. Is that like dual fuel?

**Adam Henderson** [02:00]

Or is it just LP?

**LOGAN HEARSHMAN** [02:01]

I don't think so. I think it's just LP.

**Adam Henderson** [02:05]

Huh. Send me a picture under the hood so I can kind of see what that one looks like. That's a problem. I never see a lot of that stuff under the hood, so sometimes I have no idea what I'm looking for. Okay,

**LOGAN HEARSHMAN** [02:16]

Yeah, no problem. Yeah, I'll send you a photo.

**Adam Henderson** [02:18]

sounds good.

#### AI SUMMARY

During the call, Derrick (Parts representative) assisted the caller in ordering various parts needed for a service call, ensuring they would be delivered by the next day.

#### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, this is Derrick.

**WIRELESS CALLER** [00:05]

Well hello Derrick Day. Did you know this call was being recorded?

**Derrick Dea** [00:07]

Hello. Yes, it is.

**WIRELESS CALLER** [00:13]

So, um, oh, on

**WIRELESS CALLER** [00:20]

the, uh, I'm, oh, I am slightly unprepared for this conversation. Ha, ha, uh, so on that, uh, on that one for the, for the rotator,

**Derrick Dea** [00:27]

Yeah? Mm-mm. You find any numbers on the other one? Sweet.

**WIRELESS CALLER** [00:36]

Did you hear anything on that yet?

**WIRELESS CALLER** [00:39]

Okay. I

**WIRELESS CALLER** [00:44]

did not.

**WIRELESS CALLER** [00:47]

Yeah, I know.

**WIRELESS CALLER** [00:50]

It's going to be fun.

**WIRELESS CALLER** [00:53]

Let's see here.

**WIRELESS CALLER** [01:17]

I got a couple of things I need to order.

**WIRELESS CALLER** [01:22]

Let me just double check them here.

**WIRELESS CALLER** [01:29]

Perfect. Okay, so on service call, 801-666,

**Derrick Dea** [01:37]

Thank you.

**WIRELESS CALLER** [01:41]

I need...

**WIRELESS CALLER** [01:49]

On segment one,

**WIRELESS CALLER** [01:53]

I'll need a 91A 120 5600, the rivets, and there's six of them.

**Derrick Dea** [02:01]

How many? Okay. Okay.

**WIRELESS CALLER** [02:06]

And then I also need a 91A 0103 400 for one.

**WIRELESS CALLER** [02:20]

And then on segment two,

**WIRELESS CALLER** [02:24]

I need a 91H2008830

**Derrick Dea** [02:25]

Okay. Alrighty.

**WIRELESS CALLER** [02:27]

for one.

**WIRELESS CALLER** [02:38]

And that is it for right now.

**WIRELESS CALLER** [02:47]

And for tomorrow, please.

**Derrick Dea** [02:49]

Will do. Yep. Bye.

**WIRELESS CALLER** [02:52]

Thank you very much. Bye.

CALL 528 OF 611

## Inbound call from ANDERSON SHEREE

April 16, 2026 | 03:54 PM | Duration: 5m 51s | From: ANDERSON SHEREE | To: +14025942051

Inbound

Positive

### AI SUMMARY

In the conversation, Derrick Dea (Technical Support) and Sheree Anderson engaged in a detailed discussion about the specifications of the BL06 chain.

### FULL TRANSCRIPT

**ANDERSON SHEREE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Bart, this is Derrick. Yeah. It depends. Yeah. Could be...

**ANDERSON SHEREE** [00:06]

Hey, Derrick, question for you.

**ANDERSON SHEREE** [00:10]

BL6 chain is 5-8 pitch, right? Because they're measured in 8s?

**ANDERSON SHEREE** [00:20]

What do you mean it depends?

**Derrick Dea** [00:25]

1066, could be 866, could be 666.

**ANDERSON SHEREE** [00:30]

No, this is BL06.

**Derrick Dea** [00:31]

BL06. Is that like...

**Derrick Dea** [00:48]

BL-06. No, it's not coming up. BL-06, that's all you have on there? BL-06.

**ANDERSON SHEREE** [01:04]

Double check it in one second.

**ANDERSON SHEREE** [01:07]

Yeah, that's all it says on

**Derrick Dea** [01:13]

That's nothing I can do a number with. So you've got to

**ANDERSON SHEREE** [01:13]

it. BL06.

**Derrick Dea** [01:31]

Measure the pitch, you know, and then how the Leafs configure. Not all...

**ANDERSON SHEREE** [01:36]

Oh yeah, I'm measuring the pitch, but I don't see change stretching \*\*\*\*\* 200%.

**Derrick Dea** [01:40]

Well, the BLO, the question you're asking, I don't know because I can't, that's not coming up.

**ANDERSON SHEREE** [01:45]

So that's why I'm questioning measuring.

**Derrick Dea** [01:57]

BL-06 is either 634, 644, 666, whatever, there's three numbers, not two. But the stamp should show BL something on the side of the chain.

**ANDERSON SHEREE** [02:12]

They

**ANDERSON SHEREE** [02:14]

only show the one chain you ordered me, it's just BL10. That's all that chain shows on the side of it. The rest of the numbers is just the Leafs.

**Derrick Dea** [02:24]

So is this on the Princeton? So we ordered the wrong chain then.

**ANDERSON SHEREE** [02:30]

No, this is on a young or a small Mitsubishi.

**ANDERSON SHEREE** [02:39]

Now we're doing PMs and I'm measuring chains on a different lift and I'm trying to do it but it's measuring way off.

**Derrick Dea** [02:45]

Well, that 06, because what you're asking, it's not always, the pitch is different, depending on the size of chain. Well, let's, well, 6 would be,

**ANDERSON SHEREE** [02:55]

I thought BL06 was a pitch.

**ANDERSON SHEREE** [03:00]

Just like the chain you ordered means BL10 which is inch and a quarter.

**Derrick Dea** [03:08]

Yeah, when you reduce it down, yeah. Six, three, let's see. My brain is fried. Hold on. God \*\*\*\*

**ANDERSON SHEREE** [03:09]

5H, wasn't it?

**ANDERSON SHEREE** [03:21]

I just want to double check because I'm trying to make sure I'm measuring these chains right and they're showing like extremely stretched like a lot but they don't look horrible visually.

**Derrick Dea** [03:23]

it.

**Derrick Dea** [03:44]

Because BL10 is like BL1034, 1234, 1434, 1634. And BL6 could be 644, 634, and that's how the leafs, yeah.

**ANDERSON SHEREE** [03:58]

Well yeah, 644 that's a link so I'm

**ANDERSON SHEREE** [04:06]

yeah I was just trying to find the pitch which is the BL number which should be 5/8 correct?

**Derrick Dea** [04:11]

Let's see. My brain's fried here. Okay.

**ANDERSON SHEREE** [04:27]

I'm going to give Dorset a call.

**Derrick Dea** [04:29]

Hold on, I'm trying to figure this, so, 6,

**Derrick Dea** [04:38]

6/8, it's not, ugh, my brain's fried, I can't think. I gotta look at the dam.

**Derrick Dea** [04:54]

6 is not 5/8, 6/8.

**ANDERSON SHEREE** [05:06]

6-8-5-8. 5-8, or not 5-8, uh, \*\*\*\*.

**ANDERSON SHEREE** [05:13]

Oh, \*\*\*\*.

**Derrick Dea** [05:16]

Which would be three-quarter. Right? I had to redo my math. See, my brain's fried. I had to reduce six-eighths down to three-quarters, so it's three-quarter pitch. Now my head hurts. Thanks a lot.

**ANDERSON SHEREE** [05:21]

Oh, yeah. Yeah, goddammit, I'm stupid.

**ANDERSON SHEREE** [05:28]

Yeah, mine too today.

**ANDERSON SHEREE** [05:32]

Goddammit, I was... Okay, I know where I \*\*\*\*\* up now. Thanks.

**ANDERSON SHEREE** [05:38]

Mine too. Bye.

### AI SUMMARY

The conversation involved Kent (Parts Representative) helping a caller with a purchase order for a hose, ensuring all details were accurately logged and processed before concluding the call.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Kent Stewart** [00:04]

Thanks for choosing Rion Equipment. This is Kenton Parts. Let me help you.

**WIRELESS CALLER** [00:07]

Hey, Kent, I need a PO.

**Kent Stewart** [00:10]

Okay. I'm getting logged back in.

**Kent Stewart** [00:19]

Okay.

**Kent Stewart** [00:34]

What's your work order number,

**WIRELESS CALLER** [00:37]

It is 801-<REDACTED\_ENTITY>.

**Kent Stewart** [00:41]

sir? 606. Whitecap.

**WIRELESS CALLER** [00:41]

segment 2,

**Kent Stewart** [01:07]

One hose.

**Kent Stewart** [01:11]

H-O-S-E-S. What's your total?

**WIRELESS CALLER** [01:17]

115-05.

**Kent Stewart** [01:19]

115.05. Come on, catch up with me.

**WIRELESS CALLER** [01:27]

We don't have it all in one.

**Kent Stewart** [01:29]

Are you at Tompkins?

**WIRELESS CALLER** [01:31]

Yeah, now we've got 35 feet.

**Kent Stewart** [01:33]

One moment, please. V106754. 106754.

**WIRELESS CALLER** [01:37]

Excuse me, 360.

**WIRELESS CALLER** [01:40]

I always like whoever Larry is. We tried to call him. We didn't go through and texted him. So maybe he could have a better chance. 113-8090.

**Kent Stewart** [01:45]

Excuse me?

**Kent Stewart** [01:52]

Oh, I have to put the X there. Okay. 106754.

**Kent Stewart** [01:58]

I forgot a checkmark. Sorry.

**Kent Stewart** [02:02]

Your PNC is going to be 1138090.

**Kent Stewart** [02:13]

Yes, sir.

**WIRELESS CALLER** [02:15]

All righty. Thank you. Bye.

**Kent Stewart** [02:16]

Thank you.

CALL 530 OF 611

Inbound call from OMAHA NE

April 16, 2026 | 02:55 PM | Duration: 8m 13s | From: OMAHA NE | To: +14025942044

Inbound Negative

AI SUMMARY

During the call, a customer inquired about a specific pulley assembly related to ticket number 801646.

FULL TRANSCRIPT

OMAHA NE [00:00]

This call is being recorded.

Charles Huffman [00:03]

Keith.

OMAHA NE [00:04]

Yeah, Charlie. Ticket number

OMAHA NE [00:09]

801646.

Charles Huffman [00:12]

Okay.

OMAHA NE [00:13]

I'm looking for the pulley assembly that sits on top of the primary lift cylinder that the side shift hoses run over. I'd like to find that whole assembly if I can.

Charles Huffman [00:23]

Let's

OMAHA NE [00:28]

What I found in the manual, they show kind of a breakdown of it. I don't know if it's right or not,

OMAHA NE [00:35]

but I'm not really fine with what I want.

Charles Huffman [00:36]

see if we can

Charles Huffman [00:42]

hide all this.

OMAHA NE [00:43]

And this is an old enough unit that might not even be available anymore. I don't know.

Charles Huffman [00:59]

GC25.

Charles Huffman [01:11]

Which

Charles Huffman [01:20]

mast is on this thing?

**OMAHA NE** [01:25]

Good question.

**Charles Huffman** [01:28]

Simplex, duplex. Is it as dry?

**OMAHA NE** [01:31]

It's a triplex. Yeah, I don't have the number in front of me, but yeah, it's a triplex.

**OMAHA NE** [01:42]

Hey, there is a number there. How about that?

**Charles Huffman** [01:43]

Okay.

**Charles Huffman** [02:17]

Hmm. Well,

**Charles Huffman** [02:35]

that's a big strikeout.

**Charles Huffman** [03:01]

You know, I thought for the last couple of years looking up Taylor parts was a pain in the \*\*\*, but it's a \*\*\*\*\* breeze compared to...

**Charles Huffman** [03:24]

It's Catliff.

**OMAHA NE** [03:26]

These, I mean, these parts manuals are just, they're the worst I've ever had to deal with in anything. I mean,

**OMAHA NE** [03:32]

yeah, it's just, it's \*\*\*\*\* horrible. I don't know.

**Charles Huffman** [03:35]

Yep.

**OMAHA NE** [03:37]

You know, I could, I always compare everything to when I was working on cars and, I mean, pretty much anything that I needed, I could go up to the NAPA website and within two minutes, I

**OMAHA NE** [03:50]

You know, I'd have it ordered and it'd be on its way. It's just... These \*\*\*\*\* parts manuals are just a joke.

**OMAHA NE** [03:56]

Yeah, I've... I don't know. Maybe that's the way it has to be when you're a dealer or whatever,

**OMAHA NE** [04:01]

but... Yeah, they are just... I don't know.

**Charles Huffman** [04:05]

So there's-- I did find a drawing here that shows some hose pulleys, and it looks like there's kind of an L-shaped bracket with a gusset.

**Charles Huffman** [04:19]

I'm looking

**OMAHA NE** [04:24]

Are you looking at...

**OMAHA NE** [04:27]

25?

**OMAHA NE** [04:29]

Is it a number 25? Or are you just looking at the part? I...

**Charles Huffman** [04:33]

at a drawing that's in the options.

**OMAHA NE** [04:38]

Yeah, that's where I'm at too, if it's the same page. I'm on

**Charles Huffman** [04:41]

The one I'm looking at is item 21. Item seven.

**OMAHA NE** [04:46]

item seven. No, I'm not looking at the same thing you are then. What page are you on?

**Charles Huffman** [04:55]

It's the very last page in the options.

**OMAHA NE** [04:59]

Okay, let me look here.

**Charles Huffman** [05:07]

Maybe that's

**OMAHA NE** [05:14]

No, no, that's not it. Nope. Nope, go to...

**Charles Huffman** [05:16]

not the

**Charles Huffman** [05:20]

one.

**OMAHA NE** [05:20]

Let's see here. Go up two boxes, two pages. It says three-way internal hosing for triplex. Okay, go to that one. And when

**Charles Huffman** [05:29]

Did

**OMAHA NE** [05:34]

you zoom in, thing is, though, that's not what I've got. It's the part that I'm looking for is similar to 25.

**Charles Huffman** [05:43]

you

**OMAHA NE** [05:43]

25 is the mount and then 27 are the rollers. But the thing is,

**OMAHA NE** [05:49]

The one they're showing there does not bolt up the same way it's not what I have. That's similar to what I need, but that is not the exact piece I've got. Mine is made different and it bolts in different. That would not work.

**OMAHA NE** [06:04]

So,

**OMAHA NE** [06:07]

yeah, \*\*\*\*, that \*\*\*\*\*.

**OMAHA NE** [06:10]

Um...

**OMAHA NE** [06:12]

But yet I've looked at a couple different pages and that's all I can find is that style.

**Charles Huffman** [06:17]

say you had a number off the mast?

**OMAHA NE** [06:20]

I do, yeah. Let me,

**OMAHA NE** [06:27]

okay.

**OMAHA NE** [06:49]

It is,

**OMAHA NE** [06:56]

looks like,

**OMAHA NE** [07:01]

looks like 3025048.

**OMAHA NE** [07:08]

And below that I have A-01225.

**OMAHA NE** [07:15]

Don't know if those translate to anything, but that's what's on it.

**Charles Huffman** [07:18]

Okay. And it's got those three rollers on each side like shown there in that drawing instead of an actual pulley.

**OMAHA NE** [07:27]

It does, yeah. It's similar to that, but the one that they're showing in there would not work because the actual bracket part is different. It's made different, and it bolts in different. But yes, it's going to be an assembly that has those three rollers, and...

**OMAHA NE** [07:44]

Uh, bolts flat to the top of the

**OMAHA NE** [07:47]

cylinder.

**OMAHA NE** [07:51]

I will, I'll send you a picture of what I've got, Charlie, so you know what you're looking for.

**Charles Huffman** [07:55]

Okay. Okay, that'll work. I'll work with Derek here just quickly and figure out something.

**OMAHA NE** [07:58]

Yeah. Okay. All right. Thanks, bud.

**Charles Huffman** [08:02]

You bet.

---

## Inbound call from WIRELESS CALLER

### AI SUMMARY

The call began with a customer inquiring about email issues, particularly difficulties in sending emails and accessing contacts.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Rion Equipment. How may I help you?

**WIRELESS CALLER** [00:06]

Hey, is email not working?

**Shelby Lathrum** [00:10]

I'm pretty sure it's working.

**WIRELESS CALLER** [00:13]

So last night, I want to say about three o'clock or so, I tried sending an email and then I'm trying to send one right now and I can't access any part of the phone book or not phone book, but the, you know, the contact list. So when I like start typing your name, it'll sit there and spin forever and it won't locate anything. And then

**WIRELESS CALLER** [00:35]

If I type it in and say send, it just sits in my outbox. I restarted my phone and everything.

**Shelby Lathrum** [00:39]

Yeah. Have you done your two-step verification? It made me redo that yesterday, and then it took forever.

**WIRELESS CALLER** [00:44]

Yeah. Yeah, I'm logged in.

**WIRELESS CALLER** [00:49]

Yeah.

**Shelby Lathrum** [00:51]

Huh.

**WIRELESS CALLER** [00:51]

Yeah, I'm like on the internet and I'm on my two steps done. But even if I like try to reload my messages, it'll sit there and just spin.

**Shelby Lathrum** [01:00]

Oh, yeah, that's weird.

**WIRELESS CALLER** [01:01]

Yeah. Yeah. So anyways, what I'm trying to do is get this Stetson one.

**WIRELESS CALLER** [01:07]

Opened up and then the service call number so I can go get some hoses made.

**Shelby Lathrum** [01:13]

What is your cereal?

WIRELESS CALLER [01:16]

Engine 1106.

Shelby Lathrum [01:19]

And what kind of hoses?

WIRELESS CALLER [01:23]

Steering.

Shelby Lathrum [01:25]

Let me see if it gives me that option.

Shelby Lathrum [01:30]

Do you want the service call number?

WIRELESS CALLER [01:33]

Yes, please.

Shelby Lathrum [01:34]

801606.

WIRELESS CALLER [01:42]

801606.

Shelby Lathrum [01:44]

Yep, segment two.

WIRELESS CALLER [01:47]

Cool. All right. That way when I call Kent, he's ready.

WIRELESS CALLER [01:54]

Yeah.

Shelby Lathrum [01:55]

Yeah. Okie dokie, that's updated.

WIRELESS CALLER [01:57]

All right. Cool. Appreciate it. Thanks. Bye.

Shelby Lathrum [01:58]

Yep, no problem. Yep, bye. Bye.

CALL 532 OF 611

## Inbound call from MEYER BRANDON

April 16, 2026 | 02:16 PM | Duration: 2m 12s | From: MEYER BRANDON | To: +14025942044

Inbound

Neutral

### AI SUMMARY

Brandon from Transpect Leasing reached out to Charles Huffman to ask for the lift capacity of a specific forklift, but Charles found the information was unavailable and committed to checking back later.

### FULL TRANSCRIPT

MEYER BRANDON [00:00]

This call is being recorded.

**MEYER BRANDON** [00:10]

Hey, Charlie, it's Brandon with Transpect Leasing.

**MEYER BRANDON** [00:14]

I was curious if you might be able to help me find the lift capacity for one of our forklifts. I don't have much on it. The serial number is 13890.

**Charles Huffman** [00:24]

Okay. What do you got?

**Charles Huffman** [00:49]

Y25WOF.

**MEYER BRANDON** [00:52]

Yes, sir.

**Charles Huffman** [00:54]

Hmm.

**Charles Huffman** [01:00]

Well,

**Charles Huffman** [01:09]

All the capacity information on the \*\*\*\* file is blank, of course. They're not real good about consistency on filling that stuff in.

**MEYER BRANDON** [01:14]

Mm-hmm.

**MEYER BRANDON** [01:20]

Mm-hmm.

**Charles Huffman** [01:25]

I'm going to have to get a hold of them and see if they can tell me.

**MEYER BRANDON** [01:31]

All righty. All right. Well, I guess just call me back whenever you hear something.

**Charles Huffman** [01:38]

Alrighty, will do.

**MEYER BRANDON** [01:40]

I appreciate it. Thanks. Bye.

**Charles Huffman** [01:41]

Yep, bye.

## Inbound call from ATWATER UNIQUE

April 16, 2026 | 01:54 PM | Duration: 0m 49s | From: ATWATER UNIQUE | To: +14025942048

Inbound

Neutral

### AI SUMMARY

Chad and ATWATER discussed the issue of a jammed equipment and the need to retry unlocking a card. Chad confirmed he would go to the right now and thanked ATWATER.

### FULL TRANSCRIPT

**ATWATER UNIQUE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

>> Right, the equipment is jammed.

**ATWATER UNIQUE** [00:06]

Hey Chad, it's him.

**ATWATER UNIQUE** [00:09]

Hey, so we

**ATWATER UNIQUE** [00:11]

unlocked the card, so go ahead and retry to pull that out. So we can go ahead and lock that card back up.

**Chad Metzger** [00:17]

>> Okay. >> I'll go to the right now.

**Chad Metzger** [00:21]

>> I'll go to the right now.

**ATWATER UNIQUE** [00:22]

Perfect.

**Chad Metzger** [00:23]

All right, thanks, Sam.

**ATWATER UNIQUE** [00:25]

Alright, sorry about

**Chad Metzger** [00:27]

>> No problem.

**ATWATER UNIQUE** [00:28]

that. So we can lock it back up.

**ATWATER UNIQUE** [00:34]

Alrighty. Thank you Chad.

**Chad Metzger** [00:36]

>> Thanks, Sam. >> Bye.

## Inbound call from ATWATER UNIQUE

April 16, 2026 | 01:00 PM | Duration: 1m 41s | From: ATWATER UNIQUE | To: +14025942048

Inbound

Negative

### AI SUMMARY

The conversation involved Sam from ATWATER UNIQUE seeking clarification on a payment made for a forklift rental, while Chad Metzger (Representative, Ryan Equipment) explained the company's invoicing policy that requires the rental to be completed before payment can be processed.

### FULL TRANSCRIPT

**ATWATER UNIQUE** [00:00]

This call is being recorded.

**Chad Metzger** [00:05]

Ryan Equipment's Chad.

**ATWATER UNIQUE** [00:07]

Hey, Chad, this is Sam. I got your message. Didn't we already pay the first day that we got the forklift before you even headed out?

**Chad Metzger** [00:19]

I can't create an invoice until the rental contract's closed.

**ATWATER UNIQUE** [01:00]

Are you there?

**Chad Metzger** [01:05]

Hello? Yeah.

**Chad Metzger** [01:08]

I can hear you now.

**Chad Metzger** [01:10]

Yeah.

**ATWATER UNIQUE** [01:11]

That was a week ago. When we make a reservation, you told us that it was \$700 something. You told us that you need a payment right away and we give you a call.

**Chad Metzger** [01:22]

We don't, I can't charge the card until I have an invoice. And I can't generate the invoice until the rental is done.

**ATWATER UNIQUE** [01:28]

Let me check the account. If you don't take it, I'll call you back, okay?

**Chad Metzger** [01:29]

Okay.

## Inbound call from KNUDSEN JEFFREY

April 16, 2026 | 12:40 PM | Duration: 2m 59s | From: KNUDSEN JEFFREY | To: +14025942063

Inbound

Positive

### AI SUMMARY

During the call, Jeff from Echo Electric Supply reported a hydraulic leak on his forklift, which was currently out of commission.

### FULL TRANSCRIPT

**KNUDSEN JEFFREY** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Rion Equipment, Omaha. This is Jodi. How may I help you?

**KNUDSEN JEFFREY** [00:04]

Hey Jodi, this is Jeff with Echo Electric Supply here in Omaha. I got a hydraulic leak on my forklift. And it's right now it's pretty much out of commish because it's leaking pretty good.

**Jodi Nickell** [00:09]

Jodi. Hi. Okay.

**Jodi Nickell** [00:16]

Which location in Omaha? Do you have that whole address by chance? Okay.

**KNUDSEN JEFFREY** [00:23]

C-Circle.

**KNUDSEN JEFFREY** [00:25]

Yeah, 143.26 C-Circle.

**Jodi Nickell** [00:31]

And Jeff, a good phone number for you? Is it the 990-3838? Do you have the serial number to the unit by chance?

**KNUDSEN JEFFREY** [00:37]

Yes, ma'am.

**KNUDSEN JEFFREY** [00:43]

Let me

**KNUDSEN JEFFREY** [00:47]

look here.

**KNUDSEN JEFFREY** [00:53]

We got the thing all torn apart. Yeah, we had to tear it apart to find out where it was coming from and it's definitely the hydraulic hose.

**Jodi Nickell** [00:53]

Oh.

**KNUDSEN JEFFREY** [01:09]

Serial number is AT9010733.

**Jodi Nickell** [01:14]

Okay. Is it like coming from the mast or the side shift? Do you know? I just thought maybe they could grab a hose on the way out and maybe... Okay.

**KNUDSEN JEFFREY** [01:23]  
I don't

**KNUDSEN JEFFREY** [01:30]  
know. It's not a very big hose. I know that. And it looks like, let me see which one it's going to.

**Jodi Nickell** [01:38]  
Okay. Right. Okay.

**KNUDSEN JEFFREY** [01:44]  
It looks like it might be coming from the side shift,

**KNUDSEN JEFFREY** [01:51]  
but I'm not, like I said, don't hold me to that, but it's not a very big hose, but I can definitely see where it's bubbling out of the top of the compression.

**Jodi Nickell** [02:01]  
And then if I have to send in a quote or an invoice to you or anything, do you have a good email address for that?

**KNUDSEN JEFFREY** [02:09]  
Yeah, it's bill.kennedy at echoelectric.com.

**Jodi Nickell** [02:20]  
Okay. I will do my very best to get someone out to you today.

**Jodi Nickell** [02:27]  
I know there was some big job schedule, but if someone cancels or something happens, it shouldn't be a problem getting someone out to you today. But it might be tomorrow. Okay.

**KNUDSEN JEFFREY** [02:38]  
That's fine. We have another forklift. But I just wanted to at least get it called in.

**Jodi Nickell** [02:43]  
Yes, for sure. Yeah, thank you.

**KNUDSEN JEFFREY** [02:45]  
All right, Jodi, thank you so much.

**KNUDSEN JEFFREY** [02:49]  
All right, bye-bye.

**Jodi Nickell** [02:50]  
Bye.

CALL 536 OF 611

**AI SUMMARY**

Chad and Dustin discuss a potential lift for a customer, confirming that a larger lift is available for the same price. Chad apologizes for the misunderstanding and promises to ensure the customer gets the lift.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Right, equipment's Chad.

**WIRELESS CALLER** [00:06]

Hey, Chad, Dustin, Kansas City, how are you?

**WIRELESS CALLER** [00:09]

Hey, I'll make sure, I don't think that 36,000 times, you know, would be a problem. Danny had told me yesterday that 30,000 was available, so I apologize. I'll make sure I don't see why they'd have a problem with getting a bigger lift for the same price. But I'll shoot you, give me a minute, I'll shoot you a thumbs up,

**Chad Metzger** [00:27]

Sounds good.

**WIRELESS CALLER** [00:28]

Bax. Thanks, man, I appreciate your help. Bye-bye.

**Chad Metzger** [00:30]

No problem. Bye.

CALL 537 OF 611

**Neutral**

**AI SUMMARY**

In the conversation, Derrick Day (Customer) reached out to Derrick Dea (Parts supplier) to inquire about a rotator assembly needed for repair.

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Yeah.

**WIRELESS CALLER** [00:04]

Well, good afternoon, Derrick Day.

**WIRELESS CALLER** [00:09]

I just sent you an email with some pictures on it.

**Derrick Dea** [00:13]

A rotator.

**WIRELESS CALLER** [00:14]

Yes, indeed. I am looking for that whole assembly that goes on the back there.

**Derrick Dea** [00:25]

We have to rotate assembly.

**WIRELESS CALLER** [00:26]

And there is no... The ID tag has been gone for...

**WIRELESS CALLER** [00:32]

Forever. But it's out here at GOP.

**WIRELESS CALLER** [00:38]

Yep. Can you get me a price on that before we pull the trigger?

**Derrick Dea** [00:48]

I'll need to know which one it is. I don't know if they're all the same or not. I just sold one to Scrap Central, but I don't know if it's the same.

**WIRELESS CALLER** [00:57]

Well, how about

**Derrick Dea** [01:01]

You know?

**Derrick Dea** [01:04]

I mean, I can send it to Cascade, but... Let me look at the one I sent to Scrap Central.

**WIRELESS CALLER** [01:04]

if you...

**WIRELESS CALLER** [01:11]

Yeah, do you got pictures of it?

**Derrick Dea** [01:13]

Let's see here. Scrap Central.

**WIRELESS CALLER** [01:20]

Scrap Central.

**WIRELESS CALLER** [01:29]

Scrap Central, scrappy speaking.

**Derrick Dea** [01:31]

Drive assembly. So I punched it into TVH because I like TVH. 795491.

**Derrick Dea** [01:49]

Drive assembly. It's like over \$4,000.

**WIRELESS CALLER** [02:03]

Woohoo! Do you send me pictures of that?

**WIRELESS CALLER** [02:07]

Or do you have pictures?

**Derrick Dea** [02:12]

Just off TVH's site. I could... Alright, but I don't know if it's the right one. I mean, if there's a number on it, which I doubt, as old as it looks, but I'll send it to you.

**WIRELESS CALLER** [02:13]

Yeah, go ahead. Send them to me.

**WIRELESS CALLER** [02:27]

Yeah, send that to me and see if you can get ahold of Cascade and see if they might be able to help us out.

**Derrick Dea** [02:28]

Alright.

**WIRELESS CALLER** [02:33]

If they can get a part number or something.

**Derrick Dea** [02:34]

Alright.

**WIRELESS CALLER** [02:37]

Because I'm sure he's gonna wanna fix it.

**Derrick Dea** [02:38]

Yeah. Oh, you're talking tens of thousands of dollars, I'm guessing, probably 20 grand, if not more. Well, I don't know. I have no idea what a new one costs.

**WIRELESS CALLER** [02:42]

But I need to tell him how much first, because what's a new rotator cost?

**WIRELESS CALLER** [02:49]

I'll call

**Derrick Dea** [03:01]

I'm sure it's up there though. Is there any history that we've done on this thing?

**WIRELESS CALLER** [03:03]

Brett Kane and see if he's got any insight on that. Okay, we'll work on that though.

**WIRELESS CALLER** [03:15]

They've got two rotators and they're exactly the same. One of them I did a, the rotator, I didn't do the entire assembly, but I did the hydraulic pump that rotates it. Could be. Well, no, there's not.

**Derrick Dea** [03:25]

Yeah. Maybe there's a number on that one?

**Derrick Dea** [03:36]

Okay. Well, I'm sure you looked before.

**WIRELESS CALLER** [03:38]

There's not. I can go look, but...

**WIRELESS CALLER** [03:46]

Yeah, if I remember correctly, they're both gone.

**WIRELESS CALLER** [03:54]

I can try,

**WIRELESS CALLER** [03:56]

though, when I get back over there, but I'll... All right. Thank you, sir. Appreciate it. Bye.

**Derrick Dea** [03:57]

Alright. Alright. Yep. Bye.

Positive

### AI SUMMARY

Gustin (Customer) reached out to Derrick (Parts Supplier) regarding the status of a key switch order and received confirmation that the correct part would be delivered the next day, leading to a positive interaction.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Alright. Sup?

**GUSTIN KELVIN** [00:05]

Hi, Derek. How's it going?

**GUSTIN KELVIN** [00:08]

Hey, I left you a message. I don't know if you've seen it already, buddy. You're a busy man, ain't you?

**GUSTIN KELVIN** [00:15]

I got this work order, 800-834-SEGMENT-2.

**GUSTIN KELVIN** [00:20]

I ordered that key switch going by the model's zero number, and it comes...

**Derrick Dea** [00:26]

Thank you.

**GUSTIN KELVIN** [00:27]

It comes up with that key switch that you got me, that 28526100.

**GUSTIN KELVIN** [00:36]

But on this key

**GUSTIN KELVIN** [00:40]

switch assembly, it's got a part number 50017769, and that is a good number.

**Derrick Dea** [00:49]

Yeah, that's what we ordered on there last time, so I got it coming for tomorrow. Yep. Yep. You too. Bye.

**GUSTIN KELVIN** [00:55]

Oh, well, thank you, sir. That's what I was wondering. Appreciate it. Thank you very much. You have a good day, sir. Bye.

## Inbound call from YOUNG KEISHON

### AI SUMMARY

Keyshawn Young from Wholesale Electric called Rion Equipment to request a technician for a non-starting forklift, and Kent Stewart assured him that someone would follow up as soon as possible.

### FULL TRANSCRIPT

**YOUNG KEISHON** [00:00]

This call is being recorded.

**Kent Stewart** [00:04]

Thanks for choosing Rion Equipment. This is Kenton Parks. How many help you?

**YOUNG KEISHON** [00:08]

Hi, good afternoon, sir. My name is Keyshawn Young with Wholesale Electric here in Des Moines. I have a count with you guys. I need a technician. If you all have one available, probably tomorrow or at your earliest convenience. One of my forklifts is not starting at all.

**Kent Stewart** [00:27]

Okay.

**Kent Stewart** [00:32]

Okay. All right. And how's your first name pronounced again,

**YOUNG KEISHON** [00:39]

Kishon, K-E-I-S-H-O-N,

**Kent Stewart** [00:40]

sir? Keyshawn. Yeah, I got that from the caller. I was like, Keyshawn. I just want to make sure I wasn't cussing at you or anything. I didn't.

**Kent Stewart** [00:48]

Okay, how would we get back in touch with you? The service manager is here, but he's away from his desk. That's why I picked up the call.

**YOUNG KEISHON** [00:56]

yeah. Okay, yeah, you can call me back at this number, 832-794-5939.

**Kent Stewart** [01:04]

832-794-5929. And what's the name of the business, sir? Oh, 39. Okay, 5939. All right, sorry about that. 832-794-5939. And what's the name of the business?

**YOUNG KEISHON** [01:09]

5939.

**YOUNG KEISHON** [01:20]

Wholesale electric.

**Kent Stewart** [01:22]

Wholesale. Okay. All right.

**YOUNG KEISHON** [01:25]

Wholesale electric.

**Kent Stewart** [01:27]

Okay. Let me, as soon as Adam comes back in, I'll ask Adam or Ms. Shelby. Ms. Shelby is the one that basically schedules, but I'll ask that one of them give you a call. All right. Thank you,

**YOUNG KEISHON** [01:39]

Okay, sounds good.

**YOUNG KEISHON** [01:42]

Thank you, bye.

**Kent Stewart** [01:42]

Kishan. Bye.

This call is being recorded.

**Derrick Dea** [00:03]

Yes. Yes. Uh, no. Okay. This morning? Mm-hmm. Mm-hmm.

**ANDERSON SHEREE** [00:09]

Derrick, the Hormel call that you ordered the hoses for?

**ANDERSON SHEREE** [00:15]

Yes. This morning? Yeah, first thing.

**ANDERSON SHEREE** [00:20]

You know how you got that outside plate,

**ANDERSON SHEREE** [00:24]

too? I need the back. Yeah, the other side of

**Derrick Dea** [00:26]

The other side? The other side of it too? Okay, same plate but the other side, right?

**ANDERSON SHEREE** [00:35]

it. Man, I need that ASAP.

**ANDERSON SHEREE** [00:44]

Thank you.

**ANDERSON SHEREE** [00:46]

No, like, so...

**ANDERSON SHEREE** [00:49]

The plate you order, we need, but then behind it, there's another plate that has a locating tab that the one plate walks into, so it can't rotate.

**Derrick Dea** [00:50]

Let me look here.

**ANDERSON SHEREE** [01:03]

It's like a little bracket, kind

**Derrick Dea** [01:12]

Okay.

**Derrick Dea** [01:56]

Yeah, I'll send you a pic. All right, bye.

ANDERSON SHEREE [01:57]  
of. You email me...

### AI SUMMARY

In the conversation, Elliott Melvin (Customer, Caller) sought clarification on the pricing and markup of Taylor parts, expressing concern over a 25% markup affecting his gross profit margins.

### FULL TRANSCRIPT

**ELLIOTT MELVIN** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Hello. What's that? Depends on what it is, but...

**ELLIOTT MELVIN** [00:05]

I think I'm losing my freaking mind here.

**ELLIOTT MELVIN** [00:09]

Well, so I'm looking at a Taylor invoice on here. It's one of mine. And I'm looking at our 25% markup. So when you sell a Taylor part, do you mark it up more than what comes up in our system?

**Charles Huffman** [00:28]

No, generally you would divide it by .75 to mark it up, but if it's a net item, you would mark it up more than that. You would do at least .7, like a 30%.

**ELLIOTT MELVIN** [00:45]

Yeah. Well, I'm just curious because...

**ELLIOTT MELVIN** [00:48]

I was looking at my manager's scorecard and our parts GP is down and four of these customers are all Taylor. And I've been under the assumption that when we put a part number into a sales order, whatever it has for a cost in there is the cost.

**Charles Huffman** [00:55]

Yeah, that's what I do on the Taylor stuff.

**Charles Huffman** [01:13]

COI, ELLIOTT, COST, AND CELL, THAT THEY SHOW ON THEIR WEBSITE IS WHAT WE USE IN OUR SYSTEM.

**ELLIOTT MELVIN** [01:18]

Well, why in the... No wonder I... Yeah, no wonder I'm below 35% because we don't... I mean, like, it looks like everything on this invoice is a 25%.

**ELLIOTT MELVIN** [01:33]

I don't know. That's just weird.

**Charles Huffman** [01:33]

Yeah, it definitely drags our margin down and then if you're doing other \*\*\*\* like, oh what the \*\*\*\* is it, there's some other ones that we get like a 10% discount that we have to mark that \*\*\*\* way up to try to make any money on it.

**ELLIOTT MELVIN** [01:43]

I... Yeah.

**ELLIOTT MELVIN** [01:48]

Yeah, and we do on them net items. We usually do. I mean, we do anywhere from 35% to 50% on everything or more up to 70%.

**Charles Huffman** [01:56]

Yeah. Yeah.

**ELLIOTT MELVIN** [01:57]

Right.

**Charles Huffman** [02:18]

Well, to my knowledge we're not supposed to because that's the whole, that's part of the dealer network thing and they don't want you gouging somebody and they don't want you selling it for more or selling it for less than your neighbor can sell it for.

**ELLIOTT MELVIN** [02:36]

Yeah, well, that's what I was thinking, you know, if these big customers call Taylor or call Gallo or Huggin Hall and say, hey, how much is this? The price is more than likely going to be the same retail for everybody, I would assume.

**Charles Huffman** [02:39]

Yeah. Yeah, that's the whole idea. It's supposed to be the same, which keeps people from going somewhere else. But it also, you know, when they put those metrics on you guys for your GPs, that's

**ELLIOTT MELVIN** [02:53]

Okay, I just wanted to make...

**ELLIOTT MELVIN** [02:57]

Yeah.

**Charles Huffman** [03:03]

That's dragging you down, so it's kind of a \*\*\*\*\* measurement. You're doing what you're supposed to do. Yeah.

**ELLIOTT MELVIN** [03:07]

Yeah, I agree. Yeah, because every single thing we do, we don't do anything less than 35% anything. And I had never put two and two together. I'm going to have to start selling different parts. Something or something I can...

**Charles Huffman** [03:20]

Yeah, I don't know if a guy can...

**Charles Huffman** [03:27]

Cross some of that stuff to TVH or something to try. Yeah. Yeah, if you can get it right. Are you buying direct from Cummins?

**ELLIOTT MELVIN** [03:31]

Well, we do go to Cummins for a lot of engine stuff.

**ELLIOTT MELVIN** [03:36]

You know, so that's, and obviously we can mark that up however much we want, but

**ELLIOTT MELVIN** [03:44]

I do quite a bit, like all NOx sensors and injectors and stuff like that, I usually get them from Cummins because they're right here and they got everything on hand all the time. And you're not paying thousands of dollars in freight, you know.

**Charles Huffman** [03:46]

So I don't think...

**Charles Huffman** [04:03]

If you're using like the regular, like the NMC account or whatever, I don't think that Cummins gives us a real fantastic discount.

**ELLIOTT MELVIN** [04:14]

We got a pretty good one here, but we've got... So we're under NMC, but we have our own account number for us here. They've got us under Ryan Equipment and then the Bill 2's Omaha, but yeah, they give us a good discount here. I mean,

I'm kind of impressed with it.

**Charles Huffman** [04:24]

Okay. So what I've been doing here, because I used to buy some parts direct from Cummins here, but there's a few issues with it. One is their prices were usually pretty high, and two, getting a hold of anybody at the parts counter was a \*\*\*\* shoot. It might

**Charles Huffman** [04:48]

If they would answer the phone, you know, they usually don't answer the phone and an email might take an hour to two days to get a response back. So I've been going through Truck Center and they're right by Cummins and they're

**ELLIOTT MELVIN** [04:54]

A couple days...

**ELLIOTT MELVIN** [04:59]

Yeah. Okay.

**ELLIOTT MELVIN** [05:05]

I got you. So what... I've got...

**Charles Huffman** [05:07]

They can actually check the stock. They can look right at Cummins system and say, oh yeah, Cummins has this in stock, and they sell it to us way cheaper than what Cummins does direct for me.

**ELLIOTT MELVIN** [05:16]

Really? Yeah. The only thing I've ever had, well, it wasn't really out of line, so I've been going through them 40, 30, 0, 29 starters, I think it was. We had one customer, we went through three or four of them, Taylor ones, and I went and bought a common starter, the one that went to that engine, and what they're doing, there's no support on the drive gear on this thing.

**Charles Huffman** [05:28]

Yep. Uh-huh.

**ELLIOTT MELVIN** [05:39]

And when it would go out and hit the flywheel, it would chip the edges of it off because it's so weak that it moves the \*\*\*\* shaft in there and it wallers it out if they don't mesh up the first time. So I wouldn't have got a common starter for that engine serial number, and that thing has had no problem. But you're looking at \$900 was the tailor cost, and this one was over \$2,000. But just looking at it,

**ELLIOTT MELVIN** [06:05]

The center shaft is like a quarter, eighth inch on each side bigger. The gear is thicker. If you pull the bendings out and look behind it, there's like a bearing in there. The Taylor ones are just a cast aluminum junk housing that wallers out. I was showing that there's a huge difference in that starter. I showed Spencer Pope was here yesterday.

**Charles Huffman** [06:13]

I'll be damned, I didn't realize there was that much difference in them.

**ELLIOTT MELVIN** [06:27]

And I got two of them on the shelf out there that went out back to back. And I was showing him that. And he said, man, you need to, I'm going to take a video of it today. I'm going to pull that out and show him how much wiggle there is. He said, take that out and send it to, he gave me a guy's name. I think it's maybe an engineer or buyer or something. One of the guys that sources parts like, um,

**Charles Huffman** [06:33]

Yes.

**ELLIOTT MELVIN** [06:49]

He said, "Make sure you send that in." He said, "We can't be putting them on equipment if they're doing that." I said, "Well, I pulled that out."

**Charles Huffman** [07:03]

Yep.

**ELLIOTT MELVIN** [07:13]

I said, "The whole end of that shaft with the gears riding in a rough machined aluminum housing, there's nothing in there." And that Cummins starter, it's either a bearing or a brass bushing. I can't see it very good because there ain't that much room, but it's got something wear item in there where this other one don't, it's just aluminum.

**Charles Huffman** [07:14]

Yeah. Yeah. Well, I...

**ELLIOTT MELVIN** [07:33]

\*\*\*\*, you know. But, I mean, that was the cost on the starter. We got a deal on it, and then with our markup and everything, that's what pretty much anybody would pay for it, but they're happy to pay that because now the \*\*\*\* runs every day without the starter going out,

**Charles Huffman** [07:38]

Yeah. Yeah, cross your fingers and hit the key. Yeah, well I think Taylor's

**ELLIOTT MELVIN** [07:55]

you know. But, yeah, it was a prayer and a wish every other time.

**Charles Huffman** [08:03]

They like to present themselves as a big American company, but I think they do as much offshore business as they can to maximize their profit. Yeah. Oh, yeah.

**ELLIOTT MELVIN** [08:09]

Exactly. I honestly do.

**ELLIOTT MELVIN** [08:13]

I mean, you just look at some of the electronics on them even.

**ELLIOTT MELVIN** [08:18]

There's

**ELLIOTT MELVIN** [08:20]

some wool being pulled over some eyes, I can tell you that.

**Charles Huffman** [08:26]

Yeah, I don't know if there's, you know, I know there's some concern about profit, obviously.

**ELLIOTT MELVIN** [08:27]

All right, good deal, Charlie. I just wanted to make sure I wasn't, for the last couple of years, been \*\*\*\*\*

**ELLIOTT MELVIN** [08:32]

Growing up and not charging enough, I just need to sell more parts, sell different brands of parts, I guess.

**Charles Huffman** [08:48]

I don't know if that's a conversation that we need to have with Brandon about bumping those up or what, but like I said, as far as I know, we're supposed to be using that sell price. Yep.

**ELLIOTT MELVIN** [08:57]

Well, I mean,

**ELLIOTT MELVIN** [09:01]

well, that's what I've always been told. Basically, I was told to go off of what my invoice or what Taylor DealerNet shows, and that's what I've always done. But, you know, when we're held to a 35% guideline, it's hard to do that when you're billing at 25%, you know.

**Charles Huffman** [09:12]

Yeah, you got to make it somewhere else. Yeah.

**ELLIOTT MELVIN** [09:20]

But I just had one order. I invoiced 20-some thousand of it, and I still have 59 to go. It's all tailor \*\*\*\*. So that ain't, I mean, AOP looks nice because of the numbers there, but your actual margin, I'm going to have to go out and sell some quarts of oil on the street corner or something to make this up.

**Charles Huffman** [09:42]

Yep, that's all you can do, I guess.

**ELLIOTT MELVIN** [09:45]

All right, Charlie, well, I appreciate the input. I just wanted to make sure I wasn't \*\*\*\*\* the pooch here, so I'm just going to keep doing what I'm doing.

**ELLIOTT MELVIN** [09:55]

Yep. All righty, well, I sure appreciate it.

**Charles Huffman** [09:57]

You bet. Catch you later. Bye.

**ELLIOTT MELVIN** [09:59]

All right, thanks, Charlie. Bye.

Bart's Derrick. Hello? Hello?

CALL 545 OF 611

**Inbound call from THIESSEN JOSHUA**

April 15, 2026 | 03:17 PM | Duration: 7m 36s | From: THIESSEN JOSHUA | To: +14025942044

Inbound Positive

AI SUMMARY

The call began with Joshua Thiessen seeking guidance from Charles Huffman regarding the installation of a belt on a shuttle wagon.

FULL TRANSCRIPT

**THIESSEN JOSHUA** [00:00]

This call is being recorded.

**THIESSEN JOSHUA** [00:06]

Charlie? I can't hear you,

**Charles Huffman** [00:11]

Can you... You got me? Good, good.

**THIESSEN JOSHUA** [00:12]

bud. There you go.

**THIESSEN JOSHUA** [00:14]

Yep, I got you now.

**Charles Huffman** [00:17]

I'll sleep better. What's up?

**THIESSEN JOSHUA** [00:19]

So, is there anywhere I can find how that belt's supposed to be run on the shuttle wagon?

**Charles Huffman** [00:27]

Around the pulleys.

**THIESSEN JOSHUA** [00:30]

Okay, that's a lot of help.

**Charles Huffman** [00:33]

Should

**Charles Huffman** [00:37]

be kind of self-explanatory,

**THIESSEN JOSHUA** [00:41]

I'm sure it is, but I just thought, well, \*\*\*\*, I don't know. I didn't see how it was prior to that, so I... It's as smooth as it's groove to groove. Such a smartass. I'm just helping out.

**Charles Huffman** [00:42]

but... But,

**Charles Huffman** [00:57]

yeah. Uh...

**Charles Huffman** [01:01]

No,

**Charles Huffman** [01:05]

I-- well, hold on a second. Hold on. Would you just hold on a second? Let me look at something. Let me look at something here.

**THIESSEN JOSHUA** [01:09]

I'm holding on.

**Charles Huffman** [01:30]

Powertrain, powertrain, where the \*\*\*\* are you at?

**THIESSEN JOSHUA** [01:57]

Well, it shows the one belt under powertrain.

**Charles Huffman** [02:05]

Yeah, for the AC.

**Charles Huffman** [02:11]

I was hoping it would have something on there that would... Short of going out here in the lot and pulling the side panel off of one and taking a picture of it.

**THIESSEN JOSHUA** [02:16]

It doesn't look like it.

**THIESSEN JOSHUA** [02:26]

So why would they list that belt but not the other belt?

**Charles Huffman** [02:29]

Because you're... I don't know. They do so many things like that.

**Charles Huffman** [02:37]

There's a little electrical panel underneath the dash that's got like

**Charles Huffman** [02:43]

20 relays on it. If you look at that drawing, it calls out the standoffs and it calls out all kinds of \*\*\*\*, but never once does it tell you what the \*\*\*\*\* part number is for the relay.

**THIESSEN JOSHUA** [02:45]

Mm-hmm.

**THIESSEN JOSHUA** [02:55]

Really?

**Charles Huffman** [02:56]

Yeah, it's the same deal. It's like, it's right there. Why not \*\*\*\*\* indicate it and tell me what it is?

**THIESSEN JOSHUA** [03:01]

Right. Jesus.

**THIESSEN JOSHUA** [03:08]

Oh lovely, I guess I'll just have to try to figure it out then.

**Charles Huffman** [03:13]

Well, I think you will.

**THIESSEN JOSHUA** [03:18]

I'm still sitting here waiting on parts, I just thought I'd call an \*\*\* before I went out there, so.

**Charles Huffman** [03:24]

The old belt is not on it.

**THIESSEN JOSHUA** [03:28]

It broke off.

**Charles Huffman** [03:30]

Oh, gotcha.

**THIESSEN JOSHUA** [03:31]

They had it sitting there on the deck when I got there, so.

**Charles Huffman** [03:38]

I gotcha. Let me look at one more thing.

**THIESSEN JOSHUA** [03:49]

And I'll tell you, that belt stinks. I had it in my pickup for a minute and I pulled over and took it out because it smelled so bad.

**THIESSEN JOSHUA** [04:24]

A lot of times they don't put them in schematics because

**THIESSEN JOSHUA** [04:29]

everybody puts different things in different areas.

**THIESSEN JOSHUA** [04:35]

Different size, all-nature pulleys and all that. But I'm in Shuttle Wiggin's book here. They're probably taking a picture of the Cummins.

**THIESSEN JOSHUA** [04:48]

Like I don't even understand like here's the picture of the alternator. Why don't they list the part number for the alternator in here? They list a couple other things that they don't list the alternator.

**THIESSEN JOSHUA** [05:03]

So you call them plus they probably think you're just going to run to the parts store and grab one.

**Charles Huffman** [05:12]

I think that's probably what a lot of it is, is those kind of service parts people just get local. So they don't screw with it. If I can find...

**THIESSEN JOSHUA** [05:21]

All right.

**THIESSEN JOSHUA** [05:25]

Plus they can get up quicker and wait a couple days. I got asked yesterday, for some reason, Floyds can't wrap their head around how we're getting part numbers. It's like, we have access to all that stuff?

**THIESSEN JOSHUA** [05:41]

It says on the old man, it's part number. Well, how are you getting this part number? We looked it up.

**Charles Huffman** [05:47]

Yeah, that shouldn't be that kind of a mystery. All right, I have found-- I found a drawing that actually shows the belt.

**THIESSEN JOSHUA** [05:54]

Yeah.

**THIESSEN JOSHUA** [06:02]

OK. OK,

**Charles Huffman** [06:03]

So I'll send that over to-- it's pretty straightforward.

**THIESSEN JOSHUA** [06:06]

I figured it was, but I just thought just in case it was more complicated than what I was thinking it was, I better call before I get there.

**THIESSEN JOSHUA** [06:17]

So. Smooth to smooth, group to group.

**Charles Huffman** [06:19]

Yep, pretty much.

**THIESSEN JOSHUA** [06:21]

Yup.

**THIESSEN JOSHUA** [06:26]

So.

**THIESSEN JOSHUA** [06:31]

I know on a Cummins pickup I pulled a belt off of one of them before and didn't pay attention how it went on and I had a \*\*\*\* of a time trying to put that \*\*\*\*\* back on.

**THIESSEN JOSHUA** [06:45]

Oops, wrong tab. Sweet.

**THIESSEN JOSHUA** [07:07]

That should work.

**Charles Huffman** [07:11]

Good to go?

**THIESSEN JOSHUA** [07:12]

Yep, good to go.

**Charles Huffman** [07:14]

All right. Catch you later. Yeah. Bye.

**THIESSEN JOSHUA** [07:15]

Yep, thank you.

CALL 546 OF 611

## Inbound call from ELLIOTT MELVIN

April 15, 2026 | 02:44 PM | Duration: 3m 4s | From: ELLIOTT MELVIN | To: +15152995624

Inbound

Positive

### AI SUMMARY

In the conversation, Elliott Melvin reached out to Adam Henderson (Representative, Ryan Equipment Services) to discuss a large sales order worth \$83,000.

### FULL TRANSCRIPT

**ELLIOTT MELVIN** [00:00]

This call is being recorded.

**Adam Henderson** [00:05]

Ryan Equipment Services,

**ELLIOTT MELVIN** [00:07]

What's going on, Adam?

**Adam Henderson** [00:09]

Adam. Oh, not a whole lot. What's going on with you, sir? Sure. I don't know if there's much left today.

**ELLIOTT MELVIN** [00:11]

I need to pick your brain a little bit.

**ELLIOTT MELVIN** [00:14]

So I, yeah, that's kind of where I'm at. So I've got a sales order. It's got, what do we have, 10 line items on it. Let's see, yeah, 10. What I'm trying to do, so this is a big order, like \$83,000, and I've got three pieces that's going to deliver probably within the next two weeks.

**Adam Henderson** [00:20]

It'll...

**ELLIOTT MELVIN** [00:34]

And I've done a partial receipt on all but three of these items. I've got, there's a couple different POs on here because they had to come from different places. My question is, I've got to call into Mike Reilly, but he's on a meeting until 1030. And I figured you might know this or have done it. So can I, is there a way I can, they're okay with me doing separate sales orders?

**ELLIOTT MELVIN** [00:58]

And billing the stuff that's already showed up. Do you know if like the stuff, so in my line status, I've got three that says open order, the rest of them are invoiced because they've delivered. If I invoice that, what will that do with the open order stuff? Do you know? Or would I need to create a separate sales order for those items and try to move them?

**Adam Henderson** [01:20]

No, it should just invoice whatever's been delivered. It'll either do that overnight or you can force it if you want.

**ELLIOTT MELVIN** [01:25]

Okay, good. And then that'll...

**ELLIOTT MELVIN** [01:30]

Okay, and then that'll still leave the sales order open, other stuff when it comes through?

**Adam Henderson** [01:33]

Yeah, as long as there's lines that are open, yes.

**ELLIOTT MELVIN** [01:38]

Okay, good, good. That's what I needed to know. I'm going to get my numbers bumped up a little bit. I've been waiting on these hubs, and they were going to deliver in August, and I've been dealing with Rob and Nauter for about the last week on this, and he finally got it to where I can get them in the next two weeks.

**Adam Henderson** [01:57]

Huh, weird, waiting for six months and then all of a sudden they show up in two weeks.

**ELLIOTT MELVIN** [01:58]

But I need...

**ELLIOTT MELVIN** [02:00]

Well, you know why? They put it on a stock order, a big stock order. And I told him, I said, I told Chris I needed this stuff. They want to get this machine fixed. We quoted this once back in 25 and they didn't have the money to do it. Now they got the money and they want to do it. And I said,

**Adam Henderson** [02:13]

Yeah.

**ELLIOTT MELVIN** [02:18]

Time that was only like three weeks out. Now it's months out. And he said, oh, well, that got put on a stock work. And I told Chris, I said, I need these to arrive as close to the rest of this stuff as I can because the hubs are the main piece they need to put the thing together, you know.

**Adam Henderson** [02:35]

Yeah.

**ELLIOTT MELVIN** [02:36]

So, but anyway, cool. Well, if I'm going to invoice this and that should keep me in the green and I appreciate the help.

**Adam Henderson** [02:43]

Yeah, not a problem, take care. Yep, you too.

**ELLIOTT MELVIN** [02:44]

All right, thanks, Adam. Have a good day.

**ELLIOTT MELVIN** [02:47]

All right. Thanks, Mike.

## Inbound call from SMITH ANDREW

### AI SUMMARY

The conversation involved Adam Henderson (Service Representative, Rion Equipment) returning a call to Andy Smith regarding a forklift repair bill, where they resolved to credit the labor costs after discussing the charges.

### FULL TRANSCRIPT

**SMITH ANDREW** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Rion Equipment, this is Adam. How can I help you?

**SMITH ANDREW** [00:06]

Yeah, I missed a call from you. I thought it was spam. Andy Smith, sorry.

**Adam Henderson** [00:09]

Oh, yeah. No, that's all right. Just calling you back about that message you left.

**SMITH ANDREW** [00:16]

Yeah, so we got our forklift fixed and got the bill. But in the summertime, we had paid a fair amount of money to not fix anything that didn't need fixed.

**Adam Henderson** [00:29]

Yeah, I looked it up. It was in like October, I think, or September, October. So I was talking with my service writer, and

**SMITH ANDREW** [00:32]

Yeah, there you go. Yeah.

**Adam Henderson** [00:38]

You okay if I just credit the labor on that one? Yeah,

**SMITH ANDREW** [00:41]

Yeah, that would sure help out anyway.

**Adam Henderson** [00:45]

that was \$549. So, yeah, I'll credit that one. That way you're not paying the labor on that one. So...

**SMITH ANDREW** [00:47]

Oh, wow. Yeah. Okay.

**SMITH ANDREW** [00:54]

Okay. Yeah, because the parts were like nothing for what he did, if I remember right.

**Adam Henderson** [00:57]

Yeah, it was a coupler and some O-rings. The parts were only like, oh...

**Adam Henderson** [01:04]

82 bucks. So. Yeah.

**SMITH ANDREW** [01:05]

Nothing. Yeah. Yeah. Got it. Okay. Do I wait for another bill, or do you want us to send a check now, or...

**Adam Henderson** [01:14]

No, you can wait for the credit. That way you can just write the difference. Yep.

**SMITH ANDREW** [01:18]

Right the difference. Okay, sounds good. We'll wait for that.

**Adam Henderson** [01:22]

Okay. I'll have her handle it today so you should see it in a few days. Alright. Yeah, not a problem. Take care.

**SMITH ANDREW** [01:23]

Okay,

**SMITH ANDREW** [01:26]

thank you very much.

CALL 548 OF 611

## Inbound call from ANDERSON SHEREE

April 15, 2026 | 02:25 PM | Duration: 2m 40s | From: ANDERSON SHEREE | To: +14025942051

Inbound

Positive

### AI SUMMARY

Derrick Dea (Service Rep) and Sheree Anderson discussed a service call for a train lift, confirming the order of specific parts including chains and pulleys, ensuring all necessary details were addressed.

### FULL TRANSCRIPT

**ANDERSON SHEREE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Yeah. Okay. Okay.

**ANDERSON SHEREE** [00:05]

Yo, Derrick,

**ANDERSON SHEREE** [00:08]

I've got a service call for you.

**ANDERSON SHEREE** [00:15]

801-454.

**ANDERSON SHEREE** [00:21]

I need

**ANDERSON SHEREE** [00:24]

the inside lift chains and the pulleys and bearings for it.

**Derrick Dea** [00:38]

So is this a train of Princeton?

**ANDERSON SHEREE** [00:43]

Yeah.

**Derrick Dea** [00:44]

Okay, what's the chain? 888, something like that.

**ANDERSON SHEREE** [00:49]

I was going to have you order the assembly from Princeton because they come with the chain anchors and \*\*\*\*.

**Derrick Dea** [00:53]

Oh, okay. These are the,

**Derrick Dea** [00:58]

here they call them something different.

**ANDERSON SHEREE** [01:01]

Yeah, there's a inside one. So like on

**Derrick Dea** [01:02]

Front or rear? Front or rear chain?

**Derrick Dea** [01:11]

Front, front, rear, rear, so it would be

**Derrick Dea** [01:15]

the rear chain.

**ANDERSON SHEREE** [01:18]

the drawing, is the drawing kind of clear? Like can you tell how the chains are facing?

**Derrick Dea** [01:21]

It's on a table, it says front and rear, whatever the mastite does.

**Derrick Dea** [01:31]

So front I'm assuming is the front of the mast and the rear is the rear of the

**ANDERSON SHEREE** [01:35]

The front, I'm assuming it's the front.

**Derrick Dea** [01:40]

mast. And here to the inside they'd be rear. Alright. Rear chains and bearings and pulleys, chain rollers and pulleys, anything else?

**ANDERSON SHEREE** [01:45]

Okay, we'll go with that

**ANDERSON SHEREE** [01:55]

then. That

**ANDERSON SHEREE** [01:58]

should be it. The pulleys are, so when you look for them, if...

**Derrick Dea** [02:00]

Okay. Yep. Bye.

**ANDERSON SHEREE** [02:03]

If you happen to be on the same drawing as like chains too, it's,

**ANDERSON SHEREE** [02:09]

yeah, it's rare. They face the driver down low.

**ANDERSON SHEREE** [02:16]

All right.

## Inbound call from OMAHA NE

Inbound

Negative

### AI SUMMARY

During the call, the customer reached out to Chad Metzger (Equipment Rep) to confirm the current rental equipment for MP Global, mentioning a lack of readiness for a meeting and expressing discontent with the agreement system's performance.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**OMAHA NE** [00:03]

Hey, Brett.

**Chad Metzger** [00:03]

Ryan, Equipments, Chad?

**OMAHA NE** [00:07]

I sent you an email. I'm in the customer's office. I effed up and didn't have this ready for them for our meeting. Can you let me know what MP Global has for current rental equipment between their facilities on the account that I just emailed you?

**Chad Metzger** [00:22]

Yep, they just have one.

**OMAHA NE** [00:23]

What truck is it?

**Chad Metzger** [00:27]

Let me just open up the contract here.

**OMAHA NE** [00:29]

I was looking it up, and our agreement system looks like \*\*\*\*.

**Chad Metzger** [00:35]

It is an <REDACTED\_ENTITY>.

**Chad Metzger** [00:41]

EQN is 065686.

**OMAHA NE** [00:42]

And is that \$11.95 a month? Okay.

**Chad Metzger** [00:51]

You got the serial number?

**OMAHA NE** [00:53]

Yeah, I see it right here. I just couldn't tell if there was anything else on the agreement or not.

**Chad Metzger** [00:57]

Nope, that's the only one.

**OMAHA NE** [00:59]

Okay, perfect. Thank you.

**Chad Metzger** [01:02]  
No problem.

**Chad Metzger** [01:04]  
See ya, bye.

### AI SUMMARY

Jodi (COI representative, Rion Equipment) communicated details about a demo unit's inspection and the subsequent billing process during a follow-up call with Tracy, who sought clarification on the issues with the damaged unit.

### FULL TRANSCRIPT

**SIEDELMANN G.** [00:00]  
This call is being recorded.

**Jodi Nickell** [00:03]  
Jodi, COI, Rion, Equipment, Omaha. This is Jodi. How may I help you? Hey. Yeah. MCFA.

**SIEDELMANN G.** [00:06]  
Hey Jodi, it's Tracy. Hey, quick question for you. So I'm following up to an email that you sent out yesterday on this EC. Yeah, so can you give me a little backstory on that? I mean, I know it looks like from the emails that this was a demo return.

**SIEDELMANN G.** [00:27]  
FROM SIOU CITY OR FROM PURDUE FARMS IN SIOU CITY. SO THIS IS A UNIT THAT MCFA OWNS, CORRECT? OKAY. AND THEN AS I'M READING THROUGH IT, THE UNIT GOT DAMAGED IN TRANSPORTATION, IS THAT CORRECT? OR THE CUSTOMER OR WHAT?

**Jodi Nickell** [00:32]  
Right. As far as yes.

**Jodi Nickell** [00:39]  
No. So from the email that we saw it was being delivered here, MCFA wanted us to do a quick inspection on it and then they're picking it up.

**Jodi Nickell** [00:55]  
So we did the inspection and sent all the pictures and information and hadn't heard anything and then they aren't going to fix it but now I don't know who to contact for a PO.

**SIEDELMANN G.** [00:55]  
OKAY.

**SIEDELMANN G.** [01:08]  
Okay, and when I look at the trail and I'm going through, what I saw was, is your bill \$84 and that's it?

**Jodi Nickell** [01:15]  
Probably.

**SIEDELMANN G.** [01:19]

Okay, because then the other thing we have, we should have an invoice from, on our end, from Listo.

**AI SUMMARY**

The conversation involved Derrick Dea (Sales rep) discussing the reorder of a seal for a hub assembly with Carlson Rodney, who reported that the previous seal was damaged; Derrick confirmed he would ensure a new seal is sent out promptly.

**FULL TRANSCRIPT**

**CARLSON RODNEY** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Bart, this is Derrick. Yeah.

**CARLSON RODNEY** [00:06]

Hey, Derrick, Roddo with Skeft Central.

**CARLSON RODNEY** [00:09]

Hey, on that hub assembly that we reordered, did you get me a seal for that?

**Derrick Dea** [00:10]

Mm-hmm. I will. I think they are the same,

**Derrick Dea** [00:20]

but... Oh, you need another one? Okay. Okay. Yeah, I'll get you another steel. Yeah.

**CARLSON RODNEY** [00:23]

My helper destroyed the \*\*\*\*\* seal. Hitting the bearing off the \*\*\*\*\* shaft. I was like, oh, \*\*\*\*. Do you have one stock, do you think, or is it something you get ordered in?

**Derrick Dea** [00:31]

I think I have them in stock. All right, I'll get it coming for you. Bye.

**CARLSON RODNEY** [00:35]

Oh, I hope so. Don't be today. I'm off today, but we got some other projects going on we got caught up on, and I think it's going to start out today. Bye, buddy. Thank you.

**CARLSON RODNEY** [00:46]

Bye.

### AI SUMMARY

During the call, Samuel inquired about the scheduled time for a forklift delivery, which Chad Metzger confirmed as 10 a.m., and he agreed to check with the dispatcher for an earlier arrival.

### FULL TRANSCRIPT

**ATWATER UNIQUE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan Equimis, Chad.

**ATWATER UNIQUE** [00:06]

Hey, good morning, Mr. Chad. How are you?

**Chad Metzger** [00:08]

Good, how you doing?

**ATWATER UNIQUE** [00:10]

I'm doing good. This is Samuel. I was just wondering, I don't remember what time we scheduled the forklift for, but the truck is on you there. Do you remind me what time that was?

**Chad Metzger** [00:29]

Oh, there you

**ATWATER UNIQUE** [00:32]

What time are you guys coming? I don't remember what time we scheduled it for.

**Chad Metzger** [00:36]

are. Let's take a look.

**Chad Metzger** [00:43]

10 a.m. They'll be there by 10 a.m. Yep.

**ATWATER UNIQUE** [00:45]

10 a.m.?

**ATWATER UNIQUE** [00:48]

Did you come a little earlier?

**Chad Metzger** [00:50]

I'll see what they can do.

**ATWATER UNIQUE** [00:56]

Okay. Ready.

**Chad Metzger** [00:58]

Okay. Yep. I'll reach out to my dispatcher and see if they can get it there sooner.

**ATWATER UNIQUE** [01:03]

So. Okay, perfect. If you could, that'd be great. If not, it's all right.

**Chad Metzger** [01:07]

Okay. Will do.

**ATWATER UNIQUE** [01:09]

Alrighty, perfect. Thank you, Mr. Chad. Have a good day. Yep, bye.

**Chad Metzger** [01:10]

Thank you. You bet. You too. Bye.

Mitch (Customer) informed Chad Metzger (Company Representative) about a delay regarding the OSI container delivery, which was rescheduled for the 21st, and Chad confirmed that the new arrangement was satisfactory.

### FULL TRANSCRIPT

**LI MITCH** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Brian, equipment's chat.

**LI MITCH** [00:06]

Hey, good morning, Chad. This is Mitch. We got a problem with get the OSI container on Friday. So we need to delay a couple days, delay to 20 seconds. So can you deliver on, we are reloading on 20 seconds. Can you drop off 21st?

**LI MITCH** [00:30]

Some day, sometime PM. Yeah, they cannot make it. They cannot find any container at this moment.

**Chad Metzger** [00:33]

I need to look here.

**Chad Metzger** [00:43]

21st.

**LI MITCH** [00:44]

Yeah,

**LI MITCH** [00:47]

you can delete afternoon. It's perfect. We can use that in the morning, 20 seconds.

**Chad Metzger** [00:53]

Yeah. Yeah, I can get that delivered on the morning of the 21st.

**LI MITCH** [00:58]

Okay, that's great. I'm sorry about that. Sometimes they change it so they cannot make it. So, yeah, see you on 21st, okay?

**Chad Metzger** [01:00]

Oh, no problem.

**Chad Metzger** [01:09]

Sounds great. Thanks, Mitch. You bet. Bye-bye.

**LI MITCH** [01:10]

Yep. Thank you so much. Bye-bye.

CALL 554 OF 611

Positive

**AI SUMMARY**

Gustin Kelvin (Caller) reached out to Derrick Dea (Company Rep) regarding work order 801-307, seeking specific parts.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Well, good afternoon, sir. How are you doing?

**Derrick Dea** [00:03]

Alright, what's up?

**GUSTIN KELVIN** [00:10]

Hey, I got a work order 801-307, segment two. It's on a serial number, Adam Tom, 13 Frank 33066.

**Derrick Dea** [00:26]

Okay. I can look them up.

**GUSTIN KELVIN** [00:29]

I need a set of shoes and wheel cylinders for both sides.

**GUSTIN KELVIN** [00:36]

Let me see if I can find these part numbers for you real quick. Flag scenes, I'm right here, huh? 13 Frank,

**GUSTIN KELVIN** [00:46]

33066. He's probably faster than I am.

**Derrick Dea** [00:54]

Thank

**GUSTIN KELVIN** [00:54]

I got a long ways to go yet today. Long ways to go. Long ways.

**Derrick Dea** [01:03]

you.

**GUSTIN KELVIN** [01:03]

Axel, right?

**GUSTIN KELVIN** [01:07]

Go to the axle. Oh, looky, looky, looky.

**GUSTIN KELVIN** [01:13]

Axel, axle. Come on.

**GUSTIN KELVIN** [01:20]

Brake system, left side.

**GUSTIN KELVIN** [01:24]

Left side and right side.

**GUSTIN KELVIN** [01:27]

There we go. So it looks like the wheel cylinder is item... Get off there. Oh, it gives you 102, which is a 91-Edward-4600-112. Two each, two wheel cylinders.

**GUSTIN KELVIN** [01:52]

And the shoes look like <REDACTED\_ENTITY>, <REDACTED\_ENTITY>, shoe assembly, 91EDWARD, 4600113.

**GUSTIN KELVIN** [02:03]

And let's see what the other shoe is. Looks like it's that number. 91EDWARD, 4600114.

**GUSTIN KELVIN** [02:17]

Now let me go back to the axle and go down to the other side, right? Sorry, takes me time. Who's calling me? Right side. 800-3557. Who is that?

**GUSTIN KELVIN** [02:41]

I don't either. So 109 is 91Edward4600212. And the other side is probably the same as that. Yeah, 91Edward4600113. If you could, we probably got them in stock, right?

**Derrick Dea** [02:59]

Yep.

**GUSTIN KELVIN** [03:05]

I'm trying to think what else we had today. I don't even know, man. I don't know. I think that's... I don't know, Derrick. I think that's it. Oh, did you find anything out? Did you order that valve body for Echo, that Princeton?

**Derrick Dea** [03:19]

Yeah.

**GUSTIN KELVIN** [03:26]

Work order 800137. You

**GUSTIN KELVIN** [03:35]

did order?

**GUSTIN KELVIN** [03:38]

Cool beans in the gaskets, you rock. All right, what else have you got? I got them parts. Oh, yeah, I think that's it, man. I think I'm good.

**Derrick Dea** [03:45]

All right. I don't know. You

**GUSTIN KELVIN** [03:52]

Hey, hey, hi, this is Brooke from Donovan. Who cares? Who's Brooke? From Donovan. Thank you, I don't either. All right, thank you, sir. Appreciate it. Have a good evening. Bye.

**Derrick Dea** [04:05]

too. Bye.

Tim Geis contacted Chad about a 6K pneumatic that needs to be released. Chad advised Tim to call the salesman for further assistance.

### FULL TRANSCRIPT

**GEIS TIM** [00:00]

This call is being recorded.

**Chad Metzger** [00:03]

Equipment is Chad.

**GEIS TIM** [00:05]

Hey Chad, Tim Geis.

**GEIS TIM** [00:07]

How you doing?

**Chad Metzger** [00:09]

Not bad yourself.

**GEIS TIM** [00:11]

Not too bad. Hey, you guys have a 6K pneumatic that you might want to release?

**GEIS TIM** [00:19]

You used one?

**Chad Metzger** [00:21]

You'll have to call the salesman. I just handled rentals.

**GEIS TIM** [00:25]

Is that weighed?

**Chad Metzger** [00:26]

Yeah, Wade.

**GEIS TIM** [00:28]

Okay, I'll reach him. I already tried so we'll see if he calls me back. Alright, thanks.

**Chad Metzger** [00:33]

Gotcha. Okay, sounds good. You bet. Bye.

## Inbound call from OMAHA NE

April 14, 2026 | 08:17 PM | Duration: 1m 47s | From: OMAHA NE | To: +14025942051

### AI SUMMARY

During the conversation, Derrick Dea (Company Representative) raised a concern regarding a parts store order that remained highlighted even after processing, while OMAHA NE provided insights about the order status and potential reasons for it.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

I figured it out. The parts store order. Yeah. I just don't know why it doesn't go away after it's processed.

**OMAHA NE** [00:11]

What? For Sunbelt?

**OMAHA NE** [00:19]

Oh, it'll stay on there as a record. It'll just say processed or submitted or something like that.

**Derrick Dea** [00:25]

Yeah, but it still says 1 and it's highlighted in red and it's processed.

**Derrick Dea** [00:32]

Yeah, parts store order, it's still light up the red 1 and it's done.

**OMAHA NE** [00:33]

Still says one.

**OMAHA NE** [00:41]

Oh,

**OMAHA NE** [00:42]

there's probably another order there under somebody else's dealer code,

**OMAHA NE** [00:49]

maybe. Like for a different store.

**Derrick Dea** [00:52]

Well, that's Jason.

**Derrick Dea** [00:59]

Not me. Yeah. I missed something. It says processed. Guess we'll see if it's still there tomorrow.

**OMAHA NE** [01:02]

It still says one.

**OMAHA NE** [01:11]

I don't know. I'm not at my computer, but I'll take a look at it.

**Derrick Dea** [01:17]

Maybe it's got an invoice overnight. I don't know.

**OMAHA NE** [01:18]

Yep.

**OMAHA NE** [01:23]

It could be. I'll check into it once I get on Wi-Fi somewhere.

**Derrick Dea** [01:24]

All right. Later. Bye. Bye.

**OMAHA NE** [01:31]

All right. All right, man. Bye.

### AI SUMMARY

Wade Valerie (Customer, Caller) reached out to Chad Metzger (Sales rep) to clarify concerns from Rick Sunderman about the full month's rent charged on rental returns, which Chad confirmed as company policy.

### FULL TRANSCRIPT

**OMAHA NE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Brian, equipment,

**OMAHA NE** [00:06]

Hey, Chad, it's Wade Valerie.

**OMAHA NE** [00:09]

I had a quick question. I just got done meeting with Rick Sunderman down here at NSK in Clarinda. He was asking a few questions about those five rental returns that just came back last week. He showed me the invoices on them. The invoice was showing a period of April 1st, April 6th.

**Chad Metzger** [00:16]

Chad. Because

**OMAHA NE** [00:30]

And he was wondering why he was getting charged a full month's rent and he was wondering why it wasn't prorated.

**Chad Metzger** [00:37]

we don't prorate invoices.

**OMAHA NE** [00:40]

Okay, nope, I just wanted to make sure. I didn't have an answer for him right then and there. Just wanted to make sure. I didn't know if you guys prorated down to a week or not.

**Chad Metzger** [00:48]

No, no. When it was on that contract, we only discount the monthly rate, weekly and daily rates are the same. So the cheapest rate on that contract is the monthly rate.

**OMAHA NE** [01:01]

So there are no weekly and daily rates. Everything, they already have the heavily discounted monthly rate that we stick to, basically.

**Chad Metzger** [01:07]  
Correct.

**OMAHA NE** [01:09]  
Okay. Nope. Sounds good. I just wanted to make sure that I had all the correct information for when I give him a call back here.

**OMAHA NE** [01:17]  
All right. Thank you.

**Chad Metzger** [01:19]  
Yep. No problem. Bye.

AI SUMMARY

Charles Huffman (Service rep) and Joshua Thiessen engaged in a conversation regarding urgently needed parts for equipment.

FULL TRANSCRIPT

**THIESSEN JOSHUA** [00:00]  
This call is being recorded.

**THIESSEN JOSHUA** [00:06]  
Charlie, how's it going?

**Charles Huffman** [00:08]  
Austin. Oh, it's... It is.

**THIESSEN JOSHUA** [00:11]  
It is?

**THIESSEN JOSHUA** [00:13]  
So are you shuttle wagon no more or

**Charles Huffman** [00:18]  
I'm whatever you need me to be.

**THIESSEN JOSHUA** [00:20]  
can you help get me out of mind or

**Charles Huffman** [00:23]  
Maybe.

**THIESSEN JOSHUA** [00:24]  
maybe? Okay, just give me a second. I got to sign into this place and I'll get you information. How have

**THIESSEN JOSHUA** [00:52]

you

**Charles Huffman** [00:55]

226.

**THIESSEN JOSHUA** [01:14]

been? I haven't talked to you for a while.

**Charles Huffman** [01:18]

Oh.

**Charles Huffman** [01:20]

I'm still existing. I'm still existing.

**THIESSEN JOSHUA** [01:21]

What's that?

**THIESSEN JOSHUA** [01:24]

Well, that's a good thing, I guess.

**THIESSEN JOSHUA** [02:09]

Okay.

**THIESSEN JOSHUA** [02:11]

So I'm going to need an alternator and a belt.

**THIESSEN JOSHUA** [02:18]

And the serial number is

**THIESSEN JOSHUA** [02:26]

42014112.

**Charles Huffman** [02:32]

Okay.

**Charles Huffman** [02:34]

You want that from Shuttle Wagon or you want part numbers so you can get it local?

**THIESSEN JOSHUA** [02:38]

I just need whatever by tomorrow. I need the belt and the alternator by tomorrow.

**Charles Huffman** [02:46]

Yeah, I'm not going to be able to get it from Shuttle Wagon.

**THIESSEN JOSHUA** [02:51]

Do you want to give me part numbers in and I'll make a few phone calls and see what I can find?

**Charles Huffman** [02:55]

Yeah, let me see what I can find here. Hold on.

**Charles Huffman** [03:02]

Engine serial number. It's a QSB67. Serial number is 7373-1702.

**Charles Huffman** [03:18]

I haven't been on Cummins' website. \*\*\*\*\* age.

**THIESSEN JOSHUA** [03:22]

Really?

**THIESSEN JOSHUA** [03:28]

I guess I haven't really been on there much either.

**Charles Huffman** [03:32]

That's weird that the requests for shuttle wagon parts through me have absolutely just disappeared.

**Charles Huffman** [03:43]

Yep, I did a 2,000-hour service on one yesterday, and then I had a guy here a little bit ago looking for some relays. Other than that, I haven't...

**Charles Huffman** [03:52]

Heard nothing about a shuttle wagon for weeks, weeks and

**THIESSEN JOSHUA** [03:55]

Really?

**Charles Huffman** [03:58]

weeks.

**THIESSEN JOSHUA** [03:59]

How long have you been in this new position now?

**Charles Huffman** [04:02]

This is

**Charles Huffman** [04:05]

about two and a half weeks in.

**THIESSEN JOSHUA** [04:07]

Two and a half weeks ahead.

**Charles Huffman** [04:09]

Let's see, drives, alternator.

**Charles Huffman** [04:16]

Okay,

**Charles Huffman** [04:21]

that doesn't tell me \*\*\*\*.

**Charles Huffman** [04:26]

Come on.

**Charles Huffman** [04:35]

Alternator.

**Charles Huffman** [04:40]

Okay, this is a regular swing mount style alternator. And it

**Charles Huffman** [04:50]

looks like the most current part number is a 5482741.

**THIESSEN JOSHUA** [04:58]

548-2741.

**Charles Huffman** [05:00]

7, yep.

**THIESSEN JOSHUA** [05:05]

548-2741.

**Charles Huffman** [05:07]

Yep.

**Charles Huffman** [05:10]

Now, do they have the decency to tell me what belt it uses?

**THIESSEN JOSHUA** [05:15]

Probably not.

**Charles Huffman** [05:15]

Well, they don't put it with the alternator.

**Charles Huffman** [05:22]

OK, this thing's \*\*\*\*\* me off.

**Charles Huffman** [05:32]

Drives.

**Charles Huffman** [05:38]

Drives.

**Charles Huffman** [05:43]

I wonder

**Charles Huffman** [05:53]

why they don't give you the \*\*\*\*\* information. Where the \*\*\*\* do they hide the belts at?

**THIESSEN JOSHUA** [06:01]

That'd be too \*\*\*\*\* easy.

**Charles Huffman** [06:03]

Hmm?

**Charles Huffman** [06:05]

Belt tensioner. Hmm.

**Charles Huffman** [06:36]

I'm at a loss, man. I don't know where the \*\*\*\* they hide the belts at.

**THIESSEN JOSHUA** [06:44]

Can you tell me what the serial number is on the engine? Maybe I can ask when I called it. See if they got this hint.

**Charles Huffman** [06:48]

Yeah. Yeah, the engine serial number is 73731702.

**THIESSEN JOSHUA** [06:52]

Hold on. Engine number. Okay, go ahead.

**THIESSEN JOSHUA** [07:04]

Okay, I'll see what I can find.

**Charles Huffman** [07:06]

Yeah, it's just not...

**Charles Huffman** [07:09]

I don't know where the \*\*\*\* they hide it at.

**THIESSEN JOSHUA** [07:11]

All right, I'll try Floyd's or something and see what they can come up with.

**THIESSEN JOSHUA** [07:17]

All right, thank you.

**Charles Huffman** [07:18]

Yep, later.

### AI SUMMARY

Marco from PowerFlate Company called Chad Metzger (Rental Coordinator) to discuss safety and compliance for the fleet, but Chad redirected him to the main office since he is not involved in that area.

### FULL TRANSCRIPT

**STANTON TX** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan, equipment is Chad.

**STANTON TX** [00:06]

Hi, Chad. Good afternoon. This is Marco speaking. How are you doing?

**STANTON TX** [00:12]

What's up? Am I calling you in a good time?

**STANTON TX** [00:17]

OK, perfect. So my call is today. I'm calling you from PowerFlate Company. And I'm reaching you to negotiate about some topics for the safety and compliance for the fleet. So is it a good time for you to have this discussion?

**Chad Metzger** [00:31]

I have nothing to do with the safety equipment stuff like that. I'm just a rental coordinator.

**STANTON TX** [00:37]

I see. Okay, so how are you rocking me to speak with regards to this point?

**Chad Metzger** [00:42]

You need to call our main office or headquarters.

### AI SUMMARY

During the call, Mark Ellison (Customer, Caller) notified Chad Metzger (Ryan Equipments) that the yard dog rental was finished and arranged for its pick-up.

### FULL TRANSCRIPT

**ALPHA TECH LC** [00:00]

This call is being recorded.

**Chad Metzger** [00:05]

Ryan Equipments, Chad.

**ALPHA TECH LC** [00:11]

Chad, is that right, Chad?

**Chad Metzger** [00:12]

Yes.

**ALPHA TECH LC** [00:13]

Chad, my name is Mark Ellison.

**ALPHA TECH LC** [00:16]

I'm with Boasso, and I'm calling to let you know that we are done with a yard dog that we rented from you guys.

**Chad Metzger** [00:29]

A yard dog.

**Chad Metzger** [00:34]

What's a yard dog?

**ALPHA TECH LC** [00:37]

Yard tractor.

**Chad Metzger** [00:38]

Oh, okay.

**Chad Metzger** [00:44]

What was the name of your company again?

**ALPHA TECH LC** [00:46]

Boasso.

**ALPHA TECH LC** [00:48]

B-O-A-S-S-O. Yep.

**Chad Metzger** [00:50]

Oh, Boasso. Oh, okay. Oh, down in St. Louis. Yep, okay, gotcha. All right, yep, I'll get that called off and picked up.

**ALPHA TECH LC** [00:55]

East St. Louis.

**ALPHA TECH LC** [01:00]

Oh, you don't need them.

**ALPHA TECH LC** [01:03]

I don't even have a unit number on here.

**Chad Metzger** [01:06]

Nope. Looking at the contract.

**ALPHA TECH LC** [01:08]

Okay.

**Chad Metzger** [01:11]

Yep. That's the one we sent out the middle of March.

**Chad Metzger** [01:15]

Yep. Alrighty. I'll get that picked up.

**ALPHA TECH LC** [01:17]

Yep. Yeah, March 17th. Yeah, it'll be on my yard but behind my building, parked, clean, full of juice and full of DEF.

**Chad Metzger** [01:33]

All right. Thanks,

**ALPHA TECH LC** [01:34]

And can you send me an email verifying that we had this conversation?

**Chad Metzger** [01:38]

Mark. I can give you a call-off number.

**ALPHA TECH LC** [01:41]

That'd be perfect.

**Chad Metzger** [01:42]

Okay. Call-off number. Let me know when you're ready.

**ALPHA TECH LC** [01:46]

Of course, I wouldn't have a functioning pen handy, would I?

**Chad Metzger** [01:50]

That's why I have three on my desk at all times.

**ALPHA TECH LC** [01:53]

Geez. Yeah. All right,

**Chad Metzger** [01:55]

It's RRS01, yep, R, Romeo, Romeo, Sierra,

**ALPHA TECH LC** [01:59]

shoot. S isn't...

**ALPHA TECH LC** [02:03]

Sierra.

**Chad Metzger** [02:05]

015,

**Chad Metzger** [02:07]

031.

**ALPHA TECH LC** [02:14]

Okay, great. Got it.

**Chad Metzger** [02:15]

All right, thanks, Mark.

**ALPHA TECH LC** [02:17]

Thank you, Chad.

**Chad Metzger** [02:17]  
You bet, Mike.

**AI SUMMARY**

Gustin contacted Derrick regarding work orders 792522 and 793655. He requested filling out a couple gallons of hydraulic fluid for segment 13 and inquiring about the status of two halves for the steering column.

**FULL TRANSCRIPT**

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parks, Derrick. All right.

**GUSTIN KELVIN** [00:05]

Hi, Derek. How are you doing today, buddy?

**GUSTIN KELVIN** [00:09]

Hey, I got it at work order 792522, segment 13. Can you fill out a couple gallons of hydraulic fluid for

**Derrick Dea** [00:21]

Yep. Yep. Yep. Yep. Bye.

**GUSTIN KELVIN** [00:23]

it? The other question is that work order is 793655. We're still waiting for them.

**GUSTIN KELVIN** [00:30]

Two halves for the steering column to come in,

**GUSTIN KELVIN** [00:34]

huh? Okay. Thank you, sir. I appreciate it. Have a good day.

## Inbound call from DJ Oakes

April 14, 2026 | 05:35 PM | Duration: 2m 55s | From: DJ Oakes | To: +15152995626

Inbound

Neutral

### AI SUMMARY

During the call, DJ Oakes reached out to Shelby Lathrum (Customer Service Representative, Ryan Equipment) to check on the possibility of trading a machine for repairs.

### FULL TRANSCRIPT

**DJ Oakes** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Ryan Equipment, how may I help you?

**DJ Oakes** [00:06]

Hey, Shelby, DJ.

**Shelby Lathrum** [00:08]

Hey, what's up?

**DJ Oakes** [00:09]

Oh, I was just driving by and remembered that we have that machine over there. I was waiting on an answer from then. I was trying to see if you guys would buy our <REDACTED\_ENTITY> on trade to do some of the work for that one that's sitting over there. I haven't heard anything.

**Shelby Lathrum** [00:30]

Okay, so waiting for Ben, if we would buy your <REDACTED\_ENTITY>?

**DJ Oakes** [00:37]

Yeah, buy the PB50 for like, not even like buy it, but just on trade for some of the repair work that needs done to that PBX that's sitting there. He said he wasn't sure if they would, but he said he was going to ask and

**Shelby Lathrum** [00:38]

On trade.

**Shelby Lathrum** [00:55]

Okay.

**DJ Oakes** [00:56]

see. Otherwise, I'm going to probably sell that PB50 or the PBX that's over there on auction.

**Shelby Lathrum** [01:03]

Okay. Yeah, I can reach out to him and see what's going on.

**DJ Oakes** [01:08]

Okay. Yeah, I haven't heard anything from him. I signed the new yearly agreement for the PM stuff that I haven't heard anything on. You guys would take that PD50 on trade to do some of the repairs on that machine?

**Shelby Lathrum** [01:20]

Yeah. Okay.

**Shelby Lathrum** [01:25]

Yeah, I can reach out to him and then I'll also mention it to Adam so that he knows what's up too. And then I just opened your guys' PMs, but we have to wait for parts, so it might be a week or two yet before you get a call to bring those

through.

**DJ Oakes** [01:41]

Okay, no worries. Yeah, I'd like to try to repair that one instead of having this PB50. That PBX would be a lot better option to keep around

**Shelby Lathrum** [01:50]

Yeah, for sure.

**DJ Oakes** [01:51]

for what we do anyways.

**DJ Oakes** [01:55]

But, yeah. Okay, yeah.

**Shelby Lathrum** [01:56]

Yeah. Well, hopefully I can get some traction with this.

**DJ Oakes** [01:58]

I didn't want to just keep on leaving you guys out of the loop here what was going on with that, but I ain't heard nothing from him, so I figured I'd reach out and let you know that's what we're trying to get worked anyways.

**Shelby Lathrum** [02:10]

Yeah, no, I'm glad you called and then I can get this ball going. Yeah. Okay.

**DJ Oakes** [02:13]

Taking up space.

**DJ Oakes** [02:16]

So, but if I need to get that thing out of there in the time being, just let me know. I'll come get it and just we'll bring it back once we get things figured out. I can do that too.

**Shelby Lathrum** [02:27]

Yeah, I'll see what Adam says.

**DJ Oakes** [02:30]

Okay. All right. Thank you.

**Shelby Lathrum** [02:31]

Yeah, no problem.

**DJ Oakes** [02:33]

All right. Bye.

**Shelby Lathrum** [02:33]

All right, bye.

Kyle Schroeder (Customer) and Adam Henderson (Representative) engaged in a light-hearted conversation about processing a purchase order, confirming details and pricing along the way.

### FULL TRANSCRIPT

**KYLE SCHROEDER** [00:00]

This call is being recorded.

**KYLE SCHROEDER** [00:03]

Seasons and weather and \*\*\*\*.

**KYLE SCHROEDER** [00:06]

Hey, can I get a PO for a sitting?

**Adam Henderson** [00:09]

Yeaser. True.

**KYLE SCHROEDER** [00:13]

Tompkins prevails again.

**Adam Henderson** [00:15]

Yeah. Did they have the seal? Cool.

**Adam Henderson** [00:22]

Now they just need to get a rubber hose that doesn't destroy itself.

**KYLE SCHROEDER** [00:26]

What? Oh, yeah. I know. Yeah, you're funny.

**Adam Henderson** [00:32]

Trying

**Adam Henderson** [00:37]

to find the

**Adam Henderson** [00:40]

in-process.

**KYLE SCHROEDER** [00:41]

Oh, do you want to put it on the horizontal carriage one or do you want to open something separate?

**Adam Henderson** [00:46]

Nah, I'm just gonna put it on the carriage one.

**Adam Henderson** [00:51]

What do you got for a total?

**KYLE SCHROEDER** [00:51]

\$4.15.

**Adam Henderson** [00:55]

Cheese and rice. Oh yeah.

**KYLE SCHROEDER** [00:56]  
High dollars, huh?

**KYLE SCHROEDER** [01:02]  
Back bill, ties, paychecks.

**KYLE SCHROEDER** [01:06]  
113.

**Adam Henderson** [01:17]  
PO number 1137454.

**KYLE SCHROEDER** [01:25]  
7454.

**KYLE SCHROEDER** [01:28]  
All righty, thanks, sir.

**Adam Henderson** [01:30]  
Yep.

**FULL TRANSCRIPT**

**FUCHS JOHN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Yeah. Now I got an email into, uh, whatever it's called, WAVE.

**FUCHS JOHN** [00:06]

Hey, Derrick, it's Dave again. Hey, I'm going to go and see, well, have you ordered that headlight already?

**FUCHS JOHN** [00:21]

Okay. I'm going to go and see if I can, this is just a regular standard automotive headlight bulb. I'm going to go to like Napa and see if I can get just a new big tail for it.

**Derrick Dea** [00:27]

Okay, let me know. Will do. Okay. Yep. Bye.

**FUCHS JOHN** [00:35]

Yeah, so we'll just hold off on that for now, you know, the actual ordering of it. And I'll

**FUCHS JOHN** [00:41]

I'll let you know here in a little bit if I can make something work or not.

**FUCHS JOHN** [00:47]

All righty. Thank you, Derrick.

## Inbound call from MURPHY TRACTOR

April 14, 2026 | 04:44 PM | Duration: 2m 52s | From: MURPHY TRACTOR | To: +15152995632

Inbound

Positive

### AI SUMMARY

In the conversation, Kent Stewart (Representative, Kenton Parts) reached out to Murphy Tractor regarding the arrival and pricing of filters.

### FULL TRANSCRIPT

**MURPHY TRACTOR** [00:00]

This call is being recorded.

**Kent Stewart** [00:04]

Thanks for choosing around equipment. This is Kenton Parts. How may I help you?

**MURPHY TRACTOR** [00:07]

They can't mark with Murphy Tractor. Those filters ought to be here in a couple days. Couple days. They're coming out of Minnesota. Yes, sir.

**Kent Stewart** [00:09]

Hey, Mr. Mark.

**Kent Stewart** [00:14]

Okay. How soon?

**Kent Stewart** [00:17]

About a couple days.

**Kent Stewart** [00:22]

Okay, so Tuesday,

**Kent Stewart** [00:26]

Thursday? Okay. What's my cost on those? Last time I bought them was \$200 and one penny for the 92 and...

**MURPHY TRACTOR** [00:34]

Let me go back.

**Kent Stewart** [00:34]

201.18 for the 91. Are they still the same?

**MURPHY TRACTOR** [00:46]

The

**MURPHY TRACTOR** [00:55]

92 is

**MURPHY TRACTOR** [00:59]

\$125. Yep. And, well, I didn't pay attention to what they said. This is an old price, too.

**Kent Stewart** [01:02]

The 125? Okay, cool. They've come down a bit.

**Kent Stewart** [01:11]

Oh, okay.

**MURPHY TRACTOR** [01:11]

The other one says \$125.74. Oh, your cost. Yeah, \$125.74.

**Kent Stewart** [01:14]

That's your cost or my cost?

**Kent Stewart** [01:17]

125.74. Okay, and the 91?

**Kent Stewart** [01:25]

125.74 for the 91 and the 92? Is the same price?

**MURPHY TRACTOR** [01:32]

\$125 even.

**Kent Stewart** [01:34]

Oh, 125 even. Oh, okay. Cool. 125 even, 125 74. Okay.

**MURPHY TRACTOR** [01:38]

Yep, that's what it's showing in my book right now, unless they've updated the prices and not told me.

**Kent Stewart** [01:45]

Well, there you go. All right. That's what I'm going to tell the technician. I know that we don't have a charge account there, so somebody would be coming by with a credit card. So, okay. All right. Thank you,

**MURPHY TRACTOR** [01:49]

All right,

**MURPHY TRACTOR** [01:55]

that'll be fine, sir. All right, thank you. Have a good day. Yes.

**Kent Stewart** [01:59]

Mark. Oh, hey, Mark, what time Thursday, you think?

**MURPHY TRACTOR** [02:03]

I mean, our UPS gets here at 10:30, 11 o'clock.

**Kent Stewart** [02:07]

10:30, 11:00, so afternoon.

**MURPHY TRACTOR** [02:09]

So I would call first just to make sure they've made it. So, all right,

**Kent Stewart** [02:12]

Okay. All right. Well, then, go home. All right. Thank you, Mark. You have a good one now. Oh, can I get a purchase order on that order? It's 113-6266.

**MURPHY TRACTOR** [02:19]

sir. You too. Yep.

**MURPHY TRACTOR** [02:30]

6266. All right, sir. I'll see you till it's on there. Thank you. Bye.

**Kent Stewart** [02:31]

Yes, sir.

**Kent Stewart** [02:34]

All right. Thanks, Mark.

would like to see if

**FUCHS JOHN** [00:19]

we can come up with some parts for these. We've got a couple of those gem cart, little battery-powered trucks that we used to carry.

**Derrick Dea** [00:28]

Now what do you need?

**FUCHS JOHN** [00:36]

I need a set of batteries for one of them, which I think we probably have.

**FUCHS JOHN** [00:43]

They're

**FUCHS JOHN** [00:46]

a Group 901 batteries.

**Derrick Dea** [00:51]

The Interstate.

**FUCHS JOHN** [00:51]

And then,

**FUCHS JOHN** [00:54]

hang on, I'll give you

**FUCHS JOHN** [00:58]

the...

**FUCHS JOHN** [01:03]

The ones that are in it aren't, but that's what we've replaced them. That's what's been put in some of the other ones.

**FUCHS JOHN** [01:14]

And there's like eight batteries in it.

**FUCHS JOHN** [01:18]

And let's see. Hang on. I'll get a service call number for--

**FUCHS JOHN** [01:26]

let's see here.

**FUCHS JOHN** [01:32]

OK. For that one, for the batteries, service call is--

**Derrick Dea** [01:34]

Thank

**FUCHS JOHN** [01:38]

let's see. Seven-- hang on. I like to put my glasses.

**FUCHS JOHN** [01:44]

I took a screenshot and

**FUCHS JOHN** [01:48]

it's hard to read as it is.

**FUCHS JOHN** [01:51]

Okay.

**Derrick Dea** [01:52]

you.

**FUCHS JOHN** [01:54]

For the

**FUCHS JOHN** [01:58]

batteries, the service call is 799517.

**Derrick Dea** [02:05]

799 what?

**FUCHS JOHN** [02:10]

And then my next...

**FUCHS JOHN** [02:13]

Next project on this thing. 517.

**Derrick Dea** [02:21]

Nope, that's Lincoln Southard or PB50. Mm-mm.

**FUCHS JOHN** [02:30]

What's that?

**FUCHS JOHN** [02:33]

That's not a good service call number?

**Derrick Dea** [02:36]

799.

**FUCHS JOHN** [02:39]

517 is what?

**FUCHS JOHN** [02:43]

Hang on. Let me pull it up in the computer and see if it's different.

**Derrick Dea** [02:46]

Thank

**FUCHS JOHN** [02:54]

Hang on. Stand by. Let me see if I can. I've got to fire up my computer and all that.

**Derrick Dea** [02:58]

you.

**FUCHS JOHN** [03:10]

It might be, you know what, I'll bet it's 827.

**Derrick Dea** [03:14]

Thank

**FUCHS JOHN** [03:20]

I'll bet that 5 just looks like an

**FUCHS JOHN** [03:22]

8. Let me,

**Derrick Dea** [03:29]

you.

**FUCHS JOHN** [03:43]

yeah, does that come out any better?

**Derrick Dea** [03:45]

799817. So eight batteries for this one. Let me get this one done here.

**FUCHS JOHN** [03:49]

Yeah, that's what it is.

**FUCHS JOHN** [03:54]

Okay, yeah, it's an 8. It sure looks like a 5 when I took a screenshot of it.

**Derrick Dea** [04:06]

Okay.

**Derrick Dea** [04:31]

Thank

**FUCHS JOHN** [04:32]

Okay, and then the next one

**FUCHS JOHN** [04:36]

is, let's see,

**Derrick Dea** [04:39]

you.

**FUCHS JOHN** [04:42]

service call 799-820.

**FUCHS JOHN** [04:52]

And for that one, I need a

**FUCHS JOHN** [04:55]

left front,

**FUCHS JOHN** [04:58]

of course, headlight assembly. This thing, I don't know, the plug got hot and it melted everything.

**Derrick Dea** [04:58]

Okay.

**FUCHS JOHN** [05:06]

around it so if I get a new plug you know from the wiring harness maybe a pigtail or something

**FUCHS JOHN** [05:14]

and then

**FUCHS JOHN** [05:20]

I don't even think well maybe change bulb in them but let's just get a headlight for it

**Derrick Dea** [05:22]

You're probably gonna have to put some... splice it or something, put some clips in there I'm guessing. Terminals, I don't know.

**FUCHS JOHN** [05:37]

okay yeah I can do that

**Derrick Dea** [05:40]

I'll see.

**FUCHS JOHN** [05:40]

I can do that if it comes down to that and then just I

**FUCHS JOHN** [05:46]

I don't know. Yeah, if we can get one grade, if not, you know, I'll deal with it.

**Derrick Dea** [05:47]

Okay. Alrighty. Now I gotta get them hotshot it over.

**FUCHS JOHN** [05:54]

And that should be it for now.

**FUCHS JOHN** [06:00]

All right. Do you know, do we have those batteries?

**Derrick Dea** [06:08]

These other 901s's, right?

**FUCHS JOHN** [06:09]

All right.

**FUCHS JOHN** [06:13]

Let's see.

**Derrick Dea** [06:15]

I'm assuming that's

**FUCHS JOHN** [06:16]

That sounds right.

**FUCHS JOHN** [06:18]

I think they were 902.

**Derrick Dea** [06:19]

a...

**FUCHS JOHN** [06:21]

Yeah, I can send you a picture of the battery that's in it, if that would help. But it just says BCI Group 901.

**Derrick Dea** [06:32]

Okay.

**Derrick Dea** [06:34]

Send me a picture so I can get the right ones from Interstate.

**FUCHS JOHN** [06:39]

Okay. Very good. I will send that right over to you. Thank you, Derrick. Bye-bye.

**Derrick Dea** [06:40]

All right. All righty.

**Derrick Dea** [06:45]

Yep. Bye.

CALL 572 OF 611

### Inbound call from JASON HICKS

April 14, 2026 | 03:57 PM | Duration: 1m 55s | From: JASON HICKS | To: +15152995624

Inbound

Positive

#### AI SUMMARY

The conversation revolved around Jason Hicks (Customer) addressing a hydraulic leak issue and confirming details about O-rings with Adam Henderson (Service rep), who provided guidance on warranty documentation and fittings.

#### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

Yes, sir.

**JASON HICKS** [00:04]

Hey, I'm at Echo,

**Adam Henderson** [00:08]

I'm

**JASON HICKS** [00:08]

and

**JASON HICKS** [00:10]

it's a hydraulic leak deal. It's

**JASON HICKS** [00:15]

a... Why can't I freaking think today? Holy cow.

**Adam Henderson** [00:18]

going to guess main lifthoes.

**JASON HICKS** [00:20]

Now, it's in the side shift. The 90-degree fitting that goes up into the

**JASON HICKS** [00:28]

cylinder,

**JASON HICKS** [00:30]

are them just standard O-rings?

**Adam Henderson** [00:33]

Yeah, it should be.

**JASON HICKS** [00:35]

Okay. All right. I just wanted to make sure. I thought they were.

**Adam Henderson** [00:39]

Yeah, it should be an ORB. Probably a number O-ring boss, number six.

**JASON HICKS** [00:45]

Oh. Yeah.

**JASON HICKS** [00:48]

That's flat face. I mean,

**Adam Henderson** [00:51]

When you take that out of there, sometimes there's a little restrictor in there.

**JASON HICKS** [00:55]

nothing fell out.

**Adam Henderson** [00:58]

Yeah, it may be stuck up in there, but there's usually like a little washer in there that's got a small hole in it.

**JASON HICKS** [01:06]

Boston tube fittings. There we go. That's...

**JASON HICKS** [01:12]

All right.

**JASON HICKS** [01:14]

Sounds good. Let me get this done and...

**JASON HICKS** [01:17]

Oh, I forgot to take pictures down there.

**Adam Henderson** [01:20]

It's an internal warranty,

**Adam Henderson** [01:23]

so I doubt they'll ask for pictures, but yeah.

**JASON HICKS** [01:24]

I mean, I've got some.

**Adam Henderson** [01:29]

All good. We'll see what, I don't think Xerotex really requires that stuff. We just try and set it as like a standard.

**JASON HICKS** [01:29]

Yeah,

**JASON HICKS** [01:35]

I mean, I got the hour meter. I don't have the data tag or serial number, but

**JASON HICKS** [01:43]

I'll send what I got.

**Adam Henderson** [01:44]

Okay.

**JASON HICKS** [01:46]

All right, bye.

**Adam Henderson** [01:47]

Thank you.

CALL 573 OF 611

## Inbound call from MARSHALLTOWN IA

### AI SUMMARY

In a recorded call, Robbie from Progress Rail asked Shelby Lathrum (Sales representative, Ryan Equipment) about forklift rentals due to an old forklift that needed fixing.

### FULL TRANSCRIPT

**MARSHALLTOWN IA** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan Equipment. How may I help you?

**MARSHALLTOWN IA** [00:07]

Yeah, is Ryan, or I mean Adam around?

**Shelby Lathrum** [00:11]

He's currently out in the shop. Do you want me to go grab him?

**MARSHALLTOWN IA** [00:14]

Yeah, I got a quick question. Well, maybe you can answer. Do you guys rent forklifts out?

**Shelby Lathrum** [00:20]

We do.

**MARSHALLTOWN IA** [00:21]

You do? Okay. Well, this is Robbie at Progress Rail, and we're debating on, I just sent Shelby a request to come fix this old forklift we have, and we need something that's going to lift 10,400 pounds.

**Shelby Lathrum** [00:22]

Yes, sir.

**MARSHALLTOWN IA** [00:35]

This old forklift we have would be the one we could do it with, but it hasn't ran for a long time, so we're debating on

**MARSHALLTOWN IA** [00:42]

if we could rip from you, that maybe be a different way to go than having to fix this forklift.

**Shelby Lathrum** [00:50]

Okay. Do you want the salesman's phone number so he can get you numbers for a rental?

**MARSHALLTOWN IA** [00:50]

Yeah,

**MARSHALLTOWN IA** [00:57]

can you?

**Shelby Lathrum** [00:58]

Yeah. Are you ready for it?

**MARSHALLTOWN IA** [01:01]

Just a minute.

**Shelby Lathrum** [01:02]

Okay.

**MARSHALLTOWN IA** [01:06]

OK, so-- RISCLE would be preferred because that would be a fully operational machine and we don't know where this is going to take us. All right. Just check on my phone here.

**MARSHALLTOWN IA** [01:20]

OK. All right, what do you got for rental on something that would lift that heavy?

**Shelby Lathrum** [01:25]

So his name is Ryan Allen.

**MARSHALLTOWN IA** [01:29]

Oh, Ryan Allen.

**Shelby Lathrum** [01:31]

Yes, sir.

**MARSHALLTOWN IA** [01:34]

OK.

**Shelby Lathrum** [01:35]

And then his phone number is 641-512-9015.

**MARSHALLTOWN IA** [01:39]

641.

**MARSHALLTOWN IA** [01:42]

512-9015. So what do I call him and he's affiliated with you guys? Yeah.

**Shelby Lathrum** [01:51]

Yes, he's our salesman that will be able to get you numbers on a rental.

**MARSHALLTOWN IA** [01:55]

We know him right. Oh, okay. Yeah. Okay. Well, let me call him and ask him. All right. Thank you.

**Shelby Lathrum** [01:58]

Does that sound good? Okay. Okay, if you can't get anywhere, just let me know and I can shoot off an email.

**MARSHALLTOWN IA** [02:05]

Okay. Very good.

**Shelby Lathrum** [02:06]

All right. Thank you.

**MARSHALLTOWN IA** [02:07]

All right. Thank you.

## Inbound call from WIRELESS CALLER

### AI SUMMARY

Troy (Customer, ECHO) called to report a leaking forklift, and Shelby Lathrum (Representative, Ryan Equipment) noted the issue and promised to arrange for a technician to address it.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Ryan Equipment. May I help you?

**WIRELESS CALLER** [00:06]

Yeah, hey, this is Troy down at ECHO. I have a forklift inside that we use all the time, and it's leaking from a couple of the front hoses down on the bottom of the mast pretty good.

**Shelby Lathrum** [00:19]

Okay.

**WIRELESS CALLER** [00:20]

Do you have anybody that's not doing nothing sometime here? It doesn't have to be today,

**Shelby Lathrum** [00:24]

Oh.

**Shelby Lathrum** [00:27]

Um, let me send out

**WIRELESS CALLER** [00:29]

but I've got a serial number for it if you want to start a ticket or whatever.

**Shelby Lathrum** [00:33]

an... Yeah, what's the serial and then I can send out an email to the guys.

**WIRELESS CALLER** [00:36]

AF17EO4196. It's one of those Mitsubishis.

**Shelby Lathrum** [00:46]

Okay. Yeah, let me send out an email to the guys and have them give you a shot when they can get there. Yeah, thank you. Bye.

**WIRELESS CALLER** [00:49]

Sounds good. Thanks.

## Inbound call from INNOVATIVE INJECTION TECH

April 14, 2026 | 01:08 PM | Duration: 2m 17s | From: INNOVATIVE INJECTION TECH | To: +15152995624

Inbound

Neutral

### AI SUMMARY

During the call, Chuck (I2Tech) requested an update on the repair status of their equipment, and Shelby Lathrum (Ryan Equipment) detailed the ongoing delays with parts, particularly for the boom lift and scissor lift.

### FULL TRANSCRIPT

**INNOVATIVE INJECTION TECH** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:05]

Thank you for choosing Ryan Equipment. How may I help you?

**INNOVATIVE INJECTION TECH** [00:07]

Hey, Shelby, Chuck over at I2Tech.

**INNOVATIVE INJECTION TECH** [00:10]

I just want to check in and see how we are on repairs on our equipment.

**Shelby Lathrum** [00:16]

Let me pull up my in-process here.

**INNOVATIVE INJECTION TECH** [00:18]

I know we've got the, we're waiting for a fan blade for another 1-4 truck.

**Shelby Lathrum** [00:23]

Yes,

**INNOVATIVE INJECTION TECH** [00:26]

And then we got some scissor lift and boom lift. We're waiting on some repairs.

**Shelby Lathrum** [00:32]

I know some parts on that were back-ordered. Let me pop that open.

**Shelby Lathrum** [00:43]

It's loading.

**Shelby Lathrum** [00:46]

Loading,

**Shelby Lathrum** [00:50]

loading, loading.

**Shelby Lathrum** [00:57]

The scissor lift is still waiting on some parts. Almost all of them are here, but they're not yet. Mike has replaced battery connectors on a battery.

**Shelby Lathrum** [01:16]

He's

**Shelby Lathrum** [01:20]

waiting on connectors for that.

**Shelby Lathrum** [01:26]

Let

**Shelby Lathrum** [01:27]

me see if the fan blade is on the work order yet.

**Shelby Lathrum** [01:35]

It looks like it is. So I'll have to let Dabney know he's a get back out there and get that installed.

**INNOVATIVE INJECTION TECH** [01:43]

Okay. How long do you think it's going to take before we get our boom lift back up?

**Shelby Lathrum** [01:48]

The last I heard, the decals were end of April-ish backordered. I can have Adam check for us.

**INNOVATIVE INJECTION TECH** [01:58]

Yeah, we need to know so we can know what to do if we have to rent something or not.

**Shelby Lathrum** [02:04]

Okay, I'll have him get a hold of you.

**INNOVATIVE INJECTION TECH** [02:06]

All right, thank you.

**Shelby Lathrum** [02:07]

Yeah, no problem. Bye.

### AI SUMMARY

Jason inquired about a serial number for a product he was trying to locate at Home Depot. Adam provided the serial number 45149 and offered to assist with taking pictures.

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Adam Henderson** [00:04]

Yes, sir.

**JASON HICKS** [00:05]

Are you by your desk? Obviously are. Is it called your desk phone? Duh. I'm up at Home Depot trying to get those pictures that I forgot to do on Friday. Can you give me that serial number?

**Adam Henderson** [00:07]

I am,

**Adam Henderson** [00:17]

yeah.

**Adam Henderson** [00:20]

Yeah. Yeah.

**JASON HICKS** [00:20]

Because I'm almost certain it was the list that I was just looking at.

**Adam Henderson** [00:25]

Ends in 45149.

**JASON HICKS** [00:28]

45149. Okay. All right.

**JASON HICKS** [00:33]

I'll see if I can find it and get some pictures taken. All right.

**Adam Henderson** [00:36]

Okay, sounds good.

CALL 577 OF 611

## Inbound call from WIRELESS CALLER

April 13, 2026 | 09:04 PM | Duration: 2m 58s | From: WIRELESS CALLER | To: +15152995626

Inbound

Positive

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan Equipment. How may I help you?

**WIRELESS CALLER** [00:07]

Thanks for choosing my equipment.

**WIRELESS CALLER** [00:13]

So I sent Jeff a message letting him know. I don't know if he just saw the email.

**Shelby Lathrum** [00:16]

Oh. Oh, I know. You got him all confused. So I sent a reply letting him know. Oh, okay.

**WIRELESS CALLER** [00:21]

I just called him. I just called him. I was like, hey.

**WIRELESS CALLER** [00:26]

Look, I was like, it might be easier if I explain it over the phone because I'll probably confuse myself in the messages.

**Shelby Lathrum** [00:32]

Yeah.

**WIRELESS CALLER** [00:33]

I was like, your guys' head shiny stuff in the oil. I was like, but the one I called about,

**WIRELESS CALLER** [00:41]

Friday and today is actually MILT forklift. And you guys have four GP25s on site and I just got confused on who it was.

**Shelby Lathrum** [00:51]

Yeah.

**WIRELESS CALLER** [00:53]

So

**WIRELESS CALLER** [00:56]

we're good there.

**Shelby Lathrum** [00:56]

Good. Okay. Good.

**WIRELESS CALLER** [01:01]

He sounded very disappointed that his wasn't okay.

**Shelby Lathrum** [01:05]

Oh, I'm sure.

**WIRELESS CALLER** [01:07]

But

**WIRELESS CALLER** [01:10]

I think we got it kind of

**WIRELESS CALLER** [01:15]

straightened out.

**Shelby Lathrum** [01:17]

Okay.

**WIRELESS CALLER** [01:21]

However, I do have you on the phone.

**WIRELESS CALLER** [01:24]

I've got to find the correct work order here.

**WIRELESS CALLER** [01:35]

There we go, this one. 795-886-SEGNET7.

**WIRELESS CALLER** [01:43]

We can get rid of that one.

**Shelby Lathrum** [01:45]

SEGMENT SEVEN. One second floating. Diagnose repair back-up alarm. But there's parts on it.

**WIRELESS CALLER** [02:00]

Part's on it.

**Shelby Lathrum** [02:01]

There's parts on it. There's a back buzzer.

**WIRELESS CALLER** [02:06]

I've still got to be at the shop. I don't have that.

**Shelby Lathrum** [02:10]

Ah, yeah.

**WIRELESS CALLER** [02:12]

I will return it tomorrow morning. I'll see if it's on my desk or something.

**Shelby Lathrum** [02:17]

Okay.

**WIRELESS CALLER** [02:18]

But yeah, when I replaced the fuse panel, that went away. Or that, I shouldn't say it went away, it started working.

**Shelby Lathrum** [02:23]

Oh.

**WIRELESS CALLER** [02:27]

So, I think I found an issue with that too.

**Shelby Lathrum** [02:30]  
Okay. Yeah. Well, good deal. Look at you go.

**WIRELESS CALLER** [02:34]  
So, okay. Yeah, like I said, I'll just check in on that tomorrow, see if it's on my desk or something.

**Shelby Lathrum** [02:41]  
Okay. Sounds good to me.

**WIRELESS CALLER** [02:43]  
All right, thank you.

**Shelby Lathrum** [02:44]  
Yep, thank you.

**Shelby Lathrum** [02:45]  
Bye.

CALL 578 OF 611

**Inbound call from WIRELESS CALLER**

April 13, 2026 | 08:35 PM | Duration: 4m 19s | From: WIRELESS CALLER | To: +15152995626

**Inbound**      **Neutral**

FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]  
This call is being recorded.

**Shelby Lathrum** [00:04]  
Thank you for choosing Ryan Equipment. How may I help you?

**Shelby Lathrum** [00:08]  
Hello.

**WIRELESS CALLER** [00:10]  
Hello. Hey, so I just talked to Jeff from the Utilities area at Cargill.

**Shelby Lathrum** [00:16]  
Okay.

**WIRELESS CALLER** [00:17]  
And I guess that GP25 we're not working on anymore.

**Shelby Lathrum** [00:22]  
Correct. He sent us an email with that response.

**Shelby Lathrum** [00:29]  
Because it has, like, engine problems and such.

**WIRELESS CALLER** [00:32]  
Yeah, that's the one that's got the glitter in it.

**Shelby Lathrum** [00:35]  
Yeah. Oh,

**WIRELESS CALLER** [00:38]  
And that's the one I just did the Q's box on.

**Shelby Lathrum** [00:42]

did you really?

**WIRELESS CALLER** [00:44]

Yeah.

**Shelby Lathrum** [00:48]

I tried to search for open calls on that today and I didn't see any.

**WIRELESS CALLER** [00:49]

Well, to be fair...

**Shelby Lathrum** [00:55]

Oh, for the unit not traveling?

**Shelby Lathrum** [00:58]

That's different. The ones he's talking about is 077, not 078.

**Shelby Lathrum** [01:13]

If you scroll away the bottom of that email, that one is for 0277.

**WIRELESS CALLER** [01:32]

OKAY. I'm trying to think.

**Shelby Lathrum** [01:33]

And the one that you worked on today for the InSpec travel and stuff, that one has the estimate approved for forks, tie rods, seals, horns, strobe, lights, etc.

**WIRELESS CALLER** [01:47]

OKAY, so then...

**Shelby Lathrum** [01:53]

It's the other kitty cat.

**WIRELESS CALLER** [01:55]

So they got

**WIRELESS CALLER** [02:01]

old GP25s and then one new one?

**WIRELESS CALLER** [02:06]

I'm trying to think where...

**WIRELESS CALLER** [02:11]

And I thought that was Jeff's also.

**Shelby Lathrum** [02:15]

Possibly. Um, that's a possibility.

**Shelby Lathrum** [02:20]

I don't generally know who they belong to. Jara handles all of that. Because they change all the time.

**Shelby Lathrum** [02:30]

But the one that they declined on is it needs a load backrest, a hood, floor pan, anti-slip, etc.

**Shelby Lathrum** [02:41]

RADIATOR GRILL,

**Shelby Lathrum** [02:44]

TAILLIGHT STOPLIGHT, OR A GUARD, WHICH IS NO LONGER AVAILABLE, TIE ROD ENDS, RADIATOR, LIFT CHAINS, THEY'RE NOT FIXING.

**WIRELESS CALLER** [02:55]

OKAY.

**WIRELESS CALLER** [02:57]

OKAY, so then I guess I just got them mixed up to who is what then?

**Shelby Lathrum** [03:03]

YEAH, WELL, I MEAN, IT'S EASY TO DO. THE ONE YOU WORKED ON ENDED IN '78 AND THIS ONE ENDED IN '77.

**WIRELESS CALLER** [03:15]

Okay, and then there's a third GP25 there,

**Shelby Lathrum** [03:22]

YES.

**WIRELESS CALLER** [03:24]

right? A third old one?

**Shelby Lathrum** [03:26]

Yep, it is a sister to the one that you worked on today. It ends in 79.

**Shelby Lathrum** [03:36]

They're all sisters, I guess. It's 277, 278, and 279.

**WIRELESS CALLER** [03:48]

Okay, I guess I'm just getting who

**WIRELESS CALLER** [03:52]

is what mixed up.

**Shelby Lathrum** [03:55]

Okie dokie.

**WIRELESS CALLER** [04:00]

Alrighty, sounds good.

**Shelby Lathrum** [04:01]

Alright.

**Shelby Lathrum** [04:05]

Yep, no problem.

**Shelby Lathrum** [04:07]

Bye.

CALL 579 OF 611

## Inbound call from HAMPTON DENNIS

April 13, 2026 | 07:27 PM | Duration: 0m 53s | From: HAMPTON DENNIS | To: +14025942048

Inbound

Neutral

### AI SUMMARY

Chad and Hampton discussed the delivery of a TURBORG item, confirming it would be delivered tomorrow at 9 AM. Hampton expressed appreciation for the information.

### FULL TRANSCRIPT

**HAMPTON DENNIS** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan equipment.

**HAMPTON DENNIS** [00:06]

Chad, hey, Jake Foschian and Norfolk, how are you?

**HAMPTON DENNIS** [00:10]

Hey, so that TURBORG, where did it get delivered?

**Chad Metzger** [00:14]

It's being delivered tomorrow.

**HAMPTON DENNIS** [00:17]

Oh, it is tomorrow. Okay, good. No, that's what I thought the original plan was. I just wanted to make sure. Because I know Kane's going to be up here and we're going to go over some \*\*\*\* with Yancey and all that good jazz.

**Chad Metzger** [00:31]

Yeah, it would be there tomorrow at 9 a.m.

**HAMPTON DENNIS** [00:34]

Not any perfect deal. That is what I needed. I appreciate it. Thank you.

**Chad Metzger** [00:35]

All right. Good.

---

CALL 580 OF 611

## Inbound call from JASON HICKS

April 13, 2026 | 07:12 PM | Duration: 8m 3s | From: JASON HICKS | To: +15152995624

Inbound

Positive

### FULL TRANSCRIPT

**JASON HICKS** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

And this had

**JASON HICKS** [00:06]

Hey, Adam, Jason here. Hey, I'm up here at Nutrien and

**JASON HICKS** [00:13]

wherever the heck I'm at. Yeah, but it's like Brita or Breda or whatever.

**Adam Henderson** [00:14]

him. Wall Lake.

**Adam Henderson** [00:21]

Oh, you're in Preeta, not Wall Lake.

**JASON HICKS** [00:24]

Correct.

**JASON HICKS** [00:26]

For

**JASON HICKS** [00:29]

that no start, it has power to the key switch and the excite wire has power when the key is turned.

**JASON HICKS** [00:41]

I cannot pinpoint why it won't start some of the time.

**Adam Henderson** [00:48]

Okay. Like a dead spot in the starter.

**JASON HICKS** [00:52]

Well, that's what I thought,

**JASON HICKS** [00:56]

but you screw with the key a little bit and

**JASON HICKS** [01:01]

it takes off.

**Adam Henderson** [01:05]

Plug on the back of the key switch tight.

**JASON HICKS** [01:08]

Yeah. They did cut into someone, I'm not sure who, someone cut into the harness and

**JASON HICKS** [01:15]

on the key switch side and spliced in wires on a wire that's not even used.

**JASON HICKS** [01:23]

So I'm not sure why that is or what,

**Adam Henderson** [01:28]

I think that's the unit that we put a harness and stuff in.

**JASON HICKS** [01:36]

but yeah, the harness doesn't look old.

**Adam Henderson** [01:38]

Yeah. What cereal is it?

**JASON HICKS** [01:43]

I don't know. Just a minute.

**Adam Henderson** [01:47]

Yeah, I'm going to say it's 12, 927, but... Is it...

**JASON HICKS** [01:52]

12, 927.

**JASON HICKS** [01:57]

I don't know. It's a P5000. Serial numbers are all wore off the tags. Well, one data tag's missing.

**Adam Henderson** [02:04]

Is it on the front of the cowl?

**JASON HICKS** [02:06]

No, that one's missing,

**Adam Henderson** [02:08]

No, I mean down at the bottom on that bar that goes across there, that's where it's stamped in.

**JASON HICKS** [02:16]

too. 12,

**JASON HICKS** [02:21]

9, 27.

**Adam Henderson** [02:21]

Yep.

**Adam Henderson** [02:24]

Okay. Okay, I'll change the work order and then let me pull up a schematic on that.

**JASON HICKS** [02:25]

Yeah.

**Adam Henderson** [03:05]

OK, so key switch.

**Adam Henderson** [03:24]

Red, black.

**Adam Henderson** [03:33]

I'd swap one of your starter relay with another relay down below in the black box.

**JASON HICKS** [03:39]

Yeah. There was a little bit of corrosion on the wire, but there wasn't like, it wasn't bad. I cleaned it off and got it all good, you know, good looking wire.

**Adam Henderson** [03:52]

I'd swap your backup relay with your starter relay.

**Adam Henderson** [03:57]

Just to start off and then if that doesn't solve it you may need to do a voltage drop from your key switch

**Adam Henderson** [04:05]

to that relay on the coil side

**Adam Henderson** [04:12]

and then you might have to do a voltage drop from the hot side of the relay from the battery to the starter when you hit the key.

**JASON HICKS** [04:23]

All right. And of course, this is one of those places where it's their only lift. So they're using it in the middle of me diagnosing it.

**Adam Henderson** [04:31]

Oh Jesus.

**Adam Henderson** [04:34]

Yeah, it's hard to diagnose when they're using it.

**Adam Henderson** [04:39]

Yeah, your key switch goes to one side of the coil. And...

**Adam Henderson** [04:48]

Looks like...

**Adam Henderson** [04:55]

I guess that's a ground?

**Adam Henderson** [05:07]

Okay, so that's the power side of that.

**Adam Henderson** [05:28]

Well, I'm not real sure how that works because there's--

**Adam Henderson** [05:58]

Starter relay, signal.

**Adam Henderson** [06:22]

Yeah, I don't know how that works because the key switch powers up both sides of the relay.

**JASON HICKS** [06:39]

What?

**Adam Henderson** [06:40]

Yeah.

**Adam Henderson** [06:43]

When I click on the wires for the relay coil,

**Adam Henderson** [06:50]

Both of them go back to the key switch. Oh, never mind. The other one goes to neutral switch.

**Adam Henderson** [06:58]

I was on the wrong wire.

**JASON HICKS** [07:02]

No, that makes sense.

**Adam Henderson** [07:04]

So your ground signal comes from your FNR

**Adam Henderson** [07:08]

only when you're in neutral to that relay. And then your start is the other side of the coil.

**JASON HICKS** [07:14]

Okay, he did say

**JASON HICKS** [07:17]

that he wiggles the F&R switch and sometimes it works.

**Adam Henderson** [07:25]

Which to me, that either means it's the FNR or the relay.

**JASON HICKS** [07:30]

Okay, I'll check the relay and if it tests good, checks good, I will,

**JASON HICKS** [07:37]

it'll need an F&R switch then.

**Adam Henderson** [07:40]

Yeah, I'd swap the relays and just start there and see if you get consistency.

**JASON HICKS** [07:44]

Yeah, yep, sounds good.

**Adam Henderson** [07:48]

All right, thanks. Bye.

**JASON HICKS** [07:49]

Yeah, wait, oops.

---

CALL 581 OF 611

## Inbound call from Rion Omaha Service - SEWALL JODY

April 13, 2026 | 06:05 PM | Duration: 3m 5s | From: Rion Omaha Service - SEWALL JODY | To: +14027345438

Inbound

Positive

FULL TRANSCRIPT

**SEWALL JODY** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Rion Equipment Omaha, this is Derrick. Usually we put the traditional green in them or extended life. Yep. Yeah. Usually we just...

**SEWALL JODY** [00:07]

What kind of antifreeze does a Mitsubishi forklift take?

**SEWALL JODY** [00:17]

Oh, so it is green? Can't tell because it's in a jug. You can't see nothing.

**Derrick Dea** [00:24]

If it doesn't have extended life coolant, the pink stuff, we'd put green in them. Just general conventional green. No. I said if there's pink in it, we'll add, we'll put, if there's extended life in it, which is usually

**SEWALL JODY** [00:33]

Huh. So what did you say, though, if it has pink, you add green to it?

**Derrick Dea** [00:45]

Different color than green like yellow or red or pink or something we put extended life in it or just get Xerox conventional green I think it is. Yeah. You don't know who flushed it last or serviced it last so I'd

**SEWALL JODY** [00:58]

All right. Then I guess I'll have to stick something in the jug to help it's green or don't color them.

**SEWALL JODY** [01:06]

All right. Thank you.

**Derrick Dea** [01:11]

You have to check. Brand new ones. Oh, interesting. Usually they're traditional greens.

**SEWALL JODY** [01:11]

Well, we just got them. They're not even for 2026s, so \*\*\*\* if I know. I mean, they don't got much for hours on them for nothing.

**SEWALL JODY** [01:22]

Well,

**SEWALL JODY** [01:26]

all right, well, I'll stick something in white in there and see if it comes out pink or green, I guess.

**Derrick Dea** [01:32]

Yeah, because I don't know what the new ones actually ship with when we service them. Like I said, we put pink or green in them. We flush them. So, it's nothing special. I mean, you can put pretty much anything in them. Plus, it's a diesel, you know. Yeah, I know.

**SEWALL JODY** [01:45]

All right, thank you,

**SEWALL JODY** [01:53]

sir. Laser propane.

**SEWALL JODY** [01:57]

Oh, gotcha. All right. Well, thank you. Bye.

**Derrick Dea** [01:57]

But, alright. Bye.

CALL 582 OF 611

## Inbound call from ANDERSON SHEREE

April 13, 2026 | 04:45 PM | Duration: 1m 49s | From: ANDERSON SHEREE | To: +14025942051

Inbound

Neutral

### FULL TRANSCRIPT

**ANDERSON SHEREE** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Bart, this is Derrick. Yeah. What's the call number? I don't know. Probably TVH. I don't know.

**ANDERSON SHEREE** [00:05]

Yo, Derrick,

**ANDERSON SHEREE** [00:08]

this Yale up at Bauer, Shandella,

**ANDERSON SHEREE** [00:16]

the vaporizer we put on it, was that OEM or TVH?

**ANDERSON SHEREE** [00:24]

I don't know the call number.

**Derrick Dea** [00:27]

Let's see here.

**Derrick Dea** [00:51]

That's a pro match one. Will you put the fittings on there? It's a pro match one.

**Derrick Dea** [01:15]

It's not a Yale, it's not TVH, it's a pro match. Nope, it's a nil. Is it failing or what? Oh. Alright. Alright. Bye.

**ANDERSON SHEREE** [01:19]

Okay, that's all I want to check. I just want to make sure it wasn't like a reminiscructured one.

**ANDERSON SHEREE** [01:25]

Okay.

**ANDERSON SHEREE** [01:28]

I'm not getting any LP out of it.

**ANDERSON SHEREE** [01:33]

I don't know yet. I got some more \*\*\*\* looking to do.

CALL 583 OF 611

## Inbound call from DES MOINES IA

April 13, 2026 | 04:19 PM | Duration: 5m 16s | From: DES MOINES IA | To: +15152995624

Inbound

Positive

### FULL TRANSCRIPT

**DES MOINES IA** [00:00]

This call is being recorded.

**Adam Henderson** [00:04]

Ryan Equipment Services, Adam, how can I help you?

**DES MOINES IA** [00:08]

Hey, Adam. This is Dan James at ADM oil refinery.

**Adam Henderson** [00:12]

Yes, sir, how are you doing?

**DES MOINES IA** [00:14]

Oh, not too bad. Hey, sorry about it. It takes a lot to get back to you on this.

**Adam Henderson** [00:15]

Good. Oh, that's all right.

**Adam Henderson** [00:19]

I just want to make sure we get you handled. It's been kind of a missing calls and... Yeah,

**DES MOINES IA** [00:22]

Yeah. Yeah, and I haven't been very good about calling back here lately. I've actually transitioned away from the refinery. I'm in a different role, so I'm just kind of

**DES MOINES IA** [00:32]

Filling in a little bit now helping them out but we need to get going back on that to getting that shuttle wagon looked at see what we need to do to it.

**Adam Henderson** [00:43]

is that something... Because I talked to Dave and he was kind of like, maybe we should just do like a full PM...

**Adam Henderson** [00:51]

Deep inspection first.

**DES MOINES IA** [00:53]

I think I mean yeah I think this we need to before we ever use it see what what there is make sure it's gonna run and no issues with it my guys here have never used it be nice to go through it then we can get somebody here to

**DES MOINES IA** [01:03]

We typically

**DES MOINES IA** [01:11]

pull

**Adam Henderson** [01:19]

Yeah. Do you guys take it on and off track a lot?

**DES MOINES IA** [01:24]

two cars out of our rail loadout.

**DES MOINES IA** [01:29]

PUSH THEM, THEN WE PULL THEM UP A WAY, THEN WE DROP OFF THE TRACK, COME BACK AROUND THE BACK SIDE AND PUSH THEM THE REST OF THE WAY UP THE HILL. SO WE'RE CONSTANTLY GETTING OFF AND ON ALL DAY, MOVING ABOUT TWO CARS AT A TIME.

**Adam Henderson** [01:43]

Uh-huh. Okay. Yeah. It's not extremely different than the track mobiles and stuff. And I think that's what you have currently, right? Yeah.

**DES MOINES IA** [01:47]

YES,

**DES MOINES IA** [01:51]

THE MAIN THING I NOTICE IS HOW MUCH LONGER IT IS, AND I'VE GOT KIND OF LIMITED

**DES MOINES IA** [01:56]

I'm not saying we can't do it, but it's especially up at the main road where it crosses, it might be a little more challenging for the guys. So I just want to make sure it's the right one. You know, like I said, this is the right size of one we need. You know, eventually one of our traffic mills is coming off of long-term lease when you just kind of make a decision one direction we go.

**Adam Henderson** [02:19]

Yeah. Okay. Yeah.

**DES MOINES IA** [02:20]

So when do you think you'll have somebody available? I guess you need to send us some kind of something for a basic estimate or something first so I can get a PO started.

**Adam Henderson** [02:27]

So a full PM is 8500 plus fees and that's change every fluid and everything.

**DES MOINES IA** [02:33]

Can I get you to send--

**DES MOINES IA** [02:37]

OK, can I get you to send me that in an email that way I can attach that to a PO? I'll have one of the guys at the refinery write a PO.

**Adam Henderson** [02:45]

Okay. And that includes like the PM stuff if they got to go like deeper into like diagnosing something with the engine because I know there was some concern maybe about like engine injectors or something.

**DES MOINES IA** [02:56]

Yeah, I was told there were some possibly some injector issues with it.

**Adam Henderson** [03:00]

Okay. So yeah, we can start off with the PM and then anything else we can just add on. I don't know how you guys write POs. Do you write POs ahead of time usually? Or...

**DES MOINES IA** [03:10]

Yeah, but once you're out here looking at that stuff, as long as it's not going to be a lot more, we'll just go ahead and just, yeah, just keep going and we'll get a PO for that additional or modify the existing one. But if we start tearing into it and you find something, some of you, oh, this is going to be...

**DES MOINES IA** [03:26]

We'll probably need to get some kind of PO to write before we continue to make sure we get an estimate of some kind.

**Adam Henderson** [03:40]

Okay. Okay. I just want to make sure we're in line. So I'll...

**DES MOINES IA** [03:41]

Yep, probably something similar to what you do elsewhere, I'm guessing.

**Adam Henderson** [03:48]

Yeah, usually it's like if we go over some a lot of people have DNEs, do not exceed.

**DES MOINES IA** [03:54]

Yeah, if it's a reasonable small amount, nobody's going to say anything, I'll just have to modify the PO, but I'll get in trouble if it was too much. Need my email address?

**Adam Henderson** [03:55]

So,

**Adam Henderson** [04:00]

yeah.

**Adam Henderson** [04:04]

Nope, I got it. So I'll go ahead and send you email here in a few minutes with an estimate for the PM portion of it and we'll start there.

**DES MOINES IA** [04:13]

All right. My replacement will be here by the end of this month, so once he's here, I'll get you his contact information. I'll just wait until he shows up.

**DES MOINES IA** [04:23]

Keep them out of the loop. I'll copy one of the stuff so we see what's going on. Other than that, I'll give it to like the maintenance guy on the other side to write your PO for

**Adam Henderson** [04:31]

Yeah. Okay, sounds good.

**Adam Henderson** [04:34]

I could probably squeeze it in not this week, but maybe like mid next week if I can get one of my main shuttle wagon guys separated off something else. So I want to get you handled so you can get started on it. So yeah, thank you.

**DES MOINES IA** [04:44]

it. Okay, that works.

**DES MOINES IA** [04:48]

All right, sounds good. Thanks.

**DES MOINES IA** [04:51]

Bye.

CALL 584 OF 611

## Inbound call from WIRELESS CALLER

April 13, 2026 | 04:09 PM | Duration: 3m 28s | From: WIRELESS CALLER | To: +14025942063

Inbound

Positive

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Well, hello.

**Jodi Nickell** [00:06]

Hi.

**Jodi Nickell** [00:09]

Whatcha doing?

**WIRELESS CALLER** [00:09]

Hi. Let's see. I'm not at New Star.

**Jodi Nickell** [00:12]

Yeah? I knew that. No, that doesn't sound like you're having fun at all.

**WIRELESS CALLER** [00:13]

I'm having fun.

**WIRELESS CALLER** [00:18]

Oh, well, you know, it's a good day.

**WIRELESS CALLER** [00:22]

You know, so it's a Monday.

**Jodi Nickell** [00:23]

It is a Monday.

**WIRELESS CALLER** [00:25]

It's a good day. Yeah. So I need a... Whoops. I didn't mean to do that, did I?

**Jodi Nickell** [00:29]

Yes.

**Jodi Nickell** [00:34]

Okay.

**WIRELESS CALLER** [00:35]

Let's see here.

**WIRELESS CALLER** [00:39]

So, there's a new star has got a Mitsubishi sit

**WIRELESS CALLER** [00:45]

down. I was trying to find the serial number for it.

**WIRELESS CALLER** [00:49]

But I need a service call open to adjust speeds on that as well.

**Jodi Nickell** [00:56]

Do they only have one Midsie? So then if I look up their account I should just see that one. Thanks. Appreciate that. Really narrows it down for me.

**WIRELESS CALLER** [00:59]

Yeah, they've only got one.

**WIRELESS CALLER** [01:06]

It's going to be the green one.

**WIRELESS CALLER** [01:13]

I knew you would.

**WIRELESS CALLER** [01:17]

Well, they've only got one green one.

**Jodi Nickell** [01:20]

Let's see what I got here.

**Jodi Nickell** [01:27]

Let's

**WIRELESS CALLER** [01:30]

I believe

**Jodi Nickell** [01:30]

see. Okay, so is it a 4,000 pounder?

**WIRELESS CALLER** [01:36]

so. Let me...

**Jodi Nickell** [01:37]

Yeah, it's the only one I see, so that's probably it. Is it an FB20?

**WIRELESS CALLER** [01:48]

I'm pulling something up right now. I believe you are correct.

**WIRELESS CALLER** [01:53]

FB 20 PNT. Serial number ends in 0137.

**Jodi Nickell** [01:58]

I got it. Alright. Adjust parameters and speed or just adjust parameters?

**WIRELESS CALLER** [02:00]

GOT IT. WE'RE GOING TO ADJUST PERIMETERS ON THAT.

**WIRELESS CALLER** [02:09]

WELL, ADJUST PERIMETERS. THAT'S PART OF THE SPEED. AND THEN ALSO ON --

**Jodi Nickell** [02:11]

Okay.

**WIRELESS CALLER** [02:17]

LET'S

**Jodi Nickell** [02:17]

Okay. Yeah.

**WIRELESS CALLER** [02:21]

SEE. IT'S 790792.

**WIRELESS CALLER** [02:31]

Now, can you add a segment to that?

**WIRELESS CALLER** [02:36]

I don't know what battery is in that. We're going to need to clean and neutralize the battery. Yeah, oh, you know what? We've got a bunch of

**Jodi Nickell** [02:42]

Okay, so don't do anything with that one yet? Okay. Okay. I can do that. Thank you. You too. Bye.

**WIRELESS CALLER** [02:44]

battery stuff here. Let me wait until I get my hands on it, and then I'll shoot you an email.

**WIRELESS CALLER** [02:52]

Yeah, don't do anything with that one yet.

**WIRELESS CALLER** [02:58]

Thank you.

**WIRELESS CALLER** [03:01]

Have a good day.

**WIRELESS CALLER** [03:02]

We have to be very, very polite since they're recording these now.

**Jodi Nickell** [03:06]

Yeah, yeah, yeah. Yeah. All right. Well, have a good day. Okay, bye.

**WIRELESS CALLER** [03:07]

You too.

CALL 585 OF 611

**Inbound call from LOGAN HEARSHMAN**

April 13, 2026 | 03:49 PM | Duration: 0m 47s | From: LOGAN HEARSHMAN | To: +15152995624

Inbound Neutral

AI SUMMARY

Logan called to confirm the availability of a new harness and ensure he was ready to splice in some box things. Adam confirmed the harness is no longer available, but Logan was assured of the process.

FULL TRANSCRIPT

LOGAN HEARSHMAN [00:00]

This call is being recorded.

Adam Henderson [00:03]

Prying equipment services, Adam. What's up?

LOGAN HEARSHMAN [00:06]

Hey, Adam. Hey. So, yeah, this is a different harness. So you just want me to cut it apart and then splice it in a few box things.

Adam Henderson [00:15]

Yep, do whatever we gotta do.

LOGAN HEARSHMAN [00:17]

All right, I just want to make sure before I start cutting apart a new harness.

Adam Henderson [00:19]

Yep, that harness for that dash is no longer available, so that's our only option. Yep, all good.

LOGAN HEARSHMAN [00:25]

OK, fair enough. Like I said, I just want to make sure before I start cutting into it.

LOGAN HEARSHMAN [00:31]

All right, thank you.

CALL 586 OF 611

**Inbound call from GUSTIN KELVIN**

April 13, 2026 | 03:49 PM | Duration: 1m 20s | From: GUSTIN KELVIN | To: +14025942051

Inbound Neutral

FULL TRANSCRIPT

GUSTIN KELVIN [00:00]

This call is being recorded.

Derrick Dea [00:03]

Oh, it's Dave. Yeah.

GUSTIN KELVIN [00:05]

Good morning, Mr. Derrick Day.

**GUSTIN KELVIN** [00:10]

This call is being recorded.

**Derrick Dea** [00:12]

Yes, it is.

**GUSTIN KELVIN** [00:16]

Hey, I'm looking for some of them USL-16 deep cycle batteries. Really? Is there somewhere you can get us?

**Derrick Dea** [00:22]

I don't have any.

**Derrick Dea** [00:28]

I have to get them hot shot over here with some interstate, and I don't know if they'll be able to do it today or tomorrow.

**Derrick Dea** [00:35]

I can work on it though.

**GUSTIN KELVIN** [00:37]

Okay. Yeah, they're working on a work order, but you're looking at, what, eight of them big sales batteries?

**Derrick Dea** [00:44]

Okay. I don't have any. I had some ordered them and they never used them so I had them buy them back and now they want them again.

**GUSTIN KELVIN** [00:46]

All right. Air life. There's six.

**GUSTIN KELVIN** [00:57]

Well, sorry. I ain't got no control over them, but

**Derrick Dea** [00:57]

I don't know, me neither.

**GUSTIN KELVIN** [01:02]

we're going to need eight of them.

**Derrick Dea** [01:05]

Okay. Yep. Bye.

**GUSTIN KELVIN** [01:06]

Thank you, sir.

FULL TRANSCRIPT

**ATWATER UNIQUE** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Brian Equipment, this is Chad.

**ATWATER UNIQUE** [00:07]

Hey Chad, it's Samuel, Amos' son. I called you sometime last week about a forecliff being delivered tomorrow.

**ATWATER UNIQUE** [00:16]

Okay, I don't know if you got my voice message after that, but the truck is running behind schedule. So, is it possible for us to move it up to Wednesday morning at around 10am?

**Chad Metzger** [00:31]

Wednesday morning, 10 a.m. Sure.

**ATWATER UNIQUE** [00:35]

Alright, perfect.

**Chad Metzger** [00:38]

To deliver Wednesday, 10 a.m. Got it. All right. Yeah, if you guys can go ahead and just sign that DocuSign as well. We just need that sign for our records.

**ATWATER UNIQUE** [00:50]

OK, OK. Did you email it to him or?

**Chad Metzger** [00:53]

Yeah, yeah, it was emailed.

**ATWATER UNIQUE** [00:55]

OK.

**Chad Metzger** [00:56]

I mean, I can email it to you as well if you need it,

**ATWATER UNIQUE** [00:57]

All right, perfect.

**ATWATER UNIQUE** [01:00]

OK. Yeah, maybe just in case.

**Chad Metzger** [01:03]

so. Okay, and what's your email address, Samuel?

**ATWATER UNIQUE** [01:05]

KODJO667@gmail.com.

**Chad Metzger** [01:14]

All right. I'll send it over to

**ATWATER UNIQUE** [01:16]

All righty, perfect. Sounds good. Thank you. Yep, bye-bye.

**Chad Metzger** [01:17]

you. All right. Thanks, Samuel. You bet. Bye-bye.

CALL 588 OF 611

## Inbound call from LI MITCH

April 13, 2026 | 03:20 PM | Duration: 4m 18s | From: LI MITCH | To: +14025942048

Inbound

Positive

FULL TRANSCRIPT

**LI MITCH** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Righty, goodness, Chad.

**LI MITCH** [00:06]

Hi, Chad, this is Mitch. I got an emulsion. They have really good door over there, 9 foot door. So should be okay with 15K? Yeah, how much, like this, how much cost for the day and transportation?

**Chad Metzger** [00:16]

Oh, okay, perfect, perfect, all right.

**Chad Metzger** [00:25]

Yep, okay, so the 15K is \$769 a day.

**LI MITCH** [00:29]

769?

**Chad Metzger** [00:31]

Yep, \$769 a day.

**LI MITCH** [00:33]

Uh-huh.

**Chad Metzger** [00:34]

And delivery and pickup is \$195 each way.

**LI MITCH** [00:38]

Okay, so please set it up and I need a 72 inch box, 72.

**Chad Metzger** [00:46]

Okay, okay. What's the name of your company?

**LI MITCH** [00:50]

My company name is Li Machinery-In.

**Chad Metzger** [00:57]

Okay. Let's see if I got an account number for you guys.

**Chad Metzger** [01:02]

Have you rented with us in the past?

**LI MITCH** [01:03]

I guess so,

**LI MITCH** [01:10]

you check it out on your computer, if not, if you need to sign up the phone,

**LI MITCH** [01:15]

We always pay by the COD.

**Chad Metzger** [01:23]

So it's LI Machinery.

**LI MITCH** [01:25]

Yeah, LI Machinery, location California.

**Chad Metzger** [01:30]

Okay, yeah, I don't see an account here. I can get you guys set up. What's your billing address?

**LI MITCH** [01:36]

Building address, 8441 Serra Street.

**LI MITCH** [01:41]

SARAH STREET. ROCEMEAD. R-O-S-E-M-E-A-D. 91770.

**Chad Metzger** [01:45]

Okay, the city.

**Chad Metzger** [01:53]

And the zip code?

**Chad Metzger** [01:58]

Zero, okay. And we'll need a credit card from you for the rental.

**LI MITCH** [02:03]

Yes, hold on. My credit card number is...

**LI MITCH** [02:09]

4,003, 90, 20, 14, 59, 22, 12.

**Chad Metzger** [02:25]

All right, so it's 4003.

**LI MITCH** [02:25]

Yep.

**Chad Metzger** [02:30]

What was the next four?

**LI MITCH** [02:31]

9, 0, 2, 0.

**Chad Metzger** [02:36]

<REDACTED\_ENTITY>. Expiration date,

**LI MITCH** [02:38]

Yup. Yup. Expect 01:27.

**Chad Metzger** [02:45]

27. And the CSV from the back,

**LI MITCH** [02:47]

Uh, 136.

**Chad Metzger** [02:51]

136. OK. So I've got a 15,000-pound LP forklift delivering Friday morning to 2700 Belle Ave in Des Moines.

**LI MITCH** [03:01]

I have my own, I have my two things, so you don't need to send me a propane. I have two things propane over there here.

**Chad Metzger** [03:02]

And

**Chad Metzger** [03:13]

so we're not delivering to Belle Ave.

**LI MITCH** [03:16]

No, no, no. I mean, I don't need the Pope-Peng. So you don't need to charge me the Pope-Peng thing.

**Chad Metzger** [03:23]

Oh, it comes with a propane tank.

**LI MITCH** [03:26]

Yeah, yeah, I do have two things with me.

**Chad Metzger** [03:30]

Okay, perfect. All right. Yep, I'll get that delivered. I'm going to say, what's your email address? I'm going to send you a DocuSign link. You can sign the contract.

**LI MITCH** [03:40]

Okay, my email is my company's full name, limachineryinc@gmail.com.

**Chad Metzger** [03:48]

LIMachineryinc@gmail.com.

**LI MITCH** [03:51]

inc@gmail.com. Okay.

**Chad Metzger** [03:54]

Okay.

**Chad Metzger** [03:58]

All right. I'll send you over that DocuSign. And when you guys are done with the forklift, give me a call. We'll get it picked up.

**LI MITCH** [04:05]

Okay, yeah, yeah, should be done by the, yeah. Okay. Thank you, bye-bye.

**Chad Metzger** [04:08]

Okay. All right. Thanks, Mitch.

**Chad Metzger** [04:10]

All right. Bye-bye.

## Inbound call from KYLE SCHROEDER

April 13, 2026 | 03:07 PM | Duration: 4m 22s | From: KYLE SCHROEDER | To: +15152995624

Inbound

Neutral

### FULL TRANSCRIPT

**KYLE SCHROEDER** [00:00]

This call is being recorded.

**Adam Henderson** [00:03]

This item?

**KYLE SCHROEDER** [00:05]

Did you know that this call is being recorded?

**Adam Henderson** [00:07]

Mm-hmm.

**KYLE SCHROEDER** [00:09]

What is that all about?

**Adam Henderson** [00:10]

Dunno.

**KYLE SCHROEDER** [00:12]

That's weird, okay.

**KYLE SCHROEDER** [00:17]

Do you have a charger?

**Adam Henderson** [00:19]

For...

**KYLE SCHROEDER** [00:20]

Hi, V. EJ.

**Adam Henderson** [00:21]

Oh. I do. That one will no longer be under warranty.

**KYLE SCHROEDER** [00:27]

Yeah, because I don't know if I tell him. I went through the whole thing, talked to Craig, looked up HPK,

**KYLE SCHROEDER** [00:33]

He ran through all the wiring. The charger thinks it's charging. So like when you plug it in, the green light's blinking like it's charging. The fan kicks in for like half a second and kicks back out and no errors, no nothing, just doesn't charge.

**KYLE SCHROEDER** [00:53]

It thinks it's charging though.

**Adam Henderson** [00:55]

Yeah.

**KYLE SCHROEDER** [00:56]

So I went ahead and verified all wiring, verified everything it's supposed to be.

**KYLE SCHROEDER** [01:02]

It thinks it's charging, literally.

**Adam Henderson** [01:07]

Yeah, I don't know why they keep going through so many chargers.

**KYLE SCHROEDER** [01:11]

Well, Craig suggested throwing a battery boss on it.

**KYLE SCHROEDER** [01:15]

But I'm like, I don't know. I don't know if it's just a reman problem, because the other thing he said is he's called and checked on this before. They're remanding.

**KYLE SCHROEDER** [01:23]

Team-Man programs for these are very poor because they don't have anything to put it on and test it. So they literally just replace whatever's burned up, like a MOSFET or something, and then just send it back out. And that kind of explains, like, you know, that one I put on where the cord was arcing inside and stuff like that.

**Adam Henderson** [01:43]

Yeah. I mean, we can do... Omaha's got the brand new battery charger kit. That's \$1,600.

**KYLE SCHROEDER** [01:51]

What is that? Like, it's just a brand new one?

**Adam Henderson** [01:54]

Yeah it's that update kit. I think it comes with the different mount and stuff. Let me look.

**KYLE SCHROEDER** [01:59]

Oh.

**Adam Henderson** [02:06]

Yeah it's a battery charger kit and that comes with two little rubber like bumpers.

**KYLE SCHROEDER** [02:14]

These come with that.

**Adam Henderson** [02:16]

Yeah, I don't know why they call it a kit, but... Yeah,

**KYLE SCHROEDER** [02:22]

Yeah, all these remands came with rubber bumpers.

**Adam Henderson** [02:26]

yeah, Reman, or brand new ones, 1600. Reman is...

**Adam Henderson** [02:44]

MCFRM 1445.

**KYLE SCHROEDER** [02:48]

Either way, they're buying this one.

**Adam Henderson** [02:51]

Yeah, because it's out of warranty. The last one was under warranty by like three weeks.

**KYLE SCHROEDER** [02:55]

Okay.

**Adam Henderson** [02:57]

So I can't get this thing to

**Adam Henderson** [03:01]

64.

**Adam Henderson** [03:08]

Obviously, I mean, we've never had problems like this before with anybody else. Maybe like once.

**KYLE SCHROEDER** [03:13]

Yeah, like I told Craig, I'm like, we've put lots of chargers in over the years, but it's not multiple per truck. It's usually like one and done, you know?

**KYLE SCHROEDER** [03:26]

I was like, this is literally the only place. I was like, we've put like eight in like the last couple of years. Like that's not an exaggeration.

**Adam Henderson** [03:35]

Reman's a little over \$1,000.

**Adam Henderson** [03:40]

So it's either \$1,000 or \$1,600.

**KYLE SCHROEDER** [03:40]

Okay. So a thousand. Yep. And then we can put it on today or a couple of days to order the new one.

**Adam Henderson** [03:49]

Yep.

**KYLE SCHROEDER** [03:50]

All righty.

**Adam Henderson** [03:51]

And they both have the same warranty, six months.

**KYLE SCHROEDER** [03:55]

I will go chit chat with them.

**Adam Henderson** [03:57]

Okay, sounds good. Yep.

**KYLE SCHROEDER** [03:59]

Thank you. Oh, hey, since I have you, do you know who called us in?

**Adam Henderson** [04:04]

Matt Hickok.

**KYLE SCHROEDER** [04:07]

Matt Hickok. All right. I will see if he's here.

**Adam Henderson** [04:09]

Okay.

### FULL TRANSCRIPT

**CHEYENNE WY** [00:00]

This call is being recorded.

**Charles Huffman** [00:03]

Brian Equipment, this is Charlie.

**CHEYENNE WY** [00:05]

Morning, Charlie, Chuck at Welding and Machine Cheyenne, Wyoming. Hey, I was wondering, we purchased that cylinder one day last week. Is there some sort of tracking or something associated with that? The customer is already up my \*\*\*\*.

**Charles Huffman** [00:19]

It's looking like it should deliver tomorrow.

**CHEYENNE WY** [00:24]

Cool. But what means is it coming, Charlie?

**Charles Huffman** [00:28]

I believe FedEx. Let me look at the paperwork here. It's kind of weird that they don't give me the actual tracking number. I have to go into the order and they have a track button that tells me what's going on, but it doesn't.

**Charles Huffman** [00:41]

Give me the actual tracking number. Yeah, 414 is what it's showing for current delivery.

**CHEYENNE WY** [00:43]

Right. So...

**CHEYENNE WY** [00:47]

Very good. That's what I need for now, Charlie. Thank you so much. Okay. Bye-bye.

**Charles Huffman** [00:50]

You bet.

**Charles Huffman** [00:52]

Bye.

**CC 6990-10 PFM** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan Equipment. How may I help you?

**CC 6990-10 PFM** [00:08]

Hi, Josh. I'm going to get on our repair for our customer, Beacon Roofing.

**Shelby Lathrum** [00:15]

I believe the step came in Friday. I'm not sure if the tech is going there today. He didn't say. I know he was off Friday. I can reach out to him and verify that he knows that it came in.

**CC 6990-10 PFM** [00:20]

Okay.

**Shelby Lathrum** [00:35]

Make sure he checked his email.

**CC 6990-10 PFM** [00:35]

Okay, yeah. If you could get an ETA from him and just shoot us an email, that'd be perfect.

**Shelby Lathrum** [00:40]

Yeah, I can do that.

**Shelby Lathrum** [00:45]

Does that sound good?

**CC 6990-10 PFM** [00:47]

Okay, perfect. I appreciate it. Thank you.

**Shelby Lathrum** [00:49]

Yep, no problem.

CALL 593 OF 611

## Inbound call from Rion Omaha Parts - JUDITH MOHRMANN

April 13, 2026 | 01:17 PM | Duration: 9m 56s | From: Rion Omaha Parts - JUDITH MOHRMANN | To: +14027345438

Inbound

Positive

### FULL TRANSCRIPT

**JUDITH MOHRMANN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parch, this is Derrick.

**JUDITH MOHRMANN** [00:06]

Derrick, Gene Mormon, I called you last week sometime. Anyway, I got to look and I didn't find the number he gave me for the cylinder, but there's a whole bunch of rebuilds on them. Do they have...

**JUDITH MOHRMANN** [00:28]

I don't know if you remember, it's an older lift,

**JUDITH MOHRMANN** [00:36]

but it's

**Derrick Dea** [00:39]

What

**JUDITH MOHRMANN** [00:40]

the cylinders for the up and down. But I was wondering, you got me the seals and the

**JUDITH MOHRMANN** [00:51]

For the cylinder. Do they have an exchange on those?

**Derrick Dea** [00:57]

do you mean, exchange?

**JUDITH MOHRMANN** [01:00]

A rebuild exchange? The whole thing?

**Derrick Dea** [01:03]

Oh, a whole new cylinder? No, that's...

**JUDITH MOHRMANN** [01:07]

You just got to rebuild your cylinders.

**Derrick Dea** [01:09]

Yeah. You can take it to a first parts of the machine. You can take it to a cylinder shop like the needs machines. I mean, if you need a new rod, a cylinder could probably make you a new rod. If you need an end cap or cap, they could probably machine you a cap for it. It wouldn't be the same as the OEM, but

**JUDITH MOHRMANN** [01:12]

Okay. Alrighty.

**JUDITH MOHRMANN** [01:22]

Right.

**JUDITH MOHRMANN** [01:30]

Sure.

**Derrick Dea** [01:33]

Or part of the piston, you could have that machine too. The barrel

**JUDITH MOHRMANN** [01:35]

Sure. Yeah, that's

**JUDITH MOHRMANN** [01:38]

what I used to do for a living, huh?

**Derrick Dea** [01:41]

depends. If you've got barrel stock, some of them kind of have ports welded on them and special hookups for them for the barrels.

**JUDITH MOHRMANN** [01:42]

At a machine shop.

**JUDITH MOHRMANN** [01:51]

Right.

**JUDITH MOHRMANN** [01:54]

Well, I'm going to be in Omaha this week sometime here, and I might just snap a picture and come talk to you in person.

**Derrick Dea** [02:03]

Do you have the-- did I send you the seals? OK. We're trying to remember what this was on. I was trying to remember what this was on, because I do hundreds of calls a night.

**JUDITH MOHRMANN** [02:05]

No,

**JUDITH MOHRMANN** [02:07]

I didn't order them yet. I was...

**JUDITH MOHRMANN** [02:14]

Pardon? Pardon? Pardon?

**JUDITH MOHRMANN** [02:18]

Yeah, like you would remember. Okay. You know, I'll just come in this week and I'll bring in the information and we'll go over it.

**Derrick Dea** [02:29]

So there's a bunch of seals on a cache or a quote, wasn't it?

**JUDITH MOHRMANN** [02:37]

Yeah, here's the seal number.

**Derrick Dea** [02:41]

Yeah, I got a quote number that's 121284R. I think that's the one. One, two, three, four, five, six, six, seven, eight,

**JUDITH MOHRMANN** [02:49]

I put them in my belt holding, which is the wrong thing to do.

**Derrick Dea** [02:52]

I have five seals.

**JUDITH MOHRMANN** [03:02]

Okay.

**Derrick Dea** [03:04]

Oh,

**JUDITH MOHRMANN** [03:06]

It's 9305212060.

**Derrick Dea** [03:13]

yeah.

**Derrick Dea** [03:20]

Yeah, that's a similar number. That's a similar number. What was that number again?

**JUDITH MOHRMANN** [03:21]

I will begin and talk to you.

**JUDITH MOHRMANN** [03:29]

Okay. I put it back in my pocket already.

**JUDITH MOHRMANN** [03:34]

It's 9305212060.

**Derrick Dea** [03:42]

Yeah, that is...

**Derrick Dea** [03:48]

That's okay. I got to see here. Is

**JUDITH MOHRMANN** [04:04]

It's on a forklift with a GC30K.

**Derrick Dea** [04:06]

there a number?

**JUDITH MOHRMANN** [04:12]

AT83D01456.

**Derrick Dea** [04:21]

Okay. Hold

**Derrick Dea** [04:27]

on.

**Derrick Dea** [04:45]

And what cylinder was it? The outside, was it the center cylinder or the outside cylinder?

**JUDITH MOHRMANN** [04:52]

Say again? Yeah,

**JUDITH MOHRMANN** [04:57]

yeah. Outside.

**Derrick Dea** [05:09]

Thank you.

**Derrick Dea** [05:39]

Thank

**Derrick Dea** [05:59]

you.

**Derrick Dea** [06:11]

55, let's see.

**Derrick Dea** [06:42]

So that you want to complete cylinder now though what you're wanting?

**JUDITH MOHRMANN** [06:54]

Well, now I was just wondering, I seen all the stickers on the thing. Looks like it's been rebuilt quite a few times, but, oh

**Derrick Dea** [07:04]

Well, there is an updated cylinder available. It's like \$1,300. They have nine in Indianapolis. Yeah. It's a different number. It's a 9305222060.

**JUDITH MOHRMANN** [07:10]

yeah?

**JUDITH MOHRMANN** [07:21]

And I'm walking into the building from getting my mail. I'm gonna get that number from you.

**JUDITH MOHRMANN** [07:29]

It might be better to do that.

**Derrick Dea** [07:30]

Yeah. Yeah.

**JUDITH MOHRMANN** [07:37]

Then they would have to know the location of the inlets and all that too, huh?

**JUDITH MOHRMANN** [07:46]

But it's a \*\*\*\* of a lot easier than... And then you're starting with new parts too.

**Derrick Dea** [07:52]

Yeah. That's a 2003 cylinder updates. Yeah. Go ahead and give me the number again.

**JUDITH MOHRMANN** [07:54]

Okay.

**JUDITH MOHRMANN** [08:00]

Say again.

**JUDITH MOHRMANN** [08:04]

Okay. Give

**JUDITH MOHRMANN** [08:07]

me the number.

**Derrick Dea** [08:08]

9305-222-060.

**JUDITH MOHRMANN** [08:17]

Say the last again.

**Derrick Dea** [08:17]

305222 060. OK.

**JUDITH MOHRMANN** [08:21]

9305-222.

**JUDITH MOHRMANN** [08:31]

Okay. \$1,300.

**JUDITH MOHRMANN** [08:35]

Okay.

**JUDITH MOHRMANN** [08:37]

I'll get back to you.

**JUDITH MOHRMANN** [08:40]

Okay. Thank you.

**Derrick Dea** [08:41]  
Mm-hmm. Bye.

**John Howard** [00:03]  
Equipment, I'm on this,

**RANDOLPH NE** [00:06]  
I'm sorry, is Anthony available? I think I have the wrong number.

**John Howard** [00:10]  
John. Oh, this is John with Ryan Equipment. Anthony, what do you...

**RANDOLPH NE** [00:14]  
Oh, okay. Do you guys, this is Jill with H&H Chevy Service. Do you guys just bring your vehicles over if, like, you have a recall or for warranty work, you have your

**RANDOLPH NE** [00:25]  
own, like, fleet company or?

**John Howard** [00:28]  
No, we go through wheels, but we just take them wherever.

**RANDOLPH NE** [00:28]  
Yeah. Oh,

**RANDOLPH NE** [00:32]  
okay. Well, we were calling, actually, because it looks like the 22 Colorado ending in 13th.

**RANDOLPH NE** [00:37]  
I THINK THAT'S THE PROBLEM, RANDOLPH, COI. I THINK THAT'S THE PROBLEM, RANDOLPH, COI.

**John Howard** [00:52]  
Okay, will do.

**John Howard** [00:55]  
Thank you. Bye.

## Inbound call from WIRELESS CALLER

Inbound

Positive

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:03]

Thank you for choosing Ryan Equipment. How may I help you?

**WIRELESS CALLER** [00:06]

This call is

**WIRELESS CALLER** [00:10]

being recorded. This call is being recorded.

**Shelby Lathrum** [00:12]

Sorry, the person you were trying to call is currently unavailable.

**WIRELESS CALLER** [00:16]

Oh, that's okay.

**WIRELESS CALLER** [00:20]

Okay. Um,

**WIRELESS CALLER** [00:22]

um, forklift ending in 0278 here at Corgill.

**Shelby Lathrum** [00:26]

0278. Okay. What about it?

**WIRELESS CALLER** [00:32]

I need a work order for, uh, no travel.

**Shelby Lathrum** [00:36]

Ain't got no travel. 0278.

**WIRELESS CALLER** [00:38]

No, I came over here to do some of the stuff that I got approved from the PM. \*\*\*\*\*, don't \*\*\*\*\* move.

**Shelby Lathrum** [00:45]

And...

**Shelby Lathrum** [00:47]

Oh, no. Why wasn't that on the PM?

**WIRELESS CALLER** [00:49]

I called...

**WIRELESS CALLER** [00:51]

Because it moved at the time.

**Shelby Lathrum** [00:53]

You sure about that?

**WIRELESS CALLER** [00:55]

Well, seeing that it's in a completely different location, yes.

**Shelby Lathrum** [00:58]

Okay, I'll let it slide this time.

**WIRELESS CALLER** [01:01]

No, I called Jeff and I was like, hey, did anyone tell you about this? And he goes, no. So, I'm assuming somebody...

**WIRELESS CALLER** [01:11]

Left it out here overnight when it rained.

**WIRELESS CALLER** [01:17]

Something got messed up. I don't know. I've been messing with it for like the past hour and a half, two hours.

**WIRELESS CALLER** [01:23]

Trying to figure out what the heck's going on.

**Shelby Lathrum** [01:26]

You

**WIRELESS CALLER** [01:27]

But he said he'd call someone. I think I figured it out, but we'll see. I have to get a new...

**Shelby Lathrum** [01:32]

just messed up the Operator's Monday plans of the machine not working.

**WIRELESS CALLER** [01:39]

That's their fault.

**Shelby Lathrum** [01:41]

Yeah. That's what they wanted. They don't want to work Monday. You just messed it up. You found it now.

**WIRELESS CALLER** [01:43]

Don't leave it outside in the rain. I don't know what to tell you.

**Shelby Lathrum** [01:51]

There.

**WIRELESS CALLER** [01:52]

Well, I can't fix it.

**Shelby Lathrum** [01:54]

Oh, so their plan is still working.

**WIRELESS CALLER** [01:57]

I gotta go. I'm hoping that we have the fuse box for it because a

**WIRELESS CALLER** [02:03]

lot of the pins inside the fuse box, not the fuses, but the actual fuse box side, those are all breaking. So I'm hoping that we got one that I can splice in there.

**Shelby Lathrum** [02:09]

Yeah.

**Shelby Lathrum** [02:15]

Oh, it's a possibility, since it's a kitty cat. Meow.

**WIRELESS CALLER** [02:21]

Alrighty.

**Shelby Lathrum** [02:22]

All right, I open it up. Yep, I'll get that right now. Yep, no problem.

**WIRELESS CALLER** [02:23]

That's all I need is a work order for no travel.

**WIRELESS CALLER** [02:29]

Appreciate it.

**WIRELESS CALLER** [02:31]

Bye.

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Ryan Equipment Omaha, this is Jodi. How may I help you?

**WIRELESS CALLER** [00:06]

Did you know this call is being recorded?

**Jodi Nickell** [00:08]

Not yet.

**WIRELESS CALLER** [00:11]

It just told me before it rang, it says this call is being recorded.

**Jodi Nickell** [00:17]

Oh, it did. I thought that started Monday, but... So now you have to be nice.

**WIRELESS CALLER** [00:21]

Is that evident?

**WIRELESS CALLER** [00:25]

Well, I'm always nice.

**Jodi Nickell** [00:25]

Yes.

**WIRELESS CALLER** [00:30]

So on 7949-5203, is there time on that?

**Jodi Nickell** [00:32]

Yes.

**Jodi Nickell** [00:41]

Hang on, you know my computer can't go that fast, Tim.

**Jodi Nickell** [00:47]

Come on, bro, you can do it.

**Jodi Nickell** [00:55]

79, 20, 29, 39?

**WIRELESS CALLER** [01:00]

79, 79, 40, 79, 49, 52, segment three.

**Jodi Nickell** [01:03]

I was close.

**WIRELESS CALLER** [01:08]

No, you weren't. You weren't even, that wasn't even hand grenade close.

**Jodi Nickell** [01:14]

79, 49, 52. It keeps kicking me out,

**Jodi Nickell** [01:23]

so. How was your day?

**WIRELESS CALLER** [01:27]

Super.

**Jodi Nickell** [01:27]

Good. Segment three, yeah, it's not too bad.

**WIRELESS CALLER** [01:29]

How about yours?

**Jodi Nickell** [01:34]

Segment three has no time on it.

**WIRELESS CALLER** [01:38]

Okay. That's what I thought. There's no notes on it either.

**WIRELESS CALLER** [01:43]

All right. I will be in Fremont Monday.

**Jodi Nickell** [01:48]

New star? Okay. Sounds good. All right. Have a good weekend. Bye.

**WIRELESS CALLER** [01:51]

All right. Have a good night. Yep, you too.

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Hey, Derrick, how about work orders 865? I need one of them pressure switches at 518-63912. You probably have one of them in stock, don't you?

**Derrick Dea** [00:19]

Yeah. Okay.

**Derrick Dea** [00:23]

I'm hoping so.

**GUSTIN KELVIN** [00:25]

I got this down now and I like those because you can't tell them. Well, you know you do. You guys got everything. Let's get

**Derrick Dea** [00:39]

Is your parts

**GUSTIN KELVIN** [00:40]

this. Let's go back over to here. What a great...

**Derrick Dea** [00:49]

drawings working better?

**GUSTIN KELVIN** [00:53]

I still use the MCFA. I don't use that logic or that whatever the heck. Yeah. It doesn't, it's not user-friendly for me. It either works or it don't work.

**Derrick Dea** [00:56]

Really? Okay. Oh man, it pipes right up for me. Yeah, we got one here. Alrighty. Yep, bye. Okay.

**GUSTIN KELVIN** [01:07]

Set her out and I'll come get it.

**GUSTIN KELVIN** [01:11]

Thank you, sir. Bye.

## Inbound call from WIRELESS CALLER

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Brian Equipment, Omaha. This is Jodi. How may I help you? Working?

**WIRELESS CALLER** [00:08]

What are you doing?

**WIRELESS CALLER** [00:12]

Working? You don't know who this is. It's Travis, sorry. Oh, hi. How are you?

**Jodi Nickell** [00:13]

Yeah. It's Travis. Yeah. Good.

**WIRELESS CALLER** [00:19]

Good. Hey, remember the email about a week ago, Oxbow? They had some items on there.

**WIRELESS CALLER** [00:27]

I guess we never fixed any of those items. I'm sure there's more to the story there.

**WIRELESS CALLER** [00:33]

And then secondly, the truck keeps on throwing a low coolant code and they filled it up and it still is showing the code. Not sure if it just needs to be cleared out, but they don't, they're like, we don't want to run the truck and damage the truck, right? And I'm like, well, what color is the code? And he's like, yellow. And, um,

**WIRELESS CALLER** [00:58]

I'm like, well, it'll turn red if it's critical, but we can have someone come over and look at it. Do you know anything on the first question?

**Jodi Nickell** [01:08]

I know John Howard went out there. I just batched him to it because we're, like, so short-staffed. Yeah. No, no.

**WIRELESS CALLER** [01:14]

Shorthanded. We need to make you a tech.

**WIRELESS CALLER** [01:21]

You can go fix these turbos. What's Calvin doing? He's probably just driving around.

**Jodi Nickell** [01:25]

I don't...

**Jodi Nickell** [01:28]

Oh, yeah. Let me... John...

**WIRELESS CALLER** [01:29]

I'm totally joking.

**WIRELESS CALLER** [01:34]

John was just calling me back too when I was just talking to you.

**Jodi Nickell** [01:34]

Let me look.

**Jodi Nickell** [01:39]

Oh. Well, he'd probably have more information on it by the time I look it up. Yep.

**WIRELESS CALLER** [01:42]

More information? Okay. I'll talk to John.

**Jodi Nickell** [01:46]

Okay. Coolio. Thank you. Oh, and Bowerbilt Fremont's taking... Rail Modal's taken care of. Yeah. All right. Bye. Bye.

**WIRELESS CALLER** [01:49]

Have a good weekend.

**WIRELESS CALLER** [01:54]

Oh, cool. Awesome. All right. Thank you. Bye.

### FULL TRANSCRIPT

**MOORE MATTHEW** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan Equipment, this is Chad.

**MOORE MATTHEW** [00:06]

Hey Chad, this is Matt at Fearless Fire in Gary, Nebraska.

**MOORE MATTHEW** [00:10]

I've rented a couple of forklifts from you over the last five years.

**MOORE MATTHEW** [00:14]

I've got a quick question for you. Last year, probably in June, we would have rented a forklift, I'd imagine. Was that bill ever paid? Can you look at that?

**Chad Metzger** [00:25]

I don't have access to the accounting side. Let me see here. Let me

**MOORE MATTHEW** [00:28]

Okay, is there a way to...

**MOORE MATTHEW** [00:39]

I just got an email from home office like, should we pay this bill? And I'm like, what? That's my last year. So trying to figure this out. Because if we owe you guys money, yeah, I should probably get you paid.

**Chad Metzger** [00:39]

grab our

**Chad Metzger** [00:49]

gadget.

**Chad Metzger** [00:54]

Let's see if I can find their phone number.

**Chad Metzger** [01:00]

All right. Billing will be 1-800-4255.

**MOORE MATTHEW** [01:13]

015. All right, I'll give them a call. Thanks,

**Chad Metzger** [01:16]

891-8015. Sounds good? You bet.

**MOORE MATTHEW** [01:17]

man. Bye.

FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Hi, Derrick. How's it going? Hey, did you happen to find a 80-volt horn for that?

**Derrick Dea** [00:03]

Parts, Derrick. Alright. Well, I can order one in from Design Storage, or I can order an aftermarket in, or I can order in a smart alarm.

**GUSTIN KELVIN** [00:23]

Oh, we don't have any of them, huh? I would go with the HubTec, the horn that they have, and I'll just let them know it's coming in.

**Derrick Dea** [00:28]

Okay. Will do. Yep. Radiator. All right. Yep. Bye.

**GUSTIN KELVIN** [00:35]

Thank you, sir. Was there something else? I don't remember if there was something else I called you about. I don't remember. Oh, yeah, that's still next week. All right. Thank you, sir. Bye.

CALL 602 OF 611

CALL 603 OF 611

## Inbound call from Rion Omaha Parts - AWD PPE

April 10, 2026 | 04:47 PM | Duration: 3m 13s | From: Rion Omaha Parts - AWD PPE | To: +14027345438

Inbound

Positive

### FULL TRANSCRIPT

**AWD PPE** [00:00]

This call is being recorded.

**John Howard** [00:03]

Rion Equipment, Omaha. This is John.

**AWD PPE** [00:06]

Hey, John, it's Steve calling back on the Cannon Supplies. I was just checking in on the toner and making sure you have a backup there.

**John Howard** [00:14]

I think they shipped us one. I don't know if we've gotten it yet.

**AWD PPE** [00:19]

Oh, did they ever call you from my shipping department, you know?

**John Howard** [00:22]

I want to say I got a call after we placed the order.

**John Howard** [00:30]

Just confirming the address, but I don't know that I've seen it yet. But I can always take a look and give you a call back.

**AWD PPE** [00:34]

Yeah,

**AWD PPE** [00:37]

yeah, I'm just double checking here. Let me see over here. Yeah, I don't see. All right, let me do this.

**AWD PPE** [00:45]

For some reason, they accidentally sent it back to me, so they didn't ship it out yet. So let me do this for you. I'm going to rewrite it up and then have shipping give you a call again. And just if they called, just let them know they could send it your way, the black toner, that's for the Canon. And then if you need anything else, you could always add to that. Is there an extension that they could reach you at?

**John Howard** [00:49]

Okay.

**John Howard** [01:01]

Yep.

**AWD PPE** [01:07]

I pressed one. I didn't know if it was the right extension.

**John Howard** [01:12]

Yeah, I can give you my direct line. It's going to be 402.

**AWD PPE** [01:15]

Okay. What number is that?

**AWD PPE** [01:24]

2060. Okay. All right. 402-594-2060. Okay. I'll have them bring you there. And then as far as the black toner, that's all they're sending. If you need anything else, you can just let them know. All righty.

**John Howard** [01:34]

594-2060. All right, sounds good.

**AWD PPE** [01:37]

All right, John. Again, my name is Steve Weiss. Let them know I was able to help you out. Maybe I'll get a raise this year, okay? All right. Thank you, my friend. Bye-bye.

**John Howard** [01:41]

All right, sounds good. Thanks. Bye.

Inbound

Positive

### FULL TRANSCRIPT

**SCHAWANG DARRIN** [00:00]

This call is being recorded.

**Charles Huffman** [00:04]

This is Charlie.

**SCHAWANG DARRIN** [00:05]

Hey, Charlie. Hey, this is Darren Schwang with Winsock. I called about the side shift and you sent me the email. Yeah, we'll go ahead and do that and get that. One of my sons is going to pick it up and I can just give you a credit card. Does that work to pay for it?

**Charles Huffman** [00:10]

Yeah. Yeah.

**Charles Huffman** [00:21]

Yeah. He'll bring it with him? Bring the card with? Or you want to give me the number of them?

**SCHAWANG DARRIN** [00:24]

I have the card right now.

**Charles Huffman** [00:26]

Oh, okay. Yeah, go ahead.

**SCHAWANG DARRIN** [00:28]

Okay, it's <REDACTED\_ENTITY>.

**SCHAWANG DARRIN** [00:36]

1-3-1-4, 8-5-4-7,

**Charles Huffman** [00:39]

Okay. Expiration.

**SCHAWANG DARRIN** [00:42]

7-29.

**Charles Huffman** [00:46]

Okay.

**Charles Huffman** [00:48]

Should be all I need off of that.

**SCHAWANG DARRIN** [00:50]

Do you need the other security code \*\*\*\*?

**Charles Huffman** [00:52]

Yeah. Yeah, give me that three-digit code just to make sure.

**SCHAWANG DARRIN** [00:55]

6-7-2.

**SCHAWANG DARRIN** [00:59]

And it would be either Derek SHARMIL or Cole SHARMIL, pick it up, I don't know which one.

**Charles Huffman** [01:04]

Okay. I'll get it ready to go.

**SCHAWANG DARRIN** [01:06]

And you're there on L Street, right, on like 80-something or what are you on?

**Charles Huffman** [01:12]

7820, we're just east of tractor supply.

**SCHAWANG DARRIN** [01:19]

Nope, that'll work.

**Charles Huffman** [01:21]

Alrighty, thank you.

**SCHAWANG DARRIN** [01:23]

Yep, thanks. Bye.

## Inbound call from LOGAN HEARSHMAN

April 10, 2026 | 03:49 PM | Duration: 8m 23s | From: LOGAN HEARSHMAN | To: +15152995624

Inbound

Negative

### FULL TRANSCRIPT

**LOGAN HEARSHMAN** [00:00]

This call is being recorded.

**Shelby Lathrum** [00:04]

Thank you for choosing Ryan Equipment. How may I help you?

**Shelby Lathrum** [00:08]

Hello.

**LOGAN HEARSHMAN** [00:10]

Hello. No, Adam?

**LOGAN HEARSHMAN** [00:14]

Well, we have a \*\*\*\*\* problem.

**Shelby Lathrum** [00:16]

What's that?

**LOGAN HEARSHMAN** [00:19]

So I sent you an email.

**LOGAN HEARSHMAN** [00:22]

Did you see my email?

**Shelby Lathrum** [00:23]

It's sitting there. I'm trying to get these 40 frickin' calls open for Mike.

**LOGAN HEARSHMAN** [00:30]

Can you tell me to keep up with my email? No,

**Shelby Lathrum** [00:35]

I know.

**LOGAN HEARSHMAN** [00:38]

SO...

**LOGAN HEARSHMAN** [00:41]

On that unit that I just sent you a photo of the data tag of, we replaced the alternator on this less than a month ago.

**LOGAN HEARSHMAN** [00:52]

The alternator bearings are out of it.

**Shelby Lathrum** [00:54]

What would cause that?

**LOGAN HEARSHMAN** [00:59]

Probably just \*\*\*\*\* alternator. It was probably a remand, so God knows how it was remand. They put new bearings in it or not. And I don't recall where it came from. I don't know if this is one I went just up to O'Reilly's to go get.

**Shelby Lathrum** [01:15]

Um...

**Shelby Lathrum** [01:18]

Hold on.

**Shelby Lathrum** [01:22]

Let me open your freaking call.

**Shelby Lathrum** [01:29]

And then I can go back and look at history.

**LOGAN HEARSHMAN** [01:29]

I'm also,

**LOGAN HEARSHMAN** [01:32]

I already did that.

**Shelby Lathrum** [01:34]

Okay, are you in the actual call? Yeah,

**LOGAN HEARSHMAN** [01:38]

I was.

**LOGAN HEARSHMAN** [01:40]

I can get right back in there though.

**Shelby Lathrum** [01:42]

so if you...

**Shelby Lathrum** [01:44]

When up to like O'Reilly's, then your parts will be listed down below in the miscellaneous items. But if it was ordered, then it will be up top.

**LOGAN HEARSHMAN** [01:56]

I guess I don't know how to check that from,

**Shelby Lathrum** [02:00]

Okay, when you are in the actual work order,

**LOGAN HEARSHMAN** [02:02]

from closed.

**LOGAN HEARSHMAN** [02:06]

Okay, so open service report.

**Shelby Lathrum** [02:09]

now you want to be in your service segment.

**LOGAN HEARSHMAN** [02:14]

Oh, maybe, yeah, click on this.

**Shelby Lathrum** [02:14]

You won't.

**LOGAN HEARSHMAN** [02:17]

I'm being stupid.

**Shelby Lathrum** [02:17]

That's

**Shelby Lathrum** [02:20]

okay.

**LOGAN HEARSHMAN** [02:23]

Okay, report.

**Shelby Lathrum** [02:24]

Then, do you see your segment details, items, hours, miscellaneous items? Do you see all those tabs?

**LOGAN HEARSHMAN** [02:36]

I'm going through my tabs right now. I don't see

**Shelby Lathrum** [02:38]

Hold on. Let me send you a picture.

**LOGAN HEARSHMAN** [02:42]

general priority stores.

**Shelby Lathrum** [02:51]

I just sent you a picture of what you're looking for, tab-wise.

**LOGAN HEARSHMAN** [03:01]

OK, so yeah, let's see. That's what I'm looking for.

**LOGAN HEARSHMAN** [03:05]

OK, so I got--

**LOGAN HEARSHMAN** [03:09]

it's 790345.

**LOGAN HEARSHMAN** [03:18]

And I click on it.

**Shelby Lathrum** [03:19]

What the

**LOGAN HEARSHMAN** [03:22]

And then it just pulls up--

**LOGAN HEARSHMAN** [03:27]

maybe I click on this.

**LOGAN HEARSHMAN** [03:31]

Yeah, it's not pulling that up for me for some reason. I got customer,

**LOGAN HEARSHMAN** [03:36]

prospect, customer preference, report.

**Shelby Lathrum** [03:39]

heck are you even in? Hold on.

**Shelby Lathrum** [03:46]

You need to be on...

**Shelby Lathrum** [03:55]

You need to be on that screen on your alternator tab.

**Shelby Lathrum** [04:03]

And then you go to...

**Shelby Lathrum** [04:10]

Items.

**LOGAN HEARSHMAN** [04:13]

This is just not taking me the...

**LOGAN HEARSHMAN** [04:17]

I'm doing something wrong. But anyways,

**Shelby Lathrum** [04:20]

It was ordered. You didn't get it from the parts store.

**LOGAN HEARSHMAN** [04:25]

so it's a lending part.

**Shelby Lathrum** [04:27]

Um... That I don't know. You'd have to ask Ken that. It's an MMH.

**Shelby Lathrum** [04:37]

113A. I don't know what that means.

**LOGAN HEARSHMAN** [04:45]

Well, either way, the \*\*\*\*\* alternative is \*\*\*\*\* on it.

**LOGAN HEARSHMAN** [04:50]

So, I don't know if I'm bringing it back for warranty or

**LOGAN HEARSHMAN** [04:54]

what.

**Shelby Lathrum** [04:57]

Um...

**Shelby Lathrum** [04:59]

I

**LOGAN HEARSHMAN** [05:01]

So it's the MMH part.

**Shelby Lathrum** [05:02]

don't know how long parts warranties for.

**Shelby Lathrum** [05:06]

Yeah, it's an MMH part.

**LOGAN HEARSHMAN** [05:10]

Okay, I'm going to try this stupid thing again.

**LOGAN HEARSHMAN** [05:15]

Okay, so I'm in... Let's try and get it so I don't have to go over this \*\*\*\* again. I'm in the all service calls.

**Shelby Lathrum** [05:15]

It is fucking...

**LOGAN HEARSHMAN** [05:27]

I am

**LOGAN HEARSHMAN** [05:29]

on the unit.

**LOGAN HEARSHMAN** [05:32]

And then I click on that service call, correct?

**Shelby Lathrum** [05:35]

Yeah, you just need your service call to populate open.

**LOGAN HEARSHMAN** [05:48]

Yeah, see, it just keeps doing the same.

**LOGAN HEARSHMAN** [05:51]

Same \*\*\*\* over and over.

**Shelby Lathrum** [05:57]

Can you get it to go to the screen like what I sent you?

**LOGAN HEARSHMAN** [06:01]

No.

**Shelby Lathrum** [06:01]

Where it lists, well I don't think you can see it listed by segment the way I can but.

**LOGAN HEARSHMAN** [06:08]

That might be my issue.

**Shelby Lathrum** [06:11]

So when you see the call, are you double clicking the call?

**Shelby Lathrum** [06:17]

That's weird. We'll have to look at it when you're at the office next.

**LOGAN HEARSHMAN** [06:22]

Yeah, I double-click the call.

**LOGAN HEARSHMAN** [06:25]

And that opens up into some weird thing. And then I also double-click the segment. And double-clicking the segment does absolutely nothing.

**Shelby Lathrum** [06:35]

That's weird.

**LOGAN HEARSHMAN** [06:40]

Well, if you want to talk, I don't want to deal with that.

**Shelby Lathrum** [06:44]

I'll send an email.

**LOGAN HEARSHMAN** [06:48]

I want to deal with Kent.

**Shelby Lathrum** [06:53]

I'll send an email to find out what we need to do. Because if it's going to be a warranty, we'll have to replace it with the same thing. We can't put a new one in it. Like a different one.

**LOGAN HEARSHMAN** [07:04]

Yeah, no, I get that.

**Shelby Lathrum** [07:06]

So. Yeah,

**LOGAN HEARSHMAN** [07:08]

That's kind of why I was curious if it was warranty or what.

**Shelby Lathrum** [07:11]

I'm not sure if it's 60 days or 90 days.

**LOGAN HEARSHMAN** [07:19]

Well, whether it's 60 or 90, we're still within that window.

**LOGAN HEARSHMAN** [07:24]

Wait, no. Wait, no, that was... I still... For some reason, I still think it's March.

**Shelby Lathrum** [07:31]

Oh, well I think it was done in February.

**LOGAN HEARSHMAN** [07:32]

It's now April.

**Shelby Lathrum** [07:37]

So the window is closing on it.

**LOGAN HEARSHMAN** [07:40]

So, yeah, I mean, the window's still open. It's just...

**Shelby Lathrum** [07:43]

Yeah.

**LOGAN HEARSHMAN** [07:43]

I'm getting there.

**Shelby Lathrum** [07:48]

Yeah. So I'll get this email sent for you and then get it figured out from there. Okie dokes.

**LOGAN HEARSHMAN** [07:54]

Okay. Alrighty.

**Shelby Lathrum** [07:58]

Yep, no problem. Bye.

CALL 606 OF 611

## Inbound call from SUNDERMAN R.

April 10, 2026 | 03:43 PM | Duration: 0m 38s | From: SUNDERMAN R. | To: +14025942063

**Inbound**

**Neutral**

### AI SUMMARY

Rick from NSK contacted Jodi at Ryan Equipment Omaha regarding a code 2023 issue. Jodi confirmed the code should work and thanked Rick for his help.

### FULL TRANSCRIPT

**SUNDERMAN R.** [00:00]

This call is being recorded.

**Jodi Nickell** [00:03]

Ryan Equipment Omaha, this is Jodi. Okay.

**SUNDERMAN R.** [00:06]

Hey Jodi, this is Rick with NSK.

**SUNDERMAN R.** [00:10]

So code 2023 I'm told should work on those.

**Jodi Nickell** [00:15]

Okay. I appreciate your help.

**SUNDERMAN R.** [00:18]

Yep, no problem. Let me know if it doesn't. But that's what they tell me should work. OK, all right, bye.

**Jodi Nickell** [00:24]

Okay, all right, we'll do. Bye.

## Inbound call from GUSTIN KELVIN

April 10, 2026 | 03:26 PM | Duration: 1m 27s | From: GUSTIN KELVIN | To: +14025942051

Inbound

Neutral

### FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**Derrick Dea** [00:03]

Parts, Derrick. Good. Yes, we are.

**GUSTIN KELVIN** [00:06]

Derrick, how the \*\*\*\* are you doing today?

**GUSTIN KELVIN** [00:11]

Man, I gotta be careful what I'm saying. I'm being recorded again.

**GUSTIN KELVIN** [00:17]

Hey, so I'm looking for a horn.

**GUSTIN KELVIN** [00:23]

It's 80-volt. Do we have any 80-volt horns?

**Derrick Dea** [00:28]

I'll have to look. I don't know.

**GUSTIN KELVIN** [00:31]

It's gonna go on work order 791383.

**GUSTIN KELVIN** [00:38]

With a floodlight, but the horn's 80 volt,

**GUSTIN KELVIN** [00:43]

but if we don't have a horn, I wonder if we got one of the multi-backup alarms, you know, that goes, electronic ones.

**Derrick Dea** [00:48]

Okay.

**GUSTIN KELVIN** [00:55]

Let me know.

**GUSTIN KELVIN** [00:57]

We got to run out to air light, and...

**GUSTIN KELVIN** [01:01]

I'll run out the air light and look at a tire, and then if we have one, I'll swing by and get it.

**GUSTIN KELVIN** [01:08]

Thank you very much, sir, and have a wonderful Friday.

**Derrick Dea** [01:12]

Will do. Alright. Alright, bye.

**GUSTIN KELVIN** [01:14]

The 10th.

**GUSTIN KELVIN** [01:17]

10-27.

**GUSTIN KELVIN** [01:20]

Calvin is signing off.

CALL 608 OF 611

## Inbound call from HERC

April 10, 2026 | 03:07 PM | Duration: 1m 46s | From: HERC | To: +15152995632

Inbound

Positive

### FULL TRANSCRIPT

**HERC** [00:00]

This call is being recorded.

**Kent Stewart** [00:03]

Thanks for choosing around equipment. This is Kenton Parts. How many help you?

**HERC** [00:06]

Hey Kent, this is Justin.

**Kent Stewart** [00:09]

Hey, Mr. Justin. Airbrake chamber.

**HERC** [00:13]

Uh-huh.

**Kent Stewart** [00:13]

What is that? Is that underneath the pedal? I don't either.

**HERC** [00:17]

I'm guessing that it has air brakes on it.

**Kent Stewart** [00:24]

Yeah, well, there's an airbrake circuit, but I haven't found...

**Kent Stewart** [00:27]

Well, anything that's described as a chamber, is it part of the actual brakes themselves?

**HERC** [00:31]

Sure.

**HERC** [00:37]

I don't know. We don't have the machine here. This is for one of our units out in Prairie du Chien. So if you can send me diagrams of the brakes, that...

**Kent Stewart** [00:40]

Oh, okay. Okay. Well, what I can do is I can, I've got like an air brake circuit.

**HERC** [00:50]

Is it like a chamber-looking thing?

**Kent Stewart** [00:51]

I could see. Well, no, actually, it's just kind of like a exploded view of, well, actually, like a blueprint drawing of what the brakes should be. Yeah, so I'm not sure if that's it or not, but I'll send you that and I'll keep.

**HERC** [01:00]

Yeah.

**HERC** [01:05]

Okay. Send it to me and I'll send it to my tech and we can decide on that. So, perfect. Thank you, sir. You bet. Bye.

**Kent Stewart** [01:12]

Okay, all right.

**Kent Stewart** [01:15]

All right. Thanks, sir. I'll get that quick looking. I'm thinking maybe we're talking about maybe the air chambers that are on the axles themselves, maybe. I don't know.

**HERC** [01:19]

Well, that's what I'm thinking too because they're leaking air.

**Kent Stewart** [01:26]

Okay.

**HERC** [01:28]

So if you got a picture of them too, and I'll just make sure. Perfect. Thank you. Bye-bye.

**Kent Stewart** [01:31]

I will see what I can come up with. All right. Thank you. Bye.

CALL 609 OF 611

## Inbound call from WIRELESS CALLER

April 10, 2026 | 02:56 PM | Duration: 3m 42s | From: WIRELESS CALLER | To: +14025942048

Inbound

Neutral

### FULL TRANSCRIPT

**WIRELESS CALLER** [00:00]

This call is being recorded.

**Chad Metzger** [00:04]

Ryan Equivalent, this is Chad.

**WIRELESS CALLER** [00:06]

Hey Chad, how you doing? This is Jason with DBE. I sent over a couple of rental requests for Scotts Bluff in Norfolk, or Norfolk I think is how you say it in Nebraska.

**WIRELESS CALLER** [00:23]

I was just calling to pay for those.

**Chad Metzger** [00:32]

You actually...

**Chad Metzger** [00:35]

To pay for them?

**WIRELESS CALLER** [00:38]

Yeah, and the email he said to call ahead and pay for, or to,

**WIRELESS CALLER** [00:44]

I was supposed to give you a credit card number prior to the rental dates.

**Chad Metzger** [00:48]

Oh, okay.

**WIRELESS CALLER** [00:51]

That's just for like to reserve it

**Chad Metzger** [00:56]

Let me look here.

**Chad Metzger** [01:01]

Oh, there it is. Okay. Yeah, I've got the one for Scottsbluff. I don't have anything for Norfolk.

**WIRELESS CALLER** [01:06]

or? Oh, don't you? Okay.

**WIRELESS CALLER** [01:09]

I think I thought I got a confirmation email after I submitted it. Let me see.

**Chad Metzger** [01:14]

Yeah, I never got a call back that this was a rental. This rental was a go or not,

**WIRELESS CALLER** [01:23]

Well, it's for next week. I didn't know I had to confirm.

**Chad Metzger** [01:23]

so... Or I never got an email.

**Chad Metzger** [01:27]

Yeah, we just sent a quote out. It was, you need to confirm that you wanted to go with the rental or not.

**Chad Metzger** [01:35]

Let me make sure I still have the forklift available in the hearing.

**Chad Metzger** [01:47]

Yeah, I still have that one available.

**Chad Metzger** [01:52]

All right.

**Chad Metzger** [01:56]

Delivering the 14th at 8:00 AM, Scott's Bluff.

**WIRELESS CALLER** [02:00]

One second. The 14th. Yes. At 8 a.m.

**Chad Metzger** [02:06]

Okay. Okay.

**WIRELESS CALLER** [02:09]

And if you have one available in the Norfolk area, we'll be there on the 22nd.

**Chad Metzger** [02:20]

I do not.

**WIRELESS CALLER** [02:22]

No? Okay. I can find alternatives.

**Chad Metzger** [02:23]

Oh, wait, you know what? I might. Yeah, I do.

**WIRELESS CALLER** [02:27]

Okay. Then, yeah, we'll do that one as well.

**Chad Metzger** [02:28]

Yeah. He said that was on the 22nd.

**Chad Metzger** [02:33]

Okay. All the E-L, the delivery address and

**Chad Metzger** [02:37]

all that information for that one.

**WIRELESS CALLER** [02:39]

Okay. You want me to send that to you through email? I'll just tell you on the phone?

**Chad Metzger** [02:42]

Yeah, just email. Yeah, email would be great. Yeah. All right. Okay. All right. So I'll take the credit card number for you, for the one in Scottsbluff.

**WIRELESS CALLER** [02:45]

Okay. I'll just do that then.

**WIRELESS CALLER** [02:49]

Yep. It is

**WIRELESS CALLER** [02:51]

<REDACTED\_ENTITY>

**WIRELESS CALLER** [02:58]

<REDACTED\_ENTITY>, 1995,

**WIRELESS CALLER** [03:01]

9800, and 09 of 28.

**Chad Metzger** [03:04]

Zero, zero. Extribution date.

**Chad Metzger** [03:08]

28, and the CSV,

**WIRELESS CALLER** [03:11]

That is 665.

**Chad Metzger** [03:13]

665. Okay. All right. So I'll have that forklift delivered around 8 a.m. on Tuesday, the 14th. And when you guys are done with it, just give me a call. We'll get it picked up.

**WIRELESS CALLER** [03:22]

Awesome. And I'll send that information over for the other location.

**Chad Metzger** [03:26]

Perfect. All right. Thanks, Jason.

**WIRELESS CALLER** [03:27]

Awesome. Thanks, Chad. Bye.

CALL 610 OF 611

Inbound

Neutral

### AI SUMMARY

Gustin and Derrick discussed ordering hoses and confirming delivery on Monday. Derrick confirmed the order and ended the call.

FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Hey, I just talked to John. He says, "Go ahead and order the hoses and we'll get it Monday." Alright buddy, thank you. Bye.

**Derrick Dea** [00:03]

Yeah. Alright. Yep. Bye.

---

CALL 611 OF 611

**Inbound call from GUSTIN KELVIN**

April 10, 2026 | 02:04 PM | Duration: 1m 51s | From: GUSTIN KELVIN | To: +14025942051

**Inbound**

**Neutral**

FULL TRANSCRIPT

**GUSTIN KELVIN** [00:00]

This call is being recorded.

**GUSTIN KELVIN** [00:03]

Hey, Derrick, I'm being recorded.

**Derrick Dea** [00:03]

I know. It's all mine.

**GUSTIN KELVIN** [00:09]

Cool. Hey,

**GUSTIN KELVIN** [00:12]

I got a work order of 800-541.

**Derrick Dea** [00:21]

Okay.

**GUSTIN KELVIN** [00:22]

Hey, I'm looking for a radiator. That's 93-Edward-0100-0011.

**Derrick Dea** [00:24]

Okay.

**GUSTIN KELVIN** [00:31]

And then the, hopefully you got

**GUSTIN KELVIN** [00:40]

the upper and lower hoses. They're 93EDWARD-0110200 and 93EDWARD-01100300.

**GUSTIN KELVIN** [00:55]

And they got them little like spring clamps. I don't know if he stocked them or not. It's 91-ADAM-0102-4100. Or no, it's 4200, excuse me. And a couple gallons of antifreeze.

**Derrick Dea** [01:13]

Just the green.

**GUSTIN KELVIN** [01:17]

- Green. Yep. Do you have that stuff in stock, you think? Check it out. Check it out and let me know 'cause they're kind of having a need for life ASAP. Thank you, sir. Bye.

**Derrick Dea** [01:22]

Okay. Will do. We should, but you never know.

**Derrick Dea** [01:32]

All right. Yep. Bye.

---
